W. C. BECKERT

Seedsman
ALLEGHENY, PA.

19 Federal Street

Remarks to Purchasers.

READ CAREFULLY BEFORE ORDERING.

Name and Address. Write your Name, Post Office, County, and State as plainly as possible. Sometimes orders reach us which give neither name nor location. In such cases it is impossible for us to fill orders until we hear from the senders again.

Use the Order Sheet. Make out your list of requirements in the order given in the Catalogue, placing the quantity wanted before the article, and the price of the same in the column to the right. Always keep a copy of your orders.

Correspondence should not be intermingled with the body of the order, but either written at the

bottom of the Order Sheet, or on a separate sheet of paper.

Remittances. The safest method of sending money is by Post Office Orders; where they are not obtainable, it can be sent by Express Money Order, Registered Letter, or Draft on New York. For small amounts, postage stamps are acceptable.

When the Remittance is not sufficient to pay for the quantity of seeds ordered, we will reduce

the quantity to correspond with the remittance.

Errors. All possible precautions are taken to avoid their occurrence. Notify us at once if your

order is not filled as it should be, and we will promptly make the necessary corrections.

Substitution. Late in the season we may have sold all our stock of some particular article ordered. We will in such case substitute the variety nearest akin to it, if requested to do so; otherwise the money will be refunded.

For Prices on Large Quantities of Seeds, write for our Market-Gardeners' or Florists' Catalogue, which is, however, only furnished on presentation of business card, or other evidence sufficient

to show that the applicant is entitled to the same.

Send Us Your Order as Early as Possible. It will facilitate the prompt execution of same,

and you will have your seed when you are ready to plant.

Packing. No charge for packing or delivery to depots, boats, or express offices. Fifteen cents will be charged for 2-bushel cotton sacks, when such are required. In no case do we prepay Express or Freight charges, unless by special agreement.

Seeds Free by Mail. All Vegetable and Flower Seeds quoted in this Catalogue by the pound, quarter-pound, ounce or packet are forwarded postpaid at the prices herein named. Postage must be added for seeds by the pint or quart, as stated under the headings. We reserve the privilege of sending seeds by express, prepaid, if more suitable to us.

Seeds by Express. Seeds can now be forwarded at 20 per cent less than the merchandise rates: a saving of one-fifth to the buyer over previous rates. Unless goods are of a perishable nature, we can send C. O. D., if requested. As prices are all given in the Catalogue, there is no necessity for having goods forwarded in this manner, the purchaser thereby incurring the extra return charges.

Shipments by Freight. Seeds in bulk, implements, and other heavy goods we ship by freight. Unless there is a freight agent at point of destination, the freight must be paid in advance, and, unless by special arrangement with us, the purchaser must advance the same. Our facilities for shipping to points south of Pittsburgh on the Ohio River and connecting streams are excellent, steamers plying daily between here and southern points. Points above Pittsburgh, on the rivers, are also accessible by boat.

Catalogues are sent free to all our customers of the past year. Should any change their place of residence, we desire them to inform us, that we may correct the address in our Catalogue list. Our local customers, who purchase over our counters, will please leave their address when making their first annual purchase; this will ensure their receiving Catalogues the following year by mail. Great numbers of our patrons who desire our Catalogues fail to receive them because we have not their post office address.

Please Compare Prices with those of any other reliable house. We decline to compete with

so-called cheap seeds.

Beckert's Choice Vegetable Seeds

Golden Wax Bean.

FOR HOME AND MARKET GARDENS.

SEEDS OF SUPERIOR QUALITY AND STRONG VITALITY.

UR Vegetable Seed Department embraces nearly all varieties that are desirable or of known value, together with all the more important recent introductions. The list has been carefully selected and prepared, and the descriptions given are chiefly derived from our own experience and observation. We have endeavored to make them as accurate and helpful to the purchaser in making selections as pos-

HOW SEEDS ARE SENT:

Free delivery to any post office in the United States at the prices named in this Catalogue of all Vegetable Seeds that are sold by the packet, ounce, quarter-pound, halfpound and pound.

Add postage at the rate of 15 cents per quart to the Catalogue price of Peas and Beans when to be sent by mail. Add postage at the rate of 10 cents per quart to the Catalogue price of Sugar Corn when to be sent by mail.

BEANS, Dwarf or Bush.

(Buich Bohnen.)

Beans should not be planted before the ground becomes light and warm, in favorable seasons usually about the first of May. The soil should be rich and mellow, and the seeds scattered about 3 inches apart in drills that are 2 to 2½ feet apart, and covered about 2 inches deep. The plants will need frequent hoeings, but should not be cultivated when the leaves are wet with dew or rain, as this will cause them to rust. Successive sowings, made at intervals of about two weeks until the middle of July, will give a plentiful supply of Beans throughout the season. One quart of seed will sow 100 feet of drill; 2 bushels will sow an acre.

For Beans sent by mail, add postage at the rate of 8 cts. per pint, 15 cts. per quart. 10-cent packets sent postpaid.

WAX, or YELLOW-PODDED BEANS.

VALENTINE WAX. Similar to the Valentine, except that its productive, excellent in quality, and remains a long time without getting tough. Pkt. 10c., pt. 13c., qt. 25c., 4 qts. 90c., pk. \$1.50.

WARDWELL'S KIDNEY WAX. Excellent early variety, widely grown and deservedly popular. Pods creamy yellow, long, broad, flat, brittle and stringless. Beans kidney-shaped, which shaded brown; very productive. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., qts., \$1, pk. \$1.75.

COLDEN WAX. Vines hardy, productive and early; pods long straight, flattish, very fleshy, wax-like, of the best quality, long straight, flattish, very fleshy, wax-like, of the best quality, long straight, flattish, very fleshy, wax-like, of the best quality, long straight of the production of the pr eating qualities excellent. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. \$1, pk. \$1.75.

WAX BEANS, continued.

For Beans sent by mail, add postage at the rate of 8 cts. per pint, 15 cts. per quart. 10-cent packets sent postpaid.

CURRIE'S WAX. It seems to be "rust-proof" after having been thoroughly tested for several years with other Beans which rusted badly. Pkt. 10 cts., pt. 13. cts., qt. 12, cts., qt. 4 qts. 90 cts., pk. \$1.50.

PROLIFIC CERMAN WAX. Pods yellowish, almost transparent; flesh tender and stringless; seeds black when ripe. Pkt. 10 ets., pt. 13 ets., qt. 25 ets., 4 qts. 90 ets., pk. \$1.50.

COLDEN-EYED WAX. Remarkable for its beauty of pod, freedom from rust and blight. The plant is rapid and vigorous in growth, yielding an early, abundant crop. Pkt. 10 cts., pt. 13 cts., qt. 25 cty. 4 qts. 90 cts., pk. \$1.50.

FLACEOLET WAX. Pods long and showx. Vines very productive. Pkt. 10c., pt. 15 cts., qt. 30 cts., 4 qts. \$1, pt. \$1.50. REFUCEE WAX. Early, prolific; round, tender, waxy pods. Pkt. 10 cts., pt. 13c., qt. 25c., 4 qts. 90c., pk. \$1.50.

VOSEMITE WAX. Rich, golden yellow pods 8 or 10 inches long, and as thick as a finger; they are quite stringless and nearly all solid flesh; of fine appearance. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.25, pk. \$2.25.

and well filled, thick and flat. The plant puts forth short tendrils, on which pods are formed. Pkt. 10 cts.,

GREEN-PODDED BUSH BEANS.

VLONGFELLOW. One of the finest Beans extant. Pods nearly stringless, stright, round, pale green, 6 inches or more in length. When cooked they retain their light green color, and are unsurpassed in quality and flavyf. Very productive, and as early as any good variety. Pkt. 10c., pt. 18c., qt. 35c., 4 qts. \$1.20, pk. \$2.

VCREEN-POD STRINCLESS. The pods are entirely stringless, very full and fleshy. They remain crisp and tender, even until the beans are fully developed in the pod. Early, of the very finest quality, not excelled by any variety. Growers should not fail to try this Bean. Pkt. 10 ets., pt. 15 ets., qt. 30 ets., 4 qts. \$1, yk. \$1.75.

CIANT CREEN-POD STRINCLESS VALENTINE (Yellow-seeded). A distinct new variety, and one of the best dwarf green Beans ever offered. It is as early and productive as the Improved Valentine, with pods a third larger, averaging 7 inches in length, round, full and fleshy. Not surpassed by any other Bean in crismess and flavor. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

MMPROVED RED VALENTINE. Hardy and vigorous; early and uniform in ripening; pods round, thick and solid, tender and of fine flavor. This strain of Valentine is earlier than any we have tested, and more uniform in ripening. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. 31, pk. \$1.75.

VEXTRA-EARLY REFUCES. Improvement on the Refugee, as it is earlier, being fit to pick nearly as early as the Yellow Six-Weeks, Pods round, solid, tender, and of excellent quality. Pkt. 10 ets., pt. 13 ets., qt. 25 ets., 4 qts. 90 ets., pk. 81.50.

BROWN SPECKLED VALENTINE (Refugee). Pods round, tender, fleshy and of fine flavor. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 qts. 90 cts., pk. \$1.50.

\[\sum_{\text{LOM YELLOW SIX-WEEKS.}}\] Valuable because of its extra earliness and productiveness. The pods

are long and flat, and of good quality as long as they are tender. Pkt. 10 ets., pt. 13 ets., qt. 25 ets., 4 qts. 90 ets., pk. \$1.50.

MOHAWK, or BROWN SIX-WEEKS.
Early and productive; pods large and coarse,
yet of excellent quality. Pkt. 10 cts., pt. 13 cts.,

pt. 13 ets., qt. 25 ets., 4 qts. 90 ets., pk. \$1.50.

qt. 25 cts., 4 qts. 90 cts., pk. \$1.50.

BOSTON FAVORITE. Large, red pods, fine for use as snaps; seeds very large and of delicious flavor, whether used green or dry. Pkt. 10 cts., pt. 10 cts., pt. 20 cts., 4 qts. 75 cts., pk. \$1.25.

DWARF HORTICULTURAL. Furnishes green-shelled Beans of fine quality; large, oval, plump, easily shelled. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., qt. 4 qts. 81, pk. \$1.50.

WHITE KIDNEY, or ROYAL DWARF. A favorite for baking; large, kidney-shaped, flattened, white. Pkt. 10 cts., pt. 10 cts., qt. 20 cts., 4 qts. 75 cts., ob. \$1.25.

PROLIFIC TREE. Of tall, branching habit, bearing its pods in heavy crops high above the ground. Better than the common navy Bean. Pkt. 10 ets., pt. 10 ets., qt. 15 ets., 4 qts. 50 ets., pk. \$1.

BEST OF ALL. Extra good and productive; round, tender, succulent pods. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 qts. 90 cts., pk. \$1.50.

Longiellow Bean

BUSH LIMA BEANS.

Fine crops of delicious Limas are now grown without poles.

For Beans sent by mail, add postage at the rate of 8 cts, per pt. and 15 cts, per ot. 10-cent pkts, sent postpaid.

BURPEE'S LARCE BUSH LIMA. Has become immensely popular. The plants come true from seed, and the dwarf habit has become well fixed. They grow into splendid branching, circular bushes 18 seed, and the dwarr nabit has become well nixed. They grow into spiendid branching, chromat number to or 20 inches high, and 2 or 3 feet across. The strong constitution of the plant is shown in its stout, thick stalks and large, deep green, leathery leaves, as much as in its enormous yield of thick, broad, handsome pods, which are as large and well filled as those of the Pole Limas; as many as 200 pods have been counted on a single plant. Identical in size and flavor with the Pole Limas. Pkt. 10c., pt. 15c., qt. 30c., 4 qts. \$1.

DREER'S, or KUMERLE'S BUSH LIMA. This variety is of strong, bushy habit, and produces its pods in great abundance. The beans are crowded thickly in the pods and are thick, sweet and succulent. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

Pole, or Running Beans.

(Stangen Bobnen.)

Pole Beans are not so hardy as the Bush sorts, and should be planted several weeks later, when danger from frost is over. Plant the seeds in slightly raised hills 3 or 4 feet apart, 4 or 5 seeds to the hill. The Limas are especially tender, and the rule for late outside planting with them is rigid. Painstaking cultivators, who are usually the most successful, plant them eye downward, after setting stout poles for every hill. All sorts of late-rpening Pole Beans are benefited by pinking quatry of the vines back when they are about 5 feet high. A quart of Limas will plant about 100 hills; a quatry of the smaller sorts about 200.

POLE LIMA BEANS.

VKINC OF THE CARDEN. An improvement on the Large Lima, with large beans and pods, and more productive habit. When not too closely planted, the vines set beans early and bear continuously until frost; only two vines should be allowed to a hill. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. \$1.

FORD'S MAMMOTH LIMA. The pods, averaging 7 inches in length and 5 to 7 beans to a pod, are produced in clusters; quality the finest. Vines vigorous, early and productive. Pkt. 10 cts., pt. 18 ets., qt. 35 ets., 4 qts. \$1.20.

SEXTRA LARCE LIMA. A standard variety;

the beans are large and buttery in flavor. Fkt. 10 cts. pt. 15 cts., qt. 30 cts., 4 qts. \$1.

EXTRA EARLY JERSEY LIMA. The beans are smaller than those of some other Limas, but are much the same in form and quality. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

DREER'S IMPROVED LIMA. Early and productive; beans thick and rounded, tender and good. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. \$1.

EDIBLE-PODDED POLE BEANS.

SUNSHINE WAX. Bright yellow pods, 6 to 8 inches long; very straight, and borne in clusters; prolific and of fine quality. Pkt. 10 ets., pt. 15 ets., qt. 30 ets., 4 qts. \$1.

COLDEN ANDALUSIAN WAX. Pods 6 inches long, broad, thick, fleshy and stringless, retaining this feature until nearly ripe; quality fine; begins bearing when quite young. Pkt. 10 cts., pt. 15 ets., qt. 30 ets., 4 qts. \$1.

COLDEN CLUSTER. Productive and early; plump, tender, yellow pods from 6 to 8 inches long, of very fine flavor, and remaining fit for use a long time. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. \$1. COLDEN CHAMPION. Enormous, light yellow pods; they cook quite tender, and have no string. Pkt. 10c., pt. 15c., qt. 30c., 4 qts. \$1.

CAZY WIFE. Very productive; pods green, 4 to 6 inches long-road; thick, fleshy and entirely stringless; of rich, tender quality. Each one contains from 6 to 8 plump, round, white beans, which are excellent for winter use; late in maturing and one of the very best of this type of Beans. Pkt. 10 ets., pt. 15 ets., qt. 30 ets., 4 qts. \$1.

IMPROVED KENTUCKY WONDER, or OLD HOMESTEAD.
Very prolific; long, showy green pods, borne in large clusters; they are often 9 or 10 inches in length; when young are nearly round, crisp and tender. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. \$1

kidney-shaped; quality fine. Pkt. 10c., pt. 13c., qt. 25c., 4 qts. 90c.

HORTICULTURAL, or CRAN-BERRY. Good as a shell Bean, either green or dry; beans large, spotted with red; of good flavor; very productive. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 qts. 90 cts.

WHITE CREASEBACK, or BEST OF ALL. Very productive, bearing in clusters; pods silvery green, medium size, best quality. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 ats. 90 cts.

RED SPECKLED CUT- Ford's Mammoth Lima Bean.

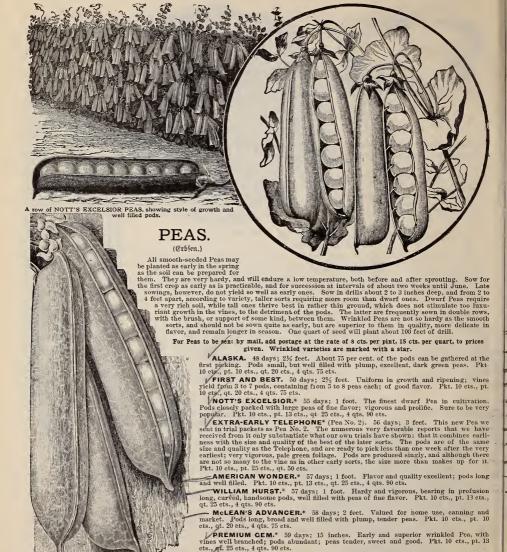

SHORT. For planting among corn; productive and of excellent quality. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 qts. 90 cts.

SCARLET RUNNER. With showy scarlet blossoms; beans pur-blish, with black markings. Pkt. 10c., pt. 13c., qt, 25c., 4 qts. 90c. FRENCH ASPARACUS, or YARD LONG. Pods 2 or 3 feet long; tender, and of asparagus flavor. Pkt. 10 cts., pt. 50 cts.

ENGLISH DWARF BEAN, BROAD WINDSOR.

English Broad Beans are as hardy as peas, and should be sown in drills 2 feet apart as early in spring as the ground can be prepared. Pkt. 10 cts., pt. 13 cts., qt. 25 cts.

Extra-early Telephone Pea.

PRIDE OF THE MARKET.* 61 days; 2 feet. Wonderfully productive, with large, trandsome pods, and peas of good quality. Pkt. 10c., pt. 15c., qt. 30 cts., 4 qts. \$1.

Carter's Wonder Pea.

For Peas to be sent by mail, add postage at the rate of 8 cts. per pint and 15 cts. per quart.

CARTER'S WONDER.* 63 days; 11/2 feet. A new second-early English Pea with which we have been very favorably impressed, after two years' trial. Pods deep green and of medium size, very compactly filled with 8 to 10 large peas of the finest quality. Vines vigorous, immessly productive. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

DUKE OF YORK.* 67 days; 3½ feet. Pods very large, very dark green, well filled with large dark green peas of excellent flavor. A heavy vielder, and one of the most desirable medium early sorts offered. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

VHORSFORD'S MARKET-CARDEN.* 70 days; 2 Very productive; vines require no support; best y. Pkt. 10 ets., pt. 10 ets., qt. 20 ets., 4 qts. 75c.

-CARTER'S DAISY.* 70 days; 11/2 feet. Vigorous and very uniform in growth; pods large, light green, densely filled; quality the best. Vines self-supporting, wonderfully productive. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

DWARF TELEPHONE.* 70 days; 11/2 feet. Stocky, regular and uniform in growth; pods large, handsome, well filled, often containing 10 peas of the largest size; tender and delicious; light green in color, and much shriyeled when dry. Very productive, often bearing 5 to 7 pods. Pkt. 10c., pt. 18c., qt. 35c., 4 qts. \$1.20.

TELEPHONE.* 71 days; 3½ feet. Pods and peas very large and showy, the latter being very sweet and rich, very productive and popular. Pkt. 10 ets., pt. 13/cts., qt. 25 cts., 4 qts. 90 cts

CHAMPION OF ENGLAND.* 42 days; 4 feet. Very fine quality. Pkt. 10 cts., pt. 10 cts., qt. 20 cts., 4 qts., 75 cts.

- ABBOT OF READING.* 73 days; 2 feet. A valuable main-crop variety that should find a place in every garden. Pods of enormous size, curved, well filled, garden. Pods or enormous size, curved, wen incontaining from 8 to 10 very large peas of delicious flavor; vigorous, enormously productive. Pkt. 10 cts., pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

CIANT-PODDED MARROW.* 73 days; 2 feet. Enormous, handsome pods. Peas very large, deep green, of delicious flavor. A heavy bearer. Pkt. 10 cts. pt. 15 cts., qt. 30 cts., 4 qts. \$1.

DUKE OF ALBANY* (American Champion). 75 days; 3 feet. Pods large and produced in great abundance. Resembles Telephone, but is more dwarf. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. \$1.

PARACON.* 75 days; 2½ feet. Very productive; quality excellent; ripened peas are rich yellow and very wrinkled. Pkt. 10 cts., pt. 10 cts., qt. 20 cts., 4 qts. 75 cts.

IMPROVED SUCAR MARROW.* 78 days; 4 feet. Pods long, of fine shape, well filled with peas of the true marrow flavor; very productive. Pkt. 10c., pt. 10c., qt. 20c., 4 qts. 75c. JUNO.* 79 days; 2 feet. Thick, straight pods, borne in pairs, and containing from 7 to 9 sugary and delicious, dark green peas. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 qts. 90 cts.

SHROPSHIRE HERO.* 80 days; 2½ feet. Very heavy cropper; pods long, closely packed with large, sweet peas. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 qts. 90 cts.

CROWN PRINCE.* 80 days; 2 feet. Large, broad pods, containing from 7 to 9 peas of the finest quality; very productive and popular. Pkt. 10 cts., pt. 15 cts., qt. 30 cts., 4 qts. \$1. HEROINE. 80 days; 2 feet. Bears a profusion of long, large pods, which contain 8 or 9 large peas of best quality. Pkt. 10 cts., pt. 13 cts., qt. 25 cts., 4 qts. 90 cts.

MELTING SUGAR. 80 days; 4% feet. Edible pods. Pkt. 10 cts., pt. 15 cts., qt. 30 cts..

4 ats. \$1.

SHARPE'S QUEEN.* 82 days; 2½ feet. Of vigorous, branching habit. Pods very large, well filled with large peas of delicious flavor, densely packed in the pods. Pkt. 10 cts., pt, 13 cts., qt. 25 cts., 4 qts. 90 cts.

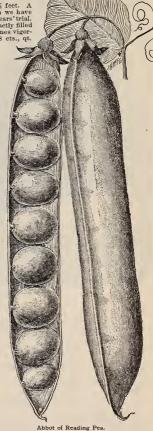

ABBOT OF BARDNEY.* 84 days; 2½ feet. One of the finest main-crop wrinkled Peas. The pods are slightly curved, of immense size, and well filled, containing from 7 to 10 very large peas, which are very tender and of most delicious flavor. Pkt. 10 pt. 18 cts., qt. 35 cts., 4 qts. \$1.20.

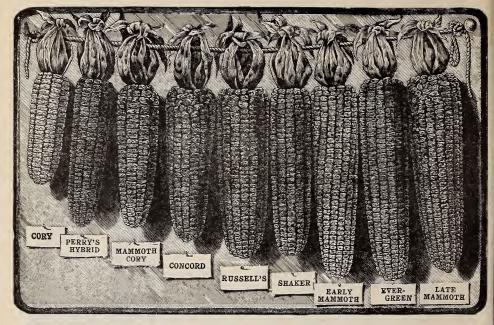

BLACK-EYED MARROW-FAT. 84 days; 4½ feet. Pkt. 10c., pt. 10c., qt. 15c., 4 qts. 50c.

WHITE MARROWFAT. 84 days; 41/2 feet. Pkt. 10 cts., pt. 10 cts., qt. 15 cts., 4 qts. 50 cts.

The SUGAR PEAS are prepared for the table like Snap Beans, and are delicious if picked while tender.

CORN, Sweet or Sugar.

(Mais.)

This delicious vegetable may be enjoyed from early summer until frost, if the proper varieties are selected and planted for succession at intervals of every two weeks until the middle of July. If the seed is planted too early, before the ground becomes warm, it is liable to decay. Plant in hills 3 or 4 feet apart each way, 5 or 6 kernels to a hill; or in rows 4 or 5 feet apart, scattering the seeds thinly in the rows. The talley growing the variety, the richer should be the soil and the wider the space allowed for development. One quart will plant 200 hills.

Except where quoted, all varieties are: Pt. 10 cts., qt. 20 cts., 4/qts. 60 cts. 10-cent packets of all kinds sent postpaid.

YEXTRA EARLY ADAMS. Not a Sugar Corn, but grown for table use because of its earliness. Plants dwarf; ears short.

-CORY. The earliest; stalks short; ears set quite low, of fair size, and well-filled with large, reddish grains. MAMMOTH WHITE CORY. Ears 12-rowed, as early as the

common Cory's and twice as large; cobs and corn white, grains large and of good quality. Pt. 13 ets., qt. 25 ets., 4 qts. 80 ets.

EARLY VERMONT. Nearly as early as Cory, but larger; of superior quality; pure white grains and cob; grows about 5 feet high and very stocky; two and sometimes three ears to a stalk. Sure to

KENDALL'S EARLY CIANT. Barely a week later than the Cory, and earlier than any Corn of its size; ears 10- and 12-rowed, 8 to 10 inches in length; kernels white, sweet, tender. Pt. 13 cts., qt. 25 cts., 4 qts. 80 cts.

EARLY CHAMPION. Ears size of Concord; 10- to 12-rowed, pure white and fine quality. A very desirable variety.

PERRY'S HYBRID. A valuable early market variety. The early are large and ready for use quite early; they contain from 12 to 15 rows of large, pure white grains. Stalks about 5 feet high, and bear 2 or more fine ears each.

MOORE'S CONCORD. Produces large, handsome ears, and comes into use after Perry's Hybrid. Quality excellent.

SHAKER'S. Medium early. Large, well-filled ears, kernels pearly whiteness; sweet and delicious flavor.

