Plants are out of 2 1/4 inch pots, unless stated otherwise.

VAUGHAN'S CANNAS.

Our Canna fields at Western Springs when in bloom in August and September make a grand showing. They attract thousands of visitors, both professional and amateurs. We grow all of the standard kinds, all of the novelties, and discard the inferior ones every year as the improved merits of the newer ones are proven. We have won highest awards at four great expositions, Chicago, Omaha, Buffalo and St. Louis. The Grand Prize, one of the seven only awarded to American exhibitors in horticulture; was awarded to us at St. Louis. If you wish for the best and most complete assortment of Cannas write us. You will find them catalogued here.

KING HUMBERT—Best of all Cannas.

There is no other Best Canna today. None other can compare with it. This Canna has become known very generally during the past two years but it remained for the S. A. F. Convention to see it at Dayton this Summer; since which event the merit and popularity of this variety has been settled in this country.

Its giant flowers, orange scarlet in color, the very broad rubber-like bronze leaves, altogether make up a plant so distinctly in advance of any other Canna that the demand for and use of it must be universal.

Prices: Each, 30c; doz., \$3.50; per 100, \$25.00.

We will furnish dormant 1 to 2 eyed roots as long as stock lasts, after which strong 3 inch pot plants will be sent.

VAUGHAN'S CANNAS.

Awarded the GRAND
PRIZE at the
St. Louis World's Fair.

Our Experience with Cannas. For over 17 years we have made the culture of Cannas one of our main specialties. We grew, last year in our place at Western Springs over 10 acres of standard sorts and novelties, besides 3,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a new name. We also know, and had to pay dearly for this knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is somewhere near correct. To them any red is a Chicago, any yellow a Florence Vaughan, etc. Our Cannas are true to name, and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers. And our stock can all, with good right and reason, be called "Improved." Cannas will not all propagate alike, no matter how carefully the selection is made, and a true Chicago or Egandale, for instance, cannot be grown and furnished at as low prices as some common red. We request our customers to take these facts into consideration when comparing prices. **The Best is Always the Cheapest.**

WINSOR. (Pierson)

This is sure to prove a winner. Nothing approaches it in color which is a clear silvery pink—a shade between Enchantress and Mrs. Thos. W. Lawson — and much more beautiful than either. The color will make it sell in any market. The stem is just right. The flowers are considerably larger than Lawson, and much better shaped. As a grower it is everything that can be desired.

BEACON. (Fisher)

This is Peter Fisher's new Searlet. Blooms early in Fall and gives a profusion of flowers for Christmas and continues throughout the Winter months. Size is not over large, 2 3/4 to 3 inches in diameter. Color, scarlet with a dash of orange. Stems long, stiff and wiry. Calyx long and does not burst.
Per doz., \$2.00; per 100, \$12.00; per 1000, \$100.00.

ARISTOCRAT. (C. C. Co.)

Beautiful cerise pink. 3 to 3 1/2 inch flowers, borne on very long stems. Perfect in form and calyx does not burst. Very free flowering, coming into flower early and continuing. Sure to be in great demand.
Per doz., \$2.00; per 100, \$12.00; per 1000, \$100.00.

New Hardy Hydrangea

This new American Hydrangea was found growing wild some years ago in the woods of Ohio and bids fair to become the most beautiful hardy flowering shrub introduced during the last twenty years. Its greatest value, aside from its wonderful beauty, being that it comes into bloom just after the flowering time of the Lilacs, Syringas, Viburnum and Spring-flowering Spiraeas, and further it continues on into August. The panicle is more like a Snowball in form and size than Paniculata Grandiflora (hence the name), and is a pure white. It seems to thrive well in various soils and when fully exposed to the sun as well as in partial shade. We offer strong dormant plants, 1 yr. old, each, 50c.; 3 for \$1.25; 12 for \$4.50. 2 1/4-in. pot plants ready May 1, each, 25c.; 12 for \$2.50.

We offer a fine lot of bushy, well-shaped plants of the choicest forcing varieties, about 18 to 20 inches high, 16 to 18 inches in diameter, with from 8 to 12 buds. Each, \$1.00; per doz., \$10.00. We can furnish a limited number of these plants in bloom for Easter. Each, \$2.00 and \$3.00, depending on size.

Vaughan's Novelty Salvias, Four New Types.

Rose Purple. As compact as Bonfire, with flowers of a reddish plum color, much lighter and brighter than Maroon Prince.

Blue Black. Bushy dwarf grower and very free; flowers very dark purple, almost black, much deeper than Maroon Prince.

Ball Shape. Its natural habit is so perfectly ball-shaped that it needs close observation to prove that it has not been trimmed. Flowers bright, saliva scarlet.

Solanum-Leaved. In scarlet flower and in compact habit it is exactly like Bonfire, but by a freak of sporting it has narrow leaves like Jerusalem Cherry, giving it a very distinct appearance.

Every one should secure this collection. We control the stock. Ready April 1st from 2 1/4-inch pots.

Price, each, 10c; doz., \$1.00; per 100, \$6.00.

SPECIAL OFFER No. 433. One set of the above four for 25c.

Salvia.

Audubon, New Golden Leaved. It is entirely distinct from all variegated plants and should prove a gem for bedding, filling of window boxes, etc. The plant is almost as vigorous in habit as the common Scarlet Sage, but the rich deep green foliage is freely and irregularly mottled and blotched with creamy yellow, deepening to a rich bright yellow.

Alfred Ragueneau. Remarkable for its dwarf and compact growth and abundance of magnificent spikes of red flowers, never attaining a height of over 18 inches.

St. Louis. A great improvement over any Salvia we have ever grown; beautiful flower spikes fully 15 to 18 inches long and 3 inches in diameter; earlier bloomer, being one mass of scarlet from July to frost. Awarded gold medal at St. Louis World's Fair. Height 3 feet.

"BABY RAMBLER."

Everblooming Dwarf Hardy Rose.

(MAD. N. LEVAVASSEUR.)

We were the first to offer this grand new hardy Rose in America. We are sending out sturdy, carefully grown plants of splendid value, that have not been raised from over-cultivated or weakened stock plants. Having first offered this grand rose to the American public, it is our aim to send out only the best possible plants.

A PRIZE WINNER. The Grand Silver Medal, Paris. Certificate National Horticultural Society, France. Certificate by the Horticultural Society of London. Certificate by National Rose Society, England. Gold Medal, Orleans, France. Gold Medal, St. Louis.

This new French Rose, named Mme. Norbert Levavasseur, is a cross between Crimson Rambler and Glory of Polyanthas, retaining the color of the former with the exceedingly free flowering habit of the latter. The flowers are borne in clusters of 30 to 40, and the foliage is dark, glossy and profuse. During the four years we have grown this plant in our green houses it has never been without flowers. A large bed in our grounds was constantly in bloom until November, even in the hottest weather. This is a remarkable record. We have grown thousands of varieties but have never met one that possessed all these remarkable qualities combined.

Three Grand New Rambler Roses.

NEW RAMBLER ROSE, "LADY GAY."

A seedling from the popular Crimson Rambler, which it resembles in habit of growth and general effect. The flowers are of a delicate cherry pink color, which fades to a soft white. The foliage is very profuse and of a glossy deep green shade. The effect of a plant in full bloom, with the combination of the soft white flower, the cherry pink buds, and the deep green foliage, is indeed most charming. The plant is a vigorous grower and perfectly hardy. The flowers are very numerous and of good size; they are also delicately perfumed. This is a rose of highest merit and far superior in every respect to the Crimson Rambler. This is a new color in a rose, of which no one will become tired. It forces well and made a grand display at Boston Rose Show last March.

NEW RAMBLER ROSE, "HIAWATHA."

This seedling which attracts so much attention and evoked many favorable comments when exhibited for the first time at the spring exhibition of the Massachusetts Horticultural Society in March, 1902, is a distinct acquisition to the very popular Rambler class of roses. It is a seedling from Crimson Rambler. The flowers are single, and are of a deep intense crimson shade with the petals shading to a pure white at the base. The foliage is of a light glossy green. The remarkable beauty and the striking effect of a plant in full bloom must be seen to be thoroughly appreciated. Flowers very freely, and it is undoubtedly one of the best of the single roses now extant. It is an excellent plant for forcing, and is well suited for climbing or trailing. The plant is perfectly hardy, and the leaves and stems are very tough and less susceptible to the attacks of insects than any other rose in this popular class.

Sweetheart. It is a vigorous grower, and similar in habit to the ever popular Crimson Rambler. The color of the bloom when in bud is a bright pink, which shades to a soft white. Blooms are very double and average 2¼ in. in diameter; delicately fragrant. Foliage, glossy dark green.

RAMBLER ROSE, HIAWATHA.

BABY RAMBLER.

Two New Baby Ramblers.

PINK BABY RAMBLER ROSE.

This grand new bush rose is in every respect similar to the Baby Rambler rose, with exception of the color, which is a very pretty, delicate pink of a most pleasing shade. The trusses are large, producing 15 to 20 double flowers open at one time. Flowers profusely throughout the summer if planted out of doors, and all winter in the house. It is perfectly hardy. Stock limited. Each, 35c; 3 for \$1.00; per doz., \$3.00.

WHITE BABY RAMBLER ROSE.

