

TUESDAY, FEBRUARY 11, 1975 WASHINGTON, D.C. Volume 40 = Number 29

PART II

ENVIRONMENTAL PROTECTION AGENCY

EFFLUENT GUIDELINES AND STANDARDS

Pretreatment Standards for Certain Categories Title 40—Protection of the Environment CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N-EFFLUENT GUIDELINES

[FRL 831-8]

PRETREATMENT STANDARDS

On May 28, 1974; March 20, 1974; March 21, 1974; June 26, 1974; Janu-ary 31, 1974; March 20, 1974; Febru-ary 20, 1974; February 14, 1974; April 25, 1974; April 12, 1974; February 14, 1974; February 26, 1974; May 29, 1974; May 9, 1974 and February 28, 1974, notices were published in the proposed rules section of the FEDERAL REGISTER (39 FR 18610, 39 FR 15019, 39 FR 10869, 39 FR 23154, 39 FR 4039, 39 FR 10527, 39 FR 6595, 39 FR 5709, 39 FR 14684, 39 FR 13394, 39 FR 5720, 39 FR 7534, 39 FR 6666, 39 FR 16582, and 39 FR 7907 respectively), that the Environmental Protection Agency (EPA or Agency) was proposing regulations concerning the application of effuent limitations guidelines for existing sources to pretreatment standards.

The purpose of this notice is to establish final pretreatment standards for selected subcategories of existing sources within the dairy products processing industry point source category (40 CFR Part 405); grain mills point source category (40 CFR Part 406); canned and preserved fruits and vegetables processing point source category (40 CFR Part 407); canned and preserved seafood processing point source category (40 CFR Part 408); beet sugar processing point source subcategory (40 CFR Part 409); liquid and crystalline cane sugar refining subcategory (40 CFR Part 409); cement manufacturing point source category (40 CFR Part 411); feedlots point source category (40 CFR Part 412); organic chemicals manufacturing point source category (40 CFR Part 414); soap and detergent manufacturing point source category (40 CFR Part 417); glass manufacturing point source categories (40 CFR Part 426); asbestos manufacturing point source category (40 CFR Part 427); pulp, paper and paperboard point source category (40 CFR Part 430); builders paper and roofing felt segment of the builders paper and board mills point source category (40 CFR Part 431); and the meat products point source category (40 CFR Part 432) which discharge to publicly owned treatment works.

Pending further study, final pretreatment standards for existing sources for the following industrial subcategories will be promulgated by the Agency in the near future: In the organic chemicals manufacturing point source category (40 CFR Part 414), product-process subcategory groups C2 (phenol and acetone-cumene process), C3 (bisphenol A), and C4 (p-cresol); in the soap and detergent manufacturing point source category (40 OFR Part 417), manufacture of spray dried detergents, manufacture of liquid detergents, manufacture of liquid detergents, and manufacture of drum dried detergents sub-

categories; and in the glass manufacturing point source categories (40 CFR Part 426), automotive glass laminating and float glass manufacturing subcategories.

This final rulemaking is promulgated pursuant to section 307(b) of The Federal Water Pollution Control Act, as amended (The Act); 33 U.S.C. 1317(b); 86 Stat. 816 et seq.; Public Law 92-500. This regulation is intended to be complementary to the general regulation for pretreatment standards set forth in 40 CFR 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982).

The general pretreatment standard considers pollutants discharged by users of publicly owned treatment works in the two broad categories compatible and incompatible. Compatible pollutants generally are not subject to Federal pretreatment standards; however 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (see 40 CFR 128.110). Incompatible pollutants generally are subject to pretreatment pursuant to 40 CFR Part 128.

Operators of publicly owned treatment works and other interested persons should refer to the Federal Guidelines: Pretreatment of Pollutants Introduced into Publicly Owned Treatment Works, published Oct. 1973 pursuant to section 304(f) of the Act, for guidance as to local pretreatment requirements and to provide supplementary information on pretreatment.

Interested persons were invited to participate in the proposed rulemaking by submitting written comments within 30 days from the date of publication of the notices. Prior public participation in the form of solicited comments and responses from the states, Federal agencies, and other interested parties were described in the preamble to the proposed regulation. EPA has considered carefully all of the comments received and a discussion of these comments with the agencies response thereto follows:

(A) SUMMARY OF COMMENTS

The following responded to one or more of the requests for written comments contained in the preambles to the proposed regulations: Great Western Sugar Company; National Independent Meat Packers Association; American Meat Institute; The Soap and Detergent Association; Rohm and Haas Company; and the Metropolitan Sanitary District of Greater Chicago. Each of the comments received was carefully reviewed and analyzed. A summary of the significant comments and the Agency's response to those comments for each of the industries follows.

DAIRY PRODUCTS PROCESSING INDUSTRY POINT SOURCE CATEGORY (40 CFR PART 405)

(1) A commenter indicated that high concentrations of BOD5 in the two whey subcategories may upset treatment works.

Difficulty may be experienced in maintaining normal treatment efficiencies without special operational procedures when the BOD5 concentration attributable to whey becomes extremely high. This is especially true when there is not sufficient equalization present to prevent shock loading. Thus, it may be that there are situations where whey may not be amenable to treatment depending on the relative quality and quantity of influent to the municipal system and the design and operating characteristics of the publicly owned treatment works. Any discharger whose waste causes an upset or interferes with the operation or performance of the works shall be in vio-lation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

GRAIN MILLS POINT SOURCE CATEGORY (40 CFR PART 406)

(2) No comments were received concerning this industry.

