Dear Sir—I trust you will pardon my bold-neas in expressing to you my individual views as to what result the present Japanese-Russian War will have upon theatricals in this country. Being a Westerner, perhaps I am enabled to see the altuation in a different light than one from the East would, but I believe that the present war will have an influence upon theatricals, and I would not be surprised if it is not felt in the West even this season. To begin. Since the beginning of the year theatricals have picked up considerably in the West in the way of box office receipts. I state this to show that the West is not at the present time dependent upon the East from a fluancial standpoint. All through the West business is picking up and theatrical matters are in a more atable countries in the war is now attracting the attention of the world. I believe that It will result in that Oriental country being put in a position of more importance than ever before conceived of by mere man. It will make Eastern Asia a world factor, and certainly our Western States will not San Francisco or some western seacoast city become the open door to this newly aroused country—aroused to the fact of her importance and her power. This being so, why will not San Francisco or some western seacoast city become the metropolis of the linited States by reason of her commanding position commercially and fluancially, and consequently theatrically. But of course this pre-cuninence of some western city could not be desired at the present time because we would have to take Broadway physically and plant her in that western town in question, and consequently theatrically. The meanest manager I ever traveled with once made the 1000 Island tour and as he only counted 964 went to the captain and got a rebate on his tickets. I am the first agent up here to wear an ashestos vest, and the wagon shows are all on runnera. A foxy agent is offering writers six passes for the best story about his leading lady running away in an automobile, and the comedian leaving a roll of stage-money with the botel clerk and then running up an immense bar bill.

A "Parsifal" lecturer struck a Canadian town and the biliposter dated all the Paracamph paper he had just opened at Quebec. The lobby is bigger than the whole Crawford circuit. It is so cold up here they put up caper with long haircuriers. A friend of mine here has a flat with such small rooms he is training his dog to wag his tail up and down instead of sideways. In one town the local armory is over the hall, but the soldiers only drill on show nights—that is, they begin to drill, and after 660 of them "ground arms" for fifteen minutes the manager sends up word he will let them all in at 25 cents a ponnd, while sausage is 20 cents.

The printer must have used tomato cater on my dates, for when we stout to see how the show was billed, the had faded so it looked like the date was a caclled.

An eloquent tribute to the sincere, dignified and carnest work of the F. P. Protter Stock Companies was recently paid by Mr. Augusins Thomas, After witnessing the performance of his pet drama, Alabama, at one of Mr. Practor's stock theatres in New York City recently. Mr. Thomas asid with the peculiar emphasis and deliberation that distinguished film: "The little company of players rehearsed my plece only five mornings I believe they did not even have the advantage of seeing the scenic acts in advance. They simply studied from my prompt book, nnder the guidance of a stage manager, who had possibily acen my play performed once before. When I saw this company produce the play on Monday afternoon, its very first performance simply amazed me by its amoothness, its intelligence, its thorough grasp of the situations and plot. I did not think that any company no matter how composed, could do work so well within so short a time. I say, without hesitation and without fear of contradiction, that in nearly all roles this plece was as well produced by Mr. Proctor's stock company, within that remarkably short period of time, as it was originally at l'almer's Theatre. I take off my hat to the latter day stock companies, and to Mr. Proctor's in particular."

PHILADELPHIA.

PHILADELPHIA.

The theatrical managers of Philadelphia have only isent to bother them now as the fire commissioners have ceased their labors and the war with the newspapers is all over. On the principal that when a fight is over there is no use talking over it, both the newspapers and the theatres are keeping quiet over the fight that existed, but it is a safe het that the theatres got the most points in the bloodless battle, 'it was proven conclusively that an utter absence of the advertising from all papers of theatrical advertising did not bankrupt the managers and nobody knew it hefter than the newspapers. As yet the mayor has not grantied the ilcenses to theatres for 1804, and the result is that every house in town is heing run illegally. However, as he is the only one who is supposed to look up violatious of this matter there will be no kick couning. Most of the improvements ordered by the commissioners have been tinished and it is expected that the mayor will grant the ilcenses in a few days. The far wall concert of Patti on Wednesday, Feb. 2t, was canceled When the people who had purchased seats went to get their money back they were surprised to learn that the amount of the advance sale had heen attached by a 'cello player, who had form crip been with the company. No one could get a cent back and there were many howls of angulsh. As yet the matter has not been settled, but it is presumed that the courts will look at the matter in the right light, namely, that is the concert had not been given the money belonged to the purchasers of the seats and not to the managers of the tour, and that in consequence the money should be returned to them. Business at most of the houses is fair, and inflet much hetter all around that was to have been expected during the Lenten season. The weather keeps cold and basiness should be hetter than this.

