GENERAL HEADQUARTERS
FAR EAST COMMAND

AG 400.12 (23 Sep 47) TC-O

APO 500
23 September 1947

SUBJECT: Procedure for Determining Requirements of Occupation Forces in Japan for Small Watercraft

TO: Commanding General, Eighth Army, APO 343
Commanding General, Far East Air Forces, United States Army, APO 925
Commanding General, Headquarers and Service Group, General Headquarters, Far East Command, APO 500

1. References:

a. Report "Status of Vessels Under 1000 Tons and Floating Equipment", (Reports Control Symbol QTC 02-R1).

b. Paragraph 24, Change 6, 17 July 1946, to Army Regulation 55-510, 9 October 1942, "Report of Operating Cost and Utilization of Harbor Boats", (Reports Control Symbol TC-2) (WD AGO Form 55-33, 1 July 1946).

2. Purpose. The Purpose of this directive is to establish procedures for determining the property status of all small watercraft, and the operational and recreational requirements of the occupation forces in Japan for such craft. It is intended that procurement of indigenous craft be terminated as soon as practicable and the retention of United States owned craft such as Transportation Corps items and Navy combat support draft be held to a minimum.

3. Procedure. Reference 1b above, requires a quarterly report "Report of Operating Cost and Utilization of Harbor Boats", (Reports Control Symbol TC-2), be submitted on each harbor vessel and unit of floating equipment, on War Department AGO Form 55-33, 1 July 1946. Listed below is additional data to be submitted on each unit of floating equipment (except rowboats) in use by occupation forces personnel in Japan.

a. War Department AGO form 55-33 (inclosure No. 1), will be submitted quarterly to the Commander-in-Chief, Far East, on all indigenous craft, including those procured on a contract or rental basis.

AG 400.12 (23 Sep 47) TO-O

b. A summary sheet (inclosures No. 2 and No. 3), will be submitted with completed War Department AGO forms 55-33, separately for United States-owned craft and for indigenous craft.

c. Additional entries as follows will be made on the Commander-in-Chief, Far East, and major command retain copies (not on original) of War Department AGO form 55-33, for United States-owned craft, and on all copies of War Department AGO form 55-33 for indigenous craft:

(1) Page 2, "Operating Cost":

(a) Where Japanese personnel, supplies, and/or services are utilized, estimated United States dollar value will be entered in paragraphs 1, 2, 4, 6 and 7 as applicable.

(b) Cost of fuel (paragraph 8) and lubricants (paragraph 9): Amounts purchased and issued will be shown separately.

(2) Page 3, "Utilization":

(a) Paragraph 1 will show separately, number of hours employed on official duty missions and number of hours employed for recreation.

(b) Paragraph 6, "Remarks", will contain the following entries:

1. A general description of the craft, giving overall length, method of propulsion, passenger capacity and cargo capacity.

2. Nationality and status of original ownership; e.g., United States Army, United States Navy, Japanese civilian, Japanese Navy, Australian, etc.

3. Method possession of craft was obtained; e.g., T/O and E, memorandum receipt from some other unit (give unit's designation):

Equipment Modification List: special letter of authorization, citing headquarters and date; Japanese Army or Navy captured or surrendered property; Procurement demand on Japanese; procurement demand for contract (rental) service; gift, purchase or loan from individul; etc.

4. The average number of persons to whom boat is available.

5. Other transportation means available for accomplishment of official mission, i. e., highway. rail or ferry service.

6. Source of operating and maintenance personnel; i.e., T/C and E; procurement demand for contract services; etc.

7. Number and types of watercraft assigned to same unit for same or similar primary mission.

4. Authority for retention of small craft will be predicated on only the most essential operational and recreational requirements. Such requirements will be based upon accomplishment of assigned missions with minimum equipment. Operations will be consolidated wherever parcticable in order to minimize the requirements for all watercraft.

5. Requirements of British Commonwealth Occupation Forces for United States-owned and indigenous craft will be consolidated and submitted by the Commanding General, Eighth Army. Requirements of the 441st Counter-Intelligence Company and the 319th Military Intelligence Company will be consolidated and submitted by the Commanding General, Headquarters and Service Group, General Headquarters, Far East Command.

6. Initial reports will be forwarded to the Commander-in-Chief, Far East, so as to arrive not later than I November 1947. Allowances will be formulated for each command. Upon publication of small craft tables of allowances, craft in excess of authorized allowances will

HEADQUARTERS I CORPS
APO 301 (Kyoto, Honshu)

INSTRUCTIONS FOR PREPARATION OF REPORTS OF OPERATING COST AND UTILIZATION OF HARBOR BOATS

1. General:

a. Four (4) copies of the report will be prepared for each boat, and forwarded to this headquarters so as to arrive by the 10th of the month following the end of the quarter.

b. In all cases where figures are estimated, the entry made on the report will so indicate.

c. When a negative entry is necessary, the space will be left blank.

2. The first section of the report, the page headed by the word, "Operating Cost and Utilization of Herber Boats," will be completed as follows.

a. The speces at the top of the page call for idemtifying information.

(1) The space labeled "Boat Report" will be marked with an "X" for each boat reported. No marks will be made by your headquarters in any of the remaining three (3) spaces, except station summary will so indicate.

(2) Quarter - Enter appropriate word i.e. First, Second, Third or Eourth.

(3) Fiscal Year - Enter 1948.

(4) Name - Enter name of boat and bow number, if any, assigned by this headquarters.

(5) Commamd - Enter the designation of the unit to which the boat is immediately assigned. Such as, 3rd Bn, 24th Inf. Reg.

(6) For Station - Enter actual location as shown on I Corps Status of Unitc and Station List.

(7) Type - Enter the type of boat, such as "LCT" or "LCM".

(8) Size - Enter overall length and beam of boat.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Instructions for Preparation of Reports of Operating Cost and Utilization of Harbor Boats.

(9) Army Owned - Enter "X"

(10) Bareboat and Time Charter - Leave these spaces blank,

b. On the original copy, repeat "original only" of report submitted on Army craft i.e. LST, FS, LCVP etc. paragraph 4. c. (2), (3), (4), (5), (6), and (7) of these instructions will not be entered, since the original copy goes to the Chief of Transportation and this is information pertinent to Eighth Army in determining justification for retension of craft by the using organization.

3. Page 2, "Operating Cost"

a. Where Japanese personnel, supplies, and/or services are utilized estimated United States dollar value will be entered in paragraphs 1, 2, 4, 6 and 7 as applicable.

b. Cost of Fuel and Lubricants - Check with Quartermaster for latest prices. Amounts purchased and issued will be shown separately. For instamme: If 1000 gallons of diesel fuel oil were received from Quartermaster issue, and 500 gallons were purchased and paid for, each would be shown separately.

4. Page 3, "Utilization"

a. Read and familiarize yourself with instructions at the top of page three (3).

b. Paragraph 1 will show separately, number of hours employed on official duty missions and number of hours employed for recreation.

c. Paragraph 6, "Remarks" will contain the following entries:

(1) A general description of the craft, giving everall length, method of propulsion, passenger capacity and cargo capacity.

(2) Nationality and status of original ownership: e.g., United States Army, United States Navy, Japanese civilian, Japanese Navy, Australian, etc.

(3) Method possession of craft was obtained; e.g., T/O and E, menorandum receipt from some other unit (give units designation; Equipment Medification List; special letter of authorization, citing headquarters and date; Japanese Army or Navy captured or surrendered property; Procurement demand on Japanese; procurement demand for contract (rental) service; gift; purchase or loan from individual; etc.

(4) The average number of persons to whom boat is availa* ble.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Instructions for Preparation of Reports of Operating Cost and Utilization of Harbor Boats.

(5) Other transportation means available for accomplishment of official mission, i.e., highway, rail or ferry service.

(6) Source of operating and maintenance personnel: i.e., T/O and E; procurement demand for contract services; etc.

(7) Number and types of watercraft assigned to some unit for same or similar primary mission.

d. Paragraphs 1 and 2 of Utilization must be clearly stated. as that will serve as part of the justification for the need of a craft.

5. Authority for retension of small craft will be predicated on only the most essential operational and recreational requirements. Such requirements will be based upon accomplishments of assigned missions with minimum equipment. Operations will be consolidated wherever practicable in order to minimize the requirements for all watercraft.