In this bush rose we have a true white Baby Rambler, identical with the red and pink Baby Ramblers except in color, which is a pure white. Flowers continually throughout the season and is perfectly hardy with slight protection. Stock limited. Each, 25c; per doz., \$2.50; per 100, \$15.00.

New Rose, "Red Kaiserin."

(Mme. Jules Grolez.)

Kaiserin Augusta Victoria is well known and admittedly the best white summer-blooming rose. In this new rose we offer a red Kaiserin Augusta Victoria. We have tested this rose the past season and find it similar to the white in foliage, habit, shape and size of bloom, but the color of the flowers is a beautiful cherry red. Stock limited. 2½ in. pots, each, 25c; per doz.; \$2.00; per 100, \$15.00; 2 yr. old dormant plants, each, 50c; 6 for \$2.00; 12 for \$3.50; per 100, \$25.00.

New Everblooming Rose Etoile De France. Certainly, for outdoor-blooming, Etoile de France will surpass any red rose in cultivation and our opinion is that it will become as much of a favorite as La France. It combines vigorous hardiness with rich color, and free flowering qualities. The buds are long, full and beautiful, of a superb velvet crimson color; as the flower expands the center discloses depths of rich vivid carise. The flowers are very large and double, produced on long stems, retaining their beauty a long time; magnificent cupped form with a delicious tea fragrance. Without any exaggeration we may assert that Etoile de France will be appreciated by all lovers of the queen of flowers. Hardy with slight protection.

A First-class Novelty—"TAUSENDSCHON."

A New Climbing Rose.

Raised by several crossings between the well known Crimson Rambler, Tea and Polyantha Roses. This beautiful novelty surpasses all other climbing roses of this section, both in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till end of July. Each individual flower measures about 1½ inches across, and is of a beautiful soft pink, same color as Clothilde Soupert; later on changing into rosy-carmine. The plant is of strong vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless.

The shining dark-green foliage is perfectly hardy and never attacked by any disease or insects. All these good qualifications render it a first-class rose for covering walls, verandas, etc. Strong 3 in. pot plants, grafted stock, ready May 1st. Each, 25c; per doz., \$2.50; per 100, \$20.00.

GLADIOLUS PRINCEPS

See illustration, scale one-half natural size.
 This "King of all Gladiolus" has become popular beyond every other variety, both in this country and throughout Europe. It has made a class for itself, and you do not have the best of all until you buy it.
 The individual flowers are 5½ inches in diameter and sometimes one inch larger. The petals are very wide and rounded, well reflexed, forming an almost circular flower. The color is brilliant scarlet crimson with three broad white blotches on the lower petals. Spikes produce 12 to 15 flowers and grow 4 feet in height. It is exceptionally healthy and its flowering is continuous.

Mrs. Francis King.

New Giant Flowered Gladiolus.

We introduced this new variety in 1906 and everybody who has seen it growing or exhibited, tells us that we have not sounded its praises loudly enough, and that it will surely take a place in the first class for vigor of growth and brilliancy of bloom. Its color is light scarlet of a very pleasing shade which attracts attention at once. The flowers measuring 4 to 5 inches are borne on long stems and 4 to 6 are open on the spike at one time.

Each, 10c; per doz., 75c; per 100, \$4.50; per 1000, \$10.00.

Gladiolus America.

See illustration, scale one-fifth natural size.

In color it is a soft lavender pink, very light, almost a tinted white, spikes two and three feet long, very large spreading blooms, and luxuriant dark green foliage. It is evidently a favorite with florists already, bringing more than any other variety in the New York cut flower market. When cut it lasts in water a week or more, the blossoms retaining their vigor and delicate coloring to the last.

NEW EVER-BLOOMING ASTER, "IDEAL."

This new Aster produces, perhaps, more salable cut flowers to a plant than any other kind. The plants grow from 16 to 18 inches high and are in bloom from the beginning of August to the end of September almost uninterruptedly. In shape, the flowers resemble the Victoria type, except that the petals are looser so as to give the flowers a very graceful appearance.

White, Light Blue, Dark Blue, Crimson. Each of the above, trade pkt., 10c.; oz., \$1.00. New "Ideal" Aster, mixed, trade pkt., 10c.; per oz., 85c.

NEW WHITE ASTER UNICUM.

This grand new Aster, two feet in height and of vigorous branching habit similar to that of the Hohenzollern Aster, differs essentially in form of flowers from all other large flowering classes. When the buds begin to show color they are composed of very fine, thread-shaped florets, gracefully curled and twisted towards the center, which in unfolding change into long, narrowly-channelled petals regularly expanded in all directions, presenting beautiful, loose flowers of wonderful form, 5 to 6 inches in diameter. Splendid variety for cutting and for exhibition purposes. Trade Pkt., 50c.; $\frac{1}{2}$ oz., \$1.50.

ELEGANCE ASTER.

THE ONLY BEAUTIFUL SINGLE ASTER.

Single Flowering Dahlias, Chrysanthemums, Paeonias, etc., have come in favor of late, and we feel sure that this new single Aster will be very much admired. The plants are strong and vigorous, are of handsome pyramidal habit, very free blooming and produce their beautiful flowers on long, slender stems. The flowers are from 2 to 3 inches in diameter, with small yellow centers, and last for a week when cut. The petals are broad and wavy, reminding of the Single Japanese Chrysanthemums.

NEW CRESTED "VICTORIA" CYCLAMEN.

In habit and freedom of bloom like the Giganteum type. The upper edges of the petals are crested and are of the same color as the base of the flower. A very desirable novelty. 25 seeds, 65c.; 50 seeds, \$1.25.

NEW ANNUAL CHRYSANTHEMUM BRIDAL ROBE.

Of very compact and upright habit and not exceeding 10 inches in height, the sturdy plants throw out their finely feathered foliage from the base and deck themselves with a mantle of extra double pure white flowers. With their short closely-set petals the latter recall the finest forms of very large-flowering double Daisies and appear in such number that a large bed in full bloom may well be compared to a drift of snow. Coming almost true from seeds, it will certainly prove a bedding plant of the very first rank, while also useful for pot culture. Pkt., 25c.

SHASTA DAISY SEED.

We have a fine lot of clean, plump seed, saved from the best flowers only.
Alaska, flowers very large, pure white, on long stiff stems.
California, flowers very large, similar to above, but the buds and half-opened flowers are of a most pleasing clear pale lemon yellow with two rows of petals. When a day or two old these gradually change to pure white.
Westralia. This is distinguished by its branching habit. Buds and newly opened flowers are of a pleasing cream-color, semi-double, 3 to 4 inches across, and are produced on fairly long stems in great profusion.
 Price: Any of above, 1-8 oz., 25c.; oz., \$1.25; lb., \$16.00.
 The 3 colors in even mixture, same price as for separate colors.

EARLY FLOWERING PERENNIAL PINKS.

Dianthus Plumarius Nanus fl. pl.

Of easiest culture, these new early-flowering hardy grass or clove Pinks will soon be found in every yard. The plants grow in compact bushes about 12 inches high, are perfectly hardy, and produce their flowers fully two weeks earlier than the older types. Their freedom of bloom is marvelous; we have counted as many as 500 open flowers and buds on a three-year-old plant. The colors are rich and vivid and the odor delightful. Plants can be lifted and potted when in full bloom without injury. Trade pkt., 25c.

GLADIOLUS "PRAECOX."

THE ANNUAL GLADIOLUS.

The seedlings of this new strain will bloom the first year. If the seed is sown by the beginning of March, either in the house or the hot-bed, the first seedlings will commence blooming in August and from that time on new flowers will appear until late in the season. The spikes bear from 3 to 6 open flowers at one time. The flowers are broad and well rounded and measure 4 to 5 inches across. The variety of colors is very great and rich. The seedlings will stand transplanting and will bloom better if treated in that manner. Pkt. (30 seeds), 25c.; 3 for 65c.

NEW ANNUAL HOLLYHOCKS.

BLOOM FROM SEED IN 4 MONTHS.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of blooming from the seed the first year. Sow in March. The plants branch out freely, grow to a respectable height, and are not as easily attacked by the Hollyhock fungus and therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Last year we sowed some of this seed in the open ground May 19th, and the plants bloomed from the end of August until frost. Trade pkt., 25c.; oz., \$2.00.

NEW DOUBLE ANNUAL HOLLYHOCKS, WHITE.

The plants of this new strain will, like the above, bloom the first year and stay in bloom uninterruptedly until late in the season. The plants branch out freely, grow 7 feet. The leaves are long and small, entirely different from those of the old type. Color pure white. Trade pkt., 35c.; oz., \$2.50.

IMPATIENS HOLSTII, NEW HYBRIDS.

In habit like Holstii, these new hybrids bring flowers in the following new colors: White with center, rose white, deep purplish violet, orange vermillion, chamois and bright carmine. Are splendid for pots, borders or beds. **Mixed colors. Pkt., 20c.**

LOBELIA, "BEDDING QUEEN."

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of the deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the fall. The best Lobelia for carpet beds, borders and pots. **Trade pkt., 15c.; 1/2 oz., 25c.; oz., \$1.50.**

MIGNONETTE GOLIATH.

MIGNONETTE GOLIATH.

