START OF ATLANTIC FLIGHT ATTEMPTS SET FOR THIS AFTERNOON

Raynham, After Repeated Delays in Newfoundland, to Start at 3 p.m. for European Side of Atlantic; Hawker to Start an Hour Later

St. John's, Nfld., April 30.—Raynham is to fly at 3 o'clock this afternoon. Hawker probably will follow an hour later.

Raynham is a British aviator. He and Hawker, an Australian airman, have been in Newfoundland for some weeks waiting for favorable weather in which to attempt to fly across the Atlantic. The incentive for the contest between the two to achieve the honor of being the first to fly across the ocean is a group of prizes. The London Daily Mail has offered a purse of £10,000 to the first successful lucky man bring the total to about £50,000.

A report from New York on April 19 Said American destroyers had received orders to take stations on the route between Newfoundland and the Azores by April 26. It was understood the purpose was to be ready to assist trans-Atlantic aviators who might meet with accidents. It is surmised these craft are now in position.

I affirm before this Parliament that Italy is animated by all that spirit of conciliation which is compatible with the unavoidable exigencies of mational conscience and dignity. With the same sincerity I say that I can not determine in this difficult moment in what form or by what means we can reach our object because in the last solemn conversation that occurred April 24, there arose a difference, not only regarding our point of view, but also between that of our Allies and our Associated Powers. Therefore, in the present state of affairs, Italy is not facing a solution in which the Allied and Associated Governments agreed with an insurmountable measure of agreement. Nor is there a proposal of compromise upon which all are agreed, but instead she is there a proposal of compromise upon which all are agreed, but instead she is facing a difference of opinion which virtually denies the actual possibility that special territorial conditions reserved to Italy can be contained in the peace treaty accepted by all the Allied and Associated Powers.

Dominion Must Guard Citizenship, Says Calder, Introducing Bill at Ottawa

"There is only one answer." Mr. Calder continued. "We have done practically nothing. Our policy in that respect has been simply tragic. We have done nothing to familiarize them with out laws. We have had no policy to Canadianize them."

As an instance Mr. Calder cited the Galicians, who had come mostly from Austria. They had been dumped on homesteads and were unfamiliar with Canadian ways. Instead of being helped and advised, they had simply been allowed to drift. It was only by hard work, year after year, that they were eventually able to succeed. The policy of the future must be that if people were invited, they shound be given every possible assistance to enable them to become good Canadian citizens.

Orientals.

Referring to the Japanese situation, he said that some years ago an arrangement had been made whereby the number of Japanese allowed to enter Canada should be limited. To-day there were 400 fewer Japanese in Canada than in 1914.

He thought a very great mistake had been, made in placing a head tax on Chinese. By doing so they had simply commercialized that business. If there were no head tax there would be fewer Chinese in Canada. Young Chinese who were brought here by commercial enterprises had to live in semislavery until the head tax and the expenses were paid off along with heavy interest. Probably one day that tax would have to be removed.

Mr. Calder referred to the immigration of Hutterites and Mennonies into the prairie provinces. The policy of the Government was that it should be free to shut out any class of people who would not readily be assimilated

Unemployment.

Steps must be taken, Mr. Calder said, against increasing unemployment in Canada. Since the armistice was signed the Government had been discouraging the entry of skilled and unskilled labor. "We have been shutting them out," he said, "on every pretext we could." The policy should be to encourage the immigration of farmers with necessary capital to enable them to establish themselves. The Government believed that the time had come when for a time the entry of certain classes of persons into the west should be limited.

The Minister said the Governmen

The Minister said the Government was excluding all skilled and unskilled labor from Asia. The existing law enabled it to shut out all nationals unless they came direct from their country of origin.

His Recent Note to Delegates **Embodied in Statement** Issued at Paris

Paris, April 30.—A statement was issued last night dealing with the memorandum sent by President Wilson to the Italian delegation on April 14 with permission to make it public in Italy, and which was given out yesterday in

Italian Claims on the Adriatic," follows:

"There is no question to which I have given more careful or anxious thought than I have given to this, because, in common with all my colleagues, it is my earnest desire to see the utmost fustice done to Italy.

"Throughout my consideration of it, however, I felt that here was one matter in which I had no choice, and could wish to have none. I felt bound to square every conclusion that I should reach as accurately as possible with the fourteen principles of peace which I set forth in my address to the Congress of the United States on January 8, 1918, and in subsequent addresses.

"These fourteen points and the principles laid down in the subsequent addresses were formally adopted with only a single reservation by the powers associated against Germany, and will constitute the basis of peace with Germany. I do not feel at liberty to suggest one basis for peace with Germany and another for peace with Austria.

gest one basis for peace with Germany and another for peace with Austria.

Peoples' Choice.

"It will be remembered that in reply to a communication from the Austrian Government offering to enter into negotiations for an armistice and peace on the basis of the fourteen points to which I have alluded. I said that there was one matter to which these points no longer applied. They had demanded autonomy for the several states which had constituted parts of the Austro-Eungarian Empire, and I have pointed out that it must now be left to the choice of the people of these several countries what their destinies and political relations should be.

"They have chosen with the sympathy of the whole world to be set up as independent states. Their complete separation from Austria and the complete dissolution of the Austro-Hungarian Empire has given a new aspect and significance to the settlement which may be effected with regard, at any rate, to the eastern boundaries of Italy.

"Personally, I am quite willing that Italy should not be accorded along the

"It was with these facts in mind that I approached the Adriatic question. It is commonly agreed, and I very heartily adhere to the agreement, that the ports of Trieste and Pola, and with them the greater part of the Istrian Peninsula, should be ceded to Italy, her eastern frontier runing along the natural strategic line established by the physical conformation of the country—a line which it has been attempted to draw with some degree of accuracy on the attached map.

