MEMORANDUM FOR THE RECORD

SUBJECT: Hiring of Purgees by Allied Traders

On 22 August Mr. McDermott, ESS Foreign Trade, called this office and requested a policy decision on the question of hiring purgees by foreign traders who have recently arrived in Japan. This question was discussed by Mr. Rizzo and Col. Darnell with the Chief, Government Section, and a decision was reached that it would be morally wrong for purgees to become representatives of allied traders. On the evening of 22 August the question was presented to the Supreme Commander, who made the decision that under no circumstances would purgees be hired by representatives of allied firms who are engaged in trading in Japan, and Mr. McDermott of ESS was informed of this policy on 23 August.

MEMORANDUM FOR : CHIEF, PUBLIC SERVICE
QUALIFICATIONS DIVISION

22 August 1947

SUBJECT : Record of Conference on Ex-Peers.

1. Due to the conflicting information contained in various Japanese Government lists and figures, a conference was held the afternoon of 21 August 1947 with Messrs. W. HINATA and KOBAYASHI of the Cabinet Secretariat. The most obvious mistakes in Japanese Government reports and lists were pointed out and corrected, but considerable checking remains to be done.

2. Mr. KOBAYASHI is still unsure as to the total number of Ex-Peers (between 854 to 857) as to their breakdown in rank (EG-Marquises between 33 and 37), and as to the number of Ex-Peers deemed to fall under the Memorandum. The list of 122 Ex-Peers deemed to fall was checked, names thereon corrected to agree with the List containing the names of all Ex-Peers, and eight names added which Mr. KOBAYASHI had overlooked. At least one and possibly two of the peers on the List of 122 is dead (TERAUCHI, Juichi), and in two instances, Mr. KOBAYASHI believes that sons have inherited their fathers' title and they are incorrectly listed. He is checking these discrepancies and will submit a corrected report. He was instructed again to adopt and continue to use the Hepburn System of translating names and to agree upon one translation of a name and use it consistently in all lists and master cards submitted to GHQ.

3. Messrs. KOBAYASHI and HINATA were reminded that new questionnaires and master cards on all members of the former peerage except the 122 deemed to fall under the Memorandum were due on 3 September 1947. The announcement came as a rude shock although the Cabinet Secretariat, Mr. KOBAYASHI and Mr. SUMINO had agreed to submit the questionnaires on that date. Mr. KOBAYASHI said the questionnaires could not be submitted by 3 September and requested that approximately 100 new questionnaires and master cards already collected be submitted on 28 August 1947; this was agreed to. He further requested that the government be allowed to submit approximately 480 questionnaires of the old style on peers who had been screened as Count, Viscount or Baron electors to the House of Peers. He stated that these would be translated, master cards made out on them, and submitted early in September. This was agreed to. Mr. KOBAYASHI stated that new questionnaires were being collected from all Ex-Peers who had never submitted them (approximately 200) and these would be sent to GHQ when the peers had been discovered; their questionnaires sent them, received from them, translated and prepared for submission by the Cabinet Secretariat; this, too, was agreed to.

4. It was pointed out that on 25 July, Mr. SUMINO had submitted a written report stating that new questionnaires and master cards were being prepared on all Ex-Peers, that they were being collected by the Cabinet Secretariat and would be ready for submission on 3 September. It was pointed out that this had not been done, that the Japanese Government has been extremely negligent in complying with instructions concerning Ex-Peers and that such behavior will not be tolerated in the future.

5. As a result of this conference, Mr. KOBAYASHI agreed to submit(a)corrected list of Ex-Peers deemed to fall under the memorandum, (b) to check the names on the questionnaires and lists of all Ex-Peers, and communicate all changes and corrections to GHQ, (c) to submit, on 28 August, approximately 100 questionnaires and master cards on Ex-Peers, (d) to submit early in September, approximately 480 questionnaires and master cards, (e) to continue to collect questionnaires and master cards on all Ex-Peers who have not yet submitted them, and (f) to be prepared to collect and submit new questionnaires on all Ex-Peers whether old-type questionnaires have or have not been submitted previously.

