THE
CATHEDRAL
OF

❖ **MONTREAL** ❖

1893

Remarks.

1. The interior vault and the cornices are of wood painted in white and gilded.

2. The walls are of cement and fire proof.

3. The paintings of the principal cupola represent the four Evangelists and their emblems, viz : The eagle for St. John, the winged man for St. Matthew, the winged Lion for St. Mark, the winged ox for St. Luke.

4 Besides the angels painted above the Evangelists, there are beneath ; (*a*) the keys of St. Peter ; (*b*) the arms of Archbishop Bourget, second bishop of Montreal, who began this church ; (*c*) the arms of Archbishop Fabre, under whose patronage the church is being continued ; (*d*) the emblems of Pope Leo XIII.

5. The paintings in the vault of the apsis represent in the centre, the power of the keys given to St. Peter, at the right, the marvellous draft of fish, and at the left, Christ meeting St. Peter on leaving Rome.

6. The inscription around the cupola signifies : « Thou art Peter and upon this rock I will build my church and the gates of hell shall not prevail against it ; and I will give to thee the keys of the kingdom of Heaven. »

7. On the cornice of the apsis we read the following : « Whatsoever thou shalt bind upon earth it shall be bound also in Heaven and whatsoever thou shalt loose on earth it shall be loosed also in Heaven.

8. In the centre of the apsis the inscription in gold letters reads as follows. « Feed my sheep. »

9 Under the paintings of the Evangelists there is the following : « Holy, Holy, Holy is the Lord God almighty who was, and who is, and who is to be. » It is the song of the winged animals heard by St. John as related in the book of the Apocalypse.

10. At the entrance beginning on the left, we read the legend of St. James the Great, patron of this Cathedral, taken from the Breviary.

He was one of the three apostles for whom the Lord had a special predilection.

In Judea and Samaria he converted a great number of people to the Christian faith, in Spain he made some conversions, in Jerusalem he was condemned to be beheaded. He was the first of the apostles who shed his blood for Jesus Christ.

11. Around the transept is the answer of Jesus to the ambitious question of the mother of the apostles St. James and St. John. « Jesus answered. You know not what you ask. Can you drink the chalice that I shall drink ? The apostles answered : We can drink it. Jesus said to them : « Of my chalice indeed, you shall drink, but to sit on my right or left hand, is not mine to give you, but to them for whom it is prepared by my Father.

12. The building will cost about one million dollars.

13. It has been found from experiments that the acoustic properties are very good and the heating will be comparatively easy.

14. An electric organ of great power will be installed in October 1893.

## PREFACE.

---

With no little satisfaction we present to our patrons the BROOKLINE DIRECTORY for 1891, No. 12 in the regular series. We trust it will prove to be such a work as shall satisfy all reasonable expectations. While we do not claim that it is free from errors or imperfections, we affirm that we have faithfully striven to reduce all defects to the minimum.

We respectfully ask for suggestions, from any responsible quarter, that shall help to make the BROOKLINE DIRECTORY more useful to our patrons.

We are grateful for the generous support given to the advertising department in this issue, and would refer our readers to the same.

REGULATIONS CONCERNING FIRE ALARMS.

First alarm to be given on bells and whistle, by striking four rounds.

Second alarm to be given by ten blows struck once.

1 One stroke at M. every day.

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters.

On first alarm from boxes 32-34-35-36-37-38-39-41-43, Hose 3 will take position in Hose 1's house.

On second alarm from boxes 16-17-18-21-23-25-27-29, the Chemical engine will take position in Hose 1's house.

Members of companies not responding on first alarm shall report at the house of their respective companies, and remain there twenty minutes, unless the recall signal has been sounded. After a first alarm has been given and before the recall signal is sounded, should an alarm be given from another box, all unemployed first and second alarm companies will respond.

22 Signal for No School, 4 rounds.

Also a special box for Town Hall, except between the hours of 7 and 8.30 a. m.

GEO. W. COOPER, *Supt.*

INFORMATION FOR YOU.

Keys to the boxes may be found at the nearest house.

Before ringing in an alarm be sure that a fire actually exists.

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expence to the town, and should be avoided as much as possible.

To give an alarm, pull down the hook in the box once (without jerking) and let go. Wait a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard, go to the nearest box and try, after which, report immediately, to the superintendent or at the station, the box out of order.

All persons giving fire alarms are requested to remain by the box, if possible, to direct the firemen to the fire. Each box contains a small bell which if heard before you pull indicates that the alarm has been previously given.

After the first alarm has been rung in, all other alarms or signals are given only by the engineer.

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law.

SPECIAL NOTICE.

The fact that an alarm box is located near their residence, and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The Board of Engineers recommends to all persons who may see this notice, that they make all necessary inquiries to enable them, in case of need, either to get the key and pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration.
