WALTHAM STREET DIRECTORY 1915

(Copyright 1915 by W A Greenough & Co)

Giving the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Adams street No 165 comes you look at Adams and find that Brown street crosses at 157, and Robbins at 175, showing that 165 Adams would come about half way between Brown and Robbins.

Do not burden your mind

by trying to remember everything, but rather condense the knowledge you have.

Remember only

that the Directory is your ready reference giving the index to your city, its inhabitants and its business. It tells you where to buy and sell your goods, and in the advertising section, will be found the cards of the more progressive manufacturers and dealers giving a descriptive idea of their line.
