卷三 Part III

本屆編修鑑定稅則委員會呈報財政部文	Memorandum Submitted to the Ministry of Finance, National Government	1
-------------------	--	---

例 言

- 一 貨價與經濟制度之運行，關係至密。貨物之生產分配消費，雖為根本的經濟行為，然在現代經濟組織之下，要莫不與貨價息息相關，而受其支配，故欲明瞭現代之經濟生活，非注意於貨價與貨幣所左右之部分不為功。
- 二 貨價之為物，變動而不居，然變動之中，却有規則存乎其間，此種規則之存在，按諸少數貨物，容有例外，而按諸多數貨物，則無或少爽。物價指數之編製，蓋即係搜集多數相關之資料以為研究之對象者也。惟編製研究之目的，不一而足，資料之應用於此者，未必適合於彼，為便於取材起見，則各地方之貨價，及貨價之足以代表所有生產與分配之過程者，皆當在兼收並蓄之列，此美國密爾斯教授之所倡導者也。本刊之職志，亦不外是。
- 三 貨價有躉售零售之分，盡人知之，而躉售之大別又有三，其一為市價，即由製造或批發商人之買賣交易而得之價，其二為關價，即進出口商履行報關手續時所申告之價，其三為合同價，即政府或公共之消費機關如軍營醫院之類所購入之價，以上三種，皆為研究貨價之學者專家所取資，亦各有其短長，而其能代表市場上需要供給之實際狀況者，自以市價為最，且第二種之關價，我國已有海關貿易冊，足資根據，本刊係託始於民國十二年，發行迄今，亦經六載，所採貨價以上述第一種之上海躉售市價為準，冀與關價有互相參證之用。
- 四 本刊內容，都為三卷，第一卷經濟統計，復分為(一)設市金融，(二)躉售物價及指數，(三)零售物價及生活費指數，(四)其他統計，所有材料，自十七年第一季起重行訂正，表格線圖頗多修改，第二卷為躉售貨價，先詳貨次土貨，第一卷之躉售物價及指數，乃整個貨價之研究，此則為各個貨價之資料也，惟資料雖不厭其多，而貨物之品質與交易之方式，則在可

能範圍以內,務求其一致,以便比較,第三卷雜纂,介紹關於統計之調查研究方法,復以本局為關稅行政之調查機關,當此修訂商約恢復稅權之時,於國際貿易之狀況,關稅問題之大勢,亦隨時根據學理,羅列事實,藉供邦人之參考。

五 本刊第二卷貨物類目,前按其用途,分為八類三十三目,自十七年第一季起,改按貨物性質,分為

- | | |
|---------------|----------------|
| (1)糧食類 | (13)紙及印刷品類 |
| (2)果實蔬菜及藥草類 | (14)棉及棉製品類 |
| (3)畜產類 | (15)麻及麻製品類 |
| (4)水產類 | (16)毛及毛製品類 |
| (5)菸草類 | (17)絲及絲製品類 |
| (6)酒及汽水類 | (18)煤炭類 |
| (7)茶及其他飲料類 | (19)金屬及其製品類 |
| (8)陶類 | (20)陶磁玻璃類 |
| (9)木竹藤草類 | (21)電氣材料類 |
| (10)化學製品類 | (22)科學儀器及文具類 |
| (11)染料及顏料類 | (23)運動器具及娛樂用品類 |
| (12)油脂蠟燭及其製品類 | (24)雜類 |

以上部為二十四類,更依其性質,各分子目若干,至進口各貨,並逐品載明稅則號數,以備參考。

六 上海市場,以規元為貨幣本位,本刊從之,其商業習慣通用銀幣者,亦按同時洋釐,折合規元,以歸一律,惟海關完稅估價,通行關銀,故並列關銀一欄,其比率為規元一·一一四等於關銀一·〇〇〇

PREFATORY NOTE

I. "That Prices play a part of extreme importance in the working of the economic system requires no demonstration. The production, distribution and consumption of goods are of course fundamental activities, but as the modern economic system is organized they are conditioned and influenced at every point by prices and price relations. It is futile to study modern economic life without regard to the part which money and prices play."

II. "Prices are anything but stable, but among all facts of variation there is hope of finding regularities. Though individual prices may furnish exceptions, definite principles of order prevail among large groups. When we are dealing with price index numbers it is with groups of data that are related. But as our aim varies, data which will serve this purpose may not be satisfactory for a study of price behavior of other types. For this reason we need a considerable number of pure price series drawn from various geographical regions and representing all stages of the productive and distributive process."* The same view is followed in compiling our report.

* F. C. Mills. *Behavior of Prices*, Pessim.

III. Commodity prices are quoted either at wholesale or at retail. The former is again classified into three kinds. Those obtained directly from manufacturers or wholesalers are called market prices. Next are the prices supplied by importers or exporters who declare the value of their goods at the time of import or export. Lastly there are the contract prices which are collected from army posts, hospitals, etc. These three kinds of wholesale prices being all employed by students of economics vary in merits. For the presentation of actual conditions of demand and supply, market prices are unquestionably the best to use. The second variety is usually obtainable from Customs Trade Returns. This Report was begun in 1923 and has continued ever since. The prices contained herein are those prevalent on the market in order to contrast with Customs values.

IV. This Report is divided into three parts. Part I deals with economic statistics which are grouped under four headings, viz., (1) Money Market in Shanghai, (2) Wholesale Prices and Price Index Numbers, (3) Retail Prices and Index Numbers of Cost of Living and (4) Miscellaneous Statistics. Beginning with the first quarter of 1928, all the tables therein contained are thoroughly revised and many new charts inserted. Part II gives detailed statistics on the wholesale prices of imported and native goods in Shanghai. These

may be contrasted with the "Wholesale Prices and their Index Numbers" in Part I, as the latter treats of commodity prices as a whole and attempts to measure the extent of changes in the wholesale market while the former, with wholesale price of individual commodities classified according to their nature and origin and presented in great detail. Both the methods of transaction and qualities of goods which together determine the price quotations are kept as definite and uniform as possible so that month to month and year to year comparisons can easily be made. Part III is entitled Miscellaneous Articles which deal, on the one hand, with the statistical methods as applied to the investigation and study of economic and business conditions, and, on the other, with the international trade and tariff problems.

V. Beginning with the first quarter of 1928, commodities enumerated in Part II will be classified according to their nature in stead of uses as adopted hitherto. They are grouped under twenty-four headings as follows:—

- | | |
|--|---|
| 1. Cereals | 13. Paper & Printing Matters |
| 2. Fruits, Vegetables, & Medicinal Herbs | 14. Cotton & Cotton Goods |
| 3. Animal Products | 15. Flax, Hemp & Jute Goods |
| 4. Fishery & Sea Products | 16. Wool & Woollen Goods |
| 5. Tobacco | 17. Silk & Silk Goods |
| 6. Wine, Spirits & Table Waters | 18. Coals & Charcoals |
| 7. Tea & Other Beverages | 19. Metals & Metal Products |
| 8. Sugar | 20. Earthenware, Chinaware, Enamelled ware, Glass, etc. |
| 9. Wood, Bamboos & Rattans | 21. Electrical Supplies |
| 10. Chemicals | 22. Scientific Apparatus & Stationeries |
| 11. Dyes & Pigments | 23. Athletic Supplies & Toys |
| 12. Oils, Gums, Wax & their Products | 24. Miscellaneous |

In the case of imports, tariff numbers are inserted for reference.

VI. Since Shanghai tael is the standard unit of currency in Shanghai all prices in dollars are converted into Shanghai taels according to the current rate of exchange between the dollar and the tael. For duty-paying purpose at the Customs House, the official unit is the Haikwan tael which is equivalent to 1.114 Shanghai taels. Accordingly prices are further converted from the Shanghai tael to Haikwan tael for the convenience of exporting and importing merchants.

