L.L.D.

MASTER OF ARTS, Columbia College, City of New York, 1872.
ROSE HILL, IN THE TOWNSHIP OF RED HOOK, NEAR TIVOLI P. O., DUCHESS CO., N. Y.

1st January, 1873.

JUDGE ADVOCATE, with the rank MAJOR, 1845.
COLONEL N. Y. S. I., 1846; assigned for "Meritorious Conduct," 1849.
BRIGADIER-GENERAL for "Important Services," [first appointment—in N. Y. State—to that rank, in 1845; effective,] 1851, M. F. S. N. Y.
ADJUTANT-GENERAL, S. N. Y., 1855.
BREVET MAJOR-GENERAL, S. N. Y., for "Meritorious Services,"
[first and only general officer receiving such an honor (the highest) from S. N. Y., and the only officer thus brevetted (Major-General) in the United States.]
by "Special Act," or "Concurrent Resolution, New York State Legislature, April, 1866.

LAWS OF NEW YORK, Vol. 2.—89th Session, 1866, Page 2142.
Concurrent Resolution requesting the Governor to confer upon Brigadier-General J. WATTS DE PUYSTER [de Peyster] the brevet rank of Major* [General] in the National Guard of New York.

RESOLVED, (If the Senate concur.) That, it being a grateful duty to acknowledge in a suitable manner the services of a distinguished citizen of this State, rendered to the National Guard and to the United States prior to and during the Rebellion, the Governor be and he is hereby authorized and requested to confer upon Brigadier-General J. WATTS DE PUYSTER [de Peyster] the brevet rank of Major-General in the National Guard of New York, for meritorious services, which mark of honor shall be stated in the Commission conferred.

STATE OF NEW YORK, in Assembly, April 9th, 1866.
The foregoing resolution was duly passed. By order of the Assembly,
J. E. CUSHMAN, Clerk.

STATE OF NEW YORK, in Senate, April 20th, 1866.
The foregoing Resolution was duly passed. By order of the Senate,
JAS. TERWILLIGER, Clerk.

MILITARY AGENT, S. N. Y., (in Europe,) 1851-'53.
HONORARY MEMBER OF THE MILITARY ORDER OF THE LOYAL LEGION of the United States.
FIRST HONORARY MEMBER Third (Army of the Potomac) Corps Union.
MEMBER—10th June, 1872, DIRECTOR—of the GETTYSBURG BATTLEFIELD MEMORIAL ASSOCIATION.

MEMBER OF THE NETHERLANDISH LITERARY ASSOCIATION
[Maatschappij der Nederlandische Letterkunde]
at Leyden, Holland.
RECIPIENT, 1856, of Three Silver Medals from H. R. M. OSCAR, King of Sweden and Norway, &c., for a Military Biography of LEONARD TORSTENSON, Field Marshal, Generalissimo; of a Gold Medal, in 1852, from WASHINGTON HUNT, Governor S. N. Y., for "Efforts to improve the Military System of New York," &c., &c., and Suggestions for a Paid Fire Department, with Steam Fire Engines, &c., &c.; of a Gold Medal, in 1852, from the FIELD AND STAFF OFFICERS of his Command, 9th Brig., 3d Div., N. Y. S. Troops, "In Testimony of their Esteem and Appreciation of Efforts towards the Establishment of an Efficient Militia, &c.," in 1870, of a Magnificent BADGE, MEDAL AND CLASP, voted at the Annual Meeting of the Third Corps (Army of the Potomac) Union, held at Boston, Mass., Thursday, 5th May, 1870, when

"A Resolution was adopted to present a Gold Medal of the value of \$500 to Gen. J. WATTS DE PEYSTER, of New York, as a testimonial of the appreciation by the Corps of his eminent services in placing upon record the true history of its achievements, and in defending its commanders and their men from written abuse and misrepresentation;"—and of several other Badges, Medals, etc., for services in connection with the military service of the State of New York.

HONORARY MEMBER of the NEW JERSEY and of the MINNESOTA HISTORICAL SOCIETIES, and of the PIRENOROSMIAN SOCIETY of PENNSYLVANIA COLLEGE, Gettysburg; of the PHILOSOPHAN SOCIETY, *Middlebury Institute, Selin's Grove,* and of the EUTERPEAN SOCIETY, *Middleburg College, Allentown, Pennsylvania,* and of the GASMAN LITERARY SOCIETY, and of the PHILOLOGIAN SOCIETY of *Nebraska College, Nebraska City.*

HONORARY MEMBER of the N. Y. BURNS CLUB,
[Burns was a member of the *Dumfries Volunteers*, of which Col. ABENT SCHUYLER DE PEYSTER, 8th or King's Post, B. A., was Colonel, to whom the "National Bard of Scotland" addressed, just before his death, in 1796, his "POEM ON LIFE,"]
and LIFE MEMBER of the ST. NICHOLAS SOCIETY of NEW YORK,
(of which city JOHANNES DE PEYSTER, first of the name in the *New World*, was *Scheppen*, 1655, *Alderman*, 1666, *Burgmaster*, 1673, *Deputy Mayor*, 1677. *Mayoralty offered and refused.*)

MEMBER
of the NEW YORK, of the RHODE ISLAND (Newport) and of the PENNSYLVANIA HISTORICAL SOCIETIES, and of the MILITARY ASSOCIATION of the STATE OF NEW YORK.

LIFE MEMBER
of the HISTORICAL SOCIETY of MICHIGAN,
and of the NUMISMATIC AND ARCHEOLOGICAL SOCIETY of NEW YORK.

CORRESPONDING MEMBER
of the STATE HISTORICAL SOCIETIES of MAINE, of VERMONT, of RHODE ISLAND, (Providence,) of CONNECTICUT and of WISCONSIN; of the LONG ISLAND and of the BUFFALO HISTORICAL SOCIETIES; of the NEW ENGLAND HISTORIO-GENEALOGICAL SOCIETY; of the QUEBEC LITERARY AND HISTORICAL SOCIETY; of the NUMISMATIC AND ANTIQUARIAN SOCIETY of PHILADELPHIA, (Pennsylvania), etc., etc., etc.

GAZETTEER

OF THE

STATE OF NEW YORK.

STATE BOUNDARIES.

THE STATE OF NEW YORK is situated between $40^{\circ} 29' 40''$ and $45^{\circ} 0' 42''$ N. latitude, and between $71^{\circ} 51'$ and $79^{\circ} 47' 25''$ longitude w. of Greenwich. It is bounded on the N. by Canada, E. by Vermont, Massachusetts, and Connecticut, S. by the ocean, New Jersey, and Pennsylvania, and W. by Pennsylvania and Canada.

The Northern Boundary, commencing in the middle of Lake Ontario, N. of the mouth of Niagara River, extends eastward through the lake, midway between the opposite shores, to its E. extremity, thence north-easterly through the St. Lawrence River to the 45th parallel of N. latitude, and thence easterly in a gradually diverging line from the parallel, and terminating upon Lake Champlain 4,200 feet N. of it.

The Eastern Boundary extends S. through Lake Champlain to its S. extremity, thence a short distance S. E. along Poultney River, and thence in an irregular line, but in a generally southerly direction, to Lyons Point, at the mouth of Byram River, on Long Island Sound. From this point the line extends eastward through the Sound, very near the Connecticut shore, to the E. extremity of Long Island, including within the limits of the State nearly all the islands in the Sound.

The Southern Boundary extends from the E. extremity of Long Island along the ocean to the S. W. extremity of Staten Island, thence northward through the channel between Staten Island and New Jersey and through New York Bay and the Hudson to the 41st parallel of N. latitude, thence north-westerly to a point upon the Delaware at latitude $41^{\circ} 20' N.$, thence north-westerly along Delaware River to latitude $42^{\circ} N.$, and thence W. along the 42d parallel to a meridian passing through the W. extremity of Lake Ontario.

The Western Boundary, commencing upon the 42d parallel, extends N. to the middle of Lake Erie, thence eastward to the E. extremity of the lake, and thence N. through Niagara River and to the middle of Lake Ontario.¹

¹ The boundary through Lake Ontario is 175 mi.; through the St. Lawrence, 108 mi.; along the Canada frontier, E. of the St. Lawrence, 62.75 mi.; through Lake Champlain, 105 mi.; along Poultney River, 17.25 mi.; the Vt. line, S. of that river, 54.06 mi.; the Mass. line, 50.52 mi.; the Conn. line, to Lyons Point, on Long Island Sound, 81.20 mi.; through the Sound, 96 mi.; along the ocean to the N. J. shore, 160 mi.; through the Bay and

Hudson River, to latitude $41^{\circ} N.$, 44 mi.; along the N. J. line, W. of the Hudson, 48.50 mi.; through Delaware River, 78 mi.; along the Penn. line, on latitude 42° , 225.50 mi.; on the meridian to Lake Erie, 18.75 mi., and upon the meridian in Lake Erie, 22 mi.; through Lake Erie to Buffalo, 50 mi.; and through Niagara River, 34 mi.

The boundaries of the State have been settled from time to time by commissioners appointed by the several governments whose territories are contiguous. In several instances long and angry controversies have occurred, which have extended through many years and almost led to civil war. The boundaries are all now definitely fixed, except that of Conn., respecting which a controversy is now pending.¹

¹ *Canada Boundary.*—By royal proclamation, issued in Oct. 1763, the line of 45° N. was fixed as the boundary between the provinces of Quebec and New York, and this was confirmed in council, August 12, 1768. The line was surveyed by Valentine and Collins, October 20, 1774. By the treaty of 1783 the 45th parallel was recognized as the N. boundary of the State from Lake Champlain to the St. Lawrence. By the treaty of Ghent the same line was recognized as the boundary, and provisions were made for a re-survey. In 1818-19, Gov. Van Ness and Peter B. Porter on the part of the U. S., and John Ogilvie on the part of Great Britain, ran the line with great care; and it was found that the old line coincided with the parallel only at St. Regis, and that from that point it diverged, until at Lake Champlain it was 4,200 feet too far N. The deepest channel of the St. Lawrence was not always adopted, as a mutual exchange of islands was made satisfactory to both parties. Before the N. line was re-surveyed, in 1818, the U. S. Government had commenced the erection of a fortress at Rouses Point, on Lake Champlain; and this was found to be within the British territory. By the treaty of August 9, 1842, the old line of Valentine and Collins was restored, and the strip of territory before taken off again came under the jurisdiction of the U. S. The commissioners to run the line under the treaty of 1842 were Albert Smith on the part of the United States, and J. B. B. Estcourt on the part of Great Britain.

Vermont Boundary.—The territory of Vermont was originally claimed by both New York and New Hampshire, and conflicting grants were made by the two governments. Most of the actual settlers holding title under N. H. resisted the claims of N. Y., and many actual collisions occurred. Jan. 15, 1777, the settlers declared themselves independent, and laid claim to the territory due to the Hudson, N. of Lansingburgh, and along the w. shore of Lake Champlain. By an act of Congress passed Aug. 20, 1781, they were required to recede from this claim. A final agreement was entered into between Vt. and N. Y., Oct. 7, 1790, by which N. Y. surrendered all her claim to jurisdiction to the present territory of Vt., and Vt. paid \$30,000 to certain persons who had been deprived of lands granted by N. Y. The boundary line was run by Robert Yates, Robert R. Livingston, John Lansing, jr., Gulian C. Verplanck, Simeon De Witt, Egbert Benson, Richard Still, and Melancthon Smith on the part of N. Y., and Isaac Tichenor, Stephen R. Bradley, Nathaniel Chipman, Elijah Paine, Ira Allen, Stephen, Jacob, and Israel Smith on the part of Vt. The final line was established June 8, 1812.

Massachusetts Boundary.—The charter of Massachusetts embraced all the territory between 42° and 48° N. latitude "throughout the Maine lands from sea to sea." Grants made under this authority conflicted with those of N. Y., and angry controversies ensued, which in colonial times often resulted in violence and bloodshed. On the 16th of May, 1783, an agreement was entered into between John Watts, Wm. Smith, Robert R. Livingston, and Wm. Nicoll, commissioners on the part of N. Y., and Wm. Brattle, Joseph Hawley, and John Hancock, on that of Mass.; but the Revolution soon followed, and the line was never run. Commissioners appointed by both States in 1783 failed to agree; and December 2, 1785, Congress appointed Thomas Hutchins, John Ewing, and David Rittenhouse commissioners to run the line and finally end the controversy. The claims of Mass. to the lands westward were finally settled at Hartford, Conn., Dec. 16, 1786, by James Duane, Robert R. Livingston, Robert Yates, John Haring, Melancthon Smith, and Egbert Benson, commissioners on the part of N. Y., and John Lowell, James Sullivan, Theophilus Parsons, and Rufus King, on the part of Mass. By this agreement Mass. surrendered the sovereignty of the whole disputed territory to N. Y., and received in return the right of soil and pre-emptive right of Indian purchase w. of a meridian passing through the 82d milestone of the Penn. line, excepting certain reservations upon Niagara River. The title to a tract known as "The Boston Ten Towns," lying e. of this meridian, previously granted by Mass., was also confirmed. Nantucket, Martha's Vineyard, and the adjacent islands, were purchased from the Earl of Sterling by the Duke of York, and civil jurisdiction was exercised over them, under the name of "Dukes County," by the governors of N. Y., until it was annexed to Mass. by the provincial charter of 1692. "Pemaquid and its dependencies," comprising a considerable part of the coast of Maine, was also bought from the Earl of Sterling, and governed by N. Y., as "Cornwall County," until 1686, when it was transferred to Mass. Boston Corner, a small arable tract in

the town of Mount Washington, separated by a rugged mountain from the convenient jurisdiction of Mass. was surrendered by that State May 14, 1853, accepted by N. Y. July 21, 1853, and the transfer was confirmed by Congress, Jan. 3, 1855. Russell Derr was appointed on the part of N. Y., and John Z. Goodrich by Massachusetts, to run and mark the line.

Connecticut Boundary.—By the charter of 1662 the territory of Conn. extended to the "South Sea;" and by patent granted in 1664 the territory of the Duke of York was bounded e. by Connecticut River. Commissioners sent over in 1664 settled upon a line 20 mi. e. of the Hudson as the boundary, fixing the starting point on Mamaroneck River. The decision proving grossly erroneous, the controversy was renewed, and in 1683 another commissioner was appointed to settle the matter. It was finally agreed to allow Conn. to extend her boundaries w. along the Sound, and N. Y. to receive a compensation in the N.; and the line was definitely established May, 1731. By this agreement a tract called the "Oblong," containing 61,440 acres, along the N. part of the w. border of Conn., was surrendered to N. Y. The exact line of Conn. has to the present day been a subject of controversy, and in 1856 commissioners were appointed by each State to effect a settlement, but without success. N. Y. owns all the islands in the Sound to within a few rods of the Conn. shore.

New Jersey Boundary.—The original patent of New Jersey was bounded N. by a line running directly from a point on the Delaware, latitude 41° 40', to a point on the Hudson, latitude 41°, and e. by Hudson River. The N. line was run and marked in 1774, and the E. was claimed by N. Y. as extending only to low-water mark on the adjacent waters. N. J. claimed "full right and lawful authority to exercise jurisdiction in and over the said Hudson River and the said main sea," including Staten Island, and, by an act of Nov. 2, 1806, appointed Aaron Ogden, Wm. S. Pennington, James Parker, Lewis Condict, and Alexander C. McWhorter commissioners to settle her claims. The New York Legislature, on the 3d of April, appointed Ezra L'Honniedieu, Samuel Jones, Egbert Benson, Simeon De Witt, and Joseph C. Yates to meet the commissioners of N. J.; but their interviews led to no result. The question of jurisdiction was finally settled in 1833, by an agreement between Benj. F. Butler, Peter A. Gay, and Henry Seymour on the part of N. Y., and Theodor Frelinghuysen, James Parker, and Lucius Q. C. Elmer on the part of N. J.; confirmed by N. Y. Feb. 5, by N. J. Feb. 26, and by Congress June 28, 1834. The right of each State to land under water and to fisheries extends to the center of the channel. The State of N. Y. has sole jurisdiction over all the waters of the bay and of the river w. of New York City to low-water mark on the Jersey shore, except to wharves and vessels attached thereto. This jurisdiction covers the waters of Kil Van Kull and of Staten Island Sound to Woodbridge Creek, as for quarantine purposes. South of this, N. J. has exclusive jurisdiction over the waters of the Sound and of Baritan Bay westward of a line from Princes Bay Light to Manhattan Creek, subject to right of property in lands under water, of wharves, docks, and vessels aground or fastened to any wharf or dock, and the right of fishing to the center of the channel.

Civil process in each State may be executed upon the waters of the river and bay, except on board of vessels aground or attached to wharves in the other State, or unless the person or property be under arrest or seizure by virtue of authority of the other State. By the late survey of N. J. the point of departure of the boundary from the Delaware is 41° 20'.

Pennsylvania Boundary.—The original boundary line between New York and Pennsylvania extended from the N. w. corner of New Jersey along the center of Delaware River to 42° N. latitude, and thence due w. to Lake Erie. Samuel Holland on the part of N. Y., and David Rittenhouse on the part of Penn., were appointed commissioners, Nov. 8, 1774, to run this boundary; but the Revolution soon after commenced, and nothing was done. In 1785-86 the line was run w. to the 90th milestone, and the survey was certified Oct. 12, 1786, by James Clinton and Simeon De Witt, of N. Y., and Andrew Elliott, of Penn. By authority of the State Legislature, the N. Y. delegates in Congress, March 1, 1781, released to the General Government all the lands to which they had claim w. of a meridian extending through the w. extremity of Lake Ontario. The triangular tract so surrendered was sold to Penn. for \$161,640, and secured to that State 30 mi. of lake coast and an excellent harbor. The line was run by the U. S. Surveyor General in 1788-89.

TOPOGRAPHY.

Surface.—This State lies upon that portion of the Appalachian Mountain system where the mountains generally assume the character of hills and finally sink to a level of the lowlands that surround the great depression filled by Lake Ontario and the St. Lawrence River. Three distinct mountain masses or ranges enter the State from the s. and extend across it in a general n. e. direction. The first or most easterly of these ranges—a continuation of the Blue Ridge of Va.—enters the State from N. J. and extends n. e. through Rockland and Orange cos. to the Hudson, appears on the e. side of that river, and forms the highlands of Putnam and Dutchess cos. A northerly extension of the same range passes into the Green Mts. of Western Mass. and Vt. This range culminates in the Highlands upon the Hudson. The highest peaks are 1,000 to 1,700 feet above tide. The rocks which compose these mountains are principally primitive or igneous, and the mountains themselves are rough, rocky, and precipitous, and unfit for cultivation. The deep gorge formed by the Hudson in passing through this range presents some of the finest scenery in America, and has often been compared to the celebrated valley of the Rhine.

The second series of mountains enters the State from Penn. and extends n. e. through Sullivan, Ulster, and Greene cos., terminating and culminating in the Catskill Mts. upon the Hudson. The highest peaks are 3,000 to 3,800 feet above tide. The Shawangunk Mts., a high and continuous ridge extending between Sullivan and Orange cos. and into the s. part of Ulster, is the extreme e. range of this series. The Helderbergh and Hellibark Mts. are spurs extending n. from the main range into Albany and Schoharie cos. This whole mountain system is principally composed of the rocks of the New York system above the Medina sandstone. The summits are generally crowned with old red sandstone and with the conglomerate of the coal measures. The declivities are steep and rocky; and a large share of the surface is too rough for cultivation. The highest peaks overlook the Hudson, and from their summits are obtained some of the finest views in Eastern New York.

The third series of mountains enters the State from Penn. and extends n. e. through Broome, Delaware, Otsego, Schoharie, Montgomery, and Herkimer cos. to the Mohawk, appears upon the n. side of that river, and extends n. e., forming the whole series of highlands that occupy the n. e. part of the State and generally known as the Adirondack Mountain region. South of the Mohawk this mountain system assumes the form of broad, irregular hills, occupying a wide space of country. It is broken by the deep ravines of the streams, and in many places the hills are steep and nearly precipitous. The valley of the Mohawk breaks the continuity of the range, though the connection is easily traced at Little Falls, The Noses, and other places. North of the Mohawk the highlands extend n. e. in several distinct ranges, all terminating upon Lake Champlain. The culminating point of the whole system, and the highest mountain in the State, is Mt. Marcy, 5,467 feet above tide. The rocks of all this region are principally of igneous origin, and the mountains are usually wild, rugged, and rocky. A large share of the surface is entirely unfit for cultivation; but the region is rich in minerals, and especially in an excellent variety of iron ore. West of these ranges, series of hills forming spurs of the Alleghanies enter the State from Penn. and occupy the entire s. half of the w. part of the State. An irregular line extending through the southerly counties forms the watershed that separates the northern and southern drainage; and from it the surface gradually declines northward until it finally terminates in the level of Lake Ontario.¹ The portion of the State lying s. of this watershed and occupying the greater part of

the two southerly tiers of counties is entirely occupied by these hills. Along the Penn. line they are usually abrupt and are separated by narrow ravines, but toward the n. their summits become broader and less broken. A considerable portion of the highland region is too steep for profitable cultivation and is best adapted to grazing. The highest summits in Allegany and Cattaraugus cos. are 2,000 to 2,500 feet above tide.

From the summits of the watershed the highlands usually descend toward Lake Ontario in series of terraces, the edges of which are the outcrops of the different rocks which underlie the surface. These terraces are usually smooth, and, although inclined toward the n., the inclination is generally so slight that they appear to be level. Between the hills of the s. and the level land of the n. is a beautiful rolling region, the ridges gradually declining toward the n. That part of the State s. of the most eastern mountain range the surface is generally level or broken by low hills. In New York and Westchester cos. these hills are principally composed of primitive rocks. The surface of Long Island is generally level or gently undulating. A ridge 150 to 200 feet high, composed of sand, gravel, and clay, extends e. and w. across the island n. of the center.

Rivers and Lakes.—The river system of the State has two general divisions,—the first comprising the streams tributary to the great lakes and the St. Lawrence, and the second those which flow in a general southerly direction. The watershed which separates these two systems extends in an irregular line eastward from Lake Erie through the southern tier of counties to near the n. e. corner of Chemung; thence it turns n. e. to the Adirondack Mts. in Essex co., thence s. e. to the e. extremity of Lake George, and thence nearly due e. to the e. line of the State.¹

The northerly division has 5 general subdivisions. The most westerly of these comprises all the streams flowing into Lake Erie and Niagara River and those flowing into Lake Ontario w. of Genesee River. In Chautauque co. the streams are short and rapid, as the watershed approaches within a few mi. of Lake Erie. Cattaraugus, Buffalo, Tonawanda, and Oak Orchard Creeks are the most important streams in this division. Buffalo Creek is chiefly noted for forming Buffalo Harbor at its mouth; and the Tonawanda for 12 miles from its mouth is used for canal navigation. Oak Orchard and other creeks flowing into Lake Ontario descend from the interior in a series of rapids, affording a large amount of water-power.

The second subdivision comprises the Genesee River and its tributaries. The Genesee rises in the n. part of Penn. and flows in a generally northerly direction to Lake Ontario. Its upper course is through a narrow valley bordered by steep, rocky hills. Upon the line of Wyoming and Livingston cos. it breaks through a mountain barrier in a deep gorge and forms the Portage Falls,—one of the finest waterfalls in the State. Below this point the course of the river is through a beautiful valley 1 to 2 mi. wide and bordered by banks 50 to 150 ft. high. At Rochester it flows over the precipitous edges of the Niagara limestone, forming the Upper Genesee Falls; and 3 mi. below it flows over the edge of the Medina sandstone, forming the Lower Genesee Falls. The principal tributaries of this stream are Canaseraga, Honeoye, and Conesus Creeks from the e., and Oatka and Black Creeks from the w. Honeoye, Canadice, Hemlock, and Conesus Lakes lie within the Genesee Basin.

The third subdivision includes the Oswego River and its tributaries and the small streams flowing into Lake Ontario between Genesee and Oswego Rivers. The basin of the Oswego includes most of the inland lakes which form a peculiar feature of the landscape in the interior of the State. The principal of these lakes are Cayuga, Seneca, Canandaigua, Skaneateles, Crooked, and Owasco,—all occupying long, narrow valleys, and extending from the level land in the center far into the highland region of the s. The valleys which they occupy appear like immense ravines formed by some tremendous force, which has torn the solid rocks from their original beds, from the general level of the surrounding summits, down to the present bottoms of the lakes.² Oneida and Onondaga

The most remarkable passes through the mountains are, first, that of the Hudson, through the eastern mountains; second, that of Wood Creek, from the Hudson to Lake Champlain; and, third, that of the Mohawk, through the central mountains.

² The ravines of these lakes, and the streams which flow down parallel to them, are usually bordered by steep hillsides, the strata of which lie in parallel layers nearly level e. and w., and slightly inclined toward the s. Upon the opposite banks the

Lakes occupy basins upon the level land in the n. e. part of the Oswego Basin. Mud Creek, the most westerly branch of Oswego River, takes its rise in Ontario co., flows n. e. into Wayne, where it unites with Canandaigua Outlet and takes the name of Clyde River; thence it flows e. to the w. line of Cayuga co., where it empties into Seneca River. This latter stream, made up of the outlets of Seneca and Cayuga Lakes, from this point flows in a n. e. course, and receives successively the outlets of Owasco, Skaneateles, Onondaga, and Oneida Lakes. From the mouth of the last-named stream it takes the name Oswego River, and its course is nearly due n. to Lake Ontario.

The fourth subdivision includes the streams flowing into Lake Ontario and the St. Lawrence e. of the mouth of the Oswego. The principal of these are Salmon, Black, Oswegatchie, Grasse, and Racket Rivers. These streams mostly take their rise upon the plateau of the great Northern wilderness, and in their course to the lowlands are frequently interrupted by falls, furnishing an abundance of water-power. The water is usually very dark, being colored with iron and the vegetation of swamps.

The fifth subdivision includes all the streams flowing into Lakes George and Champlain. They are mostly mountain torrents, frequently interrupted by cascades. The principal streams are the Chazy, Saranac, and Au Sable Rivers, and Wood Creek. Deep strata of tertiary clay extend along the shores of Lake Champlain and Wood Creek. The water of most of the streams in this region is colored by the iron over which it flows.

The second general division of the river-system of the State includes the basins of the Allegheny, Susquehanna, Delaware, and Hudson. The Allegheny Basin embraces the southerly half of Chautauque and Cattaraugus cos. and the s. w. corner of Allegheny. The Allegheny River enters the State from the s. in the s. e. corner of Cattaraugus co., flows in nearly a semicircle, with its outward curve toward the n., and flows out of the State in the s. w. part of the same co. It receives several tributaries from the n. and e. These streams mostly flow in deep ravines bordered by steep, rocky hillsides. The watershed between this basin and Lake Erie approaches within a few miles of the lake, and is elevated 800 to 1,000 feet above it.

The Susquehanna Basin occupies about one-third of the s. border of the State. The river takes its rise in Otsego Lake, and, flowing s. w. to the Penn. line, receives Charlotte River from the s. and the Unadilla from the n. After a course of a few miles in Penn. it again enters the State, and flows in a general westerly direction to near the w. border of Tioga co., whence it turns s. and again enters Penn. Its principal tributary from the n. is Chenango River. Tioga River enters the State from Penn. near the e. border of Steuben co., flows n., receives the Canisteo from the w. and the Conhocton from the n. From the mouth of the latter the stream takes the name Chemung River, and flows in a s. e. direction, into the Susquehanna in Penn., a few miles s. of the State line. The upper course of these streams is generally through deep ravines bordered by steep hillsides; but below they are bordered by wide and beautiful intervals.

The Delaware Basin occupies Delaware and Sullivan and portions of several of the adjacent cos. The n. or principal branch of the river rises in the n. e. part of Delaware co. and flows s. w. to near the Penn. line; thence it turns s. e. and forms the boundary of the State to the line of N. J. Its principal branches are the Pepacton and Neversink Rivers. These streams all flow in deep, narrow ravines bordered by steep, rocky hills.

The Basin of the Hudson occupies about two-thirds of the e. border of the State, and a large territory extending into the interior. The remote sources of the Hudson are among the highest peaks of the Adirondacks, more than 4,000 feet above tide. Several of the little lakes which form reservoirs of the Upper Hudson are 2,500 to 3,000 feet above tide. The stream rapidly descends through the narrow defiles into Warren co., where it receives from the e. the outlet of Schroon Lake, and Sacandaga River from the w. Below the mouth of the latter the river turns eastward, and breaks through the barrier of the Luzerne Mts. in a series of rapids and falls. At Fort Edward it again turns s. and flows with a rapid current, frequently interrupted by falls, to Troy, 160 miles from the ocean. At this place the river falls into an estuary, where its current is affected by the tide; and from this place to its mouth it is a broad, deep, sluggish stream. About 60 miles from its mouth the Hudson breaks through the rocky barrier of The Highlands, forming the most easterly of the Appalachian Mt. Ranges; and along its lower course it is bordered on the w. by a nearly perpendicular wall of basaltic rock 300 to 500 feet high, known as "The Palisades." Above Troy the Hudson receives Hoosick River from the e. and the Mohawk from the w. The former stream rises in Western Mass. and Vt., and the latter near the center of the State.

discovered edges of the strata exactly correspond, showing that the intermediate portions have been torn away. The force that effected these immense changes was probably great currents of water from the n.,—the direction being determined by the character of the boulders upon the hills, and by the peculiar nature of the drift deposits.

At Little Falls and "The Noses" the Mohawk breaks through mountain barriers in a deep, rocky ravine; and at Cohoes, about 1 mile from its mouth, it flows down a perpendicular precipice of 70 feet, forming an excellent water-power. Below Troy the tributaries of the Hudson are all comparatively small streams. South of the Highlands the river spreads out into a wide expanse known as "Tappan Bay." A few small streams upon the extreme e. border of the State flow eastward into the Housatonic; and several small branches of Passaic River rise in the s. part of Rockland co.

Lake Erie forms a portion of the w. boundary of the State. It is 240 miles long, with an average width of 38 miles, and it lies mostly w. of the bounds of the State. It is 334 feet above Lake Ontario, 565 feet above tide, and has an average depth of 120 feet. The greatest depth ever obtained by soundings is 270 feet. The harbors upon the lake are Buffalo, Silver Creek, Dunkirk, and Barcelona.

Niagara River, forming the outlet of Lake Erie, is 34 miles long, and, on an average, more than a mile wide.¹ About 20 miles below Lake Erie the rapids commence; and 2 miles further below are Niagara Falls.² For 7 miles below the falls the river has a rapid course between perpendicular, rocky banks, 200 to 300 feet high; but below it emerges from the Highlands and flows 7 miles to Lake Ontario in a broad, deep, and majestic current.

Lake Ontario forms a part of the n. boundary to the w. half of the State. Its greatest length is 130 miles and its greatest width 55 miles. It is 232 feet above tide, and its greatest depth is 600 feet. Its principal harbors on the American shore are Lewiston, Youngston, Port Genesee, Sodus and Little Sodus Bays, Oswego, Sackets Harbor, and Cape Vincent. St. Lawrence River forms the outlet of the lake and the n. boundary of the State to the e. line of St. Lawrence co. It is a broad, deep river, flowing with a strong yet sluggish current until it passes the limits of this State. In the upper part of its course it encloses a great number of small islands, known as "The Thousand Islands."³

The surfaces of the great lakes are subject to variations of level,—probably due to prevailing winds, unequal amounts of rain, and evaporation. The greatest difference known in Lake Erie is 7 feet, and in Lake Ontario 4½ feet. The time of these variations is irregular; and the interval between the extremes often extends through several years. A sudden rise and fall, of several feet, has been noticed upon Lake Ontario at rare intervals, produced by some unknown cause.

Navigable Waters.—The natural internal navigation of the State is very extensive. Before the commencement of internal improvements, the rivers and lakes formed the most easy means of communication between distant portions of the State; and along these natural channels of commerce the early settlements were principally made.⁴ The most important lines of early

² For a more full description of Niagara Falls, see page —.

³ The river scenery upon the St. Lawrence is unsurpassed. The water is perfectly pure and nearly transparent. In consequence of its being fed by the great lake reservoirs, it is never subject to sudden rises, but steadily pursues its majestic way to the ocean, unaffected by the changes of the seasons or other causes.

⁴ The navigable waters N. of the great watershed before the completion of the Erie Canal were as follows:—

Cattaraugus Creek, about 1 mi. from its mouth.
Buffalo River, boatable 8 mi. from Lake Erie.
Tonawanda Creek, boatable 30 mi. from its mouth.
Niagara River, navigable for vessels of any size from Buffalo to Schlosser, at the head of the Rapide,—a distance of 22 mi.; also from Lewiston to Lake Ontario, a distance of 7 mi.
Oak Orchard Creek, boatable 4 mi. from its mouth.
Genesee River, to Carthage Landing, a distance of 6 mi.; and from Rochester to Mt. Morris for boats.
Oswego River was navigated with great difficulty by bateaux, with a portage at Oswego Falls, now Fulton.
Oneida Outlet and Lake were navigable for bateaux, and for many years constituted a portion of the great thoroughfare between the e. and w.
Seneca River was boatable to Cayuga Lake, and to Seneca Lake with one portage at Seneca Falls; Clyde River was boatable to Lyons.
The Interior Lakes, including Seneca, Cayuga, Canandaigua, Onondaga, Oswego, Skaneateles, Crooked, Chautauque, and Otsego, are all navigable. Steamers have plied upon each of them.
Fish Creek was navigable to Rome with canoes. A portage of less than 1 mi. intervened between this stream and the Mohawk River.
Salmon River was navigable to Port Ontario.
Salmon Creek was navigable on each branch, for small vessels, about 1 mi. from the lake.
Black River was navigable for large vessels from the lake to Dexter, a distance of 6 mi., and for boats and small steamers from Carthage to Lyons Falls, a distance of 43 mi.
Lake Ontario, with all its bays and inlets, is navigable for vessels of all sizes.

inland navigation were, first, n. from Albany, through the Hudson to Fort Edward, thence a portage to Fort Ann, and thence by Wood Creek to Lake Champlain; and, second, w. from Albany, by way of the Mohawk, Wood Creek, Oneida Lake, and Oswego River, to Lake Ontario. Upon the latter route were portages at several of the rifts of the Mohawk, from the Mohawk to Wood Creek, and at Oswego Falls.

Tides.—The tides at New York Harbor and along the coast have been carefully observed, under the direction of the Coast Survey. The tidal wave from the Sound, as it moves forward in a wedge-shaped channel, becomes augmented, whilst that from Sandy Hook is slightly diminished. These two waves meet in East River, at points between Hell Gate and Throggs Neck.¹

Cranberry and French Creeks were boatable about 2 mi. from their mouths.
Indian River and Black Lake were navigable from Rossie to the foot of the lake.
Oswegatchie River is navigable in high water for rafts from Ox Bow to Ogdensburgh.
Rackett River was formerly boatable about 18 mi. from its mouth, but the navigation is now destroyed by dams. In the wilderness near the headwaters of this river are several miles of slack water navigation.
St. Regis River is navigable for steamboats 2 mi. from its mouth.
Salmon River, navigable to Fort Covington.
St. Lawrence River is navigable for vessels of any size from the Lake to Ogdensburgh. Below that point rafts, arks, and boats could descend, but could ascend only by towing with horses and cattle up the principal rifts. Locks and canals have been constructed around the Rapids by the Canadian Government, so that the navigation for steamboats, sloops, and schooners is now uninterrupted from Lake Ontario to the ocean.
Wood Creek was boatable from Fort Ann to Lake Champlain.
Lake George is navigable for boats and steamers.
Lake Champlain is navigable for all kinds of vessels. Rafts were formerly sent down to the St. Lawrence; but vessels could not ascend the Richlieu until after the construction of a canal and locks around the Rapids.
Chazy River is navigable to Champlain Landing.
 The navigable waters of the great watershed were as follows:
Allegheny River, in high water, is navigable for small steamers up to Olean.
Conneawango Creek and several of its tributaries are navigable for rafts in high water.
Susquehanna River was navigable for hosts, in high water, to Otsego Lake.

Unadilla River was also boatable for a considerable distance.
Chenango River and several of its tributaries were boatable in high water.
Chemung River was boatable and navigable for rafts in high water.
Conhocton River was boatable to Bath.
Tioga River and the *Cumsteeo* were also boatable a considerable distance.
Delaware River is navigable for rafts in high water. Immense quantities of lumber have been floated down the Delaware and Susquehanna to the markets of Philadelphia and Baltimore.
Hudson River is navigable for ships to Hudson, and by sloops and steamers to Troy. Boats formerly ascended to Fort Edward, with portages around the Falls.
Rondout and Wappinger Creeks are navigable each about 2 mi. from their mouths.
Mohawk River was boatable from Schenectady to "Fort Stanwix," now Rome, with several interruptions. The principal obstructions were the "Six Plate Rift," 6 mi. above Schenectady; "Fort Hunter Rift;" "Caughaawaga Rift," at Canajoharie; "Whites Rift," near Fort Plain; "Kaehishens Rift," near the Upper Indian Castle; and the "Little Falls," which was a complete bar to upward navigation and required a portage around it.
Sacandaga River is navigable for small steamers from Hadley to Northampton,—a distance of 20 mi. In and around New York and Long Island the bays, creeks, and inlets are nearly all navigable in high tide.
Peconic River is navigable to Riverhead.
Byram River is navigable to Port Chester.
Bronx River is navigable to West Farms, a distance of 3 mi.
Harlem River can be navigated by small craft from East River to High Bridge.

¹ TIDE TABLES.

The following table, prepared by A. D. Bache, Superintendent of the Coast Survey, shows the progress of the tidal wave up the Hudson. The time is that after the last preceding transit of the moon across the meridian at Sandy Hook. The plane of reference is mean low tide.

GEOLOGY.

Our knowledge of the geology of the State is derived from the survey made under State authority from 1836 to 1843, and from the investigations of several eminent geologists who have examined particular localities.¹

Rocks.—The geological formations of the State include the igneous or primary rocks, and all the strata lying between them and the coal measures of Penn. The classification adopted by the State geologists, embracing all the rocks above the primary, is known as the "New York system," the rocks being identical with the Silurian and Devonian system of the English geologists. The igneous or primary rocks, including granite, gneiss, and other varieties destitute of organic remains, occupy the greater part of the mountainous region in the N. E. part of the State, the Highlands upon the Hudson, and a considerable portion of the country below, including Manhattan Island. A portion of these rocks are imperfectly stratified, and are generally found in broken and disrupted masses with the strata highly inclined. The remaining portions of the State are occupied by series of stratified rocks, generally extending E. and W. and varying in thickness from a few inches to several hundred feet. The strata overlie each other, and have a slight dip toward the S., so that a person in traveling from the N. border of the State to the Penn. line would successively pass over the exposed edges of the whole series. Toward the E. these strata all are bent, and appear to be arranged around the primitive region in the same order in which they lie elsewhere. The highest of the series of rocks found in the State forms the floor of the coal measures; so that it is perfectly futile to search for coal within the limits of the State. The rocks are distinguished by their color, quality, and situation, and by the fossils which they contain. In many instances a stratum disappears entirely, and in others strata of several hundred feet in thickness in one place are but a few feet thick in another. In places where many strata are wanting and two rocks usually widely separated are found in contact, the geologist is obliged to depend entirely upon the fossils which they contain to determine their classification.²

¹ In 1799, Dr. Samuel K. Mitchell, under the auspices of the "Society for Promoting Agriculture, Arts, and Manufactures," published an essay upon the rocks in the State. While the Erie Canal was in process of construction, Stephen Van Rensselaer employed Prof. Amos Eaton to prepare an account of the rocks along the canal route. This was published in 1824. Prof. Eaton's work was one of great merit; and to him we are indebted for the first accurate knowledge ever obtained of the general system of rocks in the State.

On the 15th of April, 1836, an act was passed authorizing a geological survey of the State. The State was divided into four districts, to each of which were appointed a geologist and an assistant. A zoologist, botanist, mineralogist, and paleontologist were appointed for the whole State.

The *First District* included the counties of Albany, Columbia, Delaware, Dutchess, Greene, Kings, New York, Orange, Putnam, Queens, Rensselaer, Richmond, Rockland, Saratoga, Schoenectady, Scholario, Suffolk, Sullivan, Ulster, Washington, and Westchester. Wm. W. Mather was appointed Principal Geologist, and Caleb Briggs, jr., Lang Cassels, and — Seymour, Assistants. The Report, in 1 vol. 4to, was published in 1843.

The *Second District*, consisting of the counties of Clinton, Essex, Franklin, Jefferson, St. Lawrence, and Warren, was placed under the charge of Dr. Ebenezer Emmons, Principal, and Jas. Hall and E. Emmons, jr., Assistants. The Report, in 1 vol., was published in 1842.

The *Third District*, consisting of the counties of Broome, Cayuga, Chenango, Cortland, Fulton, Herkimer, Lewis, Madison, Montgomery, Oneida, Onondaga, Oswego, Otsego, Tioga, and the E. half of Tompkins, was placed under charge of Lardner Van Uxem, Principal, and Jas. Eights and E. S. Can, Assistants. The Report, in 1 vol., was published in 1842.

The *Fourth District*, consisting of the counties of Allegany, Cattaraugus, Chautauque, Chemung, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Steuben, the W. half of Tompkins, Wayne, Wyoming, and Yates, was assigned to Jas. Hall, Principal, and J. W. Boyd and E. N. Horsford, Assistants. The Report was published in 1 vol. in 1843.

The *Mineralogical Department* was assigned to Dr. Lewis C. Beck, Principal, and Wm. Horton and L. D. Gale, Assistants. The Report, in 1 vol., was published in 1842.

The *Zoological Department* was assigned to Dr. Jas. E. De Kay, Principal, and John W. Hill, Draftsman. The Report, in 5 vols., was published in 1842-43:—Vol. I, Mammalia, with General Introduction by Gov. Seward; Vol. II, Ornithology; Vols. III and IV, Reptiles and Fishes; Vol. V, Mollusca and Crustacea.

The *Botanical Department* was assigned to Dr. John Torrey. The Report, in 2 vols., was published in 1843.

The *Agricultural Department* was assigned to Dr. Ebenezer Emmons. The Report, in 5 vols., was published from 1846 to

1854.—Vol. I, Soils and Climate; Vol. II, Analysis and Results of Experiments; Vols. III and IV, Fruits; Vol. V, Insects.

The *Paleontological Department* was assigned to T. A. Conrad, in 1837. He resigned in 1843, and was succeeded by Prof. Jas. Hall. The Report, to consist of 5 vols., is in process of publication. Two vols. are already issued; and the third is in press. A geological map, accompanying the Reports, is issued with this work.

² The following is the classification of the New York system, with the position which the different strata occupy in the classification of English geologists. The order of the arrangement is from below upward:—

	PRIMITIVE OR IGNEOUS ROCKS.	
	Taconic System.	
	{	Potsdam Sandstone.
	{	Calceiferous Sandstone.
	{	Chazy Limestone.
	{	Birdseye Limestone.
	{	Black River Limestone.
	{	Trenton Limestone.
	{	Slate Slata.
	{	Hudson River Group, Lorraine Shales.
	{	Oneida Conglomerate, Shawangunk Grit.
	{	Medina Sandstone.
	{	Clinton Group.
	{	Niagara Group, Coralline Limestone in the east.
	{	(Red Shales.
	{	Green Shales.
	{	Gypsum.

	{	Coshoga Shales.
	{	Gardean Flag Stones.
	{	Portago Sandstone.
	{	Chemung Group.
	{	Old Red Sandstone.
	{	Conglomerate of the Coal Measures.

LOWER SILURIAN.
UPPER SILURIAN.
NEW YORK SYSTEM.
DEVONIAN.

The Catskill Mts. are composed principally of Old Red Sandstone; and the tops of some of the higher peaks are covered with the conglomerate of the coal measures. New Red Sandstone is found in a few localities along the Hudson, below the Highlands. Trap, a rock of volcanic origin, forms the Palisades upon the Hudson; and trap dikes are common in the primitive region of the n. Tertiary clay, in deep strata, extends along the valleys of Lake Champlain and St. Lawrence River. Drift, including loose deposits of boulders, gravel, sand, and clay, is found in most parts of the State, in some places covering the rocks beneath to the depth of several hundred feet. The character of this drift, the peculiar forms which it has assumed, and the position which it occupies, all give evidence of some great general moving power which existed after the stratified rocks were lifted from their original beds, and ages before the present order of things was instituted.

Within more recent periods, considerable changes have been wrought by the action of present streams of water and the wasting agencies of the atmosphere and frost. From these are derived marl, alluvium, and the greater part of the soils. The thickness of the rock strata is generally determined by its outcrop along the ravines of the streams, and by Artesian wells, which have been sunk to a great depth in different parts of the State.¹

Metallic Minerals.—The principal metals in the State are iron and lead, the former only of which is found in sufficient quantity and purity to render its manufacture profitable. Iron ore is found in three distinct varieties, viz., magnetic oxide or magnetite, specular oxide or red hematite, and hydrous peroxide or limonite. Magnetic ore is widely diffused throughout the primitive region. It is usually found in beds between the rock strata, parallel to the mountain ranges; and sometimes it is blended with the rock. The beds in many places are immense in extent, and the ore is 75 to 95 per cent. pure iron.² Specular iron ore is found in narrow beds between the igneous and sedimentary rocks. It is principally found in St. Lawrence and Jefferson cos.³ A variety of this ore, known as argillaceous iron ore or clay ironstone, is associated with the lower strata of the Clinton group, extending from Herkimer to Monroe co. It is found in beds 2½ feet thick and about 20 feet apart, and its general form is that of flattened grains. Limonite is found also associated with the igneous rocks and in various other localities. It is usually in the form of shot or bog ore, or yellow ocher. It is wrought to a considerable extent in Richmond, Orange, Putnam, Dutchess, Columbia, Washington, Franklin, St. Lawrence, Jefferson, and Lewis cos. Bog ore is probably found, to a greater or less extent, in every co. in the State. The iron made from it is usually tough and soft.⁴

Lead ore is found in St. Lawrence, Ulster, Dutchess, Westchester, Orange, Columbia, Lewis, Jefferson, and Sullivan cos.; and in several of them the mines have been worked to some extent. The Rossie Mines, of St. Lawrence, are the only ones now wrought.⁵ Copper ore in the form of

New Red Sandstone.

Tertiary.

Diluvial or Drift.

Quaternary.

The Taconic system is claimed by some as corresponding to the Cambrian system of Mr. Sedgwick, and by others to be newer formations changed by heat.

".....	Little Sodus and Clyde.....	400	" " and gas.

The deepest Artesian well in the U. S. is at St. Louis, Mo., and is 2199 feet deep. A well at Louisville, Ky., is 2086 feet deep; and another at Columbus, Ohio, 1900 feet deep.

² The principal mines which have been worked in the northern primitive region are in Warren, Essex, Clinton, St. Lawrence, and Franklin cos. So common are particles of iron in the rocks of this region that the iron sand upon the banks of the streams is sufficiently pure to repay the labor of collecting for the forge. Magnetic ores are also abundant in Orange co., and mines have there been worked since the earliest periods. This ore has also been found among the igneous rocks of Rockland, Westchester, Putnam, Washington, Saratoga, Hamilton, Herkimer, Jefferson, and Lewis cos.

³ The principal mines in St. Lawrence and Jefferson cos. yield this variety of ore. It is most abundant in the towns of Gouverneur, Rossie, and Antwerp, and is there usually associated with crystalline sulphuret of iron, spathic iron, and quartz. The argillaceous ore supplies the furnaces in Oneida, Oswego, and Wayne cos. It is red, and imparts a dull red color to whatever it comes in contact with. In the region of mines and furnaces the clothing of the laborers, the trees, fences, and vehicles employed, are all colored by it. It is used as a paint, under the name of "Spanish Brown."

⁴ Bog ore is deposited in swamps, the bottoms of which are clay, hardpan, or some other strata impervious to water. It is continually accumulating, so that it may be removed two or three times in a century. It has various shades of color, from yellow to a dark brown. In the primitive region it sometimes assumes a stalactical or botryoidal form, with a fibrous texture and a glossy black surface. A loamy variety, when used in high furnaces, is liable to blow up. This is caused by the mass melting away below, leaving a crust above, and, as the support at last gives away, the moisture contained in the mass is suddenly converted into steam by the intense heat, and the liquid iron below is thrown out with great force, sometimes destroying the furnace.

⁵ A vein has recently been opened in Orange co. that promises great richness. Lead ore is usually found in the form of sulphurets, or galena. It is often associated with crystallized minerals of great beauty.

a sulphuret has been found in Washington, Jefferson, and St. Lawrence cos., but not in sufficient quantities to render mining profitable. Zinc ore in the form of a sulphuret, or blende, is found, associated with lead, in St. Lawrence co. Manganese, titanium, nickel, and several other metals, have been found in small quantities, though they have never been reduced except in the laboratories of the chemist.¹

Non-Metallic Minerals.—The most valuable non-metallic minerals in the State are limestone, gypsum, waterlime, pipeclay, clay and sand suitable for common and fire brick and pottery, graphite, talc, and slate. Nearly every part of the State is well supplied with building stone; and in most of the counties extensive quarries have been worked. Lime, waterlime, and gypsum are also extensively quarried.²

Mineral Springs are numerous, and are found in nearly every co. in the State. The most celebrated of these are the salt springs of Onondaga, the medicinal springs of Saratoga, and the thermal springs of Columbia co. Sulphur and chalybeate springs are common, and many of them have considerable notoriety for medicinal properties.³ In the w. part of the State springs emitting nitrogen and carburetted hydrogen gas are numerous. In the limestone regions of the State the water is generally more or less impregnated with carbonate and sulphate of lime; and in many places tufa is deposited in large quantities by the water. The slow dissolving of the limestone rocks has given a cavernous structure to several localities, and in others it has formed deep holes in the ground. The caves of Albany, Schoharie, and Jefferson cos. are doubtless formed in this manner; and the peculiar sink-holes and craterean lakes of Onondaga are probably formed by the breaking of the superincumbent mass into the caverns beneath.

SEAT OF GOVERNMENT.

THE SEAT OF GOVERNMENT was originally fixed at New York City, and remained there until the Revolution, with occasional adjournments of the General Assembly and Executive Department on account of prevailing sickness. Such of the public records as related to the immediate interests of the crown were removed, by order of Gov. Tryon, in Dec. 1775, to the armed ship *Dutchess of Gordon*, and remained on board till Nov. 1781, when most of them were returned to the city.⁴ In June, 1776, the other public records were removed to Kingston, and, on the approach of the enemy in Oct. 1777, they were hastily taken to Rochester, Ulster county.⁵ They were soon afterward taken to Poughkeepsie, and in 1784 to New York. In 1797, commissioners were appointed to erect a building for the records in Albany, and an order dated July 31, 1798, authorized their removal thither⁶ and the permanent location of the seat of Government at that place.

The State House was begun in 1803 and finished in 1807, at the joint expense of the city and county of Albany and the State of New York. The original cost exceeded \$120,000, of which

¹ In many of the original patents of the mountainous regions upon the Hudson, reservations were made of all the gold and silver that might be found. To this day, however, these metals have not been found; though it is said that traces of silver have been discovered in several places.

² The following is a list of the most important quarries in the State:—

Gypsum is found in Cayuga, Madison, Onondags, Wayne, Orleans, and Genesee.

Limestone is quarried in most of the counties of the State except those along the Penn. line.

Water-Limestone is quarried in Erie, Jefferson, Lewis, Madison, Montgomery, Niagara, Onondaga, and Ulster.

Flagging is found in most of the southern counties, and in various other localities. The thin bedded sandstone of the Portage group furnishes the best varieties.

Building stone of excellent quality is found in nearly every section of the State. Granite and gneiss are extensively quarried in New York and Westchester and in the N. E. cos. of the State. The Potsdam sandstone, Black River limestone, the gray and Medina sandstone, and the Onondaga limestone all furnish excellent building stone. Most of the locks upon the Erie Canal are built of the last named stone. The shales of the Portage and Chemung group are separated into strata by hard, compact sandstone, excellent for building or flagging.

Marble is found and quarried in Westchester, Putnam, Dutchess, and Orange cos.

Roofing slate is quarried in Washington, Rensselaer, Columbus, and Dutchess cos.

³ The principal of these springs are those of Messena, St. Lawrence co.; Richfield, Otsego co.; Avon, Livingston co.; Sharon, Schoharie co.; New Lebanon and Stockport, Columbia co.; Chittenango, Madison co.; and Alabama, Genesee co.

⁴ Six years' close confinement on shipboard damaged some of these records almost beyond remedy. The most valuable were transcribed in 1798, under the direction of commissioners appointed by law.

⁵ The first State Legislature, then in session, hastily adjourned and met in Jan. at Poughkeepsie. The citizens of Goshen tendered the hospitalities of their village and the use of rooms, if the Legislature chose to remove thither. In March, 1778, a concurrent resolution directed the Secretary of State and the clerks of counties to put their records into strong and light enclosures, to be ready for instant removal in case of danger. The Legislature held its sessions at Poughkeepsie, Kingston, or New York, as suited convenience, until 1784, when it removed to Albany. Two sessions were afterward held at Poughkeepsie, and three at Albany, before the final removal to the latter place in 1797.

⁶ Philip Schuyler, Abraham Ten Broeck, Jeremiah Van Rensselaer, Daniel Hale, and Tannis T. Van Vechten were appointed commissioners. The edifice stood on the site of the present Geological and Agricultural Hall, and was torn down in 1855.

\$34,200 was paid by the city and \$3,000 by the county of Albany. It continued to be used for city, county, and State offices and courts until about 1832, when the State became the exclusive owner and the Capitol was fitted up for legislative and other public purposes. It stands at the head of State Street, 130 feet above the Hudson, and has in front a park of three acres enclosed by an iron fence. It is substantially built of stone faced with Nyack red freestone.¹

The State Library is a fireproof building in the rear of the State House and connected with it by a long corridor. It is built of brick and iron and faced on its two fronts with brown freestone. It is already nearly filled with books, manuscripts, and maps, which the State has been collecting for many years.²

The State Hall, situated upon Eagle Street, fronting the Academy Park, was erected in 1842. It is built of cut stone, with a colonnade in front, supported by six Ionic columns, and is surmounted by a dome.³ It contains the offices of the Secretary of State, Comptroller, Treasurer, Auditor of Canal Department, Canal Appraisers, Canal Commissioners, State Engineer and Surveyor, Division Engineers, Clerk of Court of Appeals, Superintendent of Public Instruction, Superintendent of Bank Department, Attorney General, and State Sealer of Weights and Measures.

The State Geological and Agricultural Hall, corner of State and Lodge Sts., is the depository of the specimens collected during the geological survey, and also contains the cabinet of the State Agricultural Society.⁴

¹ It is 90 feet broad, 50 high, and was originally 115 feet long. In 1854, 15 feet were added to the w. end. The eastern front has an Ionic portico with four columns of Berkshire marble each 3 feet 8 inches in diameter and 33 feet high. The north and south fronts have each a pediment of 65 feet base; and the doorways are decorated with columns and angular pediments of freestone. The entrance hall is 40 by 50 feet and 16 feet high, the ceiling of which is supported by a double row of reeded columns, and the floor is vaulted and laid with squares of Italian marble. Upon the north side of the hall are the office of Adjutant General and the Assembly Library, and on the south side the Executive Chambers. The remainder of the first story is devoted to the Assembly Chamber with its lobbies and postoffice. This chamber is now 56 by 65 feet and 28 feet high. The Speaker's desk is on the w. side, and the desks of the clerks are upon each side and in front of it. Desks of members are arranged in semi-circles in front. Upon the e. side is a gallery supported by iron pillars. The ceiling is richly ornamented in stucco. Over the Speaker's seat is a copy by Ames of a full length portrait of Stewart's Washington. In the second story, over the entrance hall, is the Senate chamber, 40 by 50 feet and 22 feet high. The President's desk is upon the s. side, and the desks of the Senators are arranged in a circle in front. On the n. side are the library and clerk room of the Senate, and on the s. the postoffice and room of the Sergeant at Arms. Over the President's seat is a crimson canopy, and opposite are the portraits of Gov. Geo. Clinton and Columbus. The latter was presented to the Senate in 1784 by Mrs. Farmer, a grand-daughter of Gov. Leisler, and had been in her family 150 years. Over the Assembly lobbies is the room of the Court of Appeals, and in the third story are the consultation rooms of this court, committee rooms of both houses, and part of the Senate Library. The courtroom of the Court of Appeals contains portraits of Chancellors Lansing, Sandford, Jones, and Walworth, Chief Justice Spencer, Abraham Van Vechten, and Daniel Cady. The inner Executive Chamber has a full size portrait of Gen. La Fayette, painted when he was in the city in 1825.

The roof of the State house is pyramidal, and from the center rises a circular cupola 20 feet in diameter, supporting a hemispherical dome upon 8 insulated Ionic columns. Upon the dome stands a wooden statue of Themis, 11 feet high, holding in her right hand a sword and in her left a balance.

² The State Library was founded April 21, 1813, and for nearly forty years was kept in the upper rooms of the Capitol. Its growth was comparatively slow until 1844, when its supervision was transferred from the State officers who had been ex-officio trustees to the Regents of the University. Their Secretary, the late Dr. T. Romeyn Beck, was eminently fitted for the task of building up an institution of this character. The library at the time of the transfer contained about 10,000 volumes. The number has increased during the subsequent 15 years to about 53,000. The present building, erected in 1853-54, is 114 feet long by 45 broad, was built at a cost of \$91,900, and opened to the public Jan. 2, 1855. The first floor is supported by stone pillars and groined arches, and the second floor and galleries by arched spans of iron filled with concrete. The roof, rafters, trusses, and beams, shelves, and principal doors are of iron, and the floors are paved with colored tile. The first story is devoted to the law department, and the second story to the general library, including a large number of costly presents from other Governments, a valuable series of MSS. and parchments relating to our colonial and early State history, and an extensive collection of medals and coins. The office of the Regents of the University is in the library building.

The library, formerly known as the "Chancellors' Library,"

was divided in 1840, and, with additions since made, now forms two public libraries, called the "Libraries of the Court of Appeals," one of which is located at Syracuse and the other at Rochester. They consist chiefly of law books, and are in charge of librarians appointed by the Regents and paid by the State. There is also a small library, for reference, in the consultation room of the Court of Appeals. Each of the judges of the Supreme Court and the Vice Chancellor of the Second District, under the late Constitution, held libraries owned by the State, which are for the use of the four judges of the Court of Appeals elected by the people of the State at large, and their successors in office. There is also a small library for the use of the Attorney General; and means are annually provided for the increase of each of these collections, chiefly from the income of moneys known as the "Chancellors' Library Fund" and "Interest Fund," which are kept invested by the Clerk of the Court of Appeals for this purpose.

³ This building is 135 by 88 feet and 65 feet high. The ceilings of the basement and of the two principal stories are groined arches, and all the rooms, excepting in the attic story, are fireproof. The basement and attic are each 10 feet and the two principal stories each 22 feet high. The building cost about \$350,000.

⁴ In 1842 the old State Hall was converted into a geological hall, and rooms were assigned in the same building to the State Agricultural Society. The old building was torn down, and the present Geological and Agricultural Hall erected in its place, in the summer of 1855. The Agricultural Rooms were dedicated Feb. 12, 1857, and the Cabinet was opened to the public Feb. 22, 1858. The present building is of brick, and is 4 stories high, besides the basement. In the rear is a spacious wing, of the same height as the main building. It contains a lecture room, the spacious geological cabinet, and the rooms of the State Geological Society. The basement is occupied by a taxidermist and a janitor. The building itself is subject to the order of the Commissioners of the Land Office. The Cabinet originated in the Geological Survey, and in extent and value it ranks among the first in America. Within the past year a series of English fossils has been given to the State by the British Government; and a valuable collection of shells, embracing several thousand species, has been recently presented and arranged by Philip P. Carpenter, an English naturalist. The Museum is designed to embrace a complete representation of the geological formations of the State, with their accompanying minerals and fossils, and of its entire native flora and fauna. The birds and quadrupeds are preserved by a skilful taxidermist, with the attitudes and appearance of life; and the reptiles and fishes are principally preserved in alcohol. Connected with this cabinet is a historical and antiquarian department, embracing numerous aboriginal antiquities and specimens of modern Indian art, relics of battle fields, and other objects of historical interest. The whole is under the charge of a curator appointed by the Regents. The museum of the State Agricultural Society, in a separate department of the building, contains a large collection of obsolete and modern implements of husbandry, specimens of agricultural and mechanical products, models of fruits, samples of grains and soils, drawings illustrating subjects connected with the useful arts; and it is designed to include an extensive collection of insects, made with especial reference to showing their influence upon the fruit and grain crops of the State. The entomological department is in charge of Dr. Asa Fitch, who has been for several years employed by the society in studying the habits of destructive insects, with the view to ascertaining the means of preventing their ravages. The whole of these collections are open to the public on every weekday except holidays. The meetings of the Executive Committee of the State Agricultural Society, and the winter fairs, are held in their rooms in this building.

STATE GOVERNMENT.

THE State Government consists of the Legislative, Executive, Judicial, and Administrative Departments; the powers and duties of the several officers being defined by the Constitution and regulated by law.

LEGISLATIVE DEPARTMENT.

The State Legislature is composed of a Senate and Assembly.

The SENATE consists of 32 members, chosen by single districts every two years, the whole number being chosen at once. The Lieut. Governor is *ex officio* President of the Senate, and has a casting vote in case of a tie. The Senate appoints a President *pro tem.*, who presides in the absence of the Lieut. Governor, and becomes *ex officio* Lieut. Governor in case of a vacancy in that office. The Senate with the Judges of the Court of Appeals forms a court for the trial of impeachments, and it ratifies or rejects the nominations of the Governor to a great number of offices.

The Senate elects the following officers: a clerk, sergeant-at-arms, assistant sergeant-at-arms, doorkeeper and assistants, librarian, and such other officers as may be deemed necessary.¹

The ASSEMBLY consists of 128 members, elected annually by single districts. The districts are re-apportioned once in ten years, after the State census is taken. The Speaker, or Presiding Officer of the Assembly, is elected by the members from their number, and usually appoints all committees. All bills upon financial matters must originate in the Assembly.

The Assembly elects the following officers: a Speaker, clerk, sergeant-at-arms, doorkeeper and two assistants. The Speaker appoints an assistant sergeant-at-arms, a postmaster and assistant, a janitor, keeper of the Assembly chamber, and several doorkeepers and pages.²

¹ The sergeant-at-arms is also librarian. The clerk appoints his deputies and assistants, and the President appoints a janitor, superintendent of the Senate chamber, and pages. Committees are usually appointed by the Lieut. Gov. The appointments are made for two years. About half a dozen reporters are admitted to seats within the Senate chamber. Standing committees in the Senate consist of 3 members.

SENATE DISTRICTS.

1. Queens, Richmond, and Suffolk Counties.
2. 1st, 2d, 3d, 4th, 5th, 7th, 11th, 13th, and 19th Wards of Brooklyn.
3. 6th, 8th, 9th, 10th, 12th, 14th, 15th, 16th, 17th, and 18th Wards of Brooklyn, and the town of Kings County.
4. 1st, 2d, 3d, 4th, 5th, 6th, 7th, 8th, and 14th Wards of New York.
5. 10th, 11th, 13th, and 17th Wards of New York.
6. 9th, 15th, 16th, and 18th Wards of New York.
7. 12th, 18th, 20th, 21st, and 22d Wards of New York.
8. Putnam, Rockland, and Westchester Counties.
9. Orange and Sullivan Counties.
10. Greene and Ulster Counties.
11. Columbia and Dutchess Counties.
12. Rensselaer and Washington Counties.
13. Albany County.
14. Delaware, Schenectady, and Schoharie Counties.
15. Fulton, Hamilton, Montgomery, and Saratoga Counties.
16. Clinton, Essex, and Warren Counties.
17. Franklin and St. Lawrence Counties.
18. Jefferson and Lewis Counties.
19. Oneida County.
20. Herkimer and Otsego Counties.
21. Oswego County.
22. Onondaga County.
23. Chenango, Cortland, and Madison Counties.
24. Broome, Tioga, and Tompkins Counties.
25. Cayuga and Wayne Counties.
26. Ontario, Seneca, and Yates Counties.
27. Chemung, Schuyler, and Steuben Counties.
28. Monroe County.

29. Genesee, Niagara, and Orleans Counties.
30. Allegany, Livingston, and Wyoming Counties.
31. Erie County.
32. Cattaraugus and Chautauque Counties.

² The clerk appoints his assistants and deputies, a librarian and assistant, a bank clerk, and a clerk's messenger. These officers are appointed for the session, except pages, who are changed in the middle of each session. Standing committees of the Assembly consist of 5 members, except those upon Ways and Means, the Judiciary, and Canals, each of which has 7 members. About 20 reporters are admitted and provided with seats within the bar. They usually share with members in extra appropriations for books, and in the privilege of mailing documents at the public expense.

ASSEMBLY DISTRICTS.

[Those Counties not enumerated in this list form but one District.]

ALBANY COUNTY.—FOUR DISTRICTS.

1. 1st Ward of Albany, Bethlehem, Coeymans, New Scotland, Rensselaerville, and Westerlo.
2. 8th and 10th Wards of Albany, Bern, Guelderland, and Knox.
3. 2d, 3d, 4th, 5th, 6th, and 8th Wards of Albany.
4. 7th Ward of Albany and Watervliet.

ALLEGANY COUNTY.—TWO DISTRICTS.

1. Allen, Almond, Angelica, Belfast, Birdsall, Burns, Caneadea, Centerville, Granger, Grove, Hume, New Hudson, Rushford, and West Almond.
2. Alfred, Alma, Amity, Andover, Bolivar, Clarksville, Cuba, Friendship, Genesee, Independence, Scio, Ward, Wellsville, Willing, and Wirt.

CATTARAUGUS COUNTY.—TWO DISTRICTS.

1. Allegany, Ashford, Carrollton, Elgin, Farmerdville, Franklinville, Freedom, Hinadale, Humphrey, Ischua, Machias, Olean, Portville, and Yorkshira.

The sessions of the Legislature commence on the first Tuesday in January, and members can only receive pay for 100 days. The business of each year begins *de novo*; but if an extra session is called by the Governor, bills are taken up where they were left at the last previous adjournment. Each house decides upon the qualifications of its own members; and both houses must concur in the election of U. S. Senators, Regents of the University, and Superintendent of Public Instruction. Bills, except measures of finance, may originate in either house, and must be

2. Bucklooth, Coldepring, Connewaug, Dayton, Ellicottville, East Otto, Great Valley, Leon, Little Valley, Mansfield, Napoli, New Albion, Otto, Perrysburgh, Persia, Randolph, and South Valley.

CAYUGA COUNTY.—Two Districts.

1. Brutus, Cato, Conquest, Ira, Mentz, Montezuma, Sennett, Sterling, Throop, Victory, and the 1st and 4th Wards of Auburn.
2. Aurelius, Fleming, Genoa, Ledyard, Locke, Moravia, Niles, Owaseo, Scipio, Sempronius, Springport, Snmmer Hill, Venice, and the 2d and 3d Wards of Auburn.

CHAUTAUQUE COUNTY.—Two Districts.

1. Bueti, Chautauque, Clymer, Ellery, French Creek, Harmony, Mina, Portland, Ripley, Sherman, Stockton, and Westfield.
2. Arkwright, Carroll, Charlotte, Cherry Creek, Ellicott, Ellington, Gerry, Hanover, Kiantous, Poland, Pomfret, Sheridan, and Villenova.

CHENANGO COUNTY.—Two Districts.

1. Columbus, Lincklaen, New Berlin, North Norwich, Norwich, Otselic, Pharsalia, Pitcher, Plymouth, Sherburnes, and Smyrna.
2. Afton, Bainbridge, Coventry, German, Guilford, Greene, McDonough, Oxford, Preston, and Smithville.

COLUMBIA COUNTY.—Two Districts.

1. Ancram, Claverack, Clermont, Copaka, Gallatin, German-town, Greenport, Hudson City, Livingston, and Taghkanick.
2. Ansterlitz, Canaan, Chatham, Ghent, Hillsdale, Kinderhook, New Lebanon, Stockport, and Stuyvesant.

DELAWARE COUNTY.—Two Districts.

1. Colchester, Delhi, Franklin, Hamden, Hancock, Masonville, Sidney, Tompkins, and Walton.
2. Andes, Bovina, Daveport, Harpersfield, Kortright, Meredith, Middleton, Roxbury, and Stamford.

DUTCHESS COUNTY.—Two Districts.

1. Amenia, Beekman, Dover, East Fishkill, La Grange, North-east, Pawling, Pine Plains, Stanford, Union Vale, and Washington.
2. Clinton, Hyde Park, Milan, Pleasant Valley, Poughkeepsie, City of Poughkeepsie, Red Hook, and Rhinebeck.

ERIE COUNTY.—Four Districts.

1. 1st, 2d, 3d, 4th, 5th, and 13th Wards of Buffalo.
2. 6th, 7th, 8th, 9th, 10th, 11th, and 12th Wards of Buffalo.
3. Alden, Amherst, Chicktown, Clarissa, Elma, Grand Island, Hamburg, Lancaster, Marilla, Newstead, Tonawanda, and West Seneca.
4. Anrora, Boston, Brandt, Colden, Collins, Concord, East Hamburg, Eden, Evans, Holland, North Collins, Sardinia, and Wales.

HERKIMER COUNTY.—Two Districts.

1. Fairfield, Herkimer, Little Falls, Manheim, Newport, Norway, Ohio, Russia, Salisbury, and Wilmurt.
2. Columbia, Daube, Frankfort, German Flats, Litchfield, Schuyler, Stark, Warren, and Winfield.

JEFFERSON COUNTY.—Three Districts.

1. Adams, Brownville, Ellsburgh, Henderson, Hounsfield, Lorraine, Rodman, and Worth.
2. Antwerp, Champion, Le Ray, Philadelphia, Rntland, Watertown, and Wills.
3. Alexandria, Cape Vincent, Clayton, Lymes, Orleans, Pamela, and Theresa.

KINGS COUNTY.—Seven Districts.

1. Flatbush, Flatlands, Gravesend, New Lots, New Utrecht, and the 8th, 17th, and 18th Wards of Brooklyn.
2. 1st, 6th, and 12th Wards of Brooklyn.
3. 4th and 10th Wards of Brooklyn.
4. 2d, 3d, and 5th Wards of Brooklyn.
5. 9th and 11th Wards of Brooklyn.
6. 13th, 14th, and part of 19th Wards of Brooklyn.
7. 7th, 15th, 16th, and part of 19th Wards of Brooklyn.

LIVINGSTON COUNTY.—Two Districts.

1. Avon, Caledonia, Cenesus, Genesee, Groveland, Leicester, Lima, Livonia, and York.
2. Montt Morris, North Dansville, Nunda, Ossian, Portage, Sparta, Springwater, and West Sparta.

MADISON COUNTY.—Two Districts.

1. Brookfield, De Ruyter, Eaton, Georgetown, Hamilton, Lebanon, Madison, and Nelson.
2. Cazenovia, Fenner, Lenox, Smithfield, Stockbridge, and Sullivan.

MONROE COUNTY.—Three Districts.

1. Brighton, Henrietta, Irondequoit, Mendon, Penfield, Perinton, Pittsford, Rush, and Webster.
2. The City of Rochester.
3. Chili, Clarkson, Gates, Greece, Ogden, Parma, Riga, Sweden, Union, and Wheatland.

NEW YORK CITY AND COUNTY.—SEVENTEEN Districts.

17 districts, corresponding to Aldermanic districts.

NIAGARA COUNTY.—Two Districts.

1. Lockport, Pendleton, Royalton, and Wheatfield.
2. Cambria, Hartland, Lewiston, Newfaue, Niagara, Porter, Somerset, and Wilson.

ONEIDA COUNTY.—Four Districts.

1. Deerfield, City of Utica, and Whitestown.
2. Augusta, Bridgewater, Kirkland, Marshall, New Hartford, Paris, Sangerfield, Verona, and Westmoreland.
3. Camden, Florence, Rome, Verona, and Vienna.
4. Amesville, Ava, Brownville, Floyd, Lee, Marcy, Remsen, Steuben, Trenton, and Western.

ONONDAGA COUNTY.—Three Districts.

1. Camillus, Clay, Elbridge, Lysander, Marcellus, Skaneateles, Spafford, and Van Buren.
2. Cicero, Salina, and Syracuse.
3. De Witt, Fabius, Geddes, La Fayette, Manlius, Onondaga, Otisco, Pompey, and Tully.

ONTARIO COUNTY.—Two Districts.

1. Farmington, Gorham, Hopewell, Manchester, Phelps, and Seneca.
2. Bristol, Canadice, Canandaigua, East Bloomfield, Naples, Richmond, South Bristol, South Victoria, and West Bloomfield.

ORANGE COUNTY.—Two Districts.

1. Blooming Grove, Chester, Cornwall, Monroe, Montgomery, Newburgh, and New Windsor.
2. Crawford, Deerpark, Goshen, Greenville, Hamptonburgh, Minieink, Mount Hope, Walkill, Warwick, and Wawayanda.

OSWEGO COUNTY.—Three Districts.

1. City of Oswego, Hannibal, Oswego, and Scriba.
2. Constantia, Granby, Hastings, Palermo, Schroepel, Volney, and West Monroe.
3. Albion, Amboy, Boyleston, Mexico, Orwell, Parish, Redfield, Richland, Sandy Creek, New Haven, and Williamstown.

OTSEGO COUNTY.—Two Districts.

1. Cherry Valley, Decatur, Exeter, Maryland, Middlefield, Otsego, Plainfield, Richfield, Roseboom, Springfield, Westford, and Worcester.
2. Unadilla, Burlington, Butternut, Edmeston, Hartwick, Laurens, Milford, Morris, New Lisbon, Otsego, Oneonta, and Pittsfield.

QUEENS COUNTY.—Two Districts.

1. Flushing, North Hempstead, and Oyster Bay.
2. Hempstead, Jamaica, and Newtown.

RENSSELAER COUNTY.—Three Districts.

1. City of Troy.
2. Berlin, Grafton, Hoosick, Lansingburgh, Petersburg, Pittstown, and Schaghticoke.
3. Brunswick, Clinton, Greenbush, Nassau, North Greenbush, Poestenkill, Sand Lake, Schodack, and Stephentown.

ST. LAWRENCE COUNTY.—Three Districts.

1. De Kalb, De Peyster, Fine, Fowler, Gouverneur, Macomb, Marjoretown, Oswegatchie, Pitcairn, and Rossie.
2. Canton, Colton, Edwards, Hermon, Lisbon, Madrid, Norfolk, Pierrepont, and Russell.
3. Braher, Hopkinton, Lawrence, Louisville, Massena, Parishville, Potsdam, and Stockholm.

SARATOGA COUNTY.—Two Districts.

1. Ballston, Charlton, Clifton Park, Galway, Halfmoon, Malta, Milton, Stillwater, and Watersford.
2. Corinth, Day, Edinburgh, Greenfield, Hadley, Moreau, Northumberland, Providence, Saratoga, Saratoga Springs, and Wilton.

passed by both, and receive the signature of the Governor,—or, if vetoed by him, the votes of two-thirds of both houses,—to become laws. The original laws of the Legislature, bearing the signatures of the presiding officer of each house and of the Governor and Secretary of State, are bound, and preserved in the Secretary's office. All general laws are published in such newspapers in each county as may be designated by the Board of Supervisors.

Besides the State Legislature, a limited power of enacting laws is possessed by the boards of supervisors in the several counties, by the common councils of cities, and by citizens generally assembled in town and school district meetings.

The Board of Supervisors meets annually at the county seat, on the week following the general election, to canvass the votes for State and county officers; it may hold special meetings at any time. It has power to appoint a clerk of the board, a county sealer of weights and measures, special commissioners for laying out roads, printers for publishing the general laws, inspectors of turn-pike and plank roads, and, in some counties, the Superintendent of the Poor, and other officers, and to fix the salaries of the county Judge and Surrogate, and of School Commissioners, (above \$500, allowed by law,) and, in some counties, the salary of the District Attorney; to establish the bounds of assembly and school commissioner districts, to fix upon town meeting days,¹ to make orders concerning property owned by the county, and to repair or rebuild the county buildings; to audit and settle charges against the county, and the accounts of town officers; to equalize assessments and levy taxes to meet county expenses, and for such special purposes as may be directed by law. It also has power to alter the bounds of towns, and to erect new towns; to change the location of the county seat and purchase sites for the erection of new buildings; and to examine annually the securities held by loan commissioners. It may pass laws for the preservation of game or fish, and for the destruction of noxious animals, and perform such other duties as may be from time to time authorized by law.

STUBEN COUNTY.—THREE DISTRICTS.

1. Avoca, Bath, Bradford, Conhocton, Prattsburgh, Pulteney, Urbana, Wayne, and Wheeler.
2. Addison, Cameron, Campbell, Caton, Corning, Erwin, Hornby, Lindley, Rathbone, Thurston, and Woodhull.
3. Canisteo, Dansville, Fremont, Greenwood, Hornellsville, Howard, Hartsville, Jasper, Troupsburgh, West Union, and Wayland.

SUFFOLK COUNTY.—TWO DISTRICTS.

1. East Hampton, Riverhead, Shelter Island, Southampton, and Southold.
2. Brookhaven, Huntington, Islip, and Smithtown.

ULSTER COUNTY.—THREE DISTRICTS.

1. Hurley, Kingston, and Saugerties.
2. Esopus, Gardiner, Lloyd, Marlborough, Marlborough, New Paltz, Plattekill, Rosendale, and Shawangunk.
3. Denning, Hardenburgh, Olive, Rochester, Shandaken, Wawarsing, and Woodstock.

WASHINGTON COUNTY.—TWO DISTRICTS.

1. Argyle, Cambridge, Easton, Fort Edward, Greenwich, Jackson, Salem, and White Creek.
2. Dresden, Fort Ann, Granville, Hampton, Hartford, Hebron, Kingsbury, Putnam, and Whitehall.

WAYNE COUNTY.—TWO DISTRICTS.

1. Butler, Galen, Huron, Lyons, Rose, Savannah, Sodus, and Wolcott.
2. Arcadia, Macedon, Marion, Ontario, Palmyra, Walworth, and Williamson.

WESTCHESTER COUNTY.—THREE DISTRICTS.

1. East Chester, Morrisania, Westchester, West Farms, and Yonkers.
2. Greenburgh, Harrison, Mamaroneck, Mount Pleasant, New Rochelle, North Castle, Pelham, Poundridge, Rye, Scarsdale, and White Plains.
3. Bedford, Cortlandt, Lewisboro, New Castle, North Salem, Ossining, Somers, and Yorktown.

1 TOWN MEETINGS.

Town meetings are held on the same day throughout the county; and the time may be changed once in 3 years. The town meetings must come between the 1st day of Feb. and the 1st of May. They are at present all held on Tuesdays, as follows:—

COUNTIES.	Tuesdays upon which Town Meetings are held.	COUNTIES.	Tuesdays upon which Town Meetings are held.	COUNTIES.	Tuesdays upon which Town Meetings are held.
Albany.....	2d in April.	Herkimer....	1st in March.	Richmond ...	2d in Feb.
Allegany... ..	2d in March.	Jefferson	3d in Feb.	Rockland.....	2d in April.
Broome.....	2d in Feb.	Kings	1st in April.	St. Lawrence ..	2d in Feb.
Cattaraugus ..	Last in Feb.	Lewis	3d in Feb.	Saratoga	1st in March.
Chayuga	1st after 1st Mon. in Mar.	Livingston... ..	1st in April.	Schenectady ..	3d in April.
Chautauque ..	3d in Feb.	Madison	1st in March.	Schoharie	1st in Feb.

Greene.....	1st in Feb.	Queens.....	1st in April.	Wyoming.....	Last in Feb.
Hamilton	1st in Feb.	Rensselaer... ..	1st in March.	Yates	Last in Feb.

At these meetings are elected, by ballot, a supervisor, town clerk, 4 justices, (with exceptions named on page —) 3 assessors, (for 3 years, 1 annually), a collector, 1 or 2 overseers of poor, (at the option of the town, excepting Montgomery and Kings counties, that are not included in the general law,) 1 or 3 commissioners of highways, (if 3, one elected annually for 3 years,) not more than 5 constables and 2 inspectors of election for

each election district, a third being appointed by the presiding officer of the town meetings from the two having the next highest vote. The town of Manlius elects 7 constables. Each town at its annual meeting also elects by ayes and noes, or otherwise, as many overseers of highways as there are road districts, and as many pound masters as the electors may determine.

The Common Council in each of the cities has jurisdiction over municipal affairs within limits fixed by law, and observes the usual formalities of legislative bodies in its proceedings. Two aldermen are generally elected from each ward, who, with the mayor, constitute the Common Council; but the organization of no two cities is in this respect exactly alike.¹ The enactments of the Common Council are usually termed "ordinances," and have the force of law. The council usually has the appointment of a large class of minor city officers, including the keepers of parks and public buildings, inspectors of various kinds, and in some instances the officers and members of the police and fire departments. These appointments are usually held at the pleasure of the appointing power.

Town Meetings may pass laws regulating roads and bridges, the height of fences, the support of the poor, the range of animals, the destruction of noxious weeds, the preservation of town property, and for such other purposes as may be directed by special acts. Every town is a corporate body, may sue and be sued, may hold and convey lands within its limits for purposes specified by law, and may appropriate moneys for public objects within the town.

School Districts, at regular meetings, may pass rules concerning the support of schools, employment of teachers, repairs, supplies, and similar affairs, which have the force of law.

EXECUTIVE DEPARTMENT.

The Governor is elected once in two years.² He is commander-in-chief of the military and naval forces of the State, and possesses the sole power of granting pardons and commutations of sentence after conviction.³ He issues requisitions for the return of criminals in other States, and he is authorized to offer rewards for the arrest of criminals within this State. He annually communicates to the Legislature, at the commencement of each session, a statement of the condition of the public departments, and such other matters as he may deem necessary. On extraordinary occasions he may convene the Senate or Legislature.⁴ Within ten days after its passage by the Legislature, he may veto any act, by returning it to the house in which it originated, with his objections; and such act can become a law only by the concurrence of two-thirds of both houses.⁵

The Governor nominates, for appointment by the Senate, a large class of State and county and a few military officers,⁶ and may fill vacancies occurring in these offices during the recess of the Senate. Some other classes of officers are appointed by the Governor alone,—generally for specific terms, but in some cases during pleasure. He may also fill vacancies occurring in elective offices, and

¹ In New York, the Common Council consists of two branches,—the Board of Aldermen, consisting of 17 members, chosen for 2 years; and the Board of Councilmen, consisting of 24 members, chosen annually, 6 from each senatorial district. Each of these branches elects one of its own number president; and the mayor possesses a veto power upon their laws analogous to that of the Governor upon those of the State Legislature.

² To be eligible to the office of Governor a person must be a citizen of the U. S., a resident of the State for the last 5 years previous to election, and must have attained the age of 30 years. The colonial governors of N. Y. were appointed by the crown. Under the Constitution of 1777 they were elected for 3 years and were required to be freeholders. Under the Constitution of 1822, the governor was elected for 2 years, and, in addition to the present qualifications, was required to be a native of the U. S. and a freeholder.

Under the first State Constitution electors were classified, and only those owning freehold property worth \$250 and upward were allowed to vote for Senators and Governor. The aggregate of the several classes at different periods has been as follows:—

YEARS.	Worth \$250 and upward.	to Worth \$50 \$250.	Not Freeholders, but renting tenements worth \$5.	Other electors.	Total.
1790.....	19,369	23,425	14,674	188	57,666
1795.....	36,338	4,838	22,598	243	64,017
1801.....	52,058	5,264	28,522	63	85,907
1807.....	71,159	5,800	44,330	88	121,289
1814.....	87,491	5,231	59,104	20	151,846
1821.....	100,490	8,985	98,085	20	202,510

³ In cases of treason and impeachment the Governor can only suspend sentence until the next session of the Legislature, that body alone possessing the pardoning power in such cases. Under the Constitution of 1777, the same restriction was applied in cases of murder.

⁴ He also possessed under the Constitution of 1777 the power to prorogue the Legislature for a period not exceeding 60 days in one year. This was once done by Gov. Tompkins, to defeat the passage of a bank charter, but without success.

⁵ The first court created a council of revision, consisting of the Governor, Chancellor, and judges of the Supreme Court, who sat with closed doors and observed the usual formalities of legislative proceedings. During the continuance of this council it rejected 144 bills, several of which became laws notwithstanding.

⁶ The following officers are appointed by the Governor and Senate: 1 Superintendent of Bank Department, 1 Auditor of Canal Department, 3 Canal Appraisers, 1 Superintendent of Onondaga Salt Springs, 6 Commissioners of Emigration, 5 Commissioners of Metropolitan Police, 11 Harbor Masters, 9 Wardens of the Port of N. Y., 2 Special Wardens to reside at Quarantine, 1 Harbor Master at Albany, 1 Health Officer at Quarantine, 1 Physician of Marine Hospital and not less than 4 assistants, 1 Resident Physician and 1 Health Commissioner for the city of New York, 1 Agent for the Onondaga Nation, 1 Attorney to Seneca Nation, directors in certain banks of which the State holds stock according to the amount held, as many Hellgate pilots as the Board of Wardens may recommend, 5 trustees of the Idiot Asylum, 9 trustees of State Lunatic Asylum, 2 commissioners in each co. for loaning moneys of the United States, as many notaries public as the law may allow or the Governor determine, and such other officers and special commissioners as are required from time to time by law. He appoints field officers of regiments and generals of brigades, when such regiments and brigades are not fully organized. Under the first constitution, almost every civil and military office was filled by the Council of Appointment, consisting of the Governor and 4 Senators, chosen annually by the Assembly. In 1821, 8,287

may remove, under limitations prescribed by statute, most State and county officers.¹ He has a private secretary, with a salary of \$2000, a clerk and a doorkeeper.

The Lieutenant Governor is elected at the same time as the Governor, and must possess the same qualifications. He discharges the duties of Governor when a vacancy occurs in that office. He is President of the Senate, having the casting vote in that body, a Commissioner of the Canal Fund and of the Land Office, a member of the Canal Board, a trustee of the Idiot Asylum and of Union College, a Regent of the University, and a trustee of the Capitol and State Hall.

The Secretary of State² is keeper of the State archives; is a Regent of the University, a Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, a trustee of the State Idiot Asylum, of Union College, of the Capitol, and of the State Hall. He has specific duties in relation to the publication and distribution of the laws; the issuing of patents for land, of commissions, pardons, and peddlers' licenses; the filing of the declarations of aliens, and the articles of association of companies under general laws; issuing notices of elections, receiving and reporting statistics of pauperism and crime from sheriffs and county clerks, and furnishing certified copies of laws and other documents in his office. He administers the oath of office to members of the Assembly, and other State officers. His deputy is *ex officio* Clerk of the Commissioners of the Land Office.

The Comptroller³ is the auditor of the public accounts, excepting those payable from the Canal and Bank Funds; a Commissioner of the Land Office and of the Canal Fund; a member of the Canal Board and of the Board of State Canvassers, and a trustee of the Idiot Asylum, of Union College, of the Capitol and State Hall. He has responsible duties in relation to the payment of appropriations made by the Legislature, the collection of taxes, and sale of lands sold for taxes, the management of funds, supervision of fire and life insurance companies, loaning of moneys, and other duties connected with the finances of the State. He reports annually to the Legislature the condition of the public funds, the receipts and expenses of the State, the condition of

insurance companies, and upon such other matters as he may from time to time be called upon by the Legislature for information. He has a deputy, an accountant, and about a dozen clerks.

The Treasurer⁴ receives all moneys paid into the treasury, and pays all warrants of the Comptroller, Auditor of the Canal Department, Superintendent of the Bank Department, and Superintendent of Public Instruction. He is a Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, and a trustee of Union College. He has a deputy, and two or three clerks.

The Attorney General⁵ is the legal prosecutor and adviser in behalf of the State. He is a

military and 6,663 civil officers held under this appointment, and most of them at will. From 1822 to 1846, the Governor and Senate appointed, in addition to most of those it now appoints, all judicial officers, except justices, Masters and Examiners in Chancery, Supreme Court Commissioners, inspectors for commercial purposes, Commissioners of Deeds, several city officers, and State Prison Inspectors.

¹ Representatives in Congress and members of the State Legislature can be elected only. The Governor appoints, on his own authority, Commissioners for taking acknowledgments of Deeds in other States and countries, wreck masters, and certain commissioners directed to be appointed for special purposes.

² The Secretary of State was formerly Clerk of the Council of Appointment and of the Council of Revision, and from 1823 to 1854 was Superintendent of Schools. In colonial times he was appointed by the crown; from 1777 to 1822, by the Council of Appointment; and from 1822 to 1846, by the Legislature.

³ This office was created in 1797, in place of that of Auditor General, formed by the Provincial Convention; but it was not permanently organized until 1812. The Comptroller was appointed by the Council of Appointment until 1822, when the appointing power was changed to the Legislature and the tenure of the office fixed at 3 years.

⁴ The office of Treasurer, under the colonial government and early years of state government, was a very important one; and for many years after 1777, the Treasurer was appointed by special act from year to year. About the beginning of the present

century, the defaulting of a Treasurer occasioned a revision of the law creating the department; and, from his being the principal financial officer of the government, the Treasurer became the most important, and his powers were narrowed down to the payment of the drafts of other officers. For many years previous to 1822 he was appointed by the Council of Revision; and from 1822 to 1846, by the Legislature. The accounts of the Treasurer are annually compared with those of the Comptroller, Superintendent of Bank Department, and Auditor of the Canal Department, by a commissioner appointed for the purpose; and these officers thus become a check upon each other. The Treasurer may be suspended for cause, by the Governor, in the recess of the Legislature.

⁵ This office has existed almost from the beginning of the Colonial Government. It was filled by the Council of Appointment from 1777 to 1822, and by the Legislature, with a term of 3 years, from 1822 to 1846. The Attorney General originally attended the circuits of Oyer and Terminer, as prosecutor in criminal suits, until 1796, when the State was divided into 3 districts, to each of which an assistant Attorney General was appointed, except in New York, where the head officer officiated personally. In 1818 each co. was made a separate district, and a District Attorney was appointed in each. The Attorney General still occasionally attends upon important criminal trials; but his time is chiefly occupied in civil suits in which the State is a party.

Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, and a trustee of Union College, of the Capitol, and State Hall. He has a deputy and a clerk.

The State Engineer and Surveyor¹ has charge of the engineering department of the canals and such land surveys as involve the interests of the State. He reports annually the statistics of these departments and of railroads. He is a Commissioner of the Land Office, a member of the Canal Board and Board of State Canvassers, and a trustee of Union College and the State Hall. He must be a practical engineer. He is assisted by a deputy and 3 clerks.

JUDICIAL DEPARTMENT.

United States Courts.—The second of the U. S. Courts comprises New York, Vermont, and Connecticut. A court is held twice a year in each State by a Justice of the Supreme Court and the District Judge of the district in which the court sits.

The State of New York is divided into two Judicial Districts, in each of which is held a District Court.² The officers of this court in each district are a District Judge, Attorney, Marshal, and Clerk. In the Southern District a term is held in each month, at New York; and in the Northern District one term is held each year at Albany, Utica, Auburn, and Buffalo, and one term annually in St. Lawrence, Clinton, or Franklin co., as the Judge may direct.³ These courts have nearly concurrent original jurisdiction in all matters in which the United States is a party; and they take cognizance of offenses against the laws of the U. S. An appeal lies from the District to the Circuit Court, and thence to the Supreme Court.

State Courts.—The State Courts consist of a Court for the Trial of Impeachments, the Court of Appeals, the Supreme Court and Court of Oyer and Terminer, the County Court and Court of Sessions, Justices Courts, and City Courts.

The Court for the Trial of Impeachments consists of the Senate and the Judges of the Court of Appeals. Its judgments extend only to removal of officials and to disqualification for holding office.⁴ Parties impeached are liable to all the penalties of the civil and criminal laws. This court is a court of record; its meetings are held at Albany.

The Court of Appeals,⁵ instituted in 1847, is composed of 8 judges, 4 of whom are elected, (one every 2 years,) and 4 of whom are the Judges of the Supreme Court, having the shortest term to serve. The judge elected having the shortest term to serve is Chief Judge; and 6 judges constitute a quorum. This court has power to correct and reverse all proceedings of the Supreme Court, or of the former Supreme Court, and Court of Chancery. It holds 4 terms a year at the Capital; and every 2 years one term must be held in each Judicial District. Its clerk has an office in the State Hall, where the records of this and former State and Colonial Courts are preserved. The State Reporter prepares for the press and publishes the decisions of the court, copies of which are sent to each

county, and franked, under the Governor's hand, to each of the other States and Territories of the Union.

¹ This office takes the place of that of "Surveyor General" which existed under the colony. In the earlier years of the State Government, numerous and responsible duties were imposed upon this officer, under acts for the sale and settlement of lands, the adjustment of disputed titles, boundaries, and Indian claims, laying out roads, and other State property. These duties were discharged from 1784 to 1834 by Simeon De Witt, with great integrity and success.

² The Secretary of State, Comptroller, Treasurer, Attorney General, and State Engineer are elected biennially at the same time their election occurring on alternate years from those of the Governor and Lieut. Governor.

³ *Northern District Courts.*—There are two Districts within the Southern District embraces Columbia, Greene,

Ulster, Sullivan, and the counties South. The Northern District embraces the remainder of the State.

⁴ The United States has caused or ordered buildings to be erected in part for the accommodation of these courts at New York, Utica, Buffalo, Ogdensburg, Canandaigua, and Plattsburgh. These edifices are of the most substantial kind, and generally fireproof.

⁵ This court has assembled but once. In 1853 it was convened for the trial of impeachment of John C. Mather, Canal Commissioner. He was acquitted.

⁶ *Constitution, Art. VI, Sec. 2.* This court takes the place of the former "Court for the Correction of Errors," and in some respects fills that of the old Supreme Court and Court of Chancery.

The Supreme Court.—The State is divided into 8 Judicial Districts,¹ in each of which, except the first, 4 justices are elected. The clerks of counties are clerks of this court. It has general jurisdiction in law and equity, and power to review the judgments of the County Courts and of the former Court of Common Pleas. This court has three distinct branches,—General Terms, Special Terms, and Circuits. The *General Term* held by three or more of the Supreme Judges, including the presiding judge, is an appellate court for the review of cases from the courts below, and for deciding solely upon questions of law. *Special Terms* are held by one Supreme Judge, without a jury, for the decision of equity cases; and *Circuit Courts* are held by one Supreme Judge, with a jury, for the trial of issues of fact. At least four general terms of this court are held in each district every year. Every county (except Hamilton) has at least one special and two circuit courts annually. A general term of the Supreme Court is held at the Capital in January of each alternate year, for the purpose of arranging the terms of all the Circuit Courts and Courts of Oyer and Terminer, of assigning the business and duties of the justices, and revising the rules of the court.

County Courts are held by the County Judge,² assisted by two justices of the peace elected annually for the purpose. The judge performs the duty of surrogate, except in counties where the population exceeds 40,000, in which the Legislature may provide for the election of a separate officer as surrogate.³ The Legislature may direct the election of local officers, not exceeding two in any county, to discharge the duties of judge and surrogate in case of inability or vacancy in that office, and to exercise such other powers as may be provided by law.⁴ Judges and surrogates receive a salary fixed by the Supervisors, and which cannot be increased during their term of office.

County Courts have jurisdiction in civil cases when the real estate, or all the defendants, or all the parties interested are within the co., and where the action of debt assumptit or covenant claimed is not above \$2,000, or in actions for injury to the person, or trespass upon property, where the damage claimed does not exceed \$500; or in replevin suits where the value claimed is not above \$1,000. These courts have equity jurisdiction for the foreclosure of mortgages, the sale of the real estate of infants, the partition of lands, admeasurement of dower, the satisfaction of judgments over \$75, and the care and custody of lunatics and habitual drunkards. Surrogate's Courts are held by the County Judge or Surrogate, (in counties where the latter is elected,) and have the ordinary jurisdiction of Courts of Probate.

Justices' Courts are held by justices of the peace, who have jurisdiction in civil suits where the sum claimed does not exceed \$100 in value.⁵ They have jurisdiction in criminal cases for imposing fines to the amount of \$50, and of inflicting imprisonment in the county jail for a term not exceeding 6 months.⁶

Tribunals of Conciliation may be established, and their powers and duties prescribed by law; but their judgments are not obligatory unless the parties previously agree to abide by such decision.⁷

City Courts. In each of the cities and in several of the larger villages are courts of local jurisdiction organized under special laws.⁸

¹ *New York State Judicial Districts under the Act of May 8, 1847* :—

1. City and County of New York.
2. Dutchess, Kings, Orange, Putnam, Queens, Richmond, Rockland, Suffolk, and Westchester Counties.
3. Albany, Columbia, Greene, Rensselaer, Schoharie, Sullivan, and Ulster Counties.
4. Clinton, Essex, Franklin, Fulton, Hamilton, Montgomery, St. Lawrence, Saratoga, Schenectady, Warren, and Washington Counties.
5. Herkimer, Jefferson, Lewis, Oneida, Onondaga, and Oswego Counties.
6. Broome, Chemung, Chenango, Cortland, Delaware, Madison, Otsego, Schuyler, Tioga, and Tompkins Counties.
7. Cayuga, Livingston, Monroe, Ontario, Seneca, Steuben, Wayne, and Yates Counties.
8. Allegany, Cattaraugus, Chautauque, Erie, Genesee, Niagara, Orleans, and Wyoming Counties.

² From 1777 to 1822 Judges were appointed by the Council of Appointment; and from 1822 to 1846, by the Governor and Senate. One in each co. was styled "First Judge;" and a fixed number (subsequently 4) of others were called Judges.

³ Surrogates are elected in Albany, Cayuga, Chautauque, Columbia, Dutchess, Erie, Jefferson, Kings, Monroe, New York, Oneida, Onondaga, Ontario, Orange, Otsego, Rensselaer, St. Lawrence, Saratoga, Ulster, Washington, Wyoming, and Yates cos. *Constitution, Art. VI, Sec. 15.* Special acts have been passed for this purpose, as follows:—*Special Judge and Special Surrogate in Cayuga, Chautauque, Jefferson, and Oswego, 1849; Washington, 1855. Special Judge in Oneida, Orange, St. Law-*

rence, and Tioga, 1849; Ulster, 1850; Chenango, 1851; Sullivan, 1854; Essex, 1857; and Tompkins, 1858. The term for which these officers are elected is 3 years, except in Chenango, Tompkins, and Ulster, in which it is 4 years.

⁵ There are 4 justices elected in each town except Champlain, Ellieburgh, Fort Ann, Hanover, Harmony, Hector, Lenox, Niagara, Pomfret, and Potsdam, which have each 5, and Brookhaven, which has 8. Justices were appointed by the Council of Appointment from 1777 to 1822, and by the Supervisors and Judges from 1824 to 1827, since which they have been elected.

⁶ *Revised Statutes, Art. 1, Title 4, Chap. 2, Part 3.*

⁷ *Constitution, Art. VI, Sec. 23.*

⁸ The principal City Courts are as follows:—

In Albany.—A Mayor's Court, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly, or either of them singly. It is practically held by the Recorder only; a Court of Special Sessions, held by the Recorder or County Judge, with one or more Justices; a Justices' Court, held by 3 Justices elected for the purpose. Two Police Justices elected.

In Auburn.—Justices' and Police Courts. Three Justices of the Peace elected.

In Brooklyn.—The City Court, held by the City Judge; Police Courts and Justices' Courts, for whose convenience the city is divided into 5 districts; a Court of Special Sessions, held by a Justice or Police Justice.

In Buffalo.—A Superior Court, held by 3 Justices; Justices' and Police Courts. Eight Justices of the Peace and one Police Justice elected.

The officers in each county, auxiliary to the judiciary, are as follows:—

The District Attorney,¹ who is the official prosecutor in all criminal cases coming before the county courts, and has general duties in relation to suits in which the county has an interest.

The Sheriff,² who is charged with the preservation of the public peace and the execution of the orders of the courts. He has charge of the jail and prisoners, and appoints as many deputies as he may deem necessary. He can hold no other office, and is ineligible to the same office for the next 3 years after his term expires. He is required to give bonds, in default of which the office becomes vacant.

The County Clerk, who is made the keeper of the county records. He attends the courts and records their proceedings, records deeds and mortgages, files papers and documents required by law to be preserved in his office, and is the medium of communication between State and town officers. He is the clerk of the Supreme Court for his county. He appoints a deputy, who, when duly sworn, may discharge all his duties.

Four Coroners, who are charged with the duty of inquiring into the cause of sudden deaths. Upon being notified, it is their duty to attend at the place where a dead body is found, summon a jury and witnesses, examine into the causes, and make a written report to the county clerk. They also have the sole power of issuing writs against sheriffs.

A Register, performing that part of the duties of county clerks relating to the recording of conveyances and mortgages, is elected in New York, Kings, and Westchester counties; and each of these appoints a deputy.

Commissioners of Deeds, to take acknowledgments of deeds and legal documents, are appointed by the Common Councils of cities in such numbers as they may decide, except in New York, where the number is limited to 300. In towns the duties of the office are performed by justices.³

Notaries Public are appointed by the Governor and Senate for a term of 2 years, and have authority to demand and accept payment of foreign bills of exchange, and to protest the same for nonpayment, and to exercise the customary duties of this office. Their number is limited to 400 in New York, 25 in Troy, and in other cities and towns as many as the Governor may deem proper.

Criminal Courts. Courts for the trial of criminal cases consist of the Court of Oyer and Terminer connected with the circuit of the Supreme Court, the Court of Sessions connected with the County Court, City Criminal Courts, and Justices' Courts.⁴

Courts of Oyer and Terminer consist of a Justice of the Supreme Court associated with the County Judge and two Justices of the Sessions, (except in New York City,) the Supreme Judge and two of the others constituting a quorum for trials. This court has original and general jurisdiction.

Courts of Sessions are held by the County Judge and two Justices of Sessions. They have jurisdiction over cases in which the imprisonment in case of conviction is less than ten years. The inferior City Courts and Justices' Courts have jurisdiction over petty criminal cases.

In Hudson.—A Mayor's Court, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly or singly; a Justices' Court, held by 2 Justices. One Police Justice elected.

In New York.—The Superior Court, consisting of a Chief Justice and 6 Justices; the Court of Common Pleas, composed of 3 Justices; the Marine Court, composed of 3 Justices; the Court of Oyer and Terminer, held by a Justice of the Supreme Court; the Court of General Sessions, held by the Recorder or City Judge; the Court of Special Sessions, held by the Recorder or City Judge without a jury; Police Courts, held by Special Justices in 4 separate districts; and Justices' or District Courts, held in 6 separate districts.

In Oswego.—A Recorder's Court, held by the Recorder, or, in his absence, by the Mayor or any two Aldermen; a Court of Special Sessions, held by the Recorder. Two Justices elected.

In Poughkeepsie.—Justices' and Police Courts.

In Rochester.—Justices' and Police Courts. Three Justices of the Peace and 1 Police Justice elected.

In Schenectady.—Justices' and Police Courts. Four Justices elected.

In Syracuse.—Justices' and Police Courts. Three Justices of the Peace and 1 Police Justice elected.

In Troy.—A Mayor's Court, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly, or either singly. Practically it is held by the Recorder; a Justices' Court, held by 3 Justices elected for the purpose.

In Utica.—A Recorder's Court, held by the Recorder; a Court of Special Sessions, held by the Recorder and 2 Aldermen. Four Justices and 1 Police Justice elected.

¹ By an act passed April 14, 1852, the supervisors may determine whether this shall be a salaried office, and may fix the com-

ensation. In the absence of such action, the District Attorney is paid by fees.

² Constitution, Art. X., Sec. 1. From 1777 to 1822 sheriffs were appointed annually by the Governor and Council, and could not hold the office more than 4 successive years. They have been elected since 1822.

³ Special commissioners for this service were appointed in the several cos. by the Council of Appointment under the first Constitution, and by the Governor and Senate under the Constitution of 1821. The Governor may appoint, for a term of 4 years, any number of persons not exceeding 5, in any city or co. of other States and of Canada, to take acknowledgments of instruments or conveyances to be recorded in this State. The consuls, vice-consuls, and ministers of the U. S. in foreign countries, the mayors of London, Liverpool, and Dublin, the provost of Edinburgh, and persons appointed by the Governor, not exceeding 3 in each of the cities of London, Liverpool, Glasgow, Paris, and Marseilles, may also perform this duty, and administer oaths or affirmations substantiating proofs to documents requiring to be recorded or to be produced in evidence within this State.

⁴ In 1829, co. clerks were required to report to the Secretary of State a transcript of all convictions and the sentences thereon. The intention of this act was to establish evidence in case of the trial of the same person for a second offense, in which the punishment for the same crimes is enhanced in severity. In 1837, the Secretary of State was required to report a statement of all convictions reported under this act, and annually afterward to lay before the Legislature a like summary. In 1839, sheriffs were also required to report the name, occupation, age, sex, and native country of every person convicted, and such other information as might indicate degree of education, the effect of home influences, and such other details as might be required. Under the administration of E. W. Leavenworth, the statistics of crimes

ADMINISTRATIVE DEPARTMENT.

Under the head of the Administrative Department are classed the officers charged with the general administration of the affairs of canals, of State prisons, of the salt springs, of academic and common school education, and other public interests, each of which is particularly noticed elsewhere. It also includes a variety of other offices, the principal of which are as follows:—

The County Treasurer is charged with the duty of receiving all moneys collected by tax, or otherwise payable into the county treasury, of paying all orders issued by the Supervisors, and of accounting to the Comptroller of the State for such moneys as are due to the State treasury. He is required to give bonds; and in case of vacancy the office is filled by appointment of the Supervisors until the January following the next general election.

Superintendents of the Poor have charge of the county poor and of the poorhouses, unless otherwise provided by law. The Supervisors may elect to have 1 or 3 superintendents. In several of the counties, special laws exist with regard to this office.¹

Commissioners of Excise are appointed by the County Judge and the two Associate Justices, except in New York, where the Chief Justice of the Superior Court, the presiding Judge of the Court of Common Pleas, and the Recorder, have the appointing power. They meet annually on the third Tuesday of May, to grant licenses for selling liquors and keeping inns under restrictions fixed by law. This office was created April 16, 1857. Twenty freeholders must unite in a petition for a license; and the same person can sign but one petition. Licenses cost \$30 to \$250 each.

from the first reports to, and including, 1854 were published, which gave the following results:—

New York State Prison received from 1798 to 1827 inclusive, 5,879 prisoners: died, 765; escaped, 25; sentence expired, 1,262; pardoned, 3,160; removed, 348; natives of N. H., 99; Vt., 114; Mass., 392; R. L., 110; Ct., 391; N. Y., 2,426; N. J., 314; Penn., 234; Del., 21; Md., 75; Va., 69; other States, 43; B. A., 87; W. I., 141; S. A., 12; Eng., 247; Ire., 656; Scot., 79; Ger., 68; Hol., 22;

Fr., 49; Spain, 6; Italy, 13; Portugal, 6; Sweden, 10; Norway, 2; other European countries, 18; Africa, 26; E. I., 8; unknown, 152; crimes against the person, 280; against property, with violence, 291; without violence, 4,016; forgery, and against the currency, 728. Sentence varied from 7 me. to life, the most being as follows: 1 year, 242; 2 years, 259; 3 years, 581; 3 years 1 day, 278; 4 years, 604; 5 years, 764; 7 years, 820; 10 years, 234; 14 years, 239; life, 603.

Convictions in Courts of Record from 1830 to 1856.

Table with 11 columns: YEARS, Against the Person, Against Prop-erty, with violence, Against Prop-erty, without violence, Against the Currency, and Forgery, Other offenses, Total, and corresponding columns for years 1845-1856.

Of the 1712 convicted in 1858, 1582 were males and 130 females. The number of convictions reported by sheriffs falls short of that by clerks for the obvious reason that many who are fined pay down their penalties and never come into the sheriff's hands. The excess reported by clerks from 1839 to 1854 varied from 172 to 1,000 annually. Males form about 94 per cent. of all convictions reported by clerks, 93 1/2 per cent. of those reported by sheriffs, and 85 per cent. of those convicted in courts of special sessions. The results of trial compared with total indictments have varied in different years within the following limits:—

Ratio of convictions to indictments..... 593 to 639.
" acquittals " 249 to 330.
" conviction of juries " 313 to 325.
" disencumber on confess'n " 182 to 300.

The least number of convictions reported from 1829 to 1855, in proportion to population, was in 1824, when it was 1 to 2,444. The greatest number was in 1845, when it was 1 to 1,542.

Pardons.—The number of pardons granted from 1778 to 1864 inclusive, was 8,793; of which 160 were from fines, 160 from fines and imprisonment, 1,285 from jails and local prisons, 5,747 from State prison for term of years, and 559 from State prison for life. Of the whole number, 1,640 were conditioned mostly to leaving the State or U. S., 807 were restored to rights of citizens, 69 were respited from capital offenses. The pardoning power has been exercised as follows:—

Table listing names and counts: George Clinton (308), John Jay (160), Morgan Lewis (213), Daniel D. Tompkins (1,693), John Taylor (223), De Witt Clinton (2,289), Joseph C. Yates (291), Nathaniel Pitcher (228), Martin Van Buren (324), Enos T. Throop (415), Wm. L. Marcy (834), Wm. H. Seward (377), Wm. C. Beac (279), Silas Wright (282), John Young (268), Hamilton Fish (97), Washington Hunt (346), Horatio Seymour (456), Myron H. Clark (630), John A. King (426).

¹ The salary of these officers, where there is but one in a county, is fixed by the Snperisors; but in those counties where there are 3 they are usually paid for the time employed.

Albany has none. Chemung, Clinton, Dutchess, Essex, Franklin, Fulton, Genesee, Herkimer, Jefferson, Montgomery, Orange, Orleans, Otsego, Putnam, Schoenectady, Schuyler, Sullivan, and Ulster, have each one; and these in italic are appointed by Supervisors. In early times each town reported its own poor, and where persons who had not acquired residence became chargeable, they were sent from town to town back to the place where they had formerly resided. A very able report was presented to the Senate by J. V. N. Yates, Secretary of State, Feb. 9, 1824, upon the subject of the "laws for the relief and settlement of the poor" in which he advised the erection of one or more houses of employment in each co., in which paupers might

he maintained and employed at the county charge, and that children at suitable ages should be put out to some useful trade. An act was accordingly passed Nov. 27, 1824, authorizing the establishment of county poorhouses. In most of the counties such institutions were established within a few years. They were located upon farms, which were designed to be worked, as far as practicable, by the inmates. The towns in Queens and Suffolk counties have mostly town poorhouses, and in these there are no county establishments of this kind. The county of Albany supports its poor at the city almshouse.

In most counties a distinction is made between town and county poor, the former including those who have gained a residence; and this distinction may be made or not, at the option of the Board of Supervisors. Temporary relief may be extended in cases where the pauper cannot be removed, or for other causes satisfactory to the Superintendents. Towns may vote at town meetings the sum estimated to be necessary for the support of their own poor.

The following tables and summaries are from the last annual Report of the Secretary of State:—

Statistics of Poorhouses and of the Support of the Poor, for the year ending Dec. 1, 1858.

COUNTIES.	Acres of land attached to Poor-house.	Estimated value of Poor-house establishments.	Value of labor of paupers.	Weekly expenses of each person.	Number of county paupers, retained or supported.	Number of town paupers retained or supported.	Number of persons temporarily retained.	Expenses connected with the county Poorhouses.	Expenses of administering temporary relief.	Whole expense of support of county and town paupers ending December 1, 1858.

Loan Commissioners¹ are appointed in each county by the Governor and Senate, except in Onondaga, where they are elected. They are paid $\frac{1}{4}$ to $\frac{3}{8}$ of one per cent. on all moneys loaned, and are obliged to give bonds and report annually to the Comptroller.

School Commissioners are elected one in each Assembly District, and under certain circumstances another may be added. They are required to examine and grant certificates to teachers, visit schools, apportion the public moneys, and report to the Superintendent of Public Instruction. The Board of Supervisors in the counties have the power of arranging the several commissioner districts and of increasing the salary of the commissioners above \$500. All cities, and many villages, are under special laws with regard to schools, and are more or less exempt from the jurisdiction of County School Commissioners.²

Sealers of Weights and Measures are appointed for the State and for each county and town. The State Superintendent has an office at Albany, and he furnishes to the several counties and towns standard sets of weights and measures.³ The County Sealer keeps the Standards

Children under 16.—Males, 2,776; Females, 3,045. Total, 5,821. Number of children instructed, 3,219. Average 8 months in the year.

¹ The first State loan was made by an act passed April 18, 1786, creating bills of credit to the amount of \$500,000, the most of which was apportioned among the counties in proportion to their supposed wants, and loaned by officers appointed for the purpose. These bills were of convenient denominations and circulated as money. They were receivable in payment of taxes, and for some purposes were legal tender. This loan was distributed among the counties then existing, as follows:—

Albany.....	\$55,000	New York.....	\$80,000	Suffolk.....	\$25,000
Dutchess.....	42,500	Orange.....	25,000	Ulster.....	31,000
Kings.....	11,250	Queens.....	25,750	Washington	7,500
Montgomery	30,000	Richmond.....	11,250	Westchester	23,750

The sum of \$79,447.53 remained due on the loan of 1786 at the beginning of 1810, and the whole was finally called in in 1830.

By an act of March 14, 1792, another loan of \$500,000 was made and distributed among the counties, as follows:—

Albany.....	\$41,000	New York.....	\$48,250	Saratoga.....	\$26,000
Clinton.....	3,500	Ontario.....	3,000	Suffolk.....	24,000
Columbia.....	40,750	Orange.....	27,250	Tioga.....	6,500
Dutchess.....	68,000	Otsego.....	7,500	Ulster.....	40,600
Herkimer.....	7,000	Orleans.....	21,500	Washington	33,500
Kings.....	4,750	Rensselaer.....	33,500	Westchester	35,250
Montgomery.....	23,500	Richmond.....	4,750		

A third loan of \$400,000 was authorized to the several counties, excepting New York, Kings, Queens, Richmond, Suffolk, and Westchester, in proportion to the number of their electors. In case the Supervisors of these counties applied for a share, a further sum of \$50,000 was authorized to be issued. In 1819 the above loan was transferred to the Common School Fund. In 1850 the office of Loan Commissioner for the loans of 1792 and 1808 was abolished, and the loans remaining in their hands were transferred to the custody of the commissioners for loaning the U. S. Deposit Fund.

The U. S. Deposit Fund originated as follows: An Act of Congress, passed June 23, 1836, directed the surplus in the treasury on the 1st day of Jan. 1837, excepting \$5,000,000, to be deposited with the several States in proportion to their representation. The amount thus deposited was \$37,468,859.97, of which N. Y. received \$5,352,694.23. This was apportioned to the several counties according to population, as follows:—

Albany.....	\$147,107.48	Oneida.....	\$33,853.70
Allegany.....	86,681.22	Onondaga.....	40,699.36
Broome.....	49,998.81	Ontario.....	93,558.80
Cattaraugus.....	61,504.43	Orange.....	98,263.76
Cayuga.....	121,113.45	Orleans.....	29,622.36
Chautauque.....	110,447.53	Oswego.....	96,803.13

² In Ultes and Schenectady the care of schools is intrusted to "Commissioners of Common Schools"; in Buffalo and Hudson the Common Councils are *ex officio* Commissioners of Schools; and in Albany, Astoria, Auhnrn, Brooklyn, Castleton, and Southfield, (Clifton,) College Point, East Chester, Flushing, Jamaica, Lockport, Medina, Newburgh, New York, Oswego, Port Byron, Poughkeepsie, Pulaaki, Rochester, Salem, Syracuse, Troy, Waterford, Westfarms, and Whitestown, schools are under a Board of Education, usually elected, but in some of the cities appointed by the Common Council. In most cities a Superintendent, who is clerk of the Board, is appointed by the Board of Education for the more immediate supervision of schools and inspection of teachers. In Buffalo the Superintendent is elected.

³ A *County Standard* consists of—
1. A large balance, comprising a brass beam and scales, with stand and lever.

2. A small balance, with a drawer stand for small weights.
3. A set of large brass weights, namely, 50lb., 20lb., 10lb., 5lb.
4. A set of small brass weights, avoirdupois, namely, 4lb., 2lb., 1lb., 8oz., 4oz., 2oz., 1oz., $\frac{1}{2}$ oz., $\frac{1}{4}$ oz.
5. A brass yard measure, graduated to feet and inches, and the first graduated to eighths of an inch, and also decimally; with a graduation to cloth measure on the other side; in a case.
6. A set of liquid measures made of copper, namely, 1 gallon, $\frac{1}{2}$ gallon, 1 quart, 1 pint, $\frac{1}{2}$ pint, 1 gill; in a case.
7. A set of dry measures of copper, namely, $\frac{1}{2}$ bushel, 1 peck, $\frac{1}{2}$ peck, 2 quarts, 1 quart; in a case.

There are also cases to contain the large brass weights and the necessary packing boxes included, etc. The cost of the set is \$300.

A *Town Standard* differs in some particulars, as consisting of but one medium sized balance, the large weights being of iron in place of brass; the yard measure being a cast metallic square rod, without decimal graduation, etc.; and likewise without cases, in general. The cost of the set is \$125.

furnished by the State, and is required to have them compared with the State Standard once in 3 years. The Town Sealer is required to examine all weights and measures in use once a year.¹

The Mayors of cities are administrative officers of State laws and executive officers of city ordinances. They are elected annually, except in Albany and New York, where they hold their offices for two years.

The Supervisors of towns are administrators of the general laws relating to towns.

The President and Trustees of villages have charge of every thing pertaining to the welfare of their respective localities within the limits of the charter of incorporation.

Trustees of School Districts are the officers recognized by law to whom is intrusted the administration of the school laws within their districts.

Turnpike Inspectors are appointed in every county in which there are turnpikes, the acts of incorporation of which do not require the appointment of special inspectors. They are 3 to 5 in number, and must have no interest in any turnpike in the State.

Plank Road Inspectors are appointed in every county having plank roads. Their duties are analogous to those of the inspectors of turnpikes; and they are chiefly intended to protect the public against the collection of tolls when plank roads are unsafe or difficult to travel from neglect or other cause.

Commissioners of Highways have the power of directing repairs, laying out and altering roads, discontinuing old roads, and of ordering new bridges to be built and kept in repair.² They must annually divide the towns into road districts, and assign such inhabitants to work upon them as they may deem proper; and they must deposit an accurate description of all new roads in the Town Clerk's office for record.

Overseers of Highways, or "Pathmasters," have charge of road districts.³

¹ The statute defines the State Standard of Weights and Measures to be the same as that approved by Congress June 14, 1836, and furnished by the U. S. to the States in 1842. The set furnished consisted of a yard, sets of Troy and avoirdupois weights, the wine gallon and the half bushel and their subdivisions. The unit of length and surface, from which all other measures of extension are derived, whether linear, superficial, or solid, is the yard, which is divided into 3 feet of 12 inches each, except for cloths or other articles sold by the yard, when it may be divided into halves, eighths, and sixteenths. The rod contains 5½ yards, and the mile 1,760 yards; the acre is 160 square rods; the chain for land surveying is 22 yards long and subdivided into 100 links; the Troy pound is to the avoirdupois as 5,760 to 7,000, the one containing 12 and the other 16 ounces; 100lbs. avoirdupois form a hundredweight, and 2,000lbs. a ton. All measures of capacity not liquid are derived from the half bushel, the subdivisions of which are obtained by dividing repeatedly by 2. Coal, ashes, marl, manure, corn in the ear, fruit, and roots, are sold by heap measure.

The Standards now in use do not vary essentially from those established by the State Government before standards were furnished by the U. S. As formerly defined, the unit of linear measure was the yard, which bore the ratio of 1,000,000 to 1,086,140, to a pendulum beating seconds in a vacuum at the temperature of melting ice at Columbia College. A cubic foot of water at its maximum density in vacuo was declared equal to 1000 ounces avoirdupois. The liquid gallon to contain 8lbs., and the dry gallon 10lbs., of distilled water at its greatest density and mean pressure at sea level.

Weights of articles per bushel as fixed by Standard.

² Roads extending through several towns may be laid out by commissioners appointed by the Supervisors; and those extending through several counties are usually laid out by special commissioners appointed by law. The commissioners of highways are required to report annually, at town meeting, their receipts and expenditures, and a statement of what improvements are necessary, and the cost of obtaining them. These estimates are referred to the Board of Supervisors, and assessed as other town charges. They may summon jurors and witnesses in opening and closing roads. Roads through improved lands must be certified as necessary by the oath of twelve respectable freholders; and a like certificate to the contrary is required in closing roads. Every owner may obtain a road to his land.

New roads cannot be laid through orchards or gardens of more than four years' growth or use, or through buildings or yards, and enclosures of mills and factories, without the owner's consent. The law requires the commissioners of highways to erect mileboards along the line, and guideboards at the crossing of road and such other important roads as they may deem

proper; and the defacing of these is punishable as a misdemeanor. Every owner or occupant of lands in any town, and every male inhabitant above the age of 21, must be assessed for highway labor. The whole number of days' labor annually expended in the town must be at least three times the number of taxable inhabitants; and every male inhabitant over 21, except ministers, paupers, idiots, and lunatics, must be assessed at least one day. The residue is assessed upon the property of individuals and corporations. Labor may be commuted at the rate of 62½ cts. per day; and the moneys so paid must be expended in the district.

³ Overseers of Highways are required by law to warn out to work all persons assessed for highway labor in their respective districts; keep their roads in order; superintend work; receive and apply commutation moneys; cause the noxious weeds upon the wayside to be cut down or destroyed ones before July and once before Sept. of each year; remove obstructions; and collect all fees, whether for neglect of work, idleness, or putting up of gates contrary to law. They may require additional labor, to the amount of one-third of the first tax. All roads must be fenced by the owners of adjacent lands, unless liable to be overflowed by streams, when the overseers of highways must erect, and keep in repair, good swinging gates at the expense of the lands benefited; and persons leaving such gates open are liable to triple damages. All rivers where the tide ebbs and flows are public highways, without special law. Many other streams have been so declared by acts, and obstructions in such streams and in highways are punished by fine, notwithstanding a plea of title. Such obstructions may be abated as nuisances; and the persons causing them are liable to actions for damage. Persons owning lands upon roads 3 rods wide, or more, may plant trees on the roadside adjacent to their line, and may prosecute for damages to such trees. They may also construct a sidewalk, with a railing. Trees falling into the road from enclosed lands must be removed by the occupant within 2 days, after notice by any person, under a fine of 50 cts. a day. Assessors and commissioners of highways are *ex officio* fence viewers in their several towns. In case of fires in the woods of any town, it is the duty of the supervisor, justices, and commissioners of highways to order such and so many inhabitants, liable to work upon the roads, as may be deemed necessary, and reside near, to assist in checking the fires, under penalty of \$50, and liability to prosecution for misdemeanor, and further fine net over \$100 or imprisonment not more than 60 days.

Persons aggrieved at the decision of commissioners may appeal to referees appointed by the county judge or justices of sessions. Kings, Queens, and Suffolk cos. have from an early colonial period had a road law peculiar to themselves. It differs by fixing the number of days at twice the number of persons assessed, in granting private roads for limited periods, in allowing roads through gardens and orchards of less than ten years' use or growth, by allowing appeals to the county judge, and in a few other minor details. Richmond co. has also a special law, which requires assessments in money only, to be collected with the general tax, and the repairs of roads to be let out at public auction by districts from year to year and to the lowest bidder. There are many other special laws, chiefly applicable to cities and villages, but too numerous to mention here.

SUMMARY OF THE SEVERAL STATE, COUNTY, AND TOWN OFFICERS.

	Total No. in State.	Years in Office.	Commencement of term of Office.	How filled.	Vacancies how filled.	Compensation.

Collector.....	1	1	"	"	"	"
Librarian.....	1	1	"	"	"	"

^a 4 elected for 8 yrs., and 4 senior Justices of Supreme Court.
^b 4 others are *ex officio* Regents. ^c Regulated by special acts.
^d One in each Assembly district. ^e In certain counties.
^f 2 inspectors are elected and 1 appointed from the next highest ticket, to each election dist. by the chairman of town meetings. In cities there is 1 such dist. if under 500 inhabitants; 2 if from 500 to 800; and there may be more if above 800. In towns of over 800, the supervisor, assessors, and clerk meet annually to designate or change these districts. If vacancies of supervisors, assessors, commissioners of highways, or overseers of the poor are not filled within 15 days, the justices may appoint; and, if from any cause there be less than 3, they may asso-

cise justices of neighboring towns in making appointments.
^g Towns in Sullivan co. may have 1 or 3; and if 1, he is chosen annually. Oyster Bay, Oswegatchie, and Watervliet have 5, and Southold 6.
^h Towns may decide upon the number. Manlius has 7.
ⁱ In Seneca co. 1 in each town. ^j See exceptions on p. —.
^k Annual school meetings determine whether to elect 1 or 3.
 Among the officers of local jurisdiction, not included in the foregoing lists, are harbor masters, wardens, health officers, and others connected with sanitary supervision, pilots, wreck masters, superintendent of Onondaga salt springs, and officers charged with duties relating to Indian affairs.

