On June 19, 1934, respondent admitted the truth of the matters and things alleged and waived a hearing thereon. On August 7, 1934, respondent was suspended from registration as a market agency and dealer for a period of 6 months, with leave during said period to apply for a revocation of this suspension upon showing to the satisfaction of the Secretary that he has filed a reasonable bond, or furnished some other satisfactory guaranty. Respondent was also ordered to cease and desist from doing business as a market agency and dealer without executing and maintaining a reasonable bond or furnishing some other satisfactory guaranty. Respondent later filed a reasonable bond and requested that the above suspension order be revoked; therefore, on August 29 the suspension order was revoked.

### MAILING OF SALARY CHECKS

Because of the evident inconvenience caused employees by the irregular mailing and receipt of salary checks, in recent months, the Bureau gives assurance of its desire and efforts to improve this situation. The causes have been threefold: (1) A large volume of special new work recently assigned to the Bureau, (2) the transfer on June 1, in accordance with Executive orders, of Department of Agriculture disbursements to the Treasury Department where such work is now concentrated, and (3) the failure of field stations to render pay rolls in proper form for payment.

Through added clerical assistance the Bureau is gradually overcoming the first cause of delay. It is advised also that the Treasury Department, which writes and disburses the checks, is rapidly overcoming the confusion attendant upon the addition of large numbers of new records and personnel. The Bureau requests that employees take a tolerant attitude of the situation which now promises to improve rapidly.

It is understood that there is some dissatisfaction among field employees with the present plan of making salary payments twice a month. This plan places considerable additional work upon the Department and Bureau accounting offices but was put into operation in an endeavor to comply with what was considered to be the desire of the entire field personnel. For several years such a plan has been advocated by individuals and groups of field employees.
