Fol statement made by Soviet Representatives 207 meeting of 28 Dec is transmitted for your info:

"On Sep 21 of this year the Far Eastern Com adopted a decision, 'exercise of criminal and civil jurisdiction over Nationals of members of the United Nations'. On the basis of that decision the Supreme Comdrs Headquarters sent the Japanese Govt on Act 18 a memorandum in accordance with which criminal and civil jurisdiction over all Nationals of members of the United Nations would be exercised in Japan by Japanese courts. Both the commissions decision and the MacArthur Memorandum affect the interests of the countries members of the FEC.

"The Soviet Delegation considers the decision of the FEC of Sep 21 as well as the memorandum sent to the Japanese Govt on Oct 18 on the basis of this decision to be without legal force insofar as the aforementioned commission decision has been adopted without the consent of the Soviet Union and in the absence of a representative of the Peoples' Republic of China".

Subject Export Control US Cotton Waste.

1. Commerce Department requires that exporters of cotton waste to Japan show Jap import license number on export license application. Recently, a US importer in applying for US export license claimed Jap importer will not supply number as Japanese Government requires 5% guaranty prior to issuance of import license and importer unwilling to make this payment unless he is assured US export license will be granted. Although importer realizes that payment will eventually be refunded if delivery not made, he claims that guaranty will be frozen for considerable length of time if export license not granted.

2. Such situation might result in failure to utilize Japanese waste allocation. Suggest you seek means of assuring import to Japan of all waste or other commodities allocated to her.

URMSG C 50839, Part 7 subject Export Control US Cotton. Munitions Board, in defending request for 100,000 bales to fill US military orders in Japan, has asked for more detailed info as to nature of these orders. Quartermaster submits cotton requirement which covers textile needs of all US troops regardless of locality. To distinguish from this requirement, request breakdown of 100,000 bales to include:

(A) Products to be manufactured;
(B) What troops will use products and;
(C) Basis used in classifying as US military requirements.

Folg cable in 2 parts. Part 1 concerns statement made by the Soviet delegate at the 205 FEC meeting on 30 Nov 50 concerning Japanese participation in military action in Korea. Part 2 is reply made by US delegate to Soviet statement.

Part 1:

"The Soviet delegation, in its statement of Nov 2, pointed out that according to the data at the disposal of the govt of the Korean Peoples Democratic Republic it had been proved that Japanese mil personnel together with American troops participated in the mil actions in Korea.

"The American representative at the com meeting of Nov 16 avoided replying to the substance of the Soviet delegations statement, confining himself to the ref to the statements of other American officials, who had without any proofs denied the facts of using the Japanese in the mil actions in Korea.

"The Soviet delegation cannot consider the explanations of the US representative to be satisfactory insofar as even the reports published in the American and Japanese press prove that the Japanese are being used by the US in the Mil actions in Korea. Thus Newsweek magazine of Nov 13 reported that Japanese sailors had taken part in the Inchon landing opn. An American correspondent, Walker, in his dispatch from Tokyo published on Nov 15 in the Christian Science Monitor wrote that "Japanese

minesweepers, . . . were put to work as a direct and integral part of naval forces in Korea' and that 'Japans involvement in the Korean war increased daily at a rapid pace'. Japanese newspaper Nippon Times of Oct 22 also reported that the flotilla of the chartered Japanese minesweepers took part in the opns in waters off the Korean east coast.

"At the same time the American press admits that Japanese participation in the mil actions in Korea is far from being confined to the instances published in the press, thus indicating that it is not in a position to report of other forms of using the Japanese in the mil actions in Korea and particularly of using the Japanese directly within combat units. It is evident that an American correspondent, Beech, had certain grounds for his report from Tokyo published in the Evening Star on Nov 11, in which he stated 'the full story of Japanese participation in the Korean war has not been told for the obvious reason that Japan is technically at least an enemy nation'.

"In its statement of Nov 2 the Soviet delegation has already pointed out that the use of Japanese mil personnel in the mil actions in Korea constitutes a gross violation of the Potsdam Declaration as well as of the FEC policy decisions 'basic post surrender policy for Japan' and 'prohibition of mil activity in Japan and disposition of Japanese mil equipment'. As is known, these agreed decisions on Japan provide for carrying out the complete disarmament and demilitarization of Japan and prohibit the restoration and maintenance of any Japanese armed formations.

"In view of the above, the Soviet delegation deems it nec to confirm its statement of Nov 2 and to state that the FEC must not bypass the above mentioned facts proving the direct violation of the agreed decisions on the demilitarization of Japan."

Part 2:

"The Soviet representative has repeated this morning the allegation which the Soviet representative made in this body on Nov 2, that Japanese mil personnel are being used by the US in mil actions in Korea. In this connection the Soviet representative has cited a number of newspaper comments which so often lacked precision. This morning I call the attention of the com again to the fact that, after the Soviet representative had made public to the press-released to the press his allegation made on Nov 2, representatives of the Dept of State and the Dept of the

For is condensation of release issued today by Soviet Embassy, as reported by AP:

"Russia today renewed a charge that the US has been using Japanese 'Hill Pegs' in the Korean fighting.