PRISONS.

For a great number of offenses criminals are sentenced to be confined at labor for different periods of time, and the State has provided prisons at several places for the security of these offenders against law.¹ The principal of these are the three State Prisons, an Asylum for Insane Convicts, two Houses of Refuge, and several penitentiaries and jails.

The Auburn State Prison is located upon a lot of — acres near the center of the city of Auburn. It consists of the prison proper, containing — cells and a large number of workshops, all surrounded by a high and strong wall. **The Sing Sing State Prison** is located upon a lot of 130 acres upon the Hudson, in the village of Sing Sing. It contains a prison for males and another for females, the latter the only one in the State. It has an aggregate of 1,000 cells and a great variety of workshops.² **The Clinton State Prison** is situated upon a lot of 250 acres in the town of Dannemora. About 25 acres are enclosed within the walls of the prison. It contains workshops, forges, and furnaces, and has an aggregate of 396 cells.³

The general supervision of the State Prisons is intrusted to a Board of 3 Inspectors, one of whom is elected each year for a term of three years.⁴ They appoint all the officers of the several prisons and renew them at pleasure.⁵ The discipline of the several prisons is rigid and uniform, and all convicts are treated alike, irrespective of their former standing in society or of the crimes of which they are convicted. The rules for the general conduct of prisoners are rigidly enforced. In the administration of discipline a leading object is to secure the reform of the criminal and his return to society with regular and industrious habits and correct moral principles.⁶ All convicts in health are required to labor in shops by day, under rigid supervision, and without exchanging words or looks with each other or with those who may visit the prison. They observe strict silence upon all occasions when not addressed by some person allowed the privilege. In passing to and from the cells, shops, and dining rooms, they march in close single columns, with their

¹ By an act of March 26, 1796, John Watts, Matthew Clarkson, Isaac Slocenburgh, Thomas Eddy, and John Murray, jr. were appointed commissioners to build a State prison in New York City. This prison, styled "*Nevegata*," was located on a lot of 9 acres on the Hudson, at the foot of Amos St. with its principal front on Greenwich St. It was 204 feet long, and from each end a wing extended to the river. It had 54 rooms, each for 8 persons, and cost \$208,846. It was opened Nov. 25, 1797, and continued in use until May, 1828, when it was sold. Convicts were employed in shoe and nail making and other work in leather and iron, and as carpenters, tailors, weavers, spinners, and gardeners. A second prison was ordered, in 1796, to be built at Albany, but the act was repealed in 1797. The limited accommodations and wretched moral influences of the New York prison led to the ordering of another prison, in 1816, which was located at Auburn. The south wing was completed in 1818, and in 1819 the north wing was ordered to be fitted up with single cells. The prison was enlarged in 1824.

² An act passed March 7, 1824, ordered a prison to be erected at Sing Sing. Work was begun May 14, 1825, and the prison was finished in 1829, with 800 cells, to which 200 were added in 1830. It was finally completed in 1831. The grounds here occupy 130 acres, and include marble quarries, upon which it was designed to employ the convicts. The State Hall at Albany is built of magnesian marble or dolomite quarried and dressed at this prison. The prison for females is built of rough marble in the Ionic style of architecture. It stands on elevated ground and is entirely distinct from the male prison in its offices and management. Previous to its erection, in 1835-40, female convicts were kept by the city of New York at their prison at Bellevue, at an annual cost to the State of \$100 each.

³ Clinton Prison was built, in 1844-45, under the direction of Ransom Cook, with the design of employing convicts in iron mining and manufacture.

⁴ These Inspectors must visit all the State prisons four times a year, in company, inspect their management, discipline, and financial affairs, keep minutes of their proceedings, and report annually to the Legislature. They establish rules for the observance of the officers of the prisons, and may examine witnesses. One prison is assigned to each Inspector for three months, and he is required to spend at least one week in each month at the prison in special charge, and to inform himself minutely concerning its details. The Inspectors are successively changed to other prisons. Inspectors can make no appointments of relations within the 3d degree, and they can have no interest in contracts. Their salary is \$1000.—*Constitution, Art. V, Sec. 4.*

⁵ The officers of each prison consist of the following:—

1. An Agent, or Warden, who is the principal fiscal officer of

the prison. He receives a salary of \$1,250 to \$1,500, and is required to give a bond of \$25,000.

2. A *Principal Keeper*, who has charge of police regulations and discipline of the prison, and must live upon the premises. He keeps a journal of every infraction of rules, records, punishments, complaints, &c., and reports monthly to the Inspectors. Salary, \$—.

3. *Keepers* under the direction of the Principal are appointed, not to exceed 1 for every 25 prisoners. Salary, \$—.

4. A *Clerk*, who records all commitments and discharges, keeps the accounts, and reports annually to the Secretary of State. Salary, \$1,000 at Sing Sing and \$900 at the other prisons.

5. The *Chaplain* visits prisoners in their cells, devotes a stated time each Sabbath to religious services, keeps the prison library, and allows the use of books, under proper regulations, and is expected to counsel and assist convicts in the formation of settled resolutions for reform upon leaving the prison. Through him they may obtain whatever is allowed of correspondence with friends. Salary, \$900.

6. A *Physician and Surgeon*, who has charge of the Hospital and attends at all times when his services are required. Salary, \$700 at Sing Sing and \$600 at the other prisons.

7. *Instructors*, of which there are 2 each at Auburn and Sing Sing, 1 at Clinton, and 1 at the Female Prison, who give all necessary instruction to the prisoners in their several occupations.

8. A *Store Keeper*, who has general charge of the provisions and clothing and other property belonging to the prison.

9. A *Guard*, under the command of a sergeant, who are stationed in the prison and upon the walls to prevent escapes. The number of privates is 20 at Auburn, 25 at Clinton, and 30 at Sing Sing. They are armed and equipped from the State arsenals, and are held legally justified if they shoot down prisoners attempting to escape.

10. A *Matron*, who has charge of the Female Prison. Assistant matrons are appointed, not to exceed 1 for every 25 prisoners.

Solitary confinement without labor was tried at Auburn in 1821, but with the most unhappy results, and in 1823 the present system was adopted upon the suggestion of Capt. Elm Lynds and John D. Cray. Capt. Lynds deserves particular notice from the energy and firmness with which he brought his favorite system into successful operation and to a degree of perfection scarcely conceivable to one who had not witnessed it. This plan has been adopted in many prisons and has received the name of the "*Auburn System*." The labor not required in the domestic affairs of these prisons is hired upon contract to manufacturers, who put up the requisite machinery and employ agents and foremen to superintend the work. Willful violation of the rules is punished by the lash, ball and chain, yoke, strait jacket, shower bath, dark cell, and similar means.

faces turned to the side on which their keeper walks. Their shops have narrow openings in the walls, through which they may be seen without the possibility of knowing it. They are confined at night in solitary cells; and guards with woolen socks tread silently around their cells at all hours of the night. The fare is abundant, but coarse; and all convicts are required to wear a costume peculiar to the prison.¹

An Asylum for Insane Convicts is located at Auburn, in the rear of the prison. It is under the general charge of a medical superintendent.²

The New York House of Refuge, situated upon Randalls Island, near New York City, is an establishment for the reformation of juvenile offenders. It is partly a State and partly a city institution.³ **The Western House of Refuge**, located upon a farm of 42½ acres in Rochester, is another juvenile establishment of a similar kind. It is entirely under State patronage. These institutions are under rigid discipline; and the inmates receive instruction in the elementary branches of education during certain hours of the day, and are required to labor during certain other hours. The New York institution was established in 182½, and receives both sexes. The Rochester institution was started in 1849, and receives boys only.⁴

The Prison Association of New York was formed Dec. 6, 1844, and incorporated May 9, 1846. It has for its objects the amelioration of the condition of prisoners, whether detained for trial or finally convicted, or as witnesses; the improvement of prison discipline and of the government of prisons, whether for cities, counties, or States; and the support and encouragement of reformed convicts after their discharge, by affording them the means of obtaining an honest livelihood and sustaining them in their efforts at reform.⁵ The association is supported entirely by private contribution. The members pay \$10 annually. The payment of \$25 constitutes a member

The surplus expenses of the State prisons are paid from the general fund. For a fuller account of these institutions, see *Introduction to Natural History of New York*, Vol. I, pp. 181-188.

² Until 1859, persons charged with crime and proved insane were sent to the State Lunatic Asylum at Utica. An act for the erection of the present asylum was passed April 13, 1855, and the building was completed in 1858.

³ The New York Asylum is conducted by a close corporation, consisting of 30 managers, who serve without pay and report annually to the Common Council of New York and to the State Legislature. It is supported by the labor of its inmates, an annual appropriation from the Marine Hospital fund, theater and circus licenses, school moneys from the Board of Education, and grants from the City and State of New York. It can accommodate 1,000 inmates. In 1858 there were received 378; of which number 304 were boys and 74 were girls. The former are engaged in making shoes, chair-seats, wire cloth, weaving, &c.; and the latter in needlework. Each day 7 hours are devoted to labor, 4½ to school, 1½ to meals, 9½ to sleep, and 1½ to recreation.

⁴ *Statistics of Houses of Refuge for 1857.*

	New York.	Rochester.
Cost per capita.....	\$85	\$96
Officers employed.....	31	22

Revenue from labor.....	\$13,414	\$12,000
Per cent. reformed.....	75	76
Average period of detention.....	16 mo.	24 mo.
Deaths since opening.....	69	14
" in last 12 months.....	3	1
Escapes since opening.....	97	9
" in last 12 months.....	4	0
Average age of inmates.....	13½	13½
Cost of location and buildings.....	\$339,441	\$110,060
Annual expenses.....	\$42,005	\$30,060

The Western House of Refuge is supported by the labor of its inmates, the product of its farm, and an annual State appropriation. Its managers are appointed for a term of 3 years by the Governor and Senate, and are so classified that 5 are appointed annually. Its rules require half an hour more at labor and an hour less at school than is required at the New York Asylum; and 10 hours are allowed for sleep. In 1859, 508 boys were received at this institution. Of these, 128 were employed in making chairs, 171 in making shoes, 37 in making brushes, 7 upon the farm, 20 in the sewing room, and 23 as domestics.

⁵ The condition of prisoners has from a remote period enlisted the sympathies of the benevolent and led to associated efforts for their relief. A society was formed in New York, soon after the Revolution, for the relief of imprisoned debtors. "The Philadelphia Society for alleviating the miseries of Public Prisons" was formed over 80 years since by the Friends; and the Prison Discipline Society of Boston is nearly 20 years older than that of similar objects in New York. The Prison Association of New York has since February, 1855, issued a bulletin called the "Monthly Record." The female department for some years maintained a Home for the temporary residence of discharged female prisoners until other means of support could be found. This association has for several years appointed committees for visiting county jails; and the facts reported show abundant reason for continuing efforts for reform in their management. The aid furnished by this association to discharged convicts during the last three years reported has been as follows:—

Number of discharged persons aided with money.....	1854.	1855.	1856.
Number supplied with clothing.....	230	439	282
Number provided with situations.....	131	147	138
	62	155	112
Total.....	413	741	632

for life; of \$100, an honorary member of the Executive Committee for life, and \$500 a life patron. A department, consisting of ladies, has in charge the interests of prisoners of their sex. The managers of the association receive no pay for their services. They usually report to the Legislature annually; but no reports were made in 1856 and 1858. Office. 15 Center Street, New York.

MILITARY.

THE Governor is Commander-in-Chief of the land and naval forces of the State. In time of peace the supervision of the militia and military establishments are intrusted to the Adjutant General, who has an office of record at the capital, issues, under his seal, all military commissions, keeps a register of the names and residences of the officers of militia throughout the State, issues all general orders of the Commander-in-Chief, prescribes the manner of reporting from the several subordinate divisions, and reports the statistics thus obtained—through the Governor—to the Legislature annually.¹ He has the rank of brigadier general; and his assistant has the rank of colonel. The militia of the State are organized in 8 divisions, 26 brigades, and 62 regiments, embracing 220 companies of infantry, 126 of artillery, 41 of cavalry, 37 of rifles, and a total of 18,107 officers and privates.²

All able-bodied white male citizens between the ages of 18 and 45, not exempt by law, are

liable to military duty; and enrollment is made annually by the assessors.¹ Militia officers are chosen by election;² excepting major generals and the Commissary General, who are appointed by the Governor and Senate. Staff officers are appointed by the commanding officer of the forces to which they are attached.³ The Adjutant General, Judge Advocate General, Quartermaster General, Paymaster General, Surgeon General, Engineer-in-Chief, and one Instructor of Artillery and one of Cavalry to each division, are appointed by the Governor.⁴

Arsenals. An arsenal is provided for each division of the Militia, and an armory for each regiment. The general custody and supervision of the military property of the State is intrusted to the Commissary General, who has his office in New York, and reports annually through the Governor to the Legislature.⁵

¹ The laws of the U. S. exempt from military service the Vice President, the Judicial and Executive officers of the Government of the U. S., members and officers of both Houses of Congress, customhouse officers and clerks, post officers and stage drivers in charge of mail, ferry-men on post roads, inspectors of exports, pilots and mariners in actual sea service. The State exempts, besides the above, persons in the army and navy and those honorably discharged therefrom, preachers of every sect, commissioned officers and privates of uniformed companies who have resigned after seven years' service, and certain firemen. All others may commute by paying 60 cts. annually, except in Kings and New York cos. and the cities of Albany and Buffalo, where the commutation is fixed at 75 cts.

These moneys are paid to the collectors of taxes and applied to the military fund,—from which the officers and men of regiments are paid, from \$1.25 to \$4, according to rank, for every day's military service. Persons going to, remaining at, or returning from military duty are exempt from arrest upon civil process. Previous to the act of 1846, the State contained 33 divisions, 66 brigades, 272 regiments, and 1836 companies, and numbered 141,436 officers and men. The number of enrolled militia had been as follows, at different periods:—

Years.	Infantry.	Artillery.	Cavalry.	Light Artillery.	Regimen.	Total.
1805	74,429	1,700	1,852	77,982
1810	86,673	2,619	3,385	92,677
1815	90,383	6,364	2,158	98,905
1820	112,760	6,538	3,132	123	122,553
				Horse Artillery.		
1825	131,561	4,432	2,505	646	146,805
1830	166,514	12,803	6,814	1,763	188,610
1835	168,786	11,698	7,317	1,174	192,983
1840	163,300	9,082	7,336	183,100
1845	141,436	9,369	3,840	4,276	162,427

² Under the Constitution of 1777, nearly every military as well as civil officer in the State received his appointment from the Council of Appointment, and mostly held during their pleasure. The Constitution of 1822 introduced the following system, now in use:—"Militia officers shall be chosen or appointed, as follows: Captains, subalterns, and non-commissioned officers shall be chosen by the written votes of the members of their respective companies; field officers of regiments and separate battalions, by the written votes of the commissioned officers of the respective regiments and separate battalions; brigadier generals and brigade inspectors, by the field officers of their respective brigades; major generals, brigadier generals, and commanding officers of regiments or separate battalions shall appoint the staff officers to their respective divisions, brigades, regiments, or separate battalions."—*Constitution, 1822, Art. IV, Sec. 1; Constitution, Art. XI, Sec. 2.*

The above rule does not apply to regiments and brigades not fully organized. If the former contain less than 6 companies, the field officers are appointed by the Governor; and if the brigades are not within the requirements of the law, the brigadier generals are also appointed by the Governor.

³ The staff of the Commander-in-Chief consists of the Adjutant General, Inspector General, Commissary General, Engineer-in-Chief, Judge Advocate General, Surgeon General, Quartermaster General, Paymaster General, Aide-de-Camp, and Military Secretary, who severally rank in the order here given. The precedence and gradation of officers and non-commissioned officers in the militia is as follows:—

1. The Commander-in-Chief.
2. Major General.
3. Brigadier General.
4. Colonel.
5. Lieutenant Colonel.
6. Major.
7. Captain.
8. First Lieutenant.
9. Second Lieutenant.
10. Sergeant-Major.
11. Quartermaster Sergeant.
12. First Sergeant.
13. Sergeant.
14. Corporal.

In each grade precedence is given by priority, date of election, or appointment.

⁴ The instructors, with the rank of colonel, are attached to the headquarters of the division, and hold by the same tenure as commissioned officers of the line. Instructors and division engineers must pass an examination as to special qualification before a board of not less than five officers, convened by the Commander-in-Chief. Appointments to this office have hitherto been made entirely from among the graduates of West Point.

⁵ The Constitution of 1777 ordained that a proper magazine of warlike stores, proportionate to the number of inhabitants, should be established in every county of the State; but this provision was never fully carried out. An arsenal was built at New York at an early period, and another at Albany soon after, the latter on the site purchased for a State prison. Under an act of Feb. 12, 1808, entitled "An Act for the defense of the northern and western frontiers," and by subsequent acts, arsenals were erected at Canandaigua, Batavia, Onandaga Hollow, Rome, Watertown, Russell, Malone, Plattsburgh, and Elizabethtown.

The arsenal at Plattsburgh was burned in 1813 or '14, and the one at Rome, which occupied the present site of St. Peter's Church, was burned with its contents a few years since. Neither has been rebuilt. In 1844 the State leased of the city of Buffalo a market building on Batavia St. for an arsenal. Magazines were also located at New York, at Albany, and on Staten Island. In 1850 these arsenals were mostly ordered to be sold, together with such arms and other property as had become unserviceable for military purposes. An arsenal occupying the site of an old powder magazine of the Dutch, between Center, Elm, Franklin, and White Streets, New York, was authorized to be sold in 1844, and a new one was directed to be built. The site was purchased by the city for \$20,000, and a new city armory was built, on the corner of White and Elm Streets. In 1808 the city of New York conveyed to the State a tract of ground upon Fifth Avenue, between Sixty-Third and Sixty-Fifth Sts., upon which a magazine was erected. In 1844 the Legislature authorized a new arsenal to be erected on these premises with such moneys as might be paid by the U. S. for the military works upon Staten Island. The sale was completed in April, 1847, for \$37,284.87, of which \$33,284.87 was applicable to the arsenal. The work was commenced, but in March, 1848, was suspended by the Commissioners of the Land Office, to whose charge and that of the Commissary General the work had been intrusted. It was alleged that the latter officer had expended moneys most unwarrantably; and subsequent observation has proved that the structure was unfit for this or, in fact, for any other purpose.—*Assembly Doc. 1856, No. 141. Senate Doc. 1848, No. 54.*

In laying out the Central Park, the premises consisting of 152 building lots, valued in 1856 at \$266,000, were included in the proposed improvement, and an act was passed, April 16, 1857, under which this property, which the State purchased in 1808 for \$700, was conveyed back to the city for \$275,000. Of this sum \$100,000 was made applicable to the purchase of the U. S. arsenal at New York; \$45,000 for an arsenal at Buffalo; \$40,000 for an arsenal in Brooklyn; \$25,000 for the improvement of the arsenal at Albany and the erection of an armory; \$17,000 for the purchase of the U. S. arsenal at Rome; \$14,000 for an arsenal at Corning, and for armories; \$5,000 at Rochester, \$5,000 at Troy, \$4,000 at Auburn, \$4,000 at Syracuse, \$4,000 at Utica, \$3,000 at Ballston Spa, \$3,000 at Dunkirk, \$3,000 at Ogdensburg, \$3,000 at Oweego, and \$3,000 for the purchase of a stone fort in Schoharie for an armory. The arsenal in Albany, by act of April 17, 1856, was exchanged with the city for a site on Hudson end Eagle Streets, and \$5,000 toward an arsenal and armory buildings, which were erected in 1858-59. During the summer of 1858, buildings at Albany, Auburn, Ballston Spa, Brooklyn, Corning, Dunkirk, New York, Ogdensburg, and Syracuse were put under contract and finished, or far advanced, the same year. The stone fort or church at Schoharie was purchased, but no steps were taken for the erections authorized at Troy, Rochester, Oweego, and Utica. The new arsenal built at New York in 1858 was located on Seventh Avenue, corner of Thirty-Fifth St., and was nearly completed, when the roof fell, on the morning of Nov. 13, 1858, greatly injuring the building.

Most of the structures erected under this act are of substantial workmanship and elegant architectural style. They were built under the direction of commissioners appointed by law. When completed, they will be placed in charge of the Commissary General, who also attends to the safe keeping of arms and

The fortifications within the State are owned and supported by the United States, although several of them were built by the State of New York under an arrangement for the settlement of the Revolutionary debt.¹

military equipments belonging to the State. He keeps his office in New York.

Summary of the ordnance arms in the hands of the troops and in the arsenals of the State on the 1st day of January, 1869.

¹ In Feb. 1801, there was due from the State of New York to the United States, on account of Revolutionary expenses, the

sum of \$2,074,846. An Act of Congress, passed February 15, 1799, allowed any State to discharge its debt by payment into the treasury before April, 1800, or by expending a like amount within five years in the erection of fortifications. New York was the only State that chose to extinguish its debt by erecting defenses upon its own soil; and a committee of Congress reported in February, 1801, that no other States had shown any disposition to pay the balances reported against them. The amount credited to New York was \$891,129.31, and the remainder of the indebtedness was subsequently released.—*American State Papers, Finance*, 1, 697.

The amount of moneys reduced to specie value received by, or paid to, the State of New York from the beginning of the Revolution to April, 1790, was as follows, in dollars:—

Received from State.....	\$1,545,889
Paid to State.....	822,803

A descriptive and historical notice is given of the several fortifications in the localities where they occur. The latest official summary that has been published, dated in 1851, is given below:—

United States Fortifications.

FOATS.	LOCATION.	When commenced.	When finished.	Garrison in war.	Total number of guns.	Estimated cost of construction or repair.	Amount expended for construction or repair.	Amount required to complete or construct.	Estimated cost of armaments, including 100 pounds of ammunition.

Fort Porter.....	Black Rock.....	1842	300	64	150,000	116,500	33,500	51,208

The forts on Staten Island are being rebuilt on an extensive scale. Fort Schuyler, on Throggs Neck, has since been finished, a site purchased for a fort at Wilkins Point, directly opposite, and an immense fortress has been commenced on Sandy Hook, for the more effectual defense of New York Harbor. These works will effectually defend the approaches to New York by water, but would not prevent an attack by land should an enemy effect a landing upon Long Island. To guard against this, it has been proposed to erect a line of redoubts across the island from Wilkie's Point to Fort Hamilton at such intervals as would secure this object.

The General Government has appropriated large sums of money during many years to the construction of a floating battery for the defense of New York Harbor. It is building at Hoboken, and is said to be nearly completed. It is of iron, of great strength and thickness, with its outer deck oval, and every part proof against cannon ball. It is to be mounted with heavy guns and propelled by steam. No official account of its construction has been published; and, for obvious reasons, the details of its plan are kept secret. It is reported that it has a capacity to accommodate 3000 men, with the necessary supplies of fuel and military stores; and it is thought that of itself it might oppose an effectual barrier against the approach of a hostile fleet in any passage which it might be brought to defend. This mighty engine of war was planned by the late John C. Stevens.

The other military establishments of the National Government in New York are,—

The Military Academy at West Point.

The Navy Yard, Dry Dock, Naval Hospital, and Laboratory at Brooklyn.

The Arsenal at Watervelt for the manufacture of gun carriages and other heavy furniture of artillery for the field and fort.

The Arsenal of Deposit, at Rome.

Plattsburgh Barracks.

Madison Barracks, at Sackets Harbor.

Buffalo Barracks.

A few years after the last war with Great Britain, a military road was surveyed and partly opened by the United States from Plattsburgh to Sackets Harbor; but this work from the first has been kept in repair by the towns as a common highway.

Fort Montgomery is the only work now under construction on the northern frontier. The Canadians have the following fortifications adjacent to New York:—

Fort Wellington, at Prescott, erected in 1812-16.

Fort Henry, at Kingston, with several Martello towers and batteries, for the protection of the harbor and town and defense of the north channel of the St. Lawrence. They were partly built in the War of 1812-15, and partly in 1837-40. Fort Carlton, now within the United States, commanded the south channel, and portions of the work, executed a century ago, (and since the Revolution entirely neglected,) might still be made available upon short notice.

Fort Massachusetts, at Niagara, directly opposite the American fort, is of modern origin.

LANDS.

THE absolute property of all the lands in the State is vested in the respective owners, liable only to escheat and to the reservation of gold and silver mines in such as derive title from Colonial patents.¹

The law prohibits the leasing of agricultural lands for a longer period than twelve years.² The care and sale of lands belonging to the State are entrusted to the Commissioners of the Land Office. These commissioners have also the sole right of dealing with the Indians for the sale and surrender of reservations, excepting within the territory whereof the pre-emptive right of purchase was ceded to Massachusetts and is now held by the Ogdén Company.

The Commissioners of the Land Office were created by an act of May 11, 1784, to carry into execution the promises of bounty lands for Revolutionary services which had been made by the Legislature in 1780. As now formed, this Board consists of the Lieutenant Governor of the State, Speaker of Assembly, Secretary of State, Comptroller, Treasurer, Attorney General, and State Engineer and Surveyor. The Deputy Secretary of State is *ex officio* Clerk of the Board, and the meetings are held in the Secretary's office, upon the call of the Secretary of State.

When State lands are to be sold, they are first surveyed, appraised, and advertised for sale at auction, and their minimum bid affixed. The lots that remain without a bid are liable to be taken by the first applicant upon payment of one-fourth of the price and giving bonds for the residue. If they remain unsold any considerable time, they are re-appraised and offered at a lower rate.³

The lands under water in the bays around Long Island are in most cases the property of the townships, by virtue of original patents; and the privilege of fishing and taking oysters and clams is by some towns held as exclusively belonging to their inhabitants.⁴

¹ The Dutch Government sometimes granted lands in the Colony without the formalities of Indian purchase; but it was the rule of the English to first extinguish the aboriginal title. It was customary to apply to the Governor and Council for leave to purchase. If granted, a treaty was held and an Indian deed obtained, a warrant was issued to the Surveyor General for a survey, and the map and field notes were reported. The Attorney General was then directed to prepare a draft of a patent, which was submitted to the Governor and Council, and, if approved, was engrossed upon parchment, recorded, sealed, and issued. The fees incident to procuring a patent were important sources of revenue to the officers concerned. Only 1,000 acres could be granted to one person; but this rule was evaded by associating great numbers of merely nominal parties; and the officers through whose hands the papers passed were often largely interested in the grants. The Colonial Government in this respect became exceedingly corrupt, and stood greatly in need of a reform like that wrought by the Revolution. In a few isolated cases grants of land were made directly by the crown, and no records appear in our offices. Of this class was the Royal Grant to Sir Wm. Johnson, x. of the Mohawk. Patents for land were generally very formal, and abounded in repetitions. The grants were "in fee and common soage," as in the manor of East Greenwich, in the co. of Kent, and included with the land all "houses, messuages, tenements, erections, and buildings, mills, milddams, fences, inclosures, gardens, orchards, fields, pastures, common of pastures, meadows, marshes, swamps, plains, woods, underwoods, timber, trees, rivers, rivulets, runs, streams, water, lakes, ponds, pools, pits, brachen, quarries, mines, minerals, (gold and silver [wholly or in part] except-d.) creeks, harbors, highways, easements, fishing, hunting and fowling, and all other franchises, profits, commodities, and appurtenances whatsoever." This enumeration of rights, more or less varied, was embraced in all land patents. Colonial grants were usually conditioned to the annual payment of a *quitrent*, at a stated time and place named in the patent. This payment was sometimes due in money, and often in wheat or other commodity. Others were conditioned to the payment of the skins of animals or a merely nominal article, as simply an acknowledgment of the superior rights of the grantors. The quitrents formed an important source of revenue, and, after the Revolution, became due to the State. In 1786 it was provided that lands subject to these rents might be released upon payment of arrears, and 14 shillings to every shilling of the annual dues. Large amounts of land upon which arrears of quitrents had accumulated were sold from time to time; and laws continued to be passed at frequent intervals for the regulation of these rents until 1824, when an act was passed for the final sale of all lands which had not been released by commutation or remitted by law. Such lands as then remained unredeemed were allowed to be released by payment of \$2.50 to each shilling sterling due. The last sale took place in March, 1826. The arrears for quitrents, then amounting to \$55,380, were in 1819 taken from the general fund and given in equal portions to the Literature and School Funds.

² This feature was adopted to prevent the recurrence of anti-rent difficulties. The Legislature, in 1846, enacted a law providing that all lands presently rented for a life or lives, or for more than 21 years, should be taxed as the personal property of the persons receiving the rents, to an extent equal to a sum that at legal interest would produce the annual rent. Such taxes were made payable in the coe. where the lands lay; and this unpleasant encumbrance has largely contributed to reduce the amount of lands thus held.

³ Unappropriated lands in the counties of Clinton, Essex, Franklin, Hamilton, Montgomery, Saratoga, St. Lawrence, Washington, and Warren may be sold by the commissioners in quantities of not less than 160 acres, if already surveyed, at such price as they may be found worth. If over 1,000 acres, they may be surveyed and sold for their value, and may not be assessed at a higher rate for five years. Lands sold under foreclosure of loan mortgages are bid in by the Loan Commissioners if liable to go for less than the sum due. They are then sold by auction, or otherwise, for the best interests of the State, under the regulations above stated. Land under water may be conveyed by the Commissioners of the Land Office, under regulations fixed by law. Notice of application for such grants must be advertised for six weeks in the co. newspaper where the lands lie, and posted on the courthouse door. These notices must describe the adjoining lands and give the names of their owners. Applicants must make affidavit that they intend to appropriate the lands applied for to commercial purposes. The co. judge, or supervisor and town clerk, or two assessors of the town where the lands lie, must make affidavit that the land is not more than is necessary for the purposes of commerce, and that the persons applying are believed to be *bona fide* applicants for the purposes stated. Applicants must also produce an accurate map of the proposed grant and the adjacent lands owned by them, certified by the oath of a surveyor; and also a correct description in writing, with courses and distances, and the soundings for every 50 feet on the exterior line. The map must show the general course of the shore for a mile each way, and the particular course at the point applied for, and include all docks, bulkheads, or other improvements, the names of owners of lands adjoining, and the width of the channel or river if less than two miles. The deduction of title and proof that the lands belong to the State must also be produced, with claim of ownership by the applicant, or by himself and those under whom he claims. The patent is conditioned to occupation in the mode agreed upon within — years, and the fees are \$5.00. Grants under the waters of navigable rivers and lakes can only be made to the owners of the land along the shores; and the commissioners are restricted in their powers so far as relates to New York City and the Hudson River R.R.

⁴ Around Staten Island the owners of the shores possess the right of using or leasing the adjacent lands under water for planting oysters. The custom of granting *luffe* under water without the restrictions here enumerated has led to serious encroachments upon the harbor of New York, the details of which are stated on page —.

The public lands are greatly reduced in quantity, and belong to the several permanent funds to which they have from time to time been granted.¹

Gospel and School Lands.—Under an act of 1782, a lot of 400 acres was to be reserved in each township of the Military Tract for the support of the gospel, and two lots of 200 acres for schools.²

In each of the Twenty Towns of the Chenango Tract a lot of 250 acres (usually Lot 45) was reserved for the gospel, and another (Lot 46) of like extent for schools; but these lots were sold with the lands, and the Canastota Tract, in Sullivan and Lenox, adjoining Oneida Lake, was in 1805–08 given in lieu, and apportioned among the Twenty Towns.³

In each of the Ten Towns on the St. Lawrence a mile square (usually Lot 55) was granted for gospel and schools, and in some towns was applied in early years to both these objects.⁴

Besides these grants for schools by the State, land proprietors have in some instances conveyed certain lots for this purpose, to encourage settlement. In nearly every instance these lands have been applied for the benefit of the original townships within which they were granted, and in their subdivision the local school fund has been equitably divided. Other lands were subsequently granted, as elsewhere noticed; and in 1822 the Constitution gave all the public lands not specially appropriated to the school fund.⁵

¹ The quantity now owned forms about $\frac{4}{5}$ per cent. of that held in 1823, and compares between the two periods as follows:—

	Jan. 1, 1823.	Jan. 1859.
Lands belonging to the School Fund.....	991,659 A.	9,463 A.
“ “ Literature Fund	17,916 “	640 “
“ “ Canal	128,769 “ “
“ “ General “	39,299 “
“ “ Salt “	209 “
Total.....	1,139,374 “	49,581 “

² These lots were designated by the supervisors of Onondaga and Seneca cos., under acts passed in 1796 and 1808, as follows:—

Gospel and School Lands of the Military Tract.

ORIGINAL TOWNSHIP AND ITS NUMBERS.	Original and School Lot	Literature Lot.	Present Towns sharing in Profits of School Lot.
1. Lysander....	9	100	Lysander and part of Granby.
2. Hannibal....	6	14	Hannibal, Cicero, parts of Oswego City, and Granby.
3. Cato.....	25	89	Victory, Ira, and parts of Conquest and Cato.
4. Brutus.....	87	58	Brutus, and parts of Sennet, Mentz, Conquest, and Cato.
5. Camillus....	72	15	Camillus, Elbridge, and Van Buren.
6. Cicero.....	14	16	Clay and Cicero.
7. Manlius....	74	18	De Witt and Manlius.
8. Aurelius....	60	38	Owasco, Fleming, Auburn, and parts of Aurelius, Sennet, and Mentz.
9. Marcellus...	22	19	Marcellus, Skaneateles, and parts of Spafford and Otisco.
10. Pompey.....	87	30	Pompey, Lafayette, and part of Otisco.
11. Romulus....	60	55	Romulus, Varick, Fayette, and parts of Seneca Falls.
12. Scipio.....	1	82	Scipio, Venice, and part of Nile.
13. Sempronius	62	25	Sempronius, Moravia, and part of Nile.
14. Tully.....	76	69	Tully, Frahie, Scott, and parts of Spafford and Otisco.
15. Fabius.....	3	36	Fabius and part of Truxton.
16. Ovid.....	30	23	Ovid, Lodi, and Covert.
17. Milton.....	24	58	Genoa and part of Lansing.
18. Locke.....	15	94	Groton, Sumner Hill, and Locke.
19. Homer.....	34	85	Homer and Cortlandville.
20. Solon.....	22	41	Solon and part of Truxton.
21. Hector.....	1	6	Hector.
22. Ulysses....	5	24	Ulysses, Enfield, Ithaca, and part of Lansing.
23. Dryden.....	29	63	Dryden.
24. Virgil.....	36	20	Virgil.
25. Cincinnatus	53	49	Cincinnatus, Freetown, Marathon, and Willet.
26. Junius.....	78	79	Junius, Tyre, Waterloo, and part of Seneca Falls.
27. Galen.....	45	33	Galen and Savannah.
28. Sterling....	73 ^a	88	Sterling, Butler, Wolcott, Huron, and Rose.

^a Exchanged for No. 17 by Chap. 177, Laws of 1812.

³ In each of the following townships a lot of 640 acres was reserved for schools, viz.:—*Fayette*, now Guilford, and part of Oxford; *Clinton*, now Bainbridge, Afton, and part of Coventry; *Greene*, now parts of Greene, Smithville, and Coventry; *Warren*, now parts of Colesville, Sandford, and Windsor; *Chenango*, now parts of Port Crane, Conklin, Coleville, and Windsor; *Sidney*, now parts of Binghamton and Vestal; *Randolph*, now parts of Sandford, Windsor, and Conklin; and *Hamden*, now parts of Vestal, Owego, and Nichols.

⁴ In Plattsburgh 640 acres was reserved for the gospel, and 460 for schools; and in Totten and Crossfield's Purchase 16 lots of 640 acres each. The latter have been selected under the Sackett Harbor and Saratoga R. R. Grant. In Benson Township (Hope and Lake Pleasant) 4 lots of 160 acres each were given for schools and literature.

⁵ The lands of the school fund were, Jan. 1859, as follows:—4,270 acres in Hamilton, 2,361 in Essex, 1,680 in Clinton, 360 in Wayne, 105 in Schoharie, 75 in St. Lawrence, 30 in Washington, 28 in Oneida, 25 in Fulton, 16 in Montgomery, 12 in Herkimer, 6 in Dutchess, and 5 in Onondaga cos.

Literature Lands have been reserved as follows:—1 ml. square in each of the townships of Fayette, Greene, Clinton, Chenango, Warren, Sidney, and Hampden. Townships 1, 4, 6, 3, 13, 14, 17, 19, 31, 32, 33, 34, 35, 36, 38, 41, in Totten and Crossfield's Purchase. Lot No. 58 in each of the Ten Towns of St. Lawrence cos. A lot of 350 acres (less 60 for survey) in each of the 28 towns of the Military Tract. These lots were appropriated as follows:—

<i>Military Tract.</i> —Townships 7, 8, 9, 10, 11, 12, 15, 16, 17, and 20, to Union College.
Township 13, to Oxford Academy, Chap. 112, Laws of 1800.
“ 5, “ Pompey “ “ 119, “ 1813.
“ 3, “ Cayuga “ “ 71, “ 1814.
“ 1, “ Onondaga “ “ 200, “ 1814.
“ 19, “ Cortland “ “ 10, “ 1822.
“ 28, “ Auburn “ “ 268, “ 1826.
“ 22, “ Ithaca “ “ 308, “ 1828.

The remainder were sold for the benefit of the Literature Fund. *Clinton Township*, granted to the town of Jericho, Chap. 3, Laws of 1822. All other townships in Broome and Chenango cos. were sold for the benefit of the Literature Fund.

Ten Towns in St. Lawrence Co.—In Potsdam, granted to St. Lawrence Academy, Chap. 148, 1816. In Canton, granted to Lowellville Academy, Chap. 134, Laws of 1818. The remainder was sold, and \$1,000 given to Middlebury Academy in 1823; \$1,000 to Redhook Academy in 1824; \$2,500 to St. Lawrence Academy in 1825; and the remainder passed to the Literature Fund.

Totten and Crossfield's Purchase.—10,240 acres absorbed by S. H. & S. R. R. In Benson Township, 4 lots of 160 acres each remain unsold. Of the unsold lands of the State in Jan. 1859, there were 36,299 acres; of which 19,020 are in Clinton, 5,132 in Hamilton, 4,111 in Essex, 4,728 in Franklin, 1,643 in Warren, 1,147 in Delaware, and the same in Erie, 780 in Herkimer, 212 in Cortland, 175 in Seneca, 116 in Sullivan, and 57 in Washington cos.

The Salt Springs Lands are, by Article 7, Sec. 7 of the Constitution of 1840, declared as belonging indelibly to the State, and comprise the grounds upon which salt is manufactured, whether by solar evaporation or artificial heat. The Commissioners of the Land Office may sell, under authority of law, certain portions for the purpose of purchasing other lands, so that the amount shall not be diminished. Since 1846, 114.85 acres have been sold, for \$163,039.50, and 543.12 acres purchased, for \$164,161.79.

With certain exceptions¹ all property, both real and personal, is liable to taxation whether owned by individuals or corporations. Real estate is taxed in the town where it lies, unless adjacent to lands of the same owner or occupant in another town where he resides.

Personal property is taxed where the owner resides, and corporations in the towns where their property lies. Stocks of corporations are taxed to the company and not to the holders. Property may be sold for the payment of taxes, and lands upon which the taxes remain unpaid are returned by the co. treasurers to the comptroller, and so much of each parcel is sold at stated periods, as is necessary to pay the taxes, interest, and charges that accrue thereon.²

The pre-emptive title to the lands of the State w. of a meridian passing through the 82d milestone on the Penn. line, was conveyed to Massachusetts, (except a mile strip along the Niagara,) at a convention held at Hartford, Dec. 16, 1786. These lands amounted to about 6,000,000 acres. Ten towns of 234,400 acres, in Broome and Tioga cos., called "*The Massachusetts Ten Towns*," were also conveyed at the same time.

Large tracts of land remained in possession of the government when it became a State. These and other portions derived from forfeitures, escheats, tax sales, Indian purchases, and foreclosure of loan mortgages, have been sold in small parcels, as parts of large tracts, having a general name and system of survey. Sometimes as many patents have been issued for these tracts as they had lots, and in others many lots have been conveyed to the same person.

The largest grant ever made by the State to citizens was that of Macomb's Purchase, in Franklin, St. Lawrence, Jefferson, Lewis, Herkimer, and Oswego cos. It embraced 3,693,755 acres, and was patented to Daniel McCormick and Alexander Macomb in 1791-8. The State, in accordance with Indian treaties, has conveyed sundry tracts, the principal of which are Penet Square, (10 mi. sq.,) in Jefferson co., and Revaches, Kirkland, and other minor tracts, in Oneida co. Others, for like cause, have been assigned for missions and other specific objects. The Legislature has also by acts directed the land commissioners to convey extensive tracts for the promotion of roads, railroads, and canals; colleges, academies, schools, and other institutions, and to reward military or other services to the State. Of the latter class was a grant of 16,000 acres in Oneida co. to Baron Steuben, in 1794.

Of patents to citizens not included in either of the preceding lists, the principal are Scriba's 500,000 acres in Oswego and Oneida cos. Adgate's, Coxe's, Machin's, Oothoudt's, Remsen's, Dean's, and other tracts in Oneida; Vrooman's, Noble's, &c. in Herkimer; and Watkin's & Flint's in Chemung and adjoining counties. Numerous grants of land to communities, with privileges of government, were made upon Long Island, and in the counties bordering upon the Hudson, which will be specially noticed in the localities to which they refer.

Several of the cities have special laws for the sale of real estate for taxes, and such sales are made under the direction of the fiscal officer of the corporation. All other tax sales occur at Albany once in three years, and are duly advertised by the comptroller and in each co. by such newspapers as are designated by the supervisors.

¹ The real estate not subject to taxation comprises property belonging to the State and United States; buildings and grounds for public uses owned by counties, cities, villages, and towns; colleges, academies, and incorporated seminaries; churches, school houses, and the property of corporations for reform of offenders; public libraries; bank stock owned by State and by literary and charitable societies; Indian reservations, and the property of Indians living thereon; the property of clergymen to the extent of \$1,500 each, and property not liable to sale under execution for debt. The last named includes (if owned by householders) a spinning wheel, a loom, stoves put up or in use, the family Bible, family pictures, and school books in use, books not exceeding \$50 in value, a seat or pew in church, ten sheep with their fleeces, and the yarn or cloth made therefrom, one cow, two swine, and their necessary food, all necessary pork, beef, fish, flour, and vegetables provided for family use, and fuel for 60 days, all necessary wearing apparel, beds, bedsteads, and bedding for the family, arms and accoutrements required by law to be kept for service in the militia, necessary cooking utensils, one table, six chairs, table furniture for six persons, one crane and its appendages, one pair of andirons, a shovel and tongs, tools of mechanics to the value of \$25, a team worth \$150, and land set apart for a private burying ground not more than $\frac{1}{2}$ acre. A building and lot worth \$1,000 occupied as a dwelling by the owner and his family may be exempt by causing a description of the premises to be

recorded in the co. clerk's office, but such record does not exempt from sale for taxes, and property generally is liable for debts contracted in its purchase. Where a homestead is exempted the privilege continues for the benefit of the widow and family after the death of the head. Such of the above articles as are movable continue exempt while the family to whom they belong are removing from one place of residence to another.

² Each parcel is held up at auction, and those persons competing at the sale name the least amount of land in a square, usually in the n.w. corner, that they will accept, and pay the taxes and charges due. The sale is declared in favor of the person naming the least quantity, and the purchaser receives a certificate naming the time when a deed will be due. If not paid, the controller may in 3 months cancel the certificate and give to another upon payment of the same amount, and any person may redeem within 2 years by paying the taxes, charges, and 10 per cent. in addition. Specific or undivided parts of tracts of land may be sold. If not redeemed in 2 years the comptroller issues a full deed to the purchaser. The portion sold to pay taxes is designated by the comptroller and varies with circumstances. If a village lot, it is located so as to front upon a street, and in long narrow tracts it is taken off from one end. A tax sale takes place in 1853, and triennially thereafter.

TABLES OF MANORS, COLONIAL PATENTS, PURCHASES, AND LAND GRANTS.

Manors of the Colonial Period in New York and its Dependencies.

NAMES.	PATENTEES.	DATES.	LOCATION AND REMARKS.
Bentley	Capt. Ch'r Billop.....	May 8, 1687	S. W. part of Staten Island, sometimes called "Billop Manor."
Caseltown	John Palmer	Mar. 23, 1687	N. part of Staten Island.
Cortlandt	Col. Stephenus Cortlandt	June 17, 1697	N. part of Westchester co., had 1 Rep. in Gen. Assembly.
Fletcher	Capt. John Evans	Sept. 6, 1694	Cancelled.
Fox Hall	Capt. Thos. Chambers.....	May 21, 1697	Annexed to Kingston, Mar. 12, 1787.
Gardners Island.....	Earl of Stirling	Mar. 10, 1689	With full power as an independent town.
Livingston	Robert Livingston.....	June 22, 1668	Columbia co., had 1 Rep. in Gen. Assembly.
Marthas Vineyard.....	Matthew Mayhew.....	April 20, 1685	Since annexed to Massachusetts.
Morrisania	Col. Lewis Morris.....	May 9, 1697	S. point of Westchester co.
Pelham	John Pell.....	Oct. 25, 1687	S. E. border of Westchester co.
Philipsburgh	Frederick Philippe.....	April 1, 1680	Putnam co.
Plumme Island.....	Samuel Willea.....	April 2, 1675	Plum and Gull Islands.
Rensselaerwyck.....	Kilian Van Rensselaer..	1630-37	Fully organized; represented in Gen. Assembly; confirmed Oct. 17, 1685, May 20, 1704.
St. George.....	Col. Wm. Smith.....	Oct. 5, 1693	In town of Brookhaven, Suffolk co.
Scarsdale.....	Calab Heathcote.....	Mar. 21, 1701	Westchester co.
Sophy	John Paine.....	July 25, 1672	Prudence Island, R. I. Disallowed by R. I., and authority resisted.
Tyebury	Thos. Mayhew.....	July 8, 1761	Marthas Vineyard, now a part of Massachusetts.

Several of these existed only in name; perhaps a few other patents bore the name of Manors, upon which active settlement were not begun under the Colonial Government.

Table of the more important Patents

Granted under the English Colonial Government, in the eastern part of New York.

NAME OF PATENT.	County.	Date.	Extent in Acres.	Patentees.
Adaquataugie Patent.....	Otsego.....	May 8, 1770	26,000	Sir William Johnson and others.
Amherst Tracts.....	Hamilton.....	April 6, 1774	40,000	Sir Jeffery Amherst, (2 tracts.)
Anaquasscock Patent.....	Washington.....	May 11, 1762	10,000	R. J. P. & W. Schermerhorn and others.
Argyle Patent.....	".....	March 13, 1784	47,450	Duncan Reid and others.
Arieskill Patent.....	Montgomery.....	Nov. 12, 1737	10,000	James De Lancey.
Artillery Patent.....	Washington.....	Oct. 24, 1764	24,000	Joseph Walton and others.
Babington's Patent.....	Delaware.....	May 22, 1770	2,000	Charles Babington.
Bagley's Patents.....	Schanectady.....	June 17, 1737	4,000	Timothy Bagley and others.
".....	Montgomery.....	Feb. 9, 1833	6,000	" " "
Balfour's Patent.....	Ham. & Warren.....	March 6, 1775	5,000	Henry Balfour, (Totten & Crossfield's Pur.)
Banyar's Patent.....	Otsego & Scho.....	April 14, 1753	4,000	Goldsbrow Banyar and others.
Batavia Patent.....	Greene.....	April 24, 1736	4,200	Vincent Matthews and others.
Bayard's Patent.....	Oneida & Herk.....	June 12, 1771	50,000	Wm. & Rob. Bayard and others, (Freemason's Patent.)
Becker's Patent.....	Schoharie.....	March 19, 1754	8,000	Johannes Becker and others.
Bedlington Patent.....	Delaware.....	May 24, 1770	27,000	John Leake and others.
Beekman's Patent.....	Dutchess.....	June 25, 1703	Henry Beekman.
Beekmantown Patent.....	Clinton.....	March 27, 1769	30,000	William H. Beekman.
Belvidere Patent.....	Otsego & Scho.....	July 6, 1769	100,000	George Croghan and others, (2 tracts.)
Bishop's Patent.....	Hamilton.....	April 6, 1774	14,000	Wm. Bishop, (T. & C. Pur.)
Bleecker's Patent.....	Montgomery.....	Sept. 22, 1729	4,300	Rutger Bleecker and others.
Blenheim Patent.....	Schoharie.....	Nov. 28, 1769	40,000	John Weatherhead and others.
Bradshaw's Patent.....	Washington.....	May 18, 1762	23,000	James Bradshaw.
Bradd's Patent.....	Schanectady.....	Feb. 14, 1738	4,000	Krent Bradd and others.

Table of the Principal Tracts

Which have been granted in small parcels by the State, under the Commissioners of the Land Office.

NAME OF TRACT.	County.	No. of Lots.	Remarks.
Adgate's 3,600 acre Tract.....	Essex.....	7	West of Perou Bay.
Kedlington Tract.....	Delaware.....	77	Escheat of John G. Leake.
Reuson Township.....	Hamilton.....	383	Named from Egbert Benson.
Bergen's Purchase.....	Hamilton and Fulton.....	13	
Black Rock Village.....	Erie.....	233	Part of Niagara Mile Strip.
Brant Lake Tract.....	Warren.....	254	Surveyed by Geo. Webster, 1803.
Bristol Tract.....	Schoharie.....	62	Unappropriated lands remaining at close of Revolution.
Hutwagga Bay Tract.....	Essex.....	4	Part of Hardenburgh Patent.
Batler's Tract.....	Delaware.....	7	Gospel and Schools for Chenango Twenty Towns.
Canastota Tract.....	Madison.....	91	Laid out in 1788 by Jas. Clinton, J. Hathorn, and J. Cantino.
Chemung Township.....	Chemung.....	205	
Chenango Township.....	Broome.....	49,710 acres to A. Hammond and others.
Chenango Twenty Towns.....	Madison, Chatsango, Oneida.....	Patented separately. See table preceding this.
Clinton Township.....	Chenango.....	Given to the Vermont sufferers.
Cookquago Tract.....	Delawars and Brooms.....	144	
Cowasselon Tract.....	Madison.....	25	
Crum Horn Mountain Tract.....	Otsego.....	79	Given to schools and literature.
Delawars Tract.....	Broome.....	19	Town of Windsor.
Eseex Tract.....	Essex.....	248	Unappropriated lands remaining after Revolution.
Fayette Township.....	Chenango.....	100	
Fort Ann Tract.....	Washington.....	33	Mile Square Reservation.
Fort Covington Village.....	Franklin.....	Unappropriated lands remaining after Revolution.
French Mountain Tract.....	Warren.....	48	
Grand Island.....	Erie.....	117	Given to Canal Fund.
Greens co. Tract.....	Greene.....	108	To Walter Livingston, M. West, and W. Morris.
Greene Township.....	Chenango.....	In quarters.
Gove, Old Military, and Refugee Tract.....	Clinton.....	68	
Govs's other in great number.			
Hambden Township.....	Tioga.....	Robert Morris and Alexander Macomb.
Hagus Tract.....	Warren and Essex.....	62	
Iron Ore Tract.....	Essex.....	234	
Islands in great number.			
Jay Tract.....	Essex and Clinton.....	160	
Lake George Tract.....	Warren.....	93	
Lewis (South) Tract.....	Essex.....	83	
Lewiston Village.....	Niagara.....	421	
Long Sault Island.....	St. Lawrence.....	58	House, out, and water lots.
Luzerne Tract.....	Warren.....	173	
Massena Township.....	St. Lawrence.....	
Maul's Patent.....		6	Small tracts upon Military Class rights
Military Tract.....	Cayuga, Cortland, Onondaga, Oswego, Schuyler, Seneca, Tompkins and Wayne.....	{ Twenty eight townships—1,680,000 acres to soldiers of the Revolution.
Military Tract, (old).....	Clinton and Franklin.....	{ Ten townships, 640,000 acres set apart to soldiers, not conveyed.
Moose River Tract.....	Hamilton and Herkimer.....	Nine townships, mostly of modern grant.
Niagara River Tract.....	Erie and Niagars.....	107	Reserved in Massachusetts cession.
North River Head Tract.....	Essex.....	140	
North West Bay Tract.....	Essex.....	133	
Oswego Falls Village.....	Oswego.....	52	
Oswego Village.....	Oswego.....	} Reserved by State in previous grants.
Ox Bow Tract.....	Hamilton.....	304	
Palmer's Purchase.....	Warren.....	State, Middle, Rear, and River Lots.
Paradox Tract.....	Essex.....	428	Named from Paradox Lake.
Perou Bay Tract.....	Essex.....	130	
Refugee Tract.....	Clinton.....	131,420 acres to Canada and Nova-Scotia refugees.
Reservations, Indian:			
Cayuga.....	Cayuga and Seneca.....	256	West, East, and Residence Tracts, Canoga Reservation.
Oneida.....	Oneida and Madison.....	Fish Creek, Oneida, Castleton, Oneida Creek, Otsequet, Pagan Purchase, and Wood Creek Tracts of the purchases of 1798, 1802, 1815, 1824, 1826, 1829, 1830, 1834, 1840, 1842.
Onondaga.....	Onondags.....	Various, including plats of Salina, Geddes, Liverpool, Lodi, &c.
St. Regis.....	Franklin.....	Various, including lands at Fort Covington and Hogenburgh Village.
Stockbridge.....	Various purchases, including E. Hill Tract of fifty, and W. Hill Tract of forty-two lots.
Roaring Brook Tract.....	Essex.....	86	
Saddle Mountain Tract.....	Washington.....	
St. Lawrence Ten Towns.....	St. Lawrence.....	10 mi. sq. each	Sold at auction in quarter and mile squares, but hid in by a small number. Cambray, De Kalb, and Hague, each 92,720 acres; Lisbon, Louisville, and Stockholm, each a little less, were conveyed to Alex. Macomb, Dec. 17, 1787.
Schroon Tract.....	Essex.....	111	
Sidney Township.....	Broome.....	162	
Split Rock Tract.....	Essex.....	33	
Siedman Farm.....	Niagara.....	
Trembleau Tract.....	Essex.....	17	
Tongue Mountain Tract.....	Warren.....	62	
Warrenburgh Tract.....	Warren.....	22	
Warren Township.....	Broome.....	61,440 acres to Robert Harper and others.
Watkins and Flint's Purchase.....	Chemung and Schuyler.....	
Westfield Tract.....	Washington.....	58	
West of Road Patent.....	Essex.....	174	
White Face Mountain Tract.....	Essex and Clinton.....	

Tables of many small grants, tracts, and purchases will be found in the descriptions of the counties in which such lands are located. See pp.....

C A N A L S.

THE PUBLIC CANALS of the State are made, by the Constitution, inalienable. They were first constructed for the purpose of facilitating settlement and of opening an easy means of communication between the Atlantic and the great lakes. The canals are under the care of several State officers, the powers and duties of whom are as follows:—

The Canal Commissioners, three in number, are elected one each year and hold office for three years. They have the immediate supervision and management of the construction and repairs of canals, and are *ex officio* members of the Canal and Contracting Boards. They have their office in the State Hall, and report annually to the Legislature. The canals have three general divisions, each of which is under the special charge of a commissioner.¹

The State Engineer and Surveyor has general charge of the engineering department of the canals, and is a member of the Canal and Contracting Boards. He has an office in the State Hall, and reports annually to the Legislature.²

The Canal Board consists of the Commissioners of the Canal Fund, the State Engineer, and the Canal Commissioners. It meets, during the session of the Legislature, at the office of the Canal Department, fixes the rates of toll, appoints collectors of tolls, their assistants and weigh-masters, directs extraordinary repairs; hears appeals from the Canal Appraisers, remits penalties, and regulates the police of the canals.³

The Auditor of the Canal Department draws warrants on the Treasurer for all canal payments, audits accounts, instructs collecting and disbursing officers, and keeps account of canal receipts and expenditures. He is *ex officio* Secretary of the Commissioners of the Canal Fund and of the Canal Board, and a member of the Contracting Board. His office, known as the "Canal Department," is in the State Hall at Albany.

The Canal Appraisers, three in number, are appointed one each year, and hold office for three years. They appraise all damages arising from the canals, whether temporary or permanent in their nature. They have an office in the State Hall.

The Contracting Board consists of the State Engineer, the Auditor of the Canal Department, and the Canal Commissioners. It appoints all division, resident, and first assistant engineers.⁴

The Commissioners of the Canal Fund consist of the Lieutenant Governor, Secretary of State, Comptroller, Treasurer, and Attorney General. The Auditor of the Canal Department is *ex officio* Secretary of the Board. They have the general management of the funds and debts of the canal.⁵

¹ *The Eastern Division* embraces the Erie Canal as far w. as Oneida Lake Canal, 136 miles; Champlain Canal and Glens Falls Feeder, 75 miles; Pond above Troy Dam, 3 miles; Black River Canal and Improvement, 98 miles; making a total of 315 miles.

The Middle Division embraces the Erie Canal from the e. bank of Oneida Lake Canal to the e. line of Wayne co., including feeders and reservoirs, 76 miles; Chenango Canal, 97 miles; Oneida Lake Canal, 7 miles; Oswego Canal, 38 miles; Baldwinsville Side Cut, 1 mile; Oneida River Improvement, 20 miles; Seneca River towing path, 54 miles; Cayuga & Seneca Canal, 23 miles; Crooked Lake Canal, 8 miles; Chemung Canal and Feeder, 39 miles; Oneida Creek Feeder, 2 miles; Seneca River Improvement, 12½ mile; making a total of 331 miles.

The Western Division embraces the remainder of the Erie Canal, 155 miles, and the Genesee Valley Canal and Dansville Side Cut, 118 miles, making a total of 273 miles.

² He prescribes the duties of engineers and assigns to them divisions, visits and inspects all the canals at least once in each year, and prepares plans, surveys, maps, and estimates for construction or improvement. He has other duties relating to railroads, lands belonging to the State; and other subjects are also assigned to him from time to time.

³ In the Engineering Department are the following subordinate officers:—

Division Engineers, one to each division, are appointed by the Contracting Board with the consent of the State Engineer. They have special supervision of the sections of canals in their respective divisions, and are obliged to frequently pass over the canal; and they prepare all maps, plans, and specifications for work to be put under contract. They make full reports annually to the State Engineer. The office of the Resident Engineer of the Eastern Division is at Albany, of the Middle Division at Syracuse, and of the Western Division at Rochester.

Resident Engineers, 12 in number, have immediate charge of certain sections under the supervision of resident engineers. They are assisted by:

First Assistant Engineers, appointed by the Contracting Board, and

Second Assistant Engineers, appointed by Resident Engineers. The number of these assistants is regulated by the amount of labor in progress. Levelers, surveyors, draftsmen, clerks, &c. are employed as the Department may require, and are appointed in the same manner as Second Assistant Engineers. No engineer or other public officer appointed upon the canals, or a clerk, foreman, or overseer of laborers, is allowed to have an interest in the boarding of laborers, or in furnishing teams, materials, or any other thing belonging to himself, for the use of the public.

³ There are 20 collectors of tolls on the Erie, 3 on the Champlain, 3 on the Oswego, 3 on the Seneca & Cayuga, 3 on the Chemung, 1 on the Crooked Lake, 3 on the Chenango, 5 on the Genesee Valley, 1 on the Black River, and 1 on the Oneida Lake Canal. There are also 41 assistant collectors. Collectors may be removed by the Canal Commissioners or the Auditor.

⁴ This Board was created April 15, 1854, and its powers were enlarged and defined May 14, 1857. Until May 1, 1859, it appointed superintendents of repairs; but since that time all repairs are made by contract. Repairs were formerly made by laborers, hired by the day or month, under the direction of superintendents; but in 1857 the Contracting Board was authorized to let the ordinary repairs upon contract for a term of years.

⁵ The canal fund was derived from the following sources:—

1817-35. Auction duties, (in part,) amounting in all to.....	\$3,592,039.06
“ “ Salt duties, amounting in all to.....	2,055,458.06
In 1835, these revenues were restored to the general fund, by a popular vote of 68,126 to 8,675.	
1817-23. Steamboat passenger tax, amounting in all to.....	73,509.99

Reports are annually made to the Legislature by the heads of the various Canal Departments concerning every thing pertaining to the Canal interests. These reports, embodying voluminous details and summaries, are printed, and are easily accessible to all.¹

Loans for construction, at sundry times, secured by State stocks. The avails for Erie and Champlain Canals, up to Sept. 30, 1858, amounted to	\$8,271,831.00
Loans for enlargements, &c.....	11,823,000.00
Loans for enlargements and completion.....	10,203,844.10
Canal revenue certificates.....	10,500,000.00
Temporary loans.....	1,512,390.75
Tolls.....	1,700,000.00
Tax (1844, '45, '46, '47, 1854, '55, '56, '57, '58).....	64,429,475.41
Sale of lands for benefit of canals, viz.: 102,635 acres in Cattaraugus co., given by the Holland Land Co.; 3,000 acres, by John Hornby; 1,000 acres, by Oideon Grainger; Grand Island, (17,381 1/5 acres), and 8 small islands, (502 acres), given by the State for benefit of canals; and a tract of land on Wood Creek, bought with the rights of the Western Inland Lock N. Co.....	107,430.18
Interest on investment and deposits.....	3,157,800.60
Surplus tolls, from lateral canals.....	1,010,731.45
Miscellaneous.....	1,101,123.43
Total receipts Erie and Champlain Canals.....	123,045,734.84
Receipts upon all the State canals.....	143,607,002.91
Total payments upon the Erie and Champlain Canals.....	141,627,845.85

The total premiums upon loans amounted to..... \$2,293,744.12
 The total discount upon loans amounted to..... 290,508.04
 Special loans were made for most of the lateral canals. A tract of land from the Onondaga Salt Springs Reservation was sold for the benefit of the Oswego Canal Fund, and amounted to \$160,000. Stock in the Western Inland Lock Navigation Co., amounting to \$92,000, was canceled for the benefit of the canals, and the interests of individuals in that work were canceled by purchase. The amount appraised was \$152,718.52.
 The Constitution provides (Art. VII) that, after paying the expenses of collection, superintendence, and repairs, the sum of \$1,500,000, and after 1855, \$1,700,000, shall be applied annually, from the revenues of the canals, to a sinking fund, to pay the canal debt. In 1857, the surplus receipts of tolls failed, for the first time since 1840, to meet this, and it became necessary to raise by direct tax the money required to pay interest on the stock. The clause in the Constitution prohibiting the creation of a debt for any public work, without imposing a direct tax for its payment and a submission to the popular vote, was suspended by an amendment adopted Feb. 14, 1854, to allow of the raising of \$9,000,000, by the issue of State stock, for the more speedy enlargement and completion of the canals. A measure was introduced in the Legislature of 1859, for the loan of a further sum for this object, and the submission of the question to the decision of a popular vote.

SUMMARIES OF THE PRINCIPAL REPORTS.

Amount and value of property moved, and miles run, on all the States Canals, since 1835.

Year.	ESTIMATED VALUE OF PROPERTY TO AND FROM OTHER STATES, VIA BUFFALO, BLACK ROCK, TONAWANDA, AND OSWEGO.		Total value of property moved on all the canals. Tolls collected at each office on the New York State Canals, from 1825 to 1858, both inclusive.

Table with columns for OFFICES, 1825, 1830, 1835, 1840, 1845, 1850, 1855, 1866, 1858. Lists toll amounts for various locations like New York, Albany, West Troy, etc.

Collected at Port Byron. At Newport. Office abolished in 1857. At Saratoga, Ft. Miller, Ft. Edward, and Ft. Ann.

Number of Clearances issued from 1833 to 1858, both inclusive, on the Several Canals.

Table showing Year, Erie, Champlain, Oswego, Cayuga and Seneca, Chemung, Crooked Lake, Chenango, Seneca Valley, Black River, Oneida Lake Canal, Seneca River towing Path, Total. Lists clearance counts for each year from 1833 to 1858.

The Erie Canal, connecting the Hudson with Lake Erie, was commenced at Rome, July 4, 1817, and was completed Oct. 26, 1825. As first constructed, it was 363 mi. long, 28 ft. wide at the bottom, 40 ft. wide at the top, and 4 ft. deep. The locks were 90 ft. long between the gates, and 15 ft. wide. The original cost of the whole was \$7,143,789. 86.¹

The number of boats upon the canals at different periods has been—in 1842, 2,136; in 1844, 2,126; in 1847, 2,725; in 1853, 3,401; and in 1859, about 3,500. The following numbers of new boats have been registered:—

1844, 378	1847, 1,466	1850, 152	1853, 590	1856, 364
1845, 297	1848, 457	1851, 213	1854, 760	1857, 329
1846, 477	1849, 215	1852, 271	1855, 471	1858, 255

Some opinion may be formed of the class of boats used from the numbers built. These were, in 1857, of scows, 106; decked scows, 23; lake boats, 95; hullheads, 102; and packets, 3. None of the last named were built in 1858; and the day for traveling upon the canals may be considered as virtually passed, unless steam canal boats—now being introduced into use—prove successful competitors in speed with steam upon railroads.

The largest boat registered in 1844 was 90 tons. In 1849, some were as high as 135 tons; in 1850, 179 tons; in 1853, 250 tons; and in 1858, 300 tons. The average tonnage of boats has been as follows:—

1849.....	76
1850.....	80
1851.....	87
1852.....	88
1853.....	97
1854.....	105
1855.....	102
1856.....	107
1857.....	114
1858.....	109
General average.....	100

^a Double locks, side by side, are counted as one. The number upon the Erie Canal, when completed, will be two less, by dispensing with those now at Montezuma.

^b Farm bridges are gradually lessening in number, as the claims of individuals are from time to time commuted, or the

damages appraised from failure to rebuild them. The principal increase of bridges is in cities and villages, from the opening of new streets; and in these localities permanent iron bridges are now generally built upon the principal thoroughfares.

^c Of the 10 dams in the first column, 8 are feeder dams.

¹ Plans for improving the navigation of the Mohawk were proposed in 1725, but nothing was done to this end till March 30, 1792, when the "Western Inland Navigation Company" was incorporated, with powers to improve the channel and build canals and locks to Lake Ontario and Seneca Lake. The cost to Onondaga Lake was estimated at £39,500. This work consisted mainly of the following:—

1st. A canal at Little Falls, 4,752 feet long, of which 2,550 feet were through solid rock. Upon it were 5 locks, with a total rise of 444 feet. 2d. A canal 1½ miles long, with a lock, at Wolf Rift, German Flats. 3d. A canal, 11 miles long, at Rome, connecting the Mohawk with Wood Creek; and 4th, four locks upon Wood Creek, with a total depth of 25 feet. The work was begun at Little Falls, in 1793, but the want of funds delayed the work until 1794, when an subscription of 200 shares was obtained from the State. Boats first passed the canal and locks at this place Nov. 17, 1795, and on that day and the next 8 large and 102 small boats were passed, at a toll of £80 10s, exclusive of 9 that passed free the first day. The chambers of the locks were 74 by 12 feet, and allowed boats of 32 tons to pass; but other impediments limited boats to a burden of 10 or 11 tons. Light boats could go from Schenectady to Fort Stanwix and back in 9 days; but the larger boats required 14 days to make the trip. In 1793, Wood Creek was cleared out, and 13 isthmuses were cut across, shortening the channel 7 miles. In 1796, boats passed through to Onondaga Lake; and the work, in 1797, had cost \$400,000, of which the State paid \$32,000. The great cost required high tolls: and in 1812 but 300 boats passed, with 1,500 tons, at Little Falls. The company gave up its rights west of Onondaga Lake in 1808, and sold out to the State, in 1820, for \$152,718.52.—*Report of Weston, the Engineer, 1799; Spaford's Gazetteer, 1813; Hist. N. Y. Canals, 11, 40.*

It is entirely uncertain who originated the first idea of constructing a chain of water communication through the State. All of the early efforts were directed to effecting a passage through the Mohawk, Wood Creek, Onondaga Lake, and Oswego River to Lake Ontario. The Western connection was sought by locking around Niagara Falls. In 1800, Gouverneur Morris first suggested the idea of a direct canal from Lake Erie to the Hudson, through the center of the State. His plan was to tap Lake Erie, and have a continuous slope from the lake to the high land that borders upon the Hudson; and a series of locks thence to the river. In 1803 he stated the outline of his plan to the Surveyor-General, Simeon De Witt, who looked upon it as

chimerical. The next year Mr. De Witt, in a conversation with James Geddes, then a land surveyor of Onondaga county, stated the plan of Mr. Morris as one of the impracticable schemes which had been advanced. Mr. Geddes, however, looked at the matter in a different light, and, after some little reflection, he concluded that the plan, with some modifications, was by far the best that had yet been suggested. He counseled with Jesse Hawley upon the subject and the latter, convinced of the feasibility of the project, wrote a series of papers which were published in the Genesee Messenger from Oct. 1807, to March, 1808. These essays were signed "Hercules," and were the first ever printed in favor of the Erie Canal. In 1808, Joshua Forman, an intimate associate of Mr. Geddes, then a member of the Assembly, introduced a resolution for the survey of a canal route.

To the end that Congress might be led to grant money for the construction of a canal. The sum of \$600 was granted for surveys under the direction of the Surveyor-General. James Geddes was intrusted with this service, and was directed to level down from Onondaga Lake to the mouth of Salmon Creek, to ascertain whether a canal could be opened from Oswego Falls to Lake Ontario and to enquire the best route for a canal around Niagara Falls. He was also directed to survey a route eastward from Lake Erie to Genesee River, and thence to the waters flowing east into Seneca Lake. He finished this work, and made a report showing the practicability of the last named route and its great superiority over the others which had been proposed. This report at once excited general attention, and secured the influence of De Witt Clinton, then a member of the Senate, and many other prominent men. In 1810, commissioners, at the head of whom was De Witt Clinton, were appointed to explore a canal route through the center of the State. On the 8th of April, 1811, an act was passed to provide for the improvement of the internal navigation of the State, and efforts were made to obtain aid from the General Government, but without success.

The report of the commissioners stated the importance of this measure with such force and eloquence that a law was passed the next year continuing the commissioners, and authorizing them to borrow and deposit money, and take cessions of land, for the proposed canal; but the war suspended active operations. The project, however, continued to be discussed, and an act was passed on the 17th of April, 1816, providing for a definite survey. The canal was begun at Rome, July 4, 1817, and on the 22d of October, 1819, the first boat passed from Utica to Rome.

The completion of the canal was celebrated by extraordinary

The enlargement of this canal was ordered May 11, 1835, and has been going on more or less rapidly since, except during a few years of suspension commencing under Gov. Wright's administration. It was estimated by the State Engineer and Surveyor, in Jan., 1859, that \$1,565,077.75 would complete the enlargement upon the present plan, making the total cost of that work \$23,000,000. The length of the Erie Canal when enlarged will be reduced to 349.74 mi. Its section gives a breadth of 70 ft. at the surface of the water, 52½ ft. at the bottom, and a depth of 7 ft.

civic and military ceremonies throughout the State, and especially in New York City, on the 4th of Nov. 1825. As the first boat, with Governor Clinton on board, entered the canal, at Buffalo, at 10 o'clock, (Oct. 26,) a line of cannon, previously arranged a few miles apart, passed a signal along to Albany, and down the Hudson to Sandy Hook, from whence it was returned in like manner. The signal was heard at New York, at 11.20. The flotilla with the Governor was everywhere greeted with enthusiastic rejoicing. Upon reaching New York it passed down to Sandy Hook, and the waters of the lake were mingled with those of the ocean with imposing ceremonies.

The Canal Commissioners under whom the Erie and Champlain Canals were constructed, were Stephen Van Rensselaer, De Witt Clinton, Joseph Ellicott, Samuel Young, and Myron

Holley. Henry Seymour was appointed in place of Ellicott in March, 1819, and William C. Bouck was added to the number in March, 1821. The chief engineers were James Geddes, of Oondaga co., and Benjamin Wright, of Rome, neither of whom had ever seen a canal, or enjoyed means of acquiring a practical knowledge of engineering other than that obtained from surveying land. The precision with which their canal surveys were executed, under the circumstances, may be regarded as truly wonderful. Among the assistant engineers were — Peacock, David Thomas, Nathan S. Roberts, David S. Bates, Canvass White, Davis Hurd, Noah Dennis, Charles T. Whipple, William Jerome, Henry G. Sargent, Frederick C. Mills, Isaac J. Thomas, Henry Farnam, Alfred Barrett, John Bates, William H. Price, John Hopkins, and Seymour Skiff.

The Canal Board have adopted the following table of distances from place to place upon the Erie Canal. The elevations above tide are those shown by the lockages, and do not take into account the descent given to cause a flow of water between locks, which does not vary much from an inch to a mile. The long level is supposed to be perfectly uniform in elevation above tide.

The number of locks will be 74, or 10 less than the original number.¹ The banks of the enlarged canal are protected from washing by slope walls, consisting of stone firmly packed upon the sloping sides. The canal will allow the passage of boats of 200 to 250 tons burden. Steam has been introduced to some extent in propelling boats, and the success of the experiment has been so great that probably steam power will ultimately supersede horse power.

The Champlain Canal, extending from the Erie Canal, near Cohoes, to Lake Champlain, was begun June 10, 1818, finished to Waterford Nov. 28, 1822, and completed Sep. 10, 1823, at an original cost of \$875,000, exclusive of the feeder to Glens Falls. It is 64 mi. long and has a navigable feeder of 7 mi. to Glens Falls, with a slackwater navigation 5 mi. further upon the Hudson.²

The Chenango Canal,³ connecting the Erie Canal at Utica with the Susquehanna River at Binghamton, was authorized Feb. 23, 1833. It is 97 mi. long exclusive of 13½ mi. of feeders, none of which are navigable.

The Black River Canal and Erie Canal Feeder extends from Rome up the valley of the Mohawk and of Lansing Kil to Boonville, and thence it descends the valley of Black River to a point below the High Falls. From the latter point is a river navigation 42½ mi. to Car-

¹The chambers of the enlarged locks are 110 by 18 feet, and their lift varies from 3 to 15½ feet. The canal leaves Lake Erie at Buffalo, follows the river bank to Black Rock, and communicates with the dam at that place. At a point 10 mi. below Buffalo it enters Tonawanda Creek, follows its channel 12 mi., and crosses thence, through a rock cutting, to the brow of the mountain ridge, at Lockport, where it descends 55.83 feet by 5 combined locks. It continues thence, eastward, from 1 to 3 mi. s. of the ridge road, to Rochester, crosses the Genesee upon a stone aqueduct, makes a circuitous sweep across the Irondequoit valley, along the top of a natural range of hills, and finally delivers the waters of Lake Erie into Seneca River, after applying 153 mi. of the Erie Canal, and affording a large amount of water-power at various points along its course. It then rises by 2 locks, descends into the Onondaga valley by 1 lock, and then rises by 3 locks to the long level which extends from Syracuse to Utica, from whence it descends the Mohawk valley, mostly on its s. side, to the Hudson. Below Schenectady, it twice crosses the Mohawk, upon stone aqueducts. It is continued down the bank of the Hudson to Albany, where it terminates in a spacious basin. At West Troy it also opens into the Hudson. The total lockages going w. are 612.9 feet up, and 43.5 feet down, or a total of 556.4 feet. The canal is fed by numerous streams along its course, and by 9 reservoirs, all of which, with a single exception, are upon the middle division. They are as follows:

^a Built in 1857, at a cost of \$10,884.73. In Nelson, Madison

co.
^b Leads to Bradley Brook reservoir.
^c Leads to Eaton Brook feeder.

Besides these are the reservoirs upon the Black River Canal, which is itself but a feeder to the long level of the Erie Canal. Several of the feeders to the middle and western divisions of the Erie Canal are navigable for short distances. Connected with the canal at Buffalo are Main and Hamburg street canals, the Clark and Skinner Canal, the Ohio basin, and several slips connected with the canal, and a ship-lock channel at Black Rock. At Tonawanda is a side-cut for a river-lock.

² A company styled the "Northern Inland Navigation Co." was formed at the same time as the Western Co. but failed to raise funds to accomplish its objects. A natural water communication, interrupted by portages, extended along the route of this canal, which was used by the natives with their canoes. The canal was built of the same dimensions as the Erie. It crosses the Mohawk in a pond formed by a dam 1,700 feet in length, and follows near the w. bank of the Hudson to Schuylerville, where it crosses into Washington co. by another dam 700 feet long, and continues near the east bank to Fort Edward.

Here it leaves the river and crosses to the valley of Wood Creek, and thence, partly in the bed of that stream, to Whitehall. When this canal was first opened slackwater navigation upon the Hudson was used 8 miles above and 3 miles below Fort Miller, with a short canal and 2 locks around the falls at that place. It was fed from the Hudson by means of a high and costly dam near Fort Edward. The use of the channel of the Hudson is now entirely superseded by a canal along its bank, built in 1826-27; and the high dam has given place to a feeder to a point above Glens Falls, where there is a dam 770 feet long and 12 feet high. The feeder enters the canal at the summit level, 1¼ miles N. E. from Fort Edward. The canal communicates with the Hudson above the State dam at Waterford by a side-cut with 3 locks. It has 7 locks between the lake and the summit, with 54 feet total lift, and 14 locks, with a total of 134 feet, between the Summit and the Hudson at Waterford. The locks on this canal are being enlarged to a capacity of 15½ by 100 feet.

³ This canal is supplied by Chenango River and 6 reservoirs, viz.,—Madison Brook, Woodmans Pond, Lelands Pond, Bradleys Brook, Hatche Lake, and Eaton Brook Reservoirs,—all of which are in the south part of Madison co. The canal extends across to and up the valley of Oriskany Creek to the summit level, and down the valley of Chenango River. It was begun in 1833 and finished in 1837, at a cost of \$1,737,703. From Utica to the Summit it rises 708 feet by 76 locks, and from thence it descends 303 feet by 38 locks to the Susquehanna. Of its 116 locks, 2 are stone and the remainder composite. Upon the feeders are 12 road and 18 farm bridges.

thage, on the line of Jefferson co. At Boonville the canal receives a navigable feeder 12 mi. long, which derives its water from Black River. Length of main canal 36.62 mi., of feeders 12.48 mi., and of reservoirs 12.95 mi.¹

The Oneida Lake Canal² connects the Erie Canal at Higginsville (3¼ mi.) with Wood Creek, and by slackwater, 2¼ mi. on that stream, with Oneida Lake, a total distance of 6 mi., and a descent of 56 ft.

The Oswego Canal, extending from Syracuse to Oswego, was authorized Nov. 20, 1824. A loan of \$160,000 was allowed April 20, 1825; it was begun in 1826, and was completed in 1828, at a cost of \$525,115.³ It is 38 mi. long and includes 19 mi. of slackwater navigation in Oswego and Seneca Rivers, with a towing path on the e. bank. Connected with this work are the **Oneida River Improvement**, extending the whole length of that stream from Three River Point to Fort Brewerton, at the outlet of Oneida Lake; the **Seneca River Improvement**, extending from Mud Lock, on the Oswego Canal, to Baldwinsville, by slackwater navigation; and

¹ This canal was authorized April 19, 1836, and began the next summer. The summit level is 698 feet above the canal at Rome, to which it descends by 70 locks. Northward the canal descends 336 feet, by 39 locks. The feeder has but one level. The State has caused reservoirs to be formed by damming the outlet of Woodhall, Chub, North and South Branch, and other lakes in Herkimer co. The Eight Lakes near the source of Moose River are available as reservoirs to supply Black River with water, withdrawn to feed the canal southward.

In September, 1857, the Canal Board abandoned its plans for improving the channel of Black River by wing-dams and piers, and ordered a dam and lock to be built at the mouth of Otter

Creek. The river has no towing path, and boats are towed by steamers. The State has built a dam and bridge at Carthage, and the piers of two other bridges, of which the superstructure is built by the towns.

² This canal was completed in the fall of 1835 by a company incorporated March 22, 1832 as the "Oneida Lake Canal Co." The company having to use the waters of the Erie Canal from the long level, were required to supply an equivalent amount. A feeder was constructed 5 miles west, drawing its waters from Oneida Creek. It is 2 miles long, and not navigable. The company had authority to extend its improvements 4 miles up Wood Creek, but nothing was ever done in that direction. By an act of May 11, 1840, the Canal Commissioners were authorized to purchase it at a cost not exceeding \$50,000, which was done April 12, 1841, and State stock bearing 5 per cent. interest, and redeemable in 10 years, was issued in payment. The first cost of the canal and feeder was \$73,524.85.

This canal forms an important link in the internal water communication of the State, extending navigation from the Erie Canal to Oneida Lake, and by the Oneida Outlet to the Oswego Canal and River. Before the Erie Canal was built the Oneida Lake route was the great thoroughfare for the transportation of goods westward.

³ The act did not originally authorize a connection with the Erie Canal, but only a communication with Oneida Lake. The connection was recommended by the commissioners in 1827, and it was authorized soon after. This canal has a fall of 123 feet by 18 locks.

The Oneida River Improvement has 2 steamboat locks, one of 3 and one of 34 feet lift, 120 feet long and 30 wide, passing boats drawing 4 feet of water. It also has one dam and one draw bridge at Oak Orchard and Brewerton.

thence by a canal three-fourths of a mile long, with one lift and one guard lock, and by slack-water on the Seneca River to Jacks Reef.

Cayuga and Seneca Canal connects the Erie Canal at Montezuma with Cayuga Lake at East Cayuga and with Seneca Lake at Geneva. About half of the canal is formed by slackwater navigation upon Seneca River, and the remainder is a channel parallel to the river. As enlarged, this canal admits the passage of large boats from the Erie Canal to the head of Cayuga and Seneca Lakes.¹

Crooked Lake Canal connects Crooked Lake at Penn Yan with Seneca Lake at Dresden.²

Chemung Canal and Feeder connects Seneca Lake at Watkins with Chemung River at Elmira, with a navigable feeder from Knoxville on Chemung River to Horseheads, on the summit level of the Chemung Canal, including slackwater navigation from the dam and guard lock at Gibson to Knoxville.³

The Genesee Valley Canal extends from Rochester up the Genesee Valley to Olean upon the Allegany. The summit level is 978 ft. above Rochester and 86 ft. above the Allegany River, at Olean, and from it 97 locks descend toward the n. and 9 toward the s.⁴

The Seneca Lock Navigation Co. was incorporated April 6, 1813, for the purpose of improving the outlet of Seneca and Cayuga Lakes; and the Cayuga and Seneca Canal Co. was chartered April 20, 1815. Its capital was increased in 1816 to \$60,000, and in 1817 a further call of 25 per cent. upon the original stock was authorized, including a like extension of payment on stock held by the State. The proposition for assuming this work by the State was approved in 1825, and the interest of the company was purchased for \$33,867.18, exclusive of the amount owned by the State. The work was begun in 1828, and finished in 1828, at a

cost of \$214,000. The inlet to Cayuga Lake is navigable 1½ miles to Ithaca. The locks of this canal are all enlarged, excepting one at Chamberlain's Dam, which will be dispensed with so as to include the distance from Seneca Falls to Waterloo in one level. The descent from Geneva to Montezuma is 74 feet by 12 locks.

² The survey of this canal was authorized by the Legislature in 1828. The canal was ordered to be built by an act of April 11, 1829. It was begun in 1830 and finished in 1833. It has a descent of 269 feet by 27 locks. It extends water communication to the various ports upon Crooked Lake.

³ This canal was authorized April 15, 1829, and its construction was begun in that year and finished in 1833. The total lockages on both the canal and feeder are 516 feet by 63 locks, and the original cost was \$344,000. From Corning, the Blossburg & Corning R. R. ascends into the bituminous coal region of Tioga co., Penn., and this article forms a very important item in the business of the canal. It also communicates with the Erie R. R. The Junction Canal, a private enterprise connecting the Chemung Canal at Elmira with the North Branch Canal of Penn. at Athens, 19 mi. s., promises to become an important tributary to the trade of this canal by opening access to the coal region. The diversion of Chemung River into our canals has been made a subject of complaint and remonstrance by the State of Penn. Plans have been proposed for using Mud Lake, (459 acres) and Little Lake, (708½ acres), in Tyrone, as reservoirs to relieve this canal from the inconvenience felt in dry seasons from low water.

⁴ This canal was authorized by act of May 6, 1836, and was begun the same year. The portion from the Junction to Rochester and the Danville side-cut, in all 52 miles, were finished in 1840; to Oramel, 26 miles further, with the Genesee Feeder at that place, in 1851; to Belfast, 2 miles, in 1853; to Rockville, 3 miles, in 1854, and to Olean, 24 miles, in 1856. A section of one mile, with 2 lift locks and 2 bridges, still remains to be finished.

The repairs of the first and second sections of this canal were put under contract for five years in Dec. 1855, the former for \$3,440 and the latter for \$13,900 per annum. In consequence of heavy freshets and unexpected damages, the contractor on the first section abandoned his contract in June, 1857.

An act passed, 1857, authorized the extension of this canal from Olean eastward across Olean Creek and the bottom lands along the n. bank of the Allegany to its entrance into Mill Grove Pond, 6.52 miles.

Besides the foregoing navigable improvements by the State, the following have been placed under the direction of the Canal Commissioner for construction :

The Owasco Lake Improvement, ordered in 1852, and designed to make this lake a reservoir for supplying a water power for the machinery in Auburn State Prison.¹

The draining of Cayuga Marshes, for reclaiming a large amount of land, estimated at 40,000 acres, at the outlet of Cayuga Lake and along Seneca River. By an act of April 12, 1853, the channel of the river was ordered to be lowered, and the lands benefitted to be taxed for the expense. Surveys have been made and the work partly accomplished under the direction of the Canal Commissioners.²

Several companies have been incorporated for the purpose of constructing navigable canals, but, with two or three exceptions, none of these have at present a corporate existence.

The Delaware and Hudson Canal, extending from Rondout on the Hudson to Honesdale, Penn., is the most important of these. It is connected with the Lackawanna coal region by a r. r. 16 mi. long, and is one of the principal routes by which coal is brought to the market upon the Hudson.³

¹ This work was 2 years in charge of the Agent of the State Prison and the Mayor of Auburn, but in 1855 it was placed in the hands of the Canal Commissioners. The work, up to 1857, was greatly injured by a Spring flood. From 1852 to 1857 inclusive, \$33,485 had been appropriated for this work.

² In 1824, and several times afterward, the drainage of these marshes was made the subject of legislative enactment, but without other results than surveys. A concise history of this movement is given in *Senate Doc. 35, 1853*. The work was placed in 1853 under the direction of George Geddes, and up to 1858, \$175,000 had been appropriated and mostly expended.—*Report Canal Commissioners, 1858, p. 110.*

³ The Delaware and Hudson Canal Company was incorporated April 23, 1823, with a capital of \$1,500,000, with the right of using \$50,000 in banking until 1844. The credit of the State was loaned for \$500,000, in stock, bearing interest of 4 or 5 per cent. The canal was begun in July, 1825, and opened for use in Oct. 1828. Its length from Rondout to Port Jervis, on the Delaware, is 59 miles; and from Port Jervis, up the Delaware to the mouth of the Lackawanna, 24 miles. It crosses the river at the latter place, and extends 26 miles further to Honesdale. Its highest summit between the Hudson and Delaware Rivers is 885 feet above tide. Its descent to the Delaware is 86 feet; its rise along the Delaware is 148 feet; and its rise between the Delaware and Honesdale 197 feet. The aggregate number of locks is 107, and the total rise and fall is 950 feet. The railroad to the coal mines is also owned by the Canal Company. The original cost of the New York section of the canal was \$1,424,994, and of the Penn. section \$612,123. The company own most of the boats used upon the canal, and conduct the towing operations at Carbondale. Present capital, \$7,500,000. The canal was originally constructed to afford 4 feet of depth, and to accommodate boats of 30 tons. In Sept., 1842, a plan of enlargement was adopted, and 5 feet of water was obtained, accommodating boats of 40 tons each. In 1851 a further enlargement was completed, obtaining 6 feet of water, and accommodating boats of 120 tons. The locks are now constructed with a single gate at the upper end, which tures down upon hinges like a door. It is found to be very serviceable, and much quicker to operate than the double gate.

Cayuga & Seneca Canal Co.....	April 20, 1815	Montezuma and Seneca Lake....	Rights purchased by the State.
Chemango Junction Canal Co.....	May 12, 1846	Binghamton to State line.....	Nothing done.
Chittenango Canal Co.....	March 1, 1818	Chittenango Village and Erie Canal.	Assumed by the State, and used as a navigable feeder to Erie Canal.
Delaware & Susquehanna Navigation Co.	April 20, 1825	Delaware and Susquehanna River.	Nothing done.
Ellicotts Creek Slackwater Navigation Co.	April 23, 1829	5,000	Nothing done.
Gowauns Bay & East River.....	April 24, 1837	City of Brooklyn may cause to be constructed.	Partially improved.
Great Chazy Navigation Co.....	May 11, 1836	5,000	Lake and Lower Bridge at Champlain.
Granville Canal Co.....	April 18, 1825	Champlain Canal and Bishops Corners.	Nothing done.
Harlem Canal Co.....	April 18, 1826	550,000	East River and Manhattanville.	Partly done and abandoned.
Harlem River Canal Co.....	April 16, 1827	500,000	Spyten Dnyvel Creek and Harlem River.	Surveyed but not constructed.
Hudson River & Channel Co.....	April 4, 1806	3,500	For raft navigation on upper water.	Nothing done.
Jefferson County Canal Co.....	April 15, 1828	300,000	Carriage and Sackets Harbor....	Nothing done.
Junction Canal Co.....	April 21, 1828	100,000	From Erie Canal near Champlain Junction to Hudson River.	Nothing done.

Table of Companies which have been organized for Constructing Canals and Extending Navigation in the State, continued.

NAMES OF CANALS.	Date of Organization.	Capital.	Connection.	Remarks.
Junction Canal Co.....	May 11, 1845	From Chemung Canal at Elmira to State line to connect with North Branch Canal.	Completed in 1858.
Long Island Canal Co.....	April 15, 1828	\$200,000	To connect Bays on s. side and to cross Canoe Place to Peconic Bay.	Nothing done but survey.
Long Island Canal & Navigation Co.	April 8, 1848	300,000	The same.....	Nothing done.
Manlius Canal Co.....	April 15, 1828	50,000	Erie Canal and Manlius Slack-water Navigation.	State Canal Feeder.
Mohawk & Hudson Lock Navigation Co.	April 17, 1816	500,000	Cohoes Falls and Schenectady...	Nothing done.
Neversink Navigation Co.....	April 16, 1816	50,000	The project failed. The State loaned its credit for \$10,000 and lost the whole sum.
New York & Sharon.....	April 19, 1823	From Sharon, Conn., to tide water to any point on the Hudson or in the City of New York.	Surveyed nearly on the present line of the Hudson R. R.
Niagara Canal Co.....	April 5, 1798	Lake Erie and Lake Ontario.....	Nothing done.
Northern Inland Lock Navigation Co.	March 30, 1792	Hudson River and Lake Champlain.	Work commenced but no part completed.
Northern Slackwater & Railway Co.	May 13, 1846	Port Kent and Saranac.....	Nothing done.
Oneida Lake Canal Co.....	March 22, 1832	40,000	Finished in 1835, and purchased by the State in 1841.
Onondaga Canal Co.....	Nov. 25, 1824	Erie Canal and Onondaga Hollow.	Not constructed.
Ontario Canal Co.....	March 31, 1821	100,000	Canandaigua Lake and Erie Canal.	Nothing done.
Orange & Sussex Canal Co.....	April 11, 1825	From Columbia, on the Delaware, through Orange co., to the Hudson.	The right granted in 1828 to build a R. R. on the line. Nothing done on either.
Oswegatchie Navigation Co.....	April 25, 1831	From the St. Lawrence to Black Lake and Canton.	Nothing done.
Owasco & Erie Canal Co.....	May 1, 1829	150,000	Owasco Lake and Erie Canal.....	Nothing done.
Peconic River Lock Navigation Co.	April 8, 1808	To construct Locks and Dams in Peconic River.	Nothing done.
Rochester Canal & R. R. Co.....	March 26, 1831	30,000	Rochester and Lake Ontario.....	Railroad only constructed.
St. Lawrence Lock Co.....	April 1, 1808	For building Locks at Isle au Rapin.	Locks completed but too small for general use.
Salmon River Harbor Canal Co.	May 16, 1837	350,000	Lake Ontario and Port Ontario..	Never completed.
Scottsville Canal Co.....	April 30, 1829	15,000	Scottsville and Genesee River.	
Seneca Lock Navigation Co.....	April 6, 1813	50,000	For improving navigation between Seneca and Cayuga Lakes.	Merged in Cayuga & Seneca Canal.
Seneca & Susquehanna Lock Navigation Co.	March 31, 1815	300,000	From Seneca Lake to Chemung River near Elmira.	Nothing done.
Sodus Canal Co.....	March 19, 1829	200,000	From Seneca River or Canandaigua outlet to Great Sodus Bay.	Partly constructed, but never used.
Susquehanna & Chenango.....	May 20, 1836	From river to Chenango Canal.	
Wallabout Canal Co.....	April 9, 1828	20,000	Wallabout Bay and Tillary St. Brooklyn.	Not constructed.
Wallabout Canal Co.....	April 18, 1838	25,000	Wallabout Bay to Kent Avenue Brooklyn.	
Western Inland Lock Navigation Co.	March 30, 1792	To open navigation on the Mohawk, Wood Creek, Oneida, and Oswego Rivers to Lake Ontario.	Completed to Oneida Lake in 1797. The rights were afterward vested in the State, and such as were available were used for the Erie Canal.

RAIL ROADS.

THE first Rail road in the State, and the second in the U. S., was opened from Albany to Schenectady in 1831. Although rudely constructed, at great and much needless expense, the advantages of this means of communication became so apparent that within 3 years rail roads, duly chartered by law, were projected in every part of the State.¹ These early grants were generally limited to 50 years, and work was required to be commenced within 3 years, the State being allowed to become purchaser at the expiration of the charter. The charters contained the necessary provisions for the taking of property by appraisements, named the commissioners for opening subscriptions, and sometimes for locating and surveying the road, which in a few instances was done at the expense of the State.

At an early period the aid of the General Government was solicited, in view of the utility of these roads in the transportation of the mails, and, in case of war, of military supplies; but, with the exception of surveys made in two instances, no aid was obtained from this source. The State has

Albany, Vermont, & Canada Rail Road, formerly the Albany Northern R. R. Company organized Feb. 12, 1851. Connects Albany and Eagle Bridge. Road opened through about the 1st of July, 1853. It was sold under foreclosure of mortgage Oct. 16, 1856, and assumed its present name Nov. 7, following.

Albany & West Stockbridge Rail Road, formerly Castleton & West Stockbridge R. R. Company organized April 19, 1830, but nothing was done under the first name. Present name assumed May 5, 1836. Road opened from Greenbush to Chatham Dec. 21, 1841, and to the State line Sept. 12, 1842. It was leased to the Western (Mass.) R. R. Nov. 18, 1841, for the term of its charter; and has since been operated as a part of that road, including the ferry at Albany. The city of Albany, at different times, issued its bonds for \$1,000,000, to aid in building the road, the lessees paying the interest and \$10,000 annually toward the sinking fund. It connects Albany with Springfield and Boston.

Brooklyn City Rail Road. Company formed Dec. 16, 1853. Opened as follows:

Flushing Avenue Route. Fulton St. to Throop Avenue in	July, 1854
Fulton Avenue Route. Ferry to Washington Avenue in	July, 1854
Myrtle Avenue Route. Fulton St. to Nortram Avenue in	July, 1854
Greenwood Route. Fulton St. to Gowanus Creek in	Ang. 1854
Washington Avenue to Brooklyn Avenue in	Sept. 1854
Kent Avenue to Bushwick Creek in	Oct. 1854
Gowanus Creek to 36th St. in	Nov. 1854
Nortram Avenue to Division Avenue in	Nov. 1854

upon several occasions loaned its credit to R. R. companies by issuing stock and retaining a lien upon the roads, which in some cases was afterwards relinquished, and in others sacrificed by sale at nominal prices.

Thrupp Avenue to Division Avenue in..... April, 1855
 Hamilton Avenue Konte, Court St. to Ferry in May, 1855
 This road is used for passengers only, and horse power is exclusively employed.

Brooklyn & Jamaica Rail Road. Company formed April 25, 1832. In 1836 the road was leased to the Long Island R. R. Co. for the term of its charter. The lessees built a tunnel 2,550 feet long under Atlantic St., bought access to the river, erected buildings and docks at a cost of over \$300,000, and have since maintained and operated the road in connection with the Long Island R. R., of which it is virtually a part.

Buffalo, Bradford, & Pittsburgh Rail Road Co. was formed — 1859, by the consolidation of the Buffalo & Bradford and Buffalo & Pittsburgh R. R's.

Buffalo & New York City Rail Road, formerly Attica & Hornellsville R. R. Articles filed Jan. 22, 1851. 31 mi. sold to Buffalo, New York, & Erie R. R. Oct. 31, 1857, and name changed to

Buffalo, New York, & Erie Rail Road.

Canadaigua & Corning Rail Road. Company incorporated May 11, 1845; capital \$1,600,000 Time extended April 15, 1847, and again March 24, 1849. Surveys were begun June, 1845, and the construction in Aug. 1850. Road opened from Canadaigua to "Jefferson" (now Watkins) 46 ⁷/₁₆ mi., Sept. 15, 1851, the New York & Erie R. R. furnishing engines, cars, &c. for a specific rate per mile. The road was allowed to connect with the Chemung R. R. at Jefferson, and to change name Sept. 11, 1852, to Canadaigua and Elmira R. R.

Canadaigua & Elmira Rail Road, changed from Canadaigua & Corning R. R. Sept. 11, 1852. Leased the Chemung R. R. 17 ⁷/₁₆ mi. and 4 mi. of Erie R. R. Sold to parties in Elmira, Penn Yan, and Providence, N. T. April 23, 1857, and possession given May 1. Price \$35,000, subject to \$500,000 due bondholders, and name changed to the Elmira, Canadaigua, & Niagara Falls R. R. the next day.

Canadaigua & Niagara Falls Rail Road. Company incorporated Dec. 10, 1850; capital \$1,000,000. Road opened to Batavia, 50 mi., Jan. 1, 1853, to Niagara Falls 47 mi. July 1, 1853, and to Suspension Bridge 1 ¹/₂ mi. April 1, 1854. Sold March 22, 1857, to Jas. M. Brown and others, and name changed to Niagara Bridge & Canadaigua R. R. Now leased and run by New York Central R. R.

Cayuga & Susquehanna Rail Road, formerly the Ithaca & Owego R. R. was chartered Jan. 28, 1828,—the second R.R. charter granted in the State. The road was opened in April, 1834. An inclined plane at Ithaca rose 1 foot in 4 ³/₈ ft. and stationary steam power was used for drawing up the cars. Above this was another inclined plane that rose one foot in 21 ft., on which horse power was used. The road was subsequently sold by the Comptroller on stock issued by the State, on which the company had failed to pay interest. A new company was organized and the present name assumed April 18, 1843; the road was reconstructed, the inclined planes were done away with, and Jan. 1, 1855, it was leased to the Delaware, Lackawanna, & Western R. R. Co., and is operated by them as the Cayuga Division. This is an important route from the coal mines of Penn., and coal forms the principal item of business.

custom that has since been continued, except during the short period in which the office of R. R. Commissioners was in existence. This Board was created April 14, 1855, and abolished April 16, 1857. The expenses of the State Engineer and Surveyor's office chargeable to Rail roads are assessed upon the several companies in proportion to their earnings. The general act to authorize the formation of R. R. companies was passed March 27, 1848. There are at present within the State 2,554½ mi. of R. R., besides double tracks and turn outs. The Rail roads give employment to about 18,000

Long Island Rail Road. Company organized June 15, 1835. Opened through in July, 1844. The road extends from Brooklyn to Greenport; \$100,000 in State stocks was issued to aid in the construction. The company have leased the Brooklyn & Jamaica and the Hicksville & Cold Spring Branch R. Roads, which they operate as a part of this road.

Newburgh Branch of New York & Erie Rail Road. Branch allowed to Newburgh April 8, 1845. Opened Jan. 8, 1850.

New York Central Rail Road. Company formed by consolidating the several roads in operation, and some projected roads between Albany, Troy and Buffalo, and Niagara Falls. The act allowing the consolidation was passed April 2, 1853, and was carried into effect the 11th of May following. The consolidated capital amounted to \$23,085,600, and debts were assumed to the amount of \$1,947,815.72. The stock of the several companies was received at the following rates, viz. —

Albany & Schenectady.....	117	Rochester & Syracuse.....	130
Syracuse & Utica Direct.....	150	Rochester, Lockport & Niagara Falls.....	125
Schenectady & Troy.....	75	Buffalo & Rochester.....	140
Albany & Schenectady.....	115	Buffalo & Lockport.....	125
Mohawk Valley.....	155		
Syracuse & Utica.....	160		

Each stockholder received a like amount of stock of the new company, at par, (the Troy & Schenectady upon payment of \$25 per share.) and for the differences, certificates of premium bonds bearing six per cent. interest, semi-annually, and payable May 1, 1853. These certificates amounted to \$8,892,600. The Rochester & Lake Ontario R. R. and the Buffalo & Niagara Falls R. R., have since been merged in this road.

Date of opening the several roads now forming the New York Central Rail Road.

New York and Erie Rail Road. Company organized in July, 1833. The act authorizing the road was passed April 24, 1832. The first preliminary survey was made in 1832, by De Witt Clinton, Jr., by order of the government. In 1834 the Governor appointed Benj. Wright to survey the route; who, assisted by Jas. Seynour and Charles Ellett, began the survey May 23d, and finished it the same year. In 1835 the Co. was reorganized, and 40 mi. were put under contract. In 1836 the Comptroller was directed to issue \$3,000,000 State stock to aid in constructing the road. In 1845 the State released its lien on the road, and authorized the original stockholders to surrender two shares of old stock, and receive one share of new. April 8, 1845, a branch was allowed to be built from Chester to Newburgh, 19 mi. The road was opened as follows: from Peimont to Goshen, Sept. 22, 1841; to Middletown, June 7, 1843; to Port Jervis, Jan. 6, 1848; to Binghamton, Dec. 28, 1848; to Owego, June 1, 1849; to Elmira, Oct. 1849; to Corning, Jan. 1, 1850; and to Dunkirk, May 14, 1851. The Newburgh Branch opened Jan. 8, 1850. The road is compelled to pay a bonus of \$10,000 annually to the State of Pennsylvania for the privilege of passing a short distance in that State. Ample details will be found in The New York & Erie R. R. Guide, the annual and special reports of the company, and especially that of Nov. 1853, and in the following documents of the New York Legislature: Senate Doc. No. 12, of 1836; Nos. 27, 38, of 1839; Nos. 18, 58, of 1842. Assem. Docs. Nos. 37, 171 of 1838; No. 47, of 1839; No. 215, of 1840; Nos. 113, 297, of 1841; and No. 50, of 1842. The Patterson & Ramapo (N. J.) R. R., 29½ mi., and the Union R. R., 3½ mi., the Chemung R. R., and the Elmira, Jefferson, & Canandaigua R. R. are released and operated by the this company.

Williamsburgh, Brooklyn, & Bushwick & New Lots.....	June 29, 1853	Williamsburgh and New Lots.....	Allowed to build Horse R. Road, for 21 years.

CORPORATIONS.

CORPORATIONS were generally formed under special acts until the adoption of the Constitution of 1846, which directed that general laws should be passed for this purpose, and forbade special legislation, except for municipal purposes and in cases where the purpose to be attained could not otherwise be effected. The Legislature has power to alter and repeal the powers of any corporation formed under the general laws. The articles of association or declaration of intention must in all cases be filed in some office of record specified in the general acts; and limitations of time, capital, and location must be specified. The stockholders of the more important classes of corporations are personally liable to an extent equal to the amount of stock owned. Under the present Constitution, general acts of incorporation have been passed for a variety of purposes, all of which belong to one of 4 general classes.¹

Class I. includes those whose articles are filed in the office of the Secretary of State.

1. "*An Act to provide for the Incorporation of Companies to construct Plank Roads and Turnpikes.*"²

2. "*An Act to authorize the formation of Companies for Mining, Mechanical, and Chemical Purposes*" was passed Feb. 8, 1848.³

3. "*An Act to authorize the formation of Gas Light Companies*" was passed Feb. 16, 1848.⁴

¹ Constitution, Art. VIII, Revised Statutes. Previous to 1846, general laws existed for the organization of religious societies, (1784;) colleges and academies, (1787;) public libraries, (1796;) medical societies, (1806;) manufacturing companies, (1811;) banks, (1838;) and agricultural societies, (1819, 1841.)

² Several hundred of these corporations were formed and several thousand miles of plank road built in 1848-52. It is probable that less than 5 per cent. of these are now in use,

having mostly been abandoned and divided into road districts as public highways. The companies were required to report, but generally neglected to do so; and few general statistics are preserved concerning them.

³ These companies, though quite numerous, were not required to report; and statistics concerning them cannot be obtained. Many companies that filed their articles never went into operation.

* Gas Light Companies.

A * indicates companies not in operation.

NAMES OF COMPANIES.	Date of Organization.	Original Capital.	Present Capital.
Albany Gas Light Consumers' Co.*	Feb. 18, 1856	\$75,000	\$75,000

¹ These companies are not required to report.
² These companies make no report; and there is no official knowledge concerning those now existing. Several of those formed never went into operation, and others have been consolidated. The N. Y. & Erie R. R. have a telegraph for regulating the train upon that road. The N. Y. Central and some other roads have the exclusive or preferred use of telegraph wires along their route for like purposes.

³ These associations were chiefly limited to the vicinity of New York, numbering 72 in New York co., about 40 in Kings co., with a few in Queens, Richmond, and Westchester. Their operations consisted in raising money by subscription of the members, to be loaned to that member who would allow the highest premium,—the avowed intention being to afford to people of humble means the opportunity of securing for each a home. This absurd fallacy found multitudes of dupes; and in the competition for loans the premiums paid in some instances ran as high as one half of the amount loaned. The mode of appropriating loans varied. It appeared in evidence before the legislative committee of 1855 that in one instance it was as follows:—"The

names of all the shareholders who are not more than four weeks in arrear are put in the end of a quill, and all put into a bottle; the whole is then shaken, and the name which first comes out on reversing the bottle has the right to the appropriation." Nearly or quite all of these associations have been abandoned, a few only being kept together by the complexity of their interests and obligations, which are not readily adjusted. A statement showing the operation of these associations was reported by a special legislative committee in 1856.—*Assen. Doc.*, 1856, No. 47, p. 16.
⁴ This act relates to Marine Insurance Companies which make no report. A list of them will be found in the general list of Insurance Companies, p.—

8. "An Act for the Incorporation of Companies formed to **Navigate the Ocean by Steamships**" was passed April 12, 1852.¹

9. "An Act to authorize the formation of Companies for **Ferry Purposes**" was passed April 9, 1853.²

10. "An Act for the Incorporation of Companies formed to **Navigate the Waters of Lake George by Steamboats**" was passed January 14, 1854.³

11. "An Act for the Incorporation of Companies formed to **Navigate the Lakes and Rivers**" was passed April 15, 1854. Cos. report annually to the State Engineer and Surveyor.⁴

¹ Previous to 1852, Steamship Cos. were incorp. by special acts; since that time they have organized under the general act.

^a Capital reduced to \$270,000 Jan. 15, 1859.

^b Charter expired April 11, 1838. The first steamboat on Lake Champlain was in 1810.

^c Merged in the Ontario & St. Lawrence Steamboat Co. in 1848.

^d Charter expired April 11, 1838.

^e Charter limited to 20 years. Reincorporated April 12, 1842.

^f Merged in the Ontario & St. Lawrence Steamboat Co. in 1848.

^g Merged in the American Steamboat Co. in 1858.

Exclusive individual and corporate rights for steam navigation upon the waters of this State have been granted under special acts, as follows:—An act was passed March 19, 1797, granting to John Fitch the sole right of steam navigation in the waters of the State for a period of fourteen years. Having

done nothing for ten years, this act was repealed in 1798. An act was passed March 27, 1798, granting to Robert R. Livingston the sole right of navigating by steam for twenty years, conditioned to building a boat of at least 20 tons, capable of moving four miles per hour against the current of Hudson River. This

12. "An Act for the Incorporation of Associations for Improving the Breed of Horses" was passed April 15, 1854.¹

13. "An Act to facilitate the formation of Agricultural and Horticultural Societies" was passed June 8, 1853, and amended April 15, 1855.²

Class II. includes all those whose certificates are required to be filed in the Comptroller's office.

1. "An Act to provide for the Incorporation of Life and Health Insurance Companies, and in relation to Agencies of such Companies," was passed June 24, 1853.³

2. "An Act to provide for the Incorporation of Fire Insurance Companies" was passed June 25, 1853.⁴

¹ The following companies have been formed under this act:—

NAME.	Place.	When formed.
Fashion Association.....	Newtown...	Nov. 26, 1855
National Association.....	Newtown...	May 29, 1854
Orange County Central Horse Co.....	Goshen.....	July 31, 1855
Union Association.....	Jamaica....	July 31, 1858

² For Table of Agricultural Societies, see p. —.

privilege was extended two years, March 29, 1799, to enable Nicholas J. Roosevelt to complete experiments. By act passed in 1798, Robert R. Livingston and Robert Fulton secured the exclusive right of navigating by steam for a period of twenty years; and by an act passed April 11, 1808, an extension of five years was granted for each new boat—the whole time, however, not to exceed thirty years. This monopoly was contested in the State and Federal Courts, in a suit begun in 1819, and finally decided in the Supreme Court of the U. S. in Feb. 1824, as repugnant to the Constitution, which authorizes Congress to regulate commerce. So far as these acts prohibited vessels licensed by the laws of the United States from carrying on a coasting trade, they were void.—*Johnson's Reports*, IV, 143; *Cowan's Reports*, III, 713; *Wheaton's Reports*, IX, 1.

³ These companies report annually to the Comptroller. A list of them is given in the general list of Insurance Companies. ⁴ These companies were formerly created by special acts,—generally for periods of 20, 21, or 30 years. Until about 1834 they were almost invariably upon the joint stock principle. For many years this class of investments was considered extremely reliable, and large dividends were often paid to the stockholders. The great fire in New York in Dec. 1835, proved a heavy disaster to almost all the insurance companies then formed, and many of them were prostrated by it. This event soon led to the formation of Mutual Insurance Companies in almost every county in the State: most of these companies have since become insolvent. A graphic and truthful statement of the operations that ruined these companies is given in the Comptroller's Report on Fire Insurances Cos. of 1854. A general law, passed April 10, 1849, provided for the incorporation of these companies, under which risks of every kind might be taken. The frauds perpetrated under this system rendered a revision indispensable; and in 1853 two general laws were enacted,—one for the formation of companies for insurance of life and health, and the other against loss by fire, or inland navigation, and transportation. The articles of association (under the law of 1849, required to be filed in the Secretary's office) were, by

these acts, filed in the Comptroller's office, and general powers were conferred upon the Comptroller, with the view of protecting the public from any frauds that might be attempted, and to secure the equal and uniform operation of the laws relating to insurance. Annual reports are made to the Comptroller, and by him to the Legislature, under each of these laws. Marine Insurance companies are still filed in the Secretary's office, but are required to make no report.

Insurance companies formed under the laws of other States or countries cannot establish agencies in this State without first depositing with the Comptroller a certified copy of their charters, and of the vote or resolution creating the agency, a statement of their condition, and proof that their capital is equal to that required, by the laws of this State, and, if a Life Insurance company, securities to the amount of \$100,000, for the benefit of policy holders. Foreign Marine Insurance companies are required to pay 2 per cent. upon all premiums received by any agent; and a bond in the penal sum of \$1,000 is required of every agent of such companies for the payment of this tax. This tax was first collected in 1858, and amounted to \$3,742.55. Several companies are not required to report their statistics to the Legislature. The aggregate reports of Fire Insurance Companies for 1857 show the following results:—

Capital invested.....	\$36,731,010.00
Cash premiums received.....	6,051,304.87
Gross amount of income.....	7,577,872.62
Losses paid.....	2,898,106.11
Dividends paid.....	2,240,434.72
Taxes paid.....	243,062.79
Gross expenditures.....	6,855,953.88
Unpaid claims.....	968,683.00

The following tables comprise the companies which have been incorporated under special acts or the general laws of the State. Foreign companies authorized to transact business in the State are not included in the list:—

Insurance Companies in the State on 1st day of Jan. 1858.

* Capital reduced from \$199,880.90 to \$87,536.45 by the great Troy fire of 1820. Life insurance taken away in 1831. Directed to close up by act of April 13, 1843.
 † See Comptroller's Report, 1858, p. 45.

Class III. includes those whose certificates are filed in the Banking Department.

“An Act to authorize the **Business of Banking**” was passed April 18, 1838, and was modified April 12, 1851, upon the creation of a Banking Department. Reports previously made to the Comptroller are now made to the Legislature. In 1853 the articles of association previously filed in the Secretary’s office were transferred to this department.¹

Individuals or copartners may obtain bills from the department for circulation as individual bankers, and are liable to the full extent of their property for the redemption of the notes and the payment of the debts of such private banks. The name of individual banks must now be that of their owners; and the privilege cannot be sold, or the bills be signed by an agent. It may, however, be

Williamsburgh Fire Insurance Co...	Williamsburgh...	April 17, 1843	S. f.	
Yates County Mutual Insurance Co...	March 9, 1837	M. f.	

¹ The first bank organized in the State was the Bank of New York, which had existed several years previously as a private partnership. In many of the earlier banks the State reserved the right of subscribing stock, and of appointing directors to represent their interest in proportion to the amount held. Banking powers could only be enjoyed by special act of the Legislature, and were commonly limited to a period of 30 years. In 1838 a general law was enacted, allowing the organization of associations for banking, upon depositing the requisite securities with the Comptroller and filing articles of association in the Secretary's Office. Up to the date of the general law, 108 banks had been created,—of which 31 are still in existence, 36 have

reorganized, and 39 have failed, closed, or changed their names The Manhattan Co., created “for supplying the city of New York with pure and wholesome water,” and the New York Dry Dock Co. possess perpetual banking powers. Other corporations for manufacturing or commercial purposes were allowed like privileges for limited periods, all of which have expired. In 1829 a “safety fund” was created, by requiring an annual contribution of $\frac{1}{2}$ per cent. of its capital paid in from each bank formed or extended after that time, until each had paid 3 per cent. This fund was placed in charge of the Comptroller, and applied to the redemption of the bills of insolvent banks contributing to this fund, after their other means had been ex-

bequeathed. All banks, excepting those in New York, Brooklyn, Albany, and Troy, must have an agency in New York, Albany, or Troy, for the redemption of their bills within one-fourth of one per cent. of par.

hausted. The bank fund has long since been exhausted, the draft upon it far exceeding the income. In 1848, 11 insolvent banks that had contributed but \$86 282 to this fund, had drawn from it \$2,577,927.—*Comptroller's Report, 1848, p. 55.*

The same law provided for the appointment of 3 Bank Commissioners, who were required to visit the banks thrice annually, to ascertain their condition, take measures to secure the public against fraud or loss, and report annually to the Legislature. This office was abolished April 18, 1843, and the Comptroller was invested with general powers relating to banks, from which he was relieved by the creation of a special Bank Department in 1851. This department is under a superintendent appointed by the Governor and Senate for 3 years. It has the custody of all plates for printing bank bills; registers, numbers, and issues to banks such bills as their charters and securities entitle them to; destroys the same when withdrawn from circulation; and destroys the plates when the bank is closed. It appoints special agents for examining the condition of doubtful banks, directs prosecutions in behalf of the State, sells the securities of broken banks to redeem their circulation, and reports the condition of banks to the Legislature annually. Banks can only obtain bills for circulation by depositing New York State or United States stocks bearing interest equivalent to 6 per cent., or bonds and mortgages of not over \$5,000 each upon unimproved lands at two-fifths value, exclusive of buildings, and bearing 7 per cent. interest. Closing banks, after calling in 90 per cent. of their

circulation, may withdraw their stocks or mortgages, and substitute cash for the redemption of the remaining 10 per cent. of circulation. Stockholders of banking associations are personally liable to an extent equal to their capital stock. Experience has shown that under our free bank system bonds and mortgages have realized but about 88 per cent. on the sum for which notes were issued, while the aggregate securities, including stocks, have almost always sold for more than enough to redeem the circulation based upon them.—*Report, 1859, p. 8.*

Bank Note Engraving is now done by a company, formed in 1858, by the union of most of the establishments previously existing.

The Bank of the United States had branches for discount and deposit at New York, Utica, and Buffalo, in this State.

Specie payment has been generally suspended three times by the banks of New York State. In the fall of 1814 all the banks of the Union, except those of New England, suspended until the spring of 1817. In May, 1837, there was a second suspension, which continued until the spring of 1838. On the 13th of Oct. 1857, a third suspension took place in all the banks of New York City, with one exception, (Chemical Bank,) and this was soon followed by the banks of the State generally; but specie payment was resumed in about 60 days.

The following tables, derived from returns in the Bank Department, are corrected up to Jan. 1, 1859. The amount of capital is reported for Dec. 18, 1851:

Existing Banks in the State, Jan. 1, 1859.

Savings Banks are institutions intended to receive in trust small sums of money, generally the surplus earnings of the laboring classes, and to return the same with moderate interest at a future time. They are banks of deposit only; their officers serve without pay, and the money received on deposit can be invested only in mortgages upon real estate, public stocks, or such other securities

Obsolete and Closing Banks, continued.

as may be approved by law. They can be organized by special act of the Legislature, and their charters are perpetual. The total number of savings institutions incorp. prior to 1859 was 75, of which 57 reported their statistics in 1858. They are placed under the care of the Superintendent of the Banking Department, who has general powers for the protection of the interests of depositors, and is required to report their condition annually to the Legislature. Most of these institutions bear names closely resembling those of banks of discount and circulation, and are kept in the same building and have the same persons as officers of both.¹

Class IV. includes those whose certificates are filed in the County Clerks' offices. Most of the corporations already described are required to file their articles in the clerk's office of their respective counties, in addition to depositing them in the departments of the State Government.

"An Act to provide for the Incorporation of **Religious Societies**" was passed April 6, 1784.²

"An Act authorizing the Incorporation of **Rural Cemetery Associations**" was passed April 27, 1847.

"An Act to provide for the **Incorporation of Villages**" was passed Dec. 7, 1847.³

¹ The first savings bank in England was formed in 1804, and the first in New York in 1819, under the auspices of the "Society for Prevention of Pauperism." A public meeting was called and the plan discussed and approved Nov. 29, 1816. The first deposits were made July 3, 1819, and \$2,807 were received the first evening from 80 depositors, in sums of from \$2 to \$300. Within 6 mo., \$153,378.31 had been deposited, by 1,527 persons, and but \$6,606 had been withdrawn. Up to 1857, \$47,530,007.61 had been intrusted to the care of this institution.—*Common Council Manual*, 1858, p. 623.

The first savings bank in Albany was established in 1820; in Troy, in 1823; in Brooklyn, in 1827; and in Buffalo, in 1836. Most of these banks were originally required to report to the Legislature; but their returns were seldom published. Under the act of March 20, 1857, they are required to report to the

Superintendent of the Banking Department. Sixteen savings banks have been incorp. that never organized. Only two of the whole number chartered have ever failed. The "Knickerbocker Savings Institution," of N. Y., incorp. April 8, 1851, failed and went into the hands of a receiver in 1854; and the "Sixpenny Savings Bank of Rochester," incorp. July 13, 1854, failed.

² This act was amended, so far as it related to the Ref. Prot. D. Societies, March 7, 1788. Other amendments were made in 1801, 1813, and 1823. For statistics see p. —.

³ Previous to this act, villages were incorp. by special acts of the Legislature, and the articles were filed in the State Department; but since, the filing of articles has become a mere local affair; and it is extremely difficult to obtain a complete list of the incorporated villages of the State.

AGRICULTURE.

THE climate of the State is adapted to the cultivation of most of the crops and fruits of the temperate zone. The improved lands comprise a little more than one-half of the entire area of the State, and of these 37 per cent. is devoted to pasturage and 25 per cent. is occupied by meadow lands. The principal crops, in the order of relative amount, are oats, corn, wheat, buckwheat, rye, and barley, together occupying 37 per cent. of the cultivated lands,—leaving 1 per cent. for the minor crops and gardens. The northern cos. of the State and the highland regions along the s. border and upon the Hudson are much better adapted to pasturage than tillage; and the people in these sections are almost exclusively engaged in stock and sheep raising and in dairying. Little more grain is raised than is strictly necessary for a proper rotation of crops; and the greater part of the grain for home consumption is imported from other sections of the country. The low lands that surround the great lakes and occupy the greater portion of the surface in the w. part of the State are best adapted to grain growing. Several sections of the State are found peculiarly adapted to particular products. The Mohawk Valley intervals have been long almost exclusively devoted to the cultivation of broom corn. The Chemung Valley parts of Onondaga co. and several other sections are becoming known as tobacco raising districts. Hops are extensively cultivated in Madison, Oneida, Otsego, and Schoharie cos. The Hudson Valley below the Highlands, the n. shore of Long Island, and the s. extremity of several of the lake valleys in the central portion of the State are well adapted to the culture of grapes. Maple sugar is largely produced in the northern cos. and in the central highland districts. Upon Long Island and in Westchester large sections are devoted to the cultivation of vegetables for the New York market. The people of Orange, Rockland, Westchester, Putnam, and Dutchess cos. are largely engaged in furnishing the city of New York with milk.¹

The New York State Agricultural Society was formed by a convention held at Albany in Feb. 1832; but for several years it received no support from the State and held no regular fairs. In 1841 the society was re-organized, and measures were adopted for raising funds and holding annual fairs. On May 5 of that year, an act was passed by the Legislature, appropriating \$8,000 for the encouragement of agriculture, \$700 of which was to go to the State Society, and the remainder was to be divided among the co. societies in the ratio of Assembly representation. This appropriation has been continued until the present time. The society is required annually to report to the Legislature a full account of its proceedings, and such facts concerning the agricultural condition of the State as may be of general interest. The volumes of Transactions are published by the State, and are widely distributed among the farming population. The annual fairs are held in different parts of the State, and are largely attended.² They usually succeed in

¹ Hay is most largely produced in St. Lawrence, Oneida, Chautauque, Otsego, Chautauque, Delaware, and Orange counties; wheat, in Livingston, Monroe, Genesee, Niagara, Ontario, and Jefferson counties; oats, in Onondaga, Montgomery, Oneida, Cayuga, and Otsego; rye, in Columbia, Rensselaer, Ulster, Orange, Albany, Saratoga, and Washington; barley, in Jefferson, Onondaga, Ontario, Cayuga, and Wayne; buckwheat, in Schoharie, Montgomery, Otsego, Saratoga, and Tioga; corn, in Onondaga, Cayuga, Monroe, Wayne, Oneida, and Ontario; and potatoes, in Washington, Monroe, Oneida, St. Lawrence, Rensselaer, and Franklin. The counties having the greatest number of cows are St. Lawrence, Jefferson, Oneida, Orange, Chenango, Herkimer, and Chautauque; and the greatest number of sheep, Ontario, Livingston, Steuben, Cayuga, Washington, Wyoming, Monroe, and Genesee. The counties that produce the greatest quantity of butter are St. Lawrence, Delaware, Chenango, Jefferson, Chautauque, Orange, and Otsego; and the greatest amount of cheese, Herkimer, Oneida, Jefferson, Madison, Erie, Cattaraugus, St. Lawrence, and Otsego.

² The earliest agricultural exhibition on record within the present limits of the State was a cattle fair, held at New Amsterdam, Oct. 15, 1641. An act passed Nov. 11, 1692, entitled "An act for settling fairs and markets in each respective city and co. throughout this province," remained in force until repealed by the State Legislature, March 12, 1788. A special act was passed for the fairs of Albany, Ulsterland, and Tryon cos., March 8, 1773, but scarcely took effect before the Revolution. Acts applying to particular towns were passed by the earlier State Legislatures; but the custom of holding fairs soon fell into disuse. These fairs were more properly market days; no premiums were offered, and no inducements to competition existed beyond the ordinary stimulus of trade. The products of farm culture being placed side by side, their comparative excellence was left to the decision of the purchaser, which doubtless contri-

buted to excite emulation among the producers. These fairs were generally held semi-annually, upon fixed days, under the direction of "Governors and Valers," appointed in colonial times by the Governor, and afterward by the judges of the co. courts. The expenses were defrayed by tolls, usually 1 per cent., upon the commodities sold, half of which was paid by the buyer and half by the seller.

