The Way We Do Business With You

Terms Cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in Cash. Remit by Money Order, Registered Letter or Bank Draft.

Order Early It is important that you order early. For the benefit of customers who wish to order early, but do not care to spare all of the money when the order is sent, we will accept such early orders if 10 per cent of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

Directions for Ordering Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this list. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with the different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when the stock arrives you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental, and we wish to right them.

Free Freight or Express On all orders of over \$10.00, accompanied by full remittance, we will prepay the Freight or Express to your R. R. Station, if east of Denver, Colo., and El Paso, Texas. Will prepay \$1.15 per 100 pounds to all points west of Denver and El Paso.

On orders amounting to \$25.00 or more at single, 10 or 100 rates, will pay freight to any point in the United States.

Prices The prices are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates respectively—i. e., five at half the price of ten; fifty at half the price of one hundred, and so on.

Packing All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and our customers' best interest. Everything is correctly labeled.

Our Guarantee The fact that nurserymen, planters and fruit-growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of over forty-four years' standing. But if any mistakes occur we will cheerfully rectify them.

True to Name We use the greatest care possible to have our stock true to name, and should any not prove true, we stand ready to replace it free of charge, or to refund the purchase money, but do not hold ourselves liable for any greater amount than the first cost of stock that may prove not true.

All shipments of trees will be accompanied by Certificate of Inspection of the State or Government Entomologist. Good stock, true to name, sold direct to the planter at reasonable prices is our aim.

Our Location Our location is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first-class and we have special low Express Rates.

Remember that we pay the Freight or Express charges on all orders amounting to \$10.00 as above, and guarantee safe arrival of shipments.

We solicit correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

NEW HAVEN NURSERIES
(J. Bagby & Sons Co.) New Haven, Missouri

Just About Ourselves

All of the trees we offer are grown right here on our own land and under our own care. We are proud of our record and of the orchards that are growing in every state from the trees we have produced. Some of our customers have been with us for more than thirty-five

J. L. Bagby, Secretary

years and we expect to keep right on serving a larger circle of new customers every year with Bagby quality trees. We make no claims at listing a great number of varieties of every kind of fruit. Neither do we aim to set forth in glowing language the supposed merits of new and untried sorts. This little catalogue contains only the standard, time-tried and tested varieties, with the descriptions written as accurately and as conscientiously as we know how.

Forty-four years of experience in the nursery business has taught us that our customers like our way of doing business, for they know that we do not exaggerate the merits of our varieties. We produce good stock, true

R. J. Bagby, President

to name, pack it well, ship it promptly and in good condition, and charge only reasonable prices. Let us fill your order.

“What Shall I Plant?”

We wish to say that the small-size trees are strictly first-class and well-rooted, and by many will be preferred to the larger sizes. So many ask, “What should I plant in my locality?” that we will here name a few of the popular and profitable sorts for general planting.

Apples

Jonathan, Delicious, Mammoth Black Twig, Gano, York Imperial, Winter Banana, Stayman Winesap, Rome Beauty, Winesap, Grimes' Golden, Maiden Blush, Yellow Transparent and Wealthy. This is our Commercial List. Others would add, perhaps, Ben Davis, Arkansas Black, Missouri Pippin, Duchess of Oldenberg, Spitzenberg, etc. All of the above are good, profitable sorts, both for home use and market.

Peaches

If you want to market your fruit, avoid planting too many early sorts. Elberta, Salway, Carman, Captain Ede, Crosby, Heath Cling, Chair's Choice, Gold Dust, Belle Ga. and Crawford are all profitable for market. Should early sorts be desired, Mayflower, Greensboro, Alexander and Sneed are what you should plant. If for home use, plant general assortment, including above, for a succession. The peach tree should have shoots and branches shortened every year or two. The land should be kept in a high state of cultivation.

Pears

The fact is more and more apparent that Kieffer and Garber will stay in the lead for profit in the Mississippi Valley states. Duchess, Bartlett, Winter Nellis and Anjou can be profitably planted further west. Koonce is the best early Pear.

Cherries

Early Richmond, Dyrhouse, Montmorency, Wragg (Sour), Governor Wood, Elton and Magann (Sweet), do very well and are profitable. For general planting we do not recommend the English Morello.

