Mixson's High-Grade Seeds

—for—

Truck Farmers and Market Gardeners

MIXSON'S EARLIEST OF ALL TOMATO

W. H. Mixson Seed Company

Largest Wholesale Seedsmen Southeast

Charleston, S. C.

D. H. B...
311 1/2 W...

This Catalog is issued principally for the benefit of Truck Farmers and Market Gardeners—men who depend for their living on Truck crops, and to whom therefore Good Seeds is a matter of vital importance. No matter how high grade the fertilizer, or how thorough the preparation and cultivation, or how ideal the season, the best results cannot be obtained without the best seeds, and it is to the type of farmer who understands this fact that MIXSON'S SEEDS appeal.

To the Home Gardener, Mixson's Seeds are equally valuable, and if the Truck Farmer can invest his thousands in them, the Home Gardener can likewise place his dependence in them. There is no need for the planting of seeds of unknown quality, when MIXSON'S are so easily obtainable.

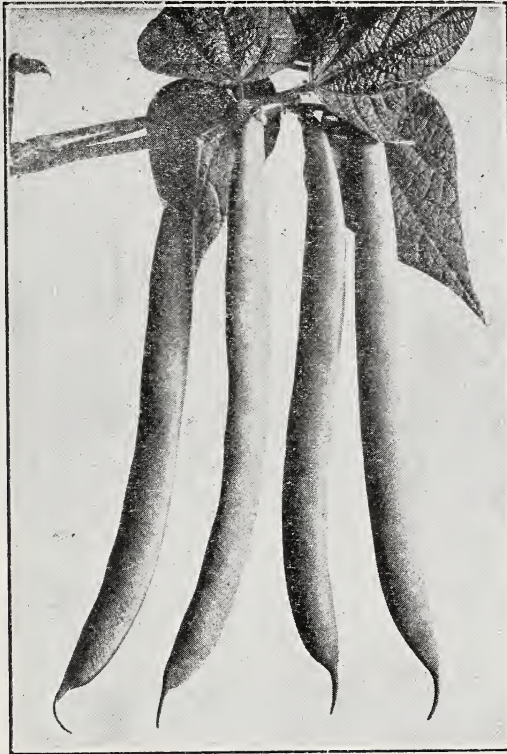

ABOUT PRICES—They are the ones prevailing when this Catalog goes to press, but are strictly subject to change. If an advance takes place, we will notify you before making shipment. IN ORDERING FROM THIS CATALOG, BE SURE TO STATE THAT YOU ARE USING THESE PRICES. Terms are Cash with order, but to responsible parties we will ship C. O. D. Prices are F. O. B. Charleston, meaning that on freight and Express shipments you pay the charges. If there is no Agent at your shipping point, freight and express must be prepaid. On Parcel Post shipments, postage must be added. In sending us remittances, please figure this up, and remember to include otherwise, there will be a delay, or shipment will be made by Express collect.

Located as we are in a Trucking section, as well as being in close touch with many other sections, we appreciate fully the needs of the Truck Farmer, and are trying to give service he will recognize. It is, however, impossible for us to guarantee results, and therefore we give no warranty express or implied as to description, quality, productiveness or any other matter of any seeds we send out, and will not be responsible for the crop. If they are not accepted on these terms they are at once to be returned.

MIXSON'S SPECIAL WHITE SPINE
CUCUMBER

Mixson's Special White Spine:

The earliest, most perfectly shaped, and darkest green of any variety we have ever seen. For years the trucking trade has been demanding a variety better colored, earlier, better colored and with fewer culls than what they have been getting, and this strain fills the bill. Fruit about seven inches, green from end to end, holding its color after picking and a big yielder.

MIXSON'S SELECTED SEED POTATOES

GROWN FROM THE VERY BEST SELECTED STOCKS, IN SECTIONS ESPECIALLY ADAPTED TO THEIR PRODUCTION, RIGIDLY INSPECTED WHILE GROWING, CAREFULLY ISOLATED TO PREVENT MIXTURE, CLOSELY ROGUE IN THE FIELD TO TAKE OUT ANY OFF TYPES AND DISEASED STOCK THAT MAY SHOW UP, PAINSTAKINGLY HARVESTED AND STORED, THEN AFTER ALL THIS DOUBLY INSPECTED AND PASSED BY UPON ARRIVAL IN CHARLESTON,—OUR SEED POTATOES REPRESENT STOCK AS NEAR PERFECTION AS IT IS HUMANLY POSSIBLE TO GET THEM.

