VICTORIA, B. C., MONDAY, OCTOBER 8, 1917

NO. 85

## URUGUAY TOO LINES UP AGAINST GERMANY; CUTS OFF RELATIONS

**Passports Handed German Minister; President Declares It Necessary to Uphold Cause of Defenders of Justice and Small Nationalities**

Montevideo, Oct. 8.—Uruguay has severed diplomatic relations with Germany. A Presidential decree yesterday announced the rupture, following a vote in favor of it by the Chamber of Deputies 74 to 23. Passports were sent to the German Minister.

The vote in the Chamber was taken at 2 o'clock yesterday morning. President Viera in his message to Parliament declared that the Uruguayan Government had not received any direct offence from Germany, but that it was necessary to espouse the cause of the defenders of justice, democracy and small nationalities.

Lima, Peru, Oct. 8.—The Peruvian Government, which on Saturday handed passports to the German Minister, yesterday ordered the

Peruvian Minister to Germany, A. von der Heyde, to leave Berlin. The Government also ordered the withdrawal of all the Peruvian Consuls in Germany.

Search for Luxemburg.

Montevideo, Uruguay, Oct. 8.—A British cruiser stopped an outward-bound Spanish steamship seven miles off this coast, according to advices received here to-day. The steamship was held up, it is supposed, in the belief that Count Carl von Luxemburg, the former German Minister to Argentina, who recently was given his passports, might be on board.

A Buenos Ayres dispatch on October 5 said that Count von Luxemburg had left Argentina that day for Montevideo, where he boarded a Spanish steamship which later sailed for Spain.

Uruguay's action now arrays against the Teutonic alliance of Germany, Austria, Bulgaria and Turkey fifteen nations. They are in the order of their entrance, Serbia, Montenegro, Belgium, France, Russia, Great Britain, Japan, Portugal, Italy, Greece, United States, China, Siam, Brazil, Costa Rica, San Salvador, Argentina, Peru and Uruguay. Of these no formal declaration of war has been made by the last six. A formal declaration need not necessarily be a form of words, an overt act of war sometimes being the only declaration made.

In addition to these may be counted in South American Paraguay, which refused to harbor the German Minister dismissed from Argentina. Chile is still on the fence, leaning towards the Entente as an opposite tendency might provoke aggression from Brazil and Argentina, an alliance to which Peru, the other neighbor of Chile, might incline. Of the remaining South American countries, apart from the Dutch, French and British Colonies, nothing has been heard definitely. They are Venezuela, Colombia and Ecuador. In Central America Panama, Guatemala, Nicaragua and Mexico still are neutral.

The Old World.  
In Asia the only neutral countries are Persia and Afghanistan. Persia is disorganized and has been made a battleground, some of her people fighting for Russia, some for Turkey and some benevolently neutral towards the British. The Afghans are recruiting for the British armies.

There is no independent government in Africa. Practically the whole continent is pro-Ally with the exception of a few Germans being hunted down in East Africa and some desert tribes in revolt against the Italians south of the Tripolitan coast.

In Europe the only neutral countries are Spain, Holland, Denmark, Norway and Sweden.

More than sixteen-sixths of the world's population are in the west, the proportion being ten to one against the Teutonic alliance.

**Russian Families Officially Warned to Leave Finland**

Stockholm, Oct. 8.—The military commandant at Viborg has published a warning to all Russian families to leave Finland.

He points out that the scarcity of provisions and the prices and economic conditions existing between Russia and Finland are difficulties bound to become worse, particularly if Finland is to be turned into a battlefield.

**EFFORT TO CREATE COALITION CABINET FOR SWEDISH NATION**

Stockholm, Oct. 8.—Representatives of various political parties at a meeting at the office of the Ministry of Foreign Affairs here yesterday decided to reply separately to the appeal of King Gustav to form a coalition cabinet to succeed the Swartz Cabinet, which resigned last week.

## A Brand New German Battle-Cruiser Hit Mine; Towed to Port

London, Oct. 8.—Persons arriving at Amsterdam from Hamburg, says a dispatch to the Exchange Telegraph Company, represent that early last week a new German battle-cruiser, while on a trial trip off Heligoland, struck a mine and was seriously damaged. Three officers and 20 sailors were drowned. The vessel was towed to port.

## Russians Took Head of Enemy Airmen in Black Sea District

Petrograd, Oct. 8.—Russian scouts from the Caucasus army, in a daring raid, captured General Count von Meyer, head of the German air service in the Black Sea district, according to an official announcement issued here last evening.

## WILL BE REGARDED AS MEN ON LEAVE

Position of Men of Class One Soon as Proclamation Issued

REGISTRARS RECEIVE WORD FROM OTTAWA

Winnipeg, Oct. 8.—The proclamation calling out Class 1, single men between the ages of 20 and 34, and widowers without children, will be published in The Canada Gazette next Saturday, October 13, at Ottawa. With the issuance of the proclamation the men affected will become soldiers on leave without pay, according to the Military Service Act. This announcement was made to-day by E. R. Chapman, registrar for Manitoba under the Act, who has received a wire from Ottawa authorizing its publication.

Lennie Informed.

Vancouver, Oct. 8.—I have just been officially advised that the proclamation calling upon Class One for service under the Act respecting military service in Canada will be issued on Saturday next, October 13," said Registrar Lennie to-day.

With the near approach of the date of issuance of the proclamation calling upon Class One men for military service, Mr. Lennie is rapidly gathering his office staff together and making every arrangement to provide for the smooth working of registration.

## RAIDING SMALL BOAT WAS SENT FROM SEE ADLER IN SOUTH PACIFIC; IS TAKEN

London, Oct. 8.—An Exchange Telegraph dispatch from Melbourne says that it is reported there that a whaleboat with a crew of Germans from the raider See Adler was captured in the vicinity of the Fiji Islands. The boat contained a gun and machine guns, the dispatch says, and the Germans admitted they had been detailed from the See Adler to make raids.

The presence of two German sea raiders in the South Pacific was made known in dispatches from Samoa to the Washington Navy Department last week. Both vessels were said to have been manned by the crew of the See Adler. Several merchantmen are reported to have been sunk. The See Adler was active in the South Atlantic last spring, sinking 11 merchantmen there.

## AGREE ON CABINET BUT RAILWAYS IDLE

Just as Russians Settle Problem of Government Strike Begins

Petrograd, Oct. 8.—After a conference of three hours between members of the Government, including Premier Kerensky and a delegation representing the democratic congress and representatives of the bourgeoisie yesterday, a complete agreement was reached on all questions. The Premier declared that the Government proposed immediately to form a complete Cabinet so that the reconstituted Coalition Government might be able to go to work at once on the basis laid down.

In view of the Government's objections the representatives of the democratic congress withdrew their request that one of their delegates participate in the forthcoming Inter-Allied Conference at Paris.

Railroad Strike.  
Petrograd, Oct. 8.—The general railroad strike order, which promises a complete tie-up of traffic except sanitary and military trains, became effective at midnight Saturday-Sunday. All passenger trains scheduled to leave Petrograd yesterday, except for the front, were abandoned.

The strike was carried into effect in spite of the warning given by N. Nikitin, Minister of Posts and Telegraphs, that the strikers would have to answer charges of treason, and calling upon the telegraph operators to refuse to transmit the strike order.

Unity Imperative.  
Petrograd, Oct. 8.—When a committee from the democratic congress visited Premier Kerensky yesterday, he addressed it as follows:

"The growth of anarchy, the condition of political ruin which confronts the country, the estrangement of various groups and the strivings in certain quarters to restore the former regime force a recognition of the necessity of union and coalition. Only the union of the bourgeoisie and the democratic elements can save the country."

Minister of Foreign Affairs Tereshchenko pleaded for a reconstruction of the nation's forces, so that "the delegates who will participate in the Paris conference on October 16 may point out to our Allies that our fighting force has been renewed and that our boast of strength is no myth."

## WINNIPEG FACING SERIOUS SHORTAGE OF COAL; ITS NEEDS

Winnipeg, Oct. 8.—According to an official of one of the coal concerns of this city, Winnipeg requires 600,000 tons of coal for the year, and all the coal received so far at all the docks at the head of the lakes is 370,000 tons. That leaves the city facing a shortage of 230,000 tons at least. All the local coal men are swamped with orders, retail and otherwise, and said this authority, "no one is taking on any new customers, and some of the big firms are taking no orders from the country at all. We do not any of us know where we are at."

## REICHSTAG MAJORITY NOW FORCING HAND OF JUNKER MICHAELIS AND FELLOWS

London, Oct. 8.—External pressure to force the German Government to set forth its war aims clearly having failed on the surface, internal conditions within the Empire threaten to compel the issuance of a full statement of Germany's aims. What the German party leaders want, if they are successful, will be discussed in the Reichstag this week, probably to-day.

The Imperial Chancellor, Dr. Michaelis, is finding the way as difficult as it was for his predecessor, von Bethman-Hollweg, and he must now face the critics of the Government in the Reichstag. Whether, as has been charged, the bureaucracy and the army have been furthering the Pan-German scheme of annexation and indefinitely, is expected to be brought out in the Reichstag debate.

Dr. Michaelis on Saturday sent Minister of the Interior Hefferich before the Reichstag to make a statement on his behalf. Hefferich failed to mollify the critical members of the Reichstag and the sitting was adjourned to-day after the Vice-Chancellor's speech had been interrupted. General von Stein, the War Minister, was jeered when he attempted to explain the army's side of the accusation that the high command has been using very strong methods to help the Pan-German agitation.

A Test.  
Former Chancellor von Bethman-Hollweg some months before his resignation had a test of strength with Admiral von Tirpitz, the reputed organizer of ruthless submarine warfare, and the Chancellor won. The admiral since has been busy and the new Fatherland Party, of which he is one of the sponsors according to recent reports, has been very active in opposing the Reichstag majority declaration for peace without annexations or indemnities. It has now come to a test between the followers of von Tirpitz and the Pan-Germanists.