Plums

Wild Goose (Native), Common Damson, Shrop Damson, German Prune (European), Abundance, Wickson and Burbank (Japanese), are all good bearers and profitable. We consider the Abundance, Wickson and Burbank the best of the well-known Japanese sorts. Black Beauty is the best of all.

Thinning Fruit

When trees are heavily laden the fruit should be thinned when about one-third grown, else the fruit will be poor and the trees injured. The necessity for thinning was fully demonstrated during the dry summer of 1913.

Whole Root Trees

All our Apple, Pear, Peach, Plum and Cherry trees are grown on “whole roots.” Our Apples are grafted and planted so that the scion also roots. Don't pay extra prices for “trade marks.” We give our customers the very best, and we don't ask two prices. A trial order will convince you. In planting our trees, you set the best that experienced and skilled labor can produce.

Our Shipments

Our shipments for Fall 1915, and Spring 1916, consisted of over one million fruit trees, which went to thirty-seven states and territories. A total of about fifty furniture car loads. We are now growing on our premises over two million fruit trees, all clean and healthy; nothing over two years from bud or graft. We do not claim you should plant “Bagby-grown or none at all,” but we do want to impress on you the fact that there are NONE BETTER.

ON CLUB ORDERS amounting to over \$25.00, at single, ten, or hundred rate, 10 per cent additional in stock will be allowed. Club Orders amounting to \$50.00 as above, 20 per cent additional—\$100.00 or more, 25 per cent additional. See page 13 about Agents.

The real money-maker—a Bagby orchard

Apples

The first fruit, both in importance and general culture, is the Apple. Its period, unlike that of all other fruits, extends nearly or quite through the year. By planting judicious selections of summer, fall and winter sorts, a constant succession of this most desirable fruit will be obtained. Apple planting can never be overdone.

Our apples are all grown on Missouri river upland, on well-branched, whole roots, smooth, clean and well grown in every respect. No better trees can be found anywhere.

Summer Apples

BENONI. One of the best of summer sorts.

CAROLINA RED JUNE. (Red June). Medium size; red, flesh white; last of June.

DUCHESS OF OLDENBERG (Russian). Medium to large size; skin yellow, streaked with red, somewhat blushed. Productive. Aug.

EARLY HARVEST. Medium to large, bright straw color; flesh white. Tree moderately vigorous and productive. First of July.

LIVELAND RASPBERRY. One of the best early sorts.

RED ASTRACHAN. Large, crimson, handsome; rather acid, but good and crisp; profitable. Early

YELLOW TRANSPARENT. This valuable apple is said to be of Russian origin. We find it to be a valuable addition to our list. Medium to large; nearly white.

Grimes Golden

Fall Apples

MAIDEN'S BLUSH. Rather large, evenly shaded red cheek or blush on a clear pale yellow ground; bears large crops. August and September.

GRIMES' GOLDEN. Medium to large; rich golden yellow; flesh tender, mild, sub-acid. Should be gathered before turning yellow and put in a cool place, and often keeps until February. Tree hardy, vigorous; an early and abundant bearer. October to January.

RAMBO. Medium; streaked with dull red and somewhat dotted, productive and vigorous. Season, September to November.

WEALTHY. An apple of fine appearance and quality, an early and profuse bearer; a good market apple of its season. Tree hardy; in size and beauty it equals Baldwin, and is a better dessert apple. Ripens here in August. Winter apple North.

Winter Apples

ARKANSAS BLACK. Origin, Bentonville, Arkansas. The tree is a beautiful, upright grower, young wood very dark. Fruit medium to large; fine flavor; beautiful dark color, almost black; flesh yellowish, slightly sub-acid, crisp. One of the best cooking apples; vigorous. January to May.

BEN DAVIS. Fruit medium to large, flesh white; an excellent variety. Tree very hardy; a free grower, coming into bearing early and very productive; very popular. December to March.

BLACK BEN DAVIS. Ben Davis type. Dark red color.

DELICIOUS. A remarkably popular variety in the West. Fruit large, nearly covered with dull dark red; fine grained, crisp, juicy; quality best; a splendid keeper and shipper; vigorous grower.

GRAVENSTEIN. Red color. An old-time favorite.

HUNTSMAN'S FAVORITE. Originated in Johnson county, Missouri. Very large; golden yellow, with bright red cheek; nearly sweet, fine flavor, very aromatic. One of the best and highest selling market apples; tree very healthy and productive. Nov. to January.