CANNED AND PRESERVED FRUITS AND VEGETA-BLES PROCESSING POINT SOURCE CATEGORY (40 CFR PART 407)

(3) One commenter advised the Agency that this is a seasonal industry which results in peak loading of treatment works.

The operator of publicly owned treatment works is advised that peak loading or slugging of the treatment facility is possible. All precautions must be taken to prevent this type of discharge from upsetting the treatment works. Any discharger whose waste causes an upset or interferes with the operation or performance of the works shall be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

CANNED AND PRESERVED SEAFOOD PROCESSING POINT SOURCE CATEGORY (40 CFR PART 408)

(4) One commenter indicated that excessive discharges of oil and grease may pass through or interfere with the operation of a publicly owned treatment works.

Oil and grease, particularly from animal and vegetable sources, can be treated by biological techniques in a properly operated municipal treatment plant. Excessive discharges of oil and grease which would upset or interfere with the operation or performance of such publicly owned treatment works would be in violation of the prohibited wastes section (128.131) of the general pretreatment regulation (40 CFR 128).

BEET SUGAR PROCESSING POINT SOURCE SUB-CATEGORY (40 CFR PART 409)

(5) A comment was received concerning the temperature parameter for this industry.

The discharges from the beet sugar industry generally range between 55-65°C. If a facility discharges to a municipal treatment works, dilution and heat losses in the interceptor system will normally prevent these discharges from adversely affecting the treatment works. During

6432

cold weather these warm discharges can actually prove beneficial to the biological systems in the treatment plant.

(6) Several commenters had no objections to the pretreatment standards for existing sources proposed.

LIQUID AND CRYSTALLINE CANE SUGAR RE-FINING SUBCATEGORY (40 CFR PART 409)

(7) One commenter expressed concern regarding the extremely high concentrations of BOD5 and TSS in the filter cake slurry waste water.

Although the filter cake slurry waste water stream is considered to be highly amenable to treatment, the extremely high concentrations of BOD5 and TSS therein could, in some cases, interfere with the operation of publicly owned treatment works. These special situations should be controlled by the operators of the treatment works involved. Such control should not pose undue difficulty since the highly concentrated waste can be dry handled and disposed of as solid waste by the publicly owned treatment works. Any discharger whose waste causes an upset or interferes with the operation or per-formance of the publicly owned treatment works shall be in violation of the prohibited wastes section (128.131) of the general pretreatment regulation (40 CFR 128).

CEMENT MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 411)

(8) A comment was received concerning the temperature parameter for this industry.

Heat losses and dilution in the interceptor systems will generally effectively reduce any thermal discharges from these plants. Those discharges which may reach a treatment facility at a slightly higher than ambient temperature will enhance the biological activity in the treatment works. This is a highly desirable effect during cold weather.

FEEDLOTS POINT SOURCE CATEGORY (40 CFR PART 412)

(9) No comments were received.

ORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 414)

(10) Some commenters indicated that there may be other pollutants in the waste water from this industry besides BOD5, TSS and pH.

The Agency is aware that the waste water from this industry is composed of many varied and complex compounds. The operators of municipal treatment works are warned that though these wastes are usually organic in nature, caution should be exercised in treating these waste waters to assure that they do not interfere with the operation or performance of the publicly owned treatment works.

SOAP AND DETERGENT MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 417)

(11) Several commenters expressed their belief that the oil and grease discharged by this industry is amenable to

treatment in publicly owned treatment works.

The Agency concurs that the offs and greases of animal or vegetable origin can be treated in a properly operated publicly owned treatment works. Excessive discharges of oil and grease may upset or interfere with the operation or performance of the publicly owned treatment works. Such excessive discharges would be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

GLASS MANUFACTURING POINT SOURCE CATEGORIES (40 CFR PART 426)

(12) No comments were received concerning the subcategories being considered for promulgation.

ASBESTOS MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 427)

(13) One commenter was concerned with the disposal of sludges containing aspestos fibers.

Waste from this industry category can contain large amounts of asbestos fibers. These wastes should not be introduced into (1) publicly-owned treatment works whose effluents could affect a potable water supply or (2) publicly-owned treatment works that dispose of sludges without adequate safeguards to prevent land migration of contaminants to ground or surface waters. Sites should be selected that have natural soil and geographical conditions to prevent-such contamination or. if such conditions do not exist, artificial means (e.g. liners) must be provided to insure long-term protection. Where such control is not provided for sludges containing significant quantities of asbestos fibers, they should be excluded from the municipal sludge and disposed of separately under controlled conditions.

FULP, PAPER AND PAPERBOARD POINT SOURCE CATEGORY (40 CFR PART 430)

(14) No comments were received.

BUILDERS PAPER AND ROOFING FELT SEGMENT OF THE BUILDERS PAPER AND BOARD MILLS POINT SOURCE CATEGORY (40 CFR PART 341)

(15) Several comments were received questioning the necessity of a settleable solids limitation in addition to a suspended solids limitation.

Settleable solids are those suspended solids which settle out in one hour or less. Since this type of solids is present in all municipal and domestic wastes, they are readily treated in the primary units of a municipal treatment facility and therefore no limitation is established for this parameter in this regulation. The necessity of both a suspended solids and a settleable solids limitation is aimed primarily at direct dischargers to prevent the build-up of delta like formations in navigable waters at the point discharge. Any discharger whose of waste causes an upset or interferes with the operation or performance of the publicly owned treatment works shall be in violation of the prohibited wastes sec-

tion (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

MEAT PRODUCTS POINT SOURCE CATEGORY (40 CFR PART 432)

(16) Several commenters indicated that excessive discharges of ofl and grease may pass through or interfere with the operation of a publicly owned treatment works.

