

HEIGHTS

NINETEEN HUNDRED SIXTY-SIX

ASSUMPTION COLLEGE
WORCESTER, MASSACHUSETTS

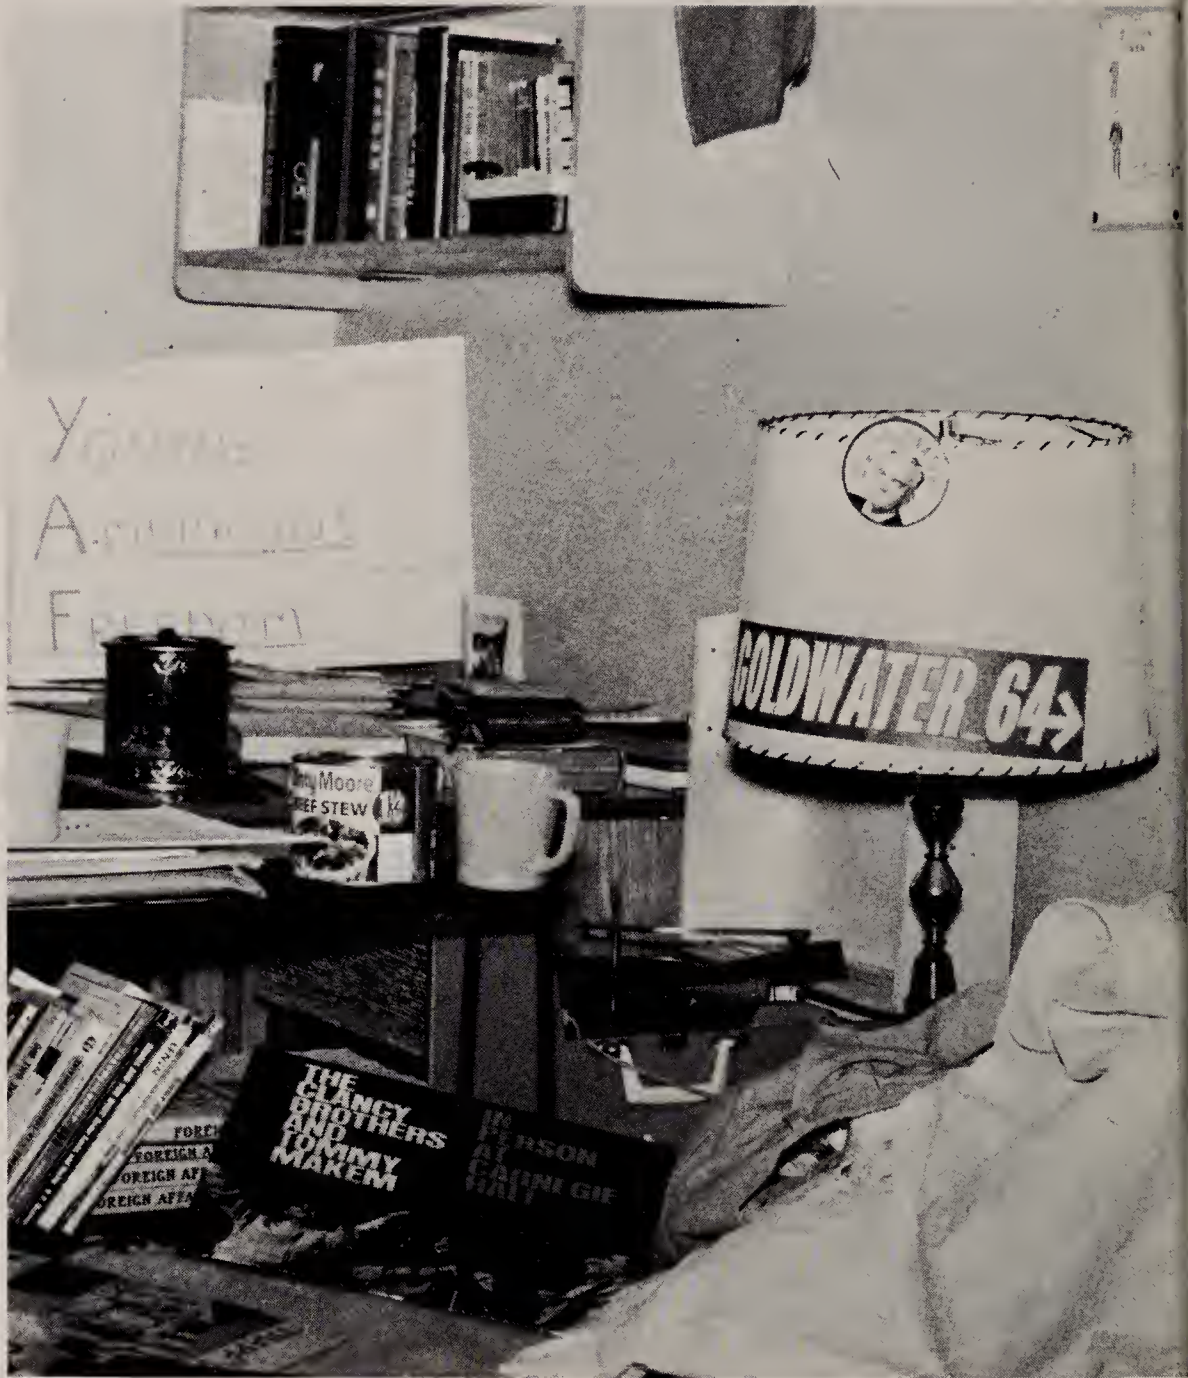

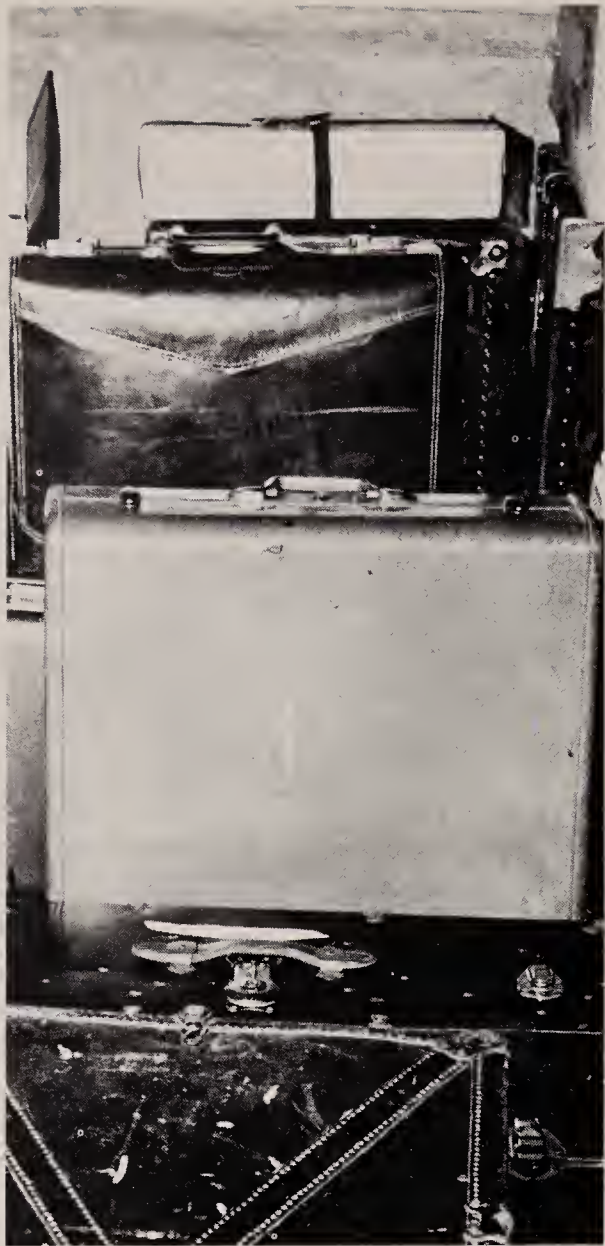

The road looks smooth only to the blind.

