## THE GROVER & BAKER ELASTIC-STITCH SEWING MACHINES

Are superior to all others for the following reasons:

1. They sew direct from the spools and require no rewinding of thread.
2. They are more easily understood and used, and less liable to derangement than other machines.
3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.
4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed, until they are worn out.
6. The structure of the seam is such that, though it be cut or broken at intervals of only a few inches, it will neither open, run or ravel, but remains firm and durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practised, execute the most beautiful and permanent embroidery and ornamental work.

# INTRODUCTORY.

“Justice to all and Injustice to none.”

---

In presenting our first issue to the public, somewhat later in the season than we shall hereafter do, we were of necessity delayed by a desire to present the necessary information in systematic form, and to accomplish this, we find it quite impossible to complete a slip canvass for names until after the first of June, as a large majority of removals take place during the month of May.

A great inconvenience is sustained by us, as well as by our citizens and strangers visiting our city, from the neglect of the *City Council* to enforce the fulfillment of the ordinances of 1864, providing for a correct system of numbering houses and naming streets, and *they alone* are responsible, and to blame for this shameful neglect in allowing our prospering city to be, in these particular improvements, behind our sister cities, some of which contain one-half the population of Indianapolis; and from the condition in which we find houses, in different parts of the city, numbered some with the new number properly put up, others with the new and old numbers both, some with the old number yet remaining, and a very large number of the entire buildings, comprising both old and recently erected, without *any* number; thus rendering it impossible for us to give, with any great accuracy, the exact location of all; yet, in laboring to overbalance these difficulties, we have spared no pains, time or money to produce a Directory of the City of Indianapolis that, in a *measure* at least, will approximate what our citizens need and have long desired; and what we here promise our patrons and the active business men of this city *shall* be issued by us annually hereafter for years to come; as we are permanent residents, and regularly engaged in Directory publishing, and in pursuing this, our legitimate business, we shall carefully, punctually and fearlessly hold to our motto, “*Justice to all and injustice to none.*”

Of our competitors, Edwards & Boyd, of somewhat recent date, although at present *ous-ka-schpilt*, we have but little to say; their own actions having said far more to their discredit than we feel competent to say.

## STATISTICS OF THE CITY.

The following is a brief summary of the statistical importance of our city, as shown by our recent canvass, which comprises the inhabitants immediately adjoining, as well as those within the corporate limits of the city. The following figures, set opposite the letters, indicate the number of different names of individual citizens whose name commences with that letter, viz:

A.....	307	N.....	261
B.....	1,107	O.....	285
C.....	688	P.....	360
D.....	482	Q.....	15
E.....	173	R.....	607
F.....	400	S.....	1,302
G.....	466	T.....	325
H.....	942	U.....	14
I.....	146	V.....	133
J.....	223	W.....	886
K.....	418	Y.....	46
L.....	413	Z.....	25
Mc.....	336		
M.....	789	Grand Total.....	11,149

Thus it will be seen by the above figures, which are the result of a close and searching canvass, such an one as this city has never before received, that the whole gives us a grand total of 11,149 names of different individuals, which is a slight increase over that of a year ago, and which, multiplied by the adopted average ratio of four inhabitants to one name, (which properly occurs in a Directory,) gives us an inhabitation of 44,596—not so large in numbers but more truthful, in fact, than that given by Edwards & Boyd in their famous opposition Directory of December last, in which they give as the whole number of names to be 15,500, but by an actual count we find, including all names, to be 13,454, a little mistake of 2,046, which, added to the number of names of firms, corporations, institutions, etc., which we do not count, would leave a remainder of about 10,000 as the actual number of different names given in their book.

The number of names of business men have largely increased. There has been built several large business houses on Meridian and Washington streets, together with several manufacturing establishments, among which is an extensive Rolling Mill being built by the "White River Iron Co.," which is nearly completed, also a Saw Works, by Messrs. Farley & Sinker, a Sash, Door and Blind Factory controlled by an association of carpenters and builders, a Planing Mill built and run by another association of builders and lumber dealers, among numerous other establishments, added to a large number of fine residences, public and State buildings.