"A Soviet Del told the 11-Nation Far Eastern Commission that the US made an 'unsatisfactory' reply Nov 16 to the charge and 'avoided replying to the substance' of the Russian allegation.

"Reading from press reports that Japanese manned minesweepers and transport vsls, the Soviet Rep declared these 'prove' a 'direct violation of the agreed decisions on the Demilitarization of Japan.'

"The charges were based on quotations from Newsweek Magazine, the Christian Science Monitor, the newspaper Nippon Times of Japan and the Washington Evening Star."

This for your information.

URMSG C 69239 and C 69700. Subject Export Control US cotton.
1. Thus far 2,896,000 bales have been alocated and an additional 600,000 bales will be alocated for licensing to all countries prior to end of first allocation period. Of total allocated, Japan has received quota of 693,000 bales which we will request to be increased when 600,000 bales are allocated on or about 1 Jan. For period 31 Mar through 31 Jul 51, quantity to be allocated not yet known but original figure of 3,600,000 bales for export during entire year has not been revied. Considerable speculation has taken place indicating total quantity may approximate four million to four point two million bales when US domestic requirements and carryover are more accurately determined.
2. DA has been defending requirements for Japan on basis of 1,188,000 bales US cotton for domestic consumption and export and 100,000 bales for military requirements, based on probable total consumption of 1,844,000 bales, of which 556,000 bales will be obtained from no-US sources. We have been severely criticized in committee that this is unrealistic consumption figure reflecting impossible increased production, and, when if possible, not warranted in view of serious shortage of US raw cotton this year. Also stockpile of cotton on hand in Japan attacked as being larger than DA reports, supposedly as a result of large quantity of cotton afloat on 1 Aug not affected by export control. Although DA has attempted to refuse these arguments with data already received from SCAP, find it necessary to request more complete info to support Japans case.

3. Attempts of other nations to obtain large allocation US cotton because of price advantage fully recongnized by committee and ECA encourging countries under it's review to procure larger quantities non-US cotton. In this respect, we have pointed out that estimate of Japanese procurement of 556,000 bales non-US cotton most optimistic, however, SCAP is pursuing energentcally and will procure all possible from these sources even though Japan does not enjoy favored position in non-US sources. In this connection, would appreciate latest complete review of performance in non-US markets with estimate of possibility of reaching or exceeding 556,000 bales.

4. Please furnish breakdown of 1,844,000 bales to show amount to be retained for domestic consumption and that to be used for export production.

5. In accuately presenting Japanese cotton position, DA plans to present statistics showing status Japanese cotton industry by month since Aug 1949 up to and including lates date for which figures are available and projected plans through Sep 1951. In this connection, request the following information be submitted in thousands of 500 pound bales to cover above period.

a. Inventory at beginning of each month
   (1) US -
   (2) Non-US
   (3) Total.
b. Monthly receipts from
   (1) US
   (2) Non-US
   (3) Total.
c. Monthly consumption (all sources).
d. Spindles per month
   (1) Operating
   (2) Operable
   (3) Installed. Also require info on number of days in work week, hours in working day and spindle RPM increases for period which will give positive proof of ability to consume amounts stated.

6. Prompt receipt of these data mandatory in view of the possibility of preliminary hearings within next few days. Piecemeal submission this info acceptable to facilitate expenditing. Further request that this info be submitted on monthly basis in future while US cotton is under allocation.

7. No decision has as yet been reached on 100,000 bales for US military orders. Arguments URMSGS have been presented to Munitions Board who will support request in committee. Believed that favorable consideration this request contingent upon ability to prove that consumption figure of 1,844,000 bales is realistic.

Japanese Aluminum is subj.
Fol transmitted at rqst Munitions Board:
"In an effort to secure aluminum necessary for stockpile purposed, the following cable has been sent to Hamilton Morton, General Services Administration Representative, Tokyo: 'Re your letter Nov 3, 1950 aluminum. We are desirous of obtaining maximum quantity of aluminum possible at earliest possible date from Japan during next 14 months. We note that wartime production was 89,000 metric tons per annum in excess of present output. We, therefore, would like to be informed whether the 35,000 metric tons increased capacity, which you estimate could be brought into operation, is the maximum. Please advise us also how long a commitment the producers would require, when deliveries could begin, and at what rate they could be made by quarters, and the price per pound delivered at American ports. A prompt reply is urgently required. The Munitions Board has agreed to request the Commander in Chief to afford you all assistance possible. Is Telephonic communication with you practical? If so, advise how we may reach you.'
"Morton has indicated in letter dated 3 Nov, to Walsh, Emergency Procurement Service, that aluminum plants can be rehabilitated provided increased materials. Navy Dept has advised that bauxite deposits, Palau Islands, might be available. Emergency Procurement Service requested what action can be taken by SCAP to assist in this rehabilitation program."

Subject Export Control US Cotton.

1. Dept of Commerce will issue export licenses for US raw cotton to be shipped to Japan within established quota only if application for export license is accompanied by Japanese import license number. This procedure adopted to insure that:

A. Applications based upon bona fide contract approved by Japanese Government and,

B. Inability of Dept of Commerce to decide which exporter should be granted license if applications exceed quota.

To assure that import license numbers granted do not exceed quotas suggest issuance of import licenses not to exceed quantity allocated for export to Japan. Understand that buying is continuing presumably without assurance of import licenses being granted, resulting in a reluctance of cotton exporters to sell, and higher prices to cover risk involved in case import or export licenses not granted. Request verification this buying beyond quota and, if found to be the case, your comments regarding control of buying within established quota.

