The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

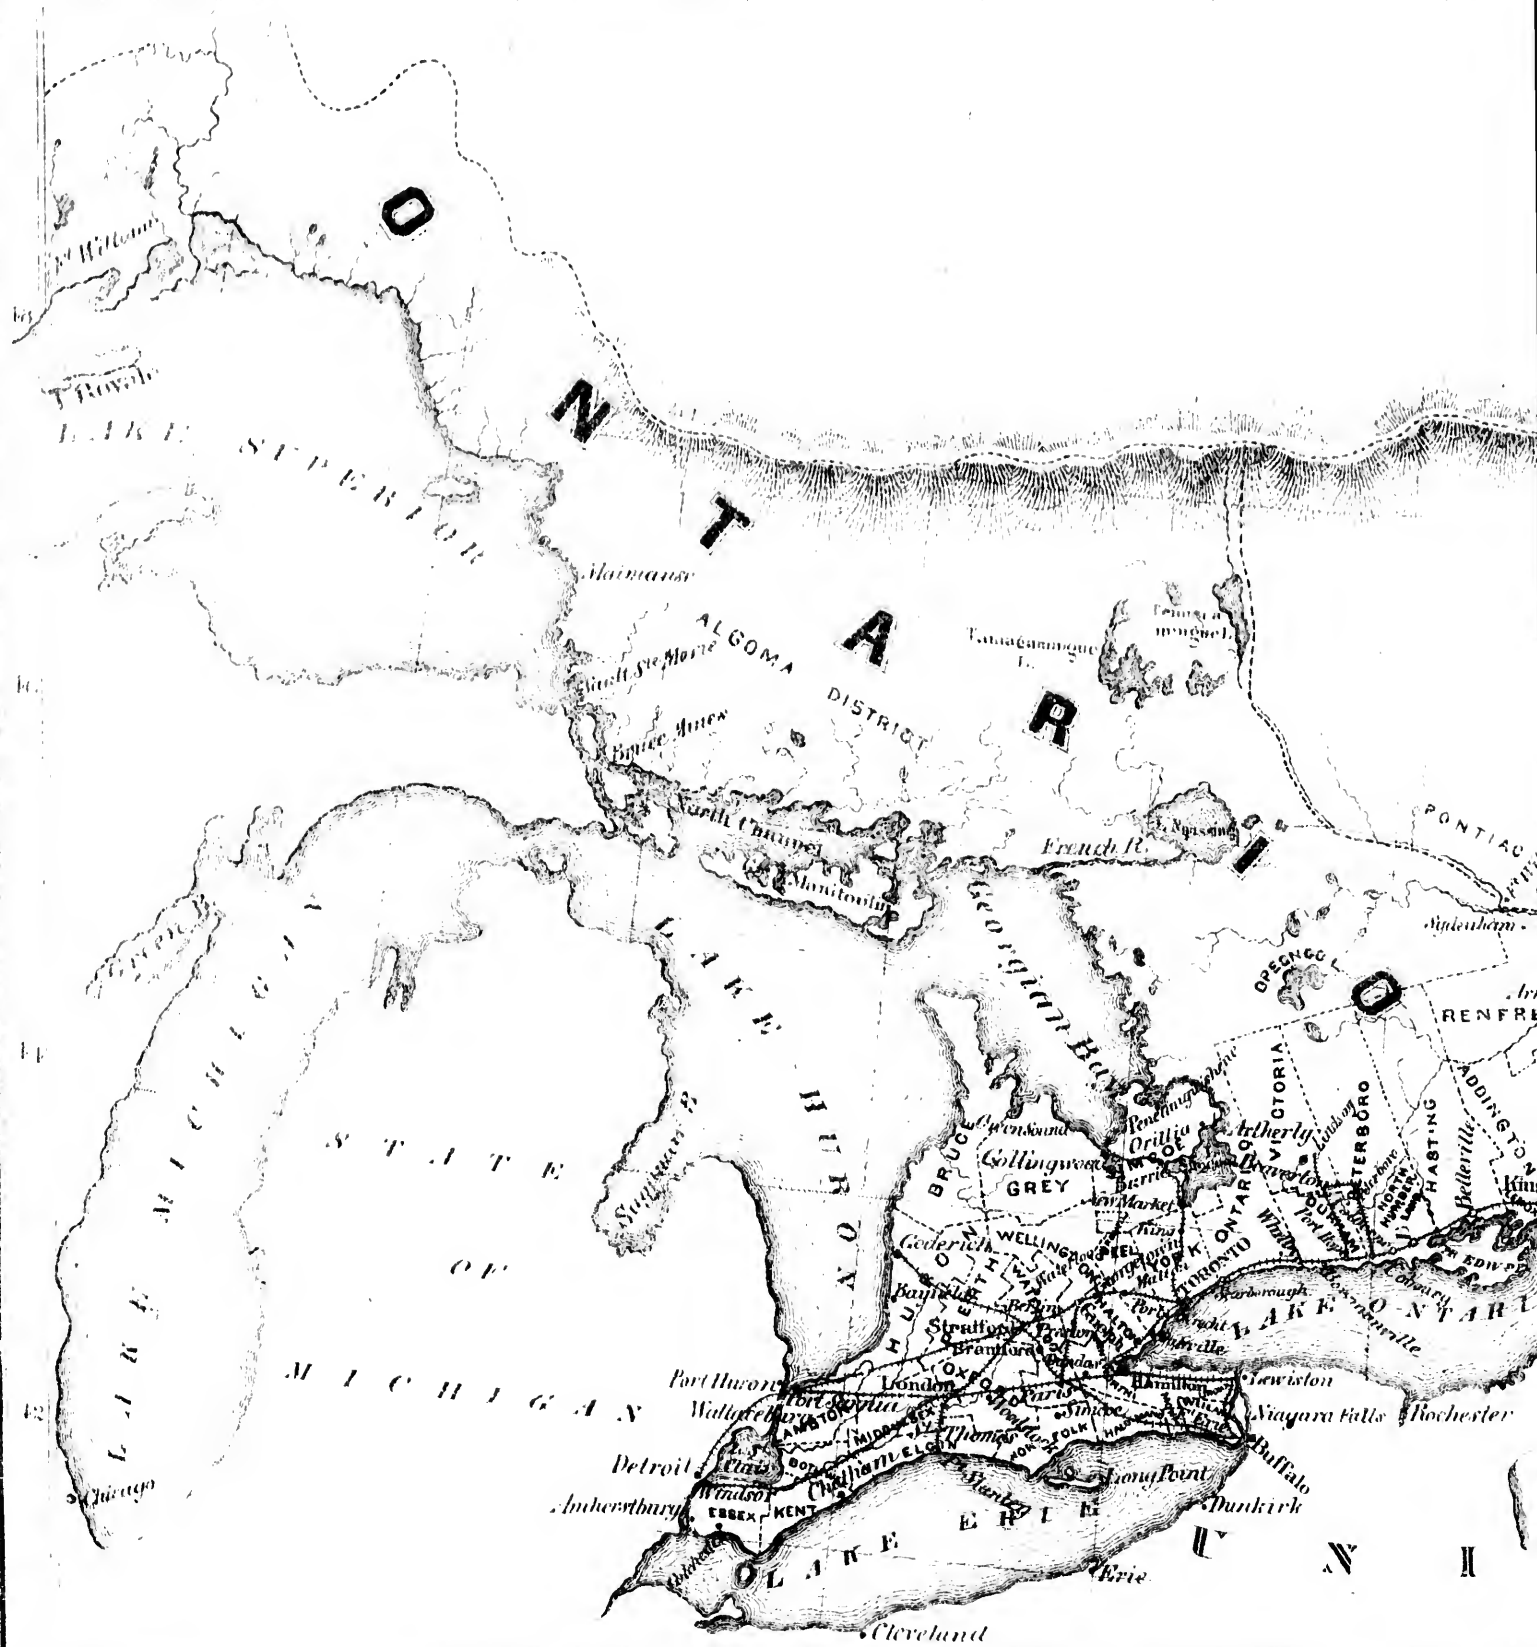

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# THE CANADIAN ALMANAC,

FOR THE YEAR 1868.