The Society for the Promotion of Agriculture, Arts, and Manufactures was instituted Feb. 26, 1791, and incorp. March 12, 1793. For more efficient action, it in 1801 divided the State into as many agricultural districts as there were cos., in each of which a secretary was appointed, to convene the members of the society within his district, inquire into the state of agriculture and manufactures, receive communications and arrange and transmit them to the President of the society. The transactions of this body were printed by the State, and the society throughout the State. Its charter expired in 1804; and its corporate powers were revived and continued April 2 of that year, under the name of the Society for the Promotion of the Useful Arts. The affairs of the new body were managed by a council of 9 members, and State patronage was continued in the printing of its Transactions. In 1808-12 liberal premiums were offered for the best cloths of household manufacture, a part of which were awarded by the co. judge and a part by this society. The samples, upon which \$10,000 were thus paid, are still preserved in the library of the Albany Institute. After being once extended, the Society for Promoting Agricultural Arts was superceded, in part, by a Board of Agriculture, but continued as a local institution of Albany until merged, with the "Albany Lyceum of Natural History," in the "Albany Institute," in 1829. The latter has most of the books, papers, and effects of its predecessors; and tracing back through its change it is the oldest scientific society in the State. "An act to improve the agriculture of this State,"

awakening a great local interest in agricultural matters. The office of the society is kept at the Agricultural Rooms, corner of State and Lodge Sts., Albany, where it has a museum and library.

County and Town Societies.—The act of 1853 allows county agricultural societies to purchase and hold real estate to an amount not exceeding \$25,000 and personal property not exceeding \$1,000, for the purposes set forth in their articles of incorporation, and for no other purposes. Town and other societies may hold real estate to the amount of \$10,000 and personal property to the amount of \$3,000. Each county or union society must have at least one director or manager for each town; and each town, village, or city society must have not less than 10 directors, who are elected annually by ballot. Upon application of two-thirds of their members to the Supreme Court of the district in which they are located, these societies may obtain an order for the sale of a part or the whole of their property. An amendment to the act was passed April 13, 1855, by the provisions of which the number of directors was changed to 6, 2 of whom are elected each year for a term of three years. Any person may become a life member by the payment of a sum not exceeding \$10; and the officers are jointly and severally liable for all debts due from the society contracted while they are in office, if suit be commenced within one year

passed April 7, 1839, created a board of agriculture and appropriated \$10,000 annually for 2 years, to be distributed for the promotion of agriculture and family domestic manufactures in the several cos., on condition that a similar sum should be subscribed by the co. societies formed under this act. A board, formed of the president, or a delegate chosen from each co. society, met annually at Albany, elected officers, examined reports, and selected for publication such returns as they deemed proper. These were published by the State. Three volumes of Memoirs were issued, and the board continued in existence but little longer than the appropriation was continued. County societies, on the plan of the Berkshire Co. Agricultural Society, began to be formed in 1817; and, by the exertions of De Witt Clinton, Elkanah Watson, and other friends of the measure, they were extended to most of the cos. These societies, after a brief period, fell into disuse; and that of Jefferson co. is the only one of this class that can trace an unbroken descent from that period.

The first officers of the present State Agricultural Society, formed in 1832, were Le Ray de Chaumont, *President*; E. P. Livingston, Jacob Morris, and Robert L. Rose, *Vice Presidents*; P. S. Van Rensselaer, *Recording Secretary*; Jesse Buel, *Corresponding Secretary*; Charles B. Webster, *Treasurer*; and H. W. Delavan, John Townsend, and H. Hickox, *Executive Committee*. County societies were again instituted in many of the cos. under the influence of this society; but most of them were short lived. The "Cultivator" was begun in March, 1834, by Jesse Buel, under the guarantee of Stephen Van Rensselaer and James Wadsworth, as the organ of the society and medium of communication between the friends of agriculture; and it has been continued ever since, under private auspices, but entirely devoted to the interests of agriculture. It has for many years been published by Luther Tucker, of Albany.

Any person a citizen of the State may become a member of the State Society upon payment of \$1 annually, or a life member by payment of \$10 at one time. Presidents of co. societies and one delegate from each are *ex officio* members. The officers of the society are elected annually in Feb., and consist of a

President one Vice President from each of the Judicial Districts, a Recording and a Corresponding Secretary, a Treasurer, and an Executive Committee, consisting of the above and 5 others chosen for the purpose.

Prémiums are awarded in money, plate, medals, books, and diplomas; and the society embraces within the field of its patronage not only stock, farm, and garden products and implements of husbandry, but a wide range of useful and ornamental manufactures, particularly those which are the products of home industry. The places and times of holding the State fairs, names of Presidents, and total receipts of the State society have been as follows:—

YEARS.	Place of holding fair.	Time of holding fair.	Presidents.	Receipts.

¹ This column includes the four preceding ones, and also a miscellaneous class reported as "Planks," "Boards," "Shanties," &c. Of 4,196 dwellings, the material and value were not given. The value, so far as reported, was as follows:—

	Number.	Total Value.	Average Value.
Stone.....	7,172	\$49,184,819	\$6,857.89
Brick.....	56,752	312,151,135	5,500.26
Frame.....	378,967	297,453,492	784.90
Log.....	28,831	1,330,168	46.13
Total.....	487,904	664,899,967	1,362.76

MANUFACTURES.

THE manufactures of the State are very extensive, embracing an almost endless variety of articles. In many sections the manufacturing interests surpass those of agriculture or commerce. The lines of internal communication through the State have greatly facilitated the spread of manufactures; and now manufacturing establishments are found in nearly every part of the State.¹ The most im-

¹ *Manufacturing Establishments in the several Counties, as reported by the State Census of 1855.*

COUNTIES.	Bakeries.	Blacksmith shops.	Boot and shoe shops.	Breweries.	Brick manufactories.	Cabinet making shops.	Carding and cloth dress- ing establishments.	Carpenter shops. portant and extensive manufactures are those of iron and machinery, leather, articles of wood, and cotton and woolen goods. Such articles as relate to the professions and fine arts, to books, maps, and engravings, and to the heavy machinery used in ocean steamships, are principally manufactured in New York City and its suburbs. Immense quantities of brick are manufactured on the Hudson for the New York and Southern markets. Lime, waterlime, and gypsum are largely manufactured on the Hudson and through the center of the State; and iron ware is produced in large quantities in the iron districts of Essex, Clinton, Dutchess, Orange, and Oneida counties. Details of the principal manufacturing establishments are given in the statistics of the cities or towns in which they are located.¹

¹ Manufacturing Establishments in the several Counties, continued.

COUNTIES.	Millinery shops.	Paper mills.	Plaster mills.	Printing offices.	Salt manufactories.	Sash and blind manufactories.	Sawmills.	Shingle factories.	Sisal building establishments.	Silver ware manufactories.	Tailor shops.	Tanneries.	Tan and sheet iron manufactories.	Tobacco and cigar manufactories.	Turning shops.	Woolen cloth and yarn factories.	Other manufactories.

The returns of manufacturing establishments from many counties are quite unsatisfactory, as an examination of the table will show. It is to be hoped that the next census will be more complete in this particular.

COMMERCE.

THE position of New York in the confederacy of States gives it peculiar facilities for maritime affairs, and through its various ports a large proportion of the foreign and internal commerce of the nation is carried on. This commerce extends to every accessible port in the world, and in amount and variety excels that of all the other States of the Union. It is regulated by acts of Congress; and the revenues arising from duties upon articles imported are collected by officers appointed by the President and Senate, or subordinate to those thus appointed. These officers are accountable to the U. S. Treasury Department.

Collection Districts.—The Federal Government has established 11 Collection Districts within this State for the collection of these revenues. Each of these has one port of entry, in charge of a collector, and several ports of delivery, at which one or more deputy collectors, inspectors, or other officers reside.¹ The number of officers employed in collecting these revenues in New York City and its dependencies is nearly 800. Duties on foreign importations form much the largest item of revenue for the support of the General Government, and those collected at the port of New York form the largest part of the whole amount. The absolute and relative amounts of moneys collected from this source in the United States and State of New York have been steadily increasing, except as influenced by pecuniary embarrassments; and now the former amount to about \$60,000,000 annually.²

¹ Collection Districts in New York.

DISTRICT.	Date of Establishment.	Principal Office.	Subordinate Offices.
Sag Harbor.....	July 31, 1789	Sag Harbor.....	Greenport.
New York City.....	July 31, 1789	New York.....	Albany, Troy, Cold Spring Harbor, Port Jefferson.
Champlain.....	Mar. 2, 1793	Plattsburgh.....	Whitehall, Rouses Point, Champlain. Perryville, Mooers, Centerville, Chateaugay, Burke, Trout River, Westville, Port Covington, Hogeburgh, Malone.
Oswegatchie.....	Mar. 2, 1811	Ogdensburgh.....	Hammond, Morristown, Lisbon, Waddington, Louisville, Massena.
Cape Vincent.....	April 18, 1818	Cape Vincent.....	Alexandria Bay, Milens Bay, Clayton, Chaumont, Three Mile Bay, Point Peninsula.
Sackets Harbor...	Mar. 3, 1803	Sackets Harbor..	Dexter, Henderson, Sandy Creek.
Oswego.....	Mar. 2, 1799	Oswego.....	Big Sodus, Little Sodus, Texas, Port Ontario.
Genesee.....	Mar. 3, 1805	Rochester.....	Carthage Landing, Kelsey Landing, Pultneyville, Charlotte.
Niagara.....	Mar. 2, 1799	Lewiston.....	Niagara Falls, Niagara Bridge, Youngstown, Wilson, Eighteen Mile Creek, Oak Orchard.
Buffalo Creek.....	Mar. 3, 1805	Buffalo.....	Black Rock, Black Rock Dam, Tonawanda, Schlosser.
Dunkirk.....	July 27, 1854	Dunkirk.....	Barcelona, Irving, Cattaraugus Creek, Silver Creek.

Albany was made a port of delivery in N. Y. Dist. July 31, 1789. Cape Vincent was made a port of delivery in Sackets Harbor Dist. Mar. 2, 1811.

Hudson was made a port of delivery in N. Y. Dist. July 31, 1789 and a district and port of entry Feb. 26, 1795. Annexed to N. Y. Dist. May 7, 1822.

Catskill and Kinderhook were made ports of delivery from Feb. 26, 1795, to May 27, 1796.

New Windsor, Newburgh, Poughkeepsie, and Esopus were made ports of delivery July 31, 1789.

Niagara.—Office removed from Ft. Niagara to Lewiston Mar. 2, 1811.

¹ The following table exhibits the receipts for customs for the ports of the U. S. and N. Y. for a series of years:—

Receipts into United States Treasury.

YEARS.	Total from all sources.	FROM CUSTOMS.	
		United States.	New York.
1795	\$9,419,802.79	\$5,588,461.26	\$2,717,361
1800	12,451,184.14	9,080,932.73	3,611,588
1805	13,689,505.14	12,936,487.04	6,958,008

1850	47,649,388.88	39,668,686.42	24,487,610
1855	65,351,374.68	53,025,794.21	
1857	68,969,212.57	63,875,905.05	43,510,753.79
1858	70,273,869.59	41,789,620.96	

The amount of revenue from duties varies with the amount of tariff, and the sum thus collected becomes a very uncertain measure of the amount of commerce. The present tariff was adopted March 3, 1857, and admits a large class of goods free of duty. The system of bonding, introduced in 1816, permits goods to be stored in Government warehouses until re-exported or sold, before the payment of duties are required. The State Government took early measures for establishing custom houses and regulating duties upon foreign importations. By an act of Nov. 18, 1784, Sag Harbor and New York were made ports of entry and delivery, and officers were appointed by the Governor and Council of Appointment at each. The reluctance of New York to part with these revenues led to much delay in her ratifying the Constitution of the U. S. by which her revenues were surrendered to the General Government.

Registered and enrolled tonnage of the port of New York and of the United States at different periods.

YEARS.	REGISTERED TONNAGE.		ENROLLED TONNAGE.		TOTAL TONNAGE.	
	United States.	New York.	United States.	New York.	United States.	New York.

The Foreign Trade of New York from 1700, although fluctuating considerably, has exhibited a general progressive increase. The commerce of the country was suspended during the Revolution; and no statistics of its amount have been preserved during the period in which the States formed each an independent sovereignty under the Confederation. The amount of imports has been reported separately by States only since 1821.*

Amount of American as compared with Foreign Tonnage at different periods in the District of New York.

Table with columns for Years, Tonnage Entered (U.S., Foreign, Total), and Tonnage Cleared (U.S., Foreign, Total). Rows list years from 1825 to 1858.

Amount of Registered, Enrolled, and Licensed Tonnage in the several Collection Districts, June 30, 1858.

Table with columns for Districts, Registered, Enrolled and Licensed. Lists districts like Sag Harbor, New York, Champlain, Oswegatchie, Cape Vincent, Sackets Harbor, Oswego, Genesee, Niagara, Buffalo Creek, Dunkirk.

Amount of Registered and Enrolled Tonnage of the United States and District of New York at different periods.

Table with columns for Years, Registered (U. States, N. York), Enrolled and Licensed (U. States, N. York). Rows list years from 1827 to 1858.

Number of Entries of Merchandise at the Port of New York for 10 years, ending June 30, 1856.

Table with columns for Years and Entries. Rows list years from 1847 to 1851.

General Statistics for 1858.

Table with columns for Exports of American produce, Imports, Number of vessels cleared, Number of vessels entered, Crews. Includes American and Foreign Vessels.

Trade of New York from 1700 to 1776.

Table with columns for Years, Total Value (Imports, Exports). Rows list years from 1700 to 1738.

Trade of New York since the adoption of Federal Constitution.

Table with columns for Years, Imports, Exports. Rows list years from 1791 to 1888.

* From Oct. 1, 1842, to June 30, 1843. The fiscal year was changed at this time, and now begins July 1.

SALT MANUFACTURE AT SYRACUSE

1. Salt Evaporation or Salt Fields.
2. Exterior of Salt Blocks
3. Interior of Salt Blocks or boiling Works.
4. State Pump House and Reservoir.

The reports of commerce and navigation do not specify the amount imported and exported in each collection district. The relative amount of the port as compared with the State of New York has been as follows at different periods:—

YEARS.	IMPORTS.		EXPORTS.		Importation of Dry Goods.			
	Port of N. Y.	State of N. Y.	Port of N. Y.	State of N. Y.	ENTERED FOR CONSUMPTION.	1856.	1857.	1858.

Tonnage.—The size of registered American vessels engaged in foreign trade has been steadily increasing, and has more than doubled within twenty years. Steam vessels were first enrolled in 1823 and first registered in 1830. They now form 12 to 15 per cent. of the total amount of tonnage.¹

Steamboats applying for registry, enrolment, or license must be inspected under the direction of a Board of Supervising Inspectors. The United States is divided into 9 Supervising Districts, the 2d of which includes the seaboard, and the 9th the lakes of New York. Steamboats are required to be well guarded against fire, to have suitable pumps worked by hand and by steam, at least two boats, and large steamers more, in proportion to their tonnage, (except upon rivers,) one life preserver to every passenger, and a certain number of floats, and fire buckets and axes. Their boilers, engines, and hull must be examined and approved by inspectors appointed by the Collector, the Supervising Inspector for the district, and the Judge of the U. S. District Court; and every requirement of the law must be found complied with. Pilots and engineers on steamers must be examined and licensed by the Inspectors. The present steamboat law was passed Aug. 30, 1852.²

The Coasting Trade of the United States is entirely restricted to American vessels, and the share belonging to New York is very great; but from the want of official returns it cannot be definitely ascertained. Unless carrying distilled spirits or foreign goods, these vessels are not required to report their entrance and clearance; and, as they oftener leave than arrive with these articles, the number of clearances reported is disproportionately high.³

The affairs of commerce relating to police, sanitary, and municipal regulations are governed by the laws of the State, and their care is intrusted to officers appointed under its authority. These officers are divided into several classes, each of which has charge of a particular department.

1. **The Board of Commissioners of Pilots** consists of 5 persons,—3 elected for 2 years by the Chamber of Commerce, and 2 for a like term by the presidents and vice-presidents of the marine insurance companies of N. Y., composing or representing the Board of Underwriters in that city. This Board appoints a secretary, has an office, meets once a month or oftener, and licenses, for such term as it may think proper, as many pilots as may be deemed necessary for the port of New York.¹

2. **The Board of Health of New York** is composed of the Mayor and Common Council of the city.²

3. **The Commissioners of Health** are composed of the President of the Board of Aldermen, the Health Officer, the Resident Physician, the Health Commissioner, and the City Inspector.

4. **The Health Officer**, appointed by the Governor and Senate, is required to board every vessel subject to quarantine or visitation, upon its arrival, to ascertain whether infectious diseases are present, and to obtain, in such case, the facts necessary to determine the period that such vessel must be detained.³

5. **The Resident Physician** for the city and county of New York is appointed by the Governor and Senate. He is required to visit all sick persons reported to the Board of Health, or to the Mayor and Commissioners of Health, and to perform such other professional duties as the Board may require.

6. **The Health Commissioner**, appointed in like manner, is required to assist the Resident Physician.⁴

7. **The Quarantine Hospital** is located in the town of Castleton, in Richmond co.; and vessels detained on account of infectious diseases are anchored in the adjacent waters, or, in sickly seasons, in the lower bay.⁵

8. **Harbor Masters** are appointed by the Governor and Senate, for the purpose of assigning piers and other stations for landing and receiving cargoes.⁶

9. **The Port Wardens of the Port of New York** are appointed by the Governor and Senate, for the purpose of inspecting vessels and the stowage of cargoes and of estimating all damages to the same. They consist of a Board of 9 members, one of whom must reside in Brook-

Enrolled Tonnage of the U. S. engaged in the Coasting Trade for different periods.

Years.	Tonnage.	Years.	Tonnage.	Years.	Tonnage.

1830	516,978.18				

In June, 1858, there were, of small vessels under 20 tons licensed for the coasting trade, 159.21 tons at Sag Harbor and 71.25 tons at Greenport.

¹ The licenses thus granted may express different degrees of qualification, appropriate to different branches of duty, and may be revoked at pleasure. Candidate must sustain a satisfactory examination and be found of good character and temperate habits. They must also give bonds for the faithful discharge of their duties. The board has power to regulate pilotage; and the fees of pilots are fixed by law. The masters of vessels of under 300 tons, owned by a citizen of the U. S. and licensed in the coasting trade, need not employ a pilot unless they prefer. If the master of a vessel of from 150 to 300 tons, owned and licensed as above, be desirous of piloting his own vessel, he may obtain a license from the Commissioners of Pilots for each purpose. All masters of foreign vessels and vessels from a foreign port, and all vessels sailing under register by way of Sandy Hook, are required to take a licensed pilot, or, if they refuse, they must pay the pilotage to the pilot first offering his services. Pilots licensed by other States have no privileges in this. Candidates for recommendation as Hellgate pilots must have served an apprenticeship of 3 years, and until they attain the age of 21 years, must have served 2 years after as deputy pilots and sustained repeated examinations before the Board of Wardens in the presence of at least 2 Hellgate pilots.

The first act regulating the pilotage of New York was passed in 1731; and since that period this service has been conducted under rules and penalties established by the Colony or State of New York. All special laws concerning pilotage by the way of Sandy Hook were repealed in 1845. The present law was enacted in 1853 and amended in 1854-57. The pilots belonging

upon steamboats are licensed by inspectors appointed under the Treasury Department of the U. S. Those employed in conducting vessels by way of Sandy Hook are licensed by the Board of Commissioners of Pilots; and those by way of Hellgate, by the Governor and Senate, upon recommendation of the Board of Wardens.

² Boards of Health are by law created in every city, incorporated village, and town, under an act of 1850; but the greater number of these have never acted officially. In towns the Supervisor and Justice of the Peace are a Board of Health, and may appoint a physician as health officer.—*Revised Statutes, 5th Edition, 11, p. 53.*

³ The Health Officer resides at quarantine, has general direction of the location of vessels detained, their purification, and the discharge of their cargoes, and other duties connected with the health of vessels in quarantine. He is paid by fees, and reports to the Mayor or Commissioners of Health.

⁴ This officer receives all moneys applied to the Marine Hospital, and pays all demands against the same that shall have been approved by a majority of the Commissioners of Health. He reports his accounts monthly to the Board of Health, gives a bond of \$20,000 for the faithful discharge of his duties, and receives a salary of \$3,500, to be paid by the Commissioners of Emigration. The Board of Health may from time to time appoint as many visiting, hospital, and consulting physicians as may be deemed proper, and may also fix their duties and compensation.

⁵ The Hospital buildings, destroyed Sept. 1-2, 1855, (see page —) have been temporarily rebuilt.

The removal of quarantine to some place less dangerous to the public health has been fully shown to be necessary; but the final disposition of the important question as to whether, is not settled. The only available place for the construction of buildings seem to be upon some of the shoals in the lower bay. Old Orchard Shoal, on which the water is from 1 to 3 fathoms deep at mean low tide, has been proposed for this purpose. The East Back and Dry Romer Shoals have about the same depth, but are more exposed to the open sea.

⁶ There are 9 Harbor Masters in New York, 2 in Brooklyn, and 1 in Albany. They enforce the regulations of the city authorities relative to clearing docks and preventing nuisances or obstructions. They are paid by fees and report the amount thereof annually to the Governor.

lyu, and 3 must be nautical men. They choose one of their number President, appoint a Secretary, use a seal, and keep an office. They are exclusive surveyors of vessels damaged or wrecked, or arriving in distress, and, when called upon, judge of the fitness of vessels to depart upon voyages. They are also, upon application, required to estimate the value or measurement of vessels when the same is in dispute or libelled; and they may examine goods in warehouses that have been damaged on shipboard. The Board, or some member thereof, must attend all sales of vessels or their cargoes condemned and in a damaged state; and such sales by auction must be made under the direction and by order of the Wardens, and are exempt from auction duties.¹

The Commissioners of Health are authorized to collect of the masters of every vessel entering the port of New York a certain tax, for the benefit of the Health Office.²

The Board of Commissioners of Emigration, consisting of the Mayors of New York and Brooklyn, the President of the German Society and Irish Emigrant Society, and 6 Commissioners appointed by the Governor and Senate, have charge of the interests of immigrants when they first arrive at New York.³

The Marine Court of the City of New York has jurisdiction in civil cases arising between persons engaged in maritime affairs, where the sum in dispute does not exceed \$500.⁴

Canadian Trade.—The revenues collected on the Canada frontier, in some periods, have fallen short of the cost of collecting them. The Reciprocity Treaty of 1854 admits the greater part of articles the produce of the U. S. and B. A. into each country respectively free of duty.⁵

¹ The Wardens are paid by fees and percentages upon sales. Special Wardens are appointed to reside at quarantine. They report to the Board of Wardens of N. Y., and have jurisdiction as wardens over vessels detained in quarantine. The Board of Port Wardens reports annually to the Comptroller a statement of its receipts and expenses, with an affidavit of each member and of the Secretary that they have not received directly or indirectly any moneys except their legal fees.

² Under an act passed in March, 1801, the amount of this tax was fixed at \$1.50 for every cabin and 75 cts. for every steerage passenger, mate, and mariner. In 1818 the tax was fixed at \$1.50 for every captain and cabin passenger; \$1.00 for every steerage passenger and mariner of foreign vessels; and 25 cts. for master, mate, and sailor of every coasting vessel. The moneys thus paid, after supporting the Marine Hospital at Quarantine and contingencies and yielding \$8,000 annually to the Society for the Reform of Juvenile Delinquents, was invested by the Comptroller as the "Marine Fund." In 1831 the Board of Trustees of the Seamen's Fund and Retreat was created, under whose direction the present establishment known as the "Seamen's Retreat," on Staten Island, more particularly described on page —, has since been managed. Of the 44,932 admitted up to Jan. 1, 1859, 80 per cent. were discharged cured, 8½ per cent. were relieved, 3 per cent. were discharged by request, and 4½ per cent. died.

³ The master of every vessel bringing passengers from foreign countries must give a bond of \$300, conditioned that such persons shall not become chargeable for support within 5 years. They may commute this bond by paying \$2 upon each passenger, of which sum ¼ is set apart for the counties other than N. Y. toward the support of emigrants in the several counties. For every lunatic, idiot, deaf and dumb, blind, maimed, or infirm person, and every widow with children, or person over 60 years of age, and liable to become a public charge, a bond of \$500 is required.

The Commissioners of Emigration have a large establishment on Wards Island for the support of the sick, infirm, and destitute, and have leased Castle Garden as a general landing place. Emigrants may here purchase tickets for any part of the Union, and procure such articles as they may stand in need of, without encountering the hardships of faithless agents and mercenary runners that formerly proved the scourge of immigration and the disgrace of the city. The Marine Hospital at

Quarantine was placed under these Commissioners in 1847. See pages —, —.

⁴ These actions may be for compensation for the performance, or damages for the violation, of a contract for services on board a vessel during a voyage performed in whole or in part, or intended to be performed, by the vessel; or for assault and battery, false imprisonment, or other injury committed on board a vessel upon the high seas, and not coming within the jurisdiction of the U. S. District Courts. The Marine Court is held daily, except on Sundays and holidays; and its Justices, three in number, are elected for a term of 4 years, and enter upon their duties on the second Tuesday of May after their election. Their Clerk is appointed by the Supervisors, and their salary is fixed by the Common Council and cannot be increased during their term of office.

The State Government, before the adoption of the Federal Constitution, had instituted a court of Admiralty; but in 1789 it surrendered these powers to the General Government, and they have since been exercised by the District Court of the U. S. Suits for salvage, and other questions arising in the sale of wrecked property, are decided in this court.

The Governor appoints 15 *Wreck Masters* in Suffolk, 12 in Queens, 3 in Kings, 2 in Richmond, and 2 in Westchester co. These officers have, with coroners and sheriffs, the custody of wrecks and property cast ashore by the sea. Such property belongs to the owners, and may be recovered by paying reasonable salvage and in due course of law.

⁵ Imports from Canada duty free for the year ending June 30, 1858.

As the only avenue to the sea which Canada possesses is closed by ice during about five months in the year, the foreign trade of that country in winter must seek other avenues; and, from the acknowledged superiority of New York as a commercial point, a large part of the trade is through that port. Over half the vessels that arrive in Quebec come in ballast; while none leave port without cargoes of timber or other commodities of the country. This renders the outward freights disproportionately high; and, although vessels may land in the upper lakes and pass without transshipment down the St. Lawrence, the difference of ocean freights makes it cheaper to send by the canals to New York.

The number of vessels and amount of tonnage employed upon the great lakes have been rapidly increasing for the last 10 years. In the several collection districts of this State, the ratio of increase has been much greater in ports where railroads terminate.¹

The above indicates but a part of the commerce of these districts. It is probable that the amount of coasting trade which is not entered upon the custom house books is much larger in each district than that here given.

The canals and rail roads of Canada terminating upon our frontiers are intimately connected with the commercial prosperity of this State; and a notice of their extent and capacity is necessary to a full understanding of our commercial possibilities.¹

Custom Houses have been erected by the General Government at New York, Plattsburgh, Oswego, and Buffalo; and a site has been purchased at Ogdensburgh. These edifices are built of stone, fireproof, and are generally fine specimens of architecture. Efforts have been made to secure the erection of similar buildings at Rochester, Sackets Harbor, Albany, Brooklyn, and Sag Harbor, but so far without success.²

1. *The Welland Canal* extends from Port Colborne, on Lake Erie, to Port Dalhousie, on Lake Ontario. It has a feeder branch to Dunnville, on Grand River, and another from the feeder to Port Maitland. It passes sloops, schooners, and propellers of a capacity of 400 tons. In 1856 its tolls amounted to \$261,568.13; in 1857 to \$232,437.38; and in 1858 to \$207,771.52.

The Rideau Canal was built as a military work by the Home Government and transferred some years since to the Province. It extends from Kingston to Ottawa, most of the way along the channel of rivers. Its total length is 126 miles. It rises from Kingstons to the summit 165 feet by 13 locks, and descends to the Ottawa 212 feet by 34 locks. Its total cost was \$3,860,000. *The Gloupe, Point Iroquois, Rapid Plat, Farrants Point, Cornwall, Beauharis, and Lachine Canals* extend around the rapids on the St. Lawrence. Steamers usually pass down the rapids, but must return by the canals and pay toll both ways. Sail vessels

pass both up and down by canal. These canals afford navigation down to Montreal, to which point ships come up from the sea. The total fall by river without locks is 204½ feet to Montreal and 134 feet thence to tide water at Three Rivers. The rapids of the St. Lawrence have been surveyed with the design of deepening them to afford a channel 200 feet wide and 10 feet deep, but nothing further has been done. These surveys make Lake Erie 534 feet above tide.

Chambly Canal extends from the foot of navigation on Lake Champlain to Chambly Basin, and with a lock at St. Ours, upon Richelieu River, completes the line of navigation from the lake to the St. Lawrence. A ship canal has recently been proposed between these important navigable waters.

The amount of tonnage on these canals, in which this State is interested, is very large; and in the Welland Canal more than half the duties are paid by American vessels.

Statistics of the Business of the Canadian Canals for two years.

It has been proposed to build a ship canal from Lake Huron to Lake Ontario at Toronto, by way of Lake Simcoe, 80 mi. A cutting to allow Lake Simcoe to pass southward would not exceed 175 ft. in depth; and in the 8 mi. surveyed the principal obstacles would not average over 40 ft. It has been estimated that the cost for a canal 120 ft. wide at bottom, and 136 ft. at surface, 12 ft. deep, with 64 double locks 50 ft. wide, and 250 ft. long, would be \$20,051,000, and that it could be constructed in 5 years.

Great Western Railway of Canada, from Suspension Bridge to Windsor, 229 mi., and thence by ferry to Detroit, was opened Jan. 27, 1854. Branches extend from Hamilton to Toronto, 38 mi.; from Harrisburgh to Guelph, 23½ mi.; from Preston to Berlin, 10½ mi.; and from Kamoka, near London, to Port Saris, 60 mi.

Buffalo & Lake Huron Railway extends from Fort Erie, opposite Buffalo, to Goderich Harbor, on Lake Huron, 165 mi.

Erie & Ontario Railway extends from Chippewa to Niagara, 17 miles.

Welland Railway, from Fort Dalhousie to Port Colborne, 27 mi., is on the eve of completion.

Grand Trunk Railway of Canada extends from Portland, Me., and Quebec to Richmond, and thence to Montreal, Toronto, and Port Saris, at the foot of Lake Huron. More than 700 mi. of this road are finished. A branch extends from Belleville to Peterborough, 50 mi., and others are proposed.

Ontario, Simcoe & Huron Railway extends from Toronto to Collingwood, on Georgian Bay, 95 mi.

Coburg & Peterborough Railway is 28½ mi. long, with privilege of extending to Marmora Iron Works.

Ottawa & Prescott Railway extends from Prescott to Ottawa City, 54 mi.

Montreal & New York R. R. extends from Montreal to Lachine, 8 mi., and thence by ferry, 2 mi., always open, to Coughnawaga, the terminus of a road leading to Plattsburgh, 52 mi. This line is now united with the *Champlain & St. Lawrence R. R.*, from St. Lambert, opposite Montreal, to Rouesse Point, 44 mi.; and the consolidated company is known as the *Montreal & Champlain Rail Road Co.*

² Custom Houses of New York.

PLACE.	Total appropriation.	Cost	
		Of site.	Total.

Total New York....	\$1,707,743	\$335,000	\$1,504,530.27
Total U. States.....	\$24,104,799	\$3,388,827	\$10,529,951.72

Marine Hospitals.—Since 1778, every American seaman has been taxed 20 cents per month for a Hospital Fund; and in return he is entitled in case of sickness to assistance and support from the revenues thus collected. This fund is in charge of the U. S. Government, and is entirely independent of the various State and private hospital funds of New York City.¹

Light Houses.—The United States Government has erected 62 light houses, lighted beacons, and floating lights within the State of New York, for the benefit of navigation. Of these, 3 are upon the seacoast, 15 upon Long Island Sound, 4 within the Harbor of New York, 16 upon Hudson River, 3 upon Lake Champlain, 14 upon Lake Ontario and St. Lawrence River, and 7 upon Lake Erie. The Government has also erected buoys, spindles, beacons, and other signals to indicate channels or to point out dangerous localities.²

The site for the New York Custom House was purchased Jan. 9, 1833, the building was completed Feb. 22, 1847; it is used for a custom house only. The site for the Plattsburgh Custom House was purchased Nov. 22, 1851, the building was completed May 19, 1858; it is used for a custom house, post office, and courthouse. The site for the Ogdensburgh Custom House was purchased Jan. 20, 1857, the building has not been commenced; it is designed to be used for a custom house, post office, and courthouse. The site for the Oswego Custom House was purchased Dec. 15, 1854, the building was completed Sept. 1, 1858; it is used for a custom house and post office. The site for the Buffalo Custom House was purchased Jan. 26, 1855, the building was completed July 12, 1858; it is used for a custom house, post office, and courthouse.

The Custom House in New York occupied before the present one was finished was erected in 1816, at a cost of \$928,312.96. In 1850 the only custom house building in the State belonging to the United States was at New York City. On the 19th of Feb. 1857, the Federal Government purchased a site for stores at Atlantic docks, Brooklyn, for \$100,000; but as yet no use has been made of it.

The Federal Government has built 34 marine hospitals, none of which are in this State. Those entitled to aid are supported in this State in private families or local hospitals. The number of seamen relieved and supported in the several

collection districts in the year ending June 30, 1858, was as follows:—

COLLECTION DISTRICT.	Admitted.	Discharged.	Died.	Total expenditures.	Hospital money collected.

Lifeboat Stations have also been established by the General Government upon the sea-coast and great lakes. On the shores of Long Island and the adjacent islands are 30 lifeboat stations, the first of which were established about 1850. Each of these consists of a house, containing a lifeboat, boat wagon, life cars, mortar for throwing lines, and every fixture that could be used in affording aid to vessels in distress. The houses are furnished with stoves for warming them when necessary, and with fuel and matches for kindling a fire on short notice. They are each intrusted to a local agent, and are under the general care of a superintendent appointed by the Secretary of the Treasury. Their location is indicated on the map.

Coast Survey.—A survey of the coast, with soundings of its adjacent waters, was ordered by the General Government about 50 years since; but many years were necessarily employed in making preliminary arrangements. Active surveys were begun about 1832, and during the last 15 years they have been prosecuted with great effect. The triangulations of this survey are conducted with great precision, and extend up all rivers navigable from the sea as far as tide flows.

Light Houses, continued.

Ithaca to Casyuga.....	40	6	1,713	1,375

The Fisheries in New York, although considerable in amount, are quite subordinate to other branches of industry. The whale fisheries, formerly of great importance, are now chiefly limited to Sag Harbor, Greenport, and Cold Spring Harbor.¹ The shores and bays of Long Island support great numbers of fishermen, and the product of their labor chiefly finds a market in New York City.² The Hudson yields shad, sturgeon, and other fish in great quantities;³ and there are extensive fisheries upon the great lakes, especially near the E. end of Lake Ontario and in the waters of Chaumont Bay.⁴ The waters of Lake Champlain and the St. Lawrence formerly abounded in salmon; but, from the building of dams and mills, or other causes, the tributaries of these waters now afford but very small supplies. Trout and other fish highly prized for food abound in the clear mountain streams of Northern New York. Hundreds of millions of "bony fish" are taken annually around Long Island for manure; and the manufacture of oil from sharks, porpoises, and other fish has been at various times carried on with encouraging success. Numerous special laws have been passed for the preservation of fish in certain waters and at particular seasons; but this is now made one of the subjects within the legislative jurisdiction of Boards of Supervisors.

¹ The right to drift whales was often made a subject of special reservation or sale by the Indians of Long Island; and the capture of whales in open boats from the shore has continued from the first settlement to the present time. Scarcely a year passes without one or more being taken along the shore of the island. The whale fisheries from Hudson, Poughkeepsie, and Newburgh, once large, have ceased altogether. On the 30th of June, 1858, 5,927.92 tons were employed in the whale fisheries at Sag Harbor, 1,942.12 tons at Greenport, and 2,136.27 tons at Cold Spring Harbor. The total of whaling vessels in the U.S. at the same time was 198,593.51 tons.

² The wholesale fish mart of N. Y., on the East River, at the foot of Fulton St., occupies an entire block. The rarer kinds are oftener sold in the Washington Market. A record kept in 1856 enumerated 79 species, in 56 genera and 20 families, as found in

these markets, the majority of them being marine fish from the waters adjoining Long Island and the New England coast. A few came from the South, and many from the interior lakes and rivers.

³ It is estimated that \$100,000 worth of shad are taken annually below the Highlands. They are caught in seines nearly as far up as Albany. About \$20,000 worth of sturgeon are sold annually at the Albany market.

⁴ As many as 10,000 bbls. have been taken at Chaumont Bay in one season, although sometimes no more are taken than enough to supply the local want. The fish are chiefly lake herring and whitefish. The amount of tonnage invested in this State in the cod fisheries is quite unimportant, and amounted in June, 1858, to 131.32 tons at Greenport, and 155.34 tons at New York, consisting of licensed vessels under 20 tons.

COLLEGES AND ACADEMIES.

In 1754 King's College was incorporated in N. Y. City by patent, and liberally endowed by a lottery and grants of land. At the commencement of the Revolution it was the only incorporated educational institution in the colony. In 1784 its name was changed to Columbia College; and in connection with it an extensive scheme of education was devised, in which the college was to be the center of the system, and subordinate branches were to be established in different parts of the State,—the whole to be under the control of a board denominated "Regents of the University." This board was to consist of the principal State officers, two persons from each co., and one chosen by each religious denomination. The number of the Regents was afterward increased by adding 33 others, 20 of whom resided in N. Y. City. This whole scheme

was found to be impracticable; and by act of April 13, 1787, it was superseded by a system which has continued without essential change to the present time.¹ By this act the Governor, Lieut.-Governor, and 19 persons therein named were constituted

Regents of the University, and required to visit and inspect all colleges and academies, and report their condition, annually. They might appoint presidents of colleges and principals of academies for one year, in case of vacancy, and incorporate new colleges and academies, providing the revenue of the latter should not exceed the value of 4,000 bushels of wheat annually. In 1842 the Secretary of State, and in 1854 the Superintendent of Public Instruction, were made *ex officio* members of the Board of Regents. Vacancies are filled by the Legislature in the same manner that U. S. Senators are appointed; and Regents hold their office during life, unless they resign or forfeit their place by removal from the State, by accepting the office of trustee in an incorporated college or academy, or by accepting a civil office the duties of which are incompatible with their duties as Regents;² but the members may be removed by concurrent resolution of the Senate and Assembly.³ They receive no pay. Under a special act of 1791, the Regents appoint the faculty of the College of Physicians and Surgeons of the City of N. Y. and confer degrees upon its graduates.⁴ They confer the honorary degree of M.D. upon four persons annually, upon recommendation of the State Medical Society, and may grant any honorary degree. They have exercised this right by conferring the degree of LL.D. upon 12 persons since their first organization.⁵

In 1821 they were authorized to incorporate Lancasterian and select schools.⁶ In 1844 the Regents were made trustees of the State Library, and, with the Superintendent of Schools, were charged with the supervision of the State Normal School. In 1845 they were made trustees of the State Cabinet of Natural History, and in 1856 were intrusted with what remained of the publication of the colonial history. Their secretary and the Secretary of State are commissioners to superintend the completion of the publication of the natural history of the State.

The Regents annually apportion \$40,000 of the income of the Literature Fund⁷ among academies, in proportion to the number of students pursuing the classics or the higher English branches;

¹ The authorship of this system has been generally ascribed to Alexander Hamilton, then in the Assembly. The original drafts of the act, still preserved, and the legislative journals of that period, show that Ezra P. Hommedieu, then in the Senate, was prominently concerned in its passage, if not the original mover. The bill was introduced in the Senate upon a petition from Clinton Academy, in Suffolk co.

² What these offices are does not appear to have been settled. On several occasions an appointment to the bench of the Supreme Court has created a vacancy. Non-attendance at the meetings of the Board during one year has also been construed to vacate the seat of a Regent.

³ This power has never been exercised by the Legislature.

⁴ A similar power existed with regard to the Western College of Physicians and Surgeons at Fairfield, during its existence.

⁵ The honorary degree of M. D. had been conferred upon 120 persons previous to 1859. Resolutions were passed, Oct. 14, 1851, for conferring the degrees of Doctor of Philosophy and Doctor of Literature; but none have been granted.

⁶ This right has been exercised four times, viz.:

Select School at Henrietta, Monroe co., July 2, 1827.
Lewiston High School Academy, Niagara co., April 16, 1828.
Fabius Select School, Onondaga co., Feb. 27, 1841.
Hunter Classical School, Greece co., June 23, 1851.
Lancasterian schools were incorporated by special acts, as follows:—

Albany, Lancaster School Soc., May 26, 1812.

Catskill, Lancaster School Soc., March 14, 1817. Repealed April 20, 1830.

Hudson, Lancaster Soc., April 15, 1817.

Schenectady, Lancaster School Soc., Nov. 12, 1816.

Poughkeepsie, Lancaster School Soc.

⁷ This fund originated with certain tracts of land reserved for literature, and was largely increased by four lotteries, granted April 3, 1801, by which \$100,000 were to be raised for the joint benefit of academies and common schools, but chiefly for the latter. In 1816, the avails of the Crumhorn Mountain Tract, amounting to \$10,416, were given from the general fund to academies and common schools; and in 1819 the arrears of quitrents, amounting to \$53,380, were also thus equally divided. In 1827, \$150,000 was given to this fund by the Legislature; and on the 17th of April, 1838, the sum of \$28,000 was set apart annually, from the income of the U. S. Deposit Fund, for distribution among academies. The sum previously applied for this purpose was \$12,000 annually; and since 1834 a small part of the income, aside from this, has been applied, from time to time, to the purchase of apparatus.

This fund was managed by the Regents until, by act of Jan. 25, 1832, it was transferred to the Comptroller for investment,—the Legislature appropriating the proceeds annually, and the Regents designating the scale of apportionment.

The principal of the fund amounted, Sept. 30, 1853, to \$269,952.12, aside from the U. S. Deposit Fund, and was invested chiefly in stocks and Comptroller's bonds.

designate such academies as shall receive aid in establishing classes for instructing teachers of common schools; conduct exchanges of books and documents with other States and countries; maintain a system of meteorological observations at certain academies; and make full reports annually to the Legislature upon the condition of the colleges and academies of the State, the State Library, and the Cabinet of Natural History.

The officers of the Regents are, a chancellor, vice-chancellor, and secretary. They appoint a librarian and assistants to the State Library, and a curator to the State Cabinet. Eight members form a quorum for the transaction of business. Their annual meeting is held on the first Thursday of January, in the Senate chamber, and is adjourned for short periods during the session of the Legislature. Most colleges report annually to the Regents, but are not uniformly subject to visitation, nor do they share in the income of the Literature Fund. They have generally been assisted by grants of land or money from the State.

Colleges and Academies are entrusted to boards of trustees, who possess the usual powers of corporations, and usually fill all vacancies occurring in their number.¹ They appoint professors and instructors, and remove them at pleasure, unless employed by special agreement. All degrees in colleges, whether honorary or in due course of study, are conferred by the trustees.

By an act passed April 12, 1853, the Regents were required to establish general rules under which colleges, universities, and academies might claim incorporation, subject to such limitations and restrictions as might be prescribed by law, or which, by the Regents, might be deemed proper; and institutions thus formed should possess, in addition to the powers thus vested in them, the general powers of a corporation, under the Revised Statutes of this State. The trustees of academies

¹ Genesee College, N. Y. Agricultural College, People's College, University of Buffalo, and University of the City of N. Y., are owned by shareholders, who elect trustees, or officers analogous, for stated terms. The principal State officers are *ex officio* trustees of Union College; and the Mayor and Recorder of cities are, in some cases, trustees of medical colleges. The principal facts concerning colleges and professional schools may be classed as follows:—

Literary and Medical Colleges.

NAME.	Location.	Date of Charter.	How Incorporated.	Remarks.
Alfred University.....	Alfred	Mar. 28, 1857	Law	Seventh-day Bap., 33 trustees. Changed from Alfred Academy.

"Mostly upon authority of the American Almanac of 1859. Several of these possess liberal endowments, and defray the personal expenses of the students attending them. Tuition fees are, it is believed, in no cases required from those receiving instruction. All the above are now in operation.

The following institutions have been established or projected:—

NAME.	Date of Incorp.	Remarks.
Albany College.....	Applications were made for a college in 1795, but refused.
Albany Medical College.....	Applications refused in 1820, 1824, and 1833.
Auburn University.....	Feb. 26, 1826	Provisions of charter not complied with.
Auburn Female University.....	Jan. 29, 1852	Never organized.
Brockport College.....	March 4, 1830	Never organized.
Cayuga College.....	Applications made Feb. 15, 1802. Refused.
Central Medical College and Syracuse Medical College.....	1849	{ After a few courses of lectures, these institutions were abandoned.
Clinton College, Fairfield.....	Mar. 25, 1816	Conditions not complied with.
College of Physicians and Surgeons of Western District, Fairfield.....	June 12, 1812	{ Course of lectures were held until 1840, the Regents con- ferring the degrees.
Flushing College.....	Applications refused Feb. 20, 1845.
Ithaca College.....	April 10, 1822	Conditions not complied with.
Kingston College.....	Applications refused in 1779, 1804, and 1811.
Medical Department of Columbia College.....	1793	Discontinued in 1814.
N. Y. College of Dental Surgery, Syracuse.....	April 13, 1852	Discontinued in a short time.
New York Free Academy.....	Application for power to confer degrees refused, June 10, 1853.
Richmond College, Richmond co.....	April 18, 1838	Never organized.
St. Paul's College, College Point, Flushing, L. I.....	May 9, 1840	Closed in a short time.
Troy Medical College.....	Application refused, Feb. 16, 1824.
University of Western N. Y., Buffalo.....	April 6, 1838	Never organized.
Washington College, Richmond co.....	Jan. 27, 1827	Conditions not complied with.
Westminster College, Buffalo.....	April 17, 1851	Never organized.

Besides these, several institutions bearing the name of colleges have been established, but of which no general statistics have been obtained. Among them are the "Martin Luther College," at Buffalo; the "College of St. Francis Xavier," (R. C.), in New York; "Franciscan College and Convent," inaugurated Oct. 4, 1858, at Allegany, Cattaraugus co.; the "De Yeanx College for Orphan and Destitute Children," incorporated April 15, 1853, and located at Suspension Bridge, Niagara co.; and the "St. Peter's College," (R. C.), in course of organization, at Troy. Most of these are unincorporated, none of them possess the right of granting degrees, and they generally partake more of the character of academies than of colleges.

^a At first conditional. An absolute charter granted Dec. 24, 1855.

^b Charter repealed Feb. 19, 1841. Merged in Black River Literary & Religious Institute.

PUBLIC SCHOOLS.

AMPLE provisions have been made by the State for the establishment and support of public schools throughout its borders. To this end the whole inhabited portions of the State have been divided into convenient districts, in each of which a school is taught some portion of the year and is open to all and within the reach of all. These schools are supported in part by money derived from the State, in part by a rate bill collected from parents of children attending school, and in part by a tax upon the property of the district.¹

School Districts are formed and altered by school commissioners. These districts are so formed as to best accommodate all the inhabitants of the various localities and at the same time secure efficiency in school organizations. Each district has a schoolhouse and a library. Its monetary affairs are arranged, and its officers elected, at annual meetings of all the taxable inhabitants. Its officers are trustees, a clerk, a collector, and a librarian.²

School Commissioners are elected in each of the Assembly districts of the State outside of the cities, and have the general supervision of schools. They examine and license teachers, visit the schools, and in every possible way endeavor to advance the general interests of education. They report annually to the State department of education.

The State Superintendent of Public Instruction is the administrative officer of the school department. He has an office in the State Hall at Albany, and has a deputy and the necessary number of clerks. He hears and decides appeals from the decisions of Commissioners, and has the general supervision of the common schools, Indian schools, the Institution for the Deaf and Dumb, and all similar institutions in the State. He is *ex officio* a member of the Board of Regents of the University and of the Executive Committee of the Normal School. He also apportions the school fund among the several counties and districts as the law directs.

The school fund of the State, derived from a variety of sources, in 1859 yielded a revenue of \$264,500.³ This sum, and the amount derived from the $\frac{3}{4}$ mill tax, is divided among the schools as follows:—One-third is divided among the districts in proportion to the number of teachers employed, and the remaining two-thirds are distributed to the several counties in proportion to their population, and thence distributed to the districts in proportion to the number of children between the ages of 4 and 21.

District Libraries were established in 1838; and from that period to 1850, with few intermissions, the sum of \$55,000 was annually appropriated for the purchase of books. The law establishing district libraries required that 20 per cent of all the public moneys apportioned to the common schools should be applied to the purchase of library books. In 1850 the annual amount was reduced to 5 per cent. These libraries, free to every person in the district, generally comprise books on scientific and literary subjects and affording means of information which would otherwise be unattainable.⁴

¹ In 1859 the amount divided by the State among the several districts was \$1,316,607.18. Of this sum \$1,052,107.18 was derived from the $\frac{3}{4}$ mill State tax, and \$264,500 from the interest of the common school fund.

A record is kept of the attendance of each pupil, and the amount due for teachers' wages above that received from the State is assessed in proportion to this attendance. Cost of fuel, repairs, and the amount of rate bills abated to indigent parents are met by a tax upon the property of the district.

² *District Meetings* decide upon questions of building and repairing schoolhouses, furnishing them, providing fuel and facilities for teaching, within the limits of the law. The annual meetings for the election of officers are held on the second Tuesday of Oct. throughout the State. *The Board of Trustees*, consisting of 1 or 3 at the option of the district, constitute the executive officers of the district. *The Trustees* engage teachers, properly furnish the schoolhouse, provide fuel, and execute the wishes of the district as expressed in the district meetings. They have also the care of the district library. *The Clerk* preserves the records of the district and calls district meetings.

³ The school fund was chiefly derived from the following sources:—

1793, Seven-eighths of four lotteries of \$100,000, aggregate	\$ 87,500
1801, One-half of lotteries of \$100,000, aggregate	50,000
1806, Proceeds of 500,000 acres of land sold.	
“ Stock subscribed in Merchants' Bank, and increased in 1807 and '08.	
1816, One-half of the proceeds of the Crumhorn Mountain Tract of 6,944 $\frac{1}{2}$ acres, amounting to	5,208

1819, One-half of the arrears of quitrents	\$26,690
“ An exchange of securities between general and common school fund, by which the school fund gained	161,641
“ Proceeds of escheated lands in Military Tract given.	
1822, By the Constitution, all public lands, amounting to 991,659 acres, were given to the school fund.	
1827, Balance of loan of 1786, amounting to	33,616
“ Bank stock owned by the State	100,000
“ Canal “ “ “	150,000
1838, From the revenue of the United States deposit fund, annually	110,000
An additional sum from the same fund for libraries	55,000

The sum of \$25,000 from the revenues of the United States deposit fund is annually added to the capital of the common school fund; and the capital of this fund is declared by the Constitution to be inviolate.

In directing the sale of the public lands, the State reserved certain lots in the 10 Towns of St. Lawrence co. and in the Chenango 20 Townships, for gospel and school purposes. The proceeds from the sales of these lands have formed a local fund for the benefit of the towns in which they lie. Many other towns have small funds, derived from fines and penalties, applicable to schools. See p. —.

⁴ The following directions are given in the selection of books:—
 “1. No works written professedly to uphold or attack any sect or creed in our country claiming to be a religious one shall be tolerated in the school libraries.
 “2. Standard works on other topics shall not be excluded

The State Normal School was established in 1844, for the instruction and practice of teachers of common schools in the science of education and the art of teaching. It is supported by an annual appropriation from the literature fund, and is under the immediate charge of an executive committee consisting of the Superintendent of Public Instruction and the Regents of the University. Each county in the State is entitled to send twice as many pupils to the school as it sends members to the Assembly. The pupils receive tuition and the use of textbooks free, and also receive a small amount of mileage. The school is located at the corner of Howard and Lodge Streets, Albany.¹

The law makes provision for the establishment of **Union Free Schools** wherever the inhabitants may desire it, and for the formation of **Colored Schools** in districts where the presence of colored children is offensive to a majority of the people of the district.²

Previous to the Revolution no general system of education was established. All the schools that had been founded were of a private character or the result of special legislation. The necessity and importance of common schools had not been recognized, and education was principally confined to the wealthier classes. At the first meeting of the State Legislature, in 1787, Gov. Clinton called the attention of that body to the subject of education, and a law was passed providing for the appointment of the Regents of the University. In 1789 an act was passed appropriating certain portions of the public lands for gospel and school purposes. In 1793 the Regents in their report recommended the establishment of a general system of common schools; and in 1795 Gov. Clinton in his message to the Legislature strongly urged the same.³ On the 9th of April of that year a law was passed "for the purpose of encouraging and maintaining schools in the several cities and towns in this State, in which the children of the inhabitants of the State shall be instructed in the English language, or be taught English grammar, arithmetic, mathematics, and such other branches of knowledge as are most useful and necessary to complete a good English education." By this act the sum of £20,000, or \$50,000, was annually appropriated for 5 years for the support of these schools.⁴

The beneficial result of this system, imperfect as it was, became at once apparent; and from time to time measures were taken to increase the funds and to improve the system.⁵ The successive Governors nearly all strongly recommended the passage of new laws for the encouragement and support of schools;⁶ but nothing definite was accomplished until 1811, when 5 commissioners were

because they incidentally and indirectly betray the religious opinions of their authors.

³ Works, avowedly on other topics, which abound in direct and unreserved attacks on, or defense of the character of any religious sect, or those which hold up any religious body to contempt or execration by singling out or bringing together only the darker parts of its history or character shall be excluded from the school libraries. In the selection of books for a district library, information, and not mere amusement, is to be regarded as the primary object. Suitable provision should, however, be made for the intellectual wants of the young, by furnishing them with books which, without being merely juvenile in their character, may be level to their comprehension and sufficiently entertaining to excite and gratify a taste for reading. It is useless to buy books which are not read."—*Code of Public Inst.*, 1856, p. 326.

¹ Males are admitted at 18 and females at 16 years of age; and upon entering each one is required to sign a pledge that he intends to become a teacher of common schools. The number of graduates up to the close of the thirteenth year, 1856-57, was 999, and the number of pupils at that time was 223. The school for several years occupied the building near the head of State Street, now known as "Van Vechten Hall." In 1848 the present building was erected, at a cost of \$25,000. The experimental school taught by the graduating class numbers somewhat over 100 pupils. These pay tuition, and are elected or appointed by the Executive Committee.

⁴ Under the Union Free School law a large number of schools have been established in different parts of the State. These schools are supported by a direct tax upon the property of the district, and the rate bill system is discarded. Free schools are established in all the cities and in most of the larger villages in the State by special laws. In most cases the free schools are graded, and comprise 3 or 4 distinct departments, furnishing instruction from the primary to a full academic course. Being entirely free and within the reach of all, they afford to every child, regardless of his position in life, an opportunity to secure a thorough English education. These free schools rank among the best public schools in the country; and they have thus far proved superior to those in which the rate bill system is retained.

⁵ In his message Governor Clinton uses the following language:—"While it is evident that the general establishment and liberal endowment of academies are highly to be commended and are attended with the most beneficial consequences,

yet it cannot be denied that they are principally confined to the children of the opulent, and that a great portion of the community is excluded from their immediate advantages. The establishment of common schools throughout the State is happily calculated to remedy this inconvenience, and will therefore engage your early and decided consideration."

⁶ The principal features of the system inaugurated by this act were as follows:—

1. The public money was to be appropriated to the several counties in the proportion of their representation in the Legislature, and to the towns in proportion to the number of taxable inhabitants in each.

2. The Boards of Supervisors were required to raise by tax one-half as much as they received from the State.

3. Each town was to elect not less than 3 nor more than 7 commissioners, to take general charge of the schools, to examine teachers, and to apportion the public moneys in the several districts.

4. The people in each district were authorized to elect 2 or more trustees, to employ teachers, and to attend to the special interests of the school.

5. The public money was to be divided among the various districts in proportion to the number of days' instruction given in each.

6. Annual reports were to be made from the districts, towns, and counties.

The returns of 1798 show a total of 1,352 schools organized and 59,660 children taught.

² An act was passed in 1799 authorizing the raising of \$100,000 by 4 lotteries, \$47,500 of which was appropriated for the support of common schools. In 1801 \$100,000 more was raised by lottery for school purposes, of which sum \$50,000 was devoted to common schools. In 1800 a bill appropriating \$50,000 to the support of common schools passed the Assembly, but was defeated in the Senate.

³ Gov. Jay, in 1800, Gov. Geo. Clinton, in 1802, Gov. Lewis, in 1804 and '05, and Gov. Tompkins, in several successive years, urged upon the Legislature the necessity of revising the school laws and of making more liberal appropriations for the support of schools. Several bills were introduced into the Legislature; but they were all defeated in either the Senate or Assembly. In the mean time the school moneys gradually increased, and were funded by the Comptroller, laying the foundation of the present large school fund.

appointed to report a complete system for the organization and establishment of common schools. The commissioners made a report, accompanied by a draft of a bill, Feb. 14, 1812. The report was accepted by the Legislature, and the bill became a law.¹ Under this act, Gideon Hawley was appointed Superintendent, and continued in office from 1813 to 1821. The great success which this system met with, and the firm hold which it speedily attained, is mainly due to the administrative abilities and indefatigable exertions of Mr. Hawley. Several important changes were made in the law during his administration, all of which tended greatly to improve the schools. In 1821 the office of State Superintendent was abolished, and the superintendence of schools was made an appendage to the department of Secretary of State. Every successive year the Governor and Secretary of State urged upon the Legislature the necessity of systematizing the schools and of correcting obvious defects in the existing laws.² In 1835 a law was passed providing for the establishment of teachers' departments in 8 academies, 1 in each of the Senatorial Districts of the State.³ In 1838 the District Library system was established by law;⁴ and in 1841 the office of County Superintendent was created.⁵ In 1843 the Board of Town Inspectors and School Commissioners was abolished and the office of Town Superintendent was substituted. May 7, 1844, an act was passed for the establishment of a State Normal School; and the school was opened at Albany on the 18th of Dec. following.⁶

On the 13th of Nov. 1847, the Legislature abolished the office of County Superintendent,—although the act was strongly resisted by many of the best friends of education in the State.⁷ During the same session Teachers' Institutes, which had existed for several years as voluntary associations, were legally established.⁸

On the 26th of March, 1849, an act was passed establishing free schools throughout the State. By the conditions of this act the rate bill system was abolished, and the whole expense of the schools beyond the State appropriation was made a tax upon the property of the district. This act was submitted to a vote of the people and was sustained by a majority of 3 to 1. In consequence of the inequality of the laws in regard to taxes, it was found that the Free School system did not work well in practice. Remonstrances poured in upon the next Legislature from all parts of the

¹ These commissioners, appointed by Gov. Tompkins, were Jedediah Peck, John Murray, jr., Samuel Ansell, Roger Skinner, and Samuel Macomb. The principal features of this bill were,—

1. \$50,000 was annually to be divided among the counties of the State.

2. The Boards of Supervisors were obliged to raise an equal sum, to be distributed among the towns and districts.

3. Three commissioners were to be appointed in each town to superintend the schools and examine teachers.

4. Three trustees were to be elected in each district to engage teachers and otherwise provide for the local necessities of the school.

5. The whole system was to be placed under the charge of a State Superintendent.

² In 18— the office of School Inspector was created, and three school inspectors were annually elected in each town, with the same powers and duties as school commissioners. Bills were introduced from time to time to place the whole system again under the charge of a distinctive officer, to provide for more efficient supervision of schools, to secure more competent teachers, and to establish a seminary for the instruction of teachers; but they all failed of receiving the necessary support. The laws that were passed corrected the most obvious abuses; but no great step was taken in advance until 1838.

³ Erasmus Hall Academy in Kings co., Montgomery Academy, Orange co., Kinderhook, St. Lawrence, Fairfield, Oxford, Canandaigua, and Middlebury Academies, were the institutions in which this department was established.

⁴ On the 13th of April of this year, the foundations of the District School Library were laid by "an act authorizing the taxable inhabitants of the several school districts to impose a tax not exceeding \$20 for the first year and \$10 for each succeeding year, for the purchase of a district library, consisting of such books as they shall in their district meeting direct."³ This bill was ably advocated in the Senate by Col. Young, of Saratoga, and the Hon. Levi Beardley, of Otsego; and its friends were indebted for its success to the untiring exertions and extensive influence of James Wadsworth, of Genesee,—an eminent philanthropist, who lost no opportunity to aid by his ample wealth and enlightened intellect every means by which the mental and moral advancement of the youth of the State might be promoted.

In 1838 an act was passed requiring \$55,000 of the school moneys to be distributed among the school districts and expended by the trustees in the purchase of suitable books for district libraries, and the residue for the payment of the wages of duly qualified teachers. An equal amount was also required to be raised by taxation on the several counties and towns and applied to the same purposes.

The first definite proposition to establish district libraries was made by A. C. Hagg, in his report of 1830.

⁵ In 1839, John C. Spencer, Superintendent of Schools, recommended a plan of county supervision, which "was urged upon the department and the Legislature; and under the strong recommendation of the Superintendent, backed by the exertions of several of the most eminent friends of popular education,—among whom may be enumerated the Hon. Jabez D. Hammond, who as early as 1835 had given to the public the details of a plan essentially similar; the Rev. Dr. Whitehouse, of Rochester; Francis Dwight, Esq., editor of the District School Journal, then of Geneva; Professor Potter, of Union College; and James Wadsworth, Esq., of Genesee,—this project became, in 1841, by the nearly unanimous action of the Legislature, incorporated with our system of common schools."—*Randall's Common School System*, p. 44.

⁶ The establishment of a Normal School for the professional education of teachers was strongly advocated by several superintendents, and had been a favorite measure of many distinguished friends of the cause for many years. The bill for the establishment of the Normal School was introduced March 22, 1844, by Hon. Calvin T. Hurlburt, of St. Lawrence. The bill, as passed, appropriated \$9,600 for the first year, and \$10,000 per year for five years, for the support of the school, under the direction of the State Superintendent and Regents of the University. The Superintendent of Schools, (Samuel Young,) Rev. Alonzo Potter, Rev. W. H. Campbell, Hon. Gideon Hawley, and Francis Dwight, Esq., were appointed an executive committee to attend to the interests of the school. The committee proceeded to organize the school by the appointment of David P. Pegg, Principal; Frederick I. Lisle, Teacher of Music; and J. B. Howard, Teacher of Drawing. Only 29 pupils were in attendance the first day; but the number speedily increased to 100, and since that time the school has been an uninterrupted success.

⁷ This office had become very unpopular in some sections of the State, in consequence of appointments having been frequently made by the Board of Supervisors upon political considerations merely, without the least regard to the qualifications of the appointees. Under the supervision of the County Superintendents the schools had progressed more rapidly than ever before, in the same period; and after the abolishment of that office they steadily retrograded for several years.

⁸ The first Teachers' Institute in the State was held at Ithaca, Tompkins co., April 4, 1843, under the direction of James S. Denman, County Superintendent. Immediately afterward, institutes were held in other counties; and in a few years they became a fixed institution. In 1847 they were recognized by the Legislature, and appropriations were made for their support.

State; and in 1850 the law was again submitted to a vote of the people and again sustained,—though by a decreased majority. In April, 1851, the Free School Act was repealed and the rate bill system was reinstated.¹

During the session of 1853 a law was passed allowing Union Free Schools to be established under certain conditions.² On the 30th of March, 1854, the office of Superintendent of Public Instruction was created,—thus substantially restoring the original system of general supervision.³ On the 13th of April, 1855, a law was passed allowing the Regents of the University to designate certain academies in the several counties in which a teachers' class might be taught free, the State allowing \$10 for each pupil so taught, to a number not exceeding 20 in each academy.

¹ At the time of the repeal of the Free School act a provision was made for raising \$800,000 annually by a State tax, which in many of the rural districts practically made free schools. This tax was afterward made a $\frac{1}{2}$ mill tax upon all the property of the State, producing a sum somewhat larger in the aggregate, and one increasing with the wealth and wants of the State.

² The law for the creation of Union Free Schools was a recognition of the free school principle and an important step in the progress of education.

³ While the School Department was a subordinate branch of the Department of State, it was impossible to give to it that character and efficiency necessary to the best interests and welfare of the schools. Since the change, every department of education has felt a new impulse and has been constantly improving. The administration of the schools has been much more perfect, the reports have been more regular and reliable, and the standard of teaching has materially advanced.

School Statistics from the Report of the Superintendent of Public Instruction for 1859.

	No. of school-houses.	No. of districts.	No. of teachers employed.	No. of children between 4 and 21.	No. of volumes in district library.	Apportionment of State moneys for 1859.	Total receipts.	Total expenses.

The office of School Commissioner was created by law April 12, 1856, and by the same act the office of Town Superintendent was abolished. This substantially reinstated the office of County Superintendent, the abolishment of which in 1847 was so disastrous to the interests of education.¹ On the 15th of March, 1856, an act was passed directing that the school laws should be digested and codified.² By act of April 12, 1858, the school year was changed so as to commence Oct. 1, and the annual district school meetings were directed to be held on the second Tuesday of Oct. annually.

Mercantile Colleges, especially adapted to instruction in opening, conducting, and closing business accounts of every kind, and an elucidation of the laws and customs that have been established concerning them, have within a few years been opened in most of our cities. They depend entirely upon individual enterprise for support, and instruction is usually given by oral illustrations, lectures, and examples.³

CHURCHES.

THE various church organizations in the State are independent of each other and are supported entirely by private contributions. The aggregate amount of church property in the State, and the amount annually raised for religious purposes, is immense. The following is a list of the different denominations, arranged in alphabetical order:—

The African Methodist Episcopal (Zion) Church was formed in 1820. The State of New York forms one conference, having in 1852 1,928 members.

The American Swedenborgian Association was formed in 1857, and has its office in New York City. A Printing and Publishing Society of this denomination, formed in 1850, collected in the year ending in 1858 \$3,108.25. It owns the stereotype plates of all the theological writings of Swedenborg.

The Anti Mission or Old School Baptist, in 1855, had in the State 18 churches and 1,101 members.

The Associate Presbyterian Church, in 1855, had 26 churches and 3,926 members. This church belongs to the Associate Synod of North America.

The Associate Reformed Presbyterian Church has 38 churches and 5,634 members.

The Baptist Church has in the United States 565 associations, 11,600 churches, 7,141 ordained ministers, 1,025 licentiates, and 923,198 members. Of these 43 associations, 812 churches, 738 ordained ministers, 90 licentiates, and 84,266 members are in New York. Its general Benevolent Associations are the "American Baptist Missionary Union," "American Baptist Publication Society," "American Baptist Historical Society," "American Baptist Home Mission Society," "American and Foreign Bible Society," "American Baptist Foreign Mission Society," "Southern Baptist Convention," 1845, and "Southern Baptist Publication Society," 1847. It has in this State 2 colleges and 2 theological seminaries, and has 5 periodicals devoted to its interests.⁴

¹ The School Commissioners have generally succeeded in awakening a new interest in their respective districts by personally visiting the schools and teachers, by encouraging the formation of teachers' associations and institutes, and by requiring a higher standard of qualification on the part of teachers. The schools under their supervision are steadily improving.

² The expense of this codification of the school laws was defrayed from the library fund.

³ These institutions are almost indispensable in every mercantile community. They afford instruction upon every department of business accounts, and incidentally upon methods of conducting business generally. Courses of lectures are usually given, in which are unfolded the laws relating to all business matters, and a vast amount of information is given relating to all departments of commercial transactions. The most extensive of these colleges are those of Bryant & Stratton, 7 in number, of which 3 are in this State,—1 at Buffalo, 1 at Albany, and 1 at New York,—Eastman's Colleges, at Rochester and Oswego, and Bassett's College, at Syracuse. There are various other institutions of the kind in the State, of good local repute, and

of great value to the villages and towns in which they are established.

⁴ *The Missionary Union* was formed in 1814; its receipts for 1857-58 were \$97,808.77. It has 19 missions, 80 missionaries, and over 300 churches. The headquarters of the Society are at Boston. *The Baptist Publication Society* was formed in 1824, and has its depository at Philadelphia. It supports 53 colporteurs, and its receipts for 1857-58 were \$60,585.12. *The American Baptist Home Missionary Society* was formed in 1832, and has its office in New York. It employs 99 missionaries and supplies about 250 stations. Its receipts for 1857-58 were \$52,093.33. *The American and Foreign Bible Society*, formed in 1838, has its office at New York. Its receipts for 1857-58 were \$57,049.98. Madison University, at Hamilton, and the University of Rochester are Baptist institutions; and attached to each is a theological seminary. The papers published by this denomination are,—The New York Examiner, New York Chronicle, American Baptist, (newspapers), and the Home Mission Record, and Mothers' Journal, (magazines,) all published in New York City.

The Christian Connexion¹ divide the State into the New York Eastern, New York Central, New York Western, Northern, Black River, and Tioga Christian Conferences, each having distinct boundaries. They have in the U. S. and Canada over 1,500 ministers and 335 communicants. The census reports 85 churches in this State and 9,825 persons usually attending them.

The Congregational Churches of the Union number about —, with — ministers and members. Of these — churches, — ministers and — members, are claimed within the State of New York.²

The Congregational Methodists³ were first composed of seceders from the Methodist Episcopal Church, in 1820. They have 3 churches in the State.

The Disciples of Christ have in the Union over 1,700 churches, 1,100 ministers, and 130,000 members.⁴ In New York they reported, in 1855, 28 churches and 2,015 members. The New York State Convention embraces, besides the State, parts of Connecticut and Vermont.

The Evangelical Lutheran Church embraces 35 synods in the U. S., of which 25 are connected with a general synod. It numbers 1,083 ministers and 1,920 congregations,⁵ and has of general societies the Parent Educational, Home Missionary, Foreign Missionary, Church Extension, Lutheran Historical, and Lutheran Publication, for the purposes indicated by their respective titles. It has within this State a Theological Seminary and Academy at Hartwick, Otsego county, and Martin Luther College, with a theological department, at Buffalo.

The Free Will Baptist Church in the U. S. has 28 yearly and 129 quarterly meetings, 1189 churches, 957 ordained and 164 licensed preachers, and 55,209 communicants.⁶ This State comprises 5 whole yearly meetings and parts of 2 others. As no attention is paid to State lines

The Fifty-First Annual Report of the Baptist Missionary Convention of the State of New York (Oct. 1855) gives the following statistics of this denomination in New York. The dates of organization are from the Baptist Almanac:—

¹ Otherwise named "Unitarian Baptists." They originated between 1793 and 1801, in secessions from Baptists, Methodists, and Presbyterians. Each church is independent in government; and all statistics are not accessible.

² The General Association of New York includes the Oneida, Black River, Essex, St. Lawrence, Western New York, Loog

Island, New York, & Brooklyn, Ontario, Susquehanna, Albany, and Puritan of Wyoming & Allegany Associations. The American Congregational Union has for its object the aid of feeble churches. In the year ending in 1858 it expended \$6,154.05 for this purpose.

³ Otherwise known as "Stavelites."
⁴ Sometimes known as "Campbellites," from Rev. Alexander Campbell, the founder.—*For & Hoy's Quad. Reg.*, 1852, p. 283.

⁵ From the Lutheran Almanac, 1859. The synods embraced in New York are as follows:—

SYNODS.	When formed.	Ministers.	Congregations.
New York Ministerian.....	1785	69	55
Hartwick Synod.....	1830	25	33
Franckean Synod.....	1838	24	30
Synod of Buffalo.....	1839	16	16

Of these the last two are not connected with the General Synod.

These synods have no definite boundaries, but overlap each other, and in some instances extend into neighboring States.

The Kirchliches Informatorium and Historische Zeitblatt, of Buffalo, and Der Lutherische Herold, of New York, are the official organs of this denomination.

⁶ The Free Will Baptist Register for 1859 gives the following statistics. To those extending partly into neighboring States a star is prefixed; and those entirely out of the State are in Italics.

ANNUAL MEETINGS.	QUARTERLY MEETINGS.	Churches.	Ordained Preachers.	Licensed Preachers.	Communicants.

Central N. Y.....	{ Whitestown, Oswego, Rensselaer, *Otsego, Lake George.....	40	36	2	2,163

in these divisions, the exact numbers in the State cannot be determined from the reports. Its general institutions are 3 mission societies, an anti-slavery society, a biblical school and institution at New Hampton, N. H., and a seminary in this State.

The Friends or Quakers have, since 1827, been divided into 2 distinct branches, known as "Hicksite" and "Orthodox." The Hicksites have a general meeting for the United States and Canada, which is divided into 6 yearly, 33 quarterly, and 138 monthly meetings in the U. S., and 2 half-yearly and 6 monthly meetings in Canada. This State is embraced within the New York and the Genesee yearly meetings, the former of which extends into New Jersey and the latter into Canada. There are of the New York yearly meeting in this State 7 quarterly and 31 monthly meetings; of the Genesee yearly meeting 2 quarterly and 8 monthly meetings.

The Orthodox Friends divide the United States and Canada into 8 yearly, 1 half-yearly, 65 quarterly, and 222 monthly meetings. The New York yearly meeting comprises 1 half-yearly, 15 quarterly, and 43 monthly meetings, of which 9 entire and a part of 1 other quarterly and 28 monthly meetings are within the State, the remainder being in adjoining States and Canada.¹

The German Methodists² originated in the year 1800, and number about 20,000. They have in New York about 15 churches and 3,000 members.

The Mennonites have in the Union 300 churches and 36,280 members: of these, 6 churches and 442 members were reported in Western N. Y. in 1855.

The Methodist Episcopal Church in the United States was divided in 1844 into the Church North and the Church South, forming two independent organizations, differing only upon the question of slavery. The Church North embraces 49 annual conferences, 5,365 traveling, 769 superannuated, and 7,169 local preachers, and 820,514 members and probationers. The total number of preachers in both divisions is 20,644, and of members 1,476,291. This State embraces 5 entire and parts of 4 other conferences, which are subdivided into districts and circuits, each with definite boundaries. The Sunday School Union of the M. E. Church North reports 11,229 schools, 120,421 officers and teachers, 639,120 scholars, and 2,054,253 volumes in S. S. libraries. Its Tract Society has auxiliaries in each conference, and distributes large quantities of tracts and a small paper called "The Good News." Its Missionary Society supports 44 foreign missionaries and 76 helpers, and 302 missionaries and 214 helpers among the Indians and foreign populations. Its "Book Concern" carries on an amount of publication equaled by that of few private firms in the country, including books, papers, and magazines. This denomination has within the State 1 college and 10 seminaries, in connection with annual conferences.³

The Methodist Protestant Church was formed Nov. 1830. It divides the Union into conferences, stations, and circuits. The census reports as belonging to this denomination in this State, in 1855, 46 churches and 1,605 members.

The Presbyterian Church existed as one body until 1837, when it was divided into "Old School" and "New School," which form two distinct organizations, with similar professions of faith but different views of discipline. The Old School General Assembly of the U. S. report 33 synods, 159 presbyteries, 2,468 ministers, 3,324 churches, and 259,335 communicants. During

The missionary societies under the charge of this society are the Free Will Baptist Foreign Mission Society, which supports 3 missionaries and their families at Arissa, India, the Free Will Baptist Home Mission Society, and the Free Will Baptist Female Missionary Society. The Whitestown Seminary, occupying the premises erected for the Oneida Institute, formerly a manual labor school, is under the auspices of this denomination.

¹ The names of quarterly meetings within the State, with the number of monthly meetings in each, according to *Faulke's Friends' Almanac* for 1858, are, in the New York yearly meeting, Westbury, 6; Purchase, 3; Nine Partners, 3; Stanford, 4; Easton, 5; Saratoga, 5; Duaneburgh, 5; in the Genesee yearly meeting, Farmington, 5; Scipio, 3.

The quarterly meetings within the yearly meeting, according to *Wood's Book of Meetings*, 1858, are as follows, with the date of establishment and number of monthly meetings in each:—Westbury, (1676, 3); Purchase, (prior to 1748, 3); Nine Partners, (1783, 3); Stanford, (1800, 3); Ferrisburgh, (partly in Vermont, 1809, 1); in New York, 2; in Vermont, Farmington, (1810, 5); Butternuts, (1812, under the name of Duaneburgh, changed in 1838, 3); Saratoga, (1793, in 1795 changed to Easton, in 1815 divided into Saratoga and Easton, and in 1835 the latter was discontinued, 3); Scipio, (1825, 2); Le Ray, (1830, 3). The first meeting within New York was established at Oyster Bay, by Richard Smith and others who were banished from Bocton Island and Long Island, and meetings were established at Oyster Bay, Gravesend, Jamaica, Hempstead, Flushing, and other places, at an early period.

² Correctly known as Evangelical Association, or Albrights.

³ The following is a summary of the Conferences in New York. Those marked with a star are partly in other States.

CONFERENCE.	PREACHERS.				MEMBERS IN SOCIETY.			Benevolent contributions, in dollars.

The districts within the State of New York forming the above Conferences are:—
New York—Poughkeepsie, Rhinebeck, Prattsville, Monticello, N. Y. German Mission, Rochester, and German Mission.

the year ending May, 1858, \$2,544,692 was raised for various religious and benevolent objects. Its general objects of promotion and extension are conducted by Boards; and it has various funds for special objects. The State of New York embraces the greater part of 3 synods.¹

The New School Presbyterian General Assembly of the United States reports 26 synods, 114 presbyteries, 1,595 ministers, 1,679 churches, and 139,115 communicants. During the year ending ———, \$———— was raised for domestic and foreign missions, education, and publication. It has several committees for the promotion of its general objects, and has in this State 2 theological seminaries and several periodicals.²

The Primitive Methodists have 2 churches and about 500 members in this State. They have in the Union over 1,200 members.

The Protestant Episcopal Church embraces in the Union 31 dioceses and 4 missions, 1,995 parishes, 39 bishops, 1,979 clergymen, and 127,953 communicants. Total contributions for missionary and charitable purposes, \$1,265,642.96. Its general institutions are the "General Theological Seminary," New York, the "Domestic and Foreign Missionary Society," the "General Protestant Episcopal Sunday School Union and Church Book Society," the "Protestant Episcopal Historical Society," the "Western Church Extension Society," and the "Prot. E. Society for the Promotion of Evangelical Knowledge."

The Diocese of New York³ embraces all E. of the E. lines of Broome, Chenango, Madison, Oneida, Lewis, and Jefferson cos., and comprises 275 parishes, 321 clergymen, and 22,411 communicants.

Genesee—Buffalo, Niagara, Genesee, Wyoming, and Olean.
Oneida—Oneida, Chenango, Cortland, Auburn, and Cazenovia.
Troy—Troy, Albany, Saratoga, Plattsburgh, and 3 in V.
Black River—Rome, Syracuse, Oswego, Adams, Watertown, Ogdensburgh, and Potsdam.
Erie—Fredonia. The remainder in Ohio and Penn.
East Genesee—Geneva, Rochester, West Rochester, Bath, Corning, Elmira, and Lima.
New York East—New York, (E. district.) Long Island, and 2 in Conn.
Wyoming—Binghamton and Owego, in part; the remainder in Penn.

The offices of the several Missionary Societies and of the Book Concern are at 200 Mulberry St., N. Y. The periodicals issued from that establishment are the Christian Advocate and Journal, a weekly newspaper; the Quarterly Review, the National Magazine, and the Ladies' Repository, octavo magazines; and the Sunday School Advocate, The Good News, and the Missionary Advocate, small newspapers. The Northern Christian Advocate, at Auburn, is also an official publication of this denomination. Under the auspices of this Church are the Genesee College, at Lima, Livingston co. the America Seminary, Dutchess co.; Ashland College Institute, Greene co.; Charlotte Boarding Academy, Schoharie co.; Falley Seminary, Fulton, Oswego co.; Genesee Wesleyan Seminary, Lima, Livingston co.; Gouverneur Wesleyan Seminary, St. Lawrence co.; Jonesville Academy, Saratoga co.; New York Conference Seminary, Charlotteville, Schoharie co.; Oneida Conference Seminary, Cazenovia, Madison co.; and the Susquehanna Seminary, Binghamton, Broome co. Besides these, a large number of institutions, including several of the incorporated academies, are owned and patronized mainly by members of this denomination.

¹ The names of presbyteries and statistics of churches of this branch in the State are reported in the Old School Presbyterian Almanac for 1859 as follows:—

SYNODS.	Organized.	Presbyteries.	Ministers.	Churches.	Communicants.
Albany.....	1803	Londonderry, Troy, Albany, Mohawk.....	99	64	7,756
Buffalo.....	1843	Ogdensburgh, Genesee R., Buffalo City, Michigan, Rochester City.....	60	62	5,028
New York....	1788	Hudson, North River, Bedford, Long Island, New York, New York 2d, Canton, Ninpo, Connecticut, Nassau, Western Africa.....	169	130	17,495

The Board of Domestic Missions has 610 missionaries and 990 churches and missionary stations. Receipts for the year ending March 1, 1858, \$105,277.52. Its offices are located in Philadelphia and Louisville.

The Board of Education is divided into ministerial education and education in schools, academies, colleges, and parochial

schools. Under the auspices of this denomination are 22 colleges, 60 academies, and 100 parochial schools. The receipts for 1857 were \$56,492.06. Its office is at Philadelphia.

The Board of Foreign Missions has 69 ministers, 30 male and 90 female assistant missionaries, and 23 native teachers. The receipts for 1857 were \$223,977.79. Its office is at the corner of Center and Read Sts., N. Y.

The Board of Publication issues tracts, books, newspapers, and other periodicals in great numbers. Its receipts for 1857 were \$126,960.28. Its office is at Philadelphia.

² The following summary of the New School Presbyterian Church in New York is from the American Presbyterian Almanac for 1859, and other authentic sources:—

SYNODS.	Organized.	Presbyteries.	Ministers.	Churches.	Communicants.
Albany	1803	Champlain, Troy, Albany, Columbia, Catskill.....			
Utica	1829	St. Lawrence, Watertown, Oswego, Utica.....			
Geneva	1812	Onondaga			
Onondaga.....	1855	Onondaga			
Susquehanna	1853	Otsego, Chenango, Delaware.....			
Genesee	1821	Genesee, Ontario, Rochester, Niagara, Buffalo, Anglica.....			
N. Y. & N. J.	1788	Hudson, North River, Long Island, New York 3d, New York 4th, Brooklyn, and 4 others not in the State.....			

The various societies under the care of this denomination are in charge of the Presbyterian Publication Committee, Foreign Mission Committee, Permanent Committee on Education, and Church Extension Committee. Young men preparing for the ministry are educated at the Union Theological Seminary, of New York City, and Auburn Theological Seminary, of Cayuga co. The newspapers of the denomination are the Evangelist, of New York, and the Genesee Evangelist, of Rochester.

³ Its institutions are the "Society for the Promotion of Religion and Learning," the "Corporation for the Relief of Widows and Children of Clergymen," the "Prot. E. Tract Society," the "New York Bible and Common Prayer Book Society," the "New York Prot. E. City Mission Society," the "Prot. E. Christian Mission Society for Seamen in the City and Port of New York," the "Prot. E. Brotherhood of New York," the "Northern Missionary Convocation," the "Bible and Common Prayer Book Society of Albany and its Vicinity," the "Brotherhood of St. Barnabas," (Troy), "Columbia College," "Trinity School," (N. Y.), "St. Luke's Hospital," (N. Y.), "St. Luke's Home for Indigent Christian Females," the "Church Charity Foundation," (Brooklyn), and the "Pastoral Aid Society."

The Diocese of Western New York¹ embraces the remainder of the State, comprising 149 parishes, 129 clergymen, and 10,551 communicants.

The Reformed Methodists originated in 1814, in Vt. Their church government is Congregational. They report in the State 8 churches and about 500 members.

The Reformed Presbyterians, or Covenanters, is derived from the church of the same name in Scotland. In 1855 it numbered in the State 15 churches and 2,274 members.

The Reformed Protestant Dutch Church of the State belongs to the General Synod of the Ref. Prot. Dutch of N. A. It is subdivided into the particular Synods of New York and Albany, the former embracing 16 and the latter 14 classes, of which 19 are entirely within the State and 1 partly in New Jersey. In 1855 it reported 364 churches, 348 ministers, 130,120 persons attending congregations, and 38,927 communicants. Of these, 260 churches, 259 ministers, 21,027 families, 97,553 total of congregations, and 31,208 communicants, were in this State.

The Roman Catholic Church divides the Union into 7 Provinces, 43 Dioceses, and 3 Vicarates Apostolic. The Province of New York comprises the New England States, New York and New Jersey, and the dioceses of New York, Portland, Burlington, Boston, Hartford, Brooklyn, Albany, Buffalo, and Newark. Four of these are within this State. There are 3 theological seminaries, 1 preparatory seminary, 2 colleges, and a large number of benevolent and educational institutions belonging to this denomination within the State, and 9 periodicals devoted to its interests.²

The Seventh Day Baptists have in the United States 67 churches, 70 ordained ministers, and 7,250 members. Of these 36 churches are in New York. In 1835 the denomination was divided into associations, of which the Eastern, Central, and Western are embraced wholly or in part in this State. De Ruyter Institute and the Alfred Academy are under the patronage of this denomination.

Shakers, or the "United Society of Believers," otherwise called the "Millennial Church," numbers in the Union 18 communities and about 6,000 members. They live in "families," and in New York they are principally located at New Lebanon, Watervliet, and Groveland.

The Unitarians number in the Union 293 clergyman and 250 societies, mostly in Massachusetts. They have within this State 10 societies. Their only periodical within the State is the "Christian Inquirer," a weekly newspaper in New York City, published under the auspices of the "Unitarian Association of the State of New York."³

The Universalists United States Convention is composed of clerical and lay delegates from each State and Territorial Convention, and meets on the third Tuesday of Sept. annually.⁴ The denomination has a Historical Society, composed of all preachers and laymen in good standing who sign the constitution. It also has a General Reform Association, that meets in Boston on the

¹ Its institutions are Hobart Free College, at Geneva; and De Veaux College, at Suspension Bridge. There are besides several incorporated and private academies supported by members of this denomination.—*Church Almanac* for 1859, pp. 32, 47.

The Diocese of New York, formed in 1808, comprises Delaware, Dutchess, New York, Orange, Putnam, Richmond, Rockland, Sullivan, Ulster, and Westchester counties. *The Diocese of Brooklyn*, formed in 1853, comprises Kings, Queens, and Suffolk counties. *The Diocese of Albany*, formed in 1847, comprises the remainder of the State E. of the west lines of Cayuga, Tompkins, and Tioga counties. *The Diocese of Buffalo*, formed in 1847, comprises the counties W. of the west lines of Cayuga, Tompkins, and Tioga.

The distinctive schools under the patronage of this denomination are the St. John's College, at Fordham, Westchester co.; College of St. Francis Xavier, New York City; St. Joseph's Theological Seminary, Fordham; Ecclesiastical Seminary, Buffalo; Franciscan Convent, Allegany; and Preparatory Seminary of Our Lady of the Angels, Niagara.

The Catholic papers in the State are *The New York Freeman's Journal* and *Catholic Register*, *The New York Tablet*, *The Pilot*, (N. Y. and Boston,) *Katholische Kirchen Zeitung*, weekly, of N. Y.; *The Buffalo Sentinel*, weekly; *Catholic Institute Magazine*, Newburgh; *Brownson's Quarterly Review*, N. Y.; *American Catholic Almanac and Clergy List*; and the *Six Cent Catholic Almanac* and *Lait's Directory*, of N. Y.

³ *Year Book of the Unitarian Cong. Churches*, 1857.

⁴ *The New York State Convention* embraces the Central, Niagara, Cayuga, Buffalo, Mohawk River, Ontario, Genesee, Black River, St. Lawrence, Otsego, Allegany, Steuben, Chautauque, Chenango, Hudson River, and New York Associations, and contains 220 societies, 194 church edifices, and employs 107 preachers. It has a State Educational Society, with \$40,000 unencumbered, and \$25,000 invested for the Theological School in Canton; and has in charge the Clinton Liberal Institute. The Universalist Paper and Book Establishment has assets amounting to \$13,796, and unredeemed stock to the amount of \$4,169. The profits of the concern are applied to the purchase of the shares, which will thus become the property of the State Convention. It has a relief fund for aged and disabled preachers *The Young Men's Christian Union*, formed Jan. 1856, and the

last Tuesday in May. This denomination has organizations in 32 States and Territories, in 19 of which State Conventions are held. It has 4 educational, 9 missionary, 1 tract, and 4 Sunday school associations, 1 relief fund, and 1 book and newspaper establishment,—all of which are of a State character. It has 85 associations, 1,334 churches or societies, 913 church edifices, 655 preachers, 18 periodicals, and 9 institutions of learning.

The Wesleyan Methodists.¹ This denomination in the United States was formed by seceders from the M. E. Church, May, 1843.

Besides these, there are churches in the State known as *Bethels, Evangelical, German Evangelical Reformed, Jewish, Calvinistic Methodists, German Methodists, Moravians, French Evangelical Presbyterian, Protestant Community of Inspiration, Second Advent, True Dutch, Free, and Union*, numbering in the aggregate a large number of church edifices and communicants.²

RELIGIOUS, LITERARY, AND BENEVOLENT SOCIETIES.

SOCIETIES of a religious, humane, and benevolent character began to be formed in considerable numbers about 1822–25. The objects of these societies enlisted the co-operation of members of the different religious denominations and of other philanthropic persons, and annual meetings were held in New York for the several objects.

The time of meeting has been usually in the second week in May, and the appointments were so made that the same persons could attend several of them in succession. These societies have become numerous, and “Anniversary week” thus becomes a season of interest to thousands. The assembling of so large a number of persons from distant sections of the Union has led reformers of every degree to appoint the anniversary meetings of their societies at the same time and place; and there is scarcely a measure for the promotion of religion, morality, charity, or civil and social reform that is not thus annually brought to public notice, its operations exhibited, and its claims urged.

The societies exclusively under the control of a single denomination are noticed under the religious sects.

The principal societies of a general character are as follows:—

The American Bible Society, formed by a convention of 60 persons, mostly clergymen, May 8, 1809, has for its object the publication and distribution of the Bible and parts

N. Y. City Missionary Society are connected with this denomination. Its periodicals are the *Christian Ambassador*, at Auburn and New York, and a monthly periodical by the female department of the *Clinton Liberal Institute*.

The church of this name in the U. S. differs from the others in rejecting the classification of the ministry as bishops, elders, and deacons. Their official organ is the *True Wesleyan*.

¹ The M. E. Church in England and Canada is thus known.

² The following table shows the general statistics of churches in the several counties:—

Church Statistics.

thereof without note or comment.¹ Auxiliary to the American Bible Society are numerous county and local societies, through which the greater part of the funds are raised.²

The American Tract Society was instituted in 1825, by the several evangelical denominations, for the purpose of disseminating tracts and books upon moral and religious subjects.³ Several of the religious denominations have tract societies of their own.

The American Board of Commissioners for Foreign Missions was formed in 1809, for the purpose of supporting missions in foreign lands. Its central office is in Boston; but it has auxiliary societies throughout this State. It is chiefly supported by the Congregational and New School Presbyterian societies.*

¹ The first society within the State for the gratuitous distribution of the Scriptures was the N. Y. Bible and Common Prayer Book Society, formed in 1809. A large number of co. societies was formed within the next five years. The present society, formed in 1816, has gradually increased in wealth and influence, until its operations have extended to almost every section of the globe. It has a Bible house in New York,—one of the most extensive publishing houses in the world. Its books are gratuitously distributed, or sold at cost; and the total number of volumes issued up to May, 1858, was 12,804,014. These are produced in great varieties of style and in upward of forty different languages. The society has also published the Bible in English with raised characters for the blind.

The Baptist and Protestant Episcopal denominations have separate societies for publishing the Scriptures, although many members belonging to both of these co-operate with the American Bible Society.

² The following table gives the names of these societies, the date of their organization, and the amount of their donations and remittances up to May, 1858:—

NAME.	Date.	Donations.	Remittances for Bibles.

³ This society has a large property vested in a publishing house and grounds, corner of Nassau and Spruce Streets, New York, and in the stock, machinery, and materials used in the manufacture of books and tracts. Its fiscal affairs are managed by a finance committee. It has 31 auxiliaries in the State of New York. The receipts up to May, 1858, were \$5,856,711.05,—about three-fifths of which were derived from sales, and the remainder from donations. Previous to May, 1858, this society had circulated 13,098,013 volumes, 188,971,408 publications, 4,753,741,573 pages; including 149,761 volumes (9,831 sets) of the Evangelical Family Library, 94,026 volumes (4,089 sets) of the Christian Library, 48,698 volumes (1,990 sets) of the Religious or Pastor's Library, 819,323 volumes (4,557 sets) of the Youth's Library, and 160,921 volumes (20,044 sets) of the Youth's Scripture Biography. The society publishes an Almanac, the American Messenger, (in English and German,) and the Child's Paper, in large editions; and issues books and tracts in the English, Dutch, Danish, Swedish, Spanish, Portuguese, Italian, Welsh, German, French, Spanish and Hungarian languages. It operates through branch and auxiliary societies, general agents and superintendents, and paid and volunteer colporteurs. The American Tract Society of Boston, which formerly co-operated with this, is now a distinct organization.

Societies of kindred character were formed in the State previous to this,—the more important of which was the New York Religious Tract Society, formed in 1812, with auxiliaries in various parts of the country.

⁴ This society has established 27 missions, 121 stations, and 101 out stations in Africa, Greece, Western and Southern Asia, China, Sandwich Islands, Micronesia, and among the North American Indian Tribes. It employs 373 missionaries and assistants, and 524 native pastors and assistants, has 8 printing presses, and up to 1858 had issued 1,080,451,083 pages of tracts and religious books. These missions number 318 churches, and 27,740 members; and the educational department embraced

The American Home Missionary Society was formed May 12, 1826, for the purpose of supporting the ministry in feeble and destitute churches in the United States.¹

The American Sunday School Union was formed in 1824, for the purpose of encouraging the establishment of Sunday schools and of supplying them with books. Its central office is at Philadelphia. The New York Sunday School Union, auxiliary to this, was established in 1816, and has numerous local subordinate societies in different parts of the State.²

The American Seamen's Friend Society was formed in 1828, and endeavors to carry out the intentions expressed in its title by distributing Bibles and tracts, supporting the ministry, and otherwise promoting the moral welfare of seamen.³

The American Bethel Society was instituted in 1836, for the purpose of opening chapels for boatmen and mariners, distributing tracts, and extending other means for their moral improvement. It established a magazine named the "Bethel Flag;" and has auxiliaries in many places on the lakes, rivers, and canals.

The American and Foreign Christian Union was formed in 1849, for the special object of counteracting the influence of the Romish and other churches opposed to the class usually denominated "evangelical."⁴

The Central American Educational Society was formed for the purpose of assisting young men preparing for the ministry. In 1858, 111 students received aid from the society.

The American Colonization Society was formed at Washington, Jan. 1817, for the emancipation of slaves and their settlement in Africa.

The New York State Colonization Society was formed at Albany, April 9, 1829, and has had numerous auxiliaries in different parts of the State.⁵

The National Compensating Emancipation Society, formed in 1857, has for its object the purchasing of slaves for the purpose of giving them freedom.

The American Anti Slavery Society was organized Dec. 4, 1833, for the purpose of ameliorating the condition of slaves, preventing the extension of slavery, and in every possible way to weaken and finally terminate the institution of slavery. Auxiliary societies were formed throughout the State.⁶

Young Men's Christian Associations have been formed in most of the cities and

6 seminaries, 17 other boarding schools, 619 free schools, (of which 512 were supported by the Hawaiian Government,) and 17,020 pupils. The receipts in the year ending July 31, 1858, were \$34,018.48, the principal part of which was derived from donations.—*Forty-Ninth Report A. B. C. F. M.*, 1858.

¹ This society was formed by the union of two societies previously formed by the Presbyterian and Reformed Protestant Dutch Churches. It is supported by the Congregationalists and New School Presbyterians, and to some extent by the Reformed Protestant Dutch, Lutheran, and German Reformed Churches. In 1858, 1,012 persons were connected with this society or its agencies and auxiliaries, of which 133 are within this State. The number of congregations and stations fully or steadily supplied is 2,634; Sabbath school scholars, 65,500; contributions to benevolent objects, \$24,272.38. The receipts in 12 months were \$175,971.37; the payments in the same time were \$190,735.70. Total receipts in 32 years, \$3,456,082; total years of labor, 18,871; total additions to churches, 150,275.

There is a central and a western agency in this State.—the office of the former of which is at Utica and of the latter at Geneva. The number of missionaries aided within the year was 133. Total contributions, \$39,347.96.

² This movement was supported by most of the evangelical denominations; but several of them have since established Sunday school organizations among themselves. The American Sunday School Union had, in 1858, expended about \$2,500,000 in books, and \$1,000,000 more in organizing Sunday schools. Its receipts for the last year were \$65,076.14; and it had formed 1,524 new schools, with 57,757 pupils and 9,694 teachers. The New York Sunday School Union had, in 1858, 210 schools, reporting 60,000 pupils, 4,825 teachers, 82,294 books in libraries, and \$13,089 raised by contributions. Sunday schools in some form are supported by nearly every religious denomination, and are chiefly for Biblical instruction. A State Sunday School Teachers' Convention formed in 1855, meets annually. Its third report, made Oct. 1858, gave a total in the State of 1,995 schools, 22,263 officers and teachers, and 212,312 pupils.

³ This society has 15 stations in various parts of the world, and grants aid to various Bethel operations not connected with it. The receipts for the year ending in 1858 were \$25,236.20; and the total expenses in the seamen's cause about \$100,000; 2,257 mariners had been received at the Sailors' Home in New York, and the whole number received into that institution from its establishment was 52,353.

⁴ The association has 61 home laborers; and its receipts in the year ending in 1858 were \$76,603.22. Its expenses in the same time were \$79,604.23. It has agents, and supports chapels in several foreign countries.

⁵ The slave trade was abolished in 1807, and after Jan. 1, 1808, the cargoes of captured slaves were to be sold for the benefit of the State where they might land. By an act of March 3, 1819, the General Government appropriated \$100,000 for the restoration of a large number of Africans to their native country. By the co-operation of the Government with this Society a purchase was made in Dec. 1821, in the neighborhood of Cape Montserado, on the w. coast of Africa, from which has grown the present Republic of Liberia, under the special patronage of this society. Formal possession was taken April 28, 1822.

Several of the subordinate State societies have been merged in anti-slavery and other more radical societies for the termination of slavery. In the year ending in 1858 the receipts of the New York Colonization Society were \$15,624.62.

The expenses of the society for the year ending in 1858 were \$17,652, including those of the Anti Slavery Standard, its principal organ. Receipts, \$15,200 from the paper and donations, and \$17,355 by auxiliaries.

A New York State Anti Slavery Society, with numerous auxiliaries, was formed about 1834-36, and its friends soon organized themselves into a political party. The highest State vote of this party was in 1844, when it amounted, on the Governor's ticket, to 15,136. Slavery existed under the Dutch, and was continued through the English period of our colonial history. An act was passed March 31, 1817, declaring that every child born of a slave in this State after July 4, 1793, should be free at the age of 25 if a male, or at 25 if a female. Every child born after the passage of the act was to become free at the age of 21, and measures were ordered for the education of children held in service. The importation of slaves was prohibited. The first emancipation under this law, therefore, took effect July 5, 1827, as the law fixed the period as *after* instead of *upon* the 4th of July, as was perhaps intended. The 5th of July has sometimes been celebrated as their anniversary of independence; and hence arises the slang expression of "Fourth of July one day *arter*." Those born before the above date remained slaves till their death, and the census of 1856 reported one slave as living in the State. The number of slaves in New York at different periods has been as follows:—

1790.....	21,324	1810.....	15,017	1820.....	10,046	1840.....	4
1800.....	20,613	1814.....	11,480	1830.....	75	1850.....	—

large villages in the United States and British Provinces. They form a general confederation, the State of New York forming the fourth district. These associations embrace within their objects a library, reading room, lectures and prayer meetings, and they are supported by evangelical denominations generally.¹

The Young Men's Christian Union of New York is supported by the Unitarian and Universalist denominations principally.

Young Men's Associations for mutual improvement have been formed in various parts of the State and under various names. The plan of organization is essentially alike; and it usually includes a library, reading room, cabinet, lecture course, and debating club. Most of these associations have been organized by special acts, and their affairs are managed by executive committees chosen annually by the members. They can hold a limited amount of property for the special objects of their organization.²

In most of the large villages, associations have been formed for the support of lectures at stated intervals in the winter months. They are generally of a temporary character, are re-organized every season or are attached to academies or other existing institutions.

The New York State Temperance Society was formed April 2, 1829. Its objects were to suppress intemperance and limit the traffic in intoxicating liquors. It received the support of a large number of the best and most philanthropic citizens, and its influence spread rapidly throughout the State.³ Since the formation of the first society, efforts to suppress intemperance have been made upon an extended scale, and the strong arm of the law has been invoked to prohibit the traffic in alcoholic liquors.

Fraternity of Free and Accepted Masons. "The Ancient and Honorable Fraternity of Free and Accepted Masons" of the State of New York is under the government of a Grand Lodge, composed of its Grand Officers and the representatives (the Master and Wardens) of every lodge in the jurisdiction. As at present constituted, the Grand Lodge dates from 1785, when Chancellor Robert R. Livingston was elected Grand Master, and continued in office till 1801.⁴ In 1859 there are 430 chartered lodges in the State, (numbered to 474,) with about 33,000 members, numbering among them a very respectable class in all the walks of life. There is at least one lodge in every county in the State, (except Hamilton;) 93 of the lodges are in the city of New York; and a lodge is located in every considerable town and village. The annual receipts of the

¹ In July, 1858, associations of this kind were in active operation in Albany, *Albion*, Black Rock, *Brooklyn*, *Buffalo*, Catskill, Flushing, Hudson, Jamestown, New York, *Oswego*, Poughkeepsie, Rondout, Saratoga Springs, *Stapleton*, *Troy*, *Utica*, and *Watford*. Those in italics belong to the confederation.

² The first organization of this kind in the State was the Albany Young Men's Association, formed Dec. 13, 1833, and incorp. March 12, 1835. The following is a list of those associations in the State formed under special acts:—

NAME AND LOCATION.	Date of incorporation.	Remarks.
Albany, Albany co.....	March 12, 1835	Fully organized. Library 7,000 vols.
Buffalo, Erie co.....	March 3, 1843	Library in 1855, 7,500 vols.
" " (German)	May 12, 1846	Library in 1855, 1,800 vols.
Elmira, Chemung co.....	April 11, 1842	
Fulton, Oswego co.....	May 13, 1846	
Geneva, Ontario co.....	April 17, 1839	
Port Byron, Cayuga co.	April 10, 1844	
Sackett Harbor, Jefferson co.....	March 2, 1843	Closed.
Saratoga Springs, Saratoga co.....	May 14, 1840	
Franklin Institute, } Syracuse, Onond- } ga co.....	Dec. 1849	{ Library in 1859, about 3,000 vols.
Schenectady, Schenectady co.....	March 9, 1839	
Troy, Rensselaer co.....	April 10, 1835	Fully organized.
Utica, Oneida co.....	March 25, 1837	Closed.
Watertown, Jefferson co.	April 17, 1841	Burned out in 1840.

³ The fourth report of the State Society, in 1835, gave 1,538 societies and 231,074 members. Its principal organ, the *Temperance Recorder*, was begun March 6, 1832, at Albany, and issued many years. It also published almanacs, tracts, and circulars to a large extent. The American Society for the Promotion of Temperance, formed in 1827, was in 1836 succeeded by the "American Temperance Union." The latter, in the year ending in 1858, received \$1,987.20. Its principal organ is the *Journal of the American Temperance Union*, at New York. Both this

and the State Society are still in operation. About 1841-45 the "Washingtonian" temperance movement, originating among reformed inebriates, spread over the State, and several thousand independent societies were formed under it,—most of which, however, died out with the enthusiasm under which they were created. The secret orders of "Rehabites" and "Sons of Temperance" originated in New York, about 1842, and subsequently those of "Cadets of Temperance," "Daughters of Temperance," "Good Samaritans," "Daughters of Samaria," "Knights Templar," "Social Circles," and other associations of a similar class were formed for the avowed purpose of promoting temperance reform. Numerous lodges or encampments were formed, and these societies at one time embraced large numbers of members. Several of them have been given up entirely; and it is believed none of them are increasing. They required a form of initiation and pledge of secrecy, had fixed dues payable at regular intervals, provided money to assist the sick and bury the dead, and gave certificates of membership, which, with passwords and other tokens of recognition, might enable a person to claim assistance among strangers belonging to the order.

The License question was submitted to the popular vote May 5, 1843, with the result of 111,854 for, and 177,653 against, license. The operation of the law was deemed by many to be unequal; and its effect upon the temperance cause was unquestionably adverse. In 1847 the majorities for license were large in most of the towns. The "Maine Law," or prohibition movement, began in 1851, and was urged by its friends with great force during several sessions of the Legislature. A prohibitory law was passed, but was declared unconstitutional by the Court of Appeals. The present law regulating the sale of intoxicating liquors, passed April 16, 1857, provides a Board of Excise Commissioners in each county for granting licenses and prosecuting violations of the law.

⁴ At the close of his term there were 94 lodges in the State, of which the eldest was St. John's, No. 1, (yet in active existence), established in the city of New York in 1757. Gen. Jacob Morton was Grand Master from 1801 to 1806, De Witt Clinton from 1806 to 1820, and Daniel D. Tompkins from 1820 to 1822, when the Grand Lodge became divided. In 1823, at the commencement of the Anti-Masonic excitement, (see Genesee co.) there were about 360 lodges in the State, (numbered to 507,) with about 22,000 members. In 1836 the number of lodges had been reduced below 75, with a corresponding membership.—say 4,000.

Grand Lodge are about \$15,000; and during the year ending in June, 1859, the amount expended for charitable relief by the Grand Lodge and its immediate agents was about \$3,000; and probably three times more than that sum was expended for the same purposes by lodges and individual Masons. There is in the Hall and Asylum Fund, raised for charitable and educational purposes, about \$25,000, controlled by trustees chosen by the Grand Lodge, (it not being incorporated;) and this sum is constantly being increased from various sources,—a portion of it arising from the stated revenues of the Grand Lodge. The fraternity are now all united in one body, under the jurisdiction of the Grand Lodge and its subordinates, and are in a sound and flourishing condition. The office of the Grand Secretary and place of business of the fraternity is in Odd Fellows Hall, corner of Grand and Center Sts., New York. The Grand Lodge is in correspondence and direct communication with all the Grand Lodges and Masonic fraternity throughout the world.¹

Independent Order of Odd Fellows. This order was introduced into the United States from Manchester, England; and the first regular lodge was opened at Baltimore, in 1819. The Grand Lodge of the U. S. includes 42 subordinate Grand Lodges in the States and Territories, Canada, and the Sandwich Islands. There are 2 Grand Lodges and 623 subordinate lodges in this State.²

Sons of Malta. This order embraced in this State, on the 1st of July, 1859, the Grand Lodge of the State and 8 subordinate lodges, with an aggregate membership of 12,680.

MEDICAL SOCIETIES.

THE formation of County Medical Societies was authorized by an act passed April 4, 1806. They were empowered to grant licenses to practice medicine in the State and to collect of the members a sum not exceeding \$3 annually. Delegates sent from each co. society, in number equal to the representation of the co. in Assembly, were to constitute a State Medical Society, which had the power of granting diplomas to practice medicine and to decide upon cases appealed from the co. societies. Although local societies were formed under this act in most of the counties then existing, several of them have ceased to exist; and there are at present but about 40 county societies that are represented by delegates. The State Society was formed Feb. 5, 1807, and is

¹ The stated festivals of the fraternity are on the 24th of June and 27th of December, usually styled St. John's days. The officers of the Grand Lodge and of the subordinates are elected annually; and the time and place for the "Annual Communication" of the Grand Lodge is on the first Tuesday of June, in the city of New York.

² The elective Grand Officers of the Fraternity are Grand Master, Deputy Grand Master, Senior Grand Warden, Junior Grand Warden, Grand Treasurer, Grand Secretary, and 5 Grand Chaplains.

² Statistics of the Odd Fellows for the year ending Jan. 30, 1858.

¹ The first act regulating the practice of physic and surgery in New York was passed June 10, 1760. It was amended in 1792 and 1797, and under the latter the judges of State courts and courts of Common Pleas and Masters in Chancery were, upon proof of two years' study of medicine, authorized to license persons to practice as physicians. By the act of 1806, medical societies might be formed in each co. by securing five or more members; and where there were less than five physicians in a co. they might unite with the society of a neighboring co.

The restrictions upon practice without a diploma were finally abolished in 1844; and the law now makes no distinction between the different classes of practitioners. Those assuming to act as physicians become responsible for their practices, and, if not licensed by a county or the State Society or regularly graduated

at a medical school, can collect pay according to the time employed, but they cannot collect the specific fees, implying professional skill, which are recognized by the established usages of the profession.

² The number of homeopathic practitioners in the State is about 600, of whom 150 are in New York and Brooklyn. The Central, Bond St., and Northern Homeopathic Dispensaries in New York, the Homeopathic Dispensary of Brooklyn, the Hahnemann Academy of Medicine of New York, and the Homeopathic Medical Society of Northern N. Y., are sustained by this class of physicians, and the North American Homeopathic Journal, (quarterly,) the Homeopathic Review, (mo.), and the Homeopathic, (semi-mo.) all published at New York, are devoted to their interests.

ALBANY COUNTY.

This was an original county; formed Nov. 1, 1683, and confirmed Oct. 1, 1691.¹

Troy and Charlotte (now Montgomery and Washington) counties were taken off in 1772, Columbia in 1786, Rensselaer and Saratoga in 1791, a part of Schoharie in 1795, a part of Greene in 1800, and Schenectady in 1809. The Manor of Rensselaerwyck was erected into a district March 24, 1772, and subdivided into east and west districts soon after the Revolution. The county lies on the west bank of Hudson River, about 150 miles from its mouth, and contains an area of — square miles. Its surface is undulating and hilly, and it has a general inclination toward the southeast. A narrow intervalle extends along

the course of the river, bounded by a series of steep bluffs from 100 to 180 feet high, from the summits of which an undulating and slightly ascending plateau stretches westward to the foot of the Helderberg² Hills, where it reaches an elevation of about 400 feet above tide. This range of hills rises from 400 to 800 feet above the plateau, and 800 to 1200 feet above tide. Their declivities are very steep, and sometimes precipitous, on the east, but more gradually sloping upon the west. Several other ranges of hills, inferior to them in height, extend in a general northerly and southerly direction through portions of the county. The highest point is the summit of the Helderbergs, in the northeast corner of the town of Bern, and is 1200 feet above tide. All these ranges of highlands may be considered as outlying spurs of the Catskills, which, in turn, are but a northerly continuation of the Alleghany Mountains, and a part of the great Appalachian system.

The geological formations of this county belong to the Upper Silurian system, and comprise nearly all the rocks of the "New York System," from the Utica slate to the corniferous limestone. Above the rocks, in the eastern part of the county, are thick deposits of drift, consisting of sand, gravel, and clay; and along the river intervalles are rich alluvial deposits. The lowest rock, cropping out on the Hudson, Normans Kill, and Mohawk, is the Utica slate. Next above is the graywacke and shales of the Hudson River group, appearing in the valleys of all the streams that flow into the Hudson, and apparently underlying the entire eastern part of the county. This stone is quarried for building stone and flagging.³ The red rocks that form the base of the Helderbergs evidently belong to the Medina sandstone series, though they have sometimes been confounded with the red shales of the Onondaga salt group. Next above, forming the first terrace of the mountains, is the water-lime group, from 50 to 200 feet in thickness, furnishing both water and quicklime. Next in order is the pentamerus limestone, 50 feet in thickness, consisting of impure gray and black limestone mixed with slate and shale. Overlying this is the Catskill limestone, from 50 to 180 feet in thickness, consisting of thick, compact masses of limestone alternating with thin layers of shale. It is used for building stone and lime. The Oriskany sandstone is next developed, in a strata of only 2 feet in thickness, followed by the cauda-galli grit, from 50 to 60 feet in thickness. This last has a fine grit, and resembles black or gray slates, but is easily disintegrated, and crumbles upon exposure to the air. Next in order come the Onondaga and corniferous limestones, the latter crowning the summits of the mountains. These rocks furnish both a superior quality of lime and an excellent building stone. The surface of the eastern part of the county is covered with immense beds of clay, gravel, and sand. The highlands west of Albany City are covered 40 feet deep with sand, which rests upon a bed of clay estimated to be 100 feet deep. In this drift are found small beds of bog ore and numerous chalybeate and sulphuretted springs. In the limestone regions are numerous caves, sink holes, and subterranean water courses, forming a peculiar and interesting feature of the county.

The principal streams are,—the Hudson River, which forms the eastern boundary; the Mohawk, which forms a part of the northern boundary; the Patroon Creek, Normans Kill, Vlomans, Coey-

¹ The county by these acts embraced "the Manor of Rensselaerwyck, Schenectady, and all the villages, neighborhoods, and Christian plantations on the east side of Hudson's River, from Roeloffs Jansen's Creek; and on the west side, from Sawyer's Creek to the outermost end of Saraghtoga." The Manor of Livingston was annexed to Dutchess co. May 27, 1717, and by subsequent statutes the county of Albany was also made to com-

prise every thing within the colony of New York north and west of present limits, and at one time the whole of Vermont.

² Signifying "Clear Mountain," from the fine prospect from their summit.

³ Several of the intermediate series of rocks, including the gray sandstone, Clinton, Niagara Falls, and Onondaga salt groups, are not found in the county.

mans, Haankrois, and Catskill Creeks, and their branches. Nearly all the streams that flow into the Hudson have worn deep gulleys in the sand and clay. Many of these gorges are 100 feet deep, and extend from one-fourth of a mile to one mile from the river. The streams farther west generally flow through narrow, rocky ravines bordered by steep banks. These streams are mostly very rapid, and subject to extremes of flood and drouth. There are several small lakes among the hills, but none of special importance.

The soil upon the intervalles is a deep, rich alluvial loam. In Watervliet, Albany, and the eastern parts of Guilderland and Bethlehem, it consists of almost pure sand, with strips of clay along the banks of the streams. A belt of land lying between the sandy region and the foot of the Helderbergs is principally a clayey and gravelly loam, and very productive. Upon the Helderbergs, the soil consists of alternate layers of clay, slate, and gravel, generally with a sub-soil of tenacious clay called "hard-pan." Patches in this region are also stony, and much of it is wet and cold, and only moderately productive. Pitch pine, oak, and chestnut are the principal kinds of timber that grow upon the sandy region. In the most barren parts these trees are mere dwarfs, and the region has much the appearance of a desert. In the southeast corner of the county is a limited amount of red cedar. West of the sandy tract are found the usual trees of this northern climate, including both the deciduous and evergreen.¹

In the farming districts the people are principally engaged in raising spring grains, dairying, the raising of stock, and in gardening for the markets of Troy and Albany. The people of Albany, West Troy, and Cohoes are principally engaged in manufactures and commerce.

The city of Albany is the county seat and State capital. The county buildings are commodious, and the county institutions are well organized. The City Hall² at Albany, erected at the joint expense of the city and county, contains the principal city and county offices. The Albany County Penitentiary³ is a fine building in the western part of the city. Persons convicted of certain crimes, and sentenced to short terms of imprisonment, are confined here; and prisoners are received from Dutchess, Columbia, Rensselaer, Washington, Saratoga, and Schenectady counties. The county has no poor-house, but contracts with the city for the support of its paupers.

Albany is 145 miles above New York, upon the Hudson. The tide rises about one foot in the river.⁴ In low water, navigation is obstructed, except for vessels of light draught, by the "over-slaugh," or bar, near Castleton, and at other points; and considerable sums have been expended in attempting to deepen the channel, by dredging, and building a long stone dyke below Albany.⁵ The most important works of internal improvement in the county are,—the Erie Canal,⁶ the New York Central, and the Albany, Vermont, and Canada Railroads, all terminating in the city of Albany. Connected with these lines, and terminating at Greenbush, directly opposite Albany, are the Hudson River, Albany and West Stockbridge,⁷ Harlem, and Troy and Greenbush Railroads. A company has been chartered to build a r. r. from Albany in a s. w. direction to Binghamton, and the work upon it is now in progress. A pier has been built in the river in front of Albany, for the benefit of navigation.⁸

Hendrick Hudson is supposed to have ascended the river as far as Albany in 1609. During the next three or four years, several Dutch traders commenced a traffic with the Indians, and small trading houses were built at Manhattan and Albany. In a few years these stations were fortified, the one to protect from invasion by sea, and the other against incursions from the French settlements in Canada. The principal military work at Albany (built in 1623) was known as Fort Orange.⁹ The station at Albany remained a mere trading port until 1630, when agricultural improvements began. The Dutch West India Co. was formed in 1621, for promoting settlement in "New Netherlands," as the Dutch possessions in America were then called. In 1629, this company granted to Killian Van Rensselaer, one of the commissioners, (a pearl merchant of Amsterdam,) a charter conferring upon him privileges similar to those enjoyed by the feudal barons of Europe. His

¹ A geological and agricultural survey of Albany co. was made, in 1820, by Dr. T. Romeyn Beck, for the Co. Ag. Soc., and was the first enterprise of the kind in the state.—*Mem. Bd. Ag.*, i. 367.

² See page —.

³ This penitentiary was built in 1845-46, and opened for prisoners in April, 1846. It was organized under the direction of Amos Pillsbury, in 1848, and has since continued under his direction and that of his son, Lonis D. Pillsbury. It has 300 cells, and the average number in confinement has been 220. The convicts are principally employed in the manufacture of cane-seat chairs and saddlery hardware. During the first 8 years the total receipts were \$115,062, and the total expenditures \$104,680.

⁴ The tide rises here 6 h. 34 m. behind time of the moon's southing.

⁵ Senate Doc. 40, 1857, p. 171.

⁶ The Erie Canal terminates in a basin at Albany, and communicates with the Hudson at West Troy. It crosses the Mohawk River, above Cohoes Falls, upon a stone aqueduct. A company has been incorp. for building a ship-canal from Albany to New Baltimore, a point below the bars which obstruct navigation.

⁷ Leased by the Western (Mass.) R. R. Co.

⁸ The pier is built across a curve in the west shore, and opens into the river at both ends. It is divided for the accommodation of the railroad ferries, and is 1½ miles long. It was formerly closed by locks. The basin enclosed within the pier affords a secure harbor, during winter, for river vessels and canal boats, which otherwise would be exposed to destruction from ice. The pier is owned by an incorporated company.

⁹ See page —.

agents¹ made large purchases of land lying on both sides of the Hudson, near Albany,² in 1630-37, at which last date the manor embraced a territory 24 mi. n. and s. and 48 mi. e. and w., including nearly all of the present counties of Albany and Rensselaer.³ By the terms of the grant the charter would be forfeited unless the lands were settled in 7 years by at least 50 persons over 15 years of age. A ship load of emigrants was forwarded in 1630, and others in each of several succeeding years. The emigrants were furnished with stock, seeds, and farming implements, and the land was leased at an annual rent, payable in grain, beeves, and wampum, or a share of the products.⁴ The proprietor received the title of Patroon, and in him was vested authority in civil and military affairs subordinate only to the West India Co. and the States General. He had his forts, soldiers, cannon, and courts of justice; and, although the laws allowed an appeal from the decisions of the local courts, he required every person who settled within his jurisdiction to pledge himself never to exercise this right. Altercations soon arose between the agents of the patroon and the officers of the garrison at Fort Orange, in regard to the land immediately around the fort; and the controversy was not settled until after the English conquest.⁵ The settlement formed under Van Rensselaer gradually acquired importance as a trading post, and a considerable hamlet was built under the guns of Fort Orange.⁶ Mills were built on several of the streams, and a church was erected. By the surrender of the colony to the English, in 1664, the personal rights of the colonists were secured, and a new charter was granted to the patroon, restricting his civil power, but confirming the relations existing between landlord and tenant.⁷ The feudal tenure was finally abolished in 1787.⁸

The leasehold tenures, from an early period, excited discontent among the tenants.⁹ The late patroon, by his indulgence, had secured their regard; and when he died, in 1839, the course that would be pursued by his successor became a matter of solicitude. A committee of respectable men, appointed by the tenants to wait upon him and confer upon subjects of mutual interest, were treated with marked coldness and disdain, which quickly led to the organization of armed resistance to the enforcement of civil processes in the collection of rent. In Dec. 1839, the excitement was so great in the w. part of the county, that the Governor issued a proclamation, and sent an armed force to assist the civil officers. The people finally dispersed, and no collision ensued. For many years the anti-rent question greatly excited the public mind in all sections of the State where the leasehold tenure prevailed.¹⁰ Within a few years, much of the land has been conveyed in fee to the lessees; and probably in a few years the whole question will be amicably arranged in this manner.¹¹ There are 19 newspapers now published in the county.¹²

¹ Janson Krol and Derick Cornelissen Duyster, commissary and under commissary at Fort Orange.

² The tract first purchased, w. of the Hudson, extended from Beeren (Bear) Island—called by the Indians "Passapenock"—up to Sneeckx Island, and "of a breadth of two days' journey."

³ On the let of Oct. 1630, a copartnership was formed between Van Rensselaer on the one part, and Saml. Godyn, Johannes de Laet, Saml. Bloemmaert, Adam Bissels, and Toussaint Mousart on the other, by which the latter were constituted co-directors of Rensselaerwyck, and were bound to do homage and fealty to the lord of the manor.

⁴ The patroon reserved the right to trade with the Indians. For several years this trade was carried on by the settlers, who received goods from the patroon's store, and sent the peltries which they received to be sold by him in Holland. This business afterwards fell into the hands of local traders.

⁵ So active did this controversy become, that at one time Gov. Stuyvesant sent an armed force to Albany to support the rights of the company against the proprietor.

⁶ This place soon became the seat for holding all great councils with the Indian tribes. Among the curious things mentioned in the annals of the "old colony" is the fact that, during an almost unprecedented freshet in the spring of 1646, a whale 40 feet long came up the river and stranded on an island near the mouth of the Mohawk. Four others stranded the same season, 40 Dutch mi. above New Amsterdam.

⁷ For a concise view of the changes made by this charter, see *Barnard's Hist. Sketch of Rensselaerwyck*, p. 197.

⁸ The manorial title has descended as follows:—**KILLIAN VAN RENSSELAER**, first Patroon, died in 1647, at Amsterdam, leaving the property with his two sons.

JOHANNES and **JEREMIAH**. Each of these had a son named **KILLIAN**, the former of whom died without issue in 1687, leaving the title with

KILLIAN, son of **JEREMIAH**. Dongan's patent was confirmed to the two cousins Nov. 5, 1685, and all other claimants released to the survivor in 1695; to whom also Queen Anne's patent of confirmation was granted May 20, 1704. He willed the property to his son,

JEREMIAH, and to the male heirs of his body; but, dying without issue, the title passed to his younger brother,

STEPHEN, who had a son (sole heir under the will above mentioned), named

STEPHEN, who died in 1769, leaving the title with **STEPHEN**, the late patroon, who was born in 1764, and died in 1839. The entail ended with this person, who, in his will, gave the w. part of the manor to his son, **STEPHEN**, the present proprietor, and the e. part to his son, **WILLIAM P.**, of New York.

⁹ The "Quarter Sales," as they were technically called, in which the landlord claimed a part of the purchase money at each transfer of a lease, was particularly obnoxious. In 1850 the Quarter Sales were declared unconstitutional by the Supreme Court.

¹⁰ This movement led to the adoption of Art. 1, Sec. 14, in the constitution of 1846, prohibiting the lease of agricultural lands for a longer period than 12 years.

¹¹ The relative amount of the land held by lease and in fee in the county is now nearly as follows:—In Westervliet, nearly all held in fee; in Guilderland, three-fourths; in Bethlehem, Coeymans, and New Scotland, two-thirds; in Knox, Rensselaerville, and Waterloo, half; and in Bern, one-third,—the remainder being held by lease.