BALDWIN. Large, rounded; deep bright red over yellow ground, few russet dots, very productive. A great market variety. Very popular. Nov. to Feb.

GANO. This apple was introduced to the public in 1886. Tree very hardy; it bears very young. Fruit bright red on yellow ground, no stripes; large; oblong, tapering to the eye; surface smooth, takes a very high polish, making it valuable as a stand fruit; flesh white. Annual, early, prolific bearer.

INGRAM. A seedling of the old Janet. Originated near Springfield, Mo. Its habits are similar to the Janet, but the tree is a more upright grower and the apple is not subject to crack. Size medium; striped bright red in the sun; flesh greenish-yellow, agreeable, sub-acid flavor; a good keeper. Tree hardy, late bloomer; very productive.

JANET (Rawle's Janet). Medium, roundish, greenish-yellow, striped with red; rich and juicy, one of the best and longest keepers in the South and Southwest; valuable for its high quality and its late blooming; moderate grower. January to March.

KING OF TOMPKINS COUNTY. Showy; good quality. Not productive in all sections. Very large round, oblate; yellow striped and clouded.

Delicious.

JONATHAN. Fruit medium, roundish; skin yellow, nearly covered with dark or lively red; moderate grower. One of the best apples for home use or market, as it is a delicious dessert apple that always commands the highest market prices. October to January.

MAMMOTH BLACK TWIG. Supposed to be a seedling of the Winesap, but tree a better grower in the nursery and fruit much larger; or, in other words, an improved Winesap. Tree a fine, upright spreading grower.

MISSOURI PIPPIN. Large, oblong, bright red with numerous gray dots; very handsome, fair quality, an early and very abundant bearer, and very profitable. December to March.

NEWTON PIPPIN. An old variety. Our stock is from the best bearing orchards in Oregon. Identical with Albermarle Pippin.

NORTHWESTERN GREENING. A Wisconsin seedling of great promise, having taken first prize at their state societies. Tree a good grower and hardy. Fruit yellow, smooth, rich, of good size, resembling Grimes' Golden in shape and color. Good quality. November to December.

ROME BEAUTY. Large, yellow shaded with red; tender, juicy, sub-acid. October to February.

STAYMAN WINESAP. Not quite so well colored as Winesap, but larger; a good keeper. Valuable for market or home use. A vigorous grower and adapts itself readily to different soils and conditions.

Jonathan

Winesap

SPITZENBERG. A popular sort in some sections. Our stock is from bearing orchards in the Northwest.

VANDEVERE. An old variety, not much grown, but for home orchards advise a few trees for excellent quality of fruit.

WINESAP. Medium, dark red; a favorite market variety in the West. November to April.

WOLF RIVER. Very large and handsome; flesh whitish, sub-acid, good bearer. Very handsome and showy. November and December.

WINTER BANANA. Fancy market fruit; large, pale yellow, pink blush. Tree a strong grower.

YORK IMPERIAL. This apple has been gaining favor, and is being planted largely in the West as a commercial sort. Large, smooth, yellow, shaded red, with indistinct red stripes.

Crab Apples

HYSLOP. Almost as large as Early Strawberry Apple; deep crimson; very popular on account of its large size, beauty and hardiness. Keeps well into the winter.

TRANSCENDENT. Remarkably vigorous, growing to a good size, and immensely productive. Bears a little the second year from planting, and every year after, and produces good crops by the fourth year. The best of its class for cooking and eating; juicy and crisp. Skin yellow, striped with red. September to October.

WHITNEY. Large, averaging 1½ to 2 inches in diameter; skin smooth, glossy green, splashed with carmine; flesh firm, juicy and rich. Very hardy; vigorous, handsome.

Prices for Crab Apples are the same as for other Apples.

A harvest of golden dollars from Golden Peaches

Peaches

We are "Headquarters" for True to Name Peach Trees in the West, and can supply in any quantity—the best up-to-date market sorts. Our Peaches are stocky, nicely headed, smooth, straight bodies, well rooted, on healthy peach stocks and free from any disease. Remember this in comparing prices with other establishments. Freight paid to your station, on conditions mentioned. Over 250,000 sold and shipped to other nurserymen in 1915-16.

FRUIT GROWER
CO.