Since the last issue of the CANADIAN ALMANAC the Confederation of the Provinces has become an accomplished fact, and henceforth New Brunswick and Nova Scotia will be one with us in the DOMINION OF CANADA. It will be seen by reference to our pages, that we have lost no time in extending our information to meet the requirements of the Lower Provinces, and thus making our title under its wider meaning as true as heretofore. The calculations of the rising and setting of the sun and moon are given for Fredericton and Halifax, in addition to, as in former years, Toronto and Quebec. All the governmental information of the Dominion generally, and of the four Provinces separately, is given in full, together with such local information as we have been able to procure. We hope in future to supply this as complete for all the Provinces as in the past we have for Upper and Lower Canada. We have the satisfaction of knowing that the value of the CANADIAN ALMANAC is increasingly appreciated year by year. Its tables and statistics are quoted and copied as authoritative, while its information is of such a character that no merchant or professional man can dispense with it.

### Explanation of the Articles of the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

**MOON'S PHASES.**—This Table gives the times for the four meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

**TWILIGHT.**—In this table are given the times at which twilight begins in the morning and ends in the evening, i. e., the times when the sun's centre is 18° below the horizon.

**GREATEST ELONGATION OF THE POLE STAR.**—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 58"	-4' 5"	-2' 5"	0' 0"	+2' 12"	+4' 32"	+6' 59"	+9' 34"	+12' 18"
2nd Correction for each minute of latitude.....	+ 1.0"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.5"	+ 2.6"	+ 2.7"	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude 43° 20'...1st correction = - 4' 5"	2nd correction = + 2.0 × 20 = + 40"
" " 47° 40'... " = + 4' 32"	" " + 2.5 × 40 = + 1' 40"
" " 45° 10'... " = 0' 0"	" " + 2.2 × 10 = + 0' 22"

**THE PLANETS.**—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton and Halifax.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec, Fredericton and Halifax.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of Toronto, when in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 9, and in the afternoon for the rest of the year. On October 9 there will be a second transit, occurring at 11h. 58m. 21a. p.m.

The five last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 46° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 46°.

**THE YEAR.**

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Cæsar, having, by the help of Sosigenes, an Alexandrian philosopher, come to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Cæsar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and

now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and to keep the year right in future, the overplus being 18 hours, 37 minutes, and 10 seconds in a century, he ordered that every centesimal year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should *not* be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to eleven days. An act of parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centesimal years should, as in Pope Gregory's arrangement, not be bissextile or leap-years. It has consequently arisen—1800 not having been a leap year—that the new and old styles now differ by twelve days, our first of January being equivalent to the 13th old style. In Russia alone, of all Christian countries, is the old style still retained; wherefore it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus: 24th March, or 25th September; 7th October; or, it may be, 25th December, 1860; 9th January, 1861.

LETTER RATES

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per ½ oz., but if posted unpaid such letters are charged 7 cents per ½ oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per ½ oz., with optional prepayment.

The rate on letters to the United Kingdom is, by Canadian Packet,

Exceeding ½ oz. - - - - - 12½ cents.  
 Exceeding " and not exceeding 1 oz. - - 25 "

and so on, increasing one rate of postage for each additional half ounce.

And by Cunard Packet, 17 cents per ½ oz. &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid. The rate on letters for the U. States, is 10 cents per ½ oz. " to Cuba - - - - - 20 cents per ½ oz.