"Within this line on the Italian side will lie considerable bodies of non-Italian populations, but their fortunes are so naturally linked by the nature of the country itself with the rest of the Italian people that I think their inclusion is fully justified.

THE LEAGUE COVENANT

If there is any disappointment over the wide gap between the expectations of those who advocated and supported the proposal of a League of Nations and the provisions of the covenant finally adopted at Paris, it should be remembered that the same condition has existed in connection with every forward move for the betterment of humanity. This institution, like democratic Government and every other break with the past, must begin with limitations imposed by an infinite variety of circum-It must represent nations in the average, and to that representation the most developed countries must make concessions for the sake of their more backward sisters.

If the organization of the League involved nothing more than the adoption by its membership of arbitration as a means of settling international disputes it would have begun its career under the most promising circumstances. Indeed, if it involved the acceptance of that principle by only the British Empire, the United States and France, it would have created strong insurance against more world wars. It unquestionably has brought the two great Anglo-Saxon nations to a basis which never existed between them before, and that alone is a

great gain for humanity.

The new order is peculiarly the joint creation of the Governments of this Empire and the United States. If President Wilson was the first national leader to propose such an organization publicly during this war, it is well known that Lord Rober Cecil and his British colleagues were the actual architects, and it is equally well known that the influence of Mr. Lloyd George was largely the means of converting M. Clemenceau and other representatives of France at the Conference.

The League of Nations, therefore, is chiefly a British-American institution, and therein lies its best assurance of success. There are madmen in both countries who are frantically endeavoring to drive them apart, their Bourbon mentalities being unable to realize that the two must stand together or the world will plunge still farther into barbarism and chaos. In view of the activities of these peo we need wonder no longer at the ruinous achievements of German junkerdom. The junker imperialist is the same all over the world. He cannot visualize anything but war. Even the perilous economic situation, in which three-fourths of the world is face to face with bankruptey and its demoralizing consequences, is beyond his ken.

A League of Nations is anathema to the reactionary and the chauvinist, whose only idea of a combination of powers is something that will support the old feudalism with which the world has been cursed so long, with its accompaniments of militarism, secret diplomacy, national aggrandize-ment and the suppression of democratic development. But, with all its defects, it is welcomed by the plain peoples of the world, and that is what counts, for the peoples, upon whom the burden of war falls, are determined henceforth to be the final arbiters of their own destinies.

Gone are the days when two or three men in the darkened corper of some chancellory disposed of the destinies of whole nations without their knowledge or consent, or sentenced millions to death and misery by attaching their signatures to a document which never saw the light of day. That such a horrifying system should last as long as it has suggests that civilization is still in swaddling clothes and that it is destined to embark upon great many departures from past traditions and practices before it can plume itself on its progress.

There is no reason why the League of Nations with the great white light it will east upon international policies and relations, should not be as successful in its way as all the other institutions of democratic progress. Time was when responsible Government was declared to be a hopeless experi-ment, when the enfranchisement of the people was branded as a foolish innovation, when even Christianity itself was damned by nine-tenths of the known world as a ruinous delusion. The League of Nations may not eliminate wars, but if it su tially limits the possibility of wars, it will thoroughly justify itself.

THE NAVY LEAGUE

It should not be difficult for the people of Victoria to find the requisite financial support for the use of the local branch of the Navy League. Last year the Dominion Executive made a grant of \$10,000; this year an endeavor is to be made to raise the money locally, and, at a meeting to be held in the Belmont Building to-night, the matter

will be discussed by way of a resolution.

Victoria has long held an important position in the belt of British naval stations embracing the globe. For this very good reason alone there should be sufficient incentive for Victorians to exhibit a practical sympathy with the excellent auxiliary work carried on by the local branch of the League. work carried on by the local branch of the League. The appeal shortly to be made by the local officials, moreover, will provide a means of expressing thankfulness for the protection afforded to these shores by the men of the Royal Navy and the men of the Mercantile Marine. If their magnificent work permitted of little of the spectacular, when its story is told no more wonderful chapter will be found in the world's payal annels. be found in the world's naval annals.

The work of the Boys' Naval Brigade—under-taken by the local branch of the League—includes the teaching of the younger generation all the arts of seamanship, and many a youth who takes his training here twice a week will go to uphold the traditions of the great and silent navy. The Connaught Seaman's Institute is a boon to naval men, and its cheery secretary, in the person of T. Wright

Hill, has been the means of imparting that welcome | LENINE AND TROTZKY NOW touch of home life to the men of the Mercantile Marine. The Sailors' Club at Esquimalt is managed by Mrs. Ranns-Victoria's Agnes Weston-and its value to the "lads in navy blue" needs no and its value to the 'lads in navy blue' needs no comment. The many letters of gratitude which continually reach the institution speak volumes for the good work of 'Mother Ranns,' as she is so lovingly called by 'her boys.'

It is to be hoped that this city will give to the local branch of the Navy League of Canada a measure of financial support in keeping with the importance of its meritorious labors.

AID FOR INDUSTRIES

An industrial committee, representative of all returned soldier organizations, has written to Premier Oliver suggesting to him that the Government withhold any monetary grant for the establish-ment of industries to be more or less fathered and managed for the benefit of foreign corporations. The committee has in mind the recent interview with the Provincial Executive, when the Rotherd Company, of Seattle, agreed to come to British Columbia and erect an electric smelter if the Government would loan \$300,000 and contribute other incidentals.

As is generally presumed, the returned soldier interpreted the Industrial Act, placed on the statute books of the Province at the re-

dier interpreted the Industrial Act, placed on the statute books of the Province at the recent session of the Legislature, as one vesting initiative in industrial development in the Government itself. That is obviously what the Government understands, and to that end it is endeavoring to secure the services of an industrial commissioner who is adjudged to possess the proper breadth of vision and commercial ability to give practical effect to the spirit and intent of the Act.