The majority of the Reichstag on the other hand, recent reports have shown that the feeling between the Pan-Germans and the Reichstag majority has been becoming more intense, some Socialist members of the Reichstag having gone so far as to charge that the agitation of the Pan-Germans is dividing the German people into two camps on the question of the aims of the war.

Hefferich Censured.  
Amsterdam, Oct. 8.—German newspapers which support the Reichstag majority severely censure Dr. Hefferich, the Vice-Chancellor and Minister of the Interior, for his incapacity to respond to the feeling of the Reichstag and expect decisive happenings in a day or so. They are of the opinion that the future of the Government may depend on the debate which began to-day, in view of the motion of the Independent Socialists that the Reichstag is of the opinion that the reply of the Government to the interpellation last week did not meet the intentions of the Reichstag.

The Vossische Zeitung declares that this motion is a vote of censure formally directed against Dr. Michaelis, the Imperial Chancellor, but really against Dr. Hefferich.

The Vorwaerts says that if the motion is adopted, Chancellor Michaelis and his colleagues must resign or the

## THIS GERMAN BEGINS TO PERCEIVE TRUTH

Goethein, Reichstag Member, Admits British Not Thinking of Peace

Amsterdam, Oct. 8.—George Goethein, a Progressive member of the German Reichstag, is quoted in a Berlin dispatch as having said at a meeting of the central committee of his party that although the military situation was satisfactory there was no hope of crushing Germany's enemies on land.

As for the submarine campaign, 7,000,000 tons of shipping had been sunk, he asserted, but no disposition toward peace was to be seen.

A rationing system for foodstuffs had not been introduced by the British and no one was able to say when the U boats would make Britain more inclined for peace.

"The United States can not be forced to make peace," Goethein continued. "We can not force the United States to pay a war indemnity. There remains only England. But should we, in order to obtain an indemnity of 10,000,000,000 marks, sacrifice 50,000,000,000 marks and another half million men?"

Germany's allies, Goethein continued, were not inclined to continue the war for Pan-German plans of conquest but were striving for peace by arbitration and conciliation, while the Pan-German clamor for annexation was finding a bad reception among them.

He asserted that the long working hours and insufficient feeding at home were increasing the desire for peace among the workers in Germany and that strikes might be expected if the war should be continued for aims of conquest.

## SIR E. LETCHWORTH DIES IN LONDON

London, Oct. 8.—Sir Edward Letchworth, grand secretary of the English Free Masons, died in London to-day. He was 84 years of age.

## ENEMY HARASSED BY HAIG'S MEN FOR NEXT BLOW; ATTACK BROKEN

From New Positions in Belgium British Pounding Germans on Lower Land; Enemy Repulsed East of Polygon Wood; British Got Some Prisoners

London, Oct. 8.—Approaching cold weather on the western front is forecast in the appearance of snow in the Vosges Mountains. In Flanders the weather has been most unfavorable the last two days, but the official reports mention no let-up in the violent artillery duels. The British apparently are using the new positions won last week as a base from which to harass the Germans in the lowlands between the Passchendaele-Gheluvelt Ridge and the Roulers-Manin railroad in preparation for a new stroke in the plan to outflank the German positions in the north.

To-day's report from Field-Marshal Haig indicates no slackening of the artillery activity in Flanders. A definite development reported was the launching of the expected counter-attack by the Germans.

## MAY MAKE ATTEMPT ON HELSINGFORS

Germans Seem to Be Preparing; U Boat Escapes From Cadiz

London, Oct. 8.—Unofficial reports from Stockholm say strong German naval forces have been sighted in the Baltic Sea off the Danish and Swedish coasts, bound probably for the Gulf of Finland for an attempt on Helsingfors, Finland, and Petrograd. The Germans are said to be concentrating a large force, including minesweepers, submarines and transports, and plan to attack Helsingfors by land and sea.

U Boat Escapes.  
Madrid, Oct. 8.—A German submarine interned at Cadiz has escaped.

Several German submarines have sought refuge in Spanish ports during the war, and one of them, which put in at Cadiz, was escorted out of the port later by Spanish torpedo boats. To prevent further incidents of this nature, King Alfonso on June 30 last signed a decree forbidding submarines of belligerent powers to navigate Spanish waters or enter Spanish ports. It was declared that all submarines which entered the Spanish zone would be interned.

Drastic Action.  
Washington, Oct. 8.—The Spanish Government has taken drastic action to discipline the officials responsible for the safe internment of the German submarine which escaped from Cadiz.

On the basis of official dispatches from Madrid the Spanish Ambassador, Juan Riano, made this announcement: "In spite of all the precautions taken by the Spanish naval authorities, including the removal of pieces which were supposed indispensable for navigation, the German submarine U-C-293, interned at Cadiz, escaped yesterday afternoon, leaving its guns, torpedoes and munitions on land, where they had been deposited. The Spanish Government has opened a court-martial."

## ELEVATOR STRIKE COMES TO AN END

Operations Again at Head of Lakes; a Government Director

Fort William, Oct. 8.—By the unanimous vote of a mass meeting of the elevator workers taken here at 11 o'clock last night, the elevator strike which has paralyzed the grain traffic at this point and throughout the West for seven days was brought to an end.

Leslie H. Boyd, chairman of the Board of Grain Commissioners, appointed by order-in-council director of grain elevator operations at the head of the lakes, lost no time in exerting his authority and issued notices to the elevator operators of his appointment, securing assurance of their co-operation. The telegram confirming his appointment arrived just at the close of a meeting with the striking employees, during the course of which Mr. Boyd and E. N. Crompton had outlined the action of the Government.

To-day all the elevators here and at Fort Arthur are operating under control of Director Boyd. It is reported that the railway companies have lifted the embargo on grain shipments to this port.

The attack delivered after a heavy barrage had been laid down, was made east of Polygon Wood, where the British are established on the highest point of the Passchendaele-Gheluvelt Ridge. The British guns beat off the Germans, a few of whom remained as prisoners in British hands.

London, Oct. 8.—German troops made an attack last evening on British positions east of Ypres, where the British recently have made important advances. The War Office reports that the enemy was repulsed. The communication reads:

"An infantry attack developed against our positions east of Polygon Wood after the enemy had put down a heavy barrage yesterday at dusk on our front between the Hollebeke region and Broodseinde. The attack was beaten off by our fire, a few prisoners remaining in our hands.

"We successfully raided the enemy's line east of Monchy last night."

## UNION PROPOSAL HOVERS ON BRINK

That is How Correspondent at Ottawa Describes Situation To-day

Winnipeg, Oct. 8.—The Ottawa correspondent of The Winnipeg Free Press writes:

"Union Government hovers on the brink. It may be consummated Tuesday. Whether it will be a Union Government really representative of Western Canada and Ontario Liberalism, without taking into consideration Quebec or the Maritime Provinces, or whether it will be a pseudo Union Government of Sir Robert Borden's 'second choices' among certain Western and Ontario Liberals who are prepared to enter the Government if the first choices turn down the offer, still is uncertain. The indications, however, would seem to be that Sir Robert is likely to achieve the end he has sought so persistently for the past few months.

"Premier Sifton of Alberta most certainly will join the administration in any event. The Saskatchewan representative is likely to be Hon. J. A. Calder, and the Manitoba representative T. A. Crerar, president of the Grain Growers' Grain Company. If these three leaders of the Western provinces finally decide after a conference with Sir Robert Borden that they think the national interest can be best served by avoiding a fight along party lines, further progress toward union is likely to be made by the inclusion of Ontario Liberal leaders.

"N. W. Rowell, the leader of the Opposition in the Ontario Legislature, arrived here yesterday and is conferring with the Western men on the union Government question.

"Failing the entry of Messrs. Calder, Crerar and Rowell into the Government, Sir Robert Borden, it is understood, has several other Liberals in reserve, including J. G. Turris, M.P. of Saskatchewan, and Messrs. Johnson, Pitblado and Brown, of Manitoba. Sir Robert wants a definite answer Tuesday at the latest."

## \$15,000,000 More to Great Britain From American Government

Washington, Oct. 8.—Another credit of \$15,000,000 was advanced to-day to Great Britain by the Government of the United States.

**DID NOT COMPLY.**

Mexico City, Oct. 8.—The Procurator-General of Mexico has sent to Ambassador Bonillas at Washington the history of the concession of land in Lower California to Flores Hale & Company which recently was declared void. The land, amounting to about 15,400,000 acres, reverted to the Government. The United States Department of State requested Mr. Bonillas to inform it why the concession had been declared void and the land open to settlement.

According to the Procurator-General the company did not comply with the requirements of the concession, which stipulated that a certain number of Mexican and foreign families were to be established on the land within a certain time.

### REPULSED ATTACKS; TOOK SOME PRISONERS

Italian Batteries South of Tolmino Shelled Motor Lorry Columns

Rome, Oct. 8.—A series of surprise attacks launched by Austrian troops at various points on the Italian front met effective resistance, the War Office here reported last evening. Italian forces carried out a successful raid on the northern slopes of Monte San Gabriele, taking prisoners. The text of the report follows:

"On Friday night, favored by bad weather, enemy troops made a surprise attack on an advanced post in the Costabella region in the San Fallegro Valley, and attempted by a heavy barrage to prevent us bringing up reinforcements. The arrival of reinforcements and the efforts of the garrison drove the enemy back to his starting points. Other parties attempted similar action at Crodade, Longelini and Fabois-Visdende. They were dispersed by our fire.

"South of Tolmino our batteries effectively shelled numerous motor lorry columns in movement.

"East of Gorizia yesterday our parties, after brief but effective artillery preparations, raided some caverns on the northern slopes of Monte San Gabriele and took prisoner one officer and 25 men."

### QUEBEC RECEIVES ITS FIRST HOSPITAL SHIP

Discharge Depot Gives Disabled Warriors Great Welcome on Arrival

Quebec, Oct. 8.—The great discharge depot of the Military Hospitals Commission has been arranged for 2,000 disabled men and soldiers to sit down in groups of 600 to eat, received its first hospital transport direct from England last week.