6. A Station summary will be made up by each command as outlined in "Utilization Instructions" on page 3 of form 55-33.

7. All reports should be checked for accuracy and signed by responsible officer and forwarded for final approval of post or Station Commander.

INSTRUCTIONS

1. A report for each harbor boat and unit of floating equipment regardless of type, assigned for operation within ports of embarkation, Army areas departments, base commands and theaters will be prepared quarterly on WD AGO Form 55–33, Report of Operating Cost and Utilization of Harbor Boats—Boat Report. It will be prepared in triplicate at all posts or stations within Army areas, departments, base commands, and theaters and in duplicate at ports of embarkation. Posts or stations within the geographical limits of an Army area, department, base command, or theater, but not under the command of the Army area, department, base command, or theater, will submit the report as required in paragraph 24, AR 55–510. Costs will include the value of purchased and issued items.

2. A summary report will also be prepared by posts, camps, or stations in triplicate and by ports of embarkation in duplicate to cover total cost for all boats assigned thereto.

3. The original and one copy of each boat report and each summary report prepared by Army area installations and installations of departments, base commands, and theaters will be forwarded to the commanding general of the Army area, department, base command, or theater concerned. Ports of embarkation will forward the original of each boat report and summary report to the Chief of Transportation.

4. Headquarters of Army areas, departments, base commands, and theaters will prepare a quarterly report on WD AGO Form 55–33 "Headquarters" on which will be reported expenses (such as shore employees) which should be included in the total harbor boat expenses.

5. A consolidated summary report will be prepared by Army areas, departments, base commands, and theaters including the expenses shown on the Installation Summary and the headquarters reports.

6. The originals of the Boat Reports, Station Summaries, Headquarters Sheet and the Consolidated Summaries will constitute a complete assembled report, which will be mailed to the Chief of Transportation not later than the 30th day of the month following the close of the quarter.

7. Salaries of shore employees will not be shown on individual boat reports.

8. Salaries of shop personnel will be prorated to apply to repairs accomplished on each boat. For work other than on boats, salaries may be included with the total of salaries of shop personnel on the Summary Sheet and report thereof furnished under Remarks (6).

9. Rental of boats will be reported only on the Summary Report, and on page four under Remarks will be shown the period of hire and rate of hire for each boat rented or chartered.

UTILIZATION INSTRUCTIONS

1. State the type of work the vessel is performing; what the vessel is used for.
2. Area in which operated, whether the run is regular, irregular, or whether the vessel is performing special service.
   (*a*) Should include total mileage for the quarter.
   (*b*), (*c*), (*d*), and (*e*). Should cover the total number of hours to be accounted for which will be the actual number of days in the quarter multiplied by 24. Under (*b*), the hours to be reported should be the number of hours actually spent in performing an assigned mission (*not engine hours*). Under (*c*), the number of hours standing by are hours in which the crew is on duty awaiting assignment to a mission. Security stand-by will be explained as such. Under (*d*), idle hours are those hours when the crew is not aboard for service. The number of shifts and length of shift should be reported. For example, "one 8-hour shift," "two 12-hour shifts," or, "no regular schedule used as required." Remarks are required when the hours "in operation" (*b*), plus the hours "standing by" (*c*), are less than 416 hours for the quarter, in which event explanation is requested as well as whether the boat is deemed essential to the needs of the station. If an explanation has been furnished in one report and conditions remain unchanged, the words "No change" may be inserted. Under (*e*), the number of hours in repair constitute the total hours out of service for repair.
3, 4, and 5. No special instruction needed.
6. Report any unusual occurrences affecting operations. On Summary omit items 1, 2, and 6, but not 2 (*a*), 2 (*b*), 2 (*c*), 2 (*d*), and 2 (*e*). On 2 (*e*) omit "Reason."

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

INSTRUCTIONS FOR USE OF FORM 2

(Local reproduction of this form is not authorized)

1. This form will be used to receipt for all Japanese supplies and facilities procured by procurement demand and will be the basis to support the suppliers', property owners', and contractors' claim for payment by the Japanese government. It will also serve to furnish information to higher headquarters of the value of supplies and facilities procured from Japanese civilian sources.
2. A receipt will be issued for every procurement demand prepared, unless such demand is voided.
3. The procurement receipt number assigned this receipt will be the same as was used on the demand for the supplies and facilities hereon with the following changes: Third group — A consecutive letter sequence for partial receipts starting with the letter A for the first delivery (partial receipt). Revaluations will be indicated by adding a letter sequence in inverse order starting with the letter Z for the first revaluation receipt. Illustration: KYTE-5 or KYTE-5-A or KYTE-5-Z or KYTE-5-AZ.
4. Item numbers will correspond to those used on the procurement demand. Items not delivered will be lined out.
5. The specific description of the supplies and facilities received will be as stated on the demand; verified, corrected, and amplified by inspection at time of delivery.
6. If a single account code is not applicable to all items on the receipt, enter after each item described, the proper account code given in Incl 5**.
7. Detach the lower half of all except the last page, if more than one page is required.
8. Relative value, calculated as given in Incls 6 to 10** will be entered on all copies *except those given to the Japanese.*
9. In reporting revaluations, the original or previously reported value, the correct or recalculated value, and the net change in value will be given, as explained in Incl 6**.
10. Under "Remarks", include the following, if appropriate:
    a. Statement as to the materials, equipment, labor and supervision furnished by occupation forces in filling demand.
    b. Reference to any attached statements, invoices, hand receipts, and inventories.
11. Alterations in the nomenclature and quantity of items will be initialed by both the receiving officer and the Japanese representative.
12. Both representatives will sign all copies of the receipt and inventory.
13. List of papers in connection with receipt, number of copies, and by whom prepared:

a. Procurement receipt, GPA Form 2	6 copies	Japanese Liaison Office
b. Procurement data, Form MGP 2	2 copies	Military government unit
c. Inventory	4 copies	Requesting unit
d. Utilities statement of service rendered	3 copies	Japanese Liaison Office
e. Japanese hand receipts	2 copies	Japanese supplier, etc.

14. Distribution of papers and member of copies:

a. Central Records	1 copy	of 13a and b above
b.* Military government unit	1 copy	of a, b, c, d, and e
c. Appropriate staff section	1 copy	of a, c and d
d. Japanese Liaison Office	2 copies	of a,
	1 copy	of c and d
e. Japanese supplier,	1 copy	of a and e
f. or Japanese property owner	1 copy	of a, c and e
g. or Japanese contractor	1 copy	of a and e

15. Partial receipts will be prepared and distributed in the same manner.
16. Receipts issued to record revaluations will be prepared by the military government unit in duplicate. One copy will be forwarded to Central Records and one copy retained in file. A procurement data form will be prepared and attached to each copy of a revaluation receipt
17. Military government unit will forward Central Records copy directly to Military Government Section, Headquarters Eighth Army, APO 343, attention Procurement Division.

* When receipt is received by a military government unit which did not prepare the demand, extra copies of each paper must be made for the files of the unit which prepared the demand.

