GERMANY MUST PAY HEAVILY FOR CRIME

MANY WERE KILLED IN THE RECENT OUTBREAK AT EGYPTIAN CAPITAL

Alexandria Also Witnessed Desperate Fighting; General Allenby Reports Situation Under Control; Benisebil Surrounded

Cairo, April 14.—An official statement issued at the headquarters of General Allenby, special high commissioner for Egypt and the Sudan, Saturday, reads:

"Since noon yesterday quiet has prevailed throughout Egypt. An attempt on Thursday to tamper with a railway resulted in five arrests, while attempts to interfere with telegraphic communication resulted in the village of Benisebil being surrounded and given three days in which to produce the guilty persons. On Friday two rioters were killed and one was wounded when they were caught cutting telephone wires near Quesna.

"A deputation of prominent Alexandrian citizens has cabled the commanding officer, deploring disorders on Thursday and expressing appreciation of the forbearance of the troops. Four hundred persons have been arrested in connection with recent rioting.

"Apart from collision with mobs on April 8, 9 and 11, four officers and fifteen men have been killed through attacks on individuals. The police report the civilian casualties for the twenty-four hours ending at noon on Friday as being three killed and fifteen wounded.

Armenians Attacked.
Cairo, Egypt, April 14.—In two days of rioting here ending at noon on Thursday, thirty-eight persons were killed and 100 injured, it is announced in to-day's official communication. Armenians are chiefly the objects of the attacks, and seven of those killed were of that nationality.

In rioting in Alexandria three persons were killed and six seriously injured Saturday morning, while a continuation of attacks resulted in the killing of seventeen other persons during the afternoon. The text of the statement reads:

"There was further rioting in Cairo Thursday. The mob, armed with knives and hatchets, made attacks largely directed at Armenians. The police report that thirty-eight were killed and 100 were wounded during the forty-eight hours ending at noon Thursday.

"The killed include seven Armenians and four Greeks. Military measures were enforced and the night passed off quietly.

"Disturbances occurred in Alexandria Thursday. There was a fight in the morning between the troops and rioters in the Karmus quarter in which three were killed and six seriously wounded. In an Armenian disturbance in the afternoon the mob persistently attacked the troops, who were obliged to fire, killing seventeen, including a number of ringleaders, and wounding a number of others. The public are warned to be in their houses by eight o'clock in the evening.

Soldiers Murdered.
"Five British soldiers, including two unarmed Indians, were murdered on Wednesday.

"The troops were greatly affected, but showed admirable patience. On Wednesday night, the Kahr El-Ain Hospital (Cairo) reported twenty-two killed and forty-seven wounded civilians. A large proportion of the casualties were due to mob outrages. Disorderly crowds composed of the worst elements began operations in the quarters from which the military patrols had been withdrawn at the request of the civil authorities. They murdered and carried out looting operations of small shops until the troops checked them. The rioters systematically canvassed the houses of Armenians, as was done in the massacre at Constantinople and held Austrians forcing them to prove their identity. The terror-stricken Armenians took refuge in the Cairo suburb of Helipolis, whereupon the local policemen and watchmen abandoned their posts, apparently shirking responsibility.

"The Egyptian ministry, newly formed, has not yet met.

"The reinstatement of the civil authorities in the provinces is almost everywhere complete."

Revolution Breaks Out in Serbia Now; Copenhagen Rumor

London, April 14.—A despatch to the Exchange Telegraph Company dated Saturday, says an unconfirmed rumor from Copenhagen has been received there that a revolution has broken out in Serbia, and that the troops are fraternizing with the Hungarian red guards.

STRIKE IN RHUR DISTRICT ABATING

Essen, April 14.—The strike in the Ruhr district is abating, dispatches from German sources report. At the Krupp Works in Essen, two-thirds of the men are at work.

FIVE BILLIONS WILL BE ASKED OF GERMANY BY ALL DOMINIONS

Melbourne, Australia, April 14.—Reports cabled here of the proceedings of the reparations committee of the Peace Conference at Paris place the losses of the British Dominions and Colonies, for which payment shall be asked from Germany, at \$5,000,000,000.

FIRST DIVISION MEN AFLOAT FOR CANADA

Transports Carmania, Adriatic and Grampian Leave Liverpool

London, April 14.—The Carmania sailed Saturday for Halifax with the following belonging to the first division, second brigade:

Fifth battalion, twenty-one officers, 462 other ranks; seventh battalion, twenty officers, 420 other ranks; tenth battalion, sixteen officers, 288 men; third brigade, 13th battalion, thirty-three officers, 649 men; fourth battalion, thirty-four officers, 606 men.

Three Generals Aboard.
London, April 14.—The Adriatic sailed from Liverpool Saturday for Halifax with 108 officers, three nursing sisters and 1,172 other ranks. Kinmel camp supplied eighteen officers and 663 men. The motor machine-gun brigade from Seaford supplied twenty-four officers and 275 others; the Cyclist corps from Ripon, ten officers and 255 others. Other units aboard were the survey corps and signal companies and the third divisional staff.

Major-General Loomis, Brigadier-General Draper and Clarke, and Colonel C. P. Templeton sailed with the troops.

Grampian List.
London, April 14.—(Canadian Associated Press.)—The Grampian sailed Saturday from Liverpool for St. John with forty-eight officers, four nurses and 352 men from Buxton; nine officers and 534 men from Winchester; 534 wives, 304 children and forty-seven babies.

On Olympic.
London, April 14.—(Canadian Associated Press.)—At Bramahott camp Saturday colors were presented to the second eastern Ontario battalion by Charles Walter Band, of New York, father of the late Captain Percy Band. The colors were dedicated by Col. Canon Scott. The battalion, with the remainder of the first brigade, sails on the Olympic Sunday.

BRITISH COMMENT ON HULL ELECTION

Result is Ascribed to Delays and Secrecy of Peace Conference

London, April 14.—(Canadian Associated Press.)—The Times and Mail ascribe the result of the Hull by-election to delays and secrecy of the Paris conference. There is a widespread suspicion that we are not going to get a full measure of reparation, adds The Times, and The Daily Express remarks, "We have faith in Lloyd George and Bonar Law as heads of the Government, but no belief whatever in the abilities of several of their colleagues, or in the policies these gentlemen are forcing on an unwilling people. The country is crying out against the men who want to carry the spirit and methods of the war administration into an era of peace."

The Daily News finds in the result a definite pronouncement against conscription of the plea that it is our duty to undertake indefinite police duties throughout Europe.

The Manchester Guardian declares the electors think they have been fooled and do not like it. "The result is a great deal of humbug, and pure demagoguery at the general election, and unhappily our versatile Prime Minister was more than any one responsible for these things, Germany, which was to pay all, will pay something, if we are lucky, and the German state holds together, but not a tithe of what the electors were encouraged to think she would be made to pay."

The Guardian also ascribes the defeat to the disillusionment over the punishment of the Kaiser and the abolition of conscription.

PROTEST HIGH RENTS.

Calgary, April 14.—A mass meeting of citizens was held in Mewata Park yesterday under the auspices of the Army and Navy Veterans and the Trades and Labor Council, to protest the general raising of rents in the city. The Dominion and Provincial Governments will be memorialized in the matter.

LEON TROTZKY ADMITS DEFEAT

Allied Forces Sting Bolsheviks on the Eastern Front

London, April 14.—Leon Trotzky, the Bolshevik Minister of War admits defeat on the Eastern front in a wireless message from Moscow, which has been picked up here. The message reads: "All our efforts must now be directed to the Eastern front, which is the only front upon which we have suffered defeat. We must send old and experienced troops to that quarter. It is absolutely necessary for us to capture Ekaterinburg, Perm and Ufa."

Prisoners and Guns.
London, April 14.—War Office reports from Murransk say that with a view to forestalling a Bolshevik attack, General Maynard commanding the Allied troops, successfully attacked with small forces twenty miles south of Segoja, on April 11. The Allies took prisoners and captured three guns and other material, including 7,000 shells. Fifty of the enemy were killed and the Allied loss totalled one killed and two wounded.

STATUS OF U. S., FRENCH AND JAPANESE AMENDMENTS DEFINITELY ESTABLISHED

Paris, April 14.—The status of the American, Japanese and French amendments to the covenant of the League of Nations has been definitely established so far as the League of Nations commission is concerned, with the American amendment concerning the Monroe Doctrine the only one to be given a place in the covenant by the commission. The French and Japanese, however, have both made reservations which entitle them to renew, at a plenary session of the Peace Conference, the questions involved in the amendments so that the final decision is still open.

Evokes No Enthusiasm.
London, April 14.—The summary of the amended covenant of the League of Nations evokes no enthusiasm in the London morning newspapers, and it is declared by some commentators to be less satisfactory than the first draft. The Chronicle, for instance, points out certain points which it thinks make the new draft "distinctly and perhaps decisively inferior to the old."

The newspaper condemns the policy of requiring unanimity for the decisions of both the Council and Assembly and also condemns the terms upon which the covenant may be amended and permission given any nation to withdraw on two years' notice. It regards the covenant as unharmed by the Monroe Doctrine amendment, which it believes should facilitate the adherence of the United States to the covenant.

The Daily News, which is a warm champion of the principle of the League, objects to the constitution of the new Council which it says "will manifestly be controlled by prominent representatives of the five great powers when they are in agreement," and fails to see how the four representatives of other powers chosen for the assembly can have much independence.

The newspaper does not express any great confidence in the efficacy of the League in any case.

The labor newspaper, The Daily Herald, says the summary does not indicate much improvement on the original draft. It declares that from a democratic viewpoint the League is still an alliance of states and not a union of peoples.

The Post, which is an opponent of the League and a severe critic of President Wilson, refers critically to the "new Garden of Eden in which the Monroe Doctrine will take the place of the Tree of Knowledge and of good and evil"—referring to the "fruits of the Western Hemisphere being forever forbidden to signatories of the League."

Attributing to President Wilson personally the features of the draft to which it most objects, the newspaper says "that posterity will place with Metetrnich and Castlereagh as one who worked for the confusion of other nations and the greatness of his own." It concludes by declaring it monstrous that such a covenant should be signed without first fairly being considered by the public and parliament.

COMMANDS CANADIAN CAMPS.
London, April 13.—(Canadian Associated Press.)—Brigadier-General E. H. Bell has been appointed to the command of the joint Canadian camps at Witley and Bramshott.

ALSO MUST DELIVER TO ALLIED AND ASSOCIATED GOVERNMENTS \$20,000,000,000 IN INTEREST BEARING BONDS PAYABLE OVER A PERIOD OF 15 YEARS

Paris, April 14.—Germany under the peace treaty must pay \$5,000,000,000 in cash or the equivalent in commodities before May 1, 1921. She must also issue immediately to the Allied and associated governments, \$20,000,000,000 of interest-bearing bonds.

Interest on the bonds until 1921 will be either two or three per cent., and after that date will be five per cent., according to the present plan. The bonds will be payable in instalments during a period of fifteen years. They probably will be kept in the control of a central commission of the Allied and associated governments so that they shall not be marketed in quantities sufficient to break the price.

Germany also must obligate herself to pay other amounts for damage done, approximate to her means, to be determined by a mixed commission of representatives of the Allied and associated governments and of Germany, which shall report before May 1, 1921.

French Report.
Paris, April 14.—As a result of the by-election at Hull, Premier Lloyd George of Great Britain, according to The Echo de Paris, has persuaded the Council of Four completely to revamp the financial plan to be incorporated in the treaty of peace. Instead of a payment of 25,000,000,000 francs on account and ten payments to be fixed by a commission, it has been decided to fix at once the amount which Germany will have to pay within fifty years. This amount is kept secret, but it is indicated by the newspaper that the figure is 250,000,000,000 francs, which includes all war damages as well as the costs of pensions.

Fixing the total sum will have the merit of facilitating treasury operations and the carrying out of mutual measures for assistance between the Allies. The first instalment of 25,000,000,000 francs must be paid within eighteen months, the newspaper declares.

Other newspapers, however, do not mention any such change in the terms, but all information in French quarters agreed in regard to the Saar Valley.

MUNICH IN GRIP OF CIVIL WAR

Garrison Reported to Have Established Military Dictatorship in Support of Hoffman

Nuremberg, April 14.—Via Copenhagen.—A report from third army headquarters at Munich says the garrison has established a military dictatorship in support of the Hoffmann ministry, which the Soviet regime seeks to oust from office. Action to recover the Capital from soviet forces is progressing favorably, it is said.

Dr. Adolf Lapp, who was appointed commissioner for Foreign Affairs in the Soviet congress on April 9 has been placed in an insane asylum, according to reports. When his appointment to this office was announced, it was said that he was on two occasions being confined to an asylum for megalomania. Dr. Levian, leader of the Independent Socialists, is believed to have fled, and sixteen Soviet leaders, including Herr Landauer, Herr Wagner and Herr Neuhann, members of the Soviet ministry, are said to have been arrested.

Heavy Fighting.
Copenhagen, April 14.—A wireless message from Munich, by way of Berlin, says that heavy fighting occurred at the railway station in Munich Friday evening and a decisive struggle is expected.

Against Soviets.
Berlin, April 14.—Sentiment among a large proportion of the people of Munich and of almost the entire remainder of Bavaria is steadily growing against the alleged ruthlessness, incompetence and strange methods of the new Soviet regime. Rathion, Schweinfurt, Furth and Augsburg have capitulated to the old regime and disavowed the allurement of the Soviets, which led them temporarily from the field.

SIMFEROPOL CAPTURED.

London, April 14.—The Ukrainian Soviet forces have captured Simferopol, capital of the Crimea and Eupatoria, thirty-eight miles west-northwest of Simferopol, with considerable booty. This information is contained in a Russian Government wireless communication received here.

MINES TO FRANCE

It is said that it is settled that the mines will become the absolute property of France, which will police the region, which, however, will be administered by a sort of directorate under the auspices of the League of Nations. This directorate will consist of one inhabitant of the Saar region, one Frenchman and three nominees of the League. The regime, it is said, will last for fifteen years, when a plebiscite will be held, and in the event that the inhabitants elect to return to Germany, that nation will be obliged to buy back the mines, paying in gold. To carry out this task would be no mean undertaking, say the newspapers, especially The Echo de Paris and The Journal, which declare it to be simply a repetition of the Tangier regime, which they say has been seen to be the equivalent of "most complete inertia."

Left Bank of Rhine.
Neither are the critics satisfied with the plan for military occupation on the left bank of the Rhine, although the methods to be followed have not been finally decided upon. It is said in French quarters that this would be entirely in the hands of French troops, who will guard the bridgeheads and railroad junction. In addition there is to be a new 30-mile neutral military zone on the right bank of the river, it is said.

These two measures will be in force only fifteen years. French troops being progressively withdrawn as instalments of the debt is paid by Germany as was done by that country with France in 1871.

Defensive Alliance.
"Pertinax" in The Echo de Paris maintains that if France is left to guard alone the common good of civilization she ought to be backed actively by a defensive alliance with Great Britain and the United States which is clearly defined in detail.

Right of Operation.
Paris, April 13.—(Associated Press) (Concluded on page 4)

KEMAL BEY WAS PUBLICLY HANGED AT SUBLIME PORTS

Constantinople, April 14.—Kemal Bey, Governor of Diarbekir, has been publicly hanged in Bayazid Square in Siambul, in the presence of the military governor of Constantinople and other officials. Kemal Bey was sentenced to death as one of those responsible for the Armenian deportations and massacres in the Yozghad district.

The former commander of the gendarmerie in Yozhad was sentenced to fifteen years' imprisonment in the fortress. These sentences were pronounced by an Imperial Irade.

ENTRY OF HUTTERITES STRONGLY OPPOSED

Winnipeg Returned Men Doing Utmost to Have Them Barred

Winnipeg, April 14.—Following the receipt of Friday of a lengthy telegram from G. W. Allan, K.C. Unionist M. P. for Winnipeg South, which was sent from Ottawa after a long conference between members of the Government and western members of Parliament, dealing entirely with the question of allowing the entrance of Hutterites and Mennonites into Canada, the Canadian Club, of Winnipeg, called an emergency meeting, which was held on Saturday afternoon to discuss the situation.

Mr. Allan's telegram to R. W. Craig, president of the Canadian Club, was in part as follows:

"The Government, after fully considering the whole situation, and especially its international bearings, cannot see its way clear to debar entry to Canada of any American citizen because they belong to a particular religious sect. The Federal Government has not granted any special privileges to these people. If any class of American citizens are to be shut out from Canada, demands will be made immediately, notwithstanding present agreements, to shut out Japanese, Chinese and others."

The telegram also mentioned that the Order-in-Council which granted immunity from military service to all Hutterites who entered Canada was cancelled on April 10. At the conclusion of the meeting of the Canadian Club a telegram was dispatched to Mr. Allan asking him to convey to the Government "that its statement that it can not see its way clear to debar entry into Canada of any American citizen because they belong to a particular sect is misconceived and misstates the question."

The club points out that it does not ask for the exclusion of Hutterites or similar bodies because they are a religious sect but because "they are members of a sect that is founded upon principles, practices and anti-Social obligations opposed to Canadian ideals and objects and that makes them undesirable citizens. Their exclusion involves no attack upon right of entry of American citizens but rests upon the acknowledged principle that entitles Canada to exclude all types of objectionable aliens of any country."