For several months it has been caring for men who came from Halifax by train to be discharged and distributed to the various convalescent homes and hospitals of the Commission across the country, but this was the first ship which landed at its own wharf.

The whole organization works like a clock under the management of Col. Guy Mariot, the officer commanding, and is unsurpassed for efficiency. Every possible provision is made for the soldier's care and comfort and the praise of the men sent on their way across the country from this centre has met Capt. T. W. Jones, the Y. M. C. A. officer, at every turn in his tour through the West in connection with the Military Hospital Commission moving pictures which are now being taken.

Cleared in Ten Days.

All the men landed here are medically boarded and each man's vocational history recorded. The men from the West are attended to first so that they may get on their way, but all are cleared in ten days. These are full of interest and entertainment for the men, and every one of them is eager to get home to their families, there is no dissatisfaction expressed at being held.

There are sports, concerts, drives and picnics every day. The English-speaking people of the city of Quebec cannot give them enough of their hospitality. There have been as many as 22 concerts given in one week, and always there are 10, one up town and one at the depot every night.

Credit Extended.

A military canteen run by a canteen committee extends credit to the men to the amount of \$5 and arranges for credit to be given for stamps, tailoring and even car tickets, the amount to be taken from their pay at the close of their stay.

The street railway company provides two special cars every night to take the men uptown, and private motor tours as well as those arranged by the Quebec Auto Club give every man a chance to see the quaint old city.

The tuberculous cases have a ward of their own, a roof garden, and a special recreation hall where a pathoscope movie provides entertainment for them. A large movie machine has been installed in the big recreation hall of the building and plays a big part in the entertainment of the men.

"Depot Night."

One night during their stay is called "Depot Night" and moving pictures are shown to the assembled men of the work of the Military Hospital Commission for them. They see just where they are going to be treated and how they will fare, what arrangements are being made to help them back into civil life again and what their chances are.

"It is a night of intense interest to every man, and hundreds of questions are asked and answered following the film. Seventy-five per cent. of these are questions about the outlook in the district from which a man comes. There is little evidence of a desire to settle in a new place.

When they leave, the bed cases being in a hospital coach attached to the train, they are all given cards of introduction to the secretary of the Soldiers' Aid Commission or the Military Hospitals Commission, and tickets of membership for six months in the Y. M. C. A.

### SOFT DRINKS SOLD IN VANCOUVER SUNDAY

Vancouver, Oct. 8.—Despite warnings of the police two soft drink vending places here remained open yesterday, and as a result a test case, will come before the police magistrate, at which it will be determined whether there was violation of the Lord's Day Act. The places that kept open were former bars and were selling the customary two per cent. beer when warned.

There have been but two arrests here for drunkenness since the advent of prohibition.

## A Stunning Suit for \$27.50

Twenty-seven dollars and fifty cents does not appear to be a very large sum of money to pay for an up-to-date Women's Suit, and when you come to compare the Suits included in this offer it will seem still less.

We do not know where it would be possible for you to obtain such excellent values as these at any other store in the city:

- The same quality of materials.
- The same excellence of workmanship.
- The same up-to-the-minute styles.
- Certainly not for the same money.

You are cordially invited to pay us a visit—we feel satisfied that it will well repay you for the time so spent.

We are specialists in purveying Women's Ready-to-Wear at reasonable prices.

### BRITISH BROKE UP ATTACK; MADE RAIDS

Weather in Belgium Much Colder; Attack Repulsed by French

London, Oct. 8.—The following report from Field-Marshal Haig was given out here last night:

"The weather is stormy and a heavy rain has fallen all day. An advance of enemy troops attempted at dawn was broken up by our artillery and rifle and machine gun fire. Towards dusk this evening the enemy put down a heavy artillery barrage on the greater part of our front between Broodseinde and Hollebeke, but no infantry action followed. The artillery activity on both sides was considerable to-day on the battlefield.

"There was nothing of importance on the remainder of our front.

"The weather was still very unfavorable for flying on Saturday, but a little artillery work was done. We dropped one and a half tons of bombs on enemy cantonments, including railway stations, and our fighting machines went out whenever possible. One failed to return. One bombing machine which went out Thursday night also is missing."

The following official report was issued yesterday afternoon:

"There was considerable artillery activity on the battlefield in Belgium during the night. We successfully raided enemy positions southeast of Broodseinde, inflicted several casualties and brought back 20 prisoners and a machine gun. A raid attempted by the enemy south of the Ypres-Comines Canal was repulsed. Another successful raid was carried out by Leicestershire troops west of Cite St. Elle.

"The weather is showery and much colder."

French Reports.

Paris, Oct. 8.—The following report was given out by the War Office here last night:

"There was no infantry action. The artillery action was violent at times in Belgium, at various points on the Aisne front and on the right bank of the Meuse.

"Eastern theatre, October 6.—The activity of the artillery was quite marked on the Vardar front, north of Monastir and in the region of the lakes."

The following official report was given out yesterday afternoon:

"Our own and the enemy's artillery was active in the Vauxaillon, Laffaux and Hurbise sectors and on the right bank of the Meuse, particularly to the north of Hill 344 and in the direction of Bezonvaux.

"In the Champagne, at the close of the day, we repulsed a strong surprise attack against our Navarin Farm Farm trenches. The enemy suffered losses and was repulsed without attaining any success.

"There is nothing to report from the other portions of the front."

### 762 WERE CAPTURED BY RUSSIAN TROOPS

Height and Part of Village on Roumanian Front Taken; Abandoned

Petrograd, Oct. 8.—Russian troops on the Roumanian front captured a height and part of the village of Vaskoutoy, northwest of the town of Sereth, in well prepared attack on Saturday, but later abandoned the ground, which was being subjected to heavy fire by hostile artillery. Prisoners to the number of 762 and 7 machine guns were taken, the War Office announced in the following report:

"Northern front—At 5.30 Saturday morning, after artillery preparation, detachments from one of our regiments captured as the result of a bold attack the height and half of the village of Vaskoutoy, two versts northwest of the town of Sereth. At 1 o'clock, and again at 3 o'clock in the afternoon, the enemy launched counter-attacks, which we repelled. Owing to the terrific fire of the enemy artillery our detachments, having performed their tasks, abandoned the village of Vaskoutoy and returned to their previous positions. The number of prisoners enumerated up to the present totals 12 officers and 750 men. Seven machine guns also were captured.

"Caucasian front—There is nothing to report.

"Aviation—A squadron of three of our aeroplanes, with the Caucasian army, in the direction of Sivas, made a raid in the region of Rifaj. Four hundred pounds of bombs were dropped."

### FORMER GERMAN SHIPS USED IN PHILIPPINES

Washington, Oct. 8.—A dispatch from Manila says that seven German vessels seized in the Philippines at the outbreak of the war have now been detailed to inter-island service on orders from the United States Government.

These vessels are to be used in relieving the shipping famine in the Islands. With increased prosperity due to war demands for Philippine products and the withdrawal of several inter-island vessels for more profitable foreign runs, the shipping situation in the Philippines in the past two years has gradually grown critical. The use of the German steamships will make possible the movement of thousands of tons of products now tied up.

It will not, however, solve the export problems of local producers.

Shipping rates to Manila and other Philippine ports are scarce and cargo space is difficult to obtain, while freight rates are sky-high. The better grades of sugar, tobacco, cigars, hemp, copra and embroidery, which are commanding high prices in the United States, can pay these rates but other products suffer.

In Iloilo there is still stored 80,000 tons of low grade sugar, worth perhaps three cents a pound on the American market. It will not be accepted as freight for less than that figure, as sugar rates to New York are about \$45 a ton. Unless the government intervenes an economic catastrophe is feared in the southern sugar districts.

### INCREASE URGED FOR TELEPHONE EMPLOYEES

Vancouver, Oct. 8.—Increases averaging 17 1/2 per cent. in wages for the 350 electrical workers of the B. C. Telephone Company are recommended by the arbitration board which conducted an investigation into the claims of the men recently. Mr. Justice Murphy was chairman of the board.

The contention of the men for a closed shop was refused, the representative of the electrical workers dissenting from this feature of the report.

The increases recommended will call for \$25,000 from the company annually over the present wage bill.

It is not certain that the men will accept the award, which falls below their

### AMERICAN FARMERS URGED TO MARKET THEIR WHEAT

Portland, Ore., Oct. 8.—Assurances have been given that the price of wheat determined by the President will be maintained throughout the year by the Food Administration of the United States, and that there can be no objection in holding wheat. In fact, the farmer saves interest and deterioration by marketing early. At the present time the railroads of the Northern States can handle more wheat to storage points for ready distribution and to the mills to be manufactured into flour for domestic consumption and exportation to the allies of the United States, where it is much needed and for which ships are available at ports.

The railroads are appealing to the farmers to bring their wheat to market now. Later in the fall the handling of many more products will cause congestion and delay. The railroads are now being operated in common to serve the entire community. The demands for movements of military forces and supplies will be an increasing burden. Therefore, the railroads are asking the co-operation of the entire community.

## I WANT LISTINGS

of good Houses at reasonable prices. I have buyers.

**Arthur Sinehem**  
FARFIELD BLDG., 1605 DOUGLAS ST. PHONE 664

### \$20 LET ME SAVE YOU MONEY \$20

There's no reason on earth why you should pay \$30 or \$35 for a made-to-order Suit when I can do the same thing for \$20.

# FURNITURE FOR THE HOME

Our aim is to furnish homes neatly, artistically and economically. We want you to inspect our stock of Home Furniture. You will be pleased with the reasonable prices and surprised at the large and varied stock we carry. Many of the latest and best designs in Iron Beds, Bedroom, Dining Room and Parlor Furniture in stock at lowest prices in town. Be sure to see us before deciding on your furniture purchases. Country orders packed and shipped free. We give a discount of 10 per cent off regular prices for spot cash.

