23 Sep 48

FROM : CSCAD PG
TO : CINCFE
NR : WAR 89626

At meeting FEC Steering Committee 14 Sep 48, re SC-309, Tvl of Japanese Abroad, Australian member said that his govt had consistently held view that there are certain dangers associated with Japanese tvling abroad prior to peace conference, that such Japanese would try to cause diversions among Allies or indulge in propaganda which might improve Japanese position, and gave as illustration of such danger interview with Japanese editor, Suzuki, appearing in 17 Sep issue of US News and World Report. He stated that Mr Suzuki "touches on some most tendentious questions" and that several members of this committee "would have a great cause to resent the remarks which this particular Japanese is making in US." New Zealand member stated that Japanese would like to have opportunity to express their views in order to influence opinion in allied countries, particularly in this country. US member was requested to present views of US Govt on this kind of article and, if it should be propaganda, whether US proposes to take appropriate action. UK asked US to include in reply re to 2 statements of Japanese editor dealing with topics now before commission-both of which refer to building up of Japan.

Appearance of such article confronts US Govt with serious problem because other member govts of FEC have resisted forcibly any policy decision permitting Japanese tvl abroad on grounds that they would engage in propaganda activities. Through long persuasion, pvt talks and series of assurances that certain procedures would be followed and pertinent info made available, FEC apd paper on attendance of Japanese at inter-govtal conferences and it is our hope that enough members will approve FEC 293/8,

tv1 outside Japan of Japanese commercial representatives, FEC 240/16 inter-change of persons between Japan and other countries for cultural purposes, to make interim directives on subjects appropriate. While Suzuki's statement may not be out of line with US policy, it represents premature publication of such by unauthorized person and has effect of substantiating fears of our Allies on propaganda issue.

In view of 1 relations with other govts and 2 US support of Par 3 in FEC 240/16 providing that "visits of persons who might engage in any political or propaganda activities should not be permitted under this program" and US opposition to Soviet amendments which might make such propaganda activities possible, and 3 US support of Par 1 D in FEC 293/8 providing that: "The activities of Japanese commercial representatives abroad should be confined to trade. They should not be able cover for other activities such as for instance those of a political or propaganda nature." It is suggested you may wish to consider proposal that Japanese tvling abroad be carefully instructed as to inadvisability of making unauthorized statements and of engaging in activities not directly related to designated purpose of tv1 abroad. Dept believes this would be in best interest of both US and SCAP's objectives that fresh antagonisms would not be created which might result in refusal by number of countries to admit Japanese for what we consider worthy purposes. Statement by SCAP containing assurances along above lines would be most helpful in gaining FEC agreement to present US position re tv1 of Japanese abroad. Early reply would be appreciated.
