of the Act of certain acquisitions from non-affiliates.

Acting pursuant to the Public Utility Holding Company Act of 1935, particularly sections 3 (d) and 20 (a) thereof, and finding that such action is necessary and appropriate in the public interest and for the protection of investors and consumers and necessary to carry out the provisions of the Act, the Securities and Exchange Commission hereby amends § 250.40 [Rule U-40] by adding thereto the following paragraph (c):

§ 250.40 *Exemption of certain acquisitions from non-affiliates.* * * *

(c) Section 9 (a) (2) shall not apply to the acquisition by a person who is neither a registered holding company, nor a subsidiary company thereof, of securities owned by a registered holding company, or subsidiary thereof, which are the subject of a divestment order under section 11 (b), where such securities constitute all the vendor's interest in a company which does not operate any utility assets and which is a public-utility company only by reason of the ownership of a reversionary interest in utility assets: *Provided*, That such utility assets are operated under lease by a company which is not an affiliate of either the vendor or of the vendee, and the Commission finds that by reason of the duration of the lease, the ownership by the lessee of securities of the lessor and similar matters, there is no substantial probability of the lessor resuming operation of said utility assets. Such finding of the Commission may be made in connection with an application by the vendor company with respect to such sale.

Robert M. Barnett, War Manpower Commission, Chairman.

Colonel Edward A. Fitzpatrick, Selective Service System.

The local board may permit any person who is entitled to appeal to the President under this paragraph to do so, even though the 10-day period herein provided for such an appeal has elapsed, if it is satisfied that the failure of such person to appeal within such 10-day period was due to a lack of understanding of the

PART 982—MINES AND SMELTERS

[Preference Rating Order P-56, as Amended
May 5, 1943]

MINES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply, for defense, for private account, and for export, of materials used in the operation of mines, and the following order is deemed necessary and appropriate in the public interest and to promote the defense of the United States:

§ 982.1 *Preference Rating Order P-56—(a) Definitions.* (1) "Producer" means a person operating any of the following enterprises:

(i) Any plant actually engaged in the extraction by surface, open-pit, or underground methods, or in the beneficiation, concentration, or preparation for shipment, of the products of mining activity;

(ii) Any plant wholly engaged in the processing and burning of refractories;

(iii) Any prospecting enterprise for the discovery or exploration of new or additional mining projects, including the construction of access roads.

(2) "District" means a mine supply control district of the Board of Economic Warfare.

(3) "Maintenance, repair and operating supplies" means material used for the following purposes in the conduct of any enterprise described in paragraph (a) (1):

(i) Minimum upkeep necessary to continue the working condition of essential property or equipment;

(ii) Restoration of essential property or equipment to a sound working condition after wear and tear, damage, destruction or failure of parts, or the like have made the property or equipment unfit or unsafe for service;

(iii) Where such material is essential to and consumed in such operation. The term does not include raw materials which enter into or form part of the finished product.

(4) "Priorities assistance" means any preference rating, allotment under the Controlled Materials Plan, or other form of authorization to acquire material, issued by or under authority of the War Production Board.

(b) *Purpose and scope.* The purpose of this order is to provide procedures for producers, as defined herein, to obtain maintenance, repair, and operating supplies and mining machinery and other material and equipment.

(c) *CMP Regulation No. 5 not applicable.* None of the provisions of CMP Regulation No. 5 shall apply to any producer, as defined herein, and no such producer shall obtain any material under said regulation.

(d) *Issuance of serial numbers.* Producers and districts may apply to the War Production Board for serial numbers. Such applications may be addressed to War Production Board, Washington, D. C., Reference: P56, or may (in the case of producers) be filed with the appropriate War Production Board Regional Office, Attention: Regional Technical Adviser, Mining Equipment Division, or with the appropriate State Coordinator of Mines. Serial numbers may be issued to producers and districts and may be denied or cancelled by the War Production Board in appropriate cases. In taking such action and in assigning priorities assistance, the War Production Board will consider the importance to national defense of the present and prospective output of materials to be produced, the consumption of critical material involved, the importance to national defense of competing demands for such material, and competing demands for manpower.

(e) *Priorities assistance for producers with serial numbers.* Producers holding serial numbers may apply for priorities assistance as follows:

(1) For maintenance, repair and operating supplies, by filing the appropriate form in the PD-400 series.

(2) For mining machinery and other material and equipment, by submitting to the War Production Board a written application describing the machinery or equipment needed, the reasons why such machinery or equipment is essential for the proper operation of the producer's

plant, and such other or further information as may from time to time be required, and shall also file such forms and supply such information as may be required by the provisions of any other order with respect to any particular type of equipment.

(f) *Priorities assistance for certain foreign producers.* To enable a producer not holding a serial number hereunder and located outside the United States and within the jurisdiction of a district, to obtain priorities assistance, the following procedure is established:

(1) For maintenance, repair, and operating supplies, a district may apply for priorities assistance by filing the appropriate form in the PD-400 series, and the War Production Board will grant such priorities assistance as it deems appropriate. A producer not holding a serial number and located in a district may apply for priorities assistance by submitting to such district his purchase orders for maintenance, repair or operating supplies, together with such information as the applicant may deem relevant in support of his application and such information as may be required by the district. Within the limits of the priorities assistance granted to it pursuant to this paragraph (f) (1), such district may authenticate any such purchase order for maintenance, repair or operating supplies by indicating the appropriate priorities assistance and countersigning the purchase order as follows:

Approved:

Name of district.

Signature of authorized official.

(2) For mining machinery and other material and equipment, a producer not holding a serial number and located within a district, may submit to the War Production Board a written application containing the information described in paragraph (e) (2), which must be endorsed with the signed approval of the district within which he is located.

(3) A distributor of maintenance, repair or operating supplies or of other mining machinery or equipment, located outside the United States and within the jurisdiction of a district may apply for priorities assistance in the same manner as prescribed in paragraphs (f) (1) and (f) (2) for producers not holding serial numbers and located within the jurisdiction of a district. A distributor shall not dispose of material so acquired except upon written approval of the district.

(g) *Priorities assistance in other cases.* A preference rating of A-2 is hereby assigned to deliveries of maintenance, repair, and operating supplies to all producers not holding serial numbers or otherwise specifically provided for in this order. Such producers may apply for priorities assistance for mining machinery or equipment, or for further priorities assistance for maintenance, repair, or operating supplies, by submitting to the War Production Board a written application containing the information described in paragraph (e) (2).

(g-1) *Emergency procedure.* In case of actual or impending breakdown, application for priorities assistance may be made on form PD-333 or by telegraph, and may be made either to the Washington office or the nearest regional or district office of the War Production Board.

