request of the Legal and Import-Export divisions of Eighth Army Military Government Section, the following recapitulation and new information is submitted.

3. Establishment of the 30-degree line severed all of Oshima-gun from Kagoshima Ken, of which it had been a part for centuries.

4. Professor Basil Hall Chamberlain writes in his authorative "Grammar and Dictionary of the Luchuan Language" published 55 years ago that "Amami O-shima seems to have been originally tenanted by a Luchuan-speaking population. But Japanese political predominance and constant intercourse during three centuries have almost Japonized the islands".

5. In his "History of the Japanese People", Capt. F. Brinkley, RA, wrote: "---in 1441 the shogun Yoshinori..... bestowed Ryukyu on Shimazu Tadakuni, lord of Satsuma, in recognition of meritorious services. Subsequently (1471) the shogun---forbade the sailing of any vessel to Ryukyu without a Shimazu permit. Historically, therefore, Ryukyu formed a part of Japan".

6. Prof. Sakaguchi Ryutaro in his History of Amami O-shima published in 1910 noted that although the Ryukyus thus were designated a part of the Satsuma domain, Oshima continued to be governed by Ryukyu officers and did not come under direct control of the Satsuma clan until invaded by Shimazu Seiisa forces in 1607. The Satsuma clan established an Oshima branch government office in 1612.

7. The Shimazu fief, which consisted of the provinces of Satsuma, Osumi and Hyuga was broken up at the time of the restoration and split into Kagoshima Ken and Miyazaki Ken. Oshima became a gun of Kagoshima Ken.

8. Because of their proximity, social, cultural and economic ties between Kagoshima and Oshima grew stronger year by year.

9. In 1940 there was almost daily ferry service for both cargo and passengers between mainland Kagoshima and its island gun; 54,546 passengers were carried.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr Kagoshima Mil Govt Team, APO 970, dtd 29 Oct 47
Subj: "Resumption of Trade and Communications with Amami Oshima"

10. In 1940 Oshima shipped to Kagoshima pongee, sugar, dried fish, railroad ties, nara timber (similar to oak), charcoal, bamboo, dried mushroom, lily bulbs, cocoons, sago palm fruit and fronds, matting, cattle, horses, pigs and hides valued at ¥7,728,272 (which local officials report would be worth more than ¥500,000,000 today). (1947)

11. Kagoshima almost exactly balanced the trade with shipments of staple foods (which no longer are in surplus) tea, soy, petroleum products, shochu (a crude local whiskey), beer, tobacco, pickled daikon, books, stationary, newspapers and magazines, salt, sawed lumber and shingles, clogs, sandals, umbrellas, baskets, and finished bamboo products, household equipment, textiles, agricultural tools, fertilizer, cement, and raw silk for the manufacture of pongee.

12. Some of these products are now in the "critical shortage" class but Kagoshima is still in a position to ship tea, shochu, rayon shirts, tobacco, pickled daikon, sawed lumber and shingles, combs, clogs, sandals, bamboo products from water dippers to trunks and baskets of dozens of specialized uses, threshing machines, agricultural tools, pottery, pots and household equipment, cinder bricks, paper umbrellas, soap and cosmetics, newspapers and movie films.

13. With SCAP's relinquishment of silk control it is also believed possible that raw silk could be supplied in order to permit reestablishment of Oshima's once important pongee industry.

14. On the other side of the picture, Kagoshima merchants would be glad to receive any of the products available from Oshima in 1940.

15. It should be noted that, judged by world trade standards, Kagoshima's products are crude but they meet the demands of the Oshimans who have purchased and used Kagoshima products all their lives.

16. In recommending not only resumption of private trade under local supervision this headquarters desires to point out that of the dozens of small local manufacturers who have submitted prices and samples to Tokyo as a preliminary to application for export forms, not a single one has received authority to go ahead. All who received any reply at all were told their

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

products did not measure up to the exacting requirements of foreign trade.

