Ltr., Kanto CAR, KEDI 387.6, subj: Application for Release of Miscellaneous Reparations Equipment (10-19), 5 Mar 51

387.6 (Mar 51)CAS-EI 1st Ind Mr. Johann/WFJ

GHQ, SCAP, Civil Affairs Section, APO 500

TO: Chief, Kanto Civil Affairs Region, APO 500

1. The items of equipment recommended for release in basic letter are properly designated as reparations material. Under existing directives, there is no authority for outright release of the subject items from reparations custody.

2. In the event further investigation by your headquarters reveal that some of the listed items are of scrap value, recommendations for their release as melt-down scrap may be submitted through established channels to General Headquarters, Supreme Commander for the Allied Powers, for approval.

REF: CMR-24

23 October 1950

TO: MAJOR D. M. FLYNN, Commanding Officer,
Camp Schimmelofenning

THRU: Regional Post Engineer,
Camp Schimmelpfenning

SUBJECT: Requesting Release of the Ex-Japanese
Military Equipments

1. We beg leave to forward our humble request again in regard to the Subject. This Office is always exerting our utmost efforts to promote minor industries in Japan by taking measures of Releafing Work upon the jobless peoples, enjoying your favourable permission like those of the released. It is desirous that the authorization will be granted for releasing by your favour, provided that those are out of use in the Occupation Forces.

Kindly see the Inclosures 1,2,3, 4 and 5
(List of Equipments Release Requested)

2. GENERAL DESCRIPTIONS:

a. Thise confiscated Equipments, beyond the Object concept of Reparation, have been lent to the Present Custodians through the Sendai Finance Bureau since the Surrender, in conformity with the Regulations in Japan.
(No. 4. The Department of Finance Instruction
24 May 1946)

b. If your authorization would be granted for releasing, those Equipments should be shifted to the Present Custodian for releasing, in order the above mentioned intentions will be realized.

HEADQUARTERS NORTHERN OCCLAN, APO 309 11 January 1951

TO: Commanding General, Japan Logistical Command, APO 343

1. Recommend approval of request contained in 2d indorsement on the basis that it will be in excess of T/A, in view of the following facts:

a. Regional Post Engineer, Camp Haugen, states that he plans to install the equipment in his shop.

b. Equipment will be used for maintenance of items of Japanese equipment under his control, in the folliwing manner:

(1) When repair parts are required for items of Japanese equipment at his station, the Regional Post Engineer must attempt to procure them under procurement demand from the local indigenous market. This results in considerable delay in effecting repairs, and frequently the local indigenous market cannot furnish the required parts from stock. When the latter situation exists it is necessary to have the part machined by local indigenous shops.

(2) Regional Post Engineer, Camp Haugen, has personnel qualified to operate the equipment requested in 2d indorsement and if request is approved, could manufacture the parts required at a savings for the government of both time and money. He would, also be in control of the production of such parts and it is believed would thus improve the quality of manufactured parts.

c. He has no equipment on hand to furnish services indicated above.

d. Requirement cannot be met by re-allocation within the command.

SUBJECT: Dispersed Reparations Equipment

TO: Commanding General, Eighth Army, APO 343

1. Equipment and facilities dispersed from arsenals, aircraft factories, privately owned munitions plants, and laboratories to other industrial installations prior to the date the above installations were taken under custody and control, will be considered part of the industry with which it is now associated and will be immediately released from custody unless the installation at which it is located has been independently listed as a reparations selection.

2. When the items to be released as authorized above have been determined, it is desired that a revised listing of locations be submitted as soon as practicable to General Headquarters, Supreme Commander for the Allied Powers, separately for arsenals, aircraft factories, privately owned munitions plants, and laboratories under custody. Consolidation, where practicable, will be made of small dispersal areas to enable General Headquarters, Supreme Commander for the Allied Powers, to evaluate, inspect, and allocate sizeable units within each prefecture.

SUBJECT: Dispersed Reparations Equipment

12 January 1948

TO: Commanding General, Eighth Army, APO 343

1. Equipment and facilities dispersed from arsenals, aircraft factories, privately owned munitions plants, and laboratories to other industrial installations prior to the date the above installations were taken under custody and control, will be considered part of the industry with which it is now associated and will be immediately released from custody unless the installation at which it is located has been independently listed as a reparations selection.