Oil and grease, particularly of animal and vegetable origin, can be treated by biological techniques in a publicly owned treatment works. Operators are warned that excessive discharges of oil and grease which would upset or interfere with the operation or performance of a publicly owned treatment works would be in violation of the prohibited waste section (§ 28.131) of the general pretreatment regulation (40 CFR Part 128).

(B) REVISION OF THE PROPOSED REGULATION PRIOR TO PROMULGATION

No substantive changes have been made from the proposed regulations except the format has been changed for clarification of the pretreatment standards.

(C) FINAL RULEMAKING

In consideration of the foregoing, 40 CFR Chapter I, Subchapter N is hereby amended by adding to Part 405, dairy products processing industry point source category. §§ 405.14, 405.24, 405.34, 405.44, 405.54, 405.64, 405.74, 405.84, 405.94, 405.-104, 405.144, 405.124; Part 406; grain mills point source category, \$\$ 406.14, 406.24, 406.34, 406.44, 406.54, 406.64; Part 407, canned and preserved fruits and vegetables processing point source category, §§ 407.14, 407.24, 407.34, 407.44, 407.54; Part 408, canned and preserved seafood processing point source category, \$\$ 408.14, 408.24, 408.34, 408.44, 408.-54, 408.64, 408.74, 408.84, 408.94, 408.104, 408.114, 408.124, 408.134, 408.144; Part 409, beet sugar processing point source subcategory, § 409.14; Part 409, Liquid and crystalline cane sugar refining subcategory, \$\$ 409.24, 409.34; Part 411, cement manufacturing point source category, \$\$ 411.14, 411.24, 411.34; 412, feedlots point source category, §§ 412.14, 412.-24; Part 414, organic chemicals manufacturing point source category, §§ 414.-14, 414.24, 414.34; Part 417, soap and detergent manufacturing point source category, §§ 417.14, 417.24, 417.34, 417.44, 417.54, 417.64, 417.74, 417.84, 417.94, 417.-104, 417.114, 417.124, 417.134, 417.144, 417.194; Part 426, glass manufacturing point source categories, §§ 426.24, 426.34, 426.44, 426.64; Part 427, asbestos manufacturing point source category, §§ 427.-14, 427.24, 427.34, 427.44, 427.54, 427.64, 427.74; Part 430, pulp, paper and paperboard point source category, §§ 430.14, 430.24, 430.34, 430.44, 430.54; Part 431, builders paper and roofing felt segment of the builders paper and board mills point source category, § 431.14; Part 432, meat products point source category, §§ 432.14, 432.24; 432.34, and 432.44 to read as set forth below. This final regulation is promulgated as set forth below and shall be effective March 13, 1975.

(Secs. 301, 304 (b), (c), 306 (b), (c), 307 (b), Federal Water Pollution Control Act, as amended; 33 U.S. C. 1251, 1311, 1314 (b), (c), 1316 (b) and (c), 1317 (b); 86 Stat. 816 et seq.; Pub. L. 92-500)

Dated: January 29, 1975.

JOHN QUARLES, Acting Administrator.

The following parts of 40 CFR Chapter I are amended as set forth below:

PART 405-DAIRY PRODUCTS PROCESS-ING POINT SOURCE CATEGORY

The table of contents to Part 405 is amended by adding the following new entries to the indicated subparts:

Subpart A—Receiving Stations Subcategory Sec.

405.14 Pretreatment standards for existing sources.

Subpart B-Fluid Products Subcategory

405.24 Pretreatment standards for existing sources.

Subpart C-Cultured Products Subcategory

405.34 Pretreatment standards for existing sources.

Subpart D-Butter Subcategory

- 405.44 Pretreatment standards for existing sources.
- Subpart E—Cottage Cheese and Cultured Cream Cheese Subcategory
- 405.54 Pretreatment standards for existing sources.

Subpart F-Natural and Processed Cheese Subcategory

405.64 Pretreatment standards for existing sources.

Subpart G—Fluid Mix for Ice Cream and Other Frozen Desserts Subcategory

405.74 Pretreatment standards for existing sources.

Subpart H—Ice Cream, Frozen Desserts, Novelties and Other Dairy Desserts Subcategory

405.84 Pretreatment standards for existing

Subpart I-Condensed Milk Subcategory

405.94 Protreatment standards for existing sources.

Subpart J-Dry Milk Subcategory

405.104 Pretreatment standards for existing sources.

Subpart K-Condensed Whey Subcategory

405.114 Pretreatment standards for existing sources.

Subpart L-Dry Whey Subcategory

405.124 Pretreatment standards for existing sources.

Part 405 is amended as follows:

1. Subpart A is amended by adding \$ 405.14 as follows:

§ 405.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the receiving stations subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the

standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart B is amended by adding \$405.24 as follows:

§ 405.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the fluid products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Collutant or pollutant	Pretreatment
property:	standard
pHHq	No limitation.
BOD5	Do.
TSS	Do.

Ŧ

3. Subpart C is amended by adding § 405.34 as follows:

§ 405.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the cultured products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part (and which would be an existing 128 point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation
BOD5	Do.
TSS	Do.