It is encouraging to note, however, that the Industrial Committee is alive to the possibilities of the measure as a benefit not only to returned soldiers but to British Columbia as a whole. The Premier is advised that several proposals are in readiness for submission to the Department of Industry. One of these proposals, we observe deals with the question of steel production at approximately the identical figure asked by the American concern. The committee estimates that, by the adoption of its plan, steel can be manufactured at a profit of \$25.00 per ten on present prices.

If this scheme contains practical merit on thorough investigation by the Advisory Board, the Government should not hesitate in giving it the

CIVIL SERVANTS AFFILIATING

When the suggestion for a constitution was submitted to an inaugural meeting of the Civil Servants' Association a few months ago a provision designed to sanction affiliation with organized labor proved to be a rock upon which the rank and file members split with the Deputy Ministers and technical officials. The latter offered unqualified objection to any plank in the Association's platform virtually reserving the right to strike, and, as this was the interpretation placed upon that par-

ticular clause, it was dropped.

At a meeting of the local branch of the organization last night, however, the tentative constitution was apparently set aside and a decision reached to apply to the Trades and Labor Congress of Canada for a charter. If the application is successful it will mean that the civil servants of this Province will become full-fledged trades unionists, participating, to all intents and purposes, in what benefits and support such an affiliation with organized labor carries with it. Whether or not the Deputy Ministers and technical officers will revive their old All objection and withdraw from the Association remains to be seen. We presume that in such an event their presence in the service unchallenged by the union membership would create an "open

Nobody, of course, has any objection to organiza-tion for mutual protection. The principles of trades unionism—now modernized in some quarters beyond recognition—are as sound as ever they were. But if that organization is intended to exert pressure for the purpose of wresting something from the Government-the Government being the

We are satisfied, however, that the present Administration intends to deal fairly with the civil servant, and we are inclined to believe that the action taken last night could have been profitably delayed at least until the results of the regrading SEEDING IN MANITOBA are announced.

SUPERIORITY IN THE AIR.

At the close of the war Great Britain led all nations in the air, according to figures compiled by the Scientific American. The British air force fought on more fronts than any other nation, and its successes were therefore proportionately greater. In August, 1914, the British naval and military air service together mustered only 285 officers and 1,853 men of other ranks. In November, 1918, there were 30,000 officers and 264,000 men. At the outbreak of the war Great Britain had 166 airplanes, 45 seaplanes and seven airships, while at the close of hostilities she had 21,000 airplanes, 1,300 seaplains and 103 airships. Besides there were 25,000 airplanes and seaplanes being built and 55,000 airplane engines under contract

Uncle Wiggily and Baby Bunty

Copyright, 1918, by McClure Newspaper Sync (By Howard R. Garis.)

"Ouch! Oh, dear! My! My!"
That was what Nurse Jane Fuzzy Wuzzy heard one day in the hollow stump bungalow. She was just getting breakfast for Uncle Wiggily Longears, the burny gentleman.

"My goodness me sakes alive and a basket of potato chips" cried Nurse Jane, accidentally dropping a stewed carrol into the turnip marmalade. "I hope the Sktezicks, or the Pipsisewah or the Skuddlemagoon hasn't caught Mr. Longears!"

She looked in the dining room. The bunny had just come downstairs to his breakfast.

"Ouch! Oh, me! Oh, my!" groaned the bunny as he sat down in his chair, which was gnawed out of a grapevine root.

PRETTY WEDDING AT FIRST CHURCH

Miss Gladys M. Stokes Wedded to Saskatchewan Bank Manager Last Night.

The auditorium of the First Presbyterian Church was beautifully decorated with caila Miles, white roses, narcissi, and spring flowers in wonderful
profusion for the wedding last night of
Robert Alex. Buchan, a returned veteran, son of Mr. and Mrs. Alex. Buchan,
of Winnipeg, and manager of the Merchants' Bank of Whitewood, Saskatchewan, to Miss Gladys Maude Stokes,
eldest daughter of Mrs. Wm. Johnston,
of Cook Street, late of Winnipeg. Rev.
J. Gibson Inkster performed the ceremony at eight oclock in the presence
of a large gathering of friends of the
bride and groom.

The bride, who entered the church
on the arm of her stepfather, Wm.
Johnston, to the strains of the Bridal
March played by Haroid Davis, looked
charming in her wedding gown of
vory embroidered crepe de chine and
charmeuse satin, with flowing veil
caught beneath a coronet of orange
blossoms, and carrying a beautiful
bouquet of bridal roses and maidenhair fera. Her only ornament was a
pearl sunburst pendant, the gift of the

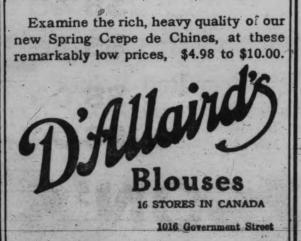

groom. She was attended by one bridesmaid, her sister, Miss Maye Stokes, daintily gowned in pale pink crepe de chine with becoming black picture hat, and bouquet of pink sweet peas. Mrs. Morris Reade, aunt of the bride, was the matron-of-honor, and wore a smart frock of grey crepe de chine and chick black hat. The groom Brown, \$2; S. A. Spencer, \$2, and J. H. I. O. D. E EMBARGO **AGAINST THE HUN**

"Whereas German factories have been heavily bonused by their Government and are placing goods at below cost on the markets of the world, thus making it impossible for the factories of other nations to compete with them, and on account of the persistently cruel treatment of prisoners of war at the hands of the enemy, therefore be it resolved that the Provincial Chapter, LO.D.E. now in session, declare that they will not now, knowingly, nor uftil such time as shall be determined, buy any article made in Germany, and as far as possible will use goods manufactured within the British Empire; and that we shall endeavor to educate public opinion as to the necessity of taking the most vigilant measures to prevent enemy allens from occurring our lards and control. The foregoing was the wording of a resolution, sponsored by Mdme. Gauvreau, of New Westminster, and seconded by Mrs. de Pencier, of Vancouver, and passed at this morning's session of the Provincial Chapter. In speaking to the resolution, Mrs. E. P. Davis, of Vancouver, made a strong plea to the Daughters to use their influence in preventing the entry of the Hun or his manufactures into the Empire 'in simple justice to the men who have fallen and to the women of the Empire who have made such sacrifices during the war." Citing the innumerable cases of horrible depravity and bestiality and inhuman practices proved against the Hun, she urged the members to alian themselves with the Anti-Hun League in keeping the Germans out of the Empire altogether, and to prevent the entry of such people as the Mennonites, who availed themselves of all the advantages accruing from British citizenship without accepting the responsibilities of such.

advantages accruing from British citizenship without accepting the responsibilities of such.