## WINDOW SHADES

We use nothing but the best "Hartshorn" Rollers, and the best hand-made Oil Opaque, and we guarantee every Blind we make to give perfect satisfaction. If you are in need of Window Blinds, call and see our range of colors and get our prices. We make Blinds to order and put them up complete, plain with only a tassel with fringe, or with nice lace. We also cut down and alter old Blinds. Estimates cheerfully furnished. Let us take the measurements to-day.

**SMITH & CHAMPION**  
THE BETTER VALUE STORE  
1420 DOUGLAS ST. NEAR CITY HALL

## YOU ARE HARD TO HEAR WHEN YOU DO NOT SPEAK RIGHT INTO THE TELEPHONE

When YOU are telephoning, and your lips are six or eight inches away from the mouthpiece, the person you are talking to can hardly hear you. The exhaustion of listening attentively to a weak, incoming voice, is like trying to catch every word spoken in a whisper. Under such circumstances, the true import of the message is lost.

A Close Position to the Telephone Means Easy Talking and Easy Hearing

The telephone is built for actual conversation, but to realize the full benefit the lips must be close to the mouthpiece.

The farther away from the telephone you are, the more difficult it is for the other person to hear you.

## GREEKS PROCEEDING ON A WAR BASIS

Acting With Allies; Matter of Formal Declaration of War

Athens, Oct. 7, via London, Oct. 8.—The Greek Government holds that Greece is at war, but some of the foreign governments, including that of the United States, are not yet clear on the status of Greece as a belligerent. Officially the Greek authorities are proceeding on a war basis; the army is doing its share of fighting on the Salonica front; the navy is chasing Austro-German submarines; all diplomatic relations with Berlin and the other enemy capitals have been broken and the Ministers recalled. This establishes a de facto condition of war, but whether it is war in the sense defined by international law is still open to question. The difference is not only a technical one, but it is of much importance whether a country is, or is not, at war.

Foreign governments are obliged to shape their relations to it as at war, and not as if it were a mere technicality. If taken prisoners by the enemy, are in much different relation if the country is at war than if it is not at war. According to the Greek Government's view, the existing Greek regime is at war because it is the regime which Venizelos brought from Salonica. As Venizelos had formally declared war at Salonica, this state of war continues now that he has transferred his regime to Athens. The stumbling-block, however, is that the Greek constitution says the King is the only one who shall declare war. To meet this requirement, King Alexander made a reference to the war in his speech from the throne at the opening of Parliament, but the issue still remains as to whether this was a declaration of war or of a state of war with all that formality which places Greece among the belligerent nations. Meantime Greece has brushed aside the technical question by carrying on de facto warfare the same as any of the other fighting nations, and most of the Allied Governments have recognized her as a belligerent. A law just submitted to the Chamber by the Minister of War formally makes August 16, 1916, as the date when Greece began hostilities against the Central Powers, which extends the war period back to the days of King Constantine. Nothing warms some men up like an application of cold cash.

## HUGE ORGANIZATION TO FLOAT WAR LOAN

Effort of Ottawa Government to Get Nearly All to Subscribe

Toronto, Oct. 8.—The largest single piece of business machinery ever created in Canada, larger than any of its kind ever organized in any country, with many more ramifications than all the banks, railways and telegraph companies in Canada combined, all to be used and then broken up in the next sixty-two days, was described here on Saturday by the Minister of Finance, Sir Thomas White. It consists of a gigantic selling organization with thousands of agents scattered throughout every province in Canada, in every country hamlet, lumber camp, fishing port and crowded city from the edge of the Atlantic to the shores of the Pacific. All will be under one supreme command seeking a single object—money. Wherever a dollar bill is hidden in Canada there will be a "dollar detective" on its trail politely to arrest the attention of its owner and lay before him the attractive proposition of Jack Canuck. Jack Canuck, in other words, is out to borrow money from his folks. He wants \$150,000,000, and to get it he offers a handsome rate of interest and unrivalled security. It will be known as the "Victory Loan."

In the last war loan raised in this country there were fewer than 40,000 subscribers out of a population of over 7,000,000. This does not compare favorably with the loan by the Americans to Uncle Sam. In the city of Detroit and its immediate environs there were 115,584 subscribers out of 800,000 inhabitants, though Uncle Sam was offering only about half the interest that Canada will pay Canadians. In other words, only about four out of every 700 Canadians bought a war loan bond, whereas the proportion in the United States was more like 80.

Not a Fair Chance. The conclusion reached by the financial authorities here was that Canadians were not a whit less patriotic, not a little less able to subscribe than Americans, but they had not been given a fair chance to understand what was being offered them. The big corporations and the experienced investors absorbed the previous loans before the modest fellow with only \$50 or \$100 to offer understood the proposition. This time instead of letting the personal L.O.U. of Jack Canuck find its own takers, the bank dealers, bankers, news and advertising agencies of Canada have merged their private interests in the interest of country instead of competition between the bond houses and in place of overlapping territory and duplicating efforts, the whole community of financial and newspaper men from coast to coast will be working like one man. This is the skeleton of the organization. Next to the Minister of Finance will be the Dominion Victory Loan executive, including many of the biggest and most public-spirited financiers in the Dominion. Under them come the nine provincial committees, consisting of experienced financial workers in each province. Each provincial committee then splits up its province into districts. Wealthy Too. This is to bring the war loan close home to the very smallest and most modest investor. But that is not all. A special committee headed by E. R. Woods, of Toronto, will canvass the very wealthy men who can afford to take, say, \$100,000 worth. Meantime the newspapers have banded together, through the Canadian Press Association, the Canadian Press, Ltd., to handle the educational side of the work and the five chief advertising agencies in Canada have combined to do the best and biggest display advertising ever shown in Canada.

## HOSPITALS COMMISSION NEEDS TRADE TEACHERS

Ottawa, Oct. 8.—The backwardness of Canada in taking technical training into her educational system, and war conditions have complicated the work of the vocational training department of the Military Hospitals Commission in training returned men for civil life from the first, but with the influx of men from the front steadily on the increase, the difficulty becomes greater daily. At the moment there were only a limited number of men fitted as instructors and many of these went overseas with the Canadian forces. Those who are holding positions in established institutions do not feel that they can leave their present positions for work which is only temporary. The situation is further complicated by the fact that the returned men object to being taught by men who have not enlisted for active military duties. Therefore the lists are scanned eagerly for possible instructors upon the arrival of each group of returned men, and many men engaged as teachers now were the comrades of their students at the front. To this bond of sympathy much of the remarkable success has been attributed.

## DROWNED IN POND

Toronto, Oct. 8.—Three flatirons were found fastened to the body of Mrs. Clementina Girling, 1083 Dufferin Street, which was found in Grenadier Pond here Saturday by the police.

## EDITS WINNIPEG PAPER

Winnipeg, Oct. 8.—Knox Magee, editor of The Saturday Post, a weekly paper published in this city, has accepted the position of editor-in-chief of The Winnipeg Telegram and assumed his new duties.

## CASUALTIES AMONG CANADIAN SOLDIERS

Ill—Gnr. A. H. Smith, Kingston, Ont., Engineers.  
Wounded—Spr. R. Brown, New Haven, U.S.A.; Spr. M. Jonovich, Mon-

## UPPER EPIRUS IS IN STRANGE POSITION

Does Not Know Whether It is Independent or Attached

Athens, Oct. 7.—Via London, Oct. 8.—There is one small nationality of the Balkans which seems to be hanging in space, not knowing whether it is an independent state or an adjunct of some other nation, or, if independent, whether it is a monarchy or republic or some other mid-way form of government. This is the country of Upper Epirus, with a seacoast on the Adriatic, some 8,000 square miles of territory, half a million people and flourishing towns, one of which, Argyrokastru, has some 15,000 people and a university. When the Greek Parliament convened twelve delegates from this country, in their quaint native garb, presented themselves at the bar and asked to be admitted, but after due consideration and a speech by the Prime Minister, M. Venizelos, the request was refused, on the ground that the great powers of Europe had not recognized a Greek right over Upper Epirus. And so the twelve delegates returned into political darkness, being sure only that their country did not for the present belong to Greece, but having no idea who it did belong to. After War. This will be one of the questions to be settled by the nations at the close of the war. For the present ambiguous status of Upper Epirus is the result of the last five years of indecision by the European powers, further complicated by the present war, until it is now agreed on all hands that the confusion can only be unraveled at the end of the war. In the meantime the Epiotes are getting along fairly well without any Government, except the local regimes for preserving order. For a time they paid taxes to Greece, then they paid them to Albania; then recently they paid them to Italy. At present they are not paying taxes to any outside power and the funds are accumulating at home. For a time they had a Minister of Finance who used the taxes for home purposes. For six months, also, they even tried the experiment of forming a republic, and named a president, M. Zographos, a man of such ability and standing that when the republic finally fell apart he became the highly important Governor of the National Bank of Greece. Since then Upper Epirus has been drifting along in allegiance first to one country, then to another, and then to itself. Several Armies. Italy was the last to have an army there, but the recent Balkan conference at Paris decided Italy should withdraw. Greece also had an army there, but withdrew it on request of the powers. The political adventurers who have set up governments in Albania also sent armies there in recent years. But at present, the Epiotes are left to themselves, without outside army, not paying taxes outside, and in a state of suspense until their international status is defined at the end of the war. The political confusion over Upper Epirus dates back five years, but fundamentally it is a struggle of a small community possessing education and much social progress not to become an adjunct of barbarism in Albania. The country itself has refused to be a part of Albania, feeling that its institutions, schools and people would be swallowed up. For centuries Albania has resisted progress, and is a country of fierce mountaineers and freebooters. But Upper Epirus is just the reverse of this, with agriculture and industry prospering and with 177 schools having 7,500 pupils. It is of the order too of Lower Epirus, a recognized province of Greece, and shares in much of the culture and advancement of its Greek neighbor to the south. This has made it willing to accept Greek authority, or Italian, but never Albanian. And as the powers will not let it accept Greek authority, and it will not accept Albanian, it must float along in this ambiguous state until the nations decide at the end of the war what kind of a Government it is going to have.