4. Subpart D is amended by adding \$405.44 as follows:

§ 405.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the butter subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.

5. Subpart E is amended by adding § 405.54 as follows:

§ 405.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the cottage cheese and cultured cream cheese subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source sub-ject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TRO	Do

6. Subpart F is amended by adding § 405.64 as follows:

§ 405.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the natural and processed cheese subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this

6434

section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	
TSS	Do.

7. Subpart G is amended by adding 8405.74 as follows:

§ 405.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the fluid mix for ice cream and other frozen desserts subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
PH	No limitation.
BOD5	Do.
TSS	De.

8. Subpart H is amended by adding \$ 405.84 as follows:

§ 405.84 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the ice cream, frozen desserts, novelties, and other dairy desserts subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

9. Subpart I is amended by adding § 405.94 as follows:

§ 405.94 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the condensed milk subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment Standard
pH BOD5	No limitation.
TSS.	Do.

10. Subpart J is amended by adding § 405.104 as follows:

§ 405.104 Pretreatment standards for existing sources.

The pretreatment standerds under section 307(b) of the Act for a source within the dry milk subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point sou subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
1000	50 m

11. Subpart K is amended by adding \$ 405.114 as follows:

§ 405.114 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the condensed whey subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the

purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

12. Subpart L is amended by adding § 405.124 as follows:

§ 405.124 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dry whey subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to dis-charge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

P	oliutant or poliutant	Pretroatment
	property:	standard
	pH	No limitation.
	BOD5	Do.
	765	Do.

PART 406-BRAIN MILLS POINT SOURCE

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Corn Wet Milling Subcategory ec.

406.14 Pretreatment standards for existing sources.

Subpart B-Com Dry Milling Subcategory

406.24 Pretreatment standards for existing sources.

Subpert C-Normel Wheat Flour Milling Subcategory

406.34 Pretreatment standards for existing sources.

Subpart D—Bulgar Wheat Flour Milling Subcategory

406.44 Pretreatment standards for existing sources.

Subpart E-Normal Rice Milling Subcategory 406.54 Pretreatment standards for existing

sources.

Subpart F—Parboiled Rice Processing Subcategory

406.64 Pretreatment standards for existing sources.

Part 406 is amended as follows:

1. Subpart A is amended by adding \$406.14 as follows:

§ 406.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the corn wet milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart B is amended by adding \$ 406.24 as follows:

§ 406.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the corn dry milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding § 406.34 as follows:

§ 406.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the normal wheat flour milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this

section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

P

4. Subpart D is amended by adding \$ 406.44 as follows:

§ 406.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the bulgur wheat flour milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

5. Subpart E is amended by adding \$ 406.54 as follows:

§ 406.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the normal rice milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant Pretreatment property: standard

BOD5	No limitation.
TSS	Do.

6. Subpart F is amended by adding \$ 406.64 as follows:

\$ 406.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the parboiled rice processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

e.

PART 407—CANNED AND PRESERVED FRUITS AND VEGETABLES PROCESS-ING POINT SOURCE CATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A-Apple Juice Subcategory Rec

407.14 Pretreatment standards for existing sources.

Subpart B-Apple Products Subcategory

407.24 Pretreatment standards for existing sources.

Subpart C---Citrus Products Subcategory

407.34 Pretreatment standards for existing sources.

Subpart D-Frozen Potato Products Subcategory 407.44 Pretreatment standards for existing SOUTCES.

Subpart E-Dehydrated Potato Products Subcategory

407.54 Pretreatment standards for existing sources.

Part 407 is amended as follows:

1. Subpart A is amended by adding \$ 407.14 as follows:

§ 407.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the apple juice subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source sub-ject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart B is amended by adding \$407.24 as follows:

§ 407.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the apple products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding \$ 407.34 as follows:

§ 407.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the citrus products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	Standard
pH	No limitation.
BOD5	Do.
TSS	Do.

4. Subpart D is amended by adding \$ 407.44 as follows:

§ 407.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within

the frozen potato products subcategory which is a user of a publicly owned treat ment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that. for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretrestment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart. Pretreatment Pollutant or pollutant

property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

5. Subpart E is amended by adding § 407.54 as follows:

§ 407.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dehydrated potato products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters) shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant Pretreatment property: standard

pH	No limitation.
BOD5	Do.
TSS	Do.
	•

PART 408—CANNED AND PRESERVED SEAFOOD PROCESSING POINT SOURCE CATEGORY

The Table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Farm-Raised Catfish Processing Subcategory

- 408.14 Pretreatment standards for existing sources.
- Subpart B-Conventional Blue Crab Processing Subcategory
- 408.24 Pretreatment standards for existing sources.
- Subpart C—Mechanized Blue Crab Processing Subcategory
- 408.34 Pretreatment standards for existing sources.
 - Subpart D-Non-Remote Alaskan Crab Meet Processing Subcategory
- 408.44 Pretreatment standards for existing sources.

Subpart E-Remote Alaskan Crab Meat Processing Subcategory

- 496.54 Pretreatment standards for existing sources.
- Subpart F.--Non-Remote Alaskan Whole Crab and Crab Section Processing Subcategory
- 408.34 Pretreatment standards for existing sources.

