

To and from Honolulu  
W. Wainwright of St.  
vacated the  
Wainwright of St.  
who, with his wife, is a  
of the Alexander Young  
Hotel, has come to the conclusion  
that Hawaii, and Honolulu in particular,  
is about the most desirable  
place in the world for a traveler to  
find rest and contentment. He has  
found both here, and although  
booked to return to the mainland on  
the Sonoma, he is loath to leave.  
Mr. Wainwright arrived on the  
Ventura a couple of weeks ago and  
every moment of his time seems to  
have been taken up in finding new  
and pleasurable impressions of  
island scenery. After an enjoyable  
trip to the Volcano, he returned  
last week, and on Sunday enjoyed  
an auto trip around the island of  
Oahu.

"That is a ride which no tourist  
should ever miss taking," said Mr.  
Wainwright. "The novelty of going  
up through the beautiful Nuuanu  
Valley and over the historic Pali to  
the other side of the island, the trip  
along the sea shore, with changes in  
the scenery rung in on you at every  
turn of the road, is an experience  
worth having. Then you are given  
a hospitable welcome at the Haleiwa  
Hotel and a meal that is all that the  
inner man could desire. The  
scenery changes rapidly on the way  
up to Honolulu from Haleiwa for  
you pass through the fine agricultural  
district of Waiahua where  
the finest juiciest pineapples I have  
ever tasted, are raised, through the  
big sugar plantations, and all on  
good roads.

These islands should attract  
eastern capitalists and even if they  
don't invest, they're not losing  
anything for the climate, scenery  
and hospitality of the people will  
well repay them.  
The Alexander Young Hotel is a  
hostelry which would be a credit  
to any eastern city, and its accom-  
modations are as fine as any hotel I  
have visited, save, perhaps, some of  
the extravagantly luxurious ones in  
New York. Mr. Gray, the manager  
of the Young, is a prince in his  
hospitality, and to know Alexander  
Young himself is to impress you  
with the fact that he is a broad-  
minded, public spirited citizen.

Mr. Wainwright is a noble of  
Molokai Temple, Mystic Shrine of St.  
Louis, as well as a member of St.  
Louis Lodge No. 20, A. F. & A.  
M., St. Louis Chapter, No. 1. K. &  
S. M., Missouri Consistory No. 1.  
Both Dr. Wood and Dr. Grossman,  
of Aloha Temple, Honolulu, have  
entertained the Mission shriner  
who enjoys traveling on the hon-  
sands of Hawaii.

Headsburg is to have a water  
carnival. This point was settled at  
an enthusiastic meeting of citizens  
held Tuesday evening at the City  
Hall there.  
R. X. Ryan of the C. N. R. y  
was present, and promised the help  
of the railroad in running excursions  
from both ends of the line as far  
north as Ukiah and as far south as  
Petaling and Sonoma. He thought,  
in view of the fact, that the carnival  
must be gotten up in a hurry, owing  
to the lateness of the season, that  
it would not be advisable to run a  
special excursion from San Fran-  
cisco, but to confine the carnival  
more to the entertainment of the  
people of Sonoma and Mendocino  
counties. Next year, profiting by  
this season's experience, its scope  
can be wider, and the people of  
San Francisco and other parts of  
the State can be solicited as  
visitors.

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science  
has been able to cure in all its stages  
and that is Catarrh. Hall's Catarrh  
Cure is the only positive cure now  
known to the medical fraternity.  
Catarrh being a constitutional dis-  
ease, requires a constitutional treat-  
ment. Hall's Catarrh Cure is taken  
internally, acting directly upon the  
blood and mucous surfaces of the  
system, thereby destroying the  
foundation of the disease, and giving  
the patient strength by building  
up the constitution and assisting  
nature in doing its work. The prop-  
rietary have so much faith in its  
curative powers that they offer One  
Hundred Dollars for any case that  
it fails to cure. Send for list of tes-  
timonials.

met Tuesday and are holding  
frequent meetings to rush the  
new enterprise to completion.

The idea of raising a fund for the  
repair of the Old Mission has been  
received with much favorable com-  
ment by the progressive people of  
Sonoma Valley. The fund has  
started to grow and judging from  
the strong endorsements of the  
project there will be no trouble in  
raising the \$500 necessary for im-  
mediate repairs.  
The list of early contributors can  
be seen in another column.

