America's National Game

By A. G. SPALDING

PRICE, \$2.00 NET

A book of 600 pages, profusely illustrated with over 100 full page engravings, and having sixteen forceful cartoons by Homer C. Davenport, the famous American artist.

No man in America is better equipped to write on all the varied phases of the National Game than is A. G. Spalding. His observation and experience began when the game was young. He gained fame as a pitcher forty years ago, winning a record as player that has never yet been equalled. He was associated with the management of the pastime through trying years of struggle against prevailing evils. He opposed the gamblers; he fought to eradicate drunkenness; he urged and introduced new and higher ideals for the sport; he was quick to see that ball playing and the business management of clubs, at the same time and by the same men, were impracticable; he knew that ball players might be quite competent as magnates, but not while playing the game; he was in the forefront of the fight against syndicating Base Ball and making of a Nation's pastime a sordid Trust; he was the pioneer to lead competing American Base Ball teams to a foreign land; he took two champion teams to Great Britain in 1874, and two others on a tour of the world in 1888-9; he was present at the birth of the National League, and has done as much as any living American to uphold and prolong the life of this great pioneer Base Ball organization.

When A. G. Spalding talks about America's National Game he speaks by authority of that he does know, because

he has been in the councils of the management whenever there have been times of strenuous endeavor to purge it from abuses and keep it clean for the people of America—
—young and old.

In this work Mr. Spalding, after explaining the causes that led him into the undertaking, begins with the inception of the sport; shows how it developed, by natural stages from a boy with a ball to eighteen men, ball, bats and bases; gives credit for the first scientific application of system to the playing of the game to Abner Doubleday, of Coopers-town, N. Y.: treats of the first Base Ball club; shows how rowdyism terrorized the sport in its early days; how gambling and drunkenness brought the pastime into disfavor with the masses, and how early organizations were unable to control the evils that insidiously crept in. He then draws a series of very forceful pictures of the struggle to eradicate gambling, drunkenness and kindred evils, and shows how the efforts of strong men accomplished the salvation of the great American game and placed it in the position it occupies to-day—the most popular outdoor pastime in the world.

Interspersed throughout this interesting book are reminiscences of Mr. Spalding's own personal observations and experiences in the game as player, manager and magnate, covering a period of many years. Some of these stories deal with events of great import to Base Ball, and others have to do with personal acts and characteristics of players prominent in the game in earlier days—old time favorites like Harry and George Wright, A. C. Anson, Mike Kelly, Billy Sunday and others.

This book should be in the library of every father in the land, for it shows how his boy may be built up physically and morally through a high-class pastime. It should be in the hands of every lad in America, for it demonstrates the possibilities to American youth of rising to heights of eminent material success through a determined adherence to things that make for the upbuilding of character in organizations as well as of men.

Mailed postpaid on receipt of price by any Spalding store (see list on inside front cover), or by the publishers,

**DINNER GIVEN BY COL. ROBERT M. THOMPSON AT NEW YORK ATHLETIC CLUB.
OLYMPIC GAMES**

What was practically the first gun fired in the campaign to uphold the honor of America against the other nations of the world was fired on Dec. 7, 1911, at the New York Athletic Club at a dinner tendered by Colonel Robert M. Thompson, president of the Mercury Foot organization, to the Executive Committee of the American Committee of the Olympic Games. In the center of the table was a remarkably constructed model of the stadium at Stockholm, every little detail of which was worked out ingeniously by H. S. Morehouse, the manager of the club. Speeches were made by Colonel Robert M. Thompson, Bartow S. Weeks, Gustavus Town Kirby, A. G. Mills, Allison V. Armour, Evert Jansen Wendell, Dr. Luther Halsey Gulick, Dr. G. M. Hammond and A. H. Curtis. The general trend of the talk was that America could not lay back on the laurels already won in international games, as rival countries had been greatly stirred by the Yankee victories and were putting forth efforts more strongly than ever before to overthrow the prestige of the United States in sports. Matthew P. Halpin of the New York Athletic Club, who guided the teams to Athens in 1906 and London in 1908, was again chosen for the managerial end, and Michael C. Murphy of the University of Pennsylvania was selected to take care of the physical welfare of the team as he did three years ago. For the first time on record America will be represented in practically every line of sport to be contested at Stockholm. While track and field athletes will form the majority of the team, the best men that can be obtained in this country to compete in bicycling, fencing, horse riding, shooting and other sports will be sent along. It was decided to hold try-outs in Boston, Chicago and San Francisco at a date yet to be fixed. The following contributions have been received to date: Colonel Robert M. Thompson, \$1,000; Allison V. Armour, \$1,000; Amateur Athletic Union, \$1,000; Chicago A.A., \$1,000; J. Pierpont Morgan, \$500; Metropolitan Association A.A.U., \$500; New England Association, \$500; Huckleberry Indians, N.Y.A.C., \$100. A fund of \$400 from the Olympiad of

EUROPEAN SWIMMING RECORDS

BEST PERFORMANCES OF GERMAN SWIMMERS

Compiled to November, 1911. by Otto Wahle, New York.

