FACTS

ARE WHAT PEOPLE WANT, NOT FICTION. HERE ARE A FEW.

We have one of the most up-to-date workshops in British Columbia. It is run throughout by ELECTRICITY AND COMPRESSED AIR. We maintain a staff of working jewelers who, in addition to doing the repair work of our customers, make up a large part of our stock RIGHT ON THE PREMISES. We have recently acquired new rooms for our WATCHMAKING and ENGRAVING DEPARTMENTS, increased business having made this step necessary. The above FACTS speak for themselves.

MANY RESERVES ARE PLACED IN PROVINCE

Considerable Areas of Land Taken Off the Market.

The local government has been busy placing reserves recently. Among those made last week were the following: Two thousand inches of the unincorporated water in Long Lake, in the Osoyoos district, for the corporation of the city of Vernon, for domestic and power purposes. The waters of Como, on Welcome lake, and the stream flowing therefrom in New Westminster district, for government purposes in connection with the public hospital for the insane and farm at Coquitlan.

Lots 74, 75 and 76, Queen Charlotte Island district, from pre-emption or sale. A belt of land, situate in Range 5, Coast district, and extending three miles on each side of Kitsumgatum river, from the junction of said river with the Skeena to its headwaters, from sale of RESERVE.

A BELT OF LAND, 12 miles in width, situate in the Cariboo and Lillooet districts, and lying six miles on each side of the 52nd parallel of north latitude, from the point where the Cariboo wagon road crosses, the said parallel to the intersection of the Chilco river with the said parallel, from sale or lease.

A belt of land, 12 miles in width, situate in Cariboo district and Range 4, Coast district, and lying six miles on each side of the Blackwater and

NEW WIND RECORDER FOR WEATHER MEN

Valuable Electrical Apparatus Placed in Meteorological Office.

A new form of the anemograph or self-recording wind-gauge, has just been installed in the local meteorological office. The instrument, which is a beautiful piece of mechanism, was made by Foster, of Toronto, who is turning out similar electrical devices for all the stations of the service in Canada.

In the old form of this instrument the velocity of the wind in miles was recorded by a pencil or pen, revolving by clockwork, on a sheet of paper fastened to a metal disk. The new apparatus entirely does away with pencil and pen, substituting fine metal points, which, controlled by electro-magnets, puncture the paper on the disk.

An additional advantage of the new mechanism is that, in the event of high winds, when the marker is required to work rapidly, the spacing is much clearer than in the old style. The instrument is packed in a fine oak box with plate glass top. The brass work is of the most excellent and the steel is beautifully carbonized. Some time ago a part of the mechanism was exhibited in Washington. The

A Natural Laxative

Inward cleansing is as necessary as outward bathing. To keep the bowels free and regular is of even greater importance than to keep the skin-pores from becoming clogged. The neglect of either invites disease. Everyone needs a natural laxative occasionally, to free the bowels of accumulated impurities. For this purpose take

BEECHAM'S PILLS

the greatest boon ever offered to those who suffer from the ills that follow constipation. For over fifty years Beecham's Pills have been famous as a Stomach corrector, a Liver regulator and Bowel laxative. They never gripe nor cause pain. Powerful purgatives are dangerous. Avoid them. Use Beecham's Pills. They give relief without doing violence to any organ. Their action is in harmony with physical laws. Take them regularly and the necessity for their use becomes less frequent. They are a natural laxative and a positive cure for Constipation, Biliousness, Indigestion, Sick Headache and Dyspepsia.

Prepared only by the Proprietor, Thomas Beecham, St. Helens, Lancashire, Eng. Sold everywhere in Canada and U. S. America. In Boxes of 25 cents.

professors in the American capital declared it to be the equal in beauty and delicacy of structure of anything of the kind made in England, and Germany and expressed surprise at such a fine piece of workmanship being turned out in Canada.

A LIVING MAGNET. Interesting Attraction Is on Boards at Pantages This Week.