Champion Peach

ALEXANDER. Large size, handsome and regular in form, with deep maroon shade; adheres to stone; should remain on the tree until fully ripe. White flesh. Early in July.

CARMAN. White flesh, large, with beautifully mottled red cheek. A valuable home or market sort. Season about fourteen days later than Alexander and about two weeks earlier than Elberta. Our stock came from the originator, and is true to name.

CHAMPION. Originated at Nokomis, Illinois. Fruit large, beautiful in appearance; flavor delicious, sweet, rich and juicy; skin creamy-white, with red cheek; free-stone. Aug. 15.

CHINESE CLING. The most popular Southern peach; shape is oblong, has creamy skin with faint flashes of red. August.

CRAWFORD'S EARLY. This beautiful yellow peach is highly esteemed for market purposes. Fruit very large, oblong, skin yellow, with fine red cheek; flesh yellow, juicy,

Block of Elberta one year from bud

sweet and excellent; free. Last of July. Would not advise planting this sort north of central Missouri.

CRAWFORD'S LATE. Fruit of the largest size; skin yellow, or greenish-yellow, with dull red cheek; flesh yellow; productive; one of the best free-stones. August and September.

CHAIR'S CHOICE. Large, late, yellow. One of the best for home or market planting.

CROSBY. If you want peaches every year, try some Crosby. It is medium size, rich orange yellow, splashed with red, and of the best quality. Mid-season.

CAPTAIN EDE. Originated on farm of Capt. Ede in Illinois. Is a splendid yellow free-stone variety. In appearance Captain Ede is very much like Elberta, which it equals in every way, except not quite so large, but is better quality.

ELBERTA. A Georgia cross between Crawford and Chinese Cling; very large, well colored; all things considered, the finest yellow free-stone in cultivation; no one can go amiss by planting it; the fruit is perfectly free from rot, and is one of the most successful shipping varieties. Aug. and Sept.

FAMILY FAVORITE. Free, seedling of Chinese Cling, of better color; large, clear, waxen complexion, with blush; prolific, firm; a valuable variety for shipping or drying. Last of July.

FOSTER. Same season as Crawford's Early; much more productive; yellow, with red cheeks; quality best; good size.

FITZGERALD. Of Crawford type. A seedling found at Oakville, Ont., where it stands the winter perfectly; is about as hardy as Elberta; quality first-class; yellow free-stone, and we recommend it.

GOLD DUST. If you want the very best canning variety, this is the peach. Large yellow cling-stone; juicy, productive and of best quality. Season, September 1st to 10th.

GREENSBORO. Large, oblong, greenish-yellow shaded red, flesh creamy; among the best; tree vigorous, prolific; grown largely in Georgia and the South for Northern markets. Ripen June 1st to 10th.

Captain Ede

HENRIETTA (Levy). Magnificent yellow cling, large size, slightly covered with bright crimson, hardy, productive, always commands fancy prices. September 25th.

HEATH CLING. Large, oblong, creamy white, slightly tinged with red in the sun; very tender, juicy, melting; very rich and luscious. September 15th.

MOUNTAIN ROSE. Large, red; flesh white, rich, juicy, excellent. Season, August 1st to 10th.

MILLER CLING. An extra large cling-stone. Hardy, productive, and of best quality. Earlier than Heath Cling, but larger and better color.

MATTHEWS' BEAUTY. Originated in Georgia. A late yellow free-stone. Fully as large as Elberta; two weeks later. A splendid shipper.

MAYFLOWER. A beautiful "red-all-over" peach; handsome and of splendid quality. Extremely early. Tree hardy and healthy.

OLD MIXON CLING. Large, with red cheek; juicy, rich and high flavored; one of the best cling-stone peaches. White flesh. August 15th.

OLD MIXON FREE. Large, white flesh, with deep red cheek; rich and good; one of the best. August.

PHILLIPS CLING. A fine, medium sized yellow cling. Exceedingly rich. Very popular in California. Small pit.

RINGGOLD CLING. Much larger than Heath, in every way an improvement on that popular kind. September.

SALWAY. Fruit large, yellow with red cheek; flesh yellow, a late showy market sort. Free-stone. September 15. Hardy.

SMOCK FREE. Fruit large, skin orange yellow, mottled with red; a good market sort. September 15. Hardy.

SNEED. Ripens earlier than Alexander, and belongs to an entirely different type; it is very distinct in tree and fruit, belonging to the Chinese Cling type; size medium; hardy.