商情及金融概述

民國十七年第四季

國民政府鑒於欲圖建設。必先整理財政。而整理財政。尤必有良好之金融機關。於是籌備多時之中央銀行。已於十一月一日正式開幕。此本季金融上之大事。可誌也。按中央銀行為國家銀行。其主要任務有三。(一)統一全國之幣制。(二)統一全國之金庫。(三)調劑國內之金融。凡此三端。皆屬要圖。不容或緩。同時財政部并改訂中交兩銀行條例。特許中國銀行為國幣匯兌銀行。股本總額定為國幣二千五百萬元。分為二十五萬股。每股一百元。除由政府認股五萬股外。餘由人民承購。又特許交通銀行為發展全國實業之銀行。資本總額定為國幣一千萬元。分為十萬股。每股一百元。除政府於資本總額中先後認股二萬股外。餘由人民承購。從此中央中交三行。各本所負之使命。分別進行。當不難收殊途同歸之效。本季發行之內債。計有二種。(一)十七年金融短期公債。十月間發行。債額三千萬元。以充建設金融事業及整理輔幣之用。週息八厘。其應付本息之擔保品。由財部指定以關稅內德國退還賠款除應付十四年公債及治安債券外之餘款項下撥付。至民國二十四年九月底全數還清。(二)十七年金融長期公債。十一月發行。債額四千五百萬元。為整理漢口中央中交三銀行停兌鈔票之用。週息二厘半。由財部指定以關稅餘款為本息擔保品。至民國四十二年九月底全數還清。

本季貿易情形。洋莊絲經交易。因海外人造絲充斥。日絲廉價競銷仍烈。華絲不振。達於極點。十月間已有絲廠二家。因經濟受軋而停止工作。上海絲廠協會鑒於絲業之危殆。曾呈請援照民三民七成案。撥款維持。但尚未准撥耳。茶市自十月以後。已漸入落合之境。故交易步趨寥落。惟華茶出洋免稅。本年底又屆滿期。全國商會又有繼續免稅之請求。查自民八以來。免稅已九年。展期已七次。而出口不振。依然如故。此殆非單純之免除關稅所能解決。而當於改良生產推廣銷路各方面積極進行以挽回之也。本季棉紗市面。異常堅挺。各廠生產數量。不敷需要。而抵制仍烈。內地檢查。亦甚嚴密。日紗難以流通。更以各幫投機。爭先購運。十六支人鐘竟高至一百七十五兩許。市勢之俏。為從來所罕見。申新紗廠已將設立多年之英商東方紗廠。斥資收買。今年華商紗廠之受惠於抵制。略見一斑矣。本季輸出物價。十月份頗有蒸蒸日上之勢。十一月份變動平穩。十二月份漲跌互見。全季總平均則較上季稍漲。輸入物價大勢趨高。其中生產品價格上漲較鉅。至於一般雜貨物價。五大類指數中。十月份除其他食物類低落外。餘均上漲。十一、十二月漲落較微。但大宗物品如糧食金屬燃料工業用品等。高昂者佔多數。指數遂亦上升。

本季金融狀況。標金初甚疲弱。最小跌至三百四十六兩。旋因日金解禁之消息傳來。遞漲至六十五兩。辛四日政府未遂實行。又復下落。年終為三百五十六兩三錢。外匯與大錢。除十二月份變動較鉅外。十、十一兩月。極為穩定。銀拆一項。較前稍緊。會數次到過四錢以上。大致則均在二三錢之間。洋厘市價。十月初為七錢二分一

厘二毫半。嗣以花米用途當令，逐步上漲。最高到七錢二分六厘。迨十二月後，年關將屆，洋款用途，大致舒齊。厘價又逐漸低落矣。此外關於公債事項，尚有足述者。整理案內之整理七厘公債，已屆期還本兩次。本季十一月十日，已在上海補抽一次。計還本一百六十三萬二千元。金融公債末次本金五百三十九萬元，亦已於十二月底開始償還。而國民政府所發行之善後短期公債，亦於十二月一日，按照條例在上海舉行第一次抽籤，計還本金二百萬元。因此人民對於公債信用，日趨鞏固，債市隨之堅情。此債券前途之好現象也。

關於國外金融情形之變遷。舉其要者。(一)英政府五月三日提出之一九二八年通貨及銀行券條例。於五月二十二日及七月二日，經上下兩院先後通過後，聞已於十一月二十二日公布實施。(二)保加利亞因企圖匯兌安定起見。於十一月二十一日，得國際聯盟之援助。在英美法等國市場，募集通貨整理公債。故該國通貨之整理。大概於最近之將來，可望實現。按歐洲諸國之通貨。至去年已大都漸臻安定。比較前數年通貨紊亂時代，殆有隔世之感。而因金本位恢復之結果。匯市變動驚濤穩定。對於國際貿易之障礙，已根本祛除。又因金之移動恢復自由之故。歐洲之金融市場，得再回復戰前之密切關係。而歐洲諸國之利率及物價，亦漸得保持平均狀態矣。

COMMERCIAL AND MONETARY REVIEW

Fourth Quarter, 1928

During the quarter under review there were several financial events of great importance, some of which call for comment here in particular. With a view to readjusting financial administration which is one of the pre-requisites in the process of general reconstruction, the National Government took measures to improve the financial system of the country. To this effect, a Central Bank was created on the first of November, whose main functions are (1) to unify the monetary system, (2) to act as a government treasury, and (3) to regulate the money market by mobilizing financial resources in time of emergency. These reforms are fundamental in nature and are eagerly sought after by all interested in Chinese economic development. Meanwhile, the reorganization of the Bank of China and the Bank of Communications was effected under the direction of the Ministry of Finance. The Bank of China was assigned to function as an Exchange Bank with a paid-up capital of \$25,000,000 in 250,000 shares, \$100 each, one-fifth of which was taken up by the Government while the rest to be subscribed by private citizens. The Bank of Communications was chartered to serve as a Finance Bank for the development of domestic industries. Its capital was fixed at \$10,000,000 in 100,000 shares, \$100 each. Of the total number of shares, one-fifth was taken by the Government while the remainder to be subscribed by individuals.

These three banks together form the central financial system and, each in its own way, will work toward the common goal, i. e., the financial and economic development of the nation.

The floating of two kinds of internal treasury bonds may also be noted. (1) The 17th Year Short-term Currency Bonds, amounting to \$30,000,000, bearing interest at 8% per annum and redeemable in whole by the end of September, 1935, was issued in October. The proceeds of this loan was to be used in meeting the necessary expenditures incurred in financial readjustment including the redemption of depreciated subsidiary paper money. The repayment of principal and interest is secured by the net balance of the cancelled German Boxer Indemnity after deducting items for the redemption of the 14th Year 8% National Loan and the Public Safety Bonds (治安公債). (2) The 17th Year Long-term Currency Bonds (十七年金融長期公債), amounting to \$45,000,000, bearing interest at 2½% per annum and redeemable in whole by the end of September, 1953, was launched in September, for the repayment of unredeemed bank-notes formerly issued by the Hankow branches of the Central Bank of China, the Bank of China and the Bank of Communications. The security for the loan is the customs surplus.

Turning to the foreign trade in this quarter, neither silk nor tea fared well. Raw silk was exceedingly dull in consequence of the abundant supply of artificial silk and the keen competition of Japanese products. Two silk filatures of Chinese ownership were obliged to suspend operation in October as a result of business failure. With the view to saving the silk industry from the critical situation, the Shanghai Silk Industry Association petitioned the Government for export bounties along the previous examples of 1914 and 1918, but no assistance has been granted as yet.

Tea trade began to decrease in volume with November as it was becoming out of season. The National Chamber of Commerce again petitioned the government to include tea in the export free list as the term of tax exemption was expiring at the end of the year. This measure of protection on the part of the Government, originated in 1919, had lasted for nine years during which it was extended seven times, but the export trade has shown little or no sign of revival. It seems reasonable to conclude that the fundamental remedy lies, not in government grant of tax exemption, but rather in the application of scientific methods to production and the improvement of the method of marketing.

