YOUR NEW AUTOMOBILE

How to Keep Its Fine Body Sur-faces Like New

Depreciation in automobile values is more a matter of appearance than of mechanical wear and tear. Why people pay so little attention to the care of the body surfaces is hard to understand. Most cars look a year old after two or three months under ordinary treatment.

It is a very simple matter to keep the auto body practically like new for several seasons—simply by cleaning and polishing in the right way. Tobey Polish, the old secret shop formula of The Tobey Furniture Company (Chicago & New York). is a perfect preparation for auto body requirements. It is recommended and

exclusively used by many leading

dealers and makers. It cleans off all dirt and grease, easily and quickly, without hard rubbing; does not gum; wipes off dry; does not eatch the dust. Does not coat over the surface-simply maintains and beautifies the original finish. Your own dealer will supply you. Quarts, \$1; bottles, 50c and 25c. This trademark appears on every package:

Most seaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or, two teaspoonfuls will make an abundance of rich creamy, lather, and cleanses the hair and scalp thoroughly. A Sale That Shall Eclipse All Buying Records of Time Walk-Overs Below Wholesale Cost

Existing Conditions Emphasize the Double Importance of Immediate Action (By JOE REISING)

shoe sale is in wonderful progress-a sale of momentous interest to the masses, made so by A the trend of values in a constantly rising market. Do you fully appreciate what it means to you and yours, by the double savings made possible through a shrewd purchase of this stock? Do you realize the monster significance of the event, which offers now, in times of somewhat doubtful values, the same sterling qualities that the public has become accustomed to by years of association with the world's great trade name and mark of character, as applied to footwear-Walk-Over?

The one big point to bear in mind in connection with this sale is that prices have been reduced from the old and comparatively low figures of a year ago -when big orders were placed by Walk-Over store in anticipation of just such conditions as we face right now.

This means that the sale prices in force here are greatly below the present scale of the wholesale market, while other and smaller stores are forced to command the higher costs in proportion to advances in recent purchases.

In absolute justice to the pocketbook, every citizen in this great community is duty bound to take advantage of this supreme opportunity for individual profit. With other necessities of life priced so high, war times necessitating the most frugal measures at all points in our daily life, no thrifty person can afford to overlook such genuine bargains as this sale affords.

This is no time for delay, surely folly to ponder too long over so vital a question as footwear. When you know that prices are destined to advance to a still higher plane, the good judgment of every man and woman who reads these lines must compel immediate action.

The big stock is still complete. Great varieties in shoes, oxfords and slippers for all. Just the styles you want, in suitable models for dress, work and play.

Tomorrow will be a great selling day, so the earlier you shop the better service will we be in a position to render. / Whatever you do, come!

Says Joe Frey:

The advertisement wherein I compared myself to Charlie Chaplin caused comment, which came to my

An Aurora merchant told me that I had my nerve to compare myself to a big fellow like Charlie, but-

My point of view is this:

Every big man has a specialty in which he is superior to others, that's what makes him big. Now I never made claim to being a statesman, a financier or even a movie star, but I do maintain that I stand at the head of the list in my line of merchandising. The enormous business I've built up during a quarter century is conclusive proof of my contention.

I think that every man wants to trade where he is sure to get full value for his money, where he receives courteous treatment and his patronage is appreciated.

My establishment is conducted exactly on this basic policy—the square deal is law. It sure will pay the readers of my advertisements to supply their wants in wines, liquors and beer at my store and don't you forget it.