¹² The following list is imperfect, but is supposed to include all the more important newspapers ever published in the Co. We are indebted to Joel Munsell, printer, for assistance, and the use of his immense collection of specimen numbers, in the preparation of this class of statistics.

The Albany Gazette was first issued in Nov. 1771, by Alex. and James Robertson, who joined the loyalists in N. Y. in 1776.

The New York Gazette and Northern Intelligencer, in 1782, by Solomon Balantine and Charles K. Webster. In 1784 the name was changed to

The Albany Gazette, and in 1788 a semi-weekly edition was issued. In March, 1817, united with the Albany Daily Advertiser, and took the name of

The Albany Gazette and Daily Advertiser, continued until 1845. *The Albany Journal, or Montgomery, Washington, and Columbia Intelligencer*, semi-w. in winter and w. in summer, was started in June, 1788, and published in connection with the *Gazette*.

The Albany Daily Advertiser, Sept. 1815, by Theodore Dwight,

- It passed into the hands of W. L. Stone in 1817, and was united with the Albany Gazette.
- The Albany Register*, 1788, by John Barber, who published it until his death, in 1808. S. Southwick succeeded, and in 1817 it was discontinued.
- The Federal Herald*, published by Claxton & Bahcock, was brought from Lausburgh in Feb. 1788, and again returned to that place.
- The Albany Centinel*, semi-w., was issued in 1796. In Nov. 1806, its title was changed to
- The Republican Crisis*. Backus & Whiting, and Isaac Mitchell, were successively publishers.
- The Albany Chronicle* was commenced in 1797, by John McDonald; Joseph Fry and Henry C. Southwick were afterward its editors. It was discontinued in 1799.
- The Guardian* was started in 1807, by Van Benthuyssen & Wood, and continued 2 years.
- The Balance*, and *New York State Journal*, semi-w., published by Crosswell & Frary, was removed from Hudson in 1808, and discontinued in 1811.
- The Albany Republican* was started in April, 1812, by Samuel R. Brown.—Romaine succeeded the next year, and after several years it was merged in the *Saratoga Patriot*.
- The Albany Argus* was established as a semi-w., tri-w., and w., Jan. 1, 1813, by Jesse Buel; and d. semi-w., and w. editions were issued in Oct. 1825. Edwin Crosswell was many years its publisher. Fe. 15, 1866, it was united with the *Atlas*, and published as
- The Atlas and Argus**, d., semi-w., and w., by Comstock & Cassidy.
- The Albany Atlas*, d., semi-w., and w., was started in 1841, by Yuce & Wendell; and in 1856 it was united with the *Argus*.
- The Statesman*, published by — Carter, was removed to New York in 1818.
- The Plough Boy* was started 1819, by Solomon Southwick, under the *nom de plume* of Henry Homespun.
- The Albany Microscope* was started in 1820 by Charles Galpin, and continued until 1842.
- The National Democrat*, published at Albany and N.Y., was started in 1823 by William McDonald, and continued 1 year.
- The Religious Monitor*, mo., was commenced in May, 1824, by Chauncy Webster. It is now published in Philadelphia.
- The Escrioteur, or Masonic and Miscellaneous Album*, was started in 1826 by E. B. Child. Its name was changed to
- The American Masonic Record*, and was published by E. B. Child for 4 or 5 years.
- The American Masonic Register* was published 5 years by L. G. Hoffman.
- The National Observer*, w. & semi-w., was started in 1826 by Geo. Galpin, and continued 4 years, under the editorial charge of S. Southwick.
- The Albany Telegraph and Christian Register* was started in 1826, and in 1827
- The Albany Christian Register*, L. G. Hoffman pub. and J. R. Boyd ed., May 19, 1827.
- The Albany Daily Chronicle* was started April 22, 1826, and published a short time by Galpin & Cole.
- The Standard* was published in 1827 by Matthew Cole.
- Signs of the Times* was commenced Oct. 13, 1827, by D. McGlashan, S. De W. Bloodgood ed., and continued until Nov. 8, 1828.
- The Antislave* was published in 1827 by Webster & Wood, and edited by S. Southwick.
- The Morning Chronicle*, d., and *The Albany Chronicle*, semi-w., were published in 1828 by Beach, Denio, and Richard.
- The Age* was published in 1828 by Galpin & Sturtevant.
- The Albany Times and Literary Writer* was started Dec. 27, 1828, and published a short time by D. McGlashan; Bloodgood & Van Schaick, editors.
- The Albanian*, semi-mo., was started Jan. 30, 1828, by Arthur N. Sherman.
- The Albany Minerva* was published in 1828 by J. Munsell.
- The Albany Evening Journal** was commenced March, 1830. It is published by B. D. Packard & Co., and ed. by Thurlow Weed. A w. and semi-w. journal ars issued from the same office.
- The Farmers, Mechanics, and Working Men's Advocate*, d., was started in 1830 by McPherson & McCrecher. The following year it appeared as
- The Daily Freeman's Advocate, and Farmers, Mechanics, and Working Men's Champion*, and was continued 1 or 2 years.
- The Albany Bee*, d., was started in April, 1830, by J. Duffey, W. S. McCulloch, and Charles Angus.
- The Temperance Recorder*, mo., was published in 1831 by the State Temperance Society.
- The Daily Craftsman* was removed from Rochester in 1831; E. J. Roberts and Henry James, publishers.
- The Albany Transcript*, d., the first penny paper in Albany, was started Oct. 12, 1835.
- The Albany Bouquet and Literary Spectator*, mo., was published in 1835 by Geo. Trumbull.
- The Albany Whig* was commenced in 1834, by J. B. Van Schaick & Co., as the weekly of *The Daily Advertiser*. It was soon merged in *The Albany Gazette*, a semi-w. paper issued from the same office.
- The Common School Assistant*, mo., was published in 1836 by J. Orville Taylor.
- Southwick's Family Newspaper* was published in 1838.
- The Jeffersonian* was published by Horace Greeley during the campaign of 1838.
- The Cultivator**, mo., was commenced in Msrch, 1839, by Jesse Buel. It was afterward published by W. Gaylord and L. Tucker, and it is now conducted by L. Tucker & Son.
- The Tomahawk and Scalping Knife* was published a short time.
- The Albany Patriot* was started in 1840 by Jas. C. Jackson, and continued 4 years.
- The Unionist*, d., was published by J. Munsell during the campaign of 1840.
- The Rough Haver* was published by Theo. M. Brnt during the campaign of 1840.
- The District School Journal*, mo., was established at Geneva in 1840, Francis Dwight ed. Removed to Albany in 1841, where it was continued by the State School Department until 1852.
- The Examiner* was published in 1841 by G. Galpin.
- The Irishman* was published seven weeks in 1842 by H. O'Kane, J. Munsell printer.
- The New York State Mechanic*, was started in 1842 by J. Munsell, and continued eighteen months.
- The Northern Star and Freeman's Advocate* was started in 1842 by J. G. Stewart and Charles S. Morton.
- The Sunday Ticker* was published in 1842 by C. W. Taylor.
- The Albany Switch* was commenced in 1842 by H. J. Hastings. In 1855 Edward Leslie became its editor.
- The Youth's Temperance Enterprise*, mo., was started in 1842 by J. Stanley Smith, ed. and pub., and continued 3 years.
- The American Citizen*, d. and w., was started in 1843 by Stone & Henley, and ed. by J. S. Smith.
- The Albany Knickerbocker**, d. and w., was commenced in 1843 by H. J. Hastings, and is still continued.
- The Albany Daily Patriot, anti-slavery*, was published in 1843 by C. T. Torry.
- The Subterranean* was started Msr. 23, 1843, by Jas. Dmfey.
- The Albanian*, d., was published in 1844.
- The Albany Religious Spectator* was started in 1844 by J. Munsell and E. H. Pease. The next year it passed into the hands of B. F. Romaine, who continued it until 1857.
- The Birney Advocate* was published during the campaign of 1844 by E. W. Goodwin.
- The Anti-Renter* was started by Thos. A. Devyr Aug. 16, 1845.
- The Albany Freeholder* was started April 9, 1845, by Thos. A. Devyr, and continued until 1854.
- The Scourge* was published in 1845 by Woodward & Packard.
- The Vesper Bell*, d., pub. by Abbott & Crosby, only reached a few numbers.
- The Albany Herald*, d. and tri-w., was commenced in 1846 by A. B. Van Olinda, and in Dec. of the same year it took the name of
- The Morning Telegraph*, and in March, 1847, it was again changed to
- The Statesman*, edited by W. M. Watson.
- The Balance* was published in 1848.
- The Mechanics' Advocate* was started in 1846 by J. Tanner, and continued one year.
- The Mechanics' Journal* was commenced in 1846 by Munsell & McFarlan, and continued 1 year.
- The Albany Custigator* was issued in 1847 by M. J. Smith
- The American Literary Magazine*, mo., was started in July, 1847, by T. Dwight Sprague, and removed to Hartford in June, 1848.
- The Christian Palladium*, ed. by J. Hazen, was brought from Fulton county in 1847-48, and removed to Irvington, N.J. in Oct., 1855.
- The Busy Bee* was started in 1848 by E. Andrews, and continued 2 years.
- The Telegraph and Temperance Journal*, mo., was commenced in 1848 by S. Myera, and continued 4 years.
- The Daily Artizan* was published a short time in 1849 by Tanner & Stow.
- The Albany Daily Messenger* was issued in 1849 by B. F. Romaine.
- The Christian Herald and Messenger* was issued Feb. 10, 1849, by J. Hazen, and afterward removed to Irvington, N.J. It was in part successor to the *Christian Messenger*, published at Newburyport, Mass., a long series of years, and is the oldest religious newspaper in the country.
- The Courier and Journal** was started Feb. 10, 1849, and is now published by J. T. Hazen.
- The Albany Dutchman* and *The Albany Sunday Dutchman* were started in 1849 by Griffin & Farnsworth, and subsequently removed to N.Y.
- The Temperance Courier* was published in 1849 by J. T. Hazen, and subsequently by J. Hazen & Son.
- The Washingtonian and Rechabite* was issued in 1849 by J. T. Hazen, and in 1855 united with *The Courier*.
- Florence Oneida Telegraph* was printed at Albany in 1849.
- The Albany Morning Express* was started in 1860 by Stone & Henley. In 1854 it passed into the hands of Munsell & Co., and in 1856 its title was changed to
- The Daily Statesman**, and is still published by J. B. Swain & Co.

ALBANY CITY¹—was incorporated by patent July 22, 1686,² having previously enjoyed divers rights and privileges, under the names of “*Beverwick*,” “*William Stadt*,” and Albany. The Dutch styled it “*New Orange*.” The part of the city north of Patron and Quackenboss Streets, known as the “*Colonia*,” was incorp. March 31, 1791; and again, March 30, 1801. It was made a village April 9, 1804; and was erected as a town April 11, 1808. The town was divided, and merged in Albany and Watervliet, Feb. 25, 1815. The city lies upon the w. bank of the Hudson River, a little n. of the center of the county; and embraces a strip of land about one mile wide, extending 13½ miles in a n. w. direction to the n. boundary of the county. A narrow intervalle of low land lies along the course of the river, bounded by steep banks from 150 to 250 feet high, where a barren region commences, rising toward the w., and broken by numerous sand hills and ridges. The banks which form the declivities of this tract are separated into several distinct ridges by the deep gulleys worn in the clay by the streams which flow through them. The soil, except near the river, is a light sand, not adapted to cultivation without the aid of costly artificial means. A mineral spring was obtained on Ferry St. in 1827, while boring for water.³ Albany is situated near the head of navigation upon the Hudson, and at the eastern terminus of the Erie Canal.⁴ The several railroads before mentioned render it a place of considerable commercial importance.⁵ It is the largest barley market in the U. S., and immense

The Albany State Register, d., semi-w., and w., was started in 1856 by Fuller & Seward. S. H. Hammond and C. D. Brigham were subsequently editors, and in 1856 it was removed to N. Y.

The Albany Daily Times, issued Feb. 16, 1850, only reached its fifth number.

The New York Reformer, by John Abbott, Munsell printer, was continued about 40 months.

The State Military Gazette was published by C. G. Stone in 1858.

The Half-Dollar Monthly was commenced in 1850 by B. F. Romaine.

The Journal of the N. Y. State Agricultural Society, mo., was started in May, 1850, and is still continued.

The Daily Albany Eagle was started Sept. 1, 1851, by John Sharts, and continued 4 months.

The American Mechanic was started Jan. 4, 1851, by J. M. Patterson.

The Carson League, published by J. T. Hazen & T. L. Carson, was removed from Syracuse in March, 1851.

The Albany Mirror and Literary Cabinet was published in 1851 by J. H. Canoll and W. M. Colburn.

The Cithern, published by Warner & Rooker, was started Oct. 11, 1851, but soon discontinued.

The Northern Light, mo., conducted by Dix, Hawley, Dean, Beck, Olcott, and Delavan, and subsequently by A. B. Street, was started in 1851, and continued a little more than 3 years.

Deutsche Freie Blaetter, tri-w., was started in 1852, and is published by Henry Dender and Augustus Miggael.

The Family Intelligencer was commenced by Jasper Hazen, Sept. 11, 1852, and is now published by J. T. Hazen.

The New York Teacher, mo., the organ of the N. Y. State Teachers' Association, was started in 1852, and is now conducted by James Cruikshank.

The Evening Transcript, d. and w., was commenced Jan. 31, 1853, by Cuyler and Henley, and is now published by Seyder & Ellis.

The Country Gentleman was started by J. J. Thomas and L. and L. H. Tucker in 1853, and is now conducted by L. Tucker & Son.

The Prohibitionist, mo., ad. by A. McCoy, the organ of the N. Y. State Temperance Society, was started in 1854, and in 1857 united with the *Journal of the American Temperance Union*.

The Family Dental Journal, mo., was issued in 1854 by D. C. Estes.

The State Police Tribune was started July 21, 1855, by S. H. Parsons and R. M. Griffin.

The Albany Morning Times was started in 1856, and is published by Barnes & Godfrey.

The Albany Evening Union, edited by J. McFarlan, and sub-

sequently by John New, was commenced in 1856, and discontinued in 1857.

The Albany Volksblatt was published in 1856 by Geo. Herb. **The Albany Morning Express** was started in 1856 by Stone & Henley, and edited by J. C. Cuyler.

The Albanian, semi-mo., June, 1857,—Boys' Paper. **The Hour and the Man**, d. and w., Geo. W. Clark pub., John Thomas ed., commenced Aug. 1858, Transcript office.

American Magazine, mo., by J. S. & B. Wood, was published one and a half years. *The Cavel*, mo., was published by John Tanner two years. *The Albany Literary Gazette* was published by John B. Germain. *The Zodiac*, mo., was published about 1836 by Gen. Decoudrey Holstein.

The Rural Folio was started at Rensselaerville in Jan. 1828, by C. G. and A. Palmer, and continued 2 years. An Anti-Rent paper has been published at the same place.

The West Troy Advocate was commenced at West Troy in Oct. 1837, by Wm. Hollands, and is now published by his widow and son.

The Cohoes Advertiser was started at Cohoes in 1845 by Winants & Agnes. In 1849 its name was changed to

The Cohoes Cataract, and it is now published by J. H. Maeston.

¹ The name Albany was derived from the Scotch title of the Duke of York, to whom the province was granted.

² This charter conveyed municipal jurisdiction over the territory bounded e. by the low water mark on the Hudson; s. by a line drawn from the southernmost end of the pasture at the n. end of Martin Gerritsen's island, and running back due n. w. 10 miles into the woods to a certain creek called Sandil; n. by a line parallel to the former, about 1 mile distant; and w. by a straight line drawn from the western extremities of the n. and s. lines. This charter embraced the right of certain public buildings and fields, the ferry, all waste land within their boundaries, the right of fishing in the Hudson within the county, and of purchasing of the Indians 500 acres of meadow land at "Schaetogus" on the n., and 1000 acres at "Tionnonderog" (Fort Hunter) on the w., in the Mohawk country, on which to plant colonies as barriers against hostile incursions. The quit rent was fixed at one beaver skin, payable at Albany on the 25th of March annually forever.

³ This boring was commenced to obtain water for a brewery. At a depth of 480 feet, sparkling water, of a saline taste and impregnated with carburetted hydrogen gas, was obtained. The boring was continued to a depth of 617 feet without any change in the character of the products. A few rods distant a second well was bored, with similar results. One of the wells was ruined by placing a pump in the other.

⁴ See page —.

⁵ Besides the river, canal, and railroads, there are 5 plank roads and 2 turnpikes terminating in the city.

quantities of this grain are here manufactured into malt and beer.¹ Albany, Troy, and West Troy are the largest lumber markets in the State. "The Lumber District" in Albany is along the canal, above the little basin, where extensive wharves and slips have been built for transferring lumber from canal boats to vessels and barges upon the river.² The manufactures of the city are varied and extensive.³ Among those that may be considered specially important are the stove-foundries and breweries. The city is amply supplied with water from works erected at public expense.⁴ The water is obtained from several creeks w. and n. of the city. The main reservoir (Rensselaer Lake,) is 4 miles w. of the City Hall, and is elevated 262 feet above the river. It covers 30 acres, and its capacity is 200,000,000 gallons. A brick conduit conveys the water to Bleeker Reservoir, on Patroon St., whence it is distributed through the portion of the city w. of Pearl St. This reservoir has a capacity of 30,000,000 gallons. The lower portion of the city is supplied from Tivoli Reservoir, on Patroon Creek, covering 20 acres, and has a capacity of 30,000,000 gallons. These works are under a Board of Water Commissioners, and the rents are charged to property owners and collected with the taxes.⁵

The State buildings at Albany, including the Capitol, State Hall, State Library, Geological and Agricultural Hall, Normal School, and State Arsenal and Armory, have already been described under the head of State Institutions.⁶ Besides these, there are several buildings and institutions worthy of a particular notice.

The *City Hall* is situated on Eagle St., fronting the E. end of Washington Avenue. It is an elegant structure, faced with Sing-Sing marble, and surmounted by a gilded dome,—the only one in the U. S. It was built at the joint expense of the city and county, and it contains most of the city and county offices.⁷ The jail is in Maiden Lane, near the City Hall.

The *Albany Exchange*, a massive granite building, is situated on Broadway, at the foot of State St. It was erected in 1839 by a joint-stock company, and contains the post-office, the general offices of the New York Central R. R. Co., and a variety of other offices.

The *Public Schools*⁸ have hardly kept pace with the progress of other institutions of the city, or with the public schools of other cities in the State. Until within the last few years, the whole public school interest was under the charge of a Board of Commissioners, appointed by the Regents of the University. The people, having no power over school matters, took but little interest in them, and the schools languished in every department. There was a great deficiency in school-houses, in the number of teachers employed, and in the general supervision of schools. This system has been changed of late, and a series of improvements have commenced which bid fair to soon place the schools of Albany on a par with those of her sister cities. In 1857, there were 13 school districts, employing 53 teachers, 16 males and 37 females. The number of children between 4 and 21 was 18,359, of which 6729, or 37 per cent., were in attendance some portion of the year.⁹ There are 70 private schools, reporting 3827 pupils.

The *Albany Academy*, (for boys,) fronting on Eagle St., opposite the State Hall, is a flourishing institution. It was chartered by the regents, March 4, 1813: the corner-stone of the present building was laid July 29, 1815, and it was opened for students Sept. 1, 1817. Dr. T. Romeyn Beck was its principal for 31 years; and under him the school obtained a deservedly high reputation. The building is an imposing structure, of red Nyack freestone, in the Italian style, fronting on a park of 3 acres.¹⁰

¹ In 1856, the receipts of barley at tide water exceeded 2,000,000 bushels.

² In 1857, there was received at Albany by canal, principally from the n., 222,000,000 feet of boards and scantling, 10,210,000 feet of timber, 53,400 M. of shingles, and 77,800 tons of staves.

³ The directory of 1858 gives the following aggregate of the manufacturing establishments in the city: 4 ag. implement facs.; 8 boiler and steam-engine shops; 9 bookbinderies; 10 breweries; 9 brick yards; 17 carriage and car fac.; 1 car wheel fac.; 5 distilleries; 4 drain tile fac.; 9 flour mills; 13 harness shops; 3 hat fac.; 13 iron foundries; 11 machine shops; 14 mail houses; 15 printing offices; 3 safe facs.; 5 sawing and planing mills; 2 type and stereotype foundries; and 13 stove manufac. There are about 50 commission merchants; 60 dealers in flour and grain; and 50 lumber dealers.

⁴ In 1796 the corporation was empowered to construct water works, but nothing was done. Afterward the enterprise was completed by a private company, who obtained their supply of water from Malselandt Kil, n. of the city. This supply not being sufficient, an act was passed in 1850 for the construction of public water works. The vote in the city stood, "For water," 4405; "No water," 7; "Brandy and water, strong," 1. The works of the old company were purchased and the present works built.

⁵ The original cost of construction was \$850,000; and the total cost up to Jan. 1, 1858, \$1,018,495. The main pipes measure

42 7/8-100 miles. The receipts for the year ending Oct. 31, 1857, were \$75,550. The revenues are sufficient to pay the interest on the debt for construction and the cost of maintenance, and leave a considerable balance to form a sinking fund for the final liquidation of the debt.

⁶ See page —.

⁷ This building is 109 feet front by 80 feet deep. In front it has a recessed porch, supported by 6 Ionic columns. In the center of the hall, in the second story, is a statue of Hamilton, by Hewes; and in the common council room are portraits of the first 13 Governors of the State.

⁸ A Lancasterian School Society was incorp. May 26, 1812, a school having been maintained for some time previous. The members of the common council were ex-officio members of the society, and those giving \$25 were entitled to a scholarship. In 1817, the society erected the building now occupied by the Albany Medical College, for the use of the school, which continued to be occupied until 1834, when the school was succeeded by the public school system of the State. Wm. Twedd Dale was principal of the school for 23 years.

⁹ The total expenses of the schools for 1857 were \$44,310 10. Total receipts, the same. No. of volumes in Dist. Libraries, 9285.

¹⁰ The late Henry W. Delavan bequeathed \$2000 to this institution, the income of which is devoted to the education of indigent youth.

The *Albany Female Academy*, situated on N. Pearl St., was incorp. in 1821, and the present building was completed May 12, 1834. The institution has uniformly borne a high reputation. The building is in Grecian style, with an Ionic portico. The Albany Library is kept in this building.¹

The *Albany Female Seminary*, situated on Division St., was incorp. April 9, 1828. It is under the charge of the Meth. denomination.

The *Albany Institute*, a society for the promotion of science and art, was incorp. Feb. 27, 1829, by the union of Society of Arts and the Albany Lyceum of Natural History.² It has three departments, devoted to—1st, Physical Sciences and the Arts; 2d, Natural History; and 3d, History and Gen. Literature. During the winter months it holds semi-monthly meetings. It has a valuable library, and an extensive cabinet of minerals and of specimens of natural history.³

The *Young Men's Association* was formed in 1833, and incorp. March 12, 1835. It supports a lecture course during the winter, and has a library of above 7000 vols., and a reading room supplied with 70 papers and 15 other periodicals. It is the oldest institution of the kind in the U. S., and has about 1000 members.

A *Catholic Young Men's Association* has sustained a course of lectures for several winters.

The *Albany Industrial School*, erected by the city in 1857, for vagrant children, is not completed. It is located in the rear of the Penitentiary, and, with those buildings, presents a fine architectural appearance.

The *Dudley Observatory*, on an eminence in the n. border of the city, was founded through the munificence of Mrs. Blandina Dudley and other liberal patrons of science. It was incorp. April 2, 1852, and its management intrusted to 15 trustees. The building is admirably arranged, and furnished with instruments, several of which are the largest and most delicate ever constructed. It was dedicated Aug. 28, 1856, and placed under the charge of a scientific council, to be employed by the coast survey in the determination of longitudes, and other purposes connected with that great national enterprise. It has a special library of about 1000 volumes.⁴

The *Albany Medical College*, located upon Eagle St., was incorp. Feb. 16, 1839. Two courses of lectures are held annually; and the institution has secured a deservedly high reputation in the medical profession. It has an extensive medical museum, and a choice library of 5000 vols.

The *Law School of the University of Albany* was instituted under the university charter of April 17, 1851. Two courses of lectures are annually held in rooms attached to the medical college building. This school has obtained an excellent reputation.

The *Albany Almshouse*, consisting of a poor house,⁵ insane asylum,⁶ and a fever hospital,⁷ is located upon a farm of 116 acres, 1½ miles s. w. of the city, and is entirely owned and managed by the city authorities. These departments are supplied with commodious and appropriate buildings. The Industrial School building is located upon the same farm.

The *Albany City Hospital*, located on Eagle St., was incorp. April 11, 1849. It was founded by private subscription, and the present building⁸ was opened for the reception of patients Aug. 8, 1854.⁹

The *Albany Orphan Asylum*, on Washington St., at the junction of the Western Turnpike, was incorp. March 30, 1831, at which time it had been in practical operation for nearly two years. It was commenced as a private enterprise, and the present building was erected by subscription and the product of several ladies' fairs. It is now supported by funds received from the State, the interest on its endowment, and the proceeds of an annual fair.

The *St. Vincent Orphan Asylum* was incorp. in 1849. The female department, situated on N. Pearl St., is under the charge of the Sisters of Mercy. The male department, 2 mi. w. of the capitol, is under the care of the Christian Brothers.

The first church (Ref. Prot. D.) was formed in 1640. Rev. Johannes Megapolenses was settled as pastor in 1642, under the patronage of the patroon. A regularly organized Lutheran church existed in 1680, but the date of its formation is unknown. It was reorganized Aug. 26, 1784.

¹ This library was incorp. Feb. 14, 1792. It contains about 5000 vols.

² Prof. Henry, of the Smithsonian Institution, read his first scientific papers before this association, and performed his first original experiments while a pupil at the Albany Academy. The Society for the Promotion of Agriculture, Arts, and Manufactures, was established in 1791, incor. 1793, and expired in 1804, by limitation of charter. Revived as the Society for the Promotion of Useful Arts: incor. 1804. These were State Institutions, and became local on the establishment of the Board of Agriculture, in 1819, and continued a city institution until its union with the Albany Lyceum of Natural History in 1829.

³ The library and cabinet are kept in the Albany Acad. building.

⁴ The building is in the form of a cross, 86 by 70 feet. Among the instruments is a calculating engine, made by C. Schantz, a

Swede, and purchased by John B. Rathbone. It is the only one in existence. A large class of calculations is performed by its use, and the results are impressed upon leaden plates, ready to electrotype and print. This noble institution is involved in an unhappy controversy between the trustees and council, which has embarrassed its plans, and prevented it from being brought into full operation.

⁵ The city contracts to support county paupers at \$1.25 per week each. A school connected with this institution is kept throughout the year.

⁶ Built at an expense of \$12,000, and with accommodations for 80 inmates.

⁷ Cost \$5000.

⁸ This building was erected by the city for a jail.

⁹ The whole cost of the institution has been about \$60,000.

The first Prot. E. Church (St. Peter's) was erected in 1715, on a site granted by the governor of the colony. It stood in the center of State St., opposite Barrack (now Chapel) St., and was demolished in 1802, and the present edifice built by Philip Hooker. The communion plate of this church was presented to the Onondagas by Queen Anne. The most imposing and costly church edifices in the city are the Catholic Cathedral of the Immaculate Conception, corner of Eagle and Lydius Sts., and St. Joseph's (R. C.) Church. There are now (1858) 48 churches in the city.¹

At an early period Albany acquired much importance from being the principal center of the Indian trade, and afterward the place where the great military expeditions against Canada were fitted out.² Its importance as a military station led to its being fortified at an early period; and, although it was often threatened with invasion, no hostile army ever reached it.³ It became the permanent seat of the State government in 1797. For 30 years after the Revolution, Albany was the seat of the entire trade of the western part of the State, the produce being brought in by sleighs in winter. The first great impulse to its commercial prosperity was given by the successful trip of the Clermont,⁴ the first steamboat of Fulton, in 1807, and the improvements in steam navigation which immediately followed. The steamboats now upon the Hudson River are among the very largest that navigate any inland waters.⁵ The completion of the Erie Canal, in 1825, and of the various lines of railroads since that time, have each essentially added to the growth and prosperity of the city.⁶ Business is principally centered upon Broadway, State, S. Pearl, and Washington Sts. The Dutch language and customs, which continued until long after the English conquest, have almost entirely disappeared. Very few families retain any characteristics of their origin, although many occupy the same lots that were conveyed to their ancestors two centuries ago. The peculiar Dutch architecture has now nearly disappeared, and within the limits of the city there are not more than a dozen houses with the sharp gables fronting even with the street, the tile roof, and antiquated appearance, so common but a few years ago. The city has been visited by several disastrous fires,⁷ and the lower part has often been inundated by water.⁸

BERN⁹—was formed from Rensselaerville, March 17, 1795. Knox was taken off in 1822. It lies near the center of the western border of the county. The Helderbergh Mts., 1200 feet above tide, form the eastern border. Grippy and Irish Hills, two broad mountains, with steep declivities and rolling summits, 900 to 1000 feet above tide, occupy the center. The s. and w. parts are hilly, and the n. rolling. The principal streams are the Foxen Kil and the Switz Kil. These streams flow n. w. through narrow valleys bordered by steep hill sides. Werners and Thompsons Lakes, in the n. e., are small sheets of water. In the lime rock, in the n. e. part, are numerous small caves and sink holes.¹⁰ There are several sulphur springs in town. The soil is a sandy and gravelly loam interspersed with clay. **Bernville** (Bern p. o.) contains 50 houses;¹¹ **E. Bern**¹² (p. v.) 15; **S. Bern** (p. v.) 15; and **Reidsville** (p. v.) 12. **Peoria** is a small village on the line of Knox. Settlement was begun about 1750 by a few German families. In 1777, a company of 85 militia were raised in this town, of which the captain and 63 men joined the British, and the remainder the Americans at Saratoga. Bernville, then called "*Beaver Dam*," was fortified during the war, and sentinels were posted at night to prevent surprise by the Indians.¹³ The place at one

¹ Of these there are 8 Meth. E., 7 Bap., 5 Prot. E., 5 Presb., 5 R. C., 3 Ref. Prot. D., 3 Jewish Syn., 3 Evng. Luth., 2 Wes. Meth., Cong., Evng. Ger. Assoc., Evng. Prot. Ger., Assoc. Presb., Friends, Unit., and Univ.

² On the 19th of June, 1754, the first Congress of the colonies assembled at Albany, to devise a general plan of union and measures of defence, in view of the French and Indian hostilities, then just commencing. This Congress consisted of delegates from N. H., Mass., R. I., Conn., N. Y., Penn., and Md. The "plan of union" drawn up by Dr. Franklin was adopted, but it was afterward rejected by the British government as being too democratic, and by the colonies as giving too much power to the king.

³ The first fort was built by the Dutch, in 1614, on the island beyond the city, which is hence called Castle Island. In 1617 a fort was built at the mouth of the Normans Kil; and in 1628 another was erected near the present steamboat landing, in the s. part of the city, and named Fort Orange, in honor of the reigning prince of Holland. A quadrangular fort, called "Fort Frederick," was afterward built on the high ground, now State St., between St. Peter's Church and the Geological Hall, with lines of palisades extending down Steuben and Hudson Sts. to the river. These fortifications were demolished soon after the Revolution, and the only evidence of their existence now remaining is the curved outcrops which they have given to the streets in the older parts of the city.

⁴ The Clermont was 100 feet long, 12 feet wide, and 7 feet deep. The first voyage to Albany was accomplished in 28 hours and 45 minutes. This boat was afterwards enlarged, and her name changed to the "North River."

⁵ As a contrast to the "Clermont," it may be stated that the "Isaac Newton," of the People's Line of Steamers, is 404 feet long, 75 wide, and 47 deep, and has sleeping accommodations for more than 700 passengers.

⁶ The sloop "Experiment," of 80 tons, Capt. Stewart Dean, sailed in the fall of 1785 from Albany to China. This was the second vessel from the U. S. to Canton. She was absent 18 months, and returned with a cargo of teas, nankeens, damask silks, and 13 sets of China ware, to order, for family gifts.

⁷ A fire in 1797 burned 96 dwellings, and rendered 150 families homeless. Aug. 17, 1848, a most destructive fire broke out, which destroyed a considerable portion of the commercial part of the city bordering upon the river, and also many boats in the basin.

⁸ Upon the breaking up of the ice in the river, Feb. 9, 1857, the water completely submerged the lower part of the city, and came up so high that it covered Broadway in front of the Exchange. The damage to property was immense.

⁹ Named from the native place of Jacob Weidman, first settler and mill owner.

¹⁰ In one of these caves, during the war, a notorious tory and spy named Salisbury was concealed for some time, but was at last arrested. The place is still known as "Tory's Hole."—*Simms's Schoharie*, p. 525.

¹¹ In 1825 an extensive wax factory was erected here; but it was soon after removed to Cohoes.

¹² Formerly called "Philadelphia," and still locally known as "Philla."

¹³ The family of Johannes Deitz, consisting of 8 persons, were murdered by the Indians.—*Simms's Schoharie*, p. 499.

time became a rendezvous for Tories.¹ The Ref. Prot. D. Church of Beaver Dam was formed in Jan. 1763. The first settled pastor was Johannes Schuyler, in 1767.²

BETHLEHEM—was formed from Watervliet, March 12, 1793. New Scotland was taken off in 1832. It lies on the bank of the Hudson, s. of the center of the county, and includes the islands w. of the main channel of the river. Its surface consists of a rolling upland, ending upon the river in steep bluffs 100 to 150 feet high. Near the center of the town are a few sand ridges and rocky knolls. The principal streams are Coeymans Creek, Vlamans Kil and Normans Kil. The declivities of the upland are broken by numerous deep gulleys worn by streams flowing into the Hudson. There are two small caves, several sulphur springs, and quarries of coarse brown sandstone, in town. The soil is sandy, interspersed with clay.³ **Groesbeck** is a suburb of Albany. Pop. 1232. **Kenwood**, near the mouth of the Normans Kil, is a small village, containing an extensive mill and a manufactory of silver and Britannia ware. **Upper Hollow, Adamsville, Normanskil**, (p.o.), **Bethlehem Center**, (p.o.), **Beckers Corners, Cedar Hill**, (p.o.), and **S. Bethlehem** are hamlets. On the brow of the hills overlooking the Hudson below Albany are several fine villas and country residences. The first settlement was made upon Castle Island,⁴ in 1614, and a fort was erected the same year. As this island was liable to overflow, in 1617 another fort was built at the mouth of the Normans Kil.⁵ Agricultural improvements commenced in 1630, by tenants under Van Rensselaer. Mills were built on the Normans Kil and Beaver Kil at a very early period. A part of the house known as "Whitehall," near the Delaware Road, was built by Gen. Bradstreet, and during the Revolution is said to have been a secret rendezvous for Tories. Cherry Hill, just out of Albany, on the river road, was the residence of Gen. Solomon Van Rensselaer. A Ref. Prot. D. church was formed in colonial times, and in 1794 S. Van Rensselaer gave the society 100 acres of land, known as the parsonage farm.⁶

COEYMANS—(Quee'mans) was formed from Watervliet, March 18, 1791. A part of Westerlo was taken off in 1815. It was named from the patentee. It is the s. e. corner town in the county, and includes the adjacent islands in the Hudson. Its surface consists of an upland, 200 to 400 feet above the river, broken by ridges and hills rising 100 to 400 feet higher. The principal streams are the Coeymans⁷ and Haanakrois Creeks. In the former, at Coeymans village, are two falls at which the stream descends, in the aggregate, 75 feet. Lawsons Lake is a small sheet of water in the n. w. part of the town. A stratum of marble or limestone extends through the town 3 or 4 mi. from the river. In the n. e. part are two caves, the largest extending 40 rods into a perpendicular ledge. Feuri-Spruyt Kil, a small stream in the n. part, disappears, and flows for half a mi. in a subterranean passage, coming to the surface again in New Scotland. At the place where the stream disappears it falls perpendicularly into a deep cavity, forming a considerable water power. Another brook, in the w. part, flows in a similar manner under ground for 40 or 50 rods. There are several mineral springs in town, impregnated with sulphate of magnesia. In the e. the soil is sand mixed with clay, and in the w. it is gravel and clay. The fossil remains of an elephant were found on the farm of Mr. Shears, 4 mi. w. of the river. Large quantities of hay are sent annually from this town to the New York market. **Coeymans Landing**, (Coeymans p.o.) on the Hudson, is a village of considerable trade. Pop. 650. **Coeymans Hollow**, (p.o.), **Stephensville**, and **Indian Fields** (p.o.) are small villages in the valley of the Haanakrois. **Keefers Corners** is a p.o. Barent Peterse Coeymans, an emigrant from Utrecht in 1636, settled under the patroon as miller, and leased the mills upon the Patroon Creek and Normans Kil. In 1673 he bought the territory included in this town of the Catskill Indians, and a patent was granted him April 17, 1673, by Gov. Lovelace. Van Rensselaer had previously bought the same lands of the Mohawks; and a conflict of titles ensued. The matter was finally settled in 1706, by Coeymans agreeing to receive title under the patroon and pay a small annual quit rent.⁸ Settlement commenced early in the last century.⁹ The first mills were erected by the patentee at Coeymans

¹ Cornelius Schermerborn kept a Tory rendezvous, and at one time an absconding paymaster from Burgoyne's army is said to have been murdered at his house.

² A parsonage farm was given to this church by S. Van Rensselaer, midway between Bernville and Peoria, and a church was erected upon it. In 1835 the society was divided, and a new edifice was erected at each of the villages, the farm being held in common by both societies. The census reports 13 churches in town; 4 M. E., 3 Christian, 2 Ref. Prot. D., and one, each, Bap., Evang., Luth., and Friends.

³ The proximity of this town to Albany has afforded an excellent market for produce, and much of the land has been devoted to the production of milk, butter, and culinary vegetables.

⁴ In 1622 Martinus Van Bergen had a lease of this

island, and on some old maps, it is called Martin Gerritssen's Island.

⁵ A map dated 1620 gives the name of "Godyns Kil" to this stream. The Indian name was Ta-wal-sou-tis. The present name is derived from Albert Andriessen Bradt de Noorman, the lessee of the falls at an early period, and one of the first settlers.

⁶ The census reports 5 churches; 2 R. P. D., 2 M. E., 1 Presb.

⁷ The Indian name of this creek is said to have been O-nis-ke-thau, and of the flats at Coeymans Hollow Ach-que-tuck.

⁸ This arrangement was confirmed by patent from Quisen Anne, Aug. 6, 1714.

⁹ Andreas and Leudert Whitbeck were early settlers near Ach-que-tuck; Daniel Traver and Balthus Keefers near Keefers Corners; and John and Thos. Witbeck near Indian Fields.

Falls. The first church (Ref. Prot. D.) was built in 1797, 1 mi. west of Coeymans Landing. This church was organized March 5, 1793, Rev. Jacob Sickles first pastor.¹

GUILDERLAND—was formed from Watervliet, Feb. 26, 1803. It lies near the center of the northern border of the county. Its surface is greatly diversified. In the w. rises the precipitous wall of the Helderberghs to a height of 800 feet above the general level of the valleys. The central part is undulating, and the eastern is occupied by numerous sand ridges. The Normans Kil with its branches, the Bozen Kil,² Black Creek, Wildehouse Kil, and Hunger Kil, are the principal streams. The lower course of the Normans Kil in this town is through a narrow ravine, with steep clayey banks. The soil is light and sandy in the e., and gravelly loam mixed with clay in the w. A mineral spring is found upon the farm of Wm. McGowan. **Hamiltonville**, (Guilderland p.o.,) formerly known as the "Glass House,"³ is situated on the old turnpike, 8 mi. w. of Albany. **Guilderland Center**, (p.v.,) locally known as "Bangall," contains 18 houses. **Dunnsville**,⁴ (p.o.,) **Knowersville**,⁵ (p.o.,) and **Frenchs Mills**,⁶ on the Normans Kil, are small villages. During the Revolution, a portion of the inhabitants sided with the British; and the feuds which grew up between families and neighborhoods have not yet entirely subsided.⁷ The Ev. Luth. church (St. John's) was organized Oct. 13, 1787. Heinrich Moeller was the first pastor.⁸

KNOX—named from John Knox, the Reformer—was formed from Bern, Feb. 28, 1822. It is the n. w. corner town of the county. Its surface consists of a high plateau region broken by a few small hills. Its eastern part constitutes a portion of the Helderbergh region; but the declivities are so gradual that they only serve to give to the town a moderate inclination towards the n. and w. The Bozen Kil, forming a part of the e. boundary, with its tributaries, and the Beaver Dam Creek, are the principal streams. There are two caves, supposed to be of considerable extent, about 1½ mi. n. of Knoxville. The soil is principally gravel and clay, with hard pan underneath. **Knoxville**⁹ (Knox p.o.) contains 23 houses. **W. Township**, (p.o.,) **E. Township**, and **Peoria**, on the line of Bern, are small villages. This town was settled by Germans before the Revolution. During the war the people became divided in politics, and after the defeat of Burgoyne many of the tory families went to Canada.¹⁰ Saml. Abbot and Andrew Brown, from Conn., settled in town in 1789; and soon after 20 to 30 families came in from the same State. The first church was a Ref. Prot. D.¹¹

NEW SCOTLAND—was formed from Bethlehem, April 25, 1832. It is the central town of the county. The eastern and central parts are high and rolling, with occasional isolated hills and ridges; and the western border is occupied by the Helderbergh Mountains. The principal streams are Normans Kil, Vlamans Creek, and Coeymans Creek, (or Oniskethau Kil,) and several of their tributaries. Upon the side of Bennett Hill, in the s. w. part, is a strong sulphur spring. Near Clarksville are two caves, extending respectively ¼ and ½ mi. under ground. Streams flow through each of them. The outlet of Lawsons Lake, in the s. w. part, about 1 mi. from the lake, falls into a deep cavity and flows ½ mi. in a subterranean passage, and in its course it receives a considerable tributary.¹² At the northern foot of Copeland Hill, near the same locality, are remarkable sink holes, 5 to 8 feet in diameter, and extending down through the soil and lime rock to a depth of 10 to 20 feet. A subterranean stream connects the bottoms of these cavities.¹³ The soil is a gravelly loam mixed with clay. **Clarksville** (p.v.) is finely situated at the foot of the Helderberghs, on Coeymans Creek, and contains 50 houses. **New Salem** (p.v.) contains 27 houses; and **New Scotland** (p.v.) 15. **Unionville**, (Union Church p.o.,) **Feuribush**,

Since the Revolution, a small number of Indians belonging to the Oneida tribe lived in this town. They removed, but returned for a short time in 1812. An acct. of £10 was audited in 1792, for building stocks and a whipping post.

¹ The census reports 8 churches in tow; 3 M. E., R. P. D., R. C., and Union.

² From "Boos," angry, because of its rapid descent and severe frosts.

³ A glass factory was erected here in 1792; and in 1793 the State loaned the proprietors £2000 for 8 years,—3 years without interest and 5 at 5 per cent. In 1798 the project was conceived of establishing here a manufacturing town, and the ground was laid out into streets and lots, under the name of Hamilton. To encourage the project, the company and workmen were exempted from taxation for 5 years. The works were discontinued in 1815 for want of fuel.—*Munsell's Annals*, vol. iii. p. 157.

⁴ Named from Christopher Dunn, original owner; locally known as "Hardscrabble."

⁵ An inn was kept here during the Revolution by Jacob Aker. It was the seat of a factory in 1800.

⁶ Named from Abel French, who built a factory here in 1800.

⁷ A clothing works was erected here in 1795, by Peter K. Broock. The news of Burgoyne's surrender was celebrated by the whigs by burning a hollow chestnut tree on a bill. A barrel of tar had previously been tured down the hollow trunk and branches.

⁸ A R. P. D. church was formed Dec. 14, 1793. The census reports, besides those also mentioned, 3 churches; 2 Presb., and 1 M. E.

⁹ Knoxville was formerly known as "Union Street," and is still locally called "The Street."

¹⁰ Capt. Jacob Van Aernden was an active leader of the whigs of this section during the war.

¹¹ The census reports 6 churches; 3 M. E., R. P. D., Luth., and Rep.

¹² This cavity has been explored, and in it are found beautiful stalactites, and thousands of bats clinging to the roof.

¹³ This passage has been explored, and is found to contain several rooms of considerable size. Some years ago a notorious thief used this cavity as a depository for stolen goods.

and **Oniskethau** (locally known as "Tarrytown") are hamlets. Teunis Slingerland, from Holland, was the first settler on the Oniskethau flats. He purchased 9874 acres, and built a dwelling near the center of the tract, and erected the first mills.¹ The first church (Ref. Prot. D.) was organized at New Salem about 1786.²

RENSELAERVILLE—named from the Van Rensselaer family—was formed from Waterliet, March 8, 1790. Bern was taken off in 1795, and a part of Westerlo in 1815. It is the s. w. corner town of the county. Its surface is mostly upland, broken by parallel ridges extending n. and s. and rising 400 to 600 feet above the valleys. The principal streams are Catskill Creek and its tributaries Scrub, Fox, Ten Mile, and Eight Mile Creeks, and Willow Brook. The valleys of these streams are narrow, and are bordered by steep hill sides, and the streams are rapid, and subject to sudden and destructive freshets. Upon Ten Mile Creek, near Rensselaerville, is a fall of 100 feet; and upon Willow Brook is another of 40 feet. Bog iron has been found in the s. part. There is a sulphur spring $2\frac{1}{2}$ miles n. e. of Preston Hollow. The soil is clay and gravel, underlaid by hard pan. **Rensselaerville**³ (p. v.) contains an academy.⁴ Pop. 661. **Williamsburgh**, on the w. border of the town, contains 18 houses; **Preston Hollow**⁵ (p. v.) 40; and **Medusa**⁶ (p. v.) 30; **Potters Hollow**⁷ and **Cooksburg**⁸ are post-offices.⁹ The town was mostly settled by emigrants from New England soon after the Revolution. Michael Brandt, a German from Schoharie, lived in town during the war.¹⁰ Daniel Shay, the leader of the revolt known as Shay's Rebellion, moved to this town in 1795. Maj. John Edmonds, a Revolutionary officer, was also a settler in this town. The first church (Presb.) was formed in Nov. 1793, and the edifice erected in 1796.¹¹ Rev. Samuel Fuller was the first pastor.

WATERLIET—was formed March 7, 1788, and included the w. district of the manor of Rensselaerwyck.¹² Rensselaerville was taken off in 1790, Coeymans in 1791, Bethlehem in 1792, Guiderland in 1803, and Niskayuna in 1809.¹³ It lies at the junction of the Hudson and Mohawk, in the n. e. corner of the county. Its surface is mostly an upland, 200 to 300 feet above the river. The declivities of this upland are broken by numerous gulleys worn by the small streams. A fine intervale, nearly half a mile in width, extends along the Hudson. At Cohoes, on the Mohawk, the river flows over a rocky declivity 78 feet in height, of which 40 feet is perpendicular.¹⁴ The banks, both above and below the falls, are high and precipitous. The Erie Canal rises, by a series of 18 locks, from the Hudson, through the village of Cohoes, to the most northerly angle of the town 3 mi. above, and 188 feet above tide. At this point it crosses the river into Saratoga co., in a stone aqueduct, 1188 feet long, 26 feet high, and resting upon 26 piers. The soil is a deep, rich alluvial upon the river intervale, and a light, sandy loam upon the upland. Sulphur and chalybeate springs, and bog iron ore, are found in town. The quarries of graywacke furnish an excellent flagging and building stone. This is the most populous town in the State. **West Troy**, (p. v.) incorp. April 30, 1836, is a commercial and manufacturing village opposite the city of Troy. Pop. 8306. It is especially noted for the extent of its lumber trade, and for being the seat¹⁵

long time eluded the vigilance of those who were searching for him. At length he was tracked to his hiding place, and the existence of the cavity was made known.

¹ Among the other first settlers were Daniel Pangborn and Wm. Van Walter, at Stoney Hill; Ebenezer Wands, John Watt, Geo. Swan, and Wm. Kirkland, Scotch emigrants, near New Scotland; and Geo. Reed, John Patterson, Saml. Ramsey and sons, James McMullin, David Allen, Wm. McCulloch, and ——— Brant in other parts of the town.

² There are in town 8 churches; 4 Ref. Prot. D., 3 M. E., Presb. The Friends organized a meeting in 1812.

³ Samuel Jenkins, the first settler, located here February 22, 1788.

⁴ Opened Jan. 17, 1847.

⁵ Named from the family of first settlers, who came in soon after the Revolution.

⁶ Formerly called "Halls Mills," or "Halls Hollow."

⁷ Named from Saml. Potter, who, with his sons and brothers, were first settlers.

⁸ Named from Thomas B. Cook, who purchased land here in anticipation of business from the Catskill and Canajoharie R. R., which was completed to this place from the Hudson. The road was run two years, when the rails were taken up.

⁹ Upon the farm of Ezra Lester, in a place known as Willow Glen, formerly stood a village, known as "Peacham Hollow," consisting of 2 stores, 2 smith's shops, and 14 houses. For a time it was a rival of Rensselaerville; but now not a vestige of it remains.

¹⁰ At the time of the Indian incursion into Bern, Mr. B. had gone to Catskill Landing, leaving his family alone. On their return, the savages passed close by with their scalps, prisoners, and plunder, but offered no molestation.

Truman Beman was the first pastor. A Bap. church was formed at Preston Hollow in 1800; a Friends meeting at Potters Hollow in 1808; and Trinity Church (P. E.) was organized in 1816. There are besides, in town, 2 M. E. churches.

¹² The manor was divided into the East and West Districts, March 5, 1779, the river being the separating bounds. This district, as defined by act of March 24, 1772, embraced all that part of the manor north of an e. and w. line from Beerin Island north to Cumberland co., except the city of Albany.

¹³ It includes the former village of "Gibbonsville," (incorp. April 23, 1823,) and places known as "Washington" and "Port Schuyler."

¹⁴ The cascade is in full view from the r. r. bridge, a few rods below Cohoes. The Champlain Canal crosses the Mohawk a short distance below, in a pond formed by a dam 1660 feet long and 7 feet high, and unites with the Erie Canal 2 mi. s. of this point.

¹⁵ The arsenal grounds occupy about 100 acres, which are crossed by the Troy and Albany turnpike and Erie Canal, the latter furnishing water power for the machinery of the arsenal. The grounds are enclosed by a high wall, excepting the part between the river and the turnpike. This is the principal government manufactory of gun carriages, machines, equipments, ammunition, and military supplies for the troops and forts of the United States. The building of this establishment was begun in 1814, under Col. Geo. Bomford, of the Ordnance department, and it was for many years under the charge of Maj. Jas. Dallis. The Watervliet Arsenal now consists of more than thirty buildings, of brick and stone, mostly large shops and storehouses,—the former of which will accommodate, in case of need, more than 500 workmen. The stores deposited here exceed \$1,500,000 in value. A company of soldiers of the

of an extensive U. S. arsenal. It has a bank, printing office, 8 churches,¹ and extensive manufactures of woolen goods, bells, butts and hinges, castings, carriages, and malt. The annual aggregate value of manufactured products is about \$1,000,000.² **Green Island** (p.v.) was incorp. Oct. 14, 1853. Pop. about 2000. It contains 2 churches,³ a car factory, brass, malleable iron, and 2 iron foundries, and r. r. machine shops. It is also the seat of considerable lumber trade.⁴ **Cohoos**, (p. v.,) incorp. under general act, is a manufacturing village upon the Mohawk.⁵ Pop. 6106. A dam is here erected across the Mohawk,⁶ and the water is conducted by canals to convenient places for factories. The whole fall is 103 feet, and the water is used 5 times from canals of different levels. The annual aggregate of manufactured products is nearly \$2,000,000.⁷ The village contains a savings bank, 6 churches,⁸ and a large number of stores, shops, &c. **Boght**⁹ (p.o.) contains 15 houses. The Ref. Prot. D. church of this place was organized April 14, 1784, by Rev. E. Westerlo. **Lishas Kil, Newtonville**,¹⁰ and **Ireland Corners**¹¹ are hamlets and p. offices. **Loudonville** is a hamlet, 2½ miles from Albany. **Tivoli Hollow**, on Patroon Creek, adjoining Albany, has extensive manufactures of ag. implements, bolts, and hollowware. **North Albany** lies on the river, north of the city, and contains 40 houses. It includes a portion of the "Lumber District" and several manufactories. **Spencerville**, or **West Albany**, is the name applied to the recent establishments of the N. Y. C. R. R., 3¼ mi. n. w. of the city, including the cattle and wood yards and car and engine houses of the company. The **Shaker Settlement**,¹² in the w. part of the town, consists of about 300 persons, living in 4 distinct families, in a manner peculiar to that people. **Town House Corners**, a populous neighborhood near the center of the town, is the place where town business has usually been transacted. The Albany Rural Cemetery, located in this town,¹³ was incorp. April 20, 1841, and the site selected April 20, 1844. The premises were dedicated and consecrated Oct. 7 of the same year. Haver (Dutch for "Oat") and Van Schaicks Islands, in the Hudson above Green Island, are separated from each other and the main land by the "Sprouts" of the Mohawk. Upon the approach of Burgoyne, in the summer of 1777, Gen. Schuyler retired to these islands and threw up fortifications to check the advance of the enemy expected from both the n. and w. Upon the retreat of St. Ledger from the siege of Fort Stanwix, no farther trouble was apprehended from the direction of the Mohawk Valley; and Gen. Gates, upon assuming the command of the northern army, advanced into Saratoga County. The traces of the fortifications are still visible.

WESTERLO¹⁴—was formed from Coeymans and Rensselaerville, March 16, 1815. It lies upon the center of the southern border of the county. Its surface is broken and hilly, with a general southerly inclination. The highest point in the northerly part of the town is 800 feet above tide. The hills are very steep and irregular, and the valleys are mere narrow ravines. The streams are Haanakrois, Basie, Wolf, Fly, and Eight Mile Creeks and their branches. These are all rapid streams, and are liable to severe freshets. The soil is a sandy and gravelly loam, inter-

Ordnance department forms the guard of the arsenal, and the men are also employed in the shops. Most of the employees are citizen mechanics. A large number of trophy caanon are deposited upon the premises.

¹ Bap. org. 1827; Ref. Prot. D., 1844; P. E., (Tricity,) 1835; 2 R. C. (St. Patrick's, 1839, and St. Bridget's, 1851,) and 2 M. E.

² The village is built on land formerly held by the Bleecker family. It was purchased by a company of Troy capitalists and laid out as a village, and has mostly grown up since the completion of the canals. ³ Presb. and M. E.

⁴ It is situated upon an island in the Hudson directly opposite the city of Troy, of which it forms a suburb.

⁵ The Cohoos Co. was incorp. March 28, 1826, with a capital of \$250,000, afterward increased to \$500,000. This co. built the dam, and constructed the canals, for the purpose of leasing the water power.

⁶ This dam is half a mile long, and the canal 2 miles long. ⁷ The following manufactories were reported here in the census of 1855:

6 knitting mills, value of product.....	\$647,100
2 cotton factories.....	818,000
1 ax and edge tool factory.....	210,000
2 bedstead factories.....	45,000
1 veneering factory.....	42,000
2 mills.....	25,000
1 machine shop and foundry.....	34,200
1 tobacco factory.....	21,450
1 shoddy mill.....	21,840
1 wheel factory.....	9,000
1 straw paper factory.....	9,000
1 hobbie shop.....	6,000

There are now a considerable number of manufactories not included in the above list.

⁸ M. E., Ref. Prot. D., Presb., P. E., (St. John's,) Bap., and R. C. (St. Bernard.)

⁹ The Dutch for "bend," in reference to the bend in the Mohawk; sometimes called "Grosbeck Corners," from Wm. G. Grosbeck. One of the earliest settlements in the county was made in this neighborhood.

¹⁰ Named from J. M. Newton.

¹¹ Named from E. H. Ireland, innkeeper.

¹² This community was formed in 1776, by Ann Lee and her followers, by whom she is regarded as the spiritual mother of mankind. It is the oldest of the kind in the U. S., and now owns 2540 acres, including about 300 acres of alluvial land on the Mohawk at the mouth of the Schoharie Creek and on Shaker Island, which are annually fertilized by the floods of the Mohawk, and chiefly devoted to the raising of broom corn. The whole number of buildings in the settlement is about 150, several of which are of stone or brick. They have a commodious church, (built in 1845,) 3 offices, 1 schoolhouse, 8 dwellings, (suitable for 50 to 100 persons each,) 2 grist mills, 3 saw mills, 3 machine shops, for tanning, sawing, &c., and numerous other shops and storehouses. Their pursuits are agriculture, horticulture, the manufacture of brooms and medicines, and such mechanical trades as their own wants require. The females are employed in household work, dressmaking, spinning, weaving, braiding whiplashes and bonnets, and in making small salable articles. They keep 40 to 50 horses, 80 cows, 16 yoke of oxen, 500 sheep, and young stock in proportion. "Mother Ann" (as their founder is affectionately named) was buried in the cemetery near the church family.

¹³ This cemetery is located upon the hills west of the Troy and Albany Road, 4 miles from the city. The grounds are tastefully laid out, and contain many elegant monuments.

¹⁴ Named in honor of Rev. Eilardus Westerlo, of Albany.

spersed with clay and underlaid by hard pan. There are several fine quarries of flagging stone in town. **Chesterville**¹ (p.v.) contains 35 houses. **Dormansville**,² (p.o.), **South Westerlo**, (p.o.), **Lambs Corners**, and **Van Leuven Corners**,³ are hamlets. Settlement commenced before the Revolution.⁴ A Bap. church was organized, about 1800, at Chesterville; Roswell Beckwith was the first pastor.⁵

¹ Named in honor of Rev. John Chester, former pastor of 2d Presb. Ch. of Albany.
² Named from Daniel Dorman, former inn and store keeper.
³ Named from Isaac Van Leuven. First called "Sackets Corners," from Jas. Sacket, and afterward "Prestons Corners," from an innkeeper named Preston.
⁴ Among the early settlers were Nicholas Stoddard, Philip Meyer, and Lodowyck Haynes. Apollus Moore, afterward first

Judge of the county, taught school in 1788. Robt. O. K. Bemt taught a school in 1790. Grant & Edie kept a store and made potash at Chesterville in 1798. Lobdel & Baker built the first mill about 1795.
⁵ The Ref. Prot. D. Ch. was formed about the same time. Emanuel Church, (P. E.) at S. Westerlo, was formed in 1854. There are also 1 Christian and 2 M. E. churches, and a society of Friends, in town.

CORTLAND COUNTY.

THIS county was formed from Onondaga, April 8, 1808, and embraces the original townships of Virgil, Cincinnatus, Homer, Solon, and the south half of Tully and Fabius¹ in the s. e. corner of the Military Tract. It was named in honor of Pierre Van Cortlandt, first Lieut. Gov. of the State of N. Y.² It lies near the center of the State, upon the northern spurs of the Alleghany Mts., and just s. of the watershed between the Susquehanna and Lake Ontario. It contains an area of — square miles, and is centrally distant 145 miles from Albany. Its surface is very hilly and broken, consisting for the most part of sharp ridges with the narrow valleys between them. The highlands are divided into three general ridges extending through the county in a northerly and southerly direction. The first of these occupies the extreme eastern edge of the county, and is bounded on the w. by the valley of the Otselic River; the second lies between the Otselic and Tioughnioga Rivers; and the third embraces all the highlands lying w. of the Tioughnioga. These highlands are all divided laterally by the valleys of small streams, and in many places they are but little more than a collection of sharp ridges separated by narrow ravines. The northern portion of the county spreads out into a high plateau, broken by hills in many places, but containing a considerable amount of level land. This level has an average elevation of 1100 to 1200 feet above tide, and the ridges rise from 200 to 500 feet higher. Toward the south the valleys rapidly decline and contract until they become deep ravines, and the hills, attaining about the same absolute elevation, are relatively much higher and steeper than those in the north. The highest points in the county are Mount Toppin, in Preble, and the Owego Hills, in Virgil and Harford, which attain an elevation of 1600 to 1700 feet above tide.

The drainage is nearly all through the Tioughnioga River, which flows through near the center of the county. In its upper course, it consists of two principal branches, the eastern entering the town of Truxton from Madison county, and the western taking its rise in the small lakes in the northern part of Preble and the southern part of Onondaga county. The principal branches of the Tioughnioga are the Otselic,—which flows through a deep valley in the eastern part of the county from Chenango county,—Trout, Cheningo, and Labrador Creeks, and Cold and Factory Brooks. The Skaneateles Outlet drains the northwestern, the branches of Fall Creek the extreme western, and Owego Creek the southwestern, parts of the county. The only considerable bodies of water in the county are the Skaneateles Lake, which borders upon the n. w. corner, and several small lakes in the northern part of the Tioughnioga Valley.

The Hamilton group of rocks—consisting of calcareous shale, with limestone and slate intermixed—covers the northern portions of the county; and successively above this, toward the south, appear the Genesee slate, and the Portage and Chemung groups. Quarries of sandstone and limestone, affording excellent building material, are worked in Homer, Cortlandville, Truxton, and several other parts of the county. A little s. e. of Cortlandville are several small lakes, containing deposits of marl, from which an excellent quality of lime is manufactured. The soil upon the hills is principally a sandy or gravelly loam; and that of the valleys is of the same character, with a large mixture of disintegrated slate, shale, and limestone.

From its considerable elevation above tide, the climate of this county is colder than the lower regions n. and w. The winters are long, and snow falls to a great depth. The people are almost exclusively engaged in the different branches of agriculture. Spring grains are largely produced in the valleys, but the whole county is better adapted to pasturage than tillage. Dairying and stock raising are extensively pursued. The production of wool also receives considerable attention. The more hardy fruits generally flourish, but are liable to injury from early and late frosts.

¹ The following lots in these towns were set apart for the support of the gospel and schools:—In Tully, 69, 76, 81; Fabius, 55, 58; Homer, 4, 34, 70, 85, 93, 98; Solon, 22, 25, 30, 41, 64, 98; Virgil, 20, 36, 51, 86, 91, 99; Cincinnatus, 1, 16, 37, 49, 53, 62. The territory of the "Boston Ten Towns," lying immediately south of this, was found to overlap or extend over a portion of this tract, and to embrace nearly all of the two southern tiers of lots

in Virgil, and 4 lots in the s. w. corner of Cincinnatus. Two additional townships (Junius, Cayuga co., and Galen, Wayne co.) were set apart by the Land Commissioners, July 31, 1790, to supply the deficiency thus occasioned in the Military Tract.

² Gen. Van Cortlandt was an extensive owner of lands upon the Military Tract in this and adjoining counties.

Manufactures are of limited extent. The completion of the Syracuse, Binghamton, and New York R. R. through this county has given an additional impulse to every branch of business, and has greatly enhanced the value of the farms by furnishing an easy and direct avenue to market.¹

Cortland Village, the county seat, is situated upon the Tioughnioga, near the center of the town of Cortlandville. The county clerk's office and the court house are finely situated in the e. part of the village.² The jail is located in the basement of the court house, the floors of the cells being 4 or 5 feet below the surface of the ground. The average number of prisoners is 2. The poor house is situated upon a farm of 118 acres, 3 mi. n. e. of Cortland Village. The average number of inmates is about 50. The farm yields a revenue of \$600.

There are four papers published in the county.³

Few events of general interest have occurred in this county. Settlement began in Homer in 1791, in Virgil and Cortlandville in 1794, and in several other towns before the commencement of the present century. Being remote from the great routes of travel, its settlement advanced but slowly for many years, and the fertile but more distant valley of the Genesee had been mostly taken up by immigrants before civilization spread over the hills and along the valleys of Cortland county. The fear of Indian massacre then had not entirely subsided, and at times occasioned distress almost as real as if hostilities actually existed. The wild beasts often claimed a share of the little flocks and herds of the pioneers; and long, weary forest roads to distant mills and markets, for many years, proved a heavy burden to the early settlers in this and many other sections of the State not favored with navigable streams.

CINCINNATUS—was formed from Solon, April 3, 1804. It embraced the township of Cincinnati, or No. 25 of the military tract, a name applied by the Land Commissioners upon its first survey. The present town is one-fourth of its original size,—having been reduced by the erection of Freetown, Willett, and Marathon, in 1818. It lies upon the eastern border of the county, s. of the center. Its surface consists of the narrow valley of the Otselic River and of the high ridges which rise upon each side. Deep ravines, forming the valleys of small tributaries to the river, extend laterally far into the highlands, dividing nearly the whole surface of the town into steep and sharp ridges. The soil is generally a gravelly loam, and best adapted to grazing. **Cincinnati** (p. v.) contains about 290 inhabitants, and **Lower Cincinnati** 150. The former contains 3 churches⁴ and an academy.⁵ The first settlers were Ezra and Thos. Rockwell, from Lenox, Mass., who located upon lot 19; and Dr. John McWhorter, from Salem, N. Y., on lot 29, in 1795.⁶ The first church (Presb.) was formed by a union of the people of Cincinnati, Solon, Taylor, and Pitcher, Chenango co.

¹ This road is built along the Tioughnioga Valley, connecting with the N. Y. C. R. R. at Syracuse, and with the N. Y. & E. R. R. at Binghamton. It has stations at Preble, Little York, Homer, Cortlandville, Blodgets Mills, State Bridge, and Marathon.

² The county courts were first directed to be held at the schoolhouse on lot 45, in Homer. By an act of April 5, 1810, Joseph L. Richardson, of Auburn, Nathan Smith, of Herkimer, and Nathaniel Locke, of Cheango, were appointed commissioners to select the site for a court house, and \$2000 was appropriated for the erection of the building. The first county officers were John Keep, *First Judge*; Wm. Mallory, *Sheriff*; and John McWhorter, *Surrogate*.

³ *The Cortland Courier* was established at Homer in 1810 by Jas. & Saml. Percival. In 1812 H. R. Bender & R. Washburne became the proprietors, and changed its name to *The Farmers Journal*. They sold it to Jesse Searl in 1813, by whom it was issued as

The Cortland Repository, and continued until 1825. Then Milton A. Kinney became proprietor, and changed its title to *The Cortland Observer*. It passed into the hands of S. S. Bradford in 1833, and in 1836 into those of — Holmes, by whom its title was changed to

The Homer Eagle. In 1837 it was united with the *Cortland Republican*, and issued by R. A. Reid as

The Republican and Eagle, and continued until 1852. E. B. Gould then became proprietor, and changed it to *The Cortland County Whig*. In 1856 it was sold to J. R. Dixon, and by him it is now published as

The Cortland County Republican.

The Protestant Sentinel was started at Homer in 1831 by John Maxson, and continued until 1833.

The Cortland Republican was commenced in 1815, at Cortland Village, by James Percival, and was continued by him, by Osborn & Campbell, and by the Campbell Bros., until 1821.

The Western Courier was founded at Homer in 1821 by Roberts & Hull, and was soon after removed to Cortland Village. In 1824 it appeared as

The Cortland Journal, and in 1832 as

The Cortland Advocate. It was published successively by C. W. Gill, H. S. Randall, and David Fairchild, and in 1845 it was styled

The Cortland Democrat. Seth Haight & H. G. Cranch have been interested in its management; and it is now published as

The Cortland Gazette, which name it received in 1857. *The Cortland Chronicle* was started in 1823 by Reed & Osborn.

It was sold to R. A. Reid in 1832, and by him called *The Anti-Masonic Republican*. In 1833 it was styled

The Cortland Republican, and in 1837 it was united with

The Homer Eagle.

The Liberty Herald, semi-mo., was published at Cortland Village in 1844 and '45 by E. F. Graham.

The True American and Religious Examiner was started in 1845, at Cortland Village, by C. B. Gould. The following year it passed into the hands of S. R. Ward, was issued by him as

The True American, and continued until 1848.

The Republican Banner was started in 1858 by E. D. Van Slyke & P. H. Bateson.

The South Cortland Luminary was published in 1840, at South Cortland, by M. Reynolds.

The Morning Star was published at McGrawville in 1850, and *The Central Reformer* in 1858.

⁴ Coog., Bap., Meth.

⁵ Cincinnati Academy was chartered by the regents, April 21, 1857.

⁶ Eh'r Crittenden, from Barrington, Mass., removed to the present town of Willett in 1793, and to the present limits of this town in 1797. The first child born was Sally Rockwell, the first marriage that of Dr. McWhorter to Katy Young, and the first death that of Daniel Harts horn,—all in 1796. Mrs. H. Beebe taught the first school, in 1797; Col. John Kingman, the first inn; Elijah Bliss, the first store; and Eph'm Fish built the first mill, in 1814.

CORTLANDVILLE—was formed from Homer, April 11, 1829, and embraces the southern half of the original township of Homer, and a small portion of the n. e. corner of Virgil. The name was applied to the town from its being the county seat of Cortland county. It is situated at the junction of the eastern and western branches of the Tioughnioga River, and extends from the central portion of the county to the extreme western border. The surface along the river valley is level; but the remaining parts of the town are hilly. From an eminence just w. of Cortland Village can be seen 7 distinct valleys, separated by ranges of hills radiating in different directions. The ridges are 200 to 400 feet above the valleys; and the western part of the town is a broken upland region, the hills being arable to their summits. The tributaries of the Tioughnioga in this town are Trout Brook from the e. and Dry and Otter Brooks from the w. A small part of the western portion of the town is drained by streams flowing westward into Cayuga Lake. In the s. w. part of the town are three small ponds, fed by springs, and furnishing an almost unlimited supply of marl, from which an excellent quality of lime is manufactured.¹ The soil is generally a sandy or gravelly loam. **Cortland Village**² (p. v.) is finely situated upon the Tioughnioga, near the center of the town. It contains an academy,³ 5 churches, 3 hotels, and 12 stores. Pop. 2117. **McGrawville** (p. v.) is situated upon Trout Brook, 4½ mi. e. of Cortland Village. It contains 3 churches and several manufacturing establishments, and is the seat of the N. Y. Central College.⁴ Pop. 558. **South Cortland**, (p. v.), in the s. w. part of the town, contains 161 inhabitants. **Blodgets Mills** is a p. o. The first settlers of this town were Jonathan Hubbard and Col. Moses Hopkins,—the former upon the lot where Cortland Village now stands, and the latter upon lot 94.⁵ The census reports 9 churches in town.⁶

FREETOWN—was formed from Cincinnatus, April 21, 1818, and embraces the n. w. quarter of that township. Lot 20 of Virgil was annexed in 1850. It is situated upon the ridge between the Otselic and Tioughnioga Rivers, s. e. of the center of the county. It is high and hilly, and its surface is much broken by the narrow ravines of the watercourses which flow n. and s. A considerable part of the more hilly portions is yet covered with the original forests. Its soil is a sandy and gravelly loam, and is best adapted to pasturage. **Freetown Corners** (p. v.) has 2 churches and about 100 inhabitants. Robert Smith, a soldier of the Revolution, drew lot 2, and, accompanied by his son-in-law, Ensign Rice, took possession of it in 1795.⁷ The first church (Bap.) was organized in 1810, by Elder Caleb Shepard, of Lisle, who was the first preacher.⁸

HARFORD—was formed from Virgil,⁹ May 2, 1845, and it embraces the s. w. quarter of that township. It is the s. w. corner town in the county. Its surface consists of a high, broken upland, 500 to 700 feet above the valleys and 1500 to 1700 feet above tide. The Owego Hills, in the southern part, are the most elevated portions. The declivities are usually steep, and often rocky, and the summits are crowned with forests. One half of the town is yet a wilderness. The streams are mere brooks. The soil is a moderately productive sandy and gravelly loam, best adapted to pasturage. **Harford** (p. v.) contains 30 houses, and **South Harford** 20. The first settler was Dorastus De Wolf, in 1803.¹⁰ Religious meetings were held as early as 1804; but the first church (Bap.) was not organized till 1815.¹¹

HOMER—was formed March 5, 1794. Solon was taken off in 1798, Virgil in 1804, and Cortlandville in 1829. It lies upon the w. border of the county, n. of the center. Its surface

¹ Crandalls Pond covers an area of 15 acres; Swains, 6, and Chattertons, 4. The marl is generally of an ash color when first taken out from the vegetable matter which it contains, but it whitens upon exposure to the air. When partially dried, it is moulded into the form of bricks, and these are thoroughly dried and burned. The greatest known thickness of these deposits of marl is about 20 feet.—*Geol. Third Dist.*, p. 201. ² Incorp.

³ The Cortlandville Academy, incorp. Jan. 13, 1843.

⁴ This institution was incorp. in 1850. It was originally started as a manual labor school, and is open to all, without distinction of color or sex.

⁵ In 1795, Thos. Wilcox, from Whitestown, located upon lot 94; Rauben Doud, from New Haven, Jas. and John Morse, and Joseph Lee, upon lot 75. In 1796-97, Aaron Knapp located near Cortland Village, — Hootchkins upon lot 73, and Saml. Ingles and son on lot 75. In 1800, Wilmot Sperry (from Woodbridge, Conn.) settled on lot 73; and a few settlers came yearly until 1810, when the growth became more rapid. The first school-house stood on the present site of the Eagle Hotel. The first inn was kept by Saml. Ingles, in 1810.

⁶ 2 Bap., 2 M. E., 2 Presb., Christian, Ref. Presb., and Univ.

⁷ About 10 years after, Smith and Rice sold their improvements to Saml. G. Hathaway and Saml. Jennings; and about the same time Caleb Shepard and David H. Munro, from Wash-

ington co., settled on lot 22. In 1806, Remembrance Curtiss settled on lot 12; and Curtis and Chas. Richardson, from Saratoga co., on lot 32. Henry Gardner, Wm. Tutbill, Jacob Hicks, Gideon Chapin, Simeon Doty, John Backus, and Amos Eaton, were among the other early settlers. The first marriage was that of Robert Smith, jr., with Amity Smith. The first school teacher was Dou A. Robertson. The first store was kept by Peter McVeat, at "The Corners." The first permanent merchant was Hon. Walter Sweetland, still a resident of the town.

⁸ The census reports 3 churches; 1 Bap., 2 M. E.
⁹ The p. o. of "Worthington" was established in this part of Virgil in 1825 or '26. Its name was changed to Harford about 10 years after. From this the town derives its name.

¹⁰ Among the other first settlers were Thos. Nichols, in 1804, John Green, in 1805, Eben Burgess, — Barns, Gordon Burlingame, Nathan Heaton, Theodore Hunt, and Lewis Moore, Theodore E. Hart kept the first store, in 1824. The first birth was that of Dr. Chas. Barns; the first marriage, that of Obad Graves and Alice Munroe; and the first death, that of Dorastus De Wolf. Betsy Carver taught the first school, in 1806; Lewis Moore kept the first inn; and Nathan Heaton built the first grist mill, in 1814.

¹¹ The census reports 3 churches; Christian, Cong., and Union.

is very uneven, consisting of the valleys of the two branches of the Tioughnioga River and the ridges which border upon them. The valley of the western branch is about one mile wide, and elevated 1096 feet above tide. The eastern valley is much narrower. A ridge of hills, 200 to 500 feet above the river, separates the two valleys; and a similar ridge occupies the s. e. corner of the town. The western part is a hilly upland, 1500 to 1600 feet above tide. The principal branches of the Tioughnioga are Cold and Factory Brooks, from the w. The valleys of these streams open northward into corresponding valleys, through which flow streams emptying into Otisco and Skaneateles Lakes. The soil upon the river intervals is a deep, rich alluvial and dark loam, well adapted to tillage; among the hills, it is a sandy or gravelly loam, better for pasturage. **Homer**¹ (p. v.) is finely situated on the Tioughnioga, 3 mi. n. of Cortland Village. It contains 5 churches, a printing office, and several manufacturing establishments, including the only cotton factory in the county. It is the seat of Cortland Academy,² an old and very flourishing institution. Pop. 1625. **East Homer** (p. v.) contains 25 houses, and **Little York** (p. v.) 15. Spencer Beebe and his brother-in-law, Amos Todd, were the first settlers of this town, and of Cortland county, in 1791.³ The first religious meetings were held in 1793, when there were but 6 families in town; and all attended. The first church (Cong.) was founded in 1801, chiefly through the influence of Mrs. Hobart, wife of Lieut. Hobart.⁴

LAPEER—was formed from Virgil, May 2, 1845, and embraces the s. e. quarter of that township. It lies upon the high ridges w. of the Tioughnioga River, on the s. border of the county, w. of the center. The declivities of the hills bordering upon the river are very precipitous. "Luce Hill," in the northwestern part of the town, is the highest point, and is 1600 to 1700 feet above tide. The streams are all small brooks. Upon the Owego Creek, near the s. border of the town, is a wild and beautiful cascade, 71 feet high, known as Hunts Falls. The soil is a sandy and gravelly loam. Nearly one half of the town is still unsettled. **Hunts Corners** contains 10 houses. **Lapeer** (p. o.) is near the center of the town. There is no church edifice in town.⁵ The first settler was Phineas Grant, a colored man.⁶

MARATHON—was formed from Cincinnatus, April 21, 1818, as "*Harrison*," embracing the s. w. quarter of the military township. Its name was changed in 1827. It lies upon the southern border of the county, e. of the center. Its surface is rugged and hilly, the ridges rising 500 to 700 feet above the valleys. The Tioughnioga flows through its western part, in a deep, narrow valley with precipitous sides. Hunt Creek in the n. w. and Merrill Creek in the e. part of the town also flow through deep and narrow valleys. The arable land lies principally along these valleys, the uplands being very broken and only fit for pasturage. The soil is a sandy and gravelly loam. **Marathon**⁷ (p. v.) contains three churches, the oldest of which is a Presb., organized Feb. 11, 1814⁸. Pop. 500. The first settler was Dr. Japheth Hunt, a surgeon of the army, who served in both the French and Revolutionary Wars.⁹ He settled on lot 93, in 1794.

¹ Incorpor. May 11, 1835.

² Incorpor. February 2, 1819. This institution, from its commencement, has uniformly borne a high reputation. Samuel E. Woolworth, LL.D., present Secretary of the Regents of the University, was at the head of this institution for nearly 20 years. At a jubilee celebration, held July 7 and 8, 1846, it was stated that 4000 students had been connected with the academy. —*Cort. Academy Jubilee*, p. 37.

³ They came in the fall, and erected a temporary dwelling, a little n. of Homer Village, near the bridge, and returned in the winter for their goods, leaving Mrs. Beebe the sole occupant of the house, and the only representative of civilization within a circuit of 80 miles. They were prevented from returning for 6 weeks by the deep snow; and during the whole of that period the lone woman remained in anxious doubt as to the fate of her husband and brother. Mr. Todd located on lot 42, "West Hill." Among the other early settlers were John Honee, John Miller, Jas. Matthews, Jas. Moore, Silas and Danl. Miller, (from Binghamton,) in 1792; Darine Kinney, (from Brimfield, Mass.) in 1793; Roderick Owen, (from Lebanon, N. Y.) Jonathan Hubbard, and Moses Hopkins, in 1794; Thos. Wilcox, (from Whitestown,) Zebulon Keene, and John Starin, (from Brimfield,) John Keep, Solomon and John Hubbard, and Asa White, in 1795. The first male child born was Homer Moore, and the first female Betsey Honee; the first death, that of Mrs. Gould Alvord. The first marriage was that of Zadoc Story and Wid. Ruppel, who were obliged to go through the forests to Ludlowville, Tompkins co., on horseback, to have the ceremony performed. The first school-house was built a little n. of Homer Village in 1798. The first teacher was Joshua Ballard. Enos Stinson kept the first inn, and A. M. Coats the first store. The first permanent and successful merchant was Jedediah Barber. John Keep, Solomon Hubbard, and Asa White built the first grist mill in 1798, on the

present site of that of Brown & Goodell. The old mill for some time was used as church, public hall, and ball room.

⁴ The first sermon was preached by Rev. Mr. Hillard, of N. J. He was assisting at a raising; and, when it became known that a minister was present, a sermon was clamorously called for and was delivered on the spot. The census reports 6 churches in town; Presb., Bap., M. E., Prot. D., and Univ. at Homer, and M. E. at East Homer.

⁵ Free Bap., Meth., and Christian denominations hold meetings in school-houses. The Free W. Bap. Society was formed by Elder Lake in 1820.

⁶ Among the other first settlers were Peter Gray, (on lot 70,) Rolt K. Wheeler, and Thomas Kingsley, who came in 1802; Seth Jennings and Timothy Roberts, in 1805; Zac'h Lynea, John R. Smith. Urial Sessions, Simeon Luce, Avery Hartshorn, and H. J. Richards. The first marriage was that of Simeon Luce and Rebecca Ayres, Oct. 9, 1805; and the first death, that of Simeon Luce, in 1808. Ebenezer Luce taught the first school, in 1814; and Harvey Jennings built the first mill, in 1813.

⁷ About one mile s. of the village, on the e. bank of the river, is the site of an old Indian village and burial ground. Tradition says that this was once the seat of a powerful tribe of Indians.

⁸ The census reports 4 churches; 2 Presb., Bap., and M. E.

⁹ Among the other pioneer settlers were John Hunt, in 1796; Abram Brink, (first innkeeper,) Barnabas Wood and Son, and Zachariah Squires, in 1802. The first child born was S. M. Hunt, a grandson of the first settler; the first marriage, that of Nicholas Brink and Polly Alfred; and the first death, that of the first settler, in March, 1808, aged 97 years. Wm. Cowdrey taught the first school, in 1803; John Hunt built the first saw mill; and Weed & Waldo, James Burgess, and David Munroe were the early merchants. The first successful mercantile firm was that of Peck, Archer & Dickson, now of New York City.

PREBLE—named in honor of Commodore Edward Preble, was formed from Tully upon the organization of Cortland co., April 8, 1808, and embraced the southern half of the latter town. Scott was taken off in 1815. It lies upon the northern border of the county, w. of the center. Its surface consists of the valley of the western branch of the Tioughnioga River, which is here nearly two miles wide, and the ridges which rise on the e. and w. Mount Toppin, n. w. of the village, is 1700 feet above tide, and is said to be the highest land in the county. The declivities of the hills are generally very steep, and their summits sharp ridges. West of Mount Toppin a valley extends northward and opens into the valley of the Otisco Inlet. In the northern part of the town are several beautiful little lakes; and upon the southern borders are others of a similar character, known as the Little York Lakes. The soil is a fine quality of gravelly loam. **Preble Corners** (Preble p.o.) contains 200 inhabitants, and **Baltimore** 75. The first settlers were James and Robert Cravath, John Gillett, and Elijah Mason, who came in 1798.¹ The first church (Cong.) was formed through the efforts of Revs. Theodore Hinsdale and Joel Hall, missionaries from Conn.² Rev. Matthew Harris was the first pastor.

SCOTT—was formed from Preble, April 14, 1815, and named in honor of Gen. Winfield Scott. It is the n. w. corner town of the county. Its surface is mostly upland, broken by two deep and narrow valleys which extend n. and s. through the town. The declivities of the hills are very steep, and in many places precipitous. Cold Brook flows through the eastern valley, and Factory Brook and Skaneateles Inlet through the western. Skaneateles Lake borders upon the n. w. corner. The soil is a sandy and gravelly loam, and is best adapted to grazing. **Scott Center** (Scott p.o.) contains about 300 inhabitants. **East Scott** is a p.o. The first settlers were Peleg and Solomon Babcock and Asa Howard, (from Mass.,) and George Dennison, (from Vt.,) who located on lot 82 in 1799.³ The first church was a Seventh Day Baptist, organized in 1820, Wm. B. Maxson first pastor.⁴

SOLOn—was formed from Homer, March 9, 1798, and embraced the townships of Solon and Cincinnatus. A portion was annexed to Truxton, April 4, 1811. Cincinnatus was taken off in 1804, and Taylor in 1849. It is an interior town, lying near the center of the county. The surface is mostly upland, broken by numerous narrow valleys of small brooks and creeks. The hills on the eastern border are 1400 to 1500 feet above tide. Many of the highest summits are too rough for cultivation, and are crowned with forests. Trout Brook flows in a westerly direction through near the center, forming a narrow but fertile valley. The soil is a gravelly loam, well adapted to grazing. **Solon** (p.v.) contains about 100 inhabitants. The first settlers were Johnson Bingham and Eddy Wildman, from Canterbury, Conn., who located, the former on lot 62, and the latter on lot 51, in 1796.⁵ The first church was formed in 1804, Rev. Josiah Butler the first preacher.⁶

TAYLOR—was formed from Solon, Dec. 5, 1849, and named in honor of Gen. Zachary Taylor. It lies near the center of the eastern border of the county. Its surface is mostly upland and is very broken and hilly. The declivities are generally precipitous, rising 600 to 800 feet above the valleys. Mount Rhoderick, lying partly in this town and partly in Solon, is the highest point. The streams are mere brooks, generally flowing in a s. e. direction and discharging their waters into the Otselic River. Solon Pond is a small sheet of water near the center of the town. The soil is a sandy and gravelly loam. **Taylorville**, (p.v.) or "Bangall," contains 25 houses, and **Union Valley** (p.v.) 20.⁷ The first settlers were Zerah Beebe, a Revolutionary soldier, Latus Beebe, his son, and John Tinker, his son-in-law, from Waterbury, Conn., in 1794.⁸

¹ Among the other first settlers were Amos Skeel, Seth and Samuel Trowbridge, Richard Eggleston, Samuel Orvis, David B. Fholps, and Wm. Cummings. The first child born was Nancy Gill; the first marriage, that of Amos Ball and Sally Mason; and the first death, that of John Paterson, a Revolutionary patriot, in 1799. Ruth Thorp taught the first school, in 1801; and Moses Nash kept the first store. Mr. Nash afterwards moved to Indiana, where he became a candidate for Governor, but missed the election by one vote.

² The census reports 2 churches; 1 Presb., 1 M. E.

³ Among the other first settlers were Coraish Messenger and Daniel Jakeway, (from De Ruyter,) Maxon Babcock, (from Mass.,) Gershom Richardson, Jared and John Babcock, Elisha Sabias, Henry and Jesse Burdick, Timothy Brown, and Nathl. Morgan. The first child born was Harriet Babcock; the first marriage, that of Solomon Babcock and Amy Morgan, and the first death, that of an infant daughter of Peleg Babcock. Amy Morgan taught the first school, in 1804; James Babcock kept the first inn, and Nathan Babcock the first store.

⁴ Besides this, there are in town 3 societies; Bap., M. E., and Presb.

⁵ Among the other first settlers were Benj. Beebe, Lewis Beebe, (first innkeeper,) Daniel Porter, Zerah Tinker, Jas. H. Wheeler, Elisha Johnson, Saml. G. Hathaway, Stephen N. Peck, and Noah Greely, (first mill owner.) The first child born was a daughter of Johnson Bingham; the first marriage, that of Robt. Smith and Amy Smith; and the first death, a daughter of Johnson Bingham. Roxana Beebe and Lydia Stewart taught the first school, in 1804; and B. Tubbs kept the first store.

⁶ The census reports 2 churches; 1 Bap. and 1 R. C.
⁷ The census reports 5 churches; Bap., Cong., Wes. Meth., 2 M. E.

⁸ The first child born was Kezia Beebe; the first marriage, that of Asaph Butler and Lucy Beebe; and the first death, that of Zerah Beebe, in 1800. — Beers taught the first school, in 1810; Orlando Beebe kept the first inn, Hurlbut & Gilbert the first store, and Ezra and Thos. Rockwell built the first saw mill, in 1810.

TRUXTON¹—named in honor of Commodore Thomas Truxton, was formed from Fabius, April 8, 1808, and embraced the southern half of the latter town. The northern four tiers of lots of Solon were annexed to it, April 4, 1811. It is the n. e. corner town of the county. The surface consists of a broken upland divided into ridges, which have a general northerly and southerly direction. The east branch of the Tioughnioga River flows in a s. w. direction through the center of the town, cutting the ranges of hills diagonally. North of the river, nearly the whole surface is divided into sharp ridges with very steep declivities, their summits being technically termed "hog backs." Muncey Hill, in the s. e. part, the highest land in town, is a wild, broken region, very poorly adapted to cultivation. In the n. w. corner is a small lake, known as Labrador Pond, noted for its wild and picturesque scenery. Upon a small brook, which flows into the outlet of this pond from the e., is a beautiful cascade, called Tinkers Falls. The soil is generally a sandy and gravelly loam. In amount of dairy products this town is one of the first in the State. **Truxton** (p. v.) contains 257 inhabitants, and **Cuyler** (p. v.) 112. There are in town a woolen, a sash and blind, and a butter tub factory, and an extensive carriage shop. The first settlers were Saml. Benedict, Chris. Whitney, and Jonas Stiles, in 1795, who located on lots 12, 93, and 2, respectively.² The first church (Bap.) was formed in 1806, under Eld. Rufus Freeman.³

VIRGIL—was formed from Homer, April 3, 1804. Harford and Lapeer were taken off in 1845. A small portion of its e. part has been annexed to Cortlandville and Freetown. It lies upon the w. border of the county, s. of the center. Its surface is a broken and hilly upland. The Owego Hills, in the s. w. part, are about 600 feet above the valleys and 1600 to 1700 feet above tide. The valleys are narrow, bordered by the steep declivities of the hills. The streams are generally small,—Virgil Creek, flowing e., and Gridley Creek, flowing w., being the principal. The soil is a sandy and gravelly loam, and is best adapted to grazing. **Virgil** (p. v.) contains 206 inhabitants, and **East Virgil** (p. v.) about 60. The first settler was Joseph Chaplin, in 1792.⁴ The first religious meeting was held in 1802; and the first church (Cong.) was formed, Feb. 5, 1805, by Rev. Seth Williston.⁵

WILLETT—was formed from Cincinnati, April 21, 1818, and was named in honor of Col. Marinus Willett, of Revolutionary memory. It lies in the s. e. corner of the county. Its surface consists of the narrow valley of the Otselic River and of the high ridges which rise on either side. The uplands are broken by the narrow ravines through which the small streams flow. Nearly one third of the town is yet unsettled, the surface being too rough for profitable cultivation. In the n. w. part of the town is a small lake, known as Bloody Pond,—its sanguinary name having been bestowed in consequence of the vagaries of *delirium tremens*. The soil is a sandy and gravelly

¹ In Nov. 1853, this town was divided into 2 nearly equal parts by a line extending n. and s.; and the e. half now forms the town of CUYLER.

² Among the other first settlers were Robt. Knight, (from Mounmouth, N. J.) Hugh Stewart, (from Colerain, Mass.) John Jeffrey and Enos Phelps, (from N. J.) Billy Trowbridge and Dr. John Miller, (from Dutchess co.) The last named was the first physician, and is still living, (1858,) aged 82. The first child born was a son of Samuel Benedict; and the first death was a child in the same family. A. W. Baker taught the first school, in 1799; Bowen Brewster kept the first inn, in 1801, and Stephen Hedges the first store.

³ The census returns 4 churches; 2 M. E., Bap., Presb.

⁴ Mr. Chaplin was engaged to open a road from Oxford to Cayuga Lake, which he commenced in 1792 and finished in two years. This road was 60 mi. in length, and it became the thoroughfare for emigrants. Mr. Chaplin brought in his family from Oxford in the winter of 1794-95. Among the other first settlers were John M. Frank, John Gee, John E. Roe, James Wright, Jas. Knapp, Jas. and John Glenny, Joseph Bailey, and Enos Bouton. The first flock of sheep, brought in by Mr. Frank, were all destroyed by the wild animals. Mr. Roe and Capt. Knapp killed 15 wolves in one year. The first child born was a son of Joseph Chaplin; the first marriage was that of Buluff Whitney, of Dryden, and Susan Glenny, in 1800; and the first death was that of a stranger, named Charles Hoffman, who was found dead in the woods in April, 1798. Chas. Joyce was the first teacher; Peter Vanderlynd and Nathl. Knapp built the first grist mill, in 1805; Daniel Edward built the first saw mill in 1801, and Danl. Sheldon kept the first store, in 1807. As early as 1828, in a series of articles in the "Cortland Observer," Nathaniel Bouton, a farmer in this town, strongly advocated the construction of a R. a. through the southern tier of counties. From the proceedings of a "Festive Gathering" of the early settlers and inhabitants of the town of Virgil we make the following extracts:—"The patents issued to the purchasers of the military lots contained the whole mile square; yet the State reserved to itself the right to retain 100 acres in the s. e. corner of each lot and give an equal amount of land in Ohio. This reserved lot was

known as 'The States Hundred.' By giving notice that he wished to retuin his land together, and paying \$30.00 for the survey, the patentee could retain the whole lot. In default of the payment, the State retained 50 acres in the s. e. corner, called the 'Survey of Fifty Acres.'" As an illustration of the hardships to which the pioneers of this town and co. were subjected, we extract the following:—"In the spring of 1797, John E. Roe came on from Ulster co. and made a beginning on his lot,—the same occupied till recently by himself and family,—boarding with Mr. Frank. He cleared a spot, put up the body of a log house, split plank and laid a floor, peeled bark for a roof, and agreed with a man in Homer to put it on. He also cut and cured some of the wild grass growing in the swamp, for hay, and returned. Preparations were then made for moving on; which was done in the winter following. He and his wife came in a sleigh, with a young cow following them. When they came to the river, opposite Mr. Chaplin's, they found the water high, and the canoe that had been used in crossing carried away. Mr. Chaplin's hog trough was procured, and Mrs. Roe was safely carried over in it. She then stood upon the bank to await the crossing of what remained. The horse, being urged in, swam across with the sleigh, the cow following, and came near being carried away with the current, but, after a hard struggle, made the shore in safety. They put up for the night, the horses being fastened to the sleigh, (as no accommodations could be procured,) and they ate out the flag bottoms of the chairs to allay the keen demands of appetite. The snow was two feet deep, with no track, and the whole day was then consumed in coming from the river to their new home. When they arrived, they were surprised to find their house without covering; consequently the snow as deep in it as out of it. Persons of less perseverance would have been disheartened. But no time was to be lost. The snow was cleared away from a portion of the floor, a fire built against the logs, some blankets drawn across the beams for a covering, the horses tied in one corner, with some of that coarse hay before them; and thus their first and several successive nights were passed."

⁵ The census reports 5 churches; Bap., F. W. Bap., Cong., M. E., Union.

loam. **Dyersville** (Willett p.o.) contains 20 houses. The first settler was Ebenezer Crittenden, from Barrington, Mass., in 1793.¹ The first church (M. E.) was formed in 1816. There is also a Cong. church in town.

¹ Mr. Crittenden embarked, with his wife, child, and goods, upon a rude boat, at Chenango Forks, and with a paddle and setting-pole worked his way up the rapid current of the Troughnoga and Otsego Rivers to his place of settlement. For 9 years he was the sole inhabitant of the town. Among the other first settlers were Jabez Johnson, (from Vt.) Benj. Wilson, (from Westchester co.) John Fisher. Thos. Gavlev.

Thos. Leach, Phineas Sargent, and John Covert. The first birth was that of a child of Ehr Crittenden. The wives of Solomon Smith, Danl. Roberts, and Edward Nickerson all died in 1812; and these were the first deaths in town. The first school was taught in 1814. Benj. Wilson kept the first inn and built the first mill, and John E. Dyer kept the first store.

ADIRONDACK OR INDIAN PASS.
ESSAY ENGRAVED

ESSEX COUNTY.

This county was formed from Clinton, March 1, 1799, and a corner was taken off in the erection of Franklin co. in 1808. It lies upon Lake Champlain, in the n. e. part of the State; is centrally distant — miles from Albany, and contains — square miles. It is by far the most broken and mountainous county in the State. With the exception of a narrow strip of level land along the shore of Lake Champlain, nearly the whole co. is of an Alpine character. High, rocky peaks, and immense mountain masses, abounding in wild, broken crags and stupendous precipices, and separated by narrow ravines and deep gorges, form the general characteristics of the landscape. With the exception of the Black Mountain, of North Carolina, and the White Mountain

group, of New Hampshire, the mountains of this co. attain a higher elevation than any others belonging to the great Appalachian system; and, taking into consideration their great number of lofty peaks, they surpass in magnitude all other groups e. of the Mississippi. The mountains seem thrown together without regard to order or system; and from this fact, and the frequent misapplication of names, much confusion has arisen in attempting to describe them.

The 5 mountain ranges n. of the Mohawk valley extend through portions of this co., and terminate upon the shores of Lake Champlain. They all have a general n. e. and s. w. direction, rising successively higher toward the n. until they culminate in the most northerly range. The axes of these ranges are nearly parallel, and are respectively about 8 mi. apart. They are not always distinct and continuous, but in some places their lateral spurs interlock, and in others their continuity is broken by the intervention of valleys and brief intervals of lowland. They are not regularly serrated, but appear to consist of groups of sharp pointed peaks connected by immense ridges. The principal mountain masses appear to extend in a due n. and s. direction, and are thus placed obliquely in the range of which they form a part. Single mountains are often sufficiently large to occupy the whole intervening space between the ranges, thus destroying the continuity of the valleys and reducing them to narrow, isolated ravines. This arrangement of mountains, in regard to the ridges, affords the key to the peculiar plan of the construction of this whole mountain system. The most southerly of the 5 ranges barely enters the extreme s. e. corner of the co. It is known as the Palmertown or Luzerne Mts. It has also sometimes been called the Black Mountain Range and the Tongue Mts. It constitutes the highlands which rise upon both sides of Lake George and upon the narrow peninsula between the Lake George outlet and Lake Champlain. Mt. Defiance, the extremity of the ridge, has an elevation of about 750 feet above the lake. The second range, known as the Kayaderoseras, extends through the s. e. part of Schroon and the center of Crown Point, ending in the high cliff which overlooks Bulwagga Bay, and is elevated about 1150 feet above the surface of the lake. Along the course of this range, in Schroon, is a cluster of mountain peaks, the highest of which, Mt. Pharaoh, is 3500 to 4000 feet above tide. The third range occupies the w. and n. parts of Schroon, and extends through the n. part of Moriah and the center of Westport, ending in the high promontory of Split Rock, in the s. part of Essex.¹ Bald Mountain, in Westport, one of the most noted peaks of this range, attains an elevation of 2065 feet above tide. This range takes the name of the Schroon Mts. from the principal lake which lies at its foot.

The fourth range extends through the central parts of Minerva and N. Hudson, the s. e. corner of Keene and Lewis, the n. w. part of Elizabethtown, and the center of Willsborough, ending in the high bluffs which border upon Perou Bay. It might with propriety be called the Boquet Range, from the principal river which flows at its base. Dix Peak, in N. Hudson, the highest mountain in this range, attains an elevation of 5200 feet above tide, and, next to Mt. Marcy, is the

¹ The name of Split Rock was applied to this promontory in consequence of about $\frac{1}{4}$ acre of the extreme point being detached from the mainland by a chasm 10 feet wide, extending downward to near the water's edge. It was once supposed that this mass was split off from the mainland by some great convulsion of nature, and writers have gravely asserted that 500

feet soundings have been taken in the chasm; but it is probable that the fissure was formed by the disintegration of the rock, which at this point contains iron pyrites and is easily acted upon by the elements. The height of this disintegrated mass above the lake is about 30 feet.

highest point in the co. Nipple Top has an elevation of 4900 feet. Raven Hill, in Elizabethtown, and Mt. Discovery, in Lewis, each attain an elevation of over 2000 feet. The fifth range extends through Newcomb, Keene, Jay, Lewis, and Chesterfield, ending in the rocky promontory of Trembleau Point. It has sometimes been called the Clinton Range, but it is more widely known as the Adirondack Range.¹ Mt. Marey, the highest peak of this range, and the highest land in the State, has an elevation of 5467 feet above tide. Mounts McMartin, McIntyre, and San-da-no-ne, belonging to this range, are each upward of 5000 feet high. A spur of this range extends northward on the borders of Jay and Chesterfield, in a high, unbroken ridge, with a mean elevation of about 2000 feet above tide.

North of the Adirondack Range the mountains are not disposed in regular ranges, but are scattered in groups over a large space of country. These groups, however, lie in a line parallel to the other ranges, and for convenience of description they might be considered under the head of the "Au Sable Range." Mt. Seward, the highest peak, 5100 feet above tide, is situated just beyond the limits of the co. Whiteface, in Wilmington, has an elevation of 4900 feet.

The rocks of Essex co. are primary, consisting of granite, gneiss, and hypersthene. The mountains generally are composed of huge masses of naked rocks, more or less disintegrated by the action of the elements. Nearly the whole mountain region is composed of this primitive rock. Along the base of the mountains, on the E., appear the Trenton limestone and Utica slate; while upon the immediate borders of the lake are found the clayey masses of the tertiary formation. In the primary rocks, among the mountains, are immense beds of rich magnetic iron ore, some of which have been extensively worked, though generally in a very rude and primitive manner. The iron produced from this ore has been subjected to the most severe tests, and has been pronounced equal to the best which is produced in the world.

The s. w. portion of the co. is drained by the Hudson and its principal branch, the Schroon River. These streams take their rise upon the highest peaks of the Adirondack and Schroon Ranges, and flow through the winding valleys that lie at their base. Upon the E. Putnams Creek drains the region between the Luzerne and Kayaderosseras Ranges; Mill Brook, between the Kayaderosseras and Schroon; and the Boquet² River, between the Schroon and Boquet Ranges. The Au Sable, flowing along the N. base of the Adirondack Range, drains the N. portion of the co. The valleys of these streams are generally narrow, and are bounded by steep banks, which are not unfrequently huge masses of precipitous or overhanging rocks.

Lakes Champlain and George lie partly in this co., and more than 100 small lakes lie wholly within its limits. The greater part of these are comprised in three groups, lying near the base of the principal mountain peaks. The first of these groups surrounds Mt. Marey; the second, Mt. Pharaoh; and the third, Whiteface. Many others are found scattered along the whole course of the mountain ranges. These lakes are generally long and narrow; and Prof. Emmons says "that, instead of occupying shallow basins scooped out of the softer materials,—as earth and the ordinary slates and shales,—they lie in chasms formed by uplifts and fractures in the primary rock." Many of these lakes have precipitous banks, presenting a great variety of wild and picturesque scenery. The soil along Lake Champlain consists of a stiff, hard clay, alternating with a dark loam and gravel, and, in the narrow valleys, of disintegrated rocks. Upon the mountains the soil is thin and light, many of the peaks being masses of naked rocks, destitute of both soil and vegetation. The declivities of the hills are generally wooded, but not very heavily. Three-fourths of the entire surface of the co. is too rough and broken for cultivation.

Farming, iron mining, and the manufacture of iron from the ore, constitute the leading pursuits; and the immense mineral wealth of this section must for centuries continue to afford an object of profitable investment. In the infancy of the settlement, and until the supply became exhausted, the manufacture and exportation of lumber and staves to the Quebec market formed the leading, and, in some neighborhoods, almost the sole, objects of industry. Rafts of great size were formed in the coves and sheltered points along the lake shore, and were wafted by sails and oars to the Richlieu River, and down that stream and the St. Lawrence to Quebec, where they were transferred to ships for the British market. The completion of the Champlain Canal gave a new impulse to lumbering; but the timber suitable for exportation is now nearly exhausted, except on the extreme w. borders of the co. The logs of this latter region are floated down the Saranac,

¹ The name Adirondack is strictly applied only to the group of elevated peaks of which Mt. Marey is the center, but by common usage it is now made to comprehend the whole system of mountains N. of the Mohawk.

² Pron. bo-kwét. Probably from the French "baquet," a trough. It is also said to have been named from Henry Boquet, an English officer; but the name appears on French maps previous to his residence in the country.

Racket, Hudson, and other streams, to some convenient place for sawing; and large sums have been appropriated by the State for improving the channels of these rivers for this purpose.¹ Tanneries, within the last few years, have greatly increased in the woody sections of the State, and about a dozen of them are located in this co. The iron manufacturing business of this region was commenced at Willsborough Falls in 1801,² and now forms one of the leading pursuits of the people. Iron ore is exported from this co. in large quantities to Pittsburgh and other distant localities, to be mixed with other ores.³ The manufacture of sash and blinds, tubs, pails, and other articles of pine and cedar, starch, paper, and black lead, receives considerable attention. Ship-building, to some extent, has been carried on in Essex and Willsborough.

The county seat is located at Elizabethtown,⁴ situated upon the Au Sable, about 8 mi. w. of the lake. It contains the court house, jail, and county clerk's office.⁵ These buildings are plain and substantial. The poorhouse is located upon a farm of 100 acres, in Essex, 10½ mi. n. e. of Elizabethtown. The average number of inmates is 70, supported at a cost of 62 cts. per week each. The farm yields a revenue of about \$1200.⁶

There are 2 papers now published in the county.⁷

In 1609, Samuel Champlain, with two attendants, accompanied a party of Canadian Indians on an expedition against the Five Nations. On the 4th of July his party entered the lake which now bears his name, and on the 30th they met their enemies. A sanguinary battle ensued, the fate of which was decided by the firearms of the whites, then for the first time used within the limits of the State. This act of unprovoked hostility on the part of Champlain laid the foundation for the long and bloody wars between the Five Nations and the French, and rendered the former the willing and steadfast friends and allies of the English. The whole region bordering upon the lake was claimed, by constructive title, by both France and England; and during the wars that ensued it became the great battle ground for supremacy, and the principal highway for war parties in their mutual incursions upon the defenseless frontier settlements. Fort Frederick was erected by the French at Crown Point in 1731. This measure was met by remonstrance, but no open resistance, on the part of the English. Previous to the erection of the fort, French settlements had commenced in various places along both shores of the lake. These settlements had made considerable progress,

¹ \$6000 were appropriated in 1853, and \$5000 in 1854, for improving the log navigation of the Au Sable River. A lighthouse has been erected at Split Rock by the General Government. The proposed Sackett Harbor and Saratoga R. R. has been surveyed across the s. w. corner of the co., and another route has been projected from Plattsburgh to Whitehall; but there is little prospect of either of these lines being soon finished.

² In that year George Throop and Levi Higby, in connection with Charles Kana, of Schenectady, began the manufacture of anchors at Willsborough Falls. For the first 10 years the ore was obtained in part from Canada, but principally from Vermont. A bed at Basin Harbor was the only one then known within the co. Mill and steamboat irons were afterward made, and the foundry was finally converted into a forge. Early in the present century W. D. Ross erected a rolling mill on the Boquet, for making nail plates for the factory at Fair Haven, Vt. About 1809, Archibald McIntyre and his associates erected works on a branch of the Au Sable, in the present town of N. Elba, designated as the "Elba Iron Works," which were at first supplied from the vicinity, and afterward from the Arnold mine, in Clinton co. The forge was abandoned in 1815, after several years of prosperous business. The iron interest rapidly extended after the completion of the Champlain Canal, and several large manufactories were erected in the valley of the Au Sable and the surrounding region. The forges, rolling mills, and nail factories in this section are among the most extensive of the kind in the country. Bar, pig, and bloom iron of superior quality are produced in large quantities. Within a few years, anthracite coal has nearly superseded the use of charcoal in the furnaces along the lake shores. These establishments afford a home market for a large part of the agricultural products of the co. Most of the above dates and facts are condensed from *Watson's Ag. Survey of Essex Co.*, 1852, p. 514.

³ The principal ore in this co. are magnetic, and they are separated from the stone by water and by magnetic machines. Hundreds of blba. of iron sand are collected upon the shores of Lake Champlain and sold to the N. Y. stationers.

⁴ David Watson and John Savage, of Wash. co., were appointed commissioners to locate a site for the co. buildings, which were to be erected under the care of 3 commissioners appointed by the supervisors. The first co. officers were Daniel Ross, *First Judge*; Stephen Cuyler, *Clerk*; Thos. Stowers, *Sheriff*; and Wm. Gilliland, *Surrogate*.

⁵ When the co. was formed, the new lockhouse in Essex, then Willsborough, was used as a courthouse and jail. By an act passed April 7, 1807, Elizabethtown was selected as the co. seat, and to this place the courts and clerk's office were transferred upon the completion of the proper buildings, in 1814.

⁶ This establishment is old, and in some respects inconvenient; but it is spoken of as extremely well kept, and in this respect is one of the best in the State.

⁷ *The Reveille*, the first paper in the co., was started at Elizabethtown, about 1810, by Luther Mareh. *The Essex Patriot* was published at the same place, in 1817-18, by L. and O. Person.

The Essex County Times was started at Elizabethtown, by R. W. Livingston, and in 1833 sold to — Macomb, who continued it about 15 months. It was printed on an old "Ramage" press brought from Skaneateles, Onondaga co.

Another paper was commenced at Elizabethtown, in Jan. 1849, by D. Truair, and removed to Keeseville in about 4 months.

The Elizabethtown Post was established by Robert W. Livingston in 1851, and was subsequently united with the Northern Standard, of Keeseville.

The Keeseville Herald was commenced in 1825 by F. P. Allen, and soon after passed into the hands of A. H. Allen, by whom it was continued, with a few interruptions, until 1841.

The Keeseville Argus, edited by Adonijah Emmons, was begun about 1831, and continued 5 or 6 years.

The Essex County Republican was established at Keeseville in 1839, and is now published by J. B. Dickinson.

The Au Sable River Gazette was started at Keeseville about 1847, by D. Truair, and continued 5 or 6 years.

The Old Settler, mo., was commenced at Keeseville by A. H. Allen in 1849, and was afterward removed to Saratoga Springs.

The Northern Gazette was started at Keeseville in 1851, and continued several years.

The Northern Standard was established at Keeseville in 1854 by Wendell Lansing, and is now published by A. W. Lansing & Son.

The Essex County Republican was started at Essex about 1822 by J. K. Averill, and was continued by him, and by Walton & Daxon, until 1833.

The Beran Guide was started in 1840, at Essex, by Rev. M. Bailey, and continued 1 year.

The Westport Patriot and Essex County Advertiser was commenced in 1845, at Westport, by D. Truair.

The Essex County Patriot was issued at Essex, about 1847, by A. H. Allen. It was changed to

The Westport Herald, and continued 6 or 7 years. *The Essex County Times* was published at Westport in 1851.

and thriving villages had sprung up, before they were finally broken up by invading armies. Still more extended schemes of settlement were planned, and extensive grants of land were made upon the same condition as the French grants in Canada.¹ Soon after their first occupation, the French caused a survey of the lake and its shores to be made by Sieur Anger, surveyor to the King; and the work seems to have been carefully done. In 1755 the French advanced 12 mi. nearer to the English settlements, and commenced the fortification of Ticonderoga upon a point that entirely commanded the passage of the lake. The fort was named by them "*Carillon*;"² but it is now generally known by the Indian name of Ticonderoga. Upon it vast sums of money were afterward expended by both the French and English, and it became the most formidable fortress in America. The French here made a stand against the advances of the English; and when at length it was found to be no longer tenable, Crown Point and all the posts along the lake were at once abandoned.

The repeated incursions of the French and Indians into the English settlements, and the continual advancements of the French military posts, at length aroused the attention of the English Government and led to the conviction that the very existence of the frontier settlements depended upon the complete overthrow of the French power in America. One of the great expeditions of 1755 was directed against Crown Point. The English troops, under the command of Gen. Lyman, built Fort Lyman—afterward Fort Edward—on the Hudson, and, under Sir Wm. Johnson, who assumed the command, advanced to the head of Lake George. Here, learning that the French were fortifying Ticonderoga and that they had received large reinforcements, Sir William chose a commanding position and fortified his camp. In the mean time, Baron Dieskau, the French commander, at the head of a superior force, endeavored to cut off his communication with Fort Lyman. A body of provincial troops, under Col. Williams,³ of Mass., and of Indians, under the famous Mohawk chief Hendrick, thrown out as an advance guard by Sir Wm., fell into an ambush, and the whole party were cut to pieces, and the two leaders killed. The French immediately attacked the English camp, but were repulsed with great loss, and the retreating fugitives were mostly killed or taken prisoners by a party of fresh English troops from Fort Lyman. Sir Wm. did not follow up his success, but spent the remainder of the season in constructing Fort Wm. Henry on the site of his camp, leaving the French to strengthen their works at Crown Point and Ticonderoga without molestation. No general expedition was projected during 1756, and the only active warfare was carried on by adventurous parties of rangers.⁴

From this time to the close of the war, and again during the Revolution, this co. was the theater of important military events. We have space only for a brief chronological recapitulation of the principal ones as they occurred. The partizan warfare, with varying success, continued through the winter and spring of 1756-57. In July, Montcalm, Gov. of Canada, assembled 9000 men at Ticonderoga, and marched to the head of Lake George, for the purpose of reducing Fort Wm. Henry; which object he accomplished Aug. 3.⁵ In the summer of 1758 an expedition was fitted out against Ticonderoga, and was intrusted to the command of Gen. Abercrombie. On the 5th of July he crossed Lake George with 17,000 men; and on the 6th the advanced guard of his army was surprised by the French, and many killed, among whom was Lord Howe,⁶ second in command. On the 8th the English army endeavored to take the fort by storm, but were repulsed with a loss of 2000 men. In 1759, Gen. Amherst, at the head of 12,000 men, proceeded to invest Ticonderoga. The French troops having been mostly withdrawn for the defense of Quebec, the whole fortress was dismantled, and abandoned on the 30th of July. Crown Point was soon after abandoned, and the whole region came into the undisputed possession of the

¹ A seigniory, extending 3 leagues along the lake shore and 2 leagues back, was granted, June 13, 1737, to Sieur Louis Joseph Robert, the king's storekeeper at Montreal. Its northern boundary was to be half a league below the "*Baguet*" (Boquet) River, and its southern 2½ leagues above. This territory embraced the present town of Essex and a large part of Willsborough. Another seigniory, extending 6 leagues along the lake and 5 back, was granted, Nov. 16, 1758, to Michael Chartier de Lotbinière. It was called "*D'Alainville*," and embraced the present towns of Ticonderoga, Crown Point, and Schroom. Settlements which commenced upon this grant were broken up by the English armies. Most of the seigniory was granted to officers and soldiers of the English army, in accordance to his majesty's proclamation of Oct. 7, 1763. After the cession of Canada, the French proprietor presented his claims to the English Government, with no other effect than to create a considerable temporary alarm among the English settlers.

² See page —.

³ On his way to the frontiers, Col. Williams stopped at Albany

and made his will, leaving a sum of money to found a free school in Western Mass. This legacy founded and gave the name to Williams College. In 1861 the alumni of the college erected a monument to his memory on the spot where he was killed.

⁴ The most enterprising of these rangers were Maja, Israel Putnam and Robert Rogers. The party commanded by the latter officer consisted of old hunters, accustomed to all kinds of hardships and privations. Among his officers was John Stark, afterward Gen. Stark of the Revolution. These parties hung upon the outskirts of the French forts, took off their sentinels, burned their villages, killed their cattle, destroyed their boats, and annoyed them in every possible manner.

⁵ See page —; *Lossing's Field Book of the Revolution*; *Bancroft's Hist. U. S.*

⁶ Brother of Sir William Howe and Admiral Howe, English commanders during the Revolution. Lord Howe was a brave and enterprising officer, greatly beloved by the army, and his loss was deeply deplored.

English. The works at Ticonderoga and Crown Point were enlarged and strengthened, at a cost of \$10,000,000.¹

By the provisions of the Treaty of Paris, signed Feb. 10, 1763, in which the French ceded their possessions in North America to the English, the latter government was bound to respect the titles to land previously granted by the former. The proclamation of the King of Oct. 7, 1763, authorized the granting of the lands upon Lake Champlain to officers and soldiers who had served in the war. These incompatible acts led to much confusion. Overlapping claims and conflicting titles unavoidably followed; and the matter was not finally settled until after the Revolution. In the mean time, the controversy had the tendency to retard settlement, by destroying confidence in the titles by which the land could be held and conveyed.

Settlement was commenced upon the Boquet in 1765, under the auspices of Wm. Gilliland, a wealthy merchant of N. Y.² Through his agency, and that of other capitalists, several miles of the lake shore between the mouth of the Boquet and Crown Point were settled, mills and roads were built and schools established. Mr. G. held a justice's commission, and for many years was the only judicial authority.³ The settlers whom he induced to locate upon his estate were mostly Irish.

After the cession of Canada the great fortresses on the lake were allowed to fall into partial decay, and were held by only small bodies of troops. Upon the receipt of the news of the commencement of hostilities at Lexington, a small body of troops, known as "Green Mountain Boys," under Col. Ethan Allen, surprised and took both Ticonderoga and Crown Point in May, 1775.⁴ During the summer and autumn of the same year the expedition, under Schuyler and Montgomery, against Canada, passed down the lake, and returned the next spring, unsuccessful. During the summer of 1776, naval forces were organized upon the lake by both the British and Americans, the latter under the command of Benedict Arnold. In an engagement that ensued, the Americans were defeated, and their remaining vessels were obliged to take refuge under the guns of the fort Ticonderoga. Crown Point was dismantled, and the stores removed; and soon after it was taken possession of by the British. Mr. Gilliland and the colonists ardently embraced the American cause, and materially aided Montgomery's army in its advance on Canada, by furnishing provisions, and, on its return, by affording relief to the sick and wounded.⁵ Mr. G.'s estate was wasted by both friends and foes, and finally the whole settlement was broken up by Burgoyne.⁶

Burgoyne landed on the banks of the Boquet, June 21, 1777, and spent several days in conferences with the Indian tribes; and on the 27th the invading army advanced to Crown Point. On the 30th they invested Ticonderoga; and on the night of July 4 they took possession of "*Sugar Loaf Hill*," (now Mt. Defiance,) and erected upon it a battery of heavy guns, completely commanding the fort. On the night of the 5th the Americans hastily embarked their stores and munitions of war upon bateaux, and sent them up to Skenesborough under convoy, and the main body of the army escaped into Vt.⁷ Both parties were quickly pursued, and the tide of war slowly and sullenly rolled southward, beyond the limits of the co.

In Sept. Gen. Lincoln, at the head of a body of militia stationed at Manchester, Vt., made an attack upon these works, took Mts. Hope and Defiance, released 100 American prisoners, took 293 of the enemy, and captured an armed sloop, several gun boats, and more than 200 bateaux.⁸ The fort was not taken. After the surrender of Burgoyne the place was dismantled, and the garrison retreated down the lake. The rear division of their boats, with 50 men and a large quantity of

¹ The fort and field works at Ticonderoga spread over an area of several miles, and the fortresses at Crown Point embraced seven acres. The ruins of these works now visible still attest their extent and magnitude.

² Mr. Gilliland at first designed to lay the foundation of a vast baronial estate; and hence he sold no land, but leased it on the most favorable terms.

³ A convention of the settlers was held March 17, 1775, (St. Patrick's Day,) and a local, independent government was adopted. The management of affairs was intrusted to a moderator, two supts. of roads and bridges, three appraisers of damages, and a town clerk. Just before the Revolution, a scheme was devised to form a separate colonial government, embracing all the territory north of Mass. and between the Connecticut and St. Lawrence Rivers. Philip Skene, the founder of "*Skenesborough*," (now Whitehall,) is believed to have been the leading spirit of this movement, and his appointment as gov. of the forts of Ticonderoga and Crown Point in June, 1775, seems to give color to this belief. See *Journals of Congress*, June 8, 1775; *Watson's Ag. Survey*, Tr. Ag. Soc., 1852, p. 694.

⁴ The capture of these forts, and of the armed schooner upon the lake, was of immense importance to the Americans, as it supplied them with a great amount of cannon and other munitions of war.

⁵ Gen. Carlton offered a reward of \$500 for the delivery of Gilliland in Canada. Sheriff White, of Tryon co., and a party

of Tories and Indians, who attempted to capture him, were themselves captured and sent to Gen. Schuyler.

⁶ Mr. G. assisted Arnold in the prosecution of his designs to the extent of his ability; and, in return for the kindness, Arnold, by an arbitrary stretch of power, destroyed his dwellings, mills, and stores, and nearly reduced him to poverty. In a memorial to Congress in 1777, Gilliland held the following truthful and prophetic language in regard to Arnold:—"It is not in mine, but it is in your power to bring him to justice. Bursting with pride, and intoxicated with power,—to which he ever ought to have been a stranger, but which he has had art enough to obtain from you,—he tyrannizes where he can. If temerity, if rashness, impudence, and error, can recommend him to you, he is allowed to be amply supplied with these qualities; and many people think they ought to recommend him in a peculiar manner to Lord North, who, in gratitude for his having done more injury to the American cause than all the ministerial troops have had the power of doing, ought to reward him with a generous pension."

⁷ A heavy chain, 1000 feet long, and an immense boom, erected across the lake by the Americans at great labor and expense, were cut through in 2 hours.

⁸ In this expedition the Continental standard left behind by St. Clair was recovered.

military stores, were captured by a party of "Green Mountain Boys" under Capt. Ebenezer Allen. In 1780, Gen. Haldeman, with a party of British soldiers, advanced to Ticonderoga and occupied it for some time. Maj. Carleton here made a diversion in favor of Sir John Johnson, by an attack upon Forts Anne and George. In 1781 the British fleet several times entered the lake, but retired without accomplishing any thing.¹ In 1784, Gilliland returned to his ruined settlement and endeavored to retrieve his waning fortunes. Relinquishing his ideas of manorial greatness, he offered his lands for sale; but adverse lawsuits and treacherous friends soon dissipated the remnant of his wealth and brought his existence to a miserable close.² The progress of settlement at first was not very rapid. In 1795 there were in Clinton co.—then embracing Essex—but 624 legal voters. From that time forward, however, settlement progressed with great rapidity, and several public roads were opened to facilitate it.³ Soon after the war an arsenal was erected at Elizabethtown. During the patriot excitement it was robbed; and since, it has been sold.

CHESTERFIELD—was formed from Willsborough, Feb. 20, 1802. It lies in the n.e. corner of the co., upon the shore of Lake Champlain. Its surface is broken and mountainous. The Jay Mountains, a northern spur of the Adirondack Range, extend northward through the w. part. This range is a continuous, high, rocky ridge, without a single pass, forming an almost impassable barrier between Chesterfield and Jay. The main Adirondack Range extends through the center of the town from s. w. to n. e., ending at Trembleau Point, a high, rocky bluff 1200 to 1500 feet above the surface of the lake. Bosworth Mountain and Poke-a-Moonshine, each attaining an elevation of about 3000 feet, are the two principal peaks within the limits of the town. The s. e. part is hilly. The n. e. part is a rolling table land, with a light, sandy, and unproductive soil. There are several lakes in the interior, the principal of which are Augur and Buttermilk Ponds. Not more than one half of the surface is susceptible of cultivation. The principal valuable minerals that have been found are iron, graphite, and a beautiful light brown marble. Schuyler Island, in the lake, belongs to this town. The Au Sable River, upon the n. border, affords a large amount of hydraulic power, and some very attractive scenery. The falls at Birmingham have a descent of 90 feet, including the rapids above the main fall.⁴ **Keeseville** (p. v.) is situated on both sides of the Au Sable River, its northern part being in Clinton co.⁵ It is the seat of extensive iron works and other important manufactures. The iron from the ore is made into nails, horseshoes, merchant iron, edge tools, and machinery. The village has a bank, an academy, and 5 churches. Pop. according to last census, 2569, of which 1370 were in Chesterfield. **Port Kent**,⁶ (p. v.) on Lake Champlain, contains 25 houses; **Port Douglas** 5; and **Birmingham** 6. The first settlers were Matthew Adgate and sons, who came in about 1792.⁷ The first church was Cong., and the first preacher was Rev. Cyrus Comstock.⁸

CROWN POINT—was formed March 23, 1786, and named from the old French fortress,⁹ situated on the lake, within its limits. Elizabethtown was taken off in 1795, Schroon in 1804, and Moriah in 1808. It lies upon the shore of Lake Champlain, s. e. of the center of the co. A strip of nearly level land, about 4 mi. wide, extends along the lake shore. The central part of the town is broken, the hills gradually rising into the Kayaderosseras Mts. in the w. Putnams Creek, the principal stream, takes its rise in the ponds and lakes among the mountains, and upon its course are numerous falls, furnishing an abundance of water power. The soil upon the lake shore is a deep, rich, clayey loam; and in the interior it is of a light, sandy nature. Abundance

¹ For a long time there was a great mystery connected with these movements, which was afterward explained by the publication of the negotiations which took place between the Gov. of Canada and the "Vt. Council of Safety."

² For some time he was confined in N. Y. for debt; but, regaining his freedom, he returned to the scene of his former enterprise. Here meeting with new disappointments and treachery, and becoming partially deranged by his misfortunes, he wandered into the wilderness and perished of cold and exposure.

³ Among these public roads were one from Willsborough Falls to Peru; another, known as the "Old State Road," from Sandy Hill, along the Schroon Valley, to Canada Line; and another across the s. w. corner of the county from Canton to Chester. In 1790, Platt Rogers established a ferry across the lake, at Basin Harbor. He also built several roads, and a bridge over the Boquet at Willsborough Falls. For constructing these and other public works, Rogers and his associates received a grant of 73,000 acres of unappropriated land.

