KING EDWARD AN EXCELLENT PATIENT

HIS COURAGE CALLS FORTH ADMIRATION

Dressing of the Wound Gives Distress, but There is No Cause for Alarm.

(Associated Press.) London, June 30.—The bulletin on the King's condition issued at Buckingham Palace at 10 o'clock this morning says: "His Majesty has slept well. The dressing of the wound gives him some distress, but there are no bad symptoms of any kind."

The noticeable excitement during the past week outside Buckingham Palace at the hours the bulletins were posted was entirely absent this morning. The sanguine impression created by the doctors' reports on Saturday and Sunday was maintained by the salient phrase in this morning's bulletin, "No bad symptoms of any kind."

At noon the following official statement was given out from the palace: "There is no cause for alarm in the distress caused by the dressing of the wound. This occurs twice daily. The wound, which is of considerable depth, is dressed from the bottom, as it is essential that it should heal from within outward. The dressing causes His Majesty considerable pain, which he has borne with great fortitude. In fact his Majesty's courage and patience call for the greatest admiration. The King was much benefited by the change to the couch yesterday, on which he stayed for a few hours. The electric fans have proved of great value in keeping down the temperature of the apartment. The Queen is in constant attendance in the sick room, but the utmost quiet is enforced. The King occasionally sees his children, but the interviews are of short duration. No matters of state or business are allowed to be submitted to the King, who is also debarred from reading his correspondence. Neither Doctors Laking, Barlow nor Treves have left the palace since the operation, except for an occasional hour."

This statement was issued with the view of correcting the numerous unfounded stories published with circumstantial detail regarding what is alleged to transpire in the sick room. The cheerfulness of the public is apparently shared in full by the members of the Royal family. The Prince of Wales went out riding this morning, and the afternoon the Princess witnessed from the palace windows with evident interest a march past of the Guards. The stock exchange reopened to-day with a very strong tone on the satisfactory news regarding the King's condition. Consols rose seven-sixteenths.

Again on Couch. London, June 30.—3:22 p. m.—No further bulletins will be issued until 7 p. m. In the meanwhile it has been ascertained that the King maintains his progress and is again occupying his invalid couch.

(Associated Press.) London, June 30.—The following bulletin was issued from Buckingham Palace at 7 p. m.: "The King has had a fairly comfortable day and the discomfort in the wound has been less."

(Signed, Treves, Laking and Barlow.) Wednesday's Review. London, June 30.—With a view of compensating the sightseers so far as possible for the disappointment of last week, Wednesday's review of Colonial and Indian troops will be accompanied by a certain amount of pageantry. The Queen's anxiety has been so much alleviated that she definitely decided today to occupy the first carriage in the Royal procession, in which other members of the Royal family will participate, as well as the foreign princes who are still in London. The troops which are to be reviewed tomorrow have been invited to remain in England for the present. This is taken as an indication that the officials are contemplating the possibility of the coronation of King Edward taking place earlier than anticipated.

(Associated Press.) Washington, June 30.—Among the bills passed in the senate to-day was one to prohibit the killing or taking of seals or porpoises, whales or animals or fish of any kind in the waters of the United States by means of explosive materials.

—People living at a distance and who do most of the shipping by mail should not fail to write to Weiler Bros. for their large catalogue of complete home furnishings. It will almost bring our store to your home, and costs you only a post card.

NELLIE THURSTON BACK

Reached Nanaimo From the Halibut Fishing Grounds Last Evening.

(Associated Press.) Nanaimo, June 30.—The long expected Nellie G. Thurston, the fishing schooner sent out by the Pacific Fish & Cold Storage Co. of this city, made her appearance yesterday. She anchored outside the harbor about noon, and the officers, after conferring with the members of the company in the city, left with the schooner for Vancouver last evening. The halibut will be unloaded into cars at Vancouver, after which it is expected the Thurston will make another trip north for halibut.

It is estimated that there are about 75 tons on board her, all well cured. Capt. Bradford says the fish is in first condition, and the vessel is unharmed in spite of their long voyage. Over one half of the cargo was taken in the nine days spent off Cape Scott. There the steamer encountered the best of fish. At Queen Charlotte islands a lot of time was wasted, owing to their encountering fish altogether too small for the salt trade. There were plenty of fish, but too small.

For five weeks the schooner was in Skidegate Inlet, going on the sand three times, and having to have the salt taken off each time to enable them to get her off. She was in the Inlet making her way to the West Coast of the Queen Charlotte islands, where it was anticipated the fishing might be better. After beating around a wide range no better fish were found until Cape Scott was reached.

The vessel will fish off Cape Scott when she goes north again. The crew, independent of Capt. Johnston, the manager of the company, numbers fifteen men. All are well. She was four months away, having left February 27th.

THE OREGON BEACHED AT DUTCH HARBOR

Steamer Was Leaking Badly on Voyage North and the Pumps Were Kept Going Constantly.

(Associated Press.) San Francisco, June 30.—A special to the Examiner from Seattle, Wn., says: "The steamer Oregon is ashore at Dutch harbor with eight feet of water in her hold. On the voyage north the Oregon began leaking badly before she had passed Vancouver island and it was necessary to stop at St. Michaels. She refused to keep her hold. She reached Nome with two feet of water in her hold. Her machinery is very badly out of repair."

"As soon as the passengers and cargo were landed, Captain Seely decided that he would make St. Michaels, where the vessel could be safely beached and repaired. After leaving Nome the rubber post gave out and the steamer refused to answer her helm. Fortunately the weather was good and Captain Seely was able to make temporary repairs. As the leak had not increased and did not appear dangerous he decided he could reach Seattle in safety and so did not stop at St. Michaels. Pumping continuously he found it impossible to keep the water down, and as it was gaining at a dangerous rate he was compelled to put into Dutch harbor and beach her."

"The Oregon had some south-bound passengers on board, but the number is not known. It is believed the vessel can be saved."

IN STORM OF ASHES.

Steamer's Experience While on the Voyage From New York to San Francisco.