6. It is thought that considerable effort can be saved by screening the questionnaires already available, despite the fact that 480 are of the old type, and that new questionnaires can be called for if there is any indication in the old questionnaires that a person will fall under the Memorandum.

MEMORANDUM FOR RECORD:

SUBJECT: Ex-Career Military personnel in Welfare Ministry

1. This date, Colonel Sams, Chief, Public Health and Welfare Section, by telephone requested information relative to the purge of ex-career military personnel who are doctors now serving in National Hospitals under the Welfare Ministry. He stated that representatives of the Ministry, with whom he was then in conference, said they had been ordered by the Cabinet Secretariat to expedite the purge of these persons; and that the Cabinet Secretariat had been so directed by GS in a letter through CLO.

2. Undersigned informed Colonel Sams that these instructions had been given JG informally, and that questionnaires are being submitted and requests for temporary retention prepared. These are expected to be submitted to GS about the end of August or early September, at which time the consideration of all cases will be coordinated with PHW. It was added that GS will check on the past records of all concerned to insure that they are undesirable for public office for no reason other than having been career-commissioned officers in the Army and Navy.

MEMORANDUM FOR THE RECORD

1. Arrangements have been made with G-2 for examination of the past records of ex-career officers in the Demobilization Bureaus to insure that they are not undesirable for public office for reasons other than status as career commissioned offikers. Being of a similar nature, this is referred to G-2 as an investigative agency, inasmuch as they possess certain records on former military personnel.

GOVT SECTION FILES

5930

23 July 1947
Nippon Bashi, Tokyo

Dear Miss Hadley:

It is a matter for feliciatation that both the Mitsui Bussan and the Mitsubishi Shoji were dissolved for the democratization of the Japanese economic circles. However, about three or four section chiefs are jointly making preparations for the establishment of a company with the former employees, despite the fact that establishment of joint enterprise by more than two department or section chiefs is strictly prohibited.

If this is permitted, it will mean that former departments will become independent companies. There will be no significance attached to the dissolution because there will still remain influence and evil practice of monopoly by the division of business.

Therefore, I make a request that you would immediately direct the Japanese Government to notify the Mitsui Bussan and the Mitsubishi Shoji to fully comply with the directive prohibiting the establishment of joint enterprises by more than two department or section chiefs.

Yours Truly,

OMORI, Shiro

MEMO FOR RECORD:

1. Reference radio requests reports and information concerning implementation of paragraph 45 (a), sub-paragraphs (3), (4), (5), (6), (7), (8) and (9) of JCS 1380/15.

2. Basic transmits information in report form, setting forth same as outlined in radio, as follows:

Part one of radio.

Paragraph 45a (3): Japanese Imperial Household: (Information Source ESS):

SCAPIN 300, ESS/FI, 18 Nov 45, subject, "Imperial Household Property" (Inclosure 1 of report), directed the Japanese Government to take such action as might be required to insure that no transactions involving Imperial Household Property would be affected without prior approval of SCAP, and permitted operation of the Department of the Imperial Household with definite limitations. This SCAPIN also provided that a budget covering expenditures of the Imperial Household be submitted to SCAP for approval, and that no expenditures be effected subsequent to the fiscal year 1945, unless the budget covering such expenditures had been approved by SCAP. Operation of the Imperial Household continued under the provisions of SCAPIN 300 until 3 May 1947. The new Japanese Constitution, promulgated on that date, provides in Chapter 7, Article 88, that all Imperial Household Property becomes State property, and that all expenses of the Imperial Household must be covered by an appropriation of the Diet. In effect there is no longer any Imperial Household Property other than the personal belongings of the Emperor, which are not of substantial value. In view of the above, it is believed that no further action is necessary as regards Japanese Imperial Household Property.

Paragraph 45a (4) and (6). Organizations: (Information Source CPC):

These two paragraphs are treated together as Dissolved Organizations.