Cheaper potatoes can of course be gotten, but we are quite certain that any difference in price will mean difference in quality. The best proof of the value of our Seed Potatoes is the large number of the biggest Truck Farmers who buy from us in car lots and over each year, in the face of lower quotations.

ALL OF OUR MAINE GROWN STOCK BEARS PATHOLOGIST'S TAG CERTIFYING AS TO PURITY AND METHOD OF HANDLING.

IRISH COBBLER (MAINE GROWN)—The standard early white variety for the South. Potatoes are roundish, with deep eyes and well developed eye-lid. Per peck 60c; per bushel 1.85; per sack 4.25; 10 sacks at 4.00.

IRISH COBBLER (WESTERN GROWN)—Some people in recent years have been of the opinion that a larger yield could be obtained from Western grown stock than Maine grown, and results in most cases that have come under our observation have borne this out. We, however, would like to see results another year before definitely committing ourselves on this subject. The stock we have was personally selected in the fields by Mr. W. H. Mixson. All of the general Cobbler characteristics found in Maine stock appear also in the Western. Per peck 60c; per bushel 1.85; per sack 4.25; 10 sacks at 4.00.

EARLY NORTHER (MAINE GROWN)—A potato of the Rose type which has proved very popular wherever grown. They are longish and inclined to be flattish rather than roundish. About a week later than the Cobbler, with in nearly every case larger yields than from Cobblers planted at the same time on the same land. There are a number of Rose types, and this strain should not be confused with Spalding Rose, Holton Rose, Early Rose or simply "Rose" generally offered. Peck 60c; bushel 1.85; sack 4.25; 10 sacks at 4.00.

RED BLISS (MAINE GROWN)—The standard early red skin Potato for the South. Tubers are roundish. Peck 60c; bushel 1.85; sack 4.25; 10 sacks at 4.00.
LOOKOUT MOUNTAIN—The variety best adapted to summer planting throughout the South. Prices and all further information will be issued about June 15.

PRICES are all F. O. B. Charleston, no charge for cartage. Sacks contain 2½ bushels or 150 pounds; a bushel is 60 pounds.

TO LARGE BUYERS—When this catalog goes to press in December, it is manifestly impossible to quote prices that will hold good during the entire season. We suggest, therefore, that you write us when you are in the market, stating number of bags you expect to buy.

FOR POTATO BUG AND BLIGHT CONTROL see page 16. The best time to order these materials is when you buy your potatoes, because you are certain to use some, and having them on hand is in the nature of insurance.

MIXSON'S TOMATOES

Mixson's Earliest of All (See front cover illustration)

The earliest pink Tomato grown. Fruits are medium sized, ripening all over, even to the stem end, and unusually free from cracks. Vines are sturdy and very prolific, a quality not often found in an early variety. This is our own introduction, and every effort is made to keep the stock pure. Numerous voluntary testimonials are in our files.

FIELD SEED DEPARTMENT

ALL SEED LISTED IN THIS DEPARTMENT ARE HIGH GRADE STOCK ONLY, FROM GOOD CROPS, CAREFULLY HARVESTED, WELL CLEANED, AND PUT UP IN STRONG BAGS. IN THE CASE OF CLOVERS, AND SOME HIGH PRICED GRASSES, SHIPMENTS ARE PACKED IN COTTON SEAMLESS BAGS, WHICH ARE CHARGED EXTRA AND ARE NON RETURNABLE. NO CHARGE IS MADE FOR BURLAPS.

Quotations on Field seed are very variable, and it is therefore impossible to make prices which will hold good throughout the season. Write us for current quotations at any time, stating quantity wanted. Large buyers especially should do this.