REGINA VETERANS WANT GRATUITIES

Also Petition Government in Favor of Land Settlement Policy

Regina, Sask., April 14.—The Regina Great War Veterans' Association want a gratuity for soldiers and are also strongly in favor of a land settlement policy which will develop Canada. At a largely attended soldiers' meeting here yesterday resolutions to this effect were passed. The Dominion Executive of the Great War Veterans' Association will be asked to petition the Government to acquire by purchase all vacant lands adjoining transcontinental railways in all provinces as may be required by incoming settlers and to sell the said lands to applicants at a low rate of interest upon payment of ten per cent. of the purchase price in cash. The quantity of land to be sold each settler depending on his ability to make it productive.

Bonuses.

In connection with soldier re-establishment the meeting went on record that all ranks of the land and naval forces of Canada should be given a bonus to make up the difference between military pay and what the average man could have earned in civilian life on the following basis:

Service on a belligerent front, \$3 a day; service in Canada and England, \$2 a day; service in Canada only, \$1 a day; that the bonus to a widow of a deceased soldier be at the rate of \$4 a day or to a guardian of deceased soldiers' children at the rate of \$3 a day for each day of service of the deceased father with a minimum of \$1,000. That all bonuses be in the form of Government bonds at five and one-half per cent. interest payable by selection in ten, twenty, thirty, forty and fifty years.

Much discussion of the soldiers' settlement act took place, most of the speakers criticizing its principles severely.

RETIRED SOLDIER DECLARES HE FOUGHT FOR BREATH

Was Miserable for Eighteen Months From Indigestion Entirely Relieved by Tanlac

Looking entirely fit and cheerful, Mr. F. Turner, returned soldier and motor mechanic residing at Jubilee Station, Burnaby, B. C., visited the Owl Drug Company in Vancouver recently, and made the following signed statement regarding his experience with Tanlac to special demonstrator H. M. Rehberg:

"For the past eighteen months I have suffered dreadfully with my stomach. My appetite was so poor that I never felt like eating, and what I did manage to eat would sour on my stomach, causing gas bloating and misery. I would get so bloated sometimes, and my heart would beat so hard from the pressure of gas that I thought I would smother, and had to fight for breath, and the pain around my heart would be awful. I often had dizzy spells, from constipation, and pains in my back and head. I used to feel as if someone were pounding on my head with a hammer. At night I would just ache all over. It seems as if I didn't have a good night's rest in eighteen months. I just wanted to roll up in a ball, and roll and toss, and of course, I couldn't get much rest that way. I'd get up in the mornings feeling too miserable for work, and have a bad taste in my mouth.

"It was not long before I began losing strength and weight, in spite of trying to get myself straightened out with different medicines which I tried. I was getting into mighty bad shape when I noticed a testimonial letter about Tanlac by a party in Vancouver who described just my case, and said he found Tanlac was the only medicine for him, so I made up my mind to get a bottle myself and see if it would help me; and it certainly did.

"It had not only stopped the trouble with my stomach, the gas and heart-burn, but built me up in fine shape, and I have gained back nine pounds in weight that I had lost. No more headaches and dizziness and pain in the back when I stood over for a tool; and I sleep like a log and feel fine since my constipation is gone. I can recommend Tanlac to anyone suffering as I was, because I believe it will help whoever tries it."

"Many people who make such statements as Mr. Turner makes above," said Mr. Rehberg, "seem to get the idea that there is some trick about them. To such people we wish to say that a personal inquiry addressed to Mr. Turner at the address given, or to any of the many persons whose names appear under Tanlac testimonials, will bring out the fact that these statements are fully authorized and true."

To any person who is dragging along from day to day in such a condition as Mr. Turner was in, we say, "Read what Tanlac has done for others—and then try it yourself."

Tanlac is sold in Victoria by D. E. Campbell, druggist, corner Fort and Douglas Streets. (Adv.)

MUTINY WAS DUE TO PROPAGANDA

Washington, April 14.—Official reports to the War Department made public to-day by General March, Chief of Staff, show that the mutiny among the American troops at Archangel, was directly due to propaganda circulated by Bolshevik sympathizers among the men, all of the questions asked by the soldiers of their officers having been directly suggested in leaflets urging the Americans to revolt. The mutiny now appears to have ended when the men entrained for the front.

Interesting News for Working Men

An Article Well Worth Your While to Read

This is a nerve-racking age—not a man in an office or behind the counter, striving hard to get on in the world, that does not feel the strain.

If nerves are in order, a man is strong, eats and sleeps well. Unstrung nerves means weakness, worry, sleeplessness and a general decay of bodily strength.

Most men are careless of their health. They trust to luck and that kind of thing, instead of taking Ferronone for a few weeks when they feel dull in the morning, or when they sleep poorly or lose appetite.

Ferronone quickly brightens up the mind. It creates an appetite and improves digestion. Ferronone makes blood, quiets the nerves, makes muscle like steel and induces refreshing sleep.

Ferronone is a body builder, thousands have proved it. If you are sick or out of sorts, use Ferronone and enjoy the splendid health it so surely brings.

Permanent in its results, the greatest health-giver in the world is Ferronone. Because nourishing and perfectly harmless, all can use it, even children. Get Ferronone to-day, 50c. per box, at all dealers or by mail from The Cattarrhose Co., Kingston, Ont.

ARE NOW LIABLE TO MILITARY SERVICE

Meighen Says Hutterites Cannot Claim Exemption on Conscientious Grounds

Ottawa, April 14.—There has been no action by the Government relative to the movement against the entrance into Canada from the United States of Mennonites and Hutterites since Tuesday last, when Hon. Arthur Meighen, on behalf of Hon. J. A. Calder, replied to a question put by Fred Davis, of Neepawa, he explained the situation. On Friday there was a further discussion of the matter between Western members and Hon. J. A. Calder, but so far as can be learned it has not as yet been productive of any further action on the part of the Government.

The question of the exemption of Mennonites to military service was dealt with by an Order-in-Council passed last October. Under the provisions of this order, Mennonites who did not enter Canada under the provisions of the Order-in-Council of 1913 were made liable to military service.

All Hutterites entering Canada after April 10 have been made liable to military service. This was stated in the House by Mr. Meighen in reply to Mr. Davis on Tuesday last. The Order-in-Council making this provision was passed on April 8 and came into force on April 10. It cancels the special privileges granted to Hutterites in 1913 insofar as immigration since April 10 is concerned.

Furthermore, the Government Immigration Bill, as explained in the House by Hon. J. A. Calder, contains the provisions which will deny all immigrants entering Canada in future from claiming exemption from military service on conscientious grounds.

Heart Palpitated Could Count Every Beat

When the heart begins to palpitate, it will beat fast for several seconds, the slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells.

When the heart gets into this condition, you become weak, worn, irritable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nerve derangements.

Mrs. Walter Greives, Apsley, Ont., writes: "I had been run down, and doctors told me I was anemic, but did nothing for me with their medicines. I could not sleep nights, my heart palpitated so, and I could count every beat. I used to have such dizzy spells I would have to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work. I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to some one who is suffering the way I did."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WEALTHY FARMER OF HUMBOLT VICTIM OF WIRE-TAPPING SWINDLE

Winona, Minn., April 14.—The timeworn wire-tapping swindle with two men, giving their names as A. J. Smith and G. Minter, who had a "tip" on the steel market, cost Fred Seckinger, wealthy farmer of Humbolt, Sask., thirty-nine hundred dollars, he told Winona police officials.

Seckinger said he was lured to Humbolt for Rochester, Minn., where he was to undergo a serious operation at the Mayo hospital. Before the operation he contracted influenza and it was while recovering from this malady that he met Smith, who also had come to Rochester for an operation. They became great friends and Smith confided to Seckinger that he had just made a fortune through his friend Minter. One day while they were talking high finance, Seckinger said, they ran across Minter who was agreed to let him in if he could produce \$3,900. Seckinger was convinced the men were honest when he saw Smith hand Minter one thousand to invest for him, so he returned to Humbolt, drew \$3,900 by increasing his mortgage on his \$40,000 farm and returned to Rochester. All three then went to Winona, where Seckinger paid over the money. The men asked Seckinger to wait for them while they went inside a building for a moment. He had not seen them since, he told the police. Seckinger left yesterday for Rochester, where he will undergo the operation.

WELSH MINERS HAVE ACCEPTED SANKEY FINDING

London, April 14.—The ballot of the Welsh miners gives a majority of 123,127 in favor of accepting the report of the Commission headed by Mr. Justice Sankey, which recommended a number of improvements in the working conditions of the miners. The vote was: For acceptance, 142,556; against, 19,429.

Other mining districts in the United Kingdom also have voted in favor of accepting the report. This it is believed assures the acceptance of the recommendation of the Commission by the miners' convention to be held at Newport and gives hope for industrial peace by Easter. Only two questions remain in the way of industrial peace—the continuation of conscription and the Government's policy in Russia.

DECISION REACHED ON REPARATION

Premier Clemenceau Tells French Socialists Satisfactory Settlement Reached

Paris, April 14.—(Havas).—Premier Clemenceau told a deputation of the radical Socialist group which called upon him Saturday that the question of reparation by Germany had been settled among the Allies a few hours previously on a basis that would satisfy the desires of the deputation, as these had been presented to him, and the same could be said for the negotiations concerning the Saar Valley.

The deputation, said its spokesman, demanded the granting of immediate material guarantees that France should be protected as far as possible from any fresh aggression. To reach this end, the group considered two things necessary—a strongly-organized frontier and the disarmament of Germany, the permanency of which should be secured by continuing control.

Concerning reparations, the minimum requirements formulated by the group comprised the placing of the coal mines of the Saar Basin at the disposal of France, while it contended that complete reparation must be obtained for all persons and property and provision made for the payment from enemy funds on all war pensions.

Premier Clemenceau replied it gave him great joy to be able to announce that the question of reparation had been settled between the Allied powers on the basis which the group considered necessary for France. The same was true, added the premier, of the negotiations concerning the Saar Basin. The satisfactory settlement, M. Clemenceau said, has not been attained without serious differences.

VIOLATION OF LIQUOR MEASURE EMPHATICALLY DENIED BY SPEAKER

Ottawa, April 14.—The attention of Hon. E. H. Rhodes, Speaker of the House, has been called to articles appearing in the public press accusing him of violating certain provisions of the war measure act prohibition regulations by bringing liquor into a prohibited area. Mr. Rhodes denies absolutely, positively and emphatically the truth of such articles or that he has been guilty in any manner, shape or form of contravening, violating or evading the provisions of such regulations.

R. A. Pringle, K. C., of Ottawa, has been retained by Mr. Rhodes, and instructed to institute proceedings against all papers publishing such articles.

AGREEMENT REACHED.

Berlin, April 14.—The reports received from Munich state that an agreement has been reached between the central council and the communists. This is held to indicate that the moderate elements in the Bavarian capital have gained the upper hand.

RELEASE OF LEDEBOUR IS STILL DEMANDED BY THE INDEPENDENTS

Berlin, April 14.—The Prussian authorities are passing from one to the other the question of release of George Ledebour, the Independent Socialist, arrested during the Spartacan uprising, whose release has been demanded by the Soviet Congress. After the Ministry of Justice had referred to the Congress to the State's attorney, the latter directed the Soviet delegates to apply to the court before which Ledebour was to be tried. The criminal court informed the Congress that the court must stand by its original refusal to surrender the Independent leader.

This announcement to the Soviet Congress brought the enraged Independents to their feet and they finally succeeded in having a special committee appointed to effect the release of Ledebour at the earliest possible moment. The Congress received a motion by the Independents to admit two Russian Menshevik delegates to the Congress.

Max Cohen, the Chairman of the Central Council and one of the Majority Socialist leaders, made a speech in which he declared an unbridgeable gap existed between Germany on the one hand and the United States and Great Britain on the other, whereas the differences between Germany on the one side and the French and the Slavs on the other were, he declared, capable of conciliatory adjustment.

BELIEF IN JAPAN AMERICANS BEHIND KOREAN UPRISING

San Francisco, April 14.—American schools, missions, churches and hospitals throughout Korea are being constantly searched by Japanese for information against the revolutionists because there is a widespread belief in Japan that Americans suggested the uprising. Rev. David Lee, general manager of the Korean National Association here, announced Saturday. The American consul at Seoul protested such a search, but without avail, Mr. Lee said.

No Korean can leave the country unless he be an official of the Japanese Government, and all entering or leaving are subjected to a most thorough examination, he added.

DOMINION POSTMASTERS ELECT OFFICERS AT OTTAWA CONVENTION

Ottawa, April 14.—The Dominion Postmasters' Association elected officers Saturday. William Hamilton, of Bridge, Ont., was elected President; H. W. Coxsmith, of High Bluff, Man., Vice-President, and M. E. Proctor, Aurora, Ont., Secretary-treasurer. On the Executive Committee are J. L. Jackson, Salmon Arm, B. C.; J. C. Cumberland, Pincher Creek, Alta.; M.

J. Pooton, Cambral, Sask., and M. W. Millechamp, Sparling, Man. A resolution calling for an increase in the postal rates on newspapers and the prohibition of scrap paper as wrappers was passed. A resolution was passed advocating the instigation of an educational campaign through the medium of the press, regulating the existing conditions and pay of the postmasters; in connection with this resolution all members of the association will be asked to request the member for his constituency to use his influence in the interests of the postmasters. It was also decided to affiliate with the other associations of postal employees for moral support.

U. S. CRUISERS ARE NOW AT MURMANSK

Washington, April 14.—Arrival of the American cruisers Galveston and Okechotee at Murmansk, reported in an Associated Press dispatch, is expected by officers to relieve the situation among the American troops in the Archangel region.

The vessels carried Brig-Gen. W. F. Richardson, who is to assume command of the American forces, and two companies of railway engineers. General Richardson and the engineers were ordered to Murmansk at the time it was decided to withdraw the entire Allied force to Northern Russia, and their arrival is expected to reassure the American troops and prevent any spread of the mutiny.

TO ATTRACT TOURISTS.

Bellingham, Wash., April 14.—The directors of the Pacific Northwest Tourist Association, from Oregon, Washington and British Columbia, met here Saturday to consider plans for tourist advertising. A plan of campaign was submitted this morning by Herbert Cuthbert, executive secretary. The total amount to be expended in publicity this year is \$2,500, more than half of which will be devoted to newspaper and magazine advertising.

ENLISTED AT VICTORIA.

Vancouver, April 14.—Believed to have been stricken with heart failure, William Gordon Lee, aged thirty, died in his room at the Stratford Hotel before medical help could be secured. Discharge papers found among the effects of the dead man showed that he enlisted at Victoria in December, 1914, with the 102nd Battalion and obtained his discharge in September of last year as medically unfit. It is not known

whether he had any relatives in this city or Victoria.

BUTTER.

"What about butter?" is the caption of a soulful editorial article in a recent issue of The Toronto Globe. The query was an echo of a pertinent interjection by Senator Casgrain when the Minister of Labor was attempting to show in the Senate by a wealth of statistics that the cost of living in Canada was decreasing, having reached its zenith last November.

The query of Senator Casgrain, echoed by The Globe, may be re-echoed in the same soul-stirring cadences here, so it is clear that the phenomenon is nation-wide. The retailer is not the culprit, for the commodity costs him only two or three cents per pound less than he sells it for. The Globe declares that as far as Ontario is concerned the farmers are not getting the benefit of the big increase because the bulk of the butter being marketed is not coming direct from the farm or even from the factory but from the storage plants.

The true explanation of the general situation probably lies in the fact that wholesalers are exporting heavily to Europe and the United States and are raising the home price to the level of the export price. The removal of the embargo on the export of this and other articles a short time ago was followed so promptly by the stiffening of prices in the domestic market as to make this explanation conclusive.

Now, notwithstanding the necessities of foreign markets the home market must have first consideration. Canada should not be drained of this or any other product to a point involving exceptional hardship to the Canadian consumers. There is a great deal of this sort of thing going on in connection with many articles of Canadian production, but when it comes to table necessities it pinches the consumer in a very sore place.

The Government should prevent the export of butter and every other article of food for which the home consumer is being soaked for the sake of the foreign market, until the domestic situation is relieved. It should get out of its head the economic fallacy that imposing figures of export business are always sure indications of abounding prosperity, plenty and contentment at home.

LIQUOR PLEBISCITES.

The people of Quebec last week were given an opportunity of deciding whether the sale of beer and light wines shall be continued in that province and decided affirmatively by a large majority. The question of distilled liquors was not involved, for that was disposed of by the prohibition law which will go into operation next month.

The referendum to be submitted to the people of Ontario in September or October will give the voters a much wider choice. It has been decided to submit the following four questions:

- (1) Are you in favor of the repeal of the Ontario Temperance Act?
- (2) Are you in favor of the sale of light beer containing not more than 2 51-100 per cent. alcohol weight measure through Government agencies, and amendments to the Ontario Temperance Act to permit such sale?
- (3) Are you in favor of the sale of light beer containing not more than 2 51-100 per cent. alcohol weight measure in standard hotels in local municipalities that by majority vote favor such sale, and amendments to the Ontario Temperance Act to permit such sale?
- (4) Are you in favor of the sale of spirituous and malt liquors through Government agencies, and amendments to the Ontario Temperance Act to permit such sale?