INSTRUCTIONS FOR USE OF FORM 2

(Local reproduction of this form is not authorized)

1. This form will be used to receipt for all Japanese supplies and facilities procured by procurement demand and will be the basis to support the suppliers', property owners', and contractors' claim for payment by the Japanese government. It will also serve to furnish information to higher headquarters of the value of supplies and facilities procured from Japanese civilian sources.
2. A receipt will be issued for every procurement demand prepared, unless such demand is voided.
3. The procurement receipt number assigned this receipt will be the same as was used on the demand for the supplies and facilities hereon with the following changes: Third group — A consecutive letter sequence for partial receipts starting with the letter A for the first delivery (partial receipt). Revaluations will be indicated by adding a letter sequence in inverse order starting with the letter Z for the first revaluation receipt. Illustration: KYTE-5 or KYTE-5-A or KYTE-5-Z or KYTE-5-AZ.
4. Item numbers will correspond to those used on the procurement demand. Items not delivered will be lined out.
5. The specific description of the supplies and facilities received will be as stated on the demand; verified, corrected, and amplified by inspection at time of delivery.
6. If a single account code is not applicable to all items on the receipt, enter after each item described, the proper account code given in Incl 5**.
7. Detach the lower half of all except the last page, if more than one page is required.
8. Relative value, calculated as given in Incls 6 to 10** will be entered on all copies *except those given to the Japanese.*
9. In reporting revaluations, the original or previously reported value, the correct or recalculated value, and the net change in value will be given, as explained in Incl 6**.
10. Under "Remarks", include the following, if appropriate:
    a. Statement as to the materials, equipment, labor and supervision furnished by occupation forces in filling demand.
    b. Reference to any attached statements, invoices, hand receipts, and inventories.
11. Alterations in the nomenclature and quantity of items will be initialed by both the receiving officer and the Japanese representative.
12. Both representatives will sign all copies of the receipt and inventory.
13. List of papers in connection with receipt, number of copies, and by whom prepared:

a. Procurement receipt, GPA Form 2	6 copies	Japanese Liaison Office
b. Procurement data, Form MGP 2	2 copies	Military government unit
c. Inventory	4 copies	Requesting unit
d. Utilities statement of service rendered	3 copies	Japanese Liaison Office
e. Japanese hand receipts	2 copies	Japanese supplier, etc.

14. Distribution of papers and member of copies:

a. Central Records	1 copy	of 13a and b above
b.* Military government unit	1 copy	of a, b, c, d, and e
c. Appropriate staff section	1 copy	of a, c and d
d. Japanese Liaison Office	2 copies	of a,
	1 copy	of c and d
e. Japanese supplier,	1 copy	of a and e
f. or Japanese property owner	1 copy	of a, c and e
g. or Japanese contractor	1 copy	of a and e

15. Partial receipts will be prepared and distributed in the same manner.
16. Receipts issued to record revaluations will be prepared by the military government unit in duplicate. One copy will be forwarded to Central Records and one copy retained in file. A procurement data form will be prepared and attached to each copy of a revaluation receipt
17. Military government unit will forward Central Records copy directly to Military Government Section, Headquarters Eighth Army, APO 343, attention Procurement Division.

* When receipt is received by a military government unit which did not prepare the demand, extra copies of each paper must be made for the files of the unit which prepared the demand.

CITE DX 99051
Recurad Cite DX 99578 Subject: "Receipt Procedure for Blanket Construction and Maintenance Procurement Demands", subparagraphs a, b, and c are amended to read as follows: Subparagraph A. One GPA2 receipt will be submitted for each calendar month for each contractor (if more than one) named as suggested source on each procurement demand or the prefectural government, if it is named as the suggested source. The receipt form will state generally the type of work being performed under the demand; i.e. minor construction, repairs and maintenance, etc. The receipt will list, by number and date issued, all work orders for which services were completed during the month, and a legible copy, in English, of such work orders will be attached to each copy of each procurement receipt; bills of materials will be attached to or listed on each work order. Signature of the receiving officer to authenticate each work order for receipting purposes is not required; the signature of the receiving officer on the GPA2 is a certificate to the effect that all work orders attached thereto are complete and correct. Each work order will state the full designation of the specific unit using the property being constructed or maintained; joint use will be so indicated by approximate percentages of use by each unit. A negative receipt will be submitted for each contractor for each calendar month when, during that month, the contractor did not complete any work orders.

Subparagraph B. A separate work order will be submitted for each job or approved completed work order request including dependent housing as well as other facilities. Work orders pertaining to building, roads, utilities or facilities which will add capital improvements in excess of $200 fair value thereto, will state the real estate procurement demand number, (and suitable identification for each particular building) if procured property; if enemy surrendered property or property not under a demand, the specific location thereof for each building, road, utility or facility being repaired or constructed will be furnished. This information is desired only for items 6 thru 10 listed in paragraph D below, and for identification purposes. If the same or similar work is being performed in several buildings of a group (for example, installation of shelves in all bathrooms in a dependent housing area which would normally cost less that $200 per house) one work order will suffice for all. The specific description of the type of work being performed will also be indicated on each work order.

Subparagraph C. Work orders will reflect standard American units of supplies and materials used, labor in man-hours by craft and trade, and equipment in hours of use. They will further list separately and specifically, the portion furnished by the Japanese and by the Occupation Forces for each item set forth in paragraph D below and for each building or facility as stated in Paragraph B above CITE DX 99051 END

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

RECEIPT PROCEDURE FOR BLANKET CONSTRUCTION AND MAINTENANCE PD's.
REFERENCE EIGHTH ARMY RADIO DX99577 AND 99578

Pending amendment of procurement demands to reflect the procedure herein outlined, desire you advise all units under your command that all GPA 2 receipts submitted for the month of November 1947 and all month thereto for services of a contractor under blanket procurement demands performing maintenance of building or facilities, minor construction, intermediate construction, construction or maintenance of roads, or construction of or improvements to utilities systems which are an integral part of occupation force housing or operational areas, will be prepared in the following manner:

A. One GPA 2 receipt will be submitted for each calendar month for each major contractor (if more than one) under each procurement demand. The receipt form will state generally the type of work being performed under the procurement demand; i,e, minor construction, etc. The receipt will list by number and date issued, all work orders for which services were completed during the month and a legible copy of such work orders will be attached to the procurement receipt. Where repairs to or construction of more than any one building are involved, receipting work orders will reflect the required information for each separate buildings.

B. Each work order pertaining to bulidings and which consist of the types of work listed in paragraph D below, item 6 through 10 only will state the name and address or number of the particular building which is being repaired or under construction for identification purposes. The specific description of the type of work being performed will also be indicated thereon.

C. As has heretofore been listed in receipts, work orders will reflect labor in man hours by craft and trade, supplies, materials and equipment used, will specify separately and specifically the portion furnished by the Japanese and by the occupation forces for each item listed under paragraph D below and for each building.

D. No one work order should provide for more than one of the following types of maintenance, repair, or construction:

1. Construction, rehabilitation, repair, maintenance, alteration, or custodial operation of air operating facilities such as runaways, taxiways, aprons, field lighting, etc, but not troop or other housing or a work of poterntial value to the Japanese government.

2. Occupation force proportionate share of construction or major improvement of roads and streets jointly used with the Japanese, but not to include roads which are a part of the approved Japanese works program as defined by SCAP or interior roads in occupation force housing or operational areas.

Inl #1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

3. Custodial maintenance of individual buildings or parcels of real property where the Japanese Government obtains such service by outright purchase on a time and material basis. (This pertains to custodial maintenance services procured under blanket procurement demands for real property obtained under real estate procurement demands that do not contain custodial maintenance clauses. Custodial maintenance is defined in TM 5-600)

4. Custodial maintenance of an indefinite number of buildings or parcels of real property within a given area where it is not possible to determine that a particular project pertains only to one specific building.

5. Recurrent maintenance of existing roads and streets in occupation forces housing or occupational areas used exclusively by occupational forces traffic or by Japanese traffic serving the occupation forces in that area.

6. Rehabilitation of land and existing structure necessary to restore such land and structures to their former usable condition.

7. Construction of a capital improvement to a specific building or on a specific individual parcel of real property; i.e. installation of partitions or a new room, etc in a building.

8. Construction of capital improvements to an indefinite number of buildings or parcels of real property within a given area where it cannot be determined that the construction benefits specifically any particular building.

9. Construction of interior roads and streets in occupation force housing or operational areas used exclusively by occupation force traffic.

10. Construction of or permanent improvements to water, sewage, gas and electrical systems which are an integral part of occupation force housing or operational areas, Does not include utilities not a part of the area, but which directly result from occupation force requirements; e.g. increase of the size of municipal filter beds.

E. In the event that any one work order does provide for more than one of the types of work listed in paragraph D above, the work order will be breken down to reflect the information required in paragraph C above for each type of work.

F. This message does not affect operation or maintenance service listed in existing real estate procurement demands.

SUBJECT: Materials on Procurement Demand JPNZ 6272

THRU : Procurement Officer, 4th Procurement District, Kokura Branch, APO 24

TO : Commanding General, Eighth Army, APO 343

1. The local branch, Nippon Contractors Association has reported the following information regarding procurement demand JPNZ 6272, no copy of which was received by this headquarters.