Knowledge is the clear shadow.

*With bags, baggage and refuse,
we looked for black and white truth,*

$$y(x) = \left(e^{-\int_{x_0}^x p(t) dt} \int_{x_0}^x f(t) e^{\int_{x_0}^t p(s) ds} dt \right) + C$$

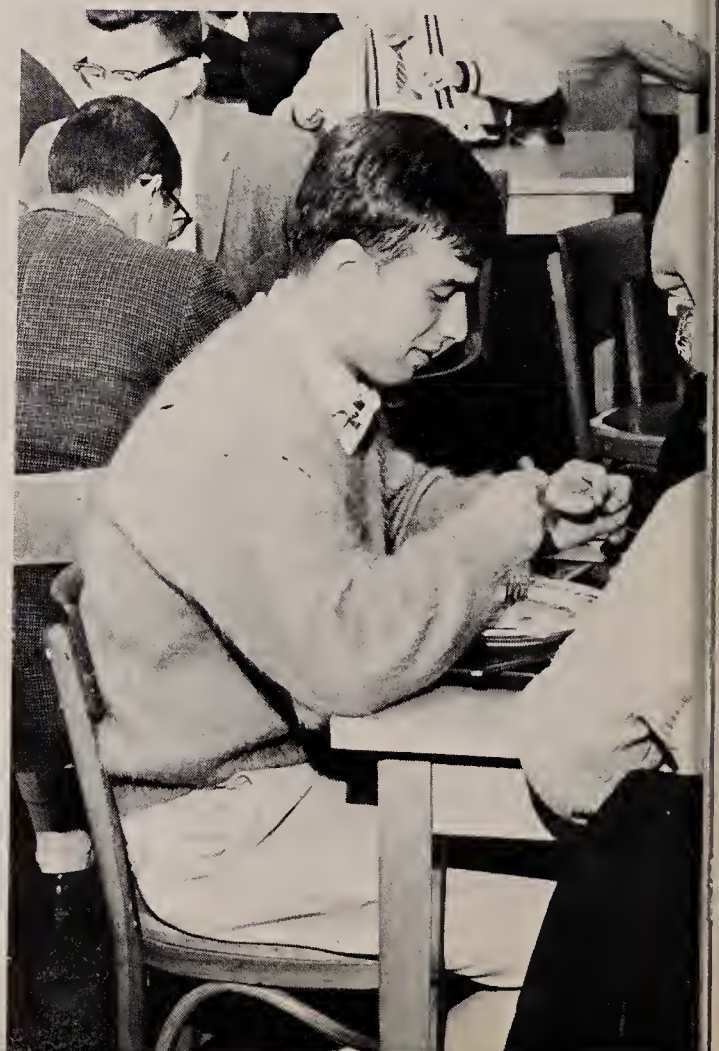

but found doubt to shake old faiths.

*There were men to guide us
as we looked for our elusive ends.*

*In the course of our search
we found that the place we'd chosen
was a community —*