This is by far the best Mignonette in existence, surpassing even our selected strain of Giant Machet. The plants grow in fine pyramidal bushes, the foliage is rich green, contrasting strikingly with the bright red of the flowers. The flower stalks tall and stiff, while the spikes are often 7 inches in length by a diameter of 2 inches at the base. Mignonette delight in very rich (not freshly manured) soil, and require frequent watering. Trade pkt., 25c.; oz., \$1.00.

The plants grow from 2 to 3 feet high and produce flower spikes up to 20 inches long, according to the quality of the soil, weather and treatment. The seed is all saved from selected plants grown from 3 to 5 shoots to a plant and was all saved from the spikes measuring from 10 to 18 inches long.

Packet (about 1000 seeds), 50c.; per oz., \$7.00; per 1/2 oz., \$1.00.

White Pearl. Machet type. The long, erect stalks carry enormous dense spikes of white flowers which stand well above the undulate foliage and with their white and red stamina form a grand effect. Trade pkt., 25c.

Vaughan's New Crop Flower Seeds for Early Sowing.

GIANT BOULOGNE PANSIES.

Vaughan's Pansies.

Boulogne Giants. This is a special selection of a French Pansy grower's flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-bred Pansies they are shy seed bearers. **Trade pkt., 50c.**

Bridesmaid. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt., 25c.; ½ oz., 45c.; ¼ oz., 75c.; oz., \$2.60.**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rose carmine and the silver edge becomes wide. **Trade pkt., 25c.; ½ oz., 60c.**

Marechal Niel. The flowers are very large, without any blotches or veins, and are of the same pleasing, delicate cream color as the rose whose name it bears. **Pkt., 10c.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flowers. **Trade pkt., 25c.**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.**

Orchid-Flowered. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; ½ oz., 70c.; ¼ oz., \$1.25; oz., \$5.00.**

Vaughan's "Elite" Pansies. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures, and such new and novel kinds as listed above. **Trade pkt., 50c.; ½ oz., \$1.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Price, ¼ lb., \$14.00; oz., \$4.00; ½ oz., 60c.; trade pkt., 25c.**

VAUGHAN'S PREMIUM PANSIES MIXED.

Embraces all the varieties of the Fancy German Sorts. We have sold this mixture for the past seventeen years, and it has given general satisfaction. **Per pkt., 25c.; ½ oz., 80c.; ¼ oz., \$3.00; oz., \$5.50.**

IMPROVED GERMAN MIXTURE.

This is a mixture of three strains from different German growers, and is made up mostly of separate colors, with a sufficiently large percentage of white and yellow. **Per large pkt., 10c.; ½ oz., 20c.; ¼ oz., 30c.; oz., \$1.00.**

VAUGHAN'S INTERNATIONAL PANSIES.

THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it is the best general mixture in existence and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page, and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture, and which cannot be had in any other way. We beat the world on Pansies. **Price per oz., \$10.00; ½ oz., \$5.00; ¼ oz., \$1.50; trade pkt., 50c.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; ½ oz., 60c.; ¼ oz., \$1.00; oz., \$4.00.**

THE HOWARD STAR PETUNIA.

Their ground color is a dark, crimson maroon, with a rich velvety texture. Showing through the ground color are violet veinings. From the center starts the points of a five-rayed star, which broadens half-way up, narrowing to a point at the margin of the flower. The plants are free growers, branching freely and attaining an average height of 18 inches by 24 inches in diameter. They are remarkably prolific bloomers, single plants often having 50 fully expanded flowers at a time. Trade pkt., 20c.; oz., \$1.00.

PETUNIA ROSY MORN.

This new Petunia is one of the most effective and valuable of the small-flowering class, which class has gained a well-merited reputation not only for its rich and lasting florescence but for its easy culture and adaptability either to pot plants, indoor decoration or outdoor bedding. The plants grow thick and spreading like a bush and remain fairly dwarf. The pretty flowers, thickly covering the full-grown plant, are brilliant rose color, with large white throat and white center. Trade pkt., 20c.

NEW GIANT-FLOWERED PETUNIAS.

The Petunia is one of the best plants for the summer flower garden, being always in bloom. The large flowered strains are very beautiful.

Queen Louise. Flowers of immense size, 6 inches and over in diameter, of a rich velvety crimson color with broad, white margin and deep yellow throat. A very striking sort. Pkt., 25c.

German Empress. Flowers of gigantic proportions, color light lavender with veins of a rich velvety purple. A magnificent sort. Pkt., 25c.

Quadricolor. Very large; the color is a most pleasing rose. The flowers are veined for two-thirds of their surface with a network of lustrous carmine, which merges into a deep blood-red towards the expansive throat. A large proportion of the flowers have 5 spatulate graceful markings of a decided yellow, radiating from the center of the flower in the form of a five-pointed star. Pkt., 25c.

Rose Queen. Mammoth sized flower, beautifully marbled rose on white ground with a most striking veining of the deepest crimson in the wide-open throat. Pkt., 25c.

- Giant White Star.** The grandest White Star yet introduced. Pure white massive blooms of giant form produced in great abundance, admirably relieved by very dark foliage, retaining the true character of the Star Primula.
- Salmon Pink.** A most charming companion to the above White Star. For conservatory and table decoration it is indispensable.
- Blue Star Improved.** By careful selection of large blooms for stock we have produced a strain of really Giant Blue Star Primula with much darker blooms; the dark blue flowers harmonize with the pale green foliage. A most valuable Star Primula.
- Crimson Star.** The grandest colored Star Primula yet introduced; the rich crimson blooms, which are as dark as Crimson King Sinensis, contrasts beautifully with the dark green foliage.

SCHIZANTHUS WISETONENSIS.

This wonderfully showy plant deserves to be widely known and cultivated. Attaining a height of about 16 inches, branching freely and yet of compact pyramidal form, it throws well above its charming feathery foliage a multitude of large panicles of beautiful blossoms. Its ground color is mostly white dotted with delicate rose, while the upper lip is adorned in the center by a spot varying in shade between golden yellow, carmine, rose and bright brown. These lovely Schizanthus, literally covered as they are with their dainty little flowers, make excellent pot and market plants. If planted in the open they require a somewhat shaded position. Knowledge of the
Needs of
Market Gardeners

We Make a Specialty of Seeds for Market Gardeners and Florists

Since 1877 when the President of this Company solicited personally the Market Gardeners trade of Chicago and learned their wants, we have not only watched for every new or improved vegetable, but we have paid the highest wholesale prices to growers for fancy strains of garden seeds.

We have represented these seeds as they are. If eastern grown Onion seed was wanted and cost more, we have paid the price and furnished it and have not substituted a cheaper grade. We have done the same with other seeds. We still intend to supply our customers with Vaughan's Seeds with the understanding that they are as nearly what we represent them as human training and care can make them.

We must say this further, Vaughan's Seeds are as cheap as the best market garden quality can be sold.

When ordering be sure that we understand exactly the kind of vegetables that your market or your particular trade requires, and we will supply the same. Market gardeners know that every city has favorite varieties in most leading vegetables. BONVALLET'S GIANT ASPARAGUS.

New Asparagus, BONVALLET'S GIANT

This new Asparagus brings the highest prices in the Chicago market, and is in great demand for its flavor and its great size and whiteness. Its superior qualities are: **EARLY BEARING** of extra long spears, which are tender and of fine flavor. **LASTING QUALITY.** Since the crown does not divide, it yields large shoots for a longer time than any of the older kinds. **RESISTANCE TO THE ASPARAGUS RUST,** which has been so disastrous to many asparagus beds.

SEED. Oz., 15c; 1/2 lb., 40c; 1 lb., \$1.50.

TWO YEAR OLD SELECTED ROOTS. Per 100, \$1.75; per 1000, \$12.00.

NOTICE:—Our Bonvallet's Giant runs very even in color, our gardeners claim the entire crop is nearly uniform and the cut shoots can be bunched without sorting, and make good selling bunches.

VAUGHAN'S IMPROVED LATE FLAT DUTCH.

DANISH BALLHEAD.

EARLY ALLHEAD OR FAULTLESS.

EARLY JERSEY WAKEFIELD VAUGHAN'S SELECTED

The best early Cabbage in cultivation. It forms fine solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. We offer this as the earliest strain of this standard variety. Grown only from selected heads. Our strain is remarkably pure; warranted to give satisfaction.

Large or Charleston Wakefield

This sort forms uniform solid heads, considerably larger than the Early Wakefield, and matures only a few days later; on clay ground it will mature just as early. Largely planted by gardeners in the South.

VAUGHAN'S BRIDGEPORT DRUMHEAD

CABBAGE

VAUGHAN'S SURE HEADING SEED

IMPROVED Early Spring

"New Early Flat Head"

Also known as the Eureka Early. This is a cross between Jersey Wakefield and Succession, and its mixed blood is plainly shown in the stock, the leaves indicating the Wakefield growth. By careful selection for five years we have secured an early flat heading variety, having the thick leathery leaves of the Wakefield and producing slightly rounded heads at practically the same date as the pointed Wakefield. The plant is of robust habit, dwarf growing and with but few outside leaves. A very reliable header of best quality. We have great faith in this variety as a truly valuable acquisition for the market gardener's list, and it is giving satisfaction wherever planted by them. Pkt., 10c.; ½ oz., 15c.; oz., 25c.; 2 oz., 40c.; ¼ lb., 60c.; lb., \$2.10

Early "Allhead" or Faultless

Our seed is grown on Long Island by the originator. If a gardener or amateur were to plant but one variety of cabbage he could get none that would answer all purposes as well as the Early "Allhead." For uniformity, reliability of heading, size, earliness and quality it has no equal. It is also very profitable, since the outer leaves are so few, a close planting can be made, and 1,000 more cabbages per acre be grown than from seed of other sorts. 5 lbs. (by express) \$9.00; per lb., \$2.00; ¼ lb., 60c.; 2 oz., 35c.; oz., 20c.; ½ oz., 15c.; pkt., 5c.; postpaid.