2. Procurement demand covers three items, none of which are considered available by this headquarters.

a. 5,000 sheets asbestos were inventoried within the 12th Naval Air Depot, but were actually the property of the Hokoku Seihyo Co. This company manufactures ice, which is critically short in this area, and asbestos sheets are installed for insulation.

b. 4,500 sheets galvanized iron plate have been allocated to the Atlas Bicycle Co., for repair of buildings, and are now installed.

c. 5,400 kg of cast iron pipe were the property of the Kitsuki Iron Works at the time of inventory, and are installed.

3. This headquarters recommends that Procurement Demand JPNZ 6272 be cancelled.

NIPPON CONTRACTORS ASSOCIATION
Oita Branch

1 Oct,47.

SUBJECT: Report of Inspecting Materials
(According to PD.JPNZ.6272)

TO : Commander, Oita Military Government Team

As a conclusion of inspection, we know the materials requested by P.D. JPNZ.6272 are impossible to remove from the factories as you see in the attached list. In the inspection on January 1947, we reported the following private materials on the list that are kept in the factories.

Item	Owner
Asbestos plates	Hokoku Seihyo Co.
Cast iron pipes	Kitsuki Tekko Co.

As to the above materials, we remarked on the attached list.

And the use of galvanized iron plates are permitted to Kitsuki Tekko Co. by Oita Castodian Branch of Kumamoto Financial Bureau.

Therefore, the above materials are impossible to be supplied considering the present situation. We hope that you would be kind enough to cancel your request of removal, so that the growth of local industries will improve.

Hajime Goto Hajime Goto
President,
Nippon Contractors Association
Oita Branch

SUBJECT: Materials on Procurement Demand JPNZ 6272

THRU : Procurement Officer, 4th Procurement District, Kokura Branch, APO 24

TO : Commanding General, Eighth Army, APO 343

1. The local branch, Nippon Contractors Association has reported the following information regarding procurement demand JPNZ 6272, no copy of which was received by this headquarters.

2. Procurement demand covers three items, none of which are considered available by this headquarters.

a. 5,000 sheets asbestos were inventoried within the 12th Naval Air Depot, but were actually the property of the Hokoku Seihyo Co. This company manufactures ice, which is critically short in this area, and asbestos sheets are installed for insulation.

b. 4,500 sheets galvanized iron plate have been allocated to the Atlas Bicycle Co., for repair of buildings, and are now installed.

c. 5,400 kg of cast iron pipe were the property of the Kitsuki Iron Works at the time of inventory, and are installed.

3. This headquarters recommends that Procurement Demand JPNZ 6272 be cancelled.

SUBJECT: Procurement Demands for Ports and Harbor Service

TO : Commanding Officer, Oita Military Government Team, APO 249 Unit 2

1. Attached as inclosures are procurement demands for ports of Oita and Beppu as follows:

JPNO - 1410	Oita
JPNO - 1411	Beppu

These cover port and harbor services but do not cover repair of vessels. Another procurement demand is being made up to cover repair of vessels. The Commerce and Industry Officer of your team is designated as receiving officer and is responsible for making receipts as indicated in attached instructions.

2. It is the understanding of this headquarters that receipts must be issued for each American vessel or Allied vessel serviced at the designated port, but this headquarters has requested more precise instructions concerning the duties of Military Government in this connection. These instructions will be forwarded as soon as available.

3. Attention is invited to paragraph 4 of inclosure 1.

MEMORANDUM FOR: JAPANESE GOVERNMENT

THROUGH: Central Liaison Office, Tokyo

SUBJECT: Provision and Procurement of Japanese Communication Services, Facilities, Equipment, Material and Personnel

1. Reference is made to Memorandum for the Japanese Government, file AG 400.12 (29 Oct 46)CCS (SCAPIN 1299), dated 29 October 1946, subject as above. This memorandum is issued in accordance with paragraph 2 of the reference memorandum.

2. It is directed that the Japanese Ministry of Communications, in addition to services being furnished at present, provide communications services, facilities, equipment, material and personnel as follows:

a. Telephone exchange service and trunks wholly within an exchange area of a city or town which can be furnished by use of existing telephone plant as listed in Appendix I.

b. Construct and install communications facilities listed in Appendix II.

c. Long distance lines and telegraph circuits wholly within one Ministry of Communications operating bureau or division as covered in paragraph 5 below.

d. Communications personnel as listed in Appendix III.

e. Bulk materials and equipment required for indigenous supply of the Occupation Forces will be provided as listed in Appendix V.

f. All other communications services, facilities, equipment, material and personnel not covered above as directed by General Headquarters, Supreme Commander for the Allied Powers.

g. Statements of services rendered covering all communications services, facilities, equipment, material and personnel furnished to the Occupation Forces throughout Japan will be prepared, consolidated and forwarded by the Ministry of Communications as provided by Appendix IV.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Memo to JG (SCAPIN 1299/4)

3. Communications services, facilities, equipment, materials, and personnel listed in Appendices I, II, III and V are based on estimates of future requirements and will be subject to change. Revisions and corrections found necessary will be furnished to the Ministry of Communications by General Headquarters, Supreme Commander for the Allied Powers.

4. Exchange service and trunks within the exchange area of a town or city covered by Appendix I will be furnished by local offices in accordance with communications orders placed by the Commanding Officer of the Occupation Forces therein, or by his authorized representative. A representative of the Japanese Communication System located in the city or town where service is requested will be authorized to furnish such service without approval of the operating bureau of Ministry of Communications.

5. Toll and exchange construction and installation listed in Appendix II, long distance lines and telegraph circuits wholly within one operating bureau or division (para 1c), and personnel covered by Appendix III will be provided in accordance with communications orders. These orders will be submitted direct to the operating bureau within which services desired are to be furnished, as authorized by Headquarters, Eighth Army. General Headquarters, Supreme Commander for the Allied Powers will coordinate with the Ministry of Communications in preparation of schedules and plans for furnishing facilities and personnel covered by Appendices II and III. Upon completion of these plans and schedules, directors of the operating bureaus or divisions will arrange to fulfill the demands without further approval of the Ministry of Communications, citing the communications order as authority.

6. Communications facilities provided in accordance with this memorandum do not include those required for billets and housing for Occupational Forces covered by Memorandum for Japanese Government, file AG 411 (6 Mar 46)CE-CD, (SCAPIN 799), dated 6 March 1946, subject: Housing Program for Occupation Forces and Their Dependents. Communications material and services covered by (SCAPIN 799) and supplemental correspondence are in addition to those covered by this memorandum. Statements of service rendered will refer to this memorandum for accounting purposes.

7. Attached appendices supersede previous issues as listed below:

a. Appendix I issue 3 supersedes Appendix I issue 2 dated 6 Nov 46.

b. Appendix II issue 3 supersedes Appendix II issue 2 dated 6 Nov 46.

c. Appendix III issue 4 supersedes Appendix III issue 3 dated 19 Apr 47

d. Appendix IV issue 3 supersedes Appendix IV issue 2 dated 6 Nov 46.

e. Appendix V issue 2 supersedes Appendix V issue 1 dated 6 Nov 46.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Memo to JG (SCAPIN 1299/4)

8. Direct communication between the Civil Communications Section, General Headquarters, Supreme Commander for the Allied Powers and the Japanese Ministry of Communications regarding matters within the scope of this memorandum is authorized.

FOR THE SUPREME COMMANDER:

for R. L. LEVY,
Colonel, AGD,
Adjutant General.

SUPERSEDES ISSUE 2, DATED 6 NOVEMBER 1946 ISSUE 3

APPENDIX IV

PROCEDURES GOVERNING STATEMENTS OF SERVICES RENDERED FOR JAPANESE COMMUNICATION SERVICES, EQUIPMENT, MATERIAL, AND PERSONNEL

1. Issue 2 of this Appendix, dated 6 November 1946 is cancelled and superseded by Issue 3. Issue 3 has been prepared to change procedures for the methods of accounting and to more fully explain the preparation of statements of services rendered.

2. This Appendix covers instructions for presenting consolidated statements of services rendered for all communications services, facilities, equipment, material and personnel furnished the Occupation Forces by the Japanese Government.