2. When the items to be released as authorized above have been determined, it is desired that a revised listing of locations be submitted as soon as practicable to General Headquarters, Supreme Commander for the Allied Powers, separately for arsenals, aircraft factories, privately owned munitions plants, and laboratories under custody. Consolidation, where practicable, will be made of small dispersal areas to enable General Headquarters, Supreme Commander for the Allied Powers, to evaluate, inspect, and allocate sizeable units within each prefecture.

387.6 (22 Jun 49) CPC/EX

MEMORANDUM FOR: REPARATIONS AGENCY, JAPANESE GOVERNMENT

SUBJECT: Maintenance and Consolidation of Reparations Facilities

1. The following directives are rescinded effective 1 April 1951:

a. Memorandum for Reparations Board, Japanese Government, 387.6 (22 Jun 49)CPC/RP, 22 June 1949, subject, "New Standards for Maintenance of Reparations Machines and Equipment in Dead Storage"

b. Memorandum for Reparations Agency, Japanese Government, 387.6 (2 Jun 50)CPC/EX, 11 September 1950, subject, "Expenditure of Funds for Maintenance, Centralization of Machines, and Repair of Buildings in Reparations Plants"

c. Memorandum for Reparations Agency, Japanese Government, 387.6 (2 Jun 50)CPC/EX, 15 November 1950, subject, "Expenditure of Funds for Maintenance of Idle Machines and Repair of Buildings in Reparations Plants"

d. Memorandum for Reparations Agency, Japanese Government, 387.6 (7 Nov 50)CPC/EX, 7 November 1950, subject, "Transfer of Reparations Equipment."

Info: CAS

2. Effective 1 April 1951, the Japanese Government will no longer be required to expend funds for rehabilitation or preservation of reparations machinery and equipment, or for maintenance of buildings housing privately owned reparations machinery and equipment. It is, therefore, directed that expenditure of Japanese Government funds be discontinued for maintenance of dead storage reparations machinery and equipment and for repair of buildings housing privately owned reparations machinery and equipment.

a. Using agencies will continue to be responsible for cleaning and applying preservatives to machines and equipment returned to dead storage from authorized use status.

b. Machinery and equipment of the former Japanese Army and Navy now in dead storage at reparations plants will remain in their present condition.

c. Privately owned reparations facilities need not be maintained; however, private owners are encouraged to maintain their facilities in order to preserve their value.

6>869

d. Expenditure of funds from the reparations budget for the repair of Japanese Government owned buildings housing dead storage reparations machinery and equipment is authorized upon approval of the Office of the Civil Property Custodian. Applications for expenditure of funds for this purpose will be submitted to the Office of the Civil Property Custodian through Japanese Government channels. Applications will contain a detailed description of work to be accomplished, and a breakdown of the cost involved.

3. Effective 1 April 1951, expenditure of funds for transfer of dead storage reparations machinery and equipment from one location to another for dead storage purposes will be authorized only when such transfer does not exceed custodial costs equal to 25% of present custody costs for one year, and also will result in elimination of a complete custodial area.

a. Applications for such transfers will be submitted to the Office of the Civil Property Custodian through Japanese Government channels and will contain a breakdown of costs involved.

b. Plant-to-plant consolidation will be effected only between government-owned plants, privately-owned plants owned by the same company, or between privately-owned plants under separate ownership, with consent of the owners.

c. Transfer of reparations machinery and equipment from one location to another for dead storage purposes at no expense to the Japanese Government reparations budget is authorized upon approval of the Office of the Civil Property Custodian. Applications will contain complete nomenclature of machinery and equipment to be transferred.

d. Expenditure of funds in excess of 25% of present annual cost of custody for transfer of reparations machinery and equipment for Occupation Force or Japanese Government purposes is authorized upon approval of the Office of the Civil Property Custodian.