Miss Marie Rollson, whose weight is given at under 110 pounds, will finish the week at Pantages to-night and to-morrow night, during which time there will be a sum of \$200 posted for any person who can lift her under the conditions that a flesh contact is made between herself and the lifter. So far it is said this has not been accomplished, although many have tried to remove the little woman from the stage, while her finger has been pressed against their faces or hands. Without the flesh contact she can be lifted at the will of any person who can raise the weight of 110 pounds from the floor, but immediately the contact is made it apparently becomes impossible for ten men to lift her, for some power holds her fast to the floor and nothing but her own will can shift her from that position. She is apparently another Georgia Magnet, but her manager claims to have the business down to a more scientific principle than the Georgia Magnet had. There is also the sum of \$200 at Pantages for the man who can break the grip of the lady's manager while he has a flesh contact with the magnet. Pantages has been drawing crowded houses to see the woman, who defies the efforts of ten men to move her, and she is causing as much comment in Victoria as she has in every other city she has visited and shows her powers.

THE NORTH PACIFIC REGATTA AT SEATTLE
J. B. A. A. Junior Crews Are Competing in Race This Afternoon.

To-morrow over the one and a half-mile measured course at Lake Washington, the J. B. A. A. big four crew will row for the Buchanan cup against crews from Vancouver and Portland. The Victorian representatives pulled over the course yesterday afternoon, and this afternoon are taking their final spin before the encounter. The crew consists of W. W. Loring, stroke; F. Baylis, 2; R. Montleth, 2; and K. T. Hughes, bow.

Donaldson, who represents Victoria in the junior singles, will row this afternoon against Allan of Portland, and Sinclair of Vancouver, and in the event of his winning will compete against to-morrow in the senior singles against C. Laing of Vancouver, and T. D. Des Brisay, of Nelson. Other events taking place this afternoon are the junior pairs, in which Clarke and Andrews, and Jones and Finlayson represent Victoria, the J. B. A. A. having sent two crews for this event, and the junior fours in which Victoria is represented by Hitchcocks, stroke; Strachan, 2; McKay, 2; and Gray, bow. The junior fours will be matched crews from Vancouver and Portland.

D. T. Jones, who is down for the junior doubles with Finlayson, is also rowing with W. H. Jesse in the senior doubles, and will therefore have a race each day.

Dan O'Sullivan will be at the regatta to see the event and to cheer the boys once more from the starting point to the finishing point. Captain Phil Austin has unfortunately been unable to get away for the events, but there are a bunch of supporters from here who are making the trip to cheer for the boys, who will not lack support in their efforts to return with the Buchanan cup once again.

Five round scrap at Coffroth's, Mission street arena Colma, San Francisco, to-morrow afternoon, at 133 pounds ring-side. The betting on the event opened some days ago at 10 to 8 in favor of Gans, but has since receded to 10 to 6 on account of the fact that there was no Durable Dane money in sight at the former figure. The wider odds offered have, however, not been productive of deroying the change out of the Nelson camp, and it is expected that the two bruisers will go into the ring with very little money bet on them. At one stage of the game the price went as low as 10 to 4 for a short time, but as the sports were willing to take a chance at the long odds, the price rose again to 10 to 5, and then to 10 to 6.

There can hardly be any question as to the result and the winner should be found in Gans, if the game is not fixed, for if he wants to he can beat the Dane inside of fifteen rounds. The contest at such an endurance as is found in the best men, and in this respect Nelson will not be any way behindhand. It will be in the scientific business and ring generalship that the battler will be outdone. To those who know the men and their records the match between Gans and Nelson for a straight go is as unevenly matched as some of the "boxing contests" that have been pulled off with eight ounce gloves in the neighborhood of Vancouver Island.

An example of the day's work done by Nelson in preparing for the scrap is as follows. Ten miles run on the road, boxed two two-round bouts, played three games of handball, wrestled for twenty minutes with a sparring opponent. Gans is not taking himself so much to task over the encounter, but is contenting himself with three hours' heavy work on the road with a little skipping and bag punching to keep himself alive between times. Gans ought to win.

