*THE tendency and growth of our establishment is surety to our Barber friends, that **GOOD GOODS, LOW PRICES** and **PROMPT, HONEST** dealing is our motto; we try to please, and success has been the result.*

☞ A general reduction of prices has been made in this List.

TERMS.

Terms are Cash on delivery, C. O. D. by Express; small orders (under \$2.00) should be accompanied by cash; any change will be returned with the goods; we pay return charges on amounts (for new goods) over \$5.00 through one Express Company.

Please write orders distinctly, in compliance with this Catalogue, to avoid mistakes. We fill orders for goods not mentioned in this book without extra charge. All goods are shipped by Express; we send small-paid articles by mail, only on special instructions given, and do not hold ourselves responsible for mail packages.

FURNITURE.

With order for Furniture or other heavy goods (including Shaving Mugs, decorated), remit a cash deposit enough to cover transportation both ways, and to insure the goods being taken on arrival, the balance of bill to be paid on delivery. The full amount will be required for goods to distant or outside States. Please give your instructions how to ship by Express or freight line. We give estimates for large outfits on application. Our constant dealing with Express and Freight Companies enables us to secure lowest rates for transportation.

NO CHARGE FOR BOXING OR CARTING GOODS.

NO GOODS SOLD ON INSTALLMENTS.

SPECIAL.—Customers wishing to exchange articles which do not fulfill their expectations, may do so immediately, if sent in free of charge, provided they have not been used or injured.

“Diamond Zenith Razor.”

and Ottawa, Canada.

TO THE BARBER PROFESSION:

Thirty-seven years' experience has been crowned with success.

THE UNRIVALED DIAMOND ZENITH RAZOR HAS STOOD THE TEST.

It is not our intention to print the numerous testimonials received daily from prominent Barbers of this and other countries. They pronounce them superior to any which they have used. There is a general call for the Razor with the

GLAZIER'S DIAMOND, named DIAMOND ZENITH RAZORS.

THE JOURNAL OF COMMERCE, CHICAGO,

A LEADING PAPER FOR HARDWARE AND CUTLERY

of HIGH STANDARD, says in its columns of September 24th, 1884:

A WORD ABOUT BARBER'S CUTLERY.

The article of greatest importance to barbers is a good, keen razor, and shears which do not slip the hair. We are not aware, as yet, that all barbers are acquainted with the good quality of the “Zenith Razor.” What are the advantages of a fancy barber chair, brushes, soap or other tools, or being a skillful and experienced barber, if one has not the razor to depend upon? Unquestionably, the whole weight of the barber's reputation rests entirely on a first-class razor—a razor better than what has hitherto been offered by what is called “the trade.” A barber is bound to have a razor which is MADE to SHAVE and hold out.

Mr. Gustav Knecht, 171 E. Randolph Street, Chicago, is the fortunate man who understands how to make a razor which ought to be tried and will be appreciated—Mr. Knecht being in the first place born and brought up in cutlery, all his forefathers having been engaged in the manufacture of knives, shears and razors; his own experience in this very line of business, making and concaving razors and other instruments, extends beyond 30 years. He has now brought it to the extreme point in manufacturing a razor invented, and known in material as well as in temper only by himself; thus his new brand is truly the

"ZENITH OF THE AGE."

TRADE MARK.

DIAMOND RAZOR.

In London, England and
Ottawa, Canada.

Mr. Knecht's superior razor concaving has long been known all over the United States. It is not his way to puff and shout about anything, but, as we learn, he is busily engaged with a large force of assistants in making the Zenith Razor, and is hardly able to fill all the orders received from people who have heard of the good quality of his razors through friends and barbers who had them in use already. Three years ago the Zenith Razor was introduced, and it is now really the standard and zenith of the day.

ALL-STEEL SHEARS,

Manufactured by Gustav Knecht of the same razor steel, are in great demand and meet all

put on barber's shears. These shears are known by being full (highly) polished and bearing the manufacturer's name. No others are identical and genuine Knecht's Razor Steel Shears.