STUMP THE WORLD. Very large; roundish; skin white, with a bright red cheek; flesh white; a free-stone. End of August.

THURBER. A seedling of the Chinese Cling, which it resembles in size and color; skin white, with light crimson mottlings; free-stone. August.

TRIUMPH. The earliest yellow peach known; productive, hardy and profitable for market. Originated in Georgia. Hardy.

WONDERFUL. Color rich yellow; flesh yellow, highly flavored; firm. Ripens in September. Very similar to the Smock.

WHEATLAND. Large, roundish, skin golden yellow, shaded with crimson on the sunny side; flesh is yellow and of fine quality; tree vigorous grower. August. Season is just ahead of Elberta.

Peaches are profit makers

Abundance Plums

First class trees, 3 to 4 feet.....	.25	2.00	16.00	140.00

ABUNDANCE. - A hardy, productive Japanese sort. Large, purplish red; quality very best. Season, early in July.

BLACK BEAUTY (New). The best Japan sort we have ever grown. Large, very dark purple, almost black. Persimmon shape. Quality and size of Abundance. 4 to 6 ft. trees, 40c each; \$3.50 per 10; \$25.00 per 100.

BURBANK. Large, varying less in size than the other Japanese plums; it is nearly globular; clear cherry-red, with a thin lilac bloom; flesh deep yellow, firm and meaty; tree vigorous and productive. Last of July.

COMMON DAMSON. Well-known and very productive. Season, September.

GERMAN PRUNE. Very profitable and will succeed wherever Common Damson can be grown. Very large. We consider it the best of European sorts. Aug. and Sept.

LOMBARD. Medium, round, oval, violet red; juicy, pleasant and good; adheres to the stone. Tree vigorous and productive. It is a valuable market variety; one of the most hardy and popular. August.

RED JUNE. One of the largest Japanese varieties; ripening before Abundance. Tree upright, vigorous and hardy.

SHROPSHIRE DAMSON. A plum of fine quality, sprightly. In market it has

commanded nearly double the price of the common Damson; enormously productive. Last of September.

WILD GOOSE. Large, rich, crimson, beautiful; flesh soft, melting, delicious, with a full, fruity flavor. Tree a strong grower, prolific.

WICKSON. We regard this as one of the best of the late ripening Japan sorts. Readily parts from the seed. Extra large. Season, August.

German Prune

Block of one-year Pear, New Haven Nurseries

Pear Trees

Our Pears are especially clean, smooth and well rooted, grown on XX French imported stocks.

For Kieffer and Garber in quantities of 300 or more, write us for special low prices.

Summer Pears

KOONCE. The handsomest, best and most valuable; very early pear; tree vigorous, upright grower, free from blight; magnificent foliage, which it retains late in the season; fruit medium to large; skin yellow, does not rot at the core, juicy, spicy, sweet and of a delicious quality. Is an excellent shipper.

BARTLETT. Large, skin very thin, clear lemon-yellow, with soft blush on the sunny side; flesh white, buttery, very juicy and highly flavored. The best summer pear in existence for quality.

CLAPP'S FAVORITE. Large, pale lemon-yellow, marbled with crimson on the sunny side and thickly sprinkled with brown dots; flesh finely grained and melting with a rich, vinous flavor. August.

ANJOU. One of the most delicious late fall pears; juicy and of excellent quality.

Autumn Pears

DUCHESS. Very large, greenish-yellow; sometimes a little russeted; makes a beautiful tree. One of the best. October and November.

GARBER. Originated in Pennsylvania. Fruit is large and beautiful; color bright yellow, with red; juicy and good; delicious canned. Ready to pick with LeConte, or a few days later, and much better, not only in fruit, but in hardiness and health of trees.

FLEMISH BEAUTY. Large, beautiful, juicy, melting, rich and fine; strong grower and good bearer; hardy everywhere. September and October.

KIEFFER. Tree a remarkable grower, with so vigorous a constitution that it rarely blights. Fruit of fine size, rich color and good quality. Brings high prices in competition with other varieties. Best when picked at maturity and house-ripened. October and November.