RUSSELL'S PROLIFIC. Extensively grown, and almost as early as Copcord. Ears are large, well-shaped and filled, and of the best quality; the stalks perfect 2 or more good ears each.

SQUANTUM, or EXCELSIOR. Very popular in the New York markets. Medium early; ears 12-rowed and deep in the grain; very sweet and tender.

EARLY MAMMOTH. Two weeks earlier than Late Mainmoth, with ears fully as long, but larger at the stem and tapering more towards the tip. Grains large, white and even; quality very good.

ZICZAC EVERCREEN. Ears similar in size and shape to Evergreen, except that the rows run zigzag. Quality the very best.

COUNTRY CENTLEMAN. Ears of good size, well filled to the tips with deep, white grains of delicious quality; cobs small; stalks very productive, averaging 3 fine ears each. Of superior quality.

HICKOX. An excellent variety, much used by canners; ears large and pure white; grains full, sweet, tender.

OLD COLONY. A little earlier than Evergreen. The ears are quite large, and always well filled, containing from 16 to 20 rows of deep, sugary grains.

STOWELL EVERCREEN. The standard main-crop variety, grown more generally and on a larger scale than any other sort. Ears large, with deep, sugary grains; remains fit for use a long time. It holds its own beside all newer sorts.

ECYPTIAN. Ears remarkable for size, sweetness and richness. LATE MAMMOTH. One of the best of the large-eared sorts.

THE BEST GARDEN BEETS.

The soil best suited to the Beet is a deep and light, rich, sandy loam. For very early crops, the seed of Crosby, or some similar sort, is sown in hotbeds, and the seedlings are transplanted to the open ground as soon as it is warm enough. For main crop or early Beets, the seed

is sown outside as soon as the soil is in good condition, in drills from 12 to 15 inches apart, and covered about an inch deep; the plants are thinned to stand 4 to 5 inches apart in the rows. For winter crops sow seed in June, in drills, as for early Beets. An ounce of seed will sow 50 feet of drill; 5 to 6 pounts, an acre.

VCROSBY IMPROVED. An improvement on Egyptian; its roots are thicker, ready for use earlier, smoother and of better shape. The flesh is fine-grained, sweet and tender. It deserves a leading place among home and marker Beets. Pkt. 5 cts., oz. 10 cts. 41b. 25 cts., lb. 90 cts.

can be planted very closely. Medium size and dark crimson color. Pkt. 5 ts., oz. 10 cts., 1/4lb. 20 cts.,

lb. 60 cts. Early; of rapid growth, with small tops. The roots are roundish, flat, deep red, and of the very finest quality. Pkt. 5 cts., oz. 10 cts., 41b. 20 cts., lb. 60 cts.

Beckert's Perfection. DEWINC'S BLOOD TURNIP. One of the best main crop and late sorts. The roots are long, round and smooth, with blood-red flesh, marked by light rings. Pkt. 5 cts., oz. 10 cts., 1/4lb. 20 cts., lb. 60 cts.

ECLIPSE. Roots globe-shaped, deep red, with sweet, fine-grained flesh, which remains tender a long time. Good for both early and winter crops, and one of the most widely grown and generally popular Beets. Pkt. 5 cts., oz. 10 cts., 1/41b. 20 cts., lb. 60 cts.

Early Blood Turnip.

EDMAND'S BLOOD TURNIP. Round, smooth and uniform in shape, seldom growing too large. The flesh is unusually sweet and good. Pkt. 5 cts., oz. 10 cts., 1/4lb. 20 cts., lb. 60 cts.

COLUMBIA. Skin smooth; flesh deep blood-red and of the finest quality. A good market sort as well as for private use. Pkt. 5 cts., oz. 10 cts., ½1b. 20 cts., 1b. 60 cts.

Dewing.

Crosby.

BECKERT'S PERFECTION BLOOD TURNIP. For main and late crops, as the name implies, we have here perfection in a table Beet. We have bred up this strain for years, and until last season never offered it for sale. It is not early, but is admirably adapted for main crop and for winter storage. The Beet is almost a perfect globe shape, with small tap-roots; its endencies are to grow only to medium size. Flesh dark crimson, and remains tender and brittle after a season's growth. The strain is so highly bred that the Beets grow as uniform in size and shape as can be. P.M. 5 cts., oz. 10 cts., ¼lb. 25 cts., lb. 90 cts.

SEIF BLOOD TURNIP. A local variety of great merit; it is not early, but excellent for main or winter erop. Deep crimson in color, and remains tender, no matter what size it attains. Pkt. 5 gts., oz. 10 cts., 1/4 lb. 25 cts., lb. 90 cts.

LONG SMOOTH BLOOD. Half-long deep red roots; flesh firm, juicy and tender. Pkt. 5 cts., oz. 10 cts., 1/1b. 20 cts., lb. 60 cts.

SWISS CHARD (Sea-Kale Beet). Grown for its tender succulent tops, which are prepared for the table like spinach or asparagus. Pkt. 5 ets., oz. 10 ets., 10 ets., 20 ets.

FIELD BEETS FOR STOCK FEEDING.

Grown for stock feeding, they form very wholesome and nutritious food. Of especial value for feeding to cows, and they greatly increase the flow of milk. The seeds should be dropped about 2 inches apart in drills 2 feet apart and the plants thinned so that there will be 12 or 16 inches between them. Round-rooted varieties are best suited to light, sandy, shallow soil; long-rooted sorts to deep ones. On rich ground the yield is enormous. From 5 to 8 lbs. of seed are required to sow an acre.

Write for special rates on seeds of Field Beets in quantities of 5 pounds and upwards.

RED-TOP SUCAR BEET. Combines with heavy yield a good percentage of sugar; white flesh

GOLDEN TANKARD. Has large and handsome roots of a peculiar shape, and grows partly above the ground. Flesh bright yellow, with much saccharine matter.

CIANT LONG RED MANCEL. Heavy cropper; grown very generally. Roots are long and thick, with rose and white flesh, and grows partly above ground.

LONG YELLOW MANGEL. Like the two preceding sorts, except in color.

CIANT INTERMEDIATE. Very heavy producer.

ORANGE CLOBE. Large, orange-colored, oval variety. Good on shallow soil. Price of all the above Field Beets: Oz. 5 cts., 4 ozs. 15 cts., 1b. 45 cts.

Golden Tankard Mangel-Wurzelt

Early Summer Cabbage.

SUPERIOR CABBAGE SEED.

Cabbage is one of the gardener's most important crops, the value of which depends as largely upon the quality of the seed used as upon soil, climate and culture. They are usually sown early in spring in hotbeds, and later in the open ground for main and late crops. Seed sown in hotbed or greenhouse about February 15 will give plants large enough to transplant into hotbeds about March 10. Set them 2 or 3 inches apart each way, and as soon as they become well established remove the glass for part of the day, to harden them for final transplanting into the open ground, increasing the exposure daily until April 10 or 20, when the final trans-planting may be made. Plants for this early crop need not stand farther apart than 11/2 x 2 feet. For late crops, sow seeds in April or May, and transplant in July, setting the plants in the ground up to the first leaf, and 2 x 3 feet apart. It is important that the plants

should not stand thick in the seed-bed, as this would induce weak, slender plants. To insure large, solid heads of Cabbage, the soil must be plowed deep and made very rich. The plants need thorough cultivation and the in-sects which molest them should be kept in check with remedies which seem most efficacious in the locality. Crops of Cabbage should not be grown for a number of years on the same ground, on account of club root.

EXPRESS. The earliest Cabbage in cultivation; not so large as the Wakefield, however. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 50 cts.

* EARLY ETAMPES. A small, very early, point-headed variety. Pkt. 5 cts., oz. 20 cts., 1/4lb, 50 cts.

EXTRA EARLY JERSEY WAKEFIELD. The best early variety. Heads of medium size, pyramidal, pointed, firm and solid, with few outside leaves: they are uniform in size and time of maturing, and are of good quality. Pkt. 5 ets., oz. 25 ets., 1/4lb. 80 ets.

LARGE JERSEY WAKEFIELD, or CHARLESTON. A selection from the above, and 10 days later, with heads rounded and twice as large. A fine variety, and worthy of general cultivation. Pkt. 5 cts., oz. 25 cts., ½1b. 80 cts.

EARLY WINNICSTADT. Conical heads of fair size. It is one of the best early Cab. bages Pkt. 5 cts., oz. 15 cts., 1/4lb. 50 cts.

EARLY SPRING. The earliest flat-headed variety. Heads very uniform and solid. close. Pkt. 10 cts., oz. 50 cts.

HENDERSON'S EARLY SUMMER. A favorite second-early sort, 6 to 10 days later than the Wakefield and twice its size. The heads are large, solid, roundish flat, of good flavor, and stand a long while after maturity without bursting. Pkt. 5c., oz. 25c., 1/4lb. 80c.

ALLHEAD. One of the best early Cabbages; uniformly large in size, of good quality, sure heading and adaptable to many soils. Pkt 5 cts., oz. 20 cts., 1/4 lb. 60 cts.

ALL-SEASONS, or VANDERCAW. Noted for its superior quality and delicacy of flavor. Almost as early as Henderson's Early ummer; heads larger and quite thick through; good for early and late crops. Pkt. 5 cts., oz. 20 cts., 1/1b. 60 cts.

SUREHEAD. The heads are of Flat Dutch type, uniform in shape and size, solid and heavy. Pkt. 5 cts., oz. 20 cts., 1/4lb. 60 cts. SUCCESSION. A week later than Early Summer, with heads much larger. Good for early or late use. Pkt. 5 cts., oz. 20 cts., 4lb, 60 cts.

NONESUCH. In many respects similar to Succession. Heads rather more full at the top; foliage not so abundant and more compage. Pkt. 5 ets., oz. 25 ets., 1/4lb. 80 ets.

FOTTLER'S BRUNSWICK. One of the best late sorts. The heads often weigh from 20 to 25 pounds, and are hard and solid. Pk. 5 cts., oz. 20 cts., 1/4lb. 60 cts.

VSELECT LARGE LATE FLAT DUTCH. An excellent keeping variety; more extensively grown for main crops than any other Heads large, broad, roundish, flat, solid, and of good quality. Pkt. 5 ets., oz. 20 ets., 1/4lb. 60 ets.

SELECT LARGE LATE DRUMHEAD. Popular, and widely rown for main crops. Good-keeping, sure-heading variety. Pkt. ets., oz. 20 ets., 1/1b. 60 ets.

AUTUMN KINC, or WORLD-BEATER. Late; sure-heading; heads of enormous size, yet regular and uniform, with few outer leaves. Pkt. 5 cts., oz. 25 cts., ½1b. 80 cts.

DANISH BALLHEAD, or HOLLANDER. A distinct variety;
plants long-stemmed, but compact; leaves
very smooth and thick; head of medium size, round and very solid; matures late, and is a splendid keeper. Pkt. 5c., oz. 25c., 1/4lb. 80c.

THE LUPTON. Has the best qualities of the second-early and the late varieties. Slightly earlier than the Flat Dutch and of more compact growth. Heads are large in proportion to the plant, which grows strong, but does not spread out. Stalks short; color dark green. Pkt. 5c., oz. 20c., ¼lb. 60c.

PERFECTION AMERICAN DRUM-HEAD SAVOY. The best Cabbage of this fine class. Heads large, solid, with finely curled, close, wrinkled leaves of cauliflower flavor; a good keeping winter Cabbage. Pkt. 5 ets., oz. 20 ets., 1/4lb. 60 ets.

RED DUTCH. Red pickling variety; heads of good size and flavor. Pkt. 5 cts., oz. 15 cts., 1/4lb, 50 cts.

MAMMOTH ROCK RED. A select late strain of red Cabbage, with very large and solid heads. Pkt. 5c., oz. 25c., ¼lb. 80c.

Danish Ballhead Cabbage.

Extra Early Jersey Wakefield Cabbage.

CAULIFLOWER.

(Blumenfohl.)

How to Grow Fine Cauliflower. The general outlines of culture for Cauliflower and cabbage are essentially the same, but to the former extra care given in applying fertilizers and moisture well repays the gardener. Sow the seeds for early and late crop as directed for eabbage, but do not set the early plants in the open field too soon, for if too much stunted by severe frosts they begin to form heads before they are strong enough to develop them well. Plants which have not headed before winter sets in may be stored in a cool cellar or coldframe, and will form heads there without any further attention. A deep, loamy soil, with a substratum of moisture during dry weather, is most suitable for the Cauliflower. Market-gardeners find this one of their most profitable crops, and amateurs who undertake its culture find it easy. An ounce of seed will produce about 1,500 plants.

BECKERT'S EARLY SNOWBALL. Produces large, handsome heads, measuring 8 to 10 inches across; pure snowy white, close, compact and of the finest quality. The stalks are short, of compact growth, and can be planted closely. It is extra early, a very certain header, and equally good for a late crop. Unsurpayed by any strain offered. Pkt. 25 cts., ½cz. 90 cts.

EXTRA EARLY ERFURT. The plants may be depended upon to form large, firm white heads, very early. The variety compares very favorably with Early Snowball. Pkt. 20c., 1/40z. 80c.

ALCIERS. Late, sure-heading; the heads are good in color and duality, and long-keeping. Pkt. 10 cts., ½0z. 25c., oz. 80c. EXTRA EARLY PARIS. Large leaves and large, firm, white heads. Pkt. 5 cts., ½0z. 20 cts., oz. 70 cts.

NONPAREIL, or HALF-EARLY PARIS. Furnishes fine, uniform heads of good size. Pkt. 5 cts., 1/4 oz. 20 cts., oz. 70 cts. LENORMAND'S SHORT-STEM. A hardy late variety; good heads, with close, uniform curds, well protected by leaves. Pkt 5 cts., 1/40z. 20 cts., 0z. 70 cts.

VEITCH'S AUTUMN CIANT. White, large, firm heads, which are well protected by large leaves. Pkt.5 cts., ¼oz. 15 cts., oz. 50 cts.

Beckert's Early Snowball Cauliflower.

WATER AND UPLAND CRESS.

(Rreffe.)

The leaves form excellent, spicy spring salads, and are also used for garnishing. The plants increase rapidly from the roots and by self-seeding, and require little care after they become established. Pepper Grass should be sown thickly in shallow drills in early spring, and at intervals for continual supply, as it soon runs to seed.

WATER CRESS. Small, oval leaves; very tender, crisp and pleasantly spicy when young. Plant of prostrate habit. A perennial aquatte, which grows well in any running stream, forming large beds of leaves. Pkt. 5 cts., oz. 35 cts.

UPLAND. Seed of this species may be sown anywhere in moist places in spring or fall. Leaves broad, crisp, tender and good for salade; plant a perennial. Pkt. 10 cts.

EXTRA CURLED, or PEPPER CRASS. Of pleasant, pungent flavor; the leaves can be cut several times. The plants grow well in almost any soil, and require little care. Pkt. 5 cts., oz. 10 cts., lb. 60 cts.

ARTICHOKE. (Artischocke.)

Sow early in spring, and transplant the following spring permanent beds in rows or hills 3 feet apart. LARGE CREEN GLOBE. Pkt. 10c., oz. 30c.

BRUSSELS SPROUTS.

(Rosenkohl.)

seed should be sown in April or May, and the plants cultivated like cabbage; very hardy, and the heads are improved by frost. An ounce of seed will produce 2,000 plants.

DWARF IMPROVED. Dwarf, with small, solid, tender heads, growing very close along the stem. Pkt. 5 cts., oz. 25 cts.

CORN SALAD.

(Lammer Salat.)

Sow the seed thickly in shallow drills in September, and firm the soil well down above it, if the weather be dry. Highly appreciated, and much grown where other salads and lettuces do not succeed. An ounce of seed

will sow a bed 20 feet square.

LARGE-SEEDED. Has large, tender leaves. Pkt. 5 cts., oz. 10 cts., 11b. 30c.

BROCCOLI.

(Sproffentobl.)

Requires the same treatment as cauliflower. The heads are tender, white, and delicate in flavor. An ounce of seed will produce about 2,000 plants.

WHITE CAPE. Creamy white, medium, compact; sure to form; delicate flayor. Pkt. 10 ets., oz. 30 ets.

CHICORY.

(Cichorie.)

Sow early in spring, in good, mellow soil and in drills half an inch deep and 12 inches apart.

LARGE-ROOTED MAGDEBURG. or

COFFEE. The roots form the Chicory of commerce; the leaves, when blanched, make an excellent salad. Pkt. 5 cts., oz. 10 cts., 1/4lb. 30 cts., lb. 60 cts.

Improved Long Orange.

CARROTS.

(Möhren.)

Carrots succeed best on light, sandy loam, which, preferably, should have been well fertilized the previous year, as fresh manure often causes the roots to grow pronged and misshapen. Sow the seed as early in the spring ag-the ground can be prepared, firming the soil down over them. If sown late they should be soaked in tepid water, then mixed with plaster or sifted coal ashes and sown upon freshly prepared soil. Quick germina-tion and rapid growth are necessary. An ounce of seed will sow 100 feet of drill; 4 pounds will sow an acre.

tion and rapid growth are necessary. An onnee of seed will sow 100 feet of drill; 4 pounds will sow an acre.

EARLY SCARLET HORN. For early outdoor crop. Roots are about 3 inches long, and of very good outdity. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 75 cts.

HALF-LONG POINTED. The roots are intermediate in size between Dutch Horn and Long Orange; smooth bright orange; well davored. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 75 cts.

HALF-LONG STUMP-ROOTED. Much like the above, except that the roots have the stump form. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 75 cts.

NEW YORK MARKET. Early. A heavy cropper; symmetrical shape, small core, crisp, tender and very sweets one of the best. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 75 cts.

CHANTENAY. Handsome roots, broad shouldered, smooth and more uniform than the Danvers. Of superior flavor. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 75 cts.

JAMES INTERMEDIATE. One of the best. The roots are large, fine, of good quality, and deep orange-red. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 75 cts.

JAMPSOVED LONG CRANCE. Extensively grown; hardly equal to Danvers in quality, but good and heavy in yield. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 75 cts.

DANVERS HALF-LONG. Excormously productive; adapted to all soils. The roots are smooth, thick and intermediate between Short Horn and Long Orange in form. Pkt. 5 cts., oz. 10 cts., ½[b, 25 cts.,]b. 76 cts.

(Spargel.)

A bed once properly made and planted will last for years. Plenty of fertilizer should be well trenched in to the depth of 2 feet or more. The roots should be planted as early in the spring as the ground can be prepared, setting them a foot apart in rows 2, 2% or 3 feet apart, with the crowns from 4 to 6 inches below the surface of the bed. Asparagus seed may be sown directly in the ground riom 100 inches below the surface of the bed. Asparagus seed may be sown directly in the permanent bed and the plants thinned as they grow; or it may be sown elsewhere, and the seedlings transplanted the second year. An ounce of seed will sow 50 feet of drill, and produce about 300 plants. Fair crops may be expected the third year from seed.

PALMETTO. Early; stalks fine in size and quality, even and regular in growth. Pkt. 5 cts., z. 10 cts., ¼1b. 25 cts., lb. 60 cts.

oz. Mets., Alb. 25 ets., lb. 60 ets. VCQLOSSAL. Very large, deep green, tender stalk and of good flavor. Pkt. 5 ets., oz. 10 ets.,

BARR'S MAMMOTH. Stalks large; heads close and round; light in color; tender and succulent. . 5/cts., oz. 10 cts., ¼1b. 25 cts., 1b. 60 cts. COLUMBIAN MAMMOTH WHITE. Eighty to 90 per cent of the stalks are pure white, and

remain colorless as long as they are fit for use; strong and productive as other sorts. Pkt. 5 cts., oz. 15 cts., ¼1b. 30 cts., lb. 75 cts.

ASPARAGUS ROOTS.

Palmetto, Barr's Mammoth and Colossal. Two years old. By express, 100, 75 cts., 1,000, \$6.

We offer all other leading Vegetable Roots at popular prices. See page 25. Write us for special prices on large quantities.

Intermediate.

Asparagus.

FIRST CLASS CELERY SEED.

(Gellerie.)

Celery can be grown in any good garden soil, but is finest on deep, mellow bottom land. Seed for early crops should be sown in hotbeds about March 15. The plants may either be thinned to give them room to grow, or transplanted to another bed to grow until it is time to plant them in the open ground. For main crop, seed should be sown in the open air as soon as the soil and air are warm enough. They should be covered very lightly, or merely pressed into the earth with a board, if the soil is fine and mellow. The seed-bed must be kept free from weeds, and well watered in dry weather. When the plants are large enough, transplant them to shallow trenches or furrows, from 4 to 6 feet apart, according to the variety grown, setting the plants of inches apart in the rows and pressing the soil firmly around them. They must be well cultivated and kept free from weeds until ready for blanching, which consists in drawing earth up to the stalks at intervals of about two weeks, until all but the tops of the plants are covered. Celery may be kept for winter use in pits or cellars, or in deep, narrow trenches, in a dry situation; the latter must be covered with boards, with sufficient soil and manure on top to keep out the frost, leaving openings for venitation in mild weather at short distances. An ounce of seed will prophyse about 2000 plants.

WHITE PLUME. Very popular variety; easily blanched, and one of the most handsome sorts grown. In large plants the stalks, hearts and inner leaves become white without any blanching. Good for fall and summer crops. Pkt. 5 cts., 0z. 25 cts., ¼lb. 80 cts.

PERFECTION HEARTWELL. Vigorous in growth; heart large and close-growing; crisp, tender, keeping until quite late. Oncoof the best flavored, most crisp and tender of all the white varieties. Pkt. 5 cts., oz. 25 cts., ½b. 80 cts.

colden Self-Blanching. Stalks beautiful golden yellow equal in quality to those of any variety grown. Plants semi-dwerf and vigorous, with large, ribbed and rounded stalks, which are quite verisp and tender. One of the best and handsomest of Celeries. Pkr. 5 ets., oz. 30 ets., ½1b. 90 ets.

colden dwarf. One of the best; hearts and inner leaves a beautful golden yellow when blanched; the stalks are solid, crisp and nuty in flavor; keep for a long time. Pkt. 5c., oz. 20c., ¼1b. 65c. CIANT PASCAL. Stalks broad, thick and about 2 feet high;

GIANT PASCAL. Stalks broad, thick and about 2 feet high banch quickly, rich, nutty flavor; tender, crisp and stringless; valuable sort for both early and late, Pkt. 5c., oz. 20c., 1/16, 65c.

VEGETABLE PLANTS AND ROOTS.

All important sorts are offered on page 25. Those who wish large quantities should write for special prices.

BECKERT'S PERFECTION WINTER. Grows to a good size; very brittle, and creamy white in color. For solidity, crispness and fine, nutry flavor, it is unsurpassed; its most valuable recommendation to growers is its remarkable keeping qualities, as it can be kept easily until spring. Pkt. 10 cts., oz. 50 cts., ½1b. \$1.50.

PINK PLUME. Stalks are suffused with pink; crisp, rich, nutty and long-keeping, for which red Celeries are noted. Pkt. 5 cts., oz. 20 cts., ½lb. 65 cts.

CIANT COLDEN HEART. In size and quality it is all that could be desired; rich color and fine flavor. Pkt. 5 cts., oz. 20 cts., ½lb, 65 cts.

KALAMAZOO. Close-growing, large, thick, solid, crisp and delicious. Pkt. 5 cts., oz. 20 cts., 1/1b. 65 cts.

BOSTON MARKET. Half dwarf and very robust, producing numerous small shoots from the sides; quality fine. Bleaches nicely and is crisp and nutty. Pkt. 5 cts., oz. 20 cts., ½lb. 65 cts.

PREW ROSE. Of good size, crisp and tender, keeping long in prime condition. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 65 cts.

► LARGE WHITE SOLID. Very large. Few other sorts equal it in rich delicacy of flavor. Pkt. 5 cts., oz. 20 cts., ¼lb. 65 cts.

LONDON RED. Unexcelled in quality. One of the best keepers. Pkt. 5 cts. oz. 30 cts.

Prague Giant Celeriac.

CELERIAC, or TURNIP-ROOTED CELERY.

(Anollen Gellerie.)

Sow in early spring, in light, rich, soil; transplant the seedlings in May, and water freely in dry weather. They will be ready for cooking in October, and may be preserved in dry sand for use during winter. Celeriac is said to be as fine a nerve tonic as celery, and can be grown in many sections where celery culture is practically impos-The roots have almost the same flavor as the crispest white celery stalks, while they keep much longer than celery. An ounce of seed will produce about 2,000 plants. PRACUE CIANT. The roots of this variety are very large and smooth, with no side roots. When young they are quite tender and marrow-like, having a very fine flavor, and cooking quickly. The plants are vigorous, with large, deep green foliage. We believe this to be the best of all varieties for general culture, and so have discarded other sorts. Pkt. 5 cts., oz. 25 cts.