⁴ See page —.

⁵ The first settler of Keeseville was Robert Hoyle, who built

the first bridge and sawmill and kept the first store, in 1802. It was first called "*Long Chute*." About 1812 the property came into the hands of Richard and Oliver Keese and John W. Anderson, who erected a woolen factory and iron works in 1813. The name was first changed to "*Andersons Falls*," and afterwards to Keeseville. See Clinton co., town of Au Sable.

⁶ Both Port Kent and Keeseville are centers of extensive and important iron districts.

⁷ Alva Bosworth, Elisha Briggs, Edward Palmer, Levi Cooley, Dr. Clark, John and Benj. Macomber, John Page, and — Norton, were among the first settlers. The first child born was Thos. Kaugham, and the first death that of Abel Hundly.

⁸ The census reports 5 churches; F. W. Bap., M. E., Presb., Prot. B., and R. C.

⁹ The point which contains the ruins of this fortress is supposed to have been an important commercial mart previous to the French War; but now it contains only a single farm house.

of rich iron ore is found; and in connection with it are beds of natural phosphate of lime. Graphite and black clouded marble are also found in great abundance. On the shore of the lake is a mineral spring, containing sulphates of lime and magnesia. The manufacture of iron is carried on to a great extent; and, besides, there are considerable establishments for the manufacture of lumber, shingles, pails, sash and blinds, and woolen goods. **Hammons Corners** (p. v.) contains 35 houses, and **Ironsedale** (late "*Penfield*") 20. The first settlement was made at a very early period by the French. The country around Fort St. Frederick, upon the point, seems to have been once the seat of thriving villages, the remains of which are still plainly visible.¹ All these settlements were completely obliterated during the French war of 1755-60. During the peace which followed, settlements were again made, and in 1777 were again destroyed.² Religious services were early held in the chapel of the fort, and were continued during its military occupation.³

ELIZABETHTOWN—was formed from Crown Point, Feb. 12, 1798, and was named in compliment to Elizabeth, wife of Wm. Gilliland. Moriah and a part of Keene were taken off in 1808, and Westport in 1815. A part of Jay and Lewis were annexed Jan. 31, 1844, and a part of Lewis, Nov. 17 1854. It is an interior town, lying a little n. of the center of the co. The Boquet Mts. occupy the n. w. and the Schroon Range the s. e. corner of the town. Raven Hill, an offshoot from the former range, in the n. e. corner, is 2100 feet above tide; and the "Giant of the Valley," the highest peak of the latter range, has an elevation of 2500 to 3000 feet. A perpendicular precipice of 700 feet lies on the northern declivity of this mountain. The Boquet River flows in a n. e. direction through near the center of the town. Its valley, one-fourth of a mile to a mile in width, comprises the greater part of the arable land. Not more than one-fourth of the surface is susceptible of cultivation. Extensive beds of iron ore are found in various parts of the town. In the s. e. part, a hill, 200 feet high, covering 40 acres, is supposed to be nearly a solid mass of iron, except a slight covering of drift. An extensive bed of kaolin, or porcelain clay, is also found in town. The manufacture of iron is one of the leading pursuits: there are several forges in town. The soil is a sandy or gravelly loam. **Elizabethtown**⁴ (p. v.) is pleasantly situated upon the Au Sable River, near the foot of several high peaks. It is the co. seat, and a place of considerable trade. Pop. about 500. **New Russia** (p. v.) contains about 100 inhabitants. Among the first settlers were Jonah Hanchett, Sampson Smith, Herman and Joel Finney, Wareham Barber, Nathan Lewis, Hez. and Ira Phelps, Wm. Kellogg, and Gardner Simonds, who came in about 1792. The first school was taught by Dr. Kincade. The first church (Bap.) was organized in 1796 or '97.⁵

ESSEX—was formed from Willsborough, April 4, 1805. It lies upon the shore of Lake Champlain, n. of the center of the co. The surface is rolling in the e. and mountainous in the w. Boquet Mt., in the n. w. part, has an elevation of about 1000 feet above the lake. Split Rock, the extremity of the Schroon Mountain Range in the s. e. corner of the town, has already been described.⁶ The Black River limestone crops out in this town, and is used both for building purposes and for the manufacture of lime. The Boquet River flows northerly through near the center of the town. Upon it are several falls, affording abundance of water power. The soil is a clayey loam upon the lake, and a light sandy loam among the mountains. Manufactures, consisting of wrought iron, nails, spikes, lumber, and woolen goods, are carried on. **Essex**⁷ (p. v.) has a population of about 700, **Whallonsburgh** (p. v.) 250, and **Boquet** 200. The town was first settled by Wm. Gilliland, in 1765.⁸ Wm. McAuley, a relative and coadjutor of Mr. G., located upon the site of the present village of Essex.⁹ This settlement was broken up during the Revolution.¹⁰ The first church (Prot. E.) was organized in 1805.¹¹

¹ The Swedish traveler Kalm mentions the existence of this early settlement; and the "Journal of Major Rogers" speaks of villages, well filled bars, herds of cattle, and fields of grain. Chimney Point, upon the eastern shore of the lake, derives its name from the remains of early habitations found there by the present race of settlers.

² Among the first settlers after the Revolution were George Trimble, James Morrow, Aaron Townsend, Denoie Meagher, Andrew Hardy, Saml. Foot, and Elisha Rhodes. The first mill was a windmill, a short distance s. of the fort. James Morrow erected the first mill and kept the first inn and store after the Revolution. Washington visited Crown Point in 1784.

³ Benj. Wooster was the first preacher after the Revolution. The first church (Cong.) was organized in 1804. The census reports 4 churches; 2 Cong., M. E., Union.

⁴ Elizabethtown was named "*Pleasant Valley*" by the first settlers, and is now locally known as "*The Valley*."

⁵ The census reports 3 churches; Bap., Cong., M. E.

⁶ See page —.

⁷ A blockhouse was built in this village in 1797, in consequence of the alarm occasioned by St. Clair's defeat; and in 1799, upon the organization of the co., it was used for a co. courthouse, and continued as such until the erection of the co. buildings at Elizabethtown, under the act of 1807.

⁸ See page —.

⁹ Among the first settlers after the Revolution were Danl. Ross, (first merchant and mill owner,) Isaac and Benj. Sheldon, Benj. Stafford, Danl. Murray, Hen. Van Ormand, Dr. Colburn Clemens, (first physician,) David, Abram and Ahner Reynolds, Nehemiah Payn, and James Eldrich. The first school was taught by Miss Townner. The first male teacher was Enoch P. Henry.

¹⁰ In Oct. 1777, in this town, the retreating British garrison of "Blondeville" was attacked by a party of "Green Mountain Boys," under Capt. Ebenezer Allen, and 50 men and all the military stores were captured.

¹¹ The census reports 6 chs.; M. E., Wes. Meth., 2 Bap., 2 Presb.

JAY¹—was formed from Willsborough, Jan. 16, 1798. A part of Keene was taken off, in 1808, of Wilmington (as "*Dansville*") in 1821, and a part of Elizabethtown in 1844. Parts of Peru (Clinton co.) and Chataugay (Franklin co.) were annexed, March 22, 1822. It lies upon the n. border of the co., w. of the center. The Au Sable Mts., extending through the w. part, gradually decline toward the n. Mts. Hamlin, Clark, and Bassitt, each 2000 feet above tide, are the highest peaks; the Jay Mts., a n. spur of the Adirondacks, lie along the e. border. The extreme s. angle of the town is occupied by some of the most lofty and rocky peaks of the Adirondacks. The e. branch of the Au Sable flows through near the center of the town. Veins of black lead have been found, but not worked. Iron ore is found in abundance. The soil is a light, sandy and gravelly loam. A mineral spring, near Upper Jay, contains iron and sulphur. The manufacture of bar iron, nails, and bloom iron is extensively carried on. **Au Sable Forks**, (p. o.,) an iron manufacturing village, contains 70 houses; **Jay** (p. v.) 50, and **Upper Jay** (p. v.) 20. Nathaniel Mallory was the first settler, about 1796.² The first church (Bap.) was formed in 1797; the first preacher was Solomon Brown.³

KEENE—was formed from Elizabethtown and Jay, March 19, 1808. North Elba was taken off in 1849. It extends from the center of the co. toward the n. and w. The Adirondack Mts. extend through the center of the town and occupy nearly its entire surface, leaving little or no arable land. The principal peaks are Mt. Marcy, 5467 feet above tide; Long Pond Mt., 3000 feet; and Pitch Off,⁴ 2500 feet. The Au Sable, flowing n., forms the principal drainage. The valley is so narrow that there is scarcely room for a road between the mountain and stream; and freshets often occur that sweep every thing before them, and sometimes cut deep channels in the earth down to the solid rocks.⁵ Iron is found in numerous veins along the course of the river, and is manufactured to some extent. **Keene** (p. v.) contains about 30 houses. The first settlement was made about 1797.⁶ The only church (M. E.) was organized in 1800.⁷

LEWIS—was formed from Willsborough, April 4, 1805, and named in honor of Morgan Lewis, then Governor of the State. Parts of Elizabethtown were taken off in 1844 and 1854. The Adirondack Mts. occupy the n. w. and the Boquet Mts. the s. e. part of the town. The latter range is not a continuous ridge through this town, but consists of several isolated peaks, the principal of which is Mt. Discovery, 2000 feet above tide. The remaining parts of the town consist of steep rocky hills and narrow valleys, and not more than one-third of the surface is susceptible of cultivation. Numerous beds of iron ore are found; but none have been extensively worked. The soil is a sandy and gravelly loam. In the n. w. part is a mineral spring of some notoriety. **Lewis** (p. v.) contains 20 houses. Wm. Hinckley made the first purchase of land and the first settlement, in 1796.⁸ The first church (Cong.) was formed in 1804, and the first preacher was Rev. Mr. Burbank.⁹

MINERVA—was formed from Schroon, March 7, 1817; a part of Newcomb was taken off in 1828. It is the s. e. corner town of the co. Its surface is a high, broken upland, bordered by mountain ranges. The Boquet Range traverses the n. w. border, and the Schroon Range the s. e. The intermediate portion is hilly, with a mean elevation of 1200 to 1500 feet above tide. Nearly the whole town is still covered with forests, the settlements being confined to the s. e. corner. The soil is cold and hard, and only moderately productive. On Orrin West's farm is a cave of considerable extent. Lumbering is the leading pursuit. **Olmsteadville**¹⁰ (p. v.) contains 20 houses; **Minerva** is a p. o. The first settlers were Ebenezer West, and his sons Nathan, Ebenezer and John, in 1804.¹¹ The first church (Bap.) was formed in 1810, by Elder Fort.¹²

MORIAH—was formed from Crown Point and Elizabethtown, Feb. 12, 1808. A part of

¹ Named from John Jay, then Governor of New York.

² Among the other first settlers were J. W. Southmaid, Joseph Storrs, John Purnort, Robert Otis, Ezekiel Lockwood, Nathl. Ray, Josiah Way, and Joseph Fowler. Wm. Mallory built the first mill.

³ The census reports 6 churches; Bap., Cong., and 4 M. E.

⁴ A perpendicular cliff on the north side of this mountain, 300 to 500 feet high, gives to it its singular name.

⁵ A most destructive flood occurred from excessive rains, Sept. 30, 1856; and the damage which this occasioned was increased by the breaking away of the State dam across the s. branch of the Au Sable, in this town. The testimony relating to this accident (forming a vol. of 368 pp.) was printed by order of the Canal Board, in 1858.

⁶ Among the first settlers were Benj. Payne, Timothy Pangburn, Thos. Roberts, Zadock Hurd, Eli Hall, Thos. Taylor, Oen. Reynolds, and David Graves. The first child born was Betsey Payne; the first marriage, that of Thos. Dart and Cynthia Griswold; and the first death, that of Eli Bostwick. Asa A. Andreas taught the first school, and Zadock Hurd kept the first inn.

⁷ Among the other early settlers were Dea. Putnam, Samuel Bishop, Charles, Saml., and Noah Lee, Ishmael H. Holcomb, Hooker and Timothy Woodruff, Ziba Westcott, and Ziba Flagg. The first child born was Oliver Holcomb; the first marriage, that of Timothy Woodruff and Eunice Newell; and the first death of an adult, that of Mrs. John Smith. Levi Parsons taught the first school.

⁸ The census reports 1 M. E. ch.

⁹ A Meth. church was formed in 1808.

¹⁰ There is an extensive tannery at Olmsteadville, which makes the village.

¹¹ Among the other first settlers were Wm. Hill, (first mill owner), Thos. Leonard, Richard Miller, Abner Tshman, James Cary, Philo Hawley, and A. P. and Asa Morse. The first settlements were chiefly made along the line of the Canton and Chester Road. The first child born was Francis West; the first marriage, that of Richard Miller and — West; and the first death, that of Elizabeth West.

¹² The census reports 3 churches; Bap., M. E., R. C.

Newcomb was taken off in 1828, North Hudson in 1848, and a part of Westport was annexed, April 9, 1849. It lies upon the shore of Lake Champlain, s. of the center of the co. A narrow strip of level land extends along the shore of the lake, from which the surface gradually rises to a height of about 500 feet, where it spreads out into a hilly plateau region, rising into mountains on the w. border. About one-half of the surface is susceptible of cultivation. The soil upon the lake is a clayey loam, and in the hilly regions a light, sandy loam. This town is very rich in minerals. Fourteen veins of iron ore have been opened, producing iron of a very superior quality;¹ the supply seems to be inexhaustible. Black lead, and a beautiful variety of *verd antique* serpentine, are also found. The manufacture of iron forms one of the leading pursuits. **Moriah** (p. v.) contains Moriah Academy and a pop. of 275, and **Port Henry**² (p. v.) contains a pop. of 503. The first settlers after the Revolution were Wm. McKenzie, Abel Butler, James McClane, Jabez Carpenter, G. H. and John Havens, and Joseph Curtis.³ The first church formed was a Cong.⁴

NEWCOMB—was formed from Minerva and Moriah, March 15, 1828. It lies near the center of the w. border of the co. The Adirondack Range extends through the center of the town and occupies more than one-half of its entire surface. The principal peaks, commencing on the s. w., are Mts. Goodwin, Moore, Sandanona, Henderson, McIntyre, and McMartin, each 3000 to 5000 feet above tide. The remaining parts of the surface consist of a broken upland, with a hard, sour, unproductive soil. Among the gorges in the mountains are great numbers of small lakes. Lake Colden, upon the n. e. border, is 2851 feet above tide; and Avalanche Lake, just n., is 50 feet higher. The noted Adirondack or Indian Pass, partly in this town and partly in N. Elba, is a deep gorge between Mt. McIntyre and Wallface. The bottom of the pass is 2800 feet above tide, and the mountains on each side are 1000 to 1500 feet higher. Wallface, forming the w. border of the pass, is bounded by a perpendicular precipice a mile in length and 800 to 1000 feet in height. The Adirondack iron beds, near Lakes Sanford and Henderson, are among the most extensive in the world. One of them has been traced upon the surface for a mile in length, 700 feet in width, and has been penetrated to the depth of 40 feet without any signs of diminution in quantity or quality of ore. It forms a bar across the river, the water literally falling over an iron dam. This ore yields 75 per cent. of pure metal, is easily worked, and makes an admirable quality of iron. For the manufacture of steel it surpasses all other ores in America, and equals those of the most celebrated mines of Sweden and Russia. The mountainous character of this town, and its remoteness from the great routes of public improvement, have prevented the development of its immense mineral resources. There is very little tillable land in the town. **Adirondack** has about 15 houses. The first settlement was commenced in 1816, by Joseph Chandler.⁵ A M. E. church was formed in 1843, and a Wes. Meth. in 1845.

NORTH ELBA—was formed from Keene, Dec. 13, 1849. It lies upon the w. border of the co., n. of the center. The Adirondack Range occupies the s. part, and a branch of the Au Sable traverses the n. e. part. Whiteface,⁶ belonging to the latter range, has an elevation of 4855 feet above tide. At its foot lies Lake Placid, a beautiful sheet of water, 4½ mi. long by 1½ broad, and nearly divided in the center by 3 islands. Bennetts, Connery, and Round Ponds are in the immediate vicinity. The central portion of the town is a hilly upland, and the n. w. part a rolling table land, known as "The Plains." The Au Sable and Saranac Rivers form the principal drainage. The soil is a thin, sandy and gravelly loam. The people are principally engaged in lumbering. **North Elba** is a p. o. Settlement was commenced about 1800, by Elijah Bennett.⁷ The first church (Cong.) was formed in 1824, and the first preacher was the Rev. Cyrus Comstock.

¹ In 1852, 26,800 tons of ore were exported from Moriah to Penn., Vt., Va., Me., and Md. The quantity contracted for exportation from that town, in 1853, amounted to 107,500 tons, of which 16,000 were to Penn., 10,000 to Mass., 3500 to Va., 1500 to Ohio, 1500 to N. J., and 1000 to Me.—*Tr. N. Y. S. Ag. Soc.*, 1852, p. 827.

² The site and water power of Port Henry were granted to Benj. Porter in 1766. It is supposed that he erected a mill soon after, which was destroyed during the Revolution. After the war, he returned, and, in connection with Robt. Lewis, of Albany, rebuilt the mill, which has remained up to a recent date. One of the first furnaces in the co. was erected here in 1824, by Maj. James Dalilba. It was a cold blast furnace, and was used for the manufacture of pig iron, and the casting of hollow ware and agricultural implements. Several extensive anthracite coal furnaces have lately been put in operation.

³ The first child born was Alex. McKenzie, in 1785; the first marriage, that of John Ferris and Deborah Wilcox; and the first death, that of John Atwater, (by drowning.) Miss Abi Collins taught the first school. The first authorized ferry was granted to Robert Lewis, April 3, 1811, for 10 years.

⁴ The census reports 5 churches; Bap., M. E., Presb., R. C., Union.

⁵ James Chandler, Collins Hewitt, and Wm. Bntler came in to reside in 1818. Among the other first settlers were Elisha Bissell, Abner Belden, David Fierce, Cromwell Catlin, and James Ramsey. The first child born was Nathl. F. Hewitt; the first marriage, that of Abner Belden and Berachiah Butler; and the first death, that of Eliza Butler. Harriet Chandler taught the first school.

⁶ Whiteface derives its name from a landslide, which has laid bare the rocks upon its s. e. slope, giving it a whitish gray appearance. This mountain is nearly isolated; and from its summit is obtained one of the finest and most extensive views in Northern N. Y.

⁷ Among the other early settlers were Isaac Griswold, Eli Mack, Jonathan Bliss and son, Iddo Osgood, Jerem. Kneeland, James Porter, and Daniel McArthur. The first marriage was that of Elijah McArthur and Electa Brooks; and the first death, that of Annab Taylor, who perished by cold in the woods. Fanny Dart taught the first school.

NORTH HUDSON¹—was formed from Moriah, April 12, 1848. It is an interior town, lying a little s. of the center of the co. The Boquet Mts. occupy the central and w. portions, the principal peaks of which are Dix Peak, 5200, and Nipple Top, 4900 feet high. The Schroon Mts. traverse the e. border of the town. There are numerous small lakes in the e. part, the principal of which is Bull Pout Pond. The soil is a light, sandy loam, and not more than one-eighth of the surface is arable. The Moriah iron district extends into the e. part, and the manufacture of iron forms a leading pursuit. **North Hudson** (p. v.) contains 15 houses, and **Dead Water Iron Works** (p. v.) 10. The first settler was Benj. Pond.² The first church (M. E.) was formed in 1838.

ST. ARMAND—was formed from Wilmington, April 23, 1844. It derived its name from the old French name of the Saranac River. It is the n. w. corner town of the co. Its surface is rolling and is inclined toward the n. w. The ridges extend in a n. e. and s. w. direction, and are 200 to 300 feet above the valleys. The average height of the town is 1500 to 1800 feet above tide. The Saranac, flowing in a n. e. direction, forms the principal drainage. Moose Creek, its chief branch, flows through Moose Pond, a small lake covering an area of about 200 acres. The soil is a sandy and gravelly loam. The people are chiefly engaged in lumbering. **Bloomfield**, the only village, contains about a dozen houses. There is no p. o. in town. Settlements are of recent date. Among the first settlers were Daniel Crouch, Thos. and Antrim Peck, Geo. Lowrie, Wm. Stranahan, Aaron Brimhall, and Ellis and Milton Goodspeed.³ The first church (Bap.) was formed in 1852.

SCHROON⁴—was formed from Crown Point, March 20, 1804. Minerva was taken off in 1817, and a part was reannexed to Crown Point, Feb. 26, 1840. It lies near the center of the s. border of the co. The w. and n. w. portions are occupied by the Schroon Range, and the s. e. portion by the Kayaderosseras Range. Mt. Pharaoh, the highest peak of the latter range, is 3000 to 3500 feet above tide. There are great numbers of other elevated mountain peaks, that have never been named. Not more than one-fourth of the town is susceptible of cultivation; and the greater part of the arable land is in the narrow valley of Schroon River. Schroon Lake is a fine body of water, 10 mi. long. Near the foot of Mt. Pharaoh lies a cluster of small lakes, the principal of which is Paradox Lake.⁵ The soil is a thin, sandy loam. Iron is found in various parts, and black lead has also been found. **Schroon Lake** (p. v.) contains 40 houses. **Schroon River** is a p. o. Settlement was commenced in 1797, by Samuel Scribner, Thos. Leland, Moses Pettee, Benj. Bunker, and Simeon Rawson, all from New England.⁶ The first church (Bap.) was organized in 1830.⁷ Jehial Fox was the first preacher.

TICONDEROGA⁸—was formed from Crown Point, March 20, 1804. It lies upon the shore of Lake Champlain, and is the s. e. corner town of the co. The portion between Lakes George and Champlain is the extremity of a mountain ridge ending in Mt. Defiance, 750 feet above the surface of the lake. North of this a strip of level land, about 4 mi. wide, extends along the lake shore, from which the surface gradually rises into the mountainous region which forms its w. border. About three-fourths of the town is susceptible of cultivation. The outlet of Lake George, the principal stream, in the course of a mile and a half descends 150 feet; and as the water never freezes, and its quantity does not materially change during the year, it furnishes one of the most valuable water-powers in the State. The soil is a stiff clay upon the lake, a clayey loam in the center, and a sandy loam in the w. part. The manufacture of lumber,⁹ leather, and black lead¹⁰ is extensively carried on. **Upper Falls** is a village of 40 houses, **Lower Falls** of 60, and **Ti Street** of 30. **Ticonderoga** is the only p. o. Settlements were begun in this town by the French, soon after the commencement of the fortress in 1755; but they were soon

¹ Named from its location upon the upper branches of the Hudson.

² Among the first settlers were Randall Farr, (first innkeeper,) Wm. Pond, Samuel Norton, Wm. Everett, Benj. Cummings, Russell Walker, Wm. Mallory, Timothy Chellis, Hez'k Keech, and Titus Walker. The first death was that of Mrs. Halloway. Janet Post taught the first school.

³ The first child born was Silas Crouch; the first marriage, that of Adrian Storrs and Lovina Hough; and the first death, that of — Goodspeed.

⁴ This name is said to be a corruption of "Scharon," and to have been applied in honor of the Duchess of Scharon, favorite of Louis XIV. Some say Schroon is derived from an Adirondack word, signifying a child or daughter of the mountain.

⁵ The surface of this lake is so near the level of the Schroon River, whil' it forms its outlet, that in seasons of flood the water flows into instead of out of it; hence its not inappropriate name.

⁶ Among the other early settlers were George Moore, Elijah Garfield, James Livingston, Geo. Whitney, Cornelius Travers, Abel Tapp, and John Bowker. The first child born was John T. Leland; the first marriage, that of John Scribner and Silence Leland; and the first death, that of Mrs. Benj. Bowker. Clark Ranson taught the first school.

⁷ The census reports 4 churches; Bap., M. E., Presb., Union.

⁸ The Indian name "Tsinondrosie," or "Cheonderoga," signifying "Brawling Water;" and the French name "Carillon," signifying a "Chimo of Bells," were both suggested by the noise of the rapids upon the outlet of Lake George.

⁹ In 1862, 600,000 pieces of lumber were shipped from this point.

¹⁰ Above 30 tons of black lead are manufactured per year; and the vein of graphite seems inexhaustible.

broken up. During the French War many skirmishes¹ and one general engagement² took place in the town. The subsequent history of the fortress belongs to the general history of the country. Permanent settlement commenced immediately after the Revolution.⁴ The first church was St. Pauls, Prot. E.; and the first preacher, Rev. Mr. Harwood.⁵

WESTPORT—was formed from Elizabethtown, March 24, 1815. It lies upon the shore of Lake Champlain, near the center of the e. border of the co. The Schroon Mts. extend n. e. and s. w. through the town, occupying nearly all of the w. half. A wide valley extends w. from Northwest Bay, breaking the continuity of this range and completely separating the highlands at Split Rock from the southern continuation of the chain. The Boquet and its branches drain the n. part, and numerous small streams flowing into the lake drain the remainder. About one-half of the surface is susceptible of cultivation. The soil is clayey along the lake shore and sandy among the mountains. Iron, leather, and lumber are largely manufactured. **Westport**, (p. v.,) formerly "*Northwest Bay*," contains the Essex Academy and 456 inhabitants. **Wadhams Mills** (p. v.) contains 25 houses. A small settlement was begun, and a mill built in the s. part of the town, before the Revolution. After that period, settlement was commenced by Charles Hatch, (first store and inn keeper,) Joseph Stacy, and Nathan Hammond.⁶ The first church (M. E.) was formed in 1800, and the first preacher was Rev. Cyrus Comstock.⁷

WILLSBOROUGH—was formed from Crown Point, March 7, 1788, and named from Wm. Gilliland. A part of Peru was taken off in 1792, Jay in 1798, Chesterfield in 1802, and Essex and Lewis in 1805. A part of Peru was reannexed to this town upon the formation of Essex co. in 1799. It lies upon the shore of Lake Champlain, n. of the center of the co. The surface is rolling and in parts hilly. A range of highlands and isolated hills marks the course of the Boquet Mts., ending in the cliffs which overlook Perou Bay. The Boquet River flows through the s. w. corner. East of the river the soil is clayey, and w. a sandy loam. The falls upon the Boquet furnish an excellent water power. Iron is found in places; and the Black River limestone crops out, from which both quicklime and waterlime are obtained. Leather, lumber, and iron are largely manufactured. **Willsborough Falls** (Willsborough p. o.) contains 40 houses. The first settlement was commenced by Wm. Gilliland, a merchant of New York, in 1765.⁸ Mr. G., in 1764, purchased a tract of 2000 acres, intending to convert it into a manor. He succeeded in laying the foundation of quite a flourishing settlement, which was broken up during the Revolution. In 1784, Mr. G. returned, and commenced selling his land to settlers. Joseph Sheldon and Abraham Aiken, from Dutchess co., became the first purchasers, and located in 1784.⁹ The first church (Cong.) was organized before 1800.¹⁰

WILMINGTON—was formed from Jay, March 27, 1821, as "*Dansville*." Its name was changed March 22, 1822, and St. Armand was taken off in 1844. It lies upon the n. border of the co., w. of the center. A branch of the Au Sable Mts. occupies the n. w. border of the town, and another branch of the same range lies between the Au Sable Forks in the e. part. The highest peaks, 2500 to 3000 feet high, lie in the s. part, and from them the surface declines toward the n. Wilmington Notch, in the s. w. corner, is a place worthy of note.¹¹ Copperas Pond, near the foot of Whiteface, covers about 100 acres.¹² Beds of iron ore are numerous. The soil is a sandy and

¹ Bodies of rangers from the vicinity of Fort Wm. Henry often carried their petty warfare up to the very walls of the fortress. Among the partisan officers distinguished in this warfare were Maj. Robert Rodgers and Maj. Israel Putnam. The former named officer conducted no less than 25 parties to the invasion of this region. In 1758, at the head of a party of 180 men, he was attacked by a large party of French and Indians a short distance w. of the fort, and defeated, with the loss of 125 men. The remnant of the party escaped, but suffered great hardships before reaching a place of safety.

² See p. —.

³ When the fortress of Ticonderoga was surprised by Allen, in 1775, its garrison consisted of 48 men, commanded by Capt. Delaplace. The military stores captured consisted of 120 iron cannon, 50 swivels, 2 10 inch mortars, 1 howitzer, 1 curnon, 10 tons of musket balls, 3 cart loads of flints, 30 new carriages, and a large quantity of shells, a warehouse full of materials for boat building, 100 stand of small arms, 10 casks of poor powder, 2 brass cannon, 30 bbls. of flour, 18 bbls. of pork, and a large quantity of other provisions.

⁴ Among the first settlers were Charles Hay, Isaac Kellogg, (first merchant,) Wm. Hurlbert, Wm. Wilson, (first innkeeper,) Nathl., Charles, Noah, and Manoah Miller, John Kirly, John and Robt. Hammond, Jedediah Ferris, Francis Arthur, Peter Deall, Elisha Belden, Gardner Shattuck, and Samuel Cook.

⁵ There are 3 other churches; Bap., M. E., and R. C.

⁶ Among the other first settlers were John Halsted, Jesse Brayman, John Stringham, John and Bouton Lohdel, Aaron Felt, Joseph Fisher, Abram Slaughter, Joseph Storrs, and Jacob Southwell. The first death was that of Mrs. Webster Felt.

⁷ The census reports 3 churches; M. E., Cong., and Bap.

⁸ See p. —.

⁹ Among the first settlers were Aaron Fairchild, Jonathan Lynde, Martyn Pope, Melchor and John Hlofnagle, John and Wm. Morehouse, Hooker Low, Stephen Taylor, Elisha Higgins, Peter Payne, and Daniel Collins. The first school was taught by — Scott, in 1787. The first death was that of Thos. Hyer, in 1786. Jonathan Lynde and Stephen Taylor kept the first inn, John Hoffman the first store, and Danl. Ross built the first mill.

¹⁰ The census reports 3 churches; Cong., M. E., and Union.

¹¹ Here the Au Sable is compressed to a few feet in width, and breaks through the mountain barrier. Whiteface rises nearly perpendicularly, upon one side, to a height of 2000 feet; and another mountain, upon the opposite side, is but a little less in height. In the midst of its rapid and tortuous course through this passage, the stream leaps down a perpendicular precipice of 100 feet.

¹² Its waters are strongly impregnated with sulphate of iron: hence its name. Copperas is also found in the rocks in the vicinity, formed by the decomposition of iron pyrites; at some future time it will probably be manufactured for commercial purposes.

ESSEX COUNTY.

gravely loam, and is moderately fertile. **Wilmington** (p. v.) contains 20 houses. Settlement was commenced, near the close of the last century, by Thaddeus and Leonard Owen, and Paul Thayer.¹ The first church (M. E.) was formed in 1799.²

¹ Among the other early settlers were Cyrus Wilson, Isaac Peck, Reuben and Daniel Hamblin, Danl. Ray, John Blanchard, Z. Gray, and Nathl. Warner. The first marriage was that of Danl. Hamblin and Keziah Ray; and the first death, that of John Blanchard. Esther Kellogg taught the first school; Reuben Sanford kept the first inn, Elias Wilson the first store, and Leonard Owen built the first mill.

² The census reports 2 churches; Cong, M. E.

FRANKLIN COUNTY.

This county was formed from Clinton, March 11, 1808, and named in honor of Benjamin Franklin. A small portion was annexed to Essex co. March 22, 1822. It contains an area of — sq. mi., and is centrally distant — mi. from Albany. It lies upon the northern frontier, between St. Lawrence and Clinton counties. Its surface is mostly level in the n., undulating and hilly in the center, and broken and mountainous in the s. The Au Sable Mts. occupy the s. e. portions; Mt. Seward, 5100 feet above tide, is the highest peak. There are several other elevated peaks; but their heights have never been ascertained by actual measurement. The plateau of the central and the valleys of the s. part of the co. have an elevation of about 1600 feet above tide.

The n. w. corner, including the townships of Bombay, Fort Covington, Westville, and portions of Constable and Moira, is underlaid by calciferous sandstone. The soil upon this rock is generally a heavy clay. Next s. of this region is a belt about 8 mi. wide, extending n. e. and s. w., underlaid by Potsdam sandstone. A strip next to the calciferous sandstone, about 4 mi. wide, has a sandy soil, and the remainder a fine fertile loam, mixed with clay. The underlying rock in the central and s. portions of the co. is gneiss; and the soil is of a light, sandy nature, nearly unfit for cultivation. Upon approaching the mountainous region toward the s. the soil becomes more and more sterile, and large tracts are valuable only for their timber and iron ore. Bog iron ore is found in considerable quantities along the line of junction of the calciferous and Potsdam sandstones, and in times past it has been quite extensively used in the manufacture of bar iron.

The co. is mostly drained by tributaries of the St. Lawrence, the principal of which are the Chateaugay, Salmon, Little Salmon, Deer, St. Regis, and Racket Rivers. The Saranac River flows through the s. e. corner. In the southern wilderness are immense numbers of lakes, some of which are several miles in extent. Their general elevation is about 1600 feet above tide, and they are so located that slight improvements only are needed to connect them, and to form a communication between the head waters of streams flowing in opposite directions. In the n. part the people are engaged in the various branches of agriculture, the soil yielding a good return in spring grain, and in potatoes. The whole region, however, is best adapted to pasturage, and dairying forms the leading pursuit. In the central and s. parts the people are mostly engaged in lumbering. The manufacture of starch has become an important business within the last few years.¹

The principal work of internal improvement in the co. is the Ogdensburgh R. R., (formerly Northern R. R.,) extending through Moira, Bangor, Malone, Burke, and Chateaugay. This road was completed in 1850, and has been of immense value to the co., though a total loss to the stockholders. Steamboats from the St. Lawrence land regularly at Fort Covington, and occasionally at Hogsburgh, during the summer. The Salmon River has been improved for log navigation, and a portion of the Au Sable improvement is within the limits of the co.

The co. seat is located in Malone Village.² A courthouse and jail, in one building, was erected on the w. bank of Salmon River in 1811–13, and a new stone jail in 1852.³ The co. poor-house is located upon a farm of 110 acres, 2 mi. s. w. of the village. It was built in 1826, at a cost of \$1200, and has since been burnt and rebuilt. There are two newspapers in the co., both published at Malone.⁴

¹ Within 10 years, 40 factories for the manufacture of starch from potatoes have been erected in the co. When potatoes are less than 30 cts. per bushel, the business is considered profitable; but since the completion of the r. r. they have at times been worth much more to transport to the city markets.

² The first co. officers were Ebenezer Brownson, *First Judge*; Wm. Bailey, Joshua Nichols, and Asa Wheeler, *Judges*; Jas. S. Allen, *Clerk*; John Wood, *Sheriff*; Joshua Nichols, *Surrogate*; and Ezekiel Payne and Oliver Brewster, *Coroners*.

³ Before the court house was completed, courts were held in the academy.

⁴ *The Franklin Telegraph* was the first paper published in the co. It was first issued at Malone, in 1821, by Francis Burnap, and in 1829 it was removed to Potsdam.

The Northern Spectator was published at Malone from 1830 to 1835, successively by John G. Clayton, Geo. P. Allen, and F. P. Allen.

The Palladium was begun in March, 1835, at Malone, by F. P. Allen. It is now published as

The Frontier Palladium, by F. T. Heath and J. K. Seaver.

The Franklin Republican was begun in 1827, at Fort Covington, by J. K. Averill, and continued under several owners till 1833.

The Franklin Gazette was begun in 1827, at Fort Covington, by F. D. Flanders. In 1847 it was removed to Malone, where it is still published by the original owner.

The Salmon River Messenger was begun in 1850, at Fort Covington.

A tract 10 mi. by 40, on the e. side of this co., formed a part of the old Military Tract;¹ a portion in the n. w. corner, of 24,000 acres, was reserved by the St. Regis Indians,² and the remainder of the co. was included in Great Tract No. I. of the Macomb Purchase.³ Wm. Constable, agent and part owner of the last mentioned tract, and the executors of his estate, sold the northern part, and actively assisted in promoting settlement.⁴

The earliest settlement in the co. was made at St. Regis, by a colony of Indians from Caughnawaga, on Lake St. Louis,⁵ and from Oswegatchie, under Father Anthony Gordon, a Jesuit, about 1760. They are now known as the St. Regis Indians, and number about 1000, of whom 420 reside in this co., and the remainder on the n. side of the national boundary, which passes through the village.⁶ During the Revolution a portion of the Indians joined the Americans; and Louis Cook, one of their number, received a colonel's commission from Gen. Washington. In the war of 1812 a part of the tribe joined the British and a part the Americans; and they are thus historically divided into British and American parties.⁷ This tribe is gradually increasing in numbers, although, from their filthy habits, they are frequent sufferers from virulent epidemic diseases. They are mostly Catholics,—a Catholic mission being supported among them. A few profess to be Methodists.⁸ Two schools are sustained by the State, though they are thinly attended, and apparently of little benefit. The first white settlements were made in Chateaugay in 1796, and in other towns in the two northern ranges in 1800–02, by emigrants from Vermont. At the commencement of the war of 1812 the population of the co. numbered about 2500. In 1813–14 it became the seat of important military events, in the abortive attempt to invade Canada. Upon the withdrawal of the troops from French Mills in Feb. 1814, the co. was overrun by the enemy, who visited Chateaugay, Malone, and Hopkinton, and seized a considerable amount of military stores.⁹ In 1832, the cholera appeared at St. Regis, spreading a panic throughout the whole region. Since the completion of the R. R., systematic efforts have been successfully made to bring into market the valuable timber in the central and southern parts of the co.

BANGOR¹⁰—was formed from Dickinson, June 15, 1812. Brandon was taken off in 1828. It is an interior town, lying n. w. of the center of the co. Its surface is gently undulating, with a general northerly inclination. The principal streams are the Little Salmon and Deer Rivers. The underlying rock is Potsdam sandstone, appearing only in the valleys of the streams. The soil is sandy in the n. and a clay and loam in the s. **South Bangor** (Bangor p. o.) and **North Bangor**, (p. o.) near Bangor Station on the O. R. R., are small villages. The first settlement was made in 1806, and the town was rapidly settled along the Central Road and St.

ton, by Jas. Fisk. During the year it passed into the hands of J. S. Sargent, and was published as *The Messenger* for a few months.

The Jeffersonian was begun in 1853, at Malone, by J. R. Flanders, and was issued about 2 years.

¹ Embracing the present towns of Chateaugay, Burke, Bellmont, and Franklin. Township 7 was patented to Jas. Caldwell; No. 8, to Col. McGregor; Nos. 9 and 10, to different parties in later times.—*Hough's Hist. of St. Lawrence and Franklin Cos.*

² From 1816 to 1825 the Indians ceded 10,000 acres of this reservation to the State. The remainder of the lands are held in common, and are managed by trustees elected annually.

³ Among those who became directly proprietors under this title were John McVicker, Hezekiah B. Pierrepont, (executor of Wm. Constable), Wm. S. Smith, Abijah Hammond, Richard Harrison, Theodine Fowler, Jonathan Dayton, Robert Gilchrist, and James D. Le Ray.

⁴ These townships were named and numbered as follows by the original proprietors:—

1. Macomb.	10. Williamsville.	19. Cheltenham.
2. Cornuchus.	11. Westerly.	20. Margata.
3. Coastabla.	12. Ewerettavilla.	21. Harriestown.
4. Moira.	13. Dayton.	22. Loughneagh.
5. Bangor.	14. Ennis.	23. Killarney.
6. Malone.	15. Fowler.	24. Barrymors.
7. Annastown.	16. Johnsemaner.	25. Mt. Morris.
8. St. Patrick.	17. Gilchrist.	26. Covehill.
9. Shelah.	18. Brighton.	27. Tipperary.

⁵ An expansion of the St. Lawrence above the Lachins Rapids, in Canada.

⁶ This line was surveyed after the treaty of 1795, and intended to be run on the 45th degree of N. latitude; but a new survey in 1818 showed that the line was run too far n. By the treaty of 1842, the old line was restored, and permanent monuments were placed at the crossing of roads, and navigable streams, and at intervals of one mile through the forests.

⁷ This distinction is hereditary from mother to son, and the annuities of each government are bestowed accordingly, without reference to the locality on either side of the line.

⁸ The Black River Conference has supported a mission at Hogsansburgh since 1847.

⁹ There is good reason to believe that some of the inhabitants were traitors to their country, and supplied the enemy with cattle and provisions and kept them informed in regard to public movements. Extensive frauds were perpetrated upon the National Treasury, soon after the war, in the way of claims for alleged damages and losses in Wilkinson's campaign; but the plot was detected, and some of the guilty ones were lodged in the State prison. A most remarkable scheme to defraud the State and non-resident landholders was devised about 1818, and continued until effectually ended by law in 1822. This consisted in the voting of excessive bounties for the destruction of wolves and other noxious animals, to be paid by the towns and co. As the law then existed, the State allowed as much bounty as the co., and the result of the scheme was to throw almost the entire burden of the tax upon non-residents and landholders; but, to render the home burden endurable, large sums were remitted by the claimants toward paying the *residents' taxes*. The bounties amounted on grown wolves to \$60 per head, and led to shameless frauds, and the issue of great numbers of certificates upon the heads of dogs and other animals, and upon the same head several times over. In one instance a deer's head was passed for that of a wolf. These certificates were bought by co. officials, and passed the co. audit. A commission was appointed by law to visit the locality and search into the fraud; and, although no convictions were obtained, a large sum was saved to the State. The commissioners stated that they found these certificates, to some extent, the "currency of the co." The total number of bounties issued and sums allowed, in 1820–21–22, were as follows:—Wolves, 929, \$51,685; panthers, 25, \$1075; foxes, 587, \$1892.50; bears, 93, \$243; besides small sums for minor animals, amounting, in all, to \$55,521.50, or nearly \$12.25 to every man, woman, and child in the co. Those who had been concerned in this affair quickly sunk into merited obscurity, and have since remained objects of public contempt.

¹⁰ This town embraces township No. 5 of Great Tract No. II. of the Macomb Purchase.

Lawrence Turnpike.¹ Religious meetings were first held by Alexander Proudfit, in 1808. A Cong. society was formed at N. Bangor at a very early period.²

BELLMONT³—was formed from Chateaugay, March 25, 1833. Franklin was taken off in 1836. It occupies a wild, rocky region on the e. border of the co., n. of the center, and has a general inclination toward the n. The Owls Head is a prominent elevation upon its w. border. Its streams are Chateaugay, Trout, and Little Trout Rivers, and the e. branch of Salmon River. Among the hills are several beautiful lakes, the principal of which are Lower Chateaugay and Ragged Lakes, and Ingraham and Round Ponds. A considerable portion of the town is unfit for agricultural purposes, and valuable only for its timber. The settlements are chiefly confined to the vicinity of an e. and w. road extending through the n. part.⁴ The town has no village, p. o., or church edifice. There is a Presb. society in town, formed from the church at Malone.

BOMBAY⁵—was formed from Fort Covington, March 30, 1833. It lies in the n. w. corner of the co., and one corner borders upon the St. Lawrence. The surface is generally level, and the soil is sandy in the s. and a deep, fertile, clayey loam in the n. The principal streams are the Racket, St. Regis, and Little Salmon Rivers, and Pike Creek. The St. Regis is navigable to Hogansburgh, at which place is a good water power.⁶ **Hogansburgh**⁷ (p. v.) lies at the head of navigation on the St. Regis River, 2 mi. from its mouth. Pop. 250. **St. Regis** is an Indian village, in the Indian Reservation,⁸ on the State line, lying mostly in Canada. Pop. in this co. 200. **Bombay Corners** (Bombay p. o.) is a hamlet. The first improvement was made in 1811, by Michael Hogan, who had acquired the title to township No. 1 of Macomb's Purchase.⁹ In 1818, Hogansburgh was laid out as a village and considerable improvements were made. In the same year a road was laid out across the Indian Reservation to Fort Covington. The title to the township passed from Hogan to Robert Oliver, of Baltimore. In 1822, settlers began to arrive quite rapidly, and in two or three years most of the land not covered by the Reservation was taken up. There are 3 churches in town; 2 M. E. and R. C. A Prot. E. church was also commenced some years since, but is not yet finished.

BRANDON¹⁰—was formed from Bangor, Jan. 23, 1828. It lies a little w. of the center of the co., and embraces a territory 8 mi. wide and 45 mi. long, extending to the s. border of the co. The n. part is moderately hilly, and has a general inclination toward the n.; the s. part is broken and mountainous, and mostly unfit for cultivation. The principal streams are the Little Salmon, Deer, E. Branch of the St. Regis, and Racket Rivers, all flowing across the town in a n. w. direction. A great number of lakes and ponds lie among the mountains in the central and southern parts. The waters of the Saranac Lake and Stony Creek Pond are separated only by a narrow strip of land, forming the only portage for canoes between Lake Champlain and the Racket River. The soil is generally light and sandy and poorly adapted to cultivation. Along the river courses and borders of the lakes the soil may be cultivated at some future period. The settlements are confined to the extreme n. border. Within the past few years the lumber trade has received considerable attention here, and large numbers of pine logs have been floated down the Racket River. The first settlement was made in 1820.¹¹ There is no village, p. o., or church in town.

BURKE¹²—was formed from Chateaugay, April 26, 1844. It lies on the n. border of the co., e. of the center. Its surface is undulating and has a general inclination toward the n. It is watered by Trout and Little Trout Rivers. A considerable swamp extends along the n. border. The soil is a mixture of clay, sand, and loam. **Burke** (p. o.) is a hamlet on Little Trout River. **Burke Hollow** (Andersonville p. o.) is a small village on the O. R. R. The first

¹ Among the first settlers were Benj. Seelye, Joseph Plumbs, Jehial and James Baruum, Chester Tuller, Robert Wilson, Joel Griffin, G. Dickinson, H. Conger, J. Bowen, and L. Sylvester. At this time Daniel McCormack owned the n. half of the town, Wm. Cooper the s. e. quarter, and Asahel Baker the s. w. quarter. Samuel Russell taught the first school, in 1808.

² Two buildings, erected by the town in 1834-35, are used for religious meetings. A Christian church was formed in 1818.

³ Named in honor of Wm. Bell, an early proprietor. It includes township 8, and parts of 7 and 9, of the old Military Tract.

⁴ Recently settlement has commenced upon No. 9, in the s. part.

⁵ Named by Hogan, whose wife had resided at Bombay, in India. It embraces "Macomb," or No. 1 of Great Tract No. 1, of Macomb Purchase, and the St. Regis Indian Reservation.

⁶ A controversy in regard to title has prevented the full improvement of this power.

⁷ Formerly "Cray's Mills." It was the residence of the late Rev. Eleazar Williams, the reputed Bourbon Louis XVII.

⁸ The lands of this reservation are partly leased to whites; but the cultivation of all is extremely slovenly and unimprovident.

⁹ Previous to the settlement, most of the valuable timber had been stolen by parties from Canada.

¹⁰ Named from Brandon, Vt., from which place the first settlers emigrated. It embraces the townships of "St. Patrick," "Westerly," "Eunis," "Gilechrist," "Margate," "Killarney," and "Cove Hill," or Nos. 8, 11, 14, 17, 20, 23, and 26, of Great Tract No. 1.

¹¹ Josiah Hastings, Aaron Conger, Wilson Spooner, Luther Taylor, and John Thomas, settled in town in 1820; and Andrew and Henry Stevens, Levi Conger, G. W. Taylor, Clark Adams, Daniel K. Davis, Jonathan H. Farr, and Orrin Wellington, in 1821.

¹² Named in honor of Edmund Burke, the British statesman.

settlement was made in 1796-98, by Jehial Barnum, Noah Lee, and others. There are 3 churches in town.¹

CHATEAUGAY²—was formed from Champlain, March 15, 1799. "*Harrison*" (now Malone) was taken off in 1805, Bellmont in 1833, and Burke in 1844. A part was annexed to Jay, (Essex co.,) in 1822. The surface is rolling, with a northerly inclination. The principal streams are the Chateaugay River and its branches. The river has worn a deep channel through the drift deposits and Potsdam sandstone, forming a wild and peculiar feature in the landscape.³ Half a mi. E. of the village of Chateaugay is an intermitting spring, rising from the sand, sometimes flowing in sufficient quantities to carry a mill, and at others perfectly dry. It has no regular periods of intermission, sometimes flowing steadily one or two years, and again only a few weeks. Bubbles of nitrogen gas are emitted with the water. There is a constant gas spring 1 mi. N. E. of this. The soil is a clayey loam interspersed with clay. **Chateaugay**⁴ (p. v.) lies on the plain, a little E. of the deep, narrow valley of the Chateaugay River.⁵ Pop. 360. The first settlement was commenced in 1796, at the village, and was the first in the co.⁶ Within the next five years many families came in from Vermont. In 1812 a blockhouse was built for protection against invasions by the enemy. In the fall of 1813, Gen. Hampton was encamped here for several weeks, with a force designed to co-operate with Gen. Wilkinson in the invasion of Canada; but late in Nov., he returned to Plattsburgh without accomplishing his object. In the spring of 1814 the enemy invaded the place, pressed teams, and took away a considerable amount of provisions left by the American army. There are 4 churches in town.⁷

CONSTABLE⁸—was formed from "*Harrison*," (now Malone,) March 13, 1807. Fort Covington was taken off in 1817, and Westville in 1829. The surface is rolling, with a northerly inclination. The streams are Trout River and its tributary Little Trout River. The soil is principally a light, sandy loam. A strip of sand lies along the S. border, and of swamp along the N. **Constable** (E. Constable p. o.) is a small village upon Trout River. The first settlement was made near the S. line, in 1800.⁹ The first church (Presb., organized as Cong.) was formed in 1817.¹⁰

DICKINSON¹¹—was formed from "*Harrison*," (now Malone,) April 4, 1808. Bangor was taken off in 1812, and Moira in 1828. It lies on the W. border of the co., and is 45 mi. in length. The N. part is rolling and hilly, and has a soil of sandy loam of good quality; the central and S. parts are mostly sterile and rocky mountain regions. It is watered by the same streams as Brandon, and among the hills are great numbers of small lakes. **Dickinson** (p. o.) is on the St. Lawrence Turnpike, and **S. Dickinson** (p. o.) on the Port Kent Road. **Thomasville** is a small settlement on Deer River, founded by John Thomas in 1839. The principal settlements are in the N. part.¹² There are in town 2 churches, M. E. and F. W. Bap., the former only having a church edifice.

DUANE¹³—was formed from Malone, Jan. 24, 1828. Harrietstown was taken off in 1841. It is an interior town, lying S. E. of the center of the co., and embraces a territory 8 mi. wide by 20 long. Its surface is broken and mountainous, and the soil is light and sandy. Much of the greater part of the town is unfit for cultivation. The principal streams are the Deer and Salmon Rivers and their branches. Magnetic iron ore has been found in considerable quantities. There is no village or p. o. in town. James Duane, of Schenectady, son-in-law of Wm. Constable, acquired by marriage the title to this town, and began settlement here in 1823-24. A forge was built in 1828, and a high furnace in 1838, both of which were run a few years and supplied with ore found

¹ Bap., Presb., and M. E.

² Pronounced Shat-aghé; probably of French origin.

³ About a mile above the village this ravine is 200 feet deep, and in it is a waterfall of 50 feet.

⁴ On the 30th of June, 1856, a destructive tornado passed over the village, more or less injuring every building in it. In the course of 6 mi. 185 buildings were destroyed, unroofed, or moved from their foundations; and several lives were lost.

⁵ The R. crosses this valley on an embankment 160 feet above the river, and 800 feet long.

⁶ The first settlers were Benj. Roberts, Saml. and Nathan Beeman, Levi Trumbull, Joshua and Kincaid Chamberlain, Ethan A. Roberts, and Jared Munson. Nathan Beeman in his youth resided near Ticonderoga, and acted as guide to Ethan Allen when he surprised that place in May, 1775. He died in the town in 1850. David Mallory built the first grist mill in the co., on Marble River, 1½ mi. N. E. of the village. In 1803-04 a forge was built, by Wm. Bailey, 3 mi. above the village, and run a short time, being supplied with bog ore.

⁷ Bap., M. E., Presb., and R. C.

⁸ Named from Wm. Constable, agent and part proprietor. It embraces the E. part of township No. 3 of Great Tract No. 1.

⁹ Among the first settlers were Jona. Hapgood, (1800,) Chris. Austin, (1800,) Wm. Cooper, Solomon Cook, Eli Tyins, Saml. Clark, and James Welch. A. Mead taught the first school, in the summer of 1806. Dr. Solomon Wyman was the first physician. The first sawmill was built by James Welch, in 1803, and the first grist mill, soon after the war, by Joseph Colburn.

¹⁰ There are in town 3 churches; Presb., Bap., and M. E.

¹¹ This town embraces the townships of "Arnastown," "Williamsville," "Dayton," "Johnsmanor," "Cheltenham," "Loughneagh," and Mount Morris, "or Nos. 7, 10, 13, 16, 19, 22, and 25, of Great Tract No. 1.

¹² Among the first settlers were William Thomas, Jonathan and Jesse D. Rice, and Reuben Cady.

¹³ Named from James Duane, proprietor and first settler. It embraces the townships of "Ewerettville," "Fowler," and "Brighton," or Nos. 12, 15, and 18 of Great Tract No. 1.

in the town.¹ After making about 600 tons of iron, the works were abandoned, with the loss of the entire capital invested in them. There is but one church (M. E.) in town.

FORT COVINGTON²—was formed from Constable, Feb. 28, 1817. Bombay was taken off in 1833. It lies on the n. border of the co., w. of the center. Its surface is level, or gently undulating. Salmon River, the principal stream, is navigable to Fort Covington Village. The soil in the n. is a rich, clayey loam, and in the s. a light, sandy loam. **Fort Covington**³ (p. v.) is situated in the n. w. part of the town, upon Salmon River. Pop. 894. The first settlements were made by French families, about 1796, around "*French Mills*." Settlers from Vt. began to arrive about 1800.⁴ Much of the timber near Salmon River was stolen before this, and sold in the Montreal market. Soon after the battle of Cryslers Field the American army passed up Salmon River and took up winter quarters at "*French Mills*."⁵ In Feb. the place was evacuated,⁶ and immediately taken possession of by the enemy.⁷ The Fort Covington Academy, incorp. April 21, 1831, has been changed to a district school. The census reports 4 churches.⁸

FRANKLIN⁹—was formed from Belmont, May 20, 1836. It lies on the e. border of the co., s. of the center. Its surface is broken and mountainous, and it has an elevation of 1200 to 2000 feet above tide. The principal streams are the Saranac, which flows across the s. e. corner, and the head branches of the Salmon River. Among the mountains are numerous ponds and lakes. The soil is sandy, and scarcely fit for agricultural purposes, except along the streams. Iron ore abounds, and has been worked to some extent. The settlements are mostly confined to the s. e. corner, and the people are chiefly engaged in lumbering. The old Port Kent and Hopkinton Road passes diagonally through the town, and a plank road extends from Franklin Falls to Keeseville. **Franklin Falls**¹⁰ (p. v.) contains 12 houses, and **Vermontville** (p. v.) 20. **Alder Brook** and **Merrillsville** are p. offices. The first settlement was made at Franklin Falls, in 1827, at which time a forge and sawmill were erected.¹¹ In town are 5 large gang sawmills, and several small manufactories of buckskin leather, mittens and gloves. There are 2 churches in town,—M. E. and R. C.

HARRIETSTOWN¹²—was formed from Duane, March 19, 1841. It is the s. e. corner town of the co. Its surface is very rocky and mountainous, and its soil a light, sandy loam, generally unfit for cultivation. Mt. Seward lies along the s. border.¹³ It is the least populous and wealthy town in the co. It is principally drained by the Saranac. Among the mountains are a great number of small lakes, the principal of which are the Lower Saranac, Big Clear, and St. Regis. There are no villages or churches in town. **Saranac Lake**, in Essex co., is the nearest p. o. The first settlers located on the North West Bay Road, about 1812.¹⁴

MALONE¹⁵—was formed from Chateaugay, March 2, 1805, as "*Harrison*." The name was changed to "*Ezraville*," April 8, 1808, and to Malone, June 10, 1812. Constable was taken off in 1807, Dickinson in 1808, and Duane in 1828. It is an interior town, lying n. of the geo-

¹ By an act of May 20, 1841, a company was chartered by the name of "The Franklin Native Steel Manufacturing Co.;" but it was never organized. The making of steel directly from the ores of this region has proved to be practically a failure. A few years since, silver was said to be discovered; but it has never been successfully worked.

² Named from Brig. Gen. Leonard Covington, who was mortally wounded at Cryslers Field and buried here. It embraces the w. part of the township of "Cormachus," or No. 2 of Great Tract No. 1, and a part of the original St. Regis Reservation, since ceded to the State.

³ Formerly called "*French Mills*." It is situated on a mile square reserved by the Indians in 1796. This tract was leased by the Indians to Wm. Gray, in 1793, and assigned to Jas. Robertson, of Montreal, in 1798. These Indian leases occasioned much difficulty concerning title, which was finally settled by commissioners, after the purchase of the e. part of the reservation, in 1816-18.—*Hough's Hist. of St. Law. and Frank. Cos.*

⁴ Mills were built at a very early period, and were swept away by a flood in 1804.

⁵ Here a fearful mortality occurred among the troops, on account of exposure to the rigors of a northern winter in tents and slight horded shanties. The medicines and hospital stores had been lost or destroyed on the passage down the Albany. The nor could fresh supplies be obtained nearer than Albany. The surrounding country was mostly a barren exhausted the resources of the inhabitants, and consequently provisions were of a bad quality and were procured with difficulty.

⁶ As an appropriate finale to an imbecile enterprise, the retreating army destroyed the boats on the river, sunk 60 tons of biscuit, and destroyed all the public property too heavy for

transportation. The enemy soon completed the work of destruction.

⁷ A few years after the war, an extensive series of frauds upon government was perpetrated at this place. They consisted of fictitious claims for damages, in which the documents were forged, and the parties, witnesses, and magistrates were perjured.

⁸ Assø. Ref. Presb., (Scotch,) Wes. M., Bap., and R. C., (St. Mary's.)

⁹ This town includes No. 10, and a part of No. 9, of the old Military Tract.

¹⁰ Formerly called "*McClenathans Falls*." from the proprietor. On the 29th of May, 1852, the entire village, consisting of 23 houses, store, tavern, extensive lumber mills, and a large amount of lumber, was destroyed by running fires. Loss, \$30,000.

¹¹ Among the first settlers were Wm. McClenathan, Jas. Malory, Horace Gould, John Griffin, Harry Wood, Richmond and David Spaulding, Simeon French, and John Hough. The first birth was that of Sanford Hough; and the first death of an adult, that of Mrs. H. Wood. McClenathan kept the first inn and store and built the first mill and forge.

¹² Named from Harriet, daughter of Wm. Constable and wife of Jas. Duane. It embraces the townships of "Harrietstown," "Barrymore," and "Tipperary," or Nos. 21, 24, and 27 of Great Tract No. 1.

¹³ Mt. Seward, named from Wm. H. Seward, was called by the Indians "*On-no-wan-lah*," the big eye.

¹⁴ Among the first settlers were Isaac Livingston, Isaiah C. Flinders, Pliny Miller, Wm. Kelly, and Nehemiah White.

¹⁵ Named "*Harrison*" from Richard Harrison, proprietor; "*Ezraville*" from Ezra L'Hommedieu, of Suffolk co.; and Malone from a family related to Harrison. It embraces the townships of "Malona" and "Shelah," or Nos. 6 and 9 of Great Tract No. 1.

graphical center of the co. and s. of the center of population. Its surface is level in the n. and broken and hilly in the s. The principal stream is the Salmon River, which flows northerly through the town in a deep valley worn by its waters, and nearly its whole course in town is a succession of rapids and cascades. Along the n. border are extensive pine plains. The soil in the n., where not covered by light drift deposits, is fertile and well improved, but in the s. it is sandy and unproductive. An iron ore, from which a paint resembling sienna may be manufactured, has been discovered in the s. part. Potsdam sandstone, of an excellent quality for building, has been extensively quarried near the village. **Malone**,¹ (p. v.), the co. seat, and the only incorp. village in the co., is pleasantly situated on Salmon River. Pop. 1993. It is the seat of the Franklin Academy,² and is the most important intermediate station upon the Ogdensburgh R. R.³ The village is supplied with spring water by an incorp. company.⁴ **Titusville** (p. o.) is a small village at the Great Falls, on Salmon River in the s. part of the town.⁵ The first settlements were made near Malone Village, about the beginning of the present century, by emigrants from Vt.⁶ An arsenal was built at the village in 1812, and sold in 1850.⁷ In 1813-14 the place was visited and plundered by the British. The first church (Cong.) was formed in 1806-07, by Ebenezer Hibbard and Amos Pettengill. Rev. Ashbel Parmelee was the first pastor, and the first settled minister in the co.⁸

MOIRA⁹—was formed from Dickinson, April 15, 1828. It lies on the w. border of the co., n. of the center. The surface is generally level, with a slight inclination toward the n. The principal streams are Little Salmon River and Pike Creek. The soil is a light, sandy loam, generally fertile. **Moira Corners** (Moira p. o.) is a small village near the center. **Brush Mills**,¹⁰ (p. v.), on Little Salmon River, is an important wooding station on the r. r. This town fell to the share of Gilchrist and Fowler, upon apportionment, and was first settled by Appleton Foote, as agent, in 1803.¹¹ Luther Bradish,¹² Robert Watts, and Peter Kean afterward became the owners respectively of the n., middle, and s. thirds of the town. There are 3 churches in town.¹³

WESTVILLE¹⁴—was formed from Constable, April 25, 1829. It lies near the center of the n. border of the co. The surface is nearly level, with a slight inclination toward the n. It is drained by Salmon River, upon which are several falls, affording a good supply of water power. The soil is a fertile, clayey loam. Bog iron ore, found on the s. border, has been used to some extent in forges in the town. A sulphur spring, of some local notoriety, lies near the center of the n. border. **Westville** (W. Constable p. o.) is a small village on Salmon River. This town was held by the Constable family; and for many years Wm. Bailey, of Chateaugay, and Albon Mann, were agents. In 1822 the unsold portions were sold to Edward Ellice, of London. The first settlements commenced about 1800, by emigrants from Vt.¹⁵ There are 4 churches in town.¹⁶

¹ Incorp. 1853.

² The academy building is finely located in the w. part of the village.

³ The machine and repair shops of the r. r., located here, are on a magnificent scale, and are fitted up in a superior style. The repairs of the Potsdam and Watertown R. R. rolling stock are also done here.

⁴ The Malone Water Works Co., incorp. March 23, 1857. Capital, \$15,000.

⁵ Henry B. Tine commenced improvements in this part of the town, by building mills and a scythe factory, in 1831. After several years' suspension, improvements and settlements have been renewed under James H. Titus, of N. Y.

⁶ Among the first settlers were Enos, Nathan and John Wood, Nowell Conger, Luther Winslow, Jehiel Berry, Noah Moody, Roswell Wilcox, and David and Lyman Sperry. The first child born was Malce, daughter of L. Winslow. The first sawmill was built in 1804, by N. and J. Wood.

⁷ The proceeds of this sale were applied to the improvement of the arecaal green and parade ground; and a further sum of \$500 was appropriated for the same purpose in 1858.

⁸ The census reports 6 churches; Cong., Prot. E., Union, M. E.,

Bap., and R. C. In Nov. 1857, Rev. Bernard McCabe, Catholic priest, was accidentally burned to death.

⁹ Named from the Earl of Moira. Embraces "Moira," or No. 4 of Great Tract No. 1. The name was applied to the township long before the incorporation of the town.

¹⁰ Named from Henry N. Brush, an extensive proprietor of lands in this vicinity and resident of the village.

¹¹ Among the first settlers were Renj. Seeley, Jonathan Lawrence, Joseph Plumb, and David Bates. Schools were established in 1807.

¹² Mr. Bradish resided here for several years. He represented the co. in the Assembly in 1828-29-30-36-37-38, and was a resident here when elected Lieut. Gov. in 1833.

¹³ Cong., R. C., and Union, (the last belonging to the M. E. and Christian denominations.)

¹⁴ Named from the village, so called from its location in the old town of Constable.

¹⁵ Among the first settlers were Amos Welch. — Haskins, Elisha Sabius, Saml. Fletcher, John Reed, Alex. McMillen, Silas Cushman, John Livingston, Jas. and Thos. Wright, and Alric and Albon Mann. The first sawmill was built by Amos Welch. The first school was taught by Samuel Russell, in 1806.

¹⁶ Presb., M. E., Univ. and Union.

JEFFERSON COUNTY.

THIS county was formed from Oneida, March 28, 1805, and named in honor of Thomas Jefferson. Its bounds have been changed by setting off a portion of Rodman to Lewis co. in 1809, and by annexing a portion of Lewis co. to Wilna in 1813. It lies in the angle formed by the St. Lawrence River and Lake Ontario, is distant — mi. from Albany, and contains — sq. mi. The s. w. part is marshy, but at a short distance from the lake the land rises in gentle undulations, and, farther inland, by abrupt terraces, to the highest point, in the town of Worth. A plateau, about 1000 feet above the lake, spreads out from the summit, and extends into Oswego and Lewis cos. An ancient lake beach, 390 feet above the present level of the lake, may be traced through

Ellisburgh, Adams, Watertown, and Rutland. North of the Black River the surface is generally flat or slightly undulating: in the extreme n. e. corner it is broken by low ridges parallel to the St. Lawrence. With the exception of a few isolated hills, no part of this region is as high as the ancient lake ridge mentioned above.¹

The rocks of the co. belong to the primary formation and the lower strata of the N. Y. system. Gneiss is the underlying rock of the e. border in Wilna and Antwerp, of the Thousand Islands and the shore at Alexandria Bay, and of two strips of land extending from the e. border, one toward Theresa Falls, and the other toward Evans Mills. Next above this is a thick deposit of Potsdam sandstone, extending through Wilna, Antwerp, Philadelphia, Theresa, Alexandria, Orleans, and Clayton, the margin of which may be traced along its entire extent by a low mural precipice. The soil upon this rock is thin, and principally derived from drift deposits. The rock itself is almost indestructible, and preserves diluvial scratches and marks with great distinctness. Above this is a thin deposit of calciferous sandstone, extending through parts of Cape Vincent, Lyme, Clayton, Orleans, and Le Ray. The soil upon this rock is deeper than that upon the Potsdam sandstone, and is derived principally from disintegration. The Black River limestone overlies this, and forms the surface rock in most of the remaining parts of the co. n. of the river, and in a part of Champion and Rutland, s. Above this is the Trenton limestone, appearing on the lake shore at Cape Vincent and extending in a s. e. direction through Lyme, Brownsville, Watertown, Rutland, and Champion. This rock is of great thickness, and it forms the principal declivities of the plateau in the s. part of the co. About midway in this strata is found the ancient lake ridge before noticed. The caves near Watertown are in the lower strata of this rock. Next above come the Utica slate and Lorraine shales, forming the summit of the irregular table land which covers the s. "peak" of Champion, the s. border of Rutland, the greater part of Rodman, a corner of Adams, the e. part of Ellisburgh, and the whole of Lorraine and Worth. These shales are easily decomposed, and produce a deep, rich soil. Along the streams that flow from this formation the water has worn deep and often highly picturesque ravines, sometimes miles in length, and almost through the soft and yielding strata. The rounded outline of the slate hills, the abrupt terraces of the limestone, and the sharp, wall like margins of the sandstone, afford characteristic features to the country underlaid by these several formations. Alluvial deposits uniformly occur where the streams from the slate flow out upon the limestone; and drift deposits are scattered promiscuously over the whole co. The most remarkable of these is the "Pine Plains," a sand barren several miles in extent in Wilna and Le Ray. The lake shore in Ellisburgh consists of drifting sand, behind which are marshes. From Stony Point to Cape Vincent the shore is bordered by the level edges of the Trenton limestone; but farther down the river it presents that alternation of rounded ridges of rocks, intervalles, and marshes peculiar to the primary formation. The highest point in Worth is about 1200 feet above the lake. The streams are Black,² Indian, and Perch Rivers, the two Sandy Creeks,³ Stony, Catfish, Kent, French, Pleasant, and Black Creeks, and their tributaries, Hungry Bay⁴ (including Henderson,

¹ An isolated hill in Pamela formerly bore a crop of red cedar; and, as this timber is now only found upon the islands in the lake, it is supposed that the hill was an island at a time when at least three fourths of the county was covered by water.

² Indian name Ka-hu-ab'-go, great or wide river.

³ Called by the Indians Te-ka'-da-o-ga'-he, sloping banks.

⁴ Called by the French "La Famine."

Black River, and Chaumont Bays) has a coast line of great length; and the Thousand Islands present many attractions from their romantic scenery and historical associations. Several small lakes, filling deep gorges, in Antwerp, Theresa and Alexandria,—one in Rutland, two in Henderson, Perch Lake in Pamela and Orleans, and Pleasant Lake in Champion, constitute the other waters of the co. Iron ore abounds in Antwerp. Traces of lead and copper are found in the primary region; limestone, capable of a great variety of uses, water limestone and barytes are also abundant. The Black River enters the co. at Carthage, where commence a series of cascades and rapids which continue almost to the lake, with a total fall of 480 feet. Indian River affords water power at half a dozen places, and most of the streams s. of Black River are available for the same purpose.

The flat country along the St. Lawrence at times is affected by drouth, which is never felt on the uplands; while the latter are somewhat noted for the great depth of their snows. The mirage has been frequently seen on the lake, bringing into view places beyond the horizon. One form of this refraction, in which a line of clear sky appears along the shore, is almost a constant attendant upon clear, pleasant days in summer. Waterspouts, attended with dark clouds and a roaring noise, have been seen upon the lake and its bays. In the primary regions the intervalles are remarkably fertile, while the ridges are often naked rock. The soil over a part of the sandstone is too thin for cultivation, but the barren region is comparatively limited. The limestone and slate districts are exceedingly fertile, and particularly adapted to dairying and the raising of spring grains. Of these, barley, within a few years, has become the most important. Winter wheat is raised less than formerly; oats, corn, rye, and peas are staple products. For many years manufactures have received much attention and employed a large amount of capital. They consist of iron from the ore, castings, machinery, cotton and woolen fabrics, paper, leather, and flour, and have been chiefly carried on along the line of the Black River, and in Antwerp, Theresa, Philadelphia, Adams, and Ellishburgh. Rafting, shipbuilding, and lake commerce form prominent pursuits at several points along the St. Lawrence.

Upon the erection of the co., in 1805, Watertown was selected for the co. seat.¹ A combined courthouse and jail was erected in 1807 and burned in 1821. Soon after, separate buildings, of stone, were erected, which are still in use. In 1816 a fireproof clerk's office was built, and occupied until 1831, when the present one was erected. The jail having become unfit for use, and having been officially complained of, a writ was issued, Dec. 1, 1848, by the Supreme Court, ordering its immediate improvement.² This led to the erection of an additional building, with excellent arrangements for both the security and convenience of prisoners. The first poorhouse was erected on the Dudley Farm, in Le Ray, about 5 mi. n. of Watertown, in 1825; and it was used until 1833, when the present spacious buildings were erected in Pamela, 1 mi. below Watertown. In 1852 a special act was passed for the supervision of the poor in this co.

The first newspaper in the co., called the "*American Eagle*," was established at Watertown, in 1814, by Henry Coffeen. Its name was soon after changed to the "*American Advocate*."³

¹ The commissioners appointed for the selection of the co. seat by the Gov. and Council were Matthew Dorr, David Rodgers, and John Van Benthuyzen. The first court and the first board of supervisors met at a schoolhouse on the site of the present Univ. Church. The first co. officers were Augustus Sackett, *First Judge*; Joshua Bealls and Perley Keyes, *Judges*; Thomas White, Lyman Ellis, Wm. Huxton, and Edw. Evans, *Assistants*; Justice; Henry Coffeen, *Clerk*; Abel Sherman, *Sheriff*; Benj. Skinner, *Surrogate and Treasurer*; and Hart Massey, Ambrose Pease, and Fairchild Hnbard, *Crowners*. At the time of its erection most of the taxes of the co. were paid by non-residents.

² In 1807 the jail liberties were first established, which were so extraordinary as to demand a passing notice. "They covered a small space around the courthouse and part of the public square, and included most of the houses of the village; while between these localities, along the sides of the roads, and sometimes in the center, were paths, from 4 to 8 feet wide, with occasional crossings; so that, by carefully observing his route, turning right angles, and keeping himself in the strict ranges which the court had established, a prisoner might visit nearly every building in the village; but if the route was, by any accident, obstructed, by a pile of lumber, a pool of mud, or a loaded wagon, he must pass over, through, or under, or else expose himself to the peril of losing this precarious freedom, by close imprisonment, and subjecting his bail to prosecution for the violation of his trust."—*Hugh's Hist. of Jeff. Co.*, p. 31.

³ *The Jefferson and Lewis Gazette* was started at Watertown in 1817 by D. Abbey & J. H. Lord, Jr., and continued until 1819.

The Independent Republican, commenced in 1819 by S. A. Abbey, was continued until 1825.

The Herald of Salvation, semi-mo., (Univ.) was commenced in 1822 by Rev. Pitt Morse, and continued 2 years.

The Watertown Freeman was established in 1824, and continued until 1833, and was then changed to

The Democratic Standard. In July, 1835, it was united with the *Watertown Eagle*, and became

The Eagle and Standard.

Thursday's Post was commenced in 1826 by Theron Parsons & Co., and in 1828 sold to Henry L. Harvey, who changed it to

The Register. It was afterward united with the *Genius of Philanthropy*, and in 1830 it became the

Watertown Register and General Advertiser. In 1831 it was passed into the hands of B. Cory, and in 1835 it changed to the

North American. It was published by J. Huxton a short time, and afterward by H. S. Noble, by whom in 1839 it was issued as

The Watertown Register. In 1843 Joel Green became proprietor, and changed it to

The Black River Journal, and continued it until 1846.

The Genius of Philanthropy was started in 1828 by Henry L. Harvey, and was afterward united with *The Register*.

The Censor was started at Adams in 1828, by Theron Parsons, and was soon after removed to Watertown. In 1830, Enoch E. Camp became its proprietor, and changed it to

The Anti-Masonic Sun. Shortly after, Dr. R. Goodale, becoming proprietor, changed it to

The Constellation, and continued it until 1832, when it passed into the hands of Abner Morton, who published it as

The Jefferson Reporter until 1834. It was then discontinued.

This co. is all embraced in the Macomb purchase¹ of 1791, except the islands in the lake and river, a small reservation at Tibbetts Point near Cape Vincent, and a tract 10 mi. square, with one corner extending to the St. Lawrence at French Creek, reserved by the Oneida Indians in the treaty of 1788 for Peter Penet, and called "Penets Square." That part n. of a line running e. from Chaumont Bay, in the line of the s. bounds of Diana, was known as Great Tract No. IV., and was sold to the "Antwerp Company," of Holland. Gouverneur Morris became the first agent, and afterward Jas. D. Le Ray de Chaumont became extensively interested in the title, and under him much of it was settled. The land between No. IV. and Black River (210,000 acres) was purchased by Peter Chassanis, of Paris, for a company of capitalists; a romantic scheme of colonization was formed, and settlement begun at its southern point, near the High Falls, in Lewis co. A few years after, the emigrants returned to France. Ellisburgh was mostly purchased by Marvel Ellis, of Troy, in March, 1797, but it afterward reverted to Constable. A tract known as the "Eleven Towns" was purchased in 1795 by Nicholas Low, Wm. Henderson, Richard Harrison, and Josiah Ogden Hoffman: it was divided by them and sold by their agents. Penets Square was mostly settled by squatters, with whom the owners afterward had much difficulty. With the exception of Carlton Island, the first settlement in the co. was made in Ellisburgh, in 1797, and within 10 years nearly the whole of this town and of the "Eleven Towns" was taken up by actual settlers. Settlement commenced under Le Ray in Wilna, Antwerp, Le Ray, and Philadelphia, about 1806, and in the n. part of the co., along the St. Lawrence, after the war of 1812-15. But a small part is now owned by the original purchasers or their heirs, much the greater portion having long been owned in fee by actual settlers.²

The embargo and non-intercourse laws were quite unpopular along the n. frontier, and met with open hostility or secret evasion in many cases. The declaration of war filled the co. with alarm, and some families hastily prepared to leave. Ft. Carlton,³ within the American boundary, had been held until this time by the British, and was immediately captured by a small volunteer party and the buildings burned. A regiment of drafted militia, under Col. C. P. Bellingler, was stationed at Sackets Harbor in May. A fleet of 5 sail of the enemy was repulsed from that place July 19, with loss. On the 30th Capt. Forsyth was stationed there with a fine company

The Independent Republican and Anti Masonic Recorder was published at Watertown, from 1828 until 1830.

The Voice of Jefferson was published during the summer and fall of 1828.

The Watertown Eagle was commenced in Sept. 1832, by J. Calhoun. In 1833 Alvin Hunt became associate editor; and in 1836 it was united with the *Democratic Standard*, and issued as

The Eagle and Standard. In 1837 it was changed to

The Jeffersonian, and afterward to

The Watertown Jeffersonian, and continued until 1855, when it was united with the *Democratic Union*, and appeared as

The Jefferson County Union. By this title it is now published by E. J. Clark & Co.

The Veto was published during the campaign of 1832.

The Spirit of Seventy Six was published a few months in 1834.

The Patriot and Democrat was published during the campaign of 1838.

The Aurora was published by Alvin Hunt during the campaign of 1840.

The Daily Journal was started in 1843, by Joel Greene. It was soon after changed to

The Watertown Journal, tri-w., and continued until 1846.

The Democratic Union was started in 1846, by T. Andrews, and continued until 1855, when it was united with *The Jeffersonian*.

The Northern State Journal was started in August, 1846, by Ambrose W. Clark. It was afterward changed to

The Northern New York Journal, and is now published by A. W. Clark and John Fayel.

The Watertown Spectator was established in Jan. 1847, by Joel Greene, and continued until 1849.

The New York Reformer was commenced in Aug. 1850, by Ingals, Burdick & Co., and is now published by Ingals & Haddock.

The Daily Jeffersonian was published about six months in 1851.

The Monitor and *The Student* were issued a short time. All of the above were published at Watertown.

The Sackets Harbor Gazette and Advertiser, the first paper published at Sackets Harbor, was commenced in March, 1817, by Gen. Camp. In Feb. 1821, it was changed to

The Jefferson Republican, and was continued about a year.

The Farmers Advocate was started in 1824, by Truman W. Haskell, and continued until 1828.

The Courier, afterward called

The Sackets Harbor Courier, was published by J. Hows.

The Jefferson County Whig was published in 1837, by E. H. Purdy.

The Sackets Harbor Journal was established in Oct. 1833, by E. M. Luff, and continued until 1851.

The Harrisonian was published by E. M. Luff during the campaign of 1840.

The Sackets Harbor Observer was founded in March, 1848, by O. H. Harris. In 1852 it was changed to

The Jefferson Farmer, and continued 2 or 3 years.

The Carthage Standard was started at Carthage in Dec. 1839, and in 1843 it was changed to

The Black River Times. It was discontinued soon after.

The People's Press was commenced in 1847, by M. F. Wilson; it was published only a short time.

The Carthage Standard has been published since Jan. 1858, by — Merrill.

The Jefferson County Democrat was established at Adams in June, 1844, by J. C. Hatch. In 1847 it passed into the hands of E. J. Clark. It is now published by Eddy & Co. as

The Jefferson County News.

The Theresa Chronicle was started Jan. 14, 1848, by E. C. Burt, at Theresa, and continued about six months.

¹ Alexander Macomb, Daniel McCormick, and Wm. Constable, of New York, were the parties owning this purchase. The first two failed, and Constable became chief agent and party to the sales that were subsequently made. See *Hough's Histories of St. Lawrence and Franklin Co's.*

² The present names of these towns are in most cases different from those applied by the landholders. Their names, numbers, and owners under the allotment of 1790 are as follows. Harrison and Hoffman held their interests in common until several years later.

No.	Original Names.	Present Names.	Owners.
1.	Heosid.	Hounsfield.	Har. & Hoff.
2.	Leghorn.	Watertown.	Low.
3.	Milan.	Rutland.	Henderson.
4.	Howard.	Champion.	Har. & Hoff.
5.	Mantha.	Denmark.	Har. & Hoff.
6.	Hendersan.	Henderson.	Henderson.
7.	Alcepo.	Adams.	Low.
8.	Oryphens.	Rodman.	Har. & Hoff.
9.	Hendal.	Pierckney.	Henderson.
10.	Platina.	Harrisburgh.	Har. & Hoff.
11.	Lowville.	Lowville.	Low.

The several tracts were appraised by Benj. Wright, of Rome, the surveyor, and their value equalized from a part of Worth.

³ On Carlton or Buck Island. It was built by the French, and during the Revolution was an important rendezvous for scaling parties of Tories and Indians.

of riflemen, and, Sept. 20, made a descent upon Gananoqui, Canada, and destroyed a large quantity of provisions. The details of the operations upon the n. frontier belong to general history. Sackets Harbor became the principal seat of military and naval preparations, and from this post were fitted out the armaments that captured Little York and Ft. George, and the disgraceful expedition, under Gen. Wilkinson, that descended the St. Lawrence late in the fall of 1813.¹ Large bodies of troops were stationed here during most of the war; and a fleet of frigates of the largest class was fitted out at this point, to cope with one, equally formidable, built at Kingston. The enemy were repulsed in an attack upon Sackets Harbor, May 29, 1813, and were subsequently defeated at Cranberry Creek and Sandy Creek and in several minor engagements. After the war the costly navy was left to rot, or was sold for commercial purposes; and, in accordance with the provisions of the convention of April, 1817, but one armed vessel was left afloat upon the lake. Extensive barracks were built in 1816-19 at Sackets Harbor. A considerable body of regular troops was stationed here until withdrawn for service in the Indian wars of the Northwest and of Florida. In the abortive scheme known as the "Patriot War," in 1837-40, this co. became the scene of intense excitement, and the seat of many grave as well as ludicrous events. "Hunter Lodges" were formed in every village to promote the Patriot cause, and large sums raised for the same purpose found their way into the pockets of the leaders, most of whom evinced a cowardice as little creditable to their honor as was their financial management to their honesty.

The earliest market of this co. was down the St. Lawrence, which has ever been the route of the lumber trade. Several State roads were built through the co. before the war, and a military road was laid out and partly worked from Sackets Harbor to Plattsburgh. Soon after the introduction of canals and railroads many projects of internal improvement were formed, and surveys were made in this co., without result. The Watertown and Rome R. R. extends from Cape Vincent s. through Lyme, Brownville, Pamela, Watertown, Adams, and Ellisburgh, connecting with the N. Y. Central at Rome. The Sackets Harbor and Ellisburgh R. R., a branch of the preceding, extends from Sackets Harbor through Henderson to Pierrepont Manor. The Potsdam and Watertown R. R. extends n. e. from Watertown through Pamela, Le Ray, Philadelphia, and Antwerp, forming a connection with the Ogdensburgh R. R. at Potsdam. In 1848-51 about 170 mi. of plank road were built within the co., by over 20 companies; but most of the lines have been surrendered to the towns in which the roads were laid. Steam navigation commenced upon Lake Ontario in 1816, and commodious lines have since been run, touching at Sackets Harbor, Cape Vincent, Clayton, and Alexandria Bay, within this co.

¹ The following is a chronological list of the principal events which took place at Sackets Harbor and vicinity during the war:—

1812, May.—The *Lord Nelson*, a British schooner, was taken, and condemned, for violating the revenue laws. Her name was changed to "Scourge."
 " Col. C. P. Bellinger was stationed here with a regiment of militia.
 " June 14, Schooner *Ontario* taken, and discharged.
 " July 19, Village attacked by 5 vessels of the enemy. No injury done to the Americans, and the British retired with loss.
 " July 30, Capt. Benj. Forsyth arrived with the first regular troops.
 " July 31, Schooner *Julka* sailed for Ogdensburgh, and encountered 2 hostile vessels at Morristown.
 " Aug. 20, Col. Bellinger's regiment were disbanded before they were paid.
 " Sept. 20, Capt. Forsyth started upon an expedition against Gananoqui.
 " Sept. 21, Gen. Dodge arrived, and ordered Gen. Brown to proceed to Ogdensburgh.
 " Oct. Commodore Channey and Gov. Tompkins arrived, the former having been appointed commander of the naval forces on the lake.
 " Oct. 12, Capt. Forsyth's company and others were sent to Ogdensburgh.
 " Nov. 8-14, Com. Chauncey cruised upon the lake before Kingston, and took several vessels.
 " Nov. 26, Ship *Madison* was launched 45 days after commencement. Fort Tompkins and barracks were completed about the same time.
 1813, March.—Gen. Dearborn arrived and took command.
 " April 7, Brig *Jefferson* launched.
 " " 10, Brig *Jones* launched.
 " " 19, The *Growler* sailed to reconnoiter.
 " " 22, Gen. Pike's forces embarked for Little York.
 " " 25, Expedition sailed.
 " May 13, Expedition returned laden with spoils.
 " " 22, Com. Channey sailed with the fleet for Niagara.
 " " 29, Sackets Harbor attacked by the enemy, who were repulsed with the loss of 150 men. The

stores, including the spoils of Little York, from the accidental burning of the storehouse.

1813, June 1, Com. Channey returned with the fleet.
 " " 12, Ship *Pike* launched.
 " " 14, Lieut. Wolcott Channey went on a cruise, and took a schooner laden with stores and arms.
 " July 2,—Maj. Gen. Morgan Lewis arrived and took command.
 " " 3, A secret expedition to burn the *Pike* was defeated.
 " " 14, The *Neptune* and *Pez* sailed on a privateering expedition down the St. Lawrence. (See p.)
 " " 20, Com. Channey, with the *Pike*, sailed for Niagara. The *Sylph* (built in 33 days) accompanied him.
 " Aug. 26, Gen. Wilkinson held a council to decide upon offensive measures.
 " Sept. 5, Gen. Armstrong, Sec. of War, arrived.
 " Oct. 26, Gen. Wilkinson sailed on an expedition down the St. Lawrence, with disastrous results.
 " Nov. 2, The *Pike* and other armed vessels sailed on a cruise among the Thousand Islands.
 Dec. and Jan. The remaining part of the fall and winter was spent in ship building and in strengthening fortifications.
 1814, May 1.—Frigate *Superior*, of 66 guns, was launched in 80 days from the commencement of building.
 " June 15, The crew of the ship *Congress* began to arrive from Portsmouth.
 " " " An expedition under Lieut. Gregory sailed, and a few days after captured the gunboat *Black Snake* in the St. Lawrence, for which act Congress awarded \$3000 in 1874.
 " " 26, Another expedition, under the same, sailed, and in a few days burned a vessel on the stocks and a quantity of stores near Prescott.
 " July 31, The American fleet sailed for Niagara.
 " Sept. 14, Gen. Izard arrived from Lake Champlain.
 " " 30, A gig belonging to the *Superior* captured several boats laden with goods for Kingston.
 " Oct. Great alarm was felt for the safety of the harbor, which led to the assembling of large bodies of militia.

ADAMS¹—was formed from Mexico, April 1, 1802, and named in honor of John Adams, Ex-President. Rodman was taken off in 1804. It is an interior town, lying s. w. of the center of the co. Its surface is rolling, and generally inclined toward the lake, and, with the exception of its s. e. border, is underlain by Trenton limestone. Several remarkable upheavals of this formation occur along its n. and w. borders, and a bold terrace extends into Watertown and Rutland. It is well watered by the N. Sandy and Stony Creeks. The soil is a clayey loam, with occasional sand and gravel, especially along the ancient lake ridge, which may be traced through this town. It is very productive, and equally adapted to dairying and the cultivation of grains. Manufactures are carried on to some extent. **Adams**, (p. v.), situated on North Sandy Creek and the W. & R. R., contains 4 churches, a bank, a seminary, printing office, and several small manufactories. Pop. 963.² **Adams Center** (p. v.) and **Smithville** (p. v.) have each about 250 inhabitants. **Appling**³ and **North Adams** are p. offices. The town was mostly settled under Isaac W. Bostwick, agent of Nicholas Low, the proprietor.⁴ The first sermon was preached in 1802, by Rev. Mr. Woodward, a missionary.⁵ A private academy—now called the Philharmonic Institute—has been taught at Adams Village for many years. The remains of several ancient fortifications are found in town.

ALEXANDRIA—was formed from Brownville and Le Ray, April 3, 1821, and named from Alexander Le Ray, a son of the proprietor. Theresa was taken off in 1841. It lies on the St. Lawrence, in the n. extremity of the co., and embraces the e. part of Wells Island and a considerable portion of the Thousand Islands. The surface underlain by gneiss is rough and rocky, but that portion underlain by sandstone is level, with a thin, clayey and sandy soil. A vein of lead has been discovered near Redwood, and examined to the depth of 40 feet. **Alexandria Bay**⁶ (Alexandria p. o.) contains 24 houses, **Plessis**⁷ (p. v.) 32, and **Redwood**⁸ (p. v.) 100. Settlement commenced in this town, in 1811, under Le Ray. An engagement took place within the limits of this town during the war of 1812.⁹ An elegant Ref. Prot. d. church was erected at Alexandria Bay in 1848-51.¹⁰

ANTWERP—was formed from Le Ray, April 5, 1810, and named from the Antwerp Company.¹¹ It is the extreme e. town in the co. The n. and e. portions are broken by low rocky ridges parallel to the river. The s. w. part is more level. The soil in the valleys is a clayey loam, and is very fertile.¹² The ridges are made up of masses of gneiss,¹³ white crystalline limestone,¹⁴ and sandstone.¹⁵ Between the gneiss and sandstone in this town are several of the richest iron mines in the State. The "Sterling Mine"¹⁶ lies about 3 mi. n. of Antwerp Village; another, of less extent, 1 mi. n.; a third, known as the "Keene Mine,"¹⁷ on the borders of St. Lawrence co.; and a fourth, known as the "Parish Mine,"¹⁸ immediately adjacent. In this same range are found the mines of Rossie and Gouverneur, which have furnished most of the ore used at the furnaces in this region. Bog iron ore is found near Ox Bow.¹⁹ One or two sulphur springs are found in town. **Antwerp**, (p. v.) on the P. and W. R. R., was incorp. July, 1853. It contains

¹ Aleppo, or No. 7 of the Eleven Towns.

² This village was first settled by David Smith, about 1800, and for many years it was known as "Smiths Mills." Incorp. Nov. 11, 1851.

³ Named from Maj. Daniel Appling, the hero of the battle of Sandy Creek.

⁴ The first settlers came on for permanent residence in 1800; among them were Nicholas and Alexander Salisbury, Solomon Smith, Daniel Comstock, Daniel Smith, Abram Ripley, Jonathan Cable, Stephen Shipper, and Enon D'Estaing. The first inn was kept by Abel Hart, and the first store by Jesse Hale. Daniel Smith erected the first grist and saw mills in 1801-02, the former superseding the stump mortars of the first season. The first birth was that of Edmund Salisbury; the first marriage, that of Daniel Ellis to Mrs. A. Salisbury, widow of Alexander Salisbury, in 1802; and the first death, that of Alexander Salisbury, drowned in 1801. Schools were first taught in 1803.

⁵ Rev. Chas. G. Finney, Pres. of Oberlin College, was a law student in this town. The census reports 9 churches; 3 Bap., 2 Seventh Day Bap., 2 Cong., M. E., and Prot. E.

⁶ This place was surveyed and laid out as a village for Le Ray in 1818. A custom house was established here in 1828. Snukon Rock Lighthouse was built in 1847. It is an important wooding station for steamers, and within a few years has become a favorite resort for fishing and excursion parties among the Thousand Islands.

⁷ Named from a town in France. Formerly called "Flat Rock;" from the naked sandstone in the vicinity. A grist mill was built here in 1817 for Le Ray. Wm. Merrill, the first innkeeper, was married in 1828.

⁸ A glass factory was established at this place in 1833, by John S. Foster. It is devoted to the manufacture of cylinder glass, and is now carried on by a joint stock company known

as the Redwood Manufac. Co. A stream a few rods in length, flowing from Mnd to Butterfield Lake, has here a fall of 94 feet, and furnishes water power to a grist and saw mill.

⁹ The "Neptune" and "Fox," two small American armed vessels, captured a brigade of bateaux belonging to the enemy, July 20, 1813, and took their prizes into Cranberry Creek, in this town. They were pursued, and a sharp skirmish ensued, resulting in the retreat of the British with considerable loss.

¹⁰ This church was built through the agency of Rev. G. W. Bethune, of Brooklyn, and is called "The Church of the Thousand Isles." A parsonage was built in 1852. The sites for both edifices were given by Francis Dupuy. The census reports 6 churches; 2 Prof. E., Bap., M. E., Presb., and R. C.

¹¹ This land company, formed in Holland, bought Great Tract No. IV., within which this town is situated. For particulars see *Hough's Hist. Jeff. Co.*, p. 58-61.

¹² According to the last census, this town produces more butter than any other town in the co.; and, with one exception, it has the greatest number of cows of any town in the State.

¹³ From 1805 to 1828 about 100 pairs of millstones were manufactured from this rock in this town.

¹⁴ This limestone is especially valuable for lims and as a flux for iron ore.

¹⁵ This sandstone furnishes an excellent building material, and is used for the lining of furnaces.

¹⁶ Discovered by Hopestill Foster; owned and worked by Jas. Sterling.

¹⁷ On the farm of Hiram B. Keene, and owned by a company.

¹⁸ Owned by Geo. Parish, of Ogdensburg.

¹⁹ This ore is of the red specular variety. The region in which it is found is one of the richest in the country for specimens of rare minerals.

The Antwerp Liberal Institute¹ and 3 churches. Pop. 621. **Ox Bow**² (p. v.) is situated on the Oswegatchee River. Pop. 240. **Sterlingburgh**,³ 1 mi. above Antwerp, and **Spragues Corners**, on the line of St. Lawrence co., are hamlets. The first improvements were made in 1803, at the Ox Bow, under the direction of Lewis R. Morris, the original proprietor.⁴ In 1808, Morris sold 29,033 acres to George and David Parish, under whose agents the greater part of the settlements were made. A party of militia was stationed here in 1808, to enforce the embargo, and a blockhouse was built at the village in 1812. The first church was built, in 1816, by Parish.⁵

BROWNVILLE—was formed from Leyden, April 6, 1802, and was named from Gen. Jacob Brown, its founder. Le Ray was taken off in 1806; Lyme, in 1818; Pamela, in 1819; and Orleans, and a part of Alexandria, in 1821. It is situated on the n. side of Black River and Black River Bay. Its surface is level or gently undulating. The soil is a sandy and clayey loam. Sulphate of barytes is found on Pillar Point, and the vein has been worked to some extent for lithic paint. Upon the w. bank of Perch River, a few rods below Limerick, is a cave extending 150 yards into the bank and 30 feet below the surface. Manufactures receive considerable attention. **Brownville**, (p. v.), on Black River, 4 mi. below Watertown, was incorp. April 5, 1828. It has a valuable water power, and contains 3 churches, a cotton factory, and several foundries and machine shops. Pop. 621. **Dexter**⁶ (p. v.) is situated at the head of navigation on Black River. It is the seat of an extensive woolen factory built in 1836.⁷ Pop. 429. **Limerick** (p. o.) and **Moffatville** (p. o.) are villages of about a dozen houses each. **Pillar Point** (p. o.) is situated across the bay from Sackets Harbor. Pop. 50. Gen. Jacob Brown began the settlement of the town in 1799, as proprietor and agent.⁸ During the war Brownville village became the seat of a hospital; and on different occasions large bodies of troops were posted in the vicinity. For several years it was the residence and headquarters of Maj. Gen. Brown, commander in chief of the n. department, and afterward of Col. Edward Kirby,⁹ his son-in-law. There are 10 churches in town.¹⁰

CAPE VINCENT—was formed from Lyme, April 10, 1849, and named from Vincent Le Ray, son of the proprietor. It is the n. w. corner town of the co., and embraces Carlton and several smaller islands in the St. Lawrence. The surface is level, or slightly undulating, and the soil is a clayey loam. Kent Creek is the principal stream. There are 2 or 3 sulphur springs in town. Considerable attention is paid to ship building. **Cape Vincent**,¹¹ (p. v.) the terminus of the W. and R. R. R., near the head of the St. Lawrence River, is a thriving commercial village. Pop. 1026. **Saint Lawrence** and **Millens Bay** are p. offices and hamlets. The first settlement in the town and co. was made upon Carlton Island,¹² at about the time of the Revolution. A regular fortification, known as "Fort Carlton,"¹³ was erected upon the island, and a tract of 30 acres was cleared and cultivated, and long known as the "*Kings Garden*." The first settlement upon the mainland was commenced in 1801 at Port Putnam, 2 mi. below Cape Vincent, by Capt. Abijah Putnam.¹⁴ Count Real, Chief of Police under Napoleon, and other French families of note, resided in this town for some time. A custom house was established in 1819. Upon the shores of Grenadier Island,¹⁵

¹ This institution is not yet fully organized.

² This name is derived from a remarkable bend in the Oswegatchee River, upon which the village is situated. The village was settled by Scotch emigrants.

³ Sterlingburgh, 1 mi. above Antwerp Village, is the seat of an iron furnace built by Jas. Sterling in 1846. A forge was built here for David Parish in 1817.

⁴ The first settler was Wm. Lee. Mills were built at Antwerp Village in 1806-07, for Morris, by John Jennison. The first school was taught in the Foster Settlement, by Beaj. Cook.

⁵ This church was the second in the co., and for many years was used by all the denominations in town. It is now in possession of the R. C. There are in town 8 churches; 2 Bap., M. E., Wes. Meth., Presb., Aseo. Ref. Presb., R. C., Union.

⁶ Named from S. Newton Dexter, of Whitesboro', one of the proprietors. It was formerly known as "*Fish Island*." During the war the mills at this place furnished lumber for the public works at Sackets Harbor. The steamer "*Brownville*," built in 1827, and designed to run between this place and the lake ports, was burned upon her first trip. The Black River Nav. Co., incorp. in 1810, built locks here, which were little used. Piers for the improvement of navigation were built at the mouth of the river by the Gen. Government; but they have resulted in injury.

⁷ This factory is of stone, and cost \$140,000. It is fitted for 10 sets of machinery, and employs 75 hands.

⁸ In 1800, Geo. Brown built a sawmill, and in 1801 a small grist mill, at the mouth of Philem Creek. A bridge was built in 1802, and a dam across the river in 1806. In 1828, Henry

Erane was hung near Watertown for murder committed in this town—the only execution by civil authority that ever took place in the co.

⁹ Col. Kirby held the office of paymaster in the army from 1824 till his death, April 18, 1846.

¹⁰ 2 M. E., 2 Prot. E., 2 Univ., 2 Presb., 1 Bap., 1 Union.

¹¹ Called "*Gravelly Point*" by many of the old inhabitants. It was first settled in 1809, laid out as a village in 1817, and incorp. in 1853. A lighthouse was built at Tibbets Point, 2 mi. dist. out, in 1826. The r. r. company have built here a wharf 3000 feet long, 2 immense freight houses, a grain elevator, &c. The Ontario Line of Steamers touch at this point, and ferry boats run regularly to Kingston. A few years since, a canal was dug across Wolf or Grand Island, to afford a more direct route for this ferry. This place received several visits from the enemy during the war.

¹² This island contains 1274 acres. A military class right (see page) of 500 acres was located here in 1786. For several years after 1822 it was a thriving lumber station, where rafts were made up for the Quebec market.

¹³ This fort commanded the n. channel of the river, and was an important post during the Revolution. It was mostly excavated in the rock, and the materials taken out were used in the construction of the rampart and escarpment.

¹⁴ Mr. Putnam established a ferry from this place to Wolf Island. In 1803 a State road was opened to this place, and in 1804 a village plot was laid out, but soon after abandoned.

¹⁵ This island was the rendezvous of Gen. Wilkinson's army on their way down the river in 1813. At the eastern extremity is a

and of the mainland opposite, are valuable seine fisheries. A town ag. soc. was formed in 1850.¹ There are 3 churches in town.²

CHAMPION³—was formed from Mexico, March 14, 1800. A part of Harrisburgh was taken off in 1803. It is the central town on the s. e. border of the co. The surface is broken and hilly. The most elevated portions are the slate hills in the s. angle, (known as the "peak,") which are about 1700 feet above tide. From their summits the land descends in a series of broken and irregular terraces to the river. The n. part is more level. The soil is generally a clay loam, but near the river in some places it is sandy. **Champion** (p. v.) contains 20 houses, **Great Bend** (p. v.) and **West Carthage**⁴ about 30 each. **Champion South Road** is a p. o. The first settlement was begun in 1798, by Noadiah Hubbard, as agent for Storrs. The first settlers came by water down the river as far as the High Falls, and the town was settled with great rapidity.⁵ The first church (Cong.) was formed in 1805.⁶

CLAYTON—was formed from Orleans and Lyme, April 27, 1833, and named in honor of John M. Clayton, U. S. Senator from Del. It is centrally situated on the n. w. border of the co. It embraces two-fifths of Penets Square, a gore w. and another n. of that tract, and Grindstone and several smaller islands in the St. Lawrence. The surface is level, or slightly rolling. Water lime has been manufactured in considerable quantities. **Clayton**,⁷ (p. v.,) situated at the mouth of French Creek,⁸ is largely engaged in the lumber trade and in ship building.⁹ Pop. 896. **Depauville**¹⁰ (p. v.) is situated at the head of navigation on Chaumont (Sha-mo) River, (or Catfish Creek,) 6 mi. from the bay. Pop. 386. Settlement commenced in 1803; but little agricultural improvement was made until after the war. For many years the titles to the portions included in Penets Square and the islands became the subject of much controversy and litigation. In early times the shores of the St. Lawrence in this and adjoining towns became the scene of many lawless adventures in the prosecution of smuggling.¹¹ In 1813, the enemy attacked the advanced guard of Wilkinson's expedition, commanded by Gen. Brown, at Bartlets Point, but were repulsed. The census reports 7 churches in town.¹²

ELLISBURGH¹³—was formed from Mexico, Feb. 22, 1803. Henderson was set off in 1806. It is situated in the s. w. corner of the co., upon the shore of Lake Ontario. The surface is rolling and inclined toward the lake. A range of low sand hills extend along the shore, and these are succeeded by a wide marshy region, producing wild grasses that in dry seasons may be mown. North and South Sandy Creeks are the principal streams. The soil is sandy on the w., clayey through the center, and a slaty loam in the e. There is a sulphur spring in town. This is the wealthiest agricultural town in the co., and is surpassed by but few in the State. **Ellis Village**,¹⁴ (Ellisburgh p. o.,) situated on S. Sandy Creek, 4 mi. from its mouth, has a limited amount of manufactures. Pop. 230. **Belleville**,¹⁵ (p. v.,) is situated on N. Sandy Creek, 3 mi. from Ellis Village, and on the S. H. & E. R. R. Pop. 363. The Union Literary Society (academy) is located here. **Pierrepont Manor**,¹⁶ (p. v.,) at the junction of the W. & R. and S. H. & E. R. R., contains 255 inhabitants. **Woodville**,¹⁷ (p. v.,) is situated on N. Sandy Creek. Pop. 180. **Mannsville**,¹⁸ (p. v.,) on Skiueers Creek and the W. & R. R. R., has a population

capacious bay, known as "Basin Harbor," which affords a shelter for boats. The whole island is now a single dairy farm.

¹ This society is open to the citizens of Lyme, Clayton, and Wolf Island. ² Presb., Prot. E., and R. C.

³ No. 4, or "Howard," of the "Eleven Towns." It fell to the share of Harrison and Hoffman, and by them was sold to Gen. Henry Champion, of Colchester, Conn., and Lemuel Storrs. It was settled under Judge Noadiah Hubbard and Alfred Lathrop, agents of the last named proprietor. The name was given in honor of Gen. Champion, who presented the town with a bell for the compliment.

⁴ Considerable amounts of lumber, oil, flour, and cloth are manufactured in this village.

⁵ Among the first settlers, who came in in 1798-99, were John, Thos. and Salmon Ward, David and Saml. Starr, Joel Mix, Ephm. Chamberlain, Jonathan Mitchell, Bela Hubbard, and David Miller. The first school was taught by E. Chamberlain, in 1800. The first sawmill was built in 1802, by John Eggleston and Wm. Hadsall. The first grist mill was built at West Carthage, by David Coffeen, in 1806. A furnace was built at the same place in 1834, and about 1000 tons of iron produced. Several prominent lawyers, among whom were Moss Kent, brother of the chancellor, Egbert Ten Eyck, and Henry R. Storrs, settled in Champion, in expectation of its becoming the co. seat of the new co. to be erected from Oneida.

⁶ Rev. Nathl. Dutton was the first regular settled pastor in the town and co. There are 6 churches in town; 2 Cong., 2 M. E., Bap., and Union.

⁷ Formerly called "Cornelia," and still frequently called

"French Creek." A party of Patriots made this place their rendezvous in preparing to invade Canada. The same party took possession of Hickory Island; but upon the approach of the British they fled, leaving their armament behind.

⁸ This stream is called by the Indians Wet-er-ingh-ra-gu-en-te-re, or "Fallen Port," from a fort taken by the Oneidas from another tribe long before the advent of the whites.

⁹ The timber is brought in vessels from the upper lakes, and here made up into rafts. Most of the steamers belonging to the American line have been built at this port and at Wolf Island.

¹⁰ Des-po-ville. Named from Francis Depau, an early proprietor. The place was formerly known as "Catfish Falls." Stephen Johnson built the first mill and opened the first store at this place, in 1824.

¹¹ During the embargo of 1808 a road was cut through the woods, and immense quantities of potash were taken to Canada without restraint.

¹² 4 M. E., and one each Bap., R. C., and Union.

¹³ "Minos," of the "Eleven Towns." Named from Marvle Ellis, an early proprietor, and Lyman Ellis, the first settler.

¹⁴ The oldest settlement in the co.

¹⁵ Named from Belleville, in Canada.

¹⁶ It is the residence of Hon. Wm. C. Pierrepont, from whom the village derives its name.

¹⁷ Named from Ebenezer, Ephraim, and Jacob Wood, the first settlers.

¹⁸ Named from Col. H. B. Mann, who erected a factory at this place, but which was afterward burned.

of 315. **Rural Hill**,¹ (p. o.), 2 mi. w. of Belleville, is a hamlet. Lyman Ellis and a large number of others made the first settlement, in 1797.² A tract of 3000 acres in the s. w. corner of the town was sold by Wm. Constable, in 1796, to Brown and Eddy, and was settled by squatters. Upon the advent of the first settlers, near Ellis Village, on Sandy Creek, were found numerous traces of an early occupation by civilized races.³ During the war an engagement took place near the mouth of S. Sandy Creek, between a party of 150 American regulars and a few militia and Indians, under Maj. Appling, and a party of 200 British, who were pursuing a flotilla of boats, commanded by Lieut. Woolsey, laden with stores for Sackets Harbor. The British were defeated, and nearly the whole party were killed or taken prisoners.⁴ The census reports 11 churches in town.⁵

HENDERSON⁶—was formed from Ellisburgh, Feb. 17, 1806. It lies on Lake Ontario, s. w. of the center of the co. The surface is rolling; and it is deeply indented with Henderson Bay, formed by a long rocky point known as Six-Town Point.⁷ There are in town two small lakes and several marshes. Stony and Little Stony Creeks are the principal streams. The soil is clay and loam. **Henderson**⁸ (p. v.) is situated on Stony Creek, near the center of the town. Pop. 404. **Henderson Harbor**⁹ contains 12 houses; and **Smithville**,¹⁰ (p. o.), on the line of Adams, 40. Settlement was begun in 1802, under Asher Miller, agent for the proprietor.¹¹ At the head of Henderson Bay is a curved embankment or bar of stone, 100 rods long, and a little above the water, known as "Indian Wharf;" and from this point to Stony Creek there was an Indian trail or portage. The census reports 5 churches in town.¹²

HOUNSFIELD¹³—was formed from Watertown, Feb. 17, 1806. It is situated on Black River Bay, on the w. border of the co. Its surface is very level, and the soil is a clayey and sandy loam. Ship building and manufactures have received considerable attention. **Sackets Harbor**¹⁴ (p. o.) is the principal village. Pop. 994. This was the principal military and naval station on the northern frontier during the last war with Great Britain, and millions of dollars were spent in fortifications and in building vessels. **East Hounsfield** (p. o.) and **Stowells Corners** (p. o.) are hamlets. Amaza Fox was the first settler. In 1802 there were 30 families in town.¹⁵ In 1805 several English families came in.¹⁶ During the war this town was the center of important military events. Several expeditions were here fitted out against Canada; and, in turn, the town was invaded on several occasions.¹⁷ Large bodies of troops were frequently quartered here, and the citizens became familiar with the lights and shades of military life.¹⁸ After the war most of the troops were withdrawn, leaving only enough to keep the

¹ Formerly called "*Buck Hill*."

² Among the first settlers were Caleb Ellis, Robert Fulton, Elijah Richardson, Hez. Pierce, Chanocey Smith, Wm. Root, Vial Salisbury, Isaac Waddle, and Abram Wilcox. The early settlers suffered much from sickness. The first child born was Ontario Pierce, and the first death, that of Caleb Ellis. Lyman Ellis built the first sawmill, in 1797, and the first grist mill, in 1803.

³ It is probable that the French expedition, under De La Barre, against the Oondagas in 1684, met with their terrible disasters from famine and sickness within the limits of this town.

⁴ The stores were taken by land from this point to the "Harbor." Among them was a cable weighing 9600 lbs., which was too heavy for loading upon any wagon that could be obtained. It was accordingly placed on the shoulders of 250 men and carried to its place of destination. As the hearers approached the Harbor, the sailors met them with loud cheers, relieved them of their burden, and marched triumphantly into the village.

⁵ 5 Rep., 2 Cong., 2 M. E., Presb., Prot. E., Univ., Union. No. 6 of the "Eleven Towns." Named from Wm. Henderson, the proprietor.

⁷ Upon this point are the remains of a small 4 sided fortification, evidently built during the French or Revolutionary War.

⁸ Formerly called "*Salisbury Mills*," from Lodowick Salisbury, an early merchant and mill owner.

⁹ The bay upon which this place is situated was called the "*Bay of Naples*" by Henderson, the proprietor.

¹⁰ Named from Jesse Smith, who, from a common laborer, became one of the most extensive lumber dealers in the county, and a man of influence.

¹¹ Among the first settlers were Anthony Sprague, Levi Scofield, Jedediah McComber, Samuel Hubbard, Moses Barrett, Wm. Petty, and Daniel Spencer. Willis Fellows kept the first inn and built the first saw and grist mills. The first child born was Betsy Scofield, and the first death, that of a child of Hosea Heath. Elisha Skinoer taught the first school. A small woolen factory was erected in 1814. A Scotch settlement was made in 1803-07, on the bay. A lighthouse was erected on Stony Point in 1837.

¹² 2 M. E., Ev. Luth., Univ., and Union.

¹³ The town embraces No. 1, or "Hesiod," of the "Eleven

Towns," and was named from Ezra Hounsfield, one of the early proprietors. In the division it fell to the share of Harrison and Hoffman; and by them the w. half was sold to Champion and Storrs, and the remainder to Peter Kemble and E. Hounsfield. It was called "*Neuport*" in early documents. Gull, Snake, Great and Little Galloo, and Stony Islands belong to this town. Upon Galloo Island a lighthouse was erected in 1820.

¹⁴ Named from Augustus Sacket, the first settler. Called by the Indians *Oa-hu-a-go-je-twa-da-á-lote*, fort at the mouth of Great River. Incorp. April 15, 1814. A collection district was formed in 1805. Madison Barrack, built in 1816-19 at a cost of \$85,000, are the principal military works. Upon a point in the harbor is the hull of the frigate New Orleans, sheltered by a house built over it. It was commenced during the war, but has never been finished. It measured 3200 tons, and was pierced for 110 guns. The frigate Chippewa, of like dimensions, built farther up the bay, has been taken down.

¹⁵ Among these were John and Wm. Evans, Squire Reed, Amasa Hollibut, and Charles Baird.

¹⁶ Among these were Saml. Luff, his sons Edmund, Saml. Jr., Joseph, and Jesse, David Merritt, William Ashby, John Roots, Henry Metcalf, and Geo. Slowman. Dr. Wm. Baker, who settled in 1803, was the first physician; Ambrose Pease and Step. Simmons were early intokeepers, and Loren Buss and Hezekiah Doolittle, early mercantiles. In 1808 Samuel F. Hooker brought in a stock of goods worth \$20,000. Meetings were first held by Edmund Luff, who built a church, and preached many years without fee or reward. Elisha Camp settled in 1804, as a lawyer and agent, and has since been more prominently concerned in the affairs of the town than any other person. Samuel Luff built the first grist mill, Augustus Sacket, the first sawmill, and Solon Stone, the first cotton factory, on Mill Creek. The first child born in town was Wealthy Robieon. At an early period, John Jacob Astor and other capitalists invested large sums here in the manufacture of potash, that article commanding \$200 to \$350 per ton in the Montreal market.

¹⁷ See page ____.

¹⁸ About a dozen military executions took place here during the war. A duel was fought with muskets, June 13, 1816, between two soldiers, one of whom was killed. During the command of Col. Brady at this station, the remains of Gens. Zebulon M. Pike and Leonard Covington, Col. John Tuttle, Lieut.

works in repair. In 1832 a canal, for hydraulic purposes, was completed from Huntington's Mills, above Watertown, to Sackets Harbor; but in about 10 years it was abandoned.¹ Dr. Samuel Guthrie, one of the discoverers of chloroform, and inventor of the percussion compound for firearms, which has superseded flints, resided at Sackets Harbor. A Union school was established in the village in 1840. There are 5 churches in town.²

LE RAY³—was formed from Brownville, Feb. 17, 1806. Antwerp was taken off in 1810, a part of Wilna in 1813, and a part of Philadelphia and Alexandria in 1821. It is an interior town E. of the center of the co. The surface is level, or gently rolling, and the soil is principally a clayey loam. A strip of barren sand, once covered with pine, but now almost a desert, extends along Black River. The streams are Black and Indian Rivers, Pleasant Creek, and several small brooks. **Le Raysville**⁴ (p. v.) contains 22 houses. **Evans Mills**⁵ (p. v.) is situated on Pleasant Creek and the P. & W. R. R. Pop. 410. **Sandfords Corners**, (p. v.,) on the P. & W. R. R., contains a dozen houses. **Black River**,⁶ a village of 50 houses, is partly in this town. The first settlement was made in 1802, by a party under Benj. Brown, agent for Le Ray.⁷ Le Ray removed to this place in 1808, and began a liberal system of settlement, by opening roads and building bridges and mills. The census reports 6 churches.⁸

LORRAINE⁹—was formed from Mexico, March 24, 1804, as "*Malta*." Its name was changed April 6, 1808. Worth was taken off in 1848. It is the central town on the S. border of the co. The town is elevated, and is underlaid by slate and traversed by immense gulfs. The surface is rolling, and the soil is a clay and loam. It is mostly drained by Sandy and Skinners Creeks. **Lorraine**, (p. v.,) the only village, contains about 30 houses. Settlement was begun in 1802, by James McKee and Elijah Fox.¹⁰ The State Road from Rome to Sackets Harbor was laid through this town in 1804. A sulphur spring is found on the farm of — Totman. The town has 2 churches, Bap. and M. E.

LYME¹¹—was formed from Brownville, March 6, 1818. A part of Clayton was taken off in 1833, and Cape Vincent in 1849. It lies upon Chaumont Bay, in the W. part of the co. The surface is very level. The W. border is deeply indented by Chaumont Bay¹² and its branches. The soil is principally clay. There are several sulphur springs in town. Near Chaumont are extensive and valuable limestone quarries.¹³ **Chaumont** (p. v.) is situated upon the bay at the mouth of Chaumont River. Pop. 306. **Three Mile Bay**¹⁴ (p. v.) lies upon a bay of the same name. Pop. 295. **Point Peninsula** (p. o.) is a scattered settlement containing 25 houses. The first settlement was begun under Jonas Smith and Henry A. Delamater, agents for Le Ray, in 1801.¹⁵ The first location was 2½ mi. above Chaumont; but in 1805 the settlers removed to the site of the present village. During several years much sickness prevailed; but this gradually disappeared as the co. became more settled. In 1812 the inhabitants, numbering about a dozen families, built a blockhouse, which was taken and destroyed by the enemy. The first church (Bap.) was organized in 1816.¹⁶

ORLEANS—was formed from Brownville, April 3, 1821. A portion was annexed to Pamela, April 1, 1829. Clayton was taken off in 1833. The boundary between it and Alexandria has twice been changed. It lies on the N. border of the co., and embraces the W. part of Wells and

Cola. Electus Backus, Timothy Dix, Jr., and John Mills, Maj. John Johnson, Capts. Ambrose Spencer, Jr., and Joseph Nicholson, and Lieut. Michael P. Vanderventer, officers who had been killed or had died of sickness during the war, were collected, and buried in one grave. A monument of *painted pine boards* was erected to their memory by a grateful country; but it soon rotted down, and there is now a strong probability that the place of their interment will be forgotten.

¹ This canal was 20 feet wide at the top, 12 at the bottom, and 4 feet deep.

² M. E., Prot. E., Presb., Christian, and Seventh Day Bap.

³ Named for James Le Ray de Chaumont, the proprietor.

⁴ The land office for much of the land in the co. N. and E. of the river was located here until 1835, when it was removed to Carthage.

⁵ Named from Etbei Evans, who built the first mill in 1805-06.

⁶ This village is locally known as "Lockport." A trace of an ancient Indian fort was found near it; another 1 mi. N.; and another near Sandfords Corners.

⁷ Among these first settlers were David Coffeen, Dyer Rhodes, Jerahom and John Mattoon, Joseph Child and sons, Thomas Ward, William Cooper, and Benj. Kirkbride. The first child born was Abi Brown; the first marriage, that of Jonas Allen and Sarah Wyck; and the first death, that of Chester Ballou. Margaret Omstock taught the first school.

⁸ Bap., Friends, M. E., Presb., R. C., and Union.

⁹ This town embraces "Atticus," or No. 1, of the Boylston Tract.

¹⁰ In the following year, Comfort Stanchiff, Benjamin Gates, Seth Cutler, John Alger, and others, came in. McKee and Fox kept the first inn. Mr. Frost built the first sawmill, and Mr. Cutler the first grist mill, in 1804. The first death was that of A. M. Child, killed by a falling tree.

¹¹ Name selected by Eben. Kelsey, a native of Lyme, Conn.

¹² Name derived from Le Ray de Chaumont. Upon old maps this bay is named "*Niahoure*," "*Niaure*," and "*Nivernois*." The last name is probably derived from that of the Duc de Nivernois, a French nobleman.

¹³ The limestone quarries of this place have furnished large quantities of stone for the pier at Oswego, locks on the canal, and for other public works.

¹⁴ Name given from its being 3 miles W. of Chaumont. This bay is celebrated for its fisheries. In 1858, \$90,000 worth of fish were taken, consisting principally of "ciscoes" (lake herring) and whitefish. It has been the seat of considerable ship building.

¹⁵ Among the first settlers were Richard M. Escalstyn, T. Wheeler, Peter Pratt, and Jonas, David, and Timothy Soper. James Horton was the first settler on Point Salubrious, in 1806.

¹⁶ The census reports 6 churches; 2 M. E., 2 Bap., Presb., and Free W. Bap.

several smaller islands in the St. Lawrence. The surface is level, or slightly rolling. The principal streams are Perch River, Catfish and Mullet Creeks. Perch Lake lies upon the s. boundary. The soil is clay and loam. **La Fargeville**,¹ (p. v.), on Chaumont River, near the center of the town, is the seat of Orleans Academy. Pop. 295. **Omar**,² (p. o.), on Mullet Creek, and **Stone Mills**,³ (p. o.) are small villages. **Orleans Four Corners**, **Port Orleans**, and **Collins Landing** are hamlets. Penets Square, which embraced most of this town, was settled by squatters.⁴ The first settlements commenced about 1806.⁵ In 1824, John La Farge, a large owner in these lands, came into town to assert his claim. After a great deal of difficulty and some resistance, he succeeded in establishing his title. In 1838 the mansion and farm of La Farge, 1 mi. s. of the village, was purchased by Bishop Dubois as the site for a Catholic seminary. This institution, named "*St. Vincent de Paul*," combining a theological seminary and classical boarding school, was soon after opened; but in two or three years it was removed to Fordham, Westchester co., and was afterward incorp. as St. Johns College. Rock Island Light-house was built in 1853. The British steamer Sir Robert Peel was plundered and burned on the night of May 29, 1838, while taking in wood at Wells Island, in this town, by a party of 22 self-styled patriots, led by Bill Johnston.⁶ The census reports 8 churches.⁷

PAMELIA⁸—was formed from Brownville, April 12, 1819. In 1824 its name was changed to "*Leander*;" but soon after the former name was restored. A portion of Orleans was annexed April 1, 1829. It is the central town of the co. The surface is level, or gently undulating, and the soil is clay and sand. Near the cascade opposite Watertown are several caves in the limestone rock.⁹ In the vicinity of Perch Lake have been found several barrows, or sepulchral mounds. **Pamelia Village** and **Juhelville**¹⁰—the former opposite the lower part and the latter the upper part of Watertown Village—are places of considerable manufactures,¹¹ and have each 200 to 300 inhabitants. **Pamelia Four Corners** (p. v.) contains about 30 houses. The first settlement began in 1799.¹² The census reports 2 churches.¹³

PHILADELPHIA—was formed from Le Ray, April 3, 1821. It is an interior town, e. of the center of the co. Its surface is level in the e., but rocky and broken in the w. The soil is generally a clayey loam. Indian River and Black Creek are the principal streams. Iron ore is found in considerable quantities. The principal bed that is worked is known as the Shurtliff mine. In Sterlingville is a large chalybeate spring. **Philadelphia**,¹⁴ (p. v.), upon Indian River, has 55 houses, and **Sterlingville**,¹⁵ (p. v.), upon Black Creek, 40. At the latter place are a large blast furnace¹⁶ and a forge.¹⁷ The first settlement was commenced in 1804, by Friends from Penn. and N. J.¹⁸ In 1810 the Friends erected a building which for 17 years was used for a school and meeting house.¹⁹

¹ Named from John La Farge, the proprietor; formerly known as "*Log Mills*."

² Named from a character in one of Johnson's allegories, found in the English Reader: formerly called "*Mudges Mills*."

³ Formerly called "*Collins Mills*," from John B. Collins, owner.

⁴ The improvident waste of timber and the slovenly clearings made by this lawless set promised little in the way of civilization; and their appearance, as they emerged from the swamps with an ox harnessed to a crotched piece of wood, laden with a trough full of "black salts," or, as they returned in like manner, with a sack of meal and a jug of whiskey, was little calculated to inspire hope of speedy improvement. They had a kind of law among themselves in relation to land, and were accustomed to run "possession lines" by lopping down bushes. "Claims" were often sold and secured by quit claim deeds.

⁵ Among the first settlers were Roderic C. Frazier, Peter Pratt, Dr. Renebo Andrus, Samuel and Daniel Ellis, and others. Alvah Goodman kept the first inn; Lemuel George, the first store; Collins & Platt erected the first grist mill, and Dr. Andrus, the first sawmill, in 1819.

⁶ After driving the passengers ashore and plundering the boat, the brigands cast her off from the shore and set her on fire. Large rewards were offered for their apprehension, and several persons were arrested, but none convicted. In 1853, Johnstoe was appointed keeper of the Rock Island Light, which shines on the spot where the Peel was burned.

⁷ Two Evang. Luth., Bap., Cong., M. E., R. C., Wes. Meth., and Union.

⁸ Named from the wife of Gen. Jacob Brown. Her maiden name was Pamelia Williams.

⁹ These caverns have been traced nearly 500 feet. Just below and partly under the village of Juhelville, the open mouths of several caves appear on the river bank, opening at both ends on the cliff. The passages are lined with calcareous deposits, in the form of acarie mineral, stalactites, and tufa. These caves

are evidently all formed by currents of water flowing through the natural seams in the rock and gradually wearing away the soluble and yielding limestone. In the rear of the principal cavern a large area of land has sunk to a considerable depth, as though a portion of the cave had "caved in."

¹⁰ Named from Madame Juhel, a relative of the Le Ray family.

¹¹ These manufactures consist of lumber, spirits, leather, cotton yarn, and portable steam engines.

¹² The first settlers were Wm. Cooper and Wm. Wattkins. A Ansoo Sigourney taught the first school; Samuel Mack kept the first inn, Jabez Foster, the first store; and Tuttle and Bailey built the first mill.

¹³ M. E. and Union.