Cherries

There are few more desirable fruits than Cherries, and they can be grown for market with great profit. Along the street or avenue as ornamentals, especially the Heart and Bigarreau varieties are strong, vigorous growers, with large, glossy leaves and open, spreading heads, making a fine shade. Cherries thrive in almost any well drained soil. The fruit is equally delicious whether eaten from the tree or preserved, and it will always find a ready market at profitable prices.

Our Cherry trees are all budded on Imported French Mahaleb and Mazzard stock. They have fine roots and nice heads. All well rooted and will be graded full size indicated, and up.

	Each	10	100	1000

Leading sorts, first class, 1-year, 3 to 4 feet.....	.25	2.00	16.00	140.00

DYEHOUSE. Very early and sure bearer. Ripens before Early Richmond; but not quite as productive. May.

ENGLISH MORELLO. Medium to large, blackish-red; acid; juicy. Very productive. Short lived. July.

EARLY RICHMOND (Kentish Virginian or Early May). Medium size, red; melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the

acid cherries, and is exceedingly productive. First of June.

GOV. WOOD. One of the best sweet cherries; very large, light red, juicy, rich and delicious. Tree healthy and a great bearer. May and June.

LATE DUKE. Fruit similar to May Duke, but later and not so sweet.

MONTMORENCY. No doubt one of the finest acid cherries; tree very hardy and an immense-bearer; commences to fruit while young and is loaded annually thereafter with fine crops; fruit of good size; fine flavor, and of bright clear shining red; valuable everywhere, especially for Northern latitudes; larger than Early Richmond, and fully ten days later. Season, end of June.

MAGANN CHERRY. A new sweet cherry. Fruit large, almost black when fully ripe, growing in large clusters. It will pay you to include some of these in your order for other stock.

OSTHEIMER. Largest size, very dark; flesh tender, juicy. Late June.

WRAGG. Originated in Iowa. Medium to large in size, long stem, dark purple when fully ripe. A variety well adapted for the high altitude and prairie regions of the Northwest.

Montmorency Cherries

For Middle West we suggest as best commercial sorts in cherry—Richmond, Montmorency, Magann. For larger assortment include Dye-house, Wragg, English Morello or Governor Wood.

Strawberry Plants

Prices of Strawberry Plants, for spring shipment only: Selected plants, 25c per 10; \$1.00 per 100; \$6.00 per 1,000.

Large orders must be sent by express. Small orders carry safely by mail. They do no carry well by freight.

AROMA (Per.) Plants large, very vigorous and perfectly healthy. Makes plants just right for a good fruiting row. The blossom is rich in pollen, a good fertilizer for Sample, Bubach and Enormous. Fruit large to very large, roundish, conical, smooth and perfect in form, of a beautiful bright glossy red in color, very firm, and of excellent quality. Will give splendid results on any soil that will grow a good crop of corn or potatoes. It is nearly as late as Gandy, of long season. Three times as productive and a sure cropper every year. During the past five years the demand for plants of this variety has been very heavy and we have never been able to grow plants enough to meet this demand.

SENATOR DUNLAP (Per.) A well-tested, wonderfully productive variety, one of the safe sorts to plant everywhere and sure to take a high place among the prominent standard sorts. Plant resembles Warfield, rampant runner, should be restricted in its production of plants; fully equal to Crescent and Warfield in its ability to succeed under all circumstances. Fruit good size, regular form, beautiful bright red, glossy, firm, splendid keeper and shipper, excellent quality. One of the best for canning; ripens early and continues a long time. It promises to stand at the head in its wonderful ability to ripen a good crop, under almost any condition of drouth or neglect.

Fall Bearing Strawberries: Prices, 75c per 25; \$2.00 per 100.

General Information

Forty-five years have been spent in building up our nursery business here at New Haven. It was established in 1872 by Julian Bagby, the father of the present management. In 1892, the business was incorporated and since that date has been under the management of R. J. and J. L. Bagby, ably assisted by men in our employ. These employes have grown up in the business and are honored citizens in the community. We state this fact that our customers may know that their orders are handled by responsible men.

We own over four hundred acres of land, on which we grow our trees. This land has a value of over fifty thousand dollars. This information is given that you may know that we are responsible. We want you to feel as safe in dealing with us as you do with your bank.

ABOUT AGENTS

We are not employing traveling salesmen to solicit orders, but we shall be pleased to have you get up a club among your neighbors, and on club orders amounting to \$25.00 or more, at single, ten or hundred rates, we allow you 10 per cent additional in stock. We put up each order in a separate package, so that upon receipt of the goods you have only to hand out the different lots as ordered. Many of our best customers buy in large quantities at the lowest rates and distribute in lots as ordered by their neighbors.