There is a further charge on delivery of letters addressed to British Columbia.

Letters - - - - - 10 cents per ½ oz.  
 Newspapers - - - - - 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per ½ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per ½ oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America - - - - - 2 cents.  
 On Letters for the United States - - - - - 5 "  
 On Letters for the United Kingdom - - - - - 8 "  
 On Letters for British Colonies or Possessions, sent via England - - - - - 25 "

On Letters for France and other Foreign Countries, via France an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter

can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 25 cts. per lb. (with 3 cts. additional if Registered).

One cent per oz. payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage). Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post office addressed to any place in Canada, British North America generally, or the United States.

The postage upon Prices Current addressed to the United Kingdom is *two cents each*, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the sender.

2. To enclose a letter or letters, or any writing intended to serve the purpose of a letter, in a parcel posted for the Parcel Post, or in a packet of samples or patterns posted to pass at the rate of postage applicable to samples and patterns, or to inclose a letter or any writing to serve the purpose of a letter, or to inclose any other thing, in a newspaper posted to pass as a newspaper at the rate of postage applicable to newspapers (except in the case of the accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers) shall in each case be an offence punishable by a penalty of not less than ten and not exceeding forty dollars in each case.

POST OFFICE DEPARTMENT, NEW BRUNSWICK.

GENERAL POST OFFICE, NEW BRUNSWICK.

Postmaster-General, Hon. John McMillan; Secretary, Wm. Paisley; Accountant, W. H. Smithson; Clerks, Wm. C. Whitaker, Wm. A. Black, and Chas. A. Murray; Messenger, Wm. Bannister.

LETTER RATES.

The postage on letters mailed in New Brunswick, addressed to any place within the Province, is 5 cents per half ounce, if pre-paid; if not pre-paid, it is 7 cents. On letters to all parts of the United States, the postage is 10 cents per half ounce.

Letters to and from England, per Cunard packets via Halifax, are charged 6d. sterling, or 12½ cents currency, per half ounce; and via New York, 8d. sterling, or 17 cents currency, per half ounce, if pre-paid. If mailed unpaid, they are charged 6d. sterling additional on delivery.

Letters to and from England, per Canadian packets via Quebec, are charged 6d. sterling, or 12½ cents currency, per half ounce; and via Portland, 8d. sterling, or 17 cents currency, per half ounce, if pre-paid. If mailed unpaid, they are charged 6d. sterling additional on delivery.

REGISTRATION.

The system of registration is applicable to all description of letters, without distinction, whether they contain articles of value or not. It also applies to parcels. The charge, in addition to postage, is 5 cents, when pre-paid; and 10 cents in addition to postage, when unpaid. The charge for registration of letters for the United Kingdom is 8 cents.

PARCELS.

Parcels closed at the ends and sides can be sent by mail throughout the Province, at a rate of 25 cents per lb. The weight of each parcel is not to exceed 3 lbs., nor the size to exceed 1 foot in length or breadth, or 6 inches in thickness. The parcel must not contain any glass, liquid, nor any substance liable to do injury to the mail, under the penalty of a forfeiture of the parcel if discovered. The parcel is not to contain any writing. Registration fee 5 cents. Parcels must be pre-paid by stamps. The sender, by writing his name on the outside, can have the parcel returned in case of failure to reach the person addressed.

NEWSPAPERS AND PERIODICALS.

Newspapers published in the Province, as well as transient papers, are forwarded through the Province, and to England (via Halifax), free of postage. If sent to England by way of the United States, the postage (2 cents) is collected at their destination.

NEWSPAPERS TO OR FROM ENGLAND.

If by way of Halifax per Cunard steamers, free. By way of the United States, 2 cents each on delivery, being the American transit charge.

BOOKS, PERIODICALS, PRINTED MATTER, &c.

The above pass through the Post Office free, if under 2 ounces in weight; if 2 ounces or upwards, at the rate of 2 cents for every 4 ounces.