THE TURF.
CALGARY RACES.
 Calgary, July 2.—The second day of the Dominion exhibition was a repetition of the opening day, although the attendance was less. The weather continued to arrive during the day in order to be in attendance on Saturday, American day, when a big excursion will arrive from Spokane and other Washington points. The races attracted a large crowd, and the events, while furnishing a few surprises, were in a general way satisfactory to the public. In the 5-8 mile race, Malvina fell and brought down Poitnam, the favorite, and Rosalta, Saint Agnes threw her rider. While the mix-up looked serious from the grand stand, fortunately no one was hurt.

BASEBALL.
PLAYING AT ANGELES.
 Willie's Wonders go across to Port Angeles to-morrow afternoon to try conclusions with the alms of that town. Peden will pitch the game and Northcott will catch. Excursions have been arranged for the match and the Chippewa and the Whatcom will connect between Victoria and Port Angeles. The boats leave for the game at 12:30 and 2 o'clock and return at 4:30 and 5:30 p. m. The city band will also make the trip and a big crowd will go across to support the Victoria line.

LAWN TENNIS.
MAY SUTTON NOT COMING.
 Local tennis enthusiasts will be disappointed that Miss May Sutton will not come to Victoria this summer. It is announced from San Francisco that Miss Sutton's health is falling and that consequently she will take a much required rest. It was thought that she would play an exhibition match with Miss Hazel Hatchkiss, the state champion at San Rafael to-morrow. This match will, however, not take place, and a programme arranged

GENERAL NOTES.
 Familiar names to those who attended the race meeting here are seen in the results of Dominion Day races at

for her appearance at the courts of Del Monte next September is also being abandoned as far as her share in it goes, for the same reason. She was also down for an exhibition match with Maurice McLaughlin, the great champion, on the courts of the California tennis club, but this event has also been called off. Next week she will play in a tournament at Venice, Cal., which will be her last public appearance. Her physician says that tennis must be abandoned for some time to come. Her disposition is said to have upset the plans of the California people completely as they had arranged a ball in her honor to take place at the Hotel San Rafael to-morrow night.

TWO CLUB TOURNAMENTS.
 Owing to the long list of entries as anticipated for the tournament of the Victoria Lawn Tennis Club which starts to-morrow, the handicappers were unable to complete their work by this morning. The balance of the figuring will be completed to-night so that the tournaments will commence to-morrow afternoon. The courts are in fine condition for the games.

The Caledonia Tennis Club held a meeting last night at which it was decided that a tournament will be commenced by the club members on Monday next, the games to take place between 4 p. m. and dusk. This will be the first tournament of the club, in which great interest is being taken. Entrance fees are 25 cents per person per game with one prize for each event.

ANOTHER MCLAGLEN SEEKING OPPONENT
A Famous Athlete is in the City This Week.
 Dr. Leopold McLaglen, a relative of the boxer who defeated George Paris and won the boxing championship of British Columbia recently, is in town. He also is a champion and claims to be the champion of the world at Jiu-Jitsu. He can be seen to-night and to-morrow night at Pantagos theatre, where he assists his wife Marie Rolison, and offers \$200 to any man who can lift her. However, McLaglen while here is endeavoring to arrange for a wrestling match to take place at the fall fair in September between himself and Kikawako, who is said to be the champion of Yokohama.

McLaglen also issues a challenge to Jack Johnston, the colored American boxer, to Tommy Burns, Jim Jeffries, any one else to fight him on the understanding that he defends himself by the jiu-jitsu methods alone. He also undertakes to lick them badly. Frank Gotch is included in the list of athletes whom McLaglen wishes to meet on the same basis, but Gotch, he says, has already declined, and Jim Jeffries has followed suit. Any jiu-jitsu artist that is around town and thinks

Vancouver. Little Jap, second in the trot. Half mile, Rivaria, Titus second and Dr. Scharf; five furlongs, Lady Mithral second and Mary Dunn third. Handicap, 11-15 mile, Ripper third, and seven furlongs, Lawrence first and Katie Bell third.