EGG-PLANT. (Gierpflange.)

ENDIVE.

(Enbivie.)

This is an important fall and winter salad. For early, the seed should be sown in April, in drills 15 inches apart, and the seedlings thinned to stand 12 inches apart in the rows. Sowings for the main tributer of the salar in crop can be made in June and July, as the vegetable is used principally in fall and winter. The inner leaves may be blanched to a beautiful yellowish white in from 3 to 5 weeks, by tying the tips of the outer ones together, or by laying boards over the plants. Ordinarily good soil and culture are all the crop requires. An ounce of seed will sow 150 feet of drill.

Improved New York Thornless Egg-Plant.

CREEN CURLED. Most generally cultivated. Dark green leaves, beautifully curled, and when blanched very crisp and tender; they are ready for use a little earlier than other sorts. Pkt. 5 cts., oz. 20 cts.

BROAD-LEAVED BATAVIAN. The broad, thick leaves make excellent salads when blanched. The plant is very hardy, and yields heavier crops than other sorts, but does not blanch so easily. Pkt. 5 cts., oz. 20 cts.

MOSS-CURLED. Dense-growing, with finely cut and curled moss-

like leaves, quite crisp and tender. Pkt. Sets., oz. 20 cts. WHITE CURLED. Has tender,

curly leaves of silvery green. is deservedly one of the most highly esteemed varieties of Endive. Pkt. 5 cts., oz. 20 cts.

For Plants and Roots of Egg-Plant, Rhubarb, etc. Seg-Plant, Rhubarb, etc. Seg-Plant, Rhubarb, etc. Seg-Plant, Plants and Seg-Plant Seg-Plants and Seg-Plants full confidence that they will succeed any-where that seeds can be given ordinary care

Sow the seed in hotbeds early in March, transplant to small pots and plunge them in the same beds; this is to make them strong and stocky. They should not be planted out in rows until May or June, when the weather becomes warm and settled, as cool nights and wet weather will check their growth. Set the plants in rows 3 feet apart each way and give them thorough cultivation, drawing the earth up to the stems when they are about a foot high; it is well to keep some plants in the hotbed for re-Repeated sowplanting. ings are sometimes necessary, as the seed does not

germinate freely without strong and uniform heat. In cutting, do not injure the plant. An orace of seed will produce 1,000 plants.

NEW YORK IM-PROVED THORN-LESS. The leading market variety; strong

and productive in habit. The fruits are deep purple, large, smooth, free from thorns; fiesh white, tender, delicate flavor. Pkt. 5c., oz. 35c.

WHITE PEARL. Fruit pure creamy white, as large as New York Improved; quality very fine, well flavored. Pkt. 5 cts., oz. 35 cts.

The two varieties of Egg-Plant offered above we know to be by far the best of all sorts grown, and so we offer no others, long lists of varieties being so we offer no others, long lists of varieties being merely confusing to inexperienced gardeners. Some-times during cool, moist summers, when the fruit fails to set, pinching off the ends of the branches after the plants begin to bloom is found a good practice.

Broad-leaved Batavian Endive.

WE DELIVER FREE at any post office in the United States, at the prices named in this ounces, quarter-pounds, half-pounds and pounds.

Green Curled Endive.

Bennett's White Spine Cucumber.

CUCUMBERS.

For general crops, the seed cannot be planted in the open ground before the weather has become warm and settled, and the ground mellow and light. Plant the seeds in well enriched hills about 4 feet apart each way, and as soon as all danger from insects is over, thin the plants to leave 4 of the strongest in each hill. For succession, sow at intervals of every two seeks until midsummer. Extra early crops may be grown by planting the seeds in hotbeds in April, upon pieces of sod turned upside down, and removing them to hills in the open ground as soon as the weather is warm enough. For pickles, sow seed from the middle of June until the middle of July. The vines bear longer if the fruits are gathered as soon as they are large enough; their strength is soon exhausted by ripening fruits. An ounce of seed will plant 100 hills of the provides of the plant 100 hills o hills; 2 pounds will plant an acre.

They retain their glossy green color a long time on the vines Pkt. 5 cts., oz. 10 cts., 11b. 30 cts.

EXTRA LONG, or EVERGREEN WHITE SPINE. Fruits from 10 to 12 inches long, very straight and fine in appearance. When about 5 or 6 inches long they make excellent pickles. Pkt. 5 cts., oz. 10 ets., 1/1b. 25 ets.

IMPROVED WHITE SPINE. Early and productive. Fruit medium size, good shape, light green, with a few white spines on the surface. Pkt. 5 cts., oz. 10 cts., ¼lb. 25 cts.

EVERCREEN. Early and prolific; possesses every qualification of a perfect pickle sort, and being, as well, excellent for slicing. Pkt. 5 gts., oz. 10 ets., ½lb. 25 ets.

IMPROVED LONG CREEN. The leading long-growing sort, and excellent for pickles. The fruits are dark green, long, well-shaped. firm and crisp. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

COOL AND CRISP. Early and prolific; desirable for slicing. When mature it is of good size, very tender and crisp. Pkt. 5 cts., oz. 10 cts., 4lb. 25 cts.

JERSEY PICKLING. Superior for pickling, and extensively grown for that purpose. Vines are wonderfully productive and the fruits are rich, deep green, small and very uniform in size. Pkt. 5 cys., oz. 10 cts., 1/1b. 30 cts.

CHICACO, or WESTERFIELD PICKLE. Very large; used for fickling. The fruits are deep green, of medium length, pointed at the ends. Pkt. 5 cts., oz. 15 cts., 16 ts., 26 cts.

CREEN PROLIFIC. Fruits bright green, of medium size, short, almost cylindrical, crisp and good. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts. EVERBEARING. Produces fruit until frost : early and productive. Fruits are small, well-shaped, and good for pickling. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

PARIS PICKLING. Distinct from all others, the fruit being strikingly long and cylindrical and covered with fine prickles; solid, crisp and tender. Pkt. 5 cts., oz. 10 cts., ½lb. 30 cts.

BENNETT'S WHITE SPINE. Fruits 7 to 10 inches long, and TAILBY HYBRID. An excellent variety for family use. Pkt. proportionately thick throughout, being as full at both ends as in the 5 cts., voz. 10 cts., 10 cts.

NICHOL'S MEDIUM CREEN. Heavy cropper, with straight, smooth, green fruits. Pkt. 5 cts., oz. 10 cts., 1/1b. 25 cts.

EARLY RUSSIAN. Early and prolific; fruits are small, oval, pointed, crisp and good. Pkt. 5 cts., oz. 10 cts., 1/2 b. 25 cts.

JAPANESE CLIMBING. Vigorous, tall-elimbing, clinging tightly to trellises. Fruits almost straight, large, and from 12 to 16 inches long; skin dark green, flesh thick and delicately flavored. Pkt. 5 ets., oz. 15 ets.

WEST INDIA CHERKIN. Small, rough, prickly fruits, used for pickling. Pkt. 5 cts., oz. 15 cts., 1/4 lb. 50 cts.

ENGLISH FRAME CUCUMBER, TELEGRAPH.

This variety is used for forcing. It can be grown in hotbeds or houses where the temperature does not fall below 65 degrees at night. The fruits are long, smooth and handsome, frequently growing from 20 to 30 inches long. Pkt. 25 cts.

Jersey Pickling Cucumber.

DANDELION.

(Löwenzahn.)

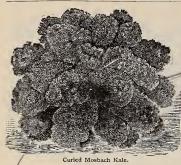

Sow as early as the weather will allow, in good, well-enriched soil, and in rows a foot apart. Thin to stand 3 or 4 inches apart in the rows. An ounce of seed will sow 100 feet of drill; a pound will sow an acre. FRENCH THICK-LEAVED. Pkt. 10 cts., oz. 40 cts.

"MILLTRACK" MUSHROOM SPAWN.

Our brand of Spawn has been celebrated for many years. It is manufactured under a peculiar process known exclusively to the manufacturer, and, when once used, no gardener will willingly take to any other kind. One chief feature of its superiority is the extraordinary length of time it continues to produce Mushrooms. Lb. 15 cts., by mail 25 cts.; 10 lbs. \$1

Mushrooms, How to Grow Them. (Falconer.) \$1.50, postpaid.

KALE, or BORECOLE.

(Rrausfohl.

This species of the cabbage family does not form heads. The leaves are of delicate flavor; quite hardy, and improved rather than injured by frost. Will grow in almost any soil, but both the flavor of the leaves and the yield are greatly improved by a rich one. An onnee of seed will sow about 200 feet of drill.

imperial Long-Standing. Curled and crimped; perfectly hardy, and of very vigorous growth; leaves bright green; will stand longer before going to seed than any other sort. Pkt. 5 cts., oz. 10 cts., ½ lb. 25 cts.

DWARF CERMAN CREENS (Siberian Kale). A standby everywhere for winter greens. Generally sown broadcast, but can be sown in drills a foot apart in August, and the plants treated like spinach; they will be ready for use early in fall. Pkt. 3 cts., oz. 10 cts., ½ lb. 25 cts.

DWARF CURLED CREEN SCOTCH. Seldom exceeds 18 inches in height, but rounds out to a diameter of 3 feet under good cultivation. The leaves are bright green; tender and elegantly curled. The variety is very hardy, and one of the best grown. Pkt. 5 ets., 0z. 10 ets., 1/41b. 25 ets.

MOSBACH. In height between the two preceding. Leaves bent upward; light yellow-green in color; very curled; white, narrow ribs; very showy. Pkt. 5 cts., oz. 15 cts., ½1b. 50 cts.

V TALL CURLED CREEN SCOTCH. Plants unusually hardy and productive, growing 2 feet or more in height, with recurved, spreading, deep green, curly leaves. Pkt. 5 cts., oz. 10 cts., ¼1b. 25 cts.

SEA KALE.

Grown for its bleached stems, which are prepared like asparagus. Sow in drills I inch deep and 2 feet apart; thin out to 6 inches in the rows; the following spring plant in hills 3 feet apart. Pkt. 10 ets., oz. 25 ets.

KOHLRABI.

(Rohlrabi.)

The roots are very palatable when prepared for the table like turnips, and when feed to cows give no unpleasant flavor to the milk. If the weather is favorable the seed should be sown in April, in rows 18 inches apart, and the seedlings thinned to stand a foot apart for White Giant, and 6 or 8 inches apart for other sorts. The stems swell into large bulbs just above the ground, and are fit for use when 3 or 4 inches in diameter. For late crops, sow seeds in June or Jajiv. An ounce of seed will produce about 2,500 plants.

Early White Vienna Kohlrabi.

VEARLY WHITE VIENNA. The best and earliest market sort. The plants grow rapidly, have small foliage, and mature their fine, round white bulbs quite early; the flesh is fine-grained, white, tender and good. Tops very short. Pkt. 5 cts., oz. 30 cts.

REARLY PURPLE VIENNA. This variety differs from the above mainly in the color of its roots, which are bluish purple; in quality they are superior to any other sort. Pkt. 5 cts., oz. 30 cts.

WHITE CIANT. A late, very large-growing sort, with immense bulbs, stems and leaves. Pkt. 5 cts., oz. 25 cts.

LEEKS.

(Lauch.)

Leeks are much used for seasoning soups and boiling with meats. Easily cultivated and very hardy, enduring severe winter weather without protection. The seeds should be sown in hotbed in early spring, and the seedlings transplanted later to the open ground, 8 inches apart, for a winter supply, sow seed in the open ground in early spring, and thin the seedlings until they have room for development, or transplant them as above; the former method gives larger stalks some time earlier than when the roots are transplanted. They should be stored like celery for winter. An ounce of seed will sow about 100 feet/of_drill.

MUSSELBURCH. A hardy, popular sort, with broad, spreading leaves and very large stalks. Pkt. 5 cts., oz. 20 cts.

LONDON FLAC. The variety most extensively cultivated. Stalks early and large. Pkt. 5 ets., oz. 20 ets.

 $\sqrt{\text{ROUEN WINTER.}}$ Stalks very large, hardy, late-keeping, and lighter green than in other sorts. Pkt. 5 cts., oz. 20 cts.

TTALIAN CIANT. Stalks enormous, hardy, vigorous, mild and agreeable in flavor. Pkt. 5 cts., oz. 25 cts.

CIANT CARENTAN. One of the best sorts. Stalks short, thick, hardy, mild-flavored. Pkt. 5 cts., oz. 25 cts.

Use our Special Evergreen Lawn Mixture. It will give you satisfaction in the highest degree. See inside of back cover.

London Flag Leek.

LETTUCE.

Seed for the first outdoor crop is usually sown in hotbeds in February, and the seedlings transplanted to the garden in April, 8 to 1, inches apart, in rows 12 inches apart. For a succession until frost, sow in drills in the open ground at intervals of every two or three weeks2 and thin the plants to stand 6 or 8 inches apart. For Lettuce that is to be wintered over outdoors for an early spring crop, sow the Hardy Green Winter variety in a bed early in September, eover with a frame, and when the seedlings are large enough transplant them to shallow drills in a shell-week situation and protect them with like it likes. tered situation, and protect them with light litter of some kind. As winter approaches the drills must be drawn, so that water will drain from them, or spyroneares are utrus muss be trawn, so that water will drain from them, or the plants cannot survive the winter. For plants to force in hotbeds from November until spring, sow seed in hotbeds in the fall, and cover up as winter approaches, until the plants are required for use. Or the seed may be sown in hotbeds early in winter and the seedlings transplanted when large enough into fine/and well-prepared garden soil. Half an ounce of seed will sow 100 feet of drill, and produce about 1,500 plants.

WONDERFUL. Probably the largest heading variety in cultivation, often attaining a size of 2½ pounds and over; outside leaves deep green, slightly crimped; heads hard, white, crisp, tender, of fine flavor. Pkt. 5 ets., oz. 25 ets.

THE MORSE. Of the Simpson type. Outer leaves light green, while the inner leaves, owing to compact growth, are bleached a beautiful yellow; quality the best. Pkt: 5 cts., oz. 25 cts.

BECKERT'S COLDEN CURLED. The very best for early spring and summer crops, and largely grown by market men. Grows rapidly, resigts heat well, and forms immense, tender heads of nicely curled, light yellow leaves of the best quality. Pkt. 5 cts., oz. 25 cts.

V BECKERT'S BROWN CURLED, or CHARTIER. Closely resembles the above, except in color. Grown under glass, the leaves are a soft, greenish white; but grown in the open air they take on a bronze cast, still remaining very crisp and tender. First-class for forcing and open air culture Pkt. 5 cts., oz. 25 cts.

VBLACK-SEEDED SIMPSON. Grows very rapidly, withstanding heat and drought unusually well, and forming large, bushy, light-colored stalks. Pkt. 5 cts., oz. 20 cts.

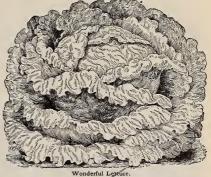

SAUNDERS. Remarkable for earliness and rapidity of growth. Heads large, firm, and endure heat well; tender and good. Pkt. 5 cts.,

oz. 25 cts.

BIC BOSTON. The solidity and large size of the heads make this of great value for forcing and general crops. Pkt. 5 cts., oz. 20c.

PERPIGNAN, or DEFIANCE. Heads large and solid, crisp, tender, free from all bitter taste, and deli-cately flavored. Pkt. 5c., oz. 20c.

CRAND RAPIDS. Superb for forcing. Leaves light green, much crimped and frilled, grow straight upward, and remain fresh and tender after exposure longer than other sorts. This is one of the most profitable of all varieties for market and forcing. Pkt. 5 cts., oz. 20 cts.

CALIFORNIA CREAM BUT-TER. Heads solid, medium early, good size, firm, crisp, tender and of creamy yellow color. Little affected by beat. Pkt. 5 cts., oz. 20 cts. HOTHOUSE. Grows very rapidly; is a sure header, and does not rot on the ground. Size double that of the Tennisball. Pkt. 5 cts.,

oz, 20 cts. HANSON. Large and vigorous, and forms immense heads; leaves green, light yellow within; sweet and crisp. Pkt. 5 ets., oz. 20 ets.

*REICHNER'S WHITE BUT-TER. One of the best Cabbage Lettuces for forcing and out doors; very hardy, large, white and solid.

Pkt. 5 cts., oz. 20 cts. -ICEBERG. Handsome Cabbage Lettuce. Light green, with slight reddish tinge at the edges. Pkt.

5 ets., oz. 20 cts. COLDEN QUEEN. Splendid dwarf, compact-growing forcing Let-tuce. Color golden yellow; quality fine. Pkt. 5 cts., oz. 20 cts.

NEW YORK CABBACE. Very deep green, with large, solid heads of superior

flavor and crispness. Pkt. 5 cts., oz. 20 cts. BOSTON MARKET. A favorite for forcing Small, compact heads; very crisp

and tender. Pkt. 5 cts., oz. 20 cts. DENVER MARKET. Leaves wrinkled like Savoy cabbage. Large heads, light green color; flavor fine and delicate; quite early. Pkt. 5 cts., oz. 20 cts.

TILTON'S WHITE STAR. Grows large and rapidly; the leaf is broad, thick and

top-frilled. Pkt. 5 cts., oz. 20 cts. WHITE-SEEDED SIMPSON. For sowing broadcast early in spring. Leaves

light green, very curly and well-flavored. Pkt. 5 cts., oz. 20 cts. OAK-LEAVED. Heads small, close and firm, tender and well-flavored. Pkt. 5 cts.,

SALAMANDER. Withstands the heat to an unusual degree; of excellent quality. Ptt. 5 cts., oz. 20 cts.

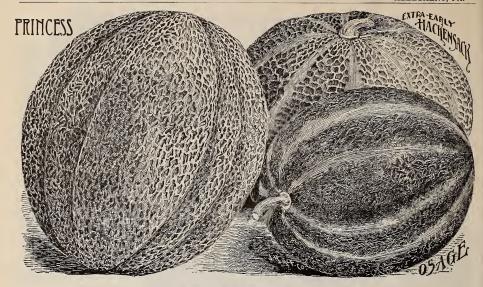

HARDY CREEN WINTER. Better adapted for standing outdoor winter weather than any other sort grown. Pkt. 5 ets., oz. 20 ets.

Big Boston Lettuce.

Beckert's Golden Curied Lettuce.

MUSKMELONS.

(Muscat Melonen.)

Muskmelon seed should not be planted outdoors until all danger from frost is over, and the ground has become warm and dry. The hills should be about 6 feet apart, and carrefully prepared. Rich earth is far better for the young plants than manure; but if the latter must be used, see that it is well rotted. Plant from 6 to 12 seeds in a hill, and when the young seedlings are strong enough to resist the attacks of insects, thin them, leaving 3 of the strongest in each hill. The vines should have clean cultivation until they cover the ground, and if they grow too rank, the tips of the shoots should be pinched off, causing them to set more fruits and develop them to finer size. An ounce of seed will plant about 100 hills

KINSMAN QUEEN. Earliest in cultivation and large in size for so early a melon. Flesh deep salmon, rich, juicy and delicious; nearly round, slightly ribbed and netted. Pkt. 5c., oz. 15c., ½h. 35c.

TEXAS CANNON-BALL. Round, medium size, heavily netted; flesh light green, good. Pkt. 5 cts., oz. 15 cts., ½h. 35 cts.

PAUL ROSE. Of medium size; flesh salmon color and very thick, quality unexcelled; very solid; a good keeping, and consequently a fine shipping melon. Pkt. 5 cts., oz. 20 cts., ½(h. 40 cts. JERSEY BELLE. Very early; flesh green and of delicious quality.

ity. Will thrive on very light soil. Pkt. 5 cts., oz. 10 cts., ½1b. 25c.

LONG ISLAND BEAUTY. About as early as Extra-early Hackensack, but with much better, thicker, sweeter flesh. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

CREEN-FLESHED OSACE. One of the finest green-fleshed molons; very prolific. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

EXTRA-EARLY HACKENSACK. A selection from the Hackensack, but ready for market 10 days earlier. Of good size, weighing from 5 to 10 pounds each. Pkt. 5 cts., oz. 10 cts., ½lb. 25 cts.

HACKENSACK, or TURK'S CAP. Grows to fine size; flesh light green, thick, sweet and juicy. Pkt. 5c., oz. 10c., 1/4 lb. 25c.

EMERALD CEM. Early, with small, smooth-ribbed, dark green fruits; flesh thick and salmon-colored, granular, sweet and delicious. Pkt. 5 cts., oz, 10 cts., ½lb. 25 cts.

PRINCESS, or PERFECTION. Flesh so thick and seed cavity so small that the melon seems almost solid. Rind thin, tough, and sparingly netted; flesh rich salmon, fine-grained, sugary and melting. Pkt. 5 ets., oz. 10 ets., ½1b. 25 ets.

BANQUET. Medium size, netted; flesh bright salmon, uniformly thick, sweet, juicy, and of granular, melting character. Pkt. 5 cts., oz. 10 cts., ½lb. 25 cts.

CHICAGO MARKET. Early, large; flesh thick, light green, and exceedingly good. Pkt. 5 cts., oz. 10 cts., ¼lb. 25 cts.

MILLER'S GREAM, or OSACE. Fruits large and round, with light green, netted skin and thick, sweet, salmon-colored flesh. Pkt. 5 cs., oz. 10 cts., ½1b. 25 cts.

THE COLUMBUS. Of good size; skin bright, glossy yellow when ripe; deep green flesh; small seed cavity; quality excellent. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

CASABA, or PERSIAN. Large, oblong, oval; thin, netted skin and fine-grained, yellowish green flesh of rich, melting substance. Pkt. 5 ets., oz. 10 ets., ½1b. 25 ets.

PROLIFIC NUTMEC. Very productive; fruits small, but having rich and delightful flesh. Pkt. 5 ets., oz. 10 ets., 1/4 lb. 25 ets.

IRONDEQUOIT. Similar to Miller's Cream, but larger. Has the same exquisite nectar flavor. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

JENNY LIND. Early, green-fleshed and very sweet. Fruits flat, globe-shaped, ribbed and lightly netted, of medium size. Pkt. 5 cts., of. 10 cts., \(\frac{1}{10}, \frac{1}{20} \) cts.

MELROSE. Dark green; shape oval; weighs about 4 pounds; flesh thick and solid, light green, changing to rich salmon at the seed eavity. Pkt. 5 cts., oz. 10 cts., ½4b. 25 cts.

TIP-TOP. Every fruit is a good one. Sweet, juicy, of fine flavor, firm, but not hard-fleshed. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

NETTED GEM (Golden Gem). Globe-shaped; small and uniform; thick-meated, flesh light green in color, and uniformly fine, luscious flavor; skin ribbed and thickly netted; prolific. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

BANANA. Shaped like a banana. Grows 18 inches to 2 feet in length; flesh salmon color, of delicious fragrance. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

MUSKMELONS, continued.

CRAND RAPIDS. Extra early yellow-fleshed sort of fine quality. Pkt. 5 cts, oz. 10 cts., 11b. 25 cts.

wet, salmon-colored fiesh. Pkt. 5 ets., oz. 10 ets., ½lb. 25 ets.

ACME, or BALTIMORE. Fruits medium size, oval, lightly ribbed; flesh

light green, rich and juicy. Pkt. 5 cts., oz. 10 cts., 41b. 25 cts.

DELMONICO. Rich, orange-pink flesh; large, oval, heavily netted and

DELMONICO. Rich, orange-pink nesh; large, oval, neavily netted and thick-meated. Pkt. 5 cts., oz. 10 cts., ¼10. 25 cts.

GREEN CITRON. Round, netted melon of medium size; flesh thick,

Hight green, sweet and delicate. Pkt. 5 cts., oz. 10 cts., ¼1b. 25 cts.

—BIRD CANTALOUPE. Large; of fair quality; produces heavy crops.
Pkt. 5 cts., oz. 10 cts., ¼1b. 25 cts.

Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

BAY VIEW. Very large, early ripening, oblong Muskmelon; flesh green, sweet and spiev. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

SWEET and spicy. Pkt. 3 cts., 02. 10 cts., 410. 25 cts.

SKILLMAN NETTED. Early; roundish oval fruits, with deep green, sweet, perfumed fiesh. Pkt. 5 cts., 02. 10 cts., 41b. 25 cts.

ROUND YELLOW CANTALOUPE. Productive and very early. Of good size, and its red-orange fiesh is delicate and sugary. Pkt. 5 cts., oz. 10 cts/ ½1b. 25 cts.

CHRISTINA. Extra early; flesh bright orange; of fine quality and peculiar flavor, Pkt. 5 cts., oz. 10 cts., 10 cts., 10 cts.

Paul Rose Muskmelon.

WATERMELONS.

(Baffermelonen.)