Subject is Customs Valuation of Imports from Japan.
1. FYI the following Bureau of Customs Circular letter is repeated:
"Bureau of Customs Circular Letter.
"To appraisers of merchandise and other concerned:
"Subject: Customs Valuation of Importations from Japan.
"In an unnumbered circular letter of June 30, 1947 (332.1), the Bureau advised that it was satisfied on the basis of official information that the conditions under which merchandise was offered for sale in Japan and the adjacent islands under the command of the Supreme Commander for the Allied Powers were so abnormal as to preclude a finding that, to use the language of section 402 (C), Tariff Act of 1930, as amended, "such or similar merchandise is freely offered for sale for home consumption to all purchasers in the principal markets of the country from which exported, in the usual wholesale quantities and in ordinary course of trade".
"The Bureau stated, further, that it had been advised officially that conditions would prevail which would meet the requirements of an export value under Section 402 (D), Tariff Act of 1930.
"It is clear from information before the Bureau, including the report of Assistant Supervising Customs Agent Martin C Scott of his observations during his recent survey of conditions in Japan as they affect merchandise exported to the United States, that the conditions which resulted in the issuance of the unnumbered circular letter of June 30, 1947, have been changing and that is is probable that a foreign value, as defined in Section 402 (C), can be 4 in the future

URMSG Nov C 68726. Resumption of trading in Japanese dollar bonds in the US is subj.

Par 1. See announced resumption of trading in Japanese dollar bonds in US 10 Nov 50.

Par 2. Text of announcement follows: "Securities exchange act of 1934. Release Nbr 4518.

"The Securities and Exchange Commission announced today that, with the resumption of dealings in Japanese bonds on the New York Stock and New York Curb Exchanges, it has withdrawn its request that brokers and dealers in this country refrain from making a market in these securities.

"This action follows extended negotiations with the Ministry of Finance of the Japanese Govt through the Supreme Commander for the Allied Powers. As a result the Japanese Govt has filed with the New York Stock Exchange and the Commission a report under the Securities Exchange Act of 1934 which relates to the status of the outstanding bonds.

"The report filed indicates among other things that, in view of the Japanese Govt, the treatment of the foreign debt of Japan will be dependent upon the conclusion of a peace treaty and that the Japanese Govt is not in a position to make any statement with regard to a time for the resumption of service on the bonds. Copies of the report, which contains other important facts bearing on the status of the various issues, may be obtained from the New York Stock Exchange upon request. (See footnote 1).

"The Japanese Govt has also prepared and filed a list of bonds held in this country which are considered by the Japanese Govt to be no longer valid dollar obligations because of action taken pursuant to Japanese Law Nbr 60 of Mar 15, 1943; this

action provided for the issuance of yen obligations in substitution for dollar bonds owned by Japanese nationals. Pursuant to rules of the New York Stock Exchange and the New York Curb Exchange, bonds included on this list will not be considered 'good delivery' against sales made on those exchanges. Copies of this list of bonds may also be obtained from the New York Stock Exchange (See footnote 1).

"On Dec 8, 1941, following the attack on Pearl Harbor, the New York Stock Exchange suspended trading in bonds of Japanese and other 'Axis' countries and issuers in those countries. Thereupon the Commission, after consultation with other interested Govt agencies, requested the cooperation of brokers and dealers to refrain from effecting transactions in these securities without first obtaining the approval of the Commission. This action was intended to prevent a public market for these securities.

"Footnote 1: Photocopies may be purchased from the Commission."

1. As result of Wake Island Conference, study being made here of possibility of placing American Troops in Japan on "pay as you go" basis.

2. Opinion here is that:

A. Congress will be unwilling to appropriate for "pay as you go" more funds than are necessary to make up the Japanese dollar deficit in their balance of payments.

B. For its psychological influence on Asiatic peoples, State desires that Japanese pay a portion of the cost of maintaining US Troops in Japan on the basis that the troops are maintained in Japan for the benefit and protection of the Japanese.

C. Bureau of Budget considers it desirable that American contribution be made by agreement to pay certain charges rather than by undertaking to buy Yen to defray a fixed percentage of the costs which are presently called "occupation costs" (TCM) and having the Japanese contribute the remaining percentage. Items to be paid for by the US would preferably be items readily defended to Congress, such as rental for barracks and training areas, cost of utilities, inland transportation of military freight, port charges of US ships carrying military cargo, etc.

3. Japanese Governments portion of the cost might be met fully or in part by direct expenditure of counterpart funds. Furthermore, counterpart fund Yen could possibly be used for US account and to extent so used would result in a corresponding reduction of GARIOA indebtedness. Statement originally put in draft of treaty by defense to effect that Japan would be released fr any obligation to repay GARIOA was deleted on insistence of State. Therefore, we are inclined to omit all consideration of utilization of either repayment of GARIOA or counterpart but this question will undoubtedly come up in BOB and Congress.