The following is a brief historical sketch of the early history of Indianapolis from its earliest inhabitants, with only an allusion to a few items of historical importance in its unbounded progress up to the present time:

#### BRIEF HISTORICAL SKETCH OF INDIANAPOLIS.

Indianapolis, the capital of Indiana, is situated upon a beautiful plain, on the east bank of the west fork of White river, in north latitude 39° 55', west longitude 86° 5'. It is two miles north-west of the geographical center of the State, and one mile south of the center of Marion county, of which it is the county seat. The plain upon which it stands extends for miles in all directions, and was formerly covered with a deep fertile loam; the subsoil is a compact clay, resting upon deep beds of drift, gravel and sand. Until 1818, the central part of the State was an unbroken wilderness, inhabited by the Delaware, Miami and Shawnee Indians. The

whole country was covered with a dense growth of heavy timber; the city site was overgrown with a dense thicket of prickly ash and spicewood. This spice brush often served the early settlers in lieu of the fine Chinese and Japanese teas at present furnished by Messrs. Lee, Senour and Rohrer. The Indians were much attached to this region, because of the abundance of fish in its streams and game in its forests, and they very reluctantly yielded its possession, by a treaty at St. Mary's, Ohio, on the 2d of October, 1818, covenanting to deliver possession in 1821. This region was afterwards designated as "The New Purchase." Its reported fertility and beauty greatly attracted the frontiersmen, who, without waiting for possession, according to treaty stipulations, immediately entered the country, and made settlements at various points. The honor of being the "first settler" of the present city of Indianapolis is due to JOHN POGUE, who came from Whitewater, and settled here on the 2d day of March, 1819. His cabin stood by a large spring, close to the east bank of "Pogue's Run," near the present residence of W. P. Noble, Esq.

In the latter part of March, and in April and May of 1820, a number of frontiersmen arrived, and at the end of the latter month there were fifteen families on the donation. Among them were Messrs. Davis, Bainhill, Corbley, Harding, Van Blaricum and Wilson. By an act of Congress, April 19th, 1816, authorizing the formation of a State government, a donation of four sections of unsold public lands was made to the State for the location of a permanent seat of government, giving choice of selection, and on the 7th of June, 1820, the location of the four sections was made, resulting in that of the present site. The joint corner where the four sections meet is situated on Pearl street, about ten feet west and five feet south of the south-east corner of the lot on which the Palmer House stands. The progress of the town from this date up to 1830 was gradual, averaging a population of about 1,100 souls, which increased very slowly until 1840, when its population amounted to nearly 4,000, and in 1850 to 8,000, in 1855 to 12,000, in 1860 to 18,000, in 1865 to 35,000, in 1866 to 40,000, in 1867 to 44,500, which, taken together, shows a fair average increase for upwards of forty-five years, resulting at present in the production of the metropolis of the State of Indiana, as well as the capital city, with at least one-third greater population than any other city in the State, and competing successfully with other commercial cities in the west. The immense influx of population that existed during the war, has now entirely removed, and the present estimate is that of permanent resident population.

We lay the present book before our PATRONS, believing that our efforts to produce a Directory of Indianapolis worthy the reputation of the capital city of Indiana, will be appreciated by those who have *stood by us*, and their own interests, notwithstanding the attempt, some months since, by a firm under the name and style of Edwards & Boyd, of Chicago, St. Louis, Louisville, Nashville, Milwaukee, Philadelphia, Washington City, D. C., and as many more different cities, a *few* of which they have attempted to publish, but never with the second edition have they given satisfaction, as their last edition of this city fully proves. We promise our friends, and every patron of this book, in our future annual editions, as in this, an honest and faithful record of their names, business and interests, hoping thereby to merit and receive their liberal and undivided patronage from year to year, as we *shall* publish a Directory of the city annually, which, hereafter, will be delivered about the first of July. We shall in the future follow the practice we have adopted in this, of giving to subscribers an extra prominence of their names in the alpha-

betical list of citizens, without additional charge, and to those who desire to become regular patrons, who will come to the office and order, we will furnish them a book annually for half a dollar less than retail price, if ordered previous to taking the canvass.

To the advertising patrons of this book we return our best wishes; having done for each as we obligated ourselves to do, we feel satisfied that the benefit which will inevitably accrue to each will richly repay them many times its cost, by an increase of trade; and we trust that by our efforts in endeavoring to please our patrons and the public, to share a larger advertising patronage in our next issue. Those who are not subscribers to our book will have a limited opportunity of securing a copy by calling in person at our office.