Subpart G-Remote Aleskan Whole Crab and Crab Section Processing Subcategory

408.74 Pretreatment standards for existing sources.

Subpart H—Dungeness and Tanner Crab Prosessing in the Contiguous States Subcategory

408.84 Pretreatment standards for existing sources.

Subpert I-Non-Remote Alaskan Shrimp Processing Subcategory

- 408.94 Pretreatment standards for existing sources.
- Subpart J—Remote Alaskan Shrimp Processing Subcategory
- 408.104 Pretreatment standards for existing sources.
- Subpart K-Northern Shrimp Processing in the Contiguous States Subcetegory
- 408.114 Pretreatment standards for existing sources.
- Subpart L—Southern Non-Breaded Shrimp Processing in the Contiguous States Subcategory
- 408.124 Pretreatment standards for existing sources.
- Subpart M—Breaded Shrimp Processing in the Contiguous States Subcategory
- 408.134 Pretreatment standards for existing sources.

Subpert N-Tuna Processing Subcategory

408.144 Pretreatment standards for existing sources.

Part 408 is amended as follows:

- 1. Subpart A is amended by adding \$ 408.14 as follows:
- § 408.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the farm raised catfish processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
ph	No limitation.
Oil and grease	Do.
TSS	Do.

2. Subpart B is amended by adding , § 408.24 as follows:

§ 408.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the conventional blue crab processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
ph	No limitation.
Oil and grease	Do.
TSS	Do.

3. Subpart C is amended by adding § 408.34 as follows:

§ 408.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the mechanized blue crab processing subeategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an exist ing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The follow-ing pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

4. Subpart D is amended by adding \$ 408.44 as follows:

§ 408.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the non-remote Alaskan crab meat processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the

purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation
Oil and grease	Do.
TSS	Do

5. Subpart E is amended by adding § 408.54 as follows:

§ 408.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the remote Alaskan crab meat processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source sub-ject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	stendard
pH	No limitation.
Oil and grease	Do.
T85	Do.

6. Subpart F. is amended by adding § 408.64 as follows:

§ 408.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the non-remote Alaskan whole crab and crab section processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

7. Subpart G is amended by adding § 408.74 as follows:

§ 408.74 Pretreatment standards for ex-

The pretreatment standards under section 307(b) of the Act for a source within the remote Alaskan whole crab and crab section processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

8. Subpart H is amended by adding § 408.84 as follows:

§ 408.84 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dungeness and tanner crab processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant		Pretreatment	
property:	1	standard	
pH	No	limitation.	
Oil and grease		Do.	
TTOO		Do	

9. Subpart I is amended by adding \$408.94 as follows:

§ 408.94 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the non-remote Alaskan shrimp processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act. if it were

P

to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicity owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
рН	No limitation.
Oil and grease	Do.
TSS	Do.

10. Subpart J is amended by adding \$408.104 as follows:

§ 408.104 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the remote Alaskan shrimp processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

11. Subpart K is amended by adding \$408.114 as follows:

§ 408.114 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the Northern shrimp processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant	Pretreatment
property:	standard
ph	No limitation.
Oil and grease	Do."
TSS	Do.

12. Subpart L is amended by adding \$408.124 as follows:

§ 408.124 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within Southern non-breaded shrimp the processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the stand-ard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
ph	No limitation.
Oil and grease	Do.
TSS	Do.

13. Subpart M is amended by adding § 408.134 as follows:

§ 408.134 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the breaded shrimp processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source sub-ject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following treatment standard establishes the quantity or quality or pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

14. Subpart N is amended by adding \$ 408.144 as follows:

§ 408.144 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the tuna processing subcategory which is a user of a publicly owned treat-

ment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart. Pollutant or pollutant Pretreatment

PART 409-BEET AND LIQUID AND CRYS-TALLINE CANE SUGAR PROCESSING POINT SOURCE SUBCATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A—Beet Sugar Processing Subcategory Sec.

409.14 Pretreatment standards for existing sources.

Subpart B—Crystalline Cane Sugar Refining Subcategory

409.24 Pretreatment standards for existing sources.

Subpart C—Liquid Cane Sugar Refining Subcategory

409.34 Pretreatment standards for existing sources.

Part 409 is amended as follows:

1. Subpart A is amended by adding \$ 409.14 as follows:

§ 409.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the beet sugar processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Fecal coliform	Do.
Temperature (heat)	Do.

Part 409 is amended as follows:

1. Subpart B is amended by adding \$ 409.24 as follows:

§ 409.24 Pretreatment standards for ex- a isting sources.

The pretreatment standards under section 307(b) of the Act for a source within the crystalline cane sugar refining subcategory which is a user of a pub-licly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH BOD5	No limitation.
TSS	Do.

2. Subpart C is amended by adding \$409.34 as follows:

§ 409.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the liquid cane sugar refining subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

The second	
Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.

PART 411—CEMENT MANUFACTURING POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A-Nonleaching Subcategory

Sec. 411.14 Pretreatment standards for existing sources.

Subpart B-Leaching Subcategory

411.24 Pretreatment standards for existing sources.

Subpart C-Materials Storage Piles Runoff Subcategory

Sec. 411.34 Pretreatment standards for existing sources.

Part 411 is amended as follows:

1. Subpart A is amended by adding \$ 411.14 as follows:

§ 411.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the nonleaching subcategory which is a user of a publicly owned treat ment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreat-ment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart. Pollutant or pollutant

property:	standard
pH Temperature (heat)	No limitation. Do.
TSS	Do.

2. Subpart B is amended by adding § 411.24 as follows:

§ 411.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the leaching subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD ⁴	Do.
T88	Do.