EARLY CHANTENAY.

VAUGHAN'S SELECT DANVERS.

CARROTS

FOUR POUNDS TO THE ACRE

Our Carrot Seed is raised by experienced and careful growers who know the importance of selection and isolation and practice it. Our seed is clean, pure and true to name and should satisfy any market gardener, no matter how critical.

Early Chantenay The Best Bunching Carrot.

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about six inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seed is most carefully selected. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., \$2.75.**

GUERANDE, OR OXHEART

A thick Carrot, 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep red color, and is a variety we can recommend to all market gardeners. **Øz., 10c.; ¼ lb., 20c.; lb., 60c.; 5 lbs., \$2.75.**

CAULIFLOWER

No seed is more important than this, as every gardener knows. It is one of the seeds in buying which price should never be questioned.

VAUGHAN'S EARLIEST DWARF ERFURT

Vaughan's Earliest Dwarf Erfurt combines all pedigree points—earliness, purity of color, dwarf habit, fine grain. This seed will produce cauliflowers worth the highest market price. It cannot be sold cheap for above reasons; but the shrewdest gardeners find it the most profitable. **Lb., \$30.00; ¼ lb., \$8.00; oz., \$2.00; ½ oz., 65c; Pkt., 25c.**

Danish Snowball	This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. CAULIFLOWER

Vaughan's New Snowball

The Best for Early and Late Summer and Fall Crops—Always Sure to Make a Solid White Head.

We know of no better type of this variety—very early, smoothly rounded heads, fine grained, compact, even in size. This variety, while a first early, is better adapted generally to fall use than the large late sorts commonly used for that purpose. We stake our reputation on its merits against all comers. All we want is that our customers try it—everyone who uses cauliflower, according to his needs—from packets to pounds. The habit of the plant is close growing and compact, and plants can be set closely together, from 18 to 21 inches. Every plant which did not produce a perfect head was discarded when selecting our stock plants for seed. Our customers have found it, by careful tests, fully equal to the best Cauliflower which they have ever grown. "Vaughan's New Snowball" is put up in packages as follows: Pkts., ¼ oz., ½ oz., 1 oz., and ¼ lb., sealed with our trade-mark and with distinctive paper and printing. Price, pkt., 25c.; ¼ oz., 65c.; ½ oz., \$1.25; oz., \$2.00; ¼ lb., \$8.00; lb., \$32.00.

WHITE PLUME, VAUGHAN'S SELECTED STOCK.

CELERY

"Winter Queen" This is without doubt the most valuable variety of Celery for Winter and Spring use. It is also much stouter, thicker and heavier, with double the amount of heart of any known Celery. The plant is of close habit and blanches to a beautiful cream white. Ribbs perfectly solid, crisp and of a delicious nutty flavor. Grow Winter Queen once and you will always grow it. ½ oz., 12c.; oz., 20c.; ¼ lb 50c.; lb., \$2.00.

Vaughan's Giant Golden Heart The best Celery for Winter storage. Ever since we introduced this Celery it has gained in public favor and rightly so, for it is not only the best keeper, but it is large, solid, as sweet as a walnut and of a beautiful golden color. It is a selection from the Dwarf Golden Heart; grows much larger than its parent. Lb., \$2.00; ¼ lb., 50c.; 2 ozs., 30c.; oz., 20c.; ½ oz., 12c.

White Plume, Self-Blanching—Vaughan's Selected Stock We have not yet found a Celery that is as early and of as good a flavor, as crisp and tender, as our selection of this sort. We sell large quantities of this seed to market gardeners, who find it uniformly white and free from green or hollow stalks. It is not a good keeper, but it is excellent for Fall and early Winter use. Lb., \$2.00; ¼ lb., 50c.; 2 ozs., 30c.; oz., 20c.; ½ oz., 12c.

WHITE PLUME—Regular Stock. Lb., \$1.50; ¼ lb., 40c.; 2 ozs., 25c.; oz., 15c.; ½ oz., 10c.

Golden Self-Blanching—Vaughan's Selected Stock This is the best Celery for early use. The stalks are much broader and heavier than those of the White Plume, and greatly superior in quality. It is ready for use nearly as early, producing dwarfer and much larger bunches of broad, heavy stalks, blanching to a deep golden yellow. The handsome color, crispness, tenderness, freedom from stringiness and nutty flavor of this variety make it only necessary to be tried in order to establish it as the standard of excellence as an early sort. Lb., \$3.50; ¼ lb., \$1.00; 2 ozs., 60c.; oz., 35c.; ½ oz., 20c.

SWEET CORN.

Please Note: Our Sweet Corn, like all our Garden Seeds, is grown from specially selected pedigree stock seed, and our prices must not be compared to those of "picked up" stock, raised by inexperienced growers who do not understand or practice such selection or isolation of the kinds.

MAMMOTH WHITE CORY.

STOWELL'S EVERGREEN.

Mammoth White Cory. One of the largest and best extra early varieties. Each stalk furnishes two or more large, fine shaped ears, which are fit for use before those of any other sort. The ears are twelve-rowed, very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white, and of remarkably good quality for such an early sort. The size and beauty of this variety gives it ready sale even when the market is over-stocked. Qt., 20c; ½ pk., 40c; pk., 75c; bu., \$3.00.

Improved Early Champion. The Earliest Large Sweet Corn. Produces ears 12 in. long in 60 days. This new variety is without question the earliest large Sweet Corn yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Mammoth 12 rowed; pure white kernels, with medium sized white cob; very sweet, tender and full of milk; yielding two and three ears to the stalk. The best kind for early and late planting. Qt., 20c; ½ pk., 40c; pk., 75c; bu., \$3.00.

MUSK MELONS

Special Prices on 5, 10 and 20 Pound Lots.

Vaughan's Original Osage

This famous Melon is our own introduction, and we take special pride in maintaining the quality and superiority of our stock. We pay many times the prices given ordinary seed growers to get our seed raised in the best locality and then selected from merchantable early Melons. Seed obtained from culls left in the field after marketing is over can be bought cheaply, but is high at any price. However seed taken from early choice market melons must bring a high price, though really a hundred times cheaper than the other. Salmon flesh, high table quality; during the last season was the best Melon on the Chicago Market. Our strain is dark skinned, but moderately netted.

Vaughan's Selected Stock—Lb., \$2.50; ¼ lb., 75c.; 2 oz., 45c.; oz., 25c.
Ordinary Seed—Entire field grown for seed, but seed not chosen from special Melons. Lb., \$1.15; ¼ lb., 35c.; oz., 10c.; 10 lbs., \$10.00.

Special Shipping Osage Slightly more netted than ordinary type; especially selected for shipping. Lb., \$1.60; ¼ lb., 50c.; oz., 15c.

Netted Gem—Rocky Ford.—Selected Stock This seed is carefully grown and saved at Rocky Ford under the care and supervision of one of the most careful shippers. It is well known that much seed offered as Rocky Ford stock has been saved by local growers from surplus or cull Melons by men who know nothing of the responsibility of the seed business. Careful planters should avoid this kind of stock.

VAUGHAN'S SELECTED STOCK—From best melons in field. Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.25.

ORDINARY STOCK—Seed from entire field planted only for seed. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

Vaughan's Paul Rose, or Petoskey

The best and most uniformly high quality table Melon introduced in ten years. No other seeds of Paul Rose Melons can equal our selection in quality, appearance, and evenness of type, because other growers have not the same knowledge or painstaking interest in perfecting the type. We say for Paul Rose Melon Seed come to headquarters. It will pay you. "This is a cross of the Osage with the Netted Gem, and combines the sweetness of the former with the fine netting of the Gem. It has also the firmness of meat and cheesy structure peculiar to the Osage. In this respect it is superior to any Melon in existence, because of this thick, solid flesh, free from stringiness, which does not become watery or 'break down' in keeping, retaining its form twice as long as any other shipping Melon. Ripens about 10 days earlier than the Osage. Flesh, reddish-salmon; outside green, netted like Gem." Mushrooms

The increase in the demand for this rich flavored *Agrarius* is wonderful, and yet the prices are not only maintained, but increased. We have been most successful in supplying with satisfaction our Imported English Spawn (Vaughan's Special) to market growers. For this purpose and to have a fresh supply always on hand, we make five importations yearly. We now supply annually, East and West, scores of wholesale Mushroom caves, sheds or greenhouses with their entire planting stocks of spawn.

English Mushroom Spawn Our spawn is manufactured by the largest and most successful maker of spawn in the world. He has made spawn for some thirty years and has kept up on all the new methods of manufacture. Our spawn is made by the famous tissue method from selected specimens. It has been found that English Spawn as a rule does not bear so quickly as the American pure culture, but it, however, lasts much longer in bearing.