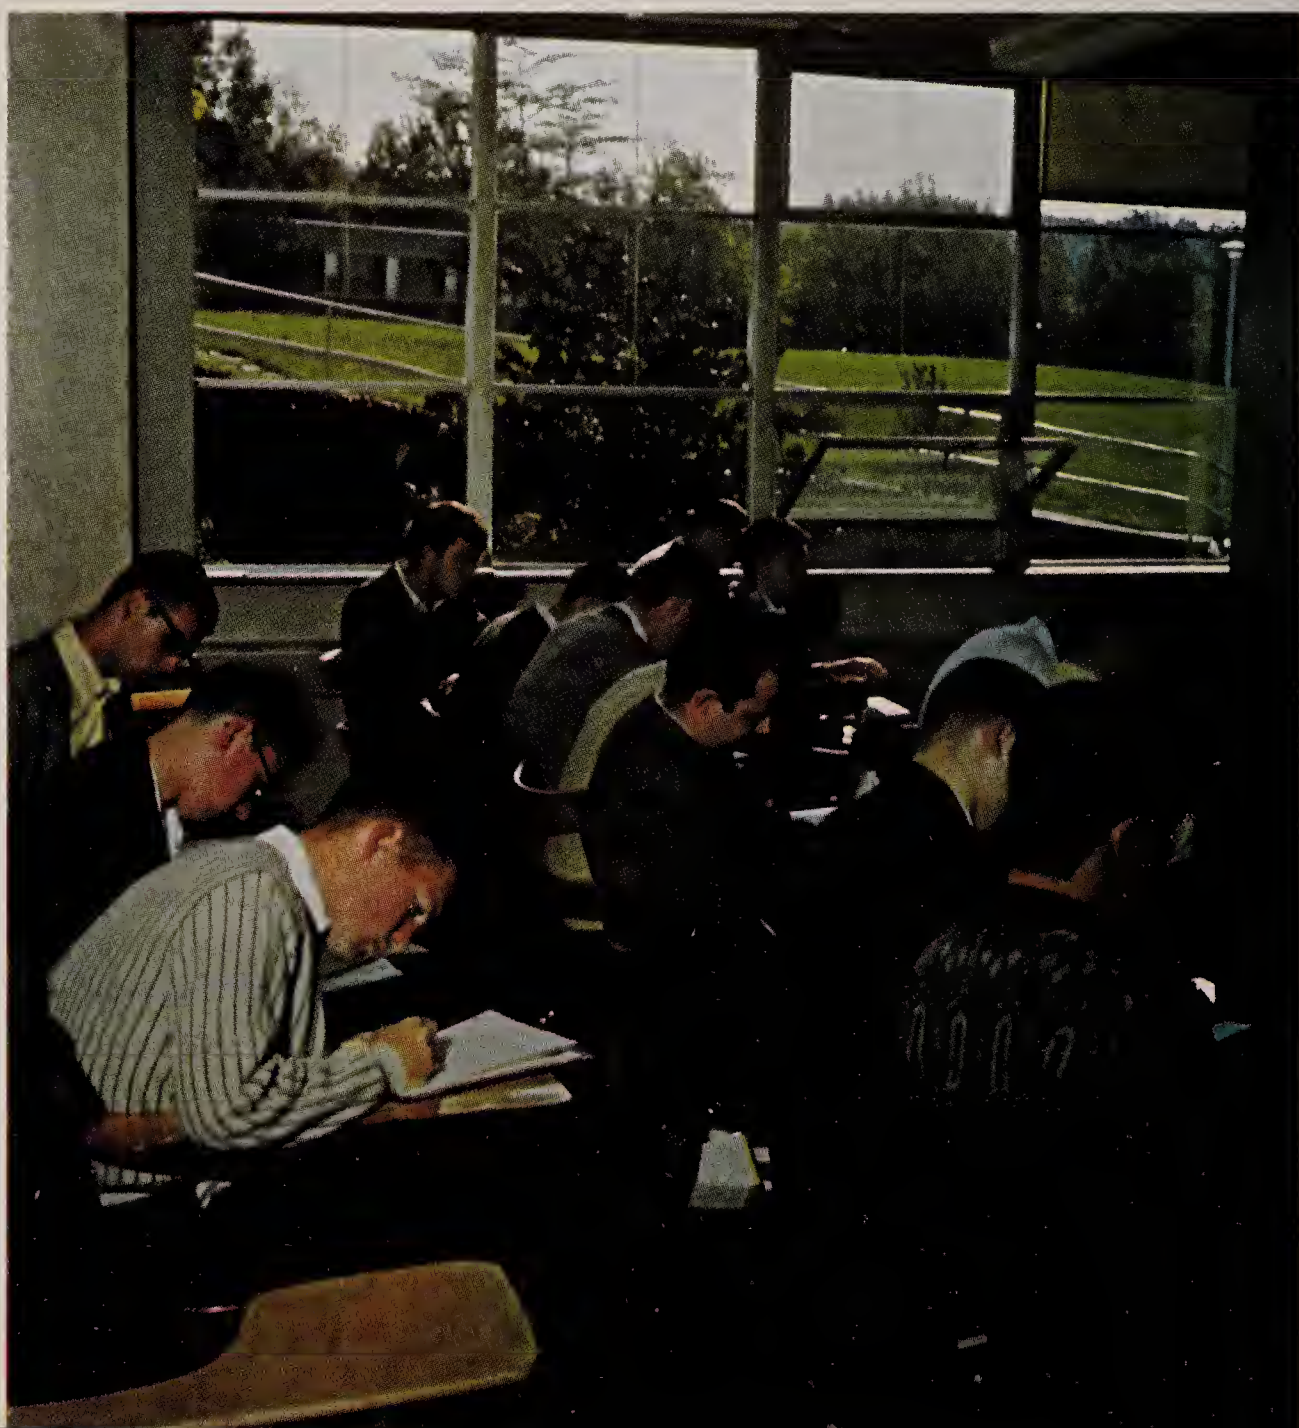

it was people,

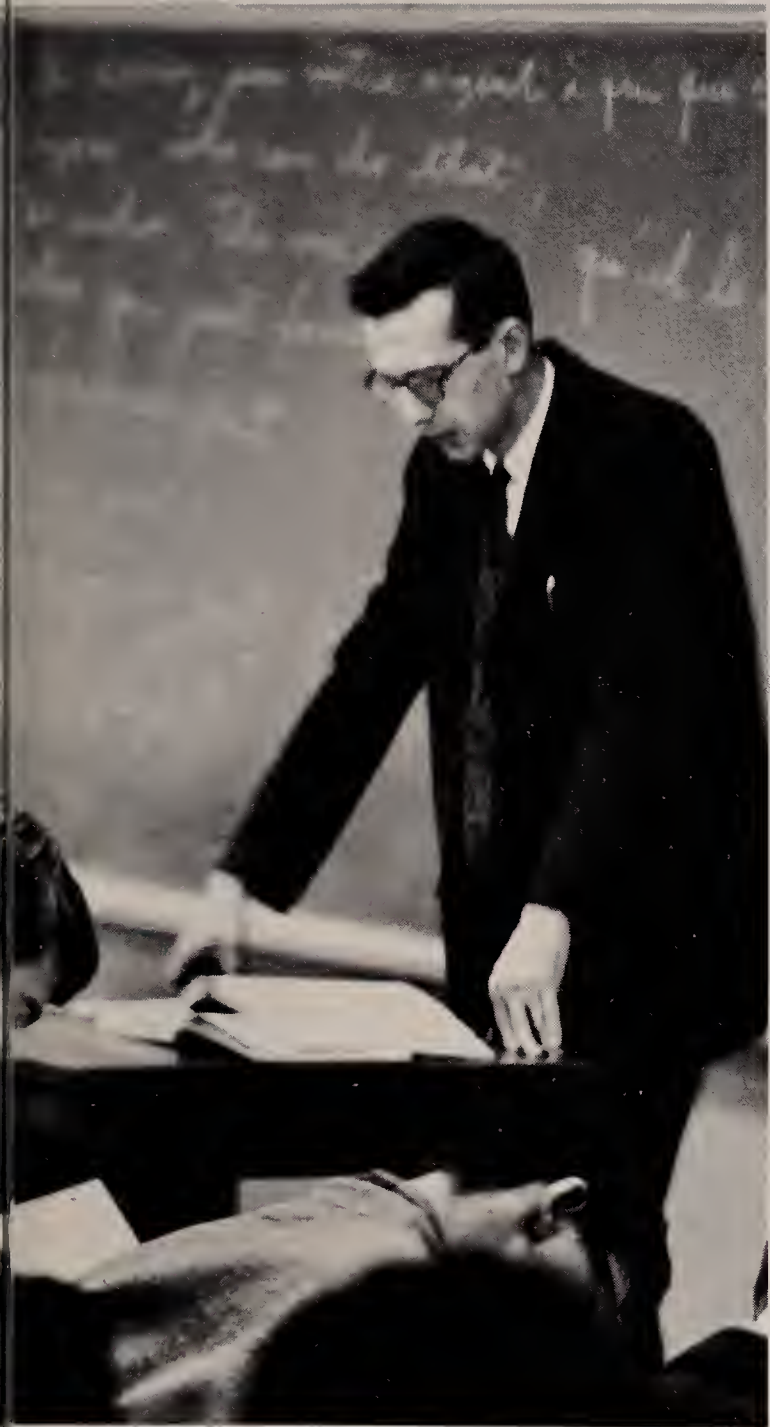

and good times

and bad.

*There were those to whom we were not "they",
but "you".*

*They showed us a path
devoid of the simple.*

They pointed out a road for us to take.

*“Leaders of the future” —
the words rankled . . .*

. . . like a cliché.

“The whole man” was an ill-chosen expression of the truth.

Intellectual excellence was a goal,

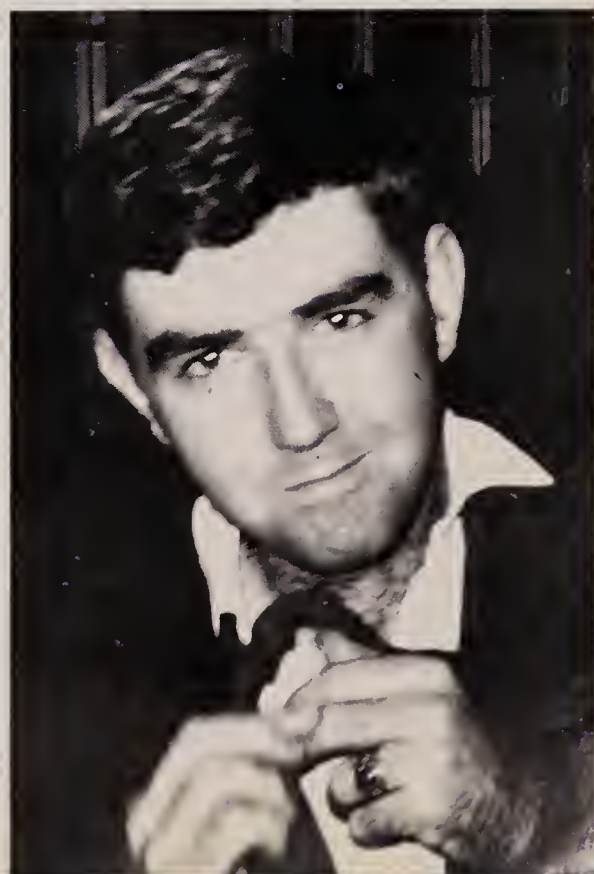

but we had to grow in other worlds too.

Thought and action were the ends.

*We tried to leave a mark
which would lend us immortality,
perhaps notoriety, too.*