Memo for Record cont'd

SCAPIN 548, GS, 4 Jan 46, subject, "Abolition of Certain Political Parties, Associations, Societies and other Organizations" (Inclosure 2 of report), directed the Japanese Government to abolish certain political parties, associations, societies and other organizations. It further directed the Japanese Government to take such action as necessary to prevent all transactions involving property owned or controlled, directly or indirectly, in whole or in part, by any organization, dissolved or to be dissolved, in accordance with this memorandum.

SCAPIN 1069-A, CPC, 22 Apr 46, subject, "Custody of Property of Dissolved Organizations" (Inclosure 3 of rpt), directed the Japanese Government to submit inventory reports on property taken into custody under the provisions of SCAPIN 548, and forbid the use of such property for any purpose whatsoever without authority or license issued by SCAP.

SCAPIN 1218-A. CPC, 13 May 46, subject, "Custody of Property of Dissolved Organizations" (Inclosure 4 of rpt), and SCAPIN 1889-A, CPC, 2 Aug 46, subject, "Property of Dissolved Organizations" (Inclosure 5 of rpt), directed dissolution of certain other organizations whose existence was considered inimical to the objectives of the Occupation.

During the period between submission of reports and final compilation of same, real properties of these dissolved organizations have been licensed by SCAP for use by governmental agencies and private and corporate persons. In cases of use by governmental agencies, no rental has been required in order to alleviate, to some extent, the strained finances of the Japanese Government. In the case of private and corporate persons, rental has been charged in accordance with existing Japanese regulations. In addition, the Japanese Government has been directed to pay out of rental income, such expenses as are considered necessary to properly protect, preserve and maintain property of these organizations. In the case of property used for governmental purposes, the Japanese Government is responsible for maintenance, care and preservation of the property.

Paragraph 45a (5); National Shinto; (Information Source CI&E):

The assets of Shinto Shrines have not been blocked and impounded. National Shinto was abolished by SCAPIN 448, CI&E, 15 Dec 45, subject, "Abolition of Governmental Sponsorship, Support, Perpetuation, Control, and Dissemination of State Shinto" (Inclosure 6 of rpt). Shinto as a religion, with its shrines and other assets, was permitted to continue its existence on the same basis as other religions, divorced from State sponsorship, support and control.

All transactions involving real property are in effect blocked pending final decision as to the title to such property. At the present time, the title to virtually all land used by Shinto Shrines rests in the State, though in most cases the shrines have strong historical claims to the land they occupy.

In April 1947, the Diet enacted a law providing for the transfer to shrines of title to State-owned land now used by the shrines for religious purposes in cases where validity of claim can be established. The law embodies standards set forth in SCAPIN 1334, CI&E, 13 Nov 46, subject, "Disposition of State-owned Land Used by Religious Institutions" (Inclosure 7 of rpt). Implementation of the law will take three to five years.

The law for disposition of State-owned land used by religious institutions terminated the custodial relationship under which shrines derived profits from State-owned forests intrusted to their care. The shrines had already (December 1945) been deprived of all use and income from such forests pending decision as to their title.

Stocks of precious metals belonging to shrines have been ordered impounded regardless of their ownership, though, of course, this does not apply to precious metals in the form of art treasures (of which Shinto Shrines have very few).

Bank accounts have not been blocked except insofar as this was accomplished under general currency-blocking provisions.

Blocking or impounding the assets of Shinto Shrines has not been undertaken because the objectives to be obtained by blocking or impounding shrine assets have already been largely achieved.

The blocking and impounding of such assets would accomplish no purpose not already served by existing policies and procedures, would involve occupation personnel in a maze of administrative detail, would subject the Japanese Government to inconvenience, and would work great hardship on the shrines without any readily discernible corresponding benefit.

In the great majority of cases, government contributions to Shinto Shrines amounted to only a fraction of their total revenues and were used to meet current expenses. This was particularly true of the wealthier shrines, these being ones with the longest history, the largest popular following, and the least connection with the National (Kokutai) Shinto of modern politicians and militarists.

Since shrine income does not come in a steady flow, and since expenditures are uneven, being much greater during festival periods, it would be difficult for shrines to operate on a day-to-day income basis.