BALTIMORE.

With the advent of the solemn season and the intensely cold and disagreeable weather added to the recent calamity, the theatrleaf business has suffered a great depression. Considering the present state of affairs since the fire, some attractions have done fairly good business, while others were unanceessful. Peggy from Paris drew excellent houses and the production pleased immensely.

Ford's Opera House (Mr. Cins. F. Ford, Mgr.) Miss Clara Bloodgood, in The Girl with the Green Eyes, was presented for the first time. Miss Bloodgood's fund of versatility has made her eminently prominent, and her progress has been quite rapid. Besides being beautiful, she has developed into an excellent actress and her work is graiseworthy. She is surrounded by a supporting company that is excellent. The different seenes are a succession of claborate stage pictures and the essuinness are magnificent. In the cest are flobert fromet, Grace Henderson, Edith Tallaferro, Edith Shayne, Hose Flyin and others.

Academy of Music (Nixon & Zimmerman, Mgrs.) Frank Daniels, in The Office Boy, was the pleasing attraction presented. Mr. Daniels is quite a favorite and is very popular among theatre-goera. His success in this production also long preceded him. His manucrisma are quite familiar and amusing. His company includes some exceptionally good entertainers who contribute much to the success of the production. The chorus is an excellent feature of the show.

Maryland Thealre (Mr. James L. Kernan, Mgr.) George Sidney, in Busy lzzy, appeared in an immensely popular production. The company la largely augmented with a bevy of pretty girls and excellent centralners. There is an abundance of mirth and melody that is pleasing to the most fastidions.

Chase's Thealre (Mr. J. Albert Young, Mgr.) The George Fawcett Stock Company makes another ambitious step in the line of famons dramas and presented The Belis, by Leopold Lowls, which was so well produced by Str Henry Ivving. Mr. Pawcett appeared in sa Mathias, Missing and the Hilling medient that plea

cors opened and they stood double file for imost a square. The Academy of Music had be largest andlence of the season. SYLVAN SCHENTHAL.

Park Theatre—Ezra Kendall appears lu one of the Joilles bits of uonsense ever put on the stage, The Vinegar Buyer. Kendall is as good as ever and uot much older. There have been few changes in the company since it was last seen here, the newcomers being notably Helen Sallinger and June Mathis.

Tremont Theatre—The Sultan of Sulu is one of the few musical comedies that improve on a second hearing. Frank Monlan as the Sultan of succeed hearing. Frank Monlan as the Sultan is monestionably one of the deverest of condy stars; George O'Donnell was good as the colonel, and Cheridah Simpson. Blanche Chapman and Gertrade Univalent was good as the colonel, and Cheridah Simpson. Blanche Chapman and Gertrade Univalent was good as the colonel, and Cheridah Simpson. Blanche Chapman and Gertrade Univalent was good as the colonel, and the state of the doors are the additional stage of the Pretty Sister of Jose. As a Spanish girl Miss Adams makes up delightfully, and to watch her one would think she had spent all her life in Madrid.

Boston Theatre—Packe to the doors are the andiences to greet Channey Oleott in Terence. The sweet singing, romantle actor scored a success in this charming story. The entire play is beantifully staged, some of the Irish scenery being reproduced with wonderful effect. Adelaids Keim, as the herolne, gave Mr. Olcott excellent support.

Globe Theatre—The Burgomaster. Pixley's comedy is refreshing, while Luder's runsic is the kind that one never three of hearing. Oscar L. Figman, as the Burgomaster with the wooden leg, centainly distinguishes himself, while Ruth White easily takes first rank among the ladies of the company in her familiar characterization of Willie Astorbilt.

Austin & Stone's—Prof. Intechings and his orchestra. La Belle Rosa and twenty dancing lettles, which completely echipses anything of the kind that stand Roston has seen; Camillo & Fona. Princess Brandea in fer great snake act, and others.

Keith's—The best bill of the season. The tetendance on Washington's Birthday was th

delived the heart approval of an euthuslastic andience.

Muste Hall—Iu The White Slave the plantation life of the negro is brought out very strongly and old time songs are sung.

Columbia Theatre—The Way of the Transgressor. Stirring seems, interspersed with comedy acts by some of the best vaudeville performers. Including the Renzettas, acrobats; lillly Williams, black face comedian, and Vietoria Walters, dancer. The dramatic company is made up of clever players.

