NOTE ON THE SCREENING OF JAPANESE NATIONALS EMPLOYED BY THE U.S. FORCES TO PREFECTURAL GOVERNORS

Chief of the
Cabinet Secretariat

The Governors of Tokyo Metropolis, Hokkaido and prefectures are hereby notified that all the Japanese nationals who are employed hereafter by the U.S. Forces including the G.H.Q., Military Government, Military Police and other Unit Forces, entrused with considerably higher duties shall be screened for the convenience sake by the Prefectural Screening Committees (Municipal Screening Committees are not included) in compliance with the criterion of screening according to the Append. No.1 of the Cabinet and Home Ministry Ordinance No.1 of 1947, every time when it is requested by the U.S. Forces. (It is estimated that about 20 Japanese nationals are employed by the U.S. Forces per month and per prefecture.)

It is also notified that since the screening requested by this note is not obligatory one under law, the measures as the delivery of cirtificate, notice of designation, public notice on the result and the report to the Central Screening Committee are not required. It is simply required to describe the classification of "PASSED" or "NOT PASSED" on the Questionnaires and to send one copy of the Questionnaires to the U.S. Forces which required the screening, while another copy shall be preserved by the Screening Committee.

In addition, it is also notified that the formula of the Questionnaire, two copies of ~~which are required~~ in English and Japanese respectively, shall be the same as that of the Formula No.1 of the Cabinet and Home Affairs Ministry Ordinance No.1 of 1947 and the filling up of the Questionnaire shall be carefully made by summoning the subject person and showing examples of filling up of it.

4. Ensuing discussion centered on attempts to explain inaccuracies in reports from various sources, in the course of which Major Napier stated that the purpose of this conference was not to solve such discrepancies, but to determine what action will be taken by the Japanese Government to remove from government service all career military personnel, down to and including the municipal level. Mr. SONE suggested that they would screen all such persons and in cases where temporary retention was absolutely necessary, requests for such would be prepared. Mr.YAMADA added that the Government would review such petitions and would submit to GHQ only those which were based on undisputed necessity and in which the questionnaires contained nothing objectionable other than status as career commissioned officers. It was made clear that non-regular employees who were non-salaried and were re-imbursed only for expenses incurred in connection with services rendered would be exempted from the operation of the purge.

5. Mr. SONE said that these persons had not been screened, as 2nd class officials were not yet subject to screening. Major Napier said that in view of the fact that the screening of SONIN officials is to be initiated in September, it is desirable that the removal of career military personnel be effected immediately. He also proposed that career officers in government service be immediately designated provisionally and be automatically removed from public office, with the exception, of course, of personnal of the Demobilization Board, and certain other agencies and ministries in which temporary retention has been approved by SCAP.

6. At the conclusion of the conference, both Mr. SONE and Mr. YAMADA, when queried by Comdr. Hussey and Major Napier, replied that they were aware of the necessity for immediate action on this matter and that such would be taken on or before 15 August 1947.

MEMORANDUM FOR: CHIEF, PUBLIC SERVICE
QUALIFICATIONS DIVISION

31 December 1947

SUBJECT : Far East Command Ordnance
Automotive Fifth Echelon Project

1. The purpose of this memorandum is to describe the nature of the FEC Ordnance Automotive Fifth Echelon Project, to report on field trip made in connection therewith 3-14 November 1947, and to present matters of interest to this section.

2. The Project. Due to a critical deficiency in fifth echelon automotive maintenance support in the Far East Command, consideration was given to a large-scale project to be undertaken in Japan. This project, known as the Far East Command Ordnance Base (5th Echelon) Automotive Maintenance Project, or the Far East Command Ordnance Automotive Fifth Echelon Project, was approved by the Deputy Chief of STAFF, FEC, in June 1947. The project envisages the fifth echelon repair of approximately 50,000 Army vehicles in Japan and outlying areas of the theater. Those outside Japan are to be shipped to Japan where all will be repaired on a Procurement Demand to the Japanese Government. Available and suitable Japanese industrial facilities will be utilized for the project. In return for those vehicles to be shipped back to the Philippines, Okinawa, Korea and other areas of the Command outside Japan, the Japanese Government will receive dollar credits in the amount of $3,000,000 to be used to pay for such vital imports as are required to hasten the economic recovery of Japan. The commencement of this project has been delayed considerably due to recruitment difficulties in the U.S. in employing managerial personnel. Some of the managerial staff arrived in October and November. In order to afford the staff an opportunity to orient themselves to the problems and difficulties inherent in adapting the Japanese industrial set-up to the needs of the project, a field trip was made 3-14 November to many plants in the larger Japanese cities. Per telephone conversation with the FEC Ordnance, Executive Officer, Lt. Col. Engler, on 30 December 1947, it was learned that a report of this trip was made to the office of the Deputy Chief of Staff, FEC, and that it had been sent to ESS for comment. It was presumed by Lt. Col. Engler that a copy was in the hands of the Deputy Chief of Staff, SCAP. Actual operational plans have not been submitted to the Deputy Chief of Staff, FEC, but when they are, and have been approved, it is understood that copies will be distributed to interested staff sections.

3. Field Trip, 3-14 November 1947.

a. Persons in the party:

Brig. Gen. Urban Niblo	- Ordnance Officer, FEC
Col. S. L. Conner -	- Ordnance, 8th Army, in charge of project.
Lt. Col. J. E. Engler	- Executive Officer, Ordnance Office, FEC
Lt. Col. E. D. Bodeau	- Ordnance, 8th Army
Mr. Mayo Silvey	- Project Manager
Mr. John Piercey	- Project Staff
Mr. James Draughon	- Project Staff
Mr. Harry Lewis	- Project Staff
Mr. C. Osborne	- ESS, SCAP

Mr. J. D. Shotter	- -Civil Transportation Section, SCAP
Mr. John Brady	- Government Section, SCAP
Mr. Genyu Hirao	- Mitsubishi Chem. Ind. Co.,Ltd. Liaison Dept.
Mr. Iwataro Nakagawa	- Mitsubishi Heavy Industries Co., Ltd. Liaison Dept.
Mr. Soji Yamamoto	- formerly President, Nissan Heavy Industries Co., Ltd.
Mr. William R. Gorham	- Counsellor, Nissan Heavy Industries Co., Ltd.; Japanese national (naturalized)

b. Itinerary:

The party left Tokyo 3 November and returned 14 November, during which time Japanese industrial plants were visited in Nagoya, Kyoto, Osaka, Kobe, Kure, Hiroshima, Kokura, and Nagasaki. In or near each of these cities are plants now engaged in limited production, including some of the largest automotive plants in Japan, as well as plants capable of producing spare parts, or of supporting the project in other ways. The daily schedule consisted of tours through these plants, and conferences with officials thereof to determine the adaptability of the plant from an investigation of production figures, absenteeism, labor relations, types of machine tools, plant layout, and available storage space. Also considered were the effect of reparations, ~~and~~ the willingness of the management to incur some inconveniences through alterations, and interruption of the present production program.

4. Matters of interest to Government Section: This section is interested in the part played in the project by the Japanese personnel named above. Both Mr. Hirao and Mr. Nakagawa were in the party to make necessary arrangements with the management of plants visited, and acted as interpreters on some occasions. It is believed that they will be used continually during the course of the project, but will probably not be employed by the Occupation. Of much greater interest, however, are the activities of Mr. Yamamoto and Mr. Gorham.

a. Mr. Soji Yamamoto. He serves the project in the capacity of industrial advisor, but, according to Lt. Col. Engler, is not employed by the Occupation. Yamamoto was screened as President of Nissan Heavy Industries Co., Ltd. (Nissan Jukogyo K.K.), and was designated by the Japanese Government on 15 May 1947 as a person falling under the Memorandum for the reason that between May 1939 and August 1942 he held the position of Chairman of the Board of Directors, Manchuria Automobile Manufacturing Co. (Paragraph G). Born in 1888, Yamamoto has been prominent in the Japanese automotive industry. From December 1933 to February 1942 he was Acting Director, Nissan Automobile Co., Ltd; from February 1937 to May 1939 he was Managing Director, Nissan Automobile Sales Co., Ltd.; he held the position of Director, Nissan Heavy Industries Co., Ltd., September 1944 to September 1945, and became President in October 1945 (position in which screened); and from December 1945 to January 1947 was President, Nissan Automobile Sales Co., Ltd. He has been active in societies whose aims are centered about the automotive industry and industry in general. He visited the United States 1919-1921 in order to study the chemical and machine tool industries. Between 1939-1940 he toured the United States and Europe to study automotive and other industries. He speaks fair English.