3. In the following paragraphs the word "services" includes facilities, equipment, material and personnel.

4. Statements of services rendered will be prepared for classes of services as outlined below:

a. Class I. Local telephone service and Japanese maintained installations used by the Occupation Forces.

(1) Telephone subscribers served from Japanese exchanges not used by the Occupation Forces exclusively.

(2) Cable pairs or exchange trunks wholly within the local exchange area of a city or town. Facilities listed under this heading shall include all exchange pairs not included under a (1) above or under a (3) below. As examples these pairs include:

(a) Pairs used for keying lines (not included in cables used exclusively for this purpose).

(b) Direct lines between buildings and headquarters.

(3) PAXs, PBXs, exchanges and switchboards used exclusively by the Occupation Forces, including trunks.

(4) Radio transmitter and receiver stations furnished with or without maintenance.

b. Class II. Provision of engineering, material and labor to construct or install exchange or long distance plant or equipment, provided for the use of the Occupation Forces, which cannot be ultimately included in the domestic system.

c. Class III. Long distance facilities and circuits.

(1) Long distance lines and telegraph circuits wholly within one Ministry of Communications operating bureau or division. (Not including radio distribution circuits.)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) Long distance lines and telegraph circuits which extend beyond the boundaries of one operating bureau or division. (Not including radio distribution circuits.)

(3) Radio distribution circuits.

(4) Long distance telephone and telegraph service of all types, such as the long distance service now furnished the Occupation Forces through Japanese central toll offices on a filed call basis.

d. Class IV. Personnel.

(1) Personnel furnished by the Ministry of Communications to the Occupation Forces on a full time basis to work under Occupation Forces supervision or who assist in the maintenance of Occupation Force installations for which the Japanese Government is not responsible.

e. Class V.

(1) Bulk material and equipment furnished to the Occupation Forces for use in installations which are <u>not</u> the responsibility of the Japanese Government.

5. In general, it is desired that communication services covered by (SCAPIN 1299/4) be furnished as a service on a monthly rental basis. Except in special cases, ownership of equipment will be retained by the Japanese Ministry of Communications.

6. Inclosure No. 1, GPA Form 5 (revised), sheets 2-11, will be used for submitting monthly statements of services rendered. The following procedure will be followed in preparing and submitting the consolidated statement of communication services rendered:

a. Each operating bureau or division will prepare and assemble statements for services rendered within its area. Two copies of this statement will be translated into English and will be submitted direct to a designated Signal Corps representative. (The names of the Signal Corps representatives authorized to accept these statements will be furnished the Ministry of Communications by Civil Communications Section.) One copy will be retained in the operating bureau files and one copy will be forwarded to the Ministry of Communications.

7. The Ministry of Communications will consolidate the operating bureau and division reports with those that are prepared by the Ministry and forward three copies of the report through the Liaison Office to Headquarters, Eighth Army (Attn: Signal Officer), citing (SCAPIN 1299), as authority. Consolidation will be in accordance with paragraph 9 of this Appendix.

8. Following are comments regarding preparation of statement of services rendered on GPA Form 5 (revised), sheets 2-11, by Operating Bureaus.

a. Sheet 1 shall be left blank.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b. All columns, sheets 1-11, designated "Est. Dollar Value" will be left unfilled.

c. Sheets 2-6 are self-explanatory and require no discussion.

d. Sheet, 7 Monthly Statement of Services Rendered for Engineering Material and Labor for Occupation Force Construction and Installation:

The operating bureau will prepare this form for each city or town at which work is performed. Work or expense incurred under this classification will be reported at the end of the month during which the installation is completed. Only one report will be made for any one installation. Description of work will be in sufficient detail to indicate the extent of the job and materials used. As an example: - "Construction of one kilometer of pole line and installation of aerial cable between Occupation Force Headquarters. Materials used - 20 poles: 1 kilometer each of messenger strand and 51 pair cable". Care will be taken not to include projects on this form which are to be furnished on a monthly rental basis.

e. Sheet 8, Statement of Services Rendered, Toll (Long Distance) Facilities:

Each operating bureau will prepare this form in the manner indicated to cover long distance telephone and telegraph circuits furnished to the Occupation Forces within the operating bureau and which do not extend beyond the bureau boundaries not including radio distribution circuits.

The Ministry of Communication will prepare this form as outlined above to cover all long distance circuits extending beyond the boundaries of one operating bureau, including all radio distribution circuits.

f. Sheet 9, Statement of Services Rendered, Long Distance Telephone and Telegraph Service:

Each operating bureau will prepare this form for each city or town at which AF calls are placed. This form will also be prepared for each city or town at which Occupation Force telegrams are filed and for which statement of services rendered are required. EFM and prepaid outgoing SCM messages will not be included. The total number of toll calls filed and completed and total number of minutes circuits were used, or the total number of telegrams filed and total number of words sent between the office for which the report is prepared and each office at which such communication terminated will be entered as indicated. Records of individual calls or telegrams will be maintained at the local offices as previously instructed.

g. Sheet 10, Monthly Statement of Services Rendered for Personnel Performing Work at Occupation Force Installations Which are not the Responsibility of the Japanese Government:

Each operating bureau will prepare this form for each city or town at which personnel are furnished. Under job description give a short definition of the qualifications of persons employed, such as teletypewriter technicians, manual switchboard maintenance repairmen, telephone operators, etc.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

h. Sheet 11, Monthly Statement of Services Rendered, Bulk Materials:

This form will be prepared by the Ministry of Communications and will list all items furnished in bulk which are not to be installed by the Japanese Government. This includes such items as flashlight batteries, jumper wire, switchboard lamps, etc. It is planned to order such items as these on a quarterly basis in the future. In general, these items will be delivered to designated Signal Corps supply agencies for distribution to Occupation Force units through normal Occupation Force channels. All communications items furnished under Appendix V and listed on this sheet will be obtained through the Ministry of Communications.

9. GPA Form 5 (revised), sheets 2-11, has been designed to permit entries compiled by the smaller operating subdivisions of the Ministry of Communications. The Ministry, upon receipt of the detailed statements, will consolidate the Bureau reports as outlined below:

a. Sheet 2, "Ministry of Communications" will be inserted in space provided for the "City or Town". One statement will be prepared for each operating bureau showing the total of each item within the bureau.

b. Sheets 3 and 4, One statement will be prepared for all bureaus showing the total for each bureau separately and using the column "Occupation Force Unit or Headquarters Served" to indicate the name of the bureau for which the entries are given. "Ministry of Communications" will be entered in the space "Bureau".

c. Sheets 5 and 6, each transmitter and receiving station will be listed consecutively on sheets 5 and 6. "Ministry of Communications" will be inserted in the space provided for the bureau designation and the operating bureau in which the station is located will be included in the column "Name and Location of Station".

d. Sheet 7, each installation completed during the month for which the report was made will be entered on this form by bureaus in the manner covered by paragraph 8d, except Ministry of Communications will be entered in the space "Bureau" and space "City or Town" will be left blank.

e. Sheet 8, this statement will be consolidated into two parts: Part 1 will consist of services furnished within bureau areas and Part 2 will consist of the statement of services rendered prepared by the Ministry of Communications in accordance with paragraph 8e. The operating bureau reports on this form prepared in accordance with paragraph 8e will be consolidated to show the total number of circuits within a bureau and the total length of circuits in the bureau as one entry. Circuits which have been used less than 15 days during the current month will not be included in this entry. Circuits used more than 15 days during the month being reported will be included. The columns "To", "Length and Kilometer Each" and "Number of Days used" will be left blank. On both statements "Ministry of Communications" will be entered in the space "Bureau" and space "Town or City" will be left blank.

f. Sheet 9, one consolidated statement will be prepared to show totals for telephone calls and telegrams handled within each operating bureau. "Ministry of Communications" will be inserted in the space provided for "Bureau" and

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

the space for "City or Town" will remain blank. The name of the operating bureau for which totals are given will be inserted in the column marked "To". The total number of calls placed within the bureau and the total number of minutes will be entered in the appropriate columns.

g. Sheet 10, "Ministry of Communications" will be entered in the space marked for "Bureau and City or Town" will be left blank. The total number of personnel furnished under each classification will be entered consecutively by bureaus under the column marked "Job Description". Totals shown for each classification of personnel will be the total for the bureau.

h. Sheet 11, one statement will be prepared in accordance with paragraph 8h of this Appendix.