Majestic Theatre—Kellar, There is no man on the American stage who can give an entertainment like Kellar, and it is something for the man to boast of that he can entertain an andlence for two hours and a half without assistants. The Levitation of Princess Karnad is without donbt the greatest feat of hecromanny that has ever heen performed in this country. The demon globem, the crystal ladder, the Yogi's lamp and many other acts of interest on the program are well worth witnessing.

CLEVELAND.

Deer House—Peggy from Paris is playing to good business here this week. Playgoers relished Peggy from Paris and enjoyed the many inneful and catchy melodies. The show is a good one, so is the company, while the music is bright and certainly tuneful.

Shea's Empire—A regular vaudeville combination show is holding forth here this week, and to good business, too. They are all little people, so to speak, but they are there with the goods, and hound to be at the front some day. Of course, Henry Lee in this show ranks as foremost, and it is in his own show that he is idaying. His set is called Great Men Past and Present, and affords a very clean and whole-some entertainment. Elbe Fay is in the hill in her old act, The Belle of Avenne A; Tallod & Rogers also are here, likewise Valmore & Morton, and the rest of the hill is as follows: Sherman & De Forest, Mr. and Mrs. Esmond: Ford & Wilson and Gardiner & Maddern.

Colonial—A number of the acts have been seen here before. It is attact that this house will soon close as soon as it is known that Drew & Campbell have positively secured the lease.

Lyceum—Rose Melville, as the same old Sis Hopkins in the play of the same name, is here for the first three days of this week, and as assual made a good impression. For the halance of the week, commencing Thursday night, West's Minstrels will commence to do stunts at this theatre.

Cleveland—Deserted at the Altar is a play full of pathos, many thrilling events, and is carried through by a capable company of players. The seenic effects are wonderful and the play a good one for this class of show.

Star—imperial Burlesquers are here again. They were seen here the first of the season. The show is practically the aame; about the same bunch of beauties here, and very little change throughout. But real burlesque it is.

Change throughout. But real burlesque it is.

NOTES.

The Ohlo Hardware Dealor's Association convening here the first half of the week at the Hollenden Hotel. The Cleveland delegation gave a theatre party at Shea's popular vaudevi'le house and all secured to enjoy the show. Mr. Bambam is playing for a week at Gray's Arnory. He is drawing pretty nicely, and appears to be a worder.

LOUISVILLE

The Avenus Theatre (C. A. Shaw, Mgr.) The Little Church Around the Corner, which made a very favorable impression last season, is here again. The Little Church Around the Corner, the famous editiee from which the play takes its name, is depleted in a striking seene, in which the picturesque building, brilliantly illuminated and with ringing climes, is shown during a realistic snow storm, it is the dramatic events that occur in and around this vicinity that furnish the basis on which the intensely thrilling story of the play is constructed. Next: At the Old Cross Roads.

The Masonic Theatre (C. A. Shaw, Mgr.) Augustus Thomas' ancessful play, Arizona, will be the attraction at the Masouic this week. Since its former road tour ample improvements have been made. Arizona's superb scenic environment was produced by Walter Burridge and Charles Ritter from Frederick Remington's sketches of magnificent scenes in the Araviana Valley, and to Remington's black and whitedelineations of Western scenes and people is due the absolutely correct uniforms, decorations and groupings of this play. Mr. Thomas has created in Arizona characters and incidents entirely new to the American stage, and the story holds the closest attention from the rise to the fall of the curtain. There are splendid opportunities for dramatic action in Arizona, and only the most capable performers have been engaged for this production. Next: Rudolph and Adolph.

Her voice in depth and sweetness is far superior to Ellen Beach Yaw's, and she leaves that lady an octave behind in vocal range. Morris and Bowen, the comedy acrobats, do some of the best work of the program, while the Vassar Girla lead the holdovers and are in their last week. Bay City, Mich., Feb. 15, 1904.

The Bill board Pub. Co., Cinclunati, O.

Gentlemen—Theatrical, circus and amusement organizations for many years have been compelled to eliminate from their litheraries Alpena, Mich., and other Lake Iluron shore points north of Saginaw and Bay City for the reason that the Detroit & Mackinac Railroad, the only line traversing that section of Michigan, had no northern outlet, and in order to play that territory it was necessary to make long jumps and double the road, and such a venture was not always desirable, as the business in alght would hardly, in many justances, warrant the expense.

These conditions shell.

would hardly, in many instances, warrant the expense.