(h) *Restrictions on use of priorities assistance.* Notwithstanding the provisions of any other order or regulation of the War Production Board, no producer shall acquire any mining machinery or equipment, or maintenance, repair, or operating supplies through use of a preference rating or other form of priorities assistance assigned otherwise than pursuant to this order or an order in the P-19 series.

(i) *Application and extension of priorities assistance.* Preference ratings assigned and allotments of controlled materials made pursuant to this order shall be applied, extended or made in accordance with the terms of Priorities Regulation No. 3, CMP Regulation No. 1, or other relevant War Production Board regulation. A producer in making use of any such priorities assistance, shall endorse on his contract or purchase order "P-56, Serial number -----," inserting in the blank his serial number hereunder, if any. The use of such endorsement by a producer shall constitute a representation, subject to the criminal penalties for misrepresentation contained in section 35A of the Criminal Code (18 U. S. C. 80), that the item ordered will be used for the purpose for which priorities assistance was granted to acquire it.

(j) *Restrictions on receipts and inventory.* Notwithstanding the provisions of any other order or regulation of the War Production Board, including CMP Regulation No. 2, receipts and inventories of producers shall be subject to the following restrictions only: No producer shall receive any delivery of material which will increase his inventory to an amount greater than the minimum necessary to sustain his current level of operations, and the ratio of such inventory to current production shall in no event exceed the ratio of average inventory to average production for the years 1938, 1939, and 1940.

(k) *Restrictions on use and resale of material.* No person shall use any material obtained pursuant to this order for any purpose other than that for which priorities assistance was granted to acquire it; and no person shall resell any such material except:

(1) To a producer holding a serial number hereunder, or

(2) With the approval of the Mining Equipment Division, or

(3) If he is located outside the United States and within a district, with the written approval of such district.

(l) *Records, audits, and reports.* Each producer and each distributor shall keep and preserve for a period of not less than two years accurate and complete records of all transactions affected by this order, and shall submit from time to time to audit and inspection by duly authorized representatives of the War Production

Board. Each producer and each distributor shall execute and file with the War Production Board or other designated agency such reports and questionnaires as the War Production Board may from time to time require.

(m) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(n) *Communications.* All reports and applications hereunder and all other communications with respect to this order shall, except as otherwise specifically provided, be addressed to War Production Board, Washington, D. C., Reference: P-56.

Issued this 5th day of May 1943.

obtain any safety equipment or parts thereof, in which there is incorporated or used, any of the following materials: aluminum, asbestos cloth, chromium, copper, copper base alloys, nickel, corrosion resisting steel, alloy steel, tin, synthetic plastics, magnesium, rubber or synthetic rubber, neoprene, or elastic fabric, as defined in Conservation Order M-174.

(c) *General exceptions.* Paragraph (b) shall not apply to safety equipment assembled or manufactured:

(1) Prior to May 5, 1942, or from parts which were finished and ready for assembly on said date, provided such safety equipment is delivered to fill purchase orders bearing preference ratings of A-10 or higher, or

(2) From materials to the extent permitted in Appendix A hereof, or

(3) For delivery to, or for the account of, the Army or Navy of the United States, the Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics or the government of any country entitled to deliveries under the Act of Congress of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), provided, and to the extent that the materials designated in paragraph (b) are necessary for efficient functioning and required endurance of safety equipment intended for use:

(i) In or on completed vehicles, aircraft, or ships, or

(ii) Outside of continental United States, or in Alaska, or

(iii) In the protection of military or naval personnel while not engaged in production, maintenance, or repair.

(4) Any order or contract from any agency or government mentioned in paragraph (c) (3) requiring the incorporation or use of scarce materials designated in paragraph (b) shall constitute a representation that the conditions exist under which such scarce materials may be incorporated or used within the terms of this order. Said representation may be relied on by the person with whom the purchase order or contract is placed, his sub-contractors, and suppliers.

(d) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time.

(e) *Records.* All persons to whom this order applies shall keep and preserve for not less than two years, accurate and complete records concerning inventories, production and sales.

(f) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(h) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order,

willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *Communications.* All reports required to be filed hereunder and all other communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Safety and Technical Equipment Division, Washington, D. C., Ref.: L-114.

(k) *Effect of other orders.* With respect to the use of the materials named herein for incorporation in the products named herein, or in component parts thereof, this order shall be subject to all other orders to conserve specific raw materials (M orders), and all orders providing for a preference rating in deliveries, or for allocation, as are now or may hereafter be in effect.

Issued this 5th day of May 1943.

WAR PRODUCTION BOARD,

PART 1280—ETHYL CELLULOSE

[General Preference Order M-175, As Amended May 5, 1943]

Section 1280.1 (General Preference Order No. M-175, as amended) is hereby amended to read:

§ 1280.1 General Preference Order No. M-175—(a) Definitions.

(1) "Ethyl cellulose" means any product made by the ethylation of cellulose and having an ethoxyl content greater than forty percent, by weight.

(2) "Producer" means any person engaged in the production of ethyl cellulose and includes any person who has ethyl cellulose produced for him pursuant to toll agreement.

(3) "Supplier" means any person who sells ethyl cellulose, including ethyl cellulose produced by him and ethyl cellulose purchased for resale.

(4) "Orders on hand" means all orders placed with a person applying for authorization to accept delivery of or to use ethyl cellulose, prior to the filing of the application.

(b) Directions with respect to production. War Production Board may from time to time issue directions to a producer or producers with respect to the types or grades of ethyl cellulose which may be manufactured.

(c) Restrictions on deliveries and use. (1) No person shall deliver, accept delivery of or use ethyl cellulose except as specifically authorized or directed in writing by War Production Board.

(2) Authorizations or directions with respect to delivery and use, will so far as practicable be issued by War Production Board prior to the commencement of each month, but War Production Board may at any time at its discretion and notwithstanding the provisions of paragraph (d) hereof, issue directions with respect to deliveries to be made or accepted or with respect to use or uses which may or may not be made of ethyl cellulose to be delivered or then in inventory.

(3) Each person specifically authorized to accept delivery of ethyl cellulose shall use such material for the purpose authorized, and only for such purpose, except as otherwise specifically directed.

(4) Ethyl cellulose allocated for inventory may not be used, except as specifically authorized or directed in writing by War Production Board. Ethyl cellulose allocated to fill anticipated orders for specified primary products and product end uses may not be converted into primary products in advance of receipt of actual orders for such primary products with such product end uses.

(5) Ethyl cellulose allocated to fill an order on hand which is subsequently cancelled prior to the conversion of such ethyl cellulose into a primary product—and ethyl cellulose allocated to fill anticipated orders which fail to materialize—shall revert to inventory as though originally allocated therefor.

(6) In the event that ethyl cellulose is converted into a primary product, pursuant to an authorized order which is subsequently cancelled, specific authorization in writing of the War Production Board must be obtained for the use or delivery of the primary product.

