Wikidata:WikiProject Women

WikiProject Women is an effort to get every item about a woman described properly on Wikidata

- with the statements
 - istanza di (P31)=umano (Q5)
 - sesso o genere (P21)=femmina (Q6581072)
 - occupazione (P106)= eg writer, painter, sculptor, judge, politician, scientist, plus any more specific occupations
 - data di nascita (P569)
 - luogo di nascita (P19)
 - at least one external identifier
 - label/descriptions in 3 languages.

Please help cleanup items about women, but if you land on a page about another gender human in the course of your cleanup work, why not try to leave that item a bit tidier than you found it? Thanks!

For a start, take a look at Gender Bias in Wikipedia and Britannica (Q27797614) and see also [Wikidata:WikiProject Women/Number of women per occupation](#). You can now browse paintings of women by decade here: [Wikidata:WikiProject Women/Portraits of women](#).

Lots of women were notable for just living to the ripe old age of 100. Their occupazione (P106), if they don't have one assigned, should be set to centenario (Q2944360). Please take a look at some of these women with at least 2 sitelinks who have no data di morte (P570) but were born before 1920:

- Wikidata:WikiProject Women/Centenarians

Add P800 (notable works) to Women items [modifica]

To help increase overall quality of items about women, please add **opere rilevanti** (P800) to female items. For women sporters an olympic medal or other award. For women writers this could be a published work or important letter. For women inventors a patent. For scientists a discovery or other noted contribution. For actors a movie, play or TV show. For women artists this could be a work of art in a notable museum.

Help clean up paintings by or portraying women [modifica]

- Add a painting to Wikidata:WikiProject Women/Self-portraits of women
 - Add a painting to Wikidata:WikiProject Women/Portraits of women
 - Consider adding fashion items to rafflaura (P180) on paintings of women, or add other attributes or activities depicted

See also Wikidata:WikiProject Women/ArtAndFeminism 2019 and Denelezh project.

Help clean up items on women writers [modifica]

The effort to clean up items on women writers includes trying to fill in all of the properties listed above, but also to reduce intersection. To track women writers and make them more visible to other projects, please make sure they include **occupazione** (P106) = scrittoressa (Q36180).

- Wikidata:WikiProject Women/Intersected women writers - P106 lacks [scrittore](#) (Q36180) and limited to show 50 items

Help work on these lists of women from Wikipedia projects! [modifica]

Citazioni di Lucia Sturdza-Bulandra [modifica]

Da Lucia Sturdza Bulandra: „Ca să domnească, actorul trebuie să abdice”

Monica Andrei, Ziarulmetropoli.ro, 7 marzo 2014

Non ero attratta in teatro dal fuoco sacro che quasi tutti gli attori dicono siano dominati; in effetti, non ero più al mio primo passo nella lotta per la vita, per garantire la mia esistenza e indipendenza sociale - e non avevo nemmeno l'età quando l'entusiasmo della giovinezza spiega lanciarsi nell'ignoto, nelle annebbianti reti di una fantasia piena di promesse. No: avevo venticinque anni nel 1898. Mi sono laureata alla Facoltà di Lettere e Filosofia e ho provato - non una volta, ma invano - di ottenere un posto nell'insegnamento per garantirmi una vita indipendente

N-am fost atrăș în teatru de focul sacru de care aproape toți actorii spun că sunt stăpâni; de atei, nu mai eram la primii mei pași în lupta pentru viață, pentru asigurarea existenței și independenței mele sociale – și nici nu aveam vârstă când entuziasmele liniștei explicită săvârșeau în recunoșcute, în mrejile îmbătătoare ale unei fantezi pline de făgăduință. Nu: aveam douăzeci și cinci de ani în 1898. Terminasem Facultatea de Litere și Filosofie și incăsem - nu o dată, dar zădărnic - să capăt un loc în învățământul pentru a-mi asigura o viață independentă

... Ho letto con avilità tutta ciò che riguarda l'arte drammatica. E soprattutto ho visto la recitazione di tutti gli attori grandi e piccoli, buoni e cattivi, compatrioti e stranieri. Dalla loro attività scenica, dalla loro recitazione abbiamo scattato analiticamente le esigenze più imperative dell'articolamento dell'attore, e abbiamo percepito la validità o la falsità delle interpretazioni, delle intonazioni e delle procedure. Ho capito che sia la cultura senza talento che il talento senza cultura non possono fare un attore perfetto.

