THE PURGE

During the period 4 January 1947 to 24 May 1947, a total of 382,059 persons were screened by both Central Government and Local Government Public Office Qualifications Examination Committees. Of the total of 20,648 persons screened by the Central Government Committee, 217 were barred from public service, and 341 were removed. Two hundred and sixty-eight persons among those barred or removed by the Central Government fell under the economic provisions of the Ordinances. On the local government level, 361,411 persons were screened; of whom 330 were barred and 462 were removed.

The small percentage of persons barred was regarded by political observers as evidence of the effectiveness of the purge program, since many persons who believed themselves ineligible to hold public office made no attempt to participate in the elections.

Following is a tabulation of the results of the screening of 5,330 candidates for the principal elective positions in the Japanese government:

Screened for House of Councillors	1,406
Barred	35
Screened for House of Representatives	3,430
Barred	152
Screened for Prefectural Governor	451
Barred	22
Screened for Mayor of the five Principal Cities	43
Barred	1

Among prominent figures in Japanese politics found subject to the purge during May were:

Tanzan Ishibashi, Minister of Finance

Kojiro Ishii, Minister of Commerce and Industry

Tokutaro Kimura, Minister of Justice

Soho Kato, Director of Japan Liberal Party

Approximately 136,371 persons were reported screened for elective posts in local government.

2. Central Government Purgees

Total listed in Reports of Barred or Removed 499

Total of those listed purged by GS 22
Total of those listed purged by CSC ... 477

The Central Report of Barred or Removed through 10 May 1947 lists 30 persons, bringing the total number listed to 499. However, the Central Weekly Screening Report for the period through 10 May lists 498 persons as barred or removed. SUZUKI Tokunosuke, previously removed, has been passed. His questionnaire and master cards have been given to Miss Chick who is holding them pending a decision on Standing Directors and Government Section review of the NIPPON DENKO K.K. SUZUKI's name will be removed from the Central Lists, and his master card from the purge files.

The purge file contains master cards on all persons listed in the Central Report of persons barred or removed with the exception of YANAI, Yuzo and NIWA, Yasujiro. The questionnaires and master cards on these two were called for from Mr. OTA on 14 May. They were called for from Mr. SUMINO on 16 May. They have not come in.

The master cards on ISHII, Mitsujiro (Kojiro), KIMURA, Tokutaro, and YANAGAWA, Sozaemon were brought in by Mr. SUMINO with no date of final action entered as the Prime Minister has not yet designated them.

Their questionnaires have been called for from Mr. SUMINO.

13 Master cards have been received at various times listing persons as barred or removed, but their names have appeared on no Central Government List of Persons Barred or Removed.

3. Local Government Purgees

The total number of persons listed in the Local Reports of Persons Barred or Removed is 652 as of 10 May 1947.

The total number of persons listed in the Local Weekly Report of Screening is 686 as of 10 May 1947.

The purge files contain approximately 526 master cards on local government purgees.

Removal of Purges from Public Offices

In compliance to SCAPIN issued on January 1st, 1946, the Japanese Government issued orders in concern on February 18, 1946 with the organization of the Central Purgee Screening Committee. But until the innovation of this law in January 4, 1947 and the foundation of the Local Purgee Screening Committee in March 3, 1947, actual steps on the removal of undesirable person from public office was not enforced by the Committee itself.