These conditions shall not prevail after May, 1904, as the betroit & Mackinac Raifroad will be running trains into Cheboxyan, Mich., by that time. The track is now laid to within four miles of this point, and we wentle now be running trains through had it not ben for the unusually wet fall and severe winter season. During the past several years our representatives and myself have been frequently asked by managers, advance agents and booking houses to let the theatrical fraternity know when our line would have a northern outlet, as they would like to make the territory, which is fairly well populated and quite promising. Bearing in mind these requests and believing the information can best be promulgated through "The Billboard," I beg to bring the matter to your attention.

Very truly yours.

BUSY PHILLIPINOS

Are Now Building a World's Exhibit of Keenest Interest.

Interest.

The walls of the ancient city of Manila are being reared on the Philippine reservation of 40 acres at the World's Fair.

Fifty native Philippines, clad in their native costumes, are working with their native material and tools. Several times that number of American workmen are engaged in rearing great structures and preparing the way for the work to be finished by natives.

Fifty-two carioads of building material and exhibits from the Philippine Islands reached the World's Fair grounds a few days ago, and immediately the interesting work of native construction was begun.

Afready the walls of Manila are assuming such form as to give token of what they will be when finished. This "walled city" will be the main gateway to the Philippine exhibit. The walls will he covered with staff in initation stone, and will present replicas of the beantiful and most romantic entrances to the historic city. The hasticos, gunports and turrets are being reproduced with fidelity. The wall is twenty feet high and about staten feet thick. It is not colld and rooms in the wall will he used for exhibiting war relies and other objects of interest.

Excavations have been completed for a deep lake, which is name Lagnua de Bay, and which is spanned by several bridges. The most imposing in appearance is the Bridge of Spain, which, as its name suggests is of Spanish design. This is a copy of the famous bridge of the same name in Manila. It is heling constructed of heavy timbers and when it receives its staff finish will embrace all of the striking features of the stone bridges in the Philippine capital. Other bridges, built by natives, are being constructed of hamboo.

hridges in the Philippine capital. Other bridges, hullt by natives, are being constructed of hamboo.

Work has also begun on the main square in the Philippine reservation. There will be a towering monument in the cent requare and on four sides are being erected tour large mildings copied after the most important public building in Manila.

The Philippines have begun the erection of their native villages. The construction of these villages is proving a great attraction to visitors. No nails are used in the construction. The bumboo poles, which range in length from 40 to 50 feet, furnish the timbers. These are tied together with beince, the fibre of rattan, Nipa forms the roof. Nipa is produced from the leaves of a palm peculiar to the Philippine islands. The floors are hamboo, split thine small sections, and so tied to the cross sections that they form a mooth surface. Work has already begun on the Moro, Visayan, Ivzon and Iggorrote villages. The Moro village will be built on the western shores of Leguna de Bay, and many of the hulldings will be over the waters of the lake on wooden uprights and will be accessible only by boat.

One large hullding is already finished. This is in the extreme western section of the tract and will be need for the present for storing exhibits and for dormitories for the native workmen. The huilding is steam heated and provides comfortable quarters for the people from a tropleal climate. Rooms will also be provided for the storage of perishable exhibits.

The bamboo poles, as they appear on the care, are dirty and weatherstained. When they are converted into houses by the natives they are scraped with bolo blades and lacquered.

The Agriculture and Forestry buildings is the Philippine section are being erected by the American and Philippino workmen together. Americans build the frame work and the Philippinos will cover it with hamboo and nipa. The entire 40 acres are being laid out with spacious griveways connecting all points of interest. There will be market places, churches, theatres and a full exposition of Philippino infe. with more than 1,000 native Philippinos participating.

Brethoven's Miss Solemnis, hegun in 1818, but not finished till 1822, was written on the occasion of the nomination of his pupil, the Archiuke Indolph, to the Bishopric of Olimitz. The composer sought to obtain subscribers for replies among the Princes and Kings of Enrope. He only obtained seven subscribers, and the money results were 359 durats. Such was the reward for what he himself considered his best work.

The Bard Bros.' New United R. R. Shows, which will haugurate its third season at Reading, Pa., in the spring, will be one of the best equipped shows of Its size on the road, and the Messrs. Bard Brothers bave sparsed neither time or money to make the performance, etc., thoroughly up to date. The winter quarters in Reading are in charge of Mr. James Bard. Several new cars have been purchased during the past week, also new wagons, among them the new bund wagon. Prof. Bush and his renowned concert band has been engaged to furnish the musical program for the coming season. The new canvas is considerably larger than the one used last season. The Messrs, hard have just closed a deal for some line stock, and a big surprise is in store for those who will large a change to see the New United tids season.

land the one used last season. The Messrs-Bard have just closed a deal for some line stock, and a big surprise is in store for those who will lawe a chance to see the New United tids season.