London, Oct. 8.—A small village in Middlesex County which in pre-war days was a quiet hamlet, has now grown into a big munitions centre. It is frequently visited by members of the Government and the Royal Family, particularly Princess Mary, who is very popular with the workers. She attends the canteen two or three days most weeks and may be seen with sleeves turned up working away smilingly at the needs of the hungry workers and clearing up after meal times. It is at her own wish that no unnecessary fuss is made and that she is allowed to do this work without special recognition from the other helpers.

## PRINCESS MARY HELPS IN ENGLISH VILLAGE

London, Oct. 8.—A small village in Middlesex County which in pre-war days was a quiet hamlet, has now grown into a big munitions centre. It is frequently visited by members of the Government and the Royal Family, particularly Princess Mary, who is very popular with the workers. She attends the canteen two or three days most weeks and may be seen with sleeves turned up working away smilingly at the needs of the hungry workers and clearing up after meal times. It is at her own wish that no unnecessary fuss is made and that she is allowed to do this work without special recognition from the other helpers.

## For Tuesday We Have Planned a Big Disposal of Broken Assortments and Sizes in Women's Suits, \$15, \$25, \$35

Values That Are Worth From One-Third to One-Half More

This is an exceptional offer for so early in the season, but it is one of necessity in a big store like Spencer's, where the handling of hundreds of garments each season necessitates stocks being kept well assorted and free from an unnecessary accumulation of surplus sizes and styles.

In this rearrangement we have sorted out many garments of which we have but one or two styles or sizes of a kind. These we intend clearing immediately, and to do so we have grouped them into three prices which represent a saving to you of from one-third to one-half. Needless to say, this is an exceptional offer for this time of the year, and it is one of very great importance to the lady who wants a new suit. Each model is tailored from a beautiful grade of Serge, Gabardine or Jersey cloth.

Various styles, the most popular being in the belted effects with deep collars. We quote below the exact number of Suits together with the sizes and materials included in this offering.

Early selection on Tuesday advisable.

### Suits at \$25

- 1 only, size 14, in navy blue.

A co-operative organization of 1,400 growers, employing 350 people, who work in 87 packing houses and offices.

WRAPPED APPLES KEEP LONGER

**MENU FOR TUESDAY**

The office of the Canadian Food controller, Ottawa, has recently issued suggestions for the daily menu under the new regulations regarding the saving of wheat, beef and bacon. The following is the war menu suggested for Tuesday, which, with Friday, is one of the beefless days of the week. It will be noticed that mutton is substituted for beef:

**Breakfast:**  
 Fresh Fruit  
 Graham Bread  
 Coffee or Tea  
 Dinner:  
 Mutton  
 Apples and Bread-Crumb Pudding (Brown Betty)  
 Milk Supper (or Luncheon)  
 Creamed Fish  
 Baked Potatoes  
 Tea  
 Sugar  
 Milk

The recipes for Graham Bread, Creamed Fish and Brown Betty Pudding, mentioned above, are as follows:

**Creamed Fish:**  
 Any left-over boiled or baked fish may be served as creamed fish by flaking carefully and adding a good, well-seasoned white sauce.

**Graham Bread:**  
 2 cups of Graham flour  
 2 cups of sour milk  
 1 cup of molasses (New Orleans)  
 1 teaspoon of soda  
 1 teaspoon of salt  
 Bake in a slow oven one hour.

**Brown Betty Pudding:**  
 2 cups of apples sliced thin  
 1 cup of bread crumbs  
 1 tablespoon butter  
 Cinnamon to season

Butter the pudding dish well. Put alternate layers of apple and crumb with apples in bottom, and finish with crumb on top, and dot with bits of butter. Sprinkle with cinnamon. Cover closely and bake forty minutes, then remove the cover and brown.

(Wheat and meat saving Recipes by Domestic Science Experts of the Canadian Food Controller's Office.)

**"THE GIFT CENTRE"**

**Our Factory Can Serve YOU**

Jewelry Repairing and Remodelling, Watch Repairing, Engraving, Etc.

Now is a good time to look over your jewelry—that necklace or brooch; there may be a jewel that needs tightening. Perhaps you would like that diamond reset, or a monogram put on your watch, or maybe a name or initials engraved on some favorite piece.

Your watch or clock may be keeping poor time, and that's sometimes very annoying.

Our charges are the lowest possible and no job is too trivial for our factory. Bring your repair troubles here.

**Annual Meeting.**

One hundred and eight cases of supplies have been shipped forward during the month. All subscribers, donors and friends are reminded of the annual meeting of this branch which will take place on Wednesday evening next at 8.30 at the Empress Hotel ballroom, where it is hoped to see a very large attendance.

Mrs. Plumtre, of Toronto, who has been associated with the work of the C. R. C. S. since war began, will be among the speakers, and should receive a very hearty welcome from the membership of the Victoria and district branch.

**Fernwood Branch.**

The regular monthly meeting was held on Wednesday evening of the Fernwood branch at the work rooms. Mrs. Miller very kindly had a sign made which has been placed near the street so there should be no further difficulty for workers to find the rooms.

The following raffles were drawn for in September: Pillow cases, won by Mrs. Rathom; camisole, won by Miss Laura Macklin; crochet-yoke, won by Mrs. Acton, Niagara Street. Our thanks are extended to Mrs. Pollard for two lengths of tatting to be raffled; also to St. George's School for cash donation of \$1.50; Ronnie & Taylor and Mr. Bassett, who so kindly deliver our work each week and bring back supplies from the Temple Building.

**North Ward Branch.**

The North Ward Branch, Red Cross, beginning Saturday next, will close its rooms on Saturday mornings, but will be open for workers on Saturday afternoons from 2 to 5. A class of young people will meet on that afternoon under the supervision of Mrs. Mercer.

A military five hundred party will be held in the rooms on Thursday, October 11, play to begin at 8.30 sharp. These parties, which have proved so popular in the past, are to be continued during the winter months, and a good attendance is anticipated. Tickets are on sale at the rooms, at Peden Bros', Government Street, or from members of the committee. Particulars can be obtained by telephoning 4687L or 2810L.

Miss Milne will henceforth be in charge of the rooms on Tuesday mornings, as Mrs. Hampton has been obliged to give up her supervision of the work on that morning. Mrs. Matthews will be in charge on Friday mornings. The committee is grateful to Mrs. Hampton for her faithful work since the organization of the branch.

Correct Hats and Garments for Women

**Fascinating Styles in the New Afternoon Frocks**

DEVELOPED in beautiful shades of soft satin, silk poplin, taffeta, Georgette and crepe de chine, the new Gowns are revelations of sheer daintiness and charm.

By way of describing their many attractive features we append a summary of the chief points of interest in two Gowns. The first is priced—

**At \$32.75**

It is an exquisite creation of black crepe de chine with a side and back overskirt effect of black Georgette edged with crepe de chine. A collar of white silk gives the necessary relief from the sombreness of tone. The second Gown is priced

**At \$47.50**

Material is fine quality soft satin in smart navy blue shade. It is made with a high neck and long overskirt effect—both collar and edge of skirt are trimmed with a dark rich fur. Long rows of jet buttons adds very much to the becomingness of this Dress.

Other Gowns in our broad assortment range in price from **\$17.50 to \$60**

**The Question Arises**

with many persons, young or otherwise, "Is it necessary for me to wear glasses in order to save my eyesight?" My examination will determine this, and if you do not need glasses I will tell you so.

Vancouver; H. A. Lees, Vancouver; A. J. Braithwaite, Chilliwack; R. G. Duggan, Victoria; J. F. Tait, Victoria; T. M. Harnett, Vancouver.

W. Drinnan is president, T. Walsh, vice-president; H. W. Hart, Secretary, and D. G. McSweeney, treasurer.

D. Laughlan has been appointed editor, and the assistant editor will be a Victoria man, whose name will be announced later.

There is a vacancy for a business manager at a salary of \$125 a month, and applications for the position from returned soldiers are, it is understood, in order.

**BRIGHT FUTURE FOR PROCESS ON COAST**

Thomas French, the Well-Known Metallurgist, on Electrolytic Smelting

That there is a future for the electrolytic process in British Columbia, on account of the province's hydro-electric energy, and that there is an opportunity for plants on the Coast to compete for the European and Oriental markets is the opinion of Thomas French, the well-known chemist and metallurgist. Mr. French is at present developing the French process in connection with the French's Complex Ore Reduction Company, whose plant is located at Nelson.

Mr. French is in the city for a day or two, and will proceed to Portland, dealing with the subject mentioned above, he states to The Times: "Just recently I was asked by the president of the Electro-Chemical Society of America to contribute to a symposium of war studies on the application of chemistry to the arts at the annual meeting which concluded on Friday at Pittsburgh.

Two Processes.

"In my paper read at the meeting I was asked to examine the future of electrolytic zinc. The question has frequently been asked: How will retorts compete with the electrolytic process? While the reply is often that there is room for both, experience will show that when the electro-chemical process is properly worked it will displace the retort system largely. The manufacture of zinc will then be driven west, as with cheap electrical energy British Columbia is the logical centre. There are also found in this province the complex ores, which are well suited for such treatment, and are much cheaper than the ordinary ores. The increased cost of reduction is more than offset by the decreased cost of ores, giving the electrolytic treatment the advantage in cost of production.

"The development of the electrolytic process must benefit this section on account of the abundance of water power. In the Coast districts practically almost everywhere where there are mountains complete, lead and zinc ores are to be found, which have hitherto been outside the purview of the smelters, and which could now be treated for export. As the demands of Canada are restricted on account of a limited population, we must look outside the Dominion for a market for the metal. The United States is shut off by a high duty and there remains the European demand to be supplied by way of the Panama Canal, and also the Oriental requirements.

Cost of Production.