An effort should be made to secure good, strong vines early in the season, and this can best be done by taking care that the hills are large, mellow and well drained, with the manure placed so that they will not dry out quickly near hot suns. All possible protection from insects should be given the young plants, and their growth may be hastened still further by frequent applications of liquid manure. As a protection from insects, netting is frequently used, and also dry ashes or coal-dust sprinkeled over the leaves when wet. Plant the seeds thickly, and thin the plants to 4 of the strongest in each till. An ounce of seed will plant about 50 hills.

round; very sweet. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

COLE'S EARLY. Flesh bright red, delicate in texture; fruit-

COLE'S EARLY. Flesh bright red, delicate in texture; fruit nearly round and of medium size; rind thin. Pkt. 5 cts., oz. 10 cts., 41b, 25 cts.

VSWEETHEART. Flesh bright red, firm and heavy, crisp, melting and exceedingly sweet. Pkt. 5 cts., oz. 10 cts., 1/41b. 25 cts.

DARK ICING, or ICE RIND. One of the sweetest and modelicious of all. Fruits of medium size; flesh bright red, firm, delecate, with rich, abundant juice and very fine flavor. Pkt. 5 cts., oz. 10 cts., ½lb. 25 cts.

KOLB CEM. Fruits very large, roundish oval, with rind hard and tough, lightly striped with light and dark green; flesh bright red, tender and fairly good. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

RUBY COLD. Golden yellow, striped and blotched with bright red and pink; tender, juicy, rich, sweet and melting. Pkt. 5 ets., oz. 10 ets., ¼1b. 25 ets.

GREEN AND GOLD. Golden orange, granular and sugary flesh. Bears heavy crops of good sized fruits. Pkt. Sc., oz. 10c., ½1b. 25c.

TRAY MONARCH. The largest grown, and among the best. The deep red, delicate flesh ripens close to the thin, hard rind. Pkt. 5 ets., oz. 10 ets., ½1b. 25 ets.

VOLCA. A small, round, late melon, superior in quality. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

BLACK SPANISH. Round, dark green fruits of medium size, with melting, sugary, red flesh. Pkt. 5 ets., oz. 10 ets., ½lb. 25 ets.

PRIDE OF CEORCIA. A good shipper. Fruits large, oval, ridged like an orange; flesh tender, sweet and delicate. Pkt. 5 ets., oz. 10 ets., ½lb. 25 ets.

MOUNTAIN SWEET. Flesh red, solid, juicy and delicious. Pkt. 5 ets., oz. 10 ets., 1/2 lb. 25 ets.

McIVER SUGAR MELON. Uniformly large and oblong in Shape; quality very superior; flesh pale pink, crisp, very sweet and frpé from stringiness. Pkt. 5 ets., oz. 10 ets., ½1b. 25 ets.

FLORIDA FAVORITE. Large, oblong, with sweet, red flesh. Early, and an excellent melon for home gardens. Pkt. 5 cts., oz. 10 cts., ½b. 25 cts.

VICK'S EARLY. Small, very early; flesh bright pink, solid and sweet. Pkt. 5 ets., oz. 10 ets., ¼1b. 25 ets.

COLORADO PRESERVING. Productive and large; fiesh pale green, firm and solid; seeds few. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts. RED-SEEDED CITRON. Flesh white and solid; seeds red. This and the preceding are used for preserves, pickles, etc. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

Dark Icing Watermelon.

MARTYNIA.

(Gemfenhorn.)

The seed-pods are excellent for pickling if gathered when tender and about half-grown. Sow the seed in May, in rows 3 feet apart, and thin the plants to stand 2 feet apart in the rows. Pkt. 5 cts., oz. 25 cts.

MUSTARD.

(Genf.)

The young and tender leaves of the Mustard are greatly relished as salads or when cooked like spinach. The seed should be sown in shallow drills as early as the ground can be prepared in spring, and the leaves cut when several inches long. Pkt. 5c., oz. 10c., lb. 60c.

ONION SEED AND SETS.

(Bwiebel.)

GOOD ONION SEED IS OF THE GREATEST IMPORTANCE.

Onions thrive best on a rich, deep, loamy soil. For sets, the seed should be sown very thickly in drill as early as possible in spring. In summer, as soon as the tops lie down, harvest the bulls and store them in a dry, cool place, spreading them in thin layers. Early in the following spring replant them 4 inches apart, in small drills 12 inches apart, and they will form into fine, large bulbs early in the season. Large Onions may also be grown from seed the first season, if the land is strong and well manured, the seed sown thinly in drills a foot apart, and the seedlings thinned to stand or 4 inches apart in the drills: they must be well cultivated and kept free from weeds. For this purpose Yellow Danvers and Red Wethersfield are generally prefer and an ounce of seed will sow 100 feet of drill. Five pounds per acre will be required for large Onions; for sets, 60 pounds.

SOUTHPORT WHITE GLOBE.

A large, showy, globular white Onion, which sells quickly in market. The bulbs grow quite rapidly, and if the seed is sown early, good-sized roots, suitable for pulling and marketing in a green state, are soon formed. They are mild-flavored, keep well, and the yield is good. Pkt. 5 ets., oz. 25 ets., 4tb. 80 ets., bb. \$2.75.

YELLOW GLOBE DANVERS.

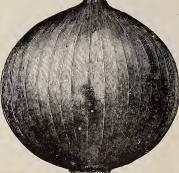

One of the most popular and profitable that can be grown for market. The bulbs are of fine shape and grow to good size, while the yield per acre is enormous, averaging from 600 to 800 bushels on good soil and with good culture. They have a thin, yel-low skin and mild, fine-grained, white flesh; they grow to fine size the first year, and keep unusually well. Pkt. 5 cts., oz. 15 ets., 4lb. 45 ets., lb. \$1.50.

WHITE PORTUGAL, or SILVERSKIN.

Largely grown for white Onion sets Bulbs large, and fine appearance, with silvery white skin, and sweet, tender, white flesh; they do not keep well, but are mild-flavored, and excellent for family use and for pickling. Pkt. 5 cts., oz. 25 cts., \(\frac{1}{4}\)lb. 80 cts., lb. \(\frac{1}{2}\).75.

SPANISH KING, or PRIZETAKER.

Bulbs very large, round and handsome; rich yellow skin and mild, sweet, pure white flesh; quite free from stiff necks; bottom well, and yield enormously. A very desirable sort. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 60 cts., lb. \$2.

Yellow Globe Danvers Onion.

Southport White Globe Onion.

VELLOW DUTCH, or STRASBURG. Bulbs flat, and attain a good size; yellow color, white flesh, mild flavor, and one of the best keepers. Grown largely for sets. Pkf. 5c., oz. 15c., ½lb. 45c., lb. \$1.50.

RED WETHERSFIELD. Productive PRED WETHERSFIELD. Productive and long-keeping. Bulbs deep purplish red., flat, strong-flavored, and grow to a large size the first year from seed. Pkt. 5 c/s., oz. 15 cts., ½th. 45 cts., lb. \$1.50.

SOUTHPORT YELLOW CLOBE. Similar to White Globe, save that it is light straw-colored. Pkt. 5 cts., oz. 20 cts. (bb. 50 cts. bb. 31.5 cts.)

ets. 14lb. 50 ets., lb. \$1.75.

FLAT YELLOW DANVERS. Grows to good size, ripens early; mild in flavor and keeps well. Flatter than the Globe Danvers, but has the same yellowish skin and attractive appearance. Pkt. 5 cts., oz, 15 cts., ½1b. 40 cts., lb. \$1.40.

BARLETTA. Extra early, small, pure white Onion, with delicate, silvery skin, and firm, mild, pleasant flesh. Grown for pickling. Pkt. 5 cts., oz. 20 cts., 1/4lb. 60 cts., lb. \$2.

QUEEN. Favorite pickling Onion. Small, very early, pure white, mild-flavored, and a good keeper. Pkt. 5 cts., oz. 20 cts., 1/4lb. 60 cts., lb. \$2.

BERMUDA WHITE. A very early variety, grown largely in Bermuda and our southern states. Quality very fine. Pkt. 5 cts., oz. 25 cts., 16. 80 cts., lb. \$2.75. WHITE VICTORIA. Bulbs large and globular; flesh pure white. Pkt. 5 cts., oz. 20 cts., ½1b. 60 cts., 1b. \$2.

RED VICTORIA. Large, handsome, globe-shaped Onion; skin dark bloodred; flesh pure white and mild. Pkt. 5 cts., oz. 15 cts., ¼lb. 45 cts., lb. \$1.50.

AUSTRALIAN BROWN. Skin deep amber-brown; shape same as the Strasburg; flesh very firm and of fine quality. Superior as a keeper to any other Onion grown. Pkt. 5 cts., oz. 20 cts., ½[b. 60 cts., [b. 5].

ONION SETS. (Price Variable.)

Where the seasons are so short that large Onions cannot readily be grown from seed the first season, these are indispensable. Plant about 4 inches apart in drills 12 inches apart, lightly covered, and well cultivated.

If sent by mail, add postage at the rate of 10 cts. per quart. WHITE ONION SETS. For early use. Qt. 20 cts., pk, \$1.50, bus. \$5.

YELLOW DANVERS. Qt. 15 cts., pk. \$1.15, bus, \$4. RED WETHERSFIELD. Qt. 15 cts., pk. \$1.15, bus. \$4.

Write for special price on Onion Seed in large quantities.

Spanish King, or Prizetaker Onion.

For Beware of Cheap Onion Seed! The crop of 1898 has been extremely short, and, consequently, good seed will not be offered at low prices.

White Velvet Okra.

OKRA.

(Safran.)

The tender young pods are used for seasoning soups and stews. Sow the seeds thickly, in rich soil, about the middle of May, in drills 3 feet apart, and cover the seeds an inch deep. Thin the young plants to stand 10 inches apart, hoe them often, and earth up the stems a little in cultivation, for support. An ounce of seed will plant 100 hills.

IMPROVED DWARF. Grows about 14 inches high. Pods are smooth tender and wellflavored. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

WHITE VELVET. Pods pure white, round and smooth, with no square edges or disagree-able prickles. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25c.

PUMPKINS.

Grown principally for stock-feeding, yet some are so sweet, juicy and fine-grained that they will always be considered indispensable for pies and sauces. The vines require the same culture as that recommended for melons, but the seeds must be planted in hills much wider apart; frequently they are planted among corn. A pound of seed will plant from 200 to 300 hills.

LARGE CHEESE. A favorite for cooking and for stock-feeding. Both the rind and flesh are orange-colored, and the quality is excellent for cooking purposes. Pkt. 5 cts oz. 10 cts., 1/1b, 25 cts.

COLDEN OBLONG. Fruit long, dark green, changing into yellow as it ripens; flesh light yellow, rich and of fine quality; excellent for pies; good keeper. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

QUAKER PIE. Nearly oval; creamy white in the shell and flesh; sweet and rich, and an excellent keeper. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

JAPANESE PIE. Fine-grained, dry, sweet flesh, having much the taste of a sweet potato; very thick and nearly solid. Ripens early and keeps well. Pkt. 5 cts., oz. 10 ets., 1/1b. 25 ets.

TENNESSEE SWEET POTATO. Medium-sized, pear-shaped, keeps well in winter, and is good for pies, etc. Flesh creamy white, of a pronounced sweet potato flavor. Pkt. 5 cts., oz. 10 cts., ½lb. 25 cts.

CUSHAW. Resembles the Winter Crookneck squash in form. colored and of good flavor; rind light cream color, striped with green; fruits very large; vines productive. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

MAMMOTH KING. Enormous golden yellow Pumpkin, grown for stock-feed-c. Pkt. 4 cts., oz. 10 cts., 1/4lb. 30 cts.

MAMMOTH RED ETAMPES. Splendid for exhibition purposes. The Pumpkins are immense, and the rind is a bright, glossy red

Pkt. 5 ets., oz. 10 ets., 1/4lb. 25 ets. CONNECTICUT FIELD. The common field Pumpkin, grown for stock feeding. Oz. 5 cts., 14lb. 10 ets., lb. 25 ets.

WINTER LUXURY. Golden russet color, and finely netted. Very productive; an excel-lent keeper, and of the finest quality for pies. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

CALHOUN. Skin creamy brown; flesh deep salmon-yellow, thick and fine-grained. Makes a pie of rich golden vellow, and of the finest quality. Pkt. 5 ets., oz. 10 ets., 1/1b. 25 ets.

Large Cheese Pumpkin.

RHUBARB, or PIE PLANT.

(Rhabarber.)

Used for making pies and sauces. Coming very early in spring, it is a very seceptable substitute for fruit. Sow the seed early, and when the plants are large enough, thin them to 4 or 5 inches apart. The next spring or fall transplant them 3 feet apart each way in deep, rich soil. For forcing, take up some large roots and place them in a dark corner of the cellar or greenhouse

LINNAUS. An early, tender sort; the best for general use, and very largely used. Pkt. 5 cts., oz. 20 cts.

VICTORIA. Late; stalks very thick and large; useful especially to prolong the season. Pkt. 5 cts., oz. 20 cts.

We supply Rhubarb Roots also (see page 25). These give fine. juicy leaf-stalks for cooking or wine-making a season or two earlier than they can be obtained by sowing the seed.

Tennessee Sweet Potato Pumpkin.

Japanese Pie Pumpkin.

MAKE A NOTE

Of the fact that we deliver free to any post office in the United States, at the prices named in this Catalogue, all Vegetable Seeds sold by the packet, ounce, quarter-pound, half-pound and pound.

Linnaeus Rhubarb.

-- 19 ---

A PARSLEY. Much used for garnishing and flavoring soups, stews, etc. The seed is slow to germinate, and should be sown as early as possible, in drills 12 inches apart, thinning plants in rows 4 to 6 inches apart. It requires rich, mellow soil. V DWARF EXTRA CURLED. Dwarf, with finely curled leaves. Pkt. 5 cts., oz.

CHAMPION MOSS CURLED. Leaves bright green, finely cut and beautifully curled. Pkt. 5 cts., oz. 10 cts., 10 cts., 24lb. 30 cts. EMERALD. Leaves a deeper green than in any other sort; curly and deeply cut. Pkt. 5 cts., oz. 10 cts., 11b. 30 cts. PLAIN-LEAVED. Best for flavoring;

PARSNIPS.

(Bastinafen.)

Aside from its value as a table vegetable, the Parsnip also furnishes a healthful and nourishing food for stock. Sow the seed in drills 15 inches apart, as early as possible in spring, and thin the plants until they are 5 or 6 inches apart in the rows. The roots are improved by frost, and only enough for winter use need be taken up in the fall, leaving the rest in the ground until spring, to be dug up as required. By running a plow, such as six used for breaking sod, along one side of the rows, field-crops of Parsnips will be thrown out so that they can be harvested easily. Deep, rich, heavy soil is best suited to the culture of Parsnips, but on any deep, rich, mellow soil the yield is good per acre, and the roots will be smooth and large if no fresh manure is used; this tends to make them coarse-grained and misshorm. An ounce of seed will sow 100 feet of will: 5 nounds will sow a core. missbapen. An ounce of seed will sow 100 feet of drill; 5 pounds will sow an acre.

IMPROVED HOLLOW CROWN. The variety most cultivated. The roots are tender and sweet, and their yield per acre is heavy. Pkt. 5 cts., oz. 10 cts., 1/1b. 25 cts., lb. 75 cts. CUERNSEY. The roots do not grow as long as those of the preceding, but are thicker and more easily gathered. A very heavy cropper; roots smooth; flesh fine-grained and of excellent quality. Pkt. 5 cts., oz. 10 cts., 10 ct

Improved Hollow Crown Parsnip.

PEPPER.

(Bfeffer.)

Sow in hotbed as early as April, and transplant to rich, warm, mellow soil as soon as the weather has become warm and settled, setting them about 2 feet apart in drills 3 feet apart. Seed may be sown later in the open ground, when all danger from frost is over, and thinned to the distance given above. The pods are used

in making all sorts of pickles. An ounce of seed will produce 1,000 plants. LARGE BELL, or BULL NOSE. Widely grown, standard old variety, with very large, thick pods. Pkt. 5 cts., oz. 25 cts.

RUBY KINC. Bright red pods, about 5 inches long and 3 or 4 inches thick; mild and pleasant in flavor. Pkt. 5 cts., oz. 25 cts. SWEET MOUNTAIN. An early fruiting sort; enor-

mous, mild-flavored pods, much used for mango making, and mixing with salads. Pkt. 5 cts., oz. 25 cts.

VIMPROVED LONG RED. Pods long, curved and tapering, 2 inches thick at the stem end; flavor sweet and mild. Pkt. 5 cts., oz. 25 cts.

COLDEN QUEEN. Pods large, yellow; similar to Large Bell in shape, but milder flavored. Pkt. 5 cts., oz. 25 cts.

CREOLE. Small red pods; they are largely used in the manufacture of Tobasco sauce. Pkt. 5 cts,,

LONG RED CAYENNE. Pods long, slender, bright red, very sharp. Pkt. 5 cts., oz. 25 cts. LONG YELLOW CAYENNE. Pods vellow, similar to the above. Pkt. 5 cts., oz. 25 cts.

RED CHILL. Used for making Pepper-sauce. Pods small, conical, scarlet; pungent; plants very fruit-Pkt. 5 cts., oz. 25 cts. RED CLUSTER. Similar to Chili, but with smaller leaves and smaller fruits. The pods are thin, coral-

red, sharp. Pkt. 5 cts., oz. 25 cts.

CHERRY RED. Pods small, round, bright red; ornamental. Pkt. 5 ets., oz. 25 ets.

Improved Long Red Pepper.

10 cts., 1/4 lb. 30 cts.

Dwarf Extra Curled Parsley.

RADISHES.

(Rettia.)

To be erisp and tender, Radishes must grow quickly; whenever growth is checked by drought or cold weather, they become tough and pithy. Rich, light, sandy soil suits them best. For the foreing crop, sow seed in hotbeds in rows 5 or 6 inches apart, and thin the plants as the ground becomes warm. Seed of winter varieties should be sown in midsummer. Summer varieties are best adapted for general crop. An ounce of seed will sow about 75 feet of drill.

EARLY or FORCING RADISHES.

ROSY CEM, or RAPID FORCINC (White Tipped). Globe-shaped, deep scarlet, blending into pure white at the bottom; tender and fine-grained; a rapid grower, and very early / Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

WHITE BOX. Handsome turnipshaped pure white Radish of excellent quality and flavor; very early; fine for forcing and outdoors. Pkt. 5 cts., oz. 10 ets., 1/1b. 25 ets.

Skin deep-scarlet; flesh sweet, tender, mild and crisp; quick-growing, early variety; tops small. Pkt. 5 cts., oz., 10 cts., 1/4 lb. 25 cts.

CINCINNATI MARKET. Distinct and very early type of the Long Scarlet Short Top. Small top, very early, and probably the best long red varies for forcing. Pkt. 5 cts., 12b. 25 cts.

EARLY SCARLET CLOBE. Beautiful scarlet: early, crisp, tender and mild: tops small. Pkt. 5 cts., oz. 10 ets., 1/4lb. 25 ets.

Chinese Rose Radish

White Box and Rosy Gem Radishes.

Scarlet Turnip Radishes.

PEARL FORCINC. Shape half-long and thicker than long-growing varieties. Color waxy white; good for foreing. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts.

FRENCH BREAKFAST, Oliveshaped; red above and white below; of orick growth; crisp, sweet and tender. Pkt. 5 cts., oz. 10c., 11b. 25c. OLIVE - SHAPED SCARLET.

Skin bright scarlet; flesh firm and crisp. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25c. OLIVE-SHAPED WHITE. Like above, except that the roots are white. Pkt. 5 ets., oz. 10 ets., 1/4lb. 25 ets.

OLIVE - SHAPED YELLOW. Similar to the two preceding, except in color, Pkt. 5 cts., oz. 10 cts., 1/41b. 25 cts.

EARLY YELLOW Forms a pretty contrast for the early red and white varieties. Pkt. 5 cts., oz. 10 cts., ¼lb. 25 cts.

HALF-LONG DEEP SCARLET. Fine extra-early; possessing all qualities which go ke a good Radish. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts. SURPRISE. Very early, olive-shaped light brown Radish. Remains in fine condition

ong time; desirable for forcing and outdoors. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts. WOOD EARLY FRAME. A long variety, for forcing and outdoor crops; early. kt 5 ets., oz. 10 ets., 4lb. 25 ets.

LONG BRICHTEST SCARLET. Vivid scarlet, tipped with snow white; rapid grower. Pkt 5 cts., oz. 10 cts., 1/4lb. 25 cts.

MAIN CROP RADISHES.

BECKERT'S IMPROVED CHARTIER. The finest variety in existence; as early as Long Scarlet Short Top, but better in quality; will stand far longer, and is in all respects superior to any other Radish in cultivation. Pkt. 5 cts., oz. Wets., 4lb. 25 ets.

BECKERT'S NONPAREIL, or WHITE CHAR-TIER. A selection from the preceding, and like it in

every point except color, which is all white; a very excellent variety. Pkt. 5 cts., oz. 10 cts., ¼lb. 25 cts. BECKERT'S CHARTIER TURNIP. A local variety of great merit. Pure white, early, varying in shape from oblong to globular, remaining tender and solid a long time. Pkt. 5 cts., oz. 10 cts., 1/1b, 25 cts.

WHITE STRASBURC. Half-long and thick; skin and flesh pure white; excellent for summer use; grow rapidly. Pkt. 5 cts., oz. 10 cts., ½10. 25 cts.

CIANT STUTTCART. Very large; globular in shape; pure white; stands heat well; always juley, crisp and tender. Pkt. 5 cts., oz. 10 cts., ½10. 25 cts.

VLONC WHITE VIENNA. Skin and flesh are snow white; flesh crisp, tender and brittle; of rapid rowth. Pkt. 5 cts., oz. 10 cts., ½lb. 25 cts.

LONG SCARLET SHORT-TOP. Long, straight and smooth; flavor delicate. Pkt. 5c., oz. 10c., 41b. 25c. GOLDEN CLOBE. Amber color; sweet, crisp; stands heat and drought. Pkt. 5c., oz. 10c., 1/4lb. 25c. GRAY SUMMER TURNIP. A popular, solid summer Radish. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25 cts. NEWCOM. Early, white, half-long; small top. Pkt. 5 ets., oz. 10 ets., 1/4lb. 25 ets.

WINTER RADISHES.

CHINESE ROSE. Half-long; flesh pink; solid, of excellent quality. Pkt. 5c., oz. 10c., 1/4lb. 25c. VCALIFORNIA, or RUSSIAN. Enormous, with good solid flesh. Pkt. 5 ets., oz. 10 ets., 1/4lb. 25c. LONG CRAY WINTER. Very long; grayish skin, and white flesh. Pkt. 5 cts., oz. 10 cts., 1/4lb. 25c. LARCE PURPLE COURNAY. Long, purplish roots; good. Pkt. 5 cts., oz. 10c., 1/4lb. 25 cts.

LONC WHITE SPANISH. Skin and flesh white, solid and mild in flavor. Pkt. 5c., oz. 10c., 1/1b. 25c. LONG BLACK SPANISH. Roots black; flesh white and slightly pungent. Pkt. 5c., oz. 10c., 1/4lb. 25c. ROUND BLACK SPANISH. Globe-shaped, white-fleshed; piquant flavor. Pkt. 5c., oz. 10c., 1/4lb. 25c.

Beckert's Chartier.

Hubbard Squash.

Prolific Marrow Squash.

SQUASHES, Summer and Winter.

(Spiefe=Rurbif.)

Squash seed should be planted about the same time and in much the same manner as cucumbers and meions. The hills should be 9 feet agree and way, slightly elevated and highly manured. Bush varieties may be planted closer together. Use plenty of seed, as the bugs will destry some plants. An ounce of seed will plant from 20 to 30 hills.

WHITE BUSH SCALLOPED, or PATTY PAN. The earliest; skip cream-colored; flesh sweet and rich; very productive. Pkt. green, thin, hard and smooth; flesh bright orange, thick, dry and 5cfs., oz. 10 cts., ½10. E5 cts.

MAMMOTH WHITE BUSH. Similar to the above, but with fruits much larger and pure white. Pkt. 5 cts., oz. 10 cts., ½10. 25 cts.

IMPROVED, or PROLIFIC MARROW. An improved strain of Boston Marrow; fruit deeper orange, more rounded, thicker, having a smaller seed eavity and better flesh. A productive, good-keeping Squash. Pkt. 5 cts., oz. 10 cts., ½10. 25 cts.

HUBBARD. A standard late Squash. Skin dark green; fire-fine-grained, dry, sweet, late-keeping. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

BOSTON MARROW. Well-known and popular. Skin and flesh bright orange; of excellent quality. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.
WHITE CHESTNUT. One of the best new Squashes. The fruits have the form of the Hubbard; flesh is tender, free from all stringiness, and boils as dry as a chestnut. Destined to great popularity with discriminating growers and consumers. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

oz-10 cts., 41b. 25 cts.