To the Press and obliging friends we tender our warmest thanks for their assistance, respect and kindness shown our agents in the canvass, and patience in the short delay of the publication of this, our first volume of the Indianapolis City Directory.

### *Loss by Portland Fire, July 4th, 1866.*

The amount covered by Aetna Policies on property destroyed or damaged was \$206,854. Our total loss will not vary much from \$165,000, and was promptly adjusted and paid. This sum is 4 per cent., upon the Company's assets, an amount less than our Government and State taxes paid last year, or a proportion equal to a \$4,000 loss for a Company of \$100,000 assets.

The necessity for insurance and the value of wealthy, strong corporations, is forcibly illustrated by this fire. Several weak Insurance Companies are destroyed. Portland has a population of 35,000;—was handsomely built, mostly fine brick or stone structures—protected and screened by upwards of 3,000 shade trees—bounded on three sides by water—indeed, literally, almost rising from the ocean—and with a good steam fire department—yet it has \$10,000,000 of property consumed in a few hours—upon a holiday when its people are least occupied—from the very insignificant cause of a contemptible fire cracker.

Remember the trifling origin of fires that sweep away in a few hours the earnings of years. Consider your best interests and give the Aetna Agent a call if you need proper Insurance security. Pay a fair rate of premium for a good and genuine article, and with these lights and experiences before you, procure your Insurance with shrewd judgment.

*Fire and Inland Navigation Policies Issued at as favorable rates and rules as are consistent with reliable indemnity.*

All Policies Mutual and Non-Forfeitable.

---

**Annual Cash Dividends paid on renewal of all Policies that  
have been in force two years.**

---

Dividends added to the Policy, often exceed the amount of premiums paid and are  
non-forfeitable, and will be redeemed in cash, on demand. Premiums  
may be paid annually, semi-annually or quarterly.

---

Our Cash Assets are nearly \$1,000,000.

---

Dividends, September, 1866, 44 per cent. and payable the same year as declared,  
always adding, in many cases, to the Policy more than the Premium paid, and on  
Endowment and ten Annual Life Policies, from 60 to 120 per cent. of the annual  
life rate. The Berkshire was chartered in 1851, and is

**ONE OF THE OLDEST IN THE COUNTRY.**

No company stands higher in the ratio of assets to liability. (See Mass. Reports, 1865.) For the same money or less, we insure you twice the length of time of most companies. For instance, a party by paying one year's premium, insures for two years and three days from the date of his Policy, giving you one year and three days more than ordinary companies. Be sure and see our agents before insuring.

**T H E**

**CONNECTICUT MUTUAL LIFE INSURANCE CO.**

(INCORPORATED IN 1846.)

**Is the Great Life Insurance Company of this Country.**

**IT HAS THE LARGEST NUMBER OF MEMBERS.**

**IT HAS THE LARGEST AMOUNT INSURED.**

**IT HAS THE LARGEST INCOME.**

It has had, through its whole history, the smallest average expense.

It obtains the largest average rate of interest on its investments.

**IT PAYS THE LARGEST DIVIDENDS,**

It therefore furnishes Insurance at less cost than any other Company.

Its acquired Assets amount to over \$14,000,000.

Its Policy Holders number 40,000.

Its receipts for the year ending December 31, 1866, was \$6,509,627,

**BEING OVER \$20,000 PER DAY.**

It has paid during the last ten years, more than \$4,000,000 to the families of deceased  
Policy Holders.

Its loans are not confined to the State of New York, as is the case with all New York Companies, but  
are made where the largest interest and greatest security can be had.

# CANCERS CURED, OR NO PAY.

## DR. SWANK,

After traveling continuously for ten years, visiting the greater portion of the United States, treating all forms of Chronic Diseases, has finally and permanently located in

INDIANAPOLIS,

No. 76 NORTH PENNSYLVANIA STREET,

Half a square above the Post-Office,

Where he has been for the past three years. The Doctor has always paid particular attention to the treatment of

## CANCER,

Especially while traveling, to which he intends devoting almost his exclusive attention hereafter. His great success in the treatment of this disease is generally known. His superior Cancer remedies are the result of his researches into all the best works and treatises of this country and Europe upon the treatment of this disease.