Chinese cotton yarn, on the other hand, was active due to a state of under-production and to the anti-Japanese boycott which continuing intense in inland districts as well as to the heavy buying of local

speculators. The market reached its highest record, a mark unprecedented in recent years. Native cotton yarn, counting 16, once attaining its maximum quotation at above ¥175. Sung Sing Cotton Mill, one of winners in the competition, even bought up the Oriental Cotton Spinning and Weaving Co.

Turning to the question of prices, export-price indexes tended upward in October, remained stationary in November and showed conflicting movements in December, with an average for the quarter slightly higher than that for the preceding period. Import prices, especially those of producers' goods, generally went up. All the groups contained in the general wholesale price index number, with the exception of food products, rose in October. Movements were less conspicuous in November and December, but such staple goods as cereals, metals, fuels and industrial materials mostly ascended, thus forcing the general index to rise.

Concerning the money market in Shanghai, gold bar was sold low at the beginning of the quarter falling to the minimum figure of ¥345. Later it rose to ¥365 as a result of the rumor about release of gold embargo in Japan, but it fell again to ¥356.3 at the end of the year when the rumor was confirmed to the contrary.

As to foreign exchange rates and bar silver prices the movement of fluctuation was steady during the quarter except December. The rate of native interest was higher as compared with that in the preceding quarter, moving generally between ¥0.2 and ¥0.3, and sometime standing above ¥0.4. The rate of Chinese dollars was ¥0.72125 at the beginning of October, but climbed up gradually soon afterwards to ¥0.726 on account of the growing demand for dollars when the new crops of rice and raw cotton came to market in large quantities. In December the rate came down again steadily, as the supply of dollars was fairly sufficient towards the end of the year.

With regard to public loans, it will be recalled that the repayment of principal on the consolidated domestic loans had been defaulted for two years. On November 10, however, drawing for the Consolidated 7% National Loan, to an amount of \$1,632,000 was held in Shanghai. As to the outstanding principal of the Currency Loan, amounting to \$5,390,000, repayment began at the end of December. Also on December 1, the first drawing, amounting to \$2,000,000 was held for the repayment of principal on the Short-term Rehabilitation Bonds issued by the National Government. The future outlook of the bond market seems optimistic, inasmuch as the confidence of people in government credit has been

considerably strengthened.

Some of the monetary events of significance abroad are also worth noticing. (1) In Great Britain, the so-called "1928 Currency and Banknotes Bill", submitted to the Parliament by the Chancellor of Exchequer on May 3, was passed in the House of Lords and the House of Commons on May 22 and July 2 respectively. (2) In Bulgaria, an international loan, called "Currency Loan", for the purpose of stabilizing exchange rates was floated on November 21. It was raised in Great Britain, U. S. A., France, etc., with the help of the League of Nations. It is expected that there would be a sound monetary system in that country in the near future. Up to the close of last year, currency conditions in most European countries had become fairly stabilized and showed marked contrast to the chaotic conditions prevailing during the past few years. Some obstacles to the development of international trade were removed as fluctuations in exchange rates were stabilized by the return to gold standard in most European countries. And with the restoration of free movements of gold, the close relationship between the money markets in that continent which existed before the War was thereby re-established, while interest rates and prices gradually acquired normality.

上海銀洋錢市說略

民國十七年第四季

銀拆 十月份銀根頗緊。月初尚在二錢左右盤旋。四日後受郵局罷工影響。匯款不便。多銀之家。恐生變端。多主穩健。拆票頭攔。市上大缺。銀拆遂出三錢關外。七日更緊。早市開至四錢三分。往後各路電匯款湧到。市氣大鬆。其間除十四日與二十一日。因星期封關。曾開至三錢六分外。最高不過三錢。低至一錢九分。月尾四日需要略多。市氣復緊。三十日高至四錢二分。十一月初尚穩。中旬受三數錢莊意外影響。形勢緊急。十三日午市銀拆漲至四錢五分。下半月後漸轉和緩。跌進三錢關內。下旬在二錢至三錢一分之間。十二月上半月仍在二三錢之間。下半月跌至二錢以內。迨二十七日各銀行耶誕節後開關。收款較繁。銀拆驟高至四錢。三十日後以年關結束。高至四錢五分。為本季中之最高價。

洋厘 十月份洋厘。由月初之七錢二分一厘二毫半。逐升至五日之七錢二分五厘三毫七忽半。旋即下降。進入下旬。花米上市。洋用加繁。各幫去路不絕。本埠存洋頗少。市勢復挺。月底厘價漲至七錢二分六厘。十一月初尚穩。十三日以銀根大緊。一般多頭洋戶。紛紛掉現銀。缺洋者未免受擠。彼此傾軋。厘價遂由早市之七錢二分二厘七毫半驟升至午市之七錢二分六厘。一日之間。厘價變動竟達三厘二毫半之鉅。誠所罕見。但翌日市面即趨和緩。自是以後。花米需要。不甚殷繁。厘價乃逐步下落至七錢二分二三厘之間。月底以證券交割。曾漲

至七錢二分三厘六二五。十二月年關將屆。客賦多事結束。洋用既減。而各埠貨款復紛紛匯滬。厘價頗跌。月初尙在七錢二分二厘以上。嗣後市面多在七錢二分關內。月末竟跌至七錢一分八厘一毫二忽半。爲本季中之最低價。

銀角 本季小洋市面。十月份在五錢九分七厘七五至五錢九分二厘間盤旋。十一月月初高至六錢〇〇二五。旋又轉降。月終爲五錢九分六厘八七五。十二月初甚平定。下半年後復趨漲勢。每日市價均在六錢以上。三十日且達六錢〇九厘七五。

銅元 銅元市價。十月份頗爲平穩。最高爲四百零五千。最低爲四百零九千。十一月份。月初無大上落。下旬漸跌。二十九日降爲四百十二千。入十二月後。又漸漸上漲。十九日升至三百八十八千。下旬復跌。月末爲三百九、八千。

標金 十月份金價。初站三百五十兩許。不久即行回跌。最小曾至三百四十六兩。十三日起。銀價見縮。匯市堅俏。大戶購進。金價緣以上騰。迨日本要求早開金禁之消息傳來。人心更好。金價遂陸續增高。二十一日已越出六十兩關外。最高曾至三十日之三百六十五兩。嗣因日金解禁。未成事實。翌日遂猛跌四兩許。十一月份初在六十兩關口。旋以日匯鬆動。人心轉疲。中旬市價。盤旋於三百五十六兩之間。十九日起。漸呈堅穩。曾高至三百五十七兩以上。然不久仍轉軟勢。下旬中日交涉停頓。日匯趨跌。金價因即上升。幾達五十兩關口。十二月份月初四日不出五十五兩關外。中旬逐步漲至五十九兩以上。下旬復趨低落。二十四日最低價回至三百五十三兩六錢。

大條 本季倫敦存銀甚豐。然因中印需要不減。銀價極爲穩定。十月份十一月份均無大上落。迨十二月。除中國有所購進外。各國傾向賣出。轉趨漲勢。七日起。逐步下降。頗有急轉直下之象。

外匯 十月份外匯市况。緊鬆互有。英美法三匯均極平穩。日匯則漲落頗鉅。最高至七十四兩七錢五。與最低時相比。計差三兩二錢五分。十一月份英美法三匯掛牌始終不動。惟日匯趨跌。查外匯停滯之原因。除銀市平定與秋季賽馬銀行停市發生直接影響外。他如美國大選與日皇加冕。亦足使商業疲滯。阻止外匯之活動也。迨入十二月後。初以年關將屆。匯價合算。空頭紛紛補進。多頭買胃亦旺。交易既盛。匯市遂轉進勢。中旬市價。未見回復。繼以日美見跌。遂又轉鬆。迨耶誕節後。各匯交易清淡。匯價並無變動云。

REVIEW OF MONEY MARKET IN SHANGHAI

Fourth Quarter, 1928

NATIVE INTEREST The rate of native interest was very stringent in October. It fluctuated around $\$0.20$ at the beginning, but jumped above $\$0.30$ after the 4th and rose as high as $\$0.43$ on the