17. This headquarters also recommends assignment of a vessel of about 500 tons to operate on a regular weekly schedule and the resumption of limited travel. A suitable vessel, is now in service to islands north of the 30-degree and might well be authorized to extend its run.

18. In support of this recommendation it is desired to point out that Oshima never had any higher institutions of learning and approximately 1500 of its young people normally were enrolled in Kagoshima institutions.

19. It is not felt that these young people should be deprived of the advantages of higher education available nor that they should be cut off from their families during vacations.

20. Despite repatriation of approximately 12,000 Oshiman residents of Kagoshima, approximately 25,000 still live here and it is a dull day when less than half a dozen apply to this headquarters for authority to visit Oshima because of the illness of a close relative or a dozen other normal and proper reasons.

21. SCAP already has authorized the travel of clergymen who are residents of Kagoshima but no transportation has been available since receipt of this authority.

22. Although there would be difficulties caused by lack of foreign exchange rates and different levels of inflation, this headquarters is convinced that with sufficient local authority granted to both this headquarters and Oshima Military Government Headquarters, a satisfactory arrangement can be worked out at local level, put into operation and adequately supervised.

23. Proposals have already been made in Kagoshima for formation of a local version of the U.S. Commercial Corporation. Members of this corporation would be representatives of all the companies which formerly traded with Oshima.

24. A similar private or government body under military government supervision might well be formed in Oshima.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Ltr Kagoshima Mil Govt Team, APO 970, dtd 29 Oct 47
Subj: "Resumption of Trade and Communications with Amami Oshima"

25. All trade with the islands would be between these two groups. Each would buy for shipment only what the other had indicated its willingness to receive.

26. Value of shipments might well be balanced on the basis of 1940 prices.

27. If representatives of the two organizations were authorized direct communication and transportation provide, this headquarters is convinced a trade program could be drawn up and launched in a comparatively short time.

28. Inauguration of this program, it is felt sure, will stamp out the bulk of the petty smuggling now plaguing police and customs authorities of the two administrations.

29. Above suggestions are for a short range program.

30. For the long range, it is recommended that at the peace settlement the Northern Ryukyus be included within the boundaries of the Japan main islands.

APO 343
ATTN: Military Government Section

1. This headquarters has released the following imported canned and miscellaneous foodstuffs:

a. 399.25 lbs. -- Spoiled -- Owned by Food Distribution Kodan.

b. 1,412.62 lbs. -- Spoiled -- Owned by Ministry of Education (School lunch program).

c. 20.31 lbs. -- Spoiled -- Owned by Canned Goods Association.

2. Military government investigation indicated following reasons for this loss:

a. Items in 1,a were canned vegetables packed in 1942.

b. The bulk of the loss in 1,b was dried milk packed in wooden barrels. Moisture had permeated the barrels and the powder solidified into hard discolored chunks resembling cement.

3. The spoiled foodstuffs will be destroyed or used for fertilizer.

SUBJECT : Women's Discarded Stockings Supplied by Max Fisher and Son's, Los Angeles, California

1. Reference is made to a memorandum from the Textile Division, dated 10 September 1948 (BT-TD-48-59), subject as above.

2. The Los Angeles firm actually delivered 2,420 pounds of discarded stockings and 1,180 pounds of silk garments-rags. Since the latter item was clearly an unauthorized one, the port authorities refuse to permit Asano Bussan Co., Ltd., No. 10, 1-chome, Marunouchi, Chiyoda-ku, Tokyo, permission to accept a delivery of the latter item.

3. The Board of Trade or its authorized agent will accept delivery of this parcel of 1,180 pounds of silk garments-rags, which arrived at Yokohama 30 December 1948 and cause this material to be diverted to the domestic economy. Asano Bussan Co., Ltd., has relinquished all right to benefit in any degree from this authorized importation. The American supplier does not retain ownership of this material inasmuch as it was brought to Japan upon the distinct understanding that it was to be a gift to the Japanese economy.

