N. B.—We have failed to procure the statistics of other denominations in the Confederate States: we believe they have not been compiled since the separation from the North.

MEMORABILIA.

The following chronological table of remarkable events, which transpired in connection with the organization of the Confederate States, during the past year, may be found convenient for reference. It would have been much more extended, if we could have ascertained the dates, etc., of other events which are worthy of being thus chronicled. The compilation of this table cost us considerable labor, as we had to search out facts and dates among the contradictory statements of newspapers, etc. We have taken great pains to avoid errors, but an approximation to correctness is all that can be realized.