(d) Exception to requirement for specific authorization. Notwithstanding the provisions of paragraph (c) (1) hereof, specific authorization of War Production Board shall not be required for:

(1) Acceptance of delivery or use by any person in any calendar month for any purpose of not more than 10 lbs. (dry weight), in the aggregate: *Provided*, That such person has not been specifically authorized to accept delivery or to use any quantity of ethyl cellulose during such month.

(2) Acceptance of delivery or use by any one person in any one calendar month for experimental purposes only and not for resale as ethyl cellulose or for the manufacture of standard commercial products, of not more than 50 lbs. (dry weight), in the aggregate: *Provided*, That such person has not been specifically authorized to accept delivery of or to use any quantity of ethyl cellulose during such month.

(3) Delivery by any supplier to any person in any calendar month of not more than 50 lbs. of ethyl cellulose: *Provided*, That such delivery does not prevent the making of any delivery which such supplier has been specifically authorized or directed to make in such month.

(e) Certification of consumer use. (1) No manufacturer who uses ethyl cellulose in the manufacture of any product and who, to receive or use such ethyl cellulose is required by paragraph (c) (1) hereof to obtain specific written authorization of War Production Board, shall accept or fill an order for such product unless the person placing the order shall, at or prior to the time of placing the order, have filed a certificate specifying the ultimate use to which such product is to be put. Such certificate may be placed on the purchaser's purchase order and shall be in substantially the following form:

The undersigned hereby certifies pursuant to War Production Board Order M-175, that the material hereby ordered will be used solely in the manufacture of the following product or products:

Product A ----- lbs.

Product B ----- lbs.

[Omit "lbs." where use is in manufacture of one product only]

[For instructions see subparagraph (e) (2)]

Name of Customer

Date By -----
Authorized Official Title

The above certificate shall constitute a representation to (but shall not be filed with) War Production Board.

(2) The certification provided for in paragraph (e) (1) shall be sufficiently specific to enable the manufacturer with whom the order is placed accurately to indicate product use on the application for ethyl cellulose filed by him pursuant to paragraph (f) (1). "Wire coating", for example, is not a sufficient description of ultimate use. The certificate must show, rather, the type of wire and use to which the wire will be put; for example "airplane ignition cable". Also, it should indicate whether the ultimate user is the Army, Navy, other government agency, Lend-Lease or civilian customer, and should state Army, Navy or other government agency specification and contract numbers. If the material ordered is to be used for more than one

product, indicate the quantity applicable to each product.

(f) Applications and reports. (1) Each person requiring authorization to accept delivery of ethyl cellulose during any calendar month, whether for own consumption or resale, and each person requiring authorization to use ethyl cellulose in any calendar month, shall file application therefor on or before the 20th day of the month preceding the month for which authorization for delivery or use is requested. Where the application relates to delivery or use in May, 1943, the application shall be filed as many days as possible in advance of the requested delivery or use. In any case, the application shall be made on Form PD-600, in the manner prescribed therein, subject, however, to the following specific instructions:

(i) Copies of Form PD-600 may be obtained at the local field offices of War Production Board.

(ii) An original and four copies shall be prepared, of which the original and three copies shall be forwarded to the War Production Board, Chemicals Division, Washington, D. C., Ref: M-175, the fourth copy to be retained for applicant's files. On the original and the first two copies furnished War Production Board, insert name of usual supplier under heading "Supplier with whom this order is placed" and give his mailing address and shipping point, except that where application is solely for authority to use ethyl cellulose, applicant will write "From inventory" in that space. On the third copy filed with War Production Board (where application is for authority to accept delivery) applicant will leave blank the questions with respect to supplier.

(iv) In the heading at top of Table I and III, insert month and year for which authorization to accept delivery or use is sought.

(v) In columns 1, 11 and 19, indicate grade and viscosity number.

(vi) Fill in column 3 (Primary product) as follows, listing only those items for which authorization is requested:

Lacquer	Decalcomania
Dope	Other (specify)
Plastic	Resale (as ethyl cellulose)
Cement	

(c) Inventory (as ethyl cellulose).

(d) "Orders on hand" must be shown separately from "anticipated orders".

(vii) In column 4 (Product end use), specify end use of product (for example, where the "primary product" called for by column 3 is "lacquer" the "Product end use" might be "airplane wing coating"). Also specify in each case whether the person to whom product is sold is Army, Navy, other government agency, Lend-Lease or commercial customer, and state Army, Navy or other government agency specification and contract numbers. Where the Form PD-600 is an application for ethyl cellulose for resale to others or for inventory, leave column 4 blank.

(viii) In column 2, state separately the quantities required for each primary product and each product end use, and in column 10 list name of customer from whom order for primary product has been received. Where more than one customer is buying for the same primary product and product end use, the quantity must be listed separately in column 2 for each customer, and each customer's name listed in column 10.

Where authorization is to accept delivery, a second copy similarly signed will be sent to the supplier selected by War Production Board, and will constitute an authorization to such supplier to make delivery of ethyl cellulose to the person entitled by such Form PD-600 to accept delivery. Where authorization is to accept delivery, War Production Board may, in the alternative, prepare and transmit to a supplier, Form PD-601 signed by War Production Board authorizing such supplier to make delivery to the one or more persons listed thereon.

(x) On the third copy filed with War Production Board, applicant will leave blank Tables II, III and IV.

(v) Leave blank columns 8, 15 and 16.

(4) War Production Board may issue special direction to any such person with respect to the preparing and filing of Forms PD-600 and PD-601.

(g) *Notification of customers.* Each supplier shall notify his regular customers as soon as possible of the requirements of this order but failure to receive such notice shall not excuse any person from complying with the terms hereof.

The United States or any agency thereof shall not purchase assorted eggs. The terms "commercial user" and "industrial user", as used in this regulation, shall not include the manufacturer of any egg product defined in § 1429.65 purchasing shell eggs which he manufactures into such egg products.

3. Section 1429.65 (u) is amended to read as follows:

(u) Retail grades of shell eggs means all grades other than "procurement grades" and "wholesale grades" for which maximum prices are established herein, including U. S. Department of Agriculture consumer grades as defined in paragraph (s) (3) of this section and "assorted eggs", "checks", and "dirties" as defined in paragraph (s) (3) of this section.

4. Section 1429.69 (g) is added to read as follows:

Such maximum prices in Chicago, Illinois shall be the maximum prices per dozen for eggs of

the particular wholesale grade, size, average net weight, and other identification and for the week of delivery set forth in Table 2 of this section.

5. Section 1429.69 (h) is added to read as follows:

(h) *Maximum prices for "wholesale grades" in "Area 1" except New York City from May 4, 1943 to June 26, 1943, inclusive.* In all places in "Area 1", except New York City, the maximum prices of shell eggs of "wholesale grades" sold and delivered to the United States or any agency thereof from May 4, 1943 to June 26, 1943, inclusive, for the week in which delivered shall be the maximum prices per dozen for eggs of the particular grade, size, average net weight, and other identification set forth in Table 2 of this section, plus the "transportation factor."