During the trip, 3-14 November 1947, Mr. Yamamoto enjoyed the same facilities as did the Americans in regard to sleeper accommodations, club car, and diner, as well as transportation to and from plants. While in Osaka over-

night, he and other Japanese nationals stayed at a Japanese hotel, whereas the American personnel were guests at the New Osaka Hotel. At Unzen (hot spring resort) in Kyushu, they again stayed in Japanese inns while the Americans were guests in 8th Army Special Service Hotels.

During the course of the trip, Mr. Yamamoto stated to the undersigned that his present activities are concentrated in promoting and encouraging small industrial enterprises.

b. Mr. William R. Gorham. Mr. Gorham also serves the project in the capacity of industrial advisor, though not employed by the Occupation Forces. Born in 1888 in the United States, he has been very active in the automobile industry in Japan. From the earliest days of the automobile industry in this country, he has held numerous positions in manufacturing concerns, and has made some contributions to the technical aspect of the industry. From 1936 to 1937 he occupied the position of Managing Director, Kokusan Machine Co., Ltd.; from 1937 to 1945 Director, Hitachi Machine Manufacturing Co., Ltd.; from 1945 to 1946 Director, Nissan Heavy Industries Co., Ltd.; from 1946 to April 1947 Managing Director, Nissan Heavy Industries Co., Ltd.; and thereafter Counsellor, Nissan Heavy Industries Co., Ltd. It was in the position of Managing Director, Nissan Heavy Industries, that he was screened and passed by the Japanese Government on 15 April 1947. The Central Screening Committee was of the opinion that Mr. Gorham's position as a Director of Hitachi Machine Mfg. Co., Ltd. was in no way commensurate with that of a standing director in authority. He stated to the undersigned that the Communist labor element in Nissan forced him from management to a less important role. He was at one time a member of the Society of Automotive Engineers (in U. S.) Mr. Gorham became a naturalized Japanese citizen prior to the outbreak of war in 1941. During the war two of his sons served as Language Officers in the United States Navy. He is a close friend of Mr. Yamamoto.

c. The FEC Ordnance Officer stated to the undersigned, during the field trip, that, in order to secure a number of qualified Japanese to supplement the managerial staff of Americans, it may become necessary to employ several purgees from the economic field who would possess the "know-how" required to manage the Project. He stated that such persons have connections which can be of great service in coordinating the various phases of the Project. Though the Ordnance Officer is aware of the 8th Army directive regarding the employment of purgees by the Occupation, he believes that, as far as the Fifth Echelon Project is concerned, some exemption will be necessitated by the exigencies of the automotive maintenance situation in the Far East Command.

CENTRAL LIAISON OFFICE

G.H.Q. SCAP
DEC 31 1947
AG 091.2
RECORDS

TO : GENERAL HEADQUARTERS OF THE SUPREME COMMANDER FOR THE ALLIED POWERS.

FROM : Central Liaison Office, Tokyo.

SUBJECT : Request for Temporary Retention of KABA, Isao in First Demobilization Bureau.

C.L.O. No. 9905(PP) 29 December 1947

1. Reference: SCAP Memorandum AG 091.1 (4 Jan 46)GS, subject: "Removal and Exclusion of Undesirable Personnel from Public Service."

2. The Japanese Government hereby requests that the General Headquarters, Supreme Commander for the Allied Powers be good enough to authorize the temporary retention in the First Demobilization Bureau of KABA, Isao formerly holding the rank of Lieutenant-Colonel, who falls under the provisions of the reference Memorandum.

3. The English translation of an application from the said Bureau setting forth the reasons for the above request, proposed position, etc., his Questionnaire and Master Card (in duplicate) are enclosed herewith.

FOR THE PRESIDENT:

for Y. Katsuno
(K.Asakai)
Director of General Affairs,
Central Liaison Office.

Enclosures: An application, Questionnaire and Master Card as indicated in Para. 3. above.

APPLICATION FOR REMAINING IN OFFICE

Dec.
1 ~~Oct~~. 1947
First Demob. Bureau

(1) Name: KABA Isao

(2) Reason For Purge: Former Regular Army Officer (ex-Lt. Col.)

(3) Present Position: None.

(4) Position to be given:

Non-Regular-Official of Home Depot Bureau. Takes charge of demobilization business concerning ex-soldiers from Korea(Koreans) and investigation of the missing amongst them.

(5) Justification for remaining in office:

(i) Investigation of the missing ex-soldiers from Korea (Koreans) has been dealt with in the same manner as in the case of Japanese, but at present, as Korea is separated from Japan, the psychology of the family members of the demobilized or the dead is different from that of the Japanese, so in some cases they were not satisfied with such treatment.
The samething will probably occur in the future, and it is expected that it will be made a topic for discussion at the prospective peace conference.
To transact this kind of work justly one who understands the psychology of the Koreans and who knows the conscription system applied to them is absolutely necessary but we had not been able to the suitable person for the business up to the present until we found him.

(ii) Mr. Kaba was naturalized as a Japanese in February 1938 to succeed to the lineage of Kaba family. He was formerly a Korean, so he is of course well versed in the mentality of Koreans. Furthermore, he had served in a unit in Korea for three years since 1933. He was, in addition, in the Chosen Army Hqs for eight years from 1937 up to the war's end.
Again, he is the only man who took charge of the business concerning the Special Volunteer System and the Conscription System applied to the Koreans, so he is the first man who knows the things pertaining to the ex-soldiers from Korea.

Besides, he is well acquainted with key men in Korea during his service in the Chosen Army Hqs, and is a pretty famous person in that country.

(iii) For the reason stated in (ii) above, Mr. Kaba is the fittest man to take charge of the business mentioned in (i) and cannot be replaced by another person. If he will take part in that business it is certain that the demobilization of the Koreans will be speeded up in a smoother and juster condition that when the business is dealt with by the Japanese only. The agreed to take charge of the business as soon as this application is granted by GHQ, SCAP.

(6) Needed term of office:

Until the demobilization of the Korean ex-soldiers and the problems concerned are settled.

Subject: Re: Former Navy Professors
of Chokunin Rank

Toward the middle of November the Screening Committee, which had been reviewing the status of the former navy professors of the chokunin rank, came to a decision that they should be barred from holding public office. While it must be admitted that this decision was arrived at after prolonged deliberations, the fact remains that it has brought upon the professors involved consequences of tragic nature in which their livelihood has become threatened and they have become reduced to dire circumstances. These tragic consequences could be borne and must be borne if the circumstances of the case justly warranted the decision, but a review of the facts in question does not seem to justify it. Hence, we are taking the liberty to appeal to you for justice and for redress of what we feel is an unfair decision.

In making this appeal we are not acting on sentiment or emotions and as proof thereof we present herewith the pertinent facts of the case, to wit:

The provision of the Imperial Ordinance promulgated in May, 1946 with regard to the expulsion of undesirable teachers from the Japanese educational system is quite explicit on the point that former professors attached to the navy are excepted from expulsion.

However, the Minister of Education directed his secretary to issue in the early part of August, 1946 a supplementary provision which called for the screening of teachers who served in the armed

forces. This provisions was addressed to the chairman of the Screening Committee and it was on the basis of this provision that the teachers were screened. The committee passed on whether the naval professors of the chokunin rank should or should not be disqualified as professors and came to the conclusion that they should be disqualified.

Incredible as it may seem we are constrained to believe that this supplementary provision was the result of misinterpretation and ignorance on the part of the Ministry of Education as regard the actual nature of the professors attached to the navy. It was erroneously interpreted that they took and active part in shaping the policy of the navy, whereas the truth is they were not. To bear this out we present herewith the actual position they occupied in the navy school and under what conditions they served.

