Japanese Roseflowering Cherries

ASAHI-BOTAN ZAKURA, early or mid-season; blush; double; one of the very slow growing sorts; dwarf habit; prolific bloomer; hyacinth arrangement

of flowers.

AMANOGAWA ZAKURA, light pink; late; fragrant; double; pyramidal or columnar; new variety; just right for formal planting or small gardens. A very unusual sort, attracts favorable attention always—and yet very Planted two feet apart in a straight line, Amanogawa makes a perfect hedge and need never be pruned or sheared.

BENI HIGAN ZAKURA (Higan Cherry, P. Subhirtella), "Spring Cherry." First to bloom; very prolific; blush pink; small single flowers that bloom

with the last snow of winter.

FUJIZAN (Shirotae; Mount Fuji), snow white; large double flowers; vigorous; extra choice. A splendid showy variety; considered one of the better of the white double Japanese Cherries.

HOSOKAWA-BENI ZAKURA, pink, mid-season; upright growth, slight spread; fragrant double flowers; one of the best; another of the hyacinth flower-

JEANNE WOHLERT, dwarf; semi-double; new; rare. The effect of this tree

in bloom is that of many branched hyacinth of a lovely soft pink.

KANZAN ZAKURA, double deep pink; vigorous; upright and no great tendency to spread. One of the best. A good street tree. The best deep pink sort. If planted in quantities this sort should have a lighter variety, such as Naden or Rosea, as a foil.

KOFUGEN ZAKURA (Fugenzo), double, deep pink; vigorous; upright and no great tendency to spread. One of the best. A good street tree. The best deep pink sort. If planted in quantities this sort should have a lighter

variety, such as Naden or Rosea, as a foil.

MIKURUMAGAESHI ZAKURA, blush; mid-season; double flowers; spreading growth; one of the loveliest; a typical hyacinth flowering variety; fragrant.

NADEN ZAKURA, pink; late flowering; double; very popular; vigorous grower; showy and attractive; adapted for street or lane planting. This variety is an excellent companion for Kofugen.

MOMIJIGARI, a subhirtella variety, so has small flowers which are red in the

bud but open deep pink. Semi-double.

PAUL WOHLERT, semi-double; deep pink or red; fragrant; flowers in great

profusion. The earliest of the large hyacinth flowering varieties.

ROSEA (Rose), late; double flowers about 134 inches in diameter, borne in raceme-like clusters of three or four flowers; vigorous; a spreading sort; a good lane, shade or street tree. A free bloomer and the flowers open fully just as the leaves commence to develop.

RUTH WOHLERT, blush; mid-season; spreading. An extra good sort with

double flowers of attractive tint. NEW.

SERRULATA ALBO ROSEA (Shirofugen), vigorous; light pink; large double flowers. Late flowering.

SHIRO HIGAN, single pink; large flowers; early; vigorous. A choice sort. SHOGETSU, soft pink; double; large. Has leafy green carpels in center of flower; leaves very pale green. A beauty in every way.

TAIZANFUKUN, flowers of medium size, double and tufted. Light pink, becoming flesh, or nearly white; leaves small; grows unusually erect and

slender; late.

TAKINIOI, flowers of medium size, single and semi-double; buds flesh, open flowers white. Valued for its delightful fragrance.

UKON ZAKURA "The Golden Cherry," yellow; double; vigorous grower;

spreading. Should be in every collection.

YOSHINO DAYBREAK, delicate flesh pink. Single flowers so dense as to almost obscure the branches. Flowers are a deeper color and larger than Yoshino.

AUTUMNALIS (October flowering), semi-double; pink flowers; blooms in Fall and early Spring; very unusual and rare. During the mild winter of 1930-31, Autumnalis was in bloom from November until May. On Christmas Day that year it was particularly notable for the very liberal display of flowers.

Price of Autumnalis Size Each Ten Ten Each Size 3 to 4 ft. \$5.00 5 to 6 ft. \$45.00 \$6.50 \$60.004 to 5 ft. 6.006 to 7 ft. 50.007.50 70.00 7 to 8 ft. 10.00 90.00

MRS. A. E. WOHLERT, our latest introduction; much clearer and more brilliant color than Kanzan or Kofugen. A great improvement. As soon as enough stock is available of this sort, we perhaps may discard the other two varieties. Kanzan is rated in Washington as a leader, but this new variety is far superior.