(Associated Press.) San Francisco, June 30.—The American-Hawaiian Steamship Company's new steamer Nevada arrived yesterday, 96 days from New York. Two days out from St. Lucia, on May 3rd, the captain of the Nevada reports the vessel ran into a storm of ashes. He says that at 3:30 a. m. the ashes grew so thick that the vessel was unable to see. At 4:30 a. m. it was impossible to see to windward. At 9 a. m. the water became very thick and discolored, and remained so during the forenoon. The only forerunner of this ash avalanche was a few thunder claps and flashes of lightning. The crew stated that on May 3rd, toward midnight, they heard two reports that sounded like the firing of heavy guns. The deck was strewn with ashes.

ADMITTED HIS GUILT.

Patrick McHugh, Charged With Contempt of Court, Before Select Committee. (Associated Press.) London, June 30.—The select committee of the House of Commons, under the presidency of A. J. Balfour, government leader, to-day examined Patrick A. McHugh, the Nationalist member of parliament for the north division of Leitrim, who was committed to jail for three months on June 18th for contempt of court in failing to appear in answer to a summons to a bench warrant issued by the special court assembled under the Crimes Act, and who was brought here in custody Saturday at the request of the parliamentary committee, which was appointed to inquire into the case. Mr. McHugh admitted that he was guilty of contempt of court. After a private consultation the committee adjourned for the night. In the meantime Mr. McHugh was released from custody.

MANITOBA FARMERS ARE SATISFIED

EVERYTHING IS NOW LOOKING PROMISING

They Expect a Heavy Crop This Year—A Miner Dashed to Pieces in Pit.

(Associated Press.) Winnipeg, Man., June 30.—Alderman Harvey, who returned yesterday with the bankers' picnic through Manitoba, in an interview, said: "The country is in the best possible shape and looks like a garden. It is now seven years since I was through the province, and it looks like a new country altogether. Along the line the farms look excellent, and everything looks most prosperous and promising. I had no idea that the crops were in such good shape, and rather anticipated a half effect caused by the wet weather. The wheat is healthy and strong, and has flourished with the rain, but has been kept from growing to straw or growing weak by the cool weather. On all sides the farmers are satisfied, and look forward to a heavy yield this season."

Fell Down Shaft.

Halifax, N. S., June 30.—Richard Parris while working at No. 2 pit, Glace Bay, C. B., fell headlong from the man-cage on Saturday night into the mouth of the pit, a distance of nearly a thousand feet, and was dashed to pieces.

Capt. Murchison Dead.

Guelph, Ont., June 30.—Capt. Murchison, for over twenty years connected with the Eleventh Field Battery, is dead. Horseman Injured.

Regina, N. W. T., June 29.—William Craik, a well-known horseman, was probably fatally injured by falling from his horse, which either stepped on or kicked his head.

Presented With Triplets.

Toronto, June 30.—The wife of S. H. More has presented her husband with triplets, two girls and boy. All are doing well. Their combined weight is 10 1/2 pounds.

Manufacturers' Campaign.

The Canadian Manufacturers' Association has inaugurated a campaign to urge Canadians to give preference to articles of Canadian manufacture. A fund is to be established to carry on the campaign for three consecutive years.

To-Morrow's Lacrosse.

Montreal, June 30.—The second match between New Westminsters and Shamrocks for the Minto cup takes place to-morrow afternoon. It is thought that after Saturday's game that the Shamrocks will win again by a much closer score. One or two changes will probably be made on the visitors' team, but the Shamrocks will play the same twelve as Saturday.

COLONIAL PREMIERS MET THIS MORNING

Mr. Chamberlain Gave His Views on Commerce and Political Relations and Imperial Defence.

(Associated Press.) London, June 30.—The colonial conference opened this morning in the secretary's room of the colonial office. The premiers of the self-governing colonies were present, and the colonial secretary, Joseph Chamberlain, presided at the sitting, which was of a purely preliminary character.

The proceedings were private. After a two hours' session the conference adjourned to July 4th.

The sitting was mostly occupied with Mr. Chamberlain's statement enunciating his views on commerce and political relations and Imperial defence. No definite programme has yet been arranged.

PRIZE DECIDED ON BY VANCOUVER FISHERMEN'S UNION—SOUTH AFRICAN VETERAN KILLED.

(Special to the Times.) Vancouver, June 30.—Robert McCallmont, a member of the first contingent to Africa, was killed yesterday morning at Ruby Creek. He was opening switches for a freight train and having opened one, jumped on the coal catcher of the engine to ride to the second. He lost his balance, fell under the wheels and was cut to pieces, dying instantly. He had been married but ten days, his widow being formerly Miss Minnie Curran, well-known in Victoria.

MARRIED IN LONDON.

Member of Parliament Wedded to Miss Jeanne Langtry, Daughter of Mrs. Langtry.

(Associated Press.) London, June 30.—Ian Z. Malcolm, member of parliament, and formerly assistant private secretary to Lord Salisbury, was married this afternoon to Miss Jeanne Langtry, daughter of Mrs. Langtry, the actress, at St. Margaret's church, Westminster.

AMUR FROM SKAGWAY.

An American Steamer Strikes at White Horse But Was Not Held.

Prompt on scheduled time, the steamer AMUR arrived from Skagway this afternoon, having reached Vancouver about 5 o'clock this morning. On the return trip Captain McLeod kept a close lookout for a steamer which he heard was ashore at Seymour Narrows. The news of the accident was brought north by the steamer Alki, but particulars of the incident could not be learned. Nothing definite, however, could be seen by the officers of the Amur.

On arrival at Vancouver this morning the Amur had about forty passengers, nearly all of whom were from Dawson. Among those who came on to this city were D. Simpson, manager of the Bank of Commerce in Atlin, which institution, it is said, has been closed down; Mrs. C. Bloomquist and Miss Edith Davis.

The steamer on her northern trip had five Chinese passengers, whose destination was White Horse. The Celestials were landed, but whether they will ever reach White Horse was considered doubtful. A mass meeting of the miners was to be held at White Horse on the 28th to consider the matter of allowing them into the district.