"As to the cost of production, five cents a pound used to be the limit of production cost at the smelter in order to be profitable. Now the cost is eight cents owing to war circumstances. When the price of metal falls to eight cents, as it did recently, 40 per cent. of the retorts in the United States closed down. However with the electrolytic process with zinc at five cents the smelter can be made to pay handsomely. Therefore I argue that the inevitable decline in prices will put the retort processes out, whereas the electrolytic process plants will remain open. I look to this as an important aspect of metallurgical development on the British Columbian coast in the next few years."

Mr. French was not in a position freely to discuss his plant at Fairview, Nelson, but explained that "the plant is practically ready and will be operating in a short time."

**UNDERTAKING A SUCCESS**

King's Daughters Clear \$531.48 by Taking Charge of Cafe at Home Products Fair.

The King's Daughters have a balance in hand of \$531.48 as the result of

**GAVE HER DELICATE CHILD VINOL**

It Built Him Up and Made Him Strong

Newaygo, Mich.—"My little boy was in a delicate, weak, emaciated condition and had a cough so we had to keep him out of school for a year. Nothing seemed to help him until Vinol was recommended, and the change it made in him was remarkable. It has built him up and made him strong so his cough is almost entirely gone. We can now recommend Vinol too highly."—Mrs. E. N. Hanlon.

Mothers of weak, delicate, ailing children are asked to try this famous cod liver and iron tonic on our guarantee. Children love to take it.

L. E. Campbell, Druggist, Victoria. Also at the best druggist in all British Columbia towns.

undertaking the cafe at the Home Products Fair the week before last. The statement was submitted at the regular business meeting of the Order held last week at the rooms, Hibben-Bone Block, Mrs. L. H. Hardie in the chair. The bills for the Home Products Fair were presented and ordered paid. The following is the summarized statement:

Receipts to date \$518.33  
Expended \$286.85

Balance in hand \$231.48  
The members were very gratified with the result of their labors. Many donations were received by the Order from friends, but the bulk of the provisions nevertheless had to be purchased. Their grateful thanks are due the following firms and individual workers who helped to serve luncheons and teas: Victoria and Island Development Association, Committee of Home Products Fair, Jamieson Coffee Co., Pacific Milk Co., Rennie & Taylor, Imperial Oil Co., B. C. Electric Ry. Co., Ltd., Victoria Mattress Co., B. Wilson Co., Ltd.; Swift & Co., Simon Leiser & Co., Y. W. C. A., Y. M. C. A., Seaman's Seamen's Institute, Municipal Chapter I. O. O. F., The Western Picking Co., Kirkham & Co., P. R. Stewart, R. H. Powell Cheapside, Swiss Cheese Co., Stevenson, Shelly & Co., Ormond's, Goodacre & Son, Mrs. F. M. Rattenbury.

**OCTOBER THE NINTH; FIRE PREVENTION DAY**

Insurance Superintendent Garrett Takes Up His New Duties With Vigor

In connection with the functions of his new office, to which he was recently appointed by the Provincial Executive, H. G. Garrett, Superintendent of Insurance for the province of British Columbia, will pursue with vigor a campaign for the prevention of fire. As a means to achieve that end he is making public as far as is possible some of the important "don'ts" to which he is giving particular emphasis at this season of the year.

Fire Prevention Day.

The ninth day of October, the anniversary of the great fire in Chicago, has been proclaimed by the governors of many states of the Union under the title of "Fire Prevention Day." It is to be observed in the schools, and a programme has been arranged by way of celebration, while citizens generally are urged to do their part by careful inspection of their homes.

It is pointed out with truth that carelessness, ignorance and untidiness are responsible for the largest percentage of fires. The persistent aim, therefore, of the fire marshals and other officials in charge of departments for insurance matters in the United States is to instruct the public on this subject. In co-operation with the educational and other authorities, they publish from time to time information on the various aspects of the question. A regular campaign of instruction, advice and warning has been inaugurated, and is meeting with success.

Notes of Caution.

The principal features of this propaganda are:

(a) To impress on children the risk of playing with fire and matches and similar articles and to train children by drill so as to avoid panic in case of fire.

(b) To teach people to clean up accumulations of rubbish round houses and buildings and to inspect their flues, stoves, lamps, wires and other fittings which may cause a fire.

(c) To emphasize the dangers of gasoline, kerosene and other combustible materials and the notorious carelessness of cigarette and other smokers.

(d) To inculcate by statistics the terrible waste and destruction not only of property but also of life which is occasioned directly by fire.

Stove and Lamp Season.

The season for stoves and lamps is now beginning, says Mr. Garrett, and it is a propitious moment to call attention to these matters. In Canada the same causes are at work, and there is a similar crop of fires which need not have occurred. It is the duty of every citizen to do what he can to lessen the toll taken year after year by the fire fiend. It must be remembered that every fire spells irreparable loss; if a house is burned down, the material is destroyed, and the insurance money does not replace it. The season should be taken to heart, most especially at this crisis of the world's history, when material of every kind is in urgent demand. One citation of figures will illustrate this phase.

In the first five months of this year, according to records compiled from The New York Journal of Commerce, the fire loss in grain elevators has been nearly \$5,000,000 and in flour and cereal mills over \$900,000. Such figures speak for themselves. Complaints are heard on every side of the high cost of living, but it should be realized that this cost is produced by a large number of factors. The cost of insurance and the losses by fire both enter into the calculation. Every person, therefore, should do his utmost to prevent fire.

**"BROKEN CHAINS" IS NOVELTY STORY**

Pantages Feature Film Showing To-day and To-morrow Has Interesting Aspects

The Pantages screen presents to-day and to-morrow a film story of extraordinary interest. Of interest because it is a sweet enticing love story heightened by periods of tense dramatic feeling, and because of the wonderful portrayal of the capable film stars, Ethel Clayton and Carlyle Blackwell, playing the leading roles. "Broken Chains" is the name of this feature which presents a novelty story.

The theme deals largely with certain points of the life history of a certain Harry Ford. As a youngster his lot was cast with the Cubans in their fight against what they considered United States interference with Cuban liberties and in the fight which followed to put down the rebellion, the stockade at which he is stationed is one of the very latest to be subdued, and when the American troops finally gain entrance, all the defenders save this boy are either dead or wounded. Wounded himself, he still fights hopelessly against his captors.

A Captain Gwynne is in charge of the attacking party and is greatly impressed by the unusual bravery of the boy. So later this brave Harry Ford is sent to an American school, and as Captain Gwynne is transferred to a more active post of duty, he loses track of him. With the passing of the years, the former rebel comes to a position where he himself is in command of a battalion of the troops he formerly fought against.

At the time of the boy's capture, Gwynne's little daughter Georgia, following the adventures of the troops eagerly in the paper, is deeply impressed by reading of the bravery of the young Cuban. Her father's commendation of the lad sinks deeply into her childish brain.

Eventually Captain Gwynne, now a General, is retired and settles down to enjoy the comforts of his Southern homestead and his two grown-up children, Jefferson and Georgia.

Fate brings Harry Ford, whom Gwynne does not recognize, and his troops to the town where Georgia lives. There they become great friends and indications are that they will be more than friends.

Ford is really in the town to entrap some "moonshiners" who have been working in the vicinity for years unmolested. Jefferson misconstrues his motives, however, and accuses him of being there to back the "carpet baggers" in the forthcoming election.

"Bad blood" is thus stirred up between the two young men who really should have been the best of friends, and when Jefferson is foully murdered and the circumstantial evidence all points to Ford, things reach an undesirable climax.

Georgia too late, realizes she is in love with the handsome army officer, and is firm in her contention that her brother was not killed by him despite the verdict rendered by the jury who have found Ford guilty.

A long prison term is then borne by Ford which could have been prevented had Georgia's cousin who is in love with her, told at the trial the story of how he saw the murder committed and by whom.

The law at best is a very intricate subject, and from this time on to the end of the feature, many of its loopholes are employed by Georgia to aid her lover.

His final innocence is eventually proven after many harrowing and thrilling adventures, one for instance when he is chased through a big swamp by large hungry bloodhounds. Just prior to Ford's vindication, Gwynne is acquainted with the boy's real identity for the first time, and then realizes that as brave a young man as Ford has proven himself to be, could never have committed the crime for which he has been sentenced.

DRABY - MADE  
**ETHEL CLAYTON  
CARLYLE BLACKWELL**  
"Broken Chains"

**"BROKEN CHAINS"**

From the Story by JOSEPH R. GRISNER and CLAY M. GREENE. Directed by ROBERT THORNEY

This combination of stars has been the most popular one to photo-play patrons for some time past. They have not appeared together in over three months. This story has splendid parts which are just suited to the individual talents of the stars. It deals with a boy who is noted for his bravery and integrity, but who is sentenced to a life term of imprisonment because of condemning circumstantial evidence. The laws of the State provide that convicts may be leased out to work, and he is engaged by the girl he loves after a thrilling rescue from a greedy boss. His final vindication is indirectly brought about through another man's love for her, and the desired happiness is obtained by all.

A novel story handled in a novel way. The stars make the most of the big opportunities afforded them. Miss Clayton was never more charming, and plays her very difficult role with a retiring sweetness which has an irresistible appeal for all. Carlyle Blackwell, who is the incomparable romantic lover in most of the stories in which he appears, plays a part which calls forth all his piteous supply of talent, and receives it. At the head of a battalion of soldiers he makes a picture not easily forgotten. This is a truly big feature.

OKANAGAN CROP NOW RECKONED BY CARLOAD

Approximately 3,700 Will Be Total for Year; Increase Over 1916

The output of exportable produce from the Okanagan Valley for the year 1917, according to Maxwell Smith, chairman of the Land Settlement Board, who has just returned from that section, will approximate 3,700 carloads, or some five hundred cars in excess of last year.

Present estimates place six hundred cars, or the equivalent to twelve thousand tons, for onions alone. Approximately twenty-five hundred cars will be required for the apple crop, two hundred cars for tomatoes, while the balance of the number quoted will be reserved for mixed shipments of grain, hay and root crops.