1 Professors attached to the navy had no part in the leadership of the military organization. Their status was the same as the other general civilians who had no connection with the armed forces. They had no right of decision even in the matter of educational policy. They were not permitted a voice in spiritual and disciplinary matters. Even in sports they were limited only to technical guidance. They were not even accorded the customary courtesy of a salute at the beginning and the end of the lcass hour as was done to the ordinary naval personnel. They were, moreover, under the command of a first or second lieutenant, even though the professors in question had the status equivalent to a navy commander or captain.

2 They were not allowed to take part in any navy secret. Thus, the general secret books were not permitted for their use and the

strictest control was taken over them with regard to books of top secret. Limitations were also set to their attending various military lectures.

3 They were restricted to their own field of teaching and had no voice in the matter of opinions on education. In other words, the professors' opinions and theories were not accepted. Freedom of speech was denied them and they were forced to perform their pedagogic duties mechanically. To elaborate, they were not permitted freely to select and adjust their lessons in accordance with their judgment, but were greatly interfered with by the military personnel. This was specially true in case of literary subjects.

4 The professors in question were often misunderstood as having been appointed by the Minister of Navy as civilians attached to the navy. However, the truth was they were appointed by the Prime Minister. Therefore, there was no essential difference between them and the general civilians of other ministries. In other words, they were no different from other civilians appointed by the Special Law for the appointment of civilians.

5 When civilian professors are elevated to the chokunin rank, it is in recognition of their long years of meritorious service. It is not arbitrarily created for them as in the navy and hence it differs very much from the chokunin rank of the civilians of other ministries. The title of a chokunin granted a non-naval personnel is equivalent to the status of a rear-admiral, and while such a status is granted the judges and engineers in the navy, navy professors were not elevated to the chokunin rank without suffering the indignity of serving under a commander or a captain. The anomoly is thus quite

obvious and discriminatory. They had neither leadership nor right of decision; their opinions were taken into consideration merely as reference.

6 Professors of chokunin rank received no special or better treatment than those of the sonin rank or below when it was obvious that they should because of their higher rank. Naval professors in general, including professors of chokunin rank, had less privileges than a second-lieutenant whose term of service was only several months. They were restricted much more so than a lieutenant in the way of freedom of speech and action, access to commissary supplies, the use of motorcars,etc.

7 As regard salary, there was no difference between them and the general civilians of other ministries. Their salaries were much less than those of equivalent military officers. It was true that the salary of the navy professors of the second chokunin rank was the same as that of navy captains but the navy capatins had many privileges in various respects which the professors did not have.

8 The professors were obliged to take out from two to three percent of their salary for compulsory savings in the national treasury the same as civilians of other ministries. The military and naval personnel, however, were only obliged to contribute one percent.

9 The professors in question were provided with clothing for the first time during the war but their supplies of clothing and daily necessities were strictly limited, whole those of the naval personnel were not.

10 On the termination of the war, the Ministry of Navy was considerate to its naval personnel and protection to a certain degree was given them. The was

was given them. The navy professors,however, were completely ignored. Of this discrimination, the general public and the authorities of other ministries, especially the Ministry of Education with which those professors were closely related, were pitifully ignorant. These authorities were of the belief that the naval professors were being accorded the same treatment and consideration as the military personnel. Hence, rhwaw authorities made a clear distinction between these professors and other civilians with the former being considered quite militaristic.

Such are the facts of the case. As it may be seen, the Ministry of Education's supplementary provision for the screening of the navy professors is obviously unfair, especially as it discriminates against the professors of the chokunin rank as compared to the professors of the sonin rank, who are now being disqualified.

This glaring unfairness becomes all the more apparatt when it is consdiered that other civilians, such as judges, enginaers, procurators, probationary judges and other minor officials, who were elevated to military officers in active service, as well as military governors with far more responsible powers during their term of service in Japan and foreign countries were not disqualified.

We are constrained to stress this fact when it is remembered that it was plainly declared by the authorities after the termination of war that the real object of the purge from any government office or of the Japanese educational system was to expel the militarists, the ultra-nationalists and those who took leading directional roles during the war.

As the facts reveal, navy professors of chokunin rank should be exempted from the purge if from no other reason at least from the standpoint of equality with the other civilian professors. Moreov

in view of the fact they were not involved in any policy making but mere merely engaged in purely scientific pursuit, such as the teaching of mathematics, physics, chemistry, languages and other primal truths, they most certainly do not deserve the severe penalty of expulsion from public office as has been pronounced against them.

The navy professors of the chokunin rank were pitifully abused or otherwise ignonimously ignored during the war. And now as peace has come they are being made to suffer because of their connection with the navy. The result is they are now in a predicament for no fault of their own.

Thus we appeal to you for a redress of this sad miscarriage of justice.

Yours most humbly,

Seichi Yamaguchi

MEMORANDUM FOR: Major Snow

SUBJECT : Report on 22 December 1947 from Mr. Yoshie, First Demobilization Bureau

1. 27,900 (approx.) Kempei Tai list given to Cabinet this date. List of those who were overseas, contains probably some made Kempei Tai after 15 August 1945.

2. These persons to be provisionally designated on 28 December 1947.

3. Tokumu Kikan - He reported to Mr. Okada total number is 800, but names at present available of only 180 officers. Remainder to be ascertained by plan suggested as follows:

a. Search Home Depot records on all persons reported there.

b. Search Ministry of Welfare records on all civilians repatriated.

Major Snow disapproved plan of asking former commanding officers for records as they recall.

4. Re those Kempei Tai made such after 15 August 1945: Mr. Yoshie said his records do not show any dates, and he will have to investigate possibility of getting dates and numbers elsewhere.

SECRET
PRIORITY

Radio Dispatch

FROM : GENERAL MacARTHUR

TO : DEPARTMENT OF THE ARMY (PERSONAL FOR UNDERSECRETARY DRAPER)

22 December 1947

Reurad W-92754. The Japanese Government made such a public announcement with respect to the entire purge program on December 10th. It was widely publicized in the Japanese press and there appears to be no misunderstanding of the situation here. The text of its announcement is as follows:

"The screening relative to persons now in public service in the various fields may generally be said to have been almost terminated. Again, as final measures relative to the execution of the purge, the procedure of provisional designation against invisible purgees has been practised since this summer. In this sphere too, with the exception of those parts relative to writers it has at this time approximately reached a concluding stage.

"With respect moreover to the scope and criteria of the purge, with the exception of a possible extension and consolidation relative to ultra-nationalistic and terroristic organizations, there will be no further expansion. Thus the public service purge, to all intents and purposes may now be said to have been terminated.

"Since the commencement of screening in the preceding year up to December 7 of this year, the number of cases taken up by the Central Screening Committee is 56,455 and by the

649-A

Local Screening Committees is 607,534 constituting a total of 663,989. Amongst these, those designated as falling under the purge are 4,752 (central) and 2,213 (local) for a total of 6,965.

"Apart from the above the number of cases coming under provisional designation up to the present are 85,400 9central) and 73,400 (local) for a total of 158,000 cases."

The ultimate re-establishment of a stock exchange will, of course, be a requisite in the normal conduct of business in Japan, but it would be premature at this time. Until reparations and industrial levels are fixed and determined, it is impossible to secure any kind of a sound valuation of marketable securities based upon asset values and earning potentials, as all estimates would in large measure be dependent upon yet unknown Allied decisions, both as to overall policy and specific industries and plants to be closed for removal as reparations. Fuethermore, until free trade is re-established enabling direct negotiation for the acquisition of essential raw materials abroad, governmental controls in the allocation of existing critical short stocks are mandatory. In these circumstances, regardless of regulation and control, a stock exchange could not fail to be the medium for inordinate speculation, largely as to Allied policy and decisions yet unannounced, and afford the opportunity for widespread corruption in the allocation of materials, a situation which would seriously impair public confidence and thereby cause serious unrest and create conditions conducive to financial panic and unrest. I have not available sufficient force,

either in number or experience, to assume the control over the economy which would be necessary to insure the orderly conduct of an exchange in these circumstances. On the other hand, liquidation of the Zaibatsu holdings by the Holding Company Liquidation Commission appears to be proceeding at a reasonably satisfactory rate.