10. The Ministry of Communications will arrange to have GPA Form 5 (revised) sheets 2-11, printed in sufficient quantities and will make such distribution as is necessary to permit statements of services rendered to be prepared in accordance with this Appendix. Quality of paper and type of printing will be similar to that used on GPA Form 8. Communications Order, copies of which have been furnished previously for information. All headings and titles may be in black. The form should not be produced as a book but as separate sheets to be assembled as described above upon completion of entries.

a. Sheet 2, Local Telephone Service: Prepare one statement for each operating bureau. In the column "Total at End of Month" enter facilities furnished times the number of months that they were used to obtain a consolidated month's usage figure. As a simple case, assume that in a given operating bureau 10 telephones were used for 14 months for a total of 140 months service; 20 were used for 10 months for a total of 200 months service; 25 were used for 4 months for a total of 100 months service, the entry under the "Total at End of Month", Section a, Sheet 2, would be 440 months service. Similar entries would be made for b and c.

b. Sheet 3, Switchboards Used Exclusively by the Occupation Forces: Prepare one statement for each bureau, listing each switchboard furnished. Under the column "Occupation Force Unit or Hq Served" enter the dates between which it was furnished.

c. Sheet 4, PBXs, PAXs or Other Exchanges Used Exclusively by the Occupation Forces: Prepare in a manner similar to sheet 3.

d. Sheet 5, Radio Facilities (Transmitting): Prepare one statement for each bureau listing each station and beneath the name of the city or town indicate the dates during which services were furnished.

e. Sheet 6, Radio Facilities (Receiving): Prepare similar to sheet 5.

f. Sheet 7, Engineering Material and Labor Used for Occupation Force Construction and Installation: Prepare one statement for each operating bureau. List each construction or installation project which has been completed for the Occupation Forces and the ownership of which has been transferred to the Occupation Forces. Under the column "Communications Order No." indicate the number of the procurement demand under which the work was performed, if known.

g. Sheet 8, Toll (Long Distance) Facilities: Prepare one statement for each bureau. This statement is to be prepared in accordance with previous

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

instructions contained in this Appendix.

h. Sheet 9, Long Distance Telephone and Telegraph Services: Prepare one statement for each bureau. This statement is to be prepared in accordance with previous instructions contained in this Appendix.

i. Sheet 10, Personnel Performing Work in Occupation Forces Installations not the Responsibility of the Japanese Government: Prepare one statement for each bureau. These statements are to be prepared in accordance with previous instructions contained in this Appendix.

j. Sheet 11, Bulk Materials Procured on Communications Orders: Prepare one statement for each bureau listing those items delivered for the exclusive use of the Occupation Forces and for which the ownership has been relinquished by the Ministry of Communications. It will not be necessary to list separately each item covered by procurement demand, formal letter or directive. For items furnished in accordance with any of these, enter in the column headed "Description" the procurement demand number, the directive number or the letter in accordance with which they were provided, giving the date, subject, and the headquarters originating the correspondence and include a short description of the nature of items furnished. Items which were used in construction or furnished in connection with the maintenance of Occupation Force installations which are being furnished the Occupation Forces on a monthly rental basis will not be included in this list.

k. Sheet 11, Bulk Materials Provided in Accordance with Appendix V, will be itemized when listed on statements of service rendered.

ISSUE 2

SUPERSEDES ISSUE 1, DATED 6 NOVEMBER 1946

APPENDIX V

1. The materials listed in this appendix represent the annual requirements for communication materials to be delivered to the Yokohama Signal Depot on a quarterly basis. A minimum of one-fourth of the total quantities listed will be delivered during each three months period of the fiscal year unless otherwise directed by GHQ, SCAP.

2. a. Each part will be tagged with a tag containing a concise English description of the article and Signal Corps stock number.

b. Each box or crate will have a list of contents painted or stenciled in English on the outside. A minimum of five copies of a document listing the contents of each box or crate will be provided to the receiving unit.

3. Materials found defective upon delivery will be replaced at no cost to the Occupation Forces.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BILL OF MATERIALS TO BE PROCURED YEARLY REQUISITION FOR PROCUREMENT OF INDIGENOUS SUPPLIES

ITEM	STOCK NO.	NOMENCLATURE	UNIT	QUANTITY
1.	1A 28	Wire, W-28, #12 AWT, 7 #20 AWG, bare bronze phosphor.	ft	2,000

HEADQUARTERS 24TH INFANTRY DIVISION
Office of the Commanding General
(Kokura, Kyushu)

AG 400.12 - D

APO
30 September 1947

SUBJECT: Routing of Accomplished Procurement Receipts

TO : Commanding Officer, Kyushu Military Government Region, APO 929

1. It has been noted by this headquarters that occasionaly procurement receipts (GPA Form 2) have been forwarded directly to higher headquarters by units of your command.

2. Your attention is invited to paragraph 8b, Operational Directive 33 (Rev. 2-47), Headquarters 8th Army, dated 26 March 1946, which authorizes direct transmission of receipts to the appropriate staff section (G-4 Section, Headquarters 24th Infantry Division).

3. Since the responsibility for the submission of the procurement receipt is placed on the staff section by paragraph 8b, Inclosure 2, above cited Operational Directive, it is requested that your units be informed that all procurement receipts should be submitted, upon completion, to Commanding General 24th Infantry Division, attention G-4 Section.

FOR THE COMMANDING GENERAL:

/s/ Theo. F. Presley
THEO. F. PRESLEY
Major AGD
Asst Adjt Genl

AG 400.12 - BA

25 September 1947

SUBJECT: Termination of Procurement Responsibility

TO : See Distribution

1. Reference: Section III, Circular 86, Headquarters Eighth Army, 22 May 1947.

2. Pursuant to the above reference, the IV Procurement District has taken over procurement responsibility in the I Corps area. The following offices have been opened to handle procurement transactions in the areas indicated:

a. Kobe Branch for Hyogo Prefecture.

b. Osaka Branch for Nara, Wakayama and Osaka Prefectures.

c. Kokura Branch for Kyushu Region.

d. Kyoto Branch for Tokai Region plus Fukui, Shiga and Kyoto Prefectures.

3. All centrally issued demands (JPNZ, JPNR, JPNO and JPNK) have been forwarded to the appropriate branch office prior to 1 August 1947, relieving the military government teams of procurement responsibility on such demands.

4. Eighth Army termination teams have visited the following prefectures, taken up local procurement records and have given the commanding officers a "Statement of Termination", which contains a statement that the office is considered closed and also contains instructions for disposition of procurement records which may be received in the closed office after departure of the termination officer:

Kinki Region
Fukui, Nara, Shiga, Wakayama

Tokai Region
Gifu, Ishikawa, Mie, Shizuoka, Toyama

Kyushu Region
Kagoshima, Kumamoto, Miyazaki, Nagasaki, Oita, Saga

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. A termination team is presently operating in Aichi Prefecture and will relieve that team of procurement responsibility upon completion of its activities.

6. The procurement responsibility in Fukuoka, Osaka, Hyogo and Kyoto Prefectures had been assumed on 1 July by the IV Procurement District Branch offices in each of said prefectures. While the teams have no further procurement responsibility as such, they are still responsible for action required where a team is the receiving unit. For example, a team occupying real property is responsible for the execution of a procurement receipt (form GPA 2), forecasting future requirements for operation and maintenance, taking up the item on property records, exercising security control, and executing procurement releases (form MGP 7) on return of the property to Japanese control.

7. Vehicles have been issued to Fukuoka, Osaka, Hyogo and Kyoto Teams for the exclusive use of the Procurement Branch Offices. Other teams are responsible for providing vehicular transportation to procurement expeditors when required in their prefectures upon proper and prior request. Other assistance will be rendered procurement expeditors when required and available.

8. All requests, inquiries and communications from all other units concerning procurement procedure will be referred to the proper Procurement Branch Office.