The acceptance of the first proposition would involve the revival of the licensing system which existed before 1916. If the second is favored provision will have to be made for the sale of beer by Government agencies, and in the case of the third for the sale of beer in the standard hotels in local municipalities, subject, however, to local option. Acceptance of the fourth alternative would mean the sale of distilled liquors by Government agencies.

The terms of the referendum are criticized by prohibitionists on the ground of diversity and the opportunities they present for compromise, their preference being for a straight "yes" or "no" vote on the whole question as in the western provinces. Whether the result of the referendum in Quebec will affect the outcome in Ontario is problematical. As a rule Ontario and Quebec deliberately have chosen divergent paths. In fact, one of the arguments employed by the anti-prohibitionists in their appeals to the voters in Quebec last week was that the prohibition idea was Ontario humbug.

CLEMENCEAU SATISFIED.

Premier Clemenceau's announcement that the questions of reparation and of safeguarding French interests have been satisfactorily settled by the Allies is of the highest importance. It means that one of the most fruitful sources of difference at the Paris conferences has been disposed of, and that we may look for the early completion of the terms of peace to be submitted to Germany. We gather, too, from the tone of the announcement that the "old Tiger" has won his ease, which reminds us of a remark by Mr. Lloyd George in the House of Commons last year that "when M. Cle-

menceau presses for anything it is not an easy thing to refuse."

A settlement of these questions satisfactory to France can mean nothing else than that Germany must make good the damage she has done to the limit of her capacity denominated in terms of years; that the French frontier will be so arranged as to guarantee France against any more treacherous and brutal assaults from across the Rhine; that the mineral deposits of the Saar valley will be used to compensate France for the destruction wrought by Germany to her mineral supplies and as part of the measure of reparation. It may mean also that the right bank of the Rhine will be made a neutral zone for military operations.

M. Clemenceau's insistence on such conditions can be easily understood. Twice France has been ravaged by the Huns and three times, besides, she has been threatened with war from the same source and compelled to adopt humiliating policies to avert the blow. This must be ended for all time and any treaty which did not provide such a guarantee would be a hollow mockery.

THE VISIT OF SIR JAMES BALL.

The visit of Sir James Ball, Great Britain's Timber Controller, during the early part of next month should be an opportune event for the Province. While the business which is bringing Sir James to the west is doubtless primarily concerned with the recent order for lumber placed with the mills of this Province, it may be supposed that he wishes to see for himself just what British Columbia has to offer in the way of forest products.

The Province should need no reminder about the value of widening the markets for its timber products. The Provincial Forest Branch has persistently demonstrated its appreciation of the possibilities which lie ahead of the right sort of co-operative action on the part of the industry itself. The best sort of reception that can be extended to Sir James Ball, therefore, will be that which will impress upon him that British Columbia not only wants business, but is in a position to fill all the orders it can get at the right figure.

From the report of Mr. Beale, to which we already have made reference, it appears that the landing of British Columbia's forest products in a profitable market in Europe is very largely dependent upon rate of delivery and price. The Scandinavian market, apparently, has the attractiveness of both price and prompt delivery; so if British Columbia is to compete successfully, she needs to take stock of her plans at once and take full advantage of the advice it should be possible to get from Sir James Ball. He would naturally prefer to see the Motherland dealing within the Empire.

AERIAL LEAGUE'S OPPORTUNITY.

In his suggestion to the local branch of the Aerial League of Canada, that it appoint a committee to meet the officials of the Forest Branch, the Minister of Lands has paved the way for the formulation of a policy that would allow experiment in more than one direction.

Assuming that the Dominion Government would arrange for the supply of necessary machines, adoption of the Minister's tentative plan would mean assistance to the Fire Protection Committee of British Columbia by patrol of valuable timber areas from the air during the summer months, thus ensuring prompt detection and reports of forest fires.

It would mean also that a number of air warriors would be able to keep abreast of the times in the matter of aeronautical development, made more necessary by reason of rapid changes in construction, not to mention the impelling demand for a special standard of physical fitness at all times.

The plan would also automatically demonstrate the feasibility of commercial flying—about which there is no more doubt—the extension of which would gradually enable the young air fighters, who left for service without completing any profession in many cases, to turn their exciting experience of war to profitable use in the days of peace.

WHY WE MUST SAVE RUSSIA.

The strong point of the statement by Ambassador Francis is that unless something is done to save Russia it will ultimately become the prey of Germany, with its demoniacal genius for organization and its absolutely unscrupulous methods, and then the enemy will indeed have won the victory for which he deliberately began the war.

THE OVERHEAD ON HATS.

If he takes one meal a day in a restaurant or cafe in a season a New Yorker will spend \$20 buying a \$5 hat back from a check boy who gets about \$6 a week, and who works for a concern which pays handsomely for the checking concession and furnishes the help to run it. A New Yorker is the biggest sucker in the world.

BIG SPOOL INDUSTRY.

Small things are not to be overlooked in considering the problems of the future timber supply. The match-maker has as much trouble in getting the grade of wood necessary for his business as the dealer in telegraph poles. One of the industries which deals with small things, yet which is one of the utmost importance to the country's commerce is the manufacture and export of spool wood. This business is peculiar to the New England States and is centered in Maine. Spool factories of that State, in normal times, turn out about 500,000,000 spools annually, with a market value of nearly \$1,000,000. The best quality of timber is used for the manufacture of spools. White birch, which is used almost exclusively for this industry, reaches the factory in the form of bars from one-half to two and nine-sixteenths inches square, and from two and a quarter to four feet in length. These bars must be absolutely clear. The birch is cut in winter and sawed in small portable mills, which operate near some railroad line, about two and one-third cords being required for 1,000 feet of bars. After sawing the bars are piled crosswise in order to facilitate seasoning, and protected from the weather, are allowed to season until June. The spool-bar mill in Maine turn out about 15,000,000 feet of bars during the year and approximately the same amount of material is manufactured into spools in that State.

TIME FOR ACTION.

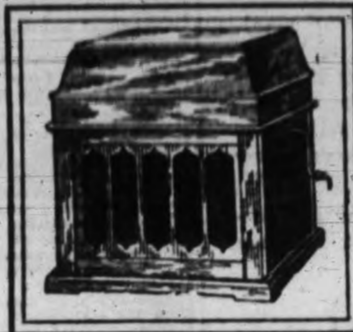

When the citizens of Canada read that there are men within Canadian borders who endorse the lawlessness rampant in European countries and would seek to implant the disorder on the soil of Canada, it is time to awaken and, if necessary, exercise the moral and physical force of a clean nation to drive from our midst elements which have no respect for either the laws of God or man.

STATUS OF U. S., FRENCH AND JAPANESE AMENDMENTS DEFINITELY ESTABLISHED

(Continued from page 1)

As to the affairs of the peace conference as a whole they are shaping themselves now with the League of Nations question and nearly all the main points in the peace treaty are virtually disposed of so that the date when the enemy delegates shall be summoned to Versailles has been tentatively set. The summoning of the peace congress as it will be called, instead of peace "conference" after the enemy delegates are admitted, will, according to the present understanding occur between April 24 and May 5, and it is considered not improbable that a definite date may be announced by Premier Lloyd George when he speaks before the British House of Commons the coming Wednesday.

No Extended Discussion.

Indications are that the Germans will be given opportunity to discuss the peace terms before the congress, but that no extended discussion will be permitted, two weeks being suggested as the outside limit for the sessions to be held at Versailles. These sessions, it is expected, now will be attended by President Wilson who is said by those close to him to feel that the progress made toward concluding

the peace is such that he will be able to remain for the Versailles meeting.

The chief question as regards the peace terms remaining to be settled, now that the Saar Valley and reparations problems have been disposed of in virtually all their details, is that of the Rhine frontier. The Council of Four is likely mainly to occupy itself with this question during the present week, the debate probably centering upon the French contention for security from a military standpoint, the French attitude being indicated as a determined one on this point.

It is understood also to have been largely France's fears from a military standpoint of what might happen should there be another German attack that influenced her representatives in their sustained opposition to the League of Nations covenant. Their argument was that if the Monroe Doctrine principle were given a European application the effect might be that the United States might be kept from again coming to France's help in event of a future German rebellion.

GERMANY TO PAY AN INITIAL INSTALMENT OF \$5,000,000,000 IN CASH OR THE EQUIVALENT

(Continued from page 1)

—Although no authoritative statement has been made of the terms of the settlement of the Saar Valley question by the Council of Four, however, the French newspapers claim that France is to have the right of operation of the mines in perpetuity. Other newspapers, however, say this is not exact, and that France is to have the right of operation of the coal mines for a term of years.

According to this second theory, eventually extension of French control of the mines would depend upon the result of a plebiscite, which according to the supposed terms of settlement would be held in ten or fifteen years. The interpretation of the settlement by some of the United States delegates is that France will get the coal mines in perpetuity.

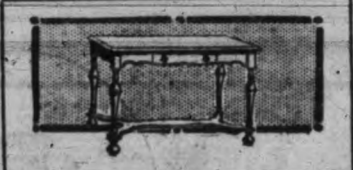

Conciliatory Spirit.

Paris, April 14.—The Temps says that a spirit of conciliation has been apparent for several days in the Council of Four on different subjects presented for discussion.

Before April 20.

Paris, April 14.—(Havas)—The peace conference leaders have come to an understanding regarding the date when the German delegates shall be called into conference, the Petit Parisien says it understands. That date, it declares, is very close at hand—before April 20.

Mr. T. C. Callery, private secretary to Lord Shaughnessy from 1912 to 1913, who has just recovered from a long illness following a serious operation, has been appointed special claims investigator for the Canadian Pacific Railway, reporting to Mr. George C. Jackson.

Roll-Top Desk---An Antique

We recently purchased what is quite the finest Desk ever handled by us. In workmanship, design and material, it is something quite extraordinary. Made of solid Mahogany throughout; all panels—in fact, all of back and sides—are beautifully hand carved. The pigeon hole accommodation is extensive and the drawers have special filing features. The entire interior and writing bed are in natural mahogany and the writing space is extra large. Mounted on good casters, it is readily movable. This would make an ideal home desk. This desk originally retailed in the United States for \$475.00. We will have it on display on the 17th inst. at \$250.00

A BEDTIME STORY

Uncle Wiggily and Old Dog Percival
Copyright, 1918, by McClure Newspaper Syndicate.
(By Howard K. Garis)

"My goodness, but I feel real jolly this morning!" cried Uncle Wiggily Longears, the bunny rabbit gentleman, as he hopped around the hollow stump, bungalow, where he lived with Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper. "Can't I do something to help you?" "Do you feel like helping this morning?" asked Nurse Jane. "I certainly do," spoke Mr. Longears. "I feel just like having an adventure, and helping some one." "Well," spoke the muskrat lady, "far be it from me to seem impolite, but the truth of the matter is that you can best help me by hopping away."

"Why?" asked the bunny, disconcerted like. "Because I have to do the washing this morning," went on the muskrat lady, "and though I know you have sometimes helped me wash and blue and wring the clothes when I had a headache, I don't need you this morning. I can do the washing alone, so hop along and have an adventure." "I will," said Uncle Wiggily. "And I also will try to help some one." So, putting on his tall silk hat, and with his red, white and blue striped rheumatism crutch under his arm, he went Uncle Wiggily, hopping over the fields and through the woods, watching for something to happen.

CURED OF DYSPEPSIA BY USING BURDOCK BLOOD BITTERS

The symptoms of dyspepsia are so numerous and diversified in different individuals that probably no description could exactly represent them as they occur in any given case, but a few of the most prominent are a rising and souring of food, pain, flatulence and distention of the abdomen, a sensation of discomfort after every meal, which is sometimes followed by sickness and vomiting.

IN WOMAN'S DOMAIN

Social Personal

Sir Charles H. and Lady Tupper were in the city on Saturday.
Capt. N. Clarke Wallace, of Toronto, arrived in the city on Saturday.

Dr. and Mrs. G. H. S. McLean, of Revelstoke, are guests at the Empress Hotel.

Professor John Davidson, of the University of British Columbia, was in the city on Saturday.

Mrs. Wilson, of this city, is visiting her sister, Mrs. Alex. Reid, Barclay Street, Vancouver, for a few days.

Major J. L. Retallack, who has recently returned from the front, came over from the Mainland on Saturday.

Dr. Benaud, of New York, the professor who addressed the Canadian Club to-day, reached here yesterday.

Miss Louise Cunliffe, of this city, has been visiting at New Westminster, as the guest of her aunt, Mrs. J. Stillwell Clute.

On his way home from Portland, Ore., Charles R. Smith, R.C.C. of Amherst, N.S., will make a brief stay in Victoria.

American visitors to Victoria during the week-end included Judge and Mrs. Frederick Bausman, of Seattle, who arrived in the city on Thursday.

Mrs. Newton D. Baker, Senior, mother of the United States War Secretary, accompanied by Mrs. C. M. Bainbridge, her niece, is expected to arrive in Victoria early next week.

Lieut. F. V. Carpenter and E. A. Keyes, of the British Royal Naval Volunteer Reserve, have arrived in Seattle on their way to Auckland, N.Z., on the Makura. They served three years in the North Sea.

W. B. Lanigan, Freight Traffic Manager of the C. P. R. who with Mrs. Lanigan has been visiting the city for some days, left on Saturday morning for Vancouver, continuing their journey east on Saturday evening.

The Misses J. F. and E. Middleton, of Victoria, have been spending the past few days in Vancouver, whither they accompanied Miss C. Blackadder, who has left for Toronto on a course of training in reconstruction work.

Planning to join the Empress of Asia on her next outing, Miss McMillan and Mrs. Edward L. Brayton will arrive here shortly, probably on the next northward sailing of the Governor. Mr. Brayton is President of the Pelton Water Wheel Company, and is routed to Japan.

Mrs. W. J. Alder and her son Harold arrived on Saturday from Prince Rupert, where they have been visiting relatives during the week-end. They were accompanied by Mrs. Alder's daughter, Mrs. Brynjolfsen, and her little daughter, who will remain in Victoria for some months.

Miss Leitch, Provincial President; Mrs. L. H. Hardie, District President, and Mrs. H. A. S. Morley went over to Vancouver yesterday to attend a meeting of the provincial executive of the King's Daughters, to be held in the Mainland City to-day. Mrs. Hardie expects to remain away for a few days.

A. B. S. Stanley, late manager and editor of The Herald, who left for overseas with the 13th Field Ambulance Corps, returned from overseas on Saturday evening at the headquarters of the Dallas Hotel. He is leaving the city to-day for Vancouver to spend a few days there before going back to Hedley.

At "Breadalbane" on Saturday evening the Rev. Dr. Campbell celebrated the marriage of Frederick Thomas McMillan and Leina Middle. The ceremony was performed at St. Paul's Church by the Rev. Harold King. Immediately after the ceremony Mr. and Mrs. McMillan left by the midnight boat on a trip to Vancouver and the Sound etting, and on their return will reside in this city.

Local friends of George Kidd, the manager of the B. C. Electric Co., will be interested to hear of his marriage on Wednesday evening last to Florence Adelaide, daughter of Mr. and Mrs. James Phair, of Vancouver. The ceremony was performed at St. Paul's Church by the Rev. Harold King. Immediately after the ceremony Mr. and Mrs. Kidd left en route for England, where they will remain for about three months.

Victoria friends of the bride will be interested in the following wedding announcement of a marriage which took place in London recently: "On March 4, at St. Augustine's, Kilburn, by the Rev. T. W. Roberts, Captain Reginald Faithful Palmer, R.A.F., only son of the late Dr. Palmer, M.A., M.P. (anti-abolition), of Lincoln, and of Mrs. Howat, Portadown Road, London, to Dorothy Mary, only daughter of the late Mr. E. B. Proctor, of Lancaster, and of Mrs. Proctor, 119 Esmondine Mansions, Malda Hill, W.G., late of Victoria, B. C."

Lieut. F. Stanley Long, M.C., arrived in the city this morning from overseas service to spend a few days with his mother and sister before returning to his duties in Calgary as manager of the Bank of British North America. Lieut. Long has been in hospital in London, England, having been badly wounded in his right arm in August last at the battle of Amiens after gaining the Military Cross. He is accompanied by his wife, who returned with him from England.

Under the auspices of the Ladies' Auxiliary to the Army and Navy Veterans a very enjoyable and successful silver tea was held in the Pemberton Building on Saturday afternoon. Mrs. A. E. GOOD WORK OF I. O. D. E. CHAPTER IN SEATTLE.

Vimy Ridge Chapter "Cited" by American Red Cross for Meritorious Service

Local members of the I. O. D. E. will doubtless be interested to read of the doings of a sister chapter operating across the line, the Vimy Ridge Chapter of Seattle.

This chapter, which was organized in Seattle early in 1915, selected Mrs. Alfred J. Fleken, who has been for a number of years prominently identified with the exclusive social, musical and club circles of the city, as regent. Both she and Mrs. J. C. McMillan, who gives her time and services as treasurer, have through their untiring energy and unselfish devotion to the boys of their mother land been instrumental in having the chapter cited by the American Red Cross for meritorious work. This award the chapter modestly declined, saying that the members felt it had been their duty to the boys "over these."