Tomorrow afternoon a spoon shoot will be held at Clava Point under the auspices of the Fifth Regiment Rifle Association. Members will shoot over 200, 500 and 1000 yards.

The Capital and Victoria gun clubs will hold competitions for the two Dupont trophies on the 5th of Langford Plains.

ANOTHER MCLAGLEN SEEKING OPPONENT
A Famous Athlete is in the City This Week.

of making a match might take a look at McLaglen, who is taller than his relative. He is six feet seven inches in height, weighs 225 pounds, and is twenty-six years of age. If Mr. Johnston takes up the challenge or any of the other fighting gentlemen it will be understood that he does not strike a blow but will depend solely upon bone lock and nerve holds to do the necessary business. He claims to be versed to the seventh degree of Jiu-Jitsu, and his claims are borne out by his record down this coast. He beat Kukamuchi at Los Angeles, Henry De Raymond, who weighs 350 pounds, at San Francisco; Bob Linton and Yama Naka at New Westminster, and others.

Before the fall he will take on a broad sword fight at Pantagos theatre, Seattle. Any gentleman from the Japanese colony here who would like to do the honors for McLaglen, can advise him at the King Edward hotel, or look in at the Times office and leave word. McLaglen has out a general challenge to the performers of the world.

GREAT FUTURE FOR THE MINES

QUEEN CHARLOTTE ISLANDS PROMISE WELL

J. Wulffsohn Thinks it Will Be Most Important Centre.

Queen Charlotte Islands will be a better paying mining proposition than anything on the American continent," was the statement made this morning by Johann Wulffsohn, formerly German consul at Vancouver, who retired at the end of last year for the purpose of devoting his attention solely to mining in British Columbia. Mr. Wulffsohn returned a few days ago after spending about six months on Moresby Island at the Swede group which is owned by him and doing development work of considerable dimensions. Mr. Wulffsohn made the above statement this morning when seen at the Empress hotel and when told that the statement seemed rather a sweeping assertion, with the past of Colorado, Nevada, the Yukon and many other large American mining communities and the future possibilities of the same in view, he reiterated that Queen Charlotte Islands had before them a mining future that would be ahead of anything yet known on the American continent. As the Swede group he says there are estimated, 90,000,000 tons of ore. Throughout the past six months they have been considerable development work done there by day labor and work for the future has now been laid out on a large scale by contract. With the facilities at Moresby Island he says the Swede group can turn out for the smelter, 500 tons per day, and this within one year and a half. At Moresby Island the natural facilities for mining copper on a large scale make a low grade proposition away ahead of some of the rich finds in certain parts of America, where the transportation problems have held back the progress of the work for years, and in some instances have been of such difficulty to overcome as to make the prospect impossible for the time being until the country has been opened up by railroads. At Moresby Island and on others of the Queen Charlotte group the transportation difficulty will all be overcome in the future. The islands are provided with deep water to the shore and boats can be loaded at the mine. At the Swede group Mr. Wulffsohn says the mountain has been tunnelled on two of its three sides and the same class of ore bodies met with in all cases. There are no overhead trolley systems required, owing to the natural facilities. An offer of a large sum of money, the exact amount of

which was not stated, was made for the Swede group within the last few days. This, however, has been declined. The object of the owners is to retain an interest in the claims and have erected a large smelter on the property where five hundred tons of ore per day can then be treated. The islands also present almost unequalled facilities in regard to the timber supply for mining purposes, and all supplies such as coke for smelting can be obtained near at hand at reasonable cost, all of which says Mr. Wulffsohn go to make the propositions at Queen Charlotte Islands the finest on the continent.

ANNUAL PICNIC

Sunday School of Soldiers' and Sailors' Home Enjoy Outing.