We also desire to sell to nurserymen and dealers who buy to sell again, and special prices will be made on carloads or larger quantities than indicated in this list.

REFERENCES

Some of our correspondents have asked us to give them bank references, and we hereby comply, and refer to local banks and to the commercial agencies. We do our local business with Farmers' Savings Bank, New Haven, Mo.

DISTANCES FOR PLANTING

Standard Apples	30 feet apart each way
Standard Pears and Strong-growing Cherries	20 feet apart each way
Duke and Morello Cherries	18 feet apart each way
Standard Plums, Apricots	18 to 20 feet apart each way
Peaches, Nectarines	18 to 20 feet apart each way
Dwarf Pears	10 to 12 feet apart each way
Grapes	rows 10 to 16 feet apart, 7 to 16 feet in rows
Currants and Gooseberries	3 to 4 feet apart
Raspberries and Blackberries	3 to 4 by 5 to 7 feet apart
Strawberries for field culture	1 to 1½ by 3 to 4 feet apart
Strawberries for garden culture	1 to 2 feet apart

NUMBER OF TREES ON AN ACRE

30 feet apart each way.....	50
25 feet apart each way.....	70
20 feet apart each way.....	110
18 feet apart each way.....	135
15 feet apart each way.....	205

Rule—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill; which, divided into the number of square feet in an acre (43,560) will give the number of plants or trees to the acre.

Roscommon Co., Mich., 4-24-16.

I received the trees in fine shape and they are the best I have ever seen. I expect to order more in the future. Fred Palmer.

Clinton, Wash., May 1, 1916.

The peach trees came through in fine condition. I was surprised. You will hear from me again. Andrew O. Wigen.

A Few Words from our Customers

Stoddard Co., Mo., 3-15-16.

The shipment forwarded on the 9th, was received on the 11th, in good order. Many thanks for the two extra trees you sent me. The trees are as fine as I ever saw. When in need of more stock, I will buy from you.

Thos. Vinyard.

Essex Co., Mass., May, 1916.

The stock came in fine shape. I thank you for the extras.

G. A. Priestley.

Phelps Co., Mo., 3-24-16.

The shipment of trees arrived in fine condition and I must say I have bought trees from several nurseries but never got a nicer lot of stock than this one, full count and exactly as ordered. If I need trees in the future will certainly buy from you and will tell my neighbors where to buy also.

Frank W. Paulsell.

LaBette Co., Kan., 3-23-16.

Trees all arrived on the 16th, and am certainly well pleased with them, as I have always been with all orders that I ever received from you. Many thanks for the six peach trees you sent extra. Any time I need anything in the nursery line, I will certainly favor you with my order.

J. W. Ratliff.

Luzerne Co., Pa., July 19, 1916.

A few lines in regard to the trees I bought from you. They are all living and doing well but one.

Sterling B. Sax.

Jackson Co., Ill., Jan. 20, 1916.

I received the folder for important papers. Was a nice present and the very thing I needed. I thank you for it. As to trees for this spring. The fellows I have been ordering for have about all they want. They lived so well last year that they do not need to replant.

H. E. Allen.

Vernon Co., Mo., 4-5-16.

I have received my order of fruit trees and I think they are the finest trees I have ever seen. I will certainly tell my friends about your nursery.

Neal D. Purdy.

Utah Co., Utah, May 1, 1916.

Find check for..... in payment of account. Trees were very satisfactory. Likely need enough for next spring trade.

B. H. Bower.

Bourbon Co., Kan., 2-21-1916.

I ordered a \$15.00 bill of trees from your company two years ago and was well pleased with same. Now I am thinking of ordering more stock from you. Kindly send list of varieties of fruit trees and also price list, as I wish to order the stock soon as the weather will permit planting same.

S. W. Bowman.

Warren Co., Mo., 3-18-16.

Received the trees and they were the finest lot of trees I ever got for the money. That lot of trees would have cost me, from some agents, about \$25.00, and by getting them from you, I saved \$12.00. Am much pleased.

F. M. Tomek.

Garfield Co., Okla., 4-3-16.