We can also supply Weeping Cherries in Standard Form. Write for prices.

Flowering Crabs

THEY MUST BE CRATED OR BOXED.

- MALUS ARNOLDIANA (Arnold C.), semi-double; pink; early flowering; splendid foliage; yellow fruit: a popular sort.
- MALUS ATROSANGUINEA (Carmine C.), single; red; bush form; early flowering. This is my personal preference; it may be used in varied positions. Absolutely the most showy of the lot. Adapted for hedge planting or screens. Makes a perfect hedge 8 to 10 feet high.
- MALUS BACCATA (Siberian C.), single; white; fragrant; upright; tree-like growth; brightly colored fruit, good for jelly besides being ornamental. A few larger trees. Price on application.
- MALUS DR. VAN FLEET. A new introduction of merit. Vigorous grower. Large pink single flowers.
- MALUS ELEYI, Plum red foliage and bloom. NEW. Best red leaf sort. In sunlight the foliage is quite brilliant and stays so until fall, rivaling Japanese red-leaf maples. During flowering period the tree is smothered with large purple flowers in clusters. Absolutely the most showy variety while in fruit, which is of apricot color, cherry size. In both Pyramid and Standard forms.
- MALUS FLORIBUNDA, single; pink; early; spreading. Yellow fruit, slightly tinted red. An old, well-known sort and for that reason one of the best sellers. Should be used with all the dark sorts.
- MALUS FLORIBUNDA-PURPUREA, one of the best, copper beach color foliage and flowers of beautiful red violet, dark purple fruit. When the tree is in bloom, it is absolutely covered with deep purple blossoms more densely than any other variety I have observed with the exception of Hopa and Eleyi, which are equally good. Standard or Tree Form.
- MALUS HOPA, large flowering, purple leaf crab. Very hardy and prolific bloomer. Very showy fruit; quite formal and shapely growth. A variety of great merit. Deep rose-colored flowers.
- MALUS NIEDZWETZKYANA (Redvein C.), purple leaf and bloom; large flowers and fruit good to eat. The first puple leaf sort known. A Japanese apple. In habit and growth it more closely resembles an ordinary apple than the Crabs, but it is not so big; generally symmetrical in growth. An old-time variety, not needed now, except for a complete collection.

- MALUS RED TIP. New. Pink flowers; strong grower. A variety of great merit.
- MALUS SCHEIDECKERI, double; pink; free flowering; fruit excellent for jelly. One of the most conspicuous pink flowering trees of early spring; very hardy.
- MALUS SPECTABILIS ROSEA PLENA, very large double pink flowers profusely produced. A rare sort; very choice. One of the better double-flowering varieties.

MALUS SPECTABILIS WHITE, a white form of the above.

Prices of above 13 varieties Each Size Ten Each Ten 4 to 5 ft. \$1.00 \$9.00 8 to 9 ft. \$5.00 \$45.00 5 to 6 ft. 1.35 12.00 Heavy 8 to 9 ft. 15.00 125.009 to 10 ft. 6 to 7 ft. 2.00 18.50 90.00 10.00 Heavy 9 to 10 ft. 7 to 8 ft. 4.00 36.00 20.00 175.0010 to 12 ft. 25.00

MALUS TSCHONOSKI, very fine cut foliage; white flowers; beautiful compact tree.

MALUS ALDENHAMENSIS, rose-pink flowers. A new variety of England.

Prices of above 2 varieties

Size Each Size Each Size Each 3 to 4 ft. \$2.50 4 to 5 ft. \$3.50 6 to 8 ft. heavy \$7.50

- MALUS MICROMALUS (Midget C.), flowers pink tint; single; dwarf habit. An extra choice sort. NEW. Compact growth, vase form. The long, slender branches covered with flowers suggest garlands of flowers. Real quality, a prime sort.
- MALUS IOENSIS (Prairie Crab), large single, pink, fragrant, late flowering. Grows wild in many States, including Pennsylvania, but is well worth garden room, although too vigorous for a small garden. In both Pyramid and Standard Forms. Heavy specimen plants only.
- MALUS THEIFERA, used for tea making in China; lovely pink bloom; glossy foliage; upright habit. (Not the tea plant, but a Chinese substitute.)
- MALUS PARKMANI (Halliena Parkmani; Parkman C.) double; pink. A dwarf tree; very low growing; just right for small gardens; very hardy; flowers an exceptionally lovely pink. Prolific; one of the first to open and one of the last to fade.

