<b>From result 1</b>	<p><b>A.1.Educating on Free Knowledge Culture:</b> The main on-line courses carried out by Wikimedia Argentina during 2014, to reach at least 400 teachers, will have as an important part of the curricula the promotion of the free culture. In this sense, we do not expect people only to understand what it means but to promote it in their day-to-day work. Wikimedia Argentina believes on the potential work that can be developed by the teachers in this matter by including the Wikimedia projects on the classroom and using them as a pedagogical tool.</p>	<p><b>Materials</b>  Web site  Educational Content  Education material</p> <p><b>Staff</b>  Executive Director  Education Coordinator.