TO ORGANIZE BRANCH HERE THIS EVENING

Provincial Progressive Party Will Soon Be in Existence in Victoria—President Foley in City.

Chris Foley, of Rossland, president of the Provincial Progressive party, is in the city. Mr. Foley arrived last night and comes to organize a branch here, the process of which will be inaugurated at a public meeting to be held in Labor hall to-night.

Mr. Foley's last visit to this city was in connection with the labors of a very important body—the Royal commission appointed by the Dominion government to investigate the subject of Oriental immigration. As will be remembered, a protracted session of the commission was held in Victoria, nearly a month being consumed in the hearing of evidence.

Seen at the Dominion this afternoon, the president of the new party observed that they intended playing a very important part in the next elections. "The object of the organization," he said, "is to concentrate the different elements so as to generate a political force in the direction of reform. It is not confined to labor but open to all in sympathy with this object, whether millionaires or pauper. There is nothing in the platform which is not adopted in some country at the present time, while all the planks have been generally discussed in this province."

The organization of the party, or rather its extension throughout the province, Mr. Foley said, was now in progress. Branches had been instituted in Skeena, Silver City, New Denver, Sandon, Rossland and several points west of Rossland. It was the intention, shortly, to commission organizers who would work up the field thoroughly.

The party wanted a representative of the people in the House—mattered not whether he be a laboring man or not provided he is in sympathy with the movement and a man worthy of their support.

Mr. Foley said the organization had a firm hold in the Kootenays, and he believed that in the course of time its influence would be strong on the coast. In Vancouver a branch was recently organized, and so far it had progressed satisfactorily. In Skeena City, where a strong socialist element existed, the platform was endorsed. The whole he had encountered very little opposition throughout the province, and did not believe that there was very much.

To-night's meeting will be an important one, and likely largely attended. Mr. Foley will speak on the aims and objects of the new party, and the machinery of organization will be set in motion. The meeting is open to all classes, and is expected to be a representative one. The proceedings will be commenced at 8 o'clock.

BEN PARKER'S OPINION.

Says Masts Should Be Taken Out of Yacht Meteor and a Motor Installed.

(Associated Press.) Kiel, Germany, June 30.—The race between Emperor William's yacht Meteor, and the British yacht Clely and the Iduna, the Emperor's yacht and other boats, started yesterday afternoon with a good breeze.

The Clely rounded the first mark of the triangle 5 minutes in the lead, but before the second mark was reached the wind died down to a calm.

At 1:30 this morning Emperor William steered the Meteor across the finish line two hours behind the Iduna, in the lightest of airs, between flat calms. The sailing committee got in at four and its members went to their home without announcing the results.

Ben Parker, skipper of the Meteor, says: "They ought to pull the masts out of the Meteor and put in a motor."

RAILWAY CASES BEFORE MINISTER

THREE ACTIONS TO RECOVER PENALTIES

Application to Hon. A. J. Blair for a Remission Under Bill Passed Last Session.

(Special to the Times.) Ottawa, June 28.—Hon. A. J. Blair heard to-day three cases from British Columbia against railway companies under section 250 of the Railway Act for failure in making certain statistical returns. They were brought by Charles W. Neil, hotel porter, Victoria. Neil brought a claim against the Nelson Electric Co. for half a million dollars.

Last session a bill was put through parliament to remit penalties of this kind.

The application to Mr. Blair to-day was made for remission. The minister recommended that all the penalties in this case be remitted, except \$100, and the tax of costs of the plaintiff Neil.

In the case of the Lenora Tramway Company, the penalties asked were \$80,000. Mr. Blair gave \$50 and costs, if any, taxable. In the case of the British Columbia Electric Railway Co., between Vancouver and New Westminster, about \$2,000,000, seems asked. Mr. Blair reserved his decision in this case. He may give about \$500.

Mr. Chrysler appeared for Neil and Travers Lewis for the first two companies and Mr. Gemmill for the last.

Dominion Revenue. Ottawa, June 30.—The revenue of the Dominion for the year ending to-day is \$32,052,720, compared with \$30,129,818 for last year, an increase for the present year of nearly three million dollars. There is half a million yet outstanding.

Refund Abolished. Under an order-in-council in September last provision was made that when a miner, in person, produced to the manager of the provincial government assay office at Victoria a certificate from the gold commissioner at Dawson, that royalty had been paid on the gold which accompanied such a certificate, a refund would be made to him of one per cent. of the value of the gold when assayed. In view of the fact that the royalty on gold mined in the Yukon Territory has been reduced from five per cent. to two and one-half per cent., the refund of one per cent. has, by order-in-council dated 26th June last, been abolished. This also applies to the Vancouver office.

DEATHS AND FUNERALS.

Remains of the Late J. B. Beaven Laid at Rest on Saturday.

The remains of the late James Beverley Beaven were laid at rest on Saturday afternoon. The funeral, which took place from the residence of Sir Henry P. P. Graham, Cadboro Bay road, at 2:30 o'clock, was largely attended by sympathetic friends. The floral offerings, numerous beautiful wreaths, designs and flowers, completely covering the casket and filling up all available space on the hearse. The cortege proceeded from the residence to Christ Church cathedral, where Bishop Perrin, assisted by Rev. Canon Beauland, conducted solemn and impressive services. The pallbearers were Messrs. E. A. Crease, A. C. Crease, E. E. Wootton, M. Williams, F. B. Pemberton and W. E. Fisher.

The funeral of the late Mrs. C. McKay took place from the family residence, Vancouver street, on Saturday afternoon. Services appropriate to the occasion were conducted by Rev. J. F. Vickers at the house and grave. The pallbearers followed: Messrs. F. McAlpine, J. D. Gillies, J. C. McNeil and J. Bannan.

The death occurred on Thursday at the Jubilee hospital of Richard Connors. Deceased was a native of England and 52 years of age. The remains were laid at rest this afternoon, the funeral taking place from the B. C. Funeral & Furnishing Company at 3:30 p. m. Religious services were conducted by the Rev. Canon Paddon.

