ADVERTISEMENT.

THE following compilation of Ojibwa Hymns is taken from the Hymn Book of Rev. PETER JONES, and that prepared by Rev. JAMES EVANS and GEORGE HENRY. The latter book was published by the American Tract Society, at New York. The missionaries of the American Board have long felt the need of a larger number of Hymns, and greater variety, than was found in the small manual heretofore in use by them. One consideration which has led to the publication of these Hymns in their present form, is the fact that, in the books above mentioned, an orthography is used different from that in which the Ojibwas taught by the missionaries of the American Board, are accustomed to read their native language. In addition to this, copies of these books cannot be obtained in sufficient number.

In making this selection, it has been the object of the compilers to select those Hymns which it

was thought would be found most useful, preserving sufficient variety in the subjects and measure. Except in a few cases, there has been no attempt to alter the language. In some cases the arrangement is changed, and a few hymns are abridged. They are re-written in the orthography used by this mission in writing the Ojibwa languages.