English Mushroom Spawn (VAUGHAN'S SPECIAL). Price, per brick, 25c.; 5 lbs., \$1.00, postpaid. By express or freight, per brick, 15c.; 2 for 25c.; 5 bricks, \$1.00; 25 lbs., \$2.00; 100 lbs., \$6.50; if shipped from New York, \$6.00. Special prices on ½ ton lots and upward.

Pure Culture "Garden City" Spawn The highest development in the art of spawn making. This spawn is made from tissue cultures from select specimens produced by spore (seed) culture. The bricks are inoculated with tiny threads from a young specimen fruit, so that special sorts or strains are produced, true to type. By this selection of varieties the inferior yielding kinds are avoided. We carry the Cream Brown or Bohemia variety, which has proven the best yielder. We can, however, supply the Pure White, Brown, Alaska or Columbia pure culture spawn. Price per brick, 35c.; 2 bricks for 60c., postpaid; by express or freight, 5 bricks for \$1.00; 10 bricks, \$1.75; 25 bricks, \$3.50; 100 bricks, \$12.00.

Water Melon

Kleckley's Sweet A large, oblong Melon, 20 inches in length by 10 to 12 inches in diameter, somewhat tapering at the ends. The skin is dark green, flesh bright scarlet, ripening close to the skin, the rind being only about one-half inch in thickness. The large, solid heart does not crack open when ripe. The flesh is sweet and sugary. The Melon is better for home use than for shipping, and we believe it is the best Table Melon to-day. Monte Cristo is identical. 5 lbs., \$2.50; 1 lb., 60c.; ¼ lb., 20c.; oz., 10c.

McIver's Wonderful This is one of the sweetest Water Melons of all. The Melons attain a great weight, are of a very handsome appearance, never crack or lose their fine flavor in the wettest season. Oz., 10c.; 1 lb., 60c.; ¼ lb., 20c.; 5 lbs., \$2.50.

Cole's Early This is the best Early Water Melon for the home market to-day. For sweetness and delicate texture of flesh it has no equal. The rind is thin but brittle, and therefore not suitable for shipping; for the home market we know of none better. Extreme earliness is its great merit. 5 lbs., \$2.65; 1 lb., 60c.; ¼ lb., 20c.; oz., 10c.

Improved Kolb's Gem The seed of this is saved from large, smooth melons of a darker mottled green than the Kolb's Gem. The melons show a yellow blotch on the bottom. It is fully a week earlier in ripening, besides growing larger and a heavier yielder. 10 lbs., \$3.25; 5 lbs., \$1.75; 1 lb., 40c.; ¼ lb., 15c.; oz., 10c.

Triumph It is a cross between Duke Jones and Kolb's Gem. It has the handsome appearance of the former and the shipping qualities of Gem; very early, very prolific, deliciously sweet, and of enormous size. Vaughan's Black Diamond A cross between Kolb's Gem and Hoosier King. Its prominent points of merit are its extreme size and productiveness. Melons weighing 75 to 90 pounds are frequent. It is the most prolific Water Melon. Its color is a rich, dark green, almost black. Of uniform symmetrical shape, roundish to bluntly oval, and this similarity of shape running through the whole field. Oz., 10c.; ¼ lb., 20c.; 1 lb., 50c.; 5 lbs., \$2.00; 10 lbs., \$3.50.

The Dixie We can recommend it as one of the best shipping melons grown. Of very fine appearance, being darker than Kolb's Gem and more beautifully striped; unexcelled for eating. Lb., 50c.; ¼ lb., 15c.; oz., 10c.; in 5 and 10 lb. lots, 45c. per lb.

True Ice Cream The great Home Market Melon. It has too thin a rind for shipping unless packed in straw. Few, if any, surpass a True Ice Cream for quality and productiveness. Lb., 50c.; ¼ lb., 15c.; oz., 10c.

Winter Water Melon (Novelty) This Melon is early, earlier than Sweetheart and a very prolific bearer. The flesh is red, of extreme firmness, in fact almost as hard as citron, very brittle and deliciously sweet. In color it is very light green, almost white. The firmness of the flesh causes it to be the longest keeper of the Water Melon family. Placed in a cool place it will keep as long as a Hubbard Squash and still retain its delicious sweetness and flavor. ½ oz., 15c.; oz., 25c.; 2 oz., 40c.; ¼ lb., 60c.; 1 lb., \$1.80

COLE'S EARLY.

NITRATE OF SODA. FOR ONIONS.

A top dressing of from 75 to 100 lbs. two or three times at intervals of about three weeks after the crops have well started.

Vaughan's Pedigree Onion Seed.**VAUGHAN'S IDEAL WHITE GLOBE.****OHIO YELLOW GLOBE.****Nitrate of Soda vs. Farm Yard Manure.**

Market gardeners are in the habit of using from 50 to 100 tons of stable manure every year. They will tell us that they might as well stop gardening as stop manuring, and they will continue to use year after year such enormous quantities of manure containing no ready formed nitric acid, which is the main source of nitrogen in plants. If they receive the manure for nothing, the labor of hauling it, handling and distributing it costs more than the amount of nitric acid which it naturally yields by decomposition in the soil could be purchased for in the form of nitrate of soda, and in these market gardens the soil is so charged with carbonic acid that it excludes the oxygen and decomposition proceeds very slowly, and to produce the necessary quantity of nitric acid more and more manure must be used. Try nitrate of soda. It acts like magic; it will pay ten times over.

WE are taking a great deal of pride in our strains of Southport Onions; the white and yellow as well as the red. Our Seed Onions are selected with greatest care, and none are planted except they have all the necessary requirements of the true type. The Onions are almost perfectly globe shaped, with thin necks and clear skins.

Southport Blood-Red Globe. Our Blood-red Globe is of a beautiful crimson red, and a better lot of seed cannot be found. This variety has for the past five years proven one of the most profitable for the market and shipping trade, commanding uniformly good prices in carload lots. Ours is the best selling color and shade.

Price: Eastern Grown, oz., 20c; ¼ lb., 60c; lb., \$2.40; 5 lbs., \$11.75; 10 lbs., \$23.00.
Price: Western Seed, oz., 15c; ¼ lb., 50c; lb., \$2.00; 5 lbs., \$9.75; 10 lbs., \$19.00.

Southport Yellow Globe. A main crop, late, large, round Onion. It is sure to satisfy the one who buys a packet or the one who sows 50 pounds for carload shipments. A truly grand Onion whose large golden yellow spheres make a beautiful appearance, sacked or barreled for the market. Finest of all yellow Onions for keeping.

Price: Eastern Grown, oz., 25c; ¼ lb., 70c; lb., \$2.75; 5 lbs., \$13.50; 10 lbs., \$26.50.
Price: Western Seed, oz., 20c; ¼ lb., 65c; lb., \$2.50; 5 lbs., \$12.25; 10 lbs., \$24.00.

Vaughan's Ideal White Globe. This is the handsomest of all Onions. Our genuine Connecticut Grown stock is of the true globe form; pure white, hard, small necked, ripening very early and evenly, a good keeper. We supply the largest market gardeners in Chicago and the west. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it when seed like ours is to be had, the results of a few ounces often paying twice the first cost of the best seed.

Price: Eastern Grown, oz., 30c; ¼ lb., \$1.00; lb., \$4.00; 5 lbs., \$19.75; 10 lbs., \$39.00.

Ohio Yellow Globe. Vaughan's Special Ohio Grown Seed, finest shaped, best colored and largest cropper of any yellow Onion. This is an extra fine selection of the best colored, finest shape and heaviest, yielding bulbs, entirely distinct from the old type Yellow Globe Danvers. It is earlier, has a smaller neck, is of perfect globe shape and uniform in size and color. Oz., 25c; 2 ozs., 45c; ¼ lb., 70c; lb., \$2.75. By express, 5 lbs., \$13.50; 10 lbs., \$26.50.

Vaughan's Apple-Shaped Red Globe. This is the most perfect market type of Red Globe Onion. Ideal for enclosing the most bulk in the most compact shape. Its color is absolutely the darkest blood-red. Its size is equal to any of the largest types of Red Globe. Fifteen years ago this Onion was first planted in the West, under the name of Extra Early Red Globe. Since that time, grown on rich land, carefully selected for size, shape and color, it has been improved a little each year, until we believe it now the very best of its class. This Onion (our seed) produced in 1905 the best crops ever raised in the famous Racine, Wis., onion district. Oz., 20c; ¼ lb., 75c; lb., \$3.00.

Extra Early Australian Brown Globe. Medium size, excellent keeper and very early. Oz., 15c; ¼ lb., 50c; lb., \$2.00.

Prizetaker. Vaughan's Selected Stock. An excellent keeper, of finest flavor, handsome shape and enormous size, many single Onions having been raised to weigh five pounds and over from seed the first year. The Prizetaker grows always to a perfect globe shape, with a bright straw-colored skin; the necks are very small and the Onions always ripen up hard. Ours is American-grown seed. Oz., 15c; ¼ lb., 50c; lb., \$1.60; 5 lbs., \$7.75; 10 lbs., \$15.00.