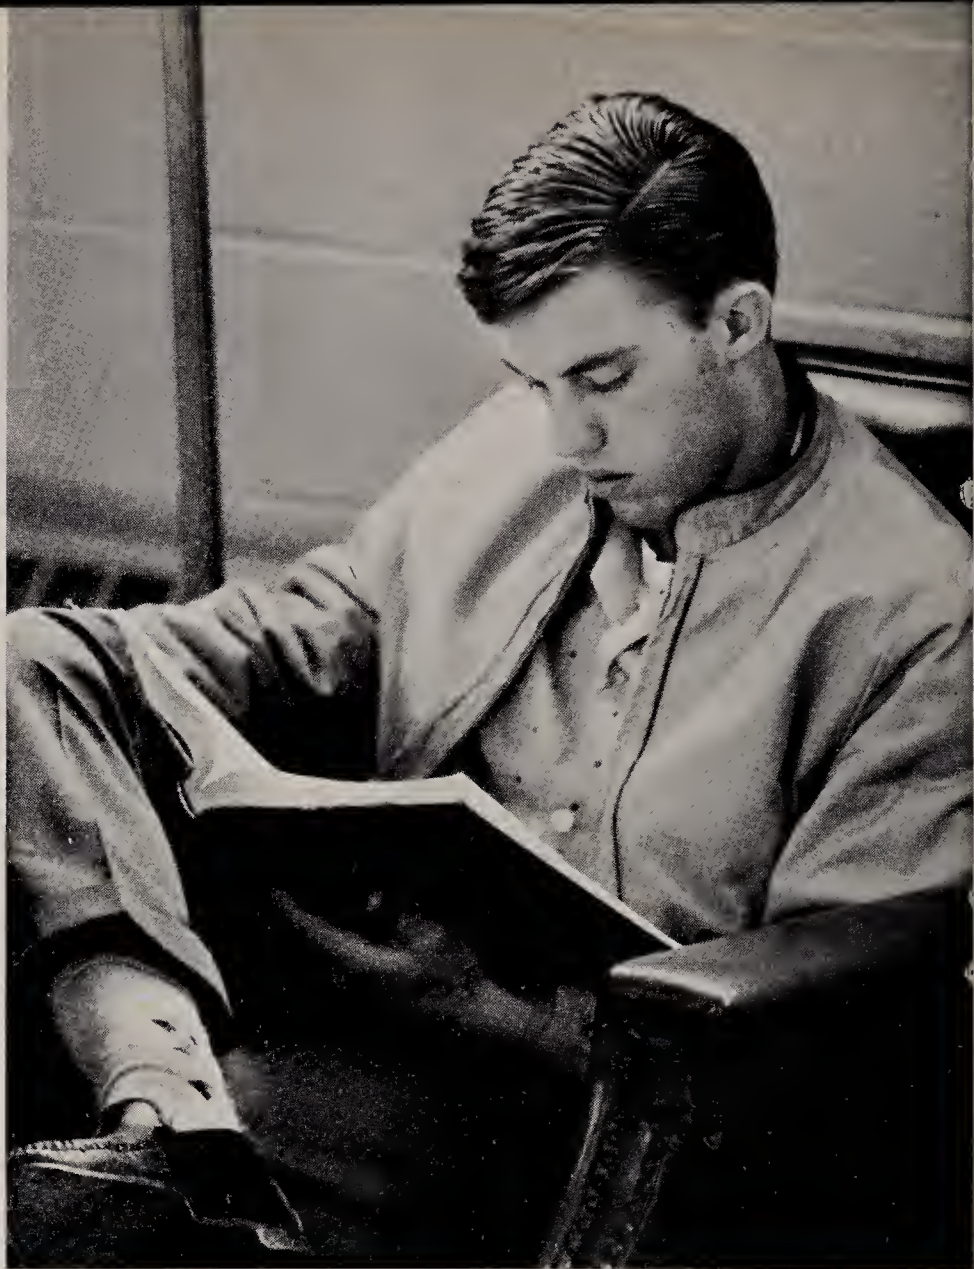

1955

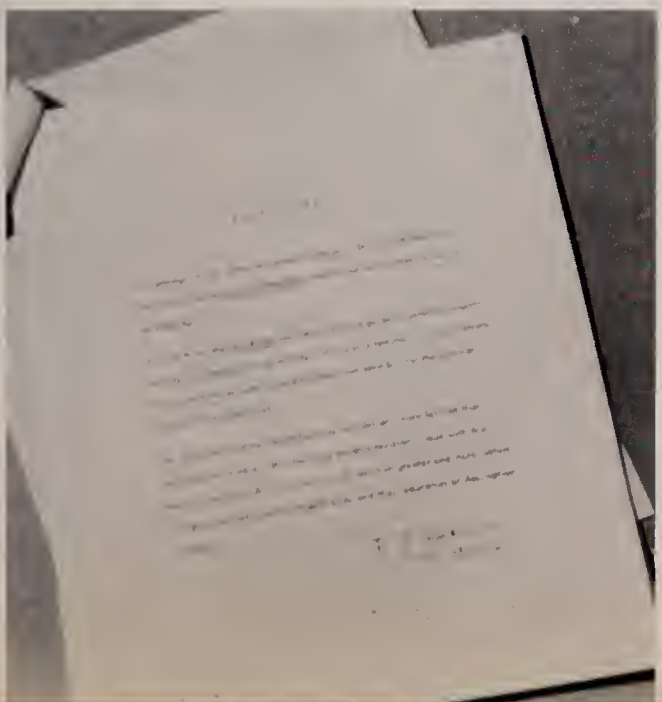

*We grew,
and with our friends
ripened in the life we had chosen.*

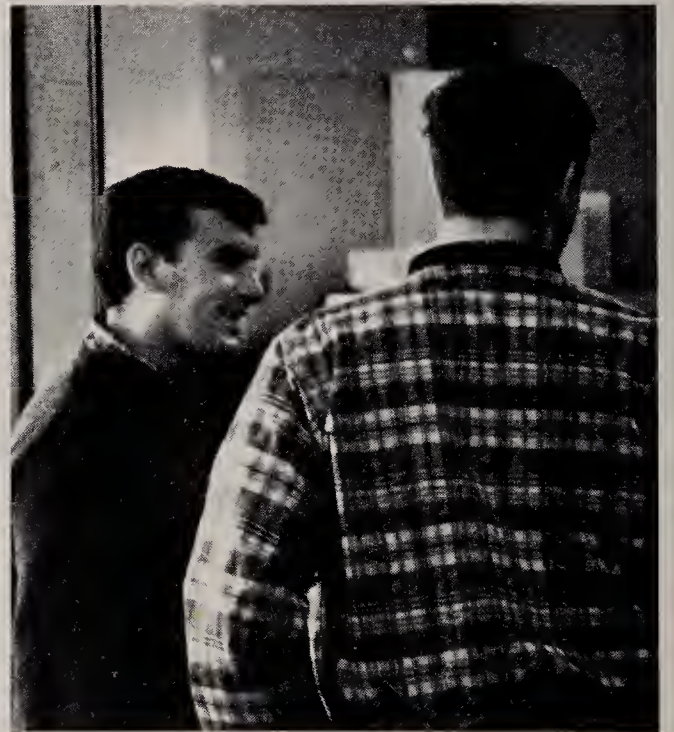

*But we are only a part of Assumption.
Our successors will preserve
and alter
what we have left them.*

But we have been here, and both we and the college have changed.

Assumption has shaped and molded us to a large extent,

*but its final test lies
beyond the wall,*

when we enter a larger and not so sheltered world.

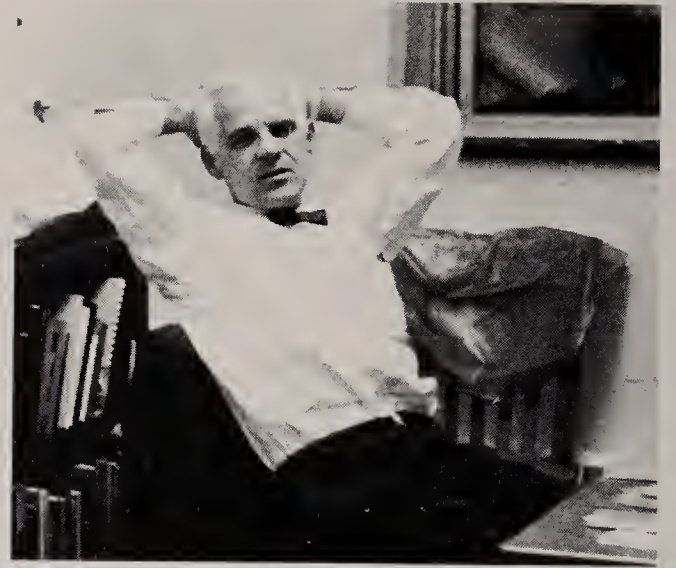

There we will find whether we are of rock or of sand.

The future. . . .

“Where there is no vision,
the people perish.”

Proverbs, XXIX, 18.

“Of course no mention of the faculty would be complete without Dr. Joseph E. Sheerin, the one-man Classics Department.”