The Purgee Screening Committee in the Hiroshima Prefecture was organized of five permanent members and three temporary members who were assistants when the necessity arose. Out of the five permanent members a Chairman was elected. These members of the Committee actually did the screening of the questionnaires, but the office work was undertaken by the one's in charge of the Purgee Screening Affairs in the Local Section, Prefectural Government. The followint are the names and occupations of the members forming the Purgee Screening Committee:

Position	Name	Occupation
Chairman	Murata Masao	Chief Justice of the Hiroshima District Court
Vice Chairman	Takashina Ryoji	Director of the Hiroshima Prefecture Farmer's Association
Member	Kanda Shizuo	Hiroshima Lawyers Association President
"	Hoshino Tamio	Lawyer Vice Chief of Farmers Association Hiroshima Branch Office
"	Tsuchihashi Konosuke	Hiroshima Prefecture Girls' First Middle School
Temporary Members	Ogawa Koichi	Director of Hiroshima Chamber of Commerce
" "	Takeuchi Kumao	Chief of Financial Section Chugoku Electric Company
" "	Takahashi Akira	Assistant Chief of Chugoku Liaison Office.

They are appointed by the Governor and receive screening from the Central Purgee Screening Committee. The number of Screening meeting they hold average from 3 to 4 times monthly.

Since March 3 this year after the organization of the Purgee Screening Committee 17,300 persons have been screened as purge questionnaires and 82 have been found as purgees. (19 purges by Article B. 20 purges by Article G, 43 purges by Article D). These purge questionnaires given screening are only one's presently

holding seats in public offices, and it is estimated that there are approximately 2,000 others who hold no such offices. Furthermore there are about 72 regular army officers working on Demobilization which have received permission from SCAP to do so. Recently an Application is being sent in again requesting whether they will be able to continue with their works as formerly.

1. There are about 230 companies which are or will be listed in Paragraphs 7, 8, 9 and 13 of Appendix II of the Cabinet and Home Ministry Ordinance No. 1 of 1947.

2. In Paragraphs 12A and B there are 246 companies.

3. The Japanese Government's estimate as to the persons who will be automatically removed in Paragraphs 12A and B is less than 1,000.

4. The number of persons who will be screened in Paragraphs 7, 8, 9, 12 and 13 according to the Japanese Government is 17,000.

5. Of the 17,000 screened the Japanese Government expects that 2,200 (which includes the 1,000 mandatorily removed)will be purged.

6. As to the screening schedule for these companies it is as follows:

a. Companies in Paragraphs 12 and 13 will be screened between the 26th of March and the 15th of April.

b. The companies listed in Paragraphs 7, 8 and 9 will be screened between the 15th of April and the 10th of May.

7. As to the percentage of Japanese industries represented in the companies listed in Paragraphs 12 and 13, the Japanese Government estimates are very vague because of a lack of statistical matter since the end of the war. An extremely rough guess to be used with caution is that Paragraphs 12 and 13 represent from 30 to 40% of the total production of Japan in specific fields represented by the companies listed in the above mentioned paragraphs. As to the 1,200 restricted concerns it is estimated that the companies represent 25 to 30% of the total production, however, many of the companies listed in Paragraphs 12 and 13 are duplicated in the restricted concerns list. This duplication would comprise about 20% of total production.