(1) "Transportation factor", when applied to shell eggs of "wholesale grades" sold to the United States or any agency thereof, means the actual carlot freight rate per pound to or from a basing point city or as herein provided, from Chicago, Illinois to the place where the eggs are delivered, multiplied by the appropriate "multiplier" for the particular wholesale grade of eggs sold and for the period in which such eggs are delivered. If there is no actual carlot freight rate between such places, then the lowest transportation charge by other means shall be used.

(2) The "multiplier" to be used in calculating the "transportation factor" for each wholesale grade of shell eggs shall be 1.9 for all weeks from May 4, 1943 to June 26, 1943, inclusive.

6. Section 1429.69 (i) is added to read as follows:

*Copies may be obtained from the Office of Price Administration.

¹ 8 F.R. 2488, 3002, 3070, 3735, 5342.

(1) From the maximum prices in the basing point city reflecting the highest price of shell eggs of the wholesale grade, size, and average net weight sold for the week in which they are to be delivered, the "transportation factor" for such wholesale grade of eggs from the point of delivery to the basing point city shall be subtracted. The resulting figure is the maximum price of such eggs delivered at their destination.

7. Section 1429.69 (j) is added to read as follows:

(j) *Maximum prices of wholesale grades of shell eggs sold to the United States or any agency thereof f. o. b. seller's shipping point from May 4, 1943 to June 26, 1943, inclusive.* The maximum prices for wholesale grades of shell eggs sold to the United States or any agency thereof from May 4, 1943 to June 26, 1943, inclusive, f. o. b. the seller's shipping point in "Area 1" or in "Area 2" shall be the maximum prices for any place in which the seller's shipping point is located as determined above, paragraphs (g) through (i) of this section.

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such commodity or service; and

(3) That such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

PART 1405—FERRO-ALLOYS

[MPR 379]

TOOL STEEL SCRAP

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for sales of tool steel scrap by a specific maximum price regulation. The Price Administrator has ascertained and given due consideration to the prices of tool steel scrap prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industries which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

§ 1405.151 *Maximum prices for tool steel scrap.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 379 (Tool Steel Scrap), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1405.151 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

*Copies may be obtained from the Office of Price Administration.

MAXIMUM PRICE REGULATION 379—TOOL STEEL SCRAP.

SEC.

- 5 Sales to buyers other than consumers.

- 8 Adjustable pricing.

SECTION 1 *What this regulation covers—(a) Type of sales covered.* This regulation covers sales of tool steel scrap to a consumer. It specifically exempts all sales of tool steel scrap to a buyer other than a consumer. A "consumer" means a person who remelts tool steel scrap and uses it for such purposes as the production of tool steels, special alloy steels, or alloying materials.

(b) Definition of tool steel scrap. "Tool steel scrap" means any alloy steel material with a tungsten content of 1% or more or a molybdenum content of 1½% or more, which is the waste of industrial operations, or which has been discarded on account of obsolescence, failure or other reasons, or which is not usable in its present state or location except by reason of its recoverable alloy content for remelting purposes. It may but need not include cobalt or other alloying materials. The five types of tool steel scrap, set out below, are set up on the basis of contained tungsten and molybdenum.

(c) Types of tool steel scrap. In section 2 of this regulation specific maximum prices are established for the five types of tool steel scrap which follow:

Type 1: Tungsten content of 12% or more with a maximum molybdenum content of 1%.

Type 2: Tungsten content of 5% or more up to but not including 12% with a maximum molybdenum content of 1%.

Type 3: Tungsten content of less than 5% but not less than 1% with a maximum molybdenum content of 1½%.

Type 4: Molybdenum content of 7% or more with a maximum tungsten content of 2%.

Type 5: Molybdenum content of not less than 3½% or more than 6% with tungsten content of not less than 4½% or more than 6½%.

In section 3 a method is provided for establishing a maximum price for any tool steel scrap which does not conform to any one of these five types but which, by reason of its uniformity of analysis, can be said to constitute a separate and distinct type.

(d) What is segregated tool steel scrap. Higher prices are provided in section 2 for segregated than for unsegregated scrap. To qualify as segregated under section 2, tool steel scrap must be separated into one of the five types listed above and, in the case of solids, at least 90% of the material, by weight, must be of the type specified. To be considered as segregated, tool steel scrap must be separated as to form as between solids on the one hand and millings and

turnings on the other. Even though otherwise segregated, no tool steel scrap with a cobalt content of more than 0.50% and up to but not including 3% shall be considered as segregated.

All tool steel scrap which is not segregated into the five types listed above shall be considered as unsegregated unless it is separated into another type and a maximum price determined for it under section 3 below.

Sec. 2 *Maximum prices for tool steel scrap.* The maximum prices for tool steel scrap sold to a consumer shall be determined by using the following base prices, premiums, penalties, and quantity differentials:

(a) Base prices for segregated tool steel scrap in the form of solids.

\$1.80 per pound of contained tungsten for Type 1. (12% min. W and 1% max. Mo.)

\$1.60 per pound of contained tungsten for Type 2. (5% to 12% W and 1% max. Mo.)

\$1.25 per pound of contained tungsten for Type 3. (1% to 5% W and 1½% max. Mo.)

\$0.125 per pound of scrap material for Type 4. (7% min. Mo. and 2% max. W.)

\$0.135 per pound of scrap material for Type 5. (3½% to 6% Mo. and 4½% to 6½% W.)

(b) Base prices for segregated tool steel scrap in the form of millings and turnings.

\$1.60 per pound of contained tungsten for Type 1. (12% min. W and 1% max. Mo.)

\$1.40 per pound of contained tungsten for Type 2. (5% to 12% W and 1% max. Mo.)

\$1.25 per pound of contained tungsten for Type 3. (1% to 5% W and 1½% max. Mo.)

\$0.105 per pound of scrap material for Type 4. (7% min. Mo. and 2% max. W.)

\$0.115 per pound of scrap material for Type 5. (3½% to 6% Mo. and 4½% to 6% W.)

(c) Base prices for unsegregated tool steel scrap in the form of solids.

\$1.50 per pound of contained tungsten if the tungsten content is 5% or more.

\$1.15 per pound of contained tungsten if the tungsten content is 1% or more but less than 5%.

\$0.80 per pound of contained molybdenum if the molybdenum content is 1½% or more.

Where both tungsten and molybdenum are contained, within the ranges specified, payment may be made for both the tungsten and molybdenum content.

(d) Base prices for unsegregated tool steel scrap in the form of millings and turnings.

\$1.30 per pound of contained tungsten if the tungsten content is 5% or more.

