DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

TOTTORI PREFECTURAL OFFICE

Ju-Sho No. 2305,
Tottori, 21 July, 1948

Subject:- Additional Application for Conversion to Resume Production of Essential Civilian Commodities.

To:- Mr. MIZUTANI Chosaburo,
Minister of Commerce and Industry.

We are in receipt of an application on subject matter from SAIKI Hisatoshi, Manager of Meiji Kikai Seisakusho, 1022 Meiji-machi, Kurayoshi-cho, Tohaku-gun, a designated reparation plant under the jurisdiction of this Prefecture.

The said plant is, approved under 1 Corps HQ Permit No. IG-250, dated 20 Feb 1946, now operating the manufacture of agricultural implements and wooden furniture as well as general repair for civilian purposes.

The present application is for the manufacture of drums and plugs ordered by Special Procurement Board, and the same articles fall under the ordinance No. 1 of Ministries of Commerce & Industry, Education, Agriculture & Forestry, Transportation and Welfare.

Stated below is our opinion on this matter to ask for your special arrangements for authorization.

a. Any other equipment, not designated for reparation, within the jurisdiction available at present for the proposed production.

None.

b. Any other equipment, not designated for reparation, within the jurisdiction capable of enlargement, improvement or repair in short period.

No equipment other than designated reparation plants capable of enlargement.

c. Reinforcement of labor.

Increase of number of workers is necessary to some extent.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

d. Other opinions on this application.

Originally this factory makes a speciality of forged articles, and during the war time, as equipped with air-hammer and friction press, was engaged in the manufacture of stamp forged parts of torpedoes and obliged to convert the production for agricultural implements and wooden wares after the war in spite of their proper equipment and technique.

We recommend that the said factory, in the execution of the order of 8th Army now placed with them, can produce excellent stamp forged articles by utilizing their equipment and technique referred to above.

Sgd: NISHIO Aiji,
Governor, Tottori Prefecture.

SUBJECT: Crumbling of a Part of Bldg No. 3, Meiji Kikai Seisaku Sho (41-2)

TO : Mr. Stradley,
Chugoku Civil Affairs Region

This is inform to you that a part of Bldg No. 3 of designated reparations plant Meiji Kikai Seisaku Sho(41-2) was broken on Jan 22nd by the snow which had falled since the previous night and that no damage was fortunately incurred by the crumbling to the designated equipment 41-2-33.

The official in charge, Tottori Pref. Gov't sent to the spot instructed to do temporary repairs as it is difficult to do complete rehabilitation for the time being due to the snowfall, and to set about complete repairs when it comes possible.

Planing machine	10 ft.	3.5x2.7x3.0	41-2-33	do.	1	do.
Total					4	

5. Reasons for Necessitating Operation:

All the nine (9) lathes now in use are too old and in too bad condition for precision work, and the processing work relies on the only one lathe (Code number: 31-2-10) in comparatively better condition.

Worse still, at present, no milling, slotting and planing machines in the plant have "Authorized Use." Purchasing new ones is impossible on account of the stringency of the plant's finance and the plant admits of no installation of the new machines therein owing to scarcity of area, to say nothing of difficulty in getting these machines in such remote district as this and in the establishment of a new plant for laying these machines.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Therefore in case where these machines can not be used, we can not but ask other plants for processing, and as there is no such plant large enough for these machines in this district, we must request a plant in other districts; which makes us much loss to our plant.

We were authorized "T. O." verbally by the competent officer in the Tottori Civil Affairs Team, and the machines are now in operation.

Whether or not the authorization of use of these machines is given affects the independent existence of this plant which is now on the way of promotion of our production.

Accordingly we cordially beg you to do due consideration to authorization for changing "Temporary Operation" of the machines to "Authorized Use".

Repairs and manufacturing of machines.

4. Name of Reparations Machines subject to authorization for use:

Name of Machines:	Type:	Measure:	Inventory Number :	In Suspension or Temporary Operation:	Quantity:	Remarks:
Lathe	Bench type; 8 ft.	3.0x0.9x1.2	41-2-10	T. O.	1	T.O. Authorized on July, 1949.
Milling machine	New-type; Belt style	1.5x1.2x1.7	41-2-30	do.	1	do.
Slotting machine	Stroke; 6 inches	2.2x0.9x2.0	41-2-32	do.	1	do.
Planing machine	10 ft.	3.5x2.7x3.0	41-2-33	do.	1	do.
Total					4	

5. Reasons for Necessitating Operation:

All the nine (9) lathes now in use are too old and in too bad condition for precision work, and the processing work relies on the only one lathe (Code number: 41-2-10) in comparatively better condition.