The veteran bill writer and ex-general agent charles Stow is now engaged in wielding his profitic pen for the Main Show's paper, and it is needless to add that when Mr. Stow has the ished his task 'its well done. In another part of the building J. D. Harrison is preparing the newspatter literature. General Agent Knupp and "The Governor" are clared with the success Messrs. Stow and Harrison are sure to achieve Boss Canvasinum Jinoule Whalen, so Boss Hoster Bob Abrams says, is about the bapplest man in Oild, and reliable Addle Moreland is authority for the statement that Jimmie whistles love songs while last year he sing "On the Gocky Road to Dublin." May be it is because Jim will have nothing but brand new canvas to bandle this season, as all of the Main tents will be new, but some folks attribute his happiness to other causes.

Everything about the Welsh Bros, winter quarters is looking fresh and bright. The out-in for the coming season will, with a few exceptions, be entirely new, owing to the fire which occurred sbortly after the close of last senson, and which destroyed nearly all the paraphernalia and several of the cars. Thring performance for the coming season will be the strongest and best ever offered by this show. The entire program is made up of new names and new acts. HE OF THE PROPERTY OF THE PROP BILLPOSTERS DISTRIBUTORS & COMMERCIAL ADVERTISERS

GREAT DISSATISFACTION

Of Billpostera With Directors' Circus Rates, Etc

The Southeastern States Association is taking the initiative in the fight against the Board of Directors on the question of the recent contract which the board entered into with the circus managers, as witness the following circular letter which has been mailed to every biliposter in the South, viz.:

in the South, viz.: Secretary's Office Southeastern States Billpost-ers and Distributors' Association.

Atlanta, Ga., January 23d, 1904. Dear Sir and Brother:

crs and Distributors' Association.

Atlanta, Ga., January 25d, 1964.

Dear Sir and Brother:

The Executive Committee of this Association submits to you the following as reasons why the rates for circus posting shall not be reduced. "Resolved, (1) That posting for circusors has always been, and ought always to be, at a higher rate than posting for commercial advertisers, and that this suggestion is not made in the spirit of graft or for the purpose of extortion, but for the following good reasons:

(a) The commercial advertiser patronizes the biliposter from two to six times each year, the circus once in two years.

b) The commercial advertiser advertises in the whiter, spring and summer, as well as in the fall. At this season the boards are usually crowded and business conditions are such as to make advertising most profitable to the advertiser. The same space in the same newspaper will command a larger price in one edition and at one season than at another.

(c) The commercial advertiser permits the biliposter to put some of his stands on the least desirable locations, and by reason of this consideration the biliposter is able to sell all of his space; the advance agent of the circus strikes the town, inspects the plant, demands all of the central locations, and wants nothing else. Some locations in a newspaper are charged for at five times the rate that other locations in the same edition of the same paper are charged for, and it is well for it.

(d) The circus requires that its advertising be done at a definite time, as we, at at a definite place, and its posting must be done at the specified time and place, though it may conflict with other live contracts—in other words the circus demands, and is given, the right of way; on the other hand the commercial advertiser is usually willing to be nut on the waiting list if the boards are crowded.

(e) The advance agent of the circus selects the space in which does not begin unit the work or arrives and the selected space must be held open until the car arrives, but

and to intervening time is a loss to the bill-poster.

(f) The circus is given listed and protected service for one week at the same rate that the commercial advertiser. Iven chance may offer service.

(g) The price charged is always effected by the character of the business seeking the service. A newspaper will charge a merchant one dollar per inch, and any classified advertiser for the same inch two dollars; a merchant who sells the luxuries of life charges a larger profit on the articles sold than the merchant who sells the necessaries of life; the municipality taxes the bookstore twenty-five dollars per annum; and the county licenses the theate at fifty dollars per annum, and the county licenses the theate at fifty dollars per annum, and the circus at fire hundred per day.

(2) The number of tickets that the circus is required to furnish to the biliposter is out of the proportion to the number of tickets given by the circus and other services, and riddenlously inadequate to meet the demand that is made on the hillposter for the location used. To lithograph a city of 125,000 population the circus will give five hundred tickets, but under the scale of prices the biliposter gets only one hundred and twenty-five.

(3) The number of tickets vary with the ponulation, but do not increase proportionately with the increase of population. A city of 50,000 population gets no more tickets than a city of 50,000, and a city of 10,000 gets as many tickets as a city of 209,000.

(1) The right given the circus to use walls, danhs, and to build billboards in the biliposter is indentified, uncertain and dangerous; is a right that no other person is given by the br-laws and constitution of the association, and causes to the biliposter all of the demoralization that comes from active competition.