\$1.00 per pound of contained tungsten if the tungsten content is 1% or more but less than 5%.

\$0.70 per pound of contained molybdenum if the molybdenum content is 1½% or more.

Where both tungsten and molybdenum are contained, within the ranges specified, payment may be made for both the tungsten and molybdenum content.

(e) Premium for cobalt content of 3% or more. On sales of segregated tool steel scrap a premium of \$1.50 for each pound of contained cobalt may be added if the cobalt content is 3% or more.

(f) Penalty for cobalt content of more than .50% and up to 3%. If tool steel scrap has a cobalt content of more than 0.50% and up to but not including 3%, no charge may be made for contained

cobalt and such material, although otherwise segregated as to type, shall be considered, for the purpose of determining the maximum price, to be unsegregated tool steel scrap. The maximum price of such tool steel scrap shall be determined under paragraphs (c) and (d) above.

(g) *Penalty for copper or nickel.* If any tool steel scrap has a copper content of more than 0.25% or a nickel content of more than 0.25%, the maximum price of such tool steel scrap, as determined above, shall be reduced by 50%.

(h) *No payment for contained elements other than tungsten, molybdenum and cobalt.* No addition shall be made to the maximum price of any tool steel scrap by reason of any element other than tungsten, molybdenum or cobalt which is contained therein. This means, for example, that no charge may be made for contained chromium, manganese or vanadium. Neither may an additional charge be made for iron.

(i) *Quantity differential.* If a seller of tool steel scrap delivers segregated scrap to a consumer in a quantity of less than 500 pounds of one type and form or if he delivers unsegregated scrap in a quantity of less than 500 pounds, his maximum price, as determined above, shall be reduced by 2¢ per pound of scrap material. This quantity differential shall be on the basis of pounds of scrap material even though the maximum price for the material delivered is determined on the basis of pounds of contained alloy.

(j) *Weight.* The maximum prices set by this regulation are for tool steel scrap on a clean, dry basis. By "clean, dry basis" is meant the absence of grease, oil, moisture and all foreign inclusions. Thus the maximum price for any lot of tool steel scrap shall be figured on the basis of the weight as determined after the elimination of, or allowance for, grease, oil, moisture and all foreign inclusions. In the case of segregated scrap "foreign inclusion" means any material other than tool steel scrap of the type specified for the particular lot. In the case of unsegregated scrap it means any material other than iron or steel.

(k) *Basing point and transportation charges.* The maximum prices set out above for tool steel scrap are f. o. b. shipping point with transportation charges for the account of the buyer. If the seller transports tool steel scrap or arranges transportation, the transportation charges paid to him by the buyer shall not exceed the seller's actual costs and, in no case, shall the buyer make any payment to the seller for transportation which would cause the total cost of transportation to exceed the applicable published rate for transporting the material by the type of facilities specified by the buyer.

(l) *Credit.* No charge shall be made for extension of credit where payment is made within thirty (30) days of date of invoice.

SEC. 3 Maximum price of tool steel scrap of unusual form or type. The maximum price for any tool steel scrap which, by reason of its form or type, cannot be priced under section 2, above,

shall be a price to be approved by the Administrator. This price and a description of the material shall be reported within fifteen (15) days after delivery and, pending approval, the price reported may be paid and received subject to adjustment between the parties if it is disapproved. A price once reported and approved need not thereafter be reported by the same seller.

Reports called for by this section shall be made by letter addressed to the Non-Ferrous Metals Branch, Office of Price Administration, Washington, D. C., and the price reported may be approved or disapproved by a letter signed by the Price Executive of the Non-Ferrous Metals Branch.

Where a price is disapproved by letter, the Administrator will issue a formal order to the same effect if, within thirty days, he is requested in writing to do so. It is necessary that such a formal order be entered if the party reporting the price, which is disapproved, wishes to file a formal protest under Revised Procedural Regulation No. 1 issued by the Office of Price Administration, which forms the basis for an appeal to the United States Emergency Court of Appeals.

In order to qualify as a type under this section, tool steel scrap must be separated on the basis of a uniform analysis. This analysis will, of necessity, be different from the analyses specified for the five types of tool steel scrap listed in section 1; but the range of analysis for such unusual or new type must be comparable to the range of analysis specified for these five types. This section shall not apply to any scrap which does not contain 1% or more tungsten or 1½% or more molybdenum.

SEC. 4 Dealer's differentials and commissions—(a) Differentials. When a dealer segregates tool steel scrap in the form of solids, he may, on sales of such scrap make the following additions to the maximum prices set out in section 2 (a):

- Type 1: 2¢ per pound of scrap material.
- Type 2: 1½¢ per pound of scrap material.
- Type 3: 1¢ per pound of scrap material.
- Type 4: 1½¢ per pound of scrap material.
- Type 5: 1½¢ per pound of scrap material.

However, no seller other than a dealer may add the differentials provided by this paragraph; and these differentials may be added by a dealer only when he has physically segregated the particular lot of scrap sold. "Dealer" means a person, other than a producer or consumer, whose business includes the acquisition of any material for the purpose of sale as waste, scrap or salvage material.

Example: A dealer segregates some scrap in the form of solids and sells a lot of such scrap as segregated Type 1. If 90% or more by weight of the material sold has a tungsten content of 12% or more and a maximum molybdenum content of 1%, the dealer may charge \$1.80 per pound of contained tungsten plus 2¢ per pound of scrap. If only 85% by weight of the scrap conforms to the analysis for Type 1, the dealer may not collect the premium of 2¢ per pound of scrap and he may charge only the applicable price for unsegregated scrap.

(b) *Commissions.* If a consumer of tool steel scrap engages any person to buy

tool steel scrap for his account and to collect, clean, segregate, test or analyze such scrap, he may pay a commission for such service. However, this commission, when paid on segregated millings and turnings or on solids which are delivered to the consumer's plant in an unsegregated condition, shall be limited to an amount which, when added to the price paid by the consumer to the seller, will not exceed the maximum price for the particular scrap as determined by section 2. This commission, when paid on solids which are delivered to the consumer's plant in a segregated condition, shall be limited to an amount which, when added to the price paid by the consumer to the seller, will not exceed the maximum price for the particular scrap as determined by section 2 plus the amount of the dealer's differential on such scrap permitted by section 4.

SEC. 5 Sales to buyers other than consumers. Neither this regulation nor the General Maximum Price Regulation¹ shall apply to any sale of tool steel scrap to a buyer other than a consumer.

SEC. 6 Records and reports. (a) On and after May 10, 1943, every person making a sale of tool steel scrap to a consumer and every consumer of tool steel scrap making a purchase of tool steel scrap shall keep for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such purchase or sale showing (1) the date thereof, (2) the name and address of the buyer and the seller, (3) the quantity purchased or sold, (4) the form of each lot, (5) the condition of every lot as to whether segregated or unsegregated, (6) the type of every lot of segregated scrap, (7) the date of delivery of each shipment, (8) the method of delivery and delivery charges paid or received, and (9) the price paid or received.