All Printed Books, Magazines, Reviews, Pamphlets, or Packets of Patterns, Newspapers, or other matter, intended for transmission by Post between New Brunswick and the United Kingdom, must be restricted to two feet ¼ length and one foot in width and depth.

Printed Circulars, in unsealed envelopes, not exceeding half an ounce, are charged 1 cent each, and must be pre-paid. Circulars from other countries are liable to a tax of 1 cent each, which is collected on delivery.

POSTAGE STAMPS.

Postage Stamps are provided at the respective value of 1 cent for circulars; 2 cents for drop letters; 5 cents for ordinary Provincial letters; 10 cents for United States rate; 12½ cents per Cunard Steamer, via Halifax; 17 cents, via United States, for England.

MONEY ORDERS.

All Money Order Post Offices are authorized to issue and pay Provincial Money Orders (under direction of the Postmaster General) for any sum not exceeding in any one order \$100.

When Money Orders exceeding \$100 in aggregate amount are issued in one day and to the same person, by one or more offices upon another office, the Postmaster of the office drawn upon (if necessary) may delay the payment of such orders for six days.

All Money Orders shall be drawn upon printed forms supplied by the Post Office Department; and no order will be valid or payable unless given upon the regular printed forms.

Persons applying for Money Orders will be required to state the particulars upon a form of application provided for that purpose. Parties procuring Money Orders should examine them carefully, to see that they are properly filled up and stamped. This caution will appear sufficiently important when it is understood that an order defective in any important respect will throw difficulties in the way of its payment.

Postmasters will not pay an order to a second person without the written endorsement of the payee, thus:

Pay to the order of ——— (the name of the second person to fill the blank) for value received.

The commission charged for Money Orders, drawn and payable in New Brunswick, is as follows:

On orders not exceeding \$10, 5 cents; exceeding \$10, and not exceeding \$20, 10 cents; exceeding \$20, and not exceeding \$30, 15 cents; exceeding \$30, and not exceeding \$40, 20 cents; exceeding \$40, and not exceeding \$50, 25 cents; exceeding \$50, and not exceeding \$60, 30 cents; exceeding \$60, and not exceeding \$70, 35 cents; exceeding \$70, and not exceeding \$80, 40 cents; exceeding \$80, and not exceeding \$90, 45 cents; exceeding \$90, and not exceeding \$100, 50 cents.

The following Post Offices in New Brunswick are specially authorized to issue Sterling Money Orders payable in the United Kingdom, Ontario, Quebec, Nova Scotia, and Prince Edward Island, for any sum not exceeding in one order £10 (except Ontario, Quebec and Nova Scotia, which is extended to £20), namely:

Bathurst,	Newcastle,	Sussex Vale,
Chatham,	Richibucto,	St. Eustace,
Dalhousie,	St. John,	Shediac,
Fredricton,	St. Andrews,	Woodstock,
Moncton,	St. George,	

The Post Offices at Grand Falls and Hillsborough will issue Money Orders payable in Ontario, Quebec, Nova Scotia, and Prince Edward Island.

The commission charged for Sterling Money Orders in the United Kingdom is as follows:

On orders not exceeding £2, 25 cents; exceeding £2, and not exceeding £5, 50 cents; exceeding £5, and not exceeding £7, 75 cents; exceeding £7, and not exceeding £10, \$1.

The commission charged for Sterling Money Orders on Ontario, Quebec, Nova Scotia, and Prince Edward Island:

On orders not exceeding £5, 25 cents; exceeding £5, and not exceeding £10, 50 cents, &c.

**COUNTY COURTS.**—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bill bonds and recognizances of Bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies together of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to Chancery.

**SUBROGATE COURTS.**—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Subrogate Courts. *Surrogate Clerk*, Sir J. M. Robinson, Bart.