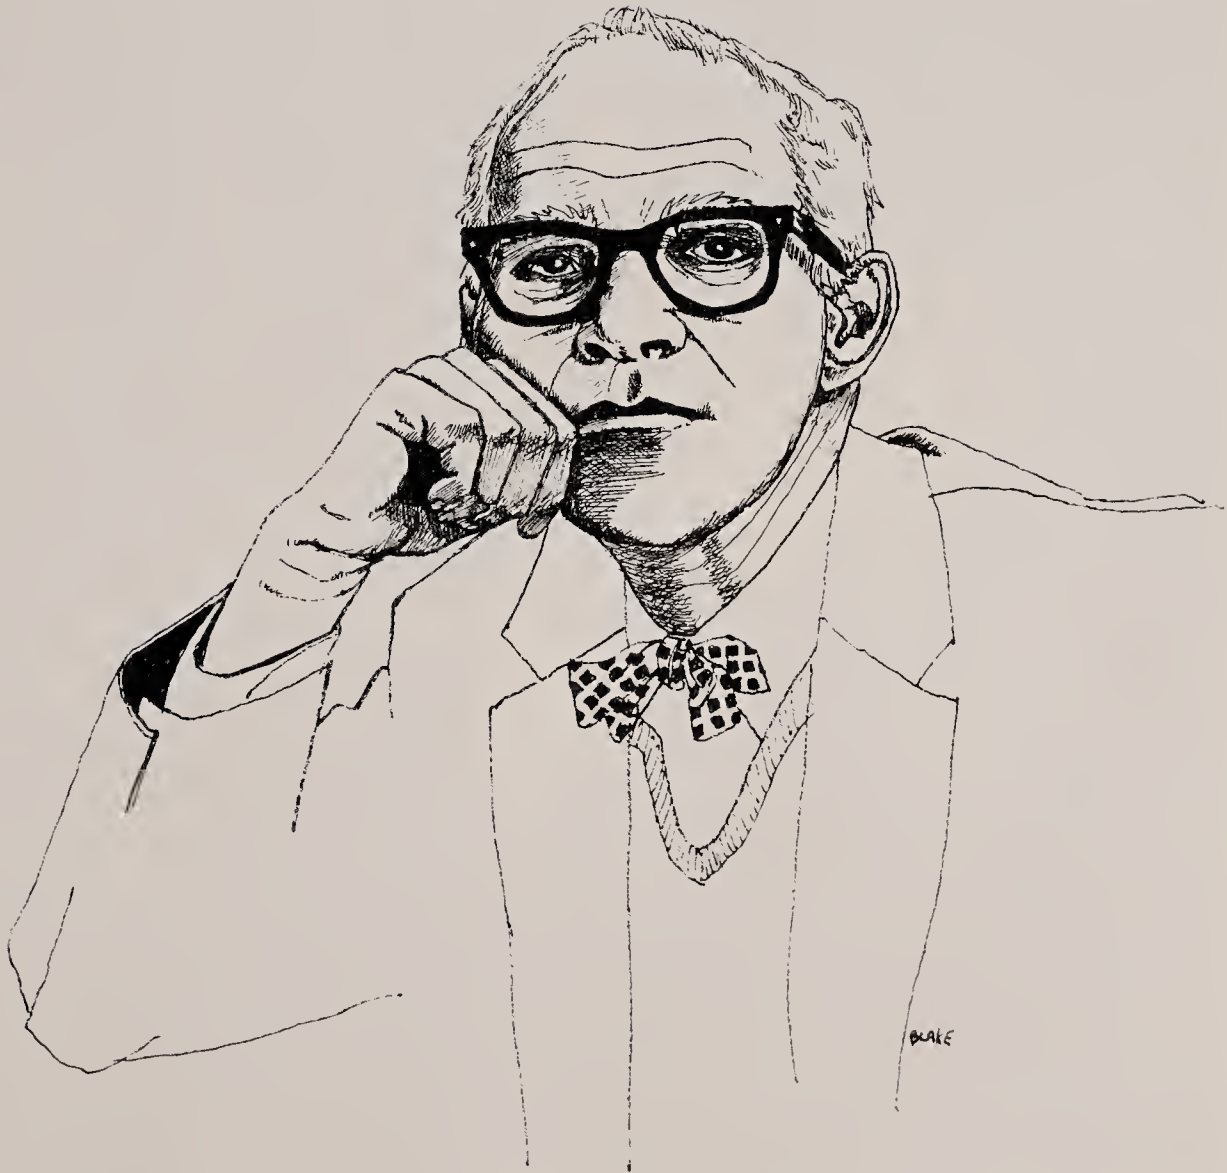

With these few words, the *1965 Heights* described both the man and his work, but only in a very limited sense.

During the past four years we of the Class of 1966 have come to realize his importance both to the student body and to the College itself. We were fortunate enough to study the classics in translation under his guidance. Not only did he impress upon us their importance, but he also succeeded in making them interesting. Who else would mention the Trojan War and baseball bats in the same context?

His wit and informal nature should not be construed as a leisurely approach to scholarship. He has a vast and precise knowledge of Greek and Latin literature and history as well as an active interest in philosophy, especially the writings of Saint Augustine.

In the field of Classics, Doctor Sheerin has shown himself to be energetic and imaginative. He has compiled a book from the philosophic writings of Saint Augustine which is used in his course in Latin literature, and he has singularly revitalized the Classics library at Assumption. Colleges and private sources from all over the United States have responded to his request for books, with the result that much of the space reserved for scientific literature is now occupied with works ranging from Cicero to Homer. He has taken active measures to insure that the “dead languages” will never really die, at least at Assumption.

As we prepare to leave Assumption, we realize that many memories will accompany us, especially the memory of a white-haired, bow-tied professor of Classics, who was anything but the perfect example of an old tradition on a new campus. For this, and for so much more, we, the Class of 1966, dedicate the *Heights* to Doctor Joseph E. Sheerin.

Once again, we have witnessed Assumption in transition — a year of growth in enrollment and faculty and a year of achievement, as our President marked the 25th anniversary of his ordination.

Student enrollment surpassed the 500 mark in the Day College, and the faculty welcomed eleven new members to its ranks. Dr. True and Dr. Turner have joined the English Dept.; Fr. Paul Goudreau and Fr. Joseph Loiselle entered the French Dept.; Fr. Beaudoin, Fr. Vaillancourt and Dr. Remick joined the Theology Dept.; Fr. van der Linden and Mr. Haldar are now in the Math Dept.; Dr. Isaac became Assistant Professor of Psychology; and Fr. Elphege Pollender joined us as Assistant Professor of Classics.

Taking all the items into consideration, we would certainly agree with Fr. Bissonnette's statement in *Assumption* that the college has passed from "very small" to "small".