The psychological effect upon the Japanese people would doubtless be unfavorable. Blocking or impounding shrine assets would be construed as a persecution of Shinto after it had been deprived of government support and recognized as a religion with the same status as other religions.

The shrines, which represent the physical remains of Shinto, never were primary agencies for the promotion of ultra-nationalistic or political Shinto. This function was carried on largely through the educational system, the military, and other government organizations.

It is believed that the continuation of the present approach to the handling of the assets of Shinto Shrines will best accomplish the complete eradication of government support of Shinto, the elimination of Shinto as an ideological menace to world peace and to the democratization of Japan, and the establishment of freedom of religion in Japan.

Paragraph 45(a) 7:

Subject of radio is not considered applicable to this paragraph.

Paragraph 45(a) 8:

Subject of radio is not considered applicable to this paragraph.

Paragraph 45(a) 9; Arrested Persons; (Information Source CPC);

SCAPIN 897, CPC, 23 Apr 46, subject, "Control, Impounding, and Blocking of Property of Designated Individuals" (Inclosure 8 of rpt), directed the Japanese Government to take control of, block, and impound all property real and personal, owned or controlled, directly or indirectly, in whole or in part, by any person who is now or who hereafter may be detained, arrested or interned by order of the Supreme Commander for the Allied Powers. This SCAPIN further directs the Japanese Government to submit inventories on property so blocked or impounded.

These inventories are submitted to the Civil Property Custodian (SCAP), and investigations are made to check the veracity of questionable reports. Subject property remains blocked and impounded until designated person is released unconditionally before trial, or tried and acquitted.

When a designated person is returned to his former status, as stated above, SCAPIN 1232, CPC, 27 Sep 1946, subject, "Release of Blocked or Impounded Property of Designated Individuals" (Inclosure 9 of rpt), directs the Japanese Government to release subject property.

A recent Far Eastern Commission decision directs that property of a designated person be returned to him or his heirs, if the War Crimes Tribunal does not order forfeiture of his property. Property of accused persons who die before completion of trial is also to be returned to their heirs. The Japanese Government is being directed to return property under the conditions mentioned.

All property of designated persons awaiting trial will remain blocked and impounded. All property ordered forfeited or fines levied by order of a War Crimes Tribunal will become available for Occupation costs.

Part two of radio:

Reports of inventory of 155 dissolved organizations and affiliates have been received and compiled.

38 organizations having 7,112 branches reported assets, expenses and disposals as follows:

Assets	
Cash in Banks.....	Y 55,864,842
Securities.....	10,034,801
Land, Buildings & Fixtures....	46,395,774
TOTAL.....	Y112,295,417
Expenses & Disposals.....	Y261,937,000

117 organizations reported no assets due principally to voluntary dissolution and disposal of assets prior to issuance of directives, the period between 15 August 1945 and 4 January 1946.

Preliminary studies of the expenses and disposals of the 38 organizations which reported same, reveal that a good portion consisted of legitimate liquidation expense; however, considerable intentional dissipation is evident. The extent and manner of dissipation will require a comprehensive study, as a long established Oriental custom permits payment of a wide variety of bonuses, based upon varying factors such as years of service, cost of living, etc. In addition, there is evidence of deliberate concealment, particularly of real property.

To determine final disposition of the assets of the 117 organizations reporting no holdings, and to analyze the expenses and disposals of the 38 organizations which reported assets, will requre a detailed examination of not only each organization, but each branch, as their branches acted in most cases independently of the central office. Such an examination is far beyond the capabilities of the present personnel of both the Civil Property Custodian and the Office of General Accounting.

Reference paragraph A(1), part two of radio. Example organization (only one given, as categories under (4) and (6) are treated as one).

KAIKO-SHA

(Army Officers Club)

Assets

Land & Buildings.....	Y 2,070,080.84
Cash in Banks.....	9,094,097.98
Securities.....	202,240.42
	Y 11,366,419.24

Gold, silver, other foreign exchange, other precious metals, precious stones and cultural items were not contained in inventory reports of any of the dissolved organizations.