Tebtative solution now being discussed informally with state is as follows:

A. Go on partial "pay as you go" basis 1 Jul 1950.

B. To implement this program undertake that US will buy Yen for dollars and pay costs of US Troops for certain requirements that you will list and which will cost approximately $140,000,000 in fiscal year 52.

C. Further under this program SCAP will seek Japanese undertaking to appropriate a specified sum in Yen which he believes will be adequate, when added to the Yen procured for dollars as indicated above, to meet the expenses now defrayed entirely form the "cost of occupation" (TOM) account.

D. There will be no change in this system upon the going into effect of a peace treaty. The bilateral treaty will confirm this system.

E. No use will be made of repayment of GARIOA or of counterpart fund, it being the expectation that no repayment of GARIOA will be required, and after ratification of the peace treaty the counterpart fund will be turned over to the Japanese Government.

5. Request that above proposals be discussed with Mr Dodge and Doctor Garvin and your comments thereafter furnished us. BOB is anxious to have "pay as you go" plan acted upon before BOB takes final action on GARIOA appropriation for fiscal year 52. This would require us to secure Presidentaal approval before 5 Dec.

REURMSG Z 28562, subj is COA conf. This msg in 7 parts.

Part 1. Suggested topic for Japanese speaker has been relayed to COA and will be discussed with leader being nominated. Speech now planned for area meeting. Members of projects 161 and 206 will be used as resource persons.

Part 2. Constituents of COA have rqstd inclusion of section meetings in subj fields of agricultural affairs, labor affairs, and public health and welfare. COA aware that SCAP Representatives in these fields not expected. In view influence of voluntary organizations these fields and potential value to SCAP in such matters as exchange of persons and donation programs, no valid objection perceived. Suggest possibility providing printed material for consideration in such meetings.

Part 3. Program agreed with COA and state provides for opening session at which Col Nugent, and German and Austrian representatives, will address the conference thus laying basis for later area meeting discussions. Nugent address should not exceed 20 minutes, other will be shorter. Conference then divides into area meetings, with Japan and Ryukyus session hearing brief reports on 2d education mission, RYCOM-CIE, UNESCO in Japan, and speech by Japanese Educator, and in addition, further remarks by Nugent. Conference then divides, still by areas, into subject field meetings on :

(1) Higher education,
(2) Public education,
(3) Community programs,
(4) Religious affairs,

Resumption of Trading of Japanese Dollar Bonds in United States is subj.

Securities and Exchange Commission advises that Japanese Govt has satisfactorily filed all info nec for the resumption of trading of Japanese dollar bonds in the United States. The SEC advises that trading in these bonds will be authorized on or about 11 Nov 50. The SEC plans to make the fol announcement on the date trading is resumed:

"The Securities and Exchange Commission announced today that, with the resumption of dealings in Japanese Bonds on the New York Stock and New York Curb Exchanges, it has withdrawn its request that brokers and dealers in this country refrain from making a market in these securities."

This action fols extended negotiations with the Ministry of Finance of the Japanese Government through the Supreme Commander for the Allied Powers. As a result the Japanese Govt has filed w'th the New York Stock Exchange and the Commission a report under the Securities Exchange Act of 1934 which relates to the status of the outstanding bonds.

"The report filed indicates among other things that the treatment of the foreign debt of Japan will be dependent upon the conclusion of a peace treaty and that the Japanese Govt is not in a position to make any statement with regard to a time for the resumption of service on the bonds. Copies of the report, which contains other important facts bearing on the status of the various issues, may be obtained from the New York Stock Exchange upon request. Photo copies may be purchased from the Commission.

FROM : DEPTAR NR : W 95733 DTD 4 NOV 50 CONT'D

"The Japanese Govt has also prepared and filed a list of bonds held in this country which are considered by the Japanses Government to be no longer valid dollar obligations because of action taken pursuant to Japanese Law Nbr 60 of March 15, 1943; this action provided for the issuance of yen obligations in substitution for dollar bonds owned by Japanese Nationals. Pursuant to rules of the New York Stock Exchange and the New York Curb Exchange, bonds included on this list will not be considered 'good delivery' against sales made on those exchanges. Copies of this list of bonds may also be obtained from the New York Stock Exchange. Photo copies may be purchased from the Commission.

"On Dec 8, 1941, fol the attack on Pearl Harbor, the New York Stock Exchange suspended trading in bonds of Japanese and other 'axis' countries and issuers in those countries. Thereupon the Commission, after consultation with other interested govt agencies, rqstd the cooperation of brokers and dealers to refrain from effecting transactions in these securities without first obtaining the approval of the Commission. This action was intended to prevent a public market for these securities.

"The Commission wishes to express its appreciation of the cooperation which it has received from brokers and dealers with respect to the question of trading in Japanese securities. Pending further developments, the commission rqsts the continued cooperation of the Securities Industry in abstaining from any activities which would tend to create a public market in securities issued by Germany, Austria, Bulgaria, Hungary or Rumania, or issuers in those countries.

"The Commissions action as to Japanese bonds does not mean that it has in any way passed upon the merits of these securities."

Would appreciate your comments ASAP.