(b) Persons affected by this regulation shall submit such reports to the Office of Price Administration as it may from time to time require.

SEC. 7 Applicability—(a) Geographical. The maximum prices established by this regulation shall apply to the forty-eight States and the District of Columbia.

(b) *Export sales.* The maximum price at which any person may export tool steel scrap shall be determined in accordance with the provisions of the Second Revised Maximum Export Regulation² issued by the Office of Price Administration.

(c) *Relation to General Maximum Price Regulation.* This regulation supersedes the General Maximum Price Regulation as to sales and deliveries which are covered by, or expressly excluded from, this regulation.

SEC. 8 Adjustable pricing. It is permissible under this regulation to provide in a contract that the price shall be adjustable to a price not higher than the

maximum price in effect at the time of delivery.

Sec. 9 Petitions for amendment. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,³ issued by the Office of Price Administration.

Sec. 10 Prohibitions against paying or receiving higher than maximum prices. (a) On and after May 10, 1943, regardless of any contract, agreement, or other obligation, no person shall sell or deliver tool steel scrap, and no person in the course of trade or business shall buy or receive tool steel scrap at prices higher than the maximum prices set out in this regulation; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

(b) No fees or other charges except those specifically provided for in this regulation shall be paid by a consumer of tool steel scrap in addition to the maximum prices set out in this regulation.

(c) Any practice or device which is an attempt to get the effect of a price higher than the maximum without actually charging a higher price is prohibited and is as much a violation of this regulation as an outright excessive price. This applies to devices involving commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(d) Prices lower than the maximum prices permitted by this regulation may be paid or received.

Sec. 11 Enforcement. (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) The provisions of Supplementary Order No. 5—Licensing⁴, are applicable to every dealer subject to this regulation. As used in this paragraph (b) "dealer" shall have the meaning given to it by Supplementary Order No. 5. "Dealer" is there defined as a person "whose business includes the acquisition of any material for the purpose of sale as waste, scrap or salvage material."

Sec. 12 Definitions. (a) When used in this regulation the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Tool steel scrap" means any tungsten or molybdenum bearing waste or obsolete material as defined and limited in section 1.

(3) "Segregated tool steel scrap" means tool steel scrap separated as to type and form as specified in section 1.

(4) "Type" means one of the five base analyses specified in section 1 or a

comparable analysis, as is more specifically explained in sections 1 and 3.

(5) "Form" means the physical condition of the scrap and is illustrated by the difference between solids on the one hand and millings and turnings on the other.

(6) "Consumer" means a person who, as more specifically explained in section 1, remelts scrap and uses it for the production of some new material.

(7) "Producer" means a person who, as an incident to his manufacturing or industrial process, produces or generates tool steel scrap.

(8) "Dealer" is defined in section 4 for the purpose of determining when the dealer's differential therein provided may be added. As used in section 11 (b), "dealer" has the meaning set out there.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms in this regulation.

Effective Date

This regulation shall become effective May 10, 1943.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[RO 13,¹ Amendment 22]

PROCESSED FOODS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 13 is amended in the following respects:

1. Section 2.4 (e) is amended to read as follows:

(e) *How mail order purchases are made.* A consumer who orders processed foods for delivery by mail may detach stamps from his War Ration Book Two and send them with his order. The stamps are good if the envelope in which they are enclosed is postmarked on or before the last day on which they may be used by a consumer, even if the seller does not receive them until after that date. If the seller cannot fill all or any part of the order, he will return a ration check for the difference. The consumer may endorse that check and use it to get processed foods.

2. The fourth sentence of section 5.8 (e) is amended to read as follows:

If he does not have a ration bank account, he may give up the points in any form. If he has a ration bank account, he must give up the points in the form of a certified check drawn on that account, made payable to the Office of Price Administration.

3. The third sentence of section 8.2 (c) is amended to read as follows:

Also, any retailer who receives points (stamps, certificates, or endorsed ration checks) from, and makes transfers to, consumers by mail must have a ration bank account.

4. Section 9.4 (b) is amended to read as follows:

(b) *How points are given up.* Points may be given up by, and taken from, a consumer only in the form of blue stamps from his War Ration Book Two, a certificate issued for him, or a ration check issued to him and endorsed by him.

5. Section 9.4 (g) (1) is amended to read as follows:

(g) *Mail order sales.* (1) Processed foods may be transferred to consumers by mail if a certificate, detached stamps, or a ration check payable to, and endorsed by the consumer, are received with the order. Stamps or certificates which are received after the last day on

which they are good in the hands of the person who sends them may be accepted if the envelope in which they are enclosed is postmarked on or before that date.

6. Section 9.4 (g) (4) is amended to read as follows:

(4) No retailer may receive points from and make transfers to consumers by mail unless he has a ration bank account.

7. Section 9.4 (h) is added to read as follows:

(h) *Ration checks.* A ration check may be accepted from a consumer only if it is payable to him and has been endorsed by him (or by someone authorized to act for him, if he cannot write).

8. The first sentence of section 9.5 (d) is amended to read as follows:

Form in which transferor must get points. The transferor may take points from the transferee only in the form of stamps, certificates, or a ration check drawn on the transferee's ration bank account or endorsed by him.

9. Section 9.5 (d) (3) is amended to read as follows:

(3) *Ration checks.* A ration check may be accepted by a transferor only if it is made payable to him and if it is drawn by his transferee, or if it is endorsed by his transferee and by the person to whom the check was issued, if the check was not issued to the transferee. (The rules for handling ration checks are set forth in General Ration Order 3A.)

10. Section 9.5 (e) (2) is amended to read as follows:

(2) *Retailer.* A retailer who is required to have a ration bank account must give up points only in the form of a ration check drawn on that account. Other retailers may give up points only in the form of stamps, certificates, or ration checks endorsed by them.

11. Section 9.5 (e) (3) is amended to read as follows:

(3) *Industrial and institutional users.* An industrial or institutional user who has a ration bank account must give up points only in the form of a ration check drawn on that account. Any other industrial or institutional user may give up points only in the form of certificates or ration checks endorsed by him.

12. Section 11.1 (b) is amended to read as follows:

(b) *Purchaser of retail or wholesale establishments may get its points.* The purchaser or transferee of a retail or wholesale establishment may get and use all of the establishment's points in the same way that the seller or transferor was entitled to use them. (If it is a wholesale establishment, however, he may not use those points to exceed its maximum allowable inventory, except as permitted by section 4.7 (a).) If the establishment has a ration bank account, the transferor is to give all the establishment's points to the transferee by issuing a ration check. If the establishment does not have a ration bank account, the transferor is to give to the transferee the stamps and certificates he has and to endorse and give to the trans-

feree any ration checks he has. (If the transferee is required to have a ration bank account he must deposit all the points in that account. If the transferee is not required to have a ration bank account, he may endorse the checks and use them to get processed foods.)