### IT IS A NEW and VALUABLE DISCOVERY

And the remedy so long wished and sought by the profession, and perhaps the

**Best Antidote to Cancer Now Known.**

Its operation is all that can be desired, being less painful than any other remedy, perfectly innocent, and can be applied to any portion of the body. It operates upon the roots and cancerous portion of the flesh only, which come out in a week or ten days. He has hundreds of them which he has thus taken out, preserved in spirits. There is

**No use of the Knife, Caustic or Escharotics, nor Burning, nor loss of Blood.**

And from this, the Doctor feels assured in making permanent cures, and if patients come before getting bad he cures or charges nothing, and

### WARRANTS CURES FOR LIFE.

He invites physicians and others to call and witness the operation of his medicines. He deals honestly with patients, telling them frankly just what he thinks of their cases. See his circulars, which contain over forty good certificates of cases he has cured. The Doctor is a man of much skill and knowledge in his profession, having had twenty-three years' experience in practice—being a graduate of one of our best Medical Colleges—member of the New York Medical Society and author of a work on "The Theory and Practice of Medicine."

# PURDY'S

## Actual Business College,

Ætna Building, North Pennsylvania Street,

INDIANAPOLIS, INDIANA,

For the EDUCATION of LADIES and GENTLEMEN in all that pertains to Actual Business Life.

The object of this Institution is to qualify Young Men in a thorough and practical manner for the Counting Room and Business Pursuits in general.

### THE COURSE OF INSTRUCTION

Now introduced in this College, is destined to out rival all other methods of teaching now in use, and is founded upon the motto: "Teach young men at school what they will be required to perform when engaged in the active pursuits of life." This Institution has arrangements and facilities for giving young men such an education.

### PURDY'S NEW SYSTEM of THEORETICAL BOOK-KEEPING

Acknowledged to be the best ever published in this country or Europe, and secured to him by copy-right, fits the Student for the Actual Business Department in an almost incredible short space of time. In the

## Actual Business Department

Is represented in practice, Wholesale, Retail, Individual, Partnership, Compound Company Partnership, Jobbing, Forwarding and Commission, Shipping, Manufacturing, Railroad, Steaming, Banking, &c. The "College Bank" is a Bank of Issue and has a capital of one million dollars, and in it the Student is taught the actual duties of First Teller, Second Teller, Note Teller, Discount Clerk, Book-Keeper, Cashier and President, as though he was in the actual business world. The currency of the Bank affords cash capital for the students of the College; Merchandise and other kinds of property being represented by scrip.

### PENMANSHIP

IS TAUGHT BY THE BEST PENMAN IN THE WORLD.

Lectures will be given upon all subjects pertaining to Business.

### PHONOGRAPHY AND TELEGRAPHING

Will be taught in a thorough manner, by competent Teachers, to those who desire it, at extra charge.

**TIME OF ENTRANCE.**—As there is no class systems, students may enter at any time and complete the entire course in from six to twelve weeks, as each student is taught separately, which much facilitates his progress. For further information call at the College rooms, or address, (with stamp enclosed,) the Principal,

PURELY MUTUAL LIFE INSURANCE.

NEW-YORK

LIFE INSURANCE CO.

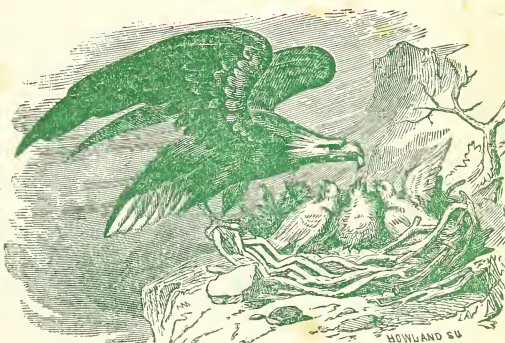

Established 1845.

HOME OFFICE, 112 & 114 BROADWAY, N. Y.

Assets, over \$8,000,000

SECURELY INVESTED.

A Policy of Life Insurance is always an evidence of prudent forethought, and no man with a dependent family is free from reproach if his life is not insured. — The late Lord Lyndhurst, Chancellor of England.