29 Oct 50

FROM : DEPTAR (SACOM) WASH DC

TO : SCAP TOKYO JAPAN

NR : W 95311

REURMSG C 67496, 26 Oct, subject Fiscal Year 52 budget request.

1. Ref Para 1: Apparently difference in dollar gap estimate due to difference in distribution of export and import estimates by currency areas. Armys figures indicate same deficit in dollars and in all currencies. Believe detailed analysis should await forthcoming comprehensive review.

2. Ref Para 2 and 3: Highly tentative nature of current estimates emphasized in informal discussion with BOB staff and will be re-emphasized in formal hearings next wednesday. Possibility of increase also pointed out.

3. Ref Para 4 B: DA has consistently maintained position that potential earnings for Japan from aid programs, etc which are only in discussion stage and have not received sanction by BOB or the congress, on other hand, DA has not felt it reasonable to leave out of account earnings prospects based on aid programs or other expenditures to which US is committed. Thus, for example, estimated earnings from Okinawa Construction Program in DA Fiscal year 52 estimate almost entirely accounted for by GARIOA and military funds obligated in Fiscal year 50 or to be obligated in Fiscal year 51. Only small portion of projected Fiscal Year 52 Construction Program included, since accruals to Japan expected to be realized largely in subsequent year. Similarly, large portion of estimate fiscal year 52 earnings from Korean rehabilitation accounted for by ECA obligations expected to be made in Fiscal year 51 for which money already appropriated, and military relief and rehabilitation funds now included in Fiscal Year 51 supplemental request. Both Ryukyus construction earnings and exports for rehabilitation in Korea omitted from earlier SCAP estimates.

PRIORITY

FROM : DEPTAR (SAOOA) WASH DC MR : W 95311 29 OCT 50 CONT'D

4. Further ref para 4 B: DA urged BOB that reduction in Fiscal Year 51 budget that would force resort to borrowing would not represent real economy. The reduction was made despite DA objection and apparently with full realization of effect on future needs for appropriated funds.

5. Ref Para 4 C: Incompatibility in assuming great expansion exports despite limitations on supply and high price essential raw materials of major concern to DA and has been emphasized in discussions with both BOB and agriculture. While we have reason to expect, although cannot guarantee, shipment of million bales US raw cotton in current year realize this inadequate for expanded export program and greatly concerned about possible repercussions of reduced US exports on availibilities of short cotton for Japan. Meanwhile DA is prosessing Washington agencies concerned to give top priority to all Japans needs for critical materials where produce is for sale to military and to recognize as essential to US long range security in Far East Japan's needs for materials to continue expansion of general exports.

6. Finally, wish to emphasize that DA's position with respect to both Fiscal Years 51 and 52 has been determined by desire to submit to BOB strongest possible case in support of SCAP's request in light of Washington information at time of submission. We have sought to avoid omission of potential export earnings where such omission would be taken as reason to reduce request without appropriate regard for offsetting factors and have fully exphined uncertainties involved in such projections. While this has resulted in some arbitrary adjustments in SCAP's data, there is no intention to dispute SCAP projections or to commit SCAP to any figure which, in the light of subsequent review, may be determined indefensible.

Fol msg transmitted at rqst of State:

"Re W 93511, Oct 5, 1950. Dept of State has prepared folg statement for use US Representative at Oct 19 meeting FEC.

'The Com will recall that at the last meeting of the Com in reply to the rqst by the Philippine Representative that the action of SCAP in authorizing mothership type Tuna fishing opns be reviewed, I referred him to the previous statements which I had made on this subj in the Com. I would now like to summarize the position of my govt on this ques. It is the view of my govt that the authorization of mothership type Tuna fishing opns does not constitute a gen extension of the Japanese fishing area. As the Com has been advised, my govt has no objection to the permission for Japanese fishing as set fortn in SCAPIN 2097. At the time that the views of the US were being elicited in regard to a gen extension of Japanese fishing within these same limits, the Philippine Govt was also consulted by SCAP. The Philippine Govt raised objections based principally on GROSNFS that such an extension would increase the danger of illegal landings by Japanese fisherman on Philippine Territory. SCAPIN 2097, however, provides adequate safeguards against this possibility envisaged by the Philippine Govt in that the Japanese fishing opns, which are limited in this area to 1 type of fishing, are carried on under the direct guidance and control of SCAP observers. It is the view of my govt that SCAP fold the correct procedure in consulting with the govts which had either asserted a direct concern in the area or which he believed had a direct concern in this area and that after he had been informed of their views he adopted a course of action which was reasonably calcualated to protect the legitimate interests of countries with a direct concern and also to benefit the Japanese economy. As I have stated before it is the understanding of my govt that SCAP in considering the extension

PRIORITY

FROM : DEPTAR NR : W 94204 15 OCT 50 CONT'D

of the Japanese fishing limits will cont to consult with member countries of the FEC which assert a direct concern in the area. My govt considers that SCAPS action is consistent with the proposal contained in FEC 271/33 and provisions of FEC 035. FEC 271/33 provided that SCAP should consult with govts a direct concern. FEC 035 prohibits Japanese fishing 'near areas under allied jurisdiction without prior permission from the country concerned'- the definition of the area ' near' naturally being within the discretion of SCAP.