The Soldiers' and Sailors' Home Sunday school held their annual picnic on Dominion Day at the White Lady beach, Esquimalt harbor. Mr. Day with his launch and boats conveyed the party to the grounds. It was voted one of the most enjoyable picnics in the history of the school. After luncheon an interesting programme of races was provided, the winners being as follows: Arithmetic race—1. Vincent Hicks and Mary Robinson; 2. E. Ricketts and A. King. Race, boys and girls under 10 years—1. Enes Wright; 2. Ethel Robinson. Potato race—1. A. King and E. Ricketts; 2. K. Parkinson and H. King. Egg and spoon race, adults—1. Mr. McGregor and Mrs. McGregor. Egg and spoon race, children—1. Vincent Hicks and Leslie Rowe; 2. E. Whittier and H. Parkinson. Obstacle race, adults—1. Mr. McGregor; 2. T. King. Obstacle race, children—1. Ted Bailey; 2. W. Giffen. Race, struggle, children—1. Ted Bailey; 2. Y. Hicks. Race, struggle, adults—1. Sherlock Holmes; 2. H. King. Sack race—1. R. Whittier; 2. E. Mesher. Tag-of-war—1. Mr. Watson's team. Rope climbing contest—1. Ted Bailey. Three-legged race, adults—1. Leslie Giffen and W. Smith. Three-legged race, children—1. V. Hicks and E. Mesher; 2. Ted Bailey and B. Giffen. High jump—1. W. Smith, 4 ft. 7 in.; 2. T. Bailey, 4 ft. 7 in. Long jump—1 and 2 tie, W. Smith, 8 ft. Holmes; 3. T. Bailey. Skipping contest—1. Dolly Banks; 2. M. Robinson.

BRIQUETTE COAL

There is trouble in Vancouver over the affairs of the Briquette Coal Company which was organized there by a promoter from the United States, J. C. Hanby. Several local men are interested in the new company, including E. A. James, J. W. Jones, M. Carlin and A. W. Bridgman. Dissatisfaction has been felt with the way the affairs are going and the promoter has come in for a full share of condemnation at the hands of those interested. Mr. James is in Vancouver at the present time in connection with the concern's business, which will likely be wound up. While the local men were interested to the extent of about \$5,000 in the affair their interests are well protected, it is said, and in any event their actual loss can only be nominal.

SCIENTISTS WILL VISIT VICTORIA

BRITISH ASSOCIATION WILL COME TO COAST

Dr. Bryce Asks Financial Assistance for Trip From City and Government.

Rev. Dr. Bryce, incoming president of the Royal Society of Canada, one of the best known educationalists in western Canada and the leading authority on the history of Winnipeg and the prairie country generally, spent this forenoon in Victoria in consultation with Mayor Hall and members of the government regarding grants toward the expense of bringing the delegates to the convention of the British Association for the Advancement of Science, which meets in Winnipeg next year, through to the Pacific coast after the meeting is over. This trip, which will cost about \$15,000, will have to be financed by the provinces through which its route is laid, Saskatchewan, Alberta and British Columbia, and the cities which will be visited, including Regina, Moose Jaw, Calgary, Edmonton, Vancouver and Victoria. Already the governments of Alberta and Saskatchewan have promised the amounts asked of them by Dr. Bryce and favorable replies have also been made by the prairie cities. Dr. Bryce would not say what was the measure of the assistance he expected from British Columbia or Victoria, but said that his requests had been looked upon favorably by Mayor Hall and the members of the government. The cost of bringing the association to Winnipeg will be about \$40,000, of which the Dominion government has given \$25,000, the provinces of Manitoba \$7,500, and the city of Winnipeg \$5,000. Next year will be the third occasion on which the association has visited Canada, the meeting place on the two former having been Toronto. One of these meetings took place in 1884 and the other in 1897. There will be, it is expected, about 500 delegates present at the meeting in Winnipeg next year, of whom about 200 will make the trip to the coast. The party will travel by special train which will consist of eight sleepers and two diners. As the delegates to the convention will comprise the most noted men of science in the British Empire, the trip is in itself an important event and it is expected will do good to Canada by introducing to these men the country's great western domain. As Victoria will be the end of the trip, according to present arrangements, a stop of a day will be made here. It is proposed to hold a banquet in Victoria, at which three or four of the most prominent members of the party will speak.