P

3. Subpart C is amended by adding § 411.34 as follows:

§ 411.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the materials storage piles runoff subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an

existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
TSS	Do.

PART 412-FEEDLOTS POINT SOURCE CATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A—All Subcategories Except Ducks

412.14 Pretreatment standards for existing sources.

Subpert B-Ducks Subcategory

412.24 Pretreatment standards for existing sources.

Part 412 is amended as follows:

1. Subpart A is amended by adding § 412.14 as follows:

§ 412.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within all subcategories except ducks which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
Fecal coliform	No limitation
BOD5	Do.

2. Subpart B is amended by adding § 412.24 as follows:

§ 412.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the ducks subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth

in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
Fecal collform	No limitation.
BOD5	Do.

PART 414-ORGANIC CHEMICALS MANU-FACTURING POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A-Nonaqueous Processes Subcategory Sec.

414.14 Pretreatment Standards for Existing Sources.

Subpart B-Processes With Process Water Contact as Steam Diluent or Absorbent

414.34 Pretreatment Standards for Existing Sources.

Subpart C—Aqueous Liquid Phase Reaction Systems (Except Product-Processes C2, C3, C4)

414.34 Pretreatment Standards for Existing Sources.

Part 414 is amended as follows:

1. Subpart A is amended by adding \$414.14 as follows:

§ 414.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the nonaqueous processes subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301° of the Act. if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged into a publicly owned treatment works by a point source subject to the provisions of this subpart,

ollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

P

2. Subpart B is amended by adding § 414.24 as follows:

§ 414.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the processes with process water contact as steam diluent or absorbent subcategory which is a user of a publicly owned treatment works and a major con-

tributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

Ŧ

3. Subpart C is amended by adding \$ 414.34 as follows:

§ 414.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the aqueous liquid phase reaction systems (for C1 product-process only) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters). shall be the standard set forth in 49 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BODS	Do.
TSS	Do,

PART 417-SOAP AND DETERGENT MAN-UFACTURING POINT SOURCE CATE-GORY

The table of contents is aménded by adding the following new sections to the indicated subparts:

Subpart A—Soap Manufacturing by Batch Kettle Subcategory

417.14 Pretreatment standards for existing sources.

Subpart B—Fatty Acid Manufacturing by Fat Splitting Subcategory

417.24 Pretreatment standards for existing sources.

Subpart C—Soap Manufacturing by Fatty Acid Neutrelization Subcategory

417.34 Pretreatment standards for existing sources.

Subpart D—Glycerine Concentration Subcategory Sec.

417.44 Pretreatment standards for existing sources.

Subpart E-Glycerine Distillation Subcategory 417.54 Pretreatment standards for existing sources.

Subpart F—Manufacture of Soap Flakes and Powders Subcategory

417.64 Pretreatment standards for existing sources.

Subpart G—Manufacture of Bar Soaps Subcategory

417.74 Pretreatment standards for existing

Subpart H—Manufacture of Liquid Sosps Subcategory

417.84 Pretreatment standards for existing sources.

Subpart I—Oleum Sulfonation and Sulfation Subcategory

- 417.94 Pretreatment standards for existing
- Subpart J—Air—SO3 Sulfation and Sulfonation Subcategory
- 417.104 Pretreatment standards for existing sources.

Subpart K—SO3 Solvent and Vacuum Sulfonation Subcategory

417.114 Pretreatment standards for existing sources.

Subpart L-Sulfamic Acid Sulfation Subcategory

417.124 Pretreatment standards for existing sources.

Subpart M—Chlorosulfonic Acid Sulfation Subcategory

417.134 Pretreatment standards for existing sources.

Subpart N⁴-Neutralization of Sulfuric Acid Esters and Sulfonic Acids Subcategory

417.144 Pretreatment standards for existing sources.

Subpart S-Manufacture of Detergent Bars and Cakes Subcategory

417.194 Pretreatment standards for existing sources.

Part 417 is amended as follows:

(1) Subpart A is amended by adding § 417.14 as follows:

§ 417.14 Pretreatment standards for existing sources.

The pretreatment standards under seclishes the quantity or quality of polluttion 307(b) of the Act for a source within the soap manufacturing by batch kettle subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

6442

Pollutant or pollutant	Pretreatment
property:	standard .
pH	No limitation.
BOD5	Do.
TSS	Do.
Oll'and Grease	Do.
COD	Do

(2) Subpart B is amended by adding § 417.24 as follows:

§:417.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the fatty acid manufacturing by fat splitting subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes quantity or quality of pollutants or the pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BODS	Do.
T8S	Do.
Oil and Grease	Do.
COD	Do.

(3) Subpart C is amended by adding \$ 417.34'as follows:

§'417.34 Pretreatment standards for existing sources.

The pretreatment standards under section: 307(b) of the Act for a source within the soap manufacturing by fatty acid neutralization subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters); shall be the standard set forth in. 40. CFR. Part 128, except that, for the. purpose of this section, 40 CFR 128:121; 128:122; 128:132; and 128.133 shall not apply. The following pretreatment standard' establishes the quantity or quality of pollutants or ollutant properties controlled by this section which may be discharged to, as publicly owned treatment. works by a point source subject to the provisions of this subpart.

Pollutant or pollutant ¹ property:	Pretreatment standard
pH ¹	No limitation.
BOD5	Do:
TSS.	Do.
Oll'and Grease	Do.
COD	Do.