'In view of the foregoing my govt cannot agree that the authorization by SCAP of mothership type Tuna fishing expeditions violates FEC 035, and despite the fact that this was not an extension of normal Japanese fishing limits, believes that there was adequate consultation.

'My govt has carefully reviewed the earlier statements by the Philippine representative and has called the Gen and specific apprehensions of the Philippine Govt to the attention of SCAP who has expressed his readiness to discuss this matter further with the Philippine Representative in Tokyo with a view to safeguarding against Japanese violations of SCAP regulations.'

"Above reply has been prepared on the assumption that a firm clear statement of the US position in support of SCAP's action plus a conciliatory gesture toward the Philippines is the best means of closing the issue with a minimum of discussion and of avoiding a critical review of SCAPS action in the FEC in which case the Philippine position might be supported by Australia New Zealand and Netherlands and the US might be forced to use its veto against sizeable opposition. In support of the idea that effort be made to improve Philippine understanding of matter in Tokyo, it is suggested that you take into consideration decades long histroy of Philippine-Japanese animosity engendered by Japanese encroachment on Philippine Territory waters under guize of fishing opns, especially in Bataan Islands which are about 50 miles from Tuna fishing lines and recent instances of violations by Japanese (Philippine statement in FEC minutes Number 22, 1949) Improvement in Philippine attitude toward Japanese fishing would strengthen US position in treaty negotiations and be helpful in setting pattern for harmonious relations this subj between 2 countries in post treaty period. Your comments requested. Specifically is substance reply consistent with URAD Nr 475, June 12 in which you indicate that US only govt consulted prior to issuance SCAPIN 2097?"

For US officials only MYMSG 92801; URMSG C 65512. This msg in 5 parts:

Part 1. The info contained in this msg is furn for your guidance and for your use in the preliminary planning indicated in Para 9 of MYMSG 92801. State concurs.

Part 2. Gen concept for occupation of NK. The purpose of the occupation will be to establish peace and scty so that the Koreans themselves may solve the Korean problem with the aid and asst of the UN. The occupation forces will not impose on the NK people a complete admin of govt. However, it will be nec to establish a temp substitute for the Central NK Govt and also to establish and maintain supervision and controls over NK De Facto provincial and local govts.

Part 3. Phases are envisaged in this occupation. The first phase will begin with the fact of occupation and will cont until internal scty has been established throughout the greater part of the area. The second phase will commence at the end of the first phase and will cont until natl elections have been held, and the United Republic of Korea has assumed responsibility. The second phase will be fol by a third phase which will cont until all non-Korean UN Forces are withdrawn.

During the first phase, conditions of scty will be paramount and Civil Affairs Actions will be limited largely to prov of relief and minimum asst, the establishment and maint of law and order and the initial establishment or reactivation of De Facto local and provincial govts. During the second phase, mil scty will be

a matter of less immediate concern and normal political and economic activity under the guidance of the UN Com will be encouraged to the utmost. During the third phase, the United Republic of Korea will assume auth and all UN trps other than those required to carry out the objectives of the UN in Korea will be withdrawn.

It is contemplated that throughout the first phase the CG of the Unified Comd of the UN will be the Supreme auth in NK subject to control by the UN and the US Govt as their exec agent. During the second phase the CG will retain complete auth as stated above but will, nevertheless, give the utmost consideration to the advice and recm of the UN Com so far as they do not interfere with mil scty. During the third phase the CG will be responsible for such missions as may hereafter be assigned.

Part 3. Proposed directive.

Quoted below is a proposed directive for your civil affairs activities in NK. Rqst your comments to include not only amendments but additional matters which should be covered. It is contemplated that these principles will be discussed here with the Interim Com of the UN referred to in the UN resolution on Korea.

"One purpose:

It is the purpose of this directive to prescribe the broad policies which will govern the conduct of your occupation, as Commander in Chief, UN Comd, of that part of Korea which lies N of the 38th Parallel (Hereafter referred to as "North Korea").

Mission.

You will occupy NK in the name of and on behalf of the United Nations. It shall be your primary duty to so administer your occupation as to facilitate public order, economic rehab and the democratic mode of life in the area and to prepare the way for the unification of a free and independent Korea.

Command:

The UN, through such agencies as may be designated by it, is the Supreme auth with respect to the occupation of NK. The Unified Comd (USG) will formulate your instr and will transmit your rept to the UN. The JCS of the US have been designated as the agency of the Unified Comd through which you will receive your instr and to which you will rept. On behalf of the Unified Comd the JCS will issue such interim and emerg instr and guidance as may be nec.

Relationships:

A. The UN will establish in Korea 1 or more agencies to observe, consult and asst in the accomplishment of the UN objectives for a unified Korea. You will give these agencies full

cooperation and support and will be guided by their views to the extent permitted by your mission. You are not, however, subject to their direct juris.

B. While the Republic of Korea has been acpt as the only lawful govt in Korea, its auth over that part of the country N of the 38th Parallel has not been recog. Although you are not auth to recog such auth, it is desirable that in matters of national scope you consult with the govt of the Republic of Korea through the US Ambassador to facilitate eventual unification.