**COURTS OF QUARTER SESSIONS.**—Chairman, the County Judge in each county, who, with no or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year. Trials by jury in cases of felony and misdemeanor, both treason and capital felonies are excepted from their jurisdiction.

**RECORDERS' COURTS.**—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—George Duggan, Toronto; James O'Reilly, Kingston; John E. Start, Hamilton; William Morton, London; J. B. Lewis, Ottawa.

**INSOLVENT DEBTORS' COURTS.**—By the Insolvent Acts of 1864 and 1865, 27 & 28 Victoria, cap. 57, and 29 Vic. cap. 18, provision is made for the settlement of the estates of insolvent debtors, for giving effect to arrangements between them and their creditors, and for the punishment of fraud. In Lower Canada, this enactment applies to traders only. In Upper Canada, to all persons whether traders or non-traders. In these courts, the county court judge in each county presides—the only appointments made in pursuance of this statute being those of "official assignees," who are to be nominated "by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade." This important statute is proving a great boon to the community, in enabling parties who from unavoidable circumstances find themselves paralyzed by hopeless liability to obtain relief, and reconnoitre business.

**DIVISION COURTS.**—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal effects amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

The same act which established the Medical Council authorized the publication of a list of the persons who were entitled legally to practice medicine in the Province of Ontario. This list is called the Medical Register for Ontario; and no person, whose name does not appear in that Register, is entitled to charge for any advice, or for any medicine which he shall have both prescribed and supplied. Nor can any unregistered person be appointed as medical officer, physician or surgeon in any branch of the public service, militia or otherwise, or to any hospital or other charitable institution not supported wholly by voluntary contributions; neither can any unregistered person give evidence (of a professional nature) before any coroner's or other court; nor is a certificate of lunacy valid from an unregistered person, nor any other certificate which the law requires from a physician or surgeon. Any person can obtain the "list" or "register" referred to by apply-

ing to the Registrar of the Medical Council—Dr. Strange of Hamilton—who will also give information upon the necessary steps to be taken to secure the registration of diplomas, and send forms for certificates, upon application.

COMMON SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In cities, towns, and villages, the schools are managed by a Board of School Trustees, elected for the Municipality. There were 4,379 Common Schools, with 390,895 pupils, in Upper Canada, in 1866.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal Corporation, desirous of establishing Free Public Libraries, is aided by the Educational Department granting 100 per cent on local appropriations, and supplying books from the Depository in connexion with the Department. Up to the end of Dec. 1866, about 993 Libraries had been thus established, with 215,611 volumes.

EDUCATIONAL MUSEUM.—Connected with the Educational Department is a Museum, containing specimens of School apparatus and furniture; a valuable collection of Italian, Dutch and Flemish Oil Paintings and Statuary casts and busts. The Museum is freely open to the public.

## DR. COLBY'S ANTI-COSTIVE AND TONIC PILLS

ARE a safe and reliable remedy in all diseases of the Stomach, Liver and Bowels. They are no Quack Medicine, puff'd up by high sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbation of the medical profession. They do not profess to be a cure all, but for all diseases arising from any derangement of the Stomach, Liver and Bowels, they furnish an effectual remedy. We have in our possession, over one hundred testimonials from physicians who have used them in their practice, and highly approve of them, among which are the following:

The undersigned physicians cheerfully certify to the high professional standing of Dr. Colby, of Stanstead, one of the oldest and best physicians, and to the excellent qualities of his "ANTI-COSTIVE and TONIC PILLS," which we have used in our practice, and highly approve.

### Jacob's Rheumatic Liquid

Has been before the public for upwards of twenty years, and such are its merits that it is now justly considered as an indispensable article in every family where it is known.

It has never been forced on public attention by flaming advertisements, of remarkable cures that never had any existence, but by its own peculiar value as an unfailing remedy, it has worked its way into public favor.

Having a wonderful effect when taken internally, in quickening the circulation of the blood, it is invaluable to persons predisposed to Paralysis, or subject to attacks of Heart Disease. In cases of Dyspepsia, where food distresses, it affords prompt relief, and continued for a short time, sets everything right.