Mrs. A. H. Creery, Mrs. A. Thomson, Mrs. Mortimer Appleby and Mrs. Mc-Micking were among those who spoke in support of the motion.

Watson, Chemainus, Much of the morning session was

undoubtedly precipitated a critical situation at the City Hall. By all appearances the Association is firmly behind its President, who is the third head of that organization to fall a victim to the municipal guillotine. The feelings of the civic employees is considerably, strengthened by the fact that when Mr. Byers accepted the presidency of the Protective Association he was given a tacit assurance that, should he suffer the fate of his two predecessors, he would receive the support of the other members. In the case of the first two presidents their positions were abolished, but Mr. Byers, it is understood, will have to be replaced. Members of the Association therefore feel that the dismissal is a blow directed toward the Union in an attempt to discourage it. As three presidents have been successively disposed of it is feared that in future it will be almost impossible to obtain leaders. In fact, it is argued by the employees that the time has come for a show down, and Mr. Byers seems assured of his colleagues' strong support. What action will be taken by the Association has yet to be decided, but not a few whisperings of a strike can be heard about the Hall to-day. While they seem to realize that the situation is not one to be passed over lightly, the Mayor denies that he or the Aldermen had anything to do with Mr. Byers's dismissal. The action, it is declared, was taken by Water Commissioner Preston in whom the necessary power is vested. Mr. Preston-himself-repudiates the suggestion that there is anything ulterior about the dismissal, which had been merely a part of efforts to maintain the efficiency of the Department. It is probable that an effort will be made to adjust the matter amicably, and the Mayor understands that the Water Commissioner may reconsider his decision. **End Your** Catarrh To-day

Ladiés Cannot Fly.

At first it was intended that the lady who submitted the successful name would not only chirsten the aeroplane, but would be taken on the first flight, which would have added a great deal of interest to the competition. But on consulting the rules it was discovered that the league is forbidden to carry female passengers. The officials, however, state that, should the rules be amended at some later date, the winning lady will, provided she desires, be taken on a flight.

Big Field Day Later.

Following the exhibition on Wednesday it is the hope of the league to have a grand field day sometime around May 24. Entries are expected from Vancouver and Seattle. So far not more than one machine has been in the far at once over this city, but it is hoped to have at least three and possibly four, performing stunts simultaneously on the big field day.

The work of rigging the Curtiss plane at the Willows is proceeding rapidly, and the machine will shortly be ready for her test flights, prior to taking the air on Saturday to help along the publicity campaign of the Victoria and Island Development Association.

WOULD USE RETURNED MEN FOR PROSPECTING

Canadian Mining Institute Has Suggestion for Developing Mining

Members of the Canadian Mining In-stitute are being urged by H. Mortime Lamb, secretary-treasurer of that, or-ganization, who is now in this city, it support him in representations which have been made to Sir James Lougheed Minister of Soldlers' Civil Re-establish. Minister of Soldiers' Civil Re-establish-ment. The Minister has been urged to establish a prospecting expedition, headed by returned men, to explore and investigate the mining possibilities of the unknown parts of the Dominion. The suggestion is that the Govern-ment should utilize returned soldiers in the work of exploring for minerals under the auspices and direction of the Department of Mines. The recommendation is that the

under the auspices and direction of the Department of Mines.

The recommendation is that the suitable territory should be defined and plaged in charge of an officer of the Department, to act as general supervisor of the work of the exploration parties.

The exploration parties would be under a mining engineer who is a returned soldier and suitable qualified returned men to aid him.

"After making a discovery an officer of the Department of Minies would investigate it, and upon his recommendation it could be opened up. If after being opened up the showing was sufficiently promising the Government would invite the larger exploration companies to send their representatives to make an examination and enable them to secure a working bond on it with the option to purchase.

"Of the moneys realized from the sale of properties 75 per cent, would be retained by the Government and would go towards defraying the expenses of the explorations, while the remaining 25 per cent, would be divided among the members of the party responsible for making the original discovery. This latter provision is suggested as being not only a fair one but as an incentive to activity on the part of the men who enter this service."

CIVIL SERVANTS TO **JOIN LABOR RANKS**

Their Requests Were Not Granted

Before the new Curtiss biplane takes off from the Willows' oval for her exhibition flights next Wednesday afternoon a very interesting ceremony will be performed in front of the judges' box, when the first christening in the history of Canadian aviation will take place. The sponsor on this occasion will be one of Victoria's fair young ladies, who selects the succassful name for the machine.

The Aerial League has hit upon a novel plan for enlisting the support of the ladies in its work. They established themselves well with the successful dance-cabaret on Monday evening, but there were large numbers who were unable to attend this entertainment. The boys want the support of all the ladies. As a result they have decided to rask the fair ones to sublifit suitable names for the christening of the aeropiane.

The rules governing the competition are as follows:

1. All names must be submitted must be chosen by a ledy resident on Vancouver Island.

2. All names must be submitted must be fore May 7 to the publicity department, Aerial League of Canada, 204 Union Bank Building, and narked "Aeroplane Competition."