C. The Dept of State will designate a representative as your Political Advisor for NK.

5. Gen:

Within the framework of the UN objectives in Korea and until the UN com is in a psn to put fwd its views, you will intpr your directives so as to change as little as possible the fundamental structure which you find when you enter NK. For example, land reform meas, nationalization and socilization of industries which have a serious impact upon indiv should be left in status quo. Any change should be made by the Korean people themselves a after the unification has been accomplished, or in response to the firmly expressed views of the UN Com. Similarly, your participation in the local and provincial govts of NK will be limited to the min nec to assure law and order and tranquility. Any amendments or repeals of laws existing at the time of your entry will be limited to those nec from the standpoint of mil scty and the success of your mission, or those on which the UN Com has expressed firm views.

Governmental orgns

You will dissolve the Democratic peoples Republic of Korea, and prohibit all opn and activities of groups inimical to the occupation. You will not create a central govt for NK other than as a part of your occupational control machinery. It is desirable that, to the extent practicable, local and provincial govts be retained or reestablished. You are auth to retain, remove or apt such ofl on all levels of govt as you deem desirable and to

make such changes in the political orgn of the area as best to serve the occupational mission and to facilitate eventual unification.

(7) Rights of indiv:

The mere fact that an indiv is or was a member of the armed forces of the NK Govt, an ofl of that govt or any local govt, or a member of any political party will not subject him to prosecution or reprisal and will not, by that reason alone, bar him from office or employment. You will apprehend and hold for trial by aprop tribunals, in accordance with the law and customs of war, all persons who are or may be charged with atrocities or violations of the law and customs of war.

(8) Economy:

Pending the estab of a responsible UN orgn to deal with post war rehab problems the fol principles will obtain. You will sup relief and asst in goods and svc to prevent disease, starvation and unrest to the extent required for the successful accomplishment of your mission. This asst will be in accordance with your judgment, consistent with UN humanitarian purposes and the desirability for dissemination of info through the entire world as to promptness and effectiveness of UN relief. You will supervise any additional relief, rehab or asst of other agencies which are wuth to function in your area. In your activities in connection with comm, trans, health, welfare, reeducation, reorientation, taxation, banking, refugees and in all other proper and pertinent fields of endeavor, you will consult freely with the Republic of Korea, the various UN Com, and representatives of aprop dept and agencies of the US.

(9) Juris:

You will determine to what extent and for what purposes viv representatives of US and UN governmental agencies will be subject to the juris of tribunals estab by you, or to the juris of tribunals estab by NK auth under your control. Your determination of these matters will be transmitted to the US Govt for the approval of the UN, and thereafter all such pers entering NK will thereupon be subject to such juris.

(10) Control Orgn:

It is desired that so far as it is practicable, your occupational hq shall be separated from your tactical comd; that the max number of members from all friendly UN be utilized; that, consistent with efficient opn and aval of other nationals, there be a min of US and initially of Republic of Korea pers; and that it be susceptible without maj reorgn to trf in toto to a non-mil agency of the UN.

RE RYCOM msg Sep YX 21786. Levy of indiv income tax on non Ryukyuan persons is subj.

1. After careful study DA holds view that proposed indiv income tax levy on non Ryukyuan concessionaires, licensees, contractors and employees thereof is not desireable for the folg reasons:

A. Such a tax appears to be discriminatory in nature since it is to apply only to a certain segment of non Ryukyuan Nationals and will not apply to any of the indigenous population.

B. According your plan, the tax would be levied in dollars. In our opinion, if such a tax were to be imposed, it should be collected in local yen curr in same manner as any other tax presently imposed on indigenous population.

C. Furthermore, it is our view that the full support of a cen and all other nec forms of govt should come from gen taxation of the entire population and not merely from a segment of nonindigenous nationals temporarily residing in the Ryukyus.

D. Furthermore, it is questionable that those taxed would rec a meas of svcs and benefits equivalent to the tax imposed, since the Ryukyuan govt is in no position at this time to assure all of the normal pub svcs usually provided by pub auths.

FROM : DA WASH DC NR : W 93557 ..3 OCT 50 CONT'D

E. Also, regardless of employer and employee contractual arrangements in effect, releasing employees from tax liability, the tax auths here have advised us that sovereign govts res the right to introduce tax levies at will and without prior notification.

2. Serious concern is felt here about statements that non Ryukyuan personnel have heretofore avoided pmt of income taxes in their own countries by claiming residence in the Ryukyus. Tax auths here have advised that for a US national to claim residence abroad, it must be dmstd to Bureau of Internal Revenue that hisoverseas residence is permanent in nature. It is most doubtful that perm residence in the Ryukyus can be established for US tax purposes in those cases where one is on tem asg even though the asg may keep one out of the USA for over 1 full tax a year. Ref sec 116 A, US TreasureyDept, BIR, regs III, Income tax, Internal Revenue code. Because of this there is the possibility that all non Ryukuuan nationals may be liable for income tax to their respective govts.

3. In the interests of good admin it is the consensus here that the taxes imposed by the Ryukyuan govt should be equitable with respect to non indigenous and indigenous personnel. In event tax encouragment for fgn investment or tech assistance is required suggest consideration be given to the granting of limited allowsnces and exemptions. It is suggested therefore that the tax system for the Ryukyus be developed in consonance with the tax objective set forth in paragraph B-3 (B), our msg W 83375 (24 May 50).