ESSEX HYBRID. Of peculiar form, round, with flattened ends; large, and keeps sometimes until June. Noted for its exceptionally fine quality. Pkt. 5 cts., oz. 10 cts., 42b. 25 cts.

TURBAN. An excellent fall and winter Squash; flesh yellow,

sweet.and good. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

MARBLEHEAD. Similar to Hubbard, but lighter, and said to be

a better keeper. Pkt. 5 cts., oz. 10 cts., 1/1b. 25 cts.

BUTMAN. A valuable late Squash, distinct in flavor from all other sorts. The skin is dark green, marked with white; flesh fine-grained, dry, rich. Pkt. 5 cts., oz. 10 cts. ½1b. 25 cts.

FAXON. Shell is thin; flesh deep yellow, thick, sweet and fine for pies. The Squashes vary in color from pale yellow to green, mottled and striped with a lighter color. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 25 cts.

BAY STATE. Thick-shelled and thick-meated; a little smaller than Essex Hybrid; flesh dry, fine-grained and good; a good yielder. Pkt. 5 ets., oz. 10 ets., ½[b. 25 ets.

FORDHOOK. An excellent family Squash for those who like the Crookneck flavor; the flesh is sweet, dry, and not at all stringy; vines hardy and productive of Squashes of uniform character. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

MAMMOTH CHILI. Very large and nutritious orange-colored fruits, which keep well all winter. The most profitable sort for stock feeding. Pkt. 5 cts., 0z. 10 cts., 1/2 b. 25 cts.

CIANT SUMMER CROOKNECK. The largest of the early Crooknecks, and as early as any; flesh tender and good, cooking quickly. Pkt. 5 cts., oz. 10 cts., ½ lb. 25 cts.

COLDEN SUMMER CROOKNECK. Early and productive; fraits yellow, covered with warty excrescences, as in all this race; flesh fine-grained and rich. All the Summer Crooknecks are noted for their great size and fine quality. This one is also handsome in appearance, therefore it will probably become very popular. Pkt. 5 cts., oz. 10 cts., 10 b. 25 cts.

SIBLEY. Of distinct form, larger at the stem end; shell dark green, thin, hard and smooth; flesh bright orange, thick, dry and delicately flavored; seeds peculiarly shaped and colored; vines productive, ripening their fruit with Hubbard, but in much greater abundance. This is one of the most distinct types of the Squash Tamily. Pkt. 5 cts., oz. 10 cts., ½(b. 25 cts.

WINTER CROOKNECK. A favorite late keeping winter Squash; yellow skin, sweet, fine-grained flesh. Pkt. 5 cts. oz. 10 cts., ½1b. 25c. CANAD CROOKNECK. Small, well-known winter sort. Pkt. 5 cts., oz. 10 cts., ½1b. 25 cts.

WARTED HUBBARD. Large; dark green. Shell very hard, covered with warted knobs. Very thick-fleshed, of the finest quality, and one of the best keepers in this family; the flesh is dry and rich. Pkt 5 cts., oz. 15 cts., 40. 50 cts.

COLDEN HUBBARD. A sport from the Hubbard. A perfect type of its parent except in color, which is bright, deep orange-yellow. Exceedingly showy and attractive; flesh deep yellow, much richer in color than the Hubbard. Very dry and of excellent flavor. Pkt. 5 cts., oz. 15 cts., ½1. 50 cts.

SALSIFY, or OYSTER PLANT.

(Bocksbart.)

When cooked the roots have something of the flavor and odor of oysters. They may be boiled, used in soups, or grated and fried as fritters. Culture the same as for parsnips and carrots. Roots are perfectly hardy, and may be left in the ground all winter, but should be dug early in the spring, as the quality deteriorates rapidly with the second growth. A quantity of roots for winfer use may be stored in a pit or in spind or damp earth in a cellar. An onne of seed will sow 75 feet of drill

MAMMOTH SANDWICH ISLAND. A great improvement on the French sort generally cultivated. The roots are twice as large, long, smooth, tender and well-flavored, resembling fair-sized parsnips. This sort needs only to be tried to become exceedingly popular. Pkt. 5 cts., oz. 15 cts., ½1b. 50 cts.

**FALL SEEDS by the quarter pound, half-pound and pound sent postpaid at Catalogue prices. If you are a market-gardener, send for list of seeds in bulk.

Salsify.

SPINACH.

(Spinat.)

One of the most important crops grown for greens, and may One or the most important crops grown for greens, and may be had in good condition from very early in the spring until cold weather. For early use sow very early in spring, and for succession at intervals. The main crop for spring and winter use should be sown in September, and the plants covered for winter. An ounce of seed will sow 50 feet of drill; 30 pounds to the acre.

VICTORIA. Foliage thick, broad, very dark green, and of the finest quality. Its principal feature is that it will remain in prime condition two or three weeks after other sorts have run to seed. Excellent for spring, likewise for a fall crop. Pkt. 5 cts., oz. 19 cts., ¼lb. 15 cts., lb. 35 cts.

LONG-STANDING THICK-LEAVED. The best sort for spring sowing. It has large, thick, fleshy, crimped leaves of the Savoy style. Pkt. 5 cts., oz. 10 cts., 15 cts., lb. 35 cts.

NORFOLK SAVOY. Hardy, and well adapted for winter crops. Leaves large and wrinkled, like a Savoy cabbage. Pkt. 5 cts., oz. 10 cts., ½1b. 15 cts., lb. 35 cts.

VIROFLAY. Good for spring sowing. Pkt. 5 cts., oz. 10 cts., 1/4lb. 15 cts., lb. 35 cts.

ROUND DUTCH. Pkt. 5 ets., oz. 10 ets., 1/4lb. 15 ets., lb. 35 ets.

CONC-STANDING PRICKLY. Pkt. 5 cts., oz. 10 cts., 1/4 lb. 15 cts., lb. 35 cts.

BECKERT HARDY WINTER. Preferable to other sorts for winter because the plants have long, fibrous tap-roots, which keep them from being up-rooted by frost. The leaves are large, firm textured and well flavored. Sow in fall, so that the plants may form good leaves fore cold weather. Pkt. 5 cts., oz. 15 cts., 1/4lb. 25 cts., lb. 60c.

> uality. Pkt. 5 ets., oz. 15 cts., 3/4lb. 30c., lb. \$1.

Norfolk Savoy Splnach.

Early White Milan and Purple-top Strap-leaf Turnips.

JERSEY LILY. Pure white, round Turnip; extra early; splendid quality. Pkt.

5 ets. 5z. 10 ets., 12 ets., 1b. 75 ets.

PURPLE-TOP STRAP-LEAF. Grown largely for fall and winter crops. Pkt. cts, 62. 10 cts., ¼1b. 20 cts., 1b. 60 cts.

LARCE EARLY RED-TOP CLOBE. Remarkable for its heavy yield per acre.

Pkt. 5 cts., oz. 10 cts., ¼lb. 20 cts., lb. 60 cts.

EARLY WHITE ECC. Pure white, egg-shaped; grow rapidly and are finegrained, sweet, delicate flavored and solid. Pkt. 5 cts., oz. 10 cts., ½lb. 20c., lb. 60c.

EARLY FLAT DUTCH STRAP-LEAF. Early, quiek-growing and good. Pkt.

BREAD-STORE TURNIP. Medium size, smooth, white, sweet and solid. tt. 5cts., oz. 10 ets., ½1b. 20 ets., b. 60 ets.

COLDEN BALL. Globe-shaped roots, noted for their sweet, july richness of flavor. Pkt. 5 cts., oz. 10 cts., ½1b. 20 cts., lb. 60 cts.

YELLOW-FLESHED SORTS.

YELLOW STONE. Good for table or stock-feeding; solid, tender and good teeping. Pkt. 5 cts., oz. 10 cts., ½lb. 20 cts., lb. 60 cts.

YELLOW ABERDEEN. Grown for stock-feeding; roots large and solid. Pkt. ets., oz., 10 cts., ½lb. 20 cts., lb. 60 cts.

RUTA-BAGAS, or SWEDES.

These are grown chiefly for stock, but are excellent for cooking in spring. IMPROVED AMERICAN. Large, firm, yellow roots, which keep well, are hardy well flavored. Pkt. 5 cts., oz. 10 cts., ¼lb. 20 cts., lb. 60 cts.

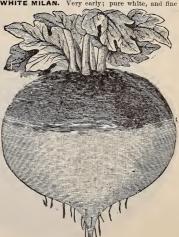

**WEET CERMAN*. Large, white; fine quality. Pkt. 5c., oz. 10c., ¼lb. 20c., lb. 60c. and well flavored.

NEW ZEALAND. Pkt. 5 ets., oz. 15 ets., 1/4lb. 30e., lb. 90e. TURNIPS.

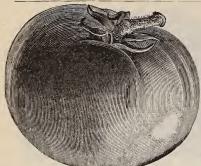

For early, sow as soon as the ground can be prepared, in drills 15 inches apart, and thin the plants to stand 8 inches apart. Sow for succession at intervals of a fortnight until the last week in July, and from that time onward until the last of August, sow for main crop. The sowings should always be made just before a rain, if possible, as the success of the crop depends, in a great measure, upon quick germination and rapid growth of the young plants. An ounce of seed will sow 150 feet of drill; two pounds will soy an acre.

WHITE-FLESHED SORTS.

EARLY WHITE MILAN. Very early; pure white, and fine

Large Early Red-top Globe Turnip.

Beckert's Dwarf Champion Tomato.

TOMATOES.

(Liebesäpfel.)

For early use, sow in February or March in a hotbed or in boxes and pots set in the warm window, and hasten the germination and growth of the plants by good care and frequent watering. When the seedlings are about 2 inches high transplant them to pots, or in rows 4 or 5 inches apart, keeping the temperature at about Subsequent transplantings will make them branching and stocky, but do not set them in the open ground until all danger from frost is past; then plant them in a warm, sunny place, and water them freely until they are well established. Some support which will keep the fruit above the ground and free from dirt should be giver all plants. An ounce of seed will produce about 1,000 plants.

DWARF CHAMPION. The most valued early market sort. Distinct in foliage and habit of growth, the plants being compact, stocky and upright, and requiring no support. Although the fruits begin to ripen very early and the plants yield enormously, they do not flag before frost; many begin to ripen their crops July 1, hold half a bushel of fine Tomatoes when at their best, and still a peck or more of fruit can be gathered from such a plant when frost comes. The fruit is always smooth and handsome, ripening close to the core, and never cracking; in shape and color it resembles Acme. Pkt. 5 cts., oz. 25 cts., 1/1b. 75 cts.

BEAUTY. One of the best. Fruit glossy crimson, large, smooth, solid, never cracking, and holding its size well until late in autumn. Pkt 5 cts., oz. 20 cts., 1/4lb. 65 ets.

with few seeds, and ship and keep well. Let. 5c., oz. 20c., ½1b. 65c.

IMPERIAL. Very early and of superior quality. Resembles Acme in form and color. Pkt. 5 cts., oz. 20 cts., 1/4lb. 65 cts.

ACME. Fruit crimson, large, smooth, solid, never cracking, and holding its size well Pkt, 5 ets., oz. 20 ets. 1/15, e5 ets.

Pkt. 5 ets., oz. 20 ets., 1/1b. 65 ets. BUCKEYE STATE. Large, flat and broad. Fruits bright red, very smooth and

solid. Pkt. 5 cts., oz. 25 cts., 4lb. 75 cts. PONDEROSA. Enormous and of good quality, but not always smooth, and

does not ripen evenly. Pkt. 5 cts., oz. 40 cts., 1/4lb. \$1.25. CRIMSON CUSHION. Brilliant scarlet-crimson, untinged with purple; ripens up almost completely to the stem; almost seedless; flesh firm, meaty, and of fine quality. Productive and early. Pkt. 5 cts., oz. 35 cts., 1/4lb. \$1.

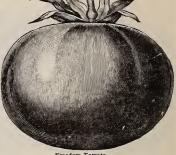

TABLE QUEEN. Purplish crimson; large, smooth, round; seeds few; quality fine. Pkt. 5 cts., oz. 35 cts., ½1b. \$1.

MATCHLESS. Fruits very large, rich cardinal-red; skin tough; flesh very solid; a long keeper. Pkt. 5 cts. oz. 20 cts., 16 65 cts.

FORDHOOK EARLY. Very early, smooth, of medium size. Pkt. 5 ets., 25 ets., 1/1b. 75 ets.

HONOR BRICHT. The fruit before ripening is light green, changing to waxen thite, then to lemon, and to bright red when fully ripe. Fruits large and perfect; a fine keeper and shipper. Fkt. 5 cts., oz. 20 cts., ½10. 65 cts.

FREEDOM. Ripens more of its fruit very early than any other variety. Fruits of good size. round, smooth, bright scarlet, of fine quality; very productive. Pkt. 5c., oz. 35 ets., lb. \$1.

YELLOW PLUM. Fruits yellow; usedfor preserves. Pkt.

cts, oz. 35 ets STRAWBERRY, or HUSK (Winter, or Ground Cherry). Small fruits enclosed in a husk; they have the flavor of strawberries, and may be preserved like plums. Pkt. 5 cts., oz. 35 cts.

FAVORITE. Pkt. 5 cts., oz. 20 cts., 1/4 lb. 65 cts.

EARLY MINNESOTA. Pkt. 5 cts., oz. 25 cts., 1/1b. 75 cts. LORILLARD. Pkt. 5 cts., oz. 25 cts., 1/4lb. 75 cts.

The list of Tomatoes in cultivation is a very long one, and many other varieties besides those listed above are offered by various seedsmen. After careful tests we think those offered in our lists above are superior to any for general cultivation, and that a careful reading of the descriptions will enable customers in different localities to select from our list sorts that will be as good or better than any offered elsewhere.

Ponderoso Tomato.

SWEET AND MEDICINAL HERBS.

Used for various culinary and medicinal purposes, and should have a place in every well regulated kitchen garden. Sow seed of the perennials, marked thus (*), carefully in thotbeds, early in the spring, and at the proper time transplant to permanent beds, in rows about 18 inches apart, setting the plants a foot apart in the row. In the winter they should be slightly protected with manure. The other are annuals, coming to perfection the first year, after which they

die. Sow them in the open air early in the spring, in drills 12 to 15 inches apart, and thin out. Leaves of all the sorts should be cut when the plants are in bloom, wilted in the sun, and hung up in the shade to dry. Afterward they may be stored away in paper bags until needed. The corner planted in these sweet herbs should be sunny, but need not be rich, as then the plants would grow too rank, and leaves and flowers would not be so rich in

Anise. (Anis.) Used for garnishing and flavoring. The seeds have an agreeable and aromatic flavor, and are used in medicine.

Angelica, (Angelika,) Has medicinal virtues.

Balin. (Melise.) Leaves possess a lemon fragrance. Made into Balm tea for fever, and into a beverage called "Balm wine." Bene. (Bene.) Leaves form a mucilaginous drink, beneficial

in cases of cholera infantum, diarrhora, etc.

Borage. (Boretsch.) A pot herb, and excellent for bees.

Basil, Swect. (Basilienkraut.) For soups, stews and sauces,

Burnet. (Poterium.) For salads and soups.

Caraway. (Kimmel.) The seeds are used in cakes, confec-

Chervil, Curled. (Kerbel). An aromatic herb. The young

leaves are used in soups and salads.

Chives.* For garnishing. Pkt. 10 cts.

Coriander. (Koriander.) Grown for its seeds, which are

used in confectioner;

Cumin. (Cuminum.) For seasoning.

Dill. (Dill.) Used for pickling. Has an aromatic odor and a

warm, pungent taste.

Elecampane. (Helenium.) Has valuable tonic properties.
Fennel.* (Fenchel.) Used for pickling and sauces.
Hop Seed. Pkt. 10 ets.
Hoarhound.* Valuable for medicines.

Hyssop. (Isop.) Used in asthma and chronic catarrh.
Lavender. (Wohlriechendespieke.) Used for perfume.
Marjoram, Sweet. Used for seasoning.
Marjoram, Pot.

Pennyroyal.* (Mentha Pulegium.) The true Pennyroyal.

Rosemary.* An aromatic, ornamental herb. Rue.* Used for medicinal purposes.

Saffron. The flowers are used in dyeing.
Sage.* (Salbei.) Medicinal, but used principally for flavoring. Savory, Summer. (Bohnenkraut.) The dried stems, leaves and flowers are used extensively for flavoring.

Savory, Winter.

Thyme. The young leaves and tops are used for sauces, soups and dressings. Also, a good remedy for nervous headache, when made into tea.

Thyme, Winter.

Assortment of the 28 different herbs, in 5-cent pkts., \$1; 7 of them, 25 cts.; whole assortment of 30 sorts, \$1.25.

VEGETABLE PLANTS AND ROOTS.

FIELD CORN.

The very choicest stock from varieties grown specially for seed, and perfect in germinating qualities.

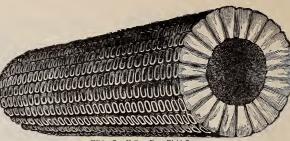

White Cap Vellow Dent. Suitable for all soils. Large as Leaming, and 7 to 10 days earlier; outyields and outshells that variety; produces more Corn on poor, thin soils than any other kind. Qt. 10c.; postpaid, 20c.; bys. \$1.25: 2 bushels, including cotton sack, \$2.50.

Learning Improved. Cobs small and red; grains deep and golden yellow in color; ears of good size, and generally produced two on a stalk; ripens very early, and is one of the most desirable sorts. Qt. 10 cts; postpaid, 20 cts;, bus. 81.25; 2 bus., including seamless sacks, \$8.50.

Pride of the North. Very early; ears contain 14 to 16 rows, are 10 inches long and slightly tapering. Has matured planted as late as July 4. Qt. 10 cts. postpaid, 20 cts.; bus. \$1.25; 2 bus., with sack, \$2.50.

Sweet Fodder. This is grown for green fodder, being very sweet and nutritious. Cattle will eat every part of the stalk and leaves. Bus. \$1.50.

Red Cob Ensilage. The heaviest cropping variety in cultivation, producing 50 to 75 tons per acre. It has been thoroughly

White Cap Yellow Dent Field Corn.

tested in all dairy sections of this country. It is a pure white Deut Corn of large size and handsome appearance, growing on a red cob. The fodder is sweet, tender, juicy, and said to contain more nourishment than any other variety. It grows 13 to 14 feet in height. Pk. 40 gs., bus. \$1.25; 10 bus. and over, \$1.10 per bus.

> NORTHERN GROWN.

Pop Corn. White Rice. Lb. 8 cts., 10 lbs. 60 cts. Pop Corn. Golden Queen. Lb. 8 cts., 10 lbs. 60 cts.

THE BEST SEED POTATOES.

(Rartoffeln.)

Our Potatoes are all choice northern-grown stock, grown especially from seed. We send out no Potatoes in spring before danger of frost is past.

All varieties sent free by mail at 20 cts. per pound, except where otherwise noted. Prices here quoted are based on present value, and are subject to variation without notice.

The Bovec. The earliest Potato ever introduced, and a heavy yielder. In a competitive trial with other early sorts it has outyielded them all, and has come in fully one week earlier than the next earliest variety. The vine is dwarf and stocky, and the tubers grow remarkably close together in the hills. Says a report from The Rural New-Porker trial grounds: "The Bovec is at least 12 days earlier than the Early Ohio, but even were it no earlier, the almost perfect shape of the Bovec would win the prize every time." Pk. 45 cts., bus. \$1.60.

Early Ohio. Leading early variety; tubers rough in the skin; nearly round, and quite distinct in appearance; cook dry and mealy. Pk. 45 cts., bus. \$1.60.

Early Puritan. Skin and flesh white; cooks dry and floury; very productive. Pk. 45 cts., bus. \$1.60.

Clark's No. 1. Cooks dry and mealy and is of firm quality. Early and keeps well. Pk. 40 cts., bus. \$1.50.

The Bovee Potato.

King of Roses. This new seedling is better than any other of the Rose family. It is the heaviest yielder of its class. Pk. 45 cts., bus. \$1.60.

King of the Earlies. Very early; bright pink, oblong; good yielder, and of fine quality. Pk. 45 cts., bus. \$1.60.

Country Gentleman. Resembles Beauty of Hebron, but ripens later and yields better crops. Quality fine. Pk. 45 cts., bus. \$1.60.

Rochester Rose. An improvement on Early Rose. Larger in size, fully as early, and a heavy yielder. Pk. 40 cts., bus. \$1.50.

Reeves' Rose. Medium; very productive, and grows to a large size; of excellent quality. Pk. 40 cts., bus. \$1.50.

Late Puritan. Like Early Puritan in color, quality and general appearance, but larger and far more productive. Pk. 40 cts., bus. \$1.50.

Restaurant. A heavy yielder; for the main erop hard to surpass. If you wish to raise a heavy erop of large, handsome Potatoes, this is a good one to plant. Pk. 45 cts., bus. \$1.60.

Sir Walter Raleigh. New. Large, smooth, oblong white; heavy yielder for main crop. Pk. 45 cts., bus. \$1.60.

Thoroughbred. New. Medium early, long, pink: heavy yielder and of fine quality. Pk. 45 cts., bus. \$1.60.

Carman No. 3. An immense yielder; tuber very large and handsome; quality fine; one of the very best late sorts. Pk. 45 cts., bus. \$1.40.

Chicago Market. Medium early, light pink; good in yield and quality. Pk. 40 cts., bus. \$1.50.

Early Norther. Earliest of the Rose class. Heavy yielder; quality fine. Pk. 40 cts., bus. \$1.50.

Uncle Sam. Medium, white, oval; of excellent quality; yield large. Pk. 45 cts., bus. \$1.60.

GRASS SEED.

Prices of Crass Seed fluctuate; rates here given are those ruling at this date.
For Crass Seed sent by mail, add postage at the rate of 8 cts. per lb. to prices.
Write for special prices on large quantities.

Creeping Bent Grass ($Agrostis\ stolonifera$). Succeeds well in moist situations. Lb. 25 cts., bushel of 20 lbs. \$3.25, 100 lbs. \$15.

Sheep Fescue (Festuca ovina). Short, very thick in growth; excellent for sheep pasture. Lb. 20 cts., bushel of 12 lbs. \$2, 100 lbs. \$15.

Lawn Grass. See 3d page of cover.

Kentucky Blue Grass (*Poa pratensis*). Sow in fall or spring at the rate of 2 or 3 bushels per acre. Our seed is free from chaff, and may be sown almost as easily as Timothy. Fancy quality. Lb. 20 etcs, bushel of 14 lbs, \$1.75, 100 lbs, \$12.

Rhode Island Bent Grass (Agrostis canina). A very fine variety for lawn or pasture. Lb. 30 cts., bushel of 12 lbs. \$3.20, 100 lbs. \$24.

Fire-leaved Fescue (Festuca ovina tenufolia). Flourishes well on dry and sterile soils; well suited for lawns. Lb. 35 cts., bushel of 14 lbs. \$4.25, 100 lbs. \$28.

Perennial Rye Grass (Lollum perenne). Affords pasture very early in the spring, Grass variable in size and appearance. Sow in early spring at the rate of 1 to 1½ bushels per acre. Lb. 15 cts., bushel of 24 lbs. \$2.20, 100 lbs. \$8.

Orchard Grass (Dactylis glomerata). Rapid in growth, and yields a large aftermath; earlier than other grasses. It has a strong tendency to grow in clumps, and should be sown with clover, as both ripen at one time. Choicest grade. Lb. 20 cts., bushel of 14 lbs. \$1.75, 100 lbs. \$12.

Perennial Sweet Vernal (Anthoxanthum odoratum). Mixed with other grasses, it is valuable for pasture on account of its earliness; pleasant in fragrance. Lb. 50c.

Red Top (Agrostis vulgaris). Very suitable for pasture on low ground. Produces late in the season a reddish purple or greenish panicle of flowers. Choice, lb. 15c., bushel of 14 lbs. \$1.25, 100 lbs. \$81; fancy, lb. 25 cts., bushel of 36 lbs. \$5.75, 100 lbs. \$1.25.

Crested Dog's-tail (Cynosurus cristatus). Valuable for pasture on hard, dry soils. Lb. 35 ets., bushel of 21 lbs. \$5.50, 100 lbs. \$25.

Alsike, or Swedish (Trifolium hybridum). Fine for pas-

Alfalfa, or Lucerne (Medicago sativa). Will bear cutting 3 or 4 times during the season. Best Clover for bringing up

turage or ensilage. Lb. 15 cts., bushel of 60 lbs. \$6.25, 100 lbs. \$10.

poor land. Lb. 15 cts., bushel of 60 lbs. \$6, 100 lbs. \$9.50.

Wood Meadow Grass (Poa nemoralis). Very suitable for under trees-Lb. 35 cts., bushel of 14 lbs. \$3.75, 100 lbs. \$25.