Worse still, at present, no milling, slotting and planing machines in the plant have "Authorized Use." Purchasing new ones is impossible on account of the stringency of the plant's finance and the plant admits of no installation of the new machines therein owing to scarcity of area, to say nothing of difficulty in getting these machines in such remote district as this and in the establishment of a new plant for laying these machines.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Therefore in case where these machines can not be used, we can not but ask other plants for processing, and as there is no such plant large enough for these machines in this district, we must request a plant in other districts; which makes us much loss to our plant.

We were authorized "T. O." verbally by the competent officer in the Tottori Civil Affairs Team, and the machines are now in operation.

Whether or not the authorization of use of these machines is given affects the independent existence of this plant which is now on the way of promotion of our production.

Accordingly we cordially beg you to do due consideration to authorization for changing "Temporary Operation" of the machines to "Authorized Use."

1. Reference is made to attached application of the Meiji Kikai Seisakusho, Kurayoshi-cho, Tottori Prefecture, for the use of five (5) transformers.

2. Subject transformers were borrowed from Chugoku Power Company during the war and were not inventoried until September 1948 with code numbers #41-02-72 through 76.

3. Investigation has been made by this headquarters which disclosed that the use of the transformers would in no way impair its value and that necessary custody and maintenance will be carried on as in the past.

4. It is recommended that this application be approved as this equipment is considered essential in the production of agricultural implements and furniture.

MANUFACTURING AND INDUSTRY FILE 41-2 Sec V

1. REFERENCE:

Paragraph 3b, O. D. 11, 10 April 1950.

2. PURPOSE:

Inspection of reparations equipment at Meiji Kikai (41-2).

3. BACKGROUND:

Routine.

4. DISCUSSION:

Applications for release of buildings and removal of reparations equipment from building No. 3 to building No. 2 were presented by custodian. A further check was made of the 36 "EX" items at the plant and proper documents are now on hand. Plant custodian was told to familiarize himself with SCAPIN 1938 dealing with exempt machinery.

5. CONCLUSION:

Maintenance at the plant has improved since last inspection in July. Custodial records are gradually rounding into shape.

Following the inspection it was pointed out to the custodian that applications previously given the undersigned be revised as follows:

a. Apply for release of all buildings with exception of buildings 1, 2, and 3 all of which contain reparations equipment.

b. Equipment now stored in building No. 3 will not be applied for removal to building No. 2 until that equipment located in building No. 2

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

which has been applied for scrapping has been approved and scrapped. Building No. 2 does not have adequate floor space at present to house additional equipment.

6. RECOMMENDATIONS:

None.

FIELD TRIP REPORT

R. P. LORD

21 July 1950

1. **Purpose:**

Inspection of Meiji Kikai Company, Code No. 41-2, Tottori Prefecture.

2. **Background:**

Surveillance in accordance with O.D. 11, 10 April 1950.

3. **Disucssion:**

The plant is operating 34 of their 76 reparations machines four (4) of which are used on a temporary use basis. Application requesting authorized use of the four items was submitted to SCAP through Japanese Government channels 10 December 1949. No reply has been received to date. Plant has thirty-five (35) items of equipment marked "EXEMPT" but documentary proof as required by SCAPIN 1938 is not on hand for seven (7) items. Plant management was previously requested in March 1950 to notify this headquarters as to the legality of marking these seven (7) items of equipment "EX", but to date substantial proof has not been established.

The twenty-eight (28) other "EX" items were checked and approved by Tottori Military Government Team. These documents are available.

MANUFACTURING AND INDUSTRY FILE 41-2 Sec IV

4. **Conclusion:**

Equipment inspected and found in satisfactory condition although three transformers in use were not coded.

5. **Recommendations:**

Plant manager to further check status of seven (7) "EX" items and submit full report to this headquarters or items will be taken under custody for reparations. Code three (3) transformers whose assigned numbers have been painted out. Dead storage equipment stored in building # 2 to be transferred to building # 3 as dead storage building has bad roofing and is too small for adequate storage of equipment.

20 March 1950

1. Purpose:

Inspection of reparation plant at Meiji Kikai Seisakusho Code Number 41-2.

2. Background:

Surveillance in accordance with C.D. 51.

3. Discussion:

71 items were originally inventoried. 30 items are on authorized use of which 25 were approved on 22 July 1948. 5 items were put into authorized use immediately after they were additionally inventoried on 23 April 1949. 3 items were exempted subsequent to original inventory. 4 items are on temporary operation applied for authorized use on 10 December 1949.

Code numbers of items or temporary operation are:

41-2-10
41-2-30
41-2-32
41-2-33

4. Conclusion:

The plant fails to show adequate documental proof to verify the status of exempt item.