... Am citit cu entuziasm tot ce era în legătură cu arta dramatică. Sîi mai aleam urmărit cu încordare jocuri actorilor mari și mici, buni și răi, compatrioși și străini. Din activitatea lor scenică, din jocul lor am desprins, în mod analitic, cerințele cele mai imperioase ale actorului și am părînuit justificarea sau răstăvirea interpretării, ale intonației, ale procedurilor. Am înțeles că atât cultura fără talent, cât și talentul fără cultură nu pot face un actor desăvârșit.

Non ho nulla per interpretare questo ruolo: né la statura, perché già allora non ero troppo scarna, è la mia voce, una sonorità totalmente opposta il timbro cristallino di un giovane debuttante mondana. Inoltre, non conosciamo nemmeno i principi più elementari della nostra arte di recitazione: dizione, respiro, valore del gesto e così via

nimic nu mă desemna pentru interpretarea acestui rol: nici statura, deoarece încă pe atunci nu eram prea frivă, și nici glasul meu, de o sonoritate cu totul opusă timbrului cristalin corespunzător unei tinere debutante mondene. Mai mult, nu cunoșteam nici cele mai elementare principii ale artei noastre actoricești: dicțune, respirație, valoarea gestură și a.m.d

Ma, anche se a volte siamo stati costretti - dalle preoccupazioni finanziarie, dal fatto di essere indeboliti - a fare concessioni al gusto del pubblico recitando alcune opere senza troppa importanza - ci sono state stagioni, non poche, in cui tutto il nostro repertorio era chiaramente superiore a quelli degli altri teatri. La cosa più importante è, penso, il programma per promuovere i giovani attori. Il gesto di aprire la strada del teatro ai giovani talentuosi. Ci sono nomi che hanno fatto carriera: Aura Buzescu, George Vraca, George Calbooreanu, Nicolae Balătejanu, Maneta Rareș ...

Dar, cu toate că uneori am fost singur - din preocupații de ordin finanțier, fiind înglodată în datorii - să facem concesii gustului public, jucând unele piese fără prea mare valoare -, au fost stagioni, și nu putine, în care întreg repertoriul nostru a fost net superior celor de la alte teatre. Cel mai important este, cred, programul de promovare a tinerelor actori. Gestul de a le deschide drum în teatru într-un sezon de vacanță. Sunt nume care au facut cariera: Aura Buzescu, George Vraca, George Calbooreanu, Nicolae Balătejanu, Maneta Rareș ...

A teatru si deve salire passo dopo passo, fare una lunga gavetta per acquisire le qualità che non hai o per sviluppare quelle innate.

