On 7 April 1945 Lt. J. D. MITCHELL of VC-88, flying a TBM-3, acted as air coordinator of a strike composed of 4 VF and 4 VT from VC-93 at Okinawa. The only target area was area 7977 Y in which caves and gun positions were known to exist. The entire area was well bombed, rocketed and strafed by this group. No specific damage, however, was reported. Lt. Mitchell, in addition to finding and pointing out the correct area to the other planes, fired six rockets into caves, two of which hit a cave entrance directly.

No anti-aircraft fire was present.

Considerable enemy aircraft activity occurring during this flight. Mitchell saw two enemy aircraft, 5 miles distant crash into the sea near friendly ships, either by design or through the effects of our VF or AA fire.