(5) The prevailed the enember, giving the right of appeal to the elementary of the subordinate association, and causes to the biliposter all of the demoralization the reduction of the price charged for biliposting, because (a) ontdoor

fully requested to inquire into the unitter singgested in these resolutions and to reconsider
such action as may have been heretofore taken
to the end that the evils herein mentioned may
be averted."

If the reasons set out in the above resolutions
are approved by your judgment, and you are
opposed to the reduction of the price heretofore
charged circuses, and otherwise opposed to the
regulations made in this matter by the Board
of Directors, I am instructed by this association
to request that you write a letter to me stating
that fact and your reasons therefor, and also
that you write to some, or all, of the Directors
on the same line.

With assurance of fraternal regard, f remain,
Yours truly,
R. L. KIRKFATRICK,
Secretary.

NEW JERSEY AND THE BILLBOARDS.

The following is a copy of the bill introduced into the Legislature of New Jersey by Mr. Colby and referred to Committee on Judiclary:
An act to regulate and control the erection and maintenance of biliboards and advertising signs.

maintenance of billboards and advertising signs.

Assembly of the State of New Jersey.

1. No person, association or corporation shall hereafter erect or maintain any hillboards or signs for advertising any article, except in consection with or pertaining to, the premises whereon the said billboard or sign is erected, without first obtaining a license therefor from the proper licensing authorities of the numerical properties of the said billboard or sign is erected, without first obtaining a license therefor from the proper licensing authorities of the number of the said and the said in the case of the number of the said and the said in the case of the said and the said and the said and the said in the event that such annually shall fail or cent that such annually shall fail or least the dollars for every aquare foot of sign, billboard or advertisement, and in the event that such annually shall fail or least the dollars for every aquare foot of sign, billboard or advertisement; such license fee shall be due and payable upon the granting of the license and shall be a revenue measure.

3. Every violation of this act shall subject the person, association or corporation so violating, to a penalty of two hundred and fifty deliars for each violation, which shall be sued for any subject of pleas of the out the said person, association or corporation and the treasury of such numleipality and the other half to the informer of violation; should the said person, association or corporation in the numerically, when recovered, shall be paid into the treasury of such number and the said person, association or corporation in the numerical subjects of such notice, evecution shall some different directed, shall be income of such notice, evecution shall some different personal some house of the said person, association or corporation in the numerical subjects of such notice, evecution shall some different for the county wherein the said process.

1. The properties of the county wherein the said process of such notice, evecution s

and wagons of other tradesmen, even the trol-ley cars, will come under the province of this bill.

The revenue to the state at \$5 per square foot would be enormous. There are 285,000 lineal feet of signs in New Jersey, and a tax of \$5 a square foot would bring in nearly fifteen million of dollars.

Now as to the persons most and saddest affected.

The farmers derive a substantial revenue from sign spaces located on their lands. Deprive them of this source of income and many of them will pile up a lot of back taxes.

Relween 4,000 and 5,000 employees, such as biliposters, carpenters, painters and clerks, are now dependent upon the biliposting companies for support. If the bill prevails all these will be thrown out of employment.

Lumber, paint and hardware dealers who self very largely to sign board owners will lose many thousands of dollars through the falling off of the trade.

Last, but by no means least, the life of trade which has its best exponent on the retail store would receive a serious setbeck. Contracts made several years ago would be seriously entangled. Suburban residents would not be reminded that they should patronize the stores

RECEPTION AT ALBUQUERQUE.

RECEPTION AT ALBUQUERQUE.

The Directors' Party were met at the station in Albuquerque, N. M., by Clarene Hudson, a member of the Association, and a committee of the Albuquerque Commercial Club on the night of the 20th. They were conducted to a dinner at the Alvarado. At its conclusion the party was escorted to the club and inscribed their names on the register and adurired the appointments of rooms. A visit was paid to the new Elks' Auditorium, which was lighted for the first time in their honor.

After this the party marched in a body to Railroad avenue, where they were introduced to the mysteries of keno, roulette and other things that work with chips. They seemed to enjoy the experience and all of them clamored for more. Then they scattered to the station, the hotel and the curlo stores, after aceing the Morning Journal plant in operation.

The party left at eleven o'clock the same pight for the Grand Canyon, after declaring that the Albuquerque hours they had put in were the most pleasant of the trip.