Reference paragraph A(2) of radio: Holdings of assets by top-management personnel in example organization.

Kaiko-sha reported expenses and disposals of Y104,487,832.36 for the period prior to dissolution. An examination of the Tokyo Office of this organization is now being made by SCAP to determine present holders of assets involved in reported expenses and disposals. Extent of holdings of top-management personnel cannot be determined until examination is complete.

Reference paragraph B, part two of radio: Kaiko-sha was ordered dissolved by SCAPIN 1889-A (Inclosure 5 of rpt), on 30 August 1946. However, its 65 branches had quietly started dissolution previous to issuance of SCAPIN, some as early as 17 August 1945. As these branch offices acted independently of each other and of the Tokyo Office, it is impossible to give a dissolution date for this organization as a whole.

As to destination of assets held prior to dissolution and identity of present holders, see paragraph C as an example. (Below)

Reference paragraph C of radio: Extent to which top-management personnel acquired assets of Kaiko-sha as an example, cannot, as stated before, be fully determined until an exhaustive search and examination has been completed. However, a preliminary report from an investigation now being conducted by SCAP is submitted as Inclosure 10 of report. This reveals a situation which probably exists in greater or less degree in the majority of these dissolved organizations.

3. The report further states that SCAP will continue to seek out and dissolve successor organizations which might result from acquisition of assets by former members of organizations which have been dissolved or which dissolved voluntarily, and recommends

that request contained in paragraph b, our radio C 51200, dated 25 March 1947, be approved; that is, sale of property of dissolved organizations now in custody to non-objectionable Japanese Nationals inside Japan, proceeds of sale to revert to the Japanese Government. None of the assets involved are considered as subject to either reparation or restitution. Disposition as recommended will:

a. Relieve the administrative burden and ease, to some extent, the seriously strained personnel situation here by relieving SCAP of the necessity for the actual licensing and control of business properties now under custody.

b. Convert to the benefit of the Japanese economy, at a time when urgently needed for prevention of disease and unrest and to preserve the minimum economy, assets that cannot be otherwise economically utilized.

4. This is an administrative matter; no surveillance by the Eighth Army is required.

5. The interests of USAFIK are not concerned.

6. Concurrence: ESS
CI&E
GS

7. This completes action on CPC line No. 9951.

Request for Information

Govt. Section G-2 14 August 1947

(1) 1. The Japanese Government has petitioned SCAP for retention in the Second Demobilization Bureau of the following ex-career naval officers:

HAGUWA, Ariyuki	Lt. Comdr.
NAKAMURA, Toshihiko	Lt.
NAKADA, Hosso	Lt. (jg)
KAWAGOE, Shigehide	Lt. (jg)
SATO, Shojiro	Lt. (jg)
FUKUMOTO, Mitsuji	Ens.

2. Request that examination be made of available information concerning subject persons, and that appropriate comment be made in each case.

3. This petition was submitted by the Japanese Government subsequent to Government Section Check-Note to G-2 of 6 August 1947, Subject: "Request for Information," and inclosed list of 499 names.

MEMORANDUM FOR THE RECORD: 14 August 1947

1. Arrangements have been made with G-2 for inspection of the past records of these persons to insure they are not undesirable for public office for reasons other than their status as regular commissioned officers. This is regarded as being a function of G-2 as an investigative agency, particularly inasmuch as they possess certain records on former military personnel.

2. These ex-career naval officers were formerly employed on or in command of vessels engaged in minesweeping and/or vessels in laid-up reserve. Individual justification for retention was not required while they served in these positions.

MEMORANDUM FOR THE RECORD: 13 August 1947

SUBJECT: Career Military Personnel in Various Ministries and Agencies of the Japanese Government.

1. In conference on 8 August 1947 at 1500, Commander Hussey, Major Napier and the undersigned discussed with Mr. SONE, Deputy Vice-Chief, Cabinet Secretariat and Mr. YAMADA, Chief, Political Affairs Division, Central Liaison Office, matter of career army and naval officers still occupying positions in the government service.