White Bermuda. True Tenerife Grown. These are the first early Onions which are shipped north in large quantities, both in Bermuda and our southern states, and imported to our northern markets in the early spring. In the southern part of the United States as well as Bermuda our imported Tenerife Seed gives the best results. In our northern climate the bulbs are much smaller, but mature early, and retain much of the mild sweet flavor of the imported ones. While these are called White, the Onions are actually of a light straw colored skin, but pearly white, very mild flesh. Shape flat.

We offer seed imported direct from the best growers. Oz., 15c; ¼ lb., 50c; lb., \$1.60.

Mammoth Silver King. This mammoth variety is one of the largest in existence, averaging from 15 to 22 inches in circumference, often weighing from 2½ to 4 pounds each. It matures early and is of uniformly large size and fine shape, being flattened, but thick. The skin is of a beautiful silver-white, flesh snowy and tender, of mild, sweet flavor. Its striking size and handsome appearance, as well as mild flavor, recommend it for the fancy market. Oz., 15c; 2 oz., 25c; ¼ lb., 45c; lb., \$1.60; 5 lbs., \$7.50.

SOMETHING NEW.

Early White Welsh Onion. For Green Onions. This kind does not form a bulb, but is one of the best kinds for "Green Onions." The plants are perennial and can remain in the ground for years. This is the sweetest of all Onions. Oz., 25c; 2 oz., 40c; ¼ lb., 75c; lb., \$2.00.

LARGE RED WETHERSFIELD.

This is the Standard Red Variety and a favorite onion in the east, where immense crops are grown for shipment. Large; skin, deep purplish-red; form round, somewhat flattened; flesh, purplish-white; moderately fine grained, and stronger flavored than any of the other kinds. Very productive, the best keeper and one of the most popular for general cultivation. It is more inclined to form large necks, if planted on unsuitable soil, than the Danvers, but it is the best variety on poor or dry soils. **Oz., 15c; ¼ lb., 40c; lb., \$1.50; 5 lbs., \$7.25; 10 lbs., \$14.00.**

Large Yellow Dutch, or Strasburg. The best Yellow for sets. We sell hundreds of pounds for that purpose. Flat; flesh white, fine grained, mild and well flavored. **Oz., 15c; ¼ lb., 45c; lb., \$1.75; 5 lbs., \$8.50; 10 lbs., \$16.50.**

New Crystal White Wax. The most popular Onion in the Texas Onion Section. Large, pure white and flat. Does well in the north. It grows to a good size, is very early, and is the mildest and sweetest of all. The best slicing Onion. **Pkt., 10c; ½ oz., 15c; oz., 30c; ¼ lb., \$1.15.**

Vaughan's Pickling. This is a uniformly early, small, round, hard, crisp, tender and very handsome variety, with an opaque white skin, which does not turn green upon exposure to the sun. WHY PLANT ONION SETS? Because they produce directly an Onion ready for market or the household from four to six weeks earlier than can be done by the sowing of the seed, and the product of the set is identical with that of the seed. This gives the market gardener ample time to sell his entire crop at a high price, besides enabling him to sow for another crop the same year.

ONION SETS.

We sell Bottom Onion Sets, Shallots, White Multipliers, and Potato Onions by weight, 32 lbs. to the bushel. Top Sets, 28 lbs. to the bushel. : : :

ONION Sets are subject to market changes, and while we shall try to maintain these prices, we cannot guarantee them to last throughout the season and advise early orders. "By express or freight" always means the purchaser pays the transportation charges.

BOTTOM ONION SETS.

These are the product of seed and are used for "Green Onions" or to produce large Onions, which they do much quicker than can be grown from seed.

White Bottoms. Our sets of this are very choice, small, dry and unsprouted. Bushel (32 lbs.), \$3.00; peck, 85c; ½ peck, 50c.

Yellow Bottoms. Fine, dry sets, medium in size and unsprouted. Bushel (32 lbs.), \$2.50; peck, 75c; ½ peck, 45c.

Red Bottoms. Bright, deep red in color, even and dry; these are scarcer this year than the white bottom sets. Bushel (32 lbs.), \$2.50; peck, 75c; ½ peck, 45c.

Egyptian, or Perennial Onion. This variety never forms a large bulb; their value lies wholly in their special adaptability for producing Green Onions for spring or fall use. They are perfectly hardy and stay in the ground all the time. Top Sets, by express, peck, 50c; bushel (28 lbs.), \$1.75.

Shallots, or Yellow Multipliers. ½ peck, 60c; peck, \$1.00; bushel (32 lbs.), \$3.50.

WHITE MULTIPLIER ONION SETS.

Green Onions for First Early Spring Bunching.
 They are of a pure silvery-white color, enormously productive, frequently producing as many as twenty bulbs in a single cluster from one bulb planted; of excellent quality and size for bunching. Their keeping qualities are remarkable, having kept perfectly sound for a year, but their most important quality is extreme earliness, being ready for market three to four weeks ahead of other Onion Sets. ½ peck, 60c; peck, \$1.00; bushel (32 lbs.), \$3.50.

THE NEW SURPRISE PEA.

VAUGHAN'S TRUE STOCK

New Surprise Pea The Earliest of All the Sweet Wrinkled Peas

THIS remarkable sort is a cross of Earliest of All and American Wonder possessing the quality of the American Wonder and is as early as the Earliest of the hard Peas. The vines grow 24 inches high and need no bushing; the pods are well filled, containing 6 or 7 peas. The peas are not as large as those of the American Wonder, but **Surprise** is a far better cropper and ready for market days before it. It is the earliest Pea we have ever tried. The Editor of the "New England Farmer" writes: "Of 33 varieties on trial it was the first to pick and the first to dry down." **SURPRISE** has the hardness of Earliest of All. It is a far better Pea, and cannot be recommended too highly. It is, ordinarily, not subject to mildew, and can therefore be planted again in August for a late crop, a point which market gardeners and private planters will appreciate. Price: **Qt., 20c.; 2 qts., 35c.; ½ pk., 65c.; pk., \$1.25; bu., \$5.00.**

These can all be planted at the same time, and they will be ready for use in succession.

Nott's Excelsior Height, 15 inches. As hardy as the earliest market sorts, but in quality equal to the Little Gem. It outyields that variety and the American Wonder 20 to 30 per cent, and is as early as the latter. The pods are about 3 inches long and each pod contains from 6 to 8 large peas, which are tender and of unusual fine flavor. It not only yields more heavily in bulk of pods than other dwarf varieties of the same season, but also of shelled peas. Price, by express or freight, at buyers' expense, qt., 30c.; ½ pk., 95c.; pk. \$1.75; bu. \$6.50.

McLean's Advancer A great favorite and largely used by market gardeners, as the large, handsome, well-filled pods containing peas of finest quality for table use, are borne at the top of the stalk, and are easily gathered. Very vigorous in growth; height, 2 feet; seed green, very much wrinkled. About 10 days later than Nott's Excelsior. Our strain is remarkably pure and desirable. Very popular in some sections with canners. Price: By express or freight, at buyers' expense, qt., 20c.; ½ pk 60c; pk., 90c.; bu. \$4.00.

Heroine In every way worthy the great popularity it has already attained. Elegant habit of growth, luxuriant foliage, pods remarkably long and handsome, slightly curved, well filled with large, luscious peas of fine flavor. This fine variety, apparently as good as Stratagem for all purposes, is far superior to that in habit, growing remarkably even and true. Height, 2 feet; seed green and very much wrinkled. About a week later than Advancer. Price: By express or freight at buyers' expense, qt., 20c.; ½ pk., 65c.; pk., \$1.15; bu., \$4.50.

The peppers when young are of a bright deep green color, without any shade of purple; when ripe they are of a very beautiful red; the flesh is thick, sweet and mild. They often grow 6 inches long by 4 inches through. Our strain has been selected with great care for over twenty years. Lb., \$2.00; 1/4 lb., 60c.; oz., 20c.; 1/2 oz., 12c.

Ruby King Grows 4 1/2 to 6 inches long, by 3 1/2 to 4 inches thick. The peppers are bright ruby red; one of the best for stuffed pickles. The meat or walls are quite thick, crisp and tender. Lb., \$2.00; 1/4 lb., 50c.; oz., 20c.; 1/2 oz., 12c.

Chinese Giant Double the size of "Ruby King." Not only is it early in ripening and productive for so large a pepper, but its size will cause it to sell most readily. The fruits are of thick blocky form and of glossy scarlet. They grow four or five inches broad at the top, and are of equal length. All uniformly large. The flesh is mild and unusually thick; it makes an excellent salad sliced and served like tomatoes. Pkt., 10c.; 1/2 oz., 25c.; oz., 40c.

Cayenne Pickling Of dwarf habit, and does not branch very much, but unlike the ordinary Cayenne, the peppers grow erect on the plant and are about 2 1/2 inches long; just the right size for pickling. Pkt., 10c.; 1/2 oz., 15c.; oz., 25c.

VAUGHAN'S SELECTED STOCK

LITTLE SILVER, NEW JERSEY.—Send me another 5 lbs. of your selected stock of Scarlet Globe Forcing Radish for immediate use. I am now shipping radishes every day, grown from this stock, and the crop is the most productive I have ever grown during my 20 years of gardening.
T. M. WHITE, Florist and Gardener.