In the last week of September from Kelowna alone there were shipped ninety-eight straight cars in addition to cars of mixed shipments; and of that number from two to four cars went out by express daily.

One notable shipment from the Okanagan Valley a few days ago was a single train made up of seventeen cars carrying nothing but sheep, there being two thousand to the consignment.

TO TRAIN AS PILOT

Dudley H. Green Leaves Newspaper Work to Join Royal Flying Corps.

THANKSGIVING DAY IS BRIGHT AS USUAL

Warm Sunshine Here Gives Favored Victorians Much to Be Thankful For

With the sun god, Apollo, bathing the city in his warm beams throughout the morning and early afternoon, and with no reasonable doubt but that this usual style of Victoria weather in October would be experienced until the evening, Thanksgiving Day here was one that only a grouch of the most confirmed type would find anything but gratification in.

The city streets were on the quiet side, few wishing to spend time in such surroundings when the beaches were within a little distance, and as welcome and delightful as in the middle of summer; when the golf links were in the best possible condition; when the parks were looking fresh and green as at any time of the year, and the countless beauty spots of the district were all available for visiting under the most pleasant conditions.

Taking advantage of Thanksgiving Day following the Sunday, many citizens went out to town, the traffic on the railways to points in the interior being of considerable volume. The chances are that these places visited in the island were also favored with similar perfect weather, but those who went farther afield, and took steamer to Vancouver, or to other places, probably did not get a temperature of 67 in the shade, which was the case with those who stayed at home and spent the day in one kind or another of outdoor pleasure.

HONGKONG LAWYER ON VISIT TO CITY

Is One of Many Foreign Residents in Orient Who Will Revisit Island

One of the most pleasing features of the tourist business on this island has been the growing inclination of the foreigners in the Orient to come and holiday here. A Hongkong lawyer, Mr. Wilkinson, whose brother, Sir William Wilkinson, is a British Consul at Hankow, is now in the city, having been holidaying at Shawnigan Lake.

Mr. Wilkinson told The Times that he has a ranch in the Kootenay district, and expects to come over periodically to the province to spend part of the year here. He says the foreign residents in the treaty ports who have summered in B. C. this year have been particularly charmed with conditions and more especially with Vancouver Island scenery.

TABERNACLE WAS FILLED

Dr. Oliver Spoke Last Evening to Largest Audience Yet Gathered in Pandora Avenue Structure.

You'll Always Have Clothes. Clarence French Dry Cleaners and Dyers. 704 Yates Street. Phone 2907.

Must Be Born Again." Dealing with the question from a purely modern standpoint the doctor sought to impress his audience with the practicalness of the matter, to the twentieth century man and woman. The address was a brief one, comparatively speaking, but during the period that he was on the platform the evangelist held firmly the undivided attention of the huge audience.

The afternoon meeting was also an impressive one. It was a session for men, the speaker dealing with the subject, "Sin, Disease, Heredity." Although the Tabernacle was not filled there was nevertheless a large attendance to hear the doctor's address on a most modern, practical topic.

GENERAL KORNILOFF BEFORE CIVIL COURT

Petrograd Paper Says He Probably Will Escape Trial by Court-Martial

Petrograd, Oct. 8.—Gen. Korniloff probably will escape trial by court-martial because of technicalities and be judged instead by a civil court on a charge of insubordination, says The Novaya Zhizn.

It is pointed out that Gen. Korniloff's march toward Petrograd was by order of the Government, which three days after the "rebellion," continues the newspaper, "commanded that all orders issued by Gen. Korniloff at the front be carried out." Therefore, it is argued, he can only be considered blamable from the moment when he refused to resign as Commander-in-Chief, and this demand emanated from Premier Kerensky, whereas, Gen. Korniloff had been appointed by the Provisional Government. It is pointed out that M. Lvoff, who acted as messenger between the general and the Premier, admits that he garbled Gen. Korniloff's message, transmitting it in the form of an ultimatum without having received instructions to do so.

Petrograd, Oct. 8.—Gen. Korniloff, who led the unsuccessful revolt against the Kerensky Government, has asked M. Maklakoff, M. Teslinko and M. Adjemoff, eminent barristers and leading members of the Constitutional Democratic party, to defend him at his trial. They have agreed to do so.

DANIELS DECLINES TO TELL NUMBER OF DESTROYERS PLANNED

Washington, Oct. 8.—Secretary Daniels had before him to-day contracts for the big destroyer programme already arranged tentatively with the builders. The bill appropriating \$350,000,000 for their construction, for financing plant additions to carry out the programme was put through in the last hours of the session of Congress.

The Navy Department has declined to publish the number of additional destroyers contemplated, but it has been stated officially, however, that the flotilla either in commission or under construction would be more than doubled.

GREAT SUFFERING IN CHINA THROUGH FLOOD

Washington, Oct. 8.—Never in the history of China has a flood worked such devastation and cost so many lives as already have resulted from the great inundation now in progress, according to advices received to-day at the Chinese legation here.

So great is the distress among the people of the flooded districts that all the officials have been called upon to contribute 10 per cent. of their salaries for relief work. Some action by the American Red Cross to meet the urgent appeal for \$200,000 submitted last week by Paul Reinsch, the American Minister, is expected soon.

BREAD EXPERIMENT BY HERBERT HOOVER

Philadelphia, Oct. 8.—Philadelphia is to be the scene of an experiment by Herbert C. Hoover, Food Administrator of the United States, in the preparation of a five-cent loaf of war bread. It also is proposed to establish a standardized method of mixing and making the bread. The new war loaf, it is said, will effect a saving of sugar, lard and milk, and yet be wholesome.

The Department of Agriculture, in co-operation with Mr. Hoover, has sent in D. R. Jacobs, of the bureau of chemistry here, to instruct bakers in the preparation of the bread.

ARE INVESTIGATING LAFOLLETTE'S SPEECH

Washington, Oct. 8.—Beginning investigation to-day of the speech of Senator La Follette before the Non-Partisan League of St. Paul, the Senate committee in charge of the inquiry mapped out preliminary procedure and then adjourned until Thursday to await further information from La Follette and also from former Secretary Bryan.

No public hearings will be held for the present, Chairman Pomeroy announced, and the committee believes it possible that the inquiry will be concluded within a few days, possibly without any open testimony.

AMERICAN TRADING WITH ENEMY ACT

Wilson Will Issue Proclamation; Gold Embargo and South America

Washington, Oct. 8.—Announcement of the method of administration of the trading with the enemy act will be made from the White House soon in a proclamation signed by the President. This proclamation will give information of the course to be pursued in obtaining the license which the law requires to be issued when business operations coming within the purview of the measure are involved.

Administration of the section which relates to newspapers published in a foreign language probably will be lodged with the Post Office Department. Definite announcement of this point will be made in the President's proclamation.

NO VACATION FOR PRESIDENT WILSON BEFORE CHRISTMAS

Washington, Oct. 8.—President Wilson plans no vacation or speaking tour between now and the Christmas holidays, and will spend most of his time quietly in Washington, directing and co-ordinating war work.

The President has declined a number of invitations to make addresses but is considering a trip to New Orleans in February to attend the bi-centennial celebration of the city's foundation.

HUNDRED SOLDIERS BURNED TO DEATH IN PETROGRAD CITY

Petrograd, Oct. 8.—One hundred soldiers, it is estimated, were burned to death and many others are missing as the result of a fire which destroyed the Panayeff Theatre here, which was used as an army post office and officers' hospital.

KIDNAPPING CASE IN MISSOURI STATE

Marshfield, Mo., Oct. 8.—The trial of Claude J. Piersol, charged with kidnapping Lloyd Keet, the infant son of a Springfield, Mo., banker, was opened here to-day. Piersol, who is only 20 years of age, is alleged to have headed a band, two of whom are charged with him in the abduction of the Keet baby, and four others are accused with the trio of a plot to abduct a jeweler of Springfield, Mo.

SOME PRISONERS WERE TAKEN BY ITALIANS

Rome, Oct. 8.—The activity was confined mainly to the artillery along the whole front, says an official statement issued here to-day. On the Bainsizza Plateau Italian patrols took a few prisoners. On the Carso enemy patrols were driven off.

DIPHTHERIA EPIDEMIC IN CITY OF WINNIPEG

Winnipeg, Oct. 8.—An epidemic of diphtheria is prevalent in this city. The King George Hospital is caring for between 120 and 140 cases at the present time, between 30 and 40 of which have been admitted in a week.

NOT CALLED ON

Winnipeg, Oct. 8.—A short time ago returned soldiers honorably discharged and who were employed in the civil service in this city received notice to report for medical examination under the Military Service Act.

GERMAN AIRMAN THREW WREATH FOR BROTHER

Behind the British lines in France, Oct. 7.—Via London, Oct. 8.—A German aeroplane was brought down in the British lines a few days ago after a battle lasting nearly an hour. The next morning a German machine came hovering over the same spot and manoeuvred for a position. It was promptly attacked, but returned to the German lines after dropping several bombs which were seen to fall near an evacuated village.

FINE MOTOR TRUCK FOR AMERICAN ARMY

35,000 to Be Built After Patent of One Completed To-day

Lima, Ohio, Oct. 8.—The first Liberty motor truck for the United States army, the product of the greatest motor truck designers of the country and the combined genius of twelve motor truck factories, was completed here to-day at a local manufacturing plant.

The standardized machine, of which 35,000 copies will be turned out in the first half of 1918 for the army, is said to represent the perfection of automobile truck development. Its motor power is derived from the new Liberty motor, recently perfected at Washington by War Department experts.

The first Liberty motor truck was built in the greatest secrecy to protect it from enemy eyes. A building without windows, lighted only by skylights, housed the truck during the three weeks of its construction. The plant was closely guarded by armed men night and day.

