INTELLIGENCE SUMMARY FOR PERIOD 061800H TO 061600H DEC 65

1. ENEMY SITUATION. The following intelligence reports were received by the S-2 Section.

Sierra rpts 071735H: Agent reports that 7 Dec 1965, 1-VC Co. commanded by NCC CLAU HOANG, with a strength of 110 men, weapons 1-60mm mortar and 1 machine gun, moved from vic. (AT889601) to vic. (AT947625). Time of movement is unknown. B-3 rating. Agent also reports that the 2 VC Companies previously reported at (AT865707) and (AT885697), have moved. The location of 1 company is unknown and the other, led by VC XUAN LAN, has moved to (AT865655). B-3 rating.

Crowd 2 rpts 071830H: From Shove 3rd CIT at 071720H. Report that Buddhists are staging a demonstration in the city of Da Nang. The reason for the demonstration is the failure of U. S. to pay for damages to pagodas.

Bravo 3 patrol rpts 061400H: a possible river crossing at (AT905709). The foot trail leading up to the river bank appeared to be well traveled. Found a sign at (AT895701) which said in English, "to American Soldiers in South Viet Nam, no dying for the purse of the capitalist yankee." The sign had a Vietnamese sign next to it saying possibly the same thing. Sign measured 1 1/2 X 3 feet. It was made from an aluminum ammo. box, green and pink paint were used. Appeared to have been done by a professional painter. Found punji stakes along trail last to west in GS (AT9070). The civilians seemed moderately friendly. All trails in the area seemed to be well traveled.

Bravo 3 patrol rpts 081415H: Information received from NCA THUCNG Village Chief and Police Chief, (unevaluated). They report that there are many mines forward of Bravo 3 position GS (AT8970), (AT9070), and (AT9170). VC plan to mortar Bravo 3 position and attack it from the rear, (possibly meaning from the East).

2. U.S. ACTIVITY.

UNIT: DTG: RECORDS: ACTIVITY:

Charlie 072035H AT913727 Spotted 2 men on a raft near far bank of river vic. (AT913727). Opened fire on the raft. Area was illuminated with neg. results. No cas.

SPECIAL INTELLIGENCE REPORT FROM III MAF

In order to deceive and destroy the Vietnamese Troops, the VC are using locally manufactured grenades that have a firing system of acid. The tops of the grenades are painted either blue or red. The safety pin is always painted blue. The VC pretend to forget the grenades in the field and ARVN personnel confiscate them. When the grenade is picked up, and pressure is placed on the grenade, it will detonate. ARVN Intel. CIT: The acid firing system has been confirmed. This is the first indication of special colors on these grenades. It appears that this type grenade is booby trapped in such a manner that, when a person holds it in his hand, even though the safety pin is still firmly in place, and any pressure is applied, such as that of holding it in the palm of the hand, the grenade will explode.

SPECIAL INTELLIGENCE REPORTS.

ARVN MSS rps 6 Dec. 1965: VC Cadre from DIEM BAN District (Mf. CO60), HIEU DUC and DAI LOC (AT8858), held a meeting at (AT930-609). The purpose of the meeting was to boost VC morale and to urge an increase of assassination activities. VC were encouraged by being told that reinforcements would soon be sent to the above districts.

*** MAF report rated F-2: Report 1-VC Bn. vic. (AT823542) and (AT834547). Weapons are 5-machine guns, 3-60mm mortars, 7-60mm mortars. Their mission is to attack Hill #65, (AT878576), during the dark period. Coming dark period will be from 21 Dec. 1965 to 3 Jan. 1966.

All personnel will be instructed as to the contents of the following report.