It is impossible to give a reliable list of German records, as the German Swimming Association has no rules under which records can be made. In open water, races are started from a tread water start and pushing off on turns is not permitted. In baths the start is made with a push off and contestants are allowed to make a walking step when turning in the shallow end. The timing is at times not reliable.

JOHN FLANAGAN
16-lb Hammer Thrower

Spalding Rubber Covered Indoor Shot

Patented December 19, 1905

This shot is made according to scientific principles, with a rubber cover that is perfectly round; gives a fine grip, and has the proper resiliency when it comes in contact with the floor; will wear longer than the ordinary leather covered, and in addition there is no possibility that the lead dust will sift out, therefore it is always full weight.

Spalding Olympic Discus

Since the introduction of Discus Throwing, which was revived at the Olympic Games, at Athens, in 1896, and which was one of the principal features at the recent games held there, the Spalding Discus has been recognized as the official Discus, and is used in all competitions because it conforms exactly to the official rules in every respect, and is exactly the same as used at Athens, 1906, and London, 1908. Packed in sealed box, and guaranteed absolutely correct.

Price, \$5.00

Spalding Youths' Discus

Officially adopted by the Public Schools Athletic League

To satisfy the demand for a Discus that will be suitable for the use of the more youthful athletes, we have put out a special Discus smaller in size and lighter in weight than the regular Official size. The Youths' Discus is made in accordance with official specifications. Price, \$4.00

Spalding Vaulting Standards

These Standards are made carefully and well. There is nothing flimsy about them, and the measurements are clearly and correctly marked, so as to avoid any misunderstanding or dispute. No. 109. Wooden uprights, graduated in half inches, adjustable to 13 feet.

Spalding Vaulting Poles—Selected Spruce, Solid

The greatest care has been exercised in making these poles. In selecting the spruce only the most perfect and thoroughly seasoned pieces have been used. All of this goes to make them what we claim they are, the only poles really fit and safe for an athlete to use.

No. 103. 14 ft. long. Ea., \$6.00 No. 104. 16 ft. long. Ea., \$7.00

We guarantee all of our wood vaulting poles to be perfect in material and workmanship, but we do not guarantee against breaks while in use, as we have found in our experience that they are usually caused by improper use or abuse.

Spalding Bamboo Vaulting Poles

Owing to differences in climatic conditions it is impossible to keep Bamboo Vaulting Poles from cracking. These cracks or season checks do not appreciably detract from the merits of the poles, although they may be wide open and extend through several sections on one side. All of our tests would seem to prove that poles with season checks may be accepted as safe and durable. Very frequently such splits or season checks can be entirely closed by placing the pole in a damp place for a day or so.

Tape wound at short intervals. Thoroughly tested before leaving our factory. Fitted with special spike.

Mike Murphy "Rub-In" Athletic Liniment

THIS PREPARATION is the same as has been used by Mike Murphy, the famous athletic trainer, in conditioning the Yale, University of Pennsylvania and other college teams which have been under his charge. He is famous for the perfect condition in which he brings his athletes into a contest, and the ingredients and proper preparation of his "Rub-In" Liniment has been a closely guarded secret. He has finally turned the formula over to A. G. Spalding & Bros. with perfect confidence that the proper materials will always be used in preparing the liniment and that no considerations will induce us to cheapen it in any way.

SPALDING AUTOMOBILÉ AND WINTER SPORTS SWEATERS

Cuts on this page all show the No. WJ Sweater with collar turned
in various shapes to suit the convenience and comfort of the wearer.

FOR automobiling, training purposes, reducing weight, tramping during cold weather, golfing, shooting, tobogganing, snowshoeing. High collar may be turned down quickly, changing into neatest form of button front sweater. Sizes 28 to 44 inches. Carried in stock in Gray and White only. See list below of colors supplied on special orders.

No. WJ. Highest quality special heavy weight worsted.

Each, \$7.50 ★ \$81.00 Doz.

No. WDJ. Fine quality standard weight worsted. Same style as No. WJ, but lighter weight.