A desirable sort for hot-bed forcing and out doors; very early, mild and crisp, juicy and tender; top small; will stand heat without becoming pithy. One of the best selling and most attractive Radishes on account of its bright scarlet color and handsome shape; is ready in 28 days. **Our stock of this is the very best;** selected with special care as to size, shape, color and earliness, and market gardeners will find it a money-maker, as it is just right in every respect. Market gardeners who raise this (and other sorts, too, for that matter) can depend on the quality being right. We take the greatest pains to have it so. For family use this should be sown every ten days in order to always have a fresh supply.

PRICES: VAUGHAN'S SCARLET GLOBE. Oz., 10c.; ¼ lb., 25c.; lb., 70c.; 5 lbs., \$3.25; 10 lbs., \$6.00. **ORDINARY STOCK SCARLET GLOBE.** Oz., 10c.; ¼ lb., 20c.; lb., 50c.; 5 lbs., \$2.25; 10 lbs., \$4.00.

Scarlet Turnip, White Tip VAUGHAN'S SELECTED STOCK

For outdoor sowing this is the most important sort in the Chicago market, thousands of pounds being annually used. **Our stock of this is the best.** Some years ago we secured stock seed of just the kind that was wanted by the most critical hotel and grocery trade, and had it grown for us, paying an extra price for special and critical selection. This seed is raised from transplanted roots, and is just right in color, size and shape. We have many customers who buy large lots of this, always asking for "as good seed as they had last year."
Oz., 10c.; ¼ lb., 15c.; lb., 40c.; 100 lbs., \$35.00.

SCARLET TURNIP, WHITE TIP, ordinary stock; lb., 30c.; ¼ lb., 12c.

Vaughan's Early Scarlet Globe, White Tip The best and quickest of the **White Tips.** An extremely quick growing sort; bright scarlet with a white tip, short tops and thin tails, of excellent quality. 5 lbs., \$2.80; lb., 60c.; ¼ lb., 20c.; oz., 10c.

The "Icicle." The Best Long White Radish

Entirely distinct, long, slender, pure white, the earliest and finest long white. It is ready for use fully as early as the Long Scarlet Short Top, with less foliage, rendering it most desirable for forcing. In the open ground the roots continue brittle, crisp and mild, until they are fully as large as those of the Long Cardinal. It is superior to the finest red ones in quality. Roots pure snowy white, four inches in length and half an inch in diameter; they retain their crispness and fresh, mild flavor until fully six inches long and an inch in diameter. Oz., 10c.; ¼ lb., 15c.; lb., 50c.

Early Long Scarlet, Short Top The standard long variety for market and home gardens. Root long, growing partly above ground; straight, smooth, rich scarlet color; very crisp and a quick grower. Our seed is specially selected. 5 lbs., \$1.75; lb., 40c.; ¼ lb., 15c.; oz., 10c.

Sandwich Island Mammoth Grows uniformly to an extra large size, averaging fully double the size and weight of the roots of the old variety. The roots, notwithstanding their size, are of superior quality and very delicate flavor. **Lb., \$1.00; ¼ lb., 30c.; oz., 15c.**

SORREL.

Sorrel—Sauerampfer-Oseille

Of the easiest growth. Sorrel is cultivated for its leaves, which possess a very fine flavor; boiled and served like Spinach. It also makes a delicious soup. **Lb., \$1.00; ¼ lb., 25c.; oz., 10c.**

SPINACH

Vaughan's Norfolk Savoy Spinach

This is the variety so highly prized by the large planters about Norfolk, Va. The leaves, remarkably thick and blistered, extremely hardy, do not settle in the barrel in shipping as do the other varieties. No seed has caused planters more dissatisfaction than spurious varieties of this, whole crops having been plowed under or abandoned because they were not of the proper kind. Our strain has secured the trade of the largest and best growers in the country. **Lb., 20c.; 5 lbs., 80c.; 10 lbs., \$1.40; 25 lbs., \$3.25; 100 lbs., \$12.00.**

Swiss Chard—A Money Crop

Cut and Come Again Spinach

Far superior to the common Beet for greens and equal to Spinach. Sown early in the Spring, in rows 16 ins. apart, and the seedlings afterward thinned out to 6 ins. in the rows, it makes rapid growth of leaves, and is fit for use for greens sooner than any other variety. For Summer use it is superior to Spinach, because it can be cut throughout the entire Summer and Fall, when no Spinach is to be had. It is of almost the same flavor and it is much easier to wash and prepare for the table. **Lb., 40c.; ¼ lb., 15c.** No vegetable requires less care than this, and it is safe to say that none yields as constantly as this Spinach, producing uninterruptedly from July until Fall.

CUT AND COME AGAIN SPINACH.

SQUASH.

CHICAGO WARTED HUBBARD SQUASH.

Chicago Warted Hubbard Squash

Our strain of the above will produce mainly the type shown in our photo-engraving, which we consider the ideal Hubbard for home or for market. For thirty or forty years this Squash has ranked first for a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Because of this our selection of Chicago Warted Hubbard has been made. **Lb., 70c.; ¼ lb., 25c.; 2 ozs., 15c.; oz., 10c.; 5 lbs., \$3.25; 10 lbs., \$5.50.**

Hubbard An extra choice selection. None better in the market. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., \$2.75; 10 lbs., \$5.10.**

Red or Golden Hubbard A perfect type of the Green Hubbard, except in color, which is a bright, deep orange-yellow, very showy and attractive. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, looks very dry and is of excellent flavor. Its keeping qualities are fully equal to, while in productiveness it far exceeds the Green variety. **Lb., 80c.; ¼ lb., 25c.; oz., 10c.**

Delicious (fine quality). ¼ lb., 65c.; lb., \$2.25.

Vaughan's Summer Crookneck. Lb., 60c.; ¼ lb., 20c.; oz., 10c.

Summer Crookneck. Lb., 50c.; ¼ lb., 15c.; oz., 10c.

Mammoth White Bush. A very select and profitable strain for market.

Lb., 50c.; ¼ lb., 15c.; oz., 10c.; 10 lbs., \$4.50.

"Straight-Neck" Summer Squash

Market gardeners who ship early Squash to distant markets know the difficulty of packing the crook-necked variety in boxes to good advantage. In our "Straight-Neck" the bad feature of the crook has been overcome, and by continued selection the size has been increased, more uniformly in shape, improved quality. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

VAUGHAN'S TOMATO SEED.

SEE ALSO NOVELTIES.

THE NEW STONE.

VAUGHAN'S IMPROVED STRAIN.

THE Tomato for a Main Crop. Choicest seed. We call this the king of the Livingston kinds, which are the best types of large, smooth, solid "beefy" tomatoes. If asked to select one main crop, market sort, we advise this. Color, fine scarlet, stem (calyx) set high, core small and shallow, so that but little is lost when it is taken out of the fruit before slicing. We want to make what we say of this kind definite, because there are very many good kinds, and a long list is confusing. If in doubt, buy the New Stone for market or home use for that matter. $\frac{1}{2}$ oz., 15c.; oz., 25c.; $\frac{1}{4}$ lb., 60c.; lb., \$2.00.

EARLIANA.

THE EARLIEST LARGE SMOOTH RED TOMATO.

This Tomato is not only remarkable for its earliness, but for its very large size, handsome shape and bright red color. Its solidity and fine quality are quite equal to the best medium and late sorts. In some growing sections it is now planted almost exclusively on account of its superiority in earliness, size, uniformity, smoothness and sure-setting of fruits. This is a money-getter and every market gardener should plant it. The growth is compact, fruits being borne in the center in large numbers. The earliest Tomatoes shipped from New Jersey to the New York market are of this variety. $\frac{1}{2}$ oz., 15c.; oz., 25 c.; $\frac{1}{4}$ lb., 85c; lb., \$3.25

THE TALL CHAMPION TOMATO.

One of the best for market gardeners

It is an unusually strong and rank grower and heavy bearer. The fruit is large, smooth, well formed and heavy; of "Acme" color. A fair average size of the fruit is $2\frac{1}{4}$ inches thick and $3\frac{3}{4}$ broad. It is a first-class solid, showy tomato. It has no resemblance whatever to Dwarf Champion except in color of fruit. $\frac{1}{2}$ oz., 20c; oz., 30c; 2 oz., 50c; $\frac{1}{4}$ lb., 80c; lb., \$3.00.

Acme, Vaughan's Selected Stock. One of the most popular kinds on our list, giving entire satisfaction. A favorite everywhere; large, round, smooth; slight purple tint; one of the best. Our seed has been grown with particular care and we know there is none better. $\frac{1}{2}$ oz., 12c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

The Dwarf Stone Tomato. The largest dwarf in existence. In habit of vine it resembles Dwarf Champion, but is of stronger growth and more erect. The fruit resembles that of the tall "Stone" in color, shape, and is practically same size. The Dwarf Stone is fully double the size of the Dwarf Champion and yet equally as early. The strong upright habit of growth of New Dwarf Stone admits planting at least a half closer each way than usual. The shape of the fruit is perfect, with a good skin, which is free from cracks about the stem end. Oz., 35c; 2 oz., 60c; $\frac{1}{4}$ lb., \$1.10. lb., \$4.00

Cream City. The First Large Tomato to Ripen. Remarkably prolific; flesh thick and solid. In this new Tomato we have a variety of exceptional merit, coming into use about a week earlier than Acme. It is perfectly smooth and always round and as large as Perfection. Color is purplish crimson. The Cream City is the most profitable Tomato for the market gardener and trucker, and is unsurpassed for canning purposes. $\frac{1}{2}$ oz., 15c; oz., 25c; 2 oz., 40c; $\frac{1}{4}$ lb., 60c; lb., \$2.40.