In Memoriam

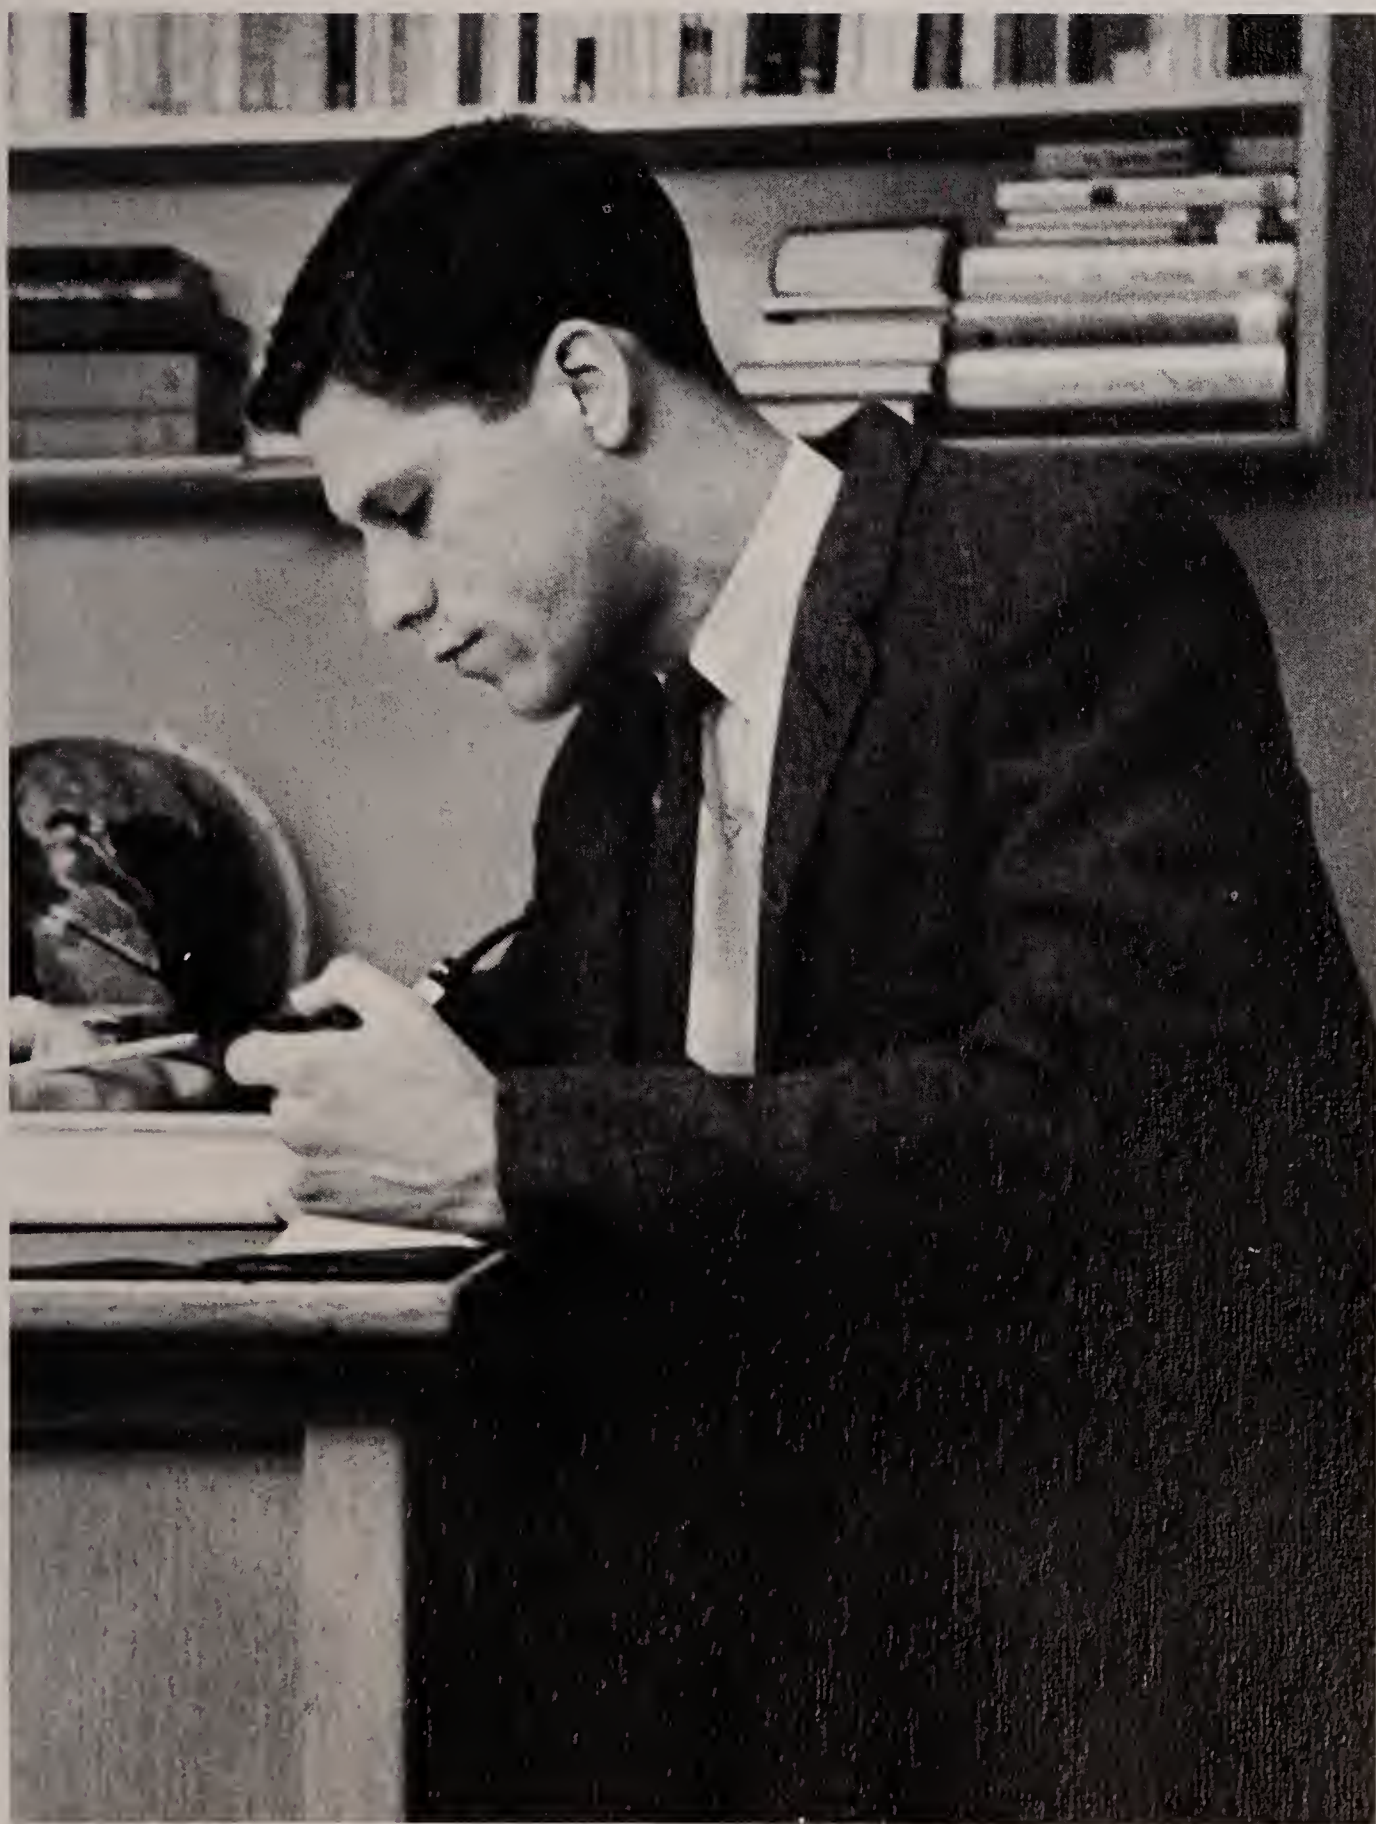

R.P. Polyeucte Guissard, A.A., 1891-1965.

On December 19, 1965, Father Polyeucte reached the end of an incredibly full life. At home on two continents, he saw Europe in the throes of two wars, and saw countless students leave Assumption for the test of the world. Many were those who left, and many were those who returned to sit at the feet of this man of letters, this man of God. His students will long remember him for his faculties of synthesis and of memory; for his ready wit and his sense of humor; for his reminiscences of "La Grande Guerre", of his "52 months in the trenches, with mud up to the knees." When he went off to war, the crowds threw flowers and he could not possibly count the number of girls who kissed him — but "they were all pretty, every last one." When he passed away, we witnessed the end of an era.

Some years ago, a group of high school graduates wended their various ways to the campus of Assumption College, there to spend the following years in the pursuit of knowledge. First class in recorded history to defeat the sophomores in the rope pull, we survived a tear-gas attack at City Hall and a series of academic attacks in subsequent Januarys and Mays.