(4) Subpart D is amended by adding \$ 417.44 as follows:

RULES AND REGULATIONS

§ 417.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the glycerine concentration subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128. except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(5) Subpart E is amended by adding \$417.54 as follows:

§ 417.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the glycerine distillation subcategory which is a user of a publicly. owned treatment works and a major contributing industry as defined in 40 CFR. Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants: to: the: naxigable waters)', shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a. publicly, owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment' standard
pH	No limitation.
BOD5	Do.
TSS'	Do.
Oil and Grease	Do.
COD	Do.'

(6) Subpart F is amended by adding \$ 417.64 as follows:

§ 417.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of soap flakes and powders subcategory which is a user of a quantity publicly owned treatment works and a in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge

pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128; except thiat, for the purpose of this section; 40 CFR 128:121, 128.122; 128.132, and 128:133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

pH No limitation.	
BOD5, Do.	
TSS Do	
Oil and Grease Do. COD Do.	

(7) Subpart G is amended by adding § 417.74 as follows:

§ 417.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of bar soaps subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128; except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may. be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant. property:	Pretreatment. standard
pH	No limitation.
BOD5	· Do.
TSS	Do.
Oll and Grease	Do.
COD	Do.

(8) Subpart H is amended by adding § 417.84 as follows:

§ 417.84 Pretreatment/standards for ex-

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of liquid soaps subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40°CFR Part: 128: (and which would be an existing point source subject to section 301 of the Act, if 'it were to discharge pollutants to, the navigable: waters), shall be the standard set forth in 40. CFR: Part: 128; except that, for the purpose of this sec-tion, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment: standard! establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point. source subject to the provisions of this

(9) Subpart I is amended by adding § 417.94 as follows:

§ 417.94 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the oleum sulfonation and sulfation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.
Surfactants	Do.

(10) Subpart J is amended by adding \$417.104 as follows:

§ 417.104 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the air-SO3 sulfation and sulfonation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subnort

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.
Surfactants	Do.

(11) Subpart K is amended by adding § 417.114 as follows:

§ 417.114 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the SO3 solvent and vacuum sulfonation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant Pretreatment property: pH standard No limitation. BOD5 Do. ------TSS Do. Oil and Grease_____ Do. COD Do. Surfactants _____ Do.

(12) Subpart L is amended by adding \$ 417.124 as follows:

§ 417.124 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the sulfamic acid sulfation subcategory which is a user of a publicly owner treatment works and a major contributing industry as defined in 40 CFR Part 123 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.
Surfactants	Do.

(13) Subpart M is amended by adding § 417.134 as follows:

§ 417.134 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the chlorosulfonic acid sulfation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would

be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard	ę
pH	No limitation.	•
BOD5	Do.	ì
TSS	Do	i
Oil and grease	Do.	1
COD	Do.	1
Surfactants	Do.	ł

(14) Subpart N is amended by adding § 417.144 as follows:

§ 417.144 Protroatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the neutralization of sulfuric acid esters and sulfonic acids subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard	
pH	No limitation.	
BOD5	Do.	
TSS	Do,	1.1
Oil and grease	Do.	į
COD	Do.	ł
Surfactants	Do.	4

(15) Subpart S is amended by adding § 417.194 as follows:

§ 417.194 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of detergent bars and cakes subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which woud be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties con-

trolled by this section which may be discharged to a publicly owned treatment. works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment- standard
pH	No limitation.
BOD5	Do.
TSSi	Do.
Oil and grease	Do.
COD	Do.
Surfactants	Do.

PART 425-GLASS MANUFACTURING POINT SOURCE CATEGORIES

The table of contents is amended by inserting the following new sections in the indicated subparts:

Subpart B-Sheet Glass Manufacturing Subcategory

Sec. 426.24 Pretreatment standards for existing sources.

Subpart C---Rolled Glass Manufacturing Subcategory

426.34 Pretreatment standards for existing sources.

Subpart D-Plate Glass Manufacturing. Subcategory

426.44. Pretreatment standards for existing sources.

Subport F-Automotive Glass Tempering Subcategory.

428.64 Pretreatment standards for existing sources.

Part 426 is amended as follows:

1. Subpart B is amended by adding \$ 426.24 as follows:

§ 426.24 Pretreatment standards for existing sources.

The pretreatment standards under sec tion 307(b) of the Act for a source within. the sheet glass manufacturing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act; if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

ollutant or pollutant	Pretreatment'
property:	standard.
pH	No limitation.
TSS	Do.

P

2: Subpart C is amended by adding \$426.34 as follows:

§ 425.34. Pretreatment standards for existing sources.

The pretreatment standards under section:307(b) of the Act for a source within the rolled glass manufacturing subcategory which is a user of a publicly owned treatment works and a major contrib-

uting industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly ownedtreatment works by a point source subject to the provisions of this subpart.

RULES AND REGULATIONS

PART 427—ASBESTOS MANUFACTURING POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A-Asbestos-Cement Pipe Subcategory

427.14 Pretreatment standards for existing sources.

Subpart B-Asbestos-Cement Sheet Subcategory 427.24 Pretreatment standards for existing sources.

Subpart C—Asbestos Paper (Starch Binder) Subcategory

427.34 Pretreatment standards for existing, sources.

Subpart D_Asbestos Paper (Elastomeric. Binder) Subcategory.

427.44. Pretreatment standards for existing sources.

Subpart E-Asbestos Millboard Subcategory.