The death took place yesterday at the family residence, Pine street, Victoria West, of Muriel Gwendoline, the infant daughter of Jas. E. and Alice S. Painter. The funeral will take place this afternoon, and the Rev. J. F. Vickers will conduct services at the house and grave.

STREET FIGHTING.

Killek Landed Marines at Cape Haytien to Support M. Firman, Candidate For Presidency.

(Associated Press.) Cape Haytien, Hayti, June 30.—There was considerable street fighting here yesterday between the partisans of M. Firman, the former minister of Hayti at Paris, and General Alexis Nord, the minister of war of the provisional government. Both are candidates for the presidency.

Admiral Killek supported Firman by landing marines and firing on General Nord's forces, and with small rapid firing guns of the fleet bombarded the city. The admiral threatens to bombard in earnest to-day.

M. Firman and the foreign consuls have sought refuge on the Haytien warship Crete a Tierrot. Peace seems to be re-established here to-day.

DIRIGO ARRIVES HERE FOR REPAIRS

CANVAS PLACED OVER STEAMER'S INJURIES

Vessel Came in Unassisted and Will Be Docked To-Day—The Missing Portland and Jeanie.

The Alaska Steamship Company's steamer Dirigo, which struck a rock opposite Protection Island while on her way north from Nanaimo last Friday, came in this morning under her own steam.

According to Diver McHardie, who went down to examine the bottom before the vessel came south, the damage is confined principally to the forefoot and part of the keel, there being, it is said, twelve feet of the former carried away.

The Esquimalt Marine Railway Company have the contract for making the repairs, while the necessary operations were carried out by the B. C. Salvage Company, which, as stated, sent a diver and wrecking gear up to the assistance of the steamer on Saturday morning.

W. H. Bullen, representing the company, President Peabody, of the Alaska Steamship Company, and Chief Engineer Lewis, of the same corporation, accompanied the expedition, and the trouble experienced was in getting the ship far enough up on the beach to enable the temporary repairs to be made.

The steamer was discharged into the steamer Arab, and plans for the bringing of the steamer to Esquimalt were at once made.

It is now safe to port, seventy or eighty miles from the scene of the accident, speaks much for the prompt and efficient manner in which these arrangements were carried out.

The steamer is leaking slightly, but as she carries no passengers, it is believed that she will be able to reach Esquimalt without difficulty.

There is still five or six hundred tons of coal in the hold and this will be mostly unloaded before the ship is hauled out on the blocks.

The Esquimalt Marine Railway Company have the contract for making the repairs, while the necessary operations were carried out by the B. C. Salvage Company, which, as stated, sent a diver and wrecking gear up to the assistance of the steamer on Saturday morning.

Going on a Vacation?

Then don't forget to take the handy remedies with you in case of sickness. You will find it not easy to procure what you want at a strange drug store, and we have everything in pure, fresh drugs for your medicine chest—liniments, washes, toothache drops, toilet articles, sunburn and freckle lotions, lemonade powder, etc.

Time of game, 1:15. Umpire, Geo. Smith. Score by Innings.

Table showing scores by innings for Almond and Victoria teams.

WON BY EVERETT

The baseball game at Vancouver on Saturday, between Almond's slo-gers from Everett and Vancouver's nine, was slower than Friday's game, and resulted in another win for the Everett boys by the score of 9 runs to 7.

The standing of the intermediate baseball league, allowing two points for every game won, is as follows:

Table showing standings in the intermediate baseball league.

LACROSSE

The first of the series of games for the Minto cup, between the Shamrock and New Westminster, at Montreal, was won by the former, 6 goals to 1.

The second game was taken in 15 seconds by the Shamrock, Westminster being weakened while Turnbull was on the force.

In the subsequent games the Shamrock had somewhat the best of it, and outplayed Westminster's home, but the muscular defense of the Royal City boys stayed off the inevitable for the full half hour.

The third game, however, also fell to the home team's prowess. This game was even longer and more hardy contested than the first, and it was anybody's game until the ball was put through. Time, 37 1/2 minutes.

Then the Westminsters started a surprise party. Turnbull got the ball from the face-off, and it was all over in 10 seconds. But that was all the British Columbia boys got.

The Shamrocks scored all the rest, and the match ended six to one in favor of the holders of the cup.

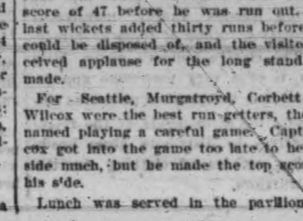

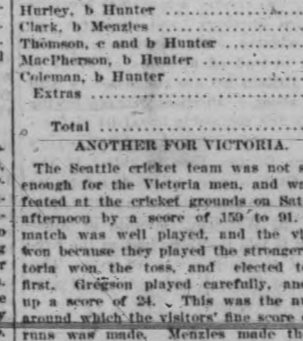

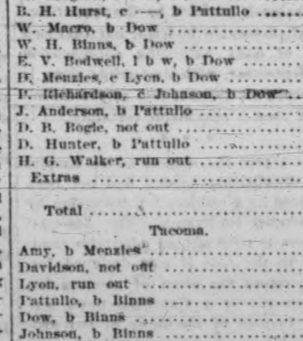

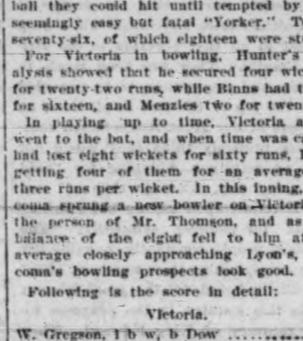

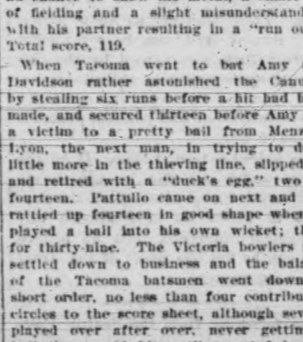

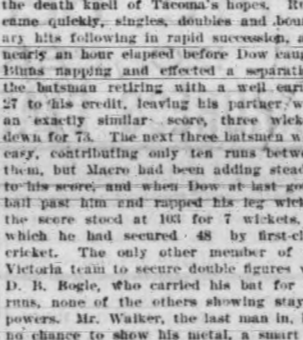

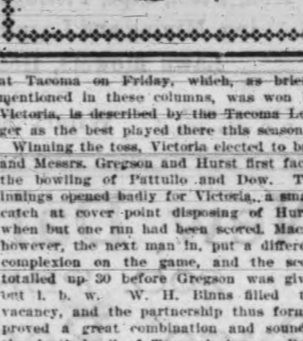

Summary: First game—Shamrocks, 30 minutes. Second game—Shamrocks, 15 seconds. Half time—Shamrocks, 2; Westminster, 0.