It is urgent that the matter be  
attended to at once in order that the  
repairs can be made to the historic  
land mark ere it is forever too late.  
Please don't delay.

THE BEST WAY OUT OF A  
BAD ROOF  
When a roof gets bad it gets so  
bad that the more patching you do  
on it the more you will have to do.  
It is an endless expense and annoy-  
ance and the best way out of it is to  
cover it up entirely with Elastite  
or Mastic, the roofing that does not  
wear out or ever need painting or  
repairing, and gives you permanent  
protections from leaks. It is made  
of mineral rubber, is therefore fire-  
proof, and has the endurance that  
places it above comparison with  
anything else in the line of roofing,  
though costing no more. Ask your  
local agent for samples, price list  
and full information, or write to

tor for Sonoma, Lake and Mendo-  
cino counties, A. W. Adler, agent,

Sonoma.  
Miss Tomasi and brother Alfonso  
of Knight's Valley are visiting their  
uncle N. Tomasi on the Wickersham  
ranch.

John Worrel of San Francisco  
visited old friends in El Verano on  
Sunday last.  
Chester Trudgen came home  
Tuesday evening from Palo Alto.

Nelson McGeer of Berkeley,  
visited his aunt, Miss Minnie  
Cook, Saturday and Sunday.  
Mrs. Mary Murphy spent Wed-  
nesday in Kenwood visiting  
friends.

Mrs. Wm. Trudgen and children  
returned from Sebastopol Sunday  
afternoon.  
R. S. Bosworth and Master  
Arnold Aldrich are in Portland.

Miss Bessie Woods is visiting  
Miss Ruth MacQuiddy.  
Mrs. Chas. McDevitt is visiting  
relatives in Sonoma.

Oscar T. Weber, Sec'y, and C.  
T. Ryland, General Manager So-  
nom Valley Interurban Co. trans-  
acted business for the company  
here this week.  
The preliminary survey has  
been made and a map drawn of the  
proposed route to be taken by the  
electric road. The Directors  
met Tuesday and are holding  
frequent meetings to rush the  
new enterprise to completion.

The idea of raising a fund for the  
repair of the Old Mission has been  
received with much favorable com-  
ment by the progressive people of  
Sonoma Valley. The fund has  
started to grow and judging from  
the strong endorsements of the  
project there will be no trouble in  
raising the \$500 necessary for im-  
mediate repairs.  
The list of early contributors can  
be seen in another column.

It is urgent that the matter be  
attended to at once in order that the  
repairs can be made to the historic  
land mark ere it is forever too late.  
Please don't delay.

THE BEST WAY OUT OF A  
BAD ROOF  
When a roof gets bad it gets so  
bad that the more patching you do  
on it the more you will have to do.  
It is an endless expense and annoy-  
ance and the best way out of it is to  
cover it up entirely with Elastite  
or Mastic, the roofing that does not  
wear out or ever need painting or  
repairing, and gives you permanent  
protections from leaks. It is made  
of mineral rubber, is therefore fire-  
proof, and has the endurance that  
places it above comparison with  
anything else in the line of roofing,  
though costing no more. Ask your  
local agent for samples, price list  
and full information, or write to  
Sam Meyer, Headsburg, distribu-  
tor for Sonoma, Lake and Mendo-  
cino counties, A. W. Adler, agent,  
Sonoma.

The Kind You Have Always Bought

Read what  
Calsal.  
Gentlemen—I have had rheumatism for years,  
was compelled to remain in bed for weeks at a time,  
could not move my limbs or arms, have tried many Springs, and in fact  
have tried everything, without success, until I came across Calsal thro  
a friend of mine that had been cured by carrying the same. I purchased  
two sacks and wore them as directed, nearest the pain, and I must say  
after wearing the sacks for one week I felt better, and now I am abso-  
lutely cured, have no pain whatsoever. I believe Calsal is the greatest  
cure for rheumatism. I would not be without it.

A fierce forest fire has been raging near Forsville this week, making the atmosphere there about almost unbearable and doing great damage.

Al J. Grill was found guilty of murder in the first degree Tuesday afternoon by the jury in Judge Albert G. Burnett's Court shortly after 2 o'clock and his punishment fixed at life imprisonment in the penitentiary. Not a tremor of muscle or a different shade overcame his features when the verdict was announced, and Grill was returned to his cell in the County Jail to await further developments in the case.