APPLICATION FOR RELEASE OF DESIGNATED MACHINERY
AND EQUIPMENT FROM REPARATION CUSTODY

Date : Feb. 22th 1951.

2) Name and location of Plant :

Machanbashi No. 2 Plant, Fuji Industrial Co. Ltd.

1) Name and location of Plant :

Machanbashi No. 2 Plant, Fuji Industrial Co. Ltd.

Code No. 10-14

2) Location of Plant :

1084 Iwasaki-cho, Machanbashi-shi, Gunma-ken.

3) Machinery & equipment to be released :

Surface plates 56 items.

The details are as shown on attached list.

4) Reason for release :

These surface plates are none finishes which need much expenses to finish, and are impossible to use because of bending and much strains on them, so we expect to broke them and use for materials (pig iron) of our products and request to release them from Reparation Custody.

SUBJECT: Application for Release of Reparations Equipment (10-23)

TO: SUPREME COMMANDER FOR THE ALLIED POWERS
Attention: Chief, Civil Affairs Section (Economics)
APO 500

1. Reference is made to inclosed memorandum, Kanto Liaison and Coordination Office, file KLO No 357-H, subject: "Application for Release from Reparations Custody of Miscellaneous Reparations Equipment and Supplies (10-23)," dated 14 March 1951.

2. Items listed in reference are supplies and materials previously released by Occupation Forces tactical units as former Japanese Army-Navy property.

3. Recommend release as items erroneously evaluated for reparations.

KANTO FINANCE BUREAU
MINISTRY OF FINANCE

Date : 6 Mar.1951

TO : Chief, Kanto Civil Affairs Region.

THRU : Kanto Liaison and Coordination Office.

FROM : Director, Kanto Finance Bureau

SUBJECT : Application for Release from Reparation Custody of Items evaluated under Category of "Miscellaneous Equipment" and "Supplies".

1. Name and Code No. of Arsenal :

Iwahana Factory of the 2nd Tokyo Military Arsenal.
10 - 23

2. Location :

No. 239, Iwahana, Itahana-mura, Gumma-gun, Gumma-ken.
Grid-Coord. : 615 - 1497

3. Evaluated Items to be Release :

As shown on the attached list.

4. Reason for Release :

These items requested herein are, as listed on the attached sheets, the various kinds of part to be used for repairs and of chemical tests (reagents). They were all released and transferred from the custody by the Occupation Forces stationed at this prefecture on 9 August 1946, and we were disposing of them. Before the disposal was completed, the evaluations for reparations items of the former military and navy arsenals was started on 5 April 1948 in accordance with a directive, RED No.38 and, as the evaluation was required to be completed as immediately as possible, the whole items actually existed in the Iwahana Factory at that time, covering the above transferred items that had not yet been disposed of, were the objects of the evaluation. Thus the items in question, as they happened to be stored at Iwahana Factory in those days, were registered on "Work-sheets",

Ind. to KLO No. 3524

and since then they have been again put under the custody.

For rehabilitation of the peace-time industries in Japan, those items are greatly required and demanded from various directions. Besides, some of them will be efflaresced with time, or rusted and deteriorated in quality, and if remained as they are, they would become less and less valuable, even to be useless, we fear.

So we earnestly desire to get those items released from custody so as to make good and proper use of them in their respective uses, and therely to contribute to the reconstruction of the peace-time industries and progress of the export trade in Japan.

It is hereby requested that your kind consideration be given on this matter and your approval be granted us for the release of the items as above.

Signature Y. Inoue
Director, Kanto Finance Bureau.

SUBJECT: Deletion from Reparations Inventory of One Wooden Head Tank and Fifteen Concrete Tank

TO: SUPREME COMMANDER FOR THE ALLIED POWERS
Attention: Chief, Civil Affairs Section (Economics)
APO 500

1. The 16 tanks are located in the salt refining building, Caustic Soda Plant (05-03), Nissin Chemical Co. Ltd., Niihama. The tanks are no longer of any use and will be destroyed. The building is needed for other purposes.

2. It is recommended that the wooden head tank (IA3-1) and concrete tanks (IA3-2 to 16 inclusive) be deleted from the reparations inventory. (See attached sketch)
