N

Agos-yoo-ca-7-00 - took twisting murder
industrial revenge for
alleged bone painting.

If an old person dies, that is natural &
there is no suspicion of hostile wishing on
the part of a hostile tribe, but if a young
adult dies, that is for a certainty. It has
caused by a "singing" a "singing" or a
"bone painting" & has to be reversed.

The Elders meet & decide that tribe is
guilty - & nominate the appropriate
relative of the deceased to go forth single
handed to kill a member of the guilty tribe.
A Kampaio & difficult assignment which
calls for Spartan conditions, he fasts and
repairs from sexual intercourse for days.
Then leaves on his task, once on his tribal
territory he travels by night & hides by day,
suffering great privation as to water & food as
all he can start off with a few lumps of ground
seed taken in the ashes & some roasted
Kampaio, shredded & dried.

He if possible chooses a Kampaio water
near a hill of boulders where he can
secretly observe & plan his approach
with feather sandals is for preference and

a small isolated group.

Up to about 10 AM the occupants of the camp
will be talking, singing or dancing, but
after that all are asleep except the very
old men, who meantime have been sleeping.
They then come on watch & stand Thabbe, i.e.
solo singing, to prevent Junes approaching,
but by about 3 AM even they fall asleep,

This is the Juma's opportunity.
Stealthily approaching his selected victim
he kneels astraddle his victim,
with one hand on the latter's throat, the
victim's mouth opens & is immedi-
ately filled with sand.
The Juma's hands are now free,
grasping locks of hair on either
side of the victim's ~~hair~~ head, his
head is twisted until ~~vertical~~
it is completely in reverse,
the head is then twisted back to
normal, victim now unencumbered
is placed in a crouching attitude
which allows him to breathe.
This whole operation takes only a
matter of seconds. The victim
gradually regains consciousness
but dies in two or three days
from mortification of the
spinal cord.

Pooja	The Brachi Kitee tree. The wood is very light & buoyant & used for paddling logs.
Pooja	A paddling log of Brachi Kitee wood.
Pin Nü	The ^{decayed wood} sound on the edge of a fresh water pool.
