1 August, 1946

Subject: Estimated number of those who do not hold any public office at present, but will be excluded from the government service.

1. Disqualifying category#

C and G1	910
E1	851
E2	18
F	41
G7	230
G8	380
Total	2,430

2. Furthermore, it is estimated that there will be a few hundred persons who are to be excluded from the government service because of the reasons falling under Paragraph D and Sections 2, 3, 4, 5 and 6 of Paragraph G.

Note:- Those purgeable category numbers cited above are those adopted by the Japanese Government.

Aid Memoire

August 1, 1946.

Investigation for Educational Service members's acceptiability by the Government Screening Commission.

1. From among those persons numbering 1,550 under the jurisdiction of the Ministry of Education, who hold the rank of Chokunin or above and who have been screened by the Government Screeining Commission, only about forty five persons have been disqualified from holding the public office. It appears naturally that the ratio is exceeding low.

2. Here are, however, the particulars of those 1,550 persons referred above.

Law and Literature		500
Department of	Law	94
" "	Literature	320
" "	Economics	61
" "	Commerce	21
Natural Science		1,050
Department of	Physical Science	269
" "	Engineering	301
" "	Medicine	332
" "	Agriculture	148

As

20

As is naturally expected, almost none of those professors and other persons whose major is in the line of natural science has been interested in and meddled with politics. Their speeches or books are purely in the nature of academic interest only. Consequently the persons who have been mainly subjected to the investigation of the Screening Commission are those in the line of Law and Literature. If this fact is taken into consideration, the ratio of those being disqualified by screening to the total number screened, is not so low as it looks on appearance.

3. In regard to these persons under the juridiction of the Ministry of Education, moreover, another screening is going on with scrutinizing strictness in accordance with the line described in the attached memorandum, and we expect that quite a large number of persons shall be barred from public office as the result of the investigation.

4. The Government Screening Commission has subjected, as the political purge, the professors and administrative officials of the Ministry of Education to the same basis and standard as is applied to the officials of other Ministries, and in no way treated them leniently. In view of the fact stated above, we are not entertaining at moment the reinvestigation of those cases concerned with the Ministry of Education.
