Interurban Company Laying "Trilby" Rails.

The work of laying "trilby" rails on the Market street line of the San Jose and Los Gatos Interurban Railroad is being watched with interest by the public. The thirty or forty men who are engaged in making the change are the center of a crowd of spectators nearly every day. This morning the last of the "trilbies" on the East track were laid and the work of placing the concrete begun.

The "trilby" rails are of the most modern type. They weigh 114 pounds to the yard and are the prototype of the rails used on the Third street line in San Francisco. The operation of relaying the Market street tracks is an expensive work as the work is carefully done and will be durable.

The advantage of the "trilby" over the ordinary "T" rail is obvious when the wretched condition of the asphalt along the line is taken into consideration. The "trilby" does not obstruct traffic in the least. The rails are made of heavy, solid steel and are supported by concrete instead of on ties. Only the surface and the slot in which the flange of the wheel runs in remains uncovered by asphaltum as the pavement can be extended to the very edge of the rail.—Mercury.

A Pleasant Reception.

A pretty and pleasant function was that given in honor of Mr. and Mrs. J. J. Cornell and their guest Miss Bertha Williams of Pacific Grove, by Dr. and Mrs. P. C. Hartman, Tuesday night. There was much fine music and lively conversation to make the evening delightful. Mrs. Cornell was unfortunately detained at home by illness.

Those present were Mr. Cornell and Miss Williams, Mr. and Mrs. Merrill, Mrs. Janes, Miss Dillie, Dr. and Mrs. Spencer, Mr. Will Beattie, Mr. and Mrs. Rucker, Miss Snyder, Mrs. Luther.

Stomach Troubles and Constipation.

No one can reasonably hope for good digestion when the bowels are constipated. Mr. Chas. Baldwin, of Edwardsville, Ill., says: "I suffered from chronic constipation and stomach troubles for several years, but, thanks to Chamberlain's Stomach and Liver Tablets, am almost cured." Why not get a package of these tablets and get well and stay well? Price 25 cents. Samples free. Farmers Union, Agent.

GARDEN FOR SOCIETY

SCHEME FOR IMPROVING VACANT LOTS IN DENVER.

Vegetables Cultivated by Fashionable Women on Corner Lot in Capitol Hill Section—What Woman's National Outdoor League Has Done.

Capitol hill society buds and matrons in Denver have established a model garden on ground the value of which is figured by square feet instead of by the acre, says the Denver Times.

Fashionable housewives now go marketing near home and pick their own vegetables every morning.

In order to pay the expenses of the cost of improving vacant lots in Denver the Woman's National Outdoor League of America has entered upon a unique as well as profitable enterprise.

On one of the most valuable lots on Capitol hill, corner of Fourteenth avenue and Pearl street, in the midst of aristocratic residences, a nicely growing garden of giant corn, exhibition potatoes, radishes, onions, beans, peas, asparagus and, in fact, every conceivable kind of vegetable is being raised for the purpose of selling the product and using the proceeds to pay for the seed and care of wheat, rye and oat fields already planted by the society and those to be planted in the near future on vacant lots.

The organization is composed of Denver's most popular society women and is accomplishing a great deal in its efforts to beautify the city. Ten acres, by permission of the owners, are flourishing wheatfields, while already a rye-field opposite the capitol is ripe and ready to cut. Its seed was donated by Robert Gaus, who owns a drought farm in Montclair, and the grain has already been bought by people interested in dry farming. The object of the national society is to interest people in growing green things of all kinds, but the Denver branch aims only to improve vacant lots.

It was decided last spring to plant the model garden, and Miss Anne Evans, Miss Edna Hendrie and Miss Mary Kent Wallace were appointed on the committee. Thomas Chapman, florist, was engaged to put in the seed, and an old Scotchman, Mr. Sinclair, was hired to keep it watered and weeded. The work proved too hard for the old man, however, and he resigned.

The vegetables are the very choicest of their kind, and already neighbors have spoken to have their names on the list of customers of the Outdoor league model garden. The smaller vegetables are ready for sale, but except by request are not delivered, for it has become quite the fad among society belles to go marketing at Pearl and Fourteenth. Beautifully gowned women with tin buckets and market baskets may be seen at any time between 9 and 11 o'clock bound for the Outdoor league market, where they are sure of the very choicest vegetables grown on native soil.

FOR CIVIC IMPROVEMENT.

Organization to Encourage People to Take Pride in Front Yards.

An organization which is novel in character was recently formed under the name of the Parking Association of Washington. The purpose of the organization will be merely to encourage people of the Capital City to take a pride in the care of their front yards, which is maintained to be the most important feature in the future civic improvement of the city, says the Washington Post.