Table No 1

Amount of demobilization business

(1) Number of personnel	(2) Amount of business

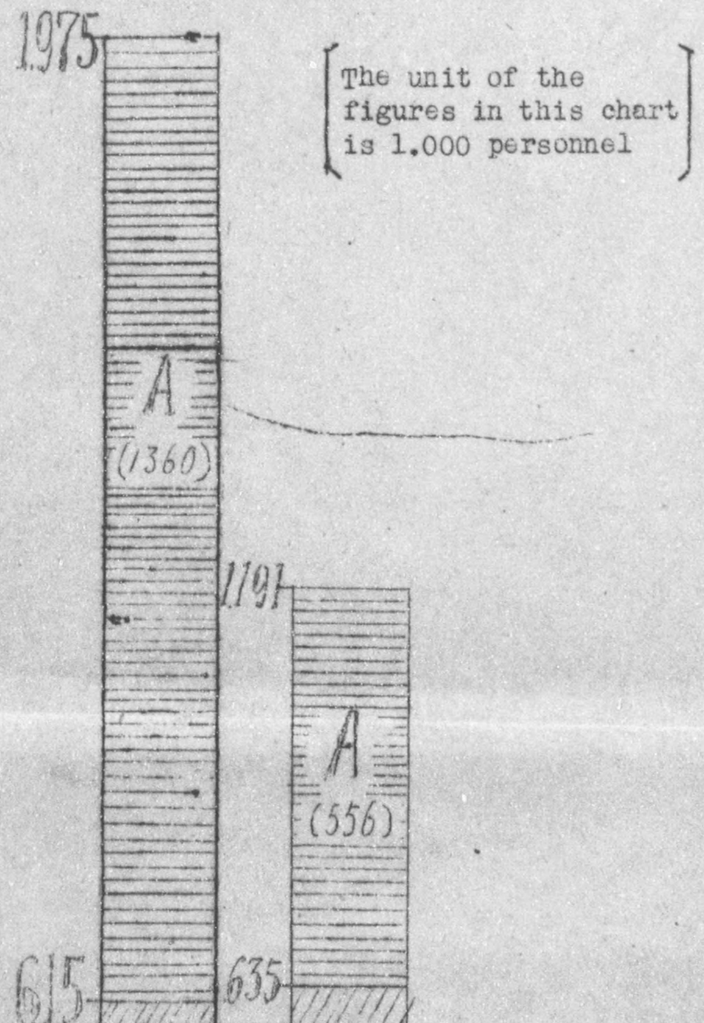
Remarks

1. A--Those who returned alive
   B--The dead whose condition is known
   C--The dead whose condition is unknown
   C'-Missing persons

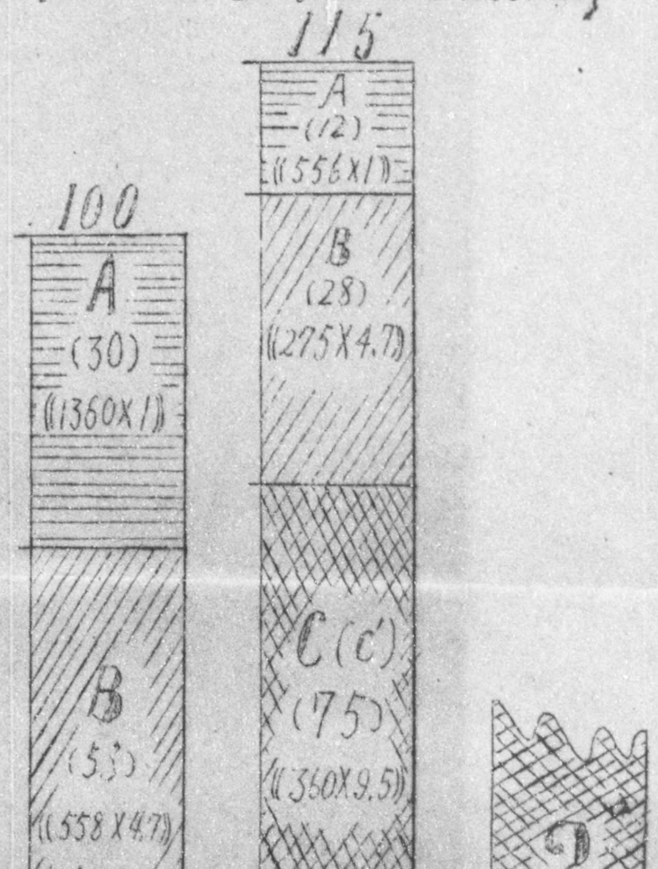
2. Ratio of business amount to each person, A.B.C.(C')
   (as of results in the past)
   1 : 4.7 : 9.5