Third game—Shamrocks, 37 1/2 minutes. Fourth game—New Westminster, 10 seconds.

Fifth game—Shamrocks, 1 minute. Sixth game—Shamrocks, 2 minutes. Seventh game—Shamrocks, 3 1/2 minutes. Game over—Score 6 to 1 in favor of Shamrocks.

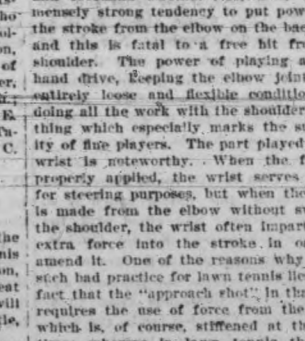

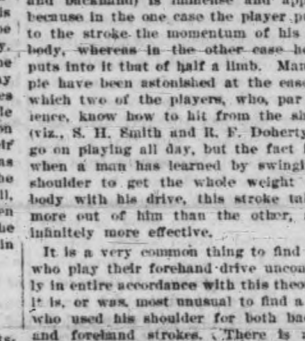

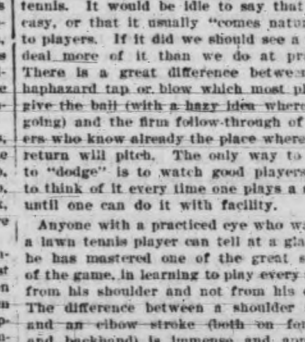

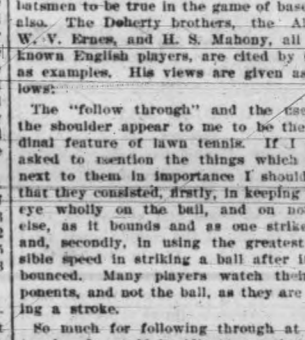

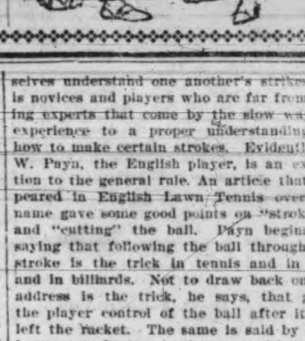

JUNIOR GAME: The junior lacrosse match played on Saturday afternoon at the Caledonia grounds between the Central and South Park, resulted in a score of eight to two in favor of the former team after a fast and exciting game.

The match between the Metropolitan and Victoria second eleven teams, played at Beacon Hill on Saturday afternoon last, was won by the latter aggregation by a score of 90 runs in the first innings. The Metropolitan team went first to the bat, H. Wilson and J. Griffiths scoring 30 and 15 respectively.

YACHTING

ONE DESIGN RACE

On Saturday afternoon, commencing at 3 o'clock from Pearlina Rock, the first of a series of races for the one design yachts of the Victoria club was held.

The weather was favorable, especially at the start when there was a good breeze, which, however, considerably lessened towards the close of the race.

The Barmicks cup and two silk flags were the prizes contested for by the three yachts which started, and the race was a close and exciting one.

The Marietta, owned by F. R. Barnard, and sailed by Capt. Bowdler, R. E. finished first, crossing away from the others shortly after drawing the line, and keeping the lead until the finish.

The following is the elapsed time: Marietta 1 32 37, Onaida 1 35 03, Redskin 1 35 42, Aloha 1 39 35, Thibault 1 39 43.

THE REGATTA AT KIEL

Kiel, Germany, June 28.—Emperor Wilhelm has made the Kiel regatta the most brilliant yachting event in Europe this year. One hundred craft were brought together, a quarter of them being French, British, Swedish, Danish and United States vessels.

About 20 beautiful gold and silver cups have been offered as prizes. Nine of these are gifts of His Majesty, the Emperor, and Prince Henry of Prussia.

The Uncle Sam, owned by E. B. Riggs, of New York, won his second race at the regatta here, and the Kaiser's gold cup, beating the Mimosa, of the Hamburg club, by 11 seconds, and the Hansa, of Lubeck, by 3 minutes and 35 seconds. There were 11 starters.

After the finish of today's race the owners of the Mimosa entered a protest against the prize being awarded to Uncle Sam on the ground that that yacht started from the wrong side of the buoy.

Mr. Hopkins Smith, Jr., commodore of the Harvard Yacht Club, and C. Barclay Rice, third secretary of the United States embassy at Berlin, who sailed the Uncle Sam, are positive they crossed the line on the proper side of the buoy, and their statements were accepted.

It is a very common thing to find people who play their forehand drive unconsciously in entire accordance with this theory, but it is, or was, most unusual to find a player who used his shoulder for both backhand and forehand strokes.

Anyone with a practiced eye who watches a lawn tennis player can tell at a glance if he has mastered one of the great secrets of the game, in learning to play every stroke from his shoulder and not from his elbow.

THE GUN

OFFICERS ELECTED

The election of officers of the Sportsmen's Association of the Northwest, which recently met at Portland, resulted as follows: President, M. M. Gordon, Dayton, Wash.; vice-president, J. E. Enyart, Medford, Ore.; secretary and treasurer, Judge C. P. Miller, of Dayton, Wash.; directors, T. E. Ware, of Spokane; E. E. Ellis, of Seattle; W. F. Shepard, of Tacoma; C. H. Smith, of Butte; and J. C. Macrae, of Victoria.