I received the goods this a. m. They were in excellent condition and about the grades being put out here by other nurseries. You may depend on me for my future orders, and all the neighbors I can get.

S. E. Wood.

Harrison Co., W. Va., 4-16-16.

The shipment you sent me by express on the 1st day of April arrived here on the 4th, in fine shape. They were finer, better and nicer than I was expecting. I thank you very much for the extra trees you sent. If I ever need any fruit trees you surely will get my order.

J. A. Lancaster.

Washington Co., Idaho, 4-28-16.

I have been thinking for some time of writing and telling you how well pleased I was with my trees I got of you. They are just fine. Had peaches last year for the first time.

A. J. Mathewson.

Cochise Co., Ariz., 2-10-16.

Enclosed find due on nursery stock received some time ago. I wish to thank you for the gratis peach trees. Have had great success with the trees I received from you in 1914.

Chas. McPeeters.

Portage Co., Ohio, 4-1-16.

I will say I am very thankful to you for sending me such nice looking peach trees. When I want more trees I will know where to get them with nice roots.

C. L. Brumbaugh.

Warren Co., Mo., 4-19-16.

Enclosed find check for stock received. It was fine. I thank you very much for the extra Elberta. I know you want to do the right thing and appreciate it very much.

E. J. Polster.

Gloucester Co., N. J., 4-3-16.

I hereby acknowledge the receipt of the 20 Elberta peach trees that arrived in splendid condition, for which accept thanks.

Dr. G. M. D. Peltz.

Nottoway Co., Va., 4-5-16.

I am glad to state that your shipment of trees reached us in fine condition, and we are more than pleased with the order. I have been handling trees for over 25 years, and this is the most satisfactory "around" shipment I have ever had.

G. B. Dobson.

CERTIFICATE OF NURSERY INSPECTION

University of Missouri Agricultural Experiment Station

Columbia, Mo., Aug. 1, 1916.

This is to certify that in accordance with the Nursery Inspection Act, passed by the Forty-seventh General Assembly, the nursery stock of the New Haven Nurseries, Nursery, grown at New Haven, Franklin County, Mo., was inspected on July 5th, 1916, by a duly authorized inspector, and found apparently free from dangerously injurious insects or plant disease.

Valid until July 1, 1917, unless sooner revoked.

K. C. SULLIVAN, Deputy Inspector.

LEONARD HASEMAN,
Entomologist and Chief Inspector.

We Grow Our Own Stock

WE MAIL this condensed list of prices to our friends and customers, and will ask that they favor us with their orders as early as practicable. **The prices are for the goods at your station**, if your order amounts to \$10.00 or more. We have now growing in our nurseries over two million fruit trees by actual count. All clean and healthy. **Entomologist's certificate with each shipment.** No San Jose Scale, Yellows or Rosette has been found in this County.

Shipments to Pacific Coast and Southern States from our frost-proof storage during winter months via Southern Routes.

We are growers of what we sell, having over 500 acres devoted exclusively to the nursery business. Many nurserymen are simply jobbers in the trade, and cannot sell stock with the same certainty of being true to name and free from disease.

New Haven Nurseries

New Haven, Missouri

You order the Trees—we do the rest. We pay the freight on small orders clubbed together for shipment to one point, if the amount is \$10.00 or more.

Black Beauty Plum

The Black Beauty is the Best Plum for general planting. Ripens with Burbank, is very dark purple, almost black when fully ripe. Is a cross between the Abundance and the Common Damson. When cooked has the Damson flavor. A splendid market sort, being more than double the size of the Shropshire Damson. This variety originated with us here, and we can supply genuine stock propagated from the original tree.

Price each, 40c; 10 for \$3.50; 100 for \$25.00; 4 to 6 feet; first-class.

IT PAYS TO PLANT
Bagby Grown
FRUIT TREES

They Grow and Bear True to Name

WHEN you buy Fruit Trees, you want the best that can be produced. Bagby grown trees have been on the market for over forty-four years. When you buy them you are setting the best money can purchase, and you know what the crop will be. Our modest success has been achieved without any "pedigreed" hot air or "selling dope" of the patent medicine order to scare you into buying. Our varieties are correct, our grades full and all culls go on the brush pile. High quality and absolute satisfaction guaranteed, with a record of over forty-four years square dealing to back the guarantee.

**New Haven Nurseries, New Haven, Mo.