Prices of above 4 varieties Size Each Ten Size Each Ten 8 to 9 ft. \$6.50 \$60.00 4 to 5 ft. \$12.50 \$1.50 8 to 9 ft. 20.00 5 to 6 ft. 2.00 17.50 Heavy 9 to 10 ft. 12.50 3.00 25.00 6 to 7 ft. Heavy 9 to 10 ft. 45.00 22.50 5.00 7 to 8 ft. 10 to 12 ft. 30.00

MALUS SARGENTI (Sargent C.), dwarf; white; abundant showy fruit. A sort for the small garden and a great favorite on account of the bright fruit, and with the birds equally popular. Low growing and spreading habit, almost creeping. Just the sort for rockeries and small gardens. One of the most striking varieties. Positively true to name. Good for a hedge up to six feet high.

MAGNOLIAS

Alba Superba. A splendid white variety of vigorous growth. Occasionally the white petal is suffused with pink. A very delicate color scheme;

preferred by many.

Lennei. The largest flowering of the Chinese Magnolias; large flowers of magnolia red, freely produced; large foliage. The habit of growth of this variety is spreading; the lower branches show a distinct tendency to trail on the ground, but the tree can be headed up so the low branches may be removed from the ground. Under good conditions in fertile soil with abundant rainfall this sort will continue to bloom throughout the entire season. To a limited degree this can also be said of all the rest of the varieties. If a liberal amount of moisture and fertility is supplied to Magnolias, one can force them into bloom throughout the summer with no detriment at all to next spring's crop of flowers.

Soulangeana. Pink. Best known of all the Magnolias. Grows into a tree

of medium size. All the sizes we offer are blooming size.

Price of above 3 varieties Size Each Ten Size Each Ten 3 to 4 ft. \$3.00 \$28.00 8 to 9 ft. 15.00 125.00160.00 4 to 9 to 10 ft. 5 ft. 5.00 45.00 20.00 65.00 Spec. 9 to 10 ft. 25.00 5 to 6 ft. 7.50 225.00 7 ft. 10 to 12 ft. \$25.00 \$225.00 6 to 10.00 80.00 12 to 14 ft. 35.00 to 50.00 ea. **7** to 8 ft. 12.50 100.00 15.00 125.00 14 to 16 ft. 40.00 to 75.00 ea. Nigra (Purpurea). Dark purple, the color now popular. One of the finest Magnolias in cultivation; moderate growth takes up less space than most varieties and is one of the best sorts; exceedingly prolific. The color of the flower is deeper and richer than all the rest. Our nurseries is probably the only place where this variety can be bought. It is destined to be the most popular of all the Magnolias and is particularly adapted to small gardens.

Each Height Height Each 2 to 3 ft. Heavy 6 to 7 ft. \$15.00 \$3.00 7 to 8 ft. 3 to 4 ft. 4.00 20.00 8 to 10 ft. 4 to 5 ft. 5.0025.005 to 6 ft. 7.50

Stellata (Halleana), is the familiar early blooming dwarf Magnolia, star shaped, snow-white flowers, very fragrant; slow growth, and for that reason rather expensive. The stock of this variety is exceedingly limited in all American nurseries.

VIBURNUM DILATATUM. The most brilliantly fruited Viburnum of all.

Espalier Trained Dwarf Fruit Trees

Distinctive Practical Decorative

Trained Fruit Trees should have a place in every garden and we are sure many gardeners will welcome our offer of these trees at this time. It is a simple matter to erect a "post and wire" fence to which they may be lightly tied or to a "wired wall," which is accomplished by driving wall hooks into the wall at intervals of 1 foot each way, leaving 4-5 inches protruding, to which the galvanized wires are horizontally attached. The "leaders" of the trees are carefully tied to the wires by "figure of eight" loops of tarred twine or heavy raffia, which allows limited leeway and prevents chafing.

Grown on the post and wire method, trained fruit trees are very ornamental in the garden—indeed they make a useful and artistic wind screen and background to flower beds and borders, the blossoms and, later, the highly colored fruit adding further brightness to the border.

They bear splendid crop of nicely colored, large fruit, without shading or otherwise interfering with the flowers or vegetable crops planted nearby; fruit is easily gathered and trees are readily manured and pruned.