Recently It has been proposed in New Jersey and in Chicago to pass laws to compel the payment of a license on every sign which does not advertise goods sold on the premises. These laws will surely be passed if steps are not made to forestall them. The first plan that comes to mind is the printing of leaflets on one side only for enclosure in every letter that goes out from a hillposter's office. Every couple of months a change can be made in the argument, but a persistent canvass should be inside to cause the acquaintanceship with the other sile of the argument by advertisers and people in power and high count. These leaflets could be gotten up by the associations from a defense fund for that purpose. They could be supplemented by individual leaflets from enterprising individual biliposters who do not propose to be sweep off the earth tamely and to meet their doom in cowardly inaction. It is true that what is everybody's business is nobody's business, and consequently it is well to fix the office of getting out these leaflets on one designated official and hold him responsible. Where see the arguments to be gotten? First, they could be laken from time to time from "The Billboard" whenever a particularly effective one has been published, and, secondly, be submitted to the appointed official by all billposters who IN TIME OF PEACE PREPARE FOR WAR

have their own welfare at heart. Another defense could he made by having "The Billboard" sent to all the influential people in cities where the billboards are threatened. Space should be ought from the newspapers from time to time for the insertion of strong articles, and the billboards should be used to make clear that it is not the ease of the people vs. the hillboards, but it is strictly a case of rivals competing for legitimate business. It is, however, best not to comine the efforts strictly to defensive work, in actual warfare as well as in reasoning it is more didicult to put up a defense than it is in making an attack. An attack should be unde on the newspapers in an offensive war by a first step in introducing legislation against the shouting of newsboys in the streets day and night.

One of the most interesting palaces on the like at the coming World's Pair will be the Maskan and Eskino Village, Ire and snow and no immense hollow mountain in the basis of this remarkable exhibit. The cliffs of Muir Glacier is being reproduced with all its scenic and economic features of life in the artic circle. I'p the front of this lee mountain runs a zigzag path, along which natives, clad in furgaging leads up these cliffs will aid in exciting the attractions inside the inclosure. Dozsdragging sleds up these cliffs will aid in exciting the visitor's curlosity. The entrance is intough a tunnel filled with forbidding, jagged icless under the cliffs.

This tunnel, to be cooled with liquid air, prepares the visitor for the sight of the magnificent snowfields and immense leebergs which open to the view in the interior.

Being inside we find ourselves surrounded by cliffs of fee and anow and on the short of a little lake on which the Eskimos paddle kyaks and its many aquatic fests, one of the most interesting of which is turning over under water without tilling the boat. This feat is male possible to the Eskimos by reason of the high cockpits and water-tight aprops of their kyaks and bidarkas.

Passing dong we come to un clevated plain broken with hanmocas of ice. Here will be shown accept in the life of the Eskino, and a fight with wild dogs is to be a daily performance.

night with wild dogs is to be a daily performance.

Trained seals will be engaged to show the hunting habits of the natives, and the barking of these will give an added touch of reality to this picture of the construction of the color scheme of this exhibit is worked out so us to render it one of absolute frieldly. The exhibit by day will be a desolate field of white, relieved only by the yellow coast of the native dogs and the black, ship fur of the seals. By night the enclosure will shine with prismatic splender, as the intention is to indicate the dash and glow of the Aurors on the tips of the feeberers. Under the overlanging crags at each side of the leke will be booths, where native wares will be sold by furcied Eskimo salesiadies, who will be trained for this purpose. In conclusion it is only necessary to say that the Eskimo exhibit will be one of the most interesting on the Pike, and its refreshing atmosphere will be greatly enjoyed by the many million visitors who pass its doors during the animer months.

RE STREETMEN'S ASSOCIATION.

RE STREETMEN'S ASSOCIATION.

Jonesboro, Ark., Feb. 25, 1904.

Editor "The Billboard."

loar Sir —

I saw in your valuable paper the discussion on the organizing of streetmen. The time has come when we must have protection. I mean by this, men who are carrying on a straight business—no fake. I am in the medicine husiness, selling medicines of my own manufacture. I that that the State of Tennessee is barred against all afrectmen, the license being \$200 a week. This is class legislation.

I. for one, will contribute \$10 to find out how we stand with the United States laws. I carry with me a copy of the Interstate Commerce Law. In some towns I am exempted from the town tax where they recognize the inited States Interstate Law. In some towns a license of \$25 to \$50 a day is demanded. That is class legislation and bars all streetimen out of the business. I belie in organization at once, and will do all I can to help the cause for the protection of all honorable streetimen. The day has come when the fraud can do no business on the public streets. The business must carry merit or it must get off the road. The public will patronize the honest streetunan—the man who can stay in a town and prove the merit of his goods. That's what I can do, and I know several other homest medicine men who can stay in a town months or a year with their remedies, which are for the public good. The fake husiness I have no use for. There is honesty among the medicine men as there is among other men. We only want the rights guaranteed by the Constitution of the United States to honeat men, enabling them to make an honest living. Organization will bring the results quick. The Interstate Commerce Law says any manufacturer that manufactures his own goods can hawk, peddle, sell, give away the same in any city of the United States of America. The manufacturer must have some protection and some way to creste a demand for the product he poils and proving the merit of the goods.