Polg statement made by Philippine representative re fishing at 201st FEC Meeting 5 Oct is transmitted for your info:

"Pursuant to the Provisions of Article II-A-2 of the terms of ref of the Far Eastern Commission, the Govt of the Republic of the Philippines proposes a review of the authorization in SCAPIN 2097, dealing with the subj of mothership type tuna fishing opns.

It will be recalled that at the 169th meeting of the Far Eastern Commission, the paper on fishing aquatic industries in Japan, FEC-271/33, was voted on and lost by the nonconcurrence of the Chinese and Soviet representatives. The Philippine representative voted against the said paper, declaring that the policy envisaged therein did not afford adequate protection to parties in interest on this commission. We have always believed that the extension of Japanese fishing areas should not be permitted, except with the prior permission of the country whose interest would be affected by such extension. While the Philippine position, shared by other members of this commission, did not then receive the support of the US Govt, we thought and hoped, as the Australian representative also thought and hoped, that the SCAP would consult with the other member Govts before actually extending the Japanese fishing areas, or would, at least, inform the commission in advance of whatever action he contemplated. It is to be noted that even under the policy proposed in FEC-271/33, a procedure for consultation was set forth whereby member states concerned could express their views prior to any extension of Japanese fishing areas.

ROUTINE

FROM : DA : NR : W 93511 : 6 OCT 50 : CONT'D

Nevertheless, the US Govt subsequently issued an authorization for SCAP to extend Japanese fishing areas beyond the zone contemplated in FEC-271/33. In justifying the issuance of the authorization, the US representative invoked a para of the Atlantic Charter, outlining in broad terms the desired policy with respect to access to the trade and raw materials of the world. It is to be observed that the principles of the Atlantic Charter are enunciated in very general terms and are of a permissive nature. They embody affirmative policies. The charter does not preclude, and, as a matter of fact, requires, the adoption of measures for its implementation. Stated in different lang, the Atlantic Charter is a solemn statement of objectives and of hopes. It was not intended to be self executory.

We submit that as regards the agressor states in World War II, there must be an interim period between the cessation of hostilities and the conclusion of the peace treaties during which the principles of the Atlantic Charter would be subj to limitations, conditions, and restrictions. It is in this perspective that the Far Eastern Commission was established to formulate the policies, principles, and standards in conformity with which the fulfillment by Japan of its obligations under the terms of surrender may be accomplished. And by virtue of its terms of reference, the Far Eastern Commission has adopted certain policy decisions prescribing specific procedures by which Japanese affairs have to be administered.

In the implementation of the high principles of the Atlantic Charter and in the light of the terms of surrender of Japan, certain considerations of security and political policy have been given due weight and regard by the Far Eastern Commission.

Very little indeed would be left of the usefulness of this commission if, in seeking to resolve questions relating to the admin of Japanese affairs, resort were made to an appl of the general provisions of the Atlantic Charter, giving scant regard to the larger interests of security of the victims of Japanese aggression, and subordination the economic interests of these countries to that of Japan.

In document FEC-035, the US policy of Japanese fishing expressly requires 'prior permission' by the countries concerned as a condition precedent to the grant of auth for Japanese fishing in areas near such countries. With the disapproval of the proposed policy paper, FEC-271/33, the only policy decision extant on Japanese fishing is the aforesaid document FEC-035. Yet, the authorization sought to

CONT'D

be reviewed not only dispensed with t e prior approval of countries affected, like the Philippines and, as stated by the Australian representative on this commission, Australia and the Netherlands, but also failed to consult with these Govts ther on or to inform the Far Eastern Commission thereof prior to its issuance.

The 'consultation' made a year ago with Philippine Govt in regard to the extension of Japanese fishing areas, which was referred to by the US representative in his statement of 13 Jul 1950, cannot, in our view, be used as a basis for the issuance of the aforementioned auth. In that consultation the Philippine Govt objected to the extension of the Japanese fishing areas to any point within 300 miles of Philippine shores. Within the terms of document FEC-035, such extension cannot be justified, as 'prior permission' had not been given by the Philippine Govt.

The US representative has expressed the hope that each member state would base its position on the extension of Japanese fishing areas 'on a reasonable interest' in any area in question. It need not be pointed out that the Philippines has fully satisfied that hope, the Philippine position being manifestly based ' on a reasonable interest' in any area in ques.

The limitation of opns in any area to the motherships type tuna fishing cannot be held as a justification for any exception to, or departures from, the policy laid down in FEC-035, because in that policy, there is no spec of the type of vessels that may be employed or of the kind of fish that may be the object of the fishing expeditions. Neither does the said policy permit of any exception to the territorial delimitation on the basis of the classification of such vessels and fish.

We submit, therefore, that the authorization is a violation of the only policy decision on Japanese fishing, that contained in FEC-035. For this reason, together with the absence of the prior consultation envisaged in the proposed policy decisions, FEC-271/33, and the fact that the authorization actually extends the area of Japanese fishing far beyond that contemplated in the aforesaid proposed policy decision, it is respectfully rqstd that a review be made of this authorization."