MacARTHUR.

1st Indorsement to the basic communication.

b. It is believed strongly that all actions by government officials that actually or passively support blackmarket operations is inimical to the objectives of the Occupation. Since the food budget most heavily weights the cost of living index, any actions working against the successful operation of price control and rationing of foodstuffs is a sharp threat to the establishment of a healthy economy in Japan and results in an added burden to the U. S.

c. The immediate removal of Yokce from public office is considered advisable in view of the comprehensive program recently launched by the Japanese Government to eliminate the blackmarket in fish and fresh vegetables. It is necessary that public confidence be restored in the good faith of the Japanese Government in order to arouse public opinion against blackmarket operations and make possible the reestablishment of official channels and official prices for perishable food distribution.

Removal of Prefectural Official

5 Dec 47

GS

ESS

1. Reference attached letter from Fukui Military Government Team. The recommendation that Mr. Yoshikane Yokoe, Chief of the Fishery Section of Fukui Prefecture, be removed from the Japanese Government service for misfeasance and malfeasance in office is strongly endorsed.

2. The Military Government Team in July 1947 received an anonymous letter making various charges against the integrity of Yoshikane Yokoe as a public official. The letter was given to Fukui Prefectural Governor for investigation. Subsequently, the Director of the Prefectural Economic Bureau stated the charges were groundless. New rumors in August of Fukui fish control violations led to spot checks by the Military Government Team which confirmed the rumors. Subsequently, the Japanese were requested to make a thorough investigation. Names of suspected fish dealers, receiving agents and shipping agents were turned over by the prefectural police to the Chief Procurator of the Fukui District Court. The Military Government Team made a written request to the Chief Procurator for action. At the same time the Team, under orders from SCAP and the Eighth Army, started an intensive surveillance check. The results of this check appear as inclosures to the attached letter. Specifically, the charges against Yokoe are based on the following: That while all officials assumed little responsibility for the actions of licenced fish dealers and shipping agencies, although the licencing is the responsibility of the prefectural officials, Mr. Yokoe, the Chief of the Prefectural Fishery Section, is most derelict in duty and is therefore largely responsible for the diversion of the bulk of the fish catch of this prefecture into blackmarket channels; that the numerous reports by Japanese to the Military Government Team concerning the questionable actions of Mr. Yokoe, of his close relationship with the large fish dealers, his acceptance of gifts, lavish entertainment and dinners from the large blackmarket dealers indicate that at best Yokoe's judgment is extremely poor, at worst that he is cooperating with blackmarket dealers and accepting bribes of indeterminable value.

3. Immediate action on the removal of Mr. Yokoe from public office is urged for the following reasons:

a. Much newspaper publicity has been given to this matter in Fukui and the loss of prestige to the local team were Mr. Yokoe to remain in office would be irreparable (Reference paragraph 5,

MEMORANDUM FOR: Director-General
Cabinet Secretariat

SUBJECT : Otani Heavy Industry Company

The Japanese Government will transfer the Otani Heavy Industry Company, Ltd. (Otani Jyukogyo K.K.) from paragraph 11 to paragraph 12 of the Cabinet and Home Ministry Ordinance No. 1 of 1947.

COURTNEY WHITNEY,
Brigadier General, U. S. Army,
Chief, Government Section.

MEMORANDUM FOR THE RECORD: 19 December 1947

1. Reference, "Interpretation of Category G by the Japanese Government," par. 6, subpar 5: "Companies which have authorized capitalization exceeding one hundred million yen." The Otani Heavy Industry Co. Ltd. (Otani Jyukogyo K.K.) was originally placed upon par 11 due to its alleged capitalization of one hundred thirteen million yen capital, with one hundred one paid up. In memorandum dated June 3, 1947, it was recommended that Otani Heavy Industry Co. Ltd. be retained on the purge list. This recommendation stemmed primarily from the fact that the company in question had failed to make a proper case for itself on the basis of available information.

2. Since that time, however, the Otani Company has furnished much more informative data which have been examined and the following has been disclosed.

a. While the statement "the company has not been out of the red for the past ten years" remains inaccurate, submitted statements of profit and loss show no appreciable returns for the capital investments, thus making it understandable for a businessman to say that he is losing money if he actually is not making any, or, even too little to be considered commensurate to the investments.

b. In its specialized production of rolls, ingot cases and rolling machines, Otani Company represents a little over 20% of total production with Japan Iron and Steel representing about 50%, Kawasaki about 20-25% and smaller companies the remaining 5-10%. Within this industrial set-up, the principal difference between the Otani Company and the others, is the fact that with Otani, the production of rolls, etc., is their only output, while with Kawasaki and Japan Iron and Steel, this is a minor activity. Otani Company did not expand its production in any way during the critical period. It received no war contracts as such and sold only about 2% to 3% of total production to military channels. In the Otani plants there is only one 3 meter roller which could be used for armor-plate production, but this has been earmarked for reparations. With the reorganizational break-up of Japan Iron and Steel, there should be adequate competition in this particular industry.

c. The deal which took place in 1942 between Otani Company and Furukawa Electric Ind. has been much more satisfactorily explained. It can be termed as a speculative investment on the part of the Furukawa company. An investment which turned out badly since the average price paid by Furukawa was approximately ¥ 96 per share against an assessed valuation of ¥ 7 at present.

d. Otani Heavy Ind. Co. came originally under the terms of the Purge, Paragraph 11 because of its capitalization, which was a total of 113 million with 101 million paid up. A break-down of its compsition, however, shows the following:

From the original investment in 1917 of ¥ 4,750,000, it had reached the total of 51 million in 1933 representing 3 companies under the same management and control. In 1935 a fourth company was added with a capital of 50 million yen. This capital, however, represents investments which can be traced as far back as 1929. At that time, the company, finding it difficult to secure pig iron of uniform quality to make its rolls, began investing toward building its own blast furnaces. The actual work was begun in 1931 and it was 1942 before one of the contemplated two 600 tons blast furnaces was near completion. Before it was finished, the Government requisitioned it and shipped it to North China, allowing the Otani company a renumeration of ¥ 2,200,000 for it. The other blast furnace was never completed and when in 1944, because of suspension of work, the area became flooded, the original investment turned into a practically total loss. Records are being submitted that the Osaka prefectural tax office has estimated the loss at over 36 million and granted tax exemption thereupon.

3. At no time in its history did the Otani Company operate on a capital anywhere near 100 million. A further proof is in the fact that statements of profit and loss show that from 1940 to 1946, the average yearly proceed of sales is around 32 million yen, a figure entirely out of proportion if it had stemmed from a concern with capital of over 100 million yen. The above also shows that Otani Heavy Industries was not monopolistic.

4. Since all the above has been properly substantiated with balance sheets, statements of profit and loss and other documents, it is recommended that the Otani company be removed from Paragraph 11 and transferred to Paragraph 12.

5. Reference, "Interpretation of Category G by the Japanese Government ," paragraph 6, subparagraph 5: "Companies which have authorized capitalization exceeding one hundred million yen." Paragraph 12 includes "Influential companies, financial institutions, and other economic organizations other than listed in the preceding paragraph."

6. ESS concurs in recommendation by check sheet dated 8 December 1947.

9 December 1947

MEMORANDUM FOR: Chief, Public Service Qualifications Division

SUBJECT : Chokunin Rank Officials with the War or Navy Ministries

1. On 12 August 1947, the Japanese Government was given an informal memorandum as to interpretation to be given to the criteria affecting Civil Officials of Chokunin rank or higher who served with the War or Navy Ministries. At the same time 30 cases were returned to the CSC of persons falling in this category for reconsideration on the basis of the amendments to the criteria.

2. The following is a summation of a report submitted by the CSC on 29 September 1947 and conferences with Mr. Hiramatsu of the CSC Secretariat with regard to the 30 subject cases. Breakdown is by persons removed and excluded, and those passed.