BY COMMAND OF MAJOR GENERAL WOODRUFF:

C. C. CARTER
Colonel, AGD
Adjutant General

2. Specifically, the plants inspected were:

Kokura Military Arsenal (Kokura, Kyushu)

Total items of equipment inventoried 5,465 -- 396 Class 1, 2,385 Class 2 and 527 Class 3. (Note preponderence of Class 2 equipment prevalent throughout Kyushu, necessitating some reclassification.) Travelling cranes, furnaces and small motors not inventoried. Maintenance of machine tools, only fair. A maximum of 50 people, 10 of them skilled, currently engaged in maintenance/reconditioning. Custodian appeared unfamiliar with work and equipment, but promised Mil Gov to add 250 men to carry out CLO's maintenance program. Satisfactory overall maintenance and reconditioning promised -- in this Arsenal -- by 31 May 47. Kyushu Mil Gov grateful for impetus now given program and ask for another inspection later, to denote improvement.

Moji - Shimonoseki Kommon Port (Fukuoka and Yamaguchi Prefectures

Mr. Reijiro Mimura of Moji Kommon Port (above) is Director/Superintendent of Kyushu Maritime Bureau, including all Kyushu ports. Moji and Sasebo (Nagasaki Prefecture) are Kyushu's best ports, although even the smaller harbors, including Nagasaki and Oita, can be dredged to float Liberty ships out, loaded, at high tide. Data on principal ports given Prep. Tsfr. & Del. Division.

Kobe Seikosho (Moji Plant) -- Private Munitions Plant

This plant is almost a complete entity, and could be more properly removed as an integrated plant, for the production from ingots of copper or brass sheets, rod and tube. Total items of equipment inventoried 889 -- 320 Class 1, 409 Class 2 and 160 Class 3. Maintenance of 238 machine tools in operation, poor to fair; remainder of maintenance and reconditioning, good.

Nippon Seitetsu KK (Yawata, Fukuoka) -- Iron and Steel Plant

Largest in Japan. Consumed 2,990,000 tons iron ore at peak (as against 21,000 tons in Feb 47) and 645,000 tons scap (against 5,000 tons in Feb 47). Produced 1,760,000 tons pig iron (against 13,000 tons in Feb 47), furnished 2,014,000 tons finished steel (as against 11,500 tons in Feb 47), light and heavy rail rod, wire plate and 2,240,000 tons coke (against 18,000 tons in Feb 47) as well as 56,200 tons sulphuric acid (at peak), sulphuric ammonia, caustic soda and many other by-products. ¥285,000,000 investment. Employed prewar 55,000, at wartime peak 61,000 and presently 23,000. 50% of sulphuric

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

acid capacity lost by bombing, but plant as a whole, not hard hit (under 10% total damage). 13 electric furnaces in this plant and 3 - 80 ton open hearth furnace (tilting type) brand new and easily removable. Estimated total weight of all removable steel structure buildings (this plant has some prior experience in removal of complete buildings and facilities), machinery and equipment, 720,000 metric tons or 1,880,000 measurement tons. Estimated minimum time for removal 2 years. Estimated time required to become operative in a new location, provided buildings (or building foundations) are ready including manpower and missing facilities replacement, 5 years. 1,200 workmen presently engaged in maintenance, which appears fair to good except for one building of machine tools found to be neglected. IJG's evaluation report on this plant should be checked with at least 3 competent people, if it is to be held for reparations. Allied Nations desiring to inspect this facility may also desire 3 to 5 people, instead of the usual 2, because of its size and varied production; and 2 consulting engineers there -- later, when allocated -- to oversee dismantling and removal.

Nippon Soda KK (Karita-machi)-- Soda Ash/Private Munitions (Phenol) Plant

First established 1920. Phenol plant dates from 1936. Soda ash equipment dates 1936 to 1945 and is in excellent condition. Products: caustic soda, phenol, and to a lesser extent salicylic acid, potassium bromide, lime, calcium chloride, nitra chloral benzine, wintergreen oil and aspirin. Limited salt (2 tons monthly) produced by evaporation. Peak wartime employment 2,000; now 450. Inventory of phenol (Private Munitions) section of plant ineffectual because taken under instructions which do not fit a chemical plant. Phenol plant not in good shape and may not be worth while to remove. 77 employees engaged in maintenance.

Chuo Heiki KK (Tsutsui Ononiura) -- Private Munitions Plant

Manufactured auto parts pre-war, employing 200 people; torpedo and aircraft parts during war, employing 800 people; and truck bodies, employing 60 people, since. Total items of equipment inventoried 241 -- no (0) Class #1,, 224 Class #2 and 17 Class #3, necessitating some reclassification. Large air compresser unit belonging to Sasebo Naval Arsenal found not inventoried. Maintenance fair, but with only 10 people engaged in maintenance and reconditioning.

Nishi Nippon Jidosha KK (Fukuoka) -- Private Munitions Plant

Established 1915. Manufactured bicycle parts pre-war, 34 millimeter shells during war and bicycles since.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

Employed pre-war 150 people; during war 700; and 600 since. Total items of equipment inventoried 370 -- only 20 Class #1, 250 Class #2 and 100 Class #3, necessitating some re-classification as all machinery is in operation. 200 of these machines pre-war. Petition on file for relief from reparations lists which deserves consideration. Maintenance excellent. General appearance of plant and management excellent.

Kyushu Heiki KK (Nakamachi) -- Private Munitions/ Aircraft Plant

Established 1887. Manufactured mining machines and civil engineer tools pre-war, torpedo tools during war and mining machines and accessories since. Employed pre-war 1,200 people; during war 5,000; and 100 since. Total items of equipment inventoried 523 -- 147 Class #1, 117 Class #2 and 259 Class #3, necessitating some reclassification. Maintenance only fair, with work done by contract. Gear boxes rusty or dry and too few of the 72 people engaged in maintenance and reconditioning found to be skilled. Management inattentive to maintenance, and scored severely on the spot by Mil Gov.

Mitsubishi H. I. Co. (Ohashi Plant) -- Private Munitions Plant (3 Disbursement Areas Visited)

Established 1917. Manufactured torpedoes during war and air brakes, scasles, mining equipment and farm implements since. Employed pre-war,1,500 people; during war 15,000; and 1,500 since. Total items of equipment inventoried 1,589 -- 169 Class #1, 527 Class #2 and 893 Class #3, necessitating possible reclassification as 515 machine tools are already in use. Maintenance of machine tools only fair, but improving. 60 People, 25 of them mechanics, now engaged in maintenance and reconditioning. NOTE: Despite dual instructions to the contrary, 3 footlockers ("Presentos") were found on board car, after leaving the plant. ¥500 accordingly sent back to Mitsubishi (Ohashi) management through Economics Officer (Capt. Joseph Goldsby) by undersigned, to pay for same.

21st Naval Depot (Omura)

Total items of equipment inventoried 2,832 -- 504 Class #1, 2,024 Class #2 and 304 Class #3. No tools in use. Maintenance fairly good, and improving. 120 people, 15 of them mechanics, engaged in maintenance and reconditioning. Impression of custodian only fair.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

21st Naval Arsenal (Isahaya)

Total items of equipment inventoried 602 -- 114 Class #1, 438 Class #2 and 50 Class #3. No machine tools in use other than for reconditioning. Maintenance fairly good, and improving. 60 People engaged in maintenance and reconditioning, Considerable quantities (uninventoried) of small cutting tools and similar items on hand and being reconditioned, pending disposition. General impression of custodian, good.

Kawatana Naval Arsenal (Kawatana)

Total items of equipment inventoried 2,074 -- 583 Class #1, 1,258 Class #2 and 233 Class #3. No machine tools in use other than for reconditioning. Some items of standard classification, as hoists, not inventoried, but to be picked up now under Mil Gov direction. Maintenance of machine tools excellent. 56 people, 30 of them mechanics, engaged in maintenance and reconditioning. General impression of custodian excellent. About 250 tons of small cutting tools, taps and dies, bit, drills, files, micrometers and similar items nearly conditioned and maintained, pending disposition.

Sasebo Naval Arsenal (Sasebo)

Total items of equipment inventoried 4,617 -- only 1 Class #1, 3,938 Class #2 and 678 Class #3, necessitating some reclassification. Maintenance fair to good, and to be improved. 90 people, 20 of them mechanics, engaged in maintenance and reconditioning. General impression of custodian good. 300 tons of small tods and accessories stated to be in stock pending disposition, but not seen.