Through the years that followed, we accumulated a store of knowledge and of memories. All night bull sessions, the "V", hour upon hour spent in the library and at Zipp's, a discovery of our bonds with the community around us. We learned about people, of whom some are dead and some are living; from one source we learned how to guide our lives; from another we learned how to live them.

We found that tradition was a double-edged sword: it gave us a firm foundation upon which to place our basic notions, but at times became a wise crying out to heaven for rational changes to be made.

We have striven with varying degrees of intensity to form our own notions of the meaning of such phrases as "The Whole Man," "The Well-Rounded Individual," and so forth and so on. We have gone to extremes on occasion to demonstrate our individuality, and feel that we have escaped the mire of conformity.

Apathy has long been a much-used word on the campus at Assumption, and one fears that with use — and abuse — its meaning has become distorted. Those who set themselves up as leaders only to find that they have no followers are wont to cry, "Apathy!" But we have witnessed unified stands behind people and causes which we deemed important.

We have set our goals, and have experimented here in the safety of the cocoon with methods of achieving these goals. We have learned words, sentences, concepts, whole schools of thought — and we have learned, in this tightly-knit society, about our fellow man. Many of us have formed friendships here that will last a lifetime, and if we do not wish to cast garlands upon the college for any other reason, this would seem to be a valid one. Assumption has given us a sense of humanity and a sense of community which will stand us in good stead when we take the plunge into The World.

As we stand here on the threshold of yet another way of life, we cannot help but feel like the classical god, Janus — looking back with fond memory and some traces of bitterness, looking forward with anxiety and eagerness.

Three years have passed and one more lies ahead. We tend to feel that the hardest part is behind us, but we are aware that it is only the beginning. Assumption is no longer merely a word, it is much more. It embraces our pride, wisdom and understanding. It is equipping us with the tools, not merely to construct a thesis or handle comprehensives, but with the necessities to grow as Christian men. They say the hardest year lies ahead but we are anxious for it, for then the Class of 1967 will see clearly their mark and the fruits of their labor at Assumption.

Pausing at the mid-point of our college career, we, the Class of 1968, call upon the experiences of the past two years. Our first year at Assumption was spent discovering and adjusting to the various facets of college life. In our second year, our adjustment and potentialities were manifested in the progress we made academically, socially and physically. Preparing for the latter half of our stay at Assumption College, we are hopeful that our progression will continue, and that our performances will fulfill all expectations.

Untouched as they were by the initiating, inevitable dunking of the traditional rope pull, the Class of '69 has readily proven that the undunked are not necessarily defunct. When first united in song around the first night's roaring bonfire, the freshmen kindled a spirit which is to grow and endure, even beyond graduation exercises. The Class of '69 has valuable assets of diverse coloration and its members are the lifeblood of many an extra-curricular activity. From the jostle of soccer to the slash of the *Provocateur*, these freshmen have, even yet, displayed the motivating spirit necessary for success and for Assumption.

The Student Government Association, the bridge between students and administration, is the heart of the activities on campus. It authorizes student organizations and allocates funds to its member organizations. Under the able leadership of Roger Bernier, Chris Giovine and Jack Pavoni, it has helped make this another noteworthy year. This year's large increase in enrollment has once more cast a heavy burden on the S.G.A., but it is a challenge which has been met and overcome.

The *1966 Heights* is the most ambitious pictorial undertaking that Assumption has yet attempted. Once more, we have combined color, professional photography and imagination and we hope that our efforts have met with success. We have tried to portray life at Assumption and the attempt is reflected in the composition of the book. We shall refrain from making judgments as to the quality of the book, and allow it to speak for itself.

GOAL BY CHAPUT!

FACE-OFF AGAINST HOLY CROSS.

In its second year at Assumption, hockey has proven to be one of the most popular sports on campus. Sparked by a sophomore nucleus, the team has provided its fans with all the action the world's fastest sport can generate. Under its present "club" status, finances have been tight, but Coach Bob Leonard has reason to believe that next year's team will benefit from this year's ice time and that Sonny, Pete and Charlie will finally get some help.

MEMBERS OF THE **CREW CLUB**, **KNEELING**: JOHN MOLYNEAUX, SAM SLAIBY, JIM HARRINGTON, RICK SCHULTZ, RICK DIONNE, PAUL RICHARDS, RICK VARIEUR; **STANDING**: LOU CASTIGLIONE,

STEVE WHITE, BILL MCCUE, PAUL DOUGLASS, PETE DEMPSEY, MIKE MATERA, CHRIS THOMPSON.

This year's crew team is anxiously awaiting the spring. Lou Castiglione and Bill McCue hope that the early hours and the pre-dawn practices of the fall will be rewarded with victory in the new season. Crew, like hockey, has a definite freshman-sophomore flavor which should bode well for the future. With the coming of the fall, crew should attain full status as a Varsity sport, and the team would like nothing better than to make the transition after a successful season.

MEMBERS OF THE **BASEBALL TEAM**, JOE BIALY, JACK NOLAN, JIM MCMANUS, BILLY GRANAHAN, KEVIN EARLS, SONNY GORYL, PETE KELLER, JOHN BRUNET, JOE HANLON, BOB PETERSON, COACH JOE O'BRIEN.

The baseball outlook at Assumption this year is once again uncertain. Hurt by the graduation of Jim Monahan, Coach O'Brien's team must look for replacements among the largest freshman class ever to grace these hallowed halls. Captain Jack Nolan, Bill Granahan and John Brunet provide an anchor up the middle, but the other positions seem up for grabs. Coach O'Brien hopes that when the smoke clears a winning season will be the result.

THE GREYHOUNDS, KNEELING: BOB PETERSON, TED PAULASKAS, JOHN GUADETTE, MIKE GRAHAM, TOM MALIN, TOM O'CONNOR, MANAGER PAUL ROBICHAUD; STANDING:

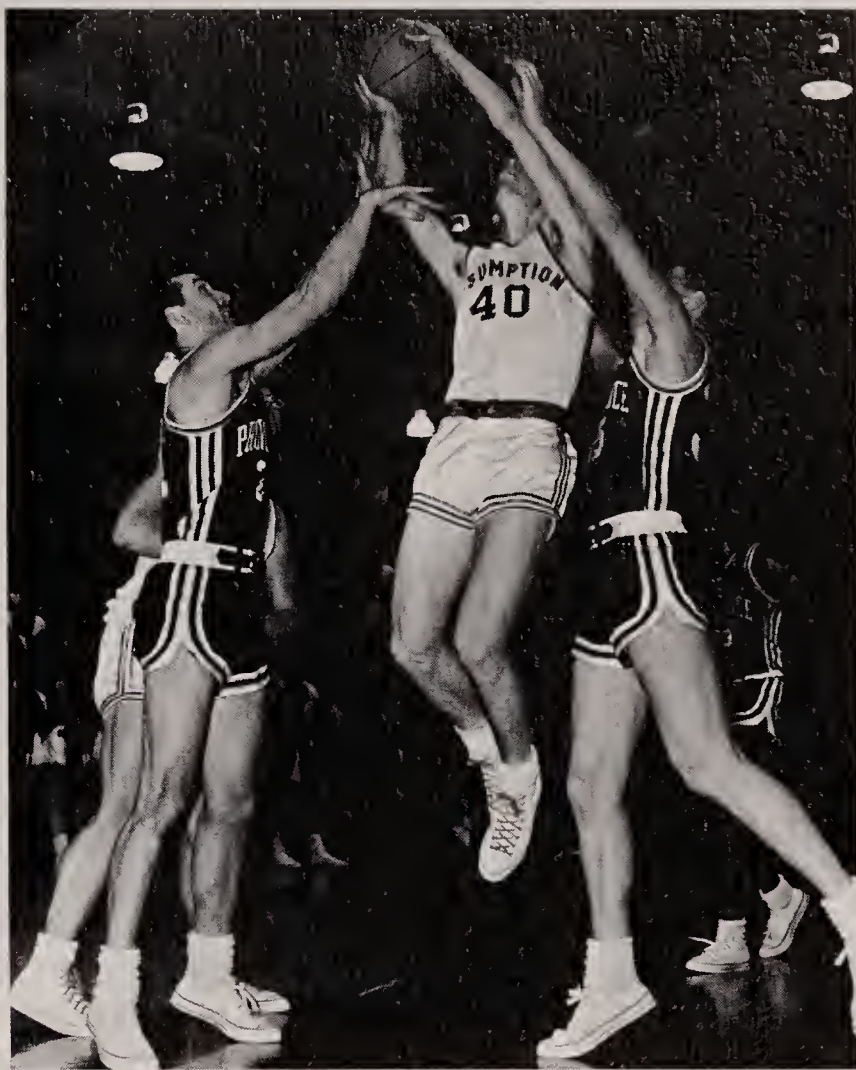

ASSISTANT COACH JOE O'BRIEN, TRAINER TOM CURTISS, ERIC INAUEN, JACK WHEELER, JOHN DRISCOLL, GEORGE RIDICK, BOB BOULE AND COACH ANDY LASKA.