A. The following individuals were, upon reconsideration by the CSC removed and excluded from public office for having been civilian officials with the War and Navy Ministries of Chokunin rank or above. It is recommended that the action taken by the CSC in all of the cases be sustained by Government Section.

1. ENDO, Naoto - 1st class Secretary Home Ministry. Subject was barred for reason of his having been a Navy Civil Administrator General with the rank of Chokunin from 1942 to 1945 during which time he served as Governor of Menado Province in the Celebes from February 1943 to March 1945.

2. IWASHIGE, Ryuji - 1st class Secretary Home Ministry. Subject was barred for reason of his having been Army Civil Administrator General from July 1942 to September 1945 during which period he served as Governor of Banjoemas Province in Java. Also subject was a Chokunin rank official prior to his appointment as an Army Civil Administrator General.

3. MIYATA, Tadao - President, Foreign Trade Raw Materials Kodan. Subject was barred for reason of his having been Army Civil Administrator General from December 1942 to September 1945 during which period he served as Director of the Industry Department of the Sumatra Military Government. Subject

also had received the rank of Chokunin prior to his appointment as a Civil Administrator General. Temporary retention was granted subject until 25 January 1948. Memo for Director General, Cabinet Secretariat dated 7 November 1947, subject: Temporary Retention of MIYATA, Tadao.

4. OKAMOTO, Naoto - President, Japan Feeds Co. Ltd. Subject was from May 1942 to June 1944 Navy Chief Civilian Administrator, during which period he served as director of the Industrial Department of the Naval Civil Administration Government in the Celebes Area. For this reason and because subject had been a Chokunin rank official prior to serving as Navy Chief Civilian Administrator, the CSC decided to designate subject as a purgee. Subject was granted a temporary retention until 20 December 1947. Memo for Director General, Cabinet Secretariat dated 3 November 1947, subject: Temporary Retention of OKAMOTO, Naoto.

5. YAMAMOTO, Yoshiaki - 1st class Secretary, Home Ministry. Subject was judged to be barred by the CSC for reason of his having been Army Civilian Administrator General from July 1942 to August 1945 during which period he served as Governor of Madra Province (July 1942 - March 1943), Governor of Jakarta Province (March 1943 - November 1943), and Governor of Madeun Province (December 1943 - September 1945).

6. YAMAZUMI, Katsumi - President, People's Bank. Subject was barred by the CSC for reason of his having been Army Civilian Administrator General from October 1942 to September 1945, during which period he served as Director ofthe Economic Department of the Military Government of the Southern Army (October 1942 - April 1943), Director of Financial Affairs Department of the Military Government of the Southern Army (April 1943 - April 1944), and Director of the Financial Affairs Department of the Military Government of the 7th Army (April 1944 - September 1945).

B. The following individuals were, upon being reconsidered by the CSC, passed, in spite of their having been civilian officials

SUBJECT: Chokunin Rank Officials with the War or Navy Ministries

of Chokunin rank or higher with the War or Navy Ministry. It is recommended that for the reasons given respectively with each case, that the action taken by the Japanese Government on the following cases not be reversed:

1. ENDO, Saburo - 1st class technical official Transportation Ministry. Subject was from November 1944 to September 1945 (10 months) an Army Civil Administrator General with the Field Railway HQs. of the Southern Army. However, inasmuch as his position was Chief of the Central plant for reparation of vehicles, which position is technical, rather than administrative and because he served for a relatively short periodof time, it is recommended that subject be passed.

2. HIRATSUKA, Takunosuke - 1st class technical Local Secretary. Subject was from September 1942 to September 1945 (3 years) an Army engineer with Chokunin rank in the Sumatra Area. Subject was however appointed in a purely technical capacity for the purpose of doing geological research, on body research and as a mine technician. Inasmuch as subject's duties were entirely technical, it is believed that, in spite of his having served for 3 years, he should be passed.

3. KATO, Sumizo - 1st class Secretary of the Commerce and Industry Ministry. Subject was from March 1944 to September 1945 a Navy Civil Administrator General with the rank of Chokunin in Borneo. Subject during this period first served as Governor of Tarakan Province and later as Governor of Pontianak Province. Even though subject's position was entirely administrative it is recommended that he be passed for the following reasons:

a. Subject's appointment even though entirely administrative was not very important because in the administration of government in Japanese occupied areas the powers of a governor of a province could be compared to that of a head of a county in Japan.

b. Both Pontianak and Tarakan Provinces were small and remote localities.

SUBJECT: Chokunin Rank Officials with the War or Navy Ministries

c. Subject was arrested by the Netherlands authorities on charges of war crimes on 23 January 1946 but was released from prison on 15 November 1946 having been cleared of all charges.

d. His promotion to Chokunin rank came only after he had been appointed as an Army Civil Administrator so that it is believed that his position could not have been of great importance.

4. KOBAYASHI, Sueo - 1st class Secretary Finance Ministry. Subject served as an Army Civil Administrator General in the Philippines from September 1942 to August 1943 (9 months) as director of the Financial Affairs Department. It is recommended, however, that in spite of subject's administrative position, his term of office was of such comparatively short duration, that subject be passed.

5. KUDO, Shinkichi - Chief of Chiba Local Court. Subject served as Vice-Chief of the Java Supreme Court from August 1942 to January 1944 and Chief of the Batavia Higher Court from January 1944 to January 1945 which position entailed his being Army Civil Administrator General with Chokunin rank. It is recommended that, in spite of the above appointments, subject be passed for the following reasons:

a. A separate courts martial administered directly by the Army existed for the trial of these cases which concerned Army personnel.

b. He was entirely independent of the direction or supervision of the Army.

c. Mr. Blakemore of Courts and Law Division states that he has no information on KUDO and does not have any recommendation as to action to be taken on subject.

6. MIKURIYA, Shinichi - unsuccessful candidate for House of Councillors. Subject was from August 1942 to December 1942 (5 months) director of the Marine Affairs Bureau of the Borneo Military Government as an Army Civil Administrator General. Subject was repatriated

in December 1942 as a result of illness. Inasmuch as MIKURIYA only held this position for a period of 5 months it is recommended that he be passed.

7. MIYOSHI, Takeo - 1st class technical official, Transportation Ministry. Subject was from March 1942 to October 1944, director of the Palembang Railway Bureau which position he held as an Army Civil Administrator General with the rank of Chokunin. His position however was primarily technical so that in spite of the length of time which subject served, it is recommended that he be passed.

8. MARUKAWA, Hisatoshi - Director of the Central Fisheries Federation. Subject served as Shokutaku (non-regular official) of the Civil Administration Government of the South Seas Fleet from June 1942 to September 1943 being given treatment as a Chokunin rank official. For reason of his relatively short (14 months) period of service and inasmuch as the substance of his duties were technical - oceanographic research, planto-logical research and fishery experiments, it is recommended that subject be passed.

9. MURAKAMI, Yoshi - 1st class secretary of the Communications Ministry. Subject served as Army Civil Administrator General from August 1942 to September 1945 during which period he held the following positions:

a. Director of the Shonan (Singapore) Mai (Supervision Bureau - September 1942 - April 1943)

b. Director of the Communications Department of the 25th Military Government (April - September 1943)

c. Director of the General Communication Bureau of the 25th Military Government (September 1943 - April 1945)

Inasmuch as the subject positions were all primarily technical in the substance of duties rather than administrative, it is recommended that, in spite of the length of the period of service, subject be passed.

SUBJECT: Chokunin Rank Officials with the War or Navy Ministries

10. NAKAYAMA, Jiro - 1st class Secretary of the Communications Ministry. Subject was from August 1942 to September 1945 an Army Civil Administrator General during which period he served as director of Marine Transportation Bureau (April 1943 - November 1943), Director of the Shipbuilding Bureau (November 1943 - March 1945), and Director of the Civil Engineering Bureau (March - September 1945) of the Military Government of the 16th Army. Subject's duties were primarily technical in nature and inasmuch as his positions as Director of the above mentioned Bureaus were not very important (bureau levelbeing below that of the departmental level, in this instance the Transportation Department), it is recommended that, in spite of subject's relatively long period of service he be passed.