7th, owing to the postal strike which by hampering the domestic exchange caused bankers to keep a cautious attitude in granting loans. It relaxed, however, soon afterwards, when abundant cable transfers arrived at this port. With the exception of the 14th and 21st which being Sunday holidays caused the rate to rise above $\text{₹}0.36$, business was carried on at a rate ranging from $\text{₹}0.30$ to $\text{₹}0.19$, appreciating to $\text{₹}0.42$ on the 30th, due to increased demand. The rate remained steady at the beginning of November, but appreciated considerably during the middle of the month due to the unsatisfactory conditions of certain native banks. On the 13th it ascended to $\text{₹}0.45$, but it dropped below $\text{₹}0.30$ soon afterwards, and fluctuated between $\text{₹}0.20$ and $\text{₹}0.31$ towards the end of the month. During the first half of December the rate maintained its old range of $\text{₹}0.30$ to $\text{₹}0.20$, but it sunk below $\text{₹}0.20$ in the second half of the month. On the 27th it rose suddenly to $\text{₹}0.40$ owing to the large demand from banks after the Christmas holidays. On the 30th, it ascended as high as $\text{₹}0.45$, the maximum of the period, due to the closing of accounts on New Year's Eve.

CHINESE DOLLARS At the beginning of October the rate of Chinese dollars rose gradually from $\text{₹}0.72125$ to $\text{₹}0.725375$. It weakened after the 5th, but appreciated again to $\text{₹}0.726$ in the latter part of the month owing to the great demand of financing new crops of cotton and rice. The market was fairly steady at the beginning of November, but turned suddenly stringent on the 13th owing to the advance in the rate of native interest. The dollar was quoted at $\text{₹}0.72275$ in the morning but phenomenally jumped to $\text{₹}0.726$ at noon, a difference of $\text{₹}0.00325$. With the decreasing demand for dollars afterwards, however, the rate fell continually until it reached near $\text{₹}0.722$. At the end of the month the settlement of stock market transactions brought the quotation up again to $\text{₹}0.723625$. In December, owing to the approaching end of the year and the diminishing demand of dollars coupled with heavy arrivals, there was a continuous depreciation of the rate, which declined from $\text{₹}0.722$ to $\text{₹}0.718125$ during the course of the month, the latter figure representing the lowest rate of the quarter.

SUBSIDIARY COINS The rate of small silver coins during October ranged from $\text{₹}0.59775$ to $\text{₹}0.592$. It appreciated to $\text{₹}0.60025$ at the beginning of November, but decreased to $\text{₹}0.596875$ toward the end of the month. The market was fairly steady at the beginning of December, but turned again higher in the second half of the month, during which the daily quotation reached above $\text{₹}0.60$, rising as high as $\text{₹}0.60975$ on the 30th.

COPPER COINS The rate of copper coins ranged from 405 thousands to 409 thousands in October. It continued steady in the first part of November, but declined to 412 thousands in the latter part. Slow but steady appreciation was witnessed in December, the rate attaining 388 thousands on the 19th but decreasing again to 398 thousands at the end of the month.

GOLD BAR Quotations stood at ¥350.00 at the beginning of the October, but depreciation set in soon afterwards, the minimum reached being as low as ¥346.00. Beginning with the 13th., the market strengthened owing to the decline in the price of silver as a result of the activities of exchange speculators. Later on the news of the demand for the lifting of the gold embargo in Japan continuously raised the quotations, which leaped above ¥360.00 on the 21st. and reached ¥365.00 on the 30th. Quotations dropped violently on the day following when the rumored lifting of gold embargo by the Japanese Government failed to materialize. In November, the market was weakened by the sluggishness of the rate of Japanese exchange. It opened with approximately ¥360.00 at the beginning of the month, rounded about ¥356.00 in the middle, appreciating once above ¥357.00, but collapsed to approximately ¥350.00 in the latter part in consequence of the suspension of Sino-Japanese negotiations. In December the rate opened with ¥355.00 during the first four days, turned gradually upward to ¥359.00, but depreciated again in the latter part of the month, sinking to ¥353.00 on the 24th, the lowest mark in the month.

BAR SILVER Prices of bar silver were quite steady in this period due to steady requirements by China and India, although heavy stocks were being carried on in London. There was very little fluctuation in October and November. The market slumped, however, in December due to the fact that various countries disposed of their silver although China still made purchases. Price of bar silver depreciated continuously since the 7th.

FOREIGN EXCHANGE Tendencies in rate of foreign exchanges were various in October. The rate of sterling, gold dollar and Franc was quite steady, but the quotation of yen fluctuated violently, reaching the maximum of ¥74.75, a difference of ¥3.25 compared with its minimum. There were no changes in November in the rate of sterling, gold dollar and Franc, but the value of yen tended further downwards. The quietness in the exchange market was attributed to the steadiness in the price of silver and the suspension of transactions during the days of the Autumn Races, coupled with the indirect effect of the U. S. presidential election and the imperial coronation in Japan. Upon entering December, the market appeared continually slack, but the enthusiastic purchase by those who had over-sold in foreign exchanges soon brought the rate upwards. Owing to the fall of the Yokohama-New York cross rate the market turned slack again afterwards. Business was quiet after Christmas, but exchange rates remained as before.

上海躉售物價指數圖

民國十四年一月至十七年十二月

Chart of Index Numbers of Wholesale Prices in Shanghai, Jan., 1925-Dec., 1928.

十七年第四季之上海躉售物價指數

本局所編之十七年第四季上海躉售物價指數平均為百分之一五九·三。較上季漲百分之一·一(見乙表)。較去年同季落百分之四·〇(見丙表)。大體變動。尚稱平穩。季內指數之最高點在十二月。為百分之一五九·九。最低點在十月。為百分之一五八·八。相差一·一。趨勢由小而大。足見指數轉漲之一斑(見甲表)。

本季商業較上季略有進展。土貨交易。漸轉興盛。實為主要原因。上季土貨來源。尚稱暢達。惟需要未能比例增加。本季北方河港冰阻。長江水落。各地來貨多少不均。然人民購買力則稍見恢復。商家鑒於時局平靜。亦勇往直前。需要多而供給少。土貨價格遂由降轉升。外貨之價格。平均亦略上漲。但其漲價之原因。則由於十八年一月實行新稅則之消息者為多。而由於實質上之交易增加者較少也。

五大類指數除其他食物類低落外。餘均一致上漲。糧食類之指數。每為米價所牽動。本季河下米秋收不豐。存底稀薄。十月已顯漲勢。十一月謠傳米商私運出口。十二月常熟有禁米出境之議。價格遂逐日上升。小麥津幫購辦孔多。來源寥寥。麵粉少存薄。紅糧鄉莊採辦不絕。與黃豆、生仁等同現漲風。指數漲百分之四·〇。其他食物類之薩門魚、十番參、香菌三品。因抵制日貨。開價比較上季俱落百分之十以上。紅綠茶洋莊進胃不暢。市盤萎靡。其餘廿一品中。除牛乳未動外。漲者僅九。而落者凡十一。因之該類指數卒落百分之二·五。正項及其原料類漲落參半。羊毛、絨線時屆銷令。而來源稀少。價各步升。寶鼎棉紗因日紗銷路阻塞。漲價極猛。本廠原粗斜、原粗布亦連帶上升。惟花衣因本國棉收豐稔。價格劇落。日本原布與雙面呢絨。一以抵制未解。一以冬銷欠佳。亦相率低降。指數僅漲百分之〇·二。金屬類之孟林圓鋼、竹節鋼。內銷暢旺。比因新稅則實行在即。價格更行貴高。純錫、大條鉛、荷蘭錫點。亦各有升動。指數漲百分之二·六。雜貨之燃料。以柴炭二者銷路活躍。指數漲百分之三·五。建築材料中之老式瓦、石灰、水泥等。因建築事業日見發達。價格升漲甚鉅。餘品亦以漲者為多。指數升高百分之三·八。工業用品變則極小。惟硫酸低落較大。指數落百分之〇·三。其他物品中之汽發油、生牛皮同趨低落。熟皮與獸皮則一併上升。指數亦落百分之〇·六。彼此相抵。雜貨之總指數乃漲百分之一·六云。

The Index Numbers of Wholesale Prices in Shanghai

Fourth Quarter, 1928

Our index number of wholesale prices in Shanghai for the fourth quarter of 1928 was 159.3 on the average. This being 1.1% higher and 4.0% lower as compared respectively with the indexes of the preceding quarter and the corresponding quarter of 1927 (see Tables B & C), it may be remarked that price movements in general were fairly steady. Of the indexes within the quarter, the maximum point, 159.9, was reached in December, the minimum, 158.8, in October, their range of fluctuation being 1.1 points (see Table A). The tendency of price movements within this quarter is thus seen to be clearly upward.

