### GEORGIA.

**NOTE:** An experience with county-wide local school tax is the most effective argument for it. Counties adjacent to local tax counties, seeing its benefits, most readily vote for it. See map.

## HART COUNTY PUBLIC SCHOOL SYSTEM.

The paramount public school problem confronting Hart county just now is the question of "County-wide local tax" vs. "District local tax."

The people of the county are strongly in favor of better rural schools, for more than four-fifths of the county has already voted by more than two-thirds majority for local school taxation. But this local school tax is levied and administered by the "District Plan," which has proven **both expensive and unsatisfactory**.

There are thirty school districts in the county, of which twenty-five have voted in favor of the "District local tax." Four of these have repealed it, leaving twenty-one districts still operating under it with more or less unsatisfactory results. These are as follows:

Districts.	Rate.	Amount.
Airline (and Adams).....	.5 mills.....	\$ 314.07
Bio .....	.5 mills.....	115.02
Beulah .....	.5 mills.....	257.35
Cedar Creek .....	.4.5 mills.....	196.68
Cross Roads .....	.5 mills.....	174.62
Cokesbury .....	.3.5 mills.....	188.97
Camp Ground .....	.4 mills.....	202.39
Duncan .....	.3 mills.....	166.51
Eureka .....	.4 mills.....	146.11
Flat Shoals .....	.2.5 mills.....	114.08
Goldmine .....	.5 mills.....	250.78
King's Bench .....	.4.5 mills.....	204.12
Liberty Hill .....	.5 mills.....	157.36
Midway (and Mt. Hebron).....	.5 mills.....	160.64
Nuberg .....	.5 mills.....	299.08
Reed Creek .....	.5 mills.....	220.08
Rice .....	.4 mills.....	191.26
Shoal Creek (and Rock Springs).....	.5 mills.....	185.87
Sardis (and Riverside).....	.5 mills.....	347.40
Thomas .....	.5 mills.....	112.67
Viola .....	.5 mills.....	231.16
Average rate .....	.4.5 mills	
Total amount .....		\$4,236.01

### UNSATISFACTORY RESULTS.

A careful reading of the reports of the schools herein will show:

1st. That the rate levied in the twenty-one local tax districts is generally high, in most cases reaching the maximum constitutional limit of five mills.

2nd. That the schoolhouses (with exceptions of some recently built) were very poorly planned for school purposes, usually "insufficiently lighted," etc.

3rd. That important and necessary school equipment is gen-

erally lacking, often "very poor blackboards, no maps, no charts, no globes, no reference dictionaries, no pictures, no library, or other helps."

4th. **That the school year is everywhere inadequate**, in most instances only twenty weeks, or 100 days.

5th. The absence of organized activities in the schools on account of the very short terms.

### A COUNTY-WIDE PLAN.

If the same average rate (4.5 mills) that is now levied by twenty-one separate administrations (local boards) against more than two-thirds of the property of the county was levied by a central administration (the County Board of Education) against all of the property of the county (\$2,201,916.00, exclusive of Bowersville and Hartwell) it would yield for the schools **\$9,090.86** for the benefit of ALL the schools of the county, as against \$4,236.01 as now collected for the benefit of two-thirds of them.

**Without increasing** the average rate (lowering it in the majority of cases) the "county-wide plan" would **more than double the amount of school funds now received** under the "district plan" of local taxation.

This is a startling statement and may need to be verified before becoming credible to most citizens, but it is nevertheless an accurate statement which can be easily verified from the Hart county tax books.

It means that under the "county-wide plan" the County Board of Education could, without increasing the tax rate, give to the largest local tax district (Airline) as much of the local tax money **as it now gets**, and at the same time give to **every other school district in the county** (including the nine that now get none) as much as the largest one now gets under the "district plan."

Furthermore, judging from experiences under the "county-wide plan" elsewhere it is safe to conclude that under administration of the County Board of Education the funds would be more economically and wisely expended towards securing better planned school-houses, better school equipment, longer terms, and better trained teachers, because there would be a **single administration directly responsible to all the people of the county for better rural schools.**

Forty-one counties in the State are now operating their schools under the "county unit plan" of support and administration, and none have found cause for dissatisfaction.

We therefore confidently commend the "county-wide plan" to the careful consideration of the voters and citizens of Hart county in the interest of better rural schools for the county.