SUBJECT: Responsibility of 8th Army Units in Connection with Handling of U.S. Foreign Assistance Cargo Arriving in Japan on Vessels of Army Interest

In 4 Parts:

Part I: To Commanding General I Corps, Commanding Officer, Shizuoka, Kanagawa and Tokyo Mil Govt Teams.

Effective 1 April 1949, your commands are relieved of responsibility for reporting arrivals, departures and cargo outturn on vessels of Army interest arriving in Japanese ports.

Vessels concerned are those covered by U.S. Government contract, that is, Time Charter, Voyage Charter, or Berth Terms.

All ships falling in these categories are reported by 8th Army in Daily Ships Position Schedule, Report Control Symbol CTO-06 and receive routing instructions from this headquarters (See periodic radio 8th Army reading "Subject is Routing of Vessels of Army Interest")

Nothing in this message is to be construed as relieving your commands of responsibilities currently assigned in connection with supervision of Import of SCAP or Commercial Cargoes, Port Facilities, Customs, Quarantine, and related matters.
Request all units concerned with the handling of vessels of Army Interest, as defined, be so notified.

This Directive will take effect with the first vessel arriving on or after 1 April 1949; any ships which arrive prior to that date and are in process of being discharged will be handled by respective units which presently have responsibility.

Part 2: To Commanding General Yokohama Command

Effective this date (16 March 1949), an additional space allocation of 11 officers and 27 enlisted men is assigned to your command. It is desired that this personnel be utilized for assignment to Hq Second Transportation Medium Port for the purpose of enabling that command to fulfil newly assigned duties outlines below. Personnel for this allocation will be assigned as they become available.

Incl. 1

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Part 3: To Kobe Port Command.

Effective this date (16 March 1949), an additional space allocation of 9 officers and 25 enlisted men is assigned to your command for purpose outlined in Part 4 below. Personnel for this allocation will be assigned as they become available.

Part 4: To Second Medium Port and Kobe Port Command

1. Effective 1 April 1949, your commands are assigned responsibilities for reporting on Arrivals, Departures, and Cargo Outturn of all vessels of Army Interest arriving in Japan.

   Current Department of Army Directive require following actions by receiving command in connection with such vessels and cargoes: (In 6 parts A to F)

   (A) Cargo outturn reports must be based on condition, count, and weight found at end of ships tackle.

   (B) Outturn reports must be completed and information to accomplish Government Bills of Lading (provided the originals of these documents are not presented for signature by ships master or agent) must be radioed to contracting officer at port of embarkation having area jurisdiction over loading port of vessel, not later than 48 hours after completion of discharge.

   (C) Master of vessel will be furnished receipt for cargo prior to vessels departure. Receipt to indicate whether exceptions were taken against cargo. (If complete information is not available at sailing time, written notice must be given to ships agents within 3 days after departure.)

   (D) In event discrepancies exist between outturn reports and Government Bills of Lading on Berth Terms cargo, reports of survey, (form AGO-14-9-4 dated April 1945) will be initiated by your commands.

   (E) In case of damage to Government cargoes valued at over U.S. Dollars 500.-, a commercial cargo surveyor will be appointed to report on cause and nature of damage.

   (F) Written Over, Short and Damage reports, and supporting documents, will be forwarded through channels not later than 15 days after completion of discharge.

Requiring Directives for points listed are Department of Army Memo 55-305-4 dated 23 March 1948, Special Regulation 55-305-10 dated 30 December 1948, and Letter OCT file 541.2 dated 30 December 1947, as passed in Messageform This Hq. AGO 541.2 dated 11 February 1948.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

2. Japanese home islands are divided into 2 areas of responsibility.

a. The northern part comprising ports in Hokkaido Mil Govt District, Tohoku, and Kanto Mil Govt Regions, Tokyo, Kanagawa, as well as Shizuoka Prefecture, is under jurisdiction, for purpose outlined in this Directive only, for Second Transportation Medium Port, Yokohama.

b. The Southern part, comprising ports in Tokai-Hokuriku (minus Shizuoka prefecture), Chugoku, Shikoku, and Kyushu Mil Govt Regions is similarly placed under jurisdiction of Kobe Command.