3. Not more than two names can be submitted by the same lady.

4. The judges of the competition will be chosen by the publicity department, and their decision will be final.

5. No mame need be accepted in the event of an adverse decision by the judges. The winning competition will be done of the indices. APPLIES TO ALL WHO ENLISTED UNDER AGE

Dominion Government of Canada.

Backing up frequent representations made to Ottawa by the various Provincial Commissions, the Hon. J. D. Mac-Lean, Minister of Education and Provincial Secretary, has been in touch with the Department of Soldiers Civil Re-establishment while in the National Capital, and Secretary Pyke is informed that provision has now been made by Order-in-Council for those young men whose studies were not completed when they left their training to serve their King. The provision applies to all who enlisted between the ages of fifteen and eighteen.

What It Includes.

Another matter which the British Columbia Commission has taken up with the Department at Ottawa is the question of establishing a vocational course for widows and orphans of Canadian soldiers killed in battle. The advisability of a "brushing up" course for the skilled mechanic who may have grown "rusty" in his profession during his several years of war service has also been recommended by the local Commission and endorsed by the various soldier organizations in this Province. NORTHWEST BOXING AT

Tacoma, April 29.—Plans were announced to-day by the Citizens' Commission in charge of the peace jubilee the week of July 4, for a Pacific Northwest amateur boxing tournament to be held in the Stadium. Chet McIntyre, former coast light-heavyweight champion, was put in charge of the tournament which will provide contests for amateurs in all divisions. Entries are expected from all over the coast and the Northwest.

VICTORIA LAWN TENNIS CLUB HAS ARRANGED FOR BUSY SUMMER

Provincial Championships July 28; Will Send Team to Tacoma for Northwest Titles

Strengthened by the return of many members from overseas and an already increased membership, the Victoria Lawn Tennis Club anticipates the busiest season for several years. That the high standard which has been held by the city's premier club, which is also claimed to be the premier club of Canada, during the last thirty years, will be maintained and further laurels added this year, is the opinion of the executive.

Extra Courts.

For the last six or seven weeks work has been proceeding to place the courts at the Willows in the finest of shape, and three more courts

will be opened up during the week.

Champions Out.

About thirty-nine enthusiasts were getting into shape last Saturday, among—them—Miss Idiens, the lady champion. A. M. D. Fairbairn, the men's singles champion: Miss Lawson, Miss Cotsworth, Mrs. Rickaby, D. M. Gordon, R. Mackenzie and J. D. Taylor. Between now and May 24, when the first tournament is to be held, the number of courts thrown open for use will be added to weekly, to provide for the increasing number of members putting in an appearance each week. A considerable number of new members have already been added to the club, and as the season advances the club, is hoping that more members will and as the season advances the club, and as the season advances the club, is hoping that more members will assummer have resumed their members whip, and should help the club in the busy season ahead.

It is also expected that a number of players will attend, and take part in the Mainland championship art in the Mainland champio

The Club Ladder.

Lewiston, Idaho, April 29.—Charles Hahn, of Lewiston, won the Idaho state championship at the annual trap tournament of the Idaho State Sportsmen's Association which closed here to-day. Hahn secured 283 targets out of a possible 390. Second place was won by H. R. Seckel, of Boise, with 277 targets. Seckel was tied with A. R. Johnson, of Lewiston for second place, but won from Johnson in the shoot-off. The high amateur gun at the traps to day was F. M. Troeh, of Vancouver, Wash. with 145 out of a possible 150 targets. Troeh was high amateur gun for the two days with 293 targets out of a possible 130. High professional shooter of the tournament was H. E. Hoston, of San Francisco, with 283 targets. The Club Ladder.

The ladder competition is expected to prove a big incentive to the players to work to attain the highest pitch. The ladder will contain the names of twenty-five to thirty players selected in order of merit, based on the known ability of the players. In each case the challenging party will be the one immediately below the other on the ladder and the challenger in the event of a win moves one rung up the ladder at the expense of the loser. The player on the last rung of the ladder is open to be challenged by any member of the club for a place. It is anticipated that a great deal of competition will be created, and especially will it prove an incentive to new members aspiring for a position on the ladder.

The provincial junior championships, which are also promoted by the Victoria Club for the Pooley challenge cups, will as usual be held the latter end of the season.

Inter-club competitions with Nanaimo and Cowletan will also be features of the busy programme.

KENTUCKY RACES

Chicago, April 29.—Charles Evans, Jr., national amateur and open golf champion, to-day further reduced his championship programme to competition in the national amateur contest at Oakmont County Club, Pittsburg, August 18-23. In addition to foregoing defence of the national open title, which he won in 1916 at Minneapolis, and the western open, as announced recently, Evans will not take part in the western amateur event at Susset Hill Club, St. Louis, June 16-21.

The national champion, instead of contesting for the western amateur title, will play a series of Red Cross games in Canada under the auspices of the Royal-Canadian Golf Association. This series will start on June 16 with games at Montreal, Quebec, St. Andrews-by-the-Sea and Toronto. Lexington, Ky., April 29.—First ra

Due to the influenza epidemic no mob scenes were permitted to be taken in Los Angeles, one of the most popular places in the country for the filming of moving pictures. Norma Talmadge and her company were in Los Angeles taking "The Heart of Wetona," at the time of the epidemic, and they were determined that they would stage a mob scene. The mob scene for the Corn Dance is one of the most important scenes of the picture and it had to be filmed to complete the picture. Ward Lascelle, assistant director, went out, determined to secure a permit to take the scene—and he got it. But the health officer who issued the permit lost his job the next day.

Miss Talmadge will be seen in this Select Picture, "The Heart of Wetona," in which she is presented by Joseph M. Schenck at the Royal Victoria again to-night."