LAWN TENNIS

London, June 28.—The final tie in the contest for the all-England lawn tennis championship was played at Wimbledon, near London, to-day. H. I. Doherty beat J. G. Biddle by 3 to all. Doherty will meet A. W. Gore, the holder of the title, on June 30th.

THE OAR

London, June 28.—The entries for the Henley regatta were announced this evening. Outside of the usual British competitors, the crews and scullers entered are: For the grand challenge cup—The Argentine, of Tyne; and the Club Nautique, of Ghent, Belgium.

For the diamond sculls—C. S. Titts, of the Union Boat Club, New York; L. F. Scholes, of Toronto, and L. N. F. Traver, of Nice.

The silver goblets—Oscar Desauville, and Marcel van Grotbrugge, of the Club Nautique, of Ghent.

Titts, who is training hard at Putney, is expected to take up his quarters at the Horsehoe hotel, Henley, on June 28th. Scholes continues to work at Bourne-end at present.

The arguments are considered to be a powerful and fast crew, and likely to make a strong bid for the grand challenge cup.

LAWN TENNIS

EXPERTS' STROKES: Lawn tennis experts are usually most uncommunicative on the points that help them to win games. The experts themselves understand one another's strokes. It is novices and players who are far from being experts that come by the slow way of experience to a proper understanding of how to make certain strokes.

Lowly, the English player, is an exception to the general rule. An article that appeared in English Lawn Tennis over his name gave some good points on "stoking" and "cutting" the ball. Pryn begins by saying that following the ball through the stroke is the trick in tennis and in golf and in billiards. Not to draw back on the address is the trick, he says, that gives the player control of the ball after it has left the racket.

The "follow through" and the use of the shoulder appear to me to be the cardinal feature of lawn tennis. If I were asked to mention the things which rank next to them in importance I should say that they consisted, firstly, in keeping one's eye wholly on the ball, and on watching close, as it bounds and is one strike after another, and, secondly, in using the greatest possible speed in striking a ball after it has bounced. Many players watch their opponents, and not the ball, as they are making a stroke.

So much for following through at lawn tennis. It would be able to say that it is easy, or that it usually "comes naturally" to players. If it did we should see a great deal more of it than we do at present. There is a great difference between the haphazard tap or blow which most players play the ball with a bare fist, where it is strong, and the firm follow-through of the players who know already the place where their return will pitch. The only way to learn to "dodge" is to watch good players, and to think of it every time one plays a stroke until one can do it with facility.

DOMINION DAY.

Tomorrow Canadians will celebrate the thirty-fifth anniversary of Confederation, an event which is beginning to be recognized at home and abroad as the birthday of one of the coming great nations of the globe. We in British Columbia have not hitherto entered into the spirit of the occasion with all the enthusiasm which might be expected considering the importance of the position our province holds as one of the largest factors in the partnership and the peace which depends on the ocean which will long be the scene of great commercial activity. It is felt by some—somehow unreasonably, we think, considering the tale told by the last census—that our progress has not been in keeping with the known richness of our resources. An attempt has also been made to create dissatisfaction among our people because of alleged unfair treatment by federal government. Our population, too, has a strong blend of a class who while of a type which will produce a fine stock of sturdy Canadians in the future, has not yet been able to fully comprehend the prospective glory and grandeur of the nation whose foundations have merely been laid, nor to cordially sympathize with the aspirations of Canadians. Not a government has held power since Confederation but has sincerely felt, and acted in accordance with that feeling, that the work of development from the Atlantic to the Pacific must be carried on systematically in order to achieve what has been in the mind of every statesman and broad-minded citizen Canada has produced—a symmetrical advance all along the line. If there have been checks upon the industrial life of British Columbia, they have been such as appear to be inseparable from the life of communities whose attention is so largely devoted to mining. Nor do we stand alone provincially in view of the temporary checks which have been put upon the advancement we feel should have been unimpeded if we had been treated to our deserts. There was a long, long pause before our eastern neighbor, Nova Scotia, found herself and entered upon the career which is so promising to-day. She stood still for about twenty years. So did Quebec, the staid and conservative partner of our national life. Ontario, the populous and virile, with her thousands upon thousands of acres of garden lands, the richest in the world, was for a long time content to regard herself as the prospective producer of nothing but food for her own people. With great iron works and shipyards, wonderful deposits of nickel and vast forests of pulp-wood, the point of view has entirely changed. It took the settlers of Manitoba and the prairies a few years to "size up" the climate of the country they had gone in to possess. Perhaps their wheat had to become acclimatized as well as the living things they brought in with them. Man and nature here now working in harmony in these northern regions, with a result which is accounted one of the marvels of this marvellous generation. There is practically no limit to the possibilities of that great fertile belt, as there is now no land under the sun whose a bountiful harvest is more certain to follow a propitious seed time.

The Fathers of Confederation were men of great faith; but we venture to say few of them expected the West would become the land of promise for the Dominion. Political prophets of clear

vision now realize that the time is not far distant when Winnipeg will be the chief city of Canada, when the balance of political power will be transferred west of the Great Lakes. Nor will any man who has been watching the movements of immigrants and the progress of the financial houses be too ready to offer a contradiction. The awakening of the west, together with improved transportation facilities, has been responsible for the tremendous activity which is apparent in all lines of business in Canada to-day. For reasons to which we have alluded we are not sharing in this activity to the extent which we should in British Columbia. But we cannot long be held back. Notwithstanding the alleged depression in the mining industry, it is noticeable that the progress of the Boundary district, and the

each province, and in a very short space of time, a "blow in" on Vancouver Island, and we shall begin to advertise to the world in a practical manner the richness of the possessions of this district. Our farmers too are adopting modern methods of carrying on their business. They are said to obtain the best prices in the world for much that they produce, and there is a promise of an unlimited demand for all time to come.

The little discontent there is in British Columbia with our position in the federation of provinces, we are convinced, will soon pass away. In ten years we shall be the most enthusiastic member of the Confederation. We shall then begin to understand that we are one of the most important links in the great chain of the Empire as well as no mean portion of a nation which is destined to be a much closer second than it has hitherto been to the United States on this American continent of destiny.

NATIONAL PURPOSES.