Was "Julia Henshaw" Chapter. It was at first known as the Julia W. Henshaw Chapter, the name being unanimously voted changed later on to one that seemed more fitting to the stirring times. The chapter immediately started surgical dressings, pyjamas, socks, and all other Red Cross supplies being sent to the headquarters in Victoria, B. C. Christmas of last year saw five packing cases leave the chapter headquarters filled with comforts and food cheer for the First Bedfordshire Regiment, sent as a mem-

JUVENILE ENTERTAINMENT

Delightful Affair, at Home of Mrs. G. H. Barnard Nets \$115 for Belgian Orphans.

At the home of Mrs. G. H. Barnard, Rockland Avenue, on Saturday afternoon, a delightful entertainment arranged by these small girls, the Misses Mary Swinerton, Marguerite Sanderson and Marian Robertson, resulted in the raising of \$115 for the Belgian Orphans' Fund.

The programme given by these youthful artists was of a high standard and included: Pianoforte solo, Mary Swinerton; dagger dances, Mary Swinerton, Marguerite Sanderson and Marian Robertson; recitation, "Little Brown Seed," Marian Robertson; scene in India, three girls; pianoforte solo, Marguerite Sanderson; Dance of the Nymphs, three girls; song, "Pippa's Song," Mary Swinerton; recitation, "Be Useful," by three girls; French son, "La Bergere," solo dances.

In connection with the affair a bazaar was held. Miss Denne having charge of a candy stall, Miss Fitzgibbon assisted by the Misses C. Orpen and Mary Campbell sold flowers, and Mrs. Rogers, ice cream cones, while Master Scott-Moncreiff was disguised as a hen which lay wonderful surprises "eggs." Mrs. Harold Robertson was in charge of the general proceedings. Miss Mara was door-keeper for the concert, at which Miss Bell played the incidental music for the dances and songs. Master Allen Robertson acted as stage

You Will Take Greatest Pleasure in Choosing From Such Dainty Lingerie Waists

THE new assortments of Lingerie Blouses reveal models of utmost refinement and daintiness. These are made from the finest weaves of white voiles trimmed with dainty laces, pretty embroidered designs, fine pin tucks, knife pleats and small pearl buttons. Prices from \$3.50 to \$10.00.

Some particularly good values in Lingerie Waists in really pretty styles, and developed from fine muslins and white voile, are priced from \$1.65 to \$2.50.

Children's Wash Dresses

The assortments of Children's Wash Dresses are particularly interesting. They are shown in a selection of pretty styles, and are made of worthy qualities of ginghams and chambrays in pleasing colors that quite often are set off by some contrasting shade.

Just now would be a good time in which to make selections, as the stocks are fresh and all sizes represented; in ages from 1 to 2 years, \$2.35 to \$5.75.

Easter Millinery

Such a large and representative collection of Easter Millinery as may be found here should facilitate the making of a suitable selection. The woman who demands exclusiveness will find our collection of Paris and New York models, as well as those ultra smart semi-tailored models from Victor Jays, of London, unusually interesting.

Then, of course, the large number of modish Hats that have emanated from our own parlors demand attention, not only on merit of style alone, but also from the viewpoint of economy.

MAKING A BAD MATTER WORSE.

It is a dangerous thing, when you have let slip an unfortunate remark, to try to cover up the blunder.

Mrs. G. was talking with the wife of Judge H.—about her son's choice of a profession. "I don't want him to be a lawyer," she said.

"Why not?" said the judge's wife. "I think there is nothing much finer than the legal profession for a bright boy."

"Well," said Mrs. G.—bluntly, "a lawyer has to tell so many lies." Then it dawned on her that she was talking to the wife of a lawyer; so she hastily added, "That is—er—to be a good lawyer!"

One of his parishioners was particularly disgusted at the reverend gentleman's close attention to his manuscript, and was only too pleased to give vent to his feelings when a friend inquired: "How's the new minister getting on?" "Getting on," replied the irate churchman. "Well, he's getting on like a crow in a later field—two dabs and a look-up."

JAPAN'S STAND ON EQUALITY OF RACES

Dr. Iyenaga Says Island Empire Will Not Flood Canada With Japanese

"Japan will never attempt to deluge Canada with a vast horde of laborers against her will, for that would jeopardize the best and largest commercial interests of Japan," as well, "declared Dr. T. Iyenaga, the well-known Japanese scholar and publicist at a Canadian Club luncheon to-day. With regard to the League of Nations plan, Dr. Iyenaga emphasized that there should be no 'race or any other unjust discrimination' in the covenant which otherwise, he thought, would be satisfactory to his country. Japan's problem of over-population," he said, "would be solved peacefully: 'on the seas and the trails of commerce.'"

After describing fully Japan's position and achievements in the war, the speaker discussed the attitude of the Oriental power to the League of Nations plan, said:

Why Acceptable.

"Let me enumerate some of the reasons which, in my opinion, would make the proposal of the League of Nations perfectly acceptable to Japan."

"In the first place, Japan cherishes no territorial ambition, but builds the hope of her future upon the security of the position she has already gained, and upon the steady extension and growth of her commerce and industry. The fundamental principles underlying the idea of a League of Nations are the guarantee of the territorial integrity and the sphere of influence of each member; the guarantee of an equal opportunity of economic growth for all; and the guarantee of an enduring peace that insures the uninterrupted pursuit of happiness."

A Peaceful Solution.

Nothing could be more welcome to Japan than the embodiment of these principles in a covenant entered into by all—at least the most powerful—nations. Some would say that Japan is overcrowded within a small area, and nature would force her to look out of her confines and embark on a policy of territorial aggrandizement, and, therefore, that the covenant of the League of Nations would ultimately prove to such a nation not a blessing but a yoke, irksome and unbearable. The promise is readily granted, but I would say that the conclusion is far-fetched.

The problem of over-population, serious as it is, will find its solution elsewhere and through other peaceful means, with the wide expanse of the seas and on the trails of commerce. This has been, and continues to be, Japan's policy.

"The days when nations sought their 'places in the sun' through the instrumentality of might are forever gone," said Dr. Iyenaga. "The havoc wrought by the great war affords a terrible lesson in sane and wise enough to avoid the footsteps of these war-mad nations. To argue that Japan is extremely warlike because of the successful wars she has fought in recent decades is a gross injustice."

There is, then, no ground why the Japanese people would not welcome a League of Nations that is intended to satisfy these longings, especially when it is coupled with the prospect of reducing their heavy burden of taxation through the concerted limitation of armaments.

The Racial Question.

"In the second place, Japan hails the League of Nations, for it stands upon the foundations of justice, equality, and fraternity. It is upon this assumption that Japan, through her peace delegates, has been proposing a clear enunciation of the principle in the covenant. What justifiable ground is there for the objection raised against the insertion in the covenant of a clause which will assure a fair and equitable treatment of peoples of all States that are members of the League?"

Race or any other unjust discrimination should have no place in the sanction of the League of Nations.

"Neither race, color nor creed should stand in the way of equal enjoyment of rights and privileges accorded to the citizens of States members of the League. This proposition should not, however, be construed as the assertion of the right of unrestricted immigration. Immigration is a domestic problem. It becomes an international question only in case the laws enacted happen to infringe upon or violate the rights accorded by the treaty to the other high contracting party. A sovereign State has of course every right to enact and enforce its own immigration laws."

"Too much emphasis," continued the speaker, "cannot be laid upon the fact that Japan at the Peace Congress is not raising the immigration question. Nor is she aiming to bring the question under the jurisdiction of the League of Nations. You are aware of the so-called 'Lemieux Agreement,' by which Japan herself prohibits the ingress of her laborers into this country in deference to Canada's wishes. The agreement has been, and is being, faithfully and most rigidly kept."

Race Equality.

"What we Japanese desire is the use of a true standard of judgment whereby the status of a people may be determined," said Dr. Iyenaga. "Neither race nor color should be made such a standard of measure. It would be absurd to ignore an indisputable fact of the existence of inequality among races and nations in intellectual attainments, in physical resources, in moral attributes, just as there are inequalities among individuals in these respects. Each nation, each race, must therefore stand upon its own merits. Is it not, then, a fair and just proposition for Japan to ask other nations to judge her on her merits, and merits alone?"

In this place, I feel confident that the League of Nations will not ignore the paramount position Japan occupies in the Far East. The League of Nations cannot turn back the wheel of history or bring to naught the labors of decades. Rather, the League is intended to give sanction to the well-earned fruits of enterprise and progress. The preamble of the proposed covenant enjoins the signatory powers to pay "scrupulous respect for all treaty obligations in the dealings of organized people with one another. Thus, and thus only, can an international order be upheld."

"I can see no justifiable ground," the speaker observed, for objection, if

the Canadian and American people wish it, to the insertion of a clause that will plainly state that the League has neither control nor jurisdiction over such domestic questions as the immigration question, so long as there are laws in operation—or to be enacted—which do not violate the spirit and letter of international contracts."

OBITUARY RECORDS

The funeral of the late Mrs. Helena Mellor Webb Lowe, who passed away at the St. Joseph's Hospital on April 11, took place this morning, the cortege leaving the Sands Funeral Chapel at 10 o'clock. Fifteen minutes later service was conducted at St. Andrew's Cathedral by the Rev. Father Leterme. The casket was covered with a profusion of beautiful flowers, betokening the high esteem in which the late Mrs. Lowe was held. The pallbearers were: Messrs. F. Boldon, F. Thomas, P. Hale, A. W. Perkins, G. L. Service and J. W. Sandiford. Interment was made at Ross Bay cemetery.

The death occurred at Vancouver on April 13 of Rachel Gomm, beloved wife of Sergt. Timothy Gomm, of this city. She was thirty-four years of age, born in Lancashire, England, and leaves to mourn her loss, besides her husband, two children in Vancouver and two brothers and three sisters in England. The remains are expected to reach the city to-morrow afternoon, and will be conveyed to the Sands Funeral Chapel. Funeral announcement will be made later.

The death occurred at Balmoral, Manitoba, on Tuesday, of Martha, wife of George Herbert Wonnacott. Mrs. Wonnacott was the eldest daughter of Mr. and Mrs. J. F. Staples, of 305 Douglas Street, Victoria. She leaves to mourn her loss her husband, four sons, the eldest being sixteen years of age, a sister, Mrs. A. R. Stebbings, of Vancouver, one brother in Steffler, Alberta, and four of this city. Death resulted from a sudden attack of influenza.

The funeral of Richard Thompson Tindall took place on Tuesday afternoon last at the English Church, Cobble Hill, by the Rev. Mr. Baiston officiating. The following acted as pallbearers: Messrs. Kingley, Mooney, Christenson, Bell and Boulding, of Shawnigan, and John Lindall, of Cowichan.

Funeral services for the late William Sinclair Gore were held at Christ Church Cathedral at 3 p.m. yesterday afternoon, the Bishop of Columbia officiating, assisted by Dean Quinlan and the Rev. F. H. Patt. There was a large attendance of sorrowing friends, and the hymns sung were "Peace, Perfect Peace," and "Abide With Me." The pallbearers were W. F. Robertson, B. S. Heisterman, W. S. Drewry, E. Crowe Baker, A. D. King and A. J. Woodward. The remains were forwarded by the B. C. Funeral Chapel on the afternoon boat to Seattle for cremation.

Delightful Spring Millinery Modes for Easter

Sharp wing effects have contributed their share of modishness to many of the smartest millinery offerings. They give dash and chic to modes that are in themselves unusually attractive. Lisere is the favorite straw, but many novelty straws are offered in hosts of quaint shapes, including the now popular poke bonnet. And the beauty of the display is that prices are so much lower than quality and styling would lead you to expect.

BUSINESS MEN'S EXCURSION

Mr. Pattullo Intends to Take Matter Up With Boards of Trade and Other Public Bodies.

That the Hon. T. D. Pattullo, Minister of Lands, is in no mood to let his suggestion of a business men's excursion to the interior of the Province fall by the wayside was evidenced by his statement made to the representative of The Times this morning.

It is the intention of the Minister to take up the matter with the various public bodies both in this city and Vancouver, working primarily, of course, through the Boards of Trade of the two cities.

Mr. Pattullo is of the opinion that special rates could be obtained on the steamships and from the various railway companies, sufficient at any rate to prevent such an excursion becoming

too expensive for the average man of affairs.

He again asserts that if the people of the Coast will get to know more about British Columbia a mutual desire to advance the interests of both interior and seaboard people should quickly spring up, while the business co-operation resulting, he considers, would be beneficially reflected in all sections of the Province.

Looking at Land.—The Hon. E. D. Barrow, Minister of Agriculture, accompanied by M. H. Nelema, Chairman of the Land Settlement Board, are now in the interior of the Province for the purpose of inspecting a number of tracts of land offered for sale to the Board as Settlement areas. The Minister and Mrs. Nelema are in Merritt to-day and expect to proceed from there to Ashcroft to-morrow. The areas under consideration are of interest to returned soldiers, but some

doubt exists as to whether either of the particular tracts would be adaptable for the purpose of immediate settlement.

North Ward Branch Red Cross.

The rooms of the North Ward Branch will be closed from April 17 to 22 on account of Easter holidays. FOUNDATION TO PLAY IN PROVINCIAL FINAL

Yarrows and Wests Provide Good Game for Soccer Fans

The Foundation eleven, which journeyed to Nanaimo Saturday won their way into the final of the McBride Shield competition by defeating the Nanaimo United by a score of three goals to one.

The shipbuilders, says a Nanaimo dispatch, put up better brand of soccer and were more effective in goal, local forwards being away from color, throwing away several splendid chances to score. W. Hart, of Nanaimo, refereed.

Wests Beat Yarrows. Although the score four to nothing in favor of the Wests against Yarrows suggests a one-sided play, "a good game" was the general comment of the spectators.

The Wests had two more of their old players returned in Joe Hine and Tucker James. Neither of them has lost any of their old skill. The Wests kicked up hill, and against the wind, and Yarrows commenced to press. Shandley was lucky to clear a shot from Watt. The Wests went racing up, Hine centered, and Mulcahy met the centre and put the ball past Jasper, the latter never saw the shot. The play continued to be even, but Tucker James was very persistent, and getting clear passed the ball back for Hine to take a shot, beating Jasper all the way. Half-time arriving, 2-0 in favor of Wests.

Yarrows kicked off again, and made a dash for goal, but Copas was on the job, and repelled the invasion. The Wests started to press and Hine, James and Mulcahy were peppering the goalie, and front the centre of the field, Hine raced past all opposition, and scored an old-timer, Jasper having no chance at all; henceforth it was all Wests. James hit the cross-bar, and Franish neatly headed the ball past Jasper for a fourth. The

WESTS WERE FINELY BALANCED, HINE MAKING ALL THE DIFFERENCE. SHANDLEY DID NOT HAVE MUCH TO DO. COPAS PLAYED THE BEST BACK ON THE FIELD; THE HALVES WERE ALL GOOD, MULCAHY PLAYING HIS BEST GAME OF THE SEASON. HINE AND JAMES WERE ALL THE TIME HARASSING THE YARROWS BACK. FOR YARROWS, JASPER PLAYED WELL, HAVING NO CHANCE WITH THE SHOTS, TWO OF WHICH HE NEVER SAW. ISBERTER WAS THE BEST PACK FOR HIS SIDE. F. C. PAYNE REFEREED, AND THE COLLECTION TAKEN FOR THE BENEFIT OF McILROY'S AMOUNTED TO \$18.

FEATHERWEIGHT CHAMP WON NEWSPAPERS SAY

Charleston, W. Va., April 14.—Johnny Kilbane, featherweight champion of the world, won the newspaper decision over Jack Lawler, of Omaha, Nebraska, in a fast ten-round bout here Saturday night. Kilbane led the fighting, but some critics say that Lawler landed more blows than the champion.

JESS MAKES DEPOSIT TO GUARANTEE APPEARANCE

New York, April 14.—Jess Willard, heavyweight champion, has deposited a forfeit fund of \$10,000 to guarantee his appearance in the ring against Jack Dempsey in a bout for the championship on July 4. Tex Rickard made this announcement on his arrival here today from the west. Rickard showed receipts of deposit from a Chicago bank for this sum, and also for his own \$15,000 guarantee that he would stage the contest.

TILDEN DEFEATED BY JAP TENNIS PLAYER

Pinehurst, N. C., April 14.—William T. Tilden, Jr., was defeated by scores of 1-6, 6-2, 4-3, 6-4, by Ichiji Kumagae here Saturday in the finals of the men's singles of the North and South tennis tournament. In the men's doubles, Tilden and Vincent Richards, the national indoors singles champion, won from Kumagae and Howard Voshell by scores of 6-3, 7-5, 3-6, 6-3. Miss Marion Zinderstein, one of the national doubles champions playing with Richards, defeated Miss Florence Ballin and Tilden in the mixed doubles, 7-5, 9-7.