Recent VC terrorist activity has resulted in avoidable death and injury to certain U.S. Personnel. The following precautions will be taken in the event of a disturbance of a terrorist nature:

1. Do not go to windows, balconies, or other exposed observation places to see what is happening. Danger exists from flying glass, fragments, or small arms fire.
2. Do not approach the scene of a terrorist explosion for several minutes. The danger of a second explosion exists.
3. Stay entirely away from the scene of the explosion if the individual cannot be of assistance. Crowds not only hinder rescue and investigative efforts, but also add to confusion and present a lucrative target for additional terroristic attacks.

UNIT: DTG: COORDS: ACTIVITY:

Bravo 131000CH AT925685 Bravo patrol apprehended 1-VCS in KUBONG MY (1) (AT925685). VCS had a I.D. card belonging to a 10 year old. VCS was taken to Sierra.

Bravo 131000CH AT920692 Bravo Co. conducted a check of I.D. cards vic. (AT920692). Although 1 man had a proper I.D., the Co. Gunny decided to apprehend the man because he acted suspicious. Suspect would not cooperate and ran off. A search party followed the VCS to a village at (AT925695). When the VCS ran out the other side of the village, he was shot. WIA was delivered to Sierra and was identified as friendly by 1.1EU DUC District Chief. WIA was evacuated to "C" Med. by ~~helicopter~~ (S-2 comment). The apprehending unit stated that the man refused to halt and acted highly suspicious. His actions were those of a VCS.

Bravo 131240H AT929697 Blew 1 small cave at (AT929697). The cave had a crawl type entrance, reinforced with bamboo. A hut near the cave caught fire and burned to the ground when the explosion went off.

Bravo 13154CH AT894684 Bravo 1 reports finding at (AT894684) a 18"X6" cardboard sign with Vietnamese writing saying, "Keep away - mines and punji stakes." The area was checked and no mines or punji stakes were in the immediate area. At (AT896685), apprehended 2 female VCS. 1 woman was believed to be married to a VC. She had a letter from a VC which she tried to throw away when approached by the patrol. The other woman with her, the interpreter states, had previously been in jail. The interp. felt that both women should be apprehended for questioning. At (AT888682) the interp. talked to approx. 50 civilians. Of this 50, the patrol apprehended 5 VCS. ~~Approx.~~ the interp. feels are possible VC. At (AT886685), a man

was questioned by the interps. man was apprehended because he acted suspicious to the interps. 100 meters west of DOIG BICH (1) (AT895682), 5 VCS were spotted by the patrol. The VCS fled north up trails thru brush, VCS had no weapons. The patrol pursued by fire and gave chase to the VCS. The area was checked with neg. results. At DOIG BICH (2) (AT903684), 2 men ran when spotted by the patrol. They too ran north into dense vegetation. Patrol fired on the men and gave physical pursuit. Neg. results. One woman was questioned by the interps. and was apprehended because she appeared suspicious. This was in DOIG BICH (2). The patrol apprehended a total of 6 men and 3 women VCS, all were taken to Sierra.

Bravo 131800H AT913700

Bravo 3 patrol found 2 piles of rocks about 3 feet apart vic. (AT913700). To the left of the rocks was a snake head carving. A 3 1/2 foot bamboo strip shaped like an arrow lay between the 2 piles of rocks pointing toward Bravo 3 position. (S-2 comment). The snake carving reported by Bravo 3 is the second found in the area. Vietnamese state that this is the year of the snake and that it could mean several things: (1) a warning to stay away from the area and not to disturb the warrens. (2) A symbol of bravado on the part of the VC letting the people know of an impending attack. If an attack is forth coming it is believed that the local populace will vacate the immediate area. In accordance with this information, all units are to report any movements which might indicate an exodus from the area.

3. ENEMY LOSSES. 7 male and 3 female VCS were apprehended by Bravo Co. and taken to Sierra. Bravo Co. also destroyed 1 small cave, found 1 cardboard sign indicating mines, and punji stakes, found 1 snake head carving.

Official Memorandum

Intelligence reports pertaining to or including information on secondary explosions from VC positions/storage areas/tunnels must contain a description of the color of the smoke and magnitude of the secondary explosion.