¹⁴ Often called "*Quaker Settlement*" by the old inhabitants.

¹⁵ Named from James Sterling, the owner of the iron works. Formerly called "*De Launey's Mill*," from the builder of the first mill, in 1807.

¹⁶ Built in 1837, by James Sterling. The ore is principally obtained from the Sterling mine of Antwerp, and the Shurtliff mine of this town, near the line of Theresa, the ore from the latter being used principally as a flux.

¹⁷ Built by Caleb Essington, in 1839.

¹⁸ These settlers purchased 16 lots of 440 acres each, lying in the corners of a square containing 25 lots, of which the central range each way was reserved by Le Ray. The center lot, (No. 611), embracing the site of the present village, was conveyed to trustees "for the promotion of religion and learning" under the care of the Quakers. This trust afterward occasioned much contention, and led to a miniature anti-rent war. The matter was finally settled in 1844. Cadwallader Child, Mordecai Taylor, and Samuel Evans came in the first year. Robert Comfort kept the first inn, Saul Case, the first store, and Thos. and John Townsend built the first mill. Anna Comstock kept the first school. The first child bore was John Townsend, and the first death was a daughter of Robt. Comfort, in 1807.

¹⁹ The census reports 6 churches; 2 M. E., Bap., Friends, Univ.

RODMAN¹—was formed from Adams, March 24, 1804, under the name of "*Harrison*." Its name was changed April 6, 1808. A part of Pinckney (Lewis co.) was taken off in 1808. It lies upon the borders of Lewis, in the s. part of the co. The surface is hilly, and broken by the deep ravines of Sandy Creek and its branches. The soil is generally a fertile, gravelly loam. There are 3 sulphur springs in town. **Rodman** (p. v.) has 45 houses, **Zoar** and **Whitesville**² (E. Rodman p. o.) each about 20. Settlement began in 1801, and from 1803 to 1806 it progressed with great rapidity.³ In 1813 an epidemic prevailed, causing 60 deaths in 3 months. The census reports 3 churches.⁴

RUTLAND⁵—was formed from Watertown, April 1, 1802. It lies upon the s. bank of Black River, e. of the center of the co. Its surface consists of the narrow river valley on the n., a terraced plateau in the center, and a hilly region in the s. The central plateau, embracing the greater part of the town, is 300 to 400 feet above the flat country farther n., and it descends by a succession of steep declivities to the level of the river. It is underlaid by Trenton limestone. Upon the s. the surface gradually rises to the summits of the slate hills which occupy the s. part of the co. A remarkable valley, known as "*Rutland Hollow*," extends through the town upon the lower terrace of the plateau, parallel to the river. It is deeply excavated in the limestone, and appears like the bed of an ancient river. Another smaller and deeper valley extends in the same direction across the summit of the plateau, and forms the bed of a deep, narrow lake. Pleasant Lake, in Champion, is situated in the continuation of this latter valley. These valleys and terraces seem the result of abrasion rather than of upheaval. Upon the edge of the terrace, 100 feet below the summit, may be seen the ancient lake ridge before described. There are 2 or 3 sulphur springs in town. The soil is a very fertile loam upon the plateau, and a sandy loam upon the river. **Felts Mills**,⁶ (p. v.) on Black River, contains 50 houses; **Black River**,⁷ (p. v.) on the river, partly in this town and partly in Le Raysville, 40; **Tylerville**,⁸ (S. Rutland p. o.,) in the narrow valley of Sandy Creek, 30; and **Rutland Center**,⁹ (Rutland p. o.,) 10. This town fell to the share of Wm. Henderson, and settlement was begun in 1799, under Asher Miller, his agent. The greater part of the land was sold¹⁰ to New England farmers, who came in within 3 years after the first settlement.¹¹ An old Indian fort is to be seen on the farm of Geo. Wilson; and a bone pit was found near the line of Watertown. The census reports 5 churches.¹²

THERESA—was formed from Alexandria, April 15, 1841, and named from a daughter of Le Ray. It is the central town upon the n. w. border of the co. The surface along Indian River is broken, and traversed by ridges of gneiss rock, with fertile intervals. A part of the town, underlaid by sandstone, is level or undulating. In the primary regions are a number of romantic lakes; and some of these have highly interesting mineral localities upon their shores and islands.¹³ **Theresa**, (p. v.,) upon the High Falls¹⁴ of the Indian River, was early selected by Le Ray as a favorable point for settlement, and about 1810 he caused several "jobs" to be cleared and a sawmill to be built.¹⁵ A furnace, built near Millseat Lake in 1847, was in part supplied with ores from the vicinity. A private academy has been taught several years. The census reports 3 churches.¹⁶

¹ It embraces No. 8, or "Orpheus," of the "Eleven Towns." Its former name was from Richard Harrison, of N. Y., a proprietor; and its present one, from Daniel Rodman, of Hudson, Clerk of the Assembly in 1808-09.

² Named from Thos. White, sub-agent and early settler.

³ Among the settlers who came in this year were Anson and Ebenezer Moody, Noah, Jonathan, and Aaron Davis, Benj. Thomas, Wm. Rice, and Simeon Hunt. Miss M. Nobles taught the first school, in Anson Moody's barn, in 1803. Willard Sykes kept the first store; and Wm. Rice built the first sawmill, in 1804, and grist mill, in 1806. The first child born was Walter Harrison Moody; and the first death, that of the same child, 3 years after. His father received 50 acres of land from Mr. Harrison for the name. Timothy Greenly moved into the s. w. corner of the town in 1803.

⁴ 2 M. E. Cong.

⁵ No. 3, or "Milan," of the "Eleven Towns." Named from Rutland, Vt., the former home of an early settler.

⁶ Named from John Felt, who purchased the site in 1813, and still resides here. Formerly the seat of an extensive lumber manufactory; now changed to a tannery.

⁷ Locally known as "Lockport."

⁸ Named from Josiah and Frederick Tyler, early settlers.

⁹ On some maps called "Brooksville," from Curtie G. Brooks, a former citizen. It is never known by this name in town.

¹⁰ 17,549 acres were sold, in farms within 3 years, for \$50,738.

¹¹ Among the settlers who came in during the first and second years were Levi Miller, Perley and Wm. Keyes, David and Goldsmith Coffeen, Amos Stebbins, Raphael Porter, Israel Wright, Jonathan and Clark Ross, Jas. Kilham, Chas. Kelsey, Jephtha

King, John Dale, C. Cummings, Gardner Cleveland, Warren Foster, and John Cotes. Miss A. Porter taught the first school, in 1803. Levi Butterfield kept the first inn, and Jacob Williams the first store. David Coffeen built the first grist mill in the co., near the mouth of Mill Creek, in the present village of Felts Mills, in 1801, and a sawmill in 1802. The first child born was in the family of Chas. Kelsey, and the first death, that of Mrs. Francis Towne. ¹² 2 M. E., 2 Union, and Cong.

¹³ Fluorspar, sulphate of barytes, sulphurates of iron and copper, phosphate of lime, zircon, feldspar, tourmalines, hyalite, pyroxene, Rensselaerite, idocrase, calcite, phlogopite, and other minerals, are found in this locality, and some of them are beautifully crystallized. Iron ore has been found in considerable quantity.

¹⁴ The river here descends 85 feet within a quarter of a mile. From this place to Rossie its banks are low, and large tracts are often overflowed, causing much sickness. A small steamer has run upon this part of the river.

¹⁵ Among the first settlers were James Shurtliff, Anson and Jeremiah Cheeseman, M. B. Ashley, Sylvester Rodman, Azariah Walton, Col. Bull, Abram Morrow, Joseph Miller, Archb. Fisher, James Lake, Ebenezer and N. W. Lull, J. D. Davidson, and Sylvester Boardman. Mr. Lull built the first store, in 1820. Dr. Jas. Brooks, the first physician, settled in 1822, and died the next year. The first school was taught by Lindley Gibbs, at Hyde Lake. Michael Lewis was the first child born. The first marriage was that of Ebenezer Lull and Almira Barnes. The first death was that of Mr. Casselman, who was drowned. A grist mill and inn were erected in 1819 for the proprietor.

¹⁶ Presb., M. E., and Prot. E.

WATERTOWN¹—was formed from Mexico, March 14, 1800. Rutland was taken off in 1802, and Hounsfield in 1806. It lies upon Black River, s. w. of the center of the co. The surface in the s. e. part is broken by the irregular terraces of the Trenton limestone, and in the n. it is level or rolling. The river bank is rocky throughout its whole extent; and in the village, about 3 mi. below, are several extensive caves. It is an important agricultural town; but it is chiefly distinguished for the extent of its trade and manufactures. In amount of business it is unsurpassed by any town in Northern N. Y. **Watertown**,² (p. v.) the co. seat, pleasantly situated upon the s. bank of Black River, was incorp. April 5, 1816. Pop. 5873. It contains an academy,³ 3 newspaper offices, 5 banks, and 9 churches. Black River here flows, for the space of a mile, in a succession of rapids over the limestone terraces, affording an abundance of water power, which is largely improved, making the village one of the most important manufacturing places in the State.⁴ Three roads and 2 r. r. bridges cross the river within the limits of the village: one of the former is a wire suspension bridge. An ice cave, near Whittleseys Point,⁵ extends under a part of the village. By an act passed March 22, 1853, a board of water commissioners was created, with power to borrow \$50,000 for the construction of water works for the village. The work was finished during the following summer. The water is taken from the river, near the upper part of the village, and thrown by water power into a reservoir 200 feet above the village, and about 1 mi. distant; and from the reservoir it is distributed through the streets. A beautiful fountain is constructed in the center of the principal square.⁶ At an early day, two rectangular pieces of land were given by the owners of the adjacent lots for public use;⁷ and these now constitute beautiful public squares.⁸ **Burrville**⁹ (p. o.) is a hamlet, on Sandy Creek, in the s. part of the town. Henry Coffeen and Zachariah Butterfield were the pioneer settlers, in 1800; they located upon the present site of the village.¹⁰ An arsenal was built at Watertown in 1809, and a building for an academy in 1811; the latter was used as a hospital during the war. The census reports 10 churches.¹¹

WILNA¹²—was formed from Le Ray, and Leyden (Lewis co.) April 2, 1813. It lies upon Black River, in the extreme e. part of the co. Its surface is somewhat broken. It is chiefly underlaid by the primary rock, which rises into low, naked ridges, and by calciferous sandstone. Black River forms its w. boundary; and upon it are a series of rapids, forming an abundance of water power.¹³ The Indian River, in the n. part, also affords water power at several places. At Natural Bridge this stream flows beneath the surface through passages worn in the coarse white limestone which here forms the surface rock. Several interesting minerals are found at this place.

¹ Its present limits embrace No. 2, or "Lehigh," of the "Eleven Towns." It first contained Nos. 1, 2, and 3.

² First settled in 1800; and became the co. seat in 1805. In 1849 the business portion was almost destroyed by fire, but it recovered from the disaster in 2 years.

³ The Watertown Acad. was incorp. May 2, 1835, and a large academic building was erected in a grove in the s. e. part of the village. It was soon after merged in the Black River Literary and Religious Institute, founded under the joint auspices of the Watertown Presbytery and B. R. (Cong.) Assoc. in 1836. In May, 1846, its name was changed to the Jefferson County Institute.

⁴ During the war a factory was built, at a cost of \$75,000, for the manufacture of cotton and woolen cloths. In 1827, Levi Beebe purchased Cowans Island and erected upon it an immense stone cotton factory. It had just been put in operation when, July 7, 1833, it was burned, under suspicious circumstances. The loss was \$200,000; and the site has since remained a ruin. The manufactures of cotton and woolen goods, flour, paper, iron castings, machinery, leather, agricultural implements, lead pipe, sash and blinds, and furniture, are extensively carried on.

⁵ Named from the wife of Samuel Whittlesey, who in 1815 threw herself from this point into the river, and was drowned. Her husband, a lawyer, and paymaster to the drafted militia, had received in N. Y. the sum of \$30,000, in bills, and while returning to Watertown was secretly robbed of \$5700 by his wife. He was greatly alarmed, and was persuaded by her to keep quiet, as it would be difficult to convince the public that a thief would have left so large a portion, and, as they must themselves be suspected of having taken a part, they might as well keep the whole. Her logic succeeded upon the weak-minded old man, and before reaching home she had matured plans for concealment and evasion. He started with his portmanteau for Oneida co., leaving appointments along the road for paying on his return; but on arriving at Trenton he found he had been robbed. The news of the robbery spread quickly over the country; but the most active inquiry and very liberal rewards failed to bring the thief to justice. On his return home he met his family frantic with grief; but there was an inconsistency in his story, and upon a searching conversation, held separately, with the various persons connected with the robbery, the

latter were convinced that there was fraud. By an ingenious course of inquiry and eavesdropping, they were not only confirmed in the belief, but assured that the family soon intended to remove, and that summary means must be employed to recover the money. They accordingly invited W. to take a walk, which led as if by accident to a lonely spot near the village, previously prepared, where they suddenly charged him with the robbery and threatened instant drowning unless he disclosed. He was twice submerged and life nearly extinguished, when he confessed and was liberated. The money was found sewed into a pair of drawers fitted to be worn by either husband or wife. Mrs. W. immediately after slipped away from the crowd unobserved, rushed down to the river, and was drowned.—*Lough's Hist. Jeff. Co.*, p. 263.

⁶ An Artesian well was bored 127 feet deep upon Factory Square in 1829, and a copious supply of water was obtained, slightly impregnated with sulphur and iron.

⁷ These lots are respectively 12 by 28 and 9 by 32 rods.

⁸ The principal business of the village is located around the Square and upon Court St.

⁹ Named from John Burr & Sons, who settled here in 1804. Hart Massey built a saw and grist mill here, in 1801, for Low,

the proprietor.
¹⁰ Oliver Bartholomew came in the same year, (1801.), and in 1802, about 80 families arrived. Jonathan Cowan built the first grist mill, in 1802, and Dr. Leisuh Massey opened the first inn the same year. In 1803, a bridge was built near the present courthouse. In 1805, Wm. Smith and John Paddock opened the first store; and a dam was built across Black River the same year. The first birth was in the family of Moses Bacon; and the first death, that of — Thornton, who was killed by a falling tree.

¹¹ Two Presb., 2 M. E., Bap., Wes. Meth., Prot. E., R. C., Union, and Univ.

¹² Named from Wilna, in Russia, then fresh in memory from its battle.

¹³ After affording 42 mi. of navigation, the river here commences to descend by a series of rapids, extending to the lake, falling, in all, 480 feet. The "Long Falls" here descend 55 feet in a distance of 5090; and in the rapids are about 50 small islands. The State Dam, built at this place, is 900 feet long, and the State Bridge 500.

The soil is sandy and moderately fertile. **Carthage**¹ (p. v.) is finely situated upon Black River, at the lower terminus of the B. R. Canal improvement. It contains 5 churches and a private academy,² and is the seat of important manufactures.³ Pop. 785. **Natural Bridge**,⁴ (p. v.), on the Indian River, contains 40 houses. **Wilna** and **North Wilna** are p. offices. Settlement was commenced in 1798, at Carthage, by Henry Boutin, one of the French Company.⁵ The village and town were chiefly settled under Le Ray. The census reports 7 churches.⁶

WORTH⁷—was formed from Lorraine, April 12, 1848. It lies upon the high, slaty, and shaly ridges in the s. part of the co. It is 1200 to 1500 feet above tide, and is the most elevated land in the co. It is subject to deep snows and early frosts. Wherever the surface is exposed to the action of running water, deep gulfs have been worn in the soft and yielding rock. There are several sulphur springs in town. The soil is principally derived from the disintegration of the underlying rocks, and is well adapted to grazing. About one half of the town is settled. **Worthville** is a hamlet, and is the only p. o. The first settlement was made in 1802, by an association from Litchfield, Herkimer co., who bought the n. w. quarter, balloted for the lots, built rude mills, and began small improvements.⁸ A part of the settlers left during the war, and during the succeeding cold seasons of 1816–17 the whole settlement was abandoned. Settlement was not recommenced until several years after. The census reports 1 church, (M. E.)

¹ Formerly called "Long Falls." Incorp. May 26, 1841. A bridge was erected here in 1813, by Ezra Church, for Russell Atwater and David Parish.

² Erected by Harrison Miller in 1842; now owned and taught by B. F. Bush.

³ Consisting of iron, leather, lumber, staves, heading, &c.

⁴ Joseph Bonaparte, having purchased a large tract of land in this town and Diana, made this village his residence for two summers. It was laid out in 1818.

⁵ Jean B. Bossout, familiarly known as "Battice," kept the first inn and ferry.

⁶ 2 Presb., 2 Prot. Meth., Bap., M. E., and R. C.

⁷ Named in honor of Gen. Wm. J. Worth. It comprises No. 2, or "Fenelon," of the Boylston Tract. The e. part was divided among several proprietors, to equalize the division of the "Eleven Towns."

⁸ Among the first settlers were Amos and Abijah Gillett, Nathan Mattoon, W. Flower, Lodowick Edwards, John Griswold, Asa Sweet, Abner Rising, and Phineas Rose. The first school was taught in a log barn in 1806. The first death was that of Elisha Sweet. L. B. Gillett kept the first inn and store.

RENSSELAER COUNTY.

This county was formed from Albany, Feb. 7, 1791, and named from the Rensselaer family.¹ It is centrally distant — mi. from Albany, and contains an area of — sq. mi. Its surface is very broken and hilly. Two distinct ranges of mountains extend through it n. and s., known as the Taghkanick and Petersburg Mts. The Taghkanick Range occupies the extreme e. borders of the co., and is divided from the Petersburg Mts. by the long, deep valley through which flow Kinderhook Creek and Little Hoosick and Hoosick Rivers. These mountains are wild, rugged, and rocky, rising to a height of 1000 to 2000 feet above tide, and affording wild and picturesque scenery. Their declivities are usually precipitous, and their summits are crowned with forests or masses of naked rocks. These mountains are composed of the slate, quartz, sandstone, and limestone which constitute the Taconic rocks of Prof. Emmons. The quartz exists in the form of injected veins, and in many places the slate has been decomposed and washed away, leaving the quartz veins in the form of sharp pointed rocks, or of isolated masses. Upon the summits and sides of the mountains the soil is thin and poor; but in the valleys it consists of gravelly loam, and is moderately fertile. The Petersburg Mts. occupy the whole central part of the co. They are wild, irregular, and broken mountain masses, with precipitous sides on the e., but with more gradual declivities on the w. In some places the summits spread out over a wide surface, constituting a high, sterile plateau broken by hills and rocks. They are composed of the graywacke slates and limestone belonging to the Hudson River group. An extensive tract among these mountains, comprising a portion of Stephentown, Berlin, Sand Lake, and Poestenkill, is still covered with forests. The soil is generally hard and sterile, consisting of a stiff clay and disintegrated slate, largely underlaid by a retentive hardpan.

Hudson River is on the w. boundary of the co.; and along its bank extends an intervalle varying from a few rods to a half mile in width, and bounded by a series of bluffs 100 to 200 feet in height. From the summits of the bluffs to the foot of Petersburg Mts. the country assumes the character of a broken, hilly upland. This region is composed of the drift deposits mixed with disintegrated slates, in some places the clay, and in others the sand, predominating.

The valley of Kinderhook Creek, Little Hoosick and Hoosick Rivers extends through the e. part of the co. The summit level in this valley at S. Berlin, between the waters flowing s. and those flowing n., is 600 feet above tide. The numerous streams that flow from the Petersburg Mts. westward to the Hudson have worn deep ravines through the clay bluffs, forming lateral valleys, which extend eastward from the valley of the Hudson. Among the wild and rocky regions of the Petersburg Mts. are numerous small lakes and ponds, forming a peculiar and beautiful feature of the landscape. Several interesting mineral springs are found within the county.

The narrow intervalles, and a large portion of the uplands, are adapted to grain, and produce liberal crops, chiefly of corn, oats, spring wheat, potatoes, and flax; but the soil is generally best adapted to grazing and dairying, especially along the e. towns, where these occupations form the leading pursuits. Manufactures are extensively carried on at Troy and in the Hoosick Valley, and commerce has received much attention at Troy, and, at an earlier day, at Lansingburgh.

The principal works of internal improvement in the co. are the Troy & Greenbush R. R., a continuation of the Hudson River R. R. to Troy; the Albany & West Stockbridge R. R., extending from Greenbush in a s. e. direction, through East Greenbush and Schodack, to the s. bounds of the co., 7 mi. from the river; the Troy & Boston R. R., extending from Troy n. e. through Lansingburgh, Schaghticoke, Pittstown, Hoosick, and a corner of Petersburg, to the Vt. line; the Troy & Bennington R. R., forming a branch (5 $\frac{3}{8}$ mi. long) of the Troy & Boston R. R., and extending from Hoosick Station to the State Line toward Bennington, Vt.; and the Albany, Vt., & Canada R. R., extending through Schaghticoke across the n. w. corner of the co., terminating at Eagle Bridge, where it connects with the Vt. roads. Besides these lines, which are within the co., several others communicate with Troy from the w. side of the river. Among these are the A. V. &

¹ This co. included a large share of the Rensselaer Manor e. of the river, and the present towns of Hoosick, Pittstown, Schaghticoke, and a part of Lansingburgh.

C. R. R., which sends a branch to West Troy; a branch of the N. Y. Central R. R., extending to Schoenectady;¹ and the Rensselaer & Saratoga R. R., extending from Troy to Saratoga. The Northern and Erie Canals also both connect with the Hudson at Troy, and there is an uninterrupted steamboat navigation to New York.²

The first newspaper in the county was established at Lansingburgh, in 1787.³

The county seat is the city of Troy, situated at the head of sloop navigation on the Hudson.⁴ The courthouse—built at the joint expense of city and co., and containing the courtroom and co. and city offices⁵—is situated on the corner of Congress and Second Sts.⁶ The jail is on Ferry, corner of Fifth St. A house of industry, for the support of paupers, located on a farm of 140 acres 2 mi. s. e. of the city, was founded in 1821, on the plan of Count Rumford. In 1857 the co. poor-house was reported as being located upon a farm of 152 acres. The co. poor were let, by contract, at \$1 per week, the contractor having free use of the farm, and the services of the paupers as far as they were able to labor.⁷

The greater part of the co. was included in the patent of Killian Van Rensselaer, in 1630; and the first settlement was made by tenants under him the same year.⁸ The lands were held by the same tenure as those in Albany co., and similar difficulties have frequently occurred in endeavoring to enforce the collection of rents. Upon the death of the late Stephen Van Rensselaer the manor was divided, the portion e. of the river passing into the hands of his son William P.; and since that time a considerable portion of the leased land has been conveyed in fee.⁹ During

¹ A R. R. bridge 1600 feet long, upon this road, crosses the Hudson at Troy. Connected with it is a common road bridge.

² These ample facilities for travel are in striking contrast to the condition of things 60 years ago. By an act of March 30, 1798, Alexander J. Turner and Adonijah Skiener, for a period of 5 years, obtained the exclusive right of running a stage wagon, drawn by at least two good horses, at intervals of one week, (unless prevented by badness of roads,) from Troy to Hampton, on the border of Vermont. They were allowed to charge 5 cts. per mi. for passengers, and a like sum for every 150 lbs. of baggage over 14 lbs.

³ The *Northern Centinel and Lansingburgh Advertiser* was started at Lansingburgh, May 15, 1787, by Claxton & Balcock; it was subsequently removed to Albany.

The Lansingburgh Gazette, started in 1798, was subsequently for many years published as *The Rensselaer County Gazette*, but it is now published under its first title by Alexander Kirkpatrick.

The Farmers' Register was started in 1798 at Lansingburgh by Francis Adancourt; it was removed to Troy a few years after, where it was published until 1832.

The Lansingburgh Democrat was commenced in Dec. 1838, by Wm. J. Lamb, by whom it is still published.

The Golden Rule was established at Lansingburgh in 1841 by the Rev. R. W. Smith, and was published several years.

The Juvenile Pearl, of the same place, was started Sept. 1, 1845, by Rev. J. A. Pitman.

The Farmers' Oracle, started at Troy by Luther Pratt in 1796, was of short duration.

The Northern Budget was started at Troy in 1798 by Robert Moffitt and Col. Wells, and has been continued to the present time, with slight changes of name. It is now issued as a daily and weekly by C. I. McArthur.

The Troy Gazette was founded in 1802 by Thomas Collier, and was discontinued before 1818.

The Troy Post was commenced Sept. 1, 1812, by Parker & Bliss, and was changed July 15, 1823, to

The Troy Sentinel, semi-w., and continued until Jan. 1, 1833. From May 1, 1830, to Aug. 1831, a daily edition was issued.

The Evangelical Restorationist, semi-mo., was commenced in 1825 by Adolphus Skiener.

The Troy Review, or Religious and Musical Repository, began Jan. 4, 1826, and continued 2 years.

The Evangelical Repository (Univ.) was published in 1828.

The Troy Republican (Anti-Masonic) was started in 1828 by Austin & Wellington, and was continued about a year.

The Northern Watchman (Anti-Masonic) was commenced in 1831 by E. Wellington. In 1832 it was styled

The Troy Watchman, and was continued one or two years.

The Gospel Anchor, (Univ.), started in 1831, was published by John M. Austin, and afterward by H. J. Green; it was continued until 1834.

The Troy Press was started in 1832 by Wm. Yates and Seth Richards, and was continued until July 1, 1834. From 1833 a daily edition was issued.

The Troy Whig, da. and w., was founded in July, 1834, by James M. Stevenson, and is still continued. The weekly since Sept. 1856, has been published as

The Troy American, by F. B. Hubblell.

The Troy Statesman was commenced in 1834, by T. J. Sutherland.

The Botanic Advocate was published in 1834 by Russell Buckley.

The Trojan, da., was started in 1835, and continued a few months.

The State Journal was issued in 1836 by Richards & Maetin, and continued 1 year.

The New York State Journal was published in 1837 by T. Haxtun.

The Troy Daily Mail was started in 1837 by Wellington & Nafew, and was continued until 1841.

The Troy Daily Bulletin was started in Dec. 1841, by R. Thompson.

The Troy Daily Herald was published in 1843 by Isaac D. Ayres. *The Troy Temperance Mirror* was issued in 1843 by Bardwell & Kneeland.

The Family Journal was started in 1844 by Fisk & Co. In Sept. 1848, it appeared as

The New York Family Journal, and it is still continued.

The Troy Post was commenced by Alexander McCall, and in 1845 it was superseded by

The Troy Traveler, da. and w. Fisk & Avery were the publishers, and Wm. L. Avery editor.

The Trojan was started in 1845, and continued several years.

The Rensselaer County Temperance Advocate was begun in 1846 by S. Spicer.

The Daily Telegraph was published at Troy in 1846.

The Journal of Temperance was started in 1846 by Wm. Hager.

The National Watchman was commenced in 1847 by Allen & Garnet, and is still published.

The Troy Daily Times was founded in 1851 by J. M. Francis, and is still published.

La Ruche Canadienne was established at Troy in 1851 by Dorian & Mathiot.

The Nassau Gazette was started in Dec. 1850 by J. M. Geer, and continued a short time.

The Lutheran Herald, semi-mo., was started at West Sand Lake by H. L. Dux, in 1844.

The Greenbush Guardian was commenced in Aug. 1856 by A. J. Goodrich, by whom it is still continued.

⁴ By an act of Jan. 11, 1793, the sum of £600 was appropriated for the erection of a courthouse and jail, to be built under the direction of Cornelius Lansing, Jacob C. Schermerhorn, Abraham Ten Eyck, Mahlon Taylor, and Jacob Vanderheyden, who, with others, had pledged £1000 for that purpose. In 1794 a further sum of £900 was granted; in 1797, \$5500; and in 1798, \$500.

⁵ The first co. officers were Anthony Ten Eyck, Judge; Moss Kent, *Surrogate*; Nicholas Schuyler, Clerk; and Albert Pawling, Sheriff.

⁶ This building was begun in 1828 and finished in 1831. It is in the Grecian style, modeled from the temple of Theseus at Athens, exhibiting the side columns, and is built of Sing Sing marble. The first building was of brick, on the present courthouse site.

⁷ *Senate Doc. No. 8, 1857.* The committee making this report were very severe in their censure of the manner in which this establishment was kept, the inadequacy of its arrangements, and the treatment of its inmates.

⁸ See page —.

⁹ The proportion of leased land in the several towns in 1858 is stated by the agents as follows:—In Stephentown nearly all leased; in Grafton, Nassau, Schohadock, E. Greenbush, N. Greenbush, and Brunswick, each about two-thirds leased; Berlin and Petersburg, each about one-half leased; Poestenkill, nearly all freehold; and Sand Lake, one-third originally deeded, and one-third of the remainder now leased.

the French wars, the n. border of the co. was repeatedly ravaged by the enemy and the settlements were broken up. Upon the approach of Burgoyne's army, in 1777, the American families hastily fled with such property as could be easily removed, leaving the houses and farms to be plundered by the enemy. Scouting parties of the British penetrated as far s. as Lansingburgh. The battle of Bennington was fought within the limits of the co., Aug. 16, 1777;¹ and from that moment the American cause daily grew brighter.² The proprietor of the manor extended every possible assistance to the distressed families flying before the invaders, proving to them a sincere friend in their hour of need.

BERLIN—was formed from Petersburg, Schodack, and Stepentown, March 21, 1806. A portion of Sand Lake was taken off in 1812. It lies near the center of the e. border of the co. Its surface consists of 2 ranges of mountains separated by a narrow valley extending n. and s. The hilly region is wild and broken, and the declivities are generally precipitous. The principal streams are Kinderhook Creek, flowing s., and Little Hoosick River, flowing n. The headwaters of these streams are but a few rods apart, near S. Berlin. The w. part of the town is covered with forest, in which are several fine lakes. The soil in the valley is a gravelly loam, but among the mountains it is a hard sterile clay intermixed or covered with fragments of rock.

Berlin, (p. v.) containing 326 inhabitants, **South Berlin** (p. v.) and **Center Berlin**, (p. v.) are all situated in the valley of the Little Hoosick. The first settler was Godfrey Brimmer, who located near N. Berlin in 1765.³ The first church (Seventh Day Bap.) was formed at N. Berlin in Dec. 1780, and Wm. Coon was the first preacher.⁴

BRUNSWICK—was formed from Troy, March 20, 1807. A part of the town was reannexed to Troy, April 15, 1814. It lies a little n. w. of the center of the co., upon the hilly region w. of the summits of the Petersburg Mts. The most elevated portions of the town, in the extreme e. and in the n. w. parts, are 800 to 1000 feet above tide. The principal streams are Poesten Kil, its tributary Quacken Kil, and Tomhanick Creek. The soil upon the summits of the hills is hard and sterile, but in the valleys and lowlands it consists of a fertile, gravelly loam intermixed with clay. The people are largely engaged in furnishing milk, vegetables, and hay to the Troy market. **Brunswick Center**, **East Brunswick**,⁵ **Millville**, (Eagle Mills p. o.) and **Cropseyville**⁶ (p. o.) are small villages. The first settlement was made about 1760, by a company of Germans.⁷ This town suffered greatly upon the approach of Burgoyne in 1777, and after the battle of Saratoga many families of royalists withdrew to Canada, and but few returned. There are 4 churches in town.⁸

EAST GREENBUSH—was formed from Greenbush, as "*Clinton*," Feb. 23, 1855, and its name was changed April 14, 1858. It lies on the bank of the Hudson, s. w. of the center of the co. The bluffs which border upon the river rise from the edge of the water to an elevation of 100 to 300 feet. The principal one of these, opposite Albany, is known as Pon-o-kose Hill.⁹ From the summits of these bluffs the surface spreads out into a rolling upland, rising toward the e. The chief streams are Tierken Kil,¹⁰ or Mill Creek, in the central, and Moordeners Creek in the s. w. part of the town. The soil consists of sand, gravel, and clay, and is very fertile. There are several sulphur springs in town, the principal of which is opposite Albany and is known as "Harrowgate." A large island called Papskane¹¹ lies in the river, and belongs to this town. **East Greenbush** (p. o.) is the only village. It contains the Greenbush and Schodack Academy¹² and about a dozen houses. Settlements are supposed to have commenced here as early as

¹ See p. —.

² From this time the timid were emboldened, the secretly dissatisfied overawed, and great numbers before undecided now committed their fortunes to the cause of freedom.

³ Among the other early settlers were Reuben Bonesteel and a family named Richer, who came in soon after Mr. Brimmer. In 1769, Peter Simmons and John O. Cropsey lived at the Hollow, and in the same year David Hull and Joseph Green came into town. Col. Bentley settled near N. Berlin, and Thos. Sweet, a blacksmith, at S. Berlin. Jas. Green, a son of Joseph G., died in 1857, aged 100 years. David Hull kept the first tavern before the Revolution, and Hezekiah Hull opened an inn soon after the war. Caleb Bentley built the first grist mill, and Amos Sweet the first saw-mill, in 1780. Dr. John Forbes, the first physician, located at S. Berlin in 1775. Soon after the battle of Lexington, two companies were formed in this and the adjacent towns, a part of whom were stationed at D. Hull's for local protection; the others were engaged elsewhere in active service.

⁴ The census reports 2 churches; Bap. and Christian.

⁵ This village is the seat of a cotton batting and a sash and blind factory.

⁶ A woolen factory and tannery are located here.

⁷ Among the early settlers were David Coons, and families named Hardwick, Braunschwaiger, Sprieger, Borck, Hayner, Outbout, Van Arnam, Hogg, Fisher, Benn, Watson, Fret, Quackenbosc, Muller, Goeaway, and Clum. A man named Fila kept the first inn, near the Lutheran Church, in 1790, and Henry Clum the first store at Cropseyville. The first factory was erected by a company at "Albia," now a part of Troy. The first mill was built by — Cross, in 1792, with no tools but an ax, saw, and auger.

⁸ 2 M. E., Ev. Luth., and Presb.

⁹ Name as given by an aged Stockbridge Indian.

¹⁰ Signifying "blustering or noisy creek."

¹¹ Sometimes written "Poepskenekoes" and "Papakanea."

¹² This academy is now nearly extinct.

1630.¹ During the war of 1812, extensive barracks were erected on the hills e. of Greenbush Village; and for several years the place was the center of active military preparation, and the rendezvous of large bodies of troops.² Edmund C. Genet, Minister of the French Republic to the U. S., was long a resident of this town, and died here July 14, 1834. There is but 1 church (Ref. Prot. D.) in town.

GRAFTON—was formed from Troy and Petersburg, March 20, 1807. It lies n. of the center of the co., upon the summits of the Petersburg Mts. Its surface is very rocky and broken, and a large part of it is yet covered with forests. The summits of the hills are 800 to 1200 feet above tide, and many of them are covered with huge and jagged masses of graywacke. Among the hills are 25 ponds, several of which cover an area of several hundred acres each.³ The Quacken Kil is the principal stream. The soil is chiefly clay, underlaid by hardpan, and is wet, cold, and hard of cultivation. Mineral paint is made from the red argillite at Quackenkil. Considerable quantities of wood, tan bark, and charcoal are sent from this town to Troy. **Grafton**⁴ (p. v.) contains 14 houses, **East Grafton** (p. v.) 12, and **Quackenkil** (p. o.) 10. The first settlements were made by tenants under Van Rensselaer; they paid an average annual rent of 10 bushels of wheat per 100 acres.⁵ The census reports 2 churches; Bap. and M. E.

GREENBUSH⁶—was formed from "Rensselaerwyck," April 10, 1792. Another act of incorporation is dated March 17, 1795. A part of Sand Lake was set off in 1812, and "Clinton" (now E. Greenbush) and N. Greenbush in 1855, leaving but the corporate bounds of the village as defined by the act of April 9, 1852. Its surface consists of the flat intervals on the river and a portion of the adjacent hillsides. The soil is clay mixed with sand and alluvial deposits. **Greenbush** (p. v.) was incorp. April 14, 1815.⁷ Pop. about 3303. The upper part of the village, locally known as "East Albany," contains the depôts, freight houses, and machine shops of the several railroads which terminate opposite Albany, and is a place of considerable business.⁸ The first settlement was made previous to 1631.⁹ A ferry was established at the mouth of Beaver Creek in 1642, and was first kept by Hendrick Albertsen. The country around "*Beverwick*" was thrown into alarm by the news of the Indian massacre at Esopus in June, 1663, and the settlers took refuge in Fort Cralo, on the patroon's farm, and a night watch was established.¹⁰ There are 4 churches in the village.¹¹

HOOSICK¹²—was formed as a district, March 24, 1772, and as a town, March 7, 1788. It lies in the n. e. corner of the co. Its surface consists of the narrow valley of Hoosick River, and the wild, rocky regions of the Taghkanick and Petersburg Mts., rising respectively on the e. and w. The two highest peaks are Fondas Hill in the s. e. and Potters Hill in the s. w. each about 900 feet above tide. The valleys are very narrow, and are bordered by steep hillsides. A belt of dark slate, which is quarried for roofing, extends along the e. bank of the river. East of the river, the rocks consist of a slaty shale and limestone, the latter furnishing lime. The principal streams are Hoosick and Walloomsac¹³ Rivers, Punch Kil, White Creek, and Shaw Brook. The soil among the mountains is hard and sterile, but in the valleys it is principally clay, mixed with disintegrated slate. In the s. e. corner are 3 springs, from which issue nitrogen gas.¹⁴ Flax is very extensively cultivated.¹⁵ Considerable attention is also paid to manufactures. **Hoosick**

¹ Among the early settlers were the names of Van Boren, Van Hegen, Staats, Bris, Vandeburgh, Witbeck, Cuyler, and Van Weespe.

² The cantonments contained accommodations for 4000 troops. There were also hospital accommodations for 100. This elevated position, sometimes called "Mount Madison," was supposed to be a very healthy locality; but during the first year of its occupation much sickness occurred, in consequence of the unavoidable exposures of the camp.—See *Narr's Medical Sketches*. Several military executions for desertion took place here during the war. The old barracks have nearly disappeared.

³ These ponds are noted for the wild beauty of their locality, and they are favorite resorts of sportsmen.

⁴ Often called "Grafton Center," and formerly "*Patroons Mills*."

⁵ Among the first settlers were families named Coon, Dimmona, and Owens. Stephen McChesney kept the first store and inn, in 1800. A grist mill was built at an early day by the patroon at the Center.

⁶ It was named *Greene Bosch* by the Dutch, from the pine woods which originally covered the flats. Called by the Indian names of Pe-tu-sua-poen and Tus-cum-ca-tick in early documents.

⁷ The village was purchased and laid out in 1806, and for several years after, its growth was quite rapid. During the war of 1812 it contained 50 to 70 houses.

⁹ In that year it is mentioned that Gerrit Teunissen de Reus occupied a well stocked farm on Cornelie Maessen Van Buren, an early settler on the river below, died in 1648. Evert Pels Van Steltyn lived on Mill Creek at an early day.

¹⁰ The following names of persons constituting this watch have been preserved: Chief Officer, Cornelius Van Ness; Cornelius Stephenson Mullen, Adam Dingermans, Gerrit Van Ness, Jan. Juriaensen, Jan. Van Ness, Jacobus Jansen, Tysan Hendricksen, Wm. Bout, (Corporal), Jan. Outbont, Hendrick Van Ness, Hendrick Maessen, (Van Buren), Orret Teunissen, Haas Jacobsen, Hendrick Williamson, and Claes Claeseen.

¹¹ Presb. R. C., (St. Johns), Prot. E., and M. E.

¹² Various spellings Hoosack, Hosack, Hoosick, &c. by which it is said to be an Indian name, and by others to be derived from Alexander Hosack, an early settler.

¹³ In early maps and documents variously spelled "Walloomecock," "Walloomsack," "Walloomechock," "Walmecock," "Walmamechock," "Wallamsac," "Walmsee," "Walloomecoick," and "Walmecok."

¹⁴ This gas is not combined with the water, but seems to come from the gravel beds beneath. By pressing upon a surface equal to 4 or 5 loches square, a quart of gas can be collected in 10 seconds.—*Eaton's Geol. Survey, Rens. Co.*, p. 29; *Beck's Mineralogy of N. Y.*, p. 134.

¹⁵ In 1854 the product of the flax crop was over 250,000 lbs. of lint and 8300 bush. of seed.

Falls (p. v.) was incorp. April 14, 1827. Pop. 1200. It contains Ball's Seminary, 2 foundries, 2 cotton factories, 2 reaping and mowing machine factories, and 1 establishment for the manufacture of machinery for cotton and woolen factories. **North Hoosick**¹ (p. v.) contains 175 inhabitants, and **Buskirks Bridge** (p. v.) 125; **Hoosick Corners** (Hoosick p. o.) contains 30 houses, **Eagle Bridge** (p. v.) 14, **Walloomsac**² 12, **West Hoosick** (p. o.) 10, and **Potter Hill** (p. o.) 7. This town was included in the Hoosick Patent,³ granted June 3, 1688, and the Walloomsac Patent,⁴ granted June 15, 1739. The first settlements were made upon the Hoosick Patent by several Dutch families.⁵ A Dutch church was founded, and known as the "Tyoshoke Church," at San Coick, near the n. border of the town. The settlement at Hoosick was entirely broken up by a party of French and Indians on the 28th of Aug. 1754. Two persons were killed, and the houses, barns, and crops were destroyed.⁶ The next day the settlement of San Coick, s. of Hoosick, was also destroyed. The battle of Bennington was fought in this town, Aug. 16, 1777.⁷ There are 6 churches in town.⁸

LANSINGBURGH⁹—was formed from Troy and Petersburg, March 20, 1807. A tract was annexed from Schaghticoke in 1819, and a part of Troy was taken off in 1836. It occupies a narrow strip of land extending about 6 mi. along the bank of the Hudson. In the s. part, the river intervals are one-fourth of a mile in width; but in the n. the bluffs rise directly from the water. In the n. e. is a high, rocky hill, 400 to 600 feet above the river. The high bluff e. of the village is called Diamond Rock. The streams are Deepe Kil and Koola Kil. The soil is a gravelly and clayey loam. The people are largely engaged in the manufacture of brushes, oilcloths, flax cordage, and malt liquors. A lock at Troy admits the passage of sloops up to this place.¹⁰ **Lansingburgh**¹¹ (p. v.) contains extensive brush, oilcloth, and other manufactories, the Lansingburgh Academy,¹² a Female Seminary,¹³ 6 churches, 2 printing offices, and about 4000 inhabitants. A covered bridge

¹ On some maps called "McNamarsville." It is the seat of a paper mill and machine shop.

² This village contains a paper mill.

³ This patent was granted to Maria Van Rensselaer, Hendrick Van Ness, Jacobus Van Cortlandt, and Gerrit Finnie. The patent extended from the Schaghticoke tract, a distance of 2 mi. each side of the river, up to a "certain fall, called Que-quick; and from said falls, up the creek, to a place called Nach-a-quick-quack."

⁴ This patent contained 12,000 acres, on both sides of Walloomsac River, and lying partly in Washington co. and Vt.: it was granted to Edward Collins, James De Lancy, Gerardus Stuyvesant, Stephen Van Rensselaer, Charles Williams, and Frederick Morris.

⁵ Among these early settlers were Adam Vrooman, (an Indian trader), Henry Van Ness, Abraham Fort, Lewis and Peter Vele, John Van Buskirk, Walter Van Vechten, Geo. B. Nichols, Jacob Odekrick, Daniel Bradt, and Reykert Borie.

⁶ The invaders were supposed to be Schaghticoke Indians, who a little time before had abandoned their settlements and gone to Canada. The loss of the two settlements was estimated at \$4000.—*Smith's Hist. of N. Y.*, Alb. ed., p. 307; *Trans. Ag. Soc.*, 1848, p. 909; *Hall's Hist. Eastern Vt.*, p. 66.

⁷ The Battle of Bennington was one of the most important of the military events connected with the expedition of Burgoyne in 1777. About the first of Aug. the British army reached the Hudson and took possession of Fort Edward. For several weeks they had been engaged in repairing the bridges and in clearing the roads from the impediments left by the retreating Americans; and upon their arrival at the Hudson, Burgoyne congratulated himself that his troubles were at an end. His greatest source of embarrassment was in securing provisions for his army and in obtaining means of transportation. With 15 days' hard labor he was only enabled to bring 10 batteaux and 4 days' provisions from Lake George. Learning that the Americans had collected a large quantity of military stores, cattle, and horses at Bennington, he was persuaded by Maj. Skene, against the advice of his most experienced officers, to send a party to capture them. The detachment consisted of 500 Hessians, Canadians, and Tories, under the command of Col. Baume. They were instructed "to try the affections of the county, to mount Reidsel's dragoons, to complete Peters's corps, [of loyalists,] and obtain a large supply of cattle, horses, and carriages." This accomplished, he was to scour the country from Rockingham to Otter Creek, go down as far as Brattleboro, and join the main body by the great road to Albany. The detachment left the camp at Fort Edward, Aug. 13; and on the evening of the same day they surprised and captured 5 Americans at Cambridge. On the 14th they advanced as far as the mill upon Walloomsac River, in the n. e. part of Hoosick and within 12 mi. of Bennington. Gen. Stark, who commanded the American forces at Bennington, learning of the approach of the enemy, took immediate measures for defence. He sent an order to Col. Warner, at Manchester, to march immediately with his regiment of Green Mountain Boys; he rallied the neighboring militia, and on the 15th he sent out an advance guard of 200 men, under Lieut. Col. Gregg, to impede the progress of the enemy. On the

morning of the 14th he marched with his whole force to the support of Gregg, and about 5 mi. from Bennington he met Gregg in full retreat, with the enemy within 1 mi. of him. Both armies chose strong positions and threw up temporary intrenchments. Baume, alarmed at the number of Americans sent for a reinforcement. On the 15th a heavy rain set in; and the day was spent in skirmishing and in preparing for the battle. Col. Warner's regiment arrived at Bennington in the evening, and there stopped to dry themselves and recruit after their fatiguing march. Stark, fearing the enemy might receive reinforcements, resolved to attack them early on the morning of the 16th. Previous to the signal for attack he made the following laconic speech to his men: "See there, men! there are the red-coats. Before night they are ours, or Molly Stark will be a widow." The attack was at once made simultaneously at all points. The Indians fled at the beginning of the conflict, and the Tories were soon driven from their posts, leaving the Hessians to sustain the weight of the engagement. After 2½ hours of hard fighting the enemy gave way at all points, and commenced a disorderly retreat. While the Americans were busy in plundering the abandoned camp of the enemy, and in detached parties were engaged in pursuit. Col. Breyan, with a reinforcement of 500 men, arrived. He met the flying fugitives about 2 mi. from the scene of action, and immediately charged upon the broken ranks of the Americans. The tide of battle now turned, and Stark had the mortification of seeing his army driven helplessly from the field where they had so lately been victorious. At this moment Col. Warner's regiment arrived from Bennington and checked the advance of the British. Stark rallied his broken forces behind the fresh troops, and soon the battle again became general. At sunset the British fled toward the Hoosick and were pursued by the Americans until dark. The Americans lost about 30 killed and 40 wounded. The British loss, in killed, wounded, and prisoners, was 934. The result of this battle was disastrous in the extreme to Burgoyne, and contributed more than any other event to his final surrender at Saratoga.

⁸ 2 M. E., Bap., Ref. Prot. D., R. C., and Union.

⁹ The town was named from the village, and the latter was named from Abraham Jacob Lansing, its founder.

¹⁰ This lock was completed and opened for use Sept. 10, 1823. About 1800 the State expended large sums for the improvement of navigation to this place, and granted a lottery for that purpose.

¹¹ Formerly known as "New City." It was once claimed by Vermont as within its jurisdiction. See page —.

¹² The Lansingburgh Academy, chartered Feb. 8, 1796. By an act passed Feb. 20, 1816, the trustees of this academy were authorized to subscribe 1000 shares to the Bank of Lansingburgh. A. Reed, from New Windsor, Conn., commenced school here in 1793, in a gambrel roofed building, used as the first meeting house. Rev. Dr. Lee taught the languages at the same time.

¹³ In Oct. 1857, Rev. Salmon Hatch opened a private female seminary and boarding school. It has about 100 pupils, and employs 9 teachers.

here crosses the Hudson to Waterford. The Troy & Boston R. R. passes through the town. The village was founded by Abraham Jacob Lansing, about 1770. It was first organized under the name of "*Stone Arabia*" in 1771.¹ In May, 1775, 50 of the citizens—at the head of whom was A. J. Lansing, the proprietor—signed articles of association pledging themselves to sustain the measures recommended by the Continental or Provincial Congress. The first act of incorporation under the State government was passed April 5, 1790, at which time the village was included in the town of "*Rensselaerwyck*."² In 1791 it was included in the town of Troy. The place rapidly increased in population, and early became an important trading and commercial village. The first church (Ref. Prot. D.) was organized in 1784; and reorganized in 1792 as a Presb. church.³ **Speigletown** is a village of 15 houses.⁴

NASSAU—was formed from Petersburgh, Stephentown, and Schodack, March 31, 1806, by the name of "*Philipstown*."⁵ Its name was changed April 6, 1808. It lies near the center of the s. border of the co. Its surface is very broken. Snake Hill, in the s. w., is about 800 feet above tide. The principal streams are Kinderhook and Tsatsawassa⁶ Creeks, and Valatie Kil. There are several fine lakes among the hills, the principal of which are the Tsatsawassa and the Pattawassa. The Psanticoke Swamp, w. of the center, covers several hundred acres. The soil is clay and gravel underlain by hardpan. Considerable manufacturing is carried on in town.⁷ **Nassau**, (p. v.) incorp. March 12, 1819, is the seat of Nassau Academy. Pop. 300. **West Nassau**⁸ has 57 houses, **East Nassau** (p. v.) 45, **Hoags Corner** (p. v.) 25, **Alps** (p. v.) 24, **North Nassau** (p. v.) 15, and **Millers Corners** 10. **Brainards** (p. v.) contains a female seminary and 20 houses.⁹ The first settler was Hugh Wilson, who located on the site of Nassau Village in 1760.¹⁰ At that time a few families of the Stockbridge Indians were living where Mr. Hoag's orchard now stands.¹¹ The Indians conveyed to Joseph Primmer a tract of land n. of Hoags Pond,¹² and another tract s. of it to Hugh Wilson, May 16, 1760.¹³ Within the last 20 years a considerable quantity of land has been allowed to produce a second crop of timber. There are 7 churches, in town.¹⁴

NORTH GREENBUSH—was formed from Greenbush, Feb. 23, 1855. It lies upon the Hudson, directly w. of the center of the co. The clay bluffs, 100 to 200 feet high, rise from the edge of the water, leaving little or no interval. From the summits of the bluffs the surface spreads out into a rolling upland, broken by the deep gulleys of the streams. The principal stream is Wynants Kil, in the n. e. Aries Lake, on the e. border, is a fine sheet of water. The soil is a sandy and gravelly loam interspersed with patches of clay. The people are extensively engaged in supplying the markets of Albany and Troy with garden vegetables and milk. **Bath**,¹⁵ opposite the upper part of Albany, contains about 12 houses, **Defriestville**¹⁶ (p. v.) 12, and **Wynantskill** (p. v.) 15. The first settlement, made by tenants under Van Rensselaer, was among the first in the manor.¹⁷ There are 3 churches in town.¹⁸

PETERSBURGH¹⁹—was formed from Stephentown, March 18, 1791. Its boundary on the line of Berlin was changed, Jan. 4, 1793; parts of Berlin and Lansingburgh were taken off in 1806, and parts of Nassau and Grafton in 1807. It lies upon the e. border of the co., n. of the center. Its surface consists of two precipitous mountain ridges separated by the narrow valley of Little Hoosick River. The highest peaks are 1000 to 2000 feet above tide. The mountain regions are barren and almost inaccessible. The Hoosick River breaks through the Taghkanick Mts. in the n. e. part. The soil in the valley is a gravelly loam. **Petersburgh**, (p. v.) formerly "*Rens-*

¹ At the first meeting in "*Stone Arabia*," held Jan. 1, 1771, it was voted that A. J. Lansing and his heirs forever should be a committee of the village, with a power equal to each of the four annually chosen by the people.

² By an act of 1790, John Van Rensselaer, Charles Tillman, Elijah James, Aaron Ward, Stephen Goreham, Ezra Hickock, and Levinus Lansing, were appointed trustees, to take charge of the waste lands of the village and to perform certain municipal duties, their successors to be elected annually.

³ The census reports 8 churches; 2 M. E., 2 Presb., Bap., African Meth., Prot. E., and R. C.

⁴ The first settlers of this village were Charles W. Douglass and John Follet.

⁵ Named from Philip Van Rensselaer.

⁶ Sometimes written "Tackawaeick."

⁷ There are a foundry and machine shop at Nassau Village, a paper mill at Brainards, a carding machine and chair factory at Hoags Corner, and a hoe factory at Dunhams Hollow.

⁸ Formerly "*Union Village P. O.*"

⁹ Formerly "*Brainards Bridge P. O.*" Transylvania Institute was established here in 1837.

¹⁰ Among the early settlers were Thos. Hicks, Henry Post, John McCagg, Danl. Litz, Titus Hemsted, Abran Holmes, Jas. Marks, John M. Schermerhorn, Maj. A. Brush, Kenben Bateman, Nathl

Gillet, David Waterbury, — McNeil, and — Wiltsie. Wm. Primmer is said to have been the first child born. The first gristmill was built on the outlet of Tsatsawassa Pond, by Mr. Schermerhorn, before the Revolution. The first inn was kept by — Hicks before, and the first store by Hoag & Vail a little after, the Revolution.

¹¹ They called their village On-ti-ke-ho-mawek; and their chief was named Keh-o-mawek.

¹² This pond was called by the early settlers the "*Beaver Dam*."

¹³ The former of these deeds is still preserved.

¹⁴ 2 M. E., 2 Presb., Bap., Ref. Prot. D., and Union.

¹⁵ Named from a mineral spring in the vicinity. It was laid out as a village by the Patron toward the close of the last century. In 1800 the traveller Mande, in his "*Visit to Niagara*," says that it is likely to soon surpass Troy and Lansingburgh in trade, and Ballston and Saratoga as a watering place.

¹⁶ Sometimes called "Blooming Grove." The first settler was Mertius Sharp.

¹⁷ Among the early settlers were John Cranel, Juriah Sharp, Ragner Van Alstyne, Marte, David, and Philip Defriest, Philip Wendell, Rutger Vandenburgh, Cornelius Van Buren, John Fonda, Ed. Hogg, and Lawrence Ryedorf.

¹⁸ 2 Ref. Prot. D., Free Dutch.

¹⁹ Named from Peter Simmons, one of the first settlers.

selaeur Mills," contains 40 houses, and **Petersburgh Four Corners 12.** The first settlers were Dutch, who came in about 1750, as tenants under Van Rensselaer.¹ A few years later, many families came in from Rhode Island. The census reports 3 churches.²

PITTS TOWN—then constituting a part of Schaghticoke—was erected as a township by patent, July 23, 1761, and was formed as a town, March 7, 1788. Its boundary was changed Feb. 14, 1793. It lies in the center of the n. part of the co. Its surface is mountainous in the s. and e. and gradually declines into a moderately hilly region in the n. The highest summits, in the s. e., are 800 to 1000 feet above tide. Nip-moosh Hill is the principal elevation in the n. e. The soil is principally a gravelly and slaty loam. Flax is extensively cultivated,³ and there are several manufactories in town.⁴ **Johnsonville** (p. v.) contains 35 houses, **Raymer-town** (p. v.) 27, **Pittstown Corners** (Pittstown p. o.) 22, **Boynton 20**, **Valley Falls** (p. v.) 16, and **North Pittstown 8.** The first settlement was commenced about 1650.⁵ The first church (Bap.) was formed in 1784; Elder Isaac Webb was the first preacher.⁶

POESTENKILL⁷—named from its principal stream—was formed from Sand Lake, March 2, 1848. It lies near the center of the co., upon the western declivities of the Petersburgh Mts. The central and e. portions are rugged, rocky, and mountainous, and the soil is cold, sterile, and unproductive. The w. part is hilly, with a gravelly loam well adapted to pasturage. Snake Hill, near the center, is one of the principal elevations. Upon the Poesten Kil is a fall of about 80 feet. One mi. w. of the falls is a medicinal spring, with a local celebrity for the cure of eruptions and cutaneous diseases.⁸ **Poestenkill** (p. v.) contains 300 inhabitants, **East Poestenkill** (p. o.) 10 houses, and **Barberville 16.** A union academy was formed in this town in 1854, but it is not under the regents. The census reports 4 churches.⁹

SAND LAKE—was formed from Greenbush and Berlin, June 19, 1812. Poestenkill was taken off in 1848. It is an interior town, lying a little s. of the center of the co. Its surface is rocky and mountainous in the e. and hilly in the w. Perigo Hill, in the n. e. corner, is 900 feet above tide, and Oak Hill, near the center, is but little less in height. The e. part of the town is mostly covered with forest.¹⁰ Wynants Kil, flowing n. w. through the center, and Tsatsawassa Creek, in the e., are the principal streams. Along the valleys of these streams are several fine lakes, the principal of which are Sand, Glass, and Crooked Lakes, and Big Bowmans Pond. The soil among the mountains is a hard, sterile clay, but in the w. it is a good quality of gravelly loam. Three-fourths of a mi. e. of W. Sand Lake is a chalybeate spring. Large quantities of cordwood, charcoal, and tan bark are carried to the Troy and Albany markets. **Sand Lake** (p. v.) contains the Sand Lake Academy, a boarding school,¹¹ foundry, cotton warp factory, knitting mill, and 300 inhabitants. **West Sand Lake**¹² (p. v.) contains 300 inhabitants, **Sliters Corners 106**, and **Glass House 200**,¹³ **South Sand Lake** is a p. o. Settlement commenced before the Revolution.¹⁴ The census reports 7 churches in town.¹⁵

SCHAGHTICOKE¹⁶—was formed as a district, March 24, 1772, and as a town, March 7, 1788. Pittstown was taken off, March 7, 1788, and a part of Lansingburgh in 1819. It lies on the Hudson, in the n. w. corner of the co. The surface is principally a rolling upland, about 200 feet above the river. The summits of the hills in the s. are 800 feet above tide. Hoosick River,

¹ Among the early settlers were Wm. Prendergast, John Brimmer, Jacob and Godfrey Brimmer, John Spencer, Hans and Peter Bachus, Johannes Ruyter, Henry Litcher, Hans Lautman, Barent Hogg, Jacob Benets Vosburg, Bastian Deid, Frans. Burn, Juriah Kreiger, Henry Young, Schoolmaster Watson, and Long Andries. John Spencer built a log gristmill before the Revolution, at S. Petersburgh; and Barber & Murray built a carding mill about 1800. Several of the settlers were killed or taken prisoners during the French War,—probably by the same party that destroyed the Hoosick settlements in 1754.

² 2 M. E., Seventh Day Bap.
³ The census of 1855 reports that, in 1854, more than 250,000 lbs. of flax and 7000 bush. of flaxseed were raised, and that there were 13 flax mills in town.

⁴ There are two manufactories of cotton hags at Shermans Mills, a paper mill at Valley Falls, and manufactories of cordage and axes at Johnsonville.

⁵ Wm. Prendergast, Stephen Hunt, and Edmund Aiken were among the first settlers near Johnsonville; Ludovicus Viele at Valley Falls, in 1772; and Christian Fisher and Michael Vandercok at Cooksborough. In 1770, Wm. Shepard (from New England) settled on 500 acres; in 1778-80, Benj. Aiken (from Dutchess co.) on 950 acres; and in 1785, Alex. Thompson, on 500 acres. Wm. Hammond kept a school at N. Pittstown in 1785, and Rebecca Thompson at Shermans Mills in 1789.

⁶ The census reports 15 churches; 6 M. E., 3 Presb., 2 Christian, Bap., Ev. Luth., Friends, Union.

⁷ Pronounced "Poosten-kill." It is a Dutch word, signifying "puffing or foaming creek."

⁸ A bathing establishment erected here was swept away by a freshet.

⁹ Bap., F. W. Bap., Disciple, and Ev. Luth.

¹⁰ This town is a favorite resort of hunting and fishing parties.

¹¹ The Sand Lake Collegiate Institute was established in 1855 by Wm. H. Schram.

¹² Formerly called "Utinesville," from Bernard Ulins, who built the first house. His son, of the same name, was first innkeeper.

¹³ This village was formerly the seat of an extensive glass factory, and was called "Rensselaer Village." The company was organized in 1805, incorp. in 1806, and discontinued in 1852. In 1813 100 men were employed by the co.

¹⁴ Among the early settlers were Abram Frere, Nicholas Fellows, Andreas Barent, Fred. Shaver, Abram Erlstul, Eph. Quinby, John Carmichael, Andreas Weatherwax, and Stephen Miller. Joshua Lockwood and Wm. Carpenter built the first grist mill in 1768, at W. Sand Lake.

¹⁵ 2 M. E., 2 Ev. Luth., Ger. Meth., Bap., Presb.

¹⁶ From "Schact-ikook." In old documents it is variously spelled "Schactekoke," "Schactekoke," "Seahwahook," and "Schagcoquo." It is said to be an Algonquin word, signifying "landslide." The Stockbridge Indians called it "Pah-ha-koke."

flowing through the n. part, is bordered on a portion of its course by steep banks 200 feet high. Upon this stream, at the mouth of Tomhanick Creek, is a beautiful circular valley, three-fourths of a mi. in circumference, and bounded on nearly every side by steep hills.¹ The soil is generally a fertile, sandy or gravelly loam. Considerable manufacturing is carried on in town.² **Schaghticoke Point** (Schaghticoke p. o.) contains a pop. of 1148. **Schaghticoke Hill** contains 25 houses, **The Borough 8**, **The Junction 17**, and **Old Schaghticoke 6**. About 1670, Gov. Andros settled a remnant of the Pequots and other Eastern tribes, under the name of "Schaghticoques," in this town, on land given them by the Mohawks, as a barrier against the Northern Indians.³ By the charter of 1686 the city of Albany was allowed to purchase of the natives 500 acres of land in this town; but, neglecting to do so, Hendrick Van Rensselaer obtained the same privilege in 1698. He sold his right to the city the next year, and in 1707 an Indian deed was obtained for a tract 6 mi. square, mostly within the limits of this town. In Oct. 1709, the city conveyed the land to actual settlers.⁴ The early settlements suffered greatly from Indian hostilities. A fort was built in 1746 at Old Schaghticoke and garrisoned by 2 companies of soldiers. The whole settlement was abandoned on the approach of Burgoyne; but, through the influence of the royalists, the place was not burned, though held for some time by the British and Hessian outposts.⁵ The Schaghticoke Seminary was incorp. May 4, 1836. The first church (Ref. Prot. D.) was formed in 1714.⁶

SCHODACK⁷—was formed March 17, 1795, at the time of the division of "*Rensselaerwyck*;"⁸ parts of Berlin and Nassau were taken off in 1806. It lies upon the Hudson, in the s. w. corner of the co. From the river the surface rises in a series of bluffs 200 feet high, from the summits of which it spreads out into an undulating upland inclined toward the w. Bunker Hill, the highest point, is about 500 feet above tide. The surface is intersected by numerous deep gulleys of small streams. The principal streams are Vierdee Kil,⁹ Moordeners Kil,¹⁰ Vlockie Kil, Muitzes (Mitch-es) Kil, and Valatie (Vola-she) Kil.¹¹ The soil in the e. is clay, and in the w. a fertile, sandy and gravelly loam. **Castleton**¹² (p. v.) is a fine village upon the Hudson. Pop. 431. **Schodack Landing** (p. v.) contains 250 inhabitants, **Muitzes Kil** 20 houses, **Schodack Depot** (p. v.) 18, **East Schodack** (p. v.) 15, and **Bunker Hill** 9. **Schodack Center** and **South Schodack** are p. offices. This vicinity seems to have been thickly inhabited by native tribes at the time of Hudson's visit in 1609.¹³ The first settlements were made by tenants under Van Rensselaer. Over 40 settlers are mentioned in Bleeker's survey of 1767.¹⁴ The census reports 7 churches.¹⁵

STEPHENTOWN¹⁶—was formed from "*Rensselaerwyck*," March 29, 1784. Petersburg was taken off in 1791, and parts of Berlin and Nassau in 1806. It lies in the s. e. corner of the co. Its surface consists of 2 rocky mountain ranges separated by the valley of Kinderhook Creek. The highest summits are about 1800 feet above tide. The principal peaks are Round Mt., and Whitney and Butternut Hills, e. of the valley, and Brockway Hill and Webster Mt. w. A con-

¹ A small stream called the Dwaas Kil (stream running both ways) flows from the Hudson into the mouth of the Hoosick. When Hoosick River suddenly rises, the current of this stream is often changed; and it is not uncommon to see it running n. in the morning and s. at night.—*Fitch's Ag. Surv. Wash. Co.*, 1849, p. 939.

² The manufactures consist of cotton and linen goods, fax, powder, plaster, and agricultural implements.

³ A portion of these removed to Kent, Conn., in 1728, and the remainder, numbering 400, joined the French in Canada.

⁴ These were Johan de Wendelaar, Jr., John Heermans Vischer, Corset Voeder, Daniel Kittlehuyn, Johan Knickerbacker, Louis Viels, and Derick Van Veghten, who went there to reside, and were joined soon after by Martin de Lamont, Wouter Quackenbosch, Peter Yates, David Schuyler, Wouter Groebeck, Philip Livingston, Ignace Kip, Cornelius Vandenberg, and many others, whose descendants still reside in the vicinity.

⁵ Col. John Knickerbacker, of this town, raised a regiment during the Revolution.

⁶ A new church was built in 1760, and Rev. Elias Bunchooten was installed pastor. This quaint edifice was 60 by 40 feet, with low side walls and a high pitched mansard roof and turret, surmounted by a weathercock over the southern gable. There was no burial ground attached, and the oldest is that of the Knickerbacker family, on the site of an Indian cemetery. The first European burial occurred in 1715. A few rods s. e. of this spot is the "Wittengemoet," or "Council Tree," a remarkably vigorous and symmetrical oak, more than 15 feet in circumference. The census reports 8 churches; 2 Ev. Luth., 3 M. E., 1 Presb., 1 Ref. Prot. D., and 1 R. C.

⁷ Sometimes written "Shodac" or "Schodack."

⁸ A confirmatory act of incorporation was passed March 17, 1795.

⁹ "Fourth Creek," reckoned from Albany.

¹⁰ "Murderers Kil," from an obstinate battle fought between the settlers and a band of robbers at an early day, (traditional).

¹¹ "Little Fall Creek." Another small creek in town is named Adams Killeys, (Little Creek), from Adam Moll, who was taken prisoner by the Indians while drinking of its waters.

¹² Named from an ancient Indian castle on the adjacent hills. It was first settled in 1792, and incorp. April 19, 1827. Formerly called "*Morriches Hostie*," (Maria's Dooryard).

¹³ "On the evening of the 15th he arrived opposite the mountains which lie from the river side, where he found 'a very loving people and very old men,' and the day following reached the spot hereafter to be honored by his own illustrious name. One day more waits him up between Schodac and Castleton; and here he landed and passed a day with the natives, greeted with all sorts of barbarous hospitality; the land 'the finest for cultivation he ever set foot on;' the natives so kind and gentle that when they found he would not remain with them over night, and feared that he left them—poor children of nature!—because he was afraid of their weapons,—he, whose quarterdeck was heavy with ordnance!—they 'broke their arrows in pieces and threw them in the fire.'"—*Everett's Address, Inauguration Dudley Observatory*, p. 64.

¹⁴ Among the names of the early settlers are Van Buren, Barhadt, Van Valkenburgh, Sprusteen, Schermerhorn, Janze, Ketel, Poel, Miller, Schevers, Lodwick, Huyck, Beekman, Mills, Molls, Saleberg, Witbeck, and Nilton. The first mill was built before the Revolution, below Castleton. — Barhadt kept the first inn, in 1778. A carding mill was erected on Muitzes Kil in 1800.

¹⁵ 3 Ref. Prot. D., 2 M. E., Bap., and Ev. Luth.

¹⁶ Named from Stephen Van Rensselaer.

siderable portion of the town is covered with forest. The principal streams are Kinderhook and East Creeks, Black River, and Black and Roaring Brooks. The soil is hard and sterile among the mountains, but a gravelly loam in the valleys. **Stephentown** (p. v.) contains 15 houses. **Stephentown Flats** contains a cotton wadding and batting factory, a machine shop, and about 20 houses. **North Stepentown, South Stepentown, and West Stepentown** are p. offices. Settlement was commenced here in 1766.¹ The first church (Bap.) formed in 1782, under Rev. Justus Hall. Rev. Robt. Miles was the first pastor.²

TROY CITY—was formed as a town from "*Rensselaerwyck*," March 18, 1791. Brunswick, and parts of Grafton and Lansingburgh, were taken off March 20, 1807, and a part of Brunswick was annexed in 1814. The first village charter was passed in 1791,³ and another, granting more extended powers, was passed Feb. 16, 1798. The village was formally incorp. by acts passed April 2, 1801, and April 9, 1805. The city charter was granted April 12, 1816. A portion of Lansingburgh was annexed May 24, 1836. It lies upon the Hudson, near the center of the w. border of the co. Its surface comprises the alluvial flat, three-fourths of a mile wide, upon the river, and the high bluffs which border it on the e. The high land immediately e. of the city is known as Mt. Ida, and that on the n. e. as Mt. Olympus. Mt. Ida is principally clay, and has been the scene of several destructive landslides. Poesten Kil and Wynants Kil both break through these hills in narrow ravines and in a series of cascades, forming an excellent water power.

The first religious meetings were held in a store, and afterward in a schoolhouse, about 1785. The first framed house of worship was erected in 1791, now the First Presb. Church; Rev. Jonas Coe, of Lansingburgh, was the first pastor. There are now 33 churches in the city.⁴

The *Public Schools* are under the charge of 20 commissioners, elected for two years.⁵ In 1857 the city was divided into 25 school districts, and employed 76 teachers,—14 males and 62 females. The number of children, between 4 and 21, was 11,200, of which 7228, or 63 per cent., attended the public schools during some portion of the year.⁶

The *Troy Academy*, incorp. May 5, 1834, and received under the regents Feb. 5, 1839, has mostly been superseded by the city schools.

The *Troy Female Seminary*,⁷ situated on Second Street, between Congress and Ferry Sts., was first established at Middlebury, Vt., in 1814, removed to Waterford in 1819, and to Troy in 1821. It was incorp. May 6, 1837, and received under the regents Jan. 30, 1838. It has gained a national reputation under the charge of Mrs. Emma Willard.

The *Rensselaer Polytechnic Institute*,⁸ endowed by Stephen Van Rensselaer, is situated near the head of State St. It was organized in 1824, and was originally designed for the education of teachers. It is now more particularly devoted to science and its application to engineering and the arts. It numbers 14 professors and has about 100 students. Next to West Point, this institute has the best reputation, in its special departments, of any school in America.

The *Troy Lyceum of Natural History* was incorp. March 7, 1820. Its cabinet (is kept in the rooms of the Polytechnic Institute.)

The *Troy University*⁹ is located upon Mt. Ida, a beautiful situation, overlooking the city and valley. It is under the charge of the M. E. denomination, (but is not yet fully organized.)

St. Peters College is located at the foot of Mt. Ida. It is under the charge of the R. C. denomination, and is not yet fully organized.

¹ Ass Douglas, his son Wm., and his grandson Benj., Nathao Rose, Elcothan Sweet, and Joseph Rogers, settled near the center of the town; Joshua Gardiner to the e. part, Edward Carr near Kinderhook Creek, John Mills, — Husted, — Lewis, — Berry, and others, toward the n. part. The first inhabitants were chiefly from Rhode Island. Wm., grandson of Asa Douglas, was the first child born in town; and he married the first white female born in town. Hon. Stephen A. Douglas is a descendant of the first settler of this town.

² The census reports 5 churches; 2 F. W. Bap., Bap., Christ. Cong., and Presb.

³ The first trustees named in the act of incorp. were Jacob D. Vanderheyden, Benj. Covill, Anthony Goodspeed, John Pease, Ephraim Morgan, Chris. Hutton, and Saml. Geo.

⁴ Of these there are 7 M. E., 5 Presb., 4 Prot. E., 3 Bap., 3 R. C.,

2 Wes. Meth., 2 Asso. Presb., Ger. Mission, Unit., Univ., Cong., Friends, Disciples, and Jews.

⁵ A Lancasterian school was established here at an early period, and continued until superseded by a special school system. The present school law was passed April 4, 1849.

⁶ The total receipts and expenditures for 1857 were \$38,074 35.

⁷ More than 7000 pupils have been educated here, a large number of whom have become teachers.

⁸ Rev. Saml. Blatchford was its first President, and Amos Eaton its first senior prof., under whom the school obtained a high and merited reputation.

⁹ The grounds of this institution cover 36 acres. The main building is in the Byzantine style of architecture, and is 259 feet long on an average 58 feet broad, and 4 stories high.

St. Joseph Academy, under the charge of the R. C., was founded, in 1842, as a free school. In 1852 it was enlarged, and a boarding house was annexed.

The *Troy Hospital*, a charitable institution, was incorp. March 1, 1851. It was founded chiefly through the exertions of Rev. P. Havermans, and is supported by the R. C. denomination. The nurses belong to the Sisters of Charity.

Marshall Infirmary was incorp. in 1851. It was founded by Benjamin Marshall. The building and grounds cost \$35,000; which sum was donated by its founder.

St. Marys Orphan Asylum is an institution connected with St. Marys Church, (R. C.) The male department is under the charge of the "The Brothers of the Christian Schools," and the female, of "The Sisters of Charity."

The *Warren Free Institute*, a school for indigent female children, was incorp. March 19, 1846. It was founded and endowed by the Warren family. A free church, (Prot. E. Church of the Holy Cross,) for the pupils and their parents, is connected with the Institute.

The Troy Water Works were built by the city in 1833-34, and they have been subsequently extended. The water is drawn from Piscawin Creek, and the reservoir is sufficiently high to throw the water to the top of most of the houses. The works are under the charge of water commissioners, and the rents are charged to property owners and collected with the taxes.

The city is 150 miles from New York, with which it is connected by R. R., and, in the season of navigation, by lines of steamers. Its commerce is extensive, and it has a large trade with the region N. and E. The Union R. R. Co. have erected a magnificent depôt in the central part of the city for the accommodation of the various lines of roads that center here.¹

The manufactures of Troy are extensive and various.² Wynants Kil, on the S., furnishes 12 mill sites, with an aggregate of 2000 horse power; Poesten Kil, on the N., has 10 sites, equivalent to 1000 horse power, and the dam across the Hudson furnishes 4000 horse power. Besides these there is an immense amount of steam power in use.

In 1720, Derick Vanderheyden³ acquired from Van Rensselaer the title to 490 acres of land, now included in Troy, at an annual rent of 3½ bush. of wheat and 4 fat fowls.⁴ The tract was occupied as a farm until about 1786, when a company of New Englanders induced the owners to lay it out as a town. It was surveyed between 1786 and '90, and was variously known as "*Ferry Hook*," "*Vanderheydens Ferry*," and "*Ashleys Ferry*." In the spring of 1789 the place contained 5 small stores and about a dozen dwellings. The name, Troy, was adopted at a meeting of the freeholders, Jan. 5, 1789. The first settlers came in soon after the war.⁵ The completion of the Erie Canal gave an impulse to this place that speedily raised it from a comparatively obscure village to a large and important city.⁶ Several destructive fires have occurred, occasioning great losses.⁷

¹ The Troy Union R. R., 2¼ mi. long, was built by a company, composed of persons chosen by, and representing the interests of the Hudson R., N. Y. Central, Troy & Boston, and Rensselaer & Saratoga R. R. The depôt, built in 1853-54, is 400 by 180 feet, walls 27 feet, and roof a single arch, (Briggs's patent,) supported only by the walls. It is built for 10, and has 7, parallel tracks its entire length. Tower, 115 feet high. Four complete suites of rooms and offices.

² The iron manufactures consist of R. R. iron, rolled iron, spikes, nails, stoves, firearms, malleable iron, steam engines, safes, agricultural implements, &c. The business is carried on by more than 30 firms, and gives employment to 25000 men. The Troy nail works are among the most extensive in America. Besides these, there are 6 large flouring mills, 3 grist mills, several breweries and distilleries, and establishments for the manufacture of cotton and woolen goods, hosiery, paper, carriages, clothing, &c., in the aggregate employing about 7000 hands. One establishment for the manufacture of shirts, bosoms, and collars employs 670 hands; 8 others employ 1070 hands, and 17 others 2750 hands. The most extensive mathematical instrument manufactory in the U. S. is located in this city.

³ A descendant of his was known as the "Patron of Troy."

⁴ Brandt Van Slechtenhorst, director of the "Colonie of Rensselaerwyck," in 1646, purchased for the Patron two additional

tracts of land E. of the Hudson; one, called "Paanpaack," (Field of Corn,) included the site of Troy; and the other, called Panboosick, farther N.—*Brodhead's Hist. of N. Y.*, pp. 420-534.

⁵ The upper part of the city belonged to Jacob Vanderheyden, and the southern to Matthias Vanderheyden. Stephen Ashley and Benjamin Covill were the earliest settlers under the Vanderheydens. They came in about 1786; and the former kept an inn in the old farmhouse of Matthias Vanderheyden for several years. Dr. Saml. Gale, the first physician, came from Guilford, Conn., in 1787. Among the other early settlers were Eph. Morgan, John Boardman, Benj. Smith, Phil. Heartt, Anthony Goodspeed, Mahlon Taylor, Eben'r and Saml. Wilson, Moses Vail, Lewis Richards, Eben'r Jones, Howard Moulton, Amasa Pierce, Jere'h Pierce, Townsend McCoun, Nathan and Steph. Warren, David Buel, and Benj., John, Saml., and Wm. Gale.

⁶ The following table shows the increase of the population of Troy for each semi-decade since 1810:—

1810.....	3,895	1835.....	16,959
1815.....	4,841	1840.....	19,334
1820.....	5,264	1845.....	21,709
1825.....	7,859	1850.....	28,785
1830.....	11,556	1855.....	33,269

⁷ The fire of June 20, 1820, destroyed property to the amount of \$370,000, and another, Aug. 25, 1854, to the amount of \$1,000,000.

Acres of Land, Valuation, Population, Dwellings, Families, Freeholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Rensselaer County.

SCHENECTADY COUNTY.

This county was formed from Albany, March 7, 1809. It is centrally distant mi. from Albany, and contains — sq. mi. The greater part lies between Mohawk River and Schoharie Creek,—one town only lying n. of the Mohawk. The surface consists of the Mohawk Valley and an upland, generally much broken by ridges and isolated hills, 200 to 350 feet above the river. The highlands are the northern continuation of the Helderbergh and Schoharie Mts. The underlying rock is generally the shales of the Hudson River group, which crop out in the valleys and the bottoms of the ravines. In portions of Glenville and Duaneburgh this rock is underlaid by birdseye limestone, from which are obtained both lime and stone for building. The greater part of the surface is covered with a thick deposit of drift, consisting principally of clay in the w. part and sand in the e. The rocks crop out on the banks of the streams and form the declivities of the steeper hills. The soil in the w. part is a tenacious, clayey loam, underlaid by hardpan on the hills, and in the e. a light, unproductive sand. The valley of the Mohawk consists of a deep, rich alluvium, well adapted to tillage, and extensively devoted to the cultivation of broomcorn.¹

The principal streams are Mohawk River, Schoharie Creek, and Normans Kil, and their branches. The valleys of these streams are generally bordered by the steep declivities of the uplands, rising to a height of about 300 feet. Many of the smaller streams have worn deep gulleys in the loose drift deposits, giving to the surface a very broken character. These small streams are mostly dry in summer. The fine alluvial flats near Schenectady, extending 5 mi. w. on the s. side of the river, were called by the first settlers "*The Bowland*."² A tract 2 mi. in extent, n. of the river, was called the "*Maalwyck*;"³ and a tract on both sides, 4 mi. w. of the city, was known as the "*Woestina*."⁴ A region immediately about Schenectady was called "*Oron-nygh-wurrie-gughre*," the hills s. were known as the "*Yan-ta-puch-a-berg*;"⁵ and those on both sides of the river above the city were called "*Tou-ar-e-u-ne*." The streams of "*Woestina*" were "*Werf Kil*,"⁶ "*Zantzee Kil*,"⁷ and "*Righelbrigh Kil*."⁸ The valleys are best adapted to tillage and the hills to pasturage.⁹ Manufactures are chiefly limited to the city of Schenectady.¹⁰ In Glenville are about a dozen broom factories, employing 150 persons.

The county seat is located at Schenectady City.¹¹ The courthouse and clerk's office are both situated on Union St.: the former contains the courtroom, jail, sheriff's and supervisors' rooms,¹² and the latter the clerk's and surrogate's offices. The poorhouse is located on a farm of 116 acres, on the Albany Road, just e. of the city. It has, on an average, about 75 inmates, and the farm yields a revenue of \$1200. There are 4 newspapers published in the co.¹³

¹ One-half of the entire broomcorn crop of the State is raised within this co. A considerable portion of the broomcorn land is annually overflowed, rendering it contiguously fertile; and many tracts have produced this crop alone for many years.

² "*Arable Land*."

³ "*Whirl-back*," from the tortuous course of the Mohawk.

⁴ "*Wilderness*."

⁵ Mixed Indian and Dutch, signifying "John-ear-of-corn-hill."

⁶ "*Paint Creek*," from the yellow earth along the banks.

⁷ "*Sea-Sand Creek*."⁸ "*Rail-bridge Creek*."

⁹ At an early period the Mohawk Valley was celebrated for its large wheat crops; but now very little is raised.

¹⁰ See page —.

¹¹ By the terms of the act making Schenectady the co. seat, the courthouse was to be built at the expense of the city. The first county officers were Gerrit S. Veeder, *First Judge*; Peter V. Veeder, *Clerk*; Jas. V. S. Rider, *Sheriff*; and Wm. J. Teller, *Surrogate*.

¹² The first courts were held in the City Hall, and afterward in the West College.

¹³ The following is a nearly complete list of the newspapers in the co.:

The Western Spectator was issued prior to 1807.

The Schenectady Cabinet was commenced in Jan. 1809, by Isaac Riggs. In 1850 it passed into the hands of S. S. Riggs, who continued it until 1857.

The Western Budget was issued a short time in 1809.

The Mohawk Advertiser was published in 1810, by Ryer Schermerhorn.

The Schenectady Gazette was published in 1812, by Ryer Schermerhorn.

The Schenectady County Whig was issued in 1830, by C. G. and A. Palmer, and was continued until 1834.

The Schenectady Standard was published in 1831, by T. J. Sutherland.

The Schenectady Democrat was begun in 1828, by C. G. and A. Palmer. T. W. Flagg became its publisher in 1837, and the same year it was changed to

The Reflector and Schenectady Democrat. It has been successively published by G. Yates, E. H. Kincaid, and A. A. Keyser, and is now published by Fred. W. Hoffman.

The Censor was published in 1834, by the students of Union College. *The Parthenon*, mo., was published the same year, by the college students.

The Mohawkier was published in 1835, by Riggs & Norris.

The Protestant Sentinel was commenced in 1835, by Rev. John Maxson, and continued 2 years.

The Wreath was started in 1835, by W. H. Burleigh, and continued 1 year.

Freedom's Sentinel was issued during the campaign of 1840, by Stephen S. Riggs.

The Antiquarian and General Review, mo., was started in 1845, by Rev. W. Arthur, and continued 2 years.

The Scroll, mo., was published a short time in 1849.

The Schenectady Democrat was founded in 1853, by Wm. M. Colbourne and W. N. Clark, and since 1857 it has been published by Alex. J. Thompson.

The great flat upon the Mohawk w. of "Fort Orange," and where the city of Schenectady now stands, was bought of the natives in July, 1661, in the name of Arent Van Corlear;¹ and settlement was commenced during the same year. It was under the charge of 5 commissioners until Nov. 1, 1684, when Gov. Dongan granted a patent confirming previous rights and extending the territory.² On the night between the 8th and 9th of Feb. 1690, N.S.,³ the settlement—then consisting of about 80 houses—was surprised by a party of about 300 French and Indians, and nearly every house was burned. Sixty-three persons were killed, and 27 were carried to Canada as prisoners. The night was intensely cold, and the nearest place of refuge was Albany, to which a few escaped after much suffering.⁴ In 1702 R. Schermerhorn became sole trustee; and in 1705 a new patent was issued, conferring certain township privileges. On the 23d of Oct. 1765, the place was created a borough, with the rights and immunities incident to these corporations.⁵ From 1726 to the Revolution the township of Schenectady sent a representative to the General Assembly. During the war the village was fortified and garrisoned at the public expense, and many families from the Upper Mohawk sought protection here from the incursions of the Tories and Indians.⁶ For several years after 1779 a large number of friendly Oneida and Tuscarora families, driven from their homes by the hostile tribes, were supported in this vicinity at the expense of the General Government. At the return of peace the settlement shared in the general prosperity. A new impulse was given to business by the improvements effected by the Western Inland Navigation Co., which enabled large boats to make longer voyages.⁷ Upon the completion of the Erie Canal the Mohawk navigation was entirely superseded. For several years after the completion of the r. r. from Albany in 1831, large quantities of merchandise were sent here to be shipped on the canal, saving the delay of the circuitous route and numerous locks on the canal between Schenectady and Troy.⁸ In 1832 a r. r. was built to Saratoga, in 1835, to Utica, and in 1843, to Troy. In 1849 several plank roads were built, which since have been mostly abandoned.

DUANESBURGH⁹—was erected as a township, by patent, March 13, 1765, and it was first recognized as a town March 22, 1788. It lies in the s. e. corner of the co. Its surface consists of an upland, broken by the narrow valleys and gulleys of small streams. Schoharie Creek forms a portion of its w. boundary, and Normans Kil flows through the s. part. The hills that border upon these streams are steep, and in some places rocky. The other principal streams are Corrys Brook, Chuctanunda Creek, and Bosa Kil. Maria Pond and Featherstons Lake are 2 small bodies of water in the n. e. part, about 250 feet above the canal. The soil is principally a stiff, clay loam, with a slight intermixture of gravel. It is best adapted to pasturage. **Duanesburgh** (p. v.) contains about a dozen houses, **Quaker Street**¹⁰ (p. v.) 30, **Mariaville**¹¹ (p. v.) 20, and **Bramans Corners** (p. v.) 18. **Eatons Corners** is a hamlet. Large tracts in this town were purchased by different parties between 1736 and 1770,¹² but no active measures of settlement were taken till about the time of its organization in 1765. During that year Duane, who had become an extensive proprietor, con-

The Schenectady Morning Star was started Feb. 24, 1854, by W. M. Chadbourne and W. N. Clark, and changed in Sept. 1854, to

The Evening Star, &c., now published by W. M. Colburns and Isaac M. Gregory.

The Schenectady Republican has been published since Sept. 1857, by W. M. Colburns and Judson S. Landon.

¹ The grantors were 4 Mohawk chiefs, named Cantuque, Sonaretsie, Audaao, and Sodachrass. This grant was confirmed the next year, and the tract was surveyed in 1664. The inhabitants of Fort Orange, wishing to monopolize the Indian trade, presented to the settlers, before the land was received from the surveyor, a written pledge to abstain from trading with the Indians. A remonstrance against this injustice was signed by the following early settlers, viz.: A. Van Corlear, Philip Hendrickson, Sanders Lerdentzen Glen, Simon Volcresent, Pieter Soghmaekelyk, Tennis Cornelissen, Marte Cornelisse, Willem Teller, Bastiaan De Winter for Catalyn, widow of Arent Andries de Voss, Pieter Jacobsse Borsboom, Pieter Danielse Van Olinda, Jan Barentse Wemp, and Jacques Cornelisse. Their resistance occasioned several years' delay in the survey of the lands.

² Wm. Teller, Ryer Schermerhorn, Sweer Tuinison, Jan Van Eps, and Myndert Wemp were appointed trustees under this grant. The tract embraced the present city, and the towns of Glenville, Rotterdam, and part of Niskayuna.

³ Previous to 1752 time was reckoned in England by "Old Style," the year commencing on the 25th of March. All dates previous to that time between Jan. 1 and March 25, are reckoned in 1 year by "Old Style," and in the following year by "New Style."

⁴ *Colden's Five Nations*, 3d ed., l. p. 120.

⁵ This and West Chester were the only boroughs in the colony.

⁶ The place was never visited by a hostile army after 1690. The colonial statutes contain frequent provisions for the rebuilding, repairs, and supplies of this fort.

⁷ This company cleared the river of impediments to navigation as much as possible, built a lock at Little Falls, and in 1796 built a short canal connecting the Upper Mohawk with Wood Creek, which flows into Oneida Lake, opening a direct water communication with the chain of lakes in the interior of the State, and with Lake Ontario and the St. Lawrence. The boats employed, called "*Durham boats*," were propelled up stream by setting poles, and were floated down by the current.

⁸ This business was stopped by the repeal of the statute prohibiting the r. r. from carrying freight w. of this place.

⁹ Named from James Duane, the principal proprietor. It was first joined with Schoharie, as "the united district of Duanesburgh and Schoharie." It was made a separate district, March 24, 1772. Mr. Duane took an active part in public affairs during the Revolution and the earlier years of the State Government, and was a liberal benefactor of the town.

¹⁰ Boots and shoes, wagons, and sash and blinds, are manufactured here.

¹¹ Named from a daughter of James Duane.

¹² Among the purchasers were Thos. Freeman, in 1736, Timothy Bagley, in 1737, A. P. and William Cosby, in 1738, Walter Butler, in 1739, and Jonathan Brewer, in 1770. Wm. North, an officer of the Revolution, married a daughter of Duane and resided several years in this town.

tracted with 20 Germans from Penn., of whom 16 came on and made a permanent settlement.¹ The first church (Christ's Ch., Prot. E.) was formed Aug. 3, 1795, and the church edifice was erected by Judge Duane. Rev. David Belden was the first rector.²

GLENVILLE³—was formed from Schenectady, April 14, 1820. It is the only town in the co. n. of the Mohawk. The central and w. parts are occupied by rugged and wooded hills abruptly rising from the valley of the river to a height of 300 feet. The e. part is nearly level. The streams are Crabbs Kil, Chaugh-ta-noon-da, Aalplaats,⁴ and Jan Wemps Creeks, and Verf Kil. The soil among the hills is a stiff clay, underlaid by hardpan, with an occasional outcrop of slate; and in the e. part it is a sandy and gravelly loam. The Mohawk intervals are very fertile, and are chiefly devoted to the culture of broomcorn. **Glenville** (p. v.) contains 2 churches and 20 houses, **Scotia**⁵ (p. v.) 2 churches and 266 inhabitants, **Reeseville** 12 houses and a broom factory, and **High Falls** 13 houses, a grist mill, and woolen factory. **Hoffmans Ferry**⁶ (p. o.) is a hamlet and station upon the N. Y. C. R. R. A covered bridge connects this town with Schenectady, and another with Niskayuna. The first settlements were made about 1665, and were among the earliest in the co.⁷ The Sanders House, in this town, was spared by the enemy when Schenectady was destroyed.⁸ There are 5 churches in town.⁹

NISKAYUNA¹⁰—was formed from Watervleit, (Albany co.,) March 7, 1809. A part of Schenectady was annexed in 1853. It lies upon the Mohawk, in the e. part of the co. Its surface is mostly upland, terminating in steep bluffs upon the river valley. The intervals are very rich and productive. A strip of land about 1 mi. wide, extending back from the summits of the bluffs, has a hard, clay soil, and a considerable portion of it is swampy and unfit for cultivation. Further s. the soil is sandy. **Watervleit Center** (p. o.) is within the limits of this town. The first settlements were made about 1640.¹¹ The canal crosses the Mohawk into this town upon a magnificent stone aqueduct. The locality was formerly known as "*Alexanders Bridge*."¹² There is 1 church (Ref. Prot. D.) in town.

PRINCETOWN¹³—was formed from Schenectady, March 26, 1798. It lies a little w. of the center of the co. Its surface consists of a broken upland, gently descending toward the s. e. The streams are Normans Kil in the s. and Zantzee Kil in the n.¹⁴ The soil is a heavy clay loam, underlaid by hardpan, and is best adapted to grazing. **Princetown** (p. o.) is a hamlet. The town was chiefly conveyed to Geo. Ingoldshy and Aaron Bradt, in 1737. Wm. Corry afterward became owner, and formed a settlement, which was long known as "*Corrysbusch*." The town was thinly settled at the time of the Revolution. The Princetown Academy, a Presb. institution, was opened here, on an extensive scale, in 1853, and was discontinued in 1856. There are a Presb. and a Ref. Prot. D. church in town.

ROTTERDAM—was formed from Schenectady, April 14, 1820. A part of the city was annexed in 1853. It lies near the center of the co., upon the s. bank of the Mohawk. The surface consists of a broken, hilly region in the n. w., a level interval extending from the center toward the s., and a high plain in the e. The soil upon the w. hills is a tough clay, underlaid by shale, which frequently crops out. The central valley or plain, 5 mi. in extent,—called by the Dutch the "*Bowlandt*,"—is one of the most fertile regions in the State. The soil is a deep alluvium. The e. plateau is sandy and barren. **Rotterdam** is a hamlet.¹⁵ The first settlements were made about 1661.¹⁶ The first church was organized Aug. 29, 1800; Rev. Thos. Romeyn was the first pastor.¹⁷

¹ The tract embraced about 60,000 acres, and the lands were rented at the rate of \$15 per 100 acres, on long leases. The agents of Sir Wm. Johnson excited a prejudice against these lands which retarded their settlement.

² There are in town 5 other churches; Cameronian, Bap., Univ., Presb., and Quaker. ³ Named from the original patentee.

⁴ "Eel Place." ⁵ Locally pronounced "Sec-chy."

⁶ Harmann Vedder established a ferry here about 1790, and it was called Vedders Ferry until 1835, when it was bought by John Hoffman and the name was changed.

⁷ In 1665 the country around Scotia was granted to Sanders Lendertsen Glen, a native of Scotland, who removed to Holland in 1645 on account of religious persecutions. After several years there spent in mercantile pursuits, he migrated to "*New Netherlands*." Van Slycks Island was granted to Jaques Van Slyck, Nov. 13, 1662.—*Barber's Hist. Coll.*

⁸ On a former occasion a party of French, sent against the Mohawks, became reduced to the extremity of want, and were obliged to seek assistance of the English. The kindness shown them by Mr. Sanders was remembered, and his house was spared. A stone house built in 1713 is still owned by the Sanders family.

⁹ Ref. Prot. D. 2 M. E. and Ran.

¹⁰ Said to be a corruption of Nist-ti-gi-oo-ne or Co-nis-ti-gio-ne, by which it is known on the old maps. The name is said to signify "extensive corn flats." The term was also applied to portions of Watervleit and Half Moon. Upon the advent of the whites this place was occupied by a tribe of Indians known as the "*Comistigione*."—*Barber & Howe's Hist. Coll. N. Y.*, p. 508.

¹¹ Among the early settlers were Clutes, Vedders, Van Vrankens, Groot, Tymosens, Peares, Jansens, and Van Boekhoovens.

¹² By an act of 1805, Alexander Alexander was authorized to build a dam at this place.

¹³ Named from John Price, a member of the Assembly from Albany co. at the time of the formation of the town.

¹⁴ Upon this stream, on the farm of Eben'r Douglass, is a cascade 60 feet high, and from this point to the Mohawk are numerous rapids and cascades.

¹⁵ Among the early settlers were Wilhelmus Van Otto Van Curazoa, (a native of the island of Curazoa,) Ryer Schermerhorn, and Simon Veeder. The house of Van Otto stood on the site of the one now occupied by Simon Veeder. At the time of the Revolution there were families living in town by the names of Delemont, Van Pelten, and Brangham.

¹⁶ At this place is a twine and thread factory.

¹⁷ There are 3 churches in town: 2 Ref. Prot. D. and 1 M. E.

SCHENECTADY CITY—was patented, with certain municipal rights, Nov. 4, 1684; chartered as a borough Oct. 23, 1765; incorp. as a district, March 24, 1772, as a town, March 7, 1788, and as a city, March 26, 1798. Princetown was set off in 1798, Rotterdam and Glenville in 1820, and parts of Niskayuna and Rotterdam in 1853.¹ It is situated on the Mohawk, and on the borders of one of the finest intervals in the State. A considerable amount of trade is carried on in the city by means of the canal and the railroads that center here; but the people are more largely engaged in manufactures.² The engine houses and repair shops of the N. Y. C. R. Co. are very extensive; and one of the largest locomotive manufacturing in the country is located here.³

This city is especially noted as the seat of Union College. This institution was incorp. by the regents, Feb. 25, 1795, and received its name from the cooperation and union of several religious denominations in its foundation.⁴ A fund was first raised by private subscription to erect the necessary buildings and to defray the expenses of opening the school;⁵ and this was increased by the avails of several lotteries authorized by the legislature,⁶ by grants of land and money from the State, and by private donations. The total amount received from the State, up to 1822, for permanent investment, was \$331,612 13. In a will dated Dec. 28, 1855, Dr. Nott, the president of the college, bequeathed to the trustees \$555,000 for specific purposes and an additional fund for miscellaneous expenses.⁷ The funds thus bequeathed were derived from the profits of certain investments of college funds, and amounts from other sources, which had been employed for the purpose of creating a fund for the endowment of the institution. The first college building was erected in the city;⁸ but in 1814 a tract of land upon an eminence e. of the city was purchased, and the two principal buildings were erected.⁹ The site commands an extensive view of the city, the river, and the valley. The faculty of the college now consists of a president, 12 professors, 1 lecturer, and 3 tutors. The total number of students is 420, and has not materially varied from this number for a great number of years, the junior and senior classes being invariably larger than those that preceded them. A considerable number of students derive aid from the State fund, which is extended to students of limited means without reference to the profession they intend to follow. The college has received from E. C. Delavan, Esq., a magnificent donation of minerals and shells, known as the "Wheaton Collection," which was purchased for this purpose at a cost of \$10,000. Departments of Civil Engineering and Analytical Chemistry have been organized, and the facilities which they afford are of the most ample kind.

The *Public Schools* are under 8 commissioners, elected once in 2 years. There were, in 1857, 9 school districts, employing 3 male and 22 female teachers. The number of children between 4 and 21, was 3065, of whom 1729, or 56 per cent., attended the public schools.¹⁰

The first settlement was made in 1665, as already noticed.¹¹ As this was an advance frontier settlement, the compact part, at an early period, was enclosed by palisades. In 1690 the enclosure

¹ An Indian name signifying "beyond the plains." Formerly spelled Schenectada. The city, under its first charter, contained an area of 128 sq. mi.; but the successive changes which have been made have reduced it to a plat of 250 acres.

² The manufacturing establishments of the city consist of the r. r. machine shops, locomotive works, a cotton factory, 3 carriage shops, an agricultural implement factory, 3 turning and machine shops, shawl factory, 2 breweries, 1 brick yard, 2 cabinet shops, 4 foundries, a planing mill, pump factory, tannery, 2 tool factories, a vice and spring factory, and a great variety of other mechanics' shops.

³ The Schenectady Locomotive Works Co. was incorp. June 4, 1851, with a capital of \$150,000, all of which is actively employed. When in full operation, they employ 600 hands, and can turn out 1 locomotive every 5 days.

⁴ Rev. Wm. Andreas opened the first grammar school, in 1771; and before the close of the year he proposed to change it to an academy. The Consistory of the Ref. Prot. D. church erected a small academy in 1785. The Schenectady Academy was incorp. Jan. 29, 1788, and was merged in the college in 1795. Rev. John Blair Smith was the first President. He was succeeded in June, 1799, by Rev. Jonathan Edwards, who remained until his death in Aug. 1801. Rev. Jonathan Maxcy was next elected president, and continued till 1804, when he resigned, and was succeeded by Rev. Eliphalet Nott, the present venerable president of the College.

⁵ In 1779, the inhabitants of the northern part of the State petitioned for the incorp. of a college, but without success. The petition was renewed in 1791, but did not succeed. In 1794 another effort was made, and a subscription of \$7995 was raised from 99 persons in Albany, and of \$3425 from 231 persons in Schenectady, for an endowment. This sum was afterward largely increased by subscription. The location was fixed at

Schenectady, it is said, chiefly through the influence of Gen. Schuyler, and because of its then central location.

⁶ Lotteries were authorized in 1805, 1814, and 1822.—*Munsell's Ann. of Albany*, VII. 126; *Semi-Centennial Celebration of Union Coll.*

⁷ The items of this bequest are as follows:—
\$225,000 for 9 professorships, with a salary of \$1500 each.
\$60,000 for 6 assistant professorships, at \$600 each.
\$60,000 for an astronomical observatory.
\$20,000 for 60 auxiliary scholarships, of \$10 and \$12 per term.
\$60,000 for 60 prize scholarships for undergraduates, of \$15 and \$18 per term; in certain cases to be increased to \$24.
\$45,000 for 9 scholarships for graduates or fellows, of \$300 each.
\$20,000 for a cemetery.
\$10,000 for apparatus.
\$5,000 for textbooks.
\$30,000 for an eclectic library.
\$5,000 for a geological and mineralogical cabinet.
\$5,000 for a historical cabinet.
\$10,000 for a lecture fund.

The miscellaneous fund was left discretionary with the trustees to fill deficiencies and extend the operation of any of the foregoing objects. At the time of this gift the greater part of the funds were invested in real estate in Greenpoint village, opposite N. York City.

⁸ This building, formerly known as "West College," was sold to the city, and, with an adjoining building, accommodates the 10 departments of the public schools of the city.

⁹ Other buildings have since been erected, for library, cabinet, and lecture rooms. The corner stone of the Central Chapel was laid July 28, 1858.

¹⁰ Total receipts, \$14,428 06; total expenses, \$14,423 06. Volumes in district libraries, 3045.

¹¹ See page —.

was in form of an oblong rectangle, with gates at the ends. The people, however, felt so secure that the gates were habitually left open, and no guard was kept; and hence it was easily entered by the enemy on the memorable 9th of Feb. 1690, N. S. The lives of 60 old persons and children were spared from the massacre. The settlement recovered slowly from the disaster, and not until the close of King William's War did it receive any considerable accessions. A new fort was built in May, 1690, which was garrisoned for many years. Another fort was built in 1735, and another in 1780.¹ The old fort stood at the intersection of Ferry and Front Sts. The first church (Ref. Prot. D.) was organized in 1684, and the building was erected on the s. end of Church St. in 1685. It was burned in 1690;² and a new building was erected, about 1702, on the site of the present church, corner of Union and Church Sts.³ St. George's Church (Prot. E.) was organized, in 1735, by Rev. H. Barclay, incorp. in 1766, and an edifice erected in 1768.⁴ The first mail was brought to the town April 3, 1763.⁵ The first English school was opened, under the care of Rev. Henry Barclay, in 1710.⁶ The Vale Cemetery Association was formed Feb. 25, 1858.⁷ The population of the city has slowly and steadily increased, although, from the setting off of portions of its territory, the census reports for some periods show an apparent decrease.⁸

¹ By an act of 1780, all the people living within a half mile of the Dutch church were assessed, in labor and materials, for the erection of defensive works—the work to be done under the direction of the field officers and magistrates.

² Rev. Peter Tasschemaker, the pastor and first teacher, was killed, and all his papers were destroyed.

³ On the 27th of Oct. 1701, the Governor granted a special license for the inhabitants, or their agents, "to gather, collect, and receive the free and voluntary offerings and contributions of all and singular his liege subjects, inhabitants of this province, at any time from the day of the date hereof for and during the term of six months then ensuing." The funds raised were restricted to the rebuilding of the church; and all justices of the peace, high sheriffs, and all others his majesty's friends, with all Protestant ministers, were exhorted to use each their utmost diligence to excite and stir up the charities of the inhabitants.—*MSS. Sec. Office.*

⁴ Besides these, the census reports 10 churches; 2 Ref. Prot. D., 2 Meth. E., Univ., R. C., Presb., Bap., Af. Meth., and a Jewish Synagogue.

⁵ Letter of Sir Wm. Johnson.

⁶ A Lancasterian school was incorp. Nov. 12, 1816, and was taught 25 years. It was superseded by the present system of public schools.

⁷ The Vale Cemetery, containing 50 acres, is located in a beautiful vale about one-fourth of a mi. from the city. It is covered with pines, and is finely laid out and ornamented.

⁸ In 1699, 70 men took the test oath.

In 1710 there were 16 English and 100 Dutch families.

In 1714 the census reported 591 persons.

In 1790 there were 3 of the Mohawk (in Schenectady, Princetown, Rotterdam, and a part of Niskayuna) 3472 persons. The following table shows the progress of population since 1820—

1820.....	3939	1840.....	3784
1825.....	4068	1845.....	6565
1830.....	4268	1850.....	8921
1835.....	6272	1855.....	8389

⁹ For R. R. distances see p. —.

SULLIVAN COUNTY.

This county was erected from Ulster, March 27, 1809, and was named in honor of Maj. Gen. John Sullivan, of the Revolution. It contains an area of — sq. mi., and is centrally distant — mi. from Albany. The surface is generally very hilly, and along the e. border mountainous. In the s. and w. it consists chiefly of ridges separated by narrow ravines; but in the middle and n. it assumes more the character of a rolling plateau. The highlands of this co. may be considered as the s. slope of the Catskills; and near the n. borders of the co. they divide the waters that flow into Hudson and Delaware Rivers. From this elevated portion numerous ridges extend toward the Delaware, giving the co. a general southerly inclination. The Delaware cuts these ridges diagonally, its valley forming the only division between the Catskills and the mountains of Eastern Penn. The highest points in the co. are the hills in the town of Rockland, which are estimated to be 2100 to 2400 feet above tide. Walnut Hill, in Liberty, has an elevation of 1980 feet. The lowest summit of the Shawangunk¹ Mt., between Bloomingburgh and Wurtzboro, is 1271 feet above tide, and the highest summit is about 500 feet higher. This range of mountains at a distance presents a striking uniformity of outline, which is due to the evenness of stratification of the rock composing it. The lowest point in the co. is upon the Delaware, at the mouth of the Mongaup, which has an elevation of 550 feet above tide. The co. line on the Rondcut is elevated 773 feet.

With the exception of a small district on its e. border, through which flow the upper waters of Shawangunk Kil and Lackawack Creek, this co. is drained by the Delaware and its branches, the largest of which are Neversink² and Mongaup³ Rivers, Beaver Kil and Bashes Kil, and Callicoon (Caw-li-coon) and Ten Mile Creeks. The Neversink flows entirely across the co., having for its tributaries Bashes Kil, Wyncoop Brook, Bush Kil, Cherry-meadow Brook, and several minor streams. Most of these streams are rapid, and afford at numerous points a great amount of water power. In the valleys and forests of the co. are about 100 small lakes, which form peculiar and often picturesque and highly beautiful features in its scenery. Most of these ponds and streams abound in fish, of which trout is the most common. Pickerel have been introduced into several of them.

The geological formation of the co. is exceedingly simple. The whole surface is underlaid by the red sandstone of the Catskill Group and the Shawangunk Conglomerate. These rocks extend southward into Penn., and form the floor of the coal measures. Of these rocks the latter possesses an economical value for millstones,⁴ building stones, and the manufacture of glass. The soil is mostly a reddish loam mixed with gravel, and is generally stony; in the s. e. portion there is some clay. Grass is the staple production, and the hilly character of most of the co. seems to adapt it to grazing rather than to tillage. The facility with which the products of the dairy can now reach the great markets, by means of the N. Y. & E. R. R., has within a few years given an impetus to the prosperity of the co., while the erection of tanneries, which the same thoroughfare has encouraged, has created a home market of great advantage to the farmer. In 1855 there were in the co. about 40 tanneries, producing over \$2,000,000 worth of leather annually and employing about 750 laborers. The lumbering interests also employ large amounts of capital and labor. Winter wheat, formerly considered a sure and abundant crop, is found to yield smaller returns and with less certainty as the country becomes older; and other crops, less valuable but more certain, have been substituted to a great extent. The surplus wheat of Sullivan co. was formerly transported by land to the Hudson, where it found a profitable market; but, with the increase of manufactures, there is now less raised than is consumed in the co. Grass seed of a fine quality is raised in considerable quantities. The fruits are limited to apples, pears, plums, cherries, and a few peaches. The timber along the Delaware Valley is mostly hemlock, pine, oak, and chestnut; and on the highlands it is hemlock, beech, maple, birch, ash, and basswood. The climate is cool and bracing, and the co. is remarkably healthy.

Pron. Shon-gum; said to signify "white stone."

² On Sauthier's Map, 1779, *Mahaickamack*, or *Nevers-Sink*.

³ On Sauthier's Map, 1779, *Mangawung*, or *Mingwing*.

⁴ Esopus millstones, formerly in high repute, were made from the Shawangunk grit.

The co. seat¹ is located at Monticello, in the town of Thompson. The co. buildings, consisting of a courthouse and jail, are substantial stone edifices, erected in 1844 in place of the original co. buildings, which were burned.² The poorhouse is located upon a farm of 100 acres 3 mi. e. of Monticello. The average number of inmates is 56, supported at a weekly cost of 75 cts. each. The farm yields a revenue of \$400. A school is kept during 3 mo. in the year. No religious instruction is afforded. The house is too small, is poorly ventilated, is not furnished with water, and will not admit of a proper classification of its inmates.

The 2 great works of internal improvement within the limits of the co. are the Delaware & Hudson Canal,³ extending through the s. e. part, and the N. Y. & E. R. R., built along the valley of the Delaware.⁴ The former opens an easy and direct communication between the Hudson at Rondout and the Penn. coal mines at Carbondale; and the latter forms one link of the great chain of western travel. Several plank roads have been constructed, as auxiliary to this great thoroughfare, greatly benefiting the sections of country through which they pass. The first newspaper in the co. was issued in 1821.⁵

Little is known of the early history of the co. Many traces exist of its occupation long anterior to that by the present race of settlers. Upon the first advent of the present settlers, a road was found to extend s. w. from Esopus, on the Hudson, along the valley n. of the Shawangunk Mts. It was known as the "*Mine Road*," and, according to traditional account, was built by a company of miners from Holland, before the English conquest of 1664.⁶ Two mines are said to have been wrought,—one where the mountain approaches the Delaware, near the lower point of Panquary Flat; and the other n. of the mountain, about halfway between the Delaware River and Esopus Creek. The Minisink Flat, on the border of Orange and Sullivan cos., is said to have been settled by Hollanders many years before the date of Penn's Charter; and the settlement, which extended 40 mi. or more along both sides of the Delaware, had in a great degree become isolated from the rest of the world. When the present settlements were begun, there was a road from the e., near the central part of the co., called the "*Porter Road*;" and in the n. part was another, called the "*Hunter's Road*."

With the exception of the vague traditions of early settlement by the Dutch along the Delaware, the first location of a permanent white inhabitant is said to have been made about the year 1700, by Don Manuel Gonzales, a Spaniard, who, having married into a Dutch family in Rochester, (Ulster co.,) removed to Mamakating Hollow, where he erected a house and raised grain. He opened a trade with the neighboring Indians, who were then friendly; and other settlers were induced to follow. Mamakating Precinct was formed in 1743, and until after the Revolution it embraced nearly all of the present co. of Sullivan. About 1750 a number of German families settled upon the w. frontiers of Ulster co. They suffered greatly from Indian hostilities. The first Indian incursion took place in 1777, when the family of Mr. Sprague, in Mamakating, was attacked. The next year the family of Mr. Brooks was attacked, some members were killed, and others taken prisoners.

On the 13th of Oct. 1778, a party of nearly a hundred tories and Indians, under Brandt, invaded the settlements, first falling upon the family of Mr. Westfall, and killing one man. They next attacked the house of Mr. Swartwout, who was at home with his sons, (the women having been previously removed to a fort,) and killed all but one, who escaped. The firing alarmed others, who fled to the forts at Gumars and De Witts, where, by a skillful display of force by Capt. Abraham Cuddeback, who commanded at the former, the enemy were deterred from making an attack.

¹ By the act of incorporation the Gov. and council were to appoint 3 commissioners to locate the county seat, and the Board of Supervisors 3 others to superintend the erection of the courthouse and jail. Wm. Ross, Jos. Morrell, and Abraham H. Schenck were appointed for the former purpose, and David Hammond, John Lineley, Malaich West, John Newkirk, and Davie Martin successively for the latter.

² The first buildings, erected in accordance with an act passed March 22, 1811, were burned Jan. 13, 1844. The first court was held, and the first Board of Supervisors organized, at the house of Curtis Linsley. The county officers first appointed were Wm. A. Thompson, *First Judge*; Samuel F. Jones and El Nathan Sears, *Associate Judges*; John Conklin, Jabez Wakeman, and David Hammond, *Assistant Justices*; James S. Dunning, *Sheriff*; Uriah Lockwood, *Sheriff*; and John P. Jones, *Clerk*.

³ The Delaware & Hudson Canal Co. was incorp. April 23, 1823. The work was commenced in July, 1825, and completed in Oct. 1828. It was of great importance to the early settlers of the co., as it opened an easy and cheap avenue to market.

⁴ This R. R. enters the co. in the town of Tusten from Penn. It having been found difficult to construct the road on the N. Y. side of the river, the right of way for a short distance was solicited from Penn. The petition was granted, and for the sub-

stantial benefit which the R. R. conferred upon that State, the company was subjected to an annual tax of \$10,000. This road forms a direct and speedy communication with N. Y., and has been of great value to the co. in stimulating its settlement and developing its resources.

⁵ *The Sullivan County Whig* was started at Bloomingburgh in 1821, by John J. Tappan. It was removed to Monticello in 1828, and its name changed to

The Republican Watchman. Frederick A. Devoe and James E. Winslow were successively its editors, and since 1843 it has been published by J. E. Quinlan.

The Sullivan County Herald was commenced at Monticello in 1833, and published by M. Smith, S. Phelps, and others, about 4 years.

The Sullivan County Whig was published at Bloomingburgh in 1844, by J. S. Brown, and subsequently by John Waller, Jr. In 1855 it was changed to the

Sullivan County Democratic Republican, under which title it is now published by Waller.

The Union Democrat was established at Monticello in 1854, by F. A. Devoe, and was afterward united with *The Whig*.
⁶ See *Eger's Hist. Orange Co.*, p. 50, where will be found a letter from Samuel Preston giving the substance of the tradition. It is from Hazard's Register.

After firing most of the houses and barns of the settlement, the marauders retired, leaving behind them a melancholy scene of havoc and desolation at the verge of an inclement winter. The distress thus occasioned was very great. Major Phillips arrived soon after the incursion with a company of militia; but the enemy had fled beyond reach.

In 1777 or '78, Capt. Graham, with a party of 18 men, went to Chestnut Brook in pursuit of some Indians who had been committing depredations upon the settlements at Pine Bush. Having stopped to drink, Capt. Graham saw an Indian in the path, and the party fired a volley without effect. Upon this the Indians on the opposite banks returned the fire with fatal effect, and but 3 of the party escaped to tell the dismal tale. To deprive the enemy of sustenance and the means for further annoyance, the Legislature, in 1779,¹ enacted a law directing the Governor to cause the destruction of such grain and crops in the w. frontiers of Orange and Ulster cos. as could not be removed to a place of safety. In 1783² the precinct of "*Mamacotting*" and the township of Rochester (the district of the regiment of Col. A. Hawke Hay, and that part of the Goshen regiment on the w. side of the Minisink Mts.) were exempted from a levy then made for the defense of the n. and w. frontiers.³

Several traces of Indian occupation were found in the first settlement of the co. About 4 mi. from the Delaware, on the Flat, was found a brass or copper tomahawk, with a steel edge, and a handle perforated for smoking. Stone axes, flint arrows, &c. were frequently found. In 1793, an Indian living in Rockland, at a place called "*Pocatocton*," (meaning a river almost spent,) removed to Niagara. He is supposed to have been the last of his race that inhabited the co. Indian trails were found along the Delaware, the Beaver Kil, and in other sections.

The part of this co. s. of the s. bounds of Callicoon and Bethel is comprised in the Neversink Patent, conveyed to Matthew Ling and others Aug. 28, 1704; and the remainder of the co. in the great tract granted to Johannes Hardenbergh and others April 20, 1708, and known as the "*Hardenbergh Patent*."⁴ The Newburgh and Cochection Turnpike (incorp. March 20, 1801) was opened across the co. in 1808, and gave the first impulse to its prosperity by making it accessible to settlers. This section continued to receive emigrants from New England and the older sections of the State until its growth was checked by the completion of the Erie Canal to the Genesee country and the great lakes, by which emigration was diverted to the new and fertile lands of the West. Real estate in consequence declined materially in value, and many of the early settlers abandoned their locations and joined the westward current. In 1819 or '20 the Orange Branch Turnpike was made, from Montgomery, (Orange co.,) crossing the Shawangunk Mt. at Roses Gap, and extending across the barrens through Wakemans Settlement to the Neversink Falls, and thence to Liberty. The charter of this road was long since given up, but the route is maintained as a district road.

BETHEL—was formed from Lumberland, March 27, 1809. Cochection was taken off in 1828. It lies upon the high ridges which form the watershed between Delaware and Mongaup Rivers, a little s. w. of the center of the co. Its surface is broken and hilly, and many of the declivities are steep and rocky. It is watered by a large number of small streams, mostly tributary to Mongaup River; and it has many small lakes, which form a beautiful and romantic feature of the landscape. White Lake, near the center,—named from its white sandy shores and bottom,—is noted for the beauty of its scenery.⁵ The other principal lakes are Birch Ridge Pond in the n. w., Horse Shoe and Pleasant Ponds in the n., Mallory Pond in the e., Indian Field Pond in the s., Big and Wells Ponds on the s. line, and Chestnut Ridge Pond and Black Lake and Lake Superior near the center. The soil is a sandy and gravelly loam, intermixed in places with clay. The settlements are comparatively new, and the people are chiefly engaged in the raising of neat cattle, dairying, lumbering, and tanning.⁶ **Mongaup Valley** (p. v.) contains 35 houses, and **Bethel** (p. v.) 15. John Fuller was the first settler in the "*Fuller Settlement*," in 1806-07.⁷ The first preacher (Presb.) was the Rev. Mr. Green.⁸

¹ October 17.

² February 21.

³ Incidents connected with these events, and the details of the memorable battle of Minisink in July, 1779, are given in our account of the towns in which they occurred.

⁴ Portions of the Hardenbergh Patent were settled upon leases of long term; and during the anti neat excitement, a few years since, the clamor against this tenure prevailed extensively, but without acts of open violence. The refusal to pay rents, which this feeling occasioned, led to a great amount of litigation. Although the excitement has subsided, the question is not fully settled.

⁵ This lake is noticed in one of the poems of Alfred B. Street, by the name of "*Kon-ne-on-ga*."

⁶ A tannery at Mongaup Valley, in 1856 manufactured 50,000

sides of leather, valued at \$187,000. It consumed about 5000 cords of hemlock bark, and employed 70 men, at a cost of \$12,000. There are about 102,000 sides of leather manufactured annually at different tanneries in this town.

⁷ G. and C. Hurd were the first settlers at the Hurd settlement; Adam and Evs Pentler near Bethel; and Potter and Mattison near White Lake. The first school at Mongaup was taught by G. P. Price, and at Bethel by Dr. Copeland. Gillespie & Hook kept the first store at White Lake, and J. K. Beeman built the first saw and grist mill, on White Lake outlet. The first birth was that of Catharine Fuller, in 1807, and the first death that of a child of Stephea Northrup.

⁸ The census reports 4 churches; 2 M. E., Presb., and Ref. Presb.

CALLICOON¹—was formed from Liberty, March 30, 1842. Fremont was taken off in 1851. It is the most westerly town in the co., and lies about the sources of the n. branch of Callicoon Creek. It is watered by numerous streams flowing into the Delaware, the valleys being mostly narrow ravines, and the hills rising in steep declivities 200 to 600 feet above them. In the n. e. are Shandler and Sand Ponds, the latter affording a pure white sand, formerly used in making glass. The soil is mostly a sandy loam, and the hillsides and summits are generally capable of a good degree of cultivation. The settlement is recent, and the people are about equally engaged in lumbering, farming, and tanning.² **Jeffersonville**, (p. v.) on the line of Cocheton, has a population of 433, of which 305 are in this town. **Youngsville**, (p. v.) **North Branch**, (p. v.) and **Callicoon Center** (Callicoon p. o.) have each about 30 houses. The first settlers were Wm. Wood and his sons, Gerrett, Edward, and David, who arrived in town May 19, 1814, and lived 15 years in the wilderness.³ Rev. Mr. McClary, pastor of the Asso. Ref. church of Bethel, was the first preacher.⁴

COCHECTON⁶—was formed from Bethel, March 25, 1828. It is situated upon the bank of the Delaware, in the w. part of the co. Ridges of hills, with narrow valleys between, cover the entire surface of the town. The principal streams are the Callicoon and its branches, and several small tributaries of the Delaware. The mouth of the Callicoon is 777 feet above tide. Pike Pond in the e., Perry Pond in the s., and Mitchells Pond and Lake Huntington in the center, are the principal sheets of water. A large part of the surface is still covered with forests. The soil is mostly a gravelly loam, and best adapted to pasturage. Lumbering and tanning form the leading objects of industry. **Cochecton** (p. v.) contains 269 inhabitants, **Pike Pond** (p. v.) 188, **Callicoon Depot** (p. v.) 207, and **Cochecton Center** (p. v.) 209. **Beech Woods** is a p. o. Small settlements were begun on the Delaware before the Revolution, but were broken up. The pioneer settler was N. Mitchell, who located near Cocheton Village.⁵ The first church (Presb.) was formed in 1839, and the Rev. Mr. Cummings was the first pastor.⁷

FALLSBURGH—was formed from Thompson and Neversink and Neversink, March 9, 1826. It derives its name from the falls in Neversink River at Fallsburgh Village. Its surface is hilly and rolling. It is drained by the Neversink and its branches. Sheldrake Pond, (named from the wild ducks that formerly frequented its waters,) Smith, Hill, and Browns Ponds in the w., and East Pond, in the e., are the principal lakes. The soil is a gravelly loam. The people are chiefly engaged in lumbering, dairying, and tanning.⁸ **Woodbourne** (p. v.) contains 30 houses, **Neversink Falls** (Fallsburgh p. o.) 25, **Hasbrouck** (p. v.) 25, **Sheldrake** (p. v.) 15, and **Sandburgh** (p. v.) 15. It is said that settlement was commenced in this town by Germans previous to the Revolution,⁹ but the settlers were driven off during that war. Soon after the peace 3 brothers by the name of Baker located in town and commenced the first permanent settlement.¹⁰ The first church (Ref. Prot. D.) was built at Hasbrouck.¹¹

FORESTBURGH—was formed from Thompson and Mamakating, May 2, 1837. It lies principally upon the high ridges between Neversink and Mongaup Rivers, and has a broken surface and an average elevation of 1400 feet above tide. In this town are several small lakes, the principal of which are Ruddicks Pond in the n. w., Beaver Pond in the s., and Panther Pond in the center. The town still retains the character implied by its name. Mongaup Falls, on Mongaup River, 3 mi. above Forestburgh Village, are worthy of note. The river here falls into a chasm 70 feet deep, and the banks below the falls are more than 100 feet high. Lumbering, tan-

¹ Cal-wi-coon. This name is said to signify "Turkey" in both Dutch and Indian. The Dutch for turkey is "Kalkoen." In the statutes and official publications of the State the name is commonly written "Callikoon."—*Harper's N. Y. & E. R. R. Guide*, p. 84.

² There are 5 large tanneries in town, which manufacture about 125,000 sides of leather annually.

³ Edward was a cooper; the others were farmers. The first child born was John Wood. Jacob Quick built the first sawmill, and Sannuel Young kept the first store and built the first mill, at Youngville. In 1833-34 settlers began to come in from Coon, and the n.; and in 1840 Germans began to settle in the town in considerable numbers. The latter class now form about one-third of the population.

⁴ The census reports 2 churches; Luth., Asso. Ger. Meth.

⁵ Co-shek-tun. Originally called "Cush-nun-tunk," or low grounds.

⁶ Among the other early settlers were David Young, at Big Island; John Rose, at Callicoon Creek; Nicholas Conklin and Tyler, at Cocheton. Job Jones taught the first school, near Cocheton; Maj. Ebenezer Taylor kept the first tavern and store, at Cocheton; and Mitchell Conklin built the first sawmill, on Mitchells Pond Brook. On Big Island, 2 mi. above Cocheton,

was an extensive Indian burial place, of which traces are occasionally plowed up at the present day. There are about 900 Germans in this town.

⁷ The census reports 3 churches; M. E., Presb., and Ref. Prot. D.

⁸ At Fallsburgh is an extensive tannery, that manufactures 40,000 sides of leather annually; and another of the same size is located at Woodbourne.