SWEEPING EFFECT OF BASEBALL DECISION

Dissolution of Baseball Commission Will Be Probable Result

Washington, April 12.—A verdict for the plaintiff with damages fixed at \$50,000, was returned late today by the jury in the suit of the Baltimore Federal League Club against the American and National Leagues and certain officers of the defunct Federal League. As the suit was brought under the Sherman Anti-Trust Law, the damages will be trebled, making the amount \$150,000, if a final judgment is entered.

These revolutionary measures to safeguard baseball from all future legal attacks were forecasted by Ban Johnson, president of the American League, upon his return from Washington last night. Dissolution of the National Baseball Commission, the Supreme Court of Organized Baseball, absolute severance of relations with the National Association of Minor Leagues, and dissolution of the players' contracts eliminating the ten-day and reserve clauses will be the probable result of the \$240,000 verdict granted the Baltimore Club of the Federal League by a jury in the District of Columbia Supreme Court.

FARMER WILL MEET CHICAGO BOXER IN FIFTEEN ROUND BOUT

Calgary, April 13.—After a conference that lasted fully seven hours on Saturday, Bob McDonald, Edmonton fight promoter, and Frank Maxwell, fight manager, signed articles for a fifteen-round bout to be staged at Edmonton May 1 between Phil Harrison, of Chicago, and Frank Farmer, light heavyweight champion of the Pacific Northwest.

LACROSSE PLAYERS PRACTISED YESTERDAY

Foundation Players Limbering up Ready for the Mann Cup Race

The gutted stick experts were out Sunday morning for the first practice game of the season and about fifty fans were on hand at Central Park to watch the players who will carry the Foundation colors in the race for the Mann Cup. Lacrosse enthusiasm at the yards is high since the shipbuilders secured the franchise from the Victoria Lacrosse Club.

Organization Meeting: An organization meeting at which it is hoped to secure a good representation of lacrosse fans and players will be held at the Foundation Club room to-morrow night at 8 o'clock.

Judging from the turn out yesterday the Foundation Club looks likely to have a good supply of material for the team and although mid-season play was not looked for in Sunday's practice, players who have creditably carried the colors of the Victoria Club were among the men working out and only lack a little training to get back into the game with full force.

Among the players who turned out were Allie McDougall, Al McGregor, "Boss" Johnson, "Cotton" Brynjolfson, Bill Mitchell, Jack Davis, Angie McInnes, George Pottinger, Robinson, Charlie Burnett and Price.

The boys confined themselves to regaining their old familiarity and accustomed stickhandling and will hold another practice to work into shape next Sunday.

Frank Sweeney, veteran of the lacrosse game, was working out and there is little doubt that he will be seen on the line-up this summer in the race for the world's amateur championship trophy. Besides knowing all the points there are to know about the summer game, Frank is generally admitted to be one of the hardest checking defence men in the P. C. L. A.

CULLY WILSON HAD ATTACK OF THE FLU

Seattle, April 14.—Discovered. Cully Wilson is down with the influenza in Tacoma. All unknown to his friends and team mates here, the scrappy little right wing has been sick in out nights for almost a week. Just seven days ago, Cully disappeared from the view of his fellow hockey players and it wasn't until last night that his friends got wind as to his whereabouts. The Met pack star had a pretty hard siege of the disease and suffered several days with a high fever, but he was well enough to send over his congratulations to Frank Foynton, his partner at the wing position, who was married last night. It was through this message that his hiding place was discovered.

Wilson is staying with his wife's family in Tacoma, but expects to be up and around in a few days when he will go after a job in the local shipyards.

MacDonald Seriously Sick. As to the rest of the hockey squad, reports are quite favorable with the exception of the condition of Jackie MacDonald, the Canadian utility man, who is now the only one of the Montreal club left on the sick list. MacDonald was the first man to come down with the influenza.

FRAGMENTS STILL CALL FOR BALL PLAYERS

At a meeting of the Fragments from France last Wednesday it was definitely decided to form a baseball club to take part in the City Amateur League. Before this can be done more players are required, and it was decided to hold a special meeting in the writing room of the Comrades of the Great War on Monday evening at 7:30. A large attendance is expected. Ball players are asked by James M. Forsythe to be on hand.

"ALL SPORTS FOR ALL" IS OLYMPIC SLOGAN

New York, April 14.—"All sports for all" the slogan adopted for the International Olympic committee by Baron Pierre de Coubertin, chairman of that body, in a letter sent to all the members. The veteran Olympian leader, who will have control of the international games to be held at Antwerp next year states that the advent of a new democratic era requires the removal of sport limitations whereby one class is privileged over another. He advocates a wider application of the principles which are the foundation of the American Amateur Athletic Union and suggests the formation of a sporting order of chivalry along the lines of organization now prominent in Sweden.

ATTORNEY-GENERAL ON NEW INVASION OF EAST INDIANS

If Women and Children Come He Believes Problem Will Be Aggravated

SUGGESTS "CONSPIRACY OF SILENCE" OBTAINS

A note of protest at the action of the Ottawa Government in passing an Order-in-Council admitting the wives and children of Hindus now residing in British Columbia to enter here, was sounded this morning by the Hon. J. W. Dells, Attorney-General and Minister of Labor. He said that the lack of criticism with which the alteration in the law opening British Columbia to the Hindus had been received suggested that there was a conspiracy of silence on the matter, and he expressed the opinion that it was necessary for the public, private citizens, the newspapers and all labor and public organizations to make themselves heard in a protest against what he termed the new Asiatic menace.

Ottawa's Previous Orders.—Reviewing the history of British Columbia's problem with the Hindus, Mr. Dells pointed out that in order to protect the Province from being flooded by Hindus, the Government of Canada had, in previous years, been obliged to pass restrictive Orders-in-Council providing that East Indians could only enter here by direct steamer route, and prohibiting the further landing of Hindu women. As a result of these restrictive measures the Hindu population had been reduced to about 3,000 men, a number which Mr. Dells added, was four times under present conditions in British Columbia, having regard to their non-assimilable characteristics.

"Now at the time when European immigration is restricted, and when it is of greatest importance than ever to keep the Hindu population already here leasened, the new Order-in-Council sweeps away one of the most effective barriers from an excess of Hindu population," asserted the Attorney-General.

Waited For Ottawa.—"I have been withholding comment on the matter," Mr. Dells said, "feeling that it would be better first to have the issue raised by our Dominion representatives now at Ottawa. But I have been waiting and waiting in vain for any protests from them, either in the House of Commons or elsewhere. I have also been surprised at the fact that there has been no comment publicly in other directions. I feel that this is a matter of such vital importance to Canada and to British Columbia particularly that somebody must speak out. It is estimated," proceeded Mr. Dells, "that there are 3,000 Hindus in the Province to-day, and with the greatest allowance suggested in the Order-in-Council of one wife to each Hindu, together with their existing families of children, who are also to be allowed to come in, it will only be a few years before this Province will have a Hindu population of 15,000 or 20,000, who will multiply with each generation.

"It seems to me," added the Attorney-General, "that the slogan of British Columbia to-day must be that this Province shall not be allowed to become the cradle for Orientals; especially now when the labor situation is so desperate and we are facing the enormous task of assimilating our returned men into industrial life is the Order-in-Council ill-timed.

Wants Public Action.—"British Columbia is the garden of Canada. Her position on the Pacific Coast of Canada makes her a possible dumping ground for immigration both from Europe and from Asia, and we must protect ourselves against such invasions—the present all the more dangerous because of the apparent conspiracy of silence which is reigning over the Order-in-Council of March 23.

"My object in making this statement at the present time is in the hope of stimulating the public mind to an appreciation of the situation, so that the private citizens, the press and the organizations of public-minded citizens will make representations immediate and urgent to our Federal representatives and to the Dominion Government, demanding the repeal of the Order admitting Hindu wives and children to aggravate and perpetuate the Hindu problem in British Columbia," said the Attorney-General in conclusion.

Application Dismissed.—Mr. Justice Murphy this morning handed down his decision in the habeas corpus proceedings brought by Frank Higgins, K.C., in connection with E. C. Walden, under sentence of two years' imprisonment for desertion from the Canadian forces. His Lordship dismissed the application, and Walden will serve the term of sentence imposed by Magistrate Jay in the Police Court. Walden is an American. An interesting coincidence is noted in the case of Bernie Morris, Canadian hockey star, who has just been sentenced to two years in the United States for the same offence.

OVERSEAS CLUB ELECTS PRESIDENT

D. B. McLaren, B. A., is Head of Recently-Formed Victoria Branch

D. B. McLaren, B. A., has been invited by the local members of the Overseas Club and Patriotic League to be the President of the recently-formed Victoria branch. He was mainly responsible for the bringing together of the first 200, and held office of honorary secretary prior to the war, when pressing duties compelled him to resign. Among the New Year Greetings and wishes for the continued success of the club received were those from General Sir Douglas Haig, Admiral Jellicoe, Right Hon. Walter Long, Right Hon. H. Asquith, Right Hon. A. J. Balfour, Viscount Grey and many other distinguished men and women.

To the list of patrons of the club has been recently added the name of Desq. Quantock.

The Overseas Club is kept in touch with every part of the Empire by means of its honorary corresponding secretaries, of whom there are more than a thousand. Members are sure of a welcome no matter to what part of the world they may be going, and first hand information of local conditions is always obtainable.

AVIATION IN SIBERIA WAS NOT POSSIBLE

Capt. LeRoy, M. C., R. A. F., Says Flyers Could Not Work With Czechs Forces

"Aviation with the Czech forces in Siberia was a washout," declared Capt. J. A. LeRoy, M. C., a member of the British Military Mission to Siberia, who returned to Victoria this morning on the steamship Empress of Asia on his way through to Ottawa.

Capt. LeRoy was recalled from France seven days before the armistice and ordered to Siberia to take charge of the aviation branch of the Czech forces. Twenty-four aeroplanes were assembled at Vladivostok, but it was found impossible to put them in the field. Owing to the congestion of traffic on the trans-Siberian Railroad it was impossible to get necessary supplies and materials to a base inland, and as a result practically no planes operated with the Czechs.

Upon completing his duties with the aviation branch Capt. LeRoy was attached to the International Military Mission, which was instructed to investigate that railway and civil conditions along the Siberian Railroad.

Capt. LeRoy saw a great deal of the Japanese machines and flyers which were sent to Siberia. He does not think that the Nipponese take a prominent place in aerial navigation. They do not make good flyers and they lack qualified mechanics.

Shot Down Three Planes.—Before being sent to Siberia Capt. LeRoy served for two years with the R. A. F. in France. He is officially credited with seven machines. Following the extensive operations on the Arras Sector during the Vimy scrap, Capt. LeRoy, when his squadron lost information, engaged in successful flights with a German circus. Within one hour he had several duels, as a result of which he sent three Heinkel planes down in flames. For this action he was awarded the Military Cross.

During the hot actions after August 8, Capt. LeRoy was continuously engaged in fighting, bombing and collecting information. In a Bristol fighter he secured all the photographs and detailed information of the area in the Monchy Sector, upon which the attack on August 26 was planned.

A very good reason why you should choose your piano at Fletcher Bros.

If thirty-five years of never-failing good service and fair dealing with the musical public of Vancouver Island will influence you in your piano buying—then by all means transact your business at Fletcher Bros. But that in itself is not the principal reason why you should choose your piano here; another and a vastly more important reason, is because Fletcher Bros. is the only music house in Victoria that is not a branch of an Eastern piano manufacturer.

At Fletcher Bros. no single piano is featured. Instead, the pick of the world's pianos are gathered—under one roof—for you to choose from. Each piano, at its price, is a leader and incomparable in appearance, tone, quality and value.

Space permits but a mention of the names of these world-famous pianos. They are the great Steinway Pianola Piano, Steinway Grand and Upright Pianos, the Gerhard Heintzman Piano, the Nordheimer, the Mendelssohn, the Cecilian, the Lesage.

No matter how much or how little you wish to give for a piano, you can get a better instrument and save from \$50 to \$100 by purchasing at Fletcher Bros. Come in and talk this matter over with us—we cordially invite you.

WOULD SWINDLE

FARMERS WITH FAKE

Subject of "String Beans" Cannery Affords Amusement at Royal

Isn't that a typical Ray title? "String Beans!" And it is also quite appropriate, for the efforts of a sharper to swindle a gullible lot of farmers with a fake cannery project for beans is the basis of the story, which will be seen at the Royal Victoria Theatre to-day. It is a Thomas H. Ince picture, released by Paramount. These facts, coupled with the declaration that Charles Ray is to star, and that sweet little Jane Novak is his leading woman, ought to attract record crowds. There is a fine cast, and the story is one of those real country town dramas with lots of humor and human interest and a great character role for Charles Ray.

Mr. Ray as a young farm hand with a literary turn goes to the local newspaper of a country town and asks for a job, which he gets. The proprietor, a typical country editor, is fighting a scheme advanced by a crook to found a bean cannery and the mayor is in favor of it. A big mass meeting is held, and the editor is to contest the movement, but falls ill at the last moment. Ray takes his place, but gets stuck in the speech and escapes in consternation. Later he prevents the sharper from robbing the mayor, gains the love of the latter's daughter and distinguishes himself. The natives are

saved and the swindler is caught with the goods.

"BORROWED CLOTHES" IS VARIETY FEATURE

Mildred Harris Appears in Lois Weber's Picture Story

She was taken from a beach in a bathing costume to a home that a man had been maintaining for a vampire woman. She ate and drank and then donned the finery of the woman he had been keeping. The police raided the place, but Mary escaped. She made her way home, ten miles, in a blinding storm, and collapsed on the porch. She was found by her father, whose mind became filled with a horrible suspicion.

Virtually an outcast in her own home, discharged from her position, renounced by the man to whom she had been engaged, she became tired of it all—she went out into the night and—no, it doesn't end that way. It is one of the sweetest endings and Variety patrons will love little Mary Kirk when they see her this week in "Borrowed Clothes," with beautiful Mildred Harris portraying the role.

Lewis J. Cody, who will be remembered as a former stock star of wide reputation, plays the principal masculine role opposite Miss Harris. Other members of the cast include George Nichols, Fantine LaRue, Edythe Chapman and Helen Rosson. Nichols plays the role of Mary Kirk's father, a stern, unsympathetic man, whose great passion is to keep the family name free from stain or scandal. Fantine LaRue, in the role of Rita Morris, is one of those seductive vampire women; Edythe Chapman is Mary Kirk's mother, and Helen Rosson plays the role of Louise, the heartless sister.

Lewis J. Cody's role in "Borrowed Clothes" is one with which few audiences have any sympathy—a young man of wealth who takes a fancy to a poor and beautiful girl and seeks to make her acquaintance. But in the end he proves his admiration is sincere and the play ends happily.

THE AWAKENING.

"I paint what I see," an art student once said to his master, complacently. "Well, the shock will come when you really see what you've painted," said the artist.

"VIRTUOUS WIVES" IS DOMINION OFFERING

Owen Johnson's Story is Based on Problems of Modern Married Life

What is a virtuous wife? Amy Forrester, around whom Owen Johnson centers the celebrated story of "Virtuous Wives," which, in motion picture form, will be shown at the Dominion Theatre, beginning to-day with Miss Anita Stewart as the star, declares that virtue is essentially a state of mind. Webster's dictionary agrees with this definition, but Andrew Forrester, her husband, explodes society's upper crust in proving his own theory.

The theme of the story and screen production, in which Miss Stewart returns to the ranks of the stardom after an absence of several months, is of the modern problems of married life, the division of responsibilities, time and the allegiance a wife nominally owes to her husband, and the extent of the trust he can place in her.

With the Forresters, Amy and Andrew, leaders in their social set, the atmosphere of the production is confined to scenes and locations long familiar to and patronized by New York's ultra-rich. The settings are necessarily lavish and extravagantly furnished, to make accurate the replicas of the actual homes of the society personages they are intended to represent.

Andrew gives Amy an hour in which to make her choice. She seeks the woods for solitude to hide her own heartache caused by Andrew's misinterpretation of her intentions with Bracken. There she rises to a situation fraught with great personal danger to herself, and which leads to a revolution of conduct in the Delabarre household, and her own triumph over an obstacle of such proportions that it seemed certain to wreck the happiness of herself, her husband and their associates. In the successful outcome of her bravery and forgetfulness of self she provides a modern definition of the meaning of virtuous wives, and establishes a new feminine standard which brings happiness out of misery and moral danger.

Occasionally a man knows a good thing when he sees it, but most men are too dignified to recognize it.

"KISS OR KILL" IS MARKED BY THRILLS

New Columbia Picture Stars Priscilla Dean; an Unwilling Crook

He was being pursued by the police. In his pocket was a large wallet that had belonged to a prosperous-looking individual only a few minutes before. He had not wanted to steal; he hated to be considered a thief. But he had been hungry and his landlady had threatened to evict him, and he still was feeling the effects of a wound which had brought about his discharge from the Canadian Expeditionary Forces in France.

Suddenly he thought of a trick employed by crooks in escaping the law, which had been demonstrated to him by a noted criminal who had fought shoulder to shoulder with him against the Hun. He flattened himself against the door and the police dashed by without seeing him.

The door yielded and Henry Warner found himself in the home of Old Man Middleton. His experience had unnerved him and he was for going out and giving himself up, but he knew such a course meant a long jail term. In such a mental condition he yielded to a proposition by Old Man Middleton that he undertake a dangerous mission.