SOLDIERS RETURNING

Seven Victorians Among Those Expected on Coast To-morrow

Vancouver, Oct. 8.—The local office of the Military Hospitals Commission has received advices of the departure from the discharge depot at Quebec of a party of 42 returned soldiers for the coast. The names of these men, who will arrive to-morrow at 8:45 a.m., are as follows: Ptes. H. W. West, W. Baker, J. King, F. Morris, D. Monroe, M. Nicholls, W. Walker, Victoria; Sergeant H. Bowler, Vancouver; Cpls. A. Chipman and G. Forbes, Vancouver; Ptes. K. Askwith, D. Arkell, T. Acton, F. Brown, T. Cameron, A. Clarke, E. Collins, W. Dye, F. Fowler, S. Hughes, W. Ford, F. Metcalfe, J. Kennedy, J. McInnes, D. Macavoy, D. McLeod, F. Nelson, J. Paxton, H. Porter, W. Roberts, R. Sinclair, A. Waite, Vancouver; C. Jackson, Kamloops; R. Graham, Kamloops; C. Clark, Ladner; C. Fielding, Nanaimo; A. Dickie, Merritt; C. Winslow, Kelowna; W. Patterson, Revelstoke; E. Neale, Nelson; A. Martin, Alberni; L. Hutchinson, Esquimalt.

SUPERINTENDENTS OF METHODIST MISSIONS

Toronto, Oct. 8.—The following superintendents were appointed at the closing session of the General Board of Missions of the Methodist Church here on Saturday:

TO POWELL RIVER TO INSPECT PAPER PLANT

Seattle, Oct. 8.—M. J. Scanlon, of Minneapolis, paper manufacturer, is on his way to Powell River, to inspect his paper mill. He will make a hasty trip to Ugan and other plants he controls in the Northwest before returning to his home.

JURY DID NOT MEAN MAN TO BE HANGED; MESSAGE TO OTTAWA

Montreal, Oct. 8.—A peculiar incident occurred at Sweetsburg, Que., Friday, when a French-Canadian jury, by mistake, found Georges Benjamin guilty of the murder of Joseph Pelletier, a 14-year-old boy, when it had intended to convict him of manslaughter.

AMERICAN MINING ENGINEERS MEETING

St. Louis, Mo., Oct. 8.—Several members of the American Institute of Mining Engineers met in annual convention here to-day and considered the waste of the natural resources of the country.

TO BE NO MATCHES IN FACTORIES WHERE EXPLOSIVES ARE MADE

Ottawa, Oct. 8.—An order-in-council has been passed providing heavy penalties for any person who attempts to take matches into or has matches in his possession in any explosives factory. Anyone guilty of infraction is liable to a fine not exceeding \$100 or six months' imprisonment or both.

BONDS! BONDS! Bonds are selling at very low prices, in some cases the lowest for many years. We will assist in the selection of high-grade Bonds with attractive yields. ## SAANICH FALL FAIR FINANCIAL SUCCESS

Nearly \$200 Taken at Gates; Sale of Refreshments Nets \$99.80

### TAG AND AUCTION SALE BENEFIT TO RED CROSS

Although there were nearly four hundred less exhibits at the annual Fall Fair held under the auspices of the North and South Saanich Agricultural Association on Friday and Saturday last, than on the occasion of the 1917 event and some two hundred less than last year, the financial results of the 1917 show were extremely gratifying and the promoters of the affair, all things considered, regard it as the most successful ever held in the district.

Splendid Financial Success. The gate receipts alone, irrespective

On view. For further particulars apply to

The Auctioneer, STEWART WILLIAMS, Messrs. Stewart Williams & Co., 1919 Blanshard St., Phone 144

of members' tickets, amounted to \$188.25, while the sale of refreshments by the Ladies' Committee netted \$99.80. The latter amount is a highly creditable showing since all the refreshments offered for sale were begged by the energetic ladies. The total mentioned is made up as follows: Lunches, \$18.70; candy and ice cream, \$39.59; afternoon tea, \$39.80. The proceeds from these sources go into the coffers of the Agricultural Society and in view of the fact that there is but one day in the year upon which it is possible to replenish the Association's funds the executive committee are well pleased with the returns.

The ladies of the district who have been energetic in patriotic effort since the commencement of the war took advantage of the large attendance and netted many dimes and quarters for the Red Cross. Auctioneer Petch sold off the manual training exhibit entered by the Saanich school children, the proceeds of which also went to the Red Cross funds. The judging of horses, cattle, sheep and poultry took place on Saturday afternoon and the completion of the prize list follows:

Completion of Prize List. In the honey section, Dean Bros. gained first for all three classes. Kale, two heads—W. D. Mitchell. Girls' work, under 14 years—Best loaf white bread: I. Irene Barker; 2. Freda Durrance. Best plain cake: Irene Barker. Best half dozen soda biscuits: Irene Barker. Boys' and girls' work, under 16 years—Best collection of vegetables: F. Mitchell.

School Exhibits. The prize given by Dean Bros., Keating, B. C., for the best collection of vegetables grown on school plots in Saanich Municipality, was won by Gordon Head School.

Prize given by J. W. Gibson, won by Prospect Lake School.

The third prize was divided between Craigflower and Saanichton schools.

In the Canadian Bankers' Competition for school children, which is a feature of all the agricultural fairs throughout Canada this year, Saanich had eight entries in the class for calves, the condition of the animals being excellent and showing that great care and attention had been bestowed upon them by their young owners. Barry Dean won the first prize with a heifer, the second was taken by A. Malcolm, and the third by James Nimmo. To the disappointment of the executive, there were no entries in the class for swine.

Horses. Heavy draught horses—Team horses, F. H. Lindsay.

General purpose horses (weight from 1,150 to 1,250 pounds)—Team horses, J. Watt & Sons; mare and foal, William Derinberg; yearling colt, W. D. Mitchell; sucking colt, William Derinberg.

Best standard bred in the show, Silver Cup given by Little & Taylor, jewellers, Victoria: Mrs. Jack Wolfenden.

Cattle. Jersey—Bull, two years old and over: J. Watt & Sons. Bull calf: 1. J. Watt & Sons; 2. J. M. Malcolm. Cow: 1. J. Watt & Sons; 2. J. M. Malcolm. Heifer, two years old: Murray McKenzie. Heifer calf: Dean Bros.

Grade Jerseys—Cow: 1. J. Watt & Sons; 2. J. M. Malcolm. Heifer, two years old: 1. W. B. S. Polson; 2. J. M. Malcolm. Heifer, one year old: W. J. Barker. Heifer calf: 1. W. D. Mitchell; 2. J. M. Malcolm.

Grade Holsteins—Cow: 1. and 2. F. Turpin. Heifer, two years old: 1. W. D. Mitchell; 2. W. B. S. Polson. Special prize given by South Saanich Farmers' Institute for best dairy cow, any age or breed: W. B. S. Polson.

Sheep. Grade Oxford Downs—Grade ewe, two years old and over; grade ewe, yearling; grade eye lamb; 3 first and 2 seconds, W. Derinberg.

Swine. Berkshire—Boar and sow: 1st for each, J. Watt & Sons.

Yorkshires—Boar: Northwestern Creamery. Sow, under four months: W. B. S. Polson.

Sow with litter, any breed or grade: Northwestern Creamery.

Poultry. Breeding pens consisting of three females and one male, shown together and judged as breeding pen only.

Birds entered in pens not allowed to compete in single class except for special prizes.

Plymouth Rocks, barred, cockerel: P. T. Lemon. Rhode Island Red, cockerel: 1. W. H. Williams; 2. Miss B. Smith. Rhode Island Red, pullet: 1. W. H. Williams; 2. Miss B. Smith. Rhode Island Red, cock: 1. Miss B. Smith. Rhode Island Red, hen: 1. W. H. Williams; 2. J. Watt & Sons.

—Staples, in Basement

## TO REORGANIZE THE CITY PUBLICITY

More Efficient Information is Planned While Reducing Cost of Literary Matter

The success of publicity work depends not only on reaching the class for whom it is intended, but to present the information which is wanted, and this applies particularly to publicity for tourist purposes.

Much of the material which has been issued about the district and the Island by the Development Association and by its predecessor, the Development League, has been of a comprehensive scale covering many fields of interest. It has been expensive because publicity matter costs money, especially when printed on good paper to give a fair chance to the illustrations.

Subject to the approval of the committee, and based on the appropriation which may be available in 1918, the commissioner has a new proposal to put out in directing the publication of material when the present stocks of literature are exhausted. He proposes to extend the idea which is being developed in the prairie visitors' guide now in course of preparation for the winter travel, of special pamphlets for particular purposes, in order to supply to inquirers information about particular subjects and to save the cost of despatching bulky literature which may only be examined for one particular item. One feature is to be prepared for scientific visitors on the two observatories, in which much interest is being shown by people from the American side who take no interest in ordinary sights of a city. Then there will be bulletins on poultry farming, fruit farming, etc., and upon Victoria as considered from a residential standpoint exclusively. Sport subjects will also be considered. The commissioner thinks that this will be a hackneyed expression, "fill a long-felt want," and also save the finances of the institution. He

foresees that material of this character is likely to appeal more if signed by experts, and he will outline a plan later to have a series of signed articles on certain subjects to be printed in these bulletins. The idea opens a wide field in publicity matters, and one which is going to be very popular when it is established.

Someone asked John D. Rockefeller why he was so seldom seen at public dinners. "Well," replied the millionaire, "in the first place, I don't eat much, and while you don't have to eat you do have to sit through the speeches. And, in my mind, the average after-dinner speech is like a bicycle wheel—the longer the spoke the greater the tire."

All that Serbia, all that the Bulgarian nation, the Rumanian nation, the better element in Turkey, all that Belgium, Luxembourg, France and ourselves sought lawfully to enjoy, Bismarck claimed for his poor Prussia. Their peaceful aspirations would be achieved, "if foreign powers will avoid everything which can lead the German people to believe that they are the subject of foreign combinations which would legitimately excite their sentiments of dignity and of national independence." Denmark, enlightened at last, will, like the rest of us, read that with fresh interest, in view of the Willy-Nicky machinations. London Chronicle.

ADVERTISE IN THE TIMES
