Put these 3 questions to your druggist

How quickly should a physic act? What laxative gives quickest relief? Is a quickacting laxative necessarily harsh, and will it gripe?

Your druggist will answer that 80 per cent of all sickness originates in decaying waste matter; therefore, minutes count -quick relief is of first importance. He will tell you that Pluto gives quickest relief-it acts in 30 minutes to two hours.

He will also tell you that Pluto, being a water laxative, is gentle, harmless and won't gripe. When sickness comes, it is always best to call your doctor; a timely dose of Pluto, however, is a wise step toward prevention. Keep Pluto always in the home.

is just what a young American bariton, Norman Johnstone, succeeded in doing yesterday afternoon in the week's and his first recital at Acolian hall. After this Haendel aria he ranged through old Irish and old Italian to Schumann, with whose lieder he was less successful, only to follow with two Grieg songs that were charmingly done, a group of French, also done with excellent enun. ciation and pronunciation, and to enc with a well-chosen English group, lr which 'My Lovely Celia,' generally left to singers of the other sex (though why it should be only heaver knows), and Leoni's dashing 'Tally Ho' particularly stood out. Mr. John stone has a lot in his favor-a good voice, well produced, good stage pres ence and a prepossessing manner. The audience liked him and did not hesl-

Plan to Roast Your Thanksgiving and Christmas Turkey Electrically!

Seven Hundred Electric Ranges in Duluth

Electric Cookery banishes the drawbacks of frequent basting and constant attention required in the roasting of poultry and meats.

The electric range oven retains the rich juices of roasts, makes basting unnecessary, reduces the shrinkage and distributes the heat equally to all parts of the meat. After the first quick heat, the current is reduced to a small amount and the cooking is reduced by means of stored heat—on the fireless cooker principle.

We invite you to see our display of HOTPOINT-HUGHES Electric Ranges.

We are prepared for the Thanksgiving and Christmas trade with all that is new in electric table appointments—

By GEORGE DEWITT MOULSON. (By Special Leased Wire to The Herald.) New York, Nov. 20.—The features of today's cotton market were two: First heavy selling by Liverpool as the result of the sharp break there; and, second, as heavy pressure on December as has yet developed Though an Improvement was due abroad, foreign quotations declined about forty American points for near politions under a process of liquidation such as has been going on herefor ten days past. Spot transactions fell off, leaving sales of American only 2,000 bales. An abnormally small percentage of American in total spot business abroad has been a significant devel oppment of the recent advance in price. Foreign spinners have found it cheaper to take foreign growth rather than the American product.