Italian Rye Grass (Lolium Italicum). Thrives in any soil, and yields abundant crops. Lb. 15 cts., bushel of 22 lbs. \$2, 100 lbs. \$8.

Meadow Foxtail (Alopecurus pratensis). Desirable for permanent pastures on moist soil; early, and rapid in growth. Lb. 35 cts., bushel of 7 lbs. \$1.90, 100 lbs. \$25.

Meadow Fescue. Valuable for mixtures for permanent pastures. Lb. 20 cts., bushel of 22 lbs. \$2.75, 100 lbs. \$12.

Tall Meadow Oat Grass (Avena elatior). Rapid and luxuriant in growth; valuable for soiling. Lb. 25 cts., bushel of 15 lbs. \$3.20, 100 lbs. \$20.

CLOVER SEED.

Add 8 cents per pound for postage.

Scarlet Clover (Trifolium incarnatum). Very productive; greedily eaten by cattle. Lb. 10c., bushel of 60 lbs. \$4.40, 100 lbs. \$6.

White Dutch Clover (Trifolium repens). The best variety for lawns, as it forms a close herbage, and remains green throughout the season. Highest grade of seed. Lb. 30c., 100 lbs. \$18.

Prepared Poultry Food. For laying hens, turkeys, geese, and all kinds of fowls. It will double the production of eggs. It composed entirely of pure animal bone and meat. 5 lbs. 25 cts., 10 lbs. 45 cts., 50 lbs., 45 cts., 50 lbs. 45 cts., 50 lbs., 45 c

Green Granulated Bone. (Manufactured for chicken feed.) Give the chickens free access to it; it will be but little expense, and will yield you large returns in increased size and greater number of eggs. Lb. 5c., 10 lbs. 40c., 100 lbs. \$2.30, 200 lbs. \$4.50.

FERTILIZERS. (Prices Variable.)

Commercial fertilizers are more quickly available as plant food than manure, less heating, and less disagreeable to handle. We offer only the best grades, adaptable to different soils and important crops, at popular prices.

Ashes, Canada Hardwood. Unleached. Ton, \$18. Pure Raw Bone Phosphate. Strictly, pure and free from fossil rock. Composed of the proper proportions of blood, bone and meat, with potash, and is absolutely the best on the market. Sack (200 lbs.) \$4, ton \$32.

Peruvian Guano. A well-known stimulant for plants, etc. For pot-plants it should always be used as a liquid, an ounce of guano to 8 or 10 gallons of water, given once a week. Lb. 10 cts., by mail 25 cts.; 10 lbs. 70 cts.

Sheep Manure. Good for lawns, and a most excellent strends for greenhouse plants, promoting a strong, healthful growth. Lb. 5 ets., 10 lbs. 40 ets., 25 lbs. 75 ets., 100 lbs. \$2.50.

Pure Bone Meal. For top-dressing lawns, house plants, etc. Lb. 5 cts., 10 lbs. 40 cts., 100-lb. package \$2.25, 200-lb. package \$4, ton \$32.

Odorless Lawn Fertilizer. See 3d page of cover. Pure Potato Manure. A special brand for potatoes. Wherever used the results have been most satisfactory. Composed of pure animal bone, meat, blood and a large percentage of potash. 200 lbs. \$4, ton \$32.

Nitrate of Soda. This is valuable for the nitrogen it contains, which is equal to 20 per cent of ammonia. It is chiefly a stimulant, and is used in addition to other fertilizers. Lb. 10 cts., postpaid 25 cts.; write for prices in quantities.

Sulphate of Ammonia. Contains nitrogen equal to 25 per cent of ammonia. It is one of the most concentrated forms in which ammonia can be applied. Apply 150 to 300 pounds per acre. Prices variable.

Bowker's Plant Food for pot-plants is used by dissolving a teaspoonful to a pint of water, and applying to the soil every few weeks. Pkg. 15 cts., postpaid 25 cts.

Orchard Grass

INSECTICIDES.

Ant Exterminator. Effectual for the destruction of ants.

Tobacco Stems. Bale of about 300 lbs., \$2.

Bordeaux Mixture. Ready for use by adding water. Lh. 15 cts., 10 lhs. \$1.

Carbolic Acid Soap. Destroys insects that infest plants and animals. Pkt. 10c.

Fir Tree Oil Soap. Fir-tree oil prepared in soap form. Lb. 50 cts.; postpaid, 65 cts.

Fir Tree Oil.
Destroys all kinds of insects. Dilute aclipping the plants in

cording to directions, apply with syringe, or hy dipping the plants in it. %pt. 50 cts., pt. 75 cts., qt. \$1.50, %gal. \$2.50, gal. \$5.

Fungiroid. (A powdered Bordeaux Mixture.) Is applied when the foliage is wet with rain or dew. Lb. 15 cts.

when the foliage is wet with rain or dew. Lb. 15 ets.

Fostite. Best remedy for mildew, hlack-rot, leaf-mold, etc.
Lb. 15 ets., 5 lbs. 50 ets., 25 lbs. \$2.

Flowers of Sulphur. For the preventation and destruction of mildew on plants. Lh. 10 cts., 10 lhs. 60 cts., 100 lhs. \$4.50.

Gishurst's Compound. Effectual for preventing and destroying green, brown and black fly, mildew, thrips, mealy bug and scale. Box 50 ets.; hy mail, 75 ets.

Hellebore, Powdered White, For rose-slugs, current-worms, etc. A small quantity of flour mixed with it gives adhesiveness; dust on with gun or hellows while the foliage is moist. For fluid applications, mix 1 pound with 25 to 40 gallons of water. Lb. 25 cts.; hy mail, 40 cts.

London Purple. Highest grade. Used for killing potatobugs. Lb. 25 cts.; by mail, 40 cts.

Lemon Oil. Destroys mealy hugs, scale, thrips, etc. ½pt. 25 cts., pt. 40 cts., qt. 75 cts.

Nikoteen. This preparation contains 40 per cent nicotine; 1 pint contains as much nicotine as 200 pounds of tobacco stems. Pt. \$1.50, 5 pts. \$7.

Paris Green, Pure. In boxes, lb. 30 cts.; by mail, 45 cts. Persian Insect Powder. Non-poisonous. A superior grade. Kills all kinds of insects on plants in the garden and in the house. 4th. 15 cts., lb. 40 cts.; by mail, 55 cts.

Slug-Shot. This non-poisonous powder requires no further mixing or preparation. It is very effectual in destroying potato hugs, and bugs, heetles, green and black fly, slugs, worms, caterpillars, etc. Package, 10 cts., 5 lbs. 30 cts., 10 lbs. 50 cts., 100 lbs. \$4.25.

Tobacco Extract, Rose-Leaf. Very strong, and if specially prepared for evaporating; it is sure death to insects. Is house is heated by hot water, the extract can be put on the pipes. Pt. 30 cts., qt. 50 cts., gal. \$1.25.

Tobacco Soap, Sulpho. Dissolve 2 ozs. to 1 gal. of water and apply with a syringe. ½lb. tin, 25 cts.

Tobacco Soap, Pinner's. A very potent specific for insects, parasites and their eggs. May he used either for plants or animals. Lb. 40 cts.; postpaid, 55 cts.

Tobacco Stems. For fumigating. Fresh baled. Bale of about 300 lbs. \$2.

\$1.50, \$2, \$2.50 and \$3. Pumps, Perfect Barrei Spray. Has brass upper and brasslined lower cylin ders. All-brass plunger, brass check-

valve, brass valve seat, and fitted with agita-tor. The best spray-barrel pump ever offered, it being single-acting in the suction and doubleacting in the discharge. It discharges half the water on the up-stroke and half on the down-stroke of the handle. Has an exceedingly large air-chamber, which is very necessary, especially when two leads of hose are used. By means of this the operator can work this pump under pressure with much less exertion than is required with other large spray pumps.

Perfect Barrel Spray Pump. The main body of the pump is all air-

chamber, except what is taken up by the small tube upper cylinder. All parts can be removed by disconnecting the handle and removing the cylinder cap. . \$9 00 Pump, Little Giant Spray. Constructed entirely of brass. So arranged that the labor of pumping is all done on the down-stroke of the piston and nothing on the up-stroke. The effect of this is to hold the pump down while using it. Seed Drills. See p. 30.

Garden Seed Drills and Hand Cultivators.

PLANET JR. NO.: COMBINATION DRILL AND WHEEL-HOE, CULTIVATOR, RAKE AND PLOW. The most popular combined tool made. As a seed-sower, it is identical with No. 2 except in size, and has all its merits, its strength, durability, ease of operation and perfection of work. Has a complete set of cultivating tools, and all its work is rapid, easy and perfect. Used as a drill, it sows with great regularity and of uniform depth, and is regulated a will it sows with great regularity and of uniform depth, and is regulated as will be considered to the control of the cont

ments can be quickly made ready tor use. 3y.

PLANET JR. NO. 2 DRILL. This drill sows in an even, regular stream, whether there is much or little seed in the hopper. The opening plow being directly between the wheels, follows all irregularities of the ground and is adjustable; once set, it opens the furrow at a uniform depth, and the seeds are deposited in a very narrow line. The hopper holds 2½ quarts. The machine is extremely simple; has no agitators, belts or gearing. \$6.50.

macanne is extremely simple; has no agitators, belts or gearing, \$6.50. PLANET JR. NO. 3 HILL-DROPPING DRILL. This drill will sow in a continuous row in the ordinary way, with the greatest regularity; but its distinctive feature is that it will drop neatly in hills, either4, 6, 8, 12 or 24 inches apart. The wheel is 15 inches high, with a broad face. It is changed in a moment from hill-dropping to drill work; sows equally well whether the hopper contains only a paper of seed or is full. It will not injure delicate seeds, which are often peede or crushed by imperfect seeders. The pilow is adjustable and opens a very narrow furrow, which is a great advantage for after-cultivation. \$9.

ATTER-CHITMAND. 37.

PLANET JR. NO. 4 COMBINED HILL-DROPPING DRILL, SINGLE WHEEL-HOE, CULTIVATOR, RAKE AND PLOW. The hopper holds two quarts. Like No.3, this drill drops at 4, 6, 8, 12 and 24 inches apart, in drills any thickness, handling the smallest quantity perfectly; is simple, durable

and light-running. Is thrown out of gear instantly by simply raising the handles. The index is accurate, plain and easily set. The drill is detached and the tool-frame substituted by moving hut one bolt. It then becomes a perfect single wheel-hoe. Has a garden plow, two new style hoes, three cultivating rakes made especially to fit 6, 9, 12, 14 and 16-inch rows, three cultivating takes made especially to fit 6, 9, 12, 14 and 16-inch rows, three cultivator teeth, and a lacf-guard. Frice, complete, \$107 as a 47111 only, \$57.

PLANET JR. GRASS-EDGER. \$5.

IRON AGE HILL AND DRILL SEEDER. A very complete tool, that has been placed on the market only after thorough experiments and field tests. Has a 16-inch high steel wheel with a 2-inch trend. The opening plow is easily low, making accurate spacing possible. The agriator is a revolving broad, which makes it a sure feed, and sows with absolute accuracy. The distance for spacing can be instantly changed. It will drop 4%, 6,9,12, 18 and 36 inches apart, and can be changed easily from a hill-dropper to a row-drill. The flow of seed can be accurately regulated and instantly stopped. The market can ESED 10 the 10 inches. The issue has a few to the second of th

marker can be changed by inches. The wheel rolls and packs the will. \$10. MODEL SEED ORILL. Adjustment is simple and effective by the use of a slide with a pear-shaped opening passing under the bottom of the seed reservoir, which is provided with a performation of similar shape, in reversed position. This slide can be changed instantly to size indicated by index, or to a hair-breadth variation between. Index is plain, convenient and reliable. The flow of seed can be stopped instantly. The marker is easy to adjust and firmly held. \$6.50.

ifrmly held. 36-30.

RON AGE DOUBLE WHEEL-HOE. Has cultivator teeth, plows and rakes, wheel of steel and bievele construction, 16 uches high; light and very strong. Frame of thoing is high arched, capable of working astride of 20-inch plants. The tool is equipped with a full set of hose, plows, etc. \$6.

LEVEL OF THE OF TH

TIVATOR. Two senffle blades, two plows (right and left), five steel stirring teeth, wheels and handles adjustable in height. Attachments can be set at almost any angle.

SEED-SOWER, THE ACME. A practical little tool that will sow all garden seeds with perfect regularity; simple in construction; saves time and seed. Just the thing for a small garden. \$I.

Acme Seed-sower.

SELECT FLOWER SEEDS.

A REVISED LIST OF THE BEST AND MOST POPULAR SORTS, INCLUDING SEEDS OF ANNUALS, BIENNIALS, PERENNIALS, AND STOVE AND GREENHOUSE PLANTS.

7N THE following pages we offer a careful and choice selection of fresh and pure Flower Seeds, including the best old and new varieties. No need of the flower garden has been neglected, for seeds of plants adaptable for every ornamental purpose, covering a wide range of form and color, height and habit, and the whole season with their bloom, may be found here.

OUR FLOWER SEED PACKETS are large, and beautifully lithographed in colors, with directions for culture printed on one side; they are well filled with tested seeds of strong germinating power.

THE HEADINGS OF THE DEPARTMENTS which follow-Choice Annuals for Bloom the First Season, Perennials for Permanent Planting, Seeds of Plants with Fine Foliage, Ornamental Climbers, Seeds of Greenhouse Plants—make so clear the nature of each class of seeds offered that the usual

puzzling and arbitrary signs and abbreviations are unnecessary. The copious index on the last page of the Catalogue will be found helpful to all who, without understanding plant habits and classifications, wish to turn quickly to any species. PRICE OF ALL PACKETS, 5 CENTS, UNLESS OTHERWISE QUOTED.

Choice Annuals, Blooming First Season.

ABRONIA. Pretty trailers, producing profusely clusters of sweet-scented flowers in bright yellow and pure rose. Mixed.

ADONIS, Large-flowering Scarlet. A showy, free-blooming border plant. Blossoms large and brilliant searlet, lasting a long while; foliage beautifully feathered. Height 1 foot. Pkt. 10 cts.

AGERATUM.

Valued for bedding on account of their neat, vigorous growth and free-blooming habit. They bloom the whole summer, if sown early. Lasseauxi. Fine clusters of bright rose, borne long and abundantly.

Arnebia cornuta.

Mexicanum, Little Dorrit, Dwarf Blue. Flowers bright blue; the plant is very dwarf, free-blooming and handsome. Mexicanum, Little Dorrit, Dwarf White.

Large

Little Gem Sweet Alyssum.

AGROSTEMMA Cœli-rosa (Rose of Heaven). Fine, free-flowering Annual; rose, white center. 1 foot.

ALYSSUM, SWEET.

A great favorite for bouquets and house-culture, as well as for outdoor baskets and border edging.

Benthami. Trailing; flowers white, very sweet.

Little Gem. Very dwarf and spreading, covered thickly with its very fragrant white flowers, which appear when the plants are quite small.

ALONSOA (Mask-flower). The handsome blossoms are freely produced upon pyramidal plants. Scarlet, white and orange mixed. ANAGALLIS, Large-flowering (Pimpernel). Low-growing; forms a mat of bright red, white, pink or purple flowers.

ARNEBIA cornuta. Produces innumerable golden yellow flowers, spotted dark brown, changing to rich maroon; blooms all summer. Plant 2 feet high and bushy. Pkt. 10 cts.

ASTERS—Choicest New and Old Varieties.

The Aster is a royal Annual, glorifying the garden with a rich display of bloom until the chrysanthemum, for which it is a fitting forerore for the control of the different forms are grown in gardens everywhere. Our collection includes distinct and beautiful forms and varieties of rich colors. A good selection will give elegant flowers for cutting from July until the late varieties are cut down by frost.

PRICE OF ALL PACKETS, 5 CENTS, UNLESS OTHERWISE QUOTED.

Daybreak. A sport found in a field of Branching Asters, but different in form of plant and flower. When in perfect bloom, the delicate seashell-pink color of the flowers, erect and graceful habit, and immense display of flowers when seen in a mass, are simply charming beyond description. Without doubt, the finest Aster yet introduced. Pkt. 10 cts.

Dwarf Pyramidal Bouquet. Tiny pyramids of flowers in all colors. Mixed. Pkt. 10 cts.

Yellow Quilled. Bright sulphur-yellow; perfect ball-shape. This Aster is much liked for its odd color and picturesque form. Pkt. 10 cts.

Daybreak Aster.

Japanese Branching. Flowers of immense size, somewhat resembling Japanese chrysanthemums. Fine for flower work, and very effective for the garden. The plants grow tall and the flowers are borne on long stems, opening quite late.

White, Crimson, Purple, Pink and Mixed. Each, pkt. 10 cts.

White, Crimson, Purple, Pink and Mixed. Each, pkt. 10 cts. Vick's Pure White Branching. Fine for cutting. Flowers very large, graceful, borne on long stems. Pkt. 10 cts.

Flowers very large, gracerus, norne on long stems. Fat, 10 cts.

Large-flowering Victoria. Immense, showy flowers, perfectly double to the center, with regularly overlapping petals; distinguished in appearance, and excellent for cutting. The plants form pyramids 18 inches high, and carry 15 to 20 flowers.

White, Azure Blue, Peach Blossom, Rosy Carmine, Crimson, Dark Blue and Mixed. Each, pkt. 10 cts.

Paony-flowered Perfection. Peerless in form, size, and the rish and deligate colors of its flowers

and the rich and delicate colors of its flowers.

Snow-white, Brilliant Rose, Crimson, Light Blue and Mixed.
Each, pkt. 10 ets.

Oucen of the Market. Three weeks earlier than others, and of dwarf, branching habit. Excellent for growing under glass. Rose, Pure White, Carmine, Light Blue and Mixed. Ea., pkt. 10c.

Semple's Branching. A choice strain, which, by careful selection, has been brought to a high degree of perfection.

White, Pink, Lavender and Mixed. Each, pkt. 10 cts.

Comet. Flowers large; petals long, wavy and twisted.
Pure White, Carmine, Rose, Light Blue and Mixed. Ea., pkt. 10c.

Mignon. Flowers elegant in shape, and useful for cutting. Rose, White, Crimson and Mixed. Each, pkt. 10 cts.

Ball, or Jewel. Perfectly round, short-petaled blossoms on long stems. Mixed. Pkt. 10 cts.

A cluster of Semple's White Branching Asters.

PRICE OF ALL PACKETS, 5 CTS., UNLESS OTHERWISE QUOTED.

SUPERB BALSAMS (LADY'S-SLIPPERS).

Popular and easy to grow; give brilliant masses of beautiful flowers for little care. Plants about 2 feet in height; transplanting dwarfs them and makes the flowers more Some are as double and perfect as camellias; they range through all dark, rich, brilliant and delicate colors.

Improved Camellia-flowered. Regular and perfect; large and full to the center. Choice mixed. Pkt. 10 ets. Fiorists' Best Double White. Pkt. 10c. Mixed Double. All kinds and colors.

Double Miniature. Small, dainty, very perfect, double flowers. Choice mixed. Pkt. 10 cts.

BARTONIA aurea. Handsome, downy foliage; fragrant, large, golden yellow flowers, which open in the evening. Height 3 feet.

BRACHYCOME (Swan River Daisy). Flowers light and graceful, and borne profusely; colors blue or white, with dark center. About a foot high.

BROWALLIA clata (Amethyst). Neat, compact little plant about a foot tall, and blooms freely from June until frost. Flowers white or blue, with an eye. Mixed. CACALIA coccinea (Tassel Flower). The tassel-shaped flowers are bright scarlet, and borne in graceful clusters.

CALANDRINIA, Large-flowering. A creeping plant, with large, rose-colored flowers, which make it one blaze of color whenever the sun shines.

CALENDULAS, or POT MARIGOLDS.

Produces a bright and constant mass of color; grows well anywhere, and flowers until frost.

Pure Cold. Semi-dwarf plant; handsome, double, pure golden yellow flowers. The best Marigold in cultivation; flowers large and brilliant

Prince of Orange. Rich flowers of deep orange, striped with a lighter color; large and double.

CALLIOPSIS. (BRIGHT EYES.)

Gay and beautiful; of graceful habit, easy culture, and flowering profusely throughout the season.

Tinctoria. Flowers double, of a rich golden yellow color, with wine-maroon spots

Drummondil (Golden Wave). Pure, bright yellow flowers, with an eye of rich, velvety brown. Compact and bushy, and blooms

CATCHFLY (Silene). Free-blooming; appears in early summer and lasts continuously until fall. Mixed.

Camellia-flowered Balsams.

CANDYTUFT (IBERIS).

An old and universal favorite, largely cultivated, and continually in bloom; as valuable for cut-flowers as for edging and masses, and always desirable.

Amara. Clusters of pure white.

Empress. Large, handsome trusses of pure white flowers; plant strong, of candelabrum-like habit. Light Purple, Carmine and Crimson. Separate or mixed.

Tom Thumb. Very dwarf, forming a low, dense mass of green and white.

THE CROZY CANNAS. For rich effects rivals in popular estimation. As pot-plants for winter-flowering they are also favorites. The seed planting, and started early in hotbeds or in the house. Finest mixed. Pkt. 10 ets., oz. 30 ets. in bedding, the Dwarf French Cannas have now few

CARNATIONS.

Marguerite. Blooms four months from seed. Plants vigorous, semi-dwarf, neat. If sown under glass in March or April, begin blooming in early summer, and yield a brilliant display of flowers until frost. Flowers large, quite double and perfectly formed, never bursting the calyx. They show all colors and variegations through beautiful shades of red, pink and white. Fine for cutting; stems are good, and the flowers are produced in great profusion. Pkt. 10 cts.

Giant Marguerite. A great improvement on the preceding. The flowers often measure 3 inches across, and many of them are very double, fringed and very fragrant. They will produce their flowers under the same conditions as the preceding. Pkt. 15 cts.

CENTAUREA.

Favorite old-fashioned flowers. The quaintly pretty flowers have good stems and are brightly colored.

Marguerite. Very large, pure white | and sweet-scented flowers. Profuse bloomer; plant about 11/2 feet high. See front cover. Pkt. 10 cts.

Chameleon. A companion to the preceding, producing large, pale sulphuryellow flowers; attractive. Pkt. 10c.

Cyanus (Cornflower). Flowers white or blue; plants tall, free-blooming. Victoria. Diminutive, forming little bushes, producing clusters of bright blue flowers in grat abundance. Pretty for edging. Pkt. 10 ets. Emperor William. Dark blue; fine.

For other varieties, see Foliage Plants.

Marguerite Carnation.

PRICE OF ALL PACKETS, 5 CTS., UNLESS OTHERWISE QUOTED.

CHRYSANTHEMUMS.

Summer-blooming Painted Daisies.

Distinct from the autumn-flowering varieties, and grown in beds, where their bright colors show to advantage.

Carinatum fl. pl. Flowers very double and bronzy yellow or rose, but some will be pure white or crimson, and of graceful, semi-double form. Pkt. 10 cts.

Double White. Fine double flowers of white. Double Yellow. Flowers large, pure yellow, very double.

CENTRANTHUS. Pretty, compact plants, about a foot high, with corymbs of red or white flowers, produced freely. Mixed.

CLARKIA elegans. Early and profuse-flowering; plants 1½ feet high; flowers bright rose, purple or white. Single and double mixed.

COCKSCOMB (CELOSIA).

Odd and handsome. The comb-shaped heads often attain large size, and are always gay colored. The dwarf varieties are much used for pot culture and in beds, presenting a striking appearance.

Ostrich Feather. Produces large, exquisitely curved Ostrien Featner. Froduces large, exquisitely curved and curled plumes resembling ostrich feathers. Plant of handsome, pyramidal form, ornamental and effective. Height 3 feet. Crimson and orange mixed. Pkt. 10 cts.

Triumph of the Exposition. Finest plumed

Cockscombs, forming symmetrical plants about 3 feet high, bearing large, feathery,

crimson plumes. Rosea. Bright rose, marked with a central stripe of golden yellow; very dwarf.

Empress. One of the handsomest; the rich crimson heads are enormous, yet quite shapely; plant no taller than the above. Pkt. 10 cts.

Glasgow Prize (President Thiers, Tom Thumb). Quite dwarf and distinct; plants a

foot high; combs fine, deep crimson. Pkt. 10 cts. Dwarf Yellow. Splendid, brightly colored heads of large size and fine form; plants strong, and but 9

inches tall; very handsome.

Summer Chrysanthemum.

COLLINSIA. Brightly colored flowers, blooming in whorls, several of which cluster about each stem. Plants continually in bloom; 1½ feet. Mixed. COSMIDIUM. A showy summer-flowering plant, about 2 feet in height; useful for both beds and summer-flowering

borders. Flowers large, velvety brown or orange. CROTALARIA retusa (Golden Bush Pea). Produces rich golden yellow, sweet pea-like flowers. Blooms continually until frost. Pkt. 10 cts.