The mode of the medicine is blown in each bottle of the genuine, and the purposes for which it was intended, as well as the mode of using, attached.

ORANGEADE, GINGERADE,  
NECTAR, AND  
CHAMPAGNE CIDER.

FULL DIRECTIONS FOR PREPARING ALL THE ABOVE DRINKS ARE SENT WITH EACH MACHINE. A List, containing the directions of upwards of 200 Machines now in use in the U. Kingdom, forwarded on application. Many of these Machines have been in constant use for 25 years without requiring any repairs.

BARNETT, by confining his manufactory to only two branches, namely, SODA WATER MACHINES and MIXING APPARATUS, and his whole attention being given to these branches, it must be obvious that every part as been the subject of his most careful study, so that any derangement of parts can hardly occur. All the Machines made by S. BARNETT are constructed under his own superintendence, and proved to four times the pressure they are ever required to be worked at. S. B. being so well aware of all the requirements of persons using Machinery, where mechanical assistance cannot be obtained, has paid full attention to this point, as the great number of testimonials in his possession will prove.

The number of dozen per day that it is stated each Machine will make, means hand labour, but if steam or other power is used, the product is greatly increased.

These "Improved" Soda Water Machines are warranted superior to any hitherto manufactured for solidity of construction, power and simplicity. They are also admirably calculated for exportation, as they are packed in one case, without taking them to pieces, and can be set to work, and Soda Water or Lemonade made from them in half-an-hour after arrival. These Machines are also used to manufacture Ginger Beer, Orangeade, Nectar, Seidlitz, Carrara, &c.

**T**HIS Company was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain. Its income exceeds **£850,000** per annum, and its Accumulated and Invested Funds amount to upwards of **Three and a half Millions Sterling**. Its profits have been very large, and persons assured have derived very valuable benefits from their connection with the Company. The **STANDARD** has also acquired a marked character for liberal management, being the first Institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

**THE RATES OF THE COMPANY**

which have been calculated on data derived from the most authentic sources, will be found moderate, and, looking to the facilities and advantages afforded, they are undoubtedly more advantageous and less expensive than those of any other Office transacting the same class of business.

Every information as to Life Assurance, with Tables of Rates, will be furnished at Head Office, or at any of the Agencies of the Company.

**T**O AGRICULTURISTS, RAILWAY CONTRACTORS, AND OTHERS.—**FENCE FOR SALE**—HUGHES' Portable, Self-Connecting, Self-Supporting Wooden Fence, patented May, 1867.

The proprietor invites applications for the purchase of the right to construct and use the above-named fence. Rights will be sold for the several counties and townships in the Dominion of Canada at very moderate prices, as the owner wishes to encourage the general adoption of his invention, which he believes is unsurpassed for economy and convenience.

The cost of plain fencing is about \$8 per lineal acre, which can be set up by two labourers at the rate of about 25 acres per day. It sustains itself without pickets, can be removed almost instantaneously in cases of fire, and is particularly adapted for low lands subject to periodical inundations, as it can be removed each fall and replaced in the spring at a mere nominal cost. The facility of removal and re-erection commends its adoption for Railway and Turnpike Road Fencing, where the snow-drifts caused by the permanent fences are an annually recurring source of expense and annoyance. Rough, stony or uneven surfaces afford no impediment to the use of this fence, as the panels can be made so as to suit any elevation or depression of the ground. It can be set up in angular, square, pentagon, hexagon, or any desired form, so that efficiency and elegance may be combined when it is used for the protection of newly planted trees, dividing off a field, hurdles or farms, parks, and ornamental plantations.

A model can be seen, and further particulars be obtained, at the office of the undersigned. Applications by letter to be post-paid.

Active men willing to canvass the country, may invest a small capital advantageously, as they will be very liberally dealt with.