In "Kiss or Kill," which comes to the Columbia to-day for a three-day showing, Warner's experiences and those of a beautiful girl form one of the most thrilling yet appealing stories yet shown on the screen.

Blessed are they who expect little, for they usually get it.

OPENING EPISODE OF NEW PATHE SERIAL

Pearl White is Featured; Mary Miles Minter in New Role

Mary Miles Minter is married, or at least she takes the part of a young matron in "Wives and Other Wives," a live-wire comedy-drama which will be seen at the Romano to-day, Tuesday and Wednesday.

Audiences have been accustomed to see Miss Minter as the decidedly youthful, even childish ingenue. Now we see her blossom out as a young woman, minus the petulance, the shyness and the sedateness of the early teens. Yet she is the same charming Minter! As "Mrs. Challoner" she gets "peevish" over her husband's lack of attention. She realizes a chance to get even by getting him into the clutches of the "green-eyed monster"—jealousy.

Collin Chase and William Garwood have important parts in the cast and the combination of those well-known names with Miss Minter makes a most pleasing whole.

As a special added attraction for the first half of the week, the Romano will also present the opening episode of the new Pathe serial, "The Lightning Raider," featuring Pearl White.

There is no mystery character in "The Lightning Raider." This will be a welcome change to serial fans. Pearl White plays the part of a daring girl who, while not being an actual criminal, appears to be the associate of thieves of the underworld—she herself is a kind of combination "Raffles" and "Robin Hood," who steals "for the fun of it," and not for pecuniary gain.

BIG SEVEN-ACT SHOW

Mlle. Bianca, Metropolitan Danseuse, is Headliner; Much Variety and Novelty on Bill

The Pantages Theatre this week is offering a seven-act programme, and a good one. In addition to this is a special orchestral number which makes a genuine attraction in itself. There are two big feature acts, Mlle. Bianca, the metropolitan danseuse, the headliner, and the Three Naesses in a Norwegian ice skating novelty. The seven acts of the bill will be found uniformly meritorious.

Mlle. Bianca, assisted by Walter Manthey and Juliette Charlotte, has a beautifully staged dancing number, with a heavy investiture of special scenery for each of the four full-stage dancing features. She and her company offer a Spanish number, a dance nocturne, a Russian Mazurka polonaise and an Egyptian ballet, all along original lines, and richly costumed, colored and lighted.

Using a full stage sheet of ice, the three Naesses, two pretty women and a man, have a distinct novelty. They are graceful and agile dancers on ice skates and the women are veritable Pavlovas on ice. They execute many spectacular figures on the small sheet. Mel Klee is a blackface dispensing in feigning humor in an original way, and keeps the audiences chuckling throughout his turn. His intimate gossip concerning the other players on the bill, while not a new conception, is particularly refreshing when told Mel's way.

Will produce "WHAT HAPPENED TO JONES"

Reginald Hincks and Strong Company Open at Princess Theatre Saturday

"What Happened to Jones," the rollicking farcical comedy at which English-speaking people the world over have shaken their sides with laughter, is to be presented at the Princess Theatre on Saturday evening next by Reginald N. Hincks and a company of talented artists. Mr. Hincks will play the part of Jones, while he will be supported by Mrs. D'Oyly Rochfort (nee Phyllis Davis), Miss Sybil Street, Mrs. Bellby, Miss Dorothy Stuart-Robertson, Major Taylor, Lieut. Webb, G. Stewart Clarke and A. M. Fairbairn.

The previous productions arranged by Mr. Hincks at the Princess Theatre have been devoted to the benefit of the Red Cross Society. In view of fact that the needs of that organization have been lessened by the closing of hostilities, it has been decided to hand over the proceeds of the future productions at the theatre to the Widows and Orphans Fund, which has been doing a magnificent work for the dependents of soldiers killed in service, and is directed by the I. O. D. E.

It should be pointed out that the overhead expenses incurred in the productions have materially increased, and it is hoped that the public will respond with the same loyal support which characterized the "Red Cross" season and thus enable Mr. Hincks and his fellow-artists to continue their very excellent work for a worthy cause.

**WOULD ESTABLISH
A CHILD'S CLINIC**

Northwest Rotary Clubs in Conference at Seattle; Victoria Represented

Movements to establish a clinic or institution for crippled and orphaned children, and to supplement the work among boys now done by the boy scout troops to include youths who are not members of the organization were launched Saturday at the meeting of the president and secretaries of the Twenty-Second District of the International Rotary Association which was held at Seattle. The Victoria Ro-

tary Club was represented at the conference by President J. D. O'Connell and the Secretary, Capt. T. J. Goodlake. The local organization will take part in the promotion of the plan for the clinic as well in movement among boys.

The movement for a clinic was definitely started with the appointment of Dr. C. H. Douglas, President of the Portland Club; W. R. Conner, President of the Everett Club; and J. D. O'Connell, President of the Victoria Club, as members of a committee to take the first steps.

"Rotary ought to be back of everything for the good of boy life," said President H. R. King, of the Seattle Club, when the subject of boys' work was brought up. "Our hope for the future lies in our boys."

On the boys' work committee were named: Dr. Arthur Jordan, Seattle; A. J. Bale, Portland; W. N. Winter, Everett; A. L. Swanson, Tacoma; Charles B. Sears, Bellingham; Hugh McLauren, Vancouver; Gordon Jameson, Victoria; and a Spokane man to be appointed later.

The committees will investigate the possibilities of the plans, the Victoria Club being particularly interested in the boys' work scheme. There is no doubt that if the clubs of the district were to establish a clinic it would be situated in the United States as American Clubs hold a large preponderance of representatives.

Various matters of interest to Rotarians, such as the management of Clubs, were discussed at the conference and President O'Connell expresses himself as well satisfied with the results of the gathering.

Labor Men Meet—A largely-attended meeting of local labor men took place at the Pantages Theatre yesterday afternoon at which the speakers arranged for were J. Kavanagh and Victor Midgley. Only those holding union membership cards were admitted.

Remarkable Family Record of Mrs. E. R. Mawhinney, Who Died To-day

One of the finest types of the virile pioneer women who have assisted in the building up of Canada as a nation passed away in Victoria early this morning in the person of Mrs. Elizabeth Rutledge Mawhinney, relict of Isaiah Mawhinney, who died at her home, 155 South Turner Street, at the age of eighty-five years. The late Mrs. Mawhinney leaves direct descendants for three generations to the number of 102, including eleven children, forty-four grandchildren and forty-seven great-grandchildren, a remarkable family record.

Born in Inniskillen, Ireland, on January 22, 1834, Mrs. Mawhinney came with her parents to Ontario in 1841. At the early age of sixteen years she was married, and in 1875 moved with her husband and family to Manitoba. Subsequently they were attracted by the possibilities of the West, and journeyed out to the Okanagan, where the family resided for many years. Nearly eight years ago Mr. and Mrs. Mawhinney came to Victoria to spend their declining years, the former predeceasing his wife by six years. Up to five months ago Mrs. Mawhinney retained her virility to an extraordinary degree, and in spite of her great age and the illness from which she finally succumbed, kept her faculties and buoyant spirits almost to the end.

Of her thirteen children two predeceased her and she leaves eleven to mourn her loss, including seven sons and four daughters. The sons are: James, of Frobisher, Sask.; John R., of Westminster; Isaac L., Victoria; David, of Elfron, Sask.; Leah, of Victoria; William A., Burnaby Lake; and Frank C., of Victoria. The daughters are: Mrs. John Dilworth, Victoria; Mrs. Hunter, Cariboo; Mrs. Hillis, Medicine Hat; and Miss E. Mawhinney, of Victoria. The remains are resting at the family residence, from which the funeral will take place on Thursday afternoon.

DAUGHTER OF JAIRUS

Cantata is Rendered by Choir of St. John's Church.

There were no vacant seats in St. John's Church last night when a very large congregation heard the choir give a beautiful rendition of Stainer's "The Daughter of Jairus," a cantata of great musical interest.

The main soprano part and its recitatives were sung by Miss Mary Purdy, and characterized by musical feeling, strength and ability. Perhaps no finer tenor solo has been written by Stainer than "My Hope is in the Everlasting," sung by Mr. Young, who gave a sympathetic and devout interpretation with his good tenor voice. Miss Moore and Mr. Young's well-balanced voices were heard in the beautiful duet, "Love Divine."

Mr. White took the part of Jairus with his usual feeling and taste.

The choir chorus was inspiring. Whether in the great fugal chorus and "Awake," or the most effective unaccompanied portions of this work, the choir maintained a precision of phrasing and pitch giving evidence of great personal musical intelligence and careful training.

BACK TO WINNIPEG

Major W. G. Lyall Has Concluded Visit Here.

Major W. G. Lyall, of Winnipeg, left on last night's boat, en route to Winnipeg, for duty, after spending a few days with his sister, Mrs. Fred Cameron, 553 Dupplin Road.

Major Lyall went overseas June, 1915, as a captain with No. 3 Casualty Clearing Station. After twenty-eight months in Belgium and France he returned to England for duty, and was mentioned in Sir Douglas Haig's dispatches in June, 1917. He was promoted to major in August, 1918. He returned on S. S. Metagama as senior medical officer with his wife, Mrs. Lyall was in England for twenty-eight months, and was decorated with the Royal Red Cross at Buckingham Palace by the King, July, 1918. She is now visiting her parents, Mr. and Mrs. Geo. Cassidy, at New Westminster.

SHOWS SECHLT LOTS ARE NOT ROCK PILES

One Soldier Settler is Apparently Satisfied With His Bargain

That section of expired timber licenses recently set aside for returned soldiers' homesteads by the Provincial Government in the neighborhood of Sechelt has been described on more than one occasion as a "rock pile."

How Dominion Rubber System Belting Service Helps Belt Users

For more than fifty years we have specialized in the making of belting and the solving of problems in transmitting power and conveying materials economically.

We maintain a staff of belting experts for the sole purpose of helping Canadian Manufacturers to "speed up" production by cutting belting costs and eliminating power wastage.

These experts will, without charge, analyze your transmission and conveying equipment in its entirety and will recommend changes only where they are necessary to increase the efficiency of that equipment.

You are under no obligation to us in availing yourself of this service—the only return that we request is that you purchase Dominion Rubber System Belting when you have been convinced that the changes recommended by our engineer will be beneficial.

This special service is available through any of our branches.

Phone, wire or write the one nearest to you and let us prove to you that the kind of service we have given to Canada's largest industries and the kind we want to give to you, means more than just selling better belts.

COAL RESOURCES OF BRITISH COLUMBIA

Details Concerning Several Fields in Province Which Are Being Worked

The Crownstee coalfield is the most important body of coal that is being mined in British Columbia. It includes an area of 230 square miles. The coal is a high grade bituminous, occasionally running into anthracite, averaging about 64 per cent fixed carbon. Much the greater portion of the coal is converted into coke, the remainder being sold as steam coal. There are 22 workable seams, with a total thickness of 215 feet, 155 feet of which is estimated as workable.

In addition to the Crownstee field referred to above, areas of coal-bearing rocks are found at several points in southern British Columbia. The Princeton field includes an area of about 50 square miles. At Princeton, there is an 18 1/2-foot seam of lignite, carrying 42 per cent fixed carbon, 35 per cent volatile matter and 16 per cent moisture. At Nicola, seams 6 feet, 10 feet, 5 feet and 12 feet thick, respectively, have been mined. The Nicola coal is a sub-bituminous and analyses about 47 per cent fixed carbon, 39 per cent volatile and 4 per cent moisture.

Coal has also been found at Tulameen, Kamloops, Hat Creek and North Thompson River.

On Vancouver Island. The total area in Vancouver Island underlain by coal seams is about 600 square miles. These coalfields contain some of the best steam coals on the Pacific Coast. The coal of the Comox field is coking bituminous and contains 57.2 per cent of fixed carbon, the highest carbon content of all the Vancouver Island coals. Three seams have been mined in this field.

The Nanaimo field has a productive area of 58 square miles, though the area underlain by coal seams is somewhat larger. The seams vary in thickness. Occasionally a seam containing from 2 to 3 feet of dirty coal carries 30 feet of clean coal at a point only 100 feet distant. Run-of-mine coals from this field run as high as 46 per cent fixed carbon and 43 per cent volatile combustible; commercial samples, 12,470 to 13,160 British thermal units.

The coalfields of the Queen Charlotte Islands are of Cretaceous and Tertiary age. The Cretaceous coals range from semi-anthracite to low-carbon bituminous. The Tertiary coals are lignites. In 1871 mines were opened in the semi-anthracite at Cowitz, but the coal was so badly crushed that the enterprise was abandoned. This coal analyzed 83 per cent fixed carbon and 6 per cent volatile combustible; fuel ratio, 16.5.

Lignite is found at Alexandria, Quesnel and Prince George on the Fraser, on the Nass River, Nechako River, Dean River and Lightning Creek. Three seams of bituminous coal, possibly a coking coal, aggregating 20 feet in thickness, have been reported on a tributary of Morice River. These seams on Goat River, a tributary of the Telkwa, aggregate 56 feet in thickness.

The most important coals thus far discovered in the northern portion of British Columbia are the semi-anthracites and anthracites of the Groundhog Mountain area. An area of 170 square miles is assumed to be coal-bearing, and contains eight seams, with an aggregate thickness of 30 feet.

The "actual" and "probable" reserves in British Columbia are: Semi-anthracite, 1.5 per cent; bituminous, 85.4 per cent; low-carbon bituminous, 3.3 per cent; cannel, 2.4 per cent; lignite, 7.0 per cent.

Lignites have been discovered on Kispiox River, Sustut River, Peace River and Laird River. Bituminous coal has been found near Peace River Canyon and on the Taku River.

Coal Production in British Columbia during the period, 1898-1917, was as follows:

HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells in the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read in the newspaper about the Vegetable Compound and when my second child came I took it and was well during the whole time, and childbirth was a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound as it keeps a woman in good health. You may publish my testimonial for the good of other women, if you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, aches, backache, headaches, and nervousness should lose no time in giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial, and for special advice write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

PROTECT WILD FLOWERS

An Appeal by Committee of Natural History Society of B. C. to the Public.

The Natural History Society wishes to point out to the public that the charming wild flowers and plants in the vicinity of Victoria have suffered severely at the hands of well-meaning but thoughtless persons who intended only to pluck the flowers, and also by the vandalism of those who are not lovers of God's flowers, to the extent that many of them have entirely disappeared, to the shame of the district.

In view of the possibility of further extermination of our native plants through thoughtlessness, carelessness and ignorance of conditions under which plants perpetuate their species, the Society hopes that by means of an appeal to the better feelings of all classes, especially children, sentiment may be created which will result in the protection and preservation of the lovely flowers and plants which even now, in spite of past inconsiderate methods or vandalism, are still to be found in diminished numbers in secluded situations.

Time was when Beacon Hill Park was a sheet of white with the blooms of the white lily and the surrounding woods were fragrant with lady's-slipper, to say nothing of the other plants which adorned the park.

Where are they now? Gone: through the ignorance and thoughtlessness of their admirers and the willful destruction of those who do not care.

Care for the future often involves sacrifice for the present. Are we not willing to forego some pleasure for the sake of preserving for the enjoyment of future generations the beauty of the woods and hills, swamps and pastures, where our lovely wild plants are still to be found? With selfish destruction by ourselves the days is not far distant when children will be not only ignorant of nature, but will grow up without the power to form mental pictures, and will thus be deprived of much that is best in literature.

Plants do not grow spontaneously, or bulbs alone, and if they are deprived of the power of reproduction through these means, those plants will surely sooner or later disappear from the face of the earth.

Spring is now nearly upon us, and soon the white lily and lady's-slipper will be showing their lovely blossoms, and we appeal to all, old and young, to use discretion and care in gathering these flowers. The lily should be cut or broken off, not pulled up, and the leaves should be left, otherwise the bulb will surely perish for want of them.

The lady's-slipper has a very slight hold in the moss where it is found, and the flower therefore should be broken off so that the bulb leaf may be left. Do not take up the whole plant, as is frequently done, for growing in the house. The result is failure, and you have only succeeded in destroying a lovely plant which could have delighted many others than yourself.

Excise judgment in dealing with Nature's gifts.

The committee also desires to draw attention to the snakes in British Columbia, with the exception of "some rattlesnakes in the dry belt, are all quite harmless. They are of the greatest value in destroying rodents and other small pests on the farm, and may be regarded as friends and benefactors of man.

The snake has a very important bearing on the food production, and every person who kills a snake might as well destroy one hundred times the snake's weight in wheat. Do not kill snakes.

The committee is always ready to give advice on Natural History subjects and invites correspondence.

THE FIRST SYMPTOM.

The church of a small town in the malaric country had a hot-air plant installed as a provision for cold weather, says a contemporary. On the Sunday when the new appliance was first used, a widow and her yellow-skinned, ague-stricken son came from their home, several miles away, to attend the service. As luck would have it, the usher escorted the pair to a pew that was directly over a register. Presently, as the janitor fed the furnace in the basement below, the boy began to wriggle and twist. "Ma," he whispered, "I got to go! I ain't feelin' well."