The gradual improvement of the market for native produce was the chief cause of the better business prospect recorded in this quarter. During the last quarter, the supply of native produce was fairly uninterrupted, but the demand did not keep pace. Owing to the bad ice conditions in the North and the recession of the water level in the Yangtze River in this quarter, native produce came in irregular quantities from inland districts. On the contrary, the purchasing power of the public recovered somewhat. Merchants, likewise, were quite optimistic on account of the settled political situation. Since the demand was brisk and the supply comparatively small, prices of native products in general turned upward. The average price of foreign goods also rose a little; due, undoubtedly, more to the news of the enforcement of the new tariff schedule in January, 1929, than to actual business conditions.

With the exception of Other Food Products, all the four other index numbers of the five principal groups rose simultaneously. The index for Cereals is frequently influenced by fluctuations in the quotations of rice. Owing to scanty stock and poor harvest last autumn, the price of rice showed an upward tendency ever since October. From then on, the price increased incessantly, first because of the rumours of the exportation of rice by smugglers in November and later, in December, because of the proposal of the Chang-shu district to prevent the transportation of rice out of its own boundaries. Wheat, Hankow,

saw heavy orders from Tientsin but its sources of supply were by no means plentiful. The two kinds of wheat flour were thin in stock as well as scanty in arrivals. These, together with the continuous demand of Kaoliang from farming regions and the appreciations of yellow beans and groundnut kernels, brought the index for Cereals upward by 4.0%. In Other Food Products, salmons, Bicho de Mar, and mushrooms all depreciated over ten per cent as a result of the Japanese boycott. Tea, green and black, being characterized by scanty inquiries abroad, were also sluggish. Of the remaining twenty-one items, nine rose and eleven fell, with milk remaining steady. Consequently, there was a fall of 2.5% in their index number. The index for Textiles showed conflicting movements. Sheep's wool and knitting yarn, being in season, soared high due to their limited supplies. Cotton yarn, "Pao Ding", rose violently on account of the decline of similar Japanese products, thus indirectly causing native drills and grey shirtings also to rise. On the other hand, because of a plentiful crop in this country, native cotton fell in price. Japanese grey shirtings and woolen linen, being affected respectively by unabated boycott and by the restricted volume of sales during the winter season, also went downward. As a consequence, the index for Textiles rose by only 0.2%. In the group of Metals, mild steel round bars and bamboo steel enjoyed a good domestic market ever since the beginning of this quarter. Their prices were further raised recently in view of the approaching enforcement of the new tariff schedule. Antimony, regulus, lead bars, B. M., and tin in slabs also moved higher, forcing the group index number upward by 2.6%. The index for Fuels in Miscellaneous Goods advanced by 3.5% in consequence of the active sales of charcoal and firewood. Items in Building Materials also appreciated on the average. Not considering lime, cement, and old-fashioned tiles, the prices of which rose on account of gradual development in construction works recently, the majority of other items went upward likewise. Consequently, their index number appreciated by 3.8%. The small decrease of 0.3% in the index for Industrial Materials was attributed to the comparatively heavy fall of sulphuric acid, changes in the other items of the group being negligible. In the group of Sundries, gasoline A. P. C. and buffalo hides were low while red leather and bran rose jointly, bringing about a decline of 0.6% in their index number. As an average of the last mentioned four indexes, the group index for Miscellaneous Goods recorded a rise of 1.6%.

十七年第四季之上海輸出入物價指數

本局所編之十七年第四季上海輸出入物價指數平均為百分之一六九·六。較上季平均漲百分之一·四(見丙表)。較去年同季漲百分之一·九(見乙表)。上海輸入物價指數平均為百分之一六八·八。較上季平均落百分之一·四(見丁表)。較去年同季落百分之一·一(見乙表)。本季各月指數最高最低之差。輸出為一·五。輸入為一·四(見甲表)。指數變動。均屬和緩。

本季輸出入物價之漲落。原不為鉅。但觀其趨勢。輸出望高。輸入則有就低之象。期內東省易幟。統一告成。英美諸邦。先後承認國府。內政外交。俱有進步。商業本有發展之可能。然以北方河港冰阻。長江水淺。奉天扣留車輛。仍未全部放還。水陸運輸。同感困難。土貨未能源源而來。洋貨則未能暢運內地。此輸出物價之所以趨高而輸入物價之所以就低也。

輸出物價指數最高點在十二月。為百分之一七〇·一。最低點在十一月。為百分之一六八·六。三大類皆一致上漲。原料品漲百分之一·二。其中農產漲百分之二·一。小麥、黃豆、紅糧、生仁、芝蔴等品。來源寥落。客銷旺盛。葛絲法莊去路亦暢。市價一致上騰。惟豌豆東銷疲滯。棉子到貨踴擠。與棉花、菜子、花生、甘草同趨低落。動物產中雞豬票、羊毛之輸出貿易。微見生色。然生牛皮外銷低減。開價疲弱。指數率百分之一·〇。林礦二產前者以建松板略昂。指數漲百分之一·五。後者以煤層囤積過剩。價格跌落。且比重量較鉅。指數遂落百分之一·三。生產品中之棉紗。因抵制日貨。實銷極暢。售價高昂。廠運、桐油海外需求轉旺。豆油以成本提高。價額堅俏。野蠶繭絲。以存多銷呆。生油以原料低賤而下落。桐油、樟腦亦呈跌勢。結果指數仍漲百分之一·八。消費品中之紅綠茶外銷一蹶不振。市價猛跌。尤以紅茶為甚。南貨北方需要轉弱。桐膠雖值銷合。市情異常沉寂。但雞蛋多

銷甚盛。龍口粉現貨感缺。柴、炭來源稀薄。土布、髮網、花邊出品低減。與青白糖、火柴、原布、夏布同露高峯。指數遂升百分之〇·七。

輸入物價指數最高點在十二月。為百分之一六九·五。最低點在十月。為百分之一六八·一。三大類指數除消費品略跌外。其他二類。稍有上升。原料品漲百分之〇·六。農產之美棉。因該國電告消費增加而微漲。白荳市亦堅挺。惟烟葉以新貨湧到而稍落。該類指數。暫無變動。林產之花旗松、枕木外洋報漲。硬白板、檀香稍形跌落。指數增百分之〇·六。鑛產之舊生鐵、紫銅錠市象呆疲。惟塊煤輪廠兩方頗有購辦。大條鉛現貨告缺。與點錫、剪口鐵一致微漲。指數幸高百分之一·六。生產品中之日貨棉紗。雖抵制運動漸形冷靜。然市面究不無受其影響。價格承上季而續跌。金屬品漲落參半。孟林鋼、竹節鋼、船鋼板等。因同業囤積。漢辦亦殷。市價均見上漲。惟馬口鐵、法西釘、紫銅條市頗疲弱。但毛絨線冬銷暢盛。紅皮、皮帶去路尚旺。水泥現貨缺乏。開價一致趨昂。他如原片、漆油、火酒、捲煙紙、智利鎔、直棧元色。市亦微升。結果指數漲百分之一·六。消費品中鹿門魚、海帶、十番參。實銷欠佳。價均賤落。電燈泡、荷赤、車白糖、葡萄乾、枕木香、英漂布、尺六絨、駝絨亦呈疲勢。但白燕、別直參適扇銷令。價有上升。白蘭地、元細布、花標、洋燭、火柴等品。同趨堅俏。其他各品漲落尤微。結果該類指數仍落百分之一·五云。

The Index Numbers of Export and Import Prices in Shanghai

Fourth Quarter, 1928

Our index numbers of export prices in Shanghai for the fourth quarter of 1928 averaged 169.6, being 1.4% (see Table C) and 0.9% (see Table B) higher respectively compared with the preceding quarter and the corresponding period of 1927. The index numbers of import prices averaged 168.8, recording a reduction of 0.4% (see Table D) and 1.1% (see Table B) over the same periods. The range between the maximum and minimum points was 1.5 for exports and 1.4 for imports (see Table A). Both export and import prices showed equally steady movements.