The association was suggested by John Taylor Arms of a Washington real estate firm, and already there have been enrolled about 400 members. There are no dues, titles and other formalities with which a member has to conform. The only requisite is that he promise to keep his front parking in good condition.

It is explained that the more persons make this pledge the faster residents in all parts of the city will fall in line and as a matter of pride do everything in their power to improve the condition of their parkings.

Summer Diarrhoea in Children.

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. O. Stockland, Pastor of the First M. E. Church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by Farmers Union, Agent.

Unnecessary Expense.

Acute attacks of colic and diarrhoea come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before the doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by Farmers Union, Agent.

"Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by Farmers Union, Agent.

Letter From Rev. J. W. Lewis.

WHEATON, MINN., Aug. 6, '06.
EDITOR INTERURBAN PRESS:

The Red River Valley is an extended plain, almost level but of wonderful richness. The soil is sticky when wet and this year has been wet. It rained a good deal while I was in Fargo and mud was plenty.

Geologists tell us that this valley was once a lake of large proportion and during the drift period a sediment of marvelous richness was deposited over the bottom of this lake. That after the ice receded and opened a way for the water of this lake to flow into Hudson bay the valley was drained off and the lake bottom became dry.

The Red River takes its rise in lake Traverse, on the boundary between Minn. and South Dakota, runs sluggishly north, past Winnipeg, Canada and empties into Hudson Bay. Big Stone lake a little further south, is the source of the Minnesota river, so that Wheaton, just opposite Lake Traverse is near the water shed of this region. The soil and appearance of the country is much the same as at Fargo.

My daughter, Mrs. Taylor, lives in Fargo and Mrs. McLean in Wheaton. I came here on Sept. 4th. On Sunday I learned that the pastors of both the English speaking churches were absent on vacation, but that the County superintendent of schools was to preach in the Baptist church; so we made our way there and heard a good sermon. I taught a S. S. class and had the pleasure of preaching for them in the evening.

My son-in-law is principal of schools here and I am having a royal time. Four grandchildren up in this country; and of course there are none to equal them! May they not be disappointing farther on. Harvest is commencing and the promise is good, except on low ground where there is too much water.

I presume there is a hustling among the old soldiers about now to get ready for the National Encampment at Minneapolis, the 13th, and that some from Campbell are starting to-day. I expect to go on Monday morning and we are anticipating a great time. I hope you Campbell people will all behave well while I am gone and not be too sorry when I return.

J. W. LEWIS

Mrs. M. J. Gates of Santa Cruz, who visited with Mrs. E. H. Black, accompanied the latter to the City last Friday. Mrs. Gates returned and spent Sunday with Mrs. Hartman.

Mrs. Martinie to Leave.

Miss Ivy O'Connor is in charge of the telephone office since Mrs. Martinie has decided to move to Palo Alto.

Much regret is expressed at the removal of the Martinie family who have been an important factor in the social and religious life of Campbell since their coming here several years ago.

Fruit Notes.

The Campbell Fruit Growers' Union received three cars of pears from outside Canneries, to be dried. About seventy-five tons of prunes are handled daily.

There have been shipped to San Francisco and Oakland Canneries from the Union some 1500 tons of green apricots. A few imperial prunes have been shipped to Los Gatos. At present some 40 pitters are employed.

Activity at Watertown, N. Y.

The Watertown (N. Y.) Standard comments favorably on the recently formed local branch of the American Civic association and says: "The city has now an organization, headed by the Hon. Charles R. Skinner, which for no ulterior motive endeavors to rouse in the city an appreciation of its possibilities and a determination to do with our hearts what our minds declare to be necessary and essential in every city and town of our country. We do not want to be behind the other nations in this regard, and we do not desire to fall behind the other cities of our land in what will occupy to a large extent the attention of our municipalities in the next two decades. A good beginning will be to ally ourselves with the body which stands for good things and then to act with the spirit and the understanding in a concerted effort to get for ourselves and our children that which belongs to us and which can be had for the taking. It costs but little effort, and it is an extremely valuable asset, for adornment is a material possession."

"Cleaning Up" Day at Kenosha, Wis.

Three thousand children, aided by the officers of the Kenosha Outdoor Art association, celebrated "cleaning up" day in Kenosha, Wis., says the Chicago Record. Streets and alleys were hoed out and hundreds of trees planted. More than 2,000 packets of flower seeds were distributed and gardens were started all over the place. The downtown streets were swept and cleaned, prominent society women taking an active part in directing the work.