11. OKADA, Shinji - 1st class technical official Transportation Ministry. Subject was from July 1944 to August 1945 Director of the Philippines Land Transport Supervision Bureau and as such was Army Civil Administrator General with Chokunin rank. It is recommended, however, that, for reason of subject's relatively short tenure of office and for reason that the nature of his duties were largely technical, even as regards the administrative phases of his job, OKADA be passed.

12. OGIHARA, Hiroshi - 1st class Secretary Communications Ministry. Subject was from September 1943 to April 1944 Vice Director of Electric General Communications Bureau of the 15th Army and from April 1944 to May 1945 was Director of the same Bureau. Due to the fact that the substance of OGIHARA's duties were technical inasmuch as he was concerned with the operation of civil telecommunications and the construction and maintenance of its facilities, it is recommended that, in spite of subject's length of service, OGIHARA be passed.

13. OZAKI, Takuro - Village Headman of MIHARAMURA, SHIMANE Prefecture. Subject was from March 1943 to July 1944 appointed as an Army Civil Administrator General as Director of the Educational Bureau of the Java Military Government. It is recommended however that subject be passed for the following reasons:

a. This position as Director of the Educational Bureau was not as important as it might appear inasmuch as the Educational Bureau was under the jurisdiction of the Internal Affairs Department, thus his position is not even quite commensurate with that of a Chief of a Section in the Japanese Government.

b. In July 1943, subject became ill with dengue fever, however was not able to return home until January 1944 at which time he was sent to Japan on official business, however, from which trip he did not return to Java. Thus it can be reasonably stated that subject only held the position for the relatively short period of 10 months.

c. Subject is a scientist, having formerly been an Assistant Professor of Physics and Chemistry at Hokkaido Imperial University, and has been cleared under the educational purge.

14. SATO, Tadashi - 1st class technical official, Welfare Ministry. Subject was from August 1942 to September 1945 Director of the Sanitation Bureau of the Malay and Java Military Government and as such was Army Civil Administrator General with Chokunin rank. However, inasmuch as subject is a physician and inasmuch as the substance of his duties were technical and contributed to the public welfare, it is recommended that SATO be passed, in spite of the length of his tenure of office.

15. UWAI, Kenkichi - 1st class technical official of the Home Ministry. Subject was from October 1944 to September 1945 Navy Civil Administrator General with the rank of Chokunin. During this period subject served as Director of the Transportation and Public Works Bureau of the South West Area Navy Civil Administration Government. It is recommended that, in view of subject's relative short tenure of office (11 months) and in view of the technical nature of subject's duties which were relative to rivers, ports, harbors, roads and city planning, be passed.

16. WADA, Koroku - Director of the Japan Society for the Promotion of Scientific Research. Subject held the following positions which make him culpable under the subject criteria:

a. Councillor of the Tama Technical Research Institute of the Army (March - September 1945)

b. Commissioner of the Bureau of Aeronautics of the Navy (1940-1942)

c. Councillor of the Bureau of Technology of the Army (1939 - 1942)

Inasmuch as the substance of WADA's duties in the above positions were primarily technical, it is recommended that subject be passed.

17. WATANABE, Hiroshi - Director of Ships Public Corporation. Subject was Army Civil Administrator General with the rank of Chokunin, during which period he served as Director of the Transportation Department of the Java Military Administration Government.

Inasmuch as the substance of his duties were primarily technical, being concerned with civil transportation and communication, (Transportation and Communication of the Army itself were handled by a Department of the Army and WATANABE had no connection therewith), it is recommended that subject be passed.

Memo to Chief, PSQD - (continued)

SUBJECT: Chokunin Rank Officials with the War or Navy Ministries

3. The above recommendations are submitted for concurrence. Pending cases will be treated in a separate memorandum.

HANS H BAERWALD
1st Lt Inf
Public Service Qualifications
Division

9 December 1947

Burge

MEMORANDUM FOR THE RECORD

SUBJECT: Request for Temporary Retention in Ministry of Finance of: Kanichi Kobayashi - ex-Comdr.
Yoshimasa Sugimachi - ex-Capt. (Navy)

1. Reference is made to Memorandum for Record, dated 28 November 1947, subject: Rejection of Request for Temporary Retention in Ministry of Finance of: Kanichi Kobayashi, ex-Comdr., and Yoshimasa Sugimachi, ex-Capt. (Navy). On 25 November, pursuant to the oral recommendation and request in person of Lt. Col. Harding, Reparations Section, Field Operations, the Japanese Government was instructed to remove these two persons and to report by 6 December on compliance with instructions.

2. On 6 December Mr. Meiklejohn, Deputy Chief, Reparations Section, per telephone conversation with the undersigned, stated that Reparations Section desired to reverse its decision in the case of Kobayashi, and requested his temporary retention until 1 January 1948.

The undersigned replied that, in that case, the Japanese Government would be notified to the effect that the removal of Kobayashi would not be required immediately, and that subject would be placed in the same category with all other former career officers whose retention in the Ministry has been requested. With regard to the period of temporary retention, no action will be taken pending receipt of check note with recommendations on all other persons concerned.

3. Soon after conversation with the Deputy Chief, Reparations Section, on 6 December, a representative of the Ministry of Welfare, Personnel Section, Mr. Horiguchi, called on PSQD to report on compliance with instructions given on 25 November. He mentioned a conversation between the Chief, Ministry of Finance, State Property Bureau, and Mr. Meiklejohn concerning the postponement of Kobayashi's removal, and requested that this be given consideration. He was informed that Kobayashi's status would be the same as those other officers for whom temporary retention in the Ministry has been requested. Following this call, Mr. Meiklejohn was notified by telephone that the case of Kobayashi would be considered in the same category as other subject persons.

4. Mr. Horiguchi also reported on 6 December that Sugimachi had been removed from office as directed by GS on 25 November. A written report to this effect was received on 8 December from the Chief, State Property Bureau, stating that Sugimachi was removed from office on 2 December.

GHQ, SCAP
DEC 2 1947
691, 112

JAPANESE GOVERNMENT
CENTRAL LIAISON OFFICE

TO : GENERAL HEADQUARTERS OF THE SUPREME COMMANDER FOR THE ALLIED POWERS.

FROM : Central Liaison Office, Tokyo.

SUBJECT : Application for Approval of Temporary Retention of NAGAISHI, Masataka in Second Demobilization Bureau.

C.L.O. No. 9220(PP) 1 December 1947

1. Reference: SCAP Memorandum AG 091(4 Jan 46)GS, subject: "Removal and Exclusion of Undesirable Personnel from Public Offices."

2. The Japanese Government hereby requests that the General Headquarters, Supreme Commander for the Allied Powers be good enough to approve the temporary retention of NAGAISHI, Masataka, ex-Captain I.J.N. in the Second Demobilization Bureau, who falls under the provisions of reference Memorandum.

3. A copy in English of the related application setting forth the reasons therefor, proposed term of tenure of office, etc., his Questionnaire and Master Card are enclosed herewith.

FOR THE PRESIDENT:

T. Katsumo
for (K. Asakai)
Director of General Affairs,

TOKYO-TO GOVERNMENT

tokyo, November 26, 1947

No. 457

To the Prime Minister

Re Mr. Kenji Ohmori, Director of Construction Bireau, Tokyo-to Government (1st class grade)

The above mentioned official has been designated as falling under the Memorandum but is now executing the most important function of the Tokyo-to ~~is~~ Government which hardly makes other officials, enable to relieve him.

Such being the circumstances I beg to request that you will be so kind to approach to the Headquarters of the Allied forces as to retain his tenure of the present post until March 31st, 1948.

Enclosed herewith the referring statement for your information.