It there be any weak spots in British methods of doing business as a nation there is a testing time at hand which will surely find them out. If it be possible for a great trading and manufacturing community to stick to its principles and to proceed on its course utterly regardless of the strokes that are leveled at it from every quarter, we shall soon know it. If Britain triumphs over the enemies who would pull her down her victory will be greater and more notable than any she has ever achieved in the domain of arms, whether on sea or on land. And her sailors and soldiers have created records in their callings which will stand for a long time. What do we behold to-day in South Africa? The nations which were loudest in their revilings and cursings and most open in their expressions of hope that the Boers would triumph, either through their own efforts or with the assistance of a greater power, are the first in the field to take advantage of commercial opportunities which would never have come to them but for the throwing open of the territory through the triumph of British arms. Commercial agents from the United States, Germany, France, Austria and Italy were on their way to South Africa before the terms of peace had been arranged, and although Great Britain is almost completely excluded from the markets of any of those, their commercial and manufacturing concerns are already competing with her for business in the territory she has acquired. If any one of those rival nations had been the conqueror, the raising of the flag would have been taken as an intimation that the door was closed and another great national preserve had been created. On a superficial glance one would be inclined to say that is not a common sense way of doing business. Yet Britain flourishes. All under the flag have the advantage of the cheap goods which competition affords. The people of Great Britain are at least as prosperous and probably better fed than those of any other European country. It is clear, therefore, that the system which is so doggedly adhered to in spite of temptations to swerve to one hand or the other is not to be condemned on a superficial examination as jug-handled. If there are eternal principles they cannot be submerged by the deviations of nations.

There is another point at which Great Britain has long been acknowledged to be supreme and upon which she is being most viciously attacked just now. Her ships have plowed every sea. She has been a "common carrier" for every nation. They have all envied her and all have considered ways and means of overtaking her. They have not succeeded because she possessed the material for the construction of ships as well as the men who knew how to utilize the material to the best advantage. Her manufacturers learned the secret of economical steel production and of economical generation and application of steam. Their enterprise placed them in the lead and has kept them there. But her rivals have not given up. They have applied their protectionist principles as far as possible to navigation also. British vessels are excluded from participation in the transportation of goods from points under the flag of her rivals. Nor have these rivals been satisfied with that. They have granted immense bounties for the encouragement of shipbuilding. The North German Lloyd Company receives considerations from the government equal to more than 7 per cent. on its total capital. It can afford to run its ships at a loss and still beat out the British. That would seem to be a hardship on the ordinary German taxpayer, but the government is satisfied, and gives no sign of retiring from the fight.

WATCH REPAIRING

Are your watch and other time-keepers reliable? If not, have them attended to at once, or you may some day miss an important engagement. We undertake to repair any watch, from the cheap nickel one to the finest chronometers and repeaters; we use the best material, our charges are moderate, and we guarantee to give satisfaction. Estimates for repairs given free of charge.

Public Meeting
A meeting of all interested in the formation of a branch of the
Provincial Progressive Party
in this city, will be held in
Labor Hall To-Night
Mr. Chris. Foley

Of Rosland (President of the Party), and others will address the meeting. Everybody welcome. Chair taken at 8 o'clock.

The Coronation numbers of the Eastern papers are arriving. That of La Patrie, of Montreal, is one of the most elaborate we have yet seen. The number is very large, 56 pages in all, the supplement of 32 pages being upon extra fine paper, with as fine letterpress and as beautiful illustrations as could be produced. Messrs. Tarte, sons of the Minister of Public Works, are the owners of La Patrie. They evidently believe, like their distinguished parent, that nothing is too good for Canada. We should have the best newspapers as well as the fastest ships and the finest railways in the world.

The foreign trade of the Dominion in the first year of its life was a trifle more than \$130,000,000. In 1902 it will reach close to \$400,000,000. Within the last five or six years the rate of increase has grown very fast. For many years, when our progressive friends the Tories were in power, it was almost imperceptible.

There is ground for hope that when we celebrate Dominion Day in 1903 arrangements will be well under way for the admission of Newfoundland to the great provincial family. Neither Newfoundlanders nor Canadians will be content until the union is brought about.

To-morrow being the anniversary of the birth of the Dominion and a public holiday from the Atlantic to the Pacific, the Times will not be published.

LARGE ORE BODY
Has Been Struck on the Prince Group at Sidney Inlet.

Dr. Marshall, one of the proprietors of the Prince group of copper claims at Sidney Inlet, has just received a letter from the contractors at the mines stating that the new tunnel, now driven in for a distance of 45 feet, has been all the way in low grade ore.

Speaking of this new development, Dr. Marshall says that it is probable the tunnel has been drilled along a flat ore body. He is very pleased with the news, which demonstrates the immense possibilities of the district, and he remarked that if miners would only faithfully follow their ore there would be much more success than there has been in the past on the West Coast and elsewhere.

There is now some 300 feet of tunneling on the Prince property, and development work will be pushed on.

The weather has been excellent at Sidney Inlet recently, and has quite belied the popular idea that it is always raining up there.

YOUR BOYS AND GIRLS

Have left school, what are you going to do with them? This question confronts all parents. They have to enter the life of life and earn their own living. We can train them in a short time at a small cost and place them into an office so they can support themselves. A thorough business education is now days an absolute necessity for a young man or young woman; no matter what vocation is they select. It is not the "best mechanic" that becomes a business man; it is the business man who employs a good mechanic. You know hundreds of cases where men, very able at good mechanic. Our school room is a business office where the work is not memorized, but done, hence the success of our graduates. With us there is no such word as "fail." It is common sense that wins the race of life, and we employ common sense methods.

WEATHER BULLETIN
Daily Report Furnished by the Victoria Meteorological Department.
Victoria, June 30, 5 a. m.—The barometer is high over Vancouver Island and low in the valley of the Thompson river and in Alberta. Scattered showers have fallen in British Columbia, Washington and Oregon, but generally fair weather prevails in all sections west of the Rockies. In the Northwest peninsula rain is falling at Calgary and Winnipeg, the weather is mostly fair and cool. A thunderstorm occurred at Havre, Montana.