Judge Burnett set Monday, Oct. 23, as the day for pronouncing sentence on the convicted man.

Grill was accused of having murdered Wilson S. Pearce on July 23 in a cabin on the H. S. Gird ranch in Alexander Valley. The evidence showed conclusively that the victim had come to his death by a gun shot wound, and Grill stated that his gun had accidentally exploded within the cabin on the Sunday night on which Pearce had been shot to death.

The method employed is simple in the extreme and along the lines adopted by nature, as seen when one comes to study the matter. Years ago a well known breeder in New York conducted some valuable experiments along this line, and all succeeding experiments laid down in that experiment. Food is withheld from the fowls for a period of about two weeks, causing the surplus fat on the frame to be consumed. Following this a system of heavy feeding rich in feather forming qualities is employed, and the results have proved very satisfactory.

The West Virginia station gave the system a test with results that were highly gratifying, using a pen each of Rhode Island Reds and White Leghorns, which were placed in a yard 15 by 100 feet, no feed except such as they were able to pick up in the run being given them. At the end of thirteen days they were fed a liberal ration of mash, beef scraps, corn, wheat and oats. The hens ceased laying on the seventh day after the test began. At the end of thirty days they had practically a new coat of feathers. At the end of five weeks nearly half the flock were laying regularly. Other pens of hens allowed to forage and fed regularly throughout the time of the test were only beginning to molt and egg production had fallen to only a few eggs from the entire number daily.

On the farm hens are seen in all stages of the molt from August until December. In fact, hens are sometimes destitute of feathers in the coldest weather.

Hens that do not molt early seldom lay before spring, so it behooves us to try some methods of inducing an early molt.

**Sorehead in Fowls**  
The cause of the disease known as sorehead in fowls is a debatable question, some claiming mosquito bites and other good authorities that it is an infectious blood disease. Better kill and burn all that are badly affected. Treat the others—the sick and the well—with epsom salts in the drinking water till all signs of the disease are gone. A tablespoonful of salts to a quart of water is about right.

**Chicken Notes**  
If soft feed or milk is fed in troughs, care must be taken to keep clean, scalding out regularly; otherwise there is considerable danger of disease.

Culls will come out with the best of breeding, but if they are slaughtered early in life they will not produce others.

In starting with poultry it is ever well to remember that chickens require the best of attention from shell to maturity if good results are to be obtained.

**Exciting Runaway**  
What might have been a very serious runaway happened on Napa street last Saturday morning. Peter Basaglia was driving a colt in a cart when the animal became frightened and ran away, throwing the driver out on the sidewalk. The horse and cart came to a sudden halt in the alleyway near Lewis & Cummings' shop. No serious damage was done.

**Santa Rosa Captures Fruit Growers Convention**  
Santa Rosa has captured the next gathering of the State Fruit Growers Convention.

Secretary John Isaac of the State Horticultural Society, was in Santa Rosa Tuesday and made public this good news.

The sessions will run through four days commencing on the 5th of December. It is believed that from 300 to 500 people will be in attendance from various parts of the State.

The services of Professor Waite of Washington have already been secured. He will address the convention on the pear blight and deliver some stereopticon lectures about this important subject. He will also give a practical demonstration of how successfully to fight the blight.

Stone work is cheaper than wood in the end and less expensive to keep in repair. See Wm. Trudgen for stone, cement or Cemetery work of any kind.

**WOMEN DREAD**

The disfiguration caused by skin disease, even more than the tormenting irritation which is so commonly associated with it. The use of Dr. Pierce's Golden Medical Discovery generally results in a complete cure of eczema, pimples, eruptions and other forms of skin disease which have their cause in an impure condition of the blood. "Golden Medical Discovery" is entirely free from opium, cocaine, and all other narcotics.

An unfailing cure of all diseases that have their origin in disorders of the digestion and faulty nutrition is found in Dr. Pierce's Golden Medical Discovery. It cures digestive disorders, restores the appetite, invigorates the liver, purifies and enriches the blood, builds healthy flesh and muscle and drives out disease germs. It cures all cases of incipient consumption. Thousands have testified to these facts. Druggists who suggest substitutes are not honest.