2. Reference was made by Commander Hussey to report prepared by the Research Bureau of the Home Ministry and submitted to this Section 8 August, giving names of 6,767 career officers on record as holding posts in the government service. He stated that, whereas, with certain exceptions, only the Demobilization Board was authorized to retain career commissioned officers in the amount of 17 ex-generals and admirals, and 92 ex-colonels and captains, subject report indicated 95 ex-generals and admirals, and 586 ex-colonels and captains were still in government service. Commander Hussey remarked that the report itself, a very interesting piece of work, but of no value, at least served to indicate that there may be career military personnel in large numbers still serving in the government.

3. Major Napier then summarized the findings of a study made in PSCD which indicated that as of 4 August 1947 there are reported to be 945 career officers in central and local offices of various ministries and agencies exclusive of the Demobilization Board. Of this number only the temporary retention of two persons in the Ministry of Education had been approved by SCAP. In addition to this number, it has been estimated that there are 350 career military persons in prefectural offices. These findings are as follows:

PSCD

Cabinet Secretariat:	
Board of Reconstruction	6
POWIB	24
Foreign Office (Demobilization Secretaries under Juri sdiction of Demobilization Board)	18
Ministry of Home Affairs	1
Ministry of Finance (Report still due from Sapporo Financial Bureau- Reported to be 8)	211
Ministry of Justice	1
Ministry of Education (Including 2 approved by Govt. Section: MURAMATSU and YUHARA Report not complete.)	6
Ministry of Welfare (Report not complete.)	321

5

(over)

Ministry of Commerce and Industry	58
Ministry of Transportation	58
Ministry of Communications	10
Demobilization Board (Officers engaged in Mine-sweeping and stationed aboard ship)	1109 727
TOTAL	2729

4. Ensuing discussion centered on attempts to explain inaccuracies in reports from various sources, in the course of which Major Napier stated that the purpose of this conference was not to solve such discrepancies, but to determine what action will be taken by the Japanese Government to remove from government service all career military personnel, down to and including the municipal level. Mr. SONE suggested that they would screen all such persons and in cases where temporary retention was absolutely necessary, requests for such would be prepared. Mr. YAMADA added that the Government would review such petitions and would submit to GHQ only those which were based on undisputed necessity and in which the questionnaires contained nothing objectionable other than status as career commissioned officers. It was made clear that non-regular employees who were non-salaried and were reimbursed only for expenses incurred in connection with services rendered would be exempted from the operation of the purge.

5. Mr. SONE said that these persons had not been screened, as 2nd class officials were not yet subject to screening. Major Napier said that in view of the fact that the screening of SCMIN officials is to be initiated in September, it is desirable that the removal of career military personnel be effected immediately. He also proposed that career officers in government service be immediately designated provisionally and be automatically removed from public office, with the exception, of course, of personnel of the Demobilization Board, and certain other agencies and ministries in which temporary retention has been approved by SCAP.

6. At the conclusion of the conference, both Mr. SONE and Mr. YAMADA, when queried by Comdr. Hussey and Major Napier, replied that they were aware of the necessity for immediate action on this matter and that such would be taken on or before 18 August 1947.

MEMORANDUM FOR : THE CHIEF, PSQD

SUBJECT : Modification of Purge Policy.

1. At this particular time two factors have combined to create a situation which, it is believed, calls for certain modifications in the ...4 Jan. Directive. These factors are the imminence ...reaty discussions and the fact that the overall ...d at Potsdam and since carried forward as a major ...w drawing to a close.

It would be only too easy for any Japanese Government which was not in sympathy with the aims and purposes of the program to maintain the necessary ordinances "on the books" for appearances' sake while effectively nullifying those same ordinances by deliberate oversight and calculated inefficiency in their administration.

Jack.
1. Probably I should have noted in para 2 B that the principle of accepting "evidence to the contrary" has already been recognized in the administration of the P.I.M. and Futo purges.
2. Do you think that clearance of persons whose record of cooperation with the