Sasebo Port (Sasebo)

Excellent deep water port, well protected and under Navy surveillance, with stationary and floating cranes up to 250 tons, and pier space for 8 Liberty ships at one time. Adequate rail facilities to pier, as well as open and closed storage data given to Prep., Tsfr. & Del. Division.

Nippon Hassoden (Minato) -- Electric Power Plant

Established gradually 1931 to 1941. Plant capacity 141,000 KW, authorized capacity 116,000 KW, maximum actual production (Nov 43/Mar 44) 95,000 KW, and now reduced to 30,000 KW because of aging equipment and poor maintenance. General appearance of plant and equipment average by Japanese standards. A parallel yardstick of annual depreciation was used (and the undersigned thinks, improperly) on boilers as against generators in evaluating this plant. A parallel yardstick of overall annual depreciation of equipment was also

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

applied in Kyushu and southern Honshu, though Kyushu plants may labor 12 months per year as against 4 or 6 months elsewhere. The item "General Expenses" on power plant evaluation was explained as "overhead involved in installation". Actual evaluation, practices and accounting, on all Nippon Hassoden plants is stated to take place in Tokyo, making it difficult to break individual items down, through interrogation, in the field. Incidentally, undersigned does not feel that good will, that is the value of a going plant or concern over an inactive one, should enter into reparations evaluation. All plants are contemplated for this purpose as leaving Japan, and good will can no longer be a factor. It is believed that IJG is already reconsidering machine tool and power plant evaluation.

Mitsubishi H. I. Co. (Kumamoto) -- Private Munitions Plant

Wartime production, varied munitions; presently mining equipment, household and farming implements. Employed during war 20,000 people; now 900. Total items of equipment inventoried 1,911 -- 1,132 Class #1, 607 Class #2 and 172 Class #3; classification satisfactory. 517 machine tools in use, and in excellent condition by Japanese standards. Some items found not inventoried, as transformers, but now being picked up under Mil Gov. direction. 130 people, 28 of them mechanics, engaged in maintenance and reconditioning.

Kumamoto Tekkosho (Kumamoto) -- Private Munitions Plant

Manufactured machine tools and pumps pre-war; bomb shells for aircraft and torpedo use during war; and woodworking machines, machine tool parts and farm implements since. Employed pre-war 130 people; during war 930; and 125 since. Total items of equipment inventoried 97 -- 65 Class #1, 27 Class #2 and 5 Class #3. Maintenance fair to good. NOTE: Numerous machine tools were found uninventoried in this parent reparations plant, not taken because the branch (Tekkosho) plant to which they first belonged had been represented to SCAP as bombed out, worthless and therefore deleted from reparations lists. These machine tools now being inventoried under Mil Gov direction.

12th Naval Arsenal (Oita)

Branch of Kure Naval Arsenal. Total items of equipment inventoried 538 -- 250 Class #1, 288 Class #2 and no (0) Class #3, necessitating reclassification as some of the equipment should be in Class #3. Maintenance fair to good. 31 people, 20 of them mechanics, engaged in maintenance and reconditioning.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

Nisshin Kagaku (Sumitomo) -- Private Munitions (TNT) Plant

Wartime production TNT (with little tonnage); presently dyestuffs. 30 employed during the war. This is a separate entity, separately constructed from the remainder of Nisshin Kagaku Chemical Plant, and can be withdrawn without interferring with their normal operation. Equipment cannot be properly inventoried under the current Private Munitions SCAPIN/directive, but has new and excellent chemical equipment and can be 80% removed.

Tokyo 2nd Military Arsenal (Sakanoichi)

Important wartime production, gun cotton and nitroglycerine. Employed during the war 2,000. Total items of equipment inventoried 1,038 -- 680 Class #1, 326 Class #2 and 32 Class #3. Maintenance fair to good. No machine tools in use except for maintenance. 70 people, 20 of them mechanics, engaged in maintenance and reconditioning. New and extensive chemical equipment in this arsenal could not be properly inventoried under the SCAPIN/directive covering Military and Naval Arsenals.

Kokura Military Arsenal (Tateishi Branch)

Total items of equipment inventoried 1,000 -- 627 Class #1, 369 Class #2 and only 4 Class #3, necessitating some reclassification due to paucity shown of Class #3. Maintenance fair to good. Some gear boxes neglected. 61 people, 20 of them mechanics, engaged in maintenance and reconditioning.

Kokura Military Arsenal (Itoguchiyama Branch)

Total items of equipment inventoried 2,536 -- 534 Class #1, 1,997 Class #2 and only 5 Class #3, necessitating reclassification due to paucity of Class #3. Maintenance fair to good. Gear boxes in particular neglected, 85 people, 40 of them mechanics, engaged in maintenance and reconditioning. Boilers found not inventoried, and now to be picked up under Mil Gov direction. Approximately 130 tons small tools, taps and dies, bits, drills, files, micremeters and similar items in stock here, uninventoried and awaiting disposition.

Oita Port (Oita)

This port too shallow normally to accomodate any large cargo vessel. Some large chemical equipment and machinery for reparations existent in the area, however, which cannot be taken thru tunnels. Waters immediately outside Oita breakwater are also shallow, but it may be possible to bring in ships of Liberty size at high tide, load, and then float them out at high tide. Data on principal ports given to prep., Tsfr, & Del. Division.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

OTAH-21A	Mil Govt Officers Quarters
OTAH-22A	Mil Govt Officers Quarters

3. Attention is invited to par 8 c, Incl 2 to Operational Directive 33/2 for 1946, 6 March 1947, as amended which states as follows:

"c. In order for the Japanese Government to effect payment to Japanese suppliers, property owners and contractors, it will be necessary, in some cases, that the Japanese obtain supplementary hand receipts from representatives of the occupation forces for supplies and services used from time to time in fulfilling a procurement demand; for example, coal delivered to a hotel which has been procured complete with all services. Responsible officers are authorized to sign such hand receipts subject to the following conditions:

(1) Receipts will include the English translation.
(2) Officer will prepare the certification and will include therein only statements the accuracy of which he is reasonably certain.
(3) Specific quantities of supplies and facilities furnished or work performed will not be certified unless the officer has made a reasonably accurate verification of such quantities.
(4) Certification will not include any reference as to value or payment of supplies and facilities furnished.
(5) Official title and position of officer will be shown.
(6) Dated copy with the related procurement demand number entered thereon will be forwarded by the signatory officer to the appropriate staff section for forwarding to the military government unit which will file the receipt with the demand."

To: Chief of Oita Liaison Group

Ref., Two billiard tables with accessories taken by the Occupation Forces..

Tsuruda Hotel was appointed as the officers quarters for the American Occupation Forces on 18th Oct.,1945.

Our two billiard tables with all accessories which were in our possession were taken away to the Oita Camp from our billiard room on Dec. 10th, 1945 by Mr.. Peterson, American Red Cross man, who had stayed at our hotel at that time,. but on account of the lack of experience, as it was just after the appointment of the occupation, we did not get the procurement demand from him when they were taken away,.

The army which had been staying,. changed to the marine corps in March, 1946, and again changed to the army that is staying at present in June, 1946.. During these times, again and again we tried to get the final conclusion about this matter by negotiating with the officers in charge at the Oita Camp, but have not got the point till now, for we did not get the procurement demand when they were taken away.

Now we have much difficulties in putting in order our movable properties, and we would like to get the final settlement by your kind help as soon as possible.

Our desirable conditions for settling the problem are as follows:-----

1) Returning them by paying the rent for the term used. We hope you will return them, because before they were taken away from us, the in-come from the billiard tables was used to support a family of four the late Mr. Yamamoto who was one of the relations of Mr. Michizo Tsuruda, the proprietor of our hotel..

The rent which we would like to get is ¥ 2500.00 per table a month for the term used, of course all the expenses which you have been paying as the wages of the game-counter, electric-light charge, water-works charge,. chalk and tip paste charges, and sundry expenses are to be paid by the Occupation Forces.

2) If they will be used continuously by the army, we would like to ask rent also in future as the item one.

3) If the army wants to purchase them, we would like to has ¥ 120,000.00 per table with accessories totalling ¥ 240,000. 00..