VAUGHAN'S "ROSE-GROWER"

BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

VAUGHAN'S PULVERIZED SHEEP MANURE

Pure, dry, finely ground, put up in 100-pound sacks. Our supply is of uniform quality, saved under shelter and not leached. Our customers using it may therefore be certain of uniform results. More than half a million sheep come into this market annually, and are kept in great barns until killed or shipped. The manure we supply is not adulterated, nor has it lost its strength in any way.

SPRAYERS.

THE FOUNTAIN. One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, \$5.50; brass tank, \$7.00.

THE BRANDT. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. Price, Galvanized Steel Tank, \$5.00.

THE LOWELL.—For applying insecticides in the form of a mist or vapor. The reservoir of this sprayer is made of glass, which enables the operator to see ingredients mixing just how they are working. Price, each, 75c; 3 for \$2.

AUTO SPRAY. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, \$4.50; with copper reservoir, \$6.00; with Auto Pop, \$7.00; Brass Extension Rod, in 2-foot lengths, each, 35c; Galvanized Extension Rod, in 2-ft. lengths, 25c.

PNEUMATIC SPRAYER. A compressed air hand-sprayer, the only one on the market we know of. This enables the operator to spray with one-half the labor the ordinary sprayer requires. Will throw a fine mist and can be used to advantage in applying insecticides, etc. One quart size. Galvanized Tank, each, \$1.00; Brass Tank, each, \$1.75.

SPRINKLERS.

SCOLLAY'S RUBBER. None better for floral work. Beware of cheap imitations. Made of best quality of rubber, and will outwear any other sprinkler in the market.

THE LENOX. Good sprayer for retailing. To be used for in or outdoor plants, rose bushes, etc. A fine spray may be thrown under, over or upon the foliage of plants or shrubs, removing the dust and insects. Each, 25c; dozen, \$2.75.

PLANT STANDS.

THE SABIN. Best and simplest plant stands on the market. The stand is thirty inches high and can be raised to fifty-four inches in height and is strong enough to carry 200 pounds. Holder will take a six or ten-inch pot, as the sides are made of the best spring steel; plant can be tilted at any angle. Stand can be folded up so that fifteen will go under the seat of a palm wagon and will only weigh about one hundred pounds. Each, \$2.00; per doz., \$18.00.

The Sabin.

THE WHITNALL. The special merits of this stand may be briefly enumerated as follows: The three feet cause it to stand firmly on a carpet or uneven floor. The upright is of three parts telescoped, being easily adjusted to various heights, fastened by means of thumb screws which are well made. The top flange will hold any ordinary pot upright, or by using the four-pronged crotch attachment, a pot can be placed on its side at two different angles; a very useful contrivance for temporary decoration. 1 stand, \$1.50; 3 stands, \$4.00; 6 stands, \$7.50; 12 stands, \$14.00.

ROLLING STANDS.

These are made of wood fibre and are used for heavy plants. Mounted on castors can be readily moved about.

WHEELBARROWS.

VAUGHAN'S GREENHOUSE. We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrow being too wide for that purpose, and we had built for us a special barrow which will fill this want to perfection. It is strongly built, very neat affair, of the following dimensions.
 Box, 14 in. wide at wheel end.
 16 in. wide at handle end.
 12 in. deep.
 The bottom of the box is matched and glued together, and there is no crack against which a shovel might run. The wheel is of steel, 17 inches high, with a 2½-inch tread; the axle is 15 inches wide. The barrow is 20 inches wide over all, and is made of the very best material, nicely painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. Price, \$4.50.
THE GLOBE GARDEN. Measurement of box, 30 inches long, 19 inches wide at wheel, 24 inches at handles. Price, with steel wheel, \$3.60.

VASES.

FLORISTS' GLAZED FIBRE. Furnished in deep, rich brown glaze; absolutely water-proof. Largely used for displaying cut flowers. Can be used for many purposes. More desirable than glass or earthen, because they are light, strong and will not break if dropped. They pay for themselves in a short time. These vases are shipped from Chicago. If wanted from New York add 10 per cent to prices below. These being made by a Western concern, we cannot furnish the sizes exactly as given if shipped from New York; but the variations are not important.

CLARA CEMETERY VASE. It is one of the most useful as well as handsome articles ever placed on the market. Of beautiful solid mounted glass, 12 inches high. It takes the place of all the old tin cans, bottles and like unsightly receptacles often used in the cemetery where only the attractive and ornamental should be seen. The lower end is sharp pointed so it can be embedded about six inches in ground and stand firm. It will hold sufficient water to keep the flowers fresh and sweet, and will accommodate flowers with long as well as short stems. The vase is bell-shaped and the top has a diameter of about five inches.

EUREKA. The best little hand weeder for loosening soil around plants that we know of. Thin forged steel fingers. Short handled, 25c; long handled, 35c.

This new idea as a weeding device has made itself an immediate favorite with growers wherever it is tried. Does not cut or destroy the roots of plants. The pushing edge is thin enough to work easily through the soil, but is too dull to damage the stems of plants, should it come in contact with them. The inner edge is sharp. Takes out all the weeds; its oval shape permitting the operator to weed behind the plants while standing in front. Especially adapted for working among Carnations, Roses, etc. Price, each, 35c.

They do all that garden tools can do to the ground, on the ground and in the ground. Once used always kept.

The No. 6 "Iron Age" Combined Double

Wheel Hoe, Hill and Drill Seeder.

This tool is without question the most practical and complete combined garden tool ever offered the public—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. The wheel is made of steel, 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seed in drills or in hills as at 4, 6, 8, 12 or 24 ins. apart. Complete as in cut. Price, \$11.

No. 15 "IRON AGE" Combined Single

Wheel Hoe, Hill and Drill Seeder.

Combined in this tool is the best Hill and Drill Seeder and Single Wheel Hoe ever offered the public. In combining these tools not a single advantage is lost of a separate Single Wheel Hoe or Seed Drill. As each they are in themselves complete. Changed from one form to another almost instantly, completely filling every desire both as to method of handling seed and soil. It places the seed in hills or drills. Price, \$10.00. As a Hill and Drill Seeder only (No. 16), \$7.50.

No. 17 "Iron Age" combined Single Wheel Hoe and Drill Seeder. Same as tool shown in cut except being furnished without hill dropping device. Price, \$9.

No. 12 "IRON AGE" Wheel Plow and Cultivator.

In the accompanying cut we show a tool of exceeding lightness but of great strength, which is designed to do a greater variety of work than any other tool of the same price, it will accomplish all the work in cultivating needed to be done in a small kitchen garden, plowing, furrowing, covering, hoeing, raking and cultivating. This tool is emphatically a friend of those who can afford only to invest a small amount of money in a garden tool, and whose moments in a garden must be devoted to "straight ahead" work. Price, \$3.25.

Iron Age, No. 11, this tool with plow only. Price, \$2.25.

THE "IRON AGE" SINGLE WHEEL HOE CULTIVATOR and RAKE No. 9.

Price, \$4.75.

The No. 4 "Iron Age" Combined Double Wheel Hoe and Drill Seeder. This tool is similar to the No. 6 "Iron Age" combined tool. Instead of placing seed in both hills and drills, it places it only in rows. Price, \$10.00.

No. 1 "IRON AGE" Double and Single Wheel Hoe.

Wheel Hoe form of the No. 6 opposite. One great advantage which this double Wheel Hoe possesses is, that it can be made into a practical Single Wheel Hoe in a moment's time. As a double wheel it may be used astride the row and thus cultivate both sides of the row at the same time. The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe coupled to malleable castings, gives great strength together with lightness. Price, complete, \$6.50. A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills, \$3.50 and \$4.50 respectively. This tool with side hoes only (Iron Age No. 3). Price, \$3.75.

No. 20 "IRON AGE" Single Wheel Hoe.

The frame of this tool, as all the Iron Age, combined tools, is made of pipe coupled to malleable castings, thus rendering them light and strong. A pair of side hoes, a set of cultivator teeth, a pair of rakes and a land side plow are furnished with this tool. Price complete, \$5.50, as with the No. 1 a seed-er attachment may be added at any time. No. 21 plain (Hoes only). Price, \$3.50.

The feeding is distributed by the revolving brush, and is accurate and even without injuring the seed. The distance between hills is very easily changed and regulated. It will drop 4, 6, 8, 12 and 24 inches apart. It will not clog under any circumstances. By hooking out the small lever the same is changed from a hill dropper to a sowing drill. Price, \$10.00.

"Iron Age" Farm and Garden Tools for 1907—Continued.

No. 22 "IRON AGE" Combined Fertilizer,

Distributor, Hill and Drill Seeder.

Price, \$17.00.

The opening plows are immediately followed by the covers which draw the soil over the fertilizer just deposited. The Fertilizer Distributor contains a force feed device which prevents stoppage by small lumps. The Seed Sowing Device is the same as used on Nos. 6 and 15 Combined Seed Drills. The seed may be sown in rows or dropped in hills.

VAUGHAN'S COMBINED CULTIVATOR AND HARROW.