The party will travel west over the main line of the C. P. R. and go back the same way as far as Calgary, whence they will proceed north to Edmonton. From there they will travel by the Canadian Northern railway to Winnipeg, thus being given an opportunity to see an entirely different portion of the province.

Dr. Bryce is one of the most prominent figures of the prairie country. He lives in Winnipeg and for years has been connected with Manitoba university, on the councils of both of which he still holds a position, although some time ago he resigned his professorship in the latter. He is still, however, lecturer in English in the college and is also financial agent of that institution. His historical works on the prairie country are recognized as the best authorities in existence on the subjects dealt with.

Next year he will occupy the position of president of the Royal Society of Canada, and in that capacity the duty will devolve upon him of welcoming the members of the British Association for the Advancement of Science to this country and will also accompany the party west. Dr. Bryce arrived in Victoria last evening and left again for Vancouver at noon.

VANCOUVER REGATTA

Order in Which Cruisers Finished in Yesterday's Races.

The results of the yacht races at the Vancouver regatta held yesterday were: Special cruisers race—Lavita of Seattle, sailed by Ted Geary, first; Minerva of Vancouver, second, and Henrietta of Seattle, third. For 32 footers—E. B. Drane's Wideawake, first; Imp, second, and Gwendolin, third, the second and third boats being Seattle's owned. Twenty-nine-foot class—Two step, Winona and Adeline. The Winona men claim that the winner was ineligible owing to having been altered and now being over the measurement. In the race for the 25 footers the Dione beat Ashore and Titlicum beat the Aloha in the 21-foot class. In the 36 feet class there was only one entry. The races were sailed over the same course as the Alexandra-Spirit race, but the boats went around the other way, leaving all buoys to port.

During the month of June the receipts of the inland revenue department's local office amounted to \$2,381.10. The sources of revenues, with the amounts received are as follows: Spirits, \$3,990.42; malt, \$3,382.69; manufactured tobacco, \$5,572.97; raw-leaf tobacco, \$2,034.98; cigars, \$617.90; licenses, \$50. Other receipts, \$515.96. Total, \$23,164.10.

TWENTY INJURED IN COLLISION

Walk, Ohio, July 2.—An eastbound United car on the Lake Shore electric railway collided with a work train two miles west of this city to-day, resulting in the injury of nearly a score of persons. The collision occurred on a curve where the work train was standing, through a mistake in orders. There are six Englishmen to one Englishwoman in India.

YOUNG MAN DROWNED IN SWIFT WATERS
Parties Are Searching For Body of Charlie Daniels in Burrard Inlet.

Up to noon to-day no word had been received in the city of the finding of the body of Charlie W. B. Daniels, the 29-year-old son of Banfyde Daniels, of Laurel Cottage, Michigan street, who was drowned in Burrard Inlet, Vancouver, on Dominion Day. The boy's father left yesterday afternoon to assist in the search for the body, but it is feared that it may never be recovered because of the deep water and the strong undercurrents.

Young Daniels, accompanied by a gentleman named Plante, left Vancouver early in the morning with the intention of spending the day fishing in the Inlet. It appears that Daniels attempted to swim in the swift running water and was carried away. His companion plunged in to save him, but Daniels struggled so wildly that Plante was forced to relinquish his hold.

MILITIA MEN FOR QUEBEC ARE SELECTED
Those Who Will Represent Victoria at Tercentenary Have Been Named.