REGARDING STREETMEN'S ASSOCIATION.

Editor "The Billboard."

Editor "The Hillboard."

Dear Sir:—

I have read every letter that has been written in regard to a union of street men. Now I will give my views. I do not coincide with Mr. Cunningham'a views of letting in all the peddlers, showmen and others that want to join, in a streetmen's union no one should be sliowed to Join who does not make a living by working on the public streets, whether he makes a high pitch or is a low grinder, so long as he nases the public streets for the purpose of selling his wares and gives the public some value for their money.

Academy—The Thanhouser Co. appeared in a nameless comedy, 15, and \$25 was offered by Manager Thanhouser for the best name. The feature of the play is Mas Evelyn as a French music hall dancer. She plays the part in a "French!" way. The name has not been selected yet. Next: Mr. Fotter from fexas. Crystal—Some interesting turns were given at mathree, 15. The Steiner Bros. did a good turn on a horizontal bar; Fleid & Whielen gave a humorous sketch, and Kitty Stephens did some very good dancing. Frank Gorth sangillustrated songs very well.

Davidson—Mile. Napoleon, with Anna Held as the star, has four acts. The production lasted so long on the 1s that Joseph Hart and Carrie De Mar, who are playing at the Bijon, were able to see the last act of the production. Anna Held was good in the songs and dances in which site appeared. The comedy work is well taken care of by Joseph Herbert, Knox Wilson was good, but he has not as good a clame to show what he can do as in The Burgoinaster. The play is one mass of beautiful scenery and handsome costumes, which as a spectacle make the play a success. There are some very catchy times which make a lit. Hijou Joseph Murphy, in Kerry Gow, 2, was greeted by a crowded house. Mr. Murphy showed that he has lost none of his ability, and the audhence was well pleased. The company is a good one. Next: From Rags to Rusher.

pany is a good one. Next: From Rags to steries.

Alauniara—Happy Hooligan, 21 got in as much trouble as in the counte supplements of the Sunday papers. The large chorns is well trained and wears some handsome costumes. The scenery is very fine.

Star—Rice & Barton are causing all series of excitement to crowded houses. The two farces are better than those which are usually seen; the songs are well rendered and the scenery is good. The ollo is also well islamed. A. T. BARNDT.

LEXINGTON, KY.—Opera House (Charles Scott, Mgr.): The Chaperons, 17, were supported by an excellent company, Witmark's functul opera has lost noise of its attractiveness and atill continues to please; large house. Mr. John Drew, in The Second in Command, is, established the reputation of both in this city. The supporting company was well cast; excellent business. Mr. Richard Mansfield, in Old Rieddelberg, 20, was perfectly produced by an artistle actor and star company, good business. Klaw & Erlanger's Ben Hur for four performances, 22, staged in its entirety with an all star cast, capacity business.

LIONEL LEGARE'S New Mammoth Spiral Tower Exhibition

has not contracted with any Carnival Co. for the Season of 1904, but will play special engagements.

It it the Biggest, Most Versatile and Sensational Out-door Feature

Attraction in the world.

In the lost three years it has been the feature of a number of the most successful Carnivals in America, and during that time has played a number of return engagements.

For full particulars address LIONEL LEGARE Permanent American Address: Cor. Market and Park Aves., WEST BETHLEHEM, PA.

N. B.—The Billiboard' of Feb. 6 contained an article in the Street Fair Notes, stating that a certain Pacific Coast carnival aggregation included among its feature attractions Mons. Legare, Spiral Tower Act. Since that article appeared 1 have received a number of inquiries desiring to know if 1 had contracted with the carnival company, and have found it difficult to convince people 1 am negotiating with that I have not. Endeavoring to profit (without the goods) by assuming a name that another has established a reputation with, and to the detriment of the established reputation, is some degrees worse than robbery. There is an unlimited supply of names, which all the more makea it a low-down, monk trick, that a sandbagger without sand would not stoop to.

Mr. Sanford Dodge Supported by Miss Zella Leslie and a Talented Company.

Presenting "Hamlet", "Lady of Lyons", "Don Casar de Bazon" and 'Taming of the Shrew". Now en route for the west.