13. Section 15.4 is revoked.

This amendment shall become effective May 10, 1943.

PULPWOOD PRODUCED IN THE STATES OF SOUTH CAROLINA, GEORGIA AND FLORIDA

In the judgment of the Price Administrator the prices of pulpwood have risen and are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Price Administrator has ascertained and given due consideration to the price of pulpwood prevailing in the States of South Carolina, Georgia, and Florida, between October 1, 1942 and October 15, 1942, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. The Price Administrator has advised and consulted with representative members of the industry. In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been prepared and is issued simultaneously herewith.*

F. o. b. freight cars or barges

Pine	\$6.80
Southern hardwood (rough)	7.30
Southern hardwood (peeled)	10.00

Delivered mill by truck or similar vehicle. When pulpwood is delivered to a consumer by truck or similar vehicle, the maximum price shall be the f. o. b. car price stated above plus or minus the same dollars and cents differential, if any, which the particular mill paid over or under its highest f. o. b. car price in the months of January and February, 1943, for the same type of delivery.

(2) (i) The maximum price for pulpwood sold at points other than those listed above shall be arrived at by deducting from the maximum price estab-

(ii) If wood is banked at a rail siding or barge landing at the buyer's request, and is later loaded at seller's expense on the railway car or barge, an amount not in excess of 80¢ per cord may be added to the maximum price in the case of wood shipped by rail, \$1.00 in the case of wood shipped by barge.

(c) When one consumer sells pulpwood to another, the maximum price shall not exceed the actual cost which the wood stands the seller, plus such actual costs of moving the wood to the buyer as the seller incurs.

(d) **Dealers.** (1) In the event that a consumer of pulpwood shall purchase pulpwood through a dealer as defined in Section 8 (a) (10) hereof, such consumer may pay such dealer not more than the maximum price herein plus a dealer's allowance not in excess of 50¢ per cord.

In no event shall the dealer's allowance be split or divided with any other person. In addition to the price paid by the consumer a dealer may receive a dealer's allowance only from a consumer and only if the dealer fulfills all of the following requirements with respect to the transactions:

(iv) The dealer guarantees the merchantable quality of the pulpwood and that the pulpwood is free from all liens and incumbrances;

(v) The dealer's allowance in such transaction is shown as a separate item on the settlement sheet. [MPR 388]

PULPWOOD CUT FROM THE STUMP IN CERTAIN SOUTHEASTERN STATES

In the judgment of the Price Administrator the prices of pulpwood have risen and are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Price Administrator has ascertained and given due consideration to the price of pulpwood prevailing in the certain Southeastern States, between October 1, 1942 and October 15, 1942, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. The Price Administrator has consulted and advised with representative members of the industry. In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said act. A statement of the considerations involved in the issuance of this regulation has been prepared and is issued simultaneously herewith.*

§ 1347.1006 *Maximum prices for pulpwood cut from the stump in certain Southeastern States.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 388 (Pulpwood Cut From the Stump in Certain Southeastern States) which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1347.1006 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

SECTION. 1 *Definitions.* (a) When used herein the term:

*Copies may be obtained from the Office of Price Administration.

(1) "Person" means an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representatives of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Mill" means a paper mill, board mill, pulp mill or similar consumer of pulpwood.

(3) "Pulpwood" means any wood sold for manufacture into woodpulp.¹

(4) "Cord" means the unit by cubic feet or feet board measure, in which any particular seller made deliveries of, or had in contracts for the delivery of pulpwood, in the period February 27, 1943 to March 4, 1943.

(5) "Sale" or "sell" includes any sale, delivery or transfer of pulpwood, and any contract or agreement to do any of the foregoing.

(6) "The Southeastern States" include the States of Kentucky, Virginia, North Carolina, Tennessee, Alabama, Louisiana, Texas, Arkansas and Mississippi.

(7) "Roadside" means the side of a public highway maintained by Federal, state, or county authority.

(8) "Prior to the period February 27, 1943, to March 4, 1943," means the six months prior to February 27, 1943.

SEC. 2 *Prohibitions.* (a) On and after May 5, 1943, regardless of any contract or arrangement of any kind to the contrary notwithstanding, no person shall sell or deliver pulpwood cut from the stump in the Southeastern States, and no person shall buy or receive such pulpwood in the course of trade or business at prices in excess of those set forth in section 3 below.

(b) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 3 *Maximum prices for pulpwood cut from the stump in the Southeastern States.* (a) A seller's maximum price per cord for pulpwood cut from the stump in the Southeastern States shall be the highest price which he charged per cord for deliveries in or prior to the period February 27, 1943 to March 4, 1943, or the highest price which he had charged in a firm contract existing during that period, even though the contract called for later delivery. Maximum prices are established on the basis of the types of delivery points listed below in this paragraph. (A delivery point means a point at which the price is set.) The maximum price at any one of the delivery points becomes the seller's maximum price for all deliveries at a similar point to all buyers, whether or not delivery in that particular way was previously made to that buyer. The types of delivery points are as follows:

¹"Woodpulp" includes any pulped fibre material which has been produced either mechanically or chemically from any fibrous cellulose raw material and from which, by a suitable process of manufacture, paper, paperboard, rayon, nitrocellulose, plastics, and any related products can be made, and also siderun paper or paperboard in rolls when sold for manufacture into any of the aforesaid paper products, or any related products.

At a roadside

(b) If a seller made no such deliveries of or had no such contracts for deliveries for the same kind of pulpwood at one or more of said points in or prior to said period, then his maximum price at such point or points shall be the highest price at which he made a delivery or had a contract at another of the points mentioned above, less the actual transportation and loading costs incurred by him in moving the wood from the roadside to the delivery point involved in such highest priced delivery, and plus the actual transportation and loading costs he will incur in the delivery which he wishes to make. The seller's maximum price thus established shall thereafter be his maximum price for all deliveries to the same type of pricing point.

(c) If a seller cannot determine his maximum prices under paragraphs (a) or (b) of this section, he shall communicate this fact to the nearest regional office of the Office of Price Administration, together with a statement of the reasons why he cannot ascertain his said maximum price. Such regional office of the Office of Price Administration shall thereupon assist the seller to ascertain his maximum price under paragraphs (a) or (b) or, if this cannot be done, will proceed to establish a maximum price for such seller, which price shall be a price in line with prices generally prevailing in the period February 27, 1943 to March 4, 1943, and in line with the prices paid by the seller's prospective buyers in said period, or in the nearest five-day period thereto in which said buyers received deliveries of wood.