Cosmos.

Cockscomb, Glasgow Prize,

COSMOS. Fine for cutting; long, slender stems, airy, graceful flowers and feathery foliage. Plants tall and strong-growing, from 4 to 6 feet high, and a perfect fountain of bloom from September until frost. Should be started early

Mammoth Perfection Erlinda. Flowers large, snow-white.

Rosita, lovely pink; Conchita, deep red; and White Pearl. Separate or Mixed.

Dawn. A new semi-dwarf variety. Plants compact and bushy. Flowers as large as in other sorts; pure white, tinged slightly with rose. Very early and free-blooming. Pkt. 10c.

Dwarf Yellow, 'Dwarf branch-

Flowers large and very rich golden yellow; free bloomer. Pkt. 10 cts.

CONVOLVULUS MINOR (DWARF MORNING-GLORY).

Handsome trailing plants of luxuriant growth. Very well adapted for beds, borders, vases or baskets.

A bed, or even a single plant, of this beautiful variety produces an attractive sight. In some respects it reminds one of a compact-growing petunia. Its flowers are produced in abundance, and in many colors. Fine for pots or borders. Pkt. 25 cts.

Tricolor. Very pretty flowers of soft, rich blue.

Mauritanicus. Fine, bright blue flowers, with yellow throat.

DATURA.

The waxen, funnel-shaped flowers of the Daturas are strikingly odd and handsome. Alba. Handsome double white flowers. Humulus flava. Fine double yellow. Pkt. 10 cts.

CORNUCOPIA. Large and trumpet-shaped, formed of two or three flowers growing one within the other. Interior white, exterior purple. Pkt. 10 cts.

Convolvulus tricolor compactus

PRICE OF ALL PACKETS, 5 CENTS, UNLESS OTHERWISE QUOTED.

SEEDLING DAHLIAS.

Dahlias grown from seed bloom the first year. A large percentage of the double varieties come true, while the single ones are superb.

Dwarf Tom Thumb. Dwarf plants, very useful for bordering and pot-culture, and extremely floriferous, bearing handsome flowers. Pkt. 10 cts.

Mixed Single. Pkt. 10 cts. Mixed Double. Extra-fine mixed; will produce a very large proportion of double flowers. Pkt. 10 cts.

SUMMER-BLOOMING DIANTHUS.

(GARDEN PINKS.)

Gay and spicily fragrant flowers, well loved and grown everywhere, in almost any soil. They cover their dense thicket of leaves and stems with brilliant masses of flowers. All the varieties named below bloom the first year from

Oriental Beauty. From Japan. A splendid strain, producing flowers 3 to 4 inches across, with petals 11/2 inches in diameter; exquisitely New Dianthus Oriental Beauty.

formed, the petals being full, overlapping, crinkled and laciniated. Colors range from pure white through shades of pink and crimson; coloring and markings are rich beyond description. Pkt. 25 ets.

Double Seedling Dahlia.

Double Chinese, or Indian. Flowers large and very double, in all rich colors. Fine mixed. Double White Chinese. Flowers large and showy.

Double White Chinese. Flowers large and showy.

Heddewigi grandiflora fl. pl. (Crown of Perfection). Flowers of immense size and very double; produced in greatest profusion. A great diversity of colors, from purest satiny white to intense red, soft pink and flesh tints, and a large proportion of flowers marked in various huse. Pkt. 10 cts.

Eschscholtzia

ESCHSCHOLTZIA. (CALIFORNIA POPPY.)

Flowers in rich hues of orange, yellow, scarlet, creamy white, crimson and carmine.

Single and Double Mixed.

Cross of Malta. Bluish green foliage and golden yellow flowers, with a Maltese cross in the center.

Golden West. The flowers of this giant measure 3½ to 6 inches in diameter. The large, overlapping petals are waved at the edges. Some of the flowers are flat, others saucer-shaped, others deep, with flaring edges. Color light canary, with orange blotches at the base of petals, forming a Maltese cross in the center. Pkt. 10 cts.

EVERLASTINGS.

The strawy texture of the flowers retains their shape and brilliant color indefinitely. Cut them before they have opened fully, and dry slowly in the shade.

ACROCLINUM roseum. Graceful, double, rose-colored flowers; plant a foot high. Album. Double flowers, pure white.

AMMOBIUM grandiflorum. Cluster of pure white flowers; 2 ft. HELICHRYSUM nanum (Eternal Flower). Beautifully formed double flowers; plants dwarf and branching. Fine mixed. Grandiflorum. Large-flowered and very double.

COMPHRENA globosa (Bachelor's Button). Round flower-heads of red or white. Mixed.

RHODANTHE, Fine Mixed. The most delicately beautiful of all Everlastings; plants a foot high.

XERANTHEMUM. Bright, double, globe-shaped flowers. Mixed. Special Offer of Everlastings .- I pkt. each, of 8 varieties, 30 cts.

FEVERFEW, Double White (Matricaria). For cutting and pot-culture, as well as for beds and borders. Thrives in all soils; blooms until frost. Flowers white, double. 18 to 20 in. tall.

FOUR O'CLOCK (Mirabilis). Old favorites, with sweet-scented flowers of many different colors. They open in the afternoon, and wither in the morning. Mixed.

Rhodanthe.

nues. Fat. 10 cts.
Heddewigi Eastern Queen. Beautiful rose variety. Pkt, 10 cts.
Heddewigi Grimson Beile. Splendid brilliant dark red. Pkt. 10 cts.
Heddewigii, The Bride. White, with purple center; very pretty. Pkt. 10c. Double Japanese, or Diadem. Flowers large and fine in form, and very double, ranging through all colors. Finest mixed.

Pkt. 10 cts. Double Imperial. An extra fine mixture, producing all colors of these handsome flowers.

ERYSIMUM. Free-blooming, with fragrant, orange-yellow flowers, somewhat resembling those of the single wallflower.

Feverfew.

LACURUS ovatus (Hare's Tail Grass).
Small white spike; 2 feet.
STIPA pennata (Feather Grass). See

Rose-tinted;

Mignonette, Defiance,

PRICE OF ALL PACKETS, 5 CTS., UNLESS OTHERWISE QUOTED.

GRASSES, ORNAMENTAL.

Seeds of Ornamental Climbers.

PRICE OF ALL PACKETS, 5 CENTS, UNLESS OTHERWISE QUOTED.

ADLUMIA cirrhosa (Mountain Fringe). Rapid-growing biennial climber; flowers piuk, produced freely.

AMPELOPSIS Veitchii (Japan or Boston Ivy). A beautiful vine for covering walls and buildings, to which it adheres closely. The leaves color beautifully in autumn. Pkt. 10 cts.

ARISTOLOCHIA.

Sipho (Dutchman's Pipe), Foliage deep green, large aud handsome: 30 feet. Pkt. 10 cts.
Elegans. Large, purple, white
and yellow flowers. Pkt. 10c.

ASPARAGUS verticillatus. A graceful, hardy perennial climber, with feathery foliage and red berries. Pkt. 10 cts.

BIGNONIA (Trumpet Creeper). A very effective and luxuriant climber, with large clusters of orange-red flowers: 40 feet. Pkt. 10 cts.

CALAMPELIS (Bugle Vine). Fine annual climber, with orange-colored, tubular flowers and delicate green foliage; 10 feet. Pkt. 10 cts.

CENTROSEMA.

Large, pea-shaped flowers, produced in clusters; color rosy violet, with broad, feathered markings of white; foliage abundant and graceful. Hardy perennial, Pkt. 10 cts.

COBÆA scandens. Rapid and luxuriant in growth. The deep violet-blue flowers are large and bell-shaped. Pkt. 10 cts.

DOLICHOS lablab (Hyacinth Bean). Large clusters of showy white or purple flowers. It grows rapidly, and makes a fine screen of thick foliage.

HUMULUS.

Japonicus. Seed sown in early spring pro-duces plants which will cover a wide spread in a short time.

Japonicus variegatus. Leaves broadly edged with cream color, and marked and shaded with silvery white and deep green; often a whole branch and its leaves will be pure white. Very vigorous and hardy. Pkt. 10 cts.

IPOMOEAS.

In this large class of tender annuals are included many handsome climbers, Evening- as well as Morning-glories, and other favorite vines as popular and beautiful.

Setosa (Brazilian Morning-glory). Beautiful rose-colored flowers and huge leaves; remarkably luxuriant in growth. Pkt. 10c. Leari. Flowers violet-blue; an elegant greenhouse species. Pkt. 10c.

Quamoclit (Cypress Vine). Delicately cut foliage and small, star-shaped flowers of scarlet or white. Mixed.

Grandiflora (Moonflower). The large, pure white flowers of this plant open at night; quite fragrant. Pkt. 10 cts. Heavenly Blue. Foliage very large and heart-shaped; flowers 4 to

5 inches across, borne in large clusters; light blue, with yellow throats. The bloom almost hides the foliage. Pkt. 10 cts. Bona Nox (Good-night, or Evening-glory). Most beautiful, large,

violet flowers.

Northern Light. Blooms 2 inches in diameter, pinkish lavender; blooms earlier than any other evening-blooming Ipomœa. Plant a rampant grower; foliage large and handsome. Pkt. 10 cts.

Purpurea flore pleno (Double-flowering Morning-glory). Pkt. 10c.

IMPERIAL JAPANESE MORNING-GLORIES.

Vines strong and robust, attaining a height of from 30 to 50 feet. Foliage is most luxuriant, distinct and varied. Some vines produce leaves mottled and checkered like rich mosaics of light and dark green, white and gray. Wonderfully pretty and effective, even when the flowers are not open. The flowers measure from 4 to 6 inches across, and their greater substance causes them to remain open much longer than ordinary Morning-glories. The colors of the flowers, shadings and markings are limitless. Sow early in May, in a warm, sunny position, in good, rich soil, and give plenty of water in dry weather. Superb mixed colors. Pkt. 10 ets., oz. 50 ets.

MORNING-CLORIES (Convolvulus major). Well-known and favorite annuals. Splendid mixture. Pkt. 5 cts., oz. 15 cts.

LATHYRUS latifolius (Everlasting Pea). A hardy perennial, growing 6 to 8 feet high when trained on a trellis. borne in large clusters. Mixed. Pkt. 10 cts.

LINARIA cymbalaria (Kenilworth Ivy). A dainty little vine for climbing or creeping, rockwork or baskets. The flowers are lavender-purple; leaves ivy-like and glossy.

MAURANDYA. Graceful annual climber for window or conservatory; admirable to hang from vases, or to cover stumps and low trellises; blooms very freely. Pkt. 10 cts. Ciant-flowering, Double the size of the above; 6 feet. Pkt. 15c.

MINA lobata. An Ipomœa, but with flowers very different from other forms of the family. In the bud they are a vivid scarlet, changing in the open flower to creamy white, which produces a contrast on the plant; foliage dense and luxuriant. Pkt. 10 cts.

Finest Mixed. Seed saved from a choice collection of flowers in many colors; will produce charming results if planted freely in ground that is not too rich. Oz. 15 cts.

Cood Mixed. Oz. 10 cts., lb. \$1,25.

Peregrinum (Canary Creeper). Graceful, winged flowers of pure light yellow. Oz. 25 cts.

Lobbianum. Very superior for trellises, arbors or vases: flowers brilliant and rich, borne profusely. Mixed. Oz. 25c.

Curious-fruited vines, desirable because of ornamental foliage, or the odd and striking shapes and vivid colors of their fruits.

ABOBRA viridiflora, Small, oval, bright scarlet fruits.

BALSAM APPLE. Fruit orange and red; flowers cream-colored. Pkt. 10 cts.

BALSAM PEAR. Copperv scarlet fruits; 10 feet. Pkt. 10 cts.

BRYONOPSIS. An annual climber, with small, scarlet fruits: 10 feet.

CARDIOSPERMUM (Balloon Vine). Balloon-shaped seed-capsules; odd in appearance.

COCCINEA Indica. Flowers white, fruits scarlet; 8 feet.

COURDS .- Angora, Bottle, Hercules' Club, Dishrag, Powder Horn, Siphon or Dipper, Turk's Turban, Sugar Trough, Nest-Egg, Serpent Cucumber, Mixed Ornamental Courds.

WILD CUCUMBER. Of vigorous growth and handsome appearance. Seed planted in the fall will come up in spring, and soon cover a large space.

See 3d page of cover for our Special Evergreen Mixture of Lawn Seed, and for Lawn Fertilizers.

Illustrations above are from photographs.

DWARF SWEET PEAS. Foliage deep emerald green; plants not over 5 inches high, and spreading in habit; very pro-fuse and continuous bloomers. White and Pink Cupids. Each 10 cts.

These are among our best half-hardy annual climbers. The vine is of slender and Ances are among our best nair-nardy annual c graceful but very rapid growth, with elegant foli-age and extremely pretty, dark-eyed flowers of white or yellow. Separato or Mixed. Alata. Flowers buff, with dark center. Alba. White, with black eye. Aurantiaca. Orange. Bakeri. Entirely white.

VINES FOR ALL SITUATIONS, quick and as well as slow and slender growers, are offered above. The varieties are very select, and none will disappoint the planter.

Thunbergias.

Seeds of Hardy Perennials.

MANY PERENNIALS BLOOM THE FIRST SEASON IF SOWN EARLY,

The permanent character of the Hardy Perennials, which live and bloom from year to year for an indefinite period, with but little care, renders them very popular among all classes of gardeners. Some of our very finest flowers are to be found among these plants for the hardy garden, many of which, though old-fashioned, are dear through associations. Perennials sown in fall will often bloom the next season.

PRICE OF ALL PACKETS, 5 CENTS, UNLESS OTHERWISE QUOTED.

handsome. Pkt. 10 cts. Mollis. Showy; very ornamental foliage. Pkt. 10 cts.

ACONITUM, Large-flowering (Monk's-hood). Curious, helmet-shaped flowers, quite pretty and striking, produced on tall racemes above the finely cut foliage. They are large, bright blue, and last from midsummer until late in autumn, Pkt. 10 cts.

ADONIS vernalis. A bright, early spring flower, with large, showy, sunshiny yellow flowers.

ADENOPHORA liliifolia. A beautiful plant, with charming, lily-like, fragrant blue flowers; 2 feet. Pkt. 10 cts.

ALYSSUM saxatile compactum. Low-growing, with light green, silky foliage and golden yellow flowers. Very useful for shaded places.

ANEMONE. Among our earliest spring flowers. Their blossoms are various shades of scarlet, purple, blue, white, sometimes striped. Fine mixture.

ANTHERICUM Illiago (St. Bernard's Lily). Produces magnificent spikes of fragrant white lily-like flowers; 1½ feet. Pkt. 10 cts.

ANTIRRHINUM (Snapdragon). Blooms the first year from seed if sown early, and make very bright and showy bedding plants. Varieties with dark flowers are rich and velvety in depth of color. The dwarf sorts grow 6 or 8 inches to 1 foot tall.

Tall Mixed. Seed from fine flowers of best colors.

Tom Thumb, Mixed. All colors; fine for bedding. Giant-flowering. The flowers are double the usual size, and closely set on the stems. Choice mixed. Pkt. 10 cts.

Delphinium.

ACANTHUS. Grows in almost any soil and situation; of a stately character.

CAMPANULA (Belliflower). Very popular for mixed beds and borders. They bear a profusion of large, bell-shaped flowers in blue, rose, pink and white.

Pyramidalis. Flowers in many shades of blue and white. Mixed. Calycanthema (Cup and Saucer). Handsome flowers in many

tints of blue, rose and white. Mixed.

Canterbury Bell. Produces large, bell-shaped flowers of charming form in many beautiful shades. Single and Double Mixed.

COREOPSIS lanceolata, Large-flowering (Harvest Moon). The flowers of this giant sort are nearly double the size of the older variety, measuring nearly 4 inches across; deeper yellow in color, with petals broader and more overlapping; flowers very freely; fine for cutting. Pkt. 10 cts.

CRUCIANELLA. Low, tufted plants, seldom more than a foot high; rose-colored flowers in profusion the greater part of the summer.

ENGLISH DAISIES (BELLIS PERENNIS).

This dainty little flower is a favorite everywhere. It is of easy culture, and grows well in all soils if given a rather moist, shaded situation. Flowering plants grow readily from seed sown in the border in early spring or in boxes in the house. They seldom exceed 6 inches in height, and bloom from spring until midsummer; in some localities sparingly in autumn. An exquisite plant for shady borders and edging to beds, or for window-boxes in a cool room, where in winter flowers are sent up thickly, forming rainbows of

pink and white. Maximus. Choice, large-flowering strain. Mixed.

Maximus alba. Extra double, large white flowers. Pkt. 10 cts.

Longfellow. The bright, rose-colored flowers are very large and donble, and borne on long, stiff flower-stalks; fine flowers for cutting. Pkt. 10 cts. Snowball. A pure white variety, with flowers very large and perfect, and long stems. Pkt. 10 cts. Mixed Colors. Pkt. 10 cts.

DIANTHUS and CARNATIONS.

Sweet William (D. barbatus). Attractive, profuse-blooming garden plants. The flowers have a quaint perfume. Double Mixed. Many colors. Pkt. 10 cts.

Large-flowering Columbine.

AQUILEGIA (COLUMBINE).

Handsome and free-blooming. Bears curiously shaped flowers in many bright and delicate colors, and displays them well against a mass of light and pretty foliage. 2 feet.

Large-flowering Yellow. Gold spurred. Much admired; flowers large and bright golden yellow. Pkt. 10 cts.

Large-flowering White. Large, snow-white flowers, with long

spurs. Pkt. 10 cts.

Glandulosa vera. Large, erect, blue flowers with pure white corolla; very fine. Pkt. 25 cts. Vulgaris ft. pl. Double varieties mixed. These will give an

abundance of odd and very pretty flowers. ARABIS alpina. Low-growing little plant, which covers its mat of green leaves thickly with pretty white flowers very early in the spring. Good for rockwork and edging.

ARMERIA maritima (Thrift, Sea-pink). Dwarf, hardy plants. Rosy pink flowers, borne in clusters above the tufts of leafage.

CALLIRHOE. Lilac and white flowers, produced the first year if the seed is started early. Very pretty.

CANDYTUFT (Iberis). Dwarf-growing and free-flowering plants; very useful for the border.

Gibraltarica. White, suffused with pink; 1½ feet. Pkt. 10 cts.

Sempervirens. White, with glossy foliage; ½ foot. Pkt. 10 cts.

Hardy Carnations.

Single Mixed. Hardy Carnations. Fine for the garden; all colors, shades and markings, most of the flowers double. Seed sown in the spring will, the following year, bloom all summer, and year, bloom all summer, and if lifted can be bloomed all winter indoors. Pkt. 25 cts. Plumarius (Pheasant's - eye Pink). Double fringed flowers,

fragrant, of white, crimson or purple shades. Pkt. 10 cts.

DELPHINIUM (Perennial Larkspur). Indispensable to the hardy garden, because of their long and graceful spikes of bright blue flowers. Formesum. Rich blue flowers,

with white centers. Splendid mixture. Pkt. 10 cts.

Large-flowering White and Blue. Large, single flowers on long spikes; 2 feet. Each, pkt. 10 cts.

Large-flowering Double. Flowers very double, ranging through shades of blue to porcelain, and white to violet; 2 ft. Pkt. 15c. Hybridum. Splendid mixture.

DICTAMNUS (Gas Plant). Bright red flower-spikes often a foot long, and pleasantly fragrant; flowers profusely,

DODECATHEON (Giant American Cowslip). Flower stems a foot high, each bearing from 6 to 10 large blossoms of cyclamen shape; rich violet-blue, with centers of yellow and black. Fine for partially shaded situations. Pkt. 10 cts.

ERIGERON hybridus roseus. Very interesting and attractive. Purplish rose flowers, with golden yellow centers. Pkt. 10 ets.

FOXGLOVES (Digitalis). Stately and handsome plants, with fine waxen flowers, gracefully drooping from long stems, on which they are thickly set; 3 feet.

Cloxinia-flowered. Large spotted flowers. Mixed colors.

Monstrosa. Long spikes, surmounted by one very large flower. Mixed colors.

GAILLARDIA, Large-flowering. Splendid new perennial variety, with very large, handsome flowers, having dark crimson centers marked with rings of many brilliant colors. Pkt. 10 cts.

GEUM atyosanguineum. Adapted for growing among shrub-bery, where its spikes of dazzling scarlet flowers are shown most effectually.

GYPSOPHILA paniculata (Baby's Breath). A dainty, mist-like plant, with sprays of small, white, star-shaped flowers and delicate foliage.

HEUCHERA sanguinea. Neat, bushy plants, bearing numerous spikes of rich, bright crimson flowers; 1 foot. Pkt. 10 cts.

HOLLYHOCKS.

Stately and handsome plants. Their tall spikes of double, silken flowers are magnificent when grown either in clumps or rows. Superb strains of White, Yellow, Blood-red, Crimson, Pink, Salmon and Mixed. Each, pkt. 10 cts.

Mammoth Allegheny Mammoth flowers formed of loosely arranged fringed petals ap-pear as if made of fine silk; shell-pink, pink, red, maroon and salmon flow-ers; spikes 6 to 7 feet. Mixed. Pkt. I0 cts.

LAVENDER dula). Grown for its fra-grant leaves and flowers, which retain their fragrance when cut and dried.

LOBELIA cardinalis (Cardinal Flower). Long spikes of intense scarlet flowers; one of the most

brilliant plants in cultiva-vation. Suitable for all situations. Pkt. 10 cts. Gerardi. An elegant border plant, producing long spikes of large, attractive flowers; foliage dark green. 2 feet. Mixed colors. Pkt. 10 cts.

LYCHNIS. Flowers bright and pretty; if sown early, will bloom the first year; 2 ft. Scarlet, orange, rose, crimson mixed.

Myosotis Obelisk

MYOSOTIS (FORGET-ME-NOT).

These plants thrive best in moist, shaded places, forming neat, compact little clumps, bright with graceful sprays of starry blue flowers. For pot-culture they are very pretty if given good treatment, and frequently bloom the first season.

Alpestris, White and Blue. Mixed or separate.

Alpestris Victoria. Of dwarf, globular habit, with sky-blue flowers; fine for pots. Pkt. 10 ets.

Palustris. Beautiful blue flowers. Pkt. 10 cts.

Robusta cœrulea. Large-flowering; bright blue. Pkt. 10 cts. Robusta rosea. Large-flowering; rose-colored flowers of a beautiful shade. Pkt. 10 cts.

Obelisk. Flowers sky-blue; a pillar-shaped variety that is very floriferous. See illustration. Pkt. 15 cts.

PAMPAS GRASS (Gynerium argenteum). The silvery plumes are very light and graceful in effect. For clumps upon lawns the plant is elegant and striking, and usually grows from 6 to 8 feet high. Requires winter protection.

PENTSTEMON. The plants are herbaceous, and bloom from early summer until frost. Flowers are white, blue, scarlet, crimson, yellow, etc. Mixed. Pkt. 10 cts.

PERENNIAL PHLOX (Phlox decussata). Fine clumps of them form fine lawn and garden ornaments. Many bright colors. Dwarf and Tall. Each, pkt. 10 cts.

PHYSALIS Francheti (Giant Winter Cherry). Produces fruit double the size of the old Winter Cherry. Pkt. 10 cts.

PLATYCODON, Large-flowering (Chinese Bell-flower). Large, broad, bell-shaped blue or white flowers; very handsome; 11/2 feet. Mixed. Pkt. 10 cts.

PRIMULA (Auricula). or hardy Primroses, are favorite early spring flowers, with clusters of bright blossoms in different shades of red and yellow. The clumps increase very rapidly.

Mixed seed of Auricula. best varieties. Pkt. 10 cts. mixed seed from large flowers. Pkt. 10 cts.

Vulgaris. The true, fragrant yellow Primrose. Pkt. 10c. Japonica. Flowers in whorls. carried on erect stalks; 11/2 feet. Pkt. 10 cts.

PYRETHRUM. showy plants, with aster-like flowers; handsome for bouquets, and of long duration.

Atrosanguinea. Dark red. Double Hybrids. Finest

mixed. Single Hybrids. Finest mixed. Pkt. 10 cts.

POPPIES.

Single Mixed. From select plants of best colors.

Seeds of Greenhouse Plants.

The rarest and handsomest Stove and Greenhouse Plants may be grown from seed. Directions for culture are printed on all our seed packets, and the seed contained in them is fresh and of strong germinating power.

foliage. 25 cts.

Types of Begonia

ABUTILON. Flowers of all sizes and forms, pure white, lemonyellow, rose, scarlet-crimson, yellow and red shades beantifully veined. Mixed, 25 cts.