There is nothing in the commercial world which approaches, even remotely, to the SECURITY of a well established & prudently managed Life Insurance Company.

DeMorgan.

This is one of the Oldest, Safest, and most successful Life Insurance Companies in the United States and offers advantages not excelled, and, in some respects, not equalled by any other. It has paid to widows and orphans of the assured over THREE MILLION DOLLARS. Its Trustees in New-York City are of the very first and most reliable names. It is strictly MUTUAL.

The Policy Holders Receiving the Entire Profits.

Special care in the selection of its risks, strict economy, and a safe and judicious investment of its funds, emphatically characterize the management of this Company. Premiums received Quarterly, Semi-Annually or Annually, at the option of the assured. Policies issued in all the various forms, of Whole Life, Short Term, Endowment, Annuity, &c.

DIVIDENDS DECLARED ANNUALLY.

FOR 1867, FIFTY PER CENT.

The mortality among its members has been proportionately less than that of any other Life Insurance Company in America—a result consequent on a most careful and judicious selection of lives, and one of great importance to policy-holders. It offers to the assured the most abundant security in a large accumulated fund, amounting now to over EIGHT MILLION DOLLARS.

It accommodates its members in the settlement of their premiums, by receiving a note for a part of the amount when desired; thus furnishing Insurance for nearly double the amount for about the same cash payment as is required in an "all cash Company."

The NEW FEATURE in Life Assurance recently introduced by this Company of issuing

LIFE POLICIES NOT SUBJECT TO FORFEITURE,

is regarded with universal favor, and annihilates the only argument of any weight which can possibly be brought against the system of Life Insurance.

# TABLE OF PREMIUMS

*For a Non-Forfeiture Policy, requiring only Ten Annual Premiums to secure \$1,000 at the Death of the Assured.*

27	48.05	37	59.15				

A credit of twenty per cent. is given on this table if desired. The current New-York rate of interest upon these credits is required to be paid annually until they are cancelled by dividends, or paid off by the assured.

The following is a summary of the Company's business for the year 1866:

<b>7,297 New Policies Issued, Insuring</b>	<b>\$22,734,308.00</b>
<i>Income from Premiums and Interest</i>	<b>\$3,088,804.47</b>
<i>Disbursements for Losses, Dividends and Expenses</i>	<b><u>1,242,907.52</u></b>

## BALANCE IN FAVOR OF POLICY HOLDERS,

Who are the only Stockholders in the Company  
and receive all the Profits, nearly

# Two Million Dollars

Dividend declared, January, 1867, Fifty per cent.

All dividends declared prior to 1866 are redeemable this year.

## D I V I D E N D S .

The business of the Company being STRICTLY MUTUAL, all the surplus is annually divided among the policy-holders. (*Companies having a stock-capital usually retain a large portion for the stock-holders.*)

Dividends are declared on all participating policies, which have existed twelve months prior to the first day of January in each year, and upon which more than one full years' premium has been paid

Dividends of return-premiums on this class of policies will be computed upon the ordinary life table-rates, and continued during the existence of the policy.

Each dividend is redeemed in two years from the time it is declared. If the assured has availed himself of the credit, the dividend, when redeemed, is applied to the payment thereof; otherwise it is paid to him in cash.

# THE NEW-YORK LIFE INSURANCE CO.

Originated and introduced the New Feature, known as

## THE NON-FORFEITURE PLAN

which is rapidly superseding the system of life-long payments, and has revolutionized the system of Life Insurance in the United States, and which has been adopted (generally in a less favorable form) by all Life Companies; thus attesting the force of public opinion in favor of a system so favorable to policy holders as that established by the NEW-YORK LIFE for the benefit of its members. It has received the unqualified approval of the best business men of the land, large numbers of whom have taken out policies under it, simply as an investment.

By this table the insurer may cease paying at any time after two years, without forfeiture of past premiums, and at the

### END OF TEN YEARS ALL PAYMENTS CEASE ENTIRELY,

and the policy thenceforward becomes a source of income to him. To secure this result the annual rate of insurance must, of course, be somewhat higher. But almost any person in active business would greatly prefer paying a higher rate for a limited time and be done with it, incurring a life-long obligation, however small.