Though temperate were the changes in the export and import prices, they showed distinctively two different tendencies: export prices grew higher while import prices turned downward. In political affairs, domestic and foreign, the period was marked by the adoption of the Nationalist colors in North-Eastern provinces, thereby making possible the unification of the country; and the recognition of the National Government by Great Britain, the United States, and other nations. Under such circumstances, general business would have shown signs of improvement were it not for the existence of certain set-backs. Bad ice conditions in the northern ports, the low level of the water in the Yangtse, and the failure to return in full the railway rolling stock taken by the Fengtien authorities, all contributed to render transportation difficult and uncertain. The supply of native produce was thus interrupted and reduced in quantity and imported goods could not move freely to inland districts. These factors help to explain why export prices turned upward and import prices tended downward.

Among the three monthly export-price indexes, the highest was reached at 170.1 in December and the lowest 168.6 in November. All group index numbers rose simultaneously. The index for Raw Materials ascended by 1.2%. In Agricultural Products, the price of wheat, yellow beans, kaoliang, groundnut kernels, and sesamum seeds appreciated on account of limited supply coupled with fair demand. Raw silk was eagerly demanded in the foreign markets and its price went up. Other commodities such as white peas, cotton seeds, raw cotton, rape seeds, shelled groundnuts and liquorice fell in price, the demand for white peas being weak in Japan and the arrivals of cotton seeds being abundant. The result was a rise of 2.1% in their index number. The index for Animal Products declined by 1.0%. Although the prices of buffalo hides went down owing to the diminishing foreign demand, bristles and sheep's wool

found some improvement in the export trade. The appreciation of pine-planks pulled the index for Forest Products 0.5% higher while the depreciation of coal dust due to over-storage and the large weight given to it forced the index for Mineral Products down by 2.3%. Under the Producers' Goods group, the index number of which rose by 1.8%, native cotton yarn, encouraged by the boycott movement against Japanese goods, was notably active and higher in quotation. Prices of Raw silk, steam-filature, and wood oil rose on account of favorable demand abroad and that of bean oil was also higher, the principal contributing factor being the increasing cost of production. Raw silk, wild, on the contrary, was sold low because of a heavy stock and an inactive market. Groundnut oil, vegetable tallow, and camphor were slack, the first named commodity being influenced by the depreciation of groundnuts. In Consumers' Goods, both black and green tea, especially the former, fell heavily in price as the foreign market continued disappointing. Sales of groceries to the North was on a small scale. Silk goods were unexpectedly dull during the buying season. But eggs enjoyed big inquiries; macaroni was short in stock; firewood and charcoal arrived insufficiently; nankeens, lace and hairnets decreased in production. Their prices together with those of green and white sugar, matches, grey shirtings and grass-cloth unanimously ascended with a net result of an increase of 0.7% in the index for Consumers' Goods.

The index number of import prices varied between 169.5 in December and 168.1 in October during the quarter. Of the indexes of the three major groups, the Consumers' Goods fell slightly while the rest moved up. The index for Raw Materials advanced by 0.6%. Agricultural Products remained unchanged as the increase in price of American cotton, which was caused by the report of the increased consumption in that country, and of white peas was counter-balanced by the weak quotation of tobacco leaves following abundant arrivals. Forest Products moved up by 0.6%. Though hardwood planks and sandal wood were slack, Oregon pine and sleepers quoted high in conformity with the foreign market. In Mineral Products, old cast iron and copper ingots were sluggish; but lump coal was in urgent demand from steamers and factories and lead bars were depleted in stock, their prices tending upward. In addition, tin in slabs and iron plates, cutting, long, likewise increased in price. Consequently, their index went up by 1.6%. Under the group of Producers' Goods, Japanese cotton yarn continued to decline in view of the boycott movement though the feeling among Chinese was less intense than before. Metal prices showed conflicting tendencies. Mild steel round bars, bamboo steel and ship plates went higher as they were eagerly sought after by Hankow dealers and held in large quantities by local firms, but tin

plates, wire nails and copper rods dropped a little. The market for knitting yarn, red leather, and leather belting was brisk while the stock of cement was insufficient. Their value, in company with those of window glass, paint boiled oil, alcohol, cigarette paper, saltpetre, and direct black appreciated, resulting in a gain of 1.6% in the index of Producers' Goods. In the group of Consumers' Goods, salmon, seaweed, Bicho de Mar, lamps, sugar, brown and white "N", raisins, putchuck, British white shirtings, cotton velvets, and woollen linen were sold at low quotations, but birds' nest, ginseng, braady, black shirtings, printed shirtings, candles, matches, etc. rose steadily. As a consequence, the group index dropped by 1.5%.

本局歸併國定稅則委員會呈報財政部文

為呈報事竊 職局前於三月五日奉

鈞令六九九八號內開查該局職司調查貨價與編訂稅則有關茲為事務便利及節省經費起見應即將該局裁撤其職務歸併國定稅則委員會辦理仰即遵照趕辦結束除令知國定稅則委員會外此令等因奉此遵即將局務停止進行趕辦結束本擬於四月一日實行將職務歸併國定稅則委員會辦理嗣因手續繁重一時不及蒞事當於四月十五日先將局中職務連同調查人員移交國定稅則委員會同時督同留辦結束各員儘速趕辦迄三十日完全結束告竣即日移交並取得該會印收在案查 職局之設立權輿於民國七年修改稅則期內之調查貨價而正式設駐滬調查則始於民國八年一月其時財政稅務當局有鑒於關價與市價多有不符七年修改結果所謂值百抽五者仍未能達到切實地步又以議決歐戰和約簽字後二年得為全部分或部分之修改應前慮後因擬事先調查以免臨渴掘井 俾為奉 派專員之一常川駐滬辦理調查至十一年重修稅則即有一部分拋棄關價而改以市價為依據其材料即由 職局所供給嗣日本代表主張於中國各大口岸設立國際常設委員會調查貨價作為海關之顧問機關美國代表則折衷其說提議中國應在上海設立海關調查貨價局專司進出口洋土各種貨價之調查以備海關諮詢之用此項調查事務不但為協定稅則所必需且為恢復稅權之初步關係益形重要財部爰於十二年一月將原有機關擴充組織推廣範圍加委 為主任嗣後十四年之北京特別關稅會議及十五年在滬開會之編訂貨價委員會關於稅則之資料多由 職局所搜集國民政府成立以來關稅自主為已定政綱之一先後令 准增益經費改處為局後一再奉委繼續任事以來忽經十載茲當奉 令結束實行歸併之時所有歷經辦理諸項職務於恢復關稅自主及籌擬經濟統計二方面雖土壤細流無關宏旨而蛛絲馬跡約略可尋不揣拙味謹為 鈞座總陳之