The body of men which will represent Victoria's militia force at the tercentenary celebration at Quebec was selected yesterday, five men being taken from each company in persuasion with the orders from the militia department providing for a total of fifteen non-commissioned officers and men from the regiment. The men selected are as follows:

No. 1 Co.—Sergt. Ross, Corp. Walker, Corp. Kroeger, Gr. Court, Gr. F. W. Newbury.
No. 2 Co.—Corp. Kinloch, G. Wars, Gr. Tribbe, Gr. Breidspord, and Gr. St. John.
No. 3 Co.—Sergt. Major Lorimer, Corp. Quarter Master Sergt. Hatcher, Gr. Berwick, Gr. Connorton and Gr. Bryce.
Lt. Col. Hall will have charge of the western contingent, consisting of 500 men from British Columbia and the prairie provinces. Lt. Sterns will act as adjutant, and Col. Hall announced this morning that Capt. W. N. Winsby, of No. 2 company, Fifth Regiment C. A., would be an anti-dut officer.

NOME PHENOMENON.
Snow-Covered Mountain at Headwaters of River Turns Completely Black.

Seattle, Wash., July 3.—A curious phenomenon is reported from the Nome River district, according to advices received from the Far North. Homer Bounds, who with J. E. Kjos, made a long trip overland from the Nome river to Nome reports that a mountain peak near the headwaters of the Nome river, has turned completely black and stands out plainly among the white peaks that surround it. The masher who have witnessed the curious occurrence are at a loss to know what caused the color of the peak to change to black. From the top of the peak almost to the bottom it is black and Bounds declares the blackening could not have been caused by the sliding down of the snow or by a shadow.

LAUDANUM FOR DESPONDENCY.
Fort William, July 3.—Wm. Cobbins, an Englishman, committed suicide this morning by taking laudanum. He was despondent and out of work.

PATAL ROW OVER WOMAN.
Grand Falls, N. B., July 3.—In a row on G. T. P. construction at New Denmark among Titians over a woman, one was killed and another wounded. The coroner has gone to investigate.

PERSONAL.
C. E. Niles, Mrs. Niles and two sons are registered at the Empress from Toronto. Mr. Niles and family are making a holiday trip on the coast.
F. C. Malpas, manager of the Canadian Bank of Commerce, Portland, is a guest at the Eriard.
Dr. Annie Cleland and Miss Nora Holmes returned to-day from a visit to Seattle.
F. R. and Mrs. Gerry, of Philadelphia, are registered at the Empress.

SIR WILFRID SURE HE IS STILL TRUSTED
Premier Gives Interesting Interview on Result of Ontario Election.

"To learn how Sir Wilfrid Laurier feels about the beating his provincial friends of Ontario got in the recent election is a mission upon which I have been sent," writes Mr. E. W. Thomson, Ottawa correspondent in the Boston Transcript.

Well, after all, Sir Wilfrid doesn't seem a bit sore. He takes the event like everything else, as an incident of the game or journey.

"The world is a place of troubles," he says. "Certainly the blow to my party friends in Ontario was a severe one. But they had to encounter in Mr. Whitney a very strong man, and they themselves were under a leader whose large ability is not so well understood as it yet will be—he has been leader but a short time.

"In some sense the result may be construed as a stroke against my government, but really it should not be so regarded. Some men's minds are for the moment confused. They confound the parties of the country in general. In the same way some of my friends in Quebec conceive their victory there, which is only less striking than that of the Conservatives in Ontario, to signify the unusual electoral victory for our party in federal politics. Neither one nor the other set of these rejoicers and disappointed have yet got the smoke of the two simultaneous but opposed provincial victories out of their eyes.

"My government may do less well at the next Dominion elections than Mr. Gouin's success seems to indicate, and far better than Mr. Whitney's may appear to denote. I am not discouraged, nor worried at all.

Stands on Record.
"You should consider that just as Mr. Whitney and Mr. Gouin had to stand on their record in office, so must I on mine. It is not one of which I have regret. The people must judge it and I confess to much confidence in their common sense. We have made some mistakes—not many, I believe, and not important. Our successes are obvious, and I think important. The sanity of the electorate in Canada is not to be questioned by me. The people are our final court of appeal.