FARMOGERM

The Standard Inoculation for all Legumes. Whether or not you are planting a legume seed in land already seeded in the same crop the previous season, the use of Farmogerm will pay you. At the reduced prices, it is much cheaper than soil inoculation, besides being surer. For Peas, Beans, Cow Peas, Soy Beans, Velvet Beans, Peanuts, Alfalfa, all Clovers, Vetches, Lespedeza etc.

1 Acre-----\$1.00 3 Acres-----\$2.50 12 Acres-----\$9.00

INSECTICIDES, FUNGICIDES, SPRAY MATERIALS, ETC.

ARSENATE OF LEAD (Dry Powdered) For Potato Bugs, Tobacco Worms and all other leaf eating insects: Apply either dry or in spray at the rate of 2 pounds per acre per application. 1 lb. 30c; 4 lbs @ 27c; 8 lbs @ 25c; 48 lbs @ 22c; 100 lbs @ 20c.

CALCIUM ARSENATE (Dry Powdered) For Boll Wcevil, and all leaf eating insects. 25 lbs @ 14c; 100 lbs @ 12c.

PARIS GREEN—For Potato Bugs, Tobacco Worms, etc. Unless applied very carefully liable to burn the foliage, and for this reason its use has been almost superceded by Arsenate of Lead. Lb. 50c; 2lbs @ 47c; 100 lbs @ 45c.

BORDEAUX MIXTURE—For Blight control on Potatocs, etc. Ours is in the dry form and can therefore be applied either dry or in spray at the rate of 4 lbs to the acre per application. Lb. 30c; 5 lbs @ 26c; 25 lbs @ 22c; 100 lbs @ 20c.

NICOTEEN DUST—For control of Aphis, Lice, or all other sucking insects. Apply dry at the rate of 20 lbs per acre, only on a clear day. 25 lbs @ 22c; 50 lbs @ 20c; 100 lbs @ 19c.

BLACK LEAF 40 (NICOTEEN SULPHATE) Does the same work as Nicoteen Dust and is applied in spray. 1 pound makes from 100 to 125 gallons. 1 oz. 35c; 1/2 lb. \$1.25; 2 lbs \$3.50; 10 lbs \$13.50.

DRY LIME SULPHUR For a dormant or winter spray use 12 pounds to 50 gallons of water. For summer spraying use 2 1/2 pounds to the same amount of water. If you wish Arsenate of Lead can be added. For San Jose Scale, Oyster Shell Scale, etc. Lb. 30c; 5 lbs @ 27c; 100 lbs @ 20c.

SPRAY PUMPS

AUTO SPRAY No. 1-D	Works by means of compressed air; continuous spray with cut off at nozzle. Holds 3 1/2 gallons. Made from heavy galvanized steel.	
Each	-----	\$5.00
AUTO SPRAY No. 1-B	Same as above except that it is made of Brass and therefore should last longer.	
Each	-----	\$7.25
AUTO SPRAY No. 7	Bucket or barrel pump, made entirely of brass.	
Each	-----	\$5.50
AUTO SPRAY No. 22	Heavy tin, holds one quart, strongly made.	
Each	-----	.50

TRIUMPH HAND DRY DUSTERS

The best machine of its kind for the application of any powdered Insecticide or Fungicide. Strongly constructed, every working part made of wrought steel, and all parts on which wear might occur are from hardened steel. Ball bearings are used. Packed in individual cases. Price ----- \$8.00

TO LARGE BUYERS—If in the market for larger quantities than those quoted, write us stating quantity wanted, as it may be that we can quote special prices.

ABOUT PARCEL POST SHIPMENTS—Poisons are debarred from the mails. This includes Arsenate of Lead, Calcium Arsenate and Paris Green, which must go by Express or Freight. If any items on this page are ordered by Parcel Post, remember to included amount of postage.

W. H. MIXSON SEED CO., CHARLESTON, S. C.

MIXSON'S EUREKA CORN

Exclusively our own introduction, and the best all around Corn for Southern Farmers. Carolina grown, has good breeding behind, heavy, twenty to twenty-two rows to the ear, grains long pointed with very little "lost motion" between the rows. Shuck comes well over tip. Fully hard enough to make it a good keeper. 2 ears to stalk, grain and cob white.

Peck, \$1.25; Bushel, \$4.50; 10 Bushels, \$44.00.