ACACIA. Fine ornamental foliage and showy racemes of yellow, globular flowers. Mixed, 10 cts.

ANGELONIA grandiflora. Flowers bright scarlet, spotted with white; cup-shaped, and borne on long spikes. 25 cts.

ARALIA Sieboldi. A fine decorative plant, with large, ornamental foliage. 10 cts.

ASPARAGUS plumosus. A graceful greenhouse climber, with feathery, lace-like

Plumosus nanus. Somewhat dwarfer than the above, with foliage more frond-like. 25c. Sprengeri. Very desirable to grow as a pot plant or for planting in suspended baskets.

BEGONIAS.

Flowers. Begonias are now grown in such large quantities, both for summer bedding and winter flowers, that many people prefer sowing the seed to buying the plants.

Vernon. The plant is strong, dark-leaved, dwarfish and branching in habit, and the coral-red flowers cover it thickly all summer long. Valuable for bedding, pot culture and winter decoration. 25 cts.

Dwarf Vernon. Forms a small, round bush, 5 inches high, profusely covered with brilliant red flowers.

Foliage deep brown-red. 25 cts.

Vulcan. Similar to Vernon. The plants are covered with flowers of the most intense red. 15 cts. Tuberous-rooted. Large flowers of various shapes and colors. The tubers must be lifted and stored

in dry sand in a dry, warm place in autumn. Single and Double Mixed. Each, 25 cts.

New Giant. Leaves thick and leathery, often 10 inches long by 4½ inches across. The flowers hang on very long, strong stems, 5 to 7 inches in length. 25 cts.

CINERARIA hybrida grandiflora. The Cineraria is a very distinct and showy window plant, and it blooms at a season when its magnificent crown of brilliant velvety flowers is most appreciated. Our seed is from a splendid mixture of large-flowering varieties. 25 and 50 cts.

CALCEOLARIA grandiflora. The curiously shaped and oddly marked flowers of these plants at once attract notice. Large-flowering, self-colored varieties; a great diversity of colors. Mixed seed, 50 cts.

CARNATIONS.

A large proportion of the plants will produce flowers as large, double, fragrant and brilliantly colored as those from purchased plants of named varieties. The Vienna and Grenadin species are excellent for open air culture, and

bloom several weeks earlier than the other sorts.

Early-flowering Vienna. Flowers of all colors. Choice mixed, 25 cts.
Early Crenadin. Bright scarlet flowers, 60 to 70 per cent of them double. 25 cts.
Perpetual, or Tree. Tall plants, continually in flower. Our seed will produce 75
per cent of double flowers. 20 cts.

Double Self Colors. Flowers pure and beautiful colors; very fragrant. 10 cts.

Margaret Carnations. See Annuals for Bloom the First Season.

Picotees. Flowers either white or yellow, bordered with purple, red or rose. Fine mixed, 25 cts.

CHRYSANTHEMUMS.

The beautiful seedling Chrysanthemums exhibited éverywhere at autumn shows have encouraged many amateurs to try growing the plants from seed, and this is very easily doe. If the seed is sown early and kept warm and moist until it germinates, and the plants are carefully tended, they will give handsome flowers the first year.

Finest Mixture. From choice flowers of Chinese and Japanese sorts. 25 cts.

CYCLAMEN, CALIFORNIA GIANT.

Valuable for spring and winter blooming. Leaves beautifully splashed with silver. Flowers large, curious and handsome, showing all shades of color, from crimson-marcon to pure white. They last long in perfection, and the appearance of a well-grown plant in full bloom is wonderfully attractive. Enjoying a cool or moderate temperature, these plants are very suitable to window or house culture. The seed is slow but sure in germinating. The little seedlings grow rapidly, and bloom in eight or ten months from the sowing.

New Crested. The long white petals have each a pretty feather extending from the lower lip well up to their tips; distinct and curious. 50 cts. Double-flowering. Flowers large and broad; very showy and beautiful. 50 cts. White, White with Red Center, Crimson, Pink, Red Center, Rose, and Choice Mixed Seed. Each 25 cts, per pkt.

DRACÆNA. Graceful decorative foliage plants; fine for vases. Australis. Fine green leaves. 10 cts. Indivisa. Very graceful. 10 cts. Lineata. Dark green. 10 cts.

Carnations.

EUCALYPTUS globulosus. Tall-growing and handsome, with silvery linear leaves and curious flowers. 15 cts.

FERN SEEDS. Finest mixed: saved from the best varieties.

GERANIUM, Zonale. A superb strain of the largest and

finest varieties. Finest mixed. 10 cts. GLOXINIA hybrida. The waxen flowers of the Gloxinias are

Gloxinia Hybrida,

large, bell-shaped, and richly colored, producing grand effects when different sorts are grouped together. Choice mixed, 25 cts.

GREVILLEA robusta (Silk Oak). A beautiful little tree, grown for its graceful, fern-like foliage. When small, it is used for table decoration; as it grows larger, for tropical garden effects. 10 cts.

HELIOTROPE. Le-moine's Giant Hybrids. Flowers range from pure white through all shades of violet, blue and indigo. Very fragrant heads of mammoth size. Very floriferous. 10 cts.

IMPATIENS sultani. A bright little plant, with clusters of rosy scarlet flowers and glossy leaves of plain dark green. It is neat and bushy in growth, and very cheery for winter windows or summer bedding. 15 cts.

LANTANA hybrida. The Lantana is a shrubby plant, with a multitude of flower clusters something like the verbena. Mixed, 10 cts.

MIMOSA pudica (Sensitive Plant). So called from the habit which its fern-like leaves have of closing when touched. Flowers are bright pink and fragrant. 10 cts.

XAI.IS. A low-growing plant, with pretty three-parted foliage, and clusters of rose, violet, yellow, or white flowers. For baskets and pot-culture.

Delicata. Salmon-rose; very pretty. 10 cts.

Tropæoloides. Dark yellowish brown foliage. 10 cts.

PRIMULA, or CHINESE PRIMROSE.

Choicest Fringed.

Chinese Primroses are noted for their rich and profuse display of flowers in winter, and the length of time to which they produce it. Growing the plants from seed is not difficult, and full directions culture are given on our seed packets.

Alba magnifica. Pure white, yellow eye. 25 and 50 cts.

Coccinea Bright red. 25 and 50 cts.

Kermesina splendens. Crimson, yellow eve.

Primula sinensis.

and 50 cts.

and 30 cts.

Corulea. Beautiful blue. 25 and 50 cts.

Fern-leaved. Mixed. 25 and 50 cts.

Double White and Double Mixed. Each 50 cts.

Obconica grandiflora. Constantly in bloom. Flowers white, tinged lilae. A great improvement on P. obconica. 50 cts.

SMILAX (Myrsiphyllum asparagoides). Glossy green foliage; a superb climbing vine. 10 cts.

TORENIA. Rich, bright colors are strangely mingled and contrasted in the flowers of the Torenias, giving them bizarre

rainbow effects. Fournieri. Light blue flowers, marked with velvety violet, and centers of bright yellow. 10 cts.

Bailloni. Golden yellow, with rich brown-red throat. 10 cts.

VINCA (Periwinkle). Rose-colored, White, with Crimson Eye, Pure White. Each or Mixed, 10 cts.

PRICE OF ALL PACKETS, 5 CENTS, UNLESS OTHERWISE QUOTED.

Seeds of Ornamental Foliage Plants.

FOR SUMMER BEDDING, BORDERS AND POT CULTURE.

We include in this department all the best ornamental foliage plants largely used in outdoor bedding. More tender sorts, useful chiefly for house and conservatory decoration, will be found under Seeds of Greenhouse Plants. AJUGA metallica. Of regular and compact habit, with pecu-

liarly curled foliage, distinctly observable in the illustration. The very crimpled and curled dark green leaves have a metallic luster, and bend outwards in rosette-like form. From their center rises a spike 4 to 5 inches high, thickly set with small ultramarine blue flowers. Fine for carpet beds and borders. 25 cts.

AMARANTUS. Tall-growing plants, with showy, variegated leaves and long racemes of curious flowers.

Caudatus (Love-lies-bleeding). Three feet tall; blood-red. The well-known Prince's Feather. 3 feet. Cruentus. The well-known Prince's Feather. 3 feet. Henderi. Of beautiful habit; brown, dark red and bronze. Nobilis pyramidalis. Very ornamental. 3 feet. Tricolor (Joseph's Coat). Leaves are a beautiful mosaic of color.

BEET. Ornamental-foliaged Beet. In various colors.

CENTAUREA (Dusty Miller). Silver-leaved, and indispensable for ribbon beds and borders.

Candidissima. Leaves broader and whiter than in any other silver-leaved sort. 10 cts.

Cymnocarpa. Of very graceful growth; a fine variety.

COLEUS. The leaves are of many shapes and bright colors, and nearly all varieties have a rich, velvety appearance. Seed sown in March or April will produce fine plants for bedding. 25 cts.

Ajuga metallica.

CINERARIA candidissima. Used in ribbon-bedding, vases, etc. Leaves are silvery white, flowers yellow.

EUPHORBIA heterophylla (Painted Leaf). Glossy green leaves, changing in midsummer to brilliant scarlet.

Variegata (Snow-on-the-mountain). Of robust growth, with fine green leaves, striped with white.

PERILLA Nankinensis. A beautiful plant; leaves rich, dark purple; fringed. Contrasts finely with silver-leaved foliage plants.

PYRETHRUM aureum (Golden Feather). Golden yellow foliage, finely cut, producing rich, soft effects in bedding; annual.

WIGANDIA caracasana. The leaves of this plant, 6 feet long and more than a foot wide. are effective in sub-tropical bedding. 10 ets.

RICINUS (Castor Oil Bean).

Borboniensis arboreus. Grows 15 feet. Leaves enormous. Cambodgensis. Red-black

very dark leaves; very distinct. Cibsoni. Dark purple leaves and stems.

Zanzibariensis. New and distinct. The plants present a splendid aspect, with their gigantic leaves. Seeds also very distinct, very large and of exquisite tints. Mixed.

Bulbs for Spring Planting.

AGAPANTHUS. Very effective for vases, pots and tubs. Produces numerous tall, large-clustered spikes for a long time. Umbellatus. Blue flowers. Alba. Flowers white. Each 25 cts., doz. \$2.50.

AMARYLLIS.

Fine lily-like flowers, which are well suited for growing in pots or tubs.

Belladonna major. White, shaded with pink or light purple. Each 15 cts.,

Formosissima. Brilliant crimson flowers; will bloom in water, also in the out-door border. Each 15 cts., doz. \$1.50.

Johnsonii. Dark crimson, with a white stripe down each petal. Each 25 cts.,

doz. \$2,50.

APIOS tuberosa. climber, resembling the wistaria in vine and flower. Flowers purple and very fragrant. Each, 10 cts., doz. \$1.

BESSERA elegans (Coral Drops). Blooms soon after planting and continues all summer. Flowers bright coral-red, with white cups and dark blue anthers, produced on long stems. Each 3 ets., doz. 30c., 100 \$2.50.

They bloom all the summer; desirable both for pots or in beds. Flowers large and brilliant.

Single Red, White, Pink and Yellow. Each 10 cts., doz. 90 cts., 100 \$6.

Pouble Red, White, Pink and Yellow. Each 15 cts., doz. \$1.50, 100 \$10.

Amaryllis Johnsonii.

CYCLOBOTHRA flava. resemblance to Bessera, but the flowers are golden-yellow with dark dots. Each 3 cts., doz. 30 ets., 100 \$2.50.

COOPERIA Drummondii (Evening Star). Blooms in the garden from early summer to fall. Flowers pure white, star-shaped, and very fragrant; plant in clumps. Each 5 cts.. doz. 50 ets., 100 \$2.50.

CANNAS, New Large-flowering Varieties. For grouping on lawns, or for large beds, no plants are more effective. They bloom soou after planting, and continue until killed by frost. Each 10 to 25 cts., doz. \$1 to \$2,50.

CALADIUM ESCULENTUM (ELEPHANT'S EAR).

Unequaled as a foliage plant. The leaves are Tuberous-rooted Begonias. shield-shaped, bright green, often measuring 3 feet or more in length and breadth. Very imposing in appearance when developed. They need very rich soil and abundance of water.

Extra Size. 12 inches circum. Each, 30 cts., doz. \$3; by mail, each 15 cts. extra. First Size. 9 inches circum. Each 20 cts., doz. \$2; by mail, each 10 cts. extra. Second Size. 6 inches circum. Each 10 cts., doz. \$1; by mail, each 5 cts. extra. Third Size. 3 inches circum. Each 5 cts., doz. 50 cts.; by mail, each 3 cts. extra.

CALLAS.

Easily grown and free-blooming bulbous plants; fine for pots or the aquatic garden.

Spotted-leaved. Foliage beautifully spotted with white; very ornamental. Each 15 cts., doz. \$1.50.

VCLAMEN, Giant-flowering. Fine for pot-culture; beautiful in leaf and flower. Continues blooming for a long time. Red shades, white, and white with pink eye. Each 15 cts., doz. \$1.50.

CINNAMON VINE. Hardy rapid-growing climber; flowers sweet-scented; leaves shining green. Each 5 cts., doz. 50 cts.

GLOXINIAS. Fine for pot-culture; place in a 3-inch pot and shift to a larger one when required. Loves warmth and moisture, but the leaves should never be wet; blooms a long time. Each 10 cts., doz. \$1.50.

Our Bulbs and Tubers are all heavy, sound, solid roots. kept cool and dormant until ready for shipping.

Caladium esculentum.

Gloxinias.

CRINUM Kirkii. Beautiful large white purple striped flowers, borne on tall, dark-colored stems; flowers lily-like and very fragrant. Each 30 cts., doz. \$3. DODECATHEON. Produces immense heads of beautiful cyclamen-like flowers. Color white, shading to amber, tipped carmine; very fragrant; hardy and of dwarf habit. Each 15 cts., doz. \$1.50. DIELYTRA (Bleeding Heart). Produces in spring graceful, drooping racemes of pink and white, heart-shaped flowers; hardy. Each 15 cts., doz. \$1.50.

DAHLIAS. Stately and handsome autumn blooming flowers, of perfect form and wide range of color. Plant out in spring after danger of frost. Pompon and Large Double.

Each 15 cts., doz. \$1.50.

GLADIOLUS.

One of our finest summer-blooming bulbs. The flowers are of many shades of color. Plant at intervals of two weeks during the spring, thus providing a succession of bloom from summer until frost. Of the easiest culture.

Finest American Seedling. Each 5 cts., doz. 40 ets., 100 \$3

Superb Mixed. Each 3c., doz. 25c., 100 \$2. White and Light Shades. Each 5 ets., doz. 40 ets., 100 \$3.

Yellow. Each 5 ets., doz. 40 ets., 100 \$3. Pink Shades. Each 5 cts., doz. 40c., 100 \$3. Variegated. Each 3 cts., doz. 25c., 100 \$2. Lemoine's Hybrids. Each 5 cts., doz. 40 cts., 100 \$3.

HEUCHERA sanguinea. Produces numerous bright crimson-flower spikes; blooms for a very long time; plant is of bushy habit and quite hardy. Each 20 cts., doz. \$2.

HYACINTHUS candicans (Giant Summer Hyacinths). Sends up tall spikes 3 to 4 feet high, bearing numerous pure white, bell-shaped flowers. Plant hardy, of spreading habit, and fine for groups. Each 10 cts., 3 for 25 cts.

IRIS Kæmpferi. A valuable acquisition. Flowers of enormous size, running through endless combinations of color. Hardy; loves moist situations. Each 20 cts., set of 10 varieties, \$1.75, 100 \$15.

LILY-OF-THE-VALLEY. Plant in masses in partly shaded, moist places; increases rapidly.

New Giant-flowering. Flowers double the size of the ordinary. Each 5 ets., doz. 50 ets. Ordinary. Strong pips. Bundle of 25, 50 ets., 100 \$1.75.

LILIES FOR SPRING PLANTING.

Matchless among flowers. Most of them require little care after they are once established. Plant in well-drained soil.

Auratum (Gold-banded Lily). Each 10 and 15 cts., doz. \$1 and \$1.50.

Auratum virginale album. White, band yellow, with white spots. Each 50 cts., doz. \$5. Auratum macranthum. White, studded with crimson; yellow band. Each 25c., doz. \$2.50.

Auratum vittatum rubrum. White, with purplish crimson band. Each 50

cts., doz. \$5.

Auratum Wittei. White with yellow band; no spots. Each 50c., doz. \$5.

Feech 10 and 15c., Speciosum rubrum Each 10 and 15c., doz. \$1 and \$1.50.

Speciosum roseum. Each 10 and 15 ets., doz. \$1 and \$1.50. Speciosum album. Each 10 and 15 ets.,

doz. \$1 and \$1.50 Melpomene. White, suffused with dark

Brownii. Flowers trumpet form, light cream within, purplish outside. Each 50 cts., doz. \$5. Batemanniae Orange-red erect flowers. Each 10c., doz. \$1.

Double Tiger. Orange, spotted black. Each 10 cts., doz. \$1.

Davuricum. Scarlet, with brown spots. Each 10 cts., doz. \$1.

Elegans. Semi-double; petals crimson, center petals fringed. Each 10 cts., doz. \$1

American Seedling Gladioli.

erimson. Each 15 ets., doz. \$1.50.

Elegans atropurpureum. Erect dark blood-red flowers. Each 10 cts., doz. \$1.

Coridion. Small, erect, beautiful flowers with dark spots. Each 10 ets., doz. \$1. Leichtlinii. Drooping flowers; yellow with black spots. Each

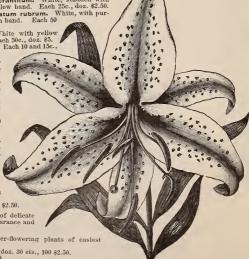

25 cts., doz. \$1. Callosum. A lovely scarlet drooping Lily. Each 25 cts., doz. \$2.50.

MILLA biflora (Frost-work). Flowers white, with anthers of delicate lemon-yellow, and pistil curiously curved. Of wax-like appearance and delightful fragrance. Each 3 cts., doz. 30 cts., 100 \$2.50.

MONTBRETIA. Beautiful, small gladioli-like summer-flowering plants of easiest culture

Crocosmiflora. Flowers intense orange-scarlet. Each 3 cts., doz. 30 cts., 100 \$2.50. Pottsii. Bright orange-red. Each 3 cts., doz. 30 cts., 100 \$2.50.

MADEIRA VINE. A favorite climber, of rapid growth; flowers very fragrant and borne in graceful sprays making the plant look like a cloud when in bloom; leaves large, glossy waxen. Each 5 cts., doz. 50 cts.

Lilium vittatum rubrum.

Japanese Paeonias.

- OXALIS. Small-growing plants with delicate foliage; flowers produced continously in abundance.

 Lasiandra. Rosy pink. Dieppi. Rosy white. Each, doz. 15
 - cts., 100 \$1.
- PANCRATIUM. For pots or the garden. Plant out in May. Flowers pearly white, very fragrant, and produced in clusters. Each 15 cts., doz. \$1.50.

PAEONIES.

Very showy hardy plants that will thrive anywhere.

Red, White and Pink. Each 15 cts., doz. \$1.50; by mail, 10

Red, White and Pink. Each 19 cts., 002. \$4.50; by mail, 10 cts each, extra.

Japanese Varieties.—Dark red with yellow filaments and petals in center, Carmine, central filamental parts striped carmine and white. Crimson, central part tipped with yellow; and Rose, central filamental part yellow. Each 40 cts., set of 4 \$1.50, doz. \$4.50; by mail, 10 cts. each, extra.

TRITOMA uvaria (Red-hot Poker Plant). Produces tall, handsome spikes of rich orange-red tubular flowers; very effective. Each 15 cts., doz. \$1.50.

TIGRIDIA (Shell-flower). Odd shell-like flowers, produced throughout the summer; treat like gladioli. Mixed. Each 5 cts., doz. 40 cts.

TUBEROSES. JBEROSES. Universal favorites, largely grown on account of their delightful fragrance. Flowers waxen white, borne on long stems.

Excelsior Pearl. Dwarf and compact, large well-cured bulbs. Each 5 cts., doz. 30 cts., 100 \$2. Albino. The bulb sends up a number of flower stems; flowers single and borne in clusters. Each 5 cts.. doz. 40 cts.

ZEPHYRANTHES (Fairy Lilies). Beautiful dwarf-growing plants; very effective in beds.

Candida. Flowers pure white. Atamasco. White, suffused with flesh-color. Each 5 cts., doz. 50 cts.

A BEAUTIFUL LAWN IS A NATURAL RESULT FROM SOWING OUR EVERGREEN LAWN GRASS SEED.

A GOOD LAWN is one of the most pleasing features connected with a country or suburban home. Proper drainage and careful preparation of the ground are the first steps necessary to secure it. If any beds for flowers are to be arranged in the plot, or any trees planted therein, the work should be done before the seed is sown. Grade or level the ground to the desired form of surface, and if in any place the earth must be removed to the surface of the subsoil, enough of the latter should be taken away to replace with 6 or 8 inches of top soil. Plow or dig up the surface thoroughly to a depth of 12 or 14 inches, and incorporate with it a liberal supply of well-rotted manner, bone-dust, or Odorless Lawn Fertilizer. The latter is at all times preferable, being quick yet durable in its effects, and free from weed-seeds, which are always contained in greater or less quantities in stable-manure. If the soil is of fair quality, 500 pounds to the acre will suffice; if poor, 1,000 to 1,500 pounds will be required. Before sowing the seed, haven we do und well, until reduced to a fine surface. Sow about 4 to 5 bushels of the Evergreen Lawn Seed to the acre; after sowing, rake it slightly, and finish by rolling the surface well. The seed can either be sown as early in the spring as ground can be prepared, or in the fall. Some weeds will always appear in new lawns. These should be taken out, or they will overcome and smother the grass seed. When the young grass is from 4 to 6 inches high, it must be mown, but not too short, and the cutting continued at intervals; an occasional moving is always beneficial. In case of severe drouth, water occasionally in the evening. No lawn can be kept long in good order without successive rollings. Moving alone will not secure a good bottom without that compression which the roller gives. The rolling should be done in the spring, before the ground becomes dry.

To grass a bank or terrace, take for each square rod a pound of Lwn-grass seed, and mix it with about six cubic feet of good, dry garden loam. Place it in a tub, and add liquid manure, diluted with about two-thirds water, until the mixture has the consistency of mortar. Make the slope perfectly even and smooth, water it well, then apply the paste in a thin, even coat.

BECKERT'S EVERGREEN LAWN MIXTURE.

Wen the very hest results are desired, this mixture should be used, it being the finest lawn preparation that can be made. We have made many experiments to determine the grasses best adapted for lawn purposes, and this mixture is composed of such grasses and, in such proportion as we have found will make a first-class lawn. The essential points in a lawn are permanence, with a fine appearance, which can only be produced by a combination of grasses that grow and flourish during the different months of the year, from an early spring growth, continued through the summer, until late in the fall. The ingredients of this lawn seed are the highest grades of recleaned grasses. Practically free from weed seeds, and tested as to vitality before sold.

Intending purchasers will please note that cheap priced lawn seeds are composed of lighter grades of seeds, contain very much chaffy matter, and are generally sold in bushels weighing 14 to 16 pounds. Whereas our Evergreen Lawn Mixture is sold by the measured bushel, containing in weight 27 to 28 pounds of seed. In practical effect one bushel of this will serve the purpose of about 2½ bushels of the ordinary seed. Use 1 qt. to 300 sq. ft., 4 to 5 bus, to the acre. Price, per measured bus, \$4.50; per pk., \$1.50; per qt., 20 cts., by mail.

SHADY NOOK LAWN MIXTURE.

A mixture of grasses which are best adapted for sowing in shady places, where other grasses will not flourish. In nearly all lawns where there are trees there will be found bare, unsightly spots, which can be made green and bright by using this mixture. '25 ets. per qt., \$1.25 per pts., \$5 per bus.

FINE BONE MEAL, FLOUR or DUST.

Ground fine, and decomposes rapidly in the soil. Very effective for pot-plants and lawns. Per lb. 5 ets., 10 lbs. 40 ets., 100-lb. bag \$2.25, 200-lb. bag \$4.

ODORLESS LAWN FERTILIZER.

A clean, high-grade fertilizer, free from disagreeable odor, specially prepared for us. Produces a rapid and rich, green growth of grass. Should be sown broadcast, and applied in spring or fall. Quantity required, 10 lbs. for 300 sq. ft., 500 to 1,500 lbs. per acre. 10 lbs. 40 cts., 25 lbs. 30 cts., 100 lbs., \$2.50, ton \$40.

WEEDS IN THE LAWN.

These will appear in all lawns. They may be flooded there by water, blown there by the wind, or carried there in manure. Annuals can be kept in check with the lawn mower. If perennials, they must be dug out by the root.