S. Yasui

Seiichiro Yasui
Tokyo-to Governor

Statement

1. Full name: Kenji Ohmori

2. Present post: Director of Construction Bureau, Tokyo-to Government - Tokyo-to government official (1st class grade)

3. Date and data of designation:
November 11, 1947
Vice president and director general (concurrent) of Nagano-ken branch of Japan Martial arts Society

4. Reason for postponement:

The Kathleen typhoon of the last September attacked the Kanto districts with tremendous disaster. The flooding water flushed out into the eastern area of Tokyo metropolis by the collapse of the Tone river embankmants covering the houses of ninety thousands and the farm land of 1,300-cho under water. The cases of collapse on the embankments of rivers of the Nakagawa, the Ayasegawa, the Shinkawa etc. was counted 302 aggregating length being 56,000 metres. The number of bridges of Kasaibashi and others washed away or damaged was 400 in total. Thus the producing areas of green vegetables in supply to the Metropolis were deadly damaged.

In the Santama districts, the western part of the Metropolis, by the flush on rivers of the Tamagawa, the Asakawa, the Hiraigawa etc., there occurred 200 cases of collapses on embankments, aggregate length being 20,000 metres, Koremasa bridge and other 17 bridges were either washed away or damaged, and collapses of the main roads were counted 120 cases, affecting the serious damage to the producing area of fuels, the Santama districts. The total loss given on the above districts, both eastern and western areas of Tokyo-to was estimated to reach up to several billion yen, inflicting the grave sufferings on the livelihood of 500 millions of Tokyoites. The Tokyo-to Government has thereupon compelled to reconstruct urgently the above disastered areas for the public pacification and rehabilitation and also for the elevation of the public livelihood. And immediately after the disaster, made Mr. Kenji Ohmori, the director of the Construction Bureau, the office in charge to devote himself have taken the due emergency measures such as the erecting temporal bridges, the checking flooding water at the collapsed location of embankments etc. and also to set up the reconstruction project of the devastated districts under the close collabolation with the Home Ministry and other authorities concerned. The Tokyo-to Assembly decided, on December 5, 1947, to adopt the proposed reconstruction project drawn up by him together with its

appropriation of the expenditure and also to carry out the reconstruction works thereby.

According to the said project, those reconstruction works neccesitate the urgent commencement are 115 locations on roads, 277 bridges, 318 locations on banks of rivers and sea coast, 34 locations on drainage, 9 locations of water ways, 600 dwelling houses etc. The total expenditure is estimated 350 million yen. The project has therefore to be completed by the coming rainy season of the next May for the prevention of the reoccurence of the disaster on the benefit of 500 millions Tokyotoites.

At the time of the execution of such an urgent and important works, to have Mr. Kenji Ohmori, the director of the Construction Bureau, as the official in charge of this project, designated as falling on the Memorandum, has unfortunately to impede the execution of the said project. His retirement of the present post is necessitated therefore to be postponed until the completion of the above reconstruction project under following reason.

1. Mr. Kenji Ohmori is not only thoroughly acquainted with the actual situations and conditions of the disastered areas as in charge of the emergency measures for the last flood from its occurrence, but took himself urgent steps for the disaster also set up the reconstruction project exclusively on his hand. Thus from his actual service and experience himself, he is hardly able to be relieved by others as the responsible executor of the project in question.
2. From the view points in relation to the communications, the traffic, the public safety and the industry of Metropolis, the pending project is in need of urgent execution to be completed by the next rainy season at latest. If otherwise the reoccurrence of the greater disaster will surely be expected. So that the relief of the responsible person for the works will assuredly result to the delay of the completion of the reconstruction works. The completion by the proposed date will never be expected.
3. Under the current economic and financial status in Japan, in order to expedite the completion of the projects of great scale as the works in question, the person responsible for and in charge of the said project must be the one of drastic and thoroughly causions personality and also with ardent zeal for the management and the execution of affairs. Mr. Kenji Ohmori has dexterously dealt with at the shortest term the construction of the several important works such as dwelling houses for Tokyotoites, the reconstruction works of the war disastered area, the urban planning, the reconstruction of the roads etc. commanding 4,000 subordinates officers and employees since the tenure of his present post. Specially at the occasion of the last flood, he rushed himself to the first line of the actual disastered area, and could check the damage

at the least degree by his relevant direction and measures. Thus his competent ability has already been proved and he is the most adequate as in charge of the pending reconstruction project of the flood disastered area.

4. In order to the competent execution of the reconstruction project of the flood disastered area, there is the most indispensable close negotiation and collaboration with the Home Ministry, the Reconstruction Board and other central authorities on the subjects of the subsidy by the national treasury, the floatation of loan, the procerement of the materials etc. Mr. Kenji Ohmori, having served in the Home Ministry and other central government offices for years, has many acquaintances among those officials. So he is very suitable on the liaison with those offices.
5. From the consideration of the last flood, in pallarel to the reconstruction project for the flood disastered area, the permanent flood control project for the extensive area comprising large rivers of the Tone, the Arakawa etc. running through the broad areas of the To and prefectures in Kanto prairie, has to be set up and also to be materialized promptly. As the person in charge of this important affairs, Mr. Kenji Ohmori who is actually and thoroughly acquainted with the last flood disaster, and beneficial on the negotiation with the central and local authorities, is the most adequate as the person responsible and in charge for the above and assuredly no other suitable person is able to be found.

As the person in charge of carrying out the reconstruction project for the last flood disastered area to prevent the reoccurrence of the disaster in future, Mr. Kenji Ohmori is the most appropriate, no other person being able to be relieved him as above stated. It is therefore requested that the date of his leave from the present post will be postponed until March 31st, 1948 when the aforesaid reconstruction project for the flood disastered area will be very near to the completion.

Remarks:

Main works of the reconstruction project for the flood disastered area. Reconstruction works for location of embankments collapsed. (Sakura bank) Aggregate length of embankment 130 metre. Reconstruction works for collapse of the Nakagawa. Aggregate length of embankment 83 metre Reconstruction work of Koremasa bridge (Tamagawa) Length 380 metres Breadth 5.45 metres. Reconnstruction work of Kasai bridge (Arakawa) Length 83 metres Breadth 5.45 metres. Reconstruction work of Kamihirai bridge (Nakagawa) Length 114 metres Breadth 4.50 metres

Removed & released from Public Office Purge

CONFIDENTIAL

24 November 1947

MEMORANDUM FOR THE RECORD:

1. Reference - Monograph, "The Political Purge" with inclosures.

2. The following existing conditions led to the preparation of the proposed comments and recommendations to SRS.

a. Perusal of the monograph reveals that:

(1) One complete section of the monograph deals with the implementation of the 4 October 1945 Directive (SCAPIN 93), subject: "Removal of Restrictions on Political, Civil and Religious Liberties". Government Section is not charged with the staff responsibility for the enforcement of this directive and is therefore, not in a position to make detailed comment or to give concurrence to this section.

(2) The original version of the monograph, which was given "working level" concurrence by Major Napier and Messrs Rizzo, Roest and Marcum, had been apparently changed by minor modifications of terminology and arrangement, due possibly to the editor's not having a working knowledge of the purge program and the program for the abolition of undesirable organizations, making certain modifications necessary in order to make the monograph entirely acceptable to Government Section.

b. Colonel Kades informed Colonel Unger, Chief SRS, that Government Section was rewriting the monograph insofar as it needed correction or modification. Those portions which required modification were rewritten, and have been coordinated with SRS. Mr. Habel, Historical Division, SRS, notified Government Section this date that the recommended modifications are acceptable in detail to Chief, SRS.

3. Comments and recommendations are self-explanatory. In view of the fact that SRS has agreed to the recommended modifications, concurrence should be given to the monograph corrected in accordance with attached recommendations.

4. It is recommended that:

a. The prepared comments and recommended modifications be sent to NRS for incorporation into the reference monograph.

b. Government Section concurrence be given to the monograph, corrected as mutually agreed upon.

5. Authority for recommended action: Staff Memo 13, which assigns Government Section the staff responsibility for enforcement of SCAPINS 548 and 550.

MEMO FOR RECORD (Cont'd)

6. Initial comments on the "Political Purge", which have been incorporated into the attached Check Note and attached recommendation, have received concurrence of Major Napier, Messrs Rizzo, Hauge and Marcum.