Each, \$6.00 ★ \$63.00 Doz.

The dozen prices printed in italics will be quoted only on orders for one-half dozen or more.

We allow four inches for stretch in all our sweaters, and sizes are marked accordingly. It is suggested, however, that for very heavy men a size about two inches larger than coat measurement be ordered to insure a comfortable fit.

SPECIAL ORDERS—In addition to stock colors mentioned, we supply these sweaters without extra charge, on special orders only, not carried in stock, in any of the following colors:

Black	Scarlet	Navy	Dark Green
Maroon	Cardinal	Columbia Blue	Seal Brown

N. B.—We designate three shades which are sometimes called RED. They are Scarlet, Cardinal, Maroon. Where RED is specified on order, we supply Cardinal.

Plain colors, other than the above, to order only, 50c. each garment extra.

SPECIAL NOTICE—Solid colored sweaters with one color body and another color (not striped) collar and cuffs furnished in any of the colors noted, on special order at no extra charge.

The Spalding Official Basket Ball

**THE ONLY
OFFICIAL
BASKET BALL**

WE GUARANTEE

this ball to be perfect in material and workmanship and correct in shape and size when inspected at our factory. If any defect is discovered during the first game in which it is used, or during the first day's practice use, and, if returned at once, we will replace same under this guarantee. We do not guarantee against ordinary wear nor against defect in shape or size that is not discovered immediately after the first day's use.

Owing to the superb quality of our No. M Basket Ball, our customers have grown to expect a season's use of one ball, and at times make unreasonable claims under our guarantee, which we will not allow.

A. G. SPALDING & BROS.

OFFICIALLY ADOPTED AND STANDARD. The cover is made in four sections, with capless ends, and of the finest and most carefully selected pebble grain English leather. We take the entire output of this superior grade of leather from the English tanners, and in the Official Basket Ball use the choicest parts of each hide. Extra heavy bladder made especially for this ball of extra quality pure Para rubber (not compounded). Each ball packed complete, in sealed box, with rawhide lace and lacing needle, and guaranteed perfect in every detail. To provide that all official contests may be held under absolutely fair and uniform conditions, it is stipulated that this ball must be used in all match games of either men's or women's teams.

Durand-Steel Lockers

Wooden lockers are objectionable, because they attract vermin, absorb odors, can be easily broken into, and are dangerous on account of fire.

Lockers made from wire mesh or expanded metal afford little security, as they can be easily entered with wire cutters. Clothes placed in them become covered with dust, and the lockers themselves present a poor appearance, resembling animal cages.

Durand-Steel Lockers are made of finest grade furniture steel and are finished with gloss black, furnace-baked japan (400°), comparable to that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

Some of the 6,000 Durand-Steel Lockers Installed in the Public Gymnasiums of Chicago. 12"x 15"x 42", Double Tier.

Durand-Steel Lockers are usually built with doors perforated full length in panel design with sides and backs solid. This prevents clothes in one locker from coming in contact with wet garments in adjoining lockers, while plenty of ventilation is secured by having the door perforated its entire length, but, if the purchaser prefers, we perforate the backs also.

The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers, and they last as long as the building, are sanitary, secure, and, in addition, are fire-proof.

THE FOLLOWING STANDARD SIZES ARE
THOSE MOST COMMONLY USED:

DOUBLE TIER	SINGLE TIER
12 x 12 x 36 inch	12 x 12 x 60 inch
15 x 15 x 36 inch	15 x 15 x 60 inch
12 x 12 x 42 inch	12 x 12 x 72 inch
15 x 15 x 42 inch	15 x 15 x 72 inch

SPECIAL SIZES MADE TO ORDER.

We are handling lockers as a special contract business, and shipment will in every case be made direct from the factory in Chicago. If you will let us know the number of lockers, size and arrangement, we shall be glad to take up, through correspondence, the matter of prices.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy.

Without a definite and Standard Mercantile Policy, it is impossible for a Manufacturer to long maintain a Standard Quality.

To market his goods through a jobber, a manufacturer must provide a profit for the jobber as well as for the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that, 13 years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures the supply of Spalding Athletic Goods direct from the manufacturer by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

First.—The user is assured of genuine Official Standard Athletic Goods and the same prices to everybody.

Second.—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are requested to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike and no special rebates or discriminations are allowed to anyone.

This briefly is the "Spalding Policy," which has already been in successful operation for the past 13 years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

Standard Quality

An article that is universally given the appellation "Standard" is thereby conceded to be the criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is **guaranteed** by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirty-four years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the Guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis of a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.