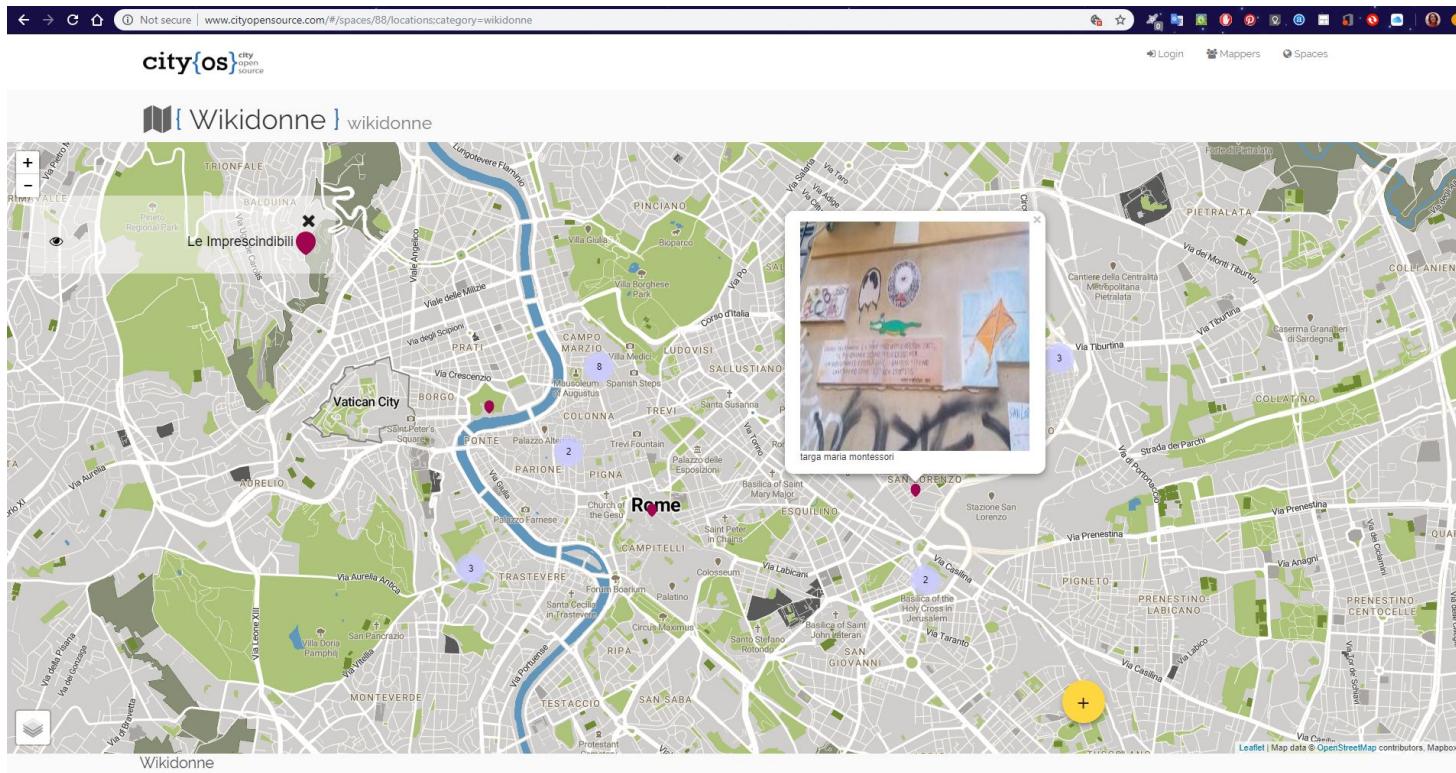

În teatru trebuie să urci treptă cu treptă, să faci practică îndelungată pentru a-ți însuși calitățile pe care le ai sau pentru a le dezvoltă pe cele înnașcate

Per governare, l'attore deve abdicare. L'arte del grande attore sta nella sua perfetta personalità. Si tratta di uno soppiamento, l'attore si sta supervisionando nella realizzazione della costruzione di un nuovo personaggio, quello sognato dall'autore. L'obiettivo sarà raggiunto solo quando la trasformazione darà l'impressione di verità, perfetta coesione, profonda convinzione

Conflict, confidence, criticism

Assumptions (some people make)

1. It is the responsibility of women to fix sexism on Wikipedia.
2. Women do not further patriarchal knowledge and power structures.
3. Women will edit underrepresented topics.
4. Women will make Wikipedia a nicer place.
5. Women have free time to dedicate to Wikipedia.

We suggest

1. It is OUR responsibility to fix bias (e.g. sexism) on Wikipedia.
2. Feminists (of all genders) need to fix patriarchal knowledge and power structures.
3. We need diversity (all genders) to reveal systemic bias
4. WE must make Wikipedia a nicer place.
5. Editing Wikipedia is a charitable donation of time.

Early life and education

Bouman grew up in West Lafayette, Indiana. She graduated from West Lafayette Junior-Senior High School in 2007. Her father, Charles Bouman, is a professor of **chemical and computer engineering** and biomedical engineering at Purdue University.^[4] As a high school student, she conducted imaging research at her father's university.^[4] She first learned about the Event Horizon Telescope in school in 2007.^[5]

Bouman studied electrical engineering at the University of Michigan and graduated **summa cum laude** in 2011. She earned her master's degree (2013) and doctoral degree (2017) in electrical engineering and computer science from the Massachusetts Institute of Technology (MIT).^[6]

At MIT, she was a member of the Haystack Observatory.^[8] She was supported by a National Science Foundation Graduate Fellowship. Her master's thesis, *Estimating Material Properties of Fabric through the Observation of Motion*,^[9] was awarded the Ernst Guillemin Award for best Master's Thesis.^[10] Her Ph.D. dissertation, *Extreme*

PROGRAMS & EVENTS DASHBOARD

Manage and track Wikimedia programs from one place with ease.

The **Programs & Events Dashboard** is a tool which assists the management of wiki programs and events.

Suppose that there is a wiki program, for example a wiki editing drive to improve a certain sort of content, or a wiki event, for example a wiki editing meetup at a local community center. In either of those cases, the dashboard provides the following:

- A registration button for participants to note that they are joining the program
 - Tracking functions for organizers to measure and report the outcome of a program

The Dashboard is also the home of Wikimedia Foundation training modules, such as those on dealing with online harassment and keeping events safe. Learn more about these modules.

2020 Goals

- Focus on content creation
- Cover other languages
- Better collaboration
- Better communication
- Improve metrics, track progress (number of articles created, number of editors)
- Host off-wiki events
- Focus on intersectional knowledge
- Recruit new participants
- Cultivate partnerships
- Inspiring change