Brigadier-General Courtney Whitney,
Chief of the Government Section,
GHQ-SCAP.

Dear Brigadier-General Whitney,

As one of those who believe that the screening of journalists should be strictly and thoroughly carried out as in other fields, I beg to furnish the following information to you regarding the press purge for your reference.

(1) On Oct. 27, 1947, ex-minister of finance Tanzan Ishibashi, former president of the Toyo Keizai Shimposha (The Oriental Economist) said in a press conference with chiefs of the political departments of the seven big newspapers and foreign correspondents that his purging was based upon a "political plot", and was unjustified. He also told the press to the effect that Brigadier-General Courtney Whitney, chief of the Government Section, was directly, and the Supreme Commander Douglas MacArthur was indirectly, responsible for unjustly making him a purgee.

(2) Mr. Saburo Miyakawa, managing director of the Toyo Keizai Shimposha, and several other employees of the company, who attended the press conference, assisted Mr. Ishibashi in his assertion.

(3) Part of the journalistic world praised the courage of Mr. Ishibashi at the news of the press-conference. There is a growing sympathy of the journalistic circles toward his "unjustified" purging and they entertain a hope that the government section will "reconsider" the matter.

(4) Messrs. Tatsuo Iwabuchi and Kazuo Okochi, encouraged by the success of the press conference, are all the more endeavoring to accept the contrary evidences presented by the Toyo Keizai Shimpo and to remove it from the list of the purged organizations. The two gentlemen are of the Central Screening Board.

(5) They are striving not to have any more purgee within the Toyo Keizai Shimposha if they fail to remove it from the list. Their argument is that since the purging of Mr. Ishibashi is based on a "political plot", there is no reason for others being purged. For this purpose, those gentlemen of the Screening Board recommended the managing editors of the Company, Messrs. Saburo Miyakawa and Hideo Yamada to submit contrary evidences to prove that they have had nothing to do with editorial business. It is reported that they suggested that "if such evidences are submitted, the Central Screening Board will accept them."

541

(6) Messrs. Tatsuo Iwabuchi and Kazuo Okochi have a direct connection with the journalistic world. They are also connected with the Toyo Keizai, publishing their books from the company and contributing articles to its magazine.

(7) I hope you will utilize your organs for information to confirm the information which I have above supplied to you. Please let me allow to take the liberty of asking you for the sake of Japan's democratization that you will help crush the intention of the people who are bent upon belittling the effect of the press purge as much as possible by deception and sabotage.

Yours obediently

A Journalist.

Appeal Board Plan

or What is Plan of this Law

TO: PUBLIC SERVICE QUALIFICATIONS DIVISION, POLITICAL SECTION, GENERAL HEADQUARTERS OF THE SUPREME COMMANDER FOR THE ALLIED POWERS.

FROM: Public Office Qualifications Appeal Board.

SUBJECT: Regulations on Procedure of Public Office Qualifications Examination.

15 November 1947.

1. The Public Office Qualifications Appeal Board wishes to report to the General Headquarters that, at its 69th session held on the 14th Nov. 1947, the Board decided, after careful deliberation, to adopt the Regulations on Procedure of Public Office Qualifications Examination, as per copy and English translation enclosed herewith, the Chairman, accordingly, submitting to the Prime Minister a report to that effect on the same day.

2. The making of the said Regulations is provided for under Imperial Ordinance No. 65 of 1947, Art. VIII., which reads: "The procedure of examination and other necessary matters relating to the affairs of the Board shall be determined by the chairman."

Regulations on Procedure of Examination of the Public Office Qualifications Appeal Board.

Article 1. The Public Office Qualifications Appeal Board (hereinafter to be called the Board) shall conduct examinations necessary for rescission of designation as falling under the Memorandum in pursuance of the provisions of the Imperial Ordinance No.65 of 1947 (an Imperial Ordinance concerning appeals for rescission of designation as falling under the Memorandum in accordance with the provisions of the Imperial Ordinance No. 1 of 1947), and report the results of such examinations to the Prime Minister.

Article 2. The Board shall hold its sessions at least twice a week. It may, in case the Chairman deems it necessary, hold its sessions as occasion demands.

Article 3. The Chairman shall preside over the sessions of the Board, fix the order of proceedings, and declare the opening and adjournment of such sessions. In case the Chairman is prevented from attending to his duties, the Deputy Chairman co-opted from among members shall attend to such duties.

Article 4. Proceedings of the sessions of the Board shall not be disclosed to the public.

Article 5. When the Board has filed a letter of appeal,

the

the Chairman shall appoint from among members one in charge thereof.

Article 6. The member in charge shall systematize the point of argument, corroborative data, and other matters based on relevant documents and report the result to the Board.

Article 7. Cases of appeal shall, except those of particular urgency, be submitted to the Board for deliberation in the order of the letters of appeal being filed.

Article 8. The Board shall, when necessary for the conducting of examinations, ask the Prime Minister or the Metropolitan, Do or Prefectural Governors, as the case may be, to send officials concerned or directly summon appellants or other persons concerned and hear their explanations of facts.

Article 9. The Board may, according to circumstances, cause one or more members to hear the explanations of facts prescribed in the preceding article and to report the substance of such explanations to the Board.

Article 10. Explanations of facts by appellants or other persons concerned at the sessions of the Board shall be conducted in the convenient form of questions and answers.

The asking of questions prescribed in the preceding paragraph shall be done by the Chairman, and each member may ask, through the Chairman, any question that he deems necessary.

Article 11. Explanations may be heard from appellants or other persons concerned at the place where they happen to be.

Article 12. When the hearing of explanations of appellants or other persons concerned has been conducted by the Board, a record thereof shall be prepared.

Article 13. The record shall be prepared by withnessing secretaries and signed and sealed by them as well as by the Chairman.

Article 14. The provisions in the preceding two articles shall apply mutatis mutandis to the case of the hearing being conducted by one or more members ordered to do so in accordance with the provisions of Article 9.

Article 15. The result of examinations shall be decided at a session of the Board.

The decision prescribed in the preceding paragraph shall be put in the form of a written statement sealed by all the members concerned.

The statement of decision shall be drafted by the member in charge of each case.

Article 16. The statement of decision shall be made out in the form separately fixed.

Article 17. The Chairman shall report the contents of the statement of decision to the Prime Minister.

Article 18. Appeals not in accordance with the Imperial Ordinance No.65 of 1947 or those filed without going through legal formalities may be dismissed.

Article 19. The Board shall not re-examine one and the same case; provided, however, that this does not apply in the case

Where

where the Prime Minister demands re-examination by presenting new corroborative data.

Article 20. In case unavoidable circumstances make it impossible to observe the present Regulations, the Chairman may, at his discretion, adopt appropriate measures.

K. Miyagi.

Mr. Minoru Miyagi
Chairman of the Public Office
Qualifications Appeal Board

第一條　公職資格訴願審査委員会（以下委員会という。）は、昭和二十二年勅令第六十五號の規定による覚書該当者の指定の解除の訴願に関する勅令（昭和二十二年勅令第一號の規定による覚書該当者の指定の解除に必要なる事項を審査し、その結果を内閣総理大臣に報告する。

第二條　委員会は、少くとも一週二回会議を開く。その他委員長必要ありと認めるときは、随時これを開くことができる。

第三條　委員長は、会議を総理し、議事の順序を定め会議を開閉する。委員長が差支あるときは、委員に於て互選せられた委員長代理之に当る。

第四條　委員会の議事は公開しない。

第五條　委員会が訴願書を受理したときは、委員の中から主査一人を指名する。

第六條　主査委員は、記録につき論点、証據資料その他事件を整理し、その結果を委員会に報告する。

第七條　訴願の案件は、特に急を要するものを除くの外概ね訴願書受理の順序に従い委員会の議に付する。

第八條　委員会は、審査上必要ある場合には、内閣総理大臣若しくは都道府縣知事に対し、関係官吏の出頭を求め又は本人若しくは関係人を召喚して説明を聴取する。

第九條　委員会は、場合により一人又は数人の委員をして前條の説明を聴取せしめ、その報告を求めることができる。