- 一 關於調查貨價者 調查貨價之目的 一方固為修改海關稅則之準備一方亦為明瞭經濟生活所必需蓋經濟行為如生產分配消費各端在現代經濟組織之下莫不與貨價有密切關係也 職局自八年成立以後即以調查進口躉售洋貨貨價為先務以便與關價相參證而求修改稅則時改訂貨價標準不致暗受虧損嗣以各項土貨或係輸出大宗或係日常消費河為研究物價問題者所注意國內外工商界及學術界屢請一併調查公布因於十二年改組之際呈准一併調查辦理至今規模稍具又十四年復從事調查零售貨價以為編製生活費指數之根據亦經呈准有案
- 二 關於物價指數者 物價指數產屬於十八世紀中葉而盛行於二十世紀之初歐戰以遺為用愈廣關於吾國之物價指數會見於十九世紀末西人之斷篇零簡中而繼續之調查系統之紀錄則未之前聞 職局於八年九月始有物價指數之編製以為窺測一般物價趨勢及研究一切經濟因果消息之工具關於編製方法如基本年度調查時日物品之選擇公式之應用等雖尋常路數惟缺憾猶多而積月累年彙形略具所有上海躉售物價

指數及輸出入物價指數按月刊布東西各國相率轉載又以年來滬上生活程度日高勞資糾紛時起欲求解決糾紛當有生活費指數以資根據 曠曠 因有暫編上海生活費指數之編製其已或者為十五十六兩年嗣以此重方法尚欠精確擬俟工人家計調查完成後再行續編此外各處躉售零售物價指數及生活費指數內而天津廣州等埠外而亞非歐美各洲亦經擇要彙編按期刊載以資比較

- 三 關於調查勞工生計狀況者 曠曠 從事編製上海生活費指數時即感有調查工人家計以作比重根據之必要徒為經費所限未克舉辦十五年秋間北平教育文化基金會董事會社會調查部商會合辦上海工人生計調查并允協助經費 曠曠 因與商定辦法並呈准鈞部着手辦理計當時所選定之工區共有三處所屬工廠共十七家而以紗廠為最多自十六年一月一日開始調查至十七年十二月三十一日止中間雖因受時局影響間或中輟然不久即仍繼續調查統計共有十四個月之工人家用賬共二千四百七十冊除賬中所列(一)食物(二)衣著(三)房租(四)燃料電氣(五)雜用之五項外尚有備作參考之記載多種此項全部賬簿業經陸續寄交北平教育文化基金會董事會社會調查部整理編製一俟完竣即可根據此項結果續編上海生活費指數
- 四 關於出版書報者 曠曠 成立初期所查貨價未暨全部公布徵信之效未彰根據之力不厚以致修改稅則時與各國代表磋商頗費唇舌十二年擴充改組時既有鑒於已往情形又為研究一般經濟狀況之參考起見遂有上海貨價季刊之編印分送中外有關係各官署團體商家以資徵信自十四年十月起更編印上海物價月報一種以補季刊之不逮此外如商品調查市場報告及關稅研究物價統計間有小冊刊行則皆不定期刊也近年來產業界時起糾紛勞工問題遂占社會問題中重要地位而當時國內尚無勞工機關 曠曠 應各方之需求更為各國勞工法令及其原理實務等之蒐輯十六年六月 曠曠 因具呈鈞部請將歷年撥給經費項下撥給一部分以為編譯勞工問題叢書之用並經將此項臨時支出經費造具預算一併呈報蒙核准在案此項叢書分頭編譯費時年餘計共譯成二十五種現均已陸續出版惟以函索者衆酌收印刷費以示限制截至十七年底止全部結束
- 五 關於蒐集參考圖書者 曠曠 為修改海關稅則之補助機關而經濟統計商品研究在在與稅則有密切之關係故凡各國現行關稅法令國際貿易報告以及關於經濟商品之圖書雜誌自應盡量搜羅以資參考歷年來所得圖書雜誌大部分固皆購買而以局中各出版品與國內外各機關交換而得者亦不在少數其中尤以雜誌為夥計前後所蒐集之國內外各書雜誌已達二百餘種之多至於圖書除歷年陸續收藏外最近復因參考之必要函購關於中國經濟財政之書多種截至結束為止計有中文類七百九十五冊西文類一千零七十八冊日文類二百八十三冊合計共二千一百五十六冊估計值銀八千四百五十五元此項圖書悉分類成庫以便檢閱其分類方法西文圖書用美國國會圖書館分類法日中文圖書用十進分類法參考尚稱便利
- 六 關於經費概況者 查曠曠 經費在八年一月初設辦事處時每月額定經費祇三百元同年八月增至六百元

十月增至七百五十元十二年二月改組爲駐滬調查貨價處於是更訂預算每月經費爲二千九百七十一元五角并指定由江海關常稅項下撥給嗣自十三年齊盧之役以後蘇省軍事當局屢有截留稅款停撥經費之事自十四年十一月至十五年三月間會積欠經費至四閱月以上爲數達一萬二千元有奇差幸改組之初爲未雨綢繆之計對於用人行政一切開支極力撙節陸續儲存餘款萬元左右稍資周轉藉免停頓不惟固有職務得以照常進行即近年加課勞工叢書合辦會計調查諸事亦無非賴此餘款以資挹注十六年十二月改處爲局每月經費增至四千九百二十元仍由江海關指撥然職務亦益形擴充爲調查出口重要土貨起見復在漢口設立辦事處所需費用係由原有辦公費項下撙節開支流用總之曠卅十載以來經費雖逐步增加而職務亦與年俱進欲圖孟晉仍時有捉襟見肘之虞此則國家財力使然而亦此次局會歸併之一大原因也

綜上所陳各項曠卅辦理經過略見一斑即此次辦理結束時日稍多亦端由所有案卷簿冊圖籍以暨出版書報等異常繁重所致加以三月分經費遲至本月十八日方始領到以是種種不能不酌留少數人員在局專辦結束茲幸儘速趕辦完竣除事駐滬調查貨價局印章一顆應隨文繳銷外其移交國定稅則委員會之資產及案卷等冊表理合另造一份呈請

鑒核備案計此項移交冊表共分二種(甲)關於資產者內別爲(一)存款(二)物品(三)圖書(四)出版品除存款現金七千五百三十七元四角八分八厘外其餘估值二萬三千一百五十三元一角一分共爲三萬零六百九十元五角九分八厘(乙)關於檔案者內別爲(一)中文案卷二千二百三十一件(二)西文案卷一千五百七十一件(三)簿冊三十二本(四)單據七種(五)樣品二千五百六十三種(六)底冊二百五十五本(七)日報選存九十六冊以上甲乙兩項之詳細數目備載於附呈總冊分冊及附表內再曠卅原有人員除調會任事之郭樹鍾兆璋金榮鈞陸宗壽蔣寶公蔣鼎宋查科胡俊盛敬承李興富程長慶徐建勛鄭思霖王傑虞介生徐利實方玉麟及調查員等自四月起應由委員會支薪外其留辦結束少數人員四月分薪水仍由曠卅按照原薪發給並加給一個月薪水分別逕散此項員薪並不開支委員會經費亦不再請款係由曠卅歷年撙節餘款項下支付合併陳明謹呈

財政部部長

計附駐滬調查貨價局印章一顆總冊二份分冊四份附表十三份

MEMORANDUM SUBMITTED TO THE MINISTRY OF
FINANCE, NATIONAL GOVERNMENT.

Shanghai, May, 30, 1929.

His Excellency, Minister of Finance,
Ministry of Finance, National Government,
Nanking.

Sir,

I have the honor to acknowledge the receipt of ministerial order No. 6998, dated March 4th., to the effect that as this Bureau has as its chief function the investigation of market prices in connection with the formulation of tariffs, it was to be abolished and its functions to be taken over by the National Tariff Commission. In compliance with the above-mentioned order, the activities of this Bureau were immediately suspended. Preparations were made to wind up its affairs, which process, being laborious, was not completed until the thirtieth of April, on which date the entire property of this Bureau was transferred to the National Tariff Commission.