All Bands will be instructed in the following excerpts from Force Bulletin LVC of 9 Dec. 1967.

"A check of local civilian photo shops reveals that many personally taken photographs contain information which could be of considerable value to the Viet Cong. It must be assumed that the Viet Cong have the capability to acquire copies of locally processed film. As a result such photographs constitute a security threat to friendly military installations and personnel."

The following areas have been designated critical areas in which personal photography is prohibited:

- (1) Major headquarters areas
- (2) Supply installations
- (3) Communications sites
- (4) Flight lines
- (5) Port facilities
- (6) Photographs of defensive positions when such positions can be oriented with surrounding terrain.

INTELLIGENCE SUMMARY FOR PERIOD 191600H TO 201600H D.C 65

1. Early Situation.

a) Sierra rpts 192330H: Rec'd from HQA via Special Sector. VC Hqs HQA DIAH 801, will be gathering guerillas in the hamlet of DONG LICH (1) (AT895682) for an operation East of Hill #22, across the river from HQA VUNG District. The exact date of operation or when they will gather guerrillas is unknown at the present time. HQA AT gives a C-3 rating.

b) Crowd 2 rpts 201040H: From Shova. Da Nang Garrison rpts in the vic of the hamlets of LI SON (1) (AT983659) and YIN AN (1) AT988633, groups are expected to demonstrate sometime today regarding reimbursement for damages done to the area.

c) Crowd 2 rpts 201055H: Recon Charlie 3 rpts that at 200900H at (AT918658) spotted 28 people walking on side of hill. They were wearing black pajamas and conical hats. Equip. unk. also rpt that at approx. the same time, at (AT930639), spotted 20 people moving south along side of hill. They were wearing a mixture of black and white pajamas. They were carrying baskets and hoes.

d) Found Charlie Agent rpts 201120H: The 44th PAV Bn moved to vic Loc Thang Dong (AT955587), Gio An (AT955570), (AT947590), and (AT943590). The Bn moved into the area on 170400H Dec 65. It is presently digging fortifications and many foxholes. Wpns are 3-mortars, 3-MG's, 9-AA's, and 3-rocket launchers, described as approx. two meters long and carried over the shoulder. This Bn is rptd to be part of a PAV Regt. commanded by Lt. Di, a Lt Col, who is part Vietnamese and part Indian. The Ln strength is 400. The mission is unk. (PF Lt. gives agent B-1 rating. The agent left area because he believed that Marines would sniff the area shortly after being notified). (S-2 Comment: The 44th PAV Bn was previously rptd vic GS (AT8066) by the same source 5Dec65.) AC checked out the area of reported digging. At (AT947607) and (AT957604) observed extensive entrenching and building presently underway. Workers appeared to be civilians. At (AT955542), sighted a trench extending 400 meters N. of given location. It appears that the trench is being improved. AC states that all workers appeared to be civilians, but works have a definite military significance.

e) Sierra rpts 201215H: Late last night or early this morning, VC had 3-VC flags hanging on bamboo sticks, spread leaflets, and had one post with a long ribbon in memory of today, 20 Dec 65, at (AT942682). Members of Sierra Hqs. went to that location at 200930H in time to dispose of all propaganda material. Have one VC flag at Sierra Hqs. at this time.

CONFIDENTIAL

f) Found Interpreter rpts 201300H: A casual source rptd to Found Interpreter that a VC in was in vic of D.C. 3 rd (AT 94562C) on 19Dec65. A VC LHM is rptd as the in Commander.

g) Crowd 2 rpts 201510H: Rec'd from above at 201100H at (AT927655). AC observed two groups of possible VC, 12 to 15 in each group. They were moving west to east along trail. They ran when the aircraft flew over.

