Dear Sirs:

The Provost Marshal General has directed me to reply to your letter of 14 July 1945, relative to the transmission by the Swiss Legation in Tokyo by telegraph, the names of American prisoners of war in Japanese custody which have been communicated to it by the Japanese authorities. Inasmuch as the information for the most part has been a duplicate of lists received by the American Prisoner of War Information Bureau by telegram from the International Red Cross Committee at Geneva, it is believed that the telegraphic communication of names by the Swiss Legation at Tokyo could be dispensed with.

If feasible to transmit the names via air mail or ordinary mail they could be used as a check against the names received via telegraph from Geneva, perhaps the same purpose might be served.

Sincerely yours,

Howard F. Bresee

Reference Department's telegrams 602, March 12, 1943; 1618, July 9, 1943; and Legation's despatch 12072, July 7, 1945.

Legation is instructed to request Swiss Foreign Office to have Swiss Legation, Tokyo, discontinue telegraphic transmission of lists of American prisoners of war and civilian internees in Japanese custody furnished to it by Japanese authorities. Henceforth, United States authorities will rely on lists furnished by Japanese authorities to Intercross which are in turn cabled to Geneva and then to Prisoner of War Information Bureau, War Department, Washington. Department's instructions in this regard are predicated on fact that lists transmitted through diplomatic channels duplicate for the most part lists received by the American Prisoner of War Information Bureau from Intercross at Geneva. Department desires, however, that Swiss Legation, Tokyo, continue to receive lists from Japanese authorities and to retain such lists in files of Swiss Legation, Tokyo, until such time as onward transmission ~~by air mail~~ is feasible.

Department desires that telegraphic reports regarding visits made to camps by protecting Power indicate when possible aggregate number of prisoners of war in each camp. Department also desires that reports show names of persons newly arrived or who have departed from a camp which Swiss representative may at time of visit have reason to believe Japanese Prisoner of War Information Bureau has not yet reported.

AMERICAN LEGATION

Bern, August 27, 1945.

Subject: American Interests - Lists of American prisoners of war and civilian internees in Japanese custody - discontinuance of telegraphic transmission.

SEP 21 1945

The American Minister at Bern has the honor to refer to the Department's airgram A-486 of August 3, in which the Legation is instructed to request the Swiss Foreign Office to have the Swiss Legation at Tokyo discontinue the telegraphic transmission of lists of American prisoners of war and civilian internees in Japanese custody furnished to it by the Japanese authorities.

The Legation is now in receipt of a Foreign Office note dated August 25, which encloses six photostatic copies of list JU/81 which the Swiss Legation at Tokyo transmitted by telegrams dated August 15. These indicate the names of a certain number of American prisoners of war who have been killed during their transfer.

The Department's airgram under reference was received in A.I. on August 13, and the following day an appropriate note was sent to the Foreign Office. It is obvious therefore that Minister Gorgé had not had time to receive instructions from his Government at the time he transmitted the enclosed list by telegram.

Enclosure:

Four photostatic copies of list JU/81 - with original of despatch only.