"What's the matter?" inquired his mother. "Air you fixin' to have an other spell?"

"Yesum; must be," said the sufferer. "I kin feel the fever comin' up my laigs."—Walt.

BELGIANS LOOK FOR OVERSEAS BUSINESS

Administrator of Estates in Dutch East Indies Here Yesterday

That Belgian business firms are setting out resolutely to face the disorganization produced by the war, and are looking for trade openings overseas is the statement of Julien Van Campenhout, of Brussels, who was in the city yesterday.

Mr. Van Campenhout is the administrator of estates in Java, and other islands of the Netherlands East Indies, and is on his way outboard on the Empress of Japan. He states that the damage done to industrial property in Belgium during the war was so serious that it will take years to recover, and many merchants are transferring their interests overseas. The looting and damage to machinery meanwhile will cripple and hold back the reconstruction of Belgium.

"After all," he said, "we are only a small country, and it is but natural that Britain, the United States and France will seek to recoup themselves by increased trade, so that the competition is likely to prejudice Belgium before she recovers adequately to conduct an export trade in comparison with pre-war conditions."

Mr. Van Campenhout has extensive interests in copra and other tropical produce in Java, Sumatra and Borneo, and he says it is a class of trade which is capable of steady development.

He reports that the Netherlands Indies have made substantial progress and that conditions are very hopeful in the archipelago when sufficient transportation is available.

While on the Coast waiting for his steamer, Mr. Campenhout has visited most of the North Pacific cities.

PREFERRED IT STUFFED.

"Do you want oysters, Louise?" asked the man as he glanced over the bill of fare in the west-end restaurant.

"Yes, George," answered the woman, who was vainly trying to touch her toes to the floor, "and I want a hassock, too."

George nodded, and as he handed the waiter his written order, he said, "Bring a hassock for the lady."

A moment later the waiter, apparently puzzled, approached the man, and, leaning over him, said:

"Excuse me, sir, but I have only been here two days and do not want to make any mistakes. Will the lady have the hassock boiled or fried?"

SAVINGS BANKS INCREASE.

The number of Post Office savings banks in the Dominion has increased from eighty-one in 1868 to 1,112 in the year ending March 31, 1917, and the total amount of deposits received during a period has grown from \$212,507 in 1868 to \$11,974,424.11 in 1917, as shown by figures given in the public accounts for the year ending March 31, 1917.

In the Kitchen A great help in Cooking

One of the most remarkable features of OXO CUBES is the economy they effect in cooking. They are an excellent substitute for meat in soups and savouries. They prevent waste and oddments can be served in many appetising ways by their use.

Then contrast the old-fashioned cumbersome way of cooking with the quick, convenient OXO CUBE way. Think of the time saved—the material saved—the fuel saved—and then reckon up that in dollars and cents. But that is not all. OXO increases nutrition—it makes every dish more wholesome and digestible.

TO THROW OPEN GARDENS

Mr. and Mrs. F. B. Pemberton to Open "Mountjoy" on Wednesday to Aid Returned Soldiers' Fund.

For the past few years the beautiful gardens at "Mountjoy," the home of Mr. and Mrs. Fred B. Pemberton, Fowl Bay Road, have been thrown open to the public in the spring, and the proceeds—derived as a result have—been used to augment the Prisoners of War Fund. With the signing of the armistice and the repatriation of most of the prisoners of war, the need for this particular fund has practically ceased, but realizing that the need of the Returned Soldiers' Fund is very great, and is likely to continue, Mr. and Mrs. Pemberton have decided to continue the

happy custom of opening their grounds to the public on Wednesday next from 3 till 6.

The garden is now at its best, aglow with myriads of Spring blossoms which form a delightful vari-colored carpet beneath the very fine oaks which adorn the gardens. It is hoped that every resident and visitor in the city will seize the opportunity of visiting this delightful garden on Wednesday, and at the same time help to swell the treasury of the Returned Soldiers' Fund. Tea will be served in the house.

Harrods Stores in London have sent a representative to Belgium by aeroplane, being the first British commercial house to take advantage of this method of transportation to foreign countries.

VICTORIA NORTHWEST WORLD

JAMES BAY ATHLETIC ASSOCIATION HAD HONORABLE ENLISTMENT ROLL

Eighteen Members Made Supreme Sacrifice, 27 Were Decorated, 100 Were Commissioned Officers

Victoria sportsmen who have followed the career of the James Bay Athletic Association will welcome the news of the after-the-war re-organization which is planned of this popular sporting club. The large contribution from the club membership to the great struggle naturally curtailed the activities of the association, although it was never completely disbanded. With former members coming back from overseas it is hoped again to place the club in that proud position in the sporting life of the city that it occupied several years ago. With this object in view, a meeting will be held on Wednesday evening at 8.15 in the Belmont Building, and the attendance of all interested in the association is asked for.

Ninety Per Cent. Enlisted.

The list of names given above contains the eighteen heroes the members of the club will honor as evidence of the sacrifice the club has made to the great cause. According to data compiled by W. N. Kennedy, more than 90 per cent. of the active membership enlisted during the early stages of the Great War, and naturally this heavy reduction in the membership compelled the management to cease active operations during the progress of the war and devote itself to keeping the club in existence pending the return of the members.

Those Who Served.

The Clubhouse.
The J. B. A. A. it is claimed, is unexcelled on the Pacific Coast in racing boxes, including four, doubles and singles, and is situated in an ideal position, having an excellent clubhouse, which is provided with reading and billiard-rooms, shower and tub baths, large gymnasium and dressing rooms. No more pleasant or homelike clubhouse can be found on the coast.

A Fine Record.
Few athletic organizations throughout Canada can boast of a finer record than Victoria's well-known club. Formed thirty years ago, the institution has always taken a prominent part in all branches of sport and its members have given a good account of themselves in rowing, canoeing, swimming, football, both rugby and soccer; boxing, track and field sports, basketball, baseball and all indoor and outdoor games.

FOUNDATION CRICKETERS

Fifteen members of the Foundation Cricket Club were out to practice at the Willows Saturday. W. Speak captained one side and A. S. Collett took charge of another side for a friendly game. Seventy-seven runs were scored by Speak's side, Speak being not out 23 and A. Foulds making 27. The vice-captain's side compiled 70 runs, W. Goode being top scorer of the game with 34 to his credit.

A match has been arranged for Good Friday between the two eleven's entering in the Victoria and District League, the game to start on the Willows oval at 2.30. W. Speak will captain the team and L. W. Greenslade the "B" team.

SASKATOON BASEBALL.

Saskatoon, April 14.—Saskatoon is now sure of a city baseball league this year. Three teams have already joined the league, namely, C. N. R., Sutherland and the Star.

DISASTROUS DAY FOR LOCAL BASKETBALLERS

High School Teams Lose on Mainland and Normal Teams at Home

Saturday was a disastrous day for Victoria basketball teams. Both the High School teams which went to the Mainland came home defeated, and two Ladysmith teams which came to Victoria to play Normal School teams in friendly games also carried off the honors.

Two championships were lost to Victoria when the girls' basketball team of the Victoria High School lost to Britannia High School 18 to 3, and the boys' team was defeated by New Westminster Duke of Connaught High School, 37-16.

As a result of the game New Westminster holds the high schools championship of British Columbia, and the Britannia High School, the coast championship, and the Macdonald Cup. The girls' game, which was played at the Normal School gym, was refereed by George Tuck. The first half was keenly contested by both sides, but the second was all Britannia's. With considerable skill, and their full share of luck the girls piled up a total of sixteen points to their opponents' three.

Girls' Loss.
Hard checking featured the game at the Y. M. C. A. Saturday night between a Ladysmith girls' team and the Normal School girls in which the visitors won by the narrow margin of one point in a low scoring game. The local team scored three points in the first half through Miss De Chew and Mrs. Martin scored two for the visitors. Ladysmith scored another two in the second half and the home team failed to add more points. The teams were, Victoria Normal: M. Necker, A. Lyche, D. Jones, L. De Chew, G. Nankwell, Ladysmith: M. C. C. M. Dunn, H. Bauld, T. Thomson, and Mrs. Martin.

Boys Follow Suit.
The Victoria Normal boys followed the example of the girls' team by losing to Ladysmith 51 points to 18 points. At half time the visitors had a lead of 50 points to 10, and the home players managed to add eight in the second half, Lowe, 20; Mikola, 19; and Cels, 12 scored for Ladysmith. Upton, 11; Jones, 4; and Lane, 2, scored for the Normal School. The teams were, Ladysmith: Cels, Lowe, Mikola, Zbyzovsky and Inkster. Victoria Normal: Upton, Jones, Lane, MacMichael and Lewis. Bob Whyte refereed both games.

VICTORIA WEST CLUB TO BE REORGANIZED

Meeting To-night to Put Association on Pre-War Standard

Another Athletic Club, planning to get back to the pre-war standard of sporting activity, is the Victoria West Brotherhood Club, a reorganization meeting having been called by Dr. Raynor for to-night at the Reg. rooms, Craigflower Road. The club has been kept alive during the war, and in soccer football especially has upheld the reputation of the club. Like other clubs of the city it has contributed largely to the ranks of those who fought in the great war, and has also suffered heavily.

Many of the members who have shared in the big fight returned, and were able to take a part in sport again, and the soccer club boasts a team which includes a big representation of veterans. Towards the end of the season and including recently returned men who took part in Saturday's game, the soccer club promised to be entirely composed of veterans.

At the meeting to-night it is hoped to rally together all interested in the future welfare of the club, as activity along every branch of sport is the wish of the executive. Major Stanley Okell, M.C., who was an active member of the club before he went overseas, is among those working hard to put the club on its old standard, although the major, as a result of his wounds, will probably be unable for some time to take his former active part in the sports held by the club.

SPORTSMAN AND HERO

killed in action April 21, 1918. One of the best known all-round athletes in Canada. Prominent in rowing, bicycle riding, Rugby, lacrosse and all branches of sport.

SPORT SHRAPNEL

Allie McDougall Back.
Allie McDougall, who played lacrosse for the Victoria amateur team before he went overseas in December, 1916, is back in Victoria and may decide to get back in the game this season. McDougall served with the artillery in France in the Third Division and went through the big scrap and into Belgium. He was a speedy aggressive player and the fans would like to see him in a uniform again.

Dibble Will Not.
Lieut. "Bob" Dibble, champion single sculler of America, has cancelled his trip to England this year to compete at the Henley regatta. He has repeatedly asserted that he will not go overseas unless there is a race for the diamond sculls and amateur singles championship of the world, and, in view of the uncertainty surrounding the inclusion of a race for the diamonds in the programme, the local sculler some weeks ago vacated his Toronto training quarters.

Hockey Championship Change.
The best two out of three matches will determine the hockey champions of the Pacific Coast in future instead of a home and home match between the first and second teams as at present. President Frank Patrick, of the Pacific Coast Hockey Association, believes that such a series would prove more satisfactory all around, and he plans to make the change next season.

Husband Struck Out.
"Any husband who denies his wife the privilege of witnessing baseball games furnishes her with just grounds for divorce, Superior Judge Shortall, of San Francisco has ruled. He granted a divorce to a wife who testified her husband would not let her attend games.

Looks Formidable.
Low scores and good baseball have featured the contests so far between Portland and Los Angeles. With Jacques Gournier and Sam Crawford to drive in the runs, Los Angeles looks like a formidable outfit.

Profits From Boxing.
Wisconsin profited to the extent of approximately \$16,000 from its five per cent share of the receipts from boxing bouts in the last two years, according to the report of the boxing board.

Thought Mets Would Have Won.
"Newy" Lalonde, captain of Les Canadiens, believes that on the showing made in the world's series, which ended in a tie, the Seattle Met were the better outfit. Before leaving for the East last night he offered the opinion that the Canadiens could never have hoped to win under Western rules as the no-offside system in centre ice completely bewildered them, and as the last game, had it been played, would

Bowled a Tie.
Fort William and Fort Arthur bowling teams on Friday night went into a tie, with an aggregate of 2,525 in the telegraphic tournament preliminary at Youngstown, Ala., Friday night.

English Welterweight Matched.
Augie Ratner, American boxer, has been matched to meet Johnny Bashan, the welterweight champion of England, in a twenty-round bout at National Sporting Club, June 16, for purse of \$4,900. The men will weigh in at 154 pounds.

Will Fight Morris Case.
"We'll fight the case right up to the President of the United States," was the statement of Frank Patrick, president of the Pacific Coast Hockey League, when he heard of the decision in the Bernie Morris case.

Patrick said he was convinced of the innocence of the Seattle Hockey player and expressed confidence that the verdict would be set aside.

Youngstown Bowlers.
The Youngstown bowlers tallied 2,325 in the telegraphic match at Youngstown, Ala., Friday night.

If You Wouldn't Cut Off a Sore Finger Why Sacrifice Decaying Teeth?

Far too many teeth that could be successfully saved are sacrificed.

It has been the custom for most people to rush to the dentist, and have teeth that ached and gave a little trouble hastily extracted, so as to avoid further suffering and toothache. THIS IS A MISTAKE, for a great many of these sacrificed teeth could be successfully saved—at least in these modern dental offices.

OUR SERVICE IS DIRECTED TOWARDS THE SAVING OF DECAYING TEETH, and our past results speak well for our achievements. If your teeth are bothering you, come and let us attend to them. We will do all that is humanly possible to correct and restore them to a sound and useful condition, and what work we perform will carry on risk-free insurance. THERE IS NO PAIN—AND NO DANGER.

We have modern facilities and use the best recommended dental supplies—we ask moderate prices and permit patients to PAY A LITTLE AT A TIME.

DAYLIGHT SAVING AND BIBLE'S ORDER

Evangelist Propounds Unexpected Theory About Hour Overlapping Monday

"If the time from 12 p. m. on Saturday night to 12 p. m. Sunday night, before the 'Daylight-Saving Law' was passed, was sacred time, is the new day beginning one hour later and overlapping Monday one hour just as sacred?" was the perplexing question which Evangelist Wood propounded to his audience Sunday afternoon at the Princess Theatre.

Continuing, he questioned, "If the twenty-four hours under the present arrangement are sacred, will the hour from 12 p. m. to 1 a. m. Monday be considered holy time when the clocks are turned back one hour the last Sunday in October?"

ceased to exist. Is it not better to accept Paul's own statement, that these scriptures refer to the ceremonial law connected with the slaying of animals in the sanctuary service, which was abolished at Christ's crucifixion, for these sacrifices were merely typical of Christ's great sacrifice on the cross?"

After explaining a number of Scriptures, which he said showed the complete harmony of the law and the gospel, Mr. Wood asked those who believed that the Bible taught that the seventh day is still the Sabbath to raise their hands, and nearly every one in the audience responded. Questioning further, he asked, "How many not only believe, but are determined from this time to observe the seventh day which God blessed and sanctified? Quite a number responded by raising to their feet. The announcement was made at the close of the lecture that no one had succeeded in finding a verse commanding the religious observance of Sunday, which the Evangelist contended, was evidence that the Scripture is not to be found."

The next lecture of the series, Sunday, April 20, "Turkey's End and the Battle of Armageddon," promises to be one of unusual interest.

"France's success in the war," declares General Oscar L. Standish, of San Francisco, according to The Argonaut, was due more to her ability to make a quick comeback than to any other single reason. Indeed, France reminds me very much of a certain San Francisco chap who proposed to a local school teacher, "Do you suppose, Mr. Doolittle," she retorted, scornfully, "that I would marry a man so ignorant and superstitious that he carries a horseshoe in his pocket for luck?" Doolittle paled, then, recovering himself, he quietly and reverently took the horseshoe from his pocket, laid it on his knee, patted it gently, and said: "Well, old fellow, I guess nobody'll ever question your efficiency after this."

The total production of iron in Germany, Denmark, Spain, Ireland, Italy, Luxembourg, Norway, Netherlands, Sweden, Switzerland, Canada and the United States for 1918 was 496,300,000 bushels, as compared with 409,096,000 in 1917.

Franchise Reform in Japan

From The Christian Science Monitor.

A well-known authority on Japan, long resident in that country, tells a story of how, on one occasion, when on a visit to London, he went into one of the large West End shops. A sale was in progress, and he noticed on one of the counters a number of boxes of collars, of a style he particularly liked, marked at what appeared to him an absurdly low price. He asked the reason, and was told that the buttonhole at the back of each collar had been originally stamped in the wrong place, but that the incision had been reworked up, the buttonhole stamped in the right place, and that the collars were really none the worse for the adventure. The upshot of it was that he bought several dozen, and a year or so later, when back in Tokyo, noticing that he was running short of this style of collar, he sent one to his haberdasher, telling him to copy it, and to make him a certain number. The Japanese haberdasher performed the task, exactly, and returned the collars, every one with the button hole at the back stamped in the wrong place, the incision reworked up, and the buttonhole placed correctly.

To those who would really understand Japan, and would gain some appreciation of what her history during the past fifty years really means, the story is full of revelations. The Japanese are the most wonderful copyists in the world. Give them a model of anything from a collar to a Constitution, and they will copy it so exactly that the greatest expert would declare it a piece of original work. It is this fact, above all others, that is to be taken into consideration when an estimate is being made of any Japanese reform or national movement, and the present agitation for suffrage reform is a case in point.