5. Recommendation:

The plant custodian was advised to contact manufacturers of the EX item they now have and acquire concrete datas regarding their status.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SUBJECT: Field Trip to Tsuyama, Tottori, Matsue and Gotsu

PURPOSE: Inspection of Reparations Plants, Dispersal Areas and Shipbuilding in compliance with O.D. 51, dated 27 September 1949.

The Gunze Silk Co. in Tsuyama (Code No. 31-1) was inspected on 23 Nobermber 1949. Plant was not in operation at the time due to electricity cut-off. Seven (7) wood-working machines were released at this location in 1947 by CCAT. Company officials did not know name of person effecting release. Verbal authority was given for their release and no letter available in their files. At time of their release machines were not numbered due to instructions from ken Government Commerce and Industry Section. Four (4) machines are in temporary use-verbal authority given by a Capt. Green (CCAT) on 27 September 1949. Twenty-eight (28) machines are in authorized use-verbal permission given 25 February 1949 after application was submitted. Copy of application was available. Code Nos. of temporary use machines are:

31-01-3
31-01-7
31-01-56
31-01-62

A count of all machinery in authorized use showed no discrepancies, although two of the machines appeared in need of cleaning.

Kawasaki Zoki K.K. (Code No. 41-3) inspected on 24 November 1949. Two (2) Special Purpose machines were not completely destroyed due to instructions from TCAT. Machines now have new inventory numbers (41-3-116), (41-3-117). Three (3) temporary use machines (switchborads) in use for one year. Plant authorities said a letter from TCAT authorizing temporary use of these machines was on record in Prefectural Office. Check revealed no letter on file. Plant authorities did however have copy of application sent to TCAT asking temporary use of these machines. Fifty (50) items included in the inventory are under the custody of finance Bureau including one (1) transformer in temporary use.

Ten (10) machines from Maeda Kikai Seisakusho dispersal area (Code No. 41-9b) and eight (8) machines from Chiyogawa Seisakujo dispersal area (Code No. 41-9c) have been consolidated in plant 41-3. Authority for moving given by TCAT. One lathe from the latter area a CPC machine has already been sent to Odaka. Both dispersal areas visited and found to contain no reparations machinery. Chiyogawa Seisakujo Company no longer in operation. Former location is occupied by small firm manufacturing charcoal fuel.

Sanin Kogyo K.K. (Code No. 41-1) inspected on 25 November 1949. One machine is in temporary use (Code No. 41-1-214) verbal authority given in September 1949 by TCAT. Copy of application to TCAT asking temporary use of machine is on record in company file. Seventy-one (71) machines are in authorized use. Approval given 24 March 1948 by Capt Moxley, TCAT. Copy of application listing machines and his signed approval are on record. One machine in authorized use (Code no. 41-1-294) fire fighting apparatus appeared rusted, dismassembled and in general poor condition. Machine would be of little or no use in case of fire. Other machinery in authorized use appeared to be well maintained.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The Ishimatsu Shipbuilding Company located at Karo-Tottori City, visited on 25 November 1949. The above is a wooden shipbuilding yard which employs about 60 persons. At the time of inspection three 25 ton travlers were under construction. One trawler of 28 tons was recently launched and is now receiving deck fittings. Of the four slipways at this yard, two are large enough for the construction of 150 ton wooden vessels.

Ishikei Shipbuilding Company located at Karo-To tori City visited on 25 November 1949. Only 30 or 35 persons are employed at this yard. Yard has three slipways, two of which were being used in the construction of one 10 and one 20 ton wooden ships. However, one slipway is large enough for the construction of a 100 ton wooden vessel.

Shinko Kogyo K.K. (Code No. 41-4) inspected on 26 November 1949. Two Special purpose machines at this location only partially destroyed and given new code numbers-41-4-288, 41-4-289. 148 machines in authorised use-written authority from TCAT for their use on record in company office. Twenty-nine (29) machines at this location are under the custody of Finance Bureau bearing the following code numbers. Machines are in authorized use:

41-9d-60
41-9d-63 to 41-9d-66
41-9d-72 to 41-9d-73
41-9d-75 to 41-9d-85
41-9d-92
41-9d-94 to 41-9d-97
41-9d-102 to 41-9d-104
41-9d-112 to 41-9d-114

Seven (7) Special Purpose machines at the above location under custody of Finance Bureau were only partially destroyed and given the following new code numbers:

41-9d-115
41-9d-116
41-9d-117
41-9d-118
41-9d-119
41-9d-120
41-9d-121

Machinery in use was checked and found to be in good condition.

Shinko Kogyo K.K. (Code No. 41-5) also inspected on 26 November 1949. One machins in authorised use (41-5-24) moved to plant 41-4 together with six (6) machines in authorized use under Finance Bureau custody-41-9e-115,116,134,135,175,176. Authority for moving machinery given in letter from TCAT. The machines listed herein were located and checked at 41-4.