⁹ Fruit trees planted by these settlers are said to be still standing.

¹⁰ Thomas Rawson came in 1787 or '88; Thomas Grant located in 1789; Samuel Thaddens, Obadiah Brown, and James Hill settled a little n. of Fallburgh, and James Nicoll, Peter Ferdn, and Mr. Brush on the site of the village. The first sawmill was built in 1808, and the first grist mill in 1809, by Philo Ruggles. Matthew Sealey kept the first inn, at Hasbrouck, and Robt. Reading the first store, at Fallsburgh. In 1797, the nearest mill was at Napanock, in Ulster co.; and for many years the nearest market was Newburgh. In 1786 or '87 an extraordinary and destructive flood occurred upon this valley.

¹¹ This church was burned in 1837, and was rebuilt at Woodbourne. The census reports 3 churches in town; 2 M. E., and 1 Ref. Prot. D.

ning,¹ and dairying constitute the employment of the people. **Forestburgh** (p.o.) contains 10 houses, **Oakland** 15, and **Hartwood** 10. Settlement commenced before the Revolution, and recommenced in 1795 on the Mongaup River. Zephaniah and Luther Drake were pioneers in the s. w. part of the town, and Elisha Smith near Oakland.² Rev. Isaac Thomas (Meth.) was the first preacher.³

FREMONT—was formed from Callicoon, Nov. 1, 1851, and named in honor of John C. Fremont. It lies in the extreme w. part of the co., upon the bank of the Delaware. Its surface is broken and hilly, the summits rising 600 to 1000 feet above the valley and 1500 to 1800 feet above tide. Its waters are Basket and Hawkins Creeks, a great number of smaller streams, and numerous small lakes, the principal of which are Long Pond, Round and Basket Ponds in the n., Lox Pond in the e., and Trout Pond near the center. A large share of the surface is still a wilderness and is too rough for tillage. Tanning and lumbering form the principal employments of the people. **Fremont Center** (p.v.) contains 141 inhabitants, and **Obernburgh** (Fremont p.o.) 20 houses. The first settlers were Joseph Green, at Long Eddy, John Hawkins, at Hawkins Depot, Benj. Misner, at Long Pond, and Zach. Ferdon, at Round Pond.⁴

HIGHLAND—was formed from Lumberland, Dec. 17, 1853. It is an interior town, lying in the s. part of the co. It is named from the character of its surface, which consists of high ridges between Delaware and Mongaup Rivers, 600 to 1000 feet above the canal at Barryville, and 1200 to 1600 feet above tide. There are a great number of small lakes in town, the principal of which are Big and Wells Ponds on the n. line, Mud and Hogans Ponds in the e., York Pond in the s. w., Big Pond, used as a canal feeder, and Blind, Little, and Montgomery Ponds (named from Henry Montgomery, an early settler) near the center. The people are chiefly engaged in lumbering and the rudiments of farming. **Barryville**, (p.o.) a canal village, contains 25 houses, and **Lumberland** (p.v.) 15. The first settler was John Barnes, who located at Narrow Falls.⁵ Rev. Isaac Sargent (Cong.) was the first preacher, about 1797.⁶ The battle of Neversink, in the Revolution, took place within the limits of this town.⁷

LIBERTY—was formed from Lumberland, March 13, 1807, and Callicoon was taken off in 1842. It is an interior town, lying a little n. of the center of the co., upon the watershed between the Mongaup and Beaver Kil. Its surface is rough and broken. Walnut Hill, s. of Liberty, is 2000, and Libertyville 1467, feet above tide. The n. and w. parts of the town are still covered with forests. The principal sheets of water are Lillie Pond in the n., and Broadhead Pond near the center. The soil is good, but stony and hard of cultivation; and the people are chiefly engaged in lumbering, dairying, and tanning.⁸ **Liberty** (p.v.) contains 364 inhabitants, **Parksville** (p.v.) 40 houses, and **Liberty Falls** (p.v.) 25. **Robertsonville** is a p.o. The Liberty Normal Institute, at Liberty, is a flourishing academic institution.⁹ The first settlement was made by Stephen Russell (from Conn.) near Liberty, in 1793 or '94.¹⁰ Rev. Wm. Randall (Bap.) was the first preacher.¹¹

LUMBERLAND—was formed from Mamakating, March 16, 1798, embracing all the co. w. of Mongaup River and s. of the present n. lines of Liberty and Callicoon. From it were erected Liberty in 1807, Bethel in 1809, and Highland and Tusten in 1853. Its surface is rugged and

¹ About 100,000 sides of leather are annually manufactured in this town.

² Miss Moore taught the first school, at Drakestown; S. Co-mant kept the first inn, and Thomas Alsop the first store, at Forestburgh. The first sawmill was built at Oakland.

³ There are no church buildings in town.

⁴ Sarah Phillips taught the first school; John Ranfiesen kept the first inn, and John Hawkins kept the first store and built the first sawmill. About one-third of the population are Germans. The census reports 1 church; R. C.

⁵ Among the other first settlers were John Carpenter, Wm. Seelye, N. Patterson, and Wm. Ballard, at Beaver Brook; and Beul. Hayne at Handsome Eddy. John Carpenter employed Nathl Wheeler to teach the first school, before the public schools were organized. G. Ferguson kept the first inn, in 1830, and Phineas Terry the first store, in 1828. N. Patterson built the first sawmill, on Beaver Brook.

⁶ The census reports 3 churches; Cong., M. E. Union.

⁷ This battle took place on the N. side of Beaver Brook, on lot 17 of the 7th div. of the Neversink Patent. The scene of the action is the top of a hill 3 miles from Barryville and half a mile n. w. from Dry Brook. The battle took place between a party of Tories and Indians, under Brandt,—who were retreating, after having destroyed the settlement of Neversink,—and a party of American militia, who pursued them. The battle was

long and bloody, and resulted in the retreat of the Americans with the loss of 44 killed. In 1822 the bones of the slain were collected and interred beneath a monument at Goshen. An address was delivered on the occasion by Gen. Hathers, who had taken a leading part in the engagement.

⁸ About 106,000 sides of leather are annually manufactured in this town.

⁹ Incorpor. by law, April 12, 1848; the Hon. John D. Watkins, the founder, being sole incorporator.

¹⁰ Among the other first settlers were Nathaniel Pinney, Josiah Whipple, and Nathan Staunton, who came from Preston, Conn., in the spring of 1795, and settled on lot 12; John Groton and Edward Swan, who settled on lot 3; Ebenezer Green, on lot 4; Isiah Whipple, on lot 10, of tract known as the 3000 acre lot; and Stephen Benton, who located at Benton Hollow. Aviar Whipple taught the first school, at Blue Mountain Settlement; Roswell Russell kept the first inn, Stephen Russell the first store; and Chas. Broadhead built the first grist and saw mill, on the mountain, in 1797. The first child born was Sally Staunton, in 1797; the first marriage, that of David Rowland and Aviar Whipple, in 1797; and the first death, that of Sally Staunton, or a son of William Apy, in 1798. The first house was erected about half a mile s. of where the Presb. ch. now stands. Most of the first settlers afterward removed west.

¹¹ The census reports 4 churches; 1 Bap., 2 M. E., and 1 Presb.

broken, and much of it is yet a wilderness. The name of the town still suggests the leading pursuit of the people. A large number of small lakes, with their outlets, form the principal waters. The principal of these lakes are Lebanon Pond in the N., Round, Sand, and Hogais Ponds in the W., and Long Pond in the center. Metaques, in the E., lies about 2 mi. W. of the Mongaup, and 300 feet above it. On its outlet is a beautiful cascade. There are no villages in town; and there is but one church, (M. E.) The Delaware and Hudson Canal extends through the town along the course of the river. It is supposed that settlement was commenced before the Revolution; but the names of the first settlers are not preserved.¹ In the survey of the Minisink Patent by Charles Webb in 1762, mention is made of "Reeve's Sawmill."²

MAMAKATING,³ said to have been named in honor of an Indian chief, was erected into a precinct by the General Assembly, Dec. 17, 1743, and embraced all the present territory of Sullivan co. and a portion of Orange. It continued as a precinct until organized as a town, March 7, 1788. It was reduced to its present limits by the erection of Deerpark (Orange co.) and Lumberland in 1798, Thompson in 1803, and a part of Forestburgh in 1837. It lies upon the highlands between Neversink and Shawangunk Creeks. Two parallel ridges, separated by the valley of Bashers Kil, extend through the town in a N. E. and S. W. direction. The eastern of these ridges is known as Shawangunk Mt. The declivities of this mountain are gentle upon the E., but abrupt and broken on the W. It attains an elevation of 1100 feet above the summit level of the canal, and about 1700 feet above tide. In the N. W. part of the town is a mountain of nearly equal elevation, known as Panther Hill. The principal streams are Shawangunk, Bashers, and Pine Kils, the last of which is the outlet of a small lake in the W. part of the town, known as Yankee Pond. The summit level of the Delaware & Hudson Canal, 17 mi. long and 525 feet above tide, is constructed through the valley of Bashers Kil. Masten Pond, in the W. part, is used as a reservoir. About 2 mi. N. of Wurtzboro a vein of lead was discovered several years since, and was worked to a considerable extent. After an abandonment of several years, preparations are again being made to work it. The soil is a sand and gravel loam, in some places intermixed with clay, and best adapted to pasturage. The census of 1855 shows that this town is second only to Thompson in the amount of dairy products. **Bloomburgh**⁴ (p. v.) contains 365 inhabitants, **Wurtzboro**⁵ (p. v.) 491, **Summitville** 20 houses, and **Phillipsport** (p. o.) 10: the three last named lie upon the canal. **Burlingham** (p. v.) contains 130 inhabitants, and **West Brookville** (p. o.) is a hamlet of 10 houses. The early settlement of this town has already been noticed in the historical sketch of the co.,⁶ but most of the details have been lost. On the approach of the Revolution the Indians became hostile, and several blockhouses were erected on the frontiers of Ulster co., one of which was at Wurtzboro. On account of the distressed condition of the people by reason of Indian hostilities, they were favored by the supervisors in the apportionment of taxes. Many persons in those days accounted wealthy were reduced to poverty, and but little that could be destroyed remained on the return of peace. Gonzales, the pioneer settler, is said to have built the first sawmill, at Wurtzboro. In 1792 this town contained 182 taxable persons, of whom 34 were in the present towns of Lumberland, Tusten, and Highland. In 1794, Capt. David Dorrance removed from Windham, Conn., and purchased 1000 acres immediately S. of the site of Wurtzboro.⁷ John Dorrance, with Elijah Perry, also from Conn., erected the first bark mill in Sullivan co. Rev. Mr. Freleigh was the first pastor of the Ref. Prot. D. Church, built in 1793.⁸

NEVERSINK⁹—was formed from Rochester, (Ulster co.,) March 16, 1798. Rockland was taken off in 1809, and a part of Fallsburgh in 1826. The whole town is elevated, and the surface

¹ Among the early settlers since the Revolution were John Showers and Joshua Knight, at Mongaup. S. Gardner and El-nathan Corey, at Pond Eddy. P. Van Vauken, above Mongaup, and John Rinck and Wm. Ryarson, in other parts of the town. The first school was kept in a barn by Mr. Farnham; the first inn was kept by E. Corey, at Pond Eddy.

² Mr. Webb lived at Otisville, (Orange co.,) and died at an advanced age in 1814.

³ Written Mame Kating, Mame-Cotink, &c. in early records.

⁴ This village was settled by J. Newkirk, about 1780, and was incorp. April 26, 1833. It contains 3 churches, 4 hotels, and 5 stores.

⁵ Named from Maurice Wurtz, grantee of a canal privilege in Penn., afterward merged in Del. and Hudson Canal Co.

⁶ See page —.

⁷ A road was constructed at an early day, by Ananias Sackett, from Mamakating westward, passing about three-fourths of a mi. S. of Lords Pond, and continuing to Nathan Kinne's Flats, from which place Capt. Dorrance made a road to Cochecon for £5 per

mi. This road opened a communication from the Hollow to the Delaware River, a distance of about 33 mi. A portion of it is still in use, but the greater part was taken up by the Newburgh & Cochecon Turnpike. The village of Wurtzboro is built upon a tract of 1000 acres bought by Johannes Masten, who cleared the land and erected a sawmill. Westbrookville (formerly "Bashshuville") was settled about the same time, and the first house was built of stone and used as a fort to shelter the settlers. Mr. Felton was a pioneer near Burlingham, and J. Newkirk at Bloomburgh. The early town records have been lost. The first school was kept at Bloomburgh in 1784, by Mr. Campbell. Wm. Harlow kept the first inn, 2 mi. N. of Bloomburgh; Wm. Wighton opened the first store, 1 mi. S. of the same place; and H. Newkirk built the first gristmill, on the Shawangunk, within this town.

⁸ The census reports 11 churches; 6 M. E., 2 Ref. Prot. D., 1 Bap., 1 R. C., 1 Aseo. Ref. Presb.

⁹ This name, first applied to the river, is said by some to be derived from the Indian "Ne-wa-sink," or Mad River, and by

is very hilly and to a considerable degree covered with forests. It is watered by the Neversink and its branches, and by the Lackawack, or w. branch of the Rondout, which flows to the Hudson. Denman Hill, 3300 feet, and Thunder Hill, 2500, above tide, are the principal elevations: the latter received its name from the fact that one of the early settlers was frightened away from the place by loud thunder. The soil is generally a gravelly loam, and best adapted to pasturage. The people are chiefly engaged in lumbering, tanning,¹ and dairying. **Grahamsville**² (p. v.) contains 40 houses, **Neversink Flats** (Neversink p. o.) 35, and **Claryville** (p. v.) 30. The first settlement was commenced on the Lackawack, 2 mi. below Grahamsville, by the Hornbecks, Clines, Clearwaters, and Lowes, who obtained an Indian title in 1743, and were driven off during the Revolution. Mr. Larrabee, on Thunder Hill, and Benj. Gillett, John Hall, and Wm. Parks, on the 1000 acre lot, were the pioneer settlers after the war.³ The first church (Meth.) was located at Grahamsville; and the first preacher was Rev. Samuel M. Knapp.⁴

ROCKLAND—was formed from Neversink, March 29, 1809. It lies upon the headwaters of the Popacton, or e. branch of the Delaware, in the extreme n. part of the co. It is a rough, wild region, very hilly, and mostly covered with forests. Its principal streams are Beaver Kil and Williwewack Creek. A chain of small lakes extends through the town, the principal of which are Upper, Mongaup, and Hodge Ponds in the e., Big and North Ponds in the s. e., Shaw Pond in the s., Burnt Hill and Jenkins Ponds in the w., and Sand, Mud, and Knapp Ponds in the center. Lumbering, farming, and tanning⁵ are the principal pursuits of the people. **Westfield Flats** (Rockland p. o.) contains 28 houses, and **Morsston** (p. v.) about 12. **Beaver Kill, Purvis,** and **Shin Creek** are p. offices. Settlement was begun in 1789, by two families named Stewart and West, from Middletown, Conn.; they located near the middle of the Big Beaver Kil Flat.⁶ Rev. Mr. Conkey (Meth.) was the first preacher.⁷

THOMPSON—was formed from Mamakating, March 9, 1803, and named in honor of Wm. A. Thompson, first judge of the co. A part of Fallsburgh was taken off in 1826, and a part of Forestburgh in 1837. It lies principally upon the highlands between Neversink and Mongaup Rivers, and is less hilly than most of the towns of the co. The hills rise 100 to 300 feet above Monticello. Neversink and Mongaup Rivers, with several small lakes and streams, constitute the waters of the town. *Kiamesha*, or "*Clearwater*," better known as Pleasant Pond, is a beautiful little lake near Monticello. The other principal ponds are Dutch in the n. e., Lords and Mud in the e., Wolf in the s. e., and Sackets (named from Ananias Sacket, an early settler near it) in the s. w. The quiet scenery of these lakes is becoming appreciated by the lovers of nature and those seeking a retreat from the heat and dust of cities in summer. The soil is a reddish loam. The people are principally engaged in stock raising, lumbering, and tanning.⁸ **Monticello**,⁹ (p. v.), the principal village, was incorp. April 20, 1830. Pop. 629. It is beautifully situated upon a ridge of highlands 1387 feet above tide, and is surrounded by hills. It is finely laid out, the main street being 1 mi. long and 8 rods wide, with flagged walks and ornamented with shade trees. It contains a courthouse, jail, co. clerk's and surrogate offices, and a banking house, all of stone; 3 churches, the Monticello Academy, 3 hotels, 10 stores, 3 printing offices, and an iron foundry. **Thompsonville** (p. v.) and **Bridgeville** each contain about a dozen houses. The first settlers were Wm. A. Thompson, John Knapp, and Timothy Childs, at Thompsonville.¹⁰ Rev. John Boyd (Presb.) was the first preacher.¹¹

TUSTEN—was formed from Lumberland, Dec. 17, 1853, and was named in honor of Col. Benjamin Tusten, who was killed in the battle of Minisink, in 1779.¹² This town lies upon the n.

others to be so named because the stream is less affected by drought than other rivers.

¹ About 95,000 sides of leather are manufactured each year.
² Named in honor of Lieut. Graham, who was killed in a skirmish with the Indians near the present site of the village.

³ The first child born was Elijah Parks. Christopher Darrow taught the first school; Mr. Larrabee kept the first inn, on Thunder Hill; Richard Childs kept the first store; and Wm. Parks built the first gristmill, 3 mi. s. e. of the Flats. There are no town records earlier than 1814.

⁴ The census reports 5 churches; 3 M. E., 2 Ref. Prot. D.
⁵ One of the most extensive tanneries in the State is in the w. part of the town. About 170,000 sides of leather are manufactured each year in town.

⁶ Another account says the first settlers were Robert Cochran, Jehial and Luther Stewart. In the following year, Peter Williams and Corealis Cochran came in from Mass. Mr. Bascom settled 1 mi. w. of Purvis p. office, and Thomas Nott and James Overton 1 mi. s. of the same. The first child born was Susan Thorn; the first marriage was that of Ebenezer White and Clarissa Field; and the first death was that of Sylvanus Stewart.

Sylvanus Bascom taught the first school, at Westfield Flats; Jehial Stewart kept the first inn, Mr. Loveland the first store; and Luther Stewart built the first mill, at Westfield Flats. The settlers are said to have obtained their first seed corn from the Indians on the Susquehanna Flats, and this stock has been continued till the present time. The lumber trade began in 1798.

⁷ The census reports 3 churches; M. E., Presb., and Union.
⁸ About 35,000 sides of leather are manufactured annually.

⁹ Named by J. P. Jones, from the residence of Thos. Jefferson. The first settlement of this village was made in 1804, by Samuel F. and John P. Jones, from New Lebanon, (Columbia co.) who located at this place in anticipation of its becoming the co. seat of a new co. to be erected from Ulster. J. P. Jones erected the first house, in 1804, and opened the first store; Curtis Linsley kept the first inn.

¹⁰ A. Sacket and A. D. Kinne were the first settlers in the w. part of the town, and John Wetherlow and John Simson on the Neversink. Asa Hall kept the first school, at Bridgeville; Judge Thompson built the first mill and factory, at Thompsonville.

¹¹ The census reports 4 churches; M. E., Presb., Prot. E., and Union.
¹² See page —.

bank of Delaware River. The w. and s. parts are very hilly, and the e. portions belong to the plateau of rolling lands which comprises the greater part of Tusten, Highland, and Lumberland. The average height of this region is about 750 feet above the Delaware, or 1400 feet above tide. The principal streams are Ten Mile River and its branches: Half Moon and Mill Ponds in the e., and Mill, Davis, and Canfield Ponds in the center, are the principal sheets of water. The soil is a gravelly loam, and best adapted to pasturage. The people are generally engaged in farming and lumbering. **Narrowsburgh**, (p. o.), containing about 35 houses, is the only village. It derives its name from the fact that the Delaware is here compressed by two points of rock into a deep, narrow channel. Over this is a wooden bridge, with a single span of 184 feet.¹ The place is known to lumbermen by the name of "Big Eddy." Below the narrows the river expands into a wide basin, which in time of a freshet exhibits a stirring scene. John Moore kept the first inn and store, and R. Moore built the first mill. The Baptist is the only church in town.

¹ The "Narrowsburgh Bridge Co." was incorp. April 5, 1810, with a capital of \$5000. The bridge was to be 25 feet wide, well covered with plank, and secured by railings.

BROOME COUNTY.

THIS county was formed from Tioga, March 28, 1806.¹ Owego and Berkshire were annexed to Tioga co. March 22, 1822. It is situated near the center of the s. border of the State, centrally distant — mi. from Albany, and contains — sq. mi. Its surface is greatly diversified, consisting of high, broken hills, broad river intervalles, and the narrow ravines of numerous small streams. The hills are northern continuations of the central Alleghany Mts., extending from the Penn. line in a northerly direction through the co. They are divided into 3 general ranges by the Susquehanna and Chenango Rivers. The first range, lying e. of the Susquehanna, attains an elevation of 1400 to 1700 feet above tide, and is the highest land in the co. This range consists of large mountain masses, a few rising into

peaks, and the others spreading out from their summits into elevated and broken uplands. The ravines of a great number of small streams break the continuity of the hills, and give to the whole region a peculiarly wild appearance. The declivities are usually very steep, and much of the surface is too rough for cultivation. The second ridge lies in the great bend formed by the Susquehanna, and is bounded by the valleys of that river and the Chenango. The s. part of this ridge has the same general characteristic as the eastern ridge, but toward the n. the peculiar mountain features are all essentially modified,—the declivities being less steep, the summits less elevated, and the whole region less wild and broken. The wide summits, however, are hard and cold regions, principally covered with forests, and poorly adapted to agricultural purposes. The third ridge lies w. of the Susquehanna and Chenango Rivers. Its summits are little less in elevation than those of the first range, and throughout it has the same general characteristics. The wide valley of the Susquehanna divides it into 2 distinct parts, the s. portion being much more steep and broken than the n.

The rocks of this co. all belong to the Chemung and Catskill groups. The former—consisting of slaty sandstone and shales—occupy all the n. and w. portions of the co.; and the latter—consisting of gray and red sandstone, red shale, and slate—crown all the summits in the s. and w. portions. Drift—consisting of sand, gravel, clay, and hardpan—covers a large share of the more level parts of the co., the rocks only cropping out upon the declivities and summits of the hills. The valleys throughout the co. appear to have been excavated by the action of water, showing that a force immensely greater than any now in existence must once have swept over this portion of country. Upon the banks of the Chenango are numerous quarries of sandstone, which furnish an excellent building material. Many of the rocks of the Catskill group would furnish an equally excellent building stone. Weak brine springs were early found, extending for several mi. along the valley of Halfway Brook, in the n. part of this co.² Several excavations have been made for coal, but without success, as all the coal measures are above the highest strata of rocks found in the co.

The principal rivers are the Susquehanna,³ Delaware, Chenango, Tioughnioga,⁴ and Otselic. The Susquehanna enters the co. from the n., and flows in almost a due s. direction through Colesville and Windsor to the Great Bend in the State of Penn., whence, turning n., it again enters the co. in Conklin, flows through that town in a n. w. direction, and thence westerly to the w. border of the co. In the upper course of this river the valley is narrow and bordered by high and steep declivities; but further w. it expands into broad intervalles bordered by gradually sloping hillsides. The whole valley is celebrated for its beauty. The majestic river, with its strong current of clear, sparkling water, the deep, rich intervalles, and the beautiful slopes crowned with forests, all together form a landscape rarely equalled for beauty and quiet repose. The Delaware forms a small portion of the e. boundary. It flows through a deep, rocky valley bordered by steep and often

¹ Named from John Broome, of N. Y., then Lieut. Gov. of the State. For the compliment Lt. Gov. Broome presented the co. with a handsomely executed silver seal, appropriately designed by himself, emblematical of the name.

² A few years since, a boring was commenced in Lisle, on the site of an old deer lick, and was continued to a depth of more than 400 feet, without any practical result. The theory of the operators was, that the salt came from the same source as the

Otondaga brine, and that, to obtain water of the same amount of saltness, all that was necessary would be to bore to the geographical level of those wells. Sniphur springs have been observed in Nanticoke, 14 mi. from Binghamton, and at Bellona.

³ Called by the Indians Ga-wa-no-wa-nan-eh, Great Island River.

⁴ Indian name, O-nan'-no-gi-si'-ka, Shagbark hickory.

precipitous hills. Chenango River enters the co. from the n. and flows in a general southerly direction until it enters the Susquehanna at Binghamton. A broad intervalle extends along the lower part of this river, but farther n. the high ridges shut close in on either side, confining the valley to very narrow limits. The Tioughnioga enters the co. from Cortland and flows s. e. until it unites with the Chenango at Chenango Forks. The valley of this river is very narrow, and is bordered by high and steep hillsides. Otselic River, also from the n., flows through a similar narrow valley and unites with the Tioughnioga at Whitneys Point. The other principal streams are Oquaga Creek, a tributary of the Delaware, Okkanum, Little Snake, Little and Big Choconut, and Nanticoke Creeks, tributaries of the Susquehanna, and Castle Creek, tributary of the Chenango.

The soil along the river intervalles is generally very fertile, consisting of deep, sandy and gravelly loam mixed with disintegrated slate and vegetable mold. The narrow valleys of the smaller streams are also fertile. The soil upon the n. and w. hills consists principally of gravelly loam intermixed with clay and disintegrated shale, and is well adapted to grazing. The declivities of the s. and e. hills are similar to the last in character, but their summits are generally covered with clay and hardpan. The large proportion of upland and the unevenness of the surface render this co. best adapted to pasturage. While all branches of agriculture are pursued, stock and wool growing, in connection with the products of the dairy, form the leading interests. A limited amount of manufacturing is carried on at Binghamton and several other places.

The co. seat is located at Binghamton, at the junction of the Chenango and Susquehanna Rivers.¹ The courthouse, situated at the head of Chenango St., fronting Court St., is a fine stone and brick edifice, with a Grecian portico in the Ionic style. It contains the usual co. offices, and in many respects is a model building.² The jail is on Court St., at a little distance from the courthouse.³ A fireproof co. clerk's office is situated adjacent to the courthouse. The co. poorhouse is located upon a farm of 130 acres 3 mi. w. of Binghamton. The average number of inmates is 45, kept at a weekly cost of \$1 08 each, exclusive of the products of the farm, which are estimated at \$800 per annum. The children are sent to the district school, and when of proper age are bound out. No religious instruction is afforded. The sexes are kept in separate buildings, and the general arrangement of the institution is such as to secure the health and comfort of the inmates.

The principal works of internal improvement are the Chenango Canal, connecting the Susquehanna River at Binghamton with the Erie Canal at Utica; the N. Y. & Erie R. R., and the Syracuse, Binghamton, & N. Y. R. R.⁴ These various routes furnish all necessary facilities for traveling and commercial purposes, and bring the agricultural lands of the co. into close proximity to the great Eastern markets.⁵ Several plank roads have been built; but they are now mostly abandoned.

There are 5 newspapers published in the co.⁶

¹ Binghamton (then "*Chenango Point*") was a half-shire of Tioga co. previous to the erection of Broome co. The co. was divided into 2 jury districts in 1801, and a courthouse was built in 1802. Previously the courts had been held a part of the time at the house of Joshua Whitney, in Union. A courthouse was built in 1826, which was superseded by a new and elegant brick edifice in 1837. The first co. officers were John Patterson, *First Judge*; James Stoddard, Amos Patterson, Daniel Hudson, Geo. Harper, and Mason Wattles, *Associate Judges*; Ashbel Wells, *Co. Clerk*; and Wm. Woodruff, *Sheriff*. The first court was held on the 2d Tuesday of May, 1806.

² This building was erected in 1857, at a cost of \$32,000. It is 96 feet long by 58 wide. The front is ornamented by a portico supported by 4 Ionic pillars 6 feet in diameter and 36 feet high. The basement is built of stone and the upper stories of brick. The rooms are all large, convenient, and well ventilated.

³ The portion of the jail containing the cells was built in 1858, at a cost of \$15,000. In its construction due provisions were made for the safety, health, and classification of prisoners.

⁴ The Albany & Susquehanna R. R., now in process of construction, extends from Binghamton n. e. through the co. to Albany. This road will probably be completed in a few years.

⁵ The Delaware, Lackawanna, & Western R. R. connects with the N. Y. and Erie R. R. at Susquehanna Station, just s. of the line of this co., thus forming a direct communication with the coal mines of E. Penn. Large quantities of this coal are sent over the Erie and the S. B. & N. Y. R. R., supplying the salt works at Syracuse and the markets in the w. part of the State; and a considerable amount is shipped on the canal at Binghamton.

⁶ *The American Constellation* was pub. at Union Village (then in Tioga co.) in 1800.

The Broome Co. Patriot was commenced at Binghamton in 1811, by Chauncey Morgan. In 1815 it was changed to *The Phoenix*, and was published by Morgan & Robinson. In 1818 it was changed to

The Republican Herald, and was successively published by Morgan & Howard, Abraham Burrell, and Dorephus Abby for several years.

The Broome Co. Republican was established at Binghamton in 1821, by Maj. Chauncey Morgan. It was published by Morgan until 1824, by Morgan & Carroll until 1828, by Evans & Carroll until 1835, by Carroll & Cooke until 1839, when it passed into the hands of Davis & Cooke, and by them was continued several years. It subsequently became the property of Wm. Stewart, and was changed to

The Weekly Republican, and is still published. *The Evening Express*, d., was issued from the Republican office in 1848.

The Daily Iris was started in 1849, by Wm. Stewart and E. T. Evans. It was soon after changed to

The Binghamton Daily Republican, and is still published by Wm. Stewart.

The Broome Co. Courier was started in 1831, by J. R. Orton, and was continued by him until 1837. It then successively passed into the hands of Sheldon & Marble; — Sheldon; E. P. Marble; E. P. and J. W. Marble; and Marble & Johnson. In 1843 it was changed to

The Binghamton Courier and Broome Co. Democrat, and was published by J. and C. Orton. In 1846 it passed into the hands of M. S. Davis, and was changed to

The Binghamton Democrat. It is still published. *The Iris*, semi-mo., was started in July, 1839, by C. P. Cooke.

In July, 1841, it was purchased by Edward T. Evans, and by him it was enlarged and published weekly until 1845, when it was merged in the Binghamton Republican.

The Binghamton Standard was started in Nov. 1853, by J. Van Valkenburg, and is still published.

The Binghamton Mercury, semi-mo., was issued a short time by Chester Dehart.

The Susquehanna Journal, started in Oct. 1853, by W. H. Pearne, was merged in the Broome Republican in 1855. *The Broome Co. American* was started in May, 1855, by Ransom Bostwick.

The Union News was established at Union in 1851, by Cephas Benedict and Ebenezer M. Bette, and is still published.

By a treaty held at Fort Herkimer, June 28, 1785, between the Governor and Commissioners of Indian Affairs, in behalf of the State and the Oneidas and Tuscaroras, the latter for \$11,500 ceded all their lands, bounded n. by an e. and w. line from the Chenango to the Unadilla, 10 mi. above the mouth of the latter, e. by the Line of Property,¹ s. by Penn., and w. by the Chenango and Susquehanna. At the Hartford Convention, in 1786, a tract of 230,400 acres, between the Chenango and Tioughnioga on the e. and Owego River on the w., was ceded to Massachusetts.² This tract was afterward known as the "Boston Ten Towns," and was sold by Mass. (Nov. 7, 1787) to 60 persons for £1500.³ It is embraced in Broome, Tioga, and Cortland cos. The Indian title to this tract was extinguished in 1787, and the remaining Indian titles within the co. were extinguished by the treaty of Fort Stanwix in 1788. The s. and e. parts of the co. were granted to Hooper, Wilson, Bingham, Cox, and others, several of whom resided in Philadelphia.⁴

The first settlements in the co. were made in the valleys of the Susquehanna and Chenango, in 1785. The settlers were people who had traversed the region in the Revolution; and they located while the country was still threatened with Indian hostilities, and before Phelps and Gorham had opened the fertile lands of Western N. Y. to immigration. The early settlement was retarded by a remarkable ice freshet in 1787-88, which destroyed most of the property of the settlers upon the river intervals. Scarcely less calamitous to life and property was the scarcity that followed in 1789. Oquaga, on the e. branch of the Susquehanna, was a noted rendezvous of Tories and Indians during the Revolution.⁵ Most of the invasions into the Schoharie and Mohawk settlements, as well as those upon the frontiers of Ulster and Orange cos., were by way of the Tioga and Susquehanna Rivers from Niagara; and this war path, with its sufferings and cruelties, has been often described in the narratives of returned captives.

BINGHAMTON—was formed from Chenango, Dec. 3, 1855. It lies at the junction of the Susquehanna and Chenango Rivers, and extends s. to the s. line of the co. The surface is hilly in the s., but the n. part embraces the wide and beautiful intervals extending along the two rivers at and near their junction. The hills are 300 to 400 feet above the river, and are generally arable to their summits. The soil in the valleys is a deep, rich, alluvial and gravelly loam, and upon the hills it is a fine quality of slaty loam. **Binghamton**⁶ (p. v.) was incorp. April 2, 1813. By a subsequent charter, passed May 3, 1834, its limits were enlarged and its territory was divided into 5 wards. It is beautifully situated on the n. bank of the Susquehanna, at its junction with the Chenango. It is the seat of the State Inebriate Asylum,⁷ the Binghamton Academy, and the Susquehanna Seminary,⁸ and it contains 3 banks, 9 churches,⁹ 5 newspaper offices, and several manufacturing. Mt. Prospect Water Cure is a large and flourishing institution, located upon the high ridge n. of the village and w. of Chenango River. The village is an important station upon the Erie R. R., and is connected with Syracuse by the S. B. & N. Y. R. R. It is also the s. w. terminus of the Chenango Canal, and of the Albany and Susquehanna R. R. The canal and railroads which center here give to the village important commercial advantages, which are fully improved. It is the center of a large trade, and is an important point for the transhipment of coal.¹⁰ Few places in the State combine in an equal degree commercial facilities and beauty of

¹ This line was agreed upon at Fort Stanwix in 1768, and was surveyed by Simon Metcalf the next year. It forms the e. boundary of this co.

² The s. bounds of this tract were to be the n. line of the tract granted to Daniel Cox and Robert Lettice Hooper, and it was to extend as far as was necessary to include the above quantity of land. Upon survey it was found to overlap the Military Tract by 17,264 acres, which was allowed, and an equivalent was granted to the claimants under the latter in Junius, Seneca co.—*Balling's Book*, pp. 20, 23.

³ The partition of a part of this tract by lot was legalized March 3, 1789, in an act reciting the names of the 60 associates.—*Law of N. Y.*, *Pub. Ed.*, 12th Sess., p. 76, *Map No. 148*, *State Engineer and Surveyor's Office*.

⁴ A tract of 1000 acres on both sides of the Susquehanna was sold to Jacob and John Springstead, Josiah, David, and Daniel Stow, David Hotchkiss, and Joseph Beebee. Other tracts were sold to Wm. Allison, James Clinton, Isaac Melcher, Abijah Hammond, and others. The islands in the Susquehanna were bought by Jas. Clinton, at 4 shillings per acre.

⁵ This place is sometimes found written On-oh-ogh-wa-ge and Ogh-qua-ge. There is here a hill or mountain on both sides of the river, gently sloping from a beautiful vale of 3 or 4 mi. in length and a mi. to a mi. and a half wide. When first settled, it bore evidence of having long been occupied by the Indians. Apple trees of great age were found growing, and traces of fortifications existed, supposed to have been erected by Gen. Clinton. Missionary labors were directed to this locality about the middle of the

last century, and in 1753 the Rev. Gideon Hawley was sent hither from Mass.—*Doc. Hist.*, III. 1031; *Willinson's Binghamton*, p. 142.

⁶ Binghamton was originally called "*Chenango Point*." Its present name was given in honor of William Bingham, the original purchaser of a large tract of land lying on both sides of the Susquehanna, and including the site of the village. He made liberal donations of land to the village.

⁷ The New York State Inebriate Asylum was incorp. in 1854 for the term of 50 years. It is designed for the medical treatment and restraint of inebriates. It owes its origin mainly to the persevering efforts of Dr. J. Edward Turner. Every person donating \$10 is deemed a subscriber and stockholder. The building is located e. of the village, on a beautiful site, 240 feet above the water. It is 365 feet long by 82 feet broad, built of stone and brick in the Tudor castellated style of architecture. The citizens donated a farm of 200 acres, upon which the buildings are erected.

⁸ This institution is under the charge of the M. E. denomination, and is designed for a large boarding school. The building is a 4 story brick edifice, pleasantly located n. w. of the village upon an eminence overlooking the valley.

⁹ 2 Wes. Meth., and 1, each, Bap., Presb., Cong., Prot. E., Univ., R. C., and A. M. Meth.

¹⁰ There was transhipped from the Del., Lackawanna & Western R. R. cars to the Chenango canal boats, in 1857, 51,700 gross tons of coal, and from these boats to the cars 25,895 tons of Clinton co. iron ore.

situation. Pop. 8818. **Hawleyton** (p. o.) is situated in the s. part, near the Penn. line. The first settlement was made in 1787, by emigrants mostly from New England.¹ The first religious services were conducted by Rev. Mr. Howe (Bap.) in 1788. Hon. Daniel S. Dickinson is a resident of this town.

BARKER²—was formed from Lisle, April 18, 1831. A part of Greene was annexed April 28, 1840. It lies upon Tioughnioga River, n. w. of the center of the co. The surface consists of a high, broken plateau region divided into two distinct parts by the valley of the river. The declivities of the hills are too steep for cultivation, but their summits spread out into a broken region generally covered with timber and adapted to pasturage. The highest point, in the n. w. part of the town, is about 1400 feet above tide. The river valley is very narrow, but the limited amount of intervale is excellent land. Halfway Brook flows through a narrow valley in the e. part of the town. In this valley brine springs have been found; and here also the unsuccessful boring for salt was made.³ The soil in the valley is a rich alluvium and gravelly loam, and that upon the hills is a clayey loam mixed with disintegrated slate and shale. **Chenango Forks** (p. v.) is situated mostly in this town, at the fork of Chenango and Tioughnioga Rivers. It is a station on the S. B. & N. Y. R. R. Pop. 506,—in Barker 287, in Chenango 127, and in Greene (Chenango co) 92. **Barker** is a p. o. in the central part of the town. The first settlement was made in 1791, by John Barker, from Branford, Conn.⁴ There are 3 churches in town.⁵

CHENANGO—was formed Feb. 16, 1791. Windsor was taken off in 1807, Conklin in 1824, and Binghamton and Port Crane in 1855. A part of Union was annexed Feb. 26, 1808, and a part of Maine, Nov. 27, 1856. It lies upon the w. bank of Chenango River, a little w. of the center of the co. Its surface consists of the river intervale and several high ridges extending in a n. and s. direction and separated by the narrow valleys of small streams. The declivities of the hills are steep, and their summits are 300 to 600 feet above the valleys. Castle and Kattel Creeks, tributaries of Chenango River, are the principal streams. The former was named from the location of an Indian castle near its mouth, and the latter from a family of early settlers. The soil upon the n. hills is a gravelly loam mixed with disintegrated slate and underlaid by hardpan, but farther s. it becomes a deeper and richer gravelly loam. It is productive, but, from its uneven character, it is largely devoted to grazing. Stock growing and dairying form the leading branches of agricultural interest. **Castle Creek** (p. v.) is on the creek of the same name, in the w. part of the town; pop. 185. **Glen Castle**, (p. o.,) on the same stream, is in the central part. **Chenango**, (p. o.,) on Chenango River, is a station on the S. B. & N. Y. R. R. **Kattelville** is a hamlet on Kattel Creek. The first settlement was made in 1787, by Thos. Gallop.⁶ There are 4 churches in town.⁷

COLESVILLE⁸—was formed from Windsor, April 2, 1821. It lies upon the Susquehanna, e. of the center of the co. Its surface consists principally of a high and broken upland divided into 2 parts by the deep valley of the river. The summits of these uplands are 400 to 700 feet above the valley, and considerable portions are still covered with forests. The declivities are generally too steep for cultivation. The soil upon the river bottoms is a deep, fertile, gravelly loam, and upon the summits of the hills it consists of clay and slate. It is generally much better adapted to pasturage than tillage. **Harpersville**, (p. v.,) on Susquehanna River, contains 3 churches and has a pop. of 230. **Center Village**,⁹ (p. v.,) on the Susquehanna, has a pop. of 147. **New Ohio**, (p. o.,) in the n. part of the town, **Osborne Hollow**, (p. o.,) in the w. part, **West Colesville**, (p. o.,) in the s. w. part, **Colesville**, (p. o.,) s. of the center, **Susquehanna**, (p. o.,) and **Nineveh**, (p. o.,) on the Susquehanna, are hamlets. The first settlement¹⁰

¹ Among the early settlers were Capt. Joseph Leonard, Col. Wm. Rose, the two brothers Whitney, — Lyon, Jesse Thayer, Peter and Thos. Ingersoll, Saml. Harding, Capt. John Sawtell, — Butler, and Solomon Moore. The first birth was that of Amasa Leonard, Sept. 23, 1788; the first marriage, that of Ezekiel Crocker and Polly Benton; and the first death, that of Mrs. Blunt in 1787. Lewis Keeler opened the first inn, and Delano & Monroe the first store. Ezekiel Crocker erected the first grist-mill, in 1794. The first school was taught by Col. Wm. Rose, in 1794. For details of early history see *Wilkinson's Annals of Binghamton*.

² Named from John Barker, the first settler.

³ See p. —

⁴ Simeon Rogers, John Allen, Asa Beach, and Sol. Rose, from Conn., settled in town in 1792. The first marriage was

that of Simeon Rogers and a daughter of John Barker, in 1792; the first birth, that of Chauncey, a son of Simeon Rogers, in 1793; and the first death, that of Thos. Gallop, the same year. Simeon Rogers opened the first inn, in 1795, kept the first store, and built the first mill. The first school was taught by Thos. Cartwright, in 1795.

⁶ 2 M. E. and Cong.

⁸ Stephen Palmer and Jared Page were among the earliest settlers. The first birth was that of Sally Smith, in 1791.

⁷ 3 M. E. and 1 Bap.

⁹ Named from Nathaniel Cole, one of the first settlers.

¹⁰ At this place is a tannery, which turns out 60,000 sides of leather per annum.

¹¹ Lemuel and Edward Badger and Casper Spring settled in the town in 1788; Nathaniel and Vena Cole, Daniel Pickett, Jed.

was made in 1785, by John Lamphere, from Watertown, Conn. The first religious services were conducted by Rev. Joseph Badger, in 1793. There are 10 churches in town.¹

CONKLIN²—was formed from Chenango, March 29, 1824. A part of Windsor was taken off in 1831, and a part was annexed from Windsor in 1851. It lies upon the Susquehanna, s. of the center of the co. Its surface consists of the fine broad intervalle of the river and high, broken uplands which rise upon each side. The summits of the hills are 600 to 700 feet above the valley. The declivities upon the w. side of the river are very steep, but upon the e. they are generally more gradual. Snake Creek flows in an easterly direction through the s. w. part of the town. Its valley is narrow and is bordered by steep hills. The soil upon the summits of the hills is a hard, cold, clayey and gravelly loam largely intermixed with fragments of slate. In the valley the soil is a deep, rich alluvium and gravelly loam. **Kirkwood** (p. v.) is situated on the e. bank of the Susquehanna, in the s. part of the town. It is a station on the Erie R. R., and contains 25 houses. **Conklin Center** and **Corbettsville** are p. offices, and **Millburn** and **Conklin** are hamlets. The settlement of the town was commenced in 1788, at the mouth of Snake Creek, by Jonathan Bennett, Ralph Lathrop, and Waples Hanth.³ The first religious services were conducted by Revs. David Dunham and John Leach, Methodist missionaries. There are 2 churches in town; M. E. and Presb.

LISLE⁴—was formed from Union, April 7, 1801. Nanticoke, Barker, and Triangle were taken off in 1831. The line of Berkshire was altered in 1812, and a part was annexed to Union in 1827. It is the n. w. corner town of the co. The surface is mostly a hilly and broken upland, divided by the valley of Tioughnioga River into 2 unequal parts. The summits of the hills are 400 to 700 feet above the river, and their declivities are generally very steep. Yorkshire Creek flows in an easterly direction through near the center of the town, its narrow valley breaking the continuity of the w. ridge. The soil along the valley is a rich, gravelly loam, but upon the hills it consists of clay and a slaty gravel underlaid by bardpan. The declivities of the hills are usually too steep to admit of cultivation, and the soil upon the summits is so hard that a large share of it yet remains uncultivated. **Lisle** (p. v.) is situated on the w. bank of the Tioughnioga. It is a station on the S. B. & N. Y. R. R., and contains about 30 houses. The old Catskill & Ithaca Turnpike, built in 1796, crossed the river at this point. **Yorkshire**, (Center Lisle p. o.), near the center of the town, contains about 30 houses. **Killawog**, (p. o.), in the n. part, on the Tioughnioga, is a station on the S. B. & N. Y. R. R. The first settlement was made in 1791, by emigrants from N. E.⁵ The first religious services were conducted in 1795, by Rev. Seth Williston. There are 5 churches in town.⁶

MAINE—was formed from Union, March 27, 1848. A part of Chenango was taken off in 1856. It is the central town upon the w. border of the co. Its surface consists of ranges of hills divided by numerous narrow valleys, the principal of which extends in a n. and s. direction. These hills are 400 to 600 feet above the valley of Chenango River. The principal streams are Nanticoke, Bradley, and Little Choconut Creeks. The soil is a gravelly loam largely intermixed with the underlying slate. **Maine**, (p. v.), situated on Nanticoke Creek, w. of the center, contains 3 churches; pop. 220. **East Maine** is a p. o. The first settlement was made in May, 1797, by Daniel Howard, Alfred and Russell Gates, and Winthrop Roe.⁷ There are 3 churches in town; 2 M. E. and Cong.

NANTICOKE⁸—was formed from Lisle, April 18, 1831. It lies upon the w. border of the co., n. of the center. Its surface consists of an upland broken by a few narrow ravines and in

Merchant, Bateman S. Dickinson. — Wilnot, Daniel Crofoot, and Titus Humiston, in 1795; John Ruggles and Isaac Tyrell, in 1796; and Eli Osborne and Peter Warn, in 1800. The first birth was that of Lonisa Badger, May 28, 1788; the first death, that of John Lamphere, the same year; and the first marriage, that of Benj. Bird and Mrs. John Lamphere, in 1794. Benj. Bird kept the first inn, in 1794, and Bateman S. Dickinson the first store, in 1805. The first school was taught by Job Bunnel.

¹ 4 M. E., 2 Bap., 2 Union, Prot. E., Presb.

² Named from Judge John Conklin, one of the early settlers.

³ Among the early settlers were Gerret Snedaker, David Bond, Daniel Chapman, Peter Wentz, Asa Rood, Nathaniel Tagot, Asa Squires, John Bell, Silas Bowker, — Lamoreaux, Abraham Snyder, David and Joseph Compton, Abraham Miller, Ebenezer Park, Noel Carr, and Thos. Cooper. The first birth was that of William Wentz, Feb. 18, 1795; the first marriage, that of Noel Carr and Sally Toulser, in 1803; and the first death, that of Silas Bowker. The first gristmill was built at "Fitchs

Creek," in 1790. The first school was taught by George Lane, in 1801.

⁴ Named from Lisle, in France.

⁵ The first settlers were Josiah Peterson, Ebenezer Tracy, Edward Edwards, David Manering, Eliphalet Parsons, and Whittlesey Gleason. The first birth was that of Henry Patterson, in 1793; the first marriage, that of Solomon Oweo and Sylvia Cook; and the first death, that of Wright Dudley. The first gristmill was built in 1800, by Jacob Hill. The first store was kept by Moses Adams, and the first tavern by O. Wheaton, in 1815, at Killawog.

⁶ 2 Bap., Cong., Presb., and M. E.

⁷ Russell Norton settled in the town in 1798. The first birth was that of a daughter of Winthrop Roe, in July, 1797. The first school was taught by Ruth Atkins, in 1802. Daniel Howard built the first gristmill, in 1815, and Oliver Whitcomb kept the first store and tavern, in 1829.

⁸ This name is derived from the Indian name of Nanticoke Creek.

places rising into steep, rocky peaks. The summits of the highest hills are 1200 to 1500 feet above tide. The town is drained principally by the two branches of Nanticoke Creek, which flow s. through the central portions of the town. The soil upon the hills is a slaty loam underlaid by hardpan. The settlements are principally confined to the valleys, the hills being generally covered with the original forests. **Nanticoke Springs**,¹ (p. v.,) in the central part of the town, contains about 12 houses. **Glen Aubrey** is a p. o. The first settlement was made on Nanticoke Creek in 1793, by Philip Counselman and John Beachtle, from Luzerne co., Penn.² There are 2 churches in town; Bap. and M. E.

PORT CRANE³—was formed from Chenango, Dec. 3, 1855. It lies upon the e. bank of Chenango River, extending from the central portions of the co. n. to the borders of Chenango. Its surface consists principally of a high and broken upland region. The valley of the Chenango is very narrow, and the hills rise steeply to an elevation of 500 to 700 feet above the river. Page Brook flows in a southerly direction through the center of the town, dividing the uplands into 2 distinct ridges. The soil upon the hills is a clay and slaty loam underlaid by hardpan, and in the valleys it consists of a fine, rich gravelly loam and alluvium. **Port Crane**, (p. v.,) on the Chenango Canal, in the s. part of the town, has a pop. of 193. **Doraville**, in the n. part, is a p. o. The first settlement was made in 1788, by Elisha Pease.⁴ The first religious services were conducted by Rev. John Camp, in 1798. There is a M. E. church in town.

SANDFORD—was formed from Windsor, April 2, 1821. It is the s. e. town of the co., bordering upon Delaware River. Its surface is principally occupied by the high, mountainous range that extends between Delaware and Susquehanna Rivers. The summits of the hills are 600 to 900 feet above the valley, and the declivities are usually very steep.⁵ The deep, narrow valley of Oquaga Creek, flowing s. through the center of the town, separates the highlands into 2 parts. This valley and that of Delaware River are both bounded by nearly precipitous mountain declivities. In its course the creek has numerous falls, furnishing an abundance of water power. The soil in the valleys is a fertile, gravelly loam, but upon the hills it is a cold, clayey loam underlaid by hardpan. Considerable portions of the central and s. parts of the town are still unsettled. Lumber and leather are largely manufactured. **Deposit** (p. v.) is situated partly in this town and partly in Tompkins, (Delaware co.) The depôt, several hotels, and about half of the dwellings are in this town. Pop. 1249,—656 in Sandford, 593 in Tompkins.⁶ **Sandford**, in the central part of the town, **N. Sandford**, in the n. part, and **Gulf Summit**, in the s., are p. offices. Settlement commenced in 1787, by Wm. McClure, from N. H., — Whitaker, and Capt. Nathan Dean.⁷ There are 3 churches in town; Bap., M. E., and R. C.

TRIANGLE⁸—was formed from Lisle, April 18, 1831. It is situated in the extreme n. part of the co., bordering upon both Cortland and Chenango. Its surface consists of a broken and hilly upland divided into ridges by the valleys of Otselic River, Pages and Halfway Brooks. The summits of the hills are 300 to 500 feet above the valleys. The whole region is rough, and the soil is generally a gravelly loam best adapted to grazing. **Whitneys Point**,⁹ (p. v.,) situated at the junction of Otselic and Tioughnioga Rivers, contains 3 churches and has a pop. of 205. **Upper Lisle**, (p. v.,) on the Otselic, in the n. part of the town, contains 2 churches and 35 houses; and **Triangle**, (p. v.,) on Halfway Brook, in the s. e. part, 3 churches and 175 inhabitants. The first settlement was made at Whitneys Point in 1791, by Gen. John Patterson, from Berkshire co., Mass.¹⁰ The first religious services were conducted by Dea. Josiah Lee, in 1792, and the first sermon was preached by Rev. Seth Williston, in 1795. There are 8 churches in town.¹¹

¹ Locally known as "Lands Owners."

² The first birth was that of Betsy Stoddard, in 1796, and the first death, that of Miss Bird, sister of Mrs. Stoddard.

³ Named from Jason Crane, one of the engineers on the Chenango Canal.

⁴ Jared Page and — Vining were among the first settlers. The first birth was that of Chester Pease, in 1793; the first marriage, that of Gardner Wilson and Polly Rugg, in 1800; and the first death, that of Mrs. Pease, in 1789. Elisha Pease erected the first sawmill, in 1797, and Thomas Cooper kept the first store, in 1813. The first school was taught by Ozias Masch, in 1800.

⁵ The highest point between the two rivers, by the State Road Survey, is 1688 feet above tide.

⁶ See page —.

⁷ Among the first settlers were Daniel Race, Noah Carpenter, Nathan Austin, Simeon Alexander, Russel Farnham, S. P. Green, Anthony West, Joseph Page, John Pinney, J. P. Appleton, Silas Seward, Capt. Parker, Isaac Denton, and Dexter May. The first marriage was that of Conrad Ediot and Elizabeth Whitaker, in

April, 1787; the first birth, that of Phebe Edict, in 1788; and the first death, that of Stephen Whitaker, Oct. 23, 1793. Capt. Dean built the first sawmill, in 1791, the first gristmill, in 1792, opened the first store, in 1794, and kept the first inn. The first school was taught by Hugh Compton, in 1793.

⁸ This name was applied to the tract s. of the Military Tract and "Twenty Towns" and between the Chenango and Tioughnioga Rivers. It was bought by Col. Wm. Smith, at 3 shillings 3 pence per acre. The Chenango Triangle embraces Smithville and part of Greene in Chenango co., and Triangle and part of Barker in Broome.

⁹ Named from Thos. Whitney.

¹⁰ In 1792, David Seymour and family settled at Whitneys Point; and between 1794 and 1797, Timothy Shepherd, Asa Rodgers, Benj. and Headrick J. Smith, and John Sanders, settled at Upper Lisle. The first death was that of Mrs. Hannah Lee, in 1791. The first school was taught by Martha Seymour, in 1793.

¹¹ 4 Bap., 2 M. E., 1 Cong., and 1 Univ.

UNION—was formed Feb. 16, 1791. A part of Norwich and Oxford (Chenango co.) were taken off in 1793, a part of Greene (Chenango co.) in 1798, Tioga (Tioga co.) in 1800, Lisle in 1801, a part of Chenango in 1808, Vestal in 1823, and Maine in 1848. A part was annexed from Tioga, (Tioga co.,) April 2, 1810, and a part from Lisle, April 11, 1827. It lies upon the n. shore of the Susquehanna, s. w. of the center of the co. The surface consists of the Susquehanna intervale and the hilly region n. of it. The highlands are nearly centrally divided by the deep valley of Nanticoke Creek. The soil in the valley consists of a mixed clayey, sandy, and gravelly loam and alluvium, and is very productive. The hills have a rich soil of slaty and gravelly loam, and are cultivated to their summits. **Union**, (p. v.,) situated near the Susquehanna, in the s. part of the town, is a station on the N. Y. & E. R. R. The Union News is published at this place. Pop. 520. **Union Center**, (p. v.,) on Nanticoke Creek, partly in this town and partly in Maine, contains 2 churches and about 40 houses. **Hooper**, (p. o.,) in the s. part of the town, is a station on the Erie R. R. The first settlement was made in 1785, by Joseph Draper, Nehemiah Crofoot, Bryant Stoddard, Nathan Howard, Jabesh Winchop, Caleb Merriman, and Winthrop Roe.¹ The first church (Ref. Prot. D.) was organized in 1789, at Union Village, and Rev. John Manley was the first settled preacher. There are 3 churches in town.²

VESTAL—was formed from Union, Jan. 22, 1823. It lies upon the s. bank of the Susquehanna, and is the s. w. corner town of the co. The surface consists of the river intervale and the hilly region immediately s. of it. The soil upon the hills is a fine quality of slaty loam, and in the valley it is a deep, rich, gravelly loam and alluvium. It is adapted to both grain raising and grazing. **Vestal**, (p. v.,) near the mouth of Big Choconut Creek, contains 1 church and about 45 dwellings, **Vestal Center**, (p. v.,) on the same stream, 1 church and about 20 houses, and **Tracy Creek**, (p. v.,) in the w. part, 1 church and about 15 houses. Settlement was commenced in 1785, by emigrants from New England.³ The M. E. church at Vestal was the first religious organization in town.⁴

WINDSOR⁵—was formed from Chenango, March 27, 1807. Colesville and Sandford were taken off in 1821, and a part of Conklin in 1851. A part of Conklin was annexed April 18, 1831. It lies upon the s. border of the co., s. e. of the center. Its surface is principally occupied by 2 high ridges separated by the valley of the Susquehanna. Upon the e. side of the valley the hills attain an elevation of 600 to 1200 feet above the river, and culminate in several distinct peaks; on the w. the hills are less elevated, though the highest summits attain an elevation of 400 to 800 feet above the valley.⁶ The declivities of these hills are generally very abrupt. Oquaga Hill, in the n. e. part of the town, is one of the highest peaks, and it has some historical notoriety. (See p. —) The valley of the river is generally narrow. The soil is a deep, rich, gravelly loam in the valleys, and a cold, hard, slaty loam underlaid by clay and hardpan upon the hills. Considerable portions of the e. and s. parts of the town are yet uncultivated. **Windsor**, (p. v.,) situated on the Susquehanna, near the center of the town, contains 3 churches and Windsor Academy. Pop. 339. **Stillson Hollow** (West Windsor p. o.) contains about 20 houses. **Randolph Center**⁷ (p. o.) is a hamlet. The first settlement was made on the Susquehanna, at the mouth of Doolittle Creek, in 1786, by John Doolittle, from Conn.⁸ The first church (Cong.) was organized Aug. 15, 1793, by Rev. Mr. Judd. There are 5 churches in town.⁹

¹ Among the early settlers were Joseph Meverau, Gen. Orange Stoddard, Nehemiah Spaulding, Walter Sabin, Capt. Wm. Brink, Moses Chambers, Ezekiel and Oliver Crocker, Jeremiah and Benj. Brown, Amos Patterson, Ahner Rockwell, and Medad and Elissa B. Bradley. The first death was that of Mary J. Fisk, June 13, 1789. James Ross and Jabesh Winchop built the first gristmill, in 1791, and the latter opened the first tavern, the same year. The first school was taught by Flavel Sabin, in 1787.

² 2 Presb. and 1 M. E.

³ Samnel and Daniel Seymour, David Barney, Daniel Price, Wm. Coe, Ruggles Winchel, and Asa Canup, were the first settlers. Saml. Coe kept the first inn, in 1791, and R. Winchel built the first grist mill, in 1786. The first school was taught by John Bouch, in 1793.

⁴ The census reports 3 churches; Bap., M. E., and Ref. Meth.

⁵ Named from Windsor, Conn.

⁶ The surface of the Susquehanna in this town is about 910 feet above tide.

⁷ So called from its being the center of Randolph's Patent.

⁸ David Amaphad and Cyrus Hotchkies, John Gurnsey and — Swift, settled in town in 1787. The first birth was that of David Doolittle, Dec. 27, 1786; the first marriage, that of Cpt. English and Miss Moore; and the first death, that of Mrs. Ashley, the interpreter at the Oquaga Mission, in Aug. 1787. Josiah Stow opened the first inn and store, in 1783, and — Lane built the first gristmill, in 1797. The first school was taught by — Seymour, in 1789.

⁹ 2 M. E., and 1 each F. W. Bap., Ref. Meth., and Presb.

COLUMBIA COUNTY.

This county was formed from Albany, April 4, 1786.¹ It lies upon the e. bank of the Hudson, between Rensselaer and Dutchess cos., and extends e. to the Massachusetts line. It contains an area of — sq. mi., and is centrally distant — mi. from Albany. The Taghkaniek Mts. extend along the e. border, and the adjoining parts of the co. are broken by numerous irregular ranges of hills which constitute the outlying spurs of those mountains. The w. part of the co. consists of an undulating plateau terminating in bluffs on the Hudson River. The principal streams are Roeliff Jansens Kil² and Claverack and Kinderhook Creeks. Upon these streams and their tributaries are numerous valuable mill sites. In the e. and n. parts of the co. are several picturesque lakes, the principal of which are Kinderhook, Copake, and Charlotte Lakes, and Whittings, Robinsons, Snyder, and Rhoda Ponds. The prevailing rocks are the Hudson River shales. The slate rocks in this co. crop out toward the w., usually at an angle of 45°, but sometimes almost vertically. Limestone crops out in different parts of the co. Brown hematitic iron ore is found in numerous localities in the e. part of Ancram and Copake.³ Lead has been mined in Ancram,⁴ and manganese, peat, and marl are found in different localities. In New Lebanon are the celebrated thermal springs; in Stockport are other mineral springs, and in Chatham is a small sulphur spring.

The various branches of agriculture form the leading industrial pursuits of the people. Hay, (of which large quantities are pressed and sent to market,) rye, oats, corn, potatoes, and buckwheat, are the staple productions. Stock raising and dairying receive considerable attention. The manufacture of paper, cotton fabrics, vegetable extracts, and iron, is largely carried on.⁵ A greater quantity of paper is made in this co. than in any other in the State, and the co. also takes precedence of all others in the amount of tinctures and extracts prepared from medicinal plants.

The city of Hudson is the county seat.⁶ The courthouse and jail is a fine building, fronting on Washington Square. It has a marble front, with an Ionic portico, and contains the court and jury rooms, and the co. clerk's, sheriff's, and district attorney's offices.⁷ The poorhouse is a spacious brick building located upon a farm of 200 acres in Ghent.⁸

The most important works of internal improvement are the Hudson River R. R., extending through the w. part of the co., the Albany & West Stockbridge R. R., through the n. part, the Hudson & Boston R. R., terminating at Hudson, and the New York & Harlem R. R., terminating at Chatham Four Corners. Four newspapers are published in the co.⁹

¹ By this act the n. boundary was defined as the n. line of "Kinderhook District," and the s. boundary as the s. line of "Kings District." The latter line was more accurately defined, April 1, 1799.

² Named from Roeliff Jansen, Overseer of the Orphan Chamber (an office similar to that of surrogate) under the Dutch Government. The Indian name was "Saut-hen-ak."—*Doc. Hist.*, III., 612.

³ Large quantities of ore have been taken from these localities. It is obtained near the surface, and its depth is not known.

⁴ This ore is found near the junction of the slates and limestone strata, and occurs in strings and bunches.—*Geol. Rep.*, 1838, p. 59.

⁵ There are 15 paper mills and 8 cotton factories in the co. The first paper mill was erected at Stuyvesant Falls, in 1802, by Geo. Chittenden; and the first cotton factory, in 1813, by Nath'l Wilde.

⁶ The co. seat was formerly located at Claverack. The first meeting of the board of supervisors was held at the house of Gabriel Esselstuyne, in Claverack. An appropriation of £2000 was made for a courthouse, and Wm. B. Whiting, Abraham J. Van Alstyne, John Livingston, Henry I. Van Rensselaer, Matthew Scott, Seth Jenkins, and Wm. I. Ludlow were appointed commissioners to superintend its erection. In 1788, an additional appropriation of £1200 was made, and in 1798 another of £400. The first co. officers were Peter Van Ness, *First Judge*; Peter Sylvester, Peter R. Livingston, Henry I. Van Rensselaer, and Wm. B. Whiting, *Judges*; Killian K. Van Rensselaer, *Surrogate*; Lawrence Hogboom, *Sheriff*; Robert Van Rensselaer, *Clerk*; and Walter Vrooman Wemple, *Treasurer*. By the act of Feb. 25, 1805, the co. seat was removed to Hudson on condition that the city appropriate for the use of the co. the city hall, a

lot of land, (upon which to erect co. buildings,) and the sum of \$2000. A committee, consisting of Wm. Wilson, Jacob Ford, Thos. Jenkins, Benj. Birdsall, and Nathaniel Green, was appointed to superintend repairs and the erection of a jail.

⁷ The courthouse was erected in 1835, at a cost of \$3500.

⁸ This building was erected in 1857, at a cost of \$22,000, and, together with the surrounding buildings, has accommodations for 500 persons. The farm is mostly worked by the inmates of the institution.

⁹ The *Hudson Gazette*, the first paper published in the co., was established April 7, 1785, by Ashbel Stoddard and Chas. R. Webster. Webster soon after withdrew, and the paper was continued by Stoddard until 1803-04.

The *Bea* was removed from New London, Conn., to Hudson, Aug. 27, 1802, and was published by Chas. Holt until 1810.

It then passed into the hands of Sael. W. Clark, and afterward into those of Joba M. Dutcher. It was changed about 1820, to

The *Columbia Centinel*, and two years afterward it was united with the *Columbia Republican*.

The *Balance and Columbia Repository* was started in 1802, by Ezra Sampson, George Chittenden, and Harry Crosswell. It was removed to Albany in 1805, and discontinued in 1811.

The *Wasp* was edited a short time by "Robt. Rusticoat," in the early part of the present century.

The *Hudson Newspaper and Balance Advertiser* was commenced in Oct. 1806, by Harry Crosswell.

The *Republican Fountain*, established in Dec. 1806, was published about 1 year, by Sylvester Roberts.

The *Northern Whig* was begun in 1808, by Francis Stebbins. Wm. L. Stone became the publisher in 2 or 3 years,

The first settlements were made in the n. part of the co., under the Dutch Government. The e. border was settled chiefly by squatters from New England. Livingston Manor¹ was patented July 22, 1686, and first settled by tenants about the beginning of the last century. The most important settlement was made by German Palatinates, in 1710, upon a tract of 6000 acres—now constituting the principal part of Germantown—which had been sold back to the Government by Robert Livingston. The territory of Mass., under its charter, extended westward to the Pacific Ocean, and grants were made by that colony.² Conflicting claims gave rise to bitter contentions and riotous outbreaks. Arrests made under Mass. warrants led to riots and bloodshed.³ Combinations were formed to dispossess the proprietor of the Livingston Manor, which resulted in tumults and murders.⁴ These difficulties continued until after the Revolution. During the Revolutionary War, and for several years after, this section of the country was much infested by robbers, and acts of violence were of frequent occurrence.⁵ The anti-rent movement of 1840-50 extended to the Livingston Manor, the John J. Van Rensselaer Tract, and other districts held by leasehold. In Dec. 1844, the Governor ordered out 7 companies of militia to assist the sheriff of this co. in the discharge of his duties. Most of the leases which had then been issued were for 1, 2, or 3 lives; but the anti-rent difficulties have led to the policy of conveying the title in fee as rapidly as circumstances will admit.⁶

ANCRAM—was formed from Livingston, March 19, 1803,⁷ as "*Gallatin*." Its name was changed March 25, 1814, and Gallatin was taken off in 1830. It is the s. e. corner town of the co.

- Richard L. Cross in 1816, and W. R. Stebbins in 1821. It was discontinued in 1824.
- The Columbia Magazine* was published at Hudson at an early date, by Rev. John Chester.
- The Spirit of the Forum and Hudson Remarker* was published in 1817, by a literary association.
- The Columbia Republican** was started in Aug. 1818, by Solomon Wilbur. In 1820 it passed into the hands of Amrose L. and Allen Jordan, and is now published by Wm. Bryan. For a year or two, about 1835-36, it was issued as
- The Columbia Republican and Hudson City Advertiser*.
- The Hudson Gazette** was established in 1824, by Peleg G. Sturtevant, and is now published by Albertson & Olmstead.
- The Messenger of Peace* was started in 1824, at Hudson, by Richard Carriage, and continued 1 year.
- The Rural Repository*, semi-mo., was commenced, June 12, 1824, by Wm. B. Stoddard, and continued until 1851.
- Columbia and Greene Co. Envoy* was started at Hudson, in 1831, by Edwin G. Lindsley, and continued 2 years.
- The Diamond*, semi-mo., was published at Hudson, in 1833, by G. F. Stone.
- The Magnolia*, semi-mo., was published at Hudson, in 1834, by P. D. Carrigan.
- The Hudson Flail* was published by J. R. S. Van Vliet, during the campaign of 1840.
- The Columbia Washingtonian* was started at Hudson in 1842, by J. R. S. Van Vliet. The paper changed hands several times, and was discontinued about 1850.
- The Daily Evening Star* was commenced Dec. 28, 1847, by Alex. N. Wells, and is now published as
- The Hudson Star**, d. and wk.
- The Temperance Palladium* was published at Hudson in 1851, by J. W. Dutcher.
- The Hudson Daily News* was published in 1855, by Richard Van Antwerp.
- The Kinderhook Sentinel* was established at Kinderhook in June, 1825, by Peter Van Schaack, and in Jan. 1832, was changed to
- Columbia's Sentinel*. In 1834 it passed into the hands of John V. A. Hoeg, but about 18 months afterward it reverted to Van Schaack. It has since been changed to the
- Rough Notes**, and since 1854 it has been published at Kinderhook, by E. H. Van Vleck.
- The Valatie Weekly Times* was published in 1853, by H. N. Hopkins.
- The Equal Rights Advocate* was started at Chatham Four Corners, by an anti-rent association. In 1848 it was removed to Hudson, and changed to
- The Democratic Freeman*. It was discontinued in 1855-56.
- The Columbia Co. Journal* was published at Chatham Four Corners in 1850, by Philip H. Ostrander.
- ¹ The patent of this manor conferred upon Robert Livingston, the patentee, feudal privileges, and imposed an annual quit rent of 28 shillings. The manor contained 160,240 acres, and included nearly all the present towns of Clermont, Germantown, Livingston, Gallatin, Taghkanick, Ancrum, and Copake. It consisted of 2 purchases: the Livingston purchase, obtained of the Mohegan Indians in July, 1683, and the Taghkanick purchase, obtained Aug. 10, 1685. They were confirmed by Gov. Dongan, the former, Nov. 4, 1684, and the latter, Aug. 12, 1685. In 1701 there were but 4 or 5 houses on the manor. From and after 1716 the manor was represented by a member in General
- Assembly. Before his death—which took place in 1728—Robert Livingston bequeathed to his son Robert that part of the manor now included in the town of Clermont, and the residue to his eldest son, Philip. The latter was succeeded by Robert Livingston, Jr.; and in 1792 the land s. of the post road was divided between Walter, Robert C. John, and Henry Livingston, the devisees of Robert Livingston, Jr., according to the provisions of his will.—*Sutherland's Deduction of the Title of the Manor of Livingston; Doc. Hist. III., Colonial Hist.*
- ² In the patent and upon the maps of the manor, several places are designated by their Indian names, viz.—
- Ahashawgick, a hill in n. w. corner, on Mass. line.
- Acawannk, a flat or rock in n. part of North East, (Dutchess co.)
- Kachwayick, a place w. of a certain mountain.
- Kickua, or Kiekyua, one of 3 plains near Roeliff Jansens Creek.
- Mananoscick, hill in w. part, on or near Mass. line.
- Mawangonick, stone heaps on n. line, "where Indians have laid several heaps of stones together, by an ancient custom amongst them."
- Mahaskakook, a "cripple bush" on s. line of patent.
- Mawichan, a flat on both sides of a creek where it joins R. Jansens Creek.
- Mimissichtanock, a piece of land n. of Roeliff Jansens Creek.
- Nownanaguisick, on n. line of manor, (Sauthier's map.)
- Nachawawachkano, creek tributary to Twastawokak.
- Nichanakoos, one of 3 plains near Rueliff Jansens Creek.
- Pottkook, patented to K. Van Rensselaer, s. of Kinderhook.
- Quisichkook, a small creek n. of Roeliff Jansens Creek.
- Saaskahampka, or Swaskahmaka, a place opposite Saugerties, Ulster co.
- Sacaha, on n. line of the town of North East.
- Sankhenak, Roeliff Jansens Kil.
- Skaankook, a creek.
- Towastawekak, or Twastawekak, a creek.
- Wachanekaisick, a small stream opposite Catskill Creek.
- Walhanaisick, near Roeliff Jansens Creek, (Sauthier's map.)
- Wayyachtonack, a place.
- Whichquophuhai, s. w. corner of Mass.
- ³ With the view of settling their claims upon the Hudson, the Boston Government, in March, 1672, sent John Paine to New York to solicit permission to pass and repay by water. The application was received with cold civility, and the subject referred home for the decision of his Majesty. Gov. Lovelace improved the occasion to remind the Mass. people of the distrust with which they had received the commissioners sent over in 1664, and intimated that their application under other circumstances might have been differently received.—*General Entries, IV. 177, 178. Sec. Office.*
- ⁴ *Doc. Hist. III., 754.*
- ⁵ In 1791 the sheriff of the co. was murdered by an armed mob while in the discharge of his official duty.
- ⁶ A party of rangers was organized to suppress these; and under the act of May 11, 1780, £1500 was raised to defray the expenses thus incurred.
- ⁷ *Assem. Doc. 156; 1846, p. 2.*
- ⁸ This town was included in the Livingston Manor. The line bordering upon Taghkanick was altered March 25, 1814. A narrow triangular tract of about 1000 acres, in the extreme e. part of the town, known as "*Boston Corner*," formerly belonged to the town of Mt. Washington, Berkshire co., Mass. The Taghkanick Mts. extend along the e. border of the tract, and form an almost impassable barrier between this and the remaining parts of that town. Thus entirely isolated from the

The surface is broken and hilly. In the e. part the hills range in a n. and s. direction, but elsewhere they are irregular. Roeliff Jansens Kil¹ crosses the town in a s. w. direction. A narrow interval, bordered by steep, irregular hills, extends along its course. The soil is a gravelly loam intermixed with clay. Iron ore has been obtained at different places from the hills upon the e. border of the town,² and lead ore is mined at Hot Ground.³ Ancram,⁴ (p. v.,) situated on Roeliff Jansens Kil, in the w. part of the town, contains 2 churches, a paper mill, a sawmill, and about 30 houses. Hot Ground (Leadmines p. o.) and Boston Corner, (p. o.,) a station on the Harlem R. R., are hamlets. The town was first settled by the Dutch, in the neighborhood of Ancram Village. There are 3 churches in town.⁵

AUSTERLITZ—was formed from Canaan, Chatham, and Hillsdale, March 28, 1818. It lies on the e. border of the co., n. of the center. The e. and central parts are broken by irregular ranges of hills, and the w. part is undulating. The principal streams are Green River in the e. and Punsit Creek in the w. The soil is a gravelly loam intermixed in some parts with slate and clay. The hills are mostly arable to their summits. Spencertown, (p. v.,) on Punsit Creek, in the w. part of the town, contains 2 churches, an academy,⁶ and 2 gristmills. Pop. 225. Austerlitz, (p. v.,) in the valley of Green River, contains 2 churches and 150 inhabitants. Upper Green River is a hamlet in the s. e. part of the town. The first settlements were made about 1745 to 1750, by squatters from Conn.⁷ Disputes concerning the ownership of lands thus appropriated arose; and on the 31st of May, 1757, the settlers appointed a committee to adjust the difficulties. About 1774, Nathaniel Culver and Jas. Savage were sent to England to secure a grant of these lands to the settlers; but, owing to the trouble existing between the mother country and the colonies, they were unsuccessful. The land titles were finally settled by the act of March 22, 1791. The first church (Cong.) was organized in 1750, and Rev. Jesse Clark was the first pastor.⁸

CANAAN—was formed as "Kings District," March 24, 1772, and its name was changed March 7, 1788. A part of Chatham was taken off in 1795, and New Lebanon and a part of Austerlitz in 1818. It is situated on the e. border of the co., between Austerlitz and New Lebanon. A range of mountains or hills separates it from Massachusetts. The surface is broken and hilly. Whittings Pond, in the e. part of the town, is about 2 mi. in circumference. Its outlet is tributary to Kinderhook Creek and affords several valuable mill sites. The soil is a gravelly or slaty loam and clay. The hills are mostly arable to their summits. Near the center of the town is a slate quarry.⁹ Canaan Four Corners, (p. v.,) a station on the A. & W. S. R. R., contains 1 church and 32 dwellings; Flat Brook, (p. v.,) a station on the same r. r., contains 1 church and 15 dwellings. Canaan (p. o.) and Canaan Center (p. o.) are hamlets. Queechy, on the outlet of Whittings Pond, contains 1 church, 2 paper mills, a sawmill, a gristmill, and 21 dwellings; and Red Rock,¹⁰ in the s. w. corner of the town, contains 3 churches, a sawmill, a gristmill, and 30 dwellings. Two families of Shakers, consisting of about 75 persons, reside in the n. e. part of the town. They are chiefly engaged in farming, and their estate consists of over 1400 acres. They raise garden seeds to a limited extent, and manufacture brooms, mop sticks, and other similar articles. The settlement of the town was commenced about 1756.¹¹ At a meeting of the citizens of "Kings District," (June 24, 1776,) held for the purpose of choosing delegates to the Provincial

seat of civil authority, it became the resort of fugitives from justice, prize fighters, and others of like character, who bade defiance to the laws and practiced their unlawful acts with impunity. In Dec. 1848, the inhabitants petitioned to be annexed to N. Y. The State of Mass. consented in May, 1852. The cession was accepted by New York, July 21 of the same year, confirmed by Congress, Jan. 3, 1855, and the Corner was annexed to this town, April 13, 1857.—*N. Y. Assem. Docs.*, 64 & 194, 1849.

¹ Called "Ancram Creek" in this town.

² These mines have been worked many years. Considerable quantities of ore are obtained on the land of A. McArthur and sent to Millerstown (Dutchess co.) on the Harlem R. R. An ore bed n. of this, owned by the Empire Co., is connected with the r. r. by a track $\frac{1}{4}$ mi. long.

³ This mine was discovered on land leased by the keeper of the Livingston Manor. Robt. R. Livingston purchased the lease, and sold it to a N. Y. Co., by whom the mine was worked until within a few years. A shaft has been sunk 100 feet, and galleries opened in different directions. The mine is on land now owned by H. McIntyre.

⁴ This place was formerly celebrated for its iron works. These were erected as early as 1756. The ore was obtained from Salisbury, Conn., and from mines in the e. part of this town, and pig and bar iron of a superior quality was made.

⁵ Evang. Luth., M. E., and Presb.

⁶ The Spencertown Academy was established mainly through the exertions of Rev. Dr. T. Woodbridge.

⁷ Among the early settlers were John Dean, John Williams, Seth and Truman Powell, Jas. Sexton, Ephraim Kidder, and families by the names of Osborne, Lawrence, Spencer, and Whitmore.

⁸ The census reports 4 churches in town; Christian, Cong., M. E., and Presb.

⁹ This quarry is on the land of L. D. Ford. The slate is of a dark blue color, and plates of any required size or thickness may be obtained.

¹⁰ So named from a large rock by the roadside, painted red, and surmounted by a wooden column about 16 feet high, bearing the date "Jan. 1825."

¹¹ Among the early settlers were families named Douglass, Warner, Whiting, Alesworth, Baldwin, and Hawley. The first mill was built by Wm. B. Whiting, about 1775. This mill, stored with grain belonging to the government, was burned by Tories during the war. In the first book of records is a memorandum, without date or signature, stating that "the town records were kept on loose paper previous to 1772, but not probably but a few years. The deed from the Indians of 6 mi. sq. was executed in 1758. The compensation was £250, that being paid for the 6 mi. sq." The record is continuous since May 6, 1772.

Congress, it was voted to recommend to that body the passage of a declaration of independence.¹ There are 7 churches in town.²

CHATHAM—was formed from Canaan and Kinderhook, March 17, 1795, and parts of Austerlitz and Ghent were taken off in 1818. It lies near the center of the n. border of the co. The surface is moderately hilly, the ranges generally extending n. and s. The principal stream is Kinderhook Creek, upon which are numerous mill sites. The soil in the valleys is a gravelly loam intermixed with clay, and upon the hills it is slaty. The valleys are broad and fertile, and the hills arable to their summits. Near New Concord is a sulphur spring. **Chatham Four Corners** (p. v.) is situated partly in this town and partly in Ghent. It is an important station on the A. & W. S. R. R. and the H. & B. R. R., and is the terminus of the Harlem R. R. The depôts of these roads are in Ghent. The village contains 3 churches, a machine shop, and 3 foundries. Pop. 697. **East Chatham**, (p. v.), a station on the A. & W. S. R. R., near the line of Canaan, contains 2 churches, a gristmill, sawmill, and candle factory. Pop. 245. **New Concord** contains 1 church and 109 inhabitants; **Chatham**, (p. v.), 1 church, a furnace and plow factory, gristmill, and sawmill, and a pop. of 214; **Rayville** a Friends meeting house and 13 houses; **Chatham Center**, (p. v.), 1 church and 127 inhabitants; **Malden Bridge**, (p. v.), 1 church, a paper mill, sawmill, and tannery, and a pop. of 193; and **Ryders Mills**, a gristmill, sawmill, and 12 houses. **North Chatham**, (p. v.) contains 2 churches, a sawmill, gristmill, and plaster mill. Pop. 179. The settlement of this town commenced about 1725. The settlers were from Kinderhook, but originally from Holland. A company from Connecticut settled at New Concord in 1758.³ The census reports 11 churches in town.⁴

CLAVERACK⁵ (Claw've-rack)—was formed as a district, March 24, 1772. Hillsdale was taken off in 1782, and Hudson in 1785. It was recognized as a town, March 7, 1788. A part of Ghent was taken off in 1818. It lies near the center of the co. The surface in the w. part is undulating, and in the e. hilly. Claverack Creek, upon the w. border of the town, and its tributaries, are the principal streams. The soil is a rich loam in the w., and a gravelly loam intermixed with slate in the e. **Claverack**, (p. v.) in the w. part of the town, a station on the H. & B. R. R., contains 2 churches and the Claverack Academy and Hudson River Institute;⁶ pop. 496; **Mellenville**, (p. v.), a station on the H. & B. R. R., contains 2 churches, a gristmill, and 30 dwellings; and **Philmont**, (p. v.), a station on the Harlem R. R., contains several manufacturing establishments⁷ and 35 dwellings. **South Bend Mills**, **Martindale Depot**, (p. o.) and **Humphreysville** (p. o.) are hamlets. **Smoky Hollow** (p. v.) contains several factories⁸ and 25 dwellings, and **Churchtown** (p. v.) 1 church and 14 dwellings. The Ref. Prot. D. church, Claverack, was organized in 1716, and the present edifice was erected in 1765. There are 6 churches in town.⁹

CLERMONT—was formed from the Livingston Manor, March 12, 1787.¹⁰ It lies upon the Hudson, in the s. w. corner of the co. The surface is undulating. Roeliff Jansens Kil forms the e. boundary. The soil is a fertile loam, and in some places sandy. **Clermont**, (p. v.) near the e. part of the town, has a pop. of 155. The first settlement was made at an early day by Germans, who occupied the lands as tenants. A school was established, in 1791, by a special act of the legislature, before any general school system had been adopted in the State.¹¹ Robert R. Livingston, a prominent statesman of the Revolution and the first chancellor of the State, was a resident of this town. A German Lutheran church, about 3 mi. w. of the village of Clermont, is the only church in town.

COPAKE—was formed from Taghkanick, March 26, 1824. It lies on the e. border of the co., between Hillsdale and Ancram. Its surface is broken by ranges of hills separated by broad

¹ William B. Whiting, Asa Waterman, Philip Frisbie, Martin Beebe, Elisha Pratt, Capt. Baldwin, Daniel Buck, Elijah Bostwick, Gideon King, Jarvis Mudge, Saml. Johnson, Saml. Gillett, L. A. Herrick, Joseph Wood, John Woodworth, and Saml. Baily were appointed a committee to prepare a memorial making such recommendation to Congress.

² 2 Bap., 2 M. E., Christian, Cong., and Presb.

³ Among these were John Beebe, and others named Cady, Hurlburt, Palmer, and Davis. A little w. of Chatham Center was a stone house, used as a defense against the Indians during the Revolution. A man named Vosburgh, who lived near this house, was killed and scalped; but his family escaped.

⁴ 6 M. E., 2 Bap., Christian, Cong., and Ref. Prot. D.

⁵ This town formerly extended to the Hudson, sud the bluff on the bank were named the "Klavers," (clovers,) whence "Claver-reach," or "Claverack."—*Benson's Memoir*, p. 44.

⁶ This institution is located upon a beautiful eminence in the n. part of the village, and commands an extensive view of the surrounding country and of the distant Catskills. It is under the charge of the ~~M. E. denomination~~ and is one of the most flourishing institutions in the State. It has accommodations for 500 to 600 pupils.

⁷ Three paper mills, a carpet factory, woolen factory, eash and blind factory, furnace and machine shop.

⁸ A wooleo factory, cradle factory, gristmill, and sawmill.

⁹ 2 Ref. Prot. D., Bap., Evang. Luth., M. E., and Prot. E.

¹⁰ By an act of legislature passed March 2, 1858, a triangular tract, now constituting the N. part of Germantown, was taken off from Clermont.

¹¹ An academy was incorp. April 26, 1834, and received under the regents Feb. 26, 1837, but it was never successfully organized.

and fertile valleys. A high and nearly unbroken range extends along the e. border. In the town are several small lakes, the principal of which are Copake Lake in the w., and Robinsons, Snyder, and Rhoda Ponds in the s. The soil is a gravelly and clayey loam. Near Copake Station are several iron mines.¹ **Copake Station**, (Copake Iron Works p. o.,) on the Harlem R. R., contains 1 church, a blast furnace, and 26 houses; **Copake Flats** (Copake p. o.) contains 1 church and 20 houses; and **Baines Station**, (North Copake p. o.,) a station on the Harlem R. R., 15 houses. The settlement of this town commenced about the middle of the last century.² A Ref. Prot. D. church was the first church organized, and Rev. Jeremiah Romeyn was the first pastor.³

GALLATIN⁴—was formed from Ancram, March 27, 1830. It lies near the center of the s. border of the co. The surface is broken by several ranges of hills, which extend in a n. and s. direction. The highest point is **Mattashuk Hill**, s. of Lake Charlotte. Roeliff Jansens Kil is the principal stream: its banks are steep and in some places rocky. Charlotte Lake, in the n. part of the town, is a fine sheet of water, surrounded by gentle slopes cultivated to the water's edge. The soil is a slaty and gravelly loam, and moderately fertile. **Gallatinville**, (p. v.,) on Roeliff Jansens Kil, contains a gristmill and 11 houses; **Weaver Hollow**, **Jacksons Corners**, (on the line of and p. o. in Dutchess co.,) and **Union Corners**, (partly in Livingston,) are hamlets. The town was settled at a very early day by emigrants from Holland and Germany.⁵ A Ref. Prot. D. church was organized in 1748, and the Rev. Mr. Freymoot was the first pastor.⁶

GHEENT⁷—was formed from Chatham, Claverack, and Kinderhook, April 3, 1818; and a part of Stockport was taken off in 1833. It is an interior town, n. of the center of the co. Its surface is hilly in the e. and undulating in the w. The town is watered by several small streams tributary to Kinderhook and Claverack Creeks. The soil is mostly a gravelly loam, but in some parts it is clayey. **Ghent**,⁸ (p. v.,) in the e. part of the town, is a station on the H. & B. and Harlem R. Rs. It contains 2 churches and 18 houses. **West Ghent** (v.) contains 1 church and 16 houses. The first settlement was made about 1735, by emigrants from Holland and Germany.⁹ There are 4 churches in town.¹⁰

GREENPORT—was formed from Hudson City, May 13, 1837. It lies upon the Hudson, near the center of the w. border of the co. Its surface is broken and hilly. Beacrofts Mt., in the e. part of the town, is nearly precipitous upon its w. side. Merino Point,¹¹ near the Hudson, has an elevation of 250 feet above the river. Claverack Creek forms the e. boundary of the town, and a small tributary of this stream and Kahseway Creek are the principal watercourses. The interval of the latter is broad and fertile. The soil is clayey along the river and a sandy and gravelly loam in the interior. Limestone is extensively quarried on the e. side of Beacrofts Mt. **Oak Hill** (p. o.) is a station on the Hudson R. R. in the s. w. part of the town. A steam ferry connects this place with Catskill Point on the opposite side of the Hudson. Settlement commenced in this town about the middle of the last century.¹² There is but one church (Ref. Prot. D.) in town.

GERMANTOWN¹³—was formed as a district April 1, 1775, and recognized as a town March 7, 1788. A part of Clermont was annexed, March 2, 1858.¹⁴ It lies upon the Hudson, in the s. part of the co. The surface is undulating. Roeliff Jansens Kil forms the n. boundary. The soil is a rich, fertile loam, sandy in a few places. **Germantown** (p. v.) contains 1 church and 19 houses, and **East Camp** 17 houses. The first settlement was made in 1710, by German Palatinates, under the patronage of Queen Anne. The first arrival was in 1710; and on the 1st of May, 1711, there were 1178 settlers in town, and the four villages "*Hunterstown*," "*Queensbury*," "*Annsberg*," and "*Haysburgh*" had sprung into existence.¹⁵ A school was estab-

¹ The ores obtained from these mines are hematites. A new ore bed, that promises an abundant supply of an excellent quality, has recently been opened to the depth of 13 feet.

² Families by the names of Snyder, Bielse, and Lampman were among the early settlers.

³ The census reports 3 churches; M. E., Presb., and Prot. E.

⁴ Named in honor of Hon. Albert Gallatin.

⁵ The Knickenbackers and the Snyders were among the first settlers. An Englishman, named Ross, was one of the first settlers in the neighborhood of Gallatinville.

⁶ There are 2 churches in town; Ref. Prot. D. and M. E.

⁷ Named from Ghent, in Holland.

⁸ The Indian name of this locality was "*Soom-pa-muck*."

⁹ Among the first settlers were John, Cornelius, Andrew, and Lawrence Sharp, and Abramam Hogeboom, who located near Ghent Village. A man named Cox had settled near the same place a short time before.

¹⁰ 2 Ref. Prot. D., Evang., Meth., and Friends.

¹¹ This point was formerly called "*Rorabuck*." Its present

name was derived from the fact that a large sheep farm was established here many years ago.

¹² Jacob Johannes Van Iloesen and Erneric Plaice settled in the town as early as 1763.

¹³ Named "*East Camp*" and "*German Camp*" in some early records.

¹⁴ That part annexed was almost isolated from the rest of Clermont, and lay n. of this town.

¹⁵ A tract of 6000 acres, forming the present town of Germantown, was purchased, on the 9th of Sept. 1710, of Robt. Livingston by Gov. Hunter, for the use of these people. It was designed to employ them in raising hemp and making tar, pitch, and rosin for the royal navy, and they were furnished with provisions and tools. The management of their affairs was intrusted to a board of commissioners, consisting of Robt. Livingston, Richard Sacket, John Cast, Godfrey Walcott, Andrew Bagger, and Herman Schureman. John Peter Knieskem was appointed "master" in Hunterstown. John Conrad Weiser in Queensbury, Hartman Windecker in Annsberg, and John Chris-

lished in 1711. The Ref. Prot. D. church was formed in 1728, and Johannes Van Driesen was the first pastor.¹

HILLSDALE—was formed from Claverack, as a district, March 26, 1782, recognized as a town March 7, 1788, and a part of Austerlitz was taken off in 1818. The surface is broken by ranges of high hills extending in a n. and s. direction and separated by narrow valleys. Green River crosses the n. e. corner; and several small streams, which form the headwaters of Roeliff Jansens and Claverack Creeks, take their rise in the town. The soil is a gravelly loam and clay. **Hillsdale**, (p. v.) a station on the Harlem R. R., in the s. part of the town, contains 2 churches and has a pop. of 225; **Harlemville** (p. v.) contains 1 church and 225 inhabitants, and **Green River** (p. v.) 1 church and about 12 houses. The town was settled at a very early day,—the s. part by immigrants from Mass. and the n. by Dutch settlers.² The first church (Bap.) was organized June 23, 1787, and Rev. Stephen Gano, D.D., was the first pastor. There are 6 churches in town.³

HUDSON CITY—was formed from Claverack, and incorp. as a city, April 22, 1785.⁴ A part of Stockport was taken off in 1833, and Greenport in 1837. It lies upon the e. bank of the Hudson, at the head of ship navigation, near the center of the w. border of the co. The surface is a rolling upland. A slate bluff rises abruptly from the river to the height of 60 ft., and from its summit a beautifully rolling ridge extends eastward and slopes gradually upward for a distance of one and a half mi., terminating in Prospect Hill, a high, rounded eminence 300 ft. above the surrounding lands and 500 ft. above the river. This ridge is from 6 to 50 rods in width, and is bounded on the n. and s. by gradual and uniform slopes. North and South Bays (two shallow bodies of water) extend about 1000 ft. inland from the river, converting the w. extremity of the ridge into a promontory.⁵ A public square, containing an area of about an acre and a half, has been laid out upon the summit of the bluff overlooking the river, and furnishing one of the most beautiful public promenades in the country. From the summit of Prospect Hill an extensive view is obtained of the windings of the Hudson, with distant Catskills on the one side, and the Green Hills of Mass. on the other.

In the river, opposite the city, is an extensive mud flat, through which a canal has been cut for the Hudson and Athens Ferry.

This city is the western terminus of the Hudson & Boston R. R., and an important station on the Hudson R. R. R. The manufactures are extensive, consisting principally of iron and clothing.⁶ A considerable amount of commerce is carried on by means of the Hudson.⁷

The *City Hall* is a brick building, situated on Warren St. near the center of the city. The lower story is used for mercantile purposes.

The *Public Schools* are in a flourishing condition. In 1857 the city was divided into 5 districts, and gave employment to 21 teachers,—5 males and 16 females. The number of children between the ages of 4 and 21 was 2562, of which 1095 (or 42½ per cent.) were in attendance some portion of the year. The total expenses of the schools for that year was \$4448 38; total receipts, the same; number of volumes in district libraries, 700. A Lancasterian School Society was incorp. April 15, 1817, and it maintained a school many years.⁸

The *Hudson Academy* building, a plain, 3 story brick edifice near Prospect Hill, was erected in 1805.

1 *tian* Trucks in Haysburgh. The enterprise was unsuccessful, and many of the settlers removed to the Mohawk and Schoharie Valleys. In the summer of 1711 a company of 25 men from "Hun-terstown" volunteered in the expedition against Canada. In 1725 the tract was granted by letters patent to the inhabitants of "East Camp," to be divided equally in fee after reserving 40 acres for church and school purposes.

2 The census reports 3 churches in town; Evang. Luth., M. E., and Ref. Prot. D.

3 Among the early Dutch settlers were families named Showerman, Blackman, Kinyon, Fregers, Evarde, and Shurts. — Foster was one of the first settlers near Hillsdale Village. The State surrendered its claims to the lands actually occupied, March 12, 1793.

4 M. E., Bap., Christian, and Presb.

5 The express object of this incorporation was to facilitate commercial operations. The charter included all the territory n. of Livingston Manor and w. of Claverack Creek, extending 180 feet into the Hudson.

6 Warren St., the principal street of the city, extends along the crest of this ridge from the foot of Prospect Hill to the promenade grounds on the bluff. Few streets in any city have a finer location than this.

7 The Hudson Iron Co. have a double blast furnace, driven by an engine of 300 horse power: 80 to 90 men are employed, and 40 to 50 tons of pig iron turned out per day. At the Columbia Iron Works about 40 men are employed, and 20 to 25 tons of pig iron made daily. The ore used in these furnaces is obtained from Weston, Mass., and from Dutchess, Orange, and Essex cos. Clark's Clothing Manufactory employs about 400 hands. In 1858, sales were made to the amount of \$130,000, mostly for the Southern market. Beside these, there are in the city 2 machine shops, 2 iron foundries, a stove foundry, gunshop, cutlery manufactory, bookbindery, flouring mill, brewery, and brickyard.

8 An immense quantity of pressed hay, annually sent to the New York market, forms the principal export of the co.

9 By act of May 11, 1835, this society was allowed to raise \$400 annually.

The *Hudson Female Academy* was organized in 1851, and occupies a substantial stone edifice formerly used as a private lunatic asylum.

The *Orphan Asylum* was established in Oct. 1843, and is in charge of a board of lady managers. Forty to 60 children are provided for. It is supported by private donations, assisted by an annual stipend of \$1000 from the co. Beside these, there are in the city 11 private schools, 2 public libraries, 3 banks, and 3 newspaper offices.

A lunatic asylum was established here in 1832, but it was given up upon the opening of the State Asylum at Utica.¹ The first religious organization (a society of Friends) was formed in 1784, and a meeting house was built in 1785. There are now 11 churches in the city.²

Hudson was formerly known as "*Claverack Landing*."³ The foundation of its future prosperity as a city was laid by Seth and Thos. Jenkins and their associates, in 1783.⁴ It grew with great rapidity, and soon became the center of a very extensive commercial business. In 1775 it became a port of entry,⁵ and at an early period its commerce extended to the West Indies and Europe.⁶ Shad and herring, from the river and coast fisheries, ship timber, and country produce were exported, and numbers of ships were employed in the whale fisheries. The embargo, and the war which followed, destroyed this trade. The whaling business was afterward resumed, and for some time prosecuted with success; but it has since been entirely abandoned. A daily line of steamers plies between this city and Albany, and the day line between Albany and New York touches here.

KINDERHOOK⁷—was formed as a district, March 22, 1772, and reorganized as a town March 7, 1788. A part of Chatham was taken off in 1795, a part of Ghent in 1818, and Stuyvesant in 1823. It occupies the central part of the n. border of the co. The surface is level or undulating. Kinderhook Lake, in the n. e. part, is about 4 mi. in circumference. The principal streams are Kinderhook Creek and the outlet of Kinderhook Lake. The soil is a fertile, sandy, and gravelly loam. **Kinderhook**, (p. v.,) situated on the creek of the same name, was incorp. April 18, 1838. It contains 4 churches, the Kinderhook Academy, a newspaper office, 2 banks, and several manufacturing establishments.⁸ Pop. 1078. **Lindenwald**, the residence of Ex Pres. Martin Van Buren, is about 2 mi. s. of this village. **Valatie**,⁹ (vol'a-che, p. v.,) situated at the junction of Kinderhook Creek and the outlet of Kinderhook Lake, was incorp. June 30, 1856. It contains 4 churches, 5 cotton factories,¹⁰ and several other manufactories.¹¹ **Niver-ville**, (p. v.,) on the outlet of Kinderhook Lake, is a station on the A. & W. S. R. R. It contains a wadding factory, batting factory, gristmill, and 21 houses. Settlements commenced under the Dutch Government.¹² The rights of certain settlers were confirmed by the act of March 12, 1793. A controversy concerning the patent of John Hendrick De Bruyn, granted in 1686, was settled by commissioners June 8, 1812. A Ref. Prot. D. church was organized in 1712. Rev. Johannes Lydius, of Albany, conducted the first religious services, and Rev. J. Van Driesen was the first settled pastor. There are 8 churches in town.¹³

LIVINGSTON—was granted as a manor,¹⁴ July 22, 1686, formed as a district, March 24, 1772, and organized as a town, March 7, 1788. Clermont was taken off in 1787, and Ancram and Taghkanick in 1803. It is situated in the s. w. part of the co., bordering on the Hudson. The surface is generally undulating. Claverack Creek crosses the n. e. corner, Kleina Kil¹⁵ flows through near the center, and Roeliff Jansens Kil forms the s. w. boundary. In most of its course

¹ Established by Dr. S. White. It was confined 64 years, and during that time 297 patients were admitted.

² Bap., M. E., Presb., Prot. E., Ref. Prot. D., R. C., Univ., Wes. Meth., A. Meth., and 2 Friends meeting houses.

³ In 1783, Peter Hogeboom, Peter Van Hoesen, Caspar Huyck, John Van Allen, and John, Jacob, Jonathan, and Leonard Hendricks lived at this place. Van Allen kept a store, and Conrad Flock kept a canoe ferry to Loonenburgh.

⁴ Seth and Thomas Jenkins, and 28 others, that year formed themselves into an association for commercial purposes, and selected "*Claverack Landing*" as the seat of their operations. A city plot was at once surveyed, docks were built, and shipbuilding commenced. The following year the *Hudson*, a ship of 300 tons, was launched by Jenkins & Gelston. Cotton Gelston opened a store the same year, and in 1785 Thomas Jenkins and Josiah Alcott built a ropewalk, 600 feet long. Josiah Barnard built a wind gristmill on Prospect Hill, in 1787; and Thos. and Seth Jenkins and Stephen Paddock, a hemp ducking factory, in 1789.

⁵ Henry Malcomb, the first collector, was appointed June 12, 1795.

⁶ It is said that at one time a greater amount of shipping was owned at this port than at New York.

⁷ A Dutch name, signifying "Childrens Point." There are several versions of the origin of this name: one is, that it was

given by Hudson from the number of Indian children congregated to see his vessel at a point above Stuyvesant Landing; and another, that it was derived from the number of children belonging to a family residing at the forks of an Indian trail, where the village of Kinderhook now is.

⁸ A steam cotton factory, gristmill, sawmill, 2 hat factories, and a candle factory.

⁹ A Dutch word, signifying "Little Falls." There is a fall here of about 15 feet; and hence the name.

¹⁰ There are about 400 looms in these factories, and 400 to 500 persons employed; warp and wicking exclusively are made at one of them.

¹¹ A paper mill, furnaces, machine shop, plaster mill, and sawmill. Pop. estimated at about 1500.

¹² A record belonging to the Ref. Prot. D. church, dated 1729, and signed by Johannes Van Driesen, gives the names of 100 families then residing in town. Among these are the names Van Alsteve, Van Allen, Van Schaeck, Van Burjon, Van Der Pool, Conyn, Huijk, Voeburg, Schermerhorn, Klauw, Gardenist, Van Valkenburgh, Van Sleijk, Wieber, and Mulder.

¹³ 2 M. E., Bap., Evang. Luth., Presb., Prot. E., Ref. Prot. D., and R. C.

¹⁴ The manor, of which this town is a part, was granted to Robert Livingston.

¹⁵ Little Creek.

this last stream flows through a broad and fertile valley, but near the Hudson its banks are steep and rocky. The soil is a fertile, sandy loam. **Johnstown**, (Livingston p. o.), situated near the center of the town, contains 1 church, a parochial school, and 28 houses. **Glencoe Mills**, (p. v.), on Claverack Creek, contains a free chapel, 2 sawmills, and 16 houses. **Bakers Mills**, (p. o.), on Roeliff Jansens Kil, contains a woolen factory, 2 paper mills, a gristmill, and 10 dwellings. **Elizaville**, (p. o.), **Blue Store**, and **Linlithgo** are hamlets. Settlement commenced soon after the patent was granted.¹ There are 4 churches in town.²

NEW LEBANON—was formed from Canaan, April 21, 1818. It is the n. e. corner town of the co. The surface consists of steep hills separated by broad, irregular valleys. The Taghkanick Mts., upon the e., separate this town from Mass. The Wyomanock or Lebanon Creek is the principal stream. The soil is a gravelly and slaty loam intermixed with clay. The valleys are generally narrow and the hills arable to their summits. **Lebanon Springs**, (New Lebanon Springs p. o.) in the e. part of the town, is celebrated for its thermal springs.³ It contains 2 churches, 4 hotels, and a gristmill, and has a pop. of 278. **Tildens** (New Lebanon p. o.) contains 1 church, a barometer and thermometer manufactory, a laboratory for the preparation of medicinal extracts,⁴ and 35 houses. **New Lebanon Center** (p. v.) contains a gristmill, sawmill, tannery, and 22 houses; **Moffatts Store**, (p. v.) 1 church and 23 houses; and **New Britain**, (p. o.) 1 church and 6 houses. In the e. part of the town, about 2 mi. s. of Lebanon Springs, is a large Shaker community.⁵ The first settlement was made about 1760, by immigrants mostly from Mass. and Conn.⁶ There are 8 churches in town.⁷

STOCKPORT—was formed from Hudson, Ghent, and Stuyvesant, April 30, 1833. It lies upon the Hudson, n. of the center of the co. The surface consists of a high table land, rising from the river in bluffs and descending with a moderate slope toward the e. Kinderhook and Claverack Creeks unite near the center of the town. The valleys of these streams are narrow and their banks often steep and rocky. Near Stottsville are 4 mineral springs, known as the Columbia Springs.⁸ **Stockport**, (p. v.), situated at the junction of Kinderhook and Claverack Creeks, contains 3 churches, several manufactories,⁹ and 44 dwellings. **Chittendens Falls** contains 1 church, 2 paper mills, and 14 dwellings, and **Stottsville** 2 woolen factories and 21 dwellings. **Columbiaville**¹⁰ (Stockport station on the Hudson R. R. R.) is situated on the Hudson. This town was settled at an early period by the Dutch. There are 4 churches in town.¹¹

STUYVESANT¹²—was formed from Kinderhook, April 21, 1823, and a part of Stockport was taken off in 1833. It is the n. w. corner town of the co., is situated on the bank of the Hudson, and includes the adjacent islands e. of the middle of the river. The surface is generally level, except along the river bank, where it is broken by ravines and low hills. Kinderhook Creek crosses the s. part of the town. The soil is generally clayey, but in some places it is a light, sandy loam. **Stuyvesant Falls**, (p. v.), on Kinderhook Creek, contains 1 church, several manufactories,¹³ and 35 houses. **Stuyvesant Landing**, (Stuyvesant p. o.) on the Hudson, contains 1 church, a flouring mill, a foundry, 2 coal yards, a lumber yard, and 34 houses. It is a steamboat

¹ On Beatty's map of 1714, the manorhouse and mill are located within this town, near the Hudson, and the residences of families named Witbeck, Claas, and Brusie near Claverack Creek.

² 2 Ref. Prot. D., Evang. Luth., M. E.

³ The spring is 10 feet in diameter and 4 feet deep, and discharges 16 barrels of water per minute. The water is wholly tasteless, and has a temperature of 73° at all seasons. According to an analysis made by Dr. Meade, 1 pint of water contains 1.25 grs. solid matter, as follows—0.25 grs. chloride of calcium, 0.44 grs. chloride of sodium, 0.19 grs. carbonate of lime, and 0.37 grs. sulphate of lime. Bubbles of gas constantly rise from the bottom of the spring, giving it the appearance of boiling. This gas is composed of 89.4 parts nitrogen and 10.6 parts oxygen, and is given out in the proportion of 5 cubic inches from a pint of the water. So great is the volume of water discharged that it not only supplies several baths, but 2 or 3 mills are kept running by it both summer and winter.—*L. C. Beck's Report*, 1848, p. 48, and *Geology 1st Dist.*, p. 105. The medicinal properties of these waters were first brought to the notice of the public by Jaa. Hitchcock. There are several similar springs of less volume in the vicinity.

⁴ Tilden & Co. have under cultivation 40 acres of medicinal plants,—chiefly dandelion, hyoscyamus, lettuce, belladonna, stramonium, yellow dock, and valerian, poppies, digitalis, aconite, horse-hoand, wormwood, and hederan. They also use large quantities of conium, gathered from the surrounding country, as well as imported medicinal herbs and roots. Sixty persons are employed in the preparation of their extracts.

⁵ There are 500 to 600 persons in this community. They own

about 2000 acres of land in this State, besides a considerable tract in Mass. They have a large meeting house, a laboratory furnished with steam power, a gristmill, 4 sawmills, 2 machine shops, 8 dwellings, and several other buildings. They are principally engaged in farming, and in preparing extracts, roots, herbs, botanic medicines, and garden seeds. They also manufacture brooms, sieves, and fancy baskets. About 200,000 lbs. of medicinal articles and garden seeds are put up annually. The neatness of their grounds and premises is proverbial.

⁶ Among the first settlers were families named Gilbert, Cornell, King, Skinner, Mudge, Gurnsey, Jones, Waddams, Sanford, and Patchin. An inn was kept at Lebanon Springs for several years before the close of the Revolutionary War. The house is still standing, and is supposed to be nearly a century old.

⁷ 3 M. E., Bap., Christian, Presb., R. C., and a Shaker meeting house.

⁸ The waters of these springs have never been analyzed. A hotel and bathing houses have recently been erected near them, and they are now much frequented.

⁹ 2 cotton factories, a mattress factory, machine shop, and sash and blind factory.

¹⁰ Columbiaville was incorp. Feb. 21, 1812, but the act of incorporation was repealed April 20, 1833. It was formerly a manufacturing place of considerable importance. In 1813 it had a cotton factory of 1500 spindles, 2 paper mills, 4 cording mills, 2 fulling mills, together with grist, saw, and plaster mills.

¹¹ M. E., Presb., Prot. E., and Univ.

¹² Named in honor of Gov. Peter Stuyvesant.

¹³ 3 cotton factories, a woolen factory, a gristmill, sawmill, machine shop, and an agricultural implement factory.

landing¹ and a station on the Hudson R. R. R. **Coxsackie Station**, on the Hudson R. R. R., has half a dozen houses. At this place is a ferry to Coxsackie, (Greene co.,) on the opposite side of the river. The first settlement was made by the Dutch about the period of the English conquest.² There are 3 churches in town.³

TAGHKANICK⁴—was formed from Livingston as “Granger,” March 19, 1803. Its name was changed March 25, 1814, and Copake was taken off in 1824. It is an interior town, lying s. of the center of the co. The surface is hilly. Taghkanick Creek is the principal stream. Its banks are low and rocky, and upon it are numerous mill sites. The soil is a gravelly and slaty loam. The hills are generally arable to their summits, although some are wooded and rocky. **West Taghkanick** (p. v.) contains 1 church, a gristmill, and 14 houses. **Taghkanick** (p. o.) and **New Forge** are hamlets. The first settlements were made by German and Dutch settlers, among whom were families named Brises, Shurts, and Shoefelts. A tract of about 600 acres, called Taghkanick, included in this town, was purchased by Robert Livingston in 1685. The first church (M. E.) was organized in 1843. There are now 2 churches in town; Evang. Luth., and M. E.

¹ 2 propellers, owned by parties here, ply on the Hudson and run from this place.
² Among the early settlers were families by the names of Van Alstyne, Van Allee, Van Ness, Van Slyke, Van Dyke, Van Valkenburgh, Vosburgh, and Schermerhorn.
³ Evang. Luth., Ref. Prot. D., and M. E.
⁴ Pronounced Toh-ko/nick, and supposed to signify “Water Enough.” Upon this side of Mt. Tom, in Copake, was formerly a spring which was a favorite resort of the Indians; and hence the name “Tshghanick” for the locality.

GREENE COUNTY.

This county was formed from Albany and Ulster, March 25, 1800, and named in honor of Gen. Nathaniel Greene, of the Revolution. Parts were annexed to Ulster co. May 26, 1812. It lies upon the w. bank of Hudson River, centrally distant — mi. from Albany, and contains — sq. mi. Its surface is very broken and mountainous. The main range of the Catskill Mts. commences 8 to 10 mi. w. of the Hudson and extends along the s. border of the co. to Delaware co. These mountains are 3000 to 3800 feet above tide.¹ Their summits are broad, wild, and rocky, and their declivities steep and often precipitous. A branch from the main ridge extends in a n. w. direction through the co., separating the towns of Durham and Cairo from Windham and Hunter and dividing the co. into two nearly equal parts. This ridge is 2500 to 3000 feet above tide. It has a steep and wall like front on the e., and on the w. it sends off numerous spurs, which extend to the valley of Schoharie Creek. The whole intermediate territory consists of high, rocky ridges separated by narrow valleys. The declivities are generally steep on the n., but more gradual on the s.² Another branch from the main range extends northward through the extreme w. part of the co., between the towns of Halcott and Lexington, and forms the series of highlands that rise upon the w. bank of Schoharie Creek. This range forms the watershed between Schoharie Creek and Delaware River. The e. half of the co. is hilly and broken. An irregular line of bluffs extends along the Hudson, with an average elevation of about 100 ft. Parallel to these bluffs, and 2 to 4 mi. further w., is a range of hills 500 to 700 ft. above the river. These highlands are known as the Potick Hills in the town of Athens. Between this ridge and the e. foot of the Catskills the surface is moderately hilly, gradually sloping toward Catskill Creek.

The principal streams of the co. are Hudson River, forming its e. border, Schoharie Creek and its tributaries, draining the w. slope of the mountains, and Catskill Creek³ and its principal tributary the Kaaterskil, draining the e. slope. Small branches of these streams flow through narrow, rocky ravines, which break entirely through the mountains and form passes locally known as "cloves." The principal of these cloves are the Kaaters Kil, opening westward from the Hudson into the valley of Schoharie Creek, and the Bushkil Clove, Stoney Clove, Mink Hollow, and Plattekil Hollow, opening southward from Schoharie Creek into the valleys of Ulster co. In many places these ravines are bordered by naked cliffs, nearly perpendicular, and 1000 to 1700 ft. above the streams. The small streams that drain the w. slope of the range in Halcott form branches of the Delaware. Schoharie Creek rises near the Mountain House, within 12 mi. of the Hudson, flows w. and n., and forms a branch of the Mohawk. The streams are mostly rapid, and are subject to sudden and violent freshets. The e. slope of the mountain and the outcropping strata of the Catskill and Kaaterskil Creeks present to the geologist one of the most interesting and comprehensive fields of investigation to be found on the continent. Within the distance of 12 mi. from the village of Catskill to the Mountain House may be seen nearly all the strata composing the New York system. The gray grits and conglomerates forming the floor of the coal measures are found 110 ft. deep at the summit of the Pine Orchard. The depth of the whole series, within the 12 mi. referred to, is scarcely less than 4000 feet. Few or no metallic veins or valuable minerals, except building and flagging stone, are found in the co.

The soil on the w. slopes of the Catskill is chiefly a reddish, gravelly or shaly loam extensively underlaid by hardpan. The surface is stony, except upon the river bottoms, where the soil is fertile and productive. North and e. of the mountains the soil is greatly diversified by sections of gravelly, shaly, clayey, and sandy loams; but a stiff clay predominates. Where properly cultivated, it is moderately productive. The whole region is best adapted to grazing; and the principal agricultural exports are butter, cheese, and pressed hay. Oats, barley, and potatoes are extensively cultivated, but, like most of the other eastern course, the grain grown is insufficient for the consump-

¹ High Peak has an elevation of 3804 feet above tide, Round Top 3718 feet, and Pine Orchard 3000 feet. The Catskill Mountain House is situated upon the last named mountain.

² The n. sides of these spurs are generally rocky and bare, and the s. sides covered with vast deposits of drift, indicating that a great current of water from the n. once swept over them. Nearly

all the valuable land in this section lies upon the n. side of the valley.

³ Named by the Dutch from wild cats found in this vicinity. Kaaters Kil has a similar signification, but is limited to the male animals.

tion of the population. The principal manufactured products are brick, leather, and paper. Brick are extensively made on the banks of the Hudson, in Catskill, Athens, and Coxsackie, for the New York market. The co. has a considerable interest in the commerce of the Hudson, but less, perhaps, than it had many years ago. No co. has been more seriously damaged in its commercial and manufacturing prospects by the public works of the State than Greene. Before the Erie Canal was completed, Catskill, the co. seat, commanded the trade of the adjacent cos. w., and of the s. tier through to Lake Erie, and some portions of Northern Penn. It was a large wheat market; and at the falls of Catskill Creek, 3 mi. w. of the village, were the most extensive flouring mills in the State.¹ The canals and railroads have limited the commercial transactions of the co. strictly to home trade. A change scarcely less marked and important has taken place in the industrial pursuits of the mountain towns. About 1817, soon after the discovery made of tanning leather in 90 days, tanners rushed into the Catskill Mts., purchased large tracts of mountain lands covered with hemlock timber, and erected extensive tanneries. The valleys of Schoharie Creek, Batavia, and West Kils soon teemed with a numerous, active laboring population, and the solitude of the deep mountain glens was made vocal by the hum of industry, the buzz of the waterwheel, and the rattling of machinery. Villages of considerable magnitude, with churches, schools, stores, and taverns, rose up in the wilderness as if by magic. Thirty years ago Greene co. made more leather than all the State beside. The supply of bark in this region was soon exhausted, and the proprietors gradually abandoned their establishments and followed the mountain chain s., erecting new factories in Ulster and Sullivan cos.; and their successors are now pursuing the hemlock into the heart of the Alleghanies. The result of all this was to facilitate the occupation of the lands in the mountain towns, and in many cases to carry cultivation to the summits of the most lofty ranges, thereby opening one of the finest dairy and wool growing regions in the State.

The county seat is located at Catskill, on the Hudson.² The first courthouse was a wood building, erected under act of May 26, 1812.³ Some years since; this building was burned, and a new brick edifice was soon after erected in its place. It contains the court and jury rooms, and district attorney and co. clerk's offices. A stone jail was erected in 1804, and a fireproof clerk's office in 1812. The co. poorhouse is located on a farm of 130 acres in Cairo, 10 mi. w. of Catskill. The farm yields a revenue of \$900. It has on an average 130 inmates, supported at a weekly expense of \$.75 each. A school is taught in the house most of the year. The condition and adaptation of the building, and the management of the inmates, are not thought creditable to the co. authorities.

Six weekly newspapers are published in the co.⁴

More than two centuries have elapsed since the settlements in the valley of the Hudson commenced at various points between New York and Albany. It was 150 years later when a few,

¹ Of this place Spafford's Gazetteer (ed. of 1813) says, "Catskill has considerable trade already, and must probably experience a rapid growth as the market town of an extensive back country. At some place in this vicinity, and on the w. bank of the river, furs ages will probably find the third, if not the second, city on the Hudson, in wealth, population, and commercial importance."

² Ira Day, Isaac Dubois, Orin Day, Joseph Klein, Ezra Hawley, and Lyman Hall, having executed to the supervisors a bond, under a penalty of \$16,000, to procure a lot and build a courthouse, an act was passed May 26, 1812, allowing the judges to accept the premises when completed. Courts were previously held at the academy, and the prisoners confined in Albany co. jail.

³ The first co. officers were Leonard Bronk, *First Judge*; Ebenezer Foot, *District Attorney*; James Bill, *Co. Clerk*; George Hale, *Sheriff*; John H. Cuyler, *Surrogate*.

⁴ *The Catskill Packet*, the first paper in the co., was published prior to 1800.

The Catskill Recorder was started in 1801 by Mackey Crosswell. In 1817 Edwin Crosswell assumed its control, and continued it until 1822. In 1827 it was published by Field & Faxton, and in 1828 it was issued as

The Catskill Recorder and Greene Co. Republican, by Faxton, Elliott & Gates. In 1849 it was united with *The Democrat*, and issued as

The Catskill Recorder and Democrat, under which name it is still published by Joseph Josebury.

The American Eagle was published at Catskill in 1810 by N. Elliott & Co.

The Catskill Emendator was commenced in 1813, and continued a short time.

The Greene and Delaware Washingtonian was commenced at Catskill in 1814, by Michael J. Kappel. In 1816 it was changed to

The Middle District Gazette, and published by Wm. L. Stone. *The Greene Co. Republican* was established at Catskill in Nov. 1826, by Hyer. In 1827 it was sold to Ralph Johnson; in 1828, to C. Hull; and in 1829 it was merged in

The Catskill Recorder.

The Catskill Messenger was started in 1830, by Ira Duhois. It was subsequently issued by Wm. Bryan, C. H. Cleveland, and Trowbridge & Gunn. In 1849 it was changed to

The Greene Co. Whig; and in 1857 to

The Catskill Examiner, by which name it is now published.

The Catskill Democrat was started in 1843 by Joseph Josebury, and in 1849 it was united with *The Recorder*.

The American Eagle was removed from Prattsville to Catskill in 1854 by E. & H. Baker. In 1855 its name was changed to

The Banner of Industry, and published by Jas. H. Van Gorden. In 1857 it was sold to Henry Baker, by whom it is now published as

The Catskill Democratic Herald.

The Greene Co. Advertiser was started at Coxsackie in 1832, and published for a time by Henry Van Dyck. In 1836 it was changed to

The Standard, and published by Thomas B. Carroll. It was subsequently issued a short time as

The Coxsackie Standard.

The Coxsackie Union was established in 1851 by Fred. W. Hoffman. In Jan. 1857 it passed into the hands of

D. M. & B. S. Slater, by whom it is still published.

The Prattsville Bee was started in 1852.

The Baptist Library was started at Prattsville in 1843 by L. L. & R. H. Hill. In 1845 it was removed to Lexington.

The Prattville Advocate was established by John L. Hackstaff in 1846, and is still published by W. B. Steele.

The Mountaineer was published at Prattsville in 1853 by Chas. II. Cleveland.

The American Eagle was established at Prattville in 1854, but it was soon after removed to Catskill.

The Windham Journal was started at Windham Center, March 21, 1857, by W. B. Steele.

small, isolated settlements were made in the valleys of the streams in the interior of Greene co. The great Hardenburgh Patent, granted by Queen Anne, covered nearly all of that portion of the co. lying w. of the mountains. The n. line of this grant commenced at the headwaters of the Kaaterskil, being the head of the upper lake at Pine Orchard, and ran a due w. course to the headwaters of the w. branch of the Delaware, in Stamford, Delaware co. This line was run at three different periods, near the close of the last century, by three different surveyors, no two of them agreeing by the width of whole farms. This disagreement has proved a prolific source of litigation in the courts of the State for 50 years. The patent included all that part of Delaware co. lying e. of the w. branch of Delaware River, and nearly all of Ulster and Sullivan cos. When the settlements commenced, the tract was owned by a great number of individuals, who had purchased by townships. At an early period, Stephen Day (from Conn.) purchased a large tract in Greene co., embracing a considerable portion of the old town of Windham, now forming the towns of Windham, Ashland, Jewett, and a portion of Lexington and Hunter. This tract was principally settled by immigrants from Connecticut.

ASHLAND—named from the home of Henry Clay—was formed from Windham and Pratts-ville, March 23, 1848. It lies in the n. w. part of the co. Its n. and s. borders are occupied by two parallel spurs of the Catskill Mts., 800 to 1000 ft. above the valley. Batavia Kil flows westward through the town at the foot of the s. range. This stream is bordered upon the n. by steep bluffs 150 to 200 ft. high; and from their summits the surface gradually slopes upward to the s. foot of the n. ridge near the n. border of the town. Lewis Creek and several smaller streams are tributaries of Batavia Kil. About two-thirds of the land in the town is improved. **Ashland**, (p. v.,) on Batavia Kil, in the s. part of the town, contains 2 churches and a collegiate institute.¹ Pop. 400. **East Ashland** is a hamlet. The first settlement was made in the valley of Batavia Kil, previous to the Revolutionary War, by a few Dutch families from Schoharie co. During the war, being harassed by the Indians and Tories, the settlers returned to Schoharie co. The first permanent settlement was made in 1788, by Elisha Strong and several brothers named Stimson.² There are 6 churches in town.³

ATHENS—was formed from Catskill and Coxsackie, Feb. 25, 1815. It is situated on the Hudson, near the center of the e. border of the co. Its surface is broken by several rocky hills and ridges lying parallel with the Hudson, with uneven or undulating intervals between. A range of high clay bluffs borders upon the river; and a high rocky ridge, known as Potick Hill, extends through the w. part of the town. Several small streams flow southerly through the town, and Potick Creek forms its w. line. In the w. part of the town are 3 small lakes. In their vicinity, 4 or 5 mi. w. of the Hudson, are extensive beds of the Helderbergh limestone, large quantities of which are quarried for building purposes and for the manufacture of lime. Near the river the soil is a tough clay, bordered by sand; elsewhere it is a sandy and gravelly loam of a good quality. Brick and lime are the principal articles manufactured, and these, with hay, form the exports of the town. **Athens**,⁴ (p. v.,) incorp. April 2, 1805, is situated on the Hudson, opposite the city of Hudson. Pop. 1747. The e. part of the town was settled at a very early period by immigrants from Holland.⁵ There are 5 churches in town.⁶

CAIRO—was formed from Catskill, Coxsackie, and "Freehold," (now Durham,) March 26, 1803, as "Canton," and its name was changed April 6, 1808. It is situated at the e. foot of the Catskill Mts., the crest of the mountain forming its w. boundary. Its central and e. parts are broken by several high, rocky ridges. Round Top, near the foot of the mountains, is a rocky, isolated hill 500 ft. high. The Catskill Creek flows s. e. through the town, and receives from the n. John Debackers Creek and Plattakil, and from the s. Shingle and Hagel Kils. The soil is a clayey, gravelly, and shaly loam, fertile in the valleys and of medium quality among the hills. **Cairo**, (p. v.,) situated near the center of the town, on the Old Susquehanna Turnpike, contains 4 churches and several manufacturing establishments. Pop. 353. **Acra**, (p. o.,) in the w. part of the town, and **Cairo Forge**, about 1 mi. s. of Cairo, are hamlets. Settlements were made on the Shingle Kil previous to the Revolution.⁷ A Presb. church was organized May 22, and a Bap. May 25, 1799. There are 7 churches in town.⁸

¹ The Ashland Collegiate Institute was founded in 1854, under the care of the M. E. denomination. The present number of boarding pupils (1858) is 100.