2. U.S. ACTIVITY:

UNIT: DATE: OCCASION: ACTIVITY:

Charlie	191830H	AT925717	Charlie 2 observed what appeared to be sniper fire into Delta's position. A fire team checked out the area where the sniper was believed to have been. Found tracks that led across the river. Fired 2 M-79 rds. into the area where the sniper may have been. Neg. results.
India	201020H	AT920603	India 1 patrol came into contact with 10 to 12 VC. VC were firing a machine gun. An arty fire mission was called on the VC's position. Results unknown. 1 com VC WIA. WIA was held evacuated. The patrol believe they caused 1 VC WIA.
Bravo	201105H	AT903705	Bravo 3 patrol destroyed a gate believed to be booby trapped. Patrol had been in the area before and had never noted the barbed wire holding the gate in place. When destroyed, the patrol leader believes he noted a slight secondary explosion. The explosion was of such a nature as not to be easily distinguished from the intentional explosion. A small crater found on the other side of the fence was the only other indication of a secondary explosion. Crater was 2 ft. wide and 1 ft. deep.
Bravo	201130H	AT915687	Bravo 1 patrol apprehended 1 mule VCS. VCS was approx. 33 yrs. old, had no I.D. VCS was taken to Sierra.

SPECIAL INTELLIGENCE NOTE

Three days during the month of December have special meaning to the Viet Cong.

- (1) 20 Dec. 5th anniversary of the founding of the National Front for the liberation of South Viet Nam.
- (2) 23 Dec. The founding of the Peoples army of North Viet Nam.
- (3) 26 Dec. MAO TSE TUNG's birthday.

Last year to commemorate the 4th anniversary of the NLFV., the VC sabotaged an american billet on 24 Dec. 1964. This year they sabotaged another american billet on 4 Dec. 1965. Although the above incidents occurred both before and after the actual date of the anniversary, they were conducted to celebrate the anniversary.

It is probable that other acts of terrorism and sabotage will be conducted to mark the celebration. All U.S. personnel and instal-

Locations are considered excellent targets and several reports have been received concerning threats against the Da Nang area. Every U.S. installation must be considered a possible target. The period 18-27 December includes the quarter and new moon phases. The VC normally take advantage of these periods of maximum darkness and increase their sabotage and terrorism.

INTELLIGENCE NOTE.

1. Interrogation of a recent VC returned and other intelligence indicates that VC/PAVN elements in RV. may be equipped with the ChiCom version of the Soviet 120mm M1943 mortar. This 120mm mortar breaks into three loads, for pack transport; characteristics are as follows:

Caliber - 120mm
Length of tube - 73 inches
Weight in firing position - 606 lbs.
Elevation - plus 45 to plus 60 degrees
Traverse any degrees
Maximum rate of fire - 15 RPM
Muzzle velocity - 892 ft. per sec.
Weight of projectile - 34 lbs.
Maximum range - 6230 yds.

2. Following an attack by enemy mortars, craters and surrounding areas should be searched for tail fins and fuze bodies which will allow technical intelligence personnel to identify the type of weapon used.

✓(4) Lessons Learned

1. As directed by enclosure (1), Company "D" (Rein) departed its CP area at 050800H, established a patrol base/observation post on Hill 112 (AT 889687), and commenced patrolling to locate stream crossing sites and routes into the NOI VUC (AT 872707) sweep objective. Enroute to the patrol base, Delta 1 received one (1) round of sniper fire and Delta 3 discovered one (1) booby trap (See enclosure (3)). Unable to determine more than a general location of the sniper, Delta 1 continued on its mission.

2. By nightfall, patrols had reconnoitered approximately four kilometers of stream bank to the West and South of the company patrol base, and reported no suitable crossing sites, because of steep banks, deep water, and swift current. Two swimmers tried to get a line across at the site indicated on enclosure (3), but the attempt was abandoned after one got into serious difficulty in midstream.