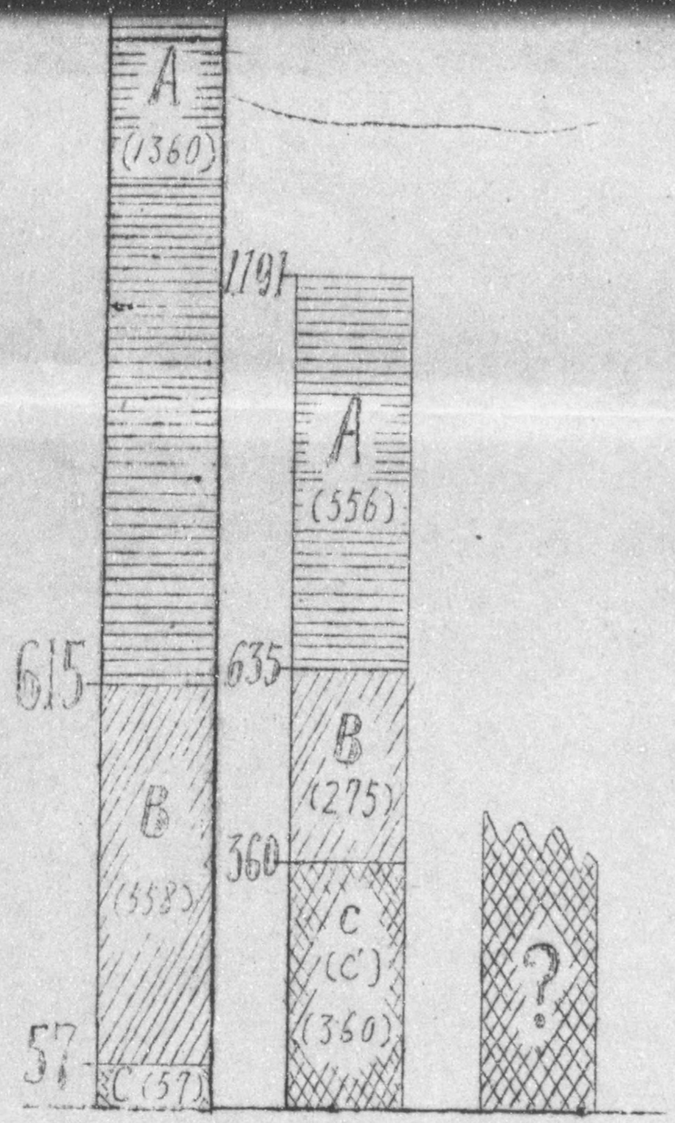
1975

The unit of the figures in this chart is 1.000 personnel



Ratio of areas(amount of business) of both year.
The year of 46: The year of 47=100:115





○ The number of persons who are to be demobilized in and after the 1947 fiscal year is decreased in comparison with that of the 1946 fiscal year(see the left table). However, due to the large volume of business concerning the C C' the investigations about which are difficult(see the table on the right side) it requires attention that the amount of business will be rather on the increase.

○ The table concerning the 1947 fiscal year is prepared on the promise that the repatriation from the areas of Soviet Union and the South will be completed by about May, 1947. Consequently, if the repatriation is delayed, the business will also procrastinate until the 1948 fiscal year.

Table No. 2.

THE NUMBER OF PERSONNEL ENGAGING IN DEMOBILIZATION BUSINESS

Classification	1946 (4/1946 — 3/1947)		1947 (4/1947 — 3/1948)	
	Number of personnel in beginning	Average number of personnel	Number of personnel in beginning	Average number of personnel
Offices of 1st Demob. Bureau (demob. Bureaux,) (Demob. Liaison ,) (offices, Home Depot) (Bureaux, etc.)	10,081	8,415	6,540	5,360
Local Assistance Bureaux	8,807	8,410	5,320	7,880

Although the amount of business in the year of 1947 can not be expected to be reduced as shown in the Table No. 1, the number of personnel is planned to decrease by making effort to increase efficiency in all offices.

Besides the present table, there are 1,000 — 1,500 persons in both years of 46 and 47, who are temporally called out for a short time for the readjustment of demobilization remaining business, especially for the investigation of the missings.