HONES.

ADVANTAGES IN FILLING HONE ORDERS.

Our Mr. Knecht, Sen., on his trip to Europe last summer, took occasion to visit the German Stone and Belgian HONE headquarters and profited for our house, in selecting first-class goods. By his full knowledge and experience acquired in his many years' *using* and *handling* Hones, he not only made a selection of extras, which in other cases never reach this country, but has transferred his skill (educated one of his relatives in the same trade, who resides near the best Hone Quarries of Belgium), and will henceforth be supplied steadily from there, with nothing but prime wares. We can thus say, we have better Hones to offer than the ordinary market supply.

Please give particulars with order as to grit, size and limited price.

We do not keep any artificial or baked Hones.

CLIPPING MACHINES.

Gustav Knecht, Importer and Grinder of Clippers.

We examine and try each new Clipper before we ship them. It is provoking to Barbers to receive new Clippers from improper hands, and not in working order. To be sure, buy Clippers only from professional and careful Cutlers and Grinders of Clippers.

No. 1. English Clark's Horse Clipper.

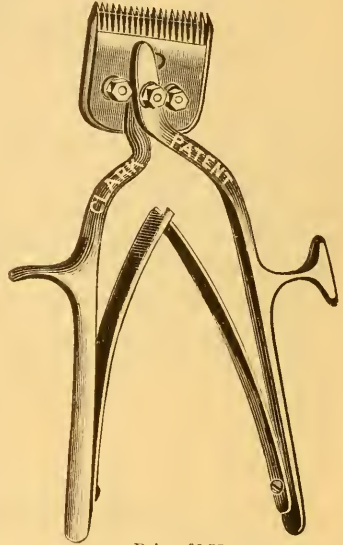

Price, \$3.75

Clark's Imported Clippers are known as the most reliable Clippers advertised.

We IMPORT and keep on hand a well assorted stock of the best English Clark's Clippers. Newmarket Horse Clippers are in stock at same prices as Clark's.

No. 2. English Clark's One-Hand Barber's Clipper.

Price, \$3.75.

See Attachment Plate, page 13.

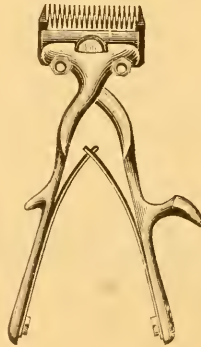

Please observe the improvement of handle and spring on Clark's Barber's Clippers. These springs now last more than twice as long as the former short bent ones.

GRINDING AND REPAIRING.

Please Observe the following Directions when sending in Barbers' Cutlery for Grinding.

Mail Packages: Do not paste nor seal, nor put in any writing—write your name and address outside and send instructions extra by letter.

Express Packages: You can put in letter with full address and instructions. It is the safest way to send by express. Packages of one Razor or Shears should be prepaid. Please attach your address to all orders and packages you send for repairs.

10 cents extra for reducing large thick Razors over $\frac{1}{2}$ of an inch in size.

As we are **MECHANICS** ourselves we claim to do what is called “A No. 1 Work.”

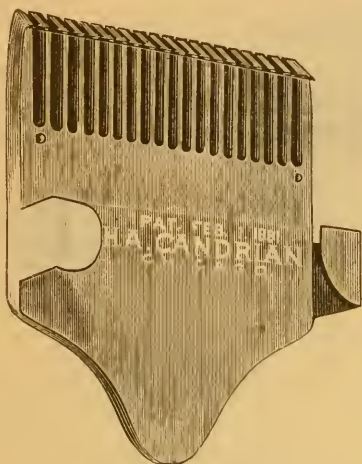

Concaving of Razors in proper style is an art of itself and ought to be placed in the hands of real mechanics only.

WE DO NOT GRIND RAZORS DRY.