3. The unfordable stream was reported to Battalion Headquarters, which designated GIAO TRI (1) (AT 888700) as the alternate sweep objective for the following morning. Charlie 2 was instructed to modify its blocking position accordingly. Delta 3, which had been designated as the NOI VUC sweep force, was designated to sweep GIAO TRI (1). At 052100H, Delta 3 received three (3) rounds (semi-automatic carbine) from an undetermined location West of the stream (See enclosure (3)). Fire was not returned for lack of a suitable target. Three ambushes were established--one in each platoon area.

CONFIDENTIAL

CONFIDENTIAL

4. The sweep of GIAO TRI (1) lasted from 060645H to 061100H. During the sweep, one (1) cave (See enclosure (3)) and two (2) trench lines were discovered. Two (2) CS grenades were thrown into the cave, but no one emerged. The attached engineer team destroyed the cave. The trench lines were in an advanced state of deterioration, and had apparently not been used in several months. Two (2) fifty-year-old farmers, the only men in the area, were brought in from nearby fields for questioning. The Vietnamese interpreters recognized them as persons who had been interrogated and cleared in earlier operations, and they were released. Under questioning, a woman indicated that a platoon of Vietnamese speaking a strange dialect (Interpreter's Note: presumably North Vietnamese) had been in the village two weeks before, but had departed to the northeast in twos and threes after a day or two.

5. At the conclusion of the sweep, Company "D" was ordered to move to (AT 900670), set up a patrol base, and conduct night ambushes. Charlie 2 was returned to operational control of its parent unit. Enroute to its new objective, Delta 3 received three (3) rounds of semi-automatic carbine fire (See enclosure (3)). It returned fire with one (1) 3.5" WP round, and the sniping ceased. As it neared its objective, Delta 3 conducted a quick search of the ten houses in PHUOC BINH (6) (AT 902675). Nothing of a suspicious nature was discovered. The villagers appeared cooperative and friendly. Four ambushes were established, as indicated on enclosure (3), with negative contact during the night.

6. At 070800H, Company "D" commenced its return move, closing on its CP area by 071200H.

LESSONS LEARNED

DECLASSIFIED
1. ITEM: Patrols found numerous shell craters (presumably from H&I fires) in the marshy valleys of the four square-kilometer area west of KHUONG MY (2) (AT 909695).

COMMENT: These marshes, varying from knee to hip deep during the rainy season, are extremely slow and noisy to traverse. They are regarded as poor avenues of movement, and, accordingly, as poor H&I targets.

RECOMMENDATION: That H&I fire planning concentrate on the ridge lines in this area, which afford the best means of night movement for VC units and couriers.

2. ITEM: Before departing on the operation, Marines emptied the contents of "B" ration dehydrated soup cans into plastic laundry bags, to be carried at the squad level.

COMMENT: This proved to be an effective load lightening device, and a handy source of hot meals cooked either in squad "pots" (#10 cans) or in individual C-ration cans. If "minute" rice were available to be carried in this fashion, it is estimated that C-ration load could be halved.

RECOMMENDATION: That future patrols be encouraged to experiment with these and similar load lightening methods, particularly in the area of rations.

a. As directed by enclosure (1) Company "D" (Rein) departed its CP area at 230700H December, enroute to TUNG SON (AT 845724).

b. On the riverside trail between BINH AN (3) (AT 9170) and BINH AN (2) (AT 9071), elements of Company "D" discovered a series of artistically lettered English-language signs of the "Yankee Go Home" variety, spaced in trees, and ten to twelve feet above the ground. A VC bulletin board, which described the early December hotel bombings in Saigon and VC liberation efforts, was discovered in the same area. Villagers said that the board had been up less than twenty-four hours. A minefield sign was also found in the area, but a check for mines in the area yielded negative results.

c. At 231313H, a stream crossing was attempted in the vicinity of BINH THAI (AT 8871). The 3rd platoon, Company "D", received two bursts of automatic fire (approximately 20 rounds) from the vicinity of (AT 888715). Fire was returned with small arms and six rounds from M-79's. A search of the area brought negative results.

d. At 231700H, the 1st platoon, Company "D", discovered a booby trap (Chinese grenade rigged with a trip wire) along a trail at (AT 870715). The grenade was destroyed in place.