3. According to personnel requirements submitted by your hq., 8 officers and 18 enlisted men of first three grades are required at Yokohama, and 4 officers and 10 men of first three grades at Kobe proper to handle additional workloads at these two ports.

This leaves Yokohama 3 officers and 9 men and Kobe 5 officers and 15 men for duty at outlying ports.

Desire this personnel be divided in teams of 1 officer and 3 men each to handle vessels arriving at ports other than Yokohama and Kobe.

Teams will be placed on orders to proceed to specific port whenever advice from this Hq. indicate that a vessel of Army Interest has been diverted from Yokohama or Kobe. In order to keep your hq. currently advised of routing and ETA, all ships to shore radio traffic received as well as routing instructions and diversion orders originated by this Hq. will be transmitted to your commands by electrical means. In addition, every effort will be made to designate firm discharge ports not later than 10 days prior to vessels arrival in Japan.

Direct communication with Hq I Corps and IX Corps is authorized to make necessary arrangements for transportation, quarters and rations of teams when travelling to and from outlying ports. If greater flexibility and efficiency so require, no objection exists to stationing on temporary basis one or more teams or parts thereof at locations outside Yokohama or Kobe.

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Yen Counterpart of GARIOA and EROA Imports.

1. The Japanese Government will establish as of 1 April 1949 a special account in the Bank of Japan in the name of the Japanese Government to be designated the U. S. Aid Counterpart Fund for Japanese Stabilization (hereinafter called the Fund) and will make deposits in Japanese yen in this account in amounts commensurate with the dollar cost to the Government of the United States of America aid (including any cost of processing, storing, transporting or other services incident thereto) furnished Japan by the United States.

2. The Supreme Commander for the Allied Powers will from time to time notify the Japanese Government of the dollar cost of the United States aid and the Japanese Government will thereupon deposit in the Fund a commensurate amount of yen computed at a rate or exchange which will be indicated to the Japanese Government by the Supreme Commander.

3. The Japanese Government will be permitted to draw from the Fund only such amounts and only for such purposes as may be approved by the Supreme Commander.

4. The Japanese Government will be required to submit to the Supreme Commander separate and specific proposals for any desired use of the Fund. In preparing these proposals the Japanese Government will take into account the imperative need for promoting and maintaining internal monetary and financial stability, for stimulating exports and for carrying out the other objectives set forth in the letter of 19 December 1948 from the Supreme Commander to the Prime Minister. To these ends the above mentioned proposals will take due cognizance debt held by the Bank of Japan and other banking institutions and will coordinate such action with the legitimate needs of private and public enterprise for capital and credit. Such expenditures as the Japanese Government may be permitted to make from the Fund will not, in general, replace funds otherwise available from the normal revenues of the Government, savings of the Japanese people or from existing sources of credit. Whenever practicable, releases from the Fund will be repayable to the Fund in accordance with clearly defined interests and amortization schedules. However, this principle will not preclude approval of other categories of releases which will better contribute to the stabilization and export capacity of Japan.

SCAPIN 1988

5. In authorizing limiting or disallowing applications for releases from the Fund, cognizance will be taken of the attainment by the Japanese Government, the Bank of Japan, and other financial institutions of prior established goals in the fields of budget, monetary and credit control. Furthermore, proposals by the Japanese Government to advance counterpart funds for private and public investment programs will be considered in the light of achievement by the proposed recipients of specific programs of rationalization and economic stabilization.

6. Direct communication between Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers and appropriate agencies of the Japanese Government within the scope of this memorandum is authorized.