STRONG CAST FOR A GOODMAN PLAY

Next Monday "The Man Who Came Back" Will Appear at Royal

William A. Brady will present at the Royal Victoria Theatre for two days, starting next Monday night. The Man Who Came Back." by Jules Eckert Goodman, based on the widely-read short story by John Fleming Wilson. Few plays have been accorded the popular success that this has attained and Mr. Brady is sending it here with an exceptional cast headed by Frank Morgan as Henry Potter and Dorothy Bernard as Marcelle, the cabaret singer. The company, which comprises many of the New York east, was organized for this special transcontinental tour of the large cities. Among those to appear in the various releasure Clifford Dempsey, Margaret Linden, Maud Campbell, Paul Atherton, Harry Sleight, J. Irving Southard, Allen Atwell and Harry Davies.

The play presents a page torn from the life of Henry Potter, the pampered son of Thomas Potter, a millionaire shipowner. Henry Potter is suddenly and unexpectedly thrown by his father on his own resources. The second episode shows the balcony of The Breakers, San Francisco, where young Potter has strayed on his downward path. There he meets Marcelle, the girl of his dreams. Later he is shanghied and the scene shifts to a low oplum den in China. Young Potter again meets the girl and when he finds that she is a slave to opium he realizes that he is responsible. At first he attempts to kill her to save her from further degradation, but his love has become so great that he fails. Then he resolves to save her and himself. Together they start up the long and weary road which leads to happiness and success.

The fourth episode takes place on a pinery near Honolulu. There they are trying to gather together the shattered threads of their lives and all is going well until an unexpected visitor arrives. The mappens another great toyes. The happens another great risis. The girl, with her great love for

One of the most severe earthquakes recorded at the Gonzales Observatory occurred early this morning, the tremor

occurred early this morning, the tremor commencing at thirty minutes past mignight, and the duration of tremors being four and a half hours.

Supt. F. Napier Denison sets the location about 5,500 miles from Victoria, and states it must have been a very destructive earthquake, probably in the western section of South America, most likely in Chile.

He explains that the record is the most pronounced to be recorded for the past five or six years.

Washington, April 30.—A very severe and prolonged earthquake estimated to have centred between 4,000 and 4,100 miles from Washington, was recorded early to-day at the Georgetown Uni-versity seismological observatory.

St. Louis, April 20.—Severe earth-quake shocks centred 5,400 miles west by southwest from St. Louis were re-corded early to-day by the seismograph at St. Louis University. Fifteen dis-tinct shocks, starting at 2,30 a.m. and ending at 5,20 a.m. were registered.

San Jose, Cali., April 30.—An earthquake of rather severe intensity, not more than 400 miles distant, was recorded early to-day at Lick Observatory, Mount Hamilton, near San Jose. Professor William Waldo Campbell said an exceptionally fine record indicating the distance was made on the seismograph, the shock occurring 12.51 o clock and continuing forty-five minutes.

Croft reviewed the steady increase in and paid tribute to the energetic and devoted work of the municipal and devoted work of the municipal and primary chapters. Referring to her pending resignation, Mrs. Croft stated that though resigning the presidency she was not severing her connection with the Order, and hoped to continue those long and pleasurable associations which had been so helpful a. factor in carrying out the duties of her office. In extending her warmest thanks to the officers of the chapter, she paid especial tribute to Mrs. Hasell, the Provincial secretary, Mrs. R. C. Boyle, first vice-president, and Mrs. Belson, second vice-president, for their devoted assistance.

Financial Statement.

Mrs. Hasell, the provincial secretary, then gave her report of the executive. Mrs. Dennis Cox, provincial treasurer, read the annual financial statement, which showed: Voluntary donations, \$10.858.55; membership fees, \$1,720.45; other sources, income from sales of wool and supplies, \$13.956. Cash on hand, April 1, 1918, \$19.9.32; cash in bank, April 1, 1918, \$19.9.32; cash in bank, April 1, 1918, \$1,256.33. Disbursements: Monetary assistance, \$10.409.19; other activities (including purchase of supplies and fees forwarded), \$14.315.42; expenses sundry, \$58.2.21; transfer to T. E. Fund, \$355.40. Cash on hand, March 31, 1919, \$2.368.33.

In commenting upon the report Mrs. Croft pointed out the exceedingly low cost of administration and overhead expenses, considering the vast sums handled and the tremendous amount of work done by the Provincial Chapter.

New Chapters Formed.
Mrs. A. H. McNeill, of Vancouver, the Mrs. A. H. McNeill, of Vancouver, the organizing secretary, reported that since May 1, 1918, municipal chapters had been formed at Prince Rupert and at Burnaby: Under the jurisdiction of the Victoria Municipal Chapter, two primary and one junior chapter had been organized; under the jurisdiction of the Vancouver, Municipal Chapter, three primary and five junior; under the jurisdiction of the Burnaby Municipal Chapter, one primary and one junior; and three primary isolated chapters under the jurisdiction of the Provincial Chapter. The following chapters had disbanded their charters having been returned to the National head office: Gallipoli, Donald-Hankey and Lady Franklin.

"Echoes" Criticised.

Mrs. Gatewood, of Vancouver, in her report as Echoes secretary criticized the unfair treatment accorded by the management of that paper to the chapter reports of the west. Lengthy, and in many cases duplicate, reports were given to the activities of the Order in the east, she asserted whereas reports from the west were either left out altogether or mutilated beyond recognition. Much dissatisfaction had also been expressed by subscribers who had failed to receive copies of the Order's organ. Mrs. Neroutsos suggested that the chapters of the four western provinces unite and have their own organ, a suggestion in which many of the members concurred. The matter will be left to delegates to the National Chapter to bring up at the annual meeting of that

delegates to the National Chapter to bring up at the annual meeting of that body, with a view to its remedy. During the session, Lady Barnard on behalf of the Provincial councillors presented to Mrs. Croft a handsome silver basket filled with pink carna-tions, and Mrs. Hasell received a bou-quet of pink roses. A pleasing little feature of the morning session was the presentation to Mrs. Croft of a beauti-ful bouquet of white roses from the Comrades of the Great War as a small token of their appreciation of the Order's work for the soldiers, while to 'Mrs. Hasell was presented a sheaf of pale pink roses.