CONFIDENTIAL

e. The 2nd platoon, Company "C" (Oom Con Company "D"), initially following Company "D" in trace, sighted five VC across the river (AT 874707). The Charlie Two platoon engaged the VC, with the scouts of the point delivering fire which killed one VC and wounded one VC. The three other VC darted into dense brush, while the remainder of the platoon pursued by fire. There were no friendly casualties. Of note was that the VC wore a helmet-type headdress, kaski uniforms, web gear and carried carbines. The 1st platoon, Company "D", heard the fire fight and was six hundred meters west of Charlie Two, along the river. The scout sniper team, organic to Company "D", was able to deliver accurate fire onto the VC downstream. The scout snipers are convinced that their well aimed shots were on target and hit the VC, also.

f. The Charlie Two platoon established a PRB in the vicinity of (AT 886705) in order to observe NOI VUC, and to be in position to block on D+2 when Company "D" was to search and destroy within the NOI VUC complex.

g. At 240745H, Delta One swept the village of TUNG SON. The village was deserted, and its houses and fields appeared to have been untended for at least one month. Numerous shell craters were found in the area. The sweep disclosed two hastily emplaced booby traps (M-26 grenades with pins loosened) and three large bomb shelters, with concrete entrances and steps. Grenades and shelters were destroyed by the attached engineer team. A 75 pound crock of rice was discovered and destroyed.

h. At 241405H Company "D" was ordered to return to the MLR, and to abort the operation on the village of NOI VUC on D+2. The reason for the abrupt change in plans was due to a message received just prior to 1400 stating that a "cease fire" would go into effect at 241800H. The Charlie Two platoon commenced their return to the MLR immediately upon receipt of the message. At 241545H, Charlie Two suffered nine MIA's (none serious) at (AT 898718) caused by a homemade booby trap thought to consist of about three pounds of TNT wrapped with barbed wire. Five MIA's were evacuated by helicopter. Charlie Two resumed their movement to the MLR, arriving at 241730H, without further incident.

i. Company "D", having consolidated within the objective area, commenced its return to the MLR at 241610H. Helicopters were requested, however none were available. At about 241820H, the lead platoon received approximately 30-35 rounds fired from six or seven different positions south of the river, in the vicinity of NOI VUC (AT 872707). The company immediately returned fire with all organic weapons, including 60mm mortars. Artillery fire was requested on pre-planned concentrations, and the mission was fired within 5 minutes. By 241840H all firing had ceased, and Company "D" was ordered to establish a base camp for the night, conduct no offensive actions.

and await possible helilift during the night, or morning of 25 December. No firing occurred during the remaining hours of darkness. Maximum security measures were taken.

j. Helicopters did not extract Company "D" during the night; however, a helilift commenced at 250825H which lifted the company from (AT 868709) to LZ Whippoorwill. As each flight of helicopters entered the LZ across the river from HOI VUC, VC small arms fire was directed at the helicopters. Company "D" returned fire, again with all organic weapons, including 60mm mortars. Several helicopters sustained hits from VC small arms fire, with one crew member wounded in the arm. Two Marines were wounded (minor) while they were in the LZ preparing to board helicopters for the last flight of the lift. The helilift was completed at 250855H.

LESSONS LEARNED

1. ITEM: M-79 grenades, fired at snipers concealed in dense vegetation, detonated upon initial contact with the jungle canopy enroute to their targets.

COMMENT: The point detonating characteristic of the M-79 round limit its effectiveness as a weapon to be employed in dense terrain, even though an area weapon of its type is the most effective one to use against concealed snipers.

RECOMMENDATION: That launcher adapters for the M-26 grenade be procured and utilized with the M-26 Grenade in lieu of the M-79, when terrain conditions dictate.
