1a

Dear Dr Beale, I spent a delightful evening with you in Utrecht when on a recent visit to Holland, and especially to its Universities. I shall never forget your kind reception and your genial talk. It has given a new interest to my Camera Obscura, and to all else I know of you. Your friends here were delighted to hear of you, such as Mrs & Miss Lovin, Prof. Flint and others. The memory of your visits and speeches here and especially of the last, is fresh and vivid still.

I spent 3 days in Utrecht, but did not call for you again lest I should weaken the impression of my visit and perhaps weary you. But I had much pleasant intercourse with Prof. Van der Wyk and others, and I enjoyed my visit to Utrecht greatly in vivid recollection of my student days there when I listened to Prof. Van Oosterzee & Dr. Heart, and heard you preach. I heard a powerful sermon by Dr Geerin on the Sunday. I had the same kind reception at Amsterdam from Dr Pierson whom I knew when at Heidelberg.

I send you my first and smallest book. Perhaps the Preface may interest you. It is a good return for your photo