"We are little disturbed by the alleged 'scandals'—at worst they are of trivial magnitude, mostly they have been dispelled by our own testimony, some have been admitted. The honor of no minister has been impugned. I have not ever observed the Canadian people to be much misled by the mere suspicions, imputations and accusations of any opposition. Also, we have plenty of time before us. Our term does not expire until November of next year. Much water may flow past in eighteen months. It is true that we may go to the country earlier—or may not.

"No—as you say—there is really no reason or common sense why a ministry should hold elections a year or more before they are legally necessary. The choice of time has been a matter, usually of ministerial strategy. Premiers have formed a habit of going to the country when circumstances seemed propitious. Whether it be now, or may be no later, I have really not taken into serious consideration. I am a man who crosses bridges when he comes to them.

"At present we are fully occupied with our duty of carrying on the business of the country in parliament. In the natural course of events we shall have to consider when the recess comes whether we have or have not evinced any such weakness, or party disorganization, or failure to carry our measures, as would warrant reasonable men of honor in thinking the confidence of the electorate withdrawn from them. It is perception, or doubt, of possessing public confidence which has always caused reasonable cabinets in British countries to seek a popular verdict before it becomes legally or constitutionally necessary to do so.

"For my part I quite fail to perceive

WEILER BROS.
HOME, HOTEL AND CLUB FURNISHERS—VICTORIA, B. C.

WHICH SHALL IT BE?

SOUR MILK, melted, tainted butter, putrid meat and stale fish, or do you prefer sweet milk, sound, wholesome butter, fresh meat and fish these hot Summer days? If the latter, a refrigerator is a necessity, and the sooner you install one the sooner you begin to save your health and money. Once you have decided to purchase, the next point is which and where. There are reasons—powerful reasons—why you should inspect our splendid stock of the latest refrigerators before coming to a final decision. In the first place we can show you a larger quantity, a greater quantity of first-class makes and sizes and, above all, we ALONE can show you the "McCray" refrigerator—the monarch of them all. As to prices—well! our lowest price is \$12 and our highest \$100. The latter, of course, is a very large hotel size. We do not stock any lower-priced refrigerators than \$12, because we should risk our reputation if we did, and our reputation for selling reliable goods only is of more value than the profits on a few sales of low grade refrigerators—the dangerous sorts. We are always delighted to show the various makes of really good refrigerators and explain their construction—we have nothing to hide—our refrigerators will stand any reasonable test you like to make.

WEILER BROS.
Complete House Furnishers. Victoria

any evidence that my government has lost public confidence. Quite the contrary. Our majority is unimpaired in both Houses. The by-elections have favored us. There is no turmoil of agitation against us—it would be ridiculous to interpret an exhibition of Ontario confidence in Sir Whitney as one of a lack of Ontario confidence in me. I am conscious of having done well by Ontario, of having striven to deserve approval from the people there—as from those everywhere else.

GANS-NELSON BOUT.
Dusky Fighter Favorite at Odds of Two to One.
San Francisco, July 3.—The sale of seats for the Gans-Nelson fight continues heavy and from present indications a \$25,000 gate is a certainty. All the cheaper seats have been disposed of and the sale of the higher priced seats is proceeding briskly. There is ample Gans money in sight but the Nelson end is inconsiderable. The odds of two to one on Gans still predominate and in some instances bets are being made that the champion will win inside of twenty rounds, for which even money is the ruling figure.

BANK NOTE FAME.
Poughkeepsie, N. Y., July 3.—Wm. C. Smilie, formerly a well known bank note engraver, died at his home in this city yesterday, aged 96. He was a member of the old New York firm of Raden, Wright, Hatch & Co., that was merged into the American Bank Note Co. many years ago, and was the founder of the British American Bank Note Co. in Canada. He retired from business in 1871. His wife, who is in her 82nd year, and one son, a bank note engraver in Buenos Ayres, South America, survives.