Entertained by Mrs. Croft

At the conclusion of the afternoon session the officers delegates and members of the Provincial Chapter were conveyed to "Mount Adelaide," the home of Mrs. Croft at Esquimalt, where the guests were entertained at tea. The lovely grounds are just now at their best and, with the wonderful panorama of sea and mountains obtained from this vantage point, were greatly admired by the visitors. Tea was served in the spacious dining room which, as with the other reception rooms, was aglow with spring flowers.

The Goodyear Cord Tire is the supreme product of this institution. It is the fine result of the mightiest efforts of a world - wide organization unlimited in means and old in experience. Into it goes every worth-while idea, every extra-quality material, we have developed.

Naturally this tire serves supremely well-in economy and in satisfaction. Through extraordinarily long mileage it overshadows its extra price. By lively and muscular action it makes riding and driving easy saves car and gasoline.

You would expect Goodyear to produce this tire. Our entire history is but the story of tire development. We have sought the friendship of the world's

motorists by building tires ever better, by discovering the many things that make the automobile tire of to-day a willing and efficient servant. It is note-worthy that while higher in price, tire-cost-per-mile is lower to-day than before the Goodyear Cord entered the field.

Only on that one basis—quality and service—do we wish the Goodyear Service Station to sell you Goodyear Tires. Your part in the bargain is to call there and talk it over.

Ask, also, about the Goodyear Heavy Tourist Tubes. You'll find them extra thick and extra good—giving greater service in any tire and especially suited to the Goodyear Cord Tire.

What Soldiers Say About the Y.M.C.A.

Li.-Col. W. P. Purney, Dominion resident, Great War Veterans' Associa-on, Sydney, N.S. Jan. 28, 1919.

"There is no bone of contention between the G.W.V.A. and the Y.M.C.A. The Y.M.C.A. has done a work that no other institution could or would do. Speaking as president of the organization, and for our members, I wish the Y.M.C.A. God-speed in their spiendid work."

Philip Gibbs, War Correspondent, ondon Chronicle.

"I want to pay a very big tribute, my warmest tribute to the work of the Y.M.C.A. Very quickly after each battle these men of the Y.M.C.A. brought out their tents and equipments, by means of which they could give hot cocca, coffee and cigarettes to these men in the lines, and words cannot say what a cup of coffee meant to men plastered in white clay like those I have described. I remember seeing and marvelling at the rapidity seeing and marvelling at the rapidity with which the Y.M.C.A. got up their tents and equipment under Vimy Ridge, within a few hours of the capture of that place."

Major General Sir David Watson, Quebec, P.Q., Commanding Officer, 4th Canadian Division.

"The Y.M.C.A. over here is doing a most noble work, and I am proud of the work that is being carried out by the Canadian Y.M.C.A."

No. 456823, Pte. F. Frieman, 21st

Battalion.

"On behalf of the boys who travelled from Halifax I really take pleasure in thanking you for the splendid work done by your representative on the train. Judging by unfavorable reports, I, while in England, had been prepared for a neglected welcome of returned soldiers. But I am glad to say they are more than well looked after on the road to their homes, and in Halifax."

"I would like to take this oppor-tunity before finally leaving the Milit-ary Service of thanking you and the Y.M.C.A. organization, first for the many good things Fenjoyed in France, and secondly for the cheerful, helpful work during the journey homeward. I voice the appreciation of many others."

Signaller LD Smith, Belmont, Mani-

"Let no man now say anything against the V.M.C.A. to me, or he will get what for if I catch him. It is in France we found the great need of the Y.M.C.A., and, believe me, it is a Godsend to the boys in the trenches."

Driver B. L. Millon, Vancouver, B.C., 45th Battery.

"The prices charged by the Y.M.C.A. canteens are rivalled by no other canteens, and more than that they sell Canadian goods—Canadian cigarettes, Canadian maple sugar, milk, fruit, and cereals. I cannot see anything wrong with the Y.M.C.A., and if the people at home knew its real value to the boys at the front they would give it all the support it needs."

Corporal G. Waterman, Vancouver,

"I think that this idea of a repre-sentative of the Y.M.C.A. on the bomecoming troop trains is an excellent one, and I hope that it will be continued until the last Canadian comes home."

Y.M.C.A. Budget for 1919

THE total budget of the National Council of the Canadian Y.M.C.A. this year calls for an expenditure of \$2,869,669 The cost of the Y.M.C.A. work for the soldiers overseas, estimated at \$1,350,000 for eight months ending August 31st, will, it is expected, be provided for by the balance of funds on hand overseas, by the liquidation of overseas assets and 1919 canteen earnings. ment to establish an Air Board. The speaker pointed out that it was the first indication from Ottawa of any intention on the part of the Government to interest itself in the development of aviation, with particular attention to commercial flying.

When the apathy of the Federal Government was quite apparent a number of returned flying men in Victoria and Vancouver gathered together and decided to form an Aerial League and do all in their power to demonstrate the practicability of flying. As a result two machines have been brought to the coast—one for this city and the other for Vancouver. It is believed that the activity of the coast league has had a great deal to do with the action of the Government. According to the news from Ottawa the House plans to lend great assistance to the deevlopment of herial transportation. The board will consist of not less than five members and not more than seven, and the chairman will be a minister of the Crown, and the naval service and militia will each be represented. The board will supervise all aeronutics in this country, and will study the progress being made in other countries.

From the report emanating from Ottawa it is gathered that the Government proposed to establish a number of aerodformes throughout Canada, and these will come under the control of the air board.

If the Government had taken this action a few months ago members of the Aerial Leagnue believe that Can-ada would now be a formidable factor-in the aviation world. It is pointed out that many branches of famous British aeroplane manufactures would have been established in Canada now had it not been for the tardiness of the Gov-ernment.