Shortly after 1 o'clock this morning a West Coast klootchman named Matilda was thrown out the window of a second story room at the Occidental hotel by her husband, Johnny, and striking on the pavement below was seriously injured. Two military policemen from Work Point were going down Johnson street about the time and saw the woman lying on the Johnson street pavement. They picked her up and carried her around the corner to Wharf street, when suddenly an Indian came out of the hotel and dashed along towards Yates. The soldiers at once darted off in pursuit, leaving the klootchman on the sidewalk.

St. Walker appeared on the scene at this juncture, and had the woman taken inside the hotel, while he joined in the pursuit of the fugitive. The latter was speedily overtaken by the military policemen, who secured and handed him over to the sergeant. He was taken to the police station and was under the influence of liquor a charge of drunkenness was preferred against him, pending an investigation of the trouble. As the condition of the klootchman appeared to be serious, Dr. Fraser was summoned. He found her suffering from a fractured wrist, and some injuries to her back. She was taken to St. Joseph's hospital this morning.

The charge of drunkenness preferred against the Indian was withdrawn, and he will have to answer to one a great deal more serious. The case was not called in the police court this morning, and the hearing will not likely take place until the woman is able to appear in court. The Indian office has the matter in hand.

DEVELOPMENTS ON YREKA PROPERTY

THE PLANS ARE OUT FOR AERIAL TRAMWAY

Recent Iron Discovery Staked Off—Tale of Superstition Among Indians of West Coast.

Owing to the difficulty experienced in transporting the ore over an almost impassable road from the mine to salt water the Yreka Mining Company have not made the large shipments...

There are no less than six new parties of prospectors in the field, and others are expected shortly. So pressing has business become that a mining recorder's services will shortly be required in the district.

An iron property, discovered last fall farther up the southeast arm to where the Yreka company's property is located end about five miles in from salt water, has lately been further exploited and twelve more claims have been staked.

Cruisers are also on the Sound from Tacoma, investigating the timber limits, with a view to the erection of pulp and paper mills. These limits are now owned by Victorians, and are located in the Tacoma firm with a view to purchase...

In consequence of the great mining activity going on about Quatsino a number of new houses are being built, and a permanent settlement is being founded.

THE GROWTH OF TOWNS ON EAST COAST

Mining Development Reflected in the Busy Hamlets of Vancouver Island

It is a fact, of which even residents of Victoria seem as yet to be unaware, that while the mining industry is in a more or less languishing condition throughout the Mainland, on the Island development is proceeding at a rate which...

While this development is particularly noticeable at Crofton, at Mount Sicker, and in their immediate neighborhood, there is scarcely a hamlet or town between this city and Nanaimo which is not showing signs of quickening life.

A run up the line on one of the morning trains of the company in question demonstrates what an important factor the trout streams and lakes of this island form in the assets of the city.

At the other end of the lake, the Shawaniga Lake hotel, recently completed, forms an important addition to the summer resorts of the Island.

The uncertainty regarding the coal market is having its influence on the city of Nanaimo, the disposition being to go slowly while the actual place of King Coal in the industrial development of the future is still in question.

Having been nurtured, so to speak, on competition, the enterprising residents of Nanaimo are delighted with the new daily service by water, which is being provided between that city and Victoria through the steamer Strathcona.

Steps are made on the way down at Chemainus, whose enormous mill gives employment to hundreds of men, and at Crofton where the smaller is being rapidly pushed to completion.

HOW VICTORIANS WILL CELEBRATE

SOME EVENTS WHICH TAKE PLACE TO-MORROW

Sunday School Picnics and Excursions Arranged for Dominion Day—Where to Spend the Holiday.

To-Morrow's Attractions, Methodist and Calvary Baptist picnics at Goldstream, Presbyterian Sunday school picnic at Goldstream.

The attendance at the different Sabbath schools was noticeably larger than usual yesterday afternoon when picnics were being held...

Every available suburban spot, it might almost be said, is engaged for to-morrow. The many smaller Sunday schools which do not go with the general convention...

Among the recent callers at the Victoria Tourist Association rooms were the following: A. H. Simpson, M. D. and wife, of Winnipeg; Mrs. and Miss Plahr, of San Francisco; A. F. Heasler and A. B. Blackburn and wife, of Vancouver; W. J. Jackson and wife, of Chilliwack; Mr. and Mrs. J. A. Wisner, M. A. of Toronto; M. McCrogs, of Semano; F. G. Norman, Jr., and George Wahlquist, of San Francisco.

Rev. Elliott S. Rowe left on the Charmer this morning for Chilliwack to attend the camp meeting being held there on Wednesday evening. Mr. Rowe will deliver an address at the patriotic concert in Vancouver in connection with the Dominion Day celebration in that city.

N. S. Clarke, manager of the Yreka Mining Company, came to Victoria yesterday, and left for Mount Sicker yesterday. Messrs. Lee and Gwin met Mr. Clarke in this city and the former accompanied him up the line, while the latter remained. Mr. Gwin is staying at the Dominion.

Howitt Bostock, Vancouver, will be in the city until Thursday next. Mr. Bostock returned from England several weeks ago, having been away from British Columbia since last winter.

Among yesterday's arrivals at the Grand Hotel were: H. G. Hamilton and wife and G. M. Hamilton and wife, of Vancouver; G. P. Pownall and wife, of Fort Steele; Mrs. Robt. S. Goulay, of Toronto; and Mr. and Mrs. S. M. Jackson, of Tacoma.

Y. M. Cowperthwaite, of Vancouver; Augustus Smith, of New York; and Henry Reiter, of Nanaimo, are guests at the Vernon hotel, having arrived in the city yesterday.

P. G. Shalcross, C. R. Sward, H. Bostock, R. H. King, M. Lewis, Sir Hibbert Tupper and Lady Tupper, were among the arrivals from Vancouver last evening.

Chas. Warrick, Capt. S. F. McKenzie and the members of the Victoria Cricket Club were among the arrivals from the Sound by yesterday's Rosalie.