They serve a dual purpose, being both ornamental and useful. In Spring their exquisite blossoms add a decorative touch to the early garden display, but our appreciation is greatest when they offer us their luscious fruits in the Fall.

There are good reasons why trained fruit trees should be seen frequently in small gardens as well as on large estates, to which they have been mostly restricted in the past. Probably the difficulty experienced in finding the proper material has been an influence in preventing the use of trained trees, but this difficulty no longer exists and the cost of trees, which have been started in either espalier or cordon form, is by no means prohibitive.

Trained trees enable the owners of small properties to utilize wall space which might otherwise be wasted. The side of a building or a board fence may thus be made to produce surprisingly large crops of choice apples, pears, peaches, cherries and even nectarines. Only three years are required ordinarily for these trees to reach the bearing age and, apart from their practical value, they lend a touch of the "old world" to the garden which is seen all too rarely in this country.

Trained trees should be planted 12 to 15 inches from a wall to allow for fruit development.

Beware of cheap espalier trees, for if they are offered at materially less than our prices, they cannot be dwarfs but are ordinary orchard trees, trained and they cannot be kept down to the confined space no matter what you do.

Dwarf fruit trees for ordinary garden planting away from walls are available at lower prices than trained trees.

Ask for prices of dwarf fruit trees and of trained espalier trees.

Evergreens

BUXUS SUFFRUTICOSA (Dwarf Box). True dwarf English Box. The best plant known for low hedges in the formal garden.

CRYPTOMERIA JAPONICA LOBBI, Japan Temple Tree. Tall and stately. Rich dark green foliage which becomes exceptionally attractive in the spring when the new growth is made. Very rare and much in demand. With few exceptions our trees are branched to the ground and are symmetrical, as they have been pruned annually and transplanted frequently. This method produces excellent compact trees.

9	to	10	feet	high	Each	25.00

Ground Cover Plants

PACHYSANDRA TERMINALIS, Japanese Spurge.

A beautiful evergreen plant excellent as a ground cover, growing from 6 to 8 inches high. It is perfectly hardy and endures dense shade and dry locations, as well as direct sunlight or moist positions, making an excellent plant for any position requiring other than grass for a ground cover. It is also suitable as a border for walks and flower beds, as its low green growth at all times may be easily kept within bounds. Plant 6 to 8 inches apart.

	100	1000
Potgrown plants, 21/4 inch pots	\$10.00	\$90.00
1 year Field-grown plants	7.00	45.00
Well-rooted plants	5.00	35.00

VINCA MINOR. Periwinkle or Trailing Myrtle. A trailing, evergreen plant, used extensively for carpeting the ground under shrubs or trees, or on graves. Blue flowers.

	100	1000
Potgrown plants, 21/4 inch pots	\$10.00	\$90.00
Well-rooted plants	5.00	35.00

Malus Parkmani or Malus Halleana

Bargains

5	to	6	feet	high	5.00
6	to	7	feet	high	8.00

Condition of Order

The Prices in this Catalog do not cover extra choice specimens selected by customers in the nurseries.

Our List prices include all packing charges, with the exception of specimen trees and Weeping Cherries over 4 feet high.

- We Carry A Complete Line of nursery stock, but catalog only a few specialties. Would be pleased to quote you on any other stock not listed herein.
- Terms—Cash with order, except to persons who satisfy us as to their responsibility, when accounts will be due in 10 days. We charge interest at 6% per annum.
- Plant Insurance—No guarantee—expressed or implied—is made that stock will grow, as we have no control over after-treatment or weather conditions; the purchaser must assume all risks after stock leaves our Nurseries in good condition. We insure stock for a period of one year for an additional 10% paid at time of purchase or replacements may be made at half price and cost of packing, f. o. b. our Nurseries.
- Claims—To receive consideration must be made within 10 days after receipt of goods.
- Shipping Instructions—Shipping season generally opens about March 1st, but we are not in position to tell when climatic conditions in your locality permit planting. Therefore, kindly instruct us definitely when you want shipment made. Fall shipments may be made after October 1st. Our stock is regularly inspected and certificate will be sent with each shipment.

Write plainly and give explicit directions as to address and mode of shipments. When no shipping directions are given we will use our best judgment and forward by shortest and safest route, usually express.

We do not advise B&B (Ball & Burlap), because of the heavier shipping charges due to the increased weight. For any B&B shipments that are necessary we would advise forwarding by FREIGHT, unless the factor of time makes EXPRESS shipment advisable.