At this writing, the Assumption College Greyhounds have chalked up a record of 14 wins and 5 losses, including six three-figure games. Freshmen Eric Inauen, Bob Boule, John Gaudette, and Tom Malin have shown themselves to be experienced beyond their years, and have added dash and spark to the hard core of veterans. George Ridick, John Driscoll, Ted Paulauskas and Tommy O'Connor have improved — if that were possible — over their stellar performances of last year, and combined with our battle-scarred four-year men, Mike Graham, Jack Wheeler and Bob Peterson, to give us another shot at NCAA Tourney play and a feather in the cap of Coach Andy Laska — his 200th coaching victory!

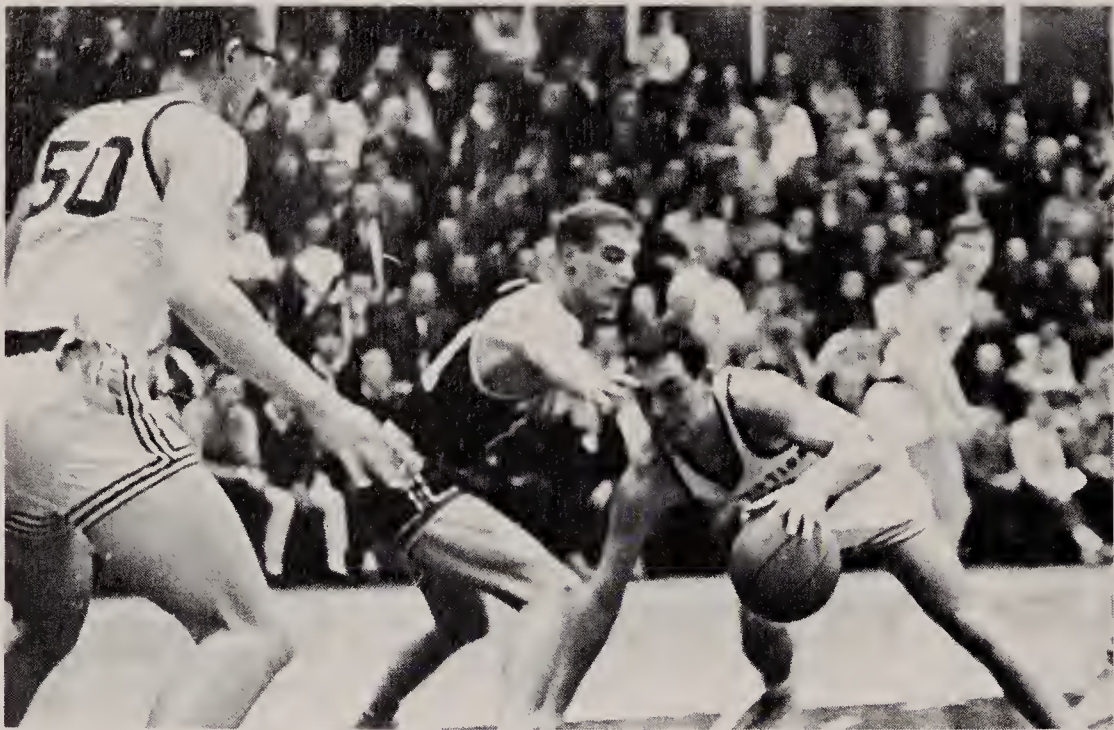

The season started with a 38-point romp over Worcester State and the long-awaited victory over the New York A.C. in a last-second cliffhanger, 102-101. Providence stopped us despite the efforts of the Greyhounds on the court and the Silent Sixteen elsewhere; the big, big guns from South Carolina held off the attack to eke out a meager six-point victory, but then we went on a nine-game winning streak before bowing to Fairfield, Springfield and Holy Cross. With Clark and St. A's the only games remaining on the schedule, the smooth-functioning Greyhound team looks a sure bet for a seat in the NCAA Regional Tournament.

MEMBERS OF THE **CROSS-COUNTRY TEAM**, **KNEELING**: JOHN WLOCH, BOB COSEO, DICKY SHELDRICK, JOE BIALY, JIM MCMANUS, JIM HARRINGTON, ROGER LIESEGANG; **STANDING**: MANAGER RALPH MORRISSEY, NEIL RIVERS, STEVE STARR, DAVE HALL, STEVE O'BRIEN, WAYNE MILLIGAN, COACH JOE O'BRIEN.

This year's Cross-Country team, composed entirely of freshmen and sophomores, managed to compile a respectable record of 4 wins, 6 losses, in spite of inexperience and injuries. The Harriers were extremely vocal in their praise of the magnificent job done by Coach O'Brien, who was forced to start almost from scratch. Joe Bialy ran first for Assumption in every race and turned in the second best time ever on our course in the last meet of the season. Captain Jim McManus assures us that prospects look excellent for next year.

MEMBERS OF THE **SOCCER TEAM**, **KNEELING**: BILL SHUSTOWSKI, BRO. JOSE MANUEL DE PEDRO, A. A., LOU PREVET, BOB CHENEVERT, GEOFF SMITH, TIM SAVAGE, TOM PIERDOMINICI, CHARLIE KRATT, ANDY MYSLIWIEC; **STANDING**: MANAGER BOB

LUCZAK, RICHIE FLANAGAN, KEN PELOQUIN, ROG TIGHE, TOM MANNING, JIM BLAKE, NORM PROULX, GENE YANNON, PAUL TRAYERS, BRO. TEODORO ASARTA, A.A., COACH TOM CURTISS.

This year's Soccer Team once again demonstrated that it's not whether you win or lose but how you play the game that counts. The high point of the season was a 2-2 tie with a highly touted Clark team. Also on the plus side was the 5-1 triumph registered over Nasson College and the nomination of Bro. Teddy to the second team of the All-New England Soccer Squad. The combat experience garnered with the passing of the year should augur well for the future.

AFTERWORD

This year, once again, the *Heights* is an attempt to portray the informal atmosphere that pervades life at Assumption. Seniors are portrayed in more natural poses, and an attempt is made to capture the spirit of the Class of '66. We hope too this year to break away from an old tradition by meeting our financial commitments. In this vein, I would like to thank Jim Connors for giving us the benefit of his financial acumen, a quality to which Jack Pavoni will attest. Don Lendry, our yearbook company representative, deserves credit for bearing with a new editor in a strange position, and helping to produce a yearbook which I hope is a success. Leo Berinati wins my kudos for helping me with layout and copy in the many long nocturnal hours before deadlines. To the rest of the staff I extend my deep appreciation for the assistance they provided in some of the more unpleasant tasks an editor must perform. The quality of a yearbook ultimately rests on the photography and in this area I would like to thank Brooks and Lou for the excellence of their work. I only hope that those to whom this book is directed think the result was worth the effort.

Francis L. Stella