Pimples Broke Out All Over Face, Arms and Neck

Pimples are a sure sign that the blood is not in its proper shape.

While the skin is the seat of the irritating, unsightly pimples, the real disease is in the blood.

disease is in the blood.

Medicated lotions and powders may allay the itching and irritation, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and the skin permanently injured by their use. The disease is more than skin deep; the entire circulation is poisoned.

Burdock Blood Bitters quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and erriches the blood, and thus relieves the system of all poisonous secretions.

B. B. E cures permanently because it leaves none of the original poison to ferment in the blood and cause a fresh attack.

At Point Hope splendid progress is being made on Hulis 211 and 213. The ceiling is beyond the half-way mark on Hull 211, and th cants are now be-ing put in on Hull 213. A new record was established in the building and erection frames on the latter craft. Hull 206 has been completed planked and with the truss-work well advanced she will soon reach the launching stage.

PROMPT MEASURES AT SHIPYARD FIRE

Blaze at Point Ellice Plant Soon Put Under . Control

Fire threatened the Point Ellice ipyards of the Foundation Company is forenoon, but owing to the effi-ent fire-fighting organization at the plant the incipient blaze was quickly extinguished. The fire broke out in the pitch-boiling shed located in the imediate vicinity of Hull 220, and with fifteen minutes of the alarm being bunded the conflagration was stamped

sounded the conflagration was stamped out.

Foundation Fire Chief Raymur was promptly on the scene, and under his directions the shipyard fire fighters, armed with chemical containers, smothered the flames which were leaping above the roof of the building. Fortunately there was no breeze or there might have been danger of the fire spreading to the adjacent stacks of sawn ship timbers located nearby. Several hundred feet of hose wererun out, and a start was made in playing water on the timbers, but this precaution was unnecessary as the chemicals soon had the blaze under control.

For the space of a few minutes the musual incident created excitement in he yard, and the workmen swarming he hulls under construction looked increastedly on while the yard firemen vere engaged in quelling the outgreak. The prompt manner in which he fire was brought under control peaks volumes for the efficiency of he fire-fighting service at the shiptards.

The ship is the second 1,500-ton steamer to be launched by the Northern Construction Company.

ADDITION TO SCHOOL

WOULD COST TOO MUCH

So high are all tenders submitted that the Saanich School Board cannot see its way clear to proceed with the contemplated addition to the Cloverdale School.

The Board has a vailable some \$15,000 and the tenders ranged from \$25,000 to \$26,000 or nearly seventy per cent. too much. Until the Trustees have devised other ways and means, therefore, the matter will have to remain in abeyance.

Five youths, one still in knee-breeches, and all from very respectable families in this city, appeared in the police court this morning of charges of burglary, another on five charges, at hird on three charges and the other two on one charge sand the other two on one charge sand. The plea of guilty was entered in every case. Magistrate Jay remanded them until to-morrow morning for deliberation.

The boy with eight charges, against him is nearly sevenicen years of age, and attended the High School up till Monday last.

A very refined looking lad who faced a single charge, explained that he had not received any money as his part of the particular raid. He received cigarettes and candy valued at about \$2.50. When the party had separated he became afraid, and wanted to take it back, but feared the consequences. He then hid the stuff in a cellar.

Three of the boys claimed that they had received about \$15 in cash from their raids. In the eight robberies sagainst the boys claimed that they had received about \$15 in cash from their raids. In the eight robberies sagainst the boys it is estimated that \$228 in money and goods were stolen. The charges date at various intervals from January 12 until April 25. Nearly every week-end some candy store was broken into, and the till ransacked and cigarettes and candles taken. The police were baffled as to the perpetrators until they found a few tools, and then commenced to weave a web around the lads.

Boulevarding-in James Bay.

Boulevarding-in James Bay.

The Board was advised by the City Council that the question of boulevarding in the vicinity of the Outer Wharf was a matter of local improvement to be carried out by petition of the property owners, and therefore could not be dealt with by the authorities.

H. J. Pendray was appointed charman of a special committee to take the matter of having streets leading to the Outer Wharf improved into consideration with the owners.

Two members of the Board will be appointed by the chairman to act on the committee to raise funds for the Salvation Army next month.

Proposed Auto Racing.

Proposed Auto Racing.

A letter from R. A. Hiller, manager of the Northwest Auto Bacing Association, appealed to the Board against the "machinations" of Alderman Geo. Sangster, who was apparently trying to "build a stone wall around Victoria," by opposing the races, the City Council having turned the application down. The matter will receive attention from a committee.

The question of abolition of commutation trom a committee.

The question of abolition of commutation tickets on the Esquimalt & Nanaimo Railway for points north of Shawnigan was brought before the Board by letter from W. A. McAdam, of the Victoria and Island Development Association, and the Board decided to support the Association in opposing this action.

Location of silver lead and tungsten deposits near Dawson, and the desire of the Yukon people for an appropriation to encourage its development, as expressed in a communication from Frank Lowe, was referred to the Mining Committee for report.

Moving Pictures.

The Board was asked to support the
endeavors of a moving picture expert
to establish a plant in Victoria. President Cameron thought the Board would
be in a better position to pass an opinion if the promoter laid his scheine
personally before the Board, in which
he was supported.

If the promoter comes to the city a
mass meeting may be held in order
that he may take the matter up publicly. The Board is prepared to make
recommendations based on the masonableness of the proposals.

Proposed Trip.

Hon. T. D. Pattullo, Minister of
Lands, suggested in a letter to the
Board that the proposed businessmens'
excursion might well be taken to Prince
Rupert and over sections of the G. T. P.
and the P. G. E.

The suggestion was referred to the
committee on Trades, Commerce and
Transportation for consideration and
report.

Geo. I. Warren suggested that the