Our establishment is systematically arranged, so there is no need of unscrupulous puffs, calculated only for people who never look at real facts.

It is folly for some of our competitors to whom grinding is an unknown art, to waste words in endeavoring to prove themselves skillful in this department. Mechanical skill is acquired only by years of careful practice; it cannot be hired or bought, or proved by window advertisements. Let customers judge. The reputation we enjoy is sufficient proof that these claims and advertisements are necessary for them to establish a reputation for skill they do not possess.

ATTACHMENT OR EXTENSION PLATES TO CLIPPERS.

These Plates are made in three numbers and can be used to extend the under part of the Clark's No. 2, Brown & Sharpe's No. 1, and French Toilet Clipper.

To save express charges we will send one to any part of this country on receipt of price and 10c additional for mailing.

In ordering be sure to state whether the Clipper for which the attachment is wanted has 19 or 20 teeth on lower plate.

THE ARCHER PATENT ADJUSTABLE

ROCHESTER BARBERS' CHAIRS

THESE Chairs have well earned, by their Quality, Durability, Ease and Comfort, the position of being the STANDARD FIRST-CLASS BARBER CHAIRS OF THE WORLD.

The quality of WORKMANSHIP and MATERIALS used is SUPERIOR to that of any other Barber Chairs. The best evidence of their Superiority is that all (or nearly all) other Barber Chair manufacturers endeavor to imitate them, which they do in design only.

We assert that an ARCHER CHAIR will give you at least fifty per cent more SATISFACTION and outwear two of any other Chairs in the market.

Over TWENTY-FIVE THOUSAND of these Chairs now in use, and the demand is constantly increasing, both at home and in foreign countries.

For elegance of STYLE, FINISH, QUALITY, and for EASE, COMFORT AND DURABILITY, they are UNEQUALLED.

The BEST is always the CHEAPEST.

For illustrations and descriptions see following pages.

ARCHER'S PATENT ADJUSTABLE
BARBER CHAIR, No. 1.

ROCHESTER, N. Y.

(DESIGN PATENTED.)

The above Chair is made of solid Black Walnut, in the most substantial manner, and well upholstered. It will be seen that Mr. Archer has greatly improved this Chair by substituting swan neck arms, and adding castors to the front legs. For strength and durability it is unsurpassed. It is movable to the positions most convenient for shaving or hairdressing, by means of a foot lever working from the side of the Chair, and also by an additional lever working from the back of the Chair. It is the best Chair for the money in the market. Foot-stool is covered with sheet brass on Plush-covered Chairs.

ARCHER'S PATENT ADJUSTABLE BARBER CHAIR, No. 4.

ROCHESTER, N. Y.

(PATENTED MAY 21, 1878.)

The above illustrates Archer's latest New Style of Barber Chair. The Chair is made of Walnut, or Maple finished as Ebony, finished in first-class style. The arms, back and seat are connected and securely fastened together by the tasty iron side arm, which is double japanned and ornamented with gilt lines. The Foot-stool, as will be seen, is constructed in a similar manner, by tasty iron platform and step. The above connections are protected by patents issued May 21st, 1878.

This Chair is the most handsome and durable Chair for its price ever offered to the trade, the iron platform never wearing out and always looking clean and neat.

ARCHER'S PATENT ADJUSTABLE BARBER CHAIR, No. 5.
ROCHESTER, NEW YORK.

(PATENTED MAY 21, 1878.)

The above style Barber Chair is made of iron, of beautiful design and tastily ornamented with gilding. It is adjusted to the position necessary for shaving by placing the foot on the treadle at the rear, which releases the segment and allows the seat and back to be tilted to any desired angle. As will be seen, the Chair and Foot-rest are combined, thereby making it a firm and strong Chair. It has rollers under the front legs to facilitate the moving of the Chair about the room. It is the most handsome design, and withal the best low-priced Adjustable Barber Chair ever offered to the trade. It is well upholstered, with steel springs in the seat, and the best of materials, and covered with Carpet or Plushes; wood-work finished in Walnut or ebonized Cherry.