SEC. 4 *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 5 *Evasion.* The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods, in connection with any offer, solicitation, agreement, delivery, purchase or receipt of or relating to pulpwood, alone or in connection with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying agreement, or other trade understanding, or otherwise.

SEC. 6 *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses as provided by the Emergency Price Control Act of 1942, as amended.

SEC. 7 *Amendments.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.²

SEC. 8 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the

In appropriate situations where a petition for amendment requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

NOTE: This regulation has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Maximum Price Regulation No. 388 shall become effective May 5, 1943.

Issued this 4th day of May 1943.

[Rev. Order 105 Under MPR 188]

OWENS-ILLINOIS GLASS COMPANY

APPROVAL OF MAXIMUM PRICES

Revised Order No. 105 under § 1499.158 of Maximum Price Regulation No. 188—Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel.

Order No. 105 is revised and amended to read as follows:

For the reasons set forth in an Opinion issued simultaneously herewith and pursuant to § 1499.158 of Maximum Price Regulation 188, *It is hereby ordered:*

(a) The maximum prices which may be charged by the Owens-Illinois Glass Company of Toledo, Ohio for new products, as defined in paragraph (c) below, shall be determined in accordance with the provisions of this order. The Owens-Illinois Glass Company shall submit detailed standard manufacturing cost data both for any new glass container being priced, and for a glass container comparable to it (on the basis of capacity, glass weight, finish, size, maximum height, color and shipping weight) which already is being or has been manufactured by the company, in accordance with the company's regular accounting practices as filed with the Office of Price Administration. These data will not include any of the following: General and administrative and selling expenses, packaging cost, freight expense and cost of fittings.

The company shall then determine both the average percentage and the average dollar difference between the manufacturing cost as so computed and the selling price in any carton for which a maximum price has been established, for the container which has been selected as comparable. It shall then apply to the manufacturing cost of the new container, as computed under this order, either the average percentage or average dollar difference computed for the comparable container, whichever will yield the lower price. The resulting price shall be the maximum price for the new glass container in the same base carton as was used in the computation for the comparable container.

Fifteen days after the submission of this report, unless the company is notified to the contrary by the Office of Price Administration, it may be assumed that approval of the price applied for has been granted and the company may proceed to sell or offer for sale the container in question.

(b) The maximum prices which may be charged by the Owens-Illinois Glass Company for special cartons, as defined in paragraph (c) below, shall be determined by adding to the established price for the glass container in a carton the maximum price of which is already established, an amount no greater than the differential between the cost of that latter carton and the cost of the special carton being priced, both costs being taken as of the same date, which date must be within sixty days of the date of the computation. When the carton is manufactured by the Owens-Illinois Glass Company, the "cost" of that carton for the purposes of this order may be taken as the selling price for such carton determined under applicable regulations of the Office of Price Administration.

(c) When used in this revised order, the term:

(1) "New product" means any glass container manufactured by the Owens-Illinois Glass Company which is subject to Maximum Price Regulation 188 and which meets all of the following conditions:

(i) Which was not delivered or offered for delivery during March 1942 by the Owens-Illinois Glass Company; and

(ii) The price of which cannot be determined upon the basis of prices which the Owens-Illinois Glass Company had in effect for glass containers during March 1942; and

(iii) Which may not be priced under § 1499.155 of Maximum Price Regulation 188.

(2) "Special carton" means any carton for which no maximum price has already been established by inclusion in the price lists of the Owens-Illinois Glass Company or by some provision in a Regulation or Order of the Office of Price Administration. The term "special carton" under this Revised Order shall include any special packaging, including wooden boxes as well as any other types of shipping cases or packages for glass containers.

(d) Any selling price determined under this order shall be subject to adjustment at any time by the Office of Price Administration.

(e) This Revised Order No. 105 may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective May 5, 1943.

The plan as heretofore approved by this Commission and by the District Court included estimates of reorganization expenses in the total amount of \$30,000. The order of the District Court dated October 14, 1942, authorized and directed Jacksonville Gas Company, among other things (subject to further orders and control of the court and to such limitations, restrictions, terms and conditions as the court might from time to time impose and prescribe) to incur and pay, or cause Jacksonville Gas Corporation to incur and pay, taxes, charges, expenses, compensation and fees in connection with the consummation of the plan in amounts not exceeding the sums estimated as part of the plan, subject to obtaining approval of this Commission for all payments requiring such approval under the applicable rules and orders of this Commission.

In and by said Amendment No. 11, Jacksonville Gas Company requests that the Commission approve payment by Jacksonville Gas Company or Jacksonville Gas Corporation of reorganization expenses in amounts not exceeding the items contained in a revised estimate, aggregating \$51,297.30. Included in said revised estimate is a proposed fee of \$500 for Lawrence E. Fleischman, representative of certain stockholders and debenture holders, in addition to reimbursement of his expenses in the amount of \$1,001.12. Included in said Amendment No. 11 is a petition of said Lawrence E. Fleischman for allowance of a fee of \$3,500, in addition to reimbursement of his expenses.

The following tabulation shows the estimated expenses incident to consummation of the plan, according to the estimates included in the plan as heretofore approved, and according to the revised estimates contained in said Amendment No. 11:

It appearing to the Commission that it is appropriate in the public interest, and in the interests of investors and consumers, that a hearing be held with respect to the reasonableness of such increased fees and expenses, and that no such fees or expenses be paid, in excess of the amounts estimated as part of the Plan heretofore approved, except pursuant to further order of the Commission, *It is*

Ordered, That a hearing on such matters under the applicable provisions of the Act and the rules of the Commission thereunder be held on May 17, 1943 at 10 a. m., e. w. t. at the offices of this Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On that date the hearing room clerk in Room 318 will advise as to the room where such hearing will be held.

Further orders, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings on said matters. The officer so designated to preside at such hearings is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

Further orders, That without limiting the scope of the issues otherwise to be considered in this proceeding, particular attention will be directed at the hearings to the following matters and questions:

1. Whether the Commission should approve the amounts tabulated above under the heading "Revised Estimates", or any amounts in excess of the estimates included in the plan as heretofore approved, as the maximum amounts that may be paid for services rendered or to be rendered in connection with the reorganization of Jacksonville Gas Company.

2. Whether the Commission should require payment to Lawrence E. Fleischman of the amounts requested in his petition for allowance of compensation and for reimbursement of expense, or of the amounts proposed to be paid to him according to the revised estimates contained in said Amendment No. 11, or of any amounts.

Further ordered, That no fees or expenses incurred or to be incurred in connection with the reorganization of Jacksonville Gas Company, in excess of the amounts estimated as part of the Plan heretofore approved, shall be paid, except pursuant to further order of this Commission, and that jurisdiction be and is hereby reserved as to all such additional fees and expenses.