427.541 Pretreatment standards for existing sources.

Subpart F—Asbestes Roofing Subcategory 427.64' Pretreatment standards for existing sources.

Subpart G-Asbestos Floor Tile Subcategory,

427.74 Pretreatment standards for existing sources.

Part 427 is amended as follows:

1. Subpart A is amended by adding \$ 427.14 as follows:

§ 427.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos-cement pipe subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40' CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section; 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant.	Pretreatment.
property:	standard
pH	No limitation.

2. Subpart B is amended by adding \$ 427.24 as follows:

§ 427.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source

within the asbestos-cement sheet subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard	
pH	No limitation.	
TSS	Do.	

3. Subpart C is amended by adding § 427.34 as follows:

§ 427.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos paper (starch binder) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section. 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment	
property:	standard	
pH TSS	No limitation.	

1

4. Subpart D is amended by adding \$ 427.44 as follows:

§ 427.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos paper (elastomeric binder) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to sec-tion 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned

treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pHHq	No limitation
TSS	Do.

E

5. Subpart E is amended by adding § 427.54 as follows:

§ 427.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos millboard subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pretreatment
standard
No limitation.
Do.

6. Subpart F is amended by adding \$427.64 as follows:

§ 427.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos roofing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
COD	Do.
TEC	.The

7. Subpart G is amended by adding \$ 427.74 as follows:

§ 427.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos floor tile subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point

source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard	
pH	No limitation.	
COD	Do.	
TSS	Do.	

PART 430-PULP, PAPER, AND PAPER-BOARD POINT SOURCE CATEGORY

The table of contents is amended by adding the following new section to the indicated subparts:

Subpart A-Unbieached Kraft Subcategory

Sec.

430.14 Pretreatment standards for existing sources.

Subpart B—Sodium Based Neutral Sulfite Semi-Chemical Subcategory

430.24 Pretreatment standards for existing sources.

Subpart C—Ammonia Base Neutral Suifite Semi-Chemical Subcategory

430.34 Pretreatment standards for existing sources.

Subpart D—Unbleeched Kraft—Neutral Suilite Semi-Chemicai (Cross Recovery) Subcategory

430.44 Pretreatment standards for existing sources.

Subpert E—Paperboard From Waste Paper Subcategory

480.54 Pretreatment standards for existing sources.

Part 430 is amended as follows:

1. Subpart A is amended as adding \$430.14 as follows:

§ 430.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the unbleached kraft subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR Parts 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard	
pH BOD5 TSS	No limitation. Do. Do.	

3

430.24 as follows:

§ 430.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the sodium based neutral sulfite semichemical subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TRS	Do

3. Subpart C is amended by adding § 430.34 as follows:

§ 430.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the ammonia base neutral sulfite semi-chemical subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant	Pretreatment
property:	standard
pH	No limitation.
BOD5	Do.
TSS	Do.

4. Subpart D is amended by adding § 430.44 as follows:

§ 430.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the unbleached kraft-neutral sulfite semi-chemical (cross recovery) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to sec-

2. Subpart B is amended by adding tion 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the pur-CFR Part 128, except that, for the pur-pose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of the pollutants or pollutant properties controlled by this section which may be discharged to a publicly which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

RULES AND REGULATIONS

Pellutant or pollutant property:	Pretreatment standard
BOD5	No limitation.
T85	Do.
pH	Do.

§ 430.54 Pretreatment standards for existing sources.

5. Subpart E is amended by adding 430.54 as follows:

The pretreatment standards under section 307(b) of the Act for a source within the paperboard from waste paper subcategory which is a user of a publicly owned treatment works and a major contributing Industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pellutant	Pretreatment
property:	standard

BOD5	Do.
TES	Do.

PART 431-BUILDERS PAPER AND ROOF-ING FELT SEGMENT OF THE BUILDERS PAPER AND BOARD MILLS POINT SOURCE CATEGORY

Part 431 is amended as follows:

Subpart A is amended by adding § 431.14 as follows:

§ 431.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the builders paper and roofing felt subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant prop-

erties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart. Pollutant or pollutent Destande

property:	standard
pH	No limitation.
BOD5 TSS	Do. Do.
Settleable solids	Do.

PART 432-MEAT PRODUCTS POINT SOURCE CATEGORY

The table of contents is amended by adding the following new section to the indicated subparts:

Subpart A-Simple Slaughterhouse Sucategory Sec.

432.14 Pretreatment standards for existing SOUTORS.

Subpart B—Complex Slaughterhouse Subcategory

432.24 Pretreatment standards for existing BOULLES.

Subpart C-Low Processing Packinghouse Subcategory

432.34 Pretreatment standards for existing sources.

Subpart D—High Processing Packinghouse Subcategory

432.44 Pretreatment standards for existing BOULTERS.

Part 432 is amended as follows:

1. Subpart A is amended by adding § 432.14 as follows:

§ 432.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the simple slaughterhouse subcategory which is a user of a publicity owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant prop- erty:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TS9	Do.
Oil and grease	Do.
Fecal coliform	Do.

2. Subpart B is amended by adding § 432.24 as follows:

\$ 432.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the complex slaughterhouse subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40

CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH BOD5	No limitation.
TSS	Do.
Oil and grease	Do.
Fecal coliform	Do.

3. Subpart C is amended by adding \$ 432.34 as follows:

§ 432.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within

RULES AND REGULATIONS

the low-processing packinghouse subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.