By the table on which this class of policies is based, a person incurs no risk in taking out a policy. Insuring to-day for \$10,000, if he should die to-morrow the \$10,000 immediately becomes a claim; and if he should live ten years, and make ten annual payments, his policy is paid up—nothing more to pay, and still his dividends continue, making

### HIS LIFE POLICY

### A SOURCE OF INCOME TO HIM WHILE LIVING.

The only weighty argument offered against Life Insurance is, that a party might pay in for a number of years, and then, by inadvertence, inability, &c., be unable to continue paying, thereby losing all he had paid. The "New-York Life" has obviated this objection by its

## TEN YEAR NON-FORFEITURE PLAN.

A PARTY, BY THIS TABLE, AFTER THE SECOND YEAR,

### Cannot Forfeit any Part of what has been Paid in.

Thus, if one insuring by this plan for \$10,000, discontinues after the second year, he is entitled to A PAID-UP POLICY, according to the number of years paid in, viz.:

Second year, two-tenths of \$10,000 (am't ins'd), amounting to \$2,000, with dividend on same for life.					
Third year, three-tenths of " " " " " " " "	3,000,	"	"	"	"
Fourth year, four-tenths of " " " " " " " "	4,000,	"	"	"	"
Fifth year, five-tenths of " " " " " " " "	5,000,	"	"	"	"

And so on, until the tenth annual payment, when all is paid, and dividends still continue during the life-time of the assured.

This feature, among others, has given to this Company a success unparalleled in the history of Life Insurance.

For fraudulently omitting to cancel a stamp used, fifty dollars.

For issuing unstamped documents, contrary to the law, a fine of fifty dollars, and the instrument deemed null and void.

For preparing, selling, or removing for consumption or sale, any articles upon which stamp duty is imposed without affixing proper stamps thereon, fifty dollars.

For forging or counterfeiting stamps, or for uttering, using, selling or offering the same; for fraudulently cutting, tearing or getting off Stamps, washing and again using them, or for aiding and abetting such offences; forfeiture of the false stamps, and the instruments they are on, a fine not exceeding one thousand dollars, and imprisonment to hard labor not exceeding five years.

For making, signing, issuing, accepting or paying, any Bill of Exchange, Draft, Promissory Note, or Money-Order, without Stamp, to evade payment of Stamp duty, fifty dollars, and the instrument rendered invalid.

For paying, accepting or negotiating any Bill of Exchange, Draft or Money-Order, drawn out of and payable within U. S., without its being duly stamped, two hundred dollars.

Small Stamps, (except proprietary,) may be used instead of large ones if the right amount is affixed.

Commissions of five per centum (less the cost of the paper) are allowed on purchases of stamps of over \$50 at a time; and on Proprietary Stamps, purchases over \$500 are entitled to ten per cent. commission.

Unstamped instruments may be ultimately stamped upon payment of duty, and fifty dollars penalty, with six per cent. interest from date of instruments, if amount of duty shall exceed fifty dollars.

The manufacturer of any article sold or removed for sale without the proper Stamp being affixed, becomes liable, in addition to the foregoing penalties, at any time within two years from such removal, for the payment of an estimated amount of tax omitted to be paid, and the subsequent proceedings for collection shall be in all respects like those for the collection of taxes upon manufactures, etc.

The Railroad interests of Indianapolis are equal, if not superior, to all others, this being, at present, one of the most important railroad centers in the Western States, compared with the population of its inhabitants, there being, as will be seen by a reference to the above and preceeding and following pages, 8 distinct and separate railroads, and 3 more in process of completion, all leading in different directions to almost every conceivable point of the compass, from this city. There are also 12 lines of roads, either directly or indirectly leading to and from this city, by close and convenient connections, the cards of which may be found in the following pages, fully set forth, and it is designed to correct and increase this record from year to year. And all Railroad Lines that desire to be identified or represented in these pages, can have space by sending the publishers copy and conforming to our terms. See price list, an first leaves of book; and any desiring to exchange, will notify the publishers of the fact, in advance of publication, each year.

The following are a list of the through and fast freight lines and transportation companies having agencies in this city. The formation of these lines greatly facilitate the shipment of all classes of merchandise or produce of a heavy or sizable nature, as the majority of these lines own their own cars, which run through without reshipment.