The Bureau of Markets had its origin in the Tariff Revision Conference of 1918. In view of the discrepancy between the Customs value and market prices, and the uniformly low valuation of imports then existing, and also in anticipation of future revisions of the tariff, the time having been fixed up by agreement at two years after the conclusion of the European War, I was dispatched to Shanghai as one of the Commissioners to investigate the market prices; and the Bureau formally opened its doors in January, 1919. In the Tariff Revision of 1922, a large portion of the data was made available by the Bureau. During the revision of the tariff in 1922 the Japanese delegates proposed that permanent international commissions should be installed at each important port in this country to investigate market prices and to work with the Customs in an advisory capacity. The American delegates, however, modified this proposal by moving that the Chinese Government should establish a Customs Valuation Bureau in Shanghai with the prescribed duty of the investigation of the market prices and the classification of import and export commodities. The importance of such an investigation to both tariff making and

Customs valuation prompted the Ministry of Finance to authorize an extension of the Bureau, whereupon I was appointed its chief director. At the special tariff Conference held in Peking in 1925 and the Tariff Valuation Commission summoned at Shanghai in 1926 this Bureau submitted a large quantity of materials concerning the tariff. Since the establishment of the National Government, with tariff autonomy as one of its main programs, the appropriations of the Bureau were increased and I was ordered to remain in office. Having been director of this Bureau ever since its coming into existence, which was exactly ten years ago, I venture, now that the Bureau has been amalgamated to another organization, to submit to Your Excellency a detailed statement of the work that has been done by the Bureau, which, though having contributed very little towards the ultimate aim, would serve as a pioneer in the march towards tariff autonomy and the preparation of economic statistics.

1. INVESTIGATION OF MARKET PRICES The purpose of investigation of market prices is twofold; to furnish materials for future tariff revision and to obtain a clear view of the economic phenomenon, since all economic activities such as production, consumption and distribution are intimately related to prices. Since its establishment in 1919, the Bureau started immediately to investigate the wholesale prices of imports in order to contrast these with the Customs values and to furnish correct bases for future tariff revision. As most native goods are also important articles of commerce, repeated requests were received from industrial, commercial and academic circles both in this country and abroad to include them in the investigation, the result to be published jointly with the prices of imports. Consequently, during the reorganization in 1923 the Bureau was authorized to extend its investigation to native goods as well as imports. Since 1925 the sphere of investigation was further extended to retail prices, previous sanction having likewise been obtained from the Government.

2. THE COMPILATION OF INDEX NUMBERS Index numbers of prices originated in the middle of the eighteenth century, and assumed increasing popularity and importance in the twentieth. Index numbers of prices of our country are to be found in the fragmentary writings of foreigners, but systematic and reliable materials are lacking. This Bureau started to compile the index number of wholesale prices in September, 1919, for the measurement of the general price level. In addition to the wholesale price index, this Bureau has compiled since 1925 the index numbers of export and import prices in Shanghai. Their methods of compilation, such as the basic year, date of investigation, choice of commodities and

the adopted formula, were carefully chosen. The index number of wholesale, import and export prices are published monthly and reprinted in a great number of official publications in foreign countries. In view of the frequent outbreaks of labor disputes on account of the high costs of living prevalent in Shanghai, this Bureau compiled a "Provisionary Index Number of Cost of Living in Shanghai" for the years 1926—27, publication of which will be continued after the completion of the family budget inquiries undertaken by this Bureau. Index numbers of wholesale, retail prices and cost of living compiled in Tientsin, Canton and foreign countries were also published for comparison.

3. LABOR INQUIRIES UNDERTAKEN BY THE BUREAU The Bureau has long felt the necessity of investigating into work-men's family expenditures for furnishing a proper basis of weighting in the compilation of a cost of living index number at Shanghai, but was handicapped by the lack of adequate funds. In the autumn of 1926 the Department of Social Research of the China Foundation for Promotion of Education and Culture at Peking requested to co-operate with this Bureau and offered subsidies for conducting family budget inquiries at Shanghai. With the sanction of the Ministry this undertaking was started. The investigation includes three industrial sections and seventeen factories, mostly cotton mills. It lasted almost fourteen months, from January, 1928 to September 28th, 1929, during which period there were spasmodic interruptions owing to political disturbances. The result of the inquiry consists of 2,470 copies of data, which have been forwarded to the Department on social research of the China Foundation for Promotion of Education and Culture for compilation. As soon as the work is completed, the cost of living index number at Shanghai will continue to be published upon the basis of the inquiry.

4. PUBLICATIONS OF THE BUREAU As the price data obtained by the Bureau at the beginning were not wholly published, frequent disputes arose in actual application among the delegates to the Tariff Revision Commissions. In view of this fact and also for furnishing a ready reference for serious students of economic affairs, this Bureau started to compile "The Shanghai Market Prices Quarterly Report" in 1923 for distribution to government offices, business firms and interested individuals both in this country and abroad. Since October, 1925 the Bureau has published "The Monthly Report on Prices and Price Indexes in Shanghai" as a supplement to the quarterly report. Pamphlets regarding commodities, market conditions, the tariff and price statistics were published from time to time. In recent years

labor disputes assume growing importance in industrial circles; the solution of these disputes was handicapped by the lack of sufficient references. Consequently the Bureau petitioned the Ministry in June, 1927, to draw a part of the fund which had accumulated from the Bureau's regular appropriations for the compilation and publication of a series of books concerning labor legislations and other problems. The whole set of books, totally numbering twenty-five, has now been published and sold at a nominal charge to defray a part of the cost.

5. COLLECTION OF BOOKS AND PERIODICALS As this Bureau has much to do with tariff revisions, which bear a close relation to economic statistics and commercial policies, we have collected a large amount of books on economics and commerce besides numerous reports concerning tariffs and the customs trade returns in foreign countries. The greater portion of these books and periodicals were bought by the Bureau, while some were obtained by exchange from native and foreign institutions. The total number of magazines collected in this country and abroad amounts to more than two hundred. The total number of reference books consists now of 795 copies in Chinese; 1,078 copies in English and 283 copies in Japanese, the total amounting to 2,156 copies, valued at \$8,455. All are well shelved and classified in accordance with the methods employed by the U. S. Library of Congress and the Dewey Decimal Classification for English and Chinese and Japanese books respectively.

6. APPROPRIATIONS The appropriation of this Bureau in January, 1919 was only \$300.00, increased to \$600.00 in August and \$750.00 in October of the same year. During its re-organization in February, 1923, it was increased to \$2971.50 drawn from the Shanghai Native Customs revenue. Since the Chi-Loo Conflict in 1924 the Provincial authorities often seized local revenues. From November, 1925 to March, 1926 the amount of arrears due to this Bureau reached a total of \$12,000. Fortunately, the Bureau has tried every possible means since the re-organization in 1923 to accumulate an emergency fund; and the total of this fund reached approximately ten thousand dollars, by means of which we were able to pass through all difficulties. The publication of labor problem series and the investigation of workmen's family expenditures were supported also by this fund. In December, 1927, the monthly appropriation was further increased to \$4,920.00. Recently the Bureau has established a working quarter at **Hankow** for investigation of native goods which is also financed by its monthly appropriations. In short, the appropriation of this Bureau has been steadily increased along with the expansion of the sphere of

its work during the last ten years, but it still falls short in effecting further extensions of the activities of the Bureau.

The above sketch gives a brief account of the history and work of this Bureau.

Together with this petition, I am submitting to Your Excellency the official seal of the Bureau of Markets, and a complete inventory of properties and documents which have been transferred to the National Tariff Commission. This inventory is divided into two principal parts. Part A includes cash deposits, furnitures, apparatus, books and publications, the total value of which amounted to \$30,960.538. Part B contains Chinese and English correspondence, samples, draft copies and newspaper clippings. These are enumerated in the total and classified accounts as well as in the accompanying tables. With the exception of those members of the staff of this Bureau who have been re-appointed by the National Tariff Commission others of the staff are discharged and compensated with two month's salaries, defrayed from the emergency fund of the Bureau.

I beg to remain, Sir,

Your most obedient servant.

T. Sheng (Signed)