It is not easy as yet to estimate the full meaning and significance of this campaign, but it is important that some effort should be made to appraise the situation. To this end it should be remembered that the Japanese Government, although outwardly on a constitutional basis, is in reality, absolutely autocratic. The reason for this is not far to seek. Some thirty years ago, when the question of giving the country a constitution was being considered, a delegation of Japanese scholars, jurists and statesmen was sent on a kind of world mission of exploration. They were to examine carefully the constitutions of several of the more important of the nations throughout the world, and to adopt that one which appeared to them most adequate to meet the needs of the situation as they saw it. In due course, the delegation came to London, only to find that the British Kingdom had no written constitution, that its whole fabric of government rested on precedent, and that to draft a constitution for Japan out of the vast amount of material available in reality, was to copy the constitution of the United Kingdom. The Japanese delegates, astounded as they were to copying what they found, and not to evolving something of their own from the ideas gained, gave up in despair the idea of securing anything from England, and crossed over to Germany. In Germany, of course, they found a constitution written out to the dotting of the last "t" and the crossing of the last "t." This was what they wanted, and so Japan adopted practically in its entirety the constitution of the German Empire.

It is under this constitution that the Japanese people have been living for the last three decades, and it is in accordance with the ideas upon which this constitution is based, that the great expansion and development which, again and again, has surprised the world has taken place. These ideas are fundamentally autocratic. The government of the country is in the hands of the upper, official, industrial and mercantile classes, and no single act of legislation has been passed in the last thirty years, which has reduced to nothing the lot of the Japanese peasant or workman. The Japanese people have for the most part acquiesced in these conditions. Indeed, the rice riots of last August were almost the first serious protest against them.

It was impossible, however, that the tremendous revolutionary changes taking place throughout the world should be without their effect in Japan, and so those who have kept in touch with the progress of events in the island empire during the last six months, have witnessed some really remarkable overnight conversions and astounding changes in the orientation of national policy. The downfall of the Central Powers last November, finally discredited militarism, or at any rate the German exposition of it, in the eyes of Japan. The whole world, moreover, outside the Central Powers, disapproved it, and so in Japan the "astute business cabinet" of Kei Hara followed the strongly militarist cabinet of Terauchi, and Japan spread herself out for the "economic conquest of the Far East." Then, as week followed week, and democratization everywhere became, in varying degrees of sincerity, the order of the day, Japan evidently began to see the necessity of coming into line. One of the last acts of the Diet before its adjournment, a short time ago, was to take the railways still on the old property basis, so as to add a million or so to the electorate.

It was a sop to Cerberus, a concession of a purely autocratic governing class to the demands of the time. Certainly, however, according to the latest reports, shows but little disposition to be satisfied. The demand for manhood suffrage has been vigorously launched, mass meetings in support of it are being held throughout the country, and speeches are being made in which the fullest demands of the purest democracy are being advanced. "Oligarchy," declared Mr. Ozaki, a former Minister of Justice, in a recent speech, "must go forever and national politics must hereafter be open to the public." It is inevitable, of course, that this should come about sooner or later, even in Japan. But those who know the country best will be inclined to hesitate before they ascribe the present changes solely to the purely overflowing of an intelligent and instructed democracy. Some day the Japanese people will have to learn and become attached to the great fundamental truths which render such changes inevitable and irreversible, but Japan is still essentially a copyist, and any appraisal of her progress must take this fact into consideration.

LIFE IN MOROCCO AND GLIMPSES BEYOND

"The story-teller is, par excellence, the prince of Moorish performers. Even to the stranger unacquainted with the language the sight of the Arab bard and his attentive audience on some erstwhile hustling market at the ebbing day is full of interest—to the student of human nature, a most typical attraction." Budget Meakin writes in "Life in Morocco and Glimpses Beyond." "After a long trudge from home, commenced before dawn, and weary bargaining over the heat of the day, the poor folk are quite ready for a quiet resting-time, with something to distract their minds from the pulse of the nation throbbing in the cities men lead a different life, and though the townsfolk appreciate tales as well as any, it is on these market-places that the wandering minstrel finds the largest crowds."

"Like public performers everywhere, a story-teller of note always goes about with regular assistants, who act as summoners to his songs. They consist usually of a player on the native fiddle, another who keeps time on a tambourine, and a third who beats a pair of earthenware drum with his fingers. Less pretentious 'professors' are content with themselves manipulating a round or square tambourine or a pair of small hand drums. This style has a peculiar charm of its own. Each pause, however slight, is marked by two or three sharp beats on the tightly stretched skin, or twangled again, not to capture the loud or soft, according to the subject of the discourse at that point. The dress of this class—the one most frequent in the market—is usually the plainest, if not of the scantiest; a tattered brown jellab (a hooded woolen cloak) and a camel's hair cord round the tanned and shaven skull are the garments which strike the eye. Wearing bare arms and shaven legs, with a wild, keen-featured face, lit up by flashing eyes, complete the picture.

"This is the man from whom to learn of love and fighting, of beautiful women and halfbreath escapes, the whole on the model of the Thousand Nights and a Night, of which versions more or less recognizable may now be found in the pockets of the men of the performer rivet every eye upon him. Suddenly his wild gesticulations cease at the entrancing point. One step more for liberty, one blow—... Now is the time to cash up with the prayer of our lord Mohammed—the prayer of God be on him, and peace—and an invocation of a local patron saint or other... an appeal is made to the pockets of the Faithful for the sake of Mulai Abd el Kader—'Lord Slave-of-the-Able.' Arousing as from a trance, the eager listeners instinctively commence to feel in their pockets for the balance from the day's bargaining; and as every blessing from the legion of saints who would fill the Mohammedan calendar if there were one is invoked on the cheerful give one by one through down his hard-earned copper—one or two—and as if realizing what he has parted with, turns away with a long-drawn breath to smother his beads and set off home."

The Discovery of Spitsbergen

It is almost impossible to believe that, before 1896, no human being ever set eyes on Spitsbergen. Such bold navigators as discovered Iceland and Greenland are not unlikely to have ventured northward, if they did so venture and came to the Arctic archipelago, some three hundred miles north of the North Cape, they must have perceived that the character of the land was such as to be entirely valueless to them, and they doubtless brought home such an account of it as would be merged swiftly in myth and fable.

Our remote forefathers regarded the universe as consisting of the world in which men lived and the Other World, the abode of superhuman beings. The edge of habitable country was the border of this Other World, whither all manner of strange tales were told and partly believed. . . . The Northern Ocean and whatever lands there might be within it belonged to this Other World. . . . It was an ocean, sluggish, stagnant, and hard for rowers to move, which even the winds could not raise, and where the light of the setting sun lingers on till dawn, quenching the light of the stars; and the sound of the sun's rising could be heard and the form of the horses that drew his chariot and the glory about his head could be seen. "Only thus far," says Tacitus, "does the world extend." Homer, too, sang of the isle Aegean, "where is the dwelling-place of Dawn and her dancing-grounds, and the land of sunrise; and there the light of the stars is quenched in the arms of the night is spread over wretched men."

"Like myths were sung by the Norsemen in early sagas, not without increase of detail as the centuries advanced. Some believed there were lands in the Far North joining Siberia to Greenland by unbroken country. . . . Blow To The Crescent. If there had been an efficient quartermaster-general for the fourth Crusade perhaps Spitsbergen would not have been discovered in 1596. Owing to inefficient organization that crusading force came under the control of Venice and was by her directed against Constantinople instead of the Saracens. A fatal blow was thus dealt, not to the Crescent but to Europe's chief bulwark against Islam. The Eastern Empire was undermined and its overthrow by the Turks two centuries later was the direct result. The Ottoman conquest of Constantinople split asunder the ancient trade-routes between east and west, and led to the era of exploration. New ways to the Indies had to be found. Vasco da Gama's discovery of the route round the Cape was the solution of the problem set by the fall of Constantinople.

But the Portuguese had no intention of sharing with the whole western world the potentially of wealth which they thus obtained. They made a monopoly of their oriental trade and closed it for a time against all competitors. Only by trading with Portugal could foreigners trade with the East. Hence arose in other and especially in northern countries the strong desire to find some alternative route to India and Cathay. . . . The Cabots. In 1497 the Cabots, sailing from England in search of a sea route westward to China, blundered up against and thus discovered the North American continent. Next year Sebastian Cabot was sent to explore the obstructive land but to find a way past it to the north. His example was frequently followed during the Sixteenth Century, so that the northwest passage became famous as a goal of discovery. After many years spent in the service of Spain, Sebastian Cabot in 1648 again entered English employ. Up to that time the commerce of England had been controlled by the Hanseatic League, whose policy it was to prevent any direct trade between Europe and the North—save that which came through the recognized markets. It was owing to this prohibition which they were able to enforce, that so little was known in the rest of the world about Scandinavian discoveries in the northern archipelago. It was Sebastian Cabot who incited the merchants of London to shake off this Hanseatic bondage and to push forward boldly for a share in the growing commerce of the world. The northwest passage has not yet been discovered; he now suggested that an effort should be made to find a way to the northeast, above Norway and Asia to China. . . . Merchant Venturers. At Cabot's instigation the Company of Merchant Venturers was founded, and, in 1553, three ships, under the

ASIA MADE FAST PASSAGE ACROSS

Experienced Beautiful Weather on Trip; Brings Many Passengers

Completing a fast and calm passage from Yokohama, the C. P. O. S. liner Empress of Asia, Capt. A. W. Davison, made fast at the Outer Docks, this morning. Owing to delays in loading cargo the ship was two days late in clearing from Hongkong, but regained the time on the run through the China Sea and across the Pacific. Capt. Davison reported splendid weather throughout the passage.

This was the first inward trip of the Asia from the Orient for several years. On her last appearance here she had completed a passage from Liverpool via the Panama Canal and incidentally terminated her services with the British Admiralty. At that time the leviathan was wearing her coat of camouflage. This morning she carried a light grey, which is in dull contrast to the sparkling white paint of pre-war days.

The Empress of Asia brought a full hat of saloon passengers and had a large number in the other classes and steerage. Sixty saloon travelers disembarked here, including the following: Mrs. L. Booth and Miss E. Booth, Yokohama; Mr. and Mrs. J. J. Bryan, Hongkong; W. A. Brown, New York; Mr. and Mrs. John Davis, Miss M. Davis, Aungmye, W. M. Davis, Washington, D. C.; Mr. and Mrs. L. Darby, Kuala Lumpur; J. P. Douglas, Toronto; Mr. and Mrs. F. S. Evans, New York; Mr. and Mrs. J. F. Harrier, Manila; D. J. Haggerty, New York; Dr. C. G. Irons, New York; George P. Lammer, Hongkong; Mr. and Mrs. Donald McRae, Hongkong; Mrs. E. H. McCloy, Shanghai; Mrs. Elmer Madison and two daughters, Manila; Mr. and Mrs. E. F. McKay and two children, Shanghai; R. N. Moore, Shanghai; W. L. Newman and Mrs. A. Newman, London; Major and Mrs. C. E. Ruth, Manila; Mr. and Mrs. John Taylor daughter, Hongkong; Mrs. Ed. Whelan and daughter, Shanghai; and Mrs. Z. Wolff, Manila.

Other officers among the party were Captain A. W. Berg, of Ottawa; Major D. H. Beddington, Col. J. Lash, a former member of the First Contingent, on his way to Toronto; Col. J. S. Morrissey and Col. W. H. Salmund.

MANY OFFICERS BACK FROM RUSSIAN DUTY

Col. J. S. Dennis Arrives Here on the Empress of Asia

Preceding the Canadian contingent shortly on its way home from Vladivostok, a number of Canadian officers returned to Canada to-day on board the Empress of Asia.

Among the returning officers was Col. J. S. Dennis, who held an important post in the Canadian Pacific Railway before the war as Director of Natural Resources. He was connected with the Canadian Recruiting Mission to the United States later. Last year, E. W. Praxar, of the American Red Cross, who is on his way to Washington. While in Siberia he occupied the post of treasurer to the Red Cross Company. Little activity in a military way is proceeding in Eastern Siberia, he says, and the men are simply waiting to see what is going to happen. "Vladivostok, he reports, is quiet at present though there is a good deal of unrest under the surface.

D. J. Haggerty and W. A. Brown, of New York, stated to have been performing secret service work in Russia for the last two years for the American Government were also on board the ship.

AMERICAN OFFICERS ON EMPRESS OF ASIA

Among other American military men returning from the Far East on board the Empress of Asia to-day was Major E. W. Praxar, of the American Red Cross, who is on his way to Washington. While in Siberia he occupied the post of treasurer to the Red Cross Company. Little activity in a military way is proceeding in Eastern Siberia, he says, and the men are simply waiting to see what is going to happen. "Vladivostok, he reports, is quiet at present though there is a good deal of unrest under the surface.

CAP FLEET IS NOW WIDELY SCATTERED

Member of the Canadian fleet of five-masted, twin-screw auxiliary powered schooners which were built in the yards of the Lyall Shipbuilding Company, Ltd., North Vancouver, the Cap Finestere, commanded by Capt. James B. Mustard, is loading a cargo of timbers in Port Blakeley and will be ready to sail in a few days for the United Kingdom via the Panama Canal.

The Cap Finestere is a carrier of 1,500 net tons register, and a sister ship of the five-masted, auxiliary powered schooner, Cap Nord, Cap Palos, Cap Vert, Cap Horn and Cap Vincent.

The Cap Nord loaded in Vancouver and Genoa Bay, B. C., and sailed March 25 for Buenos Ayres via San Pedro.

The Cap Palos was given her cargo in Tacoma and Port Angeles, and sailed for the United Kingdom from Tacoma April 2.

The Cap Vert arrived in Eureka April 1 from Vancouver, B. C., and is loading a cargo of redwood for the United Kingdom.

The Cap Horn is loading at Genoa Bay, B. C., for the United Kingdom.

The Cap Vincent is loading in Vancouver, B. C., for the United Kingdom.

CASCO RETURNING TO NORTH PACIFIC

Stevenson's Famous Boat, Once Sealer Here, Brings Salt North

The Casco, formerly of the sealing fleet lying out of Victoria, which was sold after the fleet was disposed, is again coming to North Pacific waters. She will load additional supplies at Seattle, and is now on her way up the coast with a part cargo of salt, destined for the Aleutian Island fishing stations maintained by her present owners.

About fifteen months ago the Casco, which had lain quietly in the waters of Salmon Bay for some months, was sold by her owner, Capt. Harry W. Crosby, to the Union Codfish Company, of San Francisco, and since that time she has been employed in the codfishing industry for that concern.

With the opening of the Alaska deep sea fishing season, the once famous schooner has been outfitted at her new home port and is about to battle the stormy waters of the North Pacific and Behring Sea for the summer.

As the vessel in which Robert Louis Stevenson made his famous voyage to the South Seas, and during which time he wrote many of his most famous contributions to the literary world, the Casco shared in the reflected glory of her former owner.

Friends Tried to Buy Ship. During the time the Casco lay in Seattle waters some admirers of her former owner started an agitation of the purchase of the vessel, and the turning of her into a memorial of some kind to the famous author. This movement gained but little headway, and Capt. Crosby later disposed of her to San Francisco interests, which returned the vessel to the port from which she sailed on the voyage which Stevenson made famous. Capt. C. Wicke is now her master and part owner.

INVENTOR OF DEPTH BOMB IS REVEALED

Admiral Sir C. E. Madden Conceived Effective Weapon

New York, April 14.—How the submarine depth bomb, familiarly referred to as "ash can," came into being to revolutionize anti-submarine war is related here by Rear-Admiral W. S. Sims, commander during the war of the American naval forces overseas.

Rear-Admiral Sir Charles Edward Madden, chief of staff of Admiral Jellicoe, was the author of the idea, Admiral Sims said, giving as his authority Admiral Jellicoe.

The idea came to Admiral Madden, he continued, while the British officer was aboard a cruiser which sighted a submarine. The cruiser gave chase, he said, but as it drew near the submarine submerged. Admiral Madden, chagrined at the cruiser's failure to "get" the submarine, exclaimed: "Why wouldn't it be a good idea to work up some sort of a device to drop on these Huns?"

Other officers approving the plan, the cruiser put back to port, where the idea was presented to Admiral Jellicoe. He approved the plan and munitions experts were put to work devising the "ash can."

The depth bombs evolved contained three hundred pounds of Trinitrotoluol and were capable of wrecking a submarine.

WILL ESTABLISH LINE FROM B. C. TO MEXICO

Vancouver, B. C., April 14.—A regular service between Mexican ports and Vancouver is to be established in May, according to information given out by B. Seriano Braye, the Mexican consul in this city.

"I am in receipt of advice from the south American Pacific Line to the effect that their ships will resume regular service from Puget Sound ports to Mexican and South American ports," stated Mr. Braye. "The steamship cover early in May, bringing merchandise from the south, according to these advices, and will accept cargo offering for Mazatlan, Manzanillo and Salina Cruz, Mexico. The sailings from Puget Sound ports will be every two months and this ship will call regularly at Vancouver if cargo is offered. Freight rates will be the same as from Seattle."