GUSTAV KNECHT'S LATEST AND MOST PERFECT
RECLINING BARBER CHAIR, No. 2.

FIGURE 1.—Shows the Chair in a reclining position for shaving.

WITH IMPROVED REVOLVING FOOT-REST.

Permit me to call your attention to the patent foot-rest, which gives this new improved pattern a great advantage over the former Reclining Chair advertised in catalogue 1883-84. There is no more tilting or tipping in with a person's foot when stepping on the foot-stool, which occurred in those formerly advertised. All parts are secure and perfectly safe. This, our Reclining Chair of to-day, is a useful novelty to have in the shop. Please notice also the reduction in price for the Plush and Carpet-covered Reclining Chair.

PRICE OF CHAIRS.

Fig. 2.

FIGURE 2.—Placed in position for
 Hair Dressing.

The design is entirely new. Frame made of solid Black Walnut, oil finish, the ornamentation which shows richness of effect is produced by artistic engraving, gilt and ebonized finish. The Chair has the Automatic Foot Treadle, which cannot be used by any other manufacturer. The Chairs upholstered with Plush and Moquette have **Nickel-Plated Trimmings**. The material used for upholstery is of the very best quality.

SPECIAL NOTICE.—I would respectfully solicit my Tonsorial friends to call and examine the Reclining Barber Chair whenever convenient for them to do so, and be convinced of their superiority. It is impossible to illustrate the Chair to its proper advantage, or explain all parts in the proper light; those that have them in use speak of them in the highest praise. Solid comfort for the occupant and convenient and easy-working for the Barber.

Would also call your attention to the improved Hair Cutting Chair (upholstered), and the Boot Blacking Chair, which is a great convenience to the bootblack, an ornament and advertisement for your shop. See page 51.

BARBER POLES—Continued.

A Well Assorted Stock of Barber Poles is Kept on Hand in our Salesroom.

After many experiments we have come to the conclusion that Poles turned from a dry and *solid* Cedar beam stand exposure to the weather far better than those made of *hollow* ordinary pine wood.

We turn out quite a number of Poles and many are to be found on the streets of Chicago and elsewhere.

The first attraction of a well fitted up Barber Shop is a good, nice Pole.

Our painter is an artist in his line. Nothing but the best material is used; the balls and rings are gilded with pure gold leaf. The colors on our Poles keep their bright appearance for several years.

INFORMATION FOR FITTING UP BATH ROOMS.

If there is no water works in your city, you need the following fixtures: 1st, a wooden cold water tank (see page 76); 2d, an iron tank or boiler (on same page); 3d, a heater; 4th, bath tubs. Connect the heater with the iron tank or boiler (see cut), run a pipe from the top of tank to the cold water supply; hot water is drawn off from the iron tank to the bath tubs, a separate pipe for cold water being needed from the main water supply (wooden tank) to bath tubs. When using the heater an iron tank is always necessary. Connections cannot be made directly between the heater and bath tubs.

BATH ROOM FITTINGS.

WILKS' HEATER, FOR BATH ROOMS.

The cut shows the respective positions of the fuel, fire and water. The door to feed by is in a portion of the smoke pipe, which we furnish. The large sizes are self-feeders, so that a fire can be kept up for twelve hours at a time without attention. The 12x24 inch heater is adapted for one or two bath tubs; it is not advisable to use smaller sizes. For Tanks, see next page.

COLD WATER TANKS.

Made from select common pine, and well supported by strong iron hoops. The 100, 200 and 300 gallon wooden Tanks can be shipped as they are. The larger sizes are better shipped knocked down (taken apart) on account of the lower charges for transportation. In shipping knocked down, all pieces are plainly marked, so they can easily be put together.
