User	Endorsement
<a href="#">User:Harej</a>	for sure!
<a href="#">User:Adamw</a>	I'm just agreeable
<a href="#">User:127.0.0.1</a>	Can't say I'd sign this with my real nick.

# Why it matters

- Wikimedia projects use an AI called ORES to detect vandalism and assess article quality
- Risk of ORES perpetuating bias
- JADE gives communities the ability to audit ORES

# But wait, there's more!

- JADE is also a storage solution for notes about articles
- New tools could be built
- Better coordination between patrollers