² Among the early settlers were Agabus White, John Tuttle, Jairus Strong, Solomon Ormabee, Dr. Thomas Benham, and Madad Hunt, most of whom were from Connecticut. The first birth was that of Deborah Stone, in 1789. Sandford Hunt kept the first store, and Madad Hunt the first inn, in 1795. Ex Gov. Washington Hunt, son of Sandford Hunt, was born in this town.

³ 3 M. E., Prot. E., Presb., and R. C.

⁴ Formerly called "Loonenburgh" and "Esperanza." The steamer Swallow, on her way to New York with a large number of passengers, was wrecked in the river opposite this place on the evening of April 7, 1845, and about 20 persons were lost.—Senate Doc., No. 102, 1845.

⁵ A tannery was erected in 1750 by Nicholas Perry.

⁶ Bap., Friends, Luth., Prot. E., and Ref. Prot. D.

⁷ A family by the name of Strobe, living on the Shingle Kil, were murdered by the Indians during the war.

⁸ 3 M. E., Bap., Presb., Prot. E., and Union.

CATSKILL¹—was formed March 7, 1788, as part of Albany co. It was annexed to Ulster co. April 5, 1798. A part of Woodstock (Ulster co.) was annexed March 25, 1800; a part of Cairo was taken off in 1803 and a part of Athens in 1815. It lies upon the Hudson, in the s. e. corner of the co. The surface is broken by several rocky ridges parallel to the Hudson: these ridges are principally composed of shales and gray grit. In the latter formation are extensive quarries, from which a fine quality of flagging stone is obtained and largely exported. A swamp, covering an area of several hundred acres, extends along the Hudson below Catskill Village. The Catskill Creek flows s. e. through the n. e. corner to the Hudson, and receives the Kaaters Kil after the latter has pursued an irregular course through the center and s. w. part of the town. The other streams are Kiskatom Creek, Jan Vosent and Corlears Kils. The soil is chiefly tenacious clay, with sections of gravelly and shaly loam. Hay is the principal agricultural export. Large quantities of brick are manufactured and exported. Catskill Village being the chief entrepôt for the co., commerce forms one of the leading pursuits of the people. **Catskill**, (p. v.), the co. seat, was incorp. March 14, 1806. It is situated on the Hudson, at the mouth of Catskill Creek. It contains 5 churches, 3 newspaper offices, 2 banks, and a large number of mercantile and manufacturing establishments. Pop. 2520. **Leeds**, (p. v.), situated at the falls on Catskill Creek, contains 2 churches and several manufactories. Pop. 450. **Palenville**, (p. v.), on the Kaaters Kil, in the w. part of the town, contains 2 tanneries, a woolen factory, and 18 dwellings. Settlements were made upon the banks of the Hudson, within the limits of the town, at a very early period, by immigrants from Germany. The flats in the valley of Catskill Creek w. of Leeds were first settled by Martin G. Van Bergen and Sylvester Salisbury, who in 1677 purchased the Indian title to an extensive tract. There are 9 churches in town.²

COXSACKIE³—was formed, as a district, March 24, 1772, and as a town, March 7, 1788. Durham was taken off in 1790, a part of Cairo and Greenville in 1803, New Baltimore in 1811, and a part of Athens in 1815. It lies upon the Hudson, n. e. of the center of the co. A range of clay bluffs about 100 ft. high extends along the course of the river, and a range of hills 500 ft. high through the center of the town. The surface is level or undulating in the e. and is hilly and broken in the w. The principal streams are the Cocksackie, Potick, and Jan Vosent Creeks. The soil in the e. is clayey and sandy, and in the w. it is a gravelly, shaly, and clayey loam. Brickmaking is extensively pursued. **Coxsackie**, (p. v.), situated near the Hudson, contains 6 churches, an academy, a newspaper office, a bank, and several manufactories.⁴ Pop. 1800. **Jacksonville**, in the w. part of the town, is a hamlet. The first settlement was made by the Dutch, about 1652, on a tract about 6 mi. sq. purchased of the Indians. There are 8 churches in town.⁵

DURHAM—was formed from Cocksackie as "*Freehold*," March 8, 1790, and its name was changed March 28, 1805. Parts of Cairo and Greenville were taken off in 1803. It lies near the center of the n. border of the co. Its surface is hilly and broken, the n. e. corner being occupied by the s. slopes of the Helderbergh Mts., and the w. border by the Catskills. The principal streams are Catskill Creek, flowing s. e. through the e. part, and its tributaries Fall, Bowery, Posts, and Brink Street Creeks. The soil is generally a heavy clay, with occasional sections of gravel. There are several mills and tanneries on Catskill Creek, which stream affords a fair amount of water power. **Oak Hill**, (p. v.), on Catskill Creek, has a pop. of 320. **Durham**, (p. v.), 1 mi. w. of Oak Hill, contains 2 churches and 30 houses, **East Durham** (p. v.) 17 houses, **Cornwallville**, (p. v.), in the central part of the town, 15 houses, and **South Durham** (p. o.) 10 houses. The settlement of the town was commenced in 1776. Capt. Asahel Jones and Rozel Post, from Conn., settled in 1788.⁶ There are 7 churches in town.⁷

GREENVILLE—was formed from Cocksackie and "*Freehold*," (now Durham,) March 26, 1803, as "*Greenfield*." Its name was changed to "*Freehold*" in 1808, and to Greenville, March 17, 1809. It lies on the n. border of the co., e. of the center. Its surface is hilly,—the southern extremity of the Helderbergh Mts. occupying the central and w. parts of the town. The principal streams are Potick, John Debackers, and Basic Creeks. The soil is chiefly a heavy, clay loam, well adapted to grazing; but much of it has been exhausted by too frequent croppings with hay. About 1 mi. w. of Greenville Center is a sulphur spring. **Greenville**, (p. v.), n. of the center

¹ Great Imbocht District, including this town, was formed March 24, 1772.

² 3 M. E., 2 Ref. Prot. D., Bsp., Presb., Prot. E., and Union.

³ Pron. Cook-sack'ey. Derived from an Indian word signifying

ing "Owl-hoot."

⁴ Shipbuilding was formerly carried on at the lower landing,

near this place; and several of the early Hudson River steam-boats were built here.

⁵ 2 Ref. Prot. D., 2 M. E., Prot. E., R. C., Union, and Af. M. E.

⁶ Mr. De Witt built the first gristmill, in 1788, and Jared Smith the first sawmill, about the same time.

⁷ 2 Cong., 2 M. E., Bap., Presb., and Prot. E.

of the town, contains 3 churches, the **Greenville Academy**, and 35 houses; **Freehold**, (p. v.) in the s. w. part, 1 church and 24 houses; **Norton Hill**, (p. v.) in the n. w. part, 16 houses; **Greenville Center** 15; and **East Greenville** 1 church and 10 houses. **Gay Head** is a p. office. In 1768 the British Government granted 2 patents—one for 2000 and one for 5000 acres, located together in the w. part of the town—to Major Augustine Prevost, of the 6th British infantry, who served in this country during the Old French War.¹ Stephen Lantinau, Godfrey Brandow, and Hans Overpaugh, who settled in the town in 1774, were among the earliest settlers.² There are 7 churches in town.³

HALCOTT—was formed from Lexington, Nov. 19, 1851, and named from George W. Halcott, then sheriff of Greene co. It is situated in the s. w. corner of the co., and is separated from the other towns of the co. by a mountain ridge 1000 feet high. This ridge is crossed by difficult and unfrequented roads. A considerable portion of the territory is covered with forests. The surface is mountainous, comprising four valleys, in which rise the sources of the e. branch of the Delaware. The soil is chiefly a gravelly loam of medium quality, and stony, but is well adapted to grazing. From its isolated position among the mountains,⁴ the chief avenue of communication with the outside world is on the s., by way of Middletown, Delaware co. **Halcott** (p. o.) is situated in the central part of the town. The first settlement was made on the Bush Kil in 1790, by Reuben Cryslar, — Thurston, Joseph Brooks, and Timothy Tyler.⁵ There are 2 churches in town; O. S. Bap. and M. E.

HUNTER⁶—was formed from Windham as "Greenland," Jan. 27, 1813. Its name was changed April 15, 1814, a part of Sangertiss was taken off in 1814, and a part of Jewett in 1849. The surface is rocky and mountainous, not more than one-fourth being susceptible of cultivation. Several of the highest peaks of the Catskills—among which are High Peak, Round Top, and Pine Orchard—lie within the limits of this town.⁷ Two narrow valleys extend quite through the mountains and cross each other at nearly right angles near the center of the town. The first of these is the valley of Schoharie Creek and its southerly continuation, that of the Plattes Kil; and the second, that of the Kaaters Kil and Stony Clove. The soil is generally a heavy, clayey and shaly loam, very stony, and poorly adapted to agriculture. **Hunter**, (p. v.) situated on Schoharie Creek, in the n. w. part of the town, contains 2 churches and several manufacturing establishments. Pop. 393. **Tannersville**, near the center, is a p. office. Settlements were made during the Revolution, by "cowboys" from Putnam co. Their property was confiscated by the Whigs.⁸ Col. Wm. W. Edwards and his son Wm. W., from Northampton, Mass., moved into town in July, 1817, and erected the first extensive tannery in the State in which the then new method of tanning was adopted. Within a few years after, other tanneries were built, and a very large amount of leather was made in the town annually for a long series of years, until the hemlock bark was exhausted. Most of the establishments are now abandoned. There are 3 churches in town; Presb., M. E., and R. C.

JEWETT—was formed from Lexington and Hunter, Nov. 14, 1849. It lies near the center of the w. half of the co. Its surface is principally occupied by high and rocky spurs extending w. from the principal n. branch of the Catskills. A high and almost precipitous ridge extends along the s. w. border of the town. Schoharie Creek and its tributary East Kil are the principal streams. The soil is a heavy, reddish, gravelly loam of medium quality, often stony and rocky, and largely underlaid by a tough hardpan. **Jewett**,⁹ (p. v.) in the n. w. part of the town, contains 2 churches and 14 houses. **Jewett Center**, at the junction of East Kil and Schoharie Creek,

¹ Major Prevost erected a fine mansion on one of these tracts, a little w. of the village of Greenville, in which he resided until his death.

² Abraham Post, Elcazar Knowles, Bethael Hinman, Peter Curtis, and Edward Lake, from Conn., settled in the town in 1763. David Hickcock and Davis Denning erected the first gristmill, in 1785.

³ O. S. Bap., 2 M. E., Prot. E., Presb., and Christian.

⁴ Wild game is still found in the mountains, and the pure, limpid streams abound in trout.

⁵ Ralph Coe and Henry Hosford built the first sawmill, in 1820. Ralph Coe kept the first inn, and Henry Hamican the first store. There is now no tavern, lawyer, nor doctor in town.

⁶ Named from John Hunter, an early proprietor of a part of the Hardenburgh Patent.

⁷ The Catskill Mountain House, upon Pine Orchard, is situated upon a precipice overlooking the Hudson, and is 2212 ft. above tide. It was built by the Catskill Mountain Ass'n, at a cost of \$22,000, for the accommodation of visitors. Among the hills, $\frac{1}{4}$ mi. w. of the house, are 2 small lakes, each $\frac{1}{4}$ mi. in circumference, — their outlet forming the Kaaters Kil. Upon this stream, a little

below the lakes, are the Kaaters Kil Falls, where the stream plunges down a perpendicular descent of 175 ft., and, in a few rods, another of 85 ft., falling into a deep, rocky ravine or clove, and finally finding its way into Catskill Creek. The views from the Mountain House, and the scenery among the mountains, are among the finest in the country, and the place is visited annually by thousands of tourists.

⁸ Samuel, Elisha, and John Haines, and Gershon Griffin, entered the mountains by way of Kingston and Mink Hollow, and settled on Schoharie Kil. Their location was discovered a year or two after by some Dutchmen from the e. side of the mountain, while hunting beavers. They were followed, in 1786, by a number of Shay's followers, from Mass., who, on the suppression of his rebellion, fled to the mountains. James and Jacob Carl settled in the town in 1785; Saml. Merritt, and Saml. and Wm. Hayes, in 1791. Roger Bronson was the first settler at the village of Hunter. The first birth was that of John Haines. Mr. Olmsted built the first gristmill, in 1794, and subsequently the first tannery, and kept the first store and inn.

⁹ Formerly called "Lexington Heights."

and **East Jewett**, are p. offices. The first settlement was made near Schoharie Creek in 1783-84, by Wm. Gass, a Scotchman.¹ There are 4 churches in town; 3 M. E. and Presb.

LEXINGTON—was formed from Windham as "*New Goshen*," Jan. 27, 1813, and its name was changed March 19, 1813. A part of Jewett was taken off in 1849, but reannexed in 1858, and a part of Halcott was taken off in 1851. It lies on the s. border of the co., w. of the center. More than one-half of the surface is occupied by the lofty peaks and ridges of the Catskills. Schoharie Creek, flowing through the n. e. corner of the town, is bordered by high and steep rocky ridges. West Kil, its principal tributary, drains a valley 9 mi. in length, everywhere bordered by lofty mountains except on the w. Bush Kil Clove is a natural pass in the mountains, extending from the Schoharie Valley s. into Ulster co. The soil is a slaty and gravelly loam. Only about two-fifths of the surface is susceptible of cultivation. **Lexington**, (p. v.,) on Schoharie Creek, n. of the center of the town, contains 2 churches and 27 dwellings, and **West Kill**, (p. v.,) on the stream of the same name, 1 church and 31 dwellings. The first settlement was made in 1788, on the flats of Schoharie Kil.² There are 3 churches in town; 2 Bap. and M. E.

NEW BALTIMORE—was formed from Coxsackie, March 15, 1811. Scutters, Little, and Willow Islands were annexed from Kinderhook April 23, 1823. It lies upon the Hudson, in the n. e. corner of the co. The general surface is hilly and broken. A line of high, rugged clay and slate bluffs rises from the river to a height of 100 to 200 feet, and a range of high, broad hills extends s. through the center of the town. The w. part is comparatively level. The principal streams are Haankrois Creek in the n. w. corner, Deep Clove Kil, Cabin Run, and the e. branch of Potick Creek. Nearly all these streams flow through narrow and rocky ravines. The soil is chiefly a heavy, clay loam, with limited patches of sand and gravel. **New Baltimore**, (p. v.,) on the Hudson, in the n. part of the town, contains 2 churches, and has a pop. of 709. **Medway** is a p. office. Settlement was commenced upon the Coxsackie flats at an early period. The Broncks, Houghtalings, and Conyns were among the first settlers. There are 9 churches in town.³

PRATTSVILLE—was formed from Windham, March 8, 1833, and named from Col. Zadock Pratt. A part of Ashland was taken off in 1848. It is the n. w. corner town of the co. Its surface is principally occupied by broad mountain uplands bordered by steep and rocky slopes. Schoharie Creek and Batavia Kil flow through wild and narrow mountain gorges. The soil is a heavy, reddish, gravelly and clayey loam, moderately fertile and profitable only for grazing. **Prattsville**, (p. v.,) on Schoharie Creek, near the center of the town, contains 3 churches and several manufactories.⁴ Pop. 617. **Red Falls**, (p. v.,) on Batavia Kil, contains a cotton factory, a paper mill, and several other manufacturing establishments. Pop. 231. Settlements were made on the flats at Prattsville by Dutch immigrants from Schoharie co., during the period between the close of the Old French War in 1763 and the breaking out of the Revolution in 1776.⁵ During the latter war the settlement was attacked by a body of Indians and Tories led by a British officer. The inhabitants rallied, and a battle took place upon the bank of Schoharie Kil, a little below the Windham Turnpike Bridge, n. of the village, in which the Indians and their allies were routed. Rev. Cornelius D. Schermerhorn was the first settled preacher. There are 3 churches in town; Ref. Prot. D., Prot. E., and M. E.

WINDHAM—was formed from Woodstock, (Ulster co.,) as part of Ulster co., March 23, 1798. "*Greenland*" (now Hunter) and Lexington were taken off in 1813, Prattsville in 1833, and a part of Ashland in 1848. A part of "*Freehold*" (now Durham) was annexed March 26, 1803. It lies upon the w. declivities of the Catskills, n. w. of the center of the co. Its surface is very broken and hilly. A high range of mountains extends along the s. border, at the n. foot of which flows Batavia Kil,⁶ in a deep, rocky valley. The central and n. parts are occupied by mountain spurs divided by narrow ravines. The soil is a heavy, gravelly and clayey loam, of which disintegrated shale forms a large

¹ Zephaniah Chase, from Marthas Vineyard, (Mass.,) settled in the town in 1787; and Chester Hull, from Wallingford, Conn., a soldier of the Revolution, in 1789. Among those who settled soon after were Theophilus and Samuel Peck, Ebenezer, David, and Stephen Johnson, Laban, Ichabod, Abraham, and Amherst Andrews, Benjamin, John, and Jared Rice, Henry Goslee, Justus Squires, Daniel Miles, Adah Beach, Isaac and Munson Ensl, Gideon, Reuben, and Joel Hosford, and Samuel and Daniel Morvin. The first birth was that of Henry Goslee, Jr. Wm. Gass kept the first inn, in 1790, Elisha Thompson the first store, in 1793, and Laban Andrews built the first gristmill the same year.

² Among the early settlers were Amos Bronson, Saml. Amos, Richard Peck, David and Benj. Bailey, and Benj. Crispell. John T. Brey built the first tannery, in 1791 or '92; Thaddeus Bron-

son the first gristmill, in 1792; and Richard Peck opened the first inn, in 1795.

³ 3 Friends, 2 M. E., Bap., Christian, Ref. Prot. D., and Prot. Meth.

⁴ At this place is the extensive tannery of the Hon. Zadock Pratt, at which 60,000 sides of sole leather have been tanned and 6000 cords of bark consumed annually for 25 years.

⁵ Among the first settlers were John Laraway and his sons John, Jonas, Derick, and Martins, Isaac Van Alstyne, — Yronman, John and Peter Van Loan, John Becker, and a family by the name of Schoonmaker. The first school was taught by Mr. Banks, in 1790. Martinus Laraway kept the first inn, soon after the Revolution, and, with his brother John, erected the first gristmill.

⁶ The Indian name of this stream was Chough-tig-hig-nick.

part. **Windham Center**, (p.v.), on Batavia Kil, in the w. part of the town, contains 3 churches, and has a pop. of 350. **Hensonville**, (p.v.), on the same stream, s. of the center of the town, contains 124 inhabitants, and **Big Hollow**, (p.v.) in the s. part, 2 churches and 12 houses. The first settlement was made in 1790, by Geo. Stimpson, Abijah Stone, and Increase Clafin.¹ Rev. Henry Stimpson was one of the earliest settled ministers. There are 5 churches in town.²

¹ Perez Steel and his son Perez, from Tolland, Conn., settled in town in 1795, and Joshua Jooes, Wm. Henderson, and Lemuel Hitchcock (from New Haven co., Conn.) in 1796. The first marriage was that of Daniel Perry and Manva Hitchcock; and the first death was that of Mrs. Lemuel Hitchcock, in 1804. Nathan Blanchard taught the first school, in 1809; Tobias Van Dusen built the first gristmill, in 1793; — Van Orden kept the first inn, in 1796; and Bennett Osborn built the first tannery, in 1822. ² 2 Presb., 2 M. E., and Prot. E.

MONTGOMERY COUNTY.

This county was formed from Albany, March 12, 1772, under the name of "*Tryon Co.*"¹ Its name was changed April 2, 1784. Ontario was taken off in 1789, Herkimer, Otsego, and Tioga in 1791, Hamilton in 1816,² and Fulton in 1838. It lies on both sides of the Mohawk, centrally distant — mi. from Albany, and contains — sq. mi. The general system of highlands which forms the connecting link between the northern spurs of the Allegheny Mts. on the s. and the Adirondacks on the n. extends through this co. in a n. e. and s. w. direction. Mohawk River cuts through the upland, and forms a valley 1 to 2 mi. wide, and 200 to 500 ft. below the summits of the hills. The valleys of several of the tributaries of the Mohawk extend several miles into the highland district at nearly

right angles to the river valley. The hills bordering upon the river generally rise in gradual slopes, and from their summits the country spreads out into an undulating upland, with a general inclination toward the river, into which every part of the surface of the co. is drained. The principal tributaries of the Mohawk are the East Canada, Garoga, Cayadutta, Chuctenunda Creeks, and Evas Kil, on the n., and Cowilliga, Chuctenunda, Schoharie, Auries, Flat, Canajoharie, and Otsquaga Creeks, on the s. The highest point in the co. is Bean Hill, in Florida, and is estimated to be 700 ft. above tide, and the lowest point is the bed of the Mohawk, on the e. line of the co., 260 ft. above tide.

Gneiss, the only primary rock in the co., is found in patches, the principal locality being at "*The Noses*," on the Mohawk.³ Resting directly upon this are heavy masses of calciferous sandstone, appearing mostly on the n. bank of the river and extending into Fulton co.⁴ Next above this are the Black River and Trenton limestone, not important as surface rocks, but furnishing valuable quarries of building stone. The slates and shales of the Hudson River group extend along the s. border of the co. and are found in a few places n. of the river. Drift and boulders abound in various places. The soil along the river consists of alluvial deposits and a deep, rich, vegetable mold, and upon the uplands it is mostly a highly productive sandy and gravelly loam. The productions are principally grass and spring grains. The uplands are finely adapted to pasturage, and dairying forms the leading pursuit. Upon the Mohawk Flats immense quantities of broomcorn are raised. There are several important manufactories in the co., consisting chiefly of woolen goods, carpets, paper, agricultural implements, sash and blinds, and castings. Quarrying is extensively carried on.⁵

The principal public works are the Erie Canal, extending along the s. side of the Mohawk, and the N. Y. Central R. R.,⁶ on the n. bank. A wire suspension bridge crosses the Mohawk at Fort Hunter, and wooden bridges at Amsterdam, Fonda, Canajoharie, Fort Plain, and St. Johnsville. An iron bridge was built at Fort Plain, in 1858.

The county seat is located at Fonda, a pleasant village on the Mohawk, built on the site of the ancient Dutch settlement of "*Caughnawaga*."⁷ The courthouse is a fine brick edifice, containing the usual co. offices.⁸ The jail is a stone building, adjacent to the courthouse.⁹ The co. poorhouse is located upon a farm of 150 acres situated in Glen, about 3 mi. e. of Fonda. The building is old and poor, and has few arrangements for the health, comfort, or convenience of its inmates. The average number of inmates is 125. The farm yields a revenue of \$1000.

The first newspaper in the co. was established at Fort Plain, in 1827.¹⁰

¹ Named from Wm. Tryon, Colonial Governor. Present name given in honor of Gen. Richard Montgomery, of the Revolution. As first formed, this co. embraced all of the State w. of Delaware River and a line extending n. through Schoharie, and along the e. lines of the present cos. of Montgomery, Fulton, and Hamilton, and continuing in a straight line to Canada.

² Taken off with Herkimer in 1791, and restored to Montgomery March 31, 1797.

³ This rock here contains pink colored garnets.

⁴ This rock often contains in its cavities quartz and nodules of anthracite coal, which has led to foolish expenditures of large sums in mining for coal. Near Sprakers Basin traces of lead have been found.

⁵ Stone from these quarries were used in the construction of canal locks and other public works.

⁶ Formerly "*Schenectady & Utica R. R.*" The Catskill & Canajoharie R. R., incorp. in 1830, was opened to Cooksburgh

from Catskill at a cost of \$400,000. In 1842 it was abandoned, the track sold for \$11,000 and taken up.

⁷ "*Caughnawaga*" was one-half mi. e. of the courthouse, but is now included within the incorporation of the village of Fonda. The co. seat was removed from Johnstown in 1836. The conditions of the removal were that a subscription of \$4500 should be raised, and a site of not less than 3 acres donated to the co. This removal occasioned great dissatisfaction, and led to the division of the co. in 1838.

⁸ By an act passed March 19, 1778, the sheriff's mileage in Tryon co. was directed to be reckoned from "*The Noses*," which practice appears to have been continued for some time.

⁹ The jail is so constructed as not to answer the requirements of the law in the classification of prisoners. The courthouse and jail were erected at a cost of \$30,500.

¹⁰ *The Watch Tower* was begun at Fort Plain in 1827 by S. M.

The early history of this co. is full of incident and interest. At the time of the first advent of the whites it was the principal seat of the Mohawks, one of the most powerful tribes of the Five Nations. The policy adopted by the early Dutch settlers of the colony, and continued by their English successors, strongly attached a majority of these savages to their interests; and the unprovoked attack of Champlain, in 1609, made them hate the French in Canada with intense bitterness. In the wars that ensued, the Five Nations proved faithful allies to the English, and on many occasions shielded them from hostile attacks. In 1665-66 a French expedition, consisting of 600 men, under De Courcelles and De Tracy, was sent against the Indians, and proceeded as far as Schenectady; but, after much suffering and the loss of many men, the army returned to Canada without affecting any thing. Within the next few years several French expeditions were sent against the western tribes of the Five Nations, and in return the Indians made a descent upon Montreal in 1689, laid waste whole plantations, and destroyed many lives.¹ In retaliation, Count Frontenac sent several expeditions against the Indians and English, one of which destroyed Schenectady in 1690.² In the winter of 1692-93 the French again invaded the Mohawk country, surprised and destroyed two of their three castles,³ and took about 300 prisoners. In the engagement at the third castle they lost 30 of their number; and in their retreat they were pursued by Maj. Peter Schuyler at the head of 200 regulars and militia, who succeeded in killing 33 and wounding 26 of their number and in rescuing 50 prisoners. Favored by the severe cold, the remainder escaped and fled to Canada through the great northern wilderness. Their sufferings on this journey were intense. As early as 1642-43, a French Jesuit visited the Mohawk settlements; and between that date and 1678, 10 missionaries of this order labored to bring over the Indians of this region to the French interests and the Catholic religion. Though attended with great hardships, and in one or two instances with death, these labors were in some measure successful, and in 1671 a large number of Indians removed from Caughnawaga to Canada.⁴

A military post, known as Fort Hunter, was established near the mouth of Schoharie Creek in 1711. About the same time a large number of German Palatinates, sent over by Queen Anne, settled upon the Hudson, and shortly after removed to Schoharie and the Mohawk Valley and settled upon lands given them by Government. At about the same period a considerable number of Holland Dutch, from Schenectady and vicinity, found their way into the co. and extended their improvements up the valley. In 1730 the first mill n. of the Mohawk was built on the site of "Cranes" Village by two or three brothers named Groat; and this for a time served the settlements at German Flats, 50 mi. beyond.⁵

The land grants in this co. were made in comparatively small tracts. The first were issued as early as 1703. On the 19th of Oct. 1723, a patent of 12,000 acres, called "Stone Arabia," n. of the

S. Grant, who was succeeded by John Calloun & — Platt. In 1830 it was published as
The Fort Plain Sentinel.
The Fort Plain Gazette was begun in 1833 by H. L. Gros.
The Fort Plain Republican was begun in 1835 by E. W. Gill. It was succeeded by
The Tocsin in 1836, H. Link, publisher.
The Fort Plain Journal was commenced in 1838 by W. L. Fish. It changed owners several times, and was finally merged in
The Lutheran Herald, which continued a short time.
The Students Gleamer, by students of the Fort Plain High School, was issued from *The Journal* office.
The Montgomery Phoenix was begun at Fort Plain Feb. 3, 1841, by L. F. Backus, publisher, and D. F. Young, editor. In Feb. 1854 it was changed to
The Mohawk Valley Register, under which name it is now published by Webster & Wendell.
The Mohawk Farmer was published at Caughnawaga at an early period.
The Canajoharie Telegraph was published by Henry Hooghirk in 1825-26.
The Canajoharie Sentinel was published in 1827; Samuel Caldwell, editor.
The Canajoharie Republican was published in 1827-28; Henry Bloomer, editor, and afterward John McVean & D. F. Sacia.
The Montgomery Argus was published by J. McVean in 1831-32, and continued by S. M. S. Grant till 1836.
The Canajoharie Investigator was published from 1833 to '36 by Andrew H. Calhoun.
The Radii was begun in 1837 by Levi S. Backus, a deaf mute; in Nov. 1840, it was burned out, and removed to Fort Plain; in 1854 it was removed to Madison co., but has since returned to Fort Plain. For several years the State made appropriations for sending this paper to deaf mutes throughout the State.
The Mohawk Valley Gazette was published at Canajoharie by W. H. Riggs from 1847 to '49.

The Montgomery Union was published at Canajoharie by W. S. Hawley, 1850-53. Four numbers of another paper were published at the same place in 1854 by S. M. S. Grant.
The Mohawk Advertiser, published at Amsterdam by Darius Welle, was changed to
The Intelligencer and Mohawk Advertiser in 1834. In 1835 it was published by John J. Davis, L. H. Nicholds, editor. In 1836 it was published by S. B. Marsh, and, after several changes, it was changed in 1854 to
The Amsterdam Recorder, which is now issued by H. Harvard, editor and publisher.
The Mohawk Gazette was published at Amsterdam by Josiah A. Nooman in 1833-34.
The Fonda Herald was issued by J. Reynolds, Jr., in 1837.
The Fonda Sentinel was begun in 1845; it is now published by Clark & Thayer.
The American Star, commenced at Canajoharie April 5, 1855, by Wm. S. Hawley, was removed to Fonda May 17, 1855. In 1857 it was changed to
The Mohawk Valley American, and published by C. B. Freeman. In 1858 this title was changed to
The American Star, which is now published by Wm. S. Hawley, original proprietor.
The Montgomery Whig was begun at Fultonville in 1840 by B. F. Pinkham. It passed into the hands of Thos. Horton, and in 1855 its name was changed to
The Montgomery Republican, and is now published by P. R. Horton.

We are indebted to Prof. O. W. Morris, of New York, and to the files of *The Phoenix*, for the above list. Many changes of ownership are not stated.

¹ *Colden's Five Nations*; ² *Smith's Hist. N. Y.*

³ See p. —

⁴ The "Lower Castle" was situated at the mouth of Schoharie Creek, the "Middle Castle" at the mouth of the Otsego, and the "Upper Castle" at the mouth of the Now-a-da-ga or Indian Castle Creek, in Danube, Herkimer co.

⁵ An Indian village named Caughnawaga, 9 mi. above Montreal, is the result of this emigration. ⁶ *Simms's "Hist. Schoharie."*

Mohawk, was granted to John Christian Garlock and others for the benefit of the Palatinates. The principal grants were made between 1730 and 1740; and in 1762 there remained little, if any, unpatented land in the co.

About the year 1735, the British Admiral, Sir Peter Warren, acquired the title to a large tract of land known as "*Warrensbush*," mostly in the present town of Florida, and sent out his nephew, Wm. Johnson, then but 21 years of age, as his agent. Johnson first located at the mouth of Schcharie Creek: afterward he removed to 3 mi. above Amsterdam, and finally to Johnstown. Through the influence of his uncle he received the appointment of Agent of Indian Affairs, which gave him great facilities for intercourse and traffic with the natives. Applying himself industriously to the study of the character and language of the Indians, and adopting their habits and dress whenever it suited his convenience, he gained an ascendancy and influence over them never before enjoyed by any white person. His easy and obliging manners made him equally a favorite with the white settlers; and until his death, which took place on the 24th of June, 1774, the events of his life are intimately interwoven with the history of the co.¹ His title and estates descended to his son, Sir John Johnson; but his commanding personal influence could not be inherited. Guy Johnson, son-in-law of Sir William,² Col. Daniel Claus, and Col. John Butler, were attached to the interests of the Johnson family, possessed large estates, and lived in what were then considered sumptuous residences in the Mohawk Valley. They had considerable influence with both whites and Indians. In the controversy between the colonists and the mother country which resulted in the Revolution, the Johnsons and their adherents strongly espoused the cause of the King, from whom they had received so many favors.

As a class, the German Palatinates sided with the colonies, and a majority of the other settlers entertained similar sentiments; but for a long time they were overawed, and their efforts at organization were thwarted by the zeal and activity of the tory leaders. In the spring of 1775, while the court was in session at Johnstown, through the influence of the tories the signatures of most of the grand jurors and magistrates were procured to a document opposing the measures of the Continental Congress.³ This proceeding, coupled with others of a more aggressive and personal character, tended greatly to organize the opposition forces, to separate the friends and enemies of freedom, and to kindle feelings of bitter and vindictive hatred, which naturally led to all the horrors of civil war.

"*Tryon co*" was divided into 6 districts;⁴ and, for the purpose of a more thorough organization, delegates were appointed in each by the Patriots to form a committee of public safety. Upon a meeting of these delegates a significant remonstrance was addressed to Col. Guy Johnson, Indian Agent, for his aggressive and partisan acts; he withdrew in June, 1775, to Crosbys Manor, above German Flats, under pretense of holding a council with the Indians in the w. part of the co.; and in a short time he fled to Montreal, by the way of Oswego, accompanied by a large number of dependents and followers. He continued to act as Indian Agent during the war, and by liberal rewards and still more liberal promises he greatly stimulated the natural ferocity of the Indians, and incited them to more active hostility. He was joined in Canada by Joseph Brandt, a distinguished and educated Mohawk chief, and John and Walter N. Butler, 2 tories who afterward gained an infamous notoriety. At the head of marauding parties of tories and Indians, they afterward returned and committed the most inhuman atrocities upon their old friends and neighbors. Sir John Johnson remained at "Johnson Hall," but continued active in his intrigues, and kept up a correspondence with Col. Guy Johnson in Canada. His preparations to fortify "Johnson Hall" excited alarm; and in Jan. 1776, a committee, consisting of Gen. Philip Schuyler, Gen. Ten Broeck, and Col. Varick, was despatched from Albany to consult with the local committee of safety and satisfactorily arrange matters. Gen. Herkimer called out the militia; and the affair was finally settled by the surrender of Sir John as prisoner, and an agreement that his Scotch tenants should be disarmed. He was sent to Fishkill, but, being released on parole, he soon returned to Johnstown and resumed his intrigues. In May, Col. Dayton was sent with a regiment to again arrest him; but, being warned of their approach, Sir John and his followers fled to the woods, and finally reached Canada by the way of Sacondaga and Racket Rivers, after 19 days of fasting and suffering.⁵ Sir John received a commission as colonel in the British service, raised a regiment of tories known

¹ For his services while in command of the expedition which resulted in the defeat of the French under Dieskau, at the head of Lake George, he received the title of Baronet and a gift of £5000 from Parliament. From this time until his death he lived in ease and opulence, devoting his time to the management of public affairs and the improvement of his estate.

² Succeeded Sir William as Indian Agent.

³ *Annals of Tryon co.*, p. 46.

⁴ These districts were "*Mohawk*," adjoining Albany, "*Canajoharie*," on the s. side of the Mohawk, and "*Palatine*," on the n.

extending up the river to Little Falls, "*German Flats*," and "*Kingsland*," still farther up the river, and "*Old England District*," w. of the Susquehanna. The first 5 of these districts were formed March 24, 1772. On the 8th of March, 1773, the original name—"Stone Arabia"—was changed to "*Palatine*," "*German Flats*" to "*Kingsland*," and "*Kingsland*" to "*German Flats*." Old England Dist. was formed April 3, 1775.

⁵ The Indians at St. Regis still preserve a tradition of this event, and state that the party were reduced to the utmost extremity before they reached the inhabited region.

as "Johnson's Greens," and was active and bitter in his hostility throughout the war.¹ Through the influence of the Johnsons, all of the Five Nations, with the exception of a portion of the Oneidas and Tuscaroras,² were attached to the British interests, and were liberally aided by arms and provisions in their frequent incursions into the frontier settlements under the Butlers and Brandt.³

In the summer and fall of 1777, this co., in common with the whole northern and western frontier, was the scene of great alarm and of stirring military events, produced by the expedition of Burgoyne. Gen. St. Ledger, at the head of a large body of Tories and Indians, was dispatched by the way of Oswego to reduce the rebel posts and settlements on the Mohawk and join the main army at Albany. On the 3d of Aug. they laid siege to Fort Schuyler, upon the site of the present village of Rome. The militia of Montgomery co. were called out, and, under Gen. Herkimer, marched to the relief of the fort. On the way the bloody battle of Oriskany was fought, in which 200 of the brave patriots of the co. were killed and as many more carried into Indian captivity.⁴ In the latter part of the same month, Genls. Arnold and Learned, at the head of 900 troops, marched up the river, and St. Ledger hastily abandoned the siege and fled.⁵ The destruction of the valley was thus averted, and for several months the inhabitants were allowed to remain undisturbed, save by small scalping parties, that hung round the unprotected frontiers and cut off the defenseless inhabitants.

In the spring of 1778, Gen. La Fayette, accompanied by Gen. Schuyler and Col. Duane, went to Johnstown and held a conference with a body of Indians, which resulted in a treaty of considerable subsequent benefit to the settlers. In the following summer the horrible butcheries at Wyoming, Harpersfield, German Flats, and Cherry Valley were perpetrated; and in the summer of 1779 the army of Gen. Clinton marched from this co. to join Gen. Sullivan's expedition against the chief villages and farming grounds of the Onondagas, Cayugas, and Senecas. On the 21st of May, 1780, Sir John Johnson, at the head of 500 Indians and Tories, suddenly made his appearance at Johnson Hall. He arrived about sunset on Sunday, and, dividing his force into two parties, at daylight the next morning he made a simultaneous attack upon Tribes Hill and Caughnawaga. Several persons were killed and others taken prisoners, and every building upon the route, except those belonging to Tories, was burned. The militia began to collect in considerable numbers, and toward night Sir John hastily retreated, and safely reached Canada by the way of the wilderness w. of the Adirondack Mts.⁶ Near the last of the July succeeding, the militia of the co. were employed to convey a provision train sent to the relief of Fort Schuyler; and on the 2d of Aug., while they were absent, Brandt, at the head of 500 Indians and Tories, made an attack upon the settlements in the neighborhood of Fort Plain. Fifty-three dwellings were burned, 16 persons slain, and 60 women and children carried into captivity. Upon the approach of the militia from Johnstown and Schenectady, the party retreated. On the 15th of the following Oct. a large party of Tories, Indians, and Canadians, under Sir John Johnson, Brandt, and Cornplanter, made their appearance in the Mohawk Valley, at the mouth of Schoharie Creek, after having laid waste the Schoharie settlements above. From this point they marched up the valley, burning the houses, destroying the property, and murdering or taking prisoners all that they met. The militia under Gen. Robert Van Rensselaer, hastily came together and marched to attack the invaders. On the 18th of Oct., Col. Brown, who commanded a small stockade fort at Stone Arabia, acting under the order of Van Rensselaer, marched out with 150 men to attack the enemy; but, receiving no support from the main army, the little detachment was soon routed, with the loss of the commander and 30 to 40 men killed. Sir John halted at Fox's Mills, about 8 mi. above Fort Hunter, in the town of St. Johnsville, and erected a temporary breastwork. At a late hour in the day he was attacked by a detachment under Col. Dubois, and the Indians under his command were defeated.⁷ The Americans, under Van Rensselaer, fell back 3 mi. and encamped; and the next morning, upon marching forward to renew the attack, they found that the enemy had fled.⁸ Sir John finally succeeded in making his escape,

¹ *Annals of Tryon Co.*; *Stimms's Hist. Schoharie Co.*; *Hough's Hist. St. Law. Co.*; *Dunlap's Hist. of N. Y.*; *Benton's Hist. Herk. Co.*

² About 150 Oneidas and 200 Tuscaroras joined the British.—*Annals of Tryon Co.*

³ The Americans made several efforts to attach the Six Nations to their interests, or at least to induce them to remain neutral. In the winter of 1776-77, Col. Harper was sent to ascertain the object of the assembling of a large body of Indians at Oquago, on the Susquehanna. In the succeeding June, Brandt, with a party of Indians, made a levy upon the settlers of the Unadilla; and many fled to a place of safety. Gen. Herkimer, at the head of 380 militia, marched to meet him; and on the 27th of June, 1777, a conference was held between the general and the chief, but without producing any definite results. All efforts to propitiate the Six Nations were then abandoned, and all conferences ceased

until the close of the war, when the Indians were called upon, as vanquished enemies, to confirm the surrender of most of their lands as an atonement for their hostility.

⁴ There was scarcely a hamlet in the valley that did not lose one or more of its inhabitants.

⁵ For further particulars concerning these transactions, see page —.

⁶ The principal object of this incursion was to obtain the silver plate which had been buried by Sir John on his first hasty flight from Johnson Hall. The plate was recovered and carried to Canada in the knapsack of 60 men.

⁷ This engagement is known as the battle of "Klocks Field."
⁸ Du Bois had nearly gained the victory, when Van Rensselaer came up and gave orders not to renew the battle until the signal should be given from headquarters. The forces of the former were under arms all night, momentarily expecting the promised

though his force was greatly reduced by hunger, fatigue, and the continual, harassing attacks of the militia, which hung upon their rear.

The prospects of the Mohawk Valley were now gloomy in the extreme. Nearly every settlement had been desolated, and nearly every family had lost some of its members.¹ In the spring of 1781, Col. Willett assumed the command of the American forces on the Mohawk, and, by his military skill, daring, and knowledge of Indian warfare, he not only successfully repelled all attacks made upon the Mohawk settlements, but carried the war into the enemy's own country.

On the 9th of July, 1781, 300 Indians, under a tory named Doxtader, made a sudden attack upon the settlement of Currytown, (in the town of Root.) After burning the buildings and collecting a large amount of booty, they retreated. Col. Willett, at the head of 150 militia, immediately pursued and overtook them at "*Durlach*," (Dorlach,) a few mi. over the border in Otsego co. A severe skirmish ensued, when the Indians fled, leaving 40 of their number dead on the field.² The final incursion into the Mohawk Valley was made Oct. 24, 1781, by a party of 600 British and Indians, under Maj. Ross and Walter N. Butler, and made their first appearance in the neighborhood of Warrensbush. They marched to the vicinity of Johnson Hall and commenced the usual work of plunder and murder, but were arrested by a sudden attack by forces under Cols. Willett, Rowley, and Harper. A severe engagement ensued, resulting in the retreat of the enemy. Col. Willett pursued, and, coming up with the rear guard at West Canada Creek, another skirmish took place, in which the infamous Walter N. Butler was killed.³ The shattered remnant of the British forces escaped by way of Oswego. This affair practically ended the war in Tryon co., and the remaining citizens, stripped of almost every thing except the soil, were allowed to resume in peace their accustomed employments.⁴ In a few years the ravages of the war were completely obliterated, and the fertile regions of Central and Western N. Y., which had become known through the military expeditions that had traversed them, soon began to fill up with a New England population. The splendid domains of the Johnsons and other royalists were confiscated, and the feudal tenants of the colonial period were replaced by enterprising freeholders under the new government.⁵

AMSTERDAM⁶—was formed from "*Caughnawaga*,"⁷ March 12, 1793. Perth (Fulton co.) was taken off in 1838. It lies on the n. bank of the Mohawk, in the n. e. corner of the co. Its surface consists of the intervals along the river, and a rolling upland gradually rising for the space of 2 mi. and attaining an elevation of 300 to 500 feet. The principal streams are the Kayaderosseras, 3 mi. w. of Amsterdam Village, Chuctenunda,⁸ at the village, and Eras Kil,⁹ near the e. border. The soil in the valley is a deep, rich alluvium, and upon the hills it is a fertile, gravelly loam. Near Tribes Hill are extensive stone quarries. A considerable amount of manufactures is carried on in town, consisting of mill machinery, agricultural implements, carriages, car springs, and carpets, at Amsterdam Village, and of woolen goods at Hagemans Mills. **Amsterdam**,¹⁰ (p. v.) incorp. April 20, 1830, contains 4 churches, the Amsterdam Female Seminary, a bank, printing

sign; and they had the inexpressible mortification and chagrin to see the beaten foe slipping through the net in which they had been caught, without the possibility of preventing their escape. Had it not been for the indecision or cowardice of Gen. Van Rensselaer, the whole party might have been taken. At the time, he was openly charged of cowardice or treachery by the Oneida chief, and he entirely lost public confidence.

¹ Some idea of the extent of these ravages may be formed from a statement prepared by the supervisors of "*Tryon co.*," dated Dec. 20, 1780, and addressed to the legislature. They therein stated that 700 buildings had been burned within the co.; that 354 families had abandoned their habitations and removed; 613 persons had deserted to the enemy; 197 had been killed, 123 taken prisoners; and 1200 farms lay uncultivated by reason of the enemy. This statement did not include Cherry Valley, Newtown-Martin, Middlefield, Springfield, Harperfield, and Old England District, which had been totally deserted and abandoned. The population of the co. at the beginning of the war was about 10,000. While the sufferings of the colonists were thus great, the Indian loss was much greater. Their whole country had been ravaged, their homes and crops destroyed, and a large portion of their number had died in battle or by starvation. At the close of the war the miserable remnant of the once powerful nations humbly sued for peace, and were content to accept terms that deprived them of almost their entire country.

² By stratagem Col. Willett succeeded in drawing the Indians into an ambuscade. They fled so hastily that all their baggage and plunder was captured. On their retreat they murdered a number of prisoners to prevent their escape.

³ Walter N. Butler was one of the most inhuman wretches that ever disgraced humanity. Ferocious, bloodthirsty, and cruel, he seemed to revel in perfect delight at the spectacle of

human suffering. He surpassed the savages in barbarity; and many a victim was saved from his clutches by the interposition of the Indian chief Braudt.

⁴ Special acts were passed in 1780, '81, and '83, directing the commissioners of sequestration to relieve certain distressed families. Rev. Daniel Gros, of Canajoharie, acted as almoner of the commissioners; and his acts are preserved among the public papers of the State.

⁵ For several years after the war, ghosts were reported as frequently seen stalking about the old residences of the royalists. The appearances which gave rise to these reports were doubtless the torres themselves, returned in disguise to obtain valuables which had been secreted upon their previous hasty flight. The settlers, who had suffered so much, were slow in forgetting the injuries they had received; and for many years after, few either Indians or torres, who had been engaged in the war, could show themselves in the settlement with safety.

⁶ Named by Emanuel H. De Graff, a Hollander and early settler.

⁷ On the 9th of March, 1780, the portion of Mohawk district n. of the river was set off and named "*Caughnawaga*." The first town meeting was held at the house of John B. Wimples. "*Caughnawaga*" was formed as a town, March 7, 1788. It embraced all that part of Montgomery co. lying n. of the Mohawk and e. of a line extending from The Nees n. to Canada. This town was divided in 1793 into Amsterdam, Mayfield, Broadalbin, and Johnstown.

⁸ Signifyiog "Twin Sisters," and applied to the streams flowing into the Mohawk on opposite sides; in some documents spelled Chnet-to-n-ne-da.

⁹ Pronounced E-wa-va-kil; named from Mrs. Eva Van Alstyne, who was wounded and scalped by the Indians in 1755, while crossing this stream.

¹⁰ Formerly called "*Veedersburgh*."

office, and several manufactories. Pop. 2044. **Hagemans Mills** (p. v.) has 124 inhabitants, **Cranesville**¹ (p. v.) 92, and **Manys Corners** 8 houses. **Tribes Hill**,² (p. o.,) on the line of Mohawk, is a hamlet. A wire suspension bridge here crosses the Mohawk to Florida.³ The first settlement was commenced about 1710, by Dutch and Palatinates. About 1740, Sir Wm. Johnson built a large stone mansion upon the w. side of the Kayaderosseras, 3 mi. w. of Amsterdam Village.⁴ This building was fortified and named "Fort Johnson." Col. Daniel Claus and Guy Johnson, sons-in-law to Sir William, occupied fine mansions respectively 1 and 2 mi. below Fort Johnson,⁵ previous to the Revolution. The first settlers at Amsterdam Village were Albert Veeder, E. E. De Graff, Nicholas Wilcox, and Wm. Kline. The first church (Ref. Prot. D.) was formed in 1792.⁶ The first settled minister was Rev. Conrad Ten Eyck, in 1799. There had been preaching in town at a much earlier period.

CANAJOHARIE⁷—was formed as a district March 24, 1772, and as a town March 7, 1788. Minden was taken off in 1798 and a part of Root in 1823. It lies on the s. border of the co., w. of the center. The surface consists of the low river intervale, and undulating uplands 200 to 600 feet above the valley. The principal stream is the Canajoharie, or Bowmans Creek.⁸ The soil is a gravelly loam, derived from the disintegration of the underlying slate, in some places intermixed with clay. The cultivation of hops receives some attention. A small woolen factory is located on Bowmans Creek. **Canajoharie**, (p. v.,) incorp. April 30, 1829, contains 5 churches, the Canajoharie Academy, and a bank; pop. 1500. A bridge crosses the Mohawk at this place, connecting it with the village and r. r. station of Palatine Bridge. **Ames**,⁹ (p. v.,) in the s. part of the town, contains an academy and 204 inhabitants, and **Buel**,¹⁰ (p. v.,) in the s. w. part, 25 houses. **Sprout Brook**, (p. o.,) **Mapleton**, and **Marshallville**, are hamlets. The first settlement was made in town in early colonial times; but the precise date is not known.¹¹ During the Revolution the people warmly espoused the American cause, and were afterward among the greatest sufferers in the Mohawk Valley.¹² Gov. Clinton, while marching to join Sullivan in 1779, made this place his headquarters for some weeks.¹³ In Aug. 1780, Brandt made an incursion into the valley and destroyed nearly the whole settlement.¹⁴ During the war several other incursions were made; and the people were often driven to the utmost extremity. Several small forts were built in the town, which afforded some protection to the people.¹⁵ In 1795, Archibald and James Kane established themselves as merchants at this place, and commenced a business which soon grew to be one of the largest in the interior of the State.¹⁶ In 1823, the "Central Asylum for the Instruction of the Deaf and Dumb" was located near Buel, in this town; but in 1836 it was united with the one previously established in New York City.¹⁷ The first church (Free Will Bap.) was organized at Ames, in 1796-97, by Rev. George Elliott.¹⁸

CHARLESTON—was formed from Mohawk, March 12, 1793.¹⁹ Glen and a part of Root were taken off in 1823. It is the most southerly town in the co., and the only one not bordering upon the Mohawk. It lies upon the high plateau region immediately w. of Schoharie Creek; and the

¹ Named from David Crane, who settled here in 1804.

² So named because the Indian tribes were wont to assemble here.

³ A Remington suspension bridge built here some years since fell of its own weight before it was finished.

⁴ This edifice was richly ornamented with carvings of oak and mahogany; and at the time of its erection it was one of the finest mansions in the colony. It is still standing, and is the property of Algneyaon Young, Esq. Sir William lived here for many years, surrounded by numerous dependents, and was frequently visited by great numbers of Indians, by whom he was highly esteemed. He built a mill upon the Kayaderosseras, near his mansion.

⁵ The former of these was burned, and its site is now occupied by the hotel of Chas. Chase. The latter, known as "Guy Park," is still standing, between the r. r. and river, 1 mi. w. of Amsterdam. It is now owned by Jas. Stewart. A tract 1 mi. square was originally attached to each of these residences, and the whole was confiscated and sold with the estates of the tories.

⁶ This church became Presb. in 1803. There are now 8 churches in town; 2 Presb., 2 M. E., Bap., Ref. Prot. D., Prot. E., and Evang. Luth.

⁷ "*Canajoharie*" in the act of incorporation. Indian name, *Gana-jo-hi-e*, said to signify a "a kettle-shaped hole in the rock," or "the pot that washes itself," and refers to a deep hole worn in the rock at the falls on the creek 1 mi. from its mouth.

⁸ It is said that the Indian name of this stream is "*To-ke-ha-ra-wa*." The falls on this creek, about 1 mi. from its mouth, are interesting to scientific men for the different geological formations there exposed and the holes of various sizes worn in the rocks.

⁹ Named in honor of Fisher Ames.

¹⁰ Named in honor of Jesse Buel, of Albaay.

¹¹ An Indian school was taught at Canajoharie, in 1764, by Philip Jonathan.

¹² At the battle of Oriakany many of the prominent citizens of this place were killed. Among them were Col. Cox, Lieut. Col. Hunt, Maj. Van Slyck, Capt. Henry Devendorf, Robert Crouse, Jacob Bowman, Andrew Dillenback, Capt. Jacob Leebor, Charles Fox, and Lieut. Wm. Leebor.

¹³ While Gov. Clinton was at this place, Henry Hare and Wm. Newbury, two notorious tories, were arrested and executed as spies. They had formerly been citizens of the town. A deserter named Titus was also shot here.

¹⁴ See page —.

¹⁵ A fort was built here at an early period as one of the chain of fortifications to Oswego. It was 100 feet square, 15 ft. high, with bastions at the angles, and was armed with several small cannon. In 1781 the house of Philip Van Alstyne was palisaded, and named Fort Van Rensselaer. An Indian burial ground occupied the hillside just w. of the village, and several skeletons have been found in a sitting posture, facing the e.

¹⁶ In 1799 their purchases of potash and wheat amounted to \$120,000.

¹⁷ This asylum was established mainly through the instrumentality of Robt. Bowman, of this town, and its course of instruction was modeled after that at Hartford, Conn. Prof. O. W. Morris, now of the New York Asylum, was its last principal.

¹⁸ The census reports 11 churches; 3 M. E., 2 Ref. Prot. D., 2 Evang. Luth., Presb., F. W. Bap., True Dutch, and Union.

¹⁹ By an act bearing this date, the old town of Mohawk was abolished, and its territory was erected into Florida and Charleston. The present town of Mohawk is of much more recent origin.

greater part of the surface is an undulating upland. On the e. it descends in steep declivities to the valley of the creek, which is here a narrow ravine. Its streams are small. The soil is generally loam intermixed with clay, and is particularly adapted to spring grains and dairying. The town has a limited amount of manufactures, consisting principally of sash and blinds, woolen goods, and flour. **Burtonsville**,¹ (p. v.) on Schoharie Creek, in the s. e. corner of the town, contains 32 houses; **Charleston Four Corners**, (p. v.) in the s. w. corner, 30; and **Charleston**, (p. v.) near the n. border, 20. **Carytown** and **Oak Ridge** are hamlets. A portion of this town was included in the patent of 24,500 acres granted to Wm. Corry in 1637; and others were portions of the "Stone Heap Patent," granted to John Bowen and others in 1770, and Thomas Machin's Patent of 1787. The first settlements were probably made previous to the Revolution.² The census reports 5 churches in town.³

FLORIDA—was formed from Mohawk, March 12, 1793. It embraces that part of the county lying s. of the Mohawk, and e. of Schoharie Creek. The greater part of the surface is a rolling upland, 600 ft. above the valley. Bean Hill, in the s. w. part, is the highest land in the co. The declivities bordering upon the streams are usually steep. The two principal streams within its borders are Chuctanunda and Cawillaga⁴ Creeks. The soil and productions are similar to those of neighboring towns. Several sulphur springs are found in town, the most noted of which is near Scotch Bush. The Erie Canal crosses the Schoharie Creek between this town and Glen, on a costly aqueduct. Broomcorn is one of the principal agricultural products, and brooms are extensively manufactured. **Port Jackson** (p. v.) is a canal village on the Mohawk, opposite Amsterdam. Pop. 369. **Minaville**, (p. v.) on Chuctanunda Creek, near the center, contains 95 inhabitants. **Fort Hunter**,⁵ (p. o.) at the mouth of Schoharie Creek, and **Scotch Bush**, (p. o.) near the s. border, are hamlets. One of the 3 Mohawk castles was situated at the mouth of Schoharie Creek at the first advent of the whites. The first white settlement in this co. is supposed to have been made in this town. Fort Hunter⁶ was built here by the whites in 1711. Queen Anne's Chapel was soon after erected, and was furnished with a valuable set of communion plate by Queen Anne.⁷ The fort was garrisoned until after the French War, when it was abandoned. During the Revolution the chapel was enclosed with palisades, and converted into a strong fortress defended by cannon. In Oct. 1780, several houses were burned on the opposite side of the creek by the forces under Sir John Johnson, but the fort was not molested. Before the close of the war several newly arrived German emigrants settled in town, and they were followed soon after by Scotch and Irish families.⁸ The first preacher after the war was Rev. Thos. Romeyn, (Ref. Prot. D.) in 1784. The census reports 5 churches in town.⁹

GLEN¹⁰—was formed from Charleston, April 10, 1823. It lies in the s. w. angle formed by the junction of Schoharie Creek and the Mohawk. Its surface consists principally of uplands about 600 feet high, descending by abrupt declivities to the narrow intervalles along the streams. The principal streams are Auries¹¹ Creek, a tributary of the Mohawk, and Irish Creek, a branch of the Schoharie.¹² The soil is generally a clayey loam. One mi. e. of Voorheesville is a chalybeate spring.¹³ **Fultonville**¹⁴ (p. v.) is situated on the Mohawk and the Erie Canal. Pop. 850. **Voorheesville**, (Glen p. v.) near the center of the town, contains 40 houses, and **Auriosville**, (p. v.) a canal village near the mouth of Auries Creek, 170 inhabitants. The land bordering upon the river was granted in 10 patents to different persons in 1722 to 1726, and the greater part of the remainder to James De Lancey in 1737. Peter Quackenboss settled on Scott's Patent, near Auries Creek.

¹ Buckwheat flour for the New York market is extensively manufactured at this place.

² Robt. Winchell, Nathan Tracy, Aden Brownley, and Joseph Burnhap settled near Kimballe Coruers, Abia Beaman near Charlestown P. O., Henry Mapes, Abner Throop, and David and Nathan Kimball at Charlestown. Thomas Machin, Capt. John Stanton, John Eddy, and Ezekiel Tracy were also early settlers.

³ Bap. M. E., Ref. Prot. D., Christian, and Union.

⁴ Said to signify "Fallow."

⁵ The Indian name for this place was I-can-de-ro-ga, or Te-ou-da-lo-ga, "two streams coming together." The first Indian castle, which stood near this place, was called "Os-sev-ne-nons," or "On-eon-gon-re."—N. Y. Colonial Hist.

⁶ The contracts to build this fort, and one at Oswego, were taken Oct. 11, 1711, by Garret Synouca, Barent and Hendrick Yroman, John Wemp, and Arent Van Patten, of Schenectady. The walls of the first were 150 feet square and 12 feet high, and were formed of logs pinned together. It was afterward enlarged and strengthened.

⁷ This chapel was for a long time under the charge of the "Society for Propagating the Gospel in Foreign Parts," and a missionary and Indian school were supported here. The chapel was

dismantled in 1820 to make room for the canal. The parsonage, still standing, is probably the oldest building w. of Schenectady. It was sold a few years since for \$1500, and the proceeds were divided between the Prot. E. churches at Port Jackson and Johnstown.

⁸ Wm. Bent kept the first store at Port Jackson. The first bridge of any importance over Schoharie Creek was built in 1796, by Maj. Isaiah De Puy. The route s. of the Mohawk was the one principally traveled for a great number of years. An Indian school was taught at Fort Hunter in 1769.

⁹ 2 Ref. Prot. D., M. E., Aso. Presb., and R. C.

¹⁰ Named from Jacob S. Glen, a prominent citizen of the town.

¹¹ Auries Creek is the Dutch for "Aarons Creek." It was named from an Indian in the vicinity. The Indian name was Ogh-rack-le.

¹² Upon Schoharie Creek, about 2 mi. above its mouth, is a high bank formed by a landslide, and called by the Indians Co-dang-ri-ty, signifying "steep bank," or "perpendicular wall."—Simms's Hist. Schoharie.

¹³ In early days fruitless attempts were here made to obtain iron.

¹⁴ Named in honor of Robert Fulton. The village site was known as "Van Epps Swamp" during the Revolution.—Simms's Hist. Schoharie.

soon after it was secured, and was probably the first white inhabitant of the town. About 1740, 16 Irish families, under the patronage of Sir Wm. Johnson, settled on Corry's Patent, a few mi. s.w. of Fort Hunter. After making considerable improvements, they abandoned their location and returned to Ireland in consequence of threatened Indian disturbances.¹ The first church (Ref. Prot. D.) was formed at Glen; Rev. Henry V. Wyckoff was the first pastor.² This town was the scene of many interesting incidents connected with the war. It furnished its full proportion of victims at the battle of Oriskany, and sustained an equal share in the losses and sufferings from Indian incursions.³ The last council within the co. previous to the Revolution was held between the Indians and Americans Oct. 13, 1775, on the farm now owned by John S. Quackenboss, on the Mohawk Flats, 2 mi. E. of Fultonville.

MINDEN—was formed from Canajoharie, March 2, 1798. Danube (Herkimer co) was taken off in 1817. It lies upon the s. bank of the Mohawk, in the extreme w. part of the co. Its surface is principally an undulating upland, with steep declivities bordering upon the streams. The principal streams are the Otsquaga⁴ and its tributary the Otsquene. Prospect Hill, called by the Indians "*Ta-ra-jo-rhies*,"⁵ lies upon the Otsquaga opposite Fort Plain. The soil is a fine quality of gravelly and clayey loam, and is particularly adapted to grazing.⁶ **Fort Plain**, (p. v.) incorp. April 5, 1832, is situated upon the Mohawk, in the e. part of the town. It contains an academy,⁷ bank, printing office, and 4 churches. Pop. 1502. **Mindenville**, (p. v.) on the Mohawk, in the w. part of the town, contains 30 houses, and **Fordsbush**, (Minden p. o.,) on the w. border, 25. **Hallsville**,⁸ (p. o.), **Freysbush**,⁹ (p. o.), and **Hessville**, are hamlets. In this town are found the remains of one of those ancient fortifications which are so common in Central and Western New York and throughout the Western States, showing that the co. was inhabited long prior to the advent of the Indians.¹⁰ During the French War, Fort Plain was erected on the summit of the hill, half a mi. n. w. of the village.¹¹ During the Revolution, several other forts were built to protect the people from the sudden attacks of the Indians.¹² The first settlements in this town were among the first in the co. The early settlers were Germans, among whom were the Devendorf, Waggoner, and Gros families, Andrew Keller, and Henry H. Smith.¹³ John Abeel, an Indian trader, settled here in 1748.¹⁴ In common with the other valley towns, these settlements were ravaged by Brandt and Johnson in 1780. At the time of Brandt's incursion the men were mostly absent, and the women were shut up in the forts for safety. Upon the

¹ A son of the first settler married Annie, daughter of Capt. John Scott, the patentee, and settled on the site of the present cu. poorhouse. Their son John, born about 1725, was the first white child born on the s. side of the Mohawk, between Fort Hunter and German Flats. Cornelius Putnam settled at Candaughrity, Richard Hoff 1 mi. w. of Glen, Nicholas Gardiner and John Van Eps on the Mohawk, and Charles Van Eps at Fultonville. Near the house of the Van Eps a small blockhouse was erected toward the close of the Revolution. — Hazard taught the first school, at the house of J. S. Quackenboss; Wm. Quackenboss kept the first inn at Anrieville, in 1797; and Myndert Starin one still earlier at the present village of Fultonville. John Smith opened the first store in Glen, in 1797. Isaac Quackenboss kept a store on the Mohawk, e. of Fultonville. Peter and Simon Mabie built the first sawmill and carding machine, in 1797, and Peter Quackenboss a gristmill, on Anrievie Creek, soon after.

² The census reports 4 churches in town; 2 Ref. Prot. D., M. E., True Dutch.

³ In the fall of 1779 George Cuck, a noted tory, who had often led scalping parties of Indians to the homes of his old neighbors, was seen lurking about, and at one time was fired upon and narrowly escaped. It was supposed that he had returned to Canada; but toward spring it became known that he was concealed at the house of John Van Zuyler, a kinsman and brother, tory. A party surrounded the house, dragged Cuck from his hiding place and shot him, and arrested Van Zuyler and sent him prisoner to Albany. In the fall of 1780 the whole settlement was ravaged, and many of the people were murdered. One day Isaac Quackenboss, while out hunting, discovered three hostile Indians sitting upon a log. He fired, and killed two, and mortally wounded the third.

⁴ Mohawk, Otsquaga, signifying "under the bridge."

⁵ Said to signify "Hill of Health," or "Fort on a hill."

⁶ The dairy products of this town are greater than those of any other in the co. Hops are also largely cultivated.

⁷ The "Fort Plain Seminary and Female Collegiate Institute" is chiefly under the patronage of the M. E. denomination. The academic building is a fine structure, situated upon a commanding eminence overlooking the village and valley.

⁸ Named from Capt. Robert Hall.

⁹ Named from John Frey, a lawyer and leading patriot who resided here during the Revolution.

¹⁰ These mounds and ruins are the most easterly of any of the kind yet discovered. They are situated 4 mi. s. of Fort Plain, on

a tongue of land formed by the valleys of Otsquaga Creek and one of its tributaries. This tongue is 100 ft. above the streams, and the declivities are almost precipitous. Across the tongue, at its narrowest part, is a curved line of breastworks 240 ft. in length, inclosing an area of about 7 acres. A gigantic pine, 6 ft. in diameter, stands upon one end of the embankment, showing that the work must have been of great antiquity.—*Smithsonian Contributions, Vol. II, Art. 6.*

¹¹ This fort was built by a French engineer for the Government, and was the finest fortification in the valley. It was octagonal, 3 stories high, each story projecting beyond the one below. In the lower story was a cannon, which was fired in cases of alarm to notify the people of danger.

¹² Fort Plank was situated about 2 mi. n. w. of Fort Plain, on the farm now occupied by C. House. Fort Clyde was situated 2 mi. s. w. of Fort Plain, near the residence of Peter Devendorf, at Freysbush. Fort Willett was w. of Fort Plank.

¹³ Henry Hayse, a German, taught the first school; Isaac Countryman built the first gristmill, soon after the war, and Isaac Paris kept the first store, about the same time. A large stone dwelling was erected here for the sons of Gov. Clark in 1738, but was soon abandoned. It obtained the reputation of being haunted, and was given away, 50 years ago, on condition that it should be demolished.

¹⁴ In his previous intercourse with the Indians, Abeel had married the daughter of a Seneca chief, after the Indian fashion. A child of this marriage was the famous chief Cornplanter. Abeel subsequently married a white woman, and at the commencement of the war was living upon his farm. During the incursion of Oct. 1780, Abeel was taken prisoner by a party of Indians, and, while momentarily expecting death, Cornplanter addressed him as father and assured him of his safety. He was given his choice either to accompany the Indians under the protection of his son, or to return to his white family. He chose the latter; and after the war Cornplanter visited him, and was received by his Fort Plain relatives with the civilities due his rank and manly bearing. The chief died at his residence in Penn., March 7, 1838. Stone, in his life of Brandt, says that Cornplanter was more than 100 years old at the time of his death. Mr. Webster, of Fort Plain, a descendant of John Abeel, states that Abeel did not make his appearance in the Indian country until 1748, and that Cornplanter was born about 1750. This would make his age about 30 when he accompanied the expedition that took his father prisoner, and but 86 when he died.

approach of the enemy the women showed themselves dressed in men's clothes, and the Indians thereupon kept at a respectful distance. The first church (Ref. Prot. D.) was organized at Fort Plain, long before the war. The census reports 9 churches in town.¹

MOHAWK—was formed from Johnstown, April 4, 1837.² It lies upon the n. bank of Mohawk River and near the center of the n. border of the co. The surface is uneven, and gradually rises from the river to the n. line, where it attains an elevation of about 400 ft. above the valley. Its principal streams are Cayadutta and Da-de-nos-ca-ra-3 Creeks. The soil is generally a good quality of gravelly loam. **Fonda**,⁴ (p. v.), pleasantly situated upon the Mohawk, is the co. seat. Besides the co. buildings, it contains 2 churches, a bank, printing offices, and several manufactories. Pop. 687. **Tribes Hill**, (p. v.), on the border of Amsterdam, contains 327 inhabitants. The site of the present village of Fonda was called "*Caughnawaga*"⁵ by the Indians, and was one of the favorite resorts of the Mohawks. It was the scene of some of the earliest labors of the French Jesuits among the Five Nations, two of whom lost their lives here in 1646. The names of the first actual white settlers are not known. Nicholas Hausen⁶ settled at Tribes Hill before 1725, and others, by the names of Fonda, Vanderworker, Doxtader, and Fisher, at an early day.⁷ Among the other residents of the town before the Revolution were Col. John Butler and his son Walter N., who afterward attained an infamous notoriety for their inhuman atrocities and for the vindictive hate which they seemed to cherish against their old whig neighbors.⁸ The principal weight of the incursion of Sir John in May, 1780, fell upon the two settlements of Tribes Hill and Caughnawaga.⁹ In the autumn of the same year the second incursion of Sir John swept over the town, destroying the greater part of the property that escaped the first. A stone church (Ref. Prot. D.) erected in 1763 is still standing.¹⁰ Rev. Thos. Romeyn was the first pastor. In 1795 he was succeeded by Rev. Abraham Van Horne.¹¹ The census reports 3 churches in town; Ref. Prot. D., True D., M. E.

¹ 3 Evan. Luth., 3 M. E., Ref. Prot. D., 2 Univ.

² Care should be taken not to confound this town with one of the same name s. of the river, abolished in 1793. See Note 1 to Charleston.

³ Signifying "trees having excrescences."

⁴ Named from Dourw Fonda, who removed from Schenectady and settled here in 1751. At the time of the Revolution he was living on the flats, between the present turnpike and the river, a few rods e. of the road leading to the bridge, at which place he was murdered by the Indians under Sir John, May 22, 1780. At the time of his death he was 84 years old. In former years he was greatly befriended the Johnson family; but the ruthless savages led by Sir John spared neither friend nor foe. His three sons, John, Jellis, and Adam, were stanch whigs, residing in the neighborhood. Indian name, Ga-na-wa-da, "on the rapids."

⁵ Meaning "stone in the water," or "at the rapids."

⁶ Patents of 1000 acres each, on the Mohawk, were granted to Nicholas Hausen and his brother Hendrick July 12, 1713.

⁷ The first birth n. of the river, of which there is any record, was that of Henry Hausen. — Collins taught a school in 1774. Jellis (Giles) Fonda is said to have been the first merchant w. of Schenectady. He carried on an extensive trade with the native tribes, and with the whites at Forts Schuyler and Stanwix and the forts at Oswego, Niagara, and Schlosser. His sales consisted chiefly of blankets, trinkets, ammunition, and rum, and his purchases of peltries, ginseng, and potash. At one time before the Revolution his ledger showed an indebtedness of over \$10,000 in the Indian country. John Chalcy was an early settler at Tribes Hill. He was in the war, and found his own brother arrayed against him.

⁸ Alexander White, Colonial Sheriff of Tryon co., resided on the present site of the courthouse. He was a zealous tory, and was obliged to flee to Canada. He was succeeded by John Frey, appointed by the Provincial Congress.

⁹ The detachment against Tribes Hill was led by Henry and Wm. Bowen, who had lived in the vicinity. Passing the tory settlement of Albany Bush (Schenectady co.) without molestation, they proceeded to the home of Gerret Putnam, a stanch whig at Tribes Hill, and there by mistake murdered two tories, who had hired the place a short time before. From this place they went up the river, plundering the houses and murdering their old friends and neighbors. Every building was burned except the church and parsonage, and several slaves and white male prisoners were carried to Canada. The women were not particularly molested on this occasion. At the house of Col. Fred. Fisher they were warmly received by the Col.'s family, consisting of himself, his mother, and his two brothers John and Harmon. The Col.'s wife and children had been sent to Schenectady for safety; and his two sisters and an old negro, on the first alarm, fled to the woods and escaped. The Indians made a desperate attack upon the house, and a constant firing was kept up by the inmates until their ammunition was exhausted. They then all retreated to the chamber except John, who stood in the stairway and defended it with a hatchet until he had killed 7 Indians. He then retreated above, and slipping upon some peas which lay upon the floor, he fell, and was dispatched with a tomahawk. Harmon jumped out of the window

to put out the fire that had been applied to the roof, and while standing on the fence he was shot, and fell across the fence dead. The mother was knocked down with the breech of a gun and left for dead. The Col. was also knocked down by a tomahawk, dragged down stairs by his hair, and thrown upon the ground, when an Indian jumped upon his back, drew a knife across his throat, as was supposed, cutting it from ear to ear, then, cutting round the scalp, seized it by his teeth and tore it from his head, and finally gave him a blow in the shoulder with his hatchet and fled. The Col. had not lost his senses through all this mangling, and his throat, being protected by a leather belt worn inside of his cravat, was only slightly wounded. As soon as the Indians disappeared, he arose, went up stairs and brought down his mother, placed her in a chair and leaned her up against the fence; returned, and brought down the body of his brother John and laid it on the grass; then, becoming exhausted from loss of blood and the effect of the scalping, he lay down upon an old rug that lay out of doors,—as he supposed, to die. The old negro and girls soon returned, and found the house burned down and the dead and wounded as described. By signs the Col. made known to the negro that he wanted water, who immediately brought it from the creek near by and gave it to him to drink, and also bathed his head, which restored his speech. A tory named Clement passing by, the negro asked what he should do to the reply, given in German, was, "Let the d—d rebel die." According to the directions of the Col., the negro caught the colts, which had never been broken, harnessed them to the wagon, and took him to the house of Putnam, at Tribes Hill. From there he, together with his mother, sisters, and the bodies of his brothers, was conveyed across the river to Wemplex, and thence in a canoe to Schenectady, where they arrived about sun-down, and he had his wounds dressed for the first time. After five years' suffering, he nearly recovered from the effects of his wounds. He built a new house on the site of the old one, and lived 29 years after he was wounded,—for several years holding the office of First Judge of the co. His mother also recovered from her wounds, and lived with him. After the war the Indian who scalped him returned to the settlements, and stopped at a tavern kept by a tory at Tribes Hill. The wife of the landlord, who was a whig, sent word immediately to the house of Col. Fisher that the Indian was there and would soon call at his house. The family, knowing that the Col. had sworn revenge, and wishing to prevent any more bloodshed, kept the news from him. As they were all in the front room, about the time the Indian was expected they overset a pot of lye upon the hearth, and persuaded the Col. to go into the back room and lie down until they cleaned it up. While the Col. was gone, the Indian came to the door, where he was met by the old lady, who addressed him in the Indian tongue, told him her son's intentions, and pointed to a gun which was always kept loaded in readiness for him. The Indian listened, gave a grunt, and ran away with all speed.

¹⁰ In 1845 it was fitted up as an academy; but the school was soon after discontinued.

¹¹ He died in 1840, at an advanced age. During his ministry he married 1500 couples.—*Simms's Scholastic*.

PALATINE—was formed as a district, by the name of "*Stone Arabia*," March 24, 1772, and its name was changed March 8, 1773. It was formed as a town March 7, 1788, embracing all the territory between "Little Falls and The Noses," and extending from the Mohawk to Canada. Salisbury (Herkimer co.) was taken off in 1797, Stratford (Fulton co.) in 1805, Oppenheim (Fulton co.) in 1808, and Ephrata (Fulton co.) in 1827. It lies along the n. bank of the Mohawk, w. of the center of the co. Its surface is mostly an upland, 200 to 500 ft. above the valley, much broken by deep, narrow ravines, and descending irregularly toward the river. The principal streams are the Kau-a-da-rauk,¹ in the e. part of the town, and the Garaga, in the w. The soil is fertile, and well adapted to grazing.² **Stone Arabia**, (p. v.), near the center of the town, contains about 50 houses, and **Palatine Bridge**, (p. v.), on the Mohawk opposite Canajoharie, 40. **Palatine Church**, (Palatine p. o.), on the w. border, is a hamlet. The first settlement was made in town in 1713, by German Palatinates, who came over in 1710. The larger part of the Stone Arabia Patent was within the limits of this town.³ Wm. Fox settled near Palatine Church, and Peter Waggoner a little below, on the Mohawk, in 1715. The early records of the settlement are lost.⁴ A stockade called Fort Paris, the ruins of which are still visible, was built at Stone Arabia, and another, called Fort Keyser, 1 mi. n. The disastrous engagement resulting in the death of Col. Brown was fought within this town, between Stone Arabia and the river.⁵ The Ref. Prot. D. church at Stone Arabia is one of the oldest in the valley.⁶ The stone church (Luth.) at Palatine Church was built in 1770.⁷ The census reports 3 churches in town; 2 Ev. Luth., Ref. Prot. D.

ROOT⁸—was formed from Canajoharie and Charleston, Jan. 27, 1823. It lies upon the s. bank of the Mohawk, near the center of the co. The hills which border upon the river rise abruptly to a height of 630 feet,⁹ and from their summits the country spreads out into an undulating upland. The high hills just below Sprakers, on opposite banks of the river, are called "The Noses." The high ridge near the e. border is known as "Stone Ridge." The principal streams are Platte Kil, and Lashers and Flat Creeks. Mitchells Cave,¹⁰ in the vicinity of The Noses, consists of several apartments, with the roof hung with stalactites. The soil is a fine, gravelly loam. **Leather-ville** (Root p. o.) contains 15 houses, and **Currytown**,¹¹ **Sprakers Basin**, (p. o.), **Flat Creek**, (p. o.), and **Browns Hollow**, about a dozen each. **Yatesville** is a hamlet on the canal. The first settlers were Jacob Devendorf, at Currytown, Rudolph Keller, David and Fred. Luce, and Jacob Lainer.¹² The first church (Ref. Prot. D.) was formed at Currytown. Rev. Peter Van Buren became its pastor in 1806.¹³ The principal incursions into this town during the war were those made in the summer and fall of 1781. The weight of the first of these, led by the tory Doxtader, July 9, 1781, fell upon the settlements in and near Currytown.¹⁴ In Oct. of the same year Ross and Butler passed through the town, but committed no depredations, except capturing part of a funeral procession, and taking a few prisoners at Stone Ridge.

ST. JOHNSTOWN¹⁵—was formed from Oppenheim, (Fulton co.), April 18, 1838. It lies upon the n. bank of the Mohawk, in the w. part of the co. Its surface consists of a broad river intervale and a broken upland gradually rising n. of it. Its streams are East Canada, Crum, Fox, Zimmermans, Caldwell, and Mother Creeks. Upon East Canada Creek, 1½ mi. from its mouth, are a succession of falls and rapids descending 75 feet in a distance of 80 rods. The soil is a fine quality of gravelly loam. **St. Johnsville**, (p. v.), on the Mohawk, was incorp. in 1857. It contains a woolen and pitchfork factory, and is an important station on the Central R. R. Pop. 648. The first settlement at the village was made by Jacob Zimmerman, in 1776.¹⁶ During the Revolution

¹ Said to signify "broad."

² More cheese is made in this town than in any other in the co. The aggregate is more than 500,000 lbs.

³ This purchase extended along East Canada Creek, in the rear of Hausen's and Van Slyke's patents.

⁴ The German was the language taught in the first schools. ⁵ Robison taught an English school in 1782, and Alexander Ewing in 1783. Chris. Fox built a gristmill in 1750, which was burned in 1780. ⁶ See page —.

⁷ The records of this church commence in 1739, when it had but 10 members. The present edifice was erected in 1785, and the church was reorganized in 1790. A Luth. church built at Stone Arabia in 1770 was burned in 1780.

⁸ The subscriptions for this church were mostly furnished by the Nellis families, who became Tories; and in consequence the church was not burned. Several shots were fired into it by the party under Sir John Johnson, one of the shot holes being still visible.

⁹ Named in honor of Erastus Root, of Delaware co.

¹⁰ As surveyed by Capt. Thomas Machin.

¹¹ Named from the former owner of the farm on which the cave is situated.

¹² Named from Wm. Curry, the patentee.

¹³ The first schools were German. — Glaycher taught an English school at The Noses, in 1784. Albert Vanderwerker kept the first inn, at an early day.

¹⁴ The census reports 3 churches in town; Christian, M. E., Ref. Prot. D.

¹⁵ Upon the alarm being given, the settlers hastened to a picketed blockhouse near the dwelling of Henry Lewis, closely pursued by the enemy. Every house in the village except one was set on fire; but the flames were extinguished by the vanguard of Col. Willett's forces, under Capt. Robert Keen. Frederick, son of Jacob Devendorf, was scalped, but he recovered. Jacob, jr., another son, was taken prisoner, and was scalped on the retreat of the Indians. He also recovered, and lived to the age of 85 years. He died in 1854, one of the wealthiest farmers in the valley. Mary Miller, a little girl, was scalped and found alive, but died soon after. Several other prisoners were murdered. Most of the cattle driven away were abandoned, and found their way back to the settlement.

¹⁶ Named from St. John's Church, built in the village at an early day.

¹⁷ The first settlers of the town came in long prior to this,

the house of Christian Klock, three-fourths of a mi. w. of Palatine Church, was stockaded and named "Fort House."¹ The house of Jacob Zimmerman was also stockaded. These forts were both attacked, but never taken. Fort Hill, situated on an eminence E. of East Creek, was erected during the French War. It was repaired and used during the Revolution. The battle between the forces of Sir John and the advanced guard of Van Rensselaer's army, under Col. Dubois, was fought at "Klocks Field," near "Fort House," Oct. 19, 1780. The enemy forded the river, and retreated up the valley during the night following. The Indians, in small parties, continued to prowl about the settlement during the war, and shot and captured several of the inhabitants.² A church was built by Christian Klock in 1756: the Rev. Mr. Rosekrantz was the first preacher, and John Henry Disland the second. The census reports 2 churches; Ref. Prot. D. and Union.

but the precise date is unknown. They were Germans, and among them were families named Hellebralt, Waters, Getman, Van Riepen, Walrath, and Klock. A German school was taught by Henry Hayes at an early day. The first English school was taught by Lot Ryan, an Irishman, in 1792. Chris. Nellis kept an inn in 1783, and a store in 1801. Jacob Zimmerman built the first gristmill, during the Revolution, and Geo. Klock the second, in 1801.

He had previously been paying his addresses to a daughter of Philip Bellingier, and upon a plan being formed to take the family of the latter prisoners, he forewarned them in time to rally a party to their assistance. An ambuscade was formed, and the Indians would have been killed or captured, had it not been for the indiscretion of one of the party, who, upon their approach, yelled out, at the top of his voice, "Lord God Almighty, friends, here they are!" The Indians fled with the loss of only one.

¹ Named in compliment to Christian House, the builder.
² In the spring of 1780 Philip Heimer deserted to the enemy.

DELAWARE COUNTY.

This county was formed from Ulster and Otsego, March 10, 1797.¹ It lies upon the headwaters of Delaware River, from which it derives its name. It contains an area of — sq. mi., and is centrally distant — mi. from Albany. Its surface is a hilly and mountainous upland, divided into 3 general ridges by the valleys of the 2 principal branches of Delaware River. This upland region is a connecting link between the Blue Ridge upon the s. and the Catskill and Helderhergh Mts. on the n. In the s. part of the co. these ridges form a mountainous region, with lofty, rocky peaks and precipitous declivities broken by wild and narrow ravines. In the n. the highlands are less wild and precipitous, and the whole region assumes the character of a rugged, hilly upland.² The main or w.

branch of the Delaware³ River takes its rise in Utsyanthia Lake,⁴ a small sheet of water upon the n. e. line of the co. It flows 60 mi. in a s. w. direction to the w. border of the co., thence turns abruptly to the s. and forms the s. e. boundary of Tompkins and Hancock. In its course in the co. it descends about 1000 feet. Pepachton River,⁵ the e. branch of the Delaware, rises in Roxbury and flows 60 mi. s. w., uniting with the Delaware at Hancock. The Susquehanna forms a portion of the n. boundary of the co. Charlotte River and Ouleout Creek are tributaries of the Susquehanna. The other streams are creeks and brooks, principally tributaries to the 2 branches of the Delaware. The valleys of these streams are usually narrow, and bordered by steep hills which often rise into mountains. The rocks of the co. mostly belong to the old red sandstones of the Catskill division.

The mineral wealth of the co. is limited to stone useful for building and flagging, of which large quantities of a fine quality are found. Vague traditions of silver and lead mines have here, as in other counties, haunted the brains of dreaming adventurers. A brine spring is reported 4 mi. n. w. of Delhi Village, and 1384 feet above tide, another 3½ mi. from Colchester, and several chalybeate springs in various parts of the co.; but none of them are important.⁶ The soil is generally of a dark reddish color, composed of the disintegrated sandstone and shale. In the valleys are occasionally narrow strips of fertile alluvium. Dairying is at present the leading occupation of the people. The numerous fresh springs of water issuing from its hillsides,⁷ the fresh herbage, and bracing mountain air, seem peculiarly adapted to this business.⁸ Lumber was formerly rafted in large quantities to Philadelphia; but, although still extensively exported by r. r., the quantity is diminishing.⁹ Since the completion of the r. r., tanneries have sprung up in favored localities, and will continue until the supply of bark is exhausted. The other manufactures are chiefly limited to the local wants of the inhabitants. The immense amount of water power in the co. will greatly facilitate the establishment of manufactories whenever the exigencies of the co. may demand them.

¹ The w. branch of the Delaware was formerly the boundary line between Otsego and Ulster cos. The line between this co. and Broome was run according to the treaty of Fort Stanwix of Nov. 5, 1763, and was known for a long period as the "Line of Property."

² The following is a list of elevations above tide, principally derived from the State Road Survey in 1825, and various r. r. surveys of more recent date:—

Delaware River, e. border (estimated).....	830 feet.
Junction of the two branches of Delaware.....	922 "
Hancock Station.....	943 "
Delaware River at Hales Eddy.....	950 "
Dickinsons Station.....	958 "
Deposit (Stato Road Survey).....	1004 "
Sidney Village.....	1010 "
Mouth of Beaver Kil.....	1018 "
Franklin Village.....	1240 "
Arkville, near Margaretville.....	1345 "
Courthouse Square.....	1453 "
West Meredith (John Stittson).....	1728 "
Parch Pond.....	1765 "
Stamford Village (Newburgh & Syracuse R. R. Survey).....	1765 "

Fish Lake, near Delhi.....	1770 feet.
Elk Creek Summit (3 or 4 mi. from Delhi).....	1859 "
Warner Pass (3 mi. w. of Stamford Village).....	1887 "
Head of Delaware, Stamford.....	1888 "
Davenport Center.....	1898 "
Lowest summit between Ouleout Creek and Delhi.....	2143 "
Mt. Pisgah, Andes (estimated).....	3400 "

³ Otherwise called the "Mohawk Branch of the Delaware," and by the Indians "Coolequago" or "Caequago."

⁴ This lake is often mentioned in early documents. In colonial times it was at one of the angles of Albany co.

⁵ Sometimes written Popacton, Papotuk. In the Government returns the p. o. named from the river is written Popacton.

⁶ *Beck's Mineralogy N. Y.*, p. 160.

⁷ The first court held in the co. adopted as its seal the device of a "stream of water issuing from a high mountain."

⁸ In amount of butter this co. ranks second only to St. Lawrence.

⁹ In number of sawmills this co. is now surpassed by none but Steuben and Onondia.

The co. seat is located at Delhi.¹ The present courthouse was erected in 1820.² The co. clerk's office and jail³ are in separate buildings, adjacent to the courthouse. The poorhouse is an old, two story wood building, situated upon a farm of 175 acres about 2 mi. s. of Delhi Village. The average number of inmates is 65, supported at a cost of \$1.00 per week each. The farm yields an income of \$250. The N. Y. & Erie R. R. extends along the Delaware, and is the only r. r. in the co. Soon after the completion of this road, in 1849, several plank roads were built, extending from several of the stations into the interior of the co.⁴

The co. has 7 weekly newspapers.⁵

The great Hardenburgh Patent,⁶ embracing that part of the co. s. and e. of the w. branch of the Delaware, was granted April 10, 1708, to Johannes Hardenburgh, of Kingston, Ulster co., and associates, who had previously purchased the lands of the Indians. A tract of 250,000 acres, between the w. branch of the Delaware and a line a mi. e. from the Susquehanna, was bought from the Indians at "Johnson Hall," Montgomery co., June 14, 1768, by John Harper, Sen., and Gen. Wm., Joseph, and Alex. Harper and others. On the s. e. side it extended from Utsyanthia Lake down the Delaware to the mouth of a small stream called Camskutty. Within this tract 5 towns, with full privileges of townships, were created by patent in 1770; but in none of them was an organization ever effected under this authority.⁷

Most of the lands in this co. were settled upon leases;⁸ and this region shared largely in the excitement and mob violence which distinguished the anti-rent movement. Combinations to resist the execution of civil processes were formed in 1844, and open resistance began to be made in March, 1845, by armed bands in the disguise of Indians, and led by "chiefs" named after the Indian fashion. They were pledged to secrecy and mutual aid; and whenever the sheriff or his deputies appeared, to levy upon property for rent, they assembled in overpowering numbers and prevented the execution of the writs. An act was passed, Jan. 25, 1845, forbidding persons from

¹ The courthouse was located by the judges, justices, and supervisors; and the sum of \$1200 was granted April 4, 1798, for the erection of the co. buildings, on a lot given by Levi Baxter and George Fish. Under an act of March 28, 1806, the sheriff's mileage was reckoned from the courthouse; and under an act of June 18, 1812, a tavern was allowed to be kept in the courthouse. The courthouse and jail was burned April 17, 1820, and a prisoner confined for some trifling offence perished in the flames. An act passed April 11, 1820, authorized a loan of \$5000. for rebuilding, and the present edifice was erected in the summer of that year. About a dozen prisoners, on "the limits" at the time the jail was burned, were released upon bail; and it happened that while the co. was without a jail there was no occasion for its use; but within a few hours after a prison room was so far completed as to hold a prisoner, it was needed and occupied.

² Supervisors' meetings and courts were held at the house of Gideon Frisbie until the courthouse was completed. The first co. officers were Joshua H. Brett, *First Judge*; Patrick Lamb, Wm. Horton, and Gabriel North, *Judges*; Isaac Hardenburgh and Alex. Leal, *Asst. Justices*; Ebenezer Foote, *Clerk*; Elias Butler, *Sheriff*; and Anthony Marvin, *Surrogate*.

³ The jail is of wood, warmed by furnaces. It contains 4 rooms, and generally has 1 or 2 inmates.

⁴ During the first 10 years of this century several turnpikes were built through this co., and these tended greatly to promote settlement, by opening routes to market.

⁵ **The Delaware Gazette** was established at Delhi, Nov. 18, 1819, by John Jas. Lappan. In 1833 it was sold to A. M. Paine, by whom it is now published.

The Delaware Republican was started at Delhi, July 4, 1822, by Elijah J. Roberts, and was continued about 2 years.

The Delaware Journal was started at Delhi in 1834, by Geo. Marvins, and was continued 1 year. It was revived by Bouns & McDonald, but was again discontinued.

The Delaware Express was started at Delhi, in Jan. 1839, by Norwood Bowns, the present publisher.

Voice of the People, an anti-rent paper established at Delhi in 1845, and continued about 4 years.

The Deposit Courier was started in March, 1849, by C. E. Wright, and was continued till May, 1853. From the same office, in Sept. 1853, Sylvester D. Hulse issued

The Deposit Union Democrat, and still continues to publish it.

The Bloomville Mirror was begun May 28, 1851, by S. B. Champion. The first number contained but 101 words, and till July no price was fixed. The "office," located in the corner of a mill, consisted of 10 lbs. of type without a press; and the paper was "printed" by striking with a mallet on a block laid over the type. It has grown into respectable size, and has an unusually large patronage for a country newspaper. It is now printed on a power press.

The Hobart Free Press was started Jan. 1855, by E. B. Fenn.

The Weekly Visitor was commenced April 14, 1855, at Franklin, by Geo. W. Reynolds. It has been changed to

The Franklin Visitor, and is still published. **The Wallon Journal**, commenced in 1856 by E. P. Berray, was continued 2 years.

The Village Record was established at Hobart in 1856, by G. W. Albright.

The Wallon Blade was commenced in 1856 by E. P. Berray, but was soon after discontinued.

⁶ Most of the Hardenburgh Patent was surveyed by Ebenezer Wooster, in 1749; and in that year the proprietors released to each other certain lots, bounded by monuments on the Delaware and Papakunk Rivers. After the Revolution it was found that the monuments were lost, and an act, passed March 29, 1790, appointed Charles Tappen and Jas. Cockburn commissioners to make a survey of certain lines, to be properly marked by stone heaps every 2 mi. along the division lines. The tract was divided into great tracts, numbered from 1 to 42. Of these, 35 to 42 lay between the branches of the Delaware, and parts of 2 to 8 s. of the e. branch.

⁷ These towns were as follows:

Names of Townships.	Date of Patent.	Acres.	Patentees.
Bedlington,	May 24, 1770,	27,000	John Lake and associates.
Franklin,	Feb. 26, 1770,	30,000	Thomas Wharton and Reese Meredith.
Goldborough,	June 15, 1770,	6,000	Edward Tudor, Bernard Ratzel, and John Clark.
Strasburgh,	Dec. 4, 1770,	37,000	John Butler and associates.
Whitsborough,	March 10, 1770,	38,000	Henry White and associates.

The quitrents of these lands were fixed at 2 shillings sixpence per 100 acres, payable annually on the Feast of the Annunciation of B. V. M. There was generally in the patent 1 name to each 1000 acres of the grant, although the *bona fide* owners were usually few in numbers.

⁸ A select committee of the Assembly, in 1846, reported the following tracts under lease in this co.: **Kortright Patent**, 20,000 acres, mostly leased in fee, at sixpence sterling per acre. It was offered for sale at \$2 per acre. **Desrosses Tract**, (Hardenburgh Patent), 60,000 acres, mostly leased in fee between 1790 and 1807, at 1 shilling per acre after the first 7 years. Farms from 100 to 200 acres. **Morgan Lewis Estate**, 200,000 acres, about 15,000 under perpetual lease, at 20 bush. of wheat per 100 acres after 15 years: for the first 5 of the 15 years it was rent free, 5 years for one-half rent, and 5 for three-quarters. **G. and S. Verplanck's**, 3 tracts, originally 50,000 acres, of which less than 20,000 were under lease. **R. R. Livingston and Mrs. Montgomery**, 20,000 acres, under perpetual lease, on a rent of 20 bush. of wheat per 100 acres. **Gen. Armstrong's**, 5,000 acres, under lease for 3 lives, at 20 bush. of wheat per 100 acres. **Hunter's and Overing's** large tracts in this co., Sullivan, and Greene, in fee, with a rent of 12 $\frac{1}{2}$ to 15 or 18 cents per acre.

appearing disguised and armed, under a penalty of imprisonment in the co. jail for a term not exceeding 6 months. Persons thus armed and disguised might be prosecuted under the fictitious names they assumed, if their real names could not be discovered; and such persons assembling in public houses or other places to the number of three or more might, upon conviction, be imprisoned 1 year in the co. jail. If convicted upon an indictment for a conspiracy or riot or other misdemeanor, in which offense they were armed with deadly weapons, they were further liable to a fine not exceeding \$250, with or without a year's imprisonment. To men inflamed by passion and intent upon the resistance to law in one form, its violation in other points was a matter of slight account; and the statute against the wearing of disguise was openly disregarded in the sections where the anti-*rent* spirit prevailed. An arrest under the above act was made in Roxbury, in Feb., and "Big Thunder," (Daniel W. Squires,) the culprit, was lodged in jail. The excitement which this arrest occasioned was so intense that the sheriff deemed it prudent to place a strong guard over the jail; and the decision with which the affair was conducted occasioned a temporary calm. On the 7th of Aug. 1845, Osman N. Steele, deputy sheriff, an active, fearless, and faithful officer, was shot in the town of Andes while in the performance of his duty, and died in a few hours.¹ The Governor immediately issued a proclamation declaring the co. to be in a state of insurrection, and placing it under martial law. A battalion of 300 militia, one-half of whom were mounted, were called out and placed at the disposal of the local officers.² They continued in service several months. The mounted men were actively employed the first 2 or 3 months in small detachments, aiding the civil authorities in making arrests, and in patrolling day and night such districts as the exigency of the service required. The residue was employed in guarding the jail, and as foot patrols in the vicinity of Delhi on the occasion. On two occasions detachments of troops attended the sheriff to State prison with prisoners.³

ANDES⁴—was formed from Middletown, April 13, 1819. It lies on the s. e. border of the co., e. of the center. Its surface is a broken and hilly upland, intersected by the deep, narrow ravines of the e. branch of the Delaware and its branches. The hills are high, rocky, and irregular, and are bordered by steep declivities.⁵ The Delaware flows s. w. through near the center of the town. Trempers Kil, Bush Kil, and Shaw Brook are the other principal streams. The valleys of these streams are all narrow and tortuous and are bordered by steep, rocky hillsides. A considerable portion of the town is still covered with forests. The soil is a clayey and shaly loam underlaid by hardpan upon the hills, and a gravelly loam of good quality in the valleys. **Andes**, (p. v.), on Trempers Kil, in the n. part of the town, contains an academy,⁶ 3 churches, a flouring mill, and 2 tanneries. Pop. 350. **Cabin Hill**, (p. o.), in the n. w., is a hamlet. **Shavertown** and **Trempers Kil** are p. offices. Permanent settlement commenced in 1784. A few farms were taken up prior to the Revolution, but were abandoned. The w. part of the town began to be settled in 1794-96.⁷ During the anti-*rent* excitement this town was the scene of much violence, and Deputy Sheriff Steele was murdered here by a mob, Aug. 7, 1845. Rev. Mr. House, of Colchester, held the first religious meetings, in 1797.⁸

BOVINA⁹—was formed from Delhi, Stamford, and Middletown, Feb. 25, 1820. It is an interior town, lying directly e. of the center of the co. Its surface is a hilly upland, broken by the deep valleys of small streams. The highest summits are 1500 to 2500 ft. above tide. The streams are Little Delaware River, flowing w. through the center of the town, Bush Creek, the outlet of Teunis Lake, and Coulter, Maynard, Mountain, and Grants Brooks. The valleys of these streams

¹ For full particulars see *Governor's Message in 1846*, and *Gould's Hist. Del. Co.*, Chap. xii. About 90 persons were indicted for the murder, of whom one-third were arrested. Two (O'Connor and Van Steenburg) were convicted and sentenced to be executed, but their punishment was commuted to State prison for life by Gov. Wright, and they were fully pardoned by Gov. Young. The co. remained under martial law from Aug. 18 to Dec. 22, 1845. The murder of Steele led to the speedy abandonment of secret organizations and Indian costumes.

² A company of volunteers under Benj. T. Cook, and another under John K. Baldwin, were formed, and organized into a battalion under Thomas Marvine as major. A company of light infantry from Unadilla, under Capt. Bollea, was also called out, and reported themselves to Maj. Marvine.

³ Adjutant General's Report; *Assem. Doc.* 6, 1846. The whole expense of this service was \$63,683 20, which was charged to the co., but has never been repaid. Considerable tracts of land have since been conveyed in fee; and of others, the rent is now paid as formerly, and if in arrears, suits are instituted without difficulty.

⁴ Named from the mountainous character of its surface.

⁵ "Mt. Pisgah" is the highest point between the two branches of the Delaware. By a r. s. survey from Oneonta by way of Elk Creek, Delhi and Fish Lake, the Fish Lake summit is ascertained to be 1640 ft. above tide. By another route, up the Little Delaware and Coulter's Brook, the highest point on the line was almost the same height. Mt. Pisgah measured 1800 ft. above this, or about 3400 feet above tide.

⁶ Erected by Henry Dundon in 1847. It is not incorp.

⁷ Among the first settlers were James Phoenix, — Olmsted, Peter Burgher, Joseph Erskine, Silas Pariah, E. Washburn, Eli Sears, Jacob, Adam, and Philip Shaver, and Philip Barnhart. The first birth was that of Philip, son of Adam Shaver, Oct. 9, 1786; the first marriage, that of Henry Myers and Catharine Shaver, June 17, 1789; and the first death, that of Wm. June, Wm. Washburn taught the first school, in 1792-93; Edward Sands kept the first store, Russell Comstock the first inn, and Robt. More built the first mill on Trempers Kil in 1797.

⁸ The census reports 8 churches; 2 Asso. Ref. Prot., and 1 each Bap., O. S. Bap., Cong., M. E., Presb., and Union.

⁹ Name applied by Gen. Erastus Root, from the Latin, in allusion to its fitness for grazing.

are narrow and are bordered by steep, rocky hillsides. Teunis¹ and Landons Lakes are small bodies of water near the s. border. The surface is stony, and the soil is generally a clay loam, admirably adapted to grazing. **Brushland**,² (p. v.) on the Little Delaware, contains a tannery, gristmill, and clothing works. Pop. 183. **Bovina**,³ (p. v.) at the junction of Maynard and Mountain Brooks, contains about a dozen houses. **Mountain Brook** is a hamlet. The first settlement was begun in 1792, by Elisha B. Maynard, and during the succeeding 3 years many families from Conn. and Scotland located in the valleys.⁴ Rev. James Richie conducted the first religious services, in 1795. The first church (Asso. Presb.) was formed in 1809. The census reports 3 churches; M. E., Asso. Presb., and Ref. Presb.

COLCHESTER⁵—was formed from Middletown, April 10, 1792. A part was annexed to Walton in 1799; Hancock was taken off in 1806, and a part of Walton was annexed in 1827. It occupies a central position upon the s. e. border of the co. Its surface is a mountainous upland, broken by the narrow valleys of the streams. The e. branch of the Delaware flows westward through the n. part of the town, dividing the highlands into two distinct parts. From the n. it receives West Trout, Downs, and Coles Brooks, and from the s. Clearwater and several smaller brooks. Beaver Kil flows through the s. w. corner, receiving Spring Brook as a tributary. The valleys of these streams are all narrow, and many hundred feet below the summits of the hills which rise on either side. The soil is a reddish clay, and is often very stony. A considerable share of the surface is still covered with forests. Lumbering is extensively pursued. **Downsville**,⁶ (p. v.) on the Delaware, at the mouth of Downs Creek, contains 3 churches. Pop. 206. **Pepacton** and **Colchester** are p. offices. The first settlement was begun in May, 1774.⁷ The first religious services (Bap.) were conducted by Elder Haynes, and the first church (Bap.) was formed in 1803. There are now 2 churches in town; M. E. and Presb.

DAVENPORT⁸—was formed from Kortright and Maryland, (Otsego co.,) March 31, 1817. It lies along the n. border of the co., e. of the center. Its surface is a broken upland, divided into two ridges by the valley of Charlotte River, which extends e. and w. through the center of the town. These ridges are subdivided by the narrow, lateral valleys of tributaries of Charlotte River. The soil is a chocolate colored clay loam mixed with slate. **Fergusonville**,⁹ (p. v.) on Charlotte River, on the e. border of the town, contains an academy,¹⁰ a church, and several manufacturing establishments. Pop. 125. **Davenport**, (p. v.), 3 mi. below, contains a population of 95. **Davenport Center** (p. v.) contains a cradle and rake factory and 5 sawmills. Pop. 125. **West Davenport**¹¹ (p. v.) contains a woolen factory, 3 sawmills, and 90 inhabitants; and Ouleout (p. v.) about 40 houses. The first settlers were Daniel Farnsworth and — Pross, who located upon the present site of Davenport Center in 1786.¹² At that time an Indian trail, of sufficient width to admit the passage of wagons, extended along the Charlotte River. Elder Mudge (M. E.) conducted the first religious services, and commenced regular preaching in 1813.¹³

DELHI¹⁴—was formed from Middletown, Kortright, and Walton, March 23, 1798. A part of Bovina was taken off in 1820, and a part of Hamden in 1825. A part was annexed to Walton in

¹ This lake lies at the foot of Mt. Pisgah, and its shores are muddy, and covered with bushes and coarse grass. It was named from a friendly Indian who saved the early settlers of Middletown from massacre by giving them a timely warning. His hut was near the lake, and he remained several years after the war. Tradition attributes to this region rich lead mines known only to Indians.

² Named from Alex. Brush, first settler and proprietor.

³ Locally known as "*Butt End*."

⁴ Francis Conlter, Levi and Jacob Mahie, Jas. Kidzie, Andrew Chisholm, Jes. Ray, and Thos. Liddle were early settlers along the Little Delaware. The first birth was that of Elisha H., son of Elisha B. Maynard, Aug. 26, 1793; the first marriage, that of James Russell and Nancy Richie, in 1802; and the first death, that of Aaron, son of Abraham Nichols. Abel Adams taught the first school, in 1810; James Wetmore kept the first inn, at the "*Hook*;" James McClure the first store, at Brushland; Stephen Palmer built the first mill, in 1796, for Gov. Lewis; and John Jerome the first factory, in 1808.

⁵ Name applied by Joseph Gee, from Colchester, Conn.

⁶ Named from Abel Downs, who erected there extensive tanneries and mills.

⁷ Timothy Russell, Thos. and John Gregory, (from Westchester co.) Frederick Miller, (still living, 1859, aged 100 years,) Jas. and S. Shaver, Silas Bowker, Peter, Harry, and Nehemiah Avery, Jacob Bramhart, Daniel and Wm. Parish, and Wm. Rose, began settlement before the war, but were driven off by the Indians and Tories. Before leaving they buried their iron implements, to preserve them. After the war several of the families returned, and were joined by Wm. Horton, Abraham Sprague, Thos. Cal-

breth, Nathan Elwood, Nathan Fuller, Joseph Gee, Caleb and Henry Sinton, Jas. Miller, and Dennis, Jared, and John Hitt. The first birth was that of Catharine, a daughter of Wm. Roe, Dec. 24, 1784; and the first death, that of Thomas Gregory. Adam J. Doll opened the first store, and built the first bridge across the river at the place now known as Brooks Bridge. Wm. Rose built a sawmill in 1790. On the farm of Wm. Early, near the mouth of Coles Brook, is the site of an Indian village, with many of the apple trees planted by the natives still standing.

⁸ Named from John Davenport, an early settler and first supervisor.

⁹ Named from Messrs. Ferguson, who were largely engaged in business here.

¹⁰ Erected by the Fergusons about 1848.

¹¹ Called Ad-a-quigh-tin-ge, or Ad-i-qua-tan-ge, by the Indians.

¹² Among the other first settlers were Humphrey Denio, Geo. Webster, Daniel Gilmstead, — Van Valkenburgh, Harmon Moore, and Elisha Orr. Dr. Dan^l Fuller came in 1796, and was the first physician. The first marriages were those of Harmon Moore and Mary Orr, and Richards Moore and M. Banke, in 1791, the two marriages taking place at the same time; the first birth was that of a child of Harmon Moore, who died in infancy; this was the first death. The first death of an adult was that of Mrs. Harmon Moore, in 1796. Wm. Hannah Dodge taught the first school; Dan^l Prentice built the first grist and saw mill, in 1792-93, and it is believed he kept the first inn. Ezra Denio kept the first store, in 1800.

¹³ The census reports 5 churches; 3 M. E., F. W. Bap., and Presb.

¹⁴ Named through the influence of Judge Ebenezer Foots. The name of "*Mayletown*" was suggested by several prominent citizens.

1812. It occupies a nearly central position in the co. Its surface is a hilly upland, broken by the deep valleys of the streams. The w. branch of the Delaware flows s. w. through the center of the town, receiving from the n. w. Platners, Pecks, Steels, and Elk Creeks, and from the s. e. Little Delaware River. The valleys are generally narrow and bordered by steep hills. The soil is a clay loam, and the surface is very stony in places. **Delhi**, (p. v.), the county seat, is finely situated on the n. bank of the w. branch of the Delaware. It was incorp. March 16, 1821. Besides the co. buildings, it contains the Delhi Academy,¹ 4 churches, a bank, 2 printing offices, a woolen factory, an iron foundry, a gristmill, and a sawmill. Pop. 919. The first settlement was commenced by Abel and John Kidder, in 1785.² The first religious meetings were conducted by Elder Kidder Beck, in 1786. The first church (Cong.) was formed in 1798.³

FRANKLIN⁴—was formed from Harpersfield, April 10, 1792. Walton was taken off in 1797, and a part was restored in 1801. A part of Meredith was taken off in 1800, Sidney in 1801, and a part of Otego, (Otsego co.), as "*Huntsville*," in 1822. It lies upon the n. border of the co., w. of the center. Its surface is a hilly upland, broken by deep and narrow valleys. The principal streams are Ouleout⁵ Creek, flowing w. through the n. part of the town, and its two tributaries from the s., Croton Creek and Handsome Brook. The soil upon the hills is a shaly loam underlaid by hardpan, and in the valleys a gravelly loam and alluvium. **Franklin**, (p. v.), on the Ouleout, in the n. w. part of the town, contains the Delaware Literary Institute,⁶ printing office, and 3 churches. Pop. 490. **Croton** (p. v.) is situated upon Croton Creek, near the line of Meredith. Pop. 200. **North Franklin** is a p. o. Sluman Wattles, afterward judge, was the first white settler who built his cabin in the valley of the Ouleout. He came in 1785, and was accompanied by his brothers John and Roger and his sisters Sarah and Caroline. The town was surveyed under Judge Wattles, who acquired one of the 4 shares.⁷ The first church (Bap.) was formed at the house of Gad Merrick by Elder Hamilton, in 1798.⁸

HAMDEN—was formed from Walton and Delhi as "*Hampden*," April 4, 1825. Its name was corrected March 17, 1826. It is the central town of the co. Its surface is a mountainous upland, divided into two parts by the valley of the w. branch of the Delaware. The s. part is covered by lofty peaks and ridges scarcely susceptible of cultivation. Baleys Brook, a tributary of the Delaware, and Cove Brook, in the s. e. part, are the other principal streams. The soil is generally a brownish clay loam underlaid by hardpan. **Hamden**, (p. v.) upon the Delaware, near the center, contains mills, a woolen and satinet factory, and 2 churches. Pop. 191. **Lansingville**, 1½ mi. above, on the s. side of the river, contains 2 churches and 116 inhabitants. The first settlers were Daniel Harrower and Benijah McCall, who came some time previous to 1795.⁹ The census reports 4 churches in town.¹⁰

HANCOCK¹¹—was formed from Colchester, March 28, 1806. It lies upon Delaware River, in the s. w. corner of the co. Its surface is a mountainous upland, ending in high and nearly precipitous bluffs upon the Delaware, and divided into two parts by the e. branch of the Delaware, which flows w. through the n. part. Beaver Kil flows into the e. branch in the e. part of the town. Sands and Hawks Creeks and Rieds and Baxters Brooks are tributaries of the e. branch of the Delaware, from the n.; and Big Trout, Basket Pond, Giers, Sand Pond, Cords, and Holmes Pond

¹ The first academic building was erected in 1820, on the public square, near the courthouse. In 1856-57 a new site was procured, containing 20 acres, upon the w. bank of Steels Brook, and a new edifice, with two spacious boarding halls, was erected. The site is commanding, and affords a fine view of the village. The institution has been endowed by moneys derived from the sale of escheated lands in the co. to the value of \$5114. Its total property amounts to \$28,820.

² Among the first settlers were Judge Gideon Friesbe, Thos. Farrington, Bartholomew Yandess, Joseph Denton, Geo. Fisher, John, Francis, and Levi Baxter, — Preston, and Gideon Rathbone and his sons John, David, and Gideon, jr. The first birth was that of Huldah, daughter of Gideon Friesbe, June 14, 1787; the first marriage, that of Philip Friesbe and Jerusha Harmon, in 1791; and the first death of an adult, that of Dr. Philip Friesbe, in 1797. Thos. Averill taught the first school. The first mills were built in 1788.

³ The census reports 8 churches: 2 Christian, 2 Presb., and 1 each Prot. E., Bap., M. E., and Asso. Presb.

⁴ The township of Franklin, embracing 30,000 acres, was patented Feb. 26, 1770, with the usual powers of a township, and a quitrent of two and sixpence for every 100 acres annually. The patentees were Thos. Wharton, Reese Meredith, and 28 others. It was named from Temple Franklin, a natural son of Dr. Benj. Franklin.

⁵ In the great Indian purchase of 250,000 acres, June 14, 1768, this stream is named Au-ly-out-let.

⁶ The buildings consist of one large stone edifice, containing recitation rooms, &c., and two large boarding halls. The total property of the institution is valued at \$20,000.

⁷ Among the early settlers were Nath'l Edgerton, Jas. Follett, Alex. Smith, Daniel and Chauncey, sons of Ecos Parker, Gen. Aaron Chamberlain, Moses Clark, Asa Turner, Gad Merrick, Hugh Thompson, Eph'm McCall, — Case, Turroer and Daniel Clarke, Sol. Green, John Dewey and sons, Maj. Joel Gillett, — Mix, — Sharp, and — Fitch. The first child born was Thos. Edgerton; the first marriage was that of Judah Bartlett and Caroloe Wattles; and the first death, that of Mrs. Alexander Smith, in 1795. Sluman Bartlett taught the first school, and Asa Turroer kept the first inn and store.

⁸ The census reports 8 churches; 3 M. E., 2 Bap., 2 Cong., and Union.

⁹ Among the first settlers were Joseph Fisk, Henry Van Waggoner, Jas. Mason, Renben Ward, Henry Edwards, Henry and John Howard, Sam'l Robinson, Wm. Correll, and John and Silas Grimes. Jas. Howard kept the first inn, in 1796, and Matthias Sweney built the first gristmill, in 1797. Gen. Elias Butler was the first merchant near the Walton line.

¹⁰ Asso. Presb., Christian, Cong., and Presb.

¹¹ Named in honor of John Hancock, President of Continental Congresses.

Brooks, are tributaries of the Delaware. These streams all flow through narrow ravines bordered by steep, rocky hills nearly perpendicular. The valley at the junction of the two branches is 922 feet above tide, and at the mouth of Beaver Kil it is 1018 ft. above tide. The summits are 1000 to 1500 ft. above the valleys. A large portion of the surface is still covered with forests. The soil upon the uplands is a hard clayey loam, scarcely susceptible of cultivation. Lumber, leather, shingles, and staves are largely manufactured. **Hancock**,¹ (p. v.) at the junction of the two branches of the Delaware, is an important trading and R. R. station. Pop. 502. **Stockport Station** and **Lordsville** are R. R. stations and p. offices. **East Branch**, (p. v.) at the mouth of Beaver Kil, contains 2 churches and 20 houses; **Howard**, 3 mi. above E. Branch, contains 15 houses; **Partridge Island**, on the E. branch, at the mouth of Rieds Brook, and **Cadosia Valley**, (p. o.) on Hawks Brook, 3 mi. above Hancock, are hamlets. Before the Revolution two families settled in town; but they soon after left and never returned. The first permanent settlement was made soon after the close of the war by families from Dutchess co.² In 1784, Canope, a friendly Indian, was treacherously killed in this town by Ben Haines.³ The first religious meetings (M. E.) were conducted by Rev. Titus Williams.⁴

HARPERSFIELD⁵—was formed March 7, 1788. Franklin was taken off in 1792, Kortright in 1793, and a part of Stamford in 1834. It is the N. E. corner town of the co. Its surface is a rolling upland, constituting a portion of the high plateau region stretching westward from the Catskill Mts. The principal streams are head branches of the W. branch of the Delaware, in the S.; of Middle Brook, in the center; and of Charlotte River, in the N. The valleys are usually narrow, and bordered by gradually sloping hills arable to their summits. The soil is a shaly and slaty loam of good quality. The quality of the soil, and the great abundance of pure soft water which issues from the hillsides, render this co. one of the finest grazing regions in the State. **Harpersfield Center** (p. v.) contains about 20 houses. **North Harpersfield** (p. o.) is a hamlet. **Fergusonville** (p. v.) lies on the line of Davenport, **North Kortright** (p. v.) on the line of Kortright, and **Stamford** (p. v.) on the line of Stamford. This town formed part of a large purchase made from the Indians by the Harpers in 1768.⁶ In 1771, Col. John Harper and David Hendry surveyed this town, and a small settlement was made soon after. One of the first settlers was Samuel Claxton, a tory. Several murders were committed by Tories and Indians during the war, and the settlement was abandoned. In 1784, Col. John, Capt. Wm., Col. Alex., and Joseph Harper returned, and began the first permanent settlement.⁷ Rev. John Lindsley conducted the first religious services, at an early period. There are now two churches in town, Bap. and Presb.

KORTRIGHT⁸—was formed from Harpersfield, March 12, 1793. A part of Delhi was taken off in 1798, a part of Meredith in 1800, a part of Davenport in 1817, and a part of Stamford in 1834. It is an interior town, lying N. E. of the center of the co. Its surface is a hilly upland, broken by narrow valleys and ravines. The mean elevation of the town is 1700 ft. above tide, and the highest summits attain an elevation of 2400 ft. The streams are the W. branch of the Delaware, forming its S. boundary, and its tributaries, and several small tributaries of Charlotte River, draining the N. half of the town. The hills are steep, but are generally susceptible of cultivation. The soil is a dark, shaly loam, well adapted to pasturage. **Bloomville** (p. v.) is situated upon the Delaware, in the S. W. part of the town. Pop. 184. **Kortright Center**, (Kortright p. o.) **North Kortright**, (p. o.), and **South Kortright** (p. o.) are farming neighborhoods. Set-

¹ Formerly "*Shohakin*," or "*Chehocton*," said to signify the union of streams. A plank road extends from this place to Walton, a distance of 2½ mi.

² Among the first settlers were Dr. Elnathan Gregory and his son Samuel, John Barher, Daniel Bonker, Henry Ruff, Timothy Rine, Chris. Ruff, Dennis Hitt, — Gilbert, — Leonard, (from New England, who settled on Reeds Flat), John Hitt, John and Richard Bidleccn, Ebr. Wheeler, Wm., Jos., John, and Sam'l Mullory, (near Partridge Island.) Josiah Parker, Geo. Hanks, and — Jones, (at Hancock Village.) The first birth was that of Elisha, son of Dan'l Bonker, May 11, 1792; the first marriage, that of Abm. Sprague and Polly Parish, in 1791; and the first death, that of Lieut. Day. John Gregory taught the first school.

³ *Gould's Hist. Del. Co.*, p. 184.

⁴ The census reports 6 churches; 3 M. E., and 1 each Bap., Cong., and R. C.

⁵ Named in honor of Col. John Harper, a proprietor and pioneer settler. The family consisted of John and his wife Abigail and nine children,—Wm., James, Mary, John, Joseph, Alexander, Abigail, and two others. The brothers were ardent patriots of the Revolution and active defenders of liberty. Their names are intimately associated with our State history.

⁶ On the 2d of April, 1780, a party of 14 persons, under Capt. Alex. Harper, was sent from Schoharie to Harpersfield for the purpose of making maple sugar and watching the disaffected in that quarter. On his return, Capt. H. was taken prisoner by a party of Tories and 43 Indians. Of the party he had left, 3 were killed and the rest taken prisoners. The representation made by Capt. Harper concerning the strength of the Schoharie settlement saved it from destruction at that time.

⁷ Roswell Hutchkiss, and Levi and Jedediah Gaylord, settled with the Harpers near the center of the town. Josiah Seely, Matthew Lindsley, Sam'l and John Knapp. — 2 Hamiltons, — Washburn, Isaac Pierce, Stephen Judd, Sam'l, Elijah, and John Wilcox, Richard and John Bristol, Abijah Baird, Byrou Melvaine, David and John McCullough, Isaac Patchin, Wm. Lamb, Caleb Gibbs, and Wm. McFarland were among the early settlers. Rebecca Harper, born Jan. 8, 1783, was the first birth after the war. Rev. John Lindsley is believed to have taught the first school. A gristmill, erected about 1775 by Col. Harper, was burned by the enemy, and was rebuilt soon after the war.

⁸ Named from Lawrence Kortright, the patentee.

tlements commenced before the Revolution, but were broken up by the war.¹ The first permanent settlers after the war were from Conn., Dutchess co., N. Y., and Scotland.² The first church (Presb.) was formed in 1789: Rev. Wm. McAuley settled in town in Sept. 1794, and was installed pastor June 6, 1795. He filled that office until the time of his death, March 21, 1857, a period of 56 years.³

MASONVILLE⁴—was formed from Sidney, April 4, 1811. Its surface is a hilly upland, divided into 2 ridges by the valley of Bennetts Creek, which extends e. and w. through the n. part of the town. These ridges are subdivided by numerous lateral ravines, through which flow small brooks. The highest summits are 600 to 1000 feet above the valleys and 1800 to 2000 feet above tide. The surface is stony, and the soil a shaly loam, difficult of cultivation except in the valleys. **Masonville** (p. v.) is situated on Bennetts Creek, in the w. part of the town. Pop. 234. The first settlement was commenced in 1795, on "*Cockburns Gore*,"⁵ upon the w. border of the town, by immigrants from Mass.⁶ In 1797, the State Road from Cherry Valley to Jericho was opened through the town. The first religious services were conducted by Rev. Joel Chapin, in 1797. The first church (Bap.) was formed Dec. 7, 1820. There are now 2 churches in town; Presb. and M. E.

MEREDITH⁷—was formed from Franklin and Kortright, March 14, 1800. It is an interior town, lying n. e. of the center of the co. Its surface is a hilly upland, less broken than most of the towns in the co. The s. and e. parts of the town are occupied by the high ridges forming the watershed between Susquehanna and Delaware Rivers. The streams are small brooks and creeks. The soil is a reddish clay and shaly loam. **Meredith Square**, (Meredith p. o.) near the center of the town, contains 2 churches and 20 houses. **West Meredith** (p. o.) is a hamlet. These last two places are on the old Catskill Turnpike. Settlement was begun in 1787, by Joseph Bramhall, whose family were sole inhabitants till 1793.⁸ Elder Nathan Sulson (Bap.) held the first meetings. He was not a regular preacher, but a zealous promoter of education and religion.⁹

MIDDLETOWN—was formed from Rochester and Woodstock, (Ulster co.), March 3, 1789. Colchester was taken off in 1792, a part of Delhi in 1798, Andes in 1819, and a part of Bovina in 1820. It is the s. e. corner town of the co. Its surface is a mountainous upland, bisected by the deep, narrow valley of the e. branch of the Delaware. The principal streams are Delaware River, Platte Kil, Batavia Kil, Red Kil, Bush Kil, and Mill Creek. The valleys of these streams are bordered by steep, rocky hillsides often rising into mountains. The soil is a shaly and gravelly loam. **Margaretville**,¹⁰ (p. v.), on the n. bank of the Delaware, near the center of the town, contains 40 houses. **Griffins Corners**,¹¹ (p. o.) on the Bush Kil, in the s. e. part, contains 30 houses. **Clovesville**, (p. o.) **Solitude**, and **Arkville** are hamlets on the Bush Kil, below Griffins Corners. **Dry Brook Settlement** is a lumber station on the s. branch of the Bush Kil. **Halcottsville**,¹² (p. o.), on the Delaware, near the e. border of the town, is a hamlet of a dozen houses. **Spruceville** is a little settlement between Halcottsville and Margaretville. **New Kingston**¹³ (p. o.) is a hamlet upon the Platte Kil, in the n. part of the town. **Clarks Factory**¹⁴ (p. o.) is a little settlement on the Platte Kil, near its mouth. **Lumberville** (p. o.)

¹ Among these early settlers were Alex. Mills, agent for the proprietor, Alex. Leal, Daniel McGillivray, and Hough Clark. The township was surveyed by Wm. Cockburn in 1770, and the first improvement began soon after.

² By an advertisement dated Jan. 1785, it appears that 30 families were then settled in town. The proprietor offered 150 farms, more or less improved, free of rent 5 years, and sixpence sterling per acre annually after forever. The first school was taught by Jacob Blakeley, in 1795. Thos. McAuley, brother of the minister, and afterward Prof. in Union College, taught here in 1799. Judge Keeler was the next teacher. A Mr. Alexander built a mill before the war, and the iron concealed there have never been found. The first birth was that of Dan'l McGillivray; the first marriage, that of Michael Sexsmith and Mary Ann Higgs; and the first death, that of a son of Isaac Randall. By an act of April 5, 1810, farms were established in the village of "Health," in this town, for the sale of live stock, agricultural produce, and domestic manufactures. It was to be supported by a tax of 1 per cent. on all sales.

³ The census reports 6 churches; 3 Asso. Ref. Presb., 2 M. E., and 1 Ref. Presb.

⁴ Named from the Rev. John M. Mason, of N. Y., principal owner of the Evans Patent in this town.

⁵ A narrow strip of land between Evans Patent and the "Line of Property."

⁶ Among the early settlers were Wm. and Aden Wait, Danl. Scranton, Enos Goodman, Justin Nash, Perez Moody and son Moses, Asa, Terry, and Caleb Monson. The first birth was that of Sally, daughter of Daniel Wait, Aug. 10, 1797, and the first death was that of Wm. Wait, the same summer. Dr. Eli Em-

mons taught the first school; Simeon Wells kept the first inn; Fitch & Phelps the first store, in 1808; and Joseph Bicknell built the first saw and grist mill, in 1802.

⁷ Named from Sam'l Meredith, of Philadelphia, who owned a part of Franklin Patent. Hon. Saml. A. Law came into this town in 1796, as agent and part owner of the Franklin Patent. Being a New England man he influenced a large immigration of New Englanders to this place, giving to it the peculiar characteristics of a Connecticut town.

⁸ Among the early settlers who came in 1793 were Nathan Stinson, Caleb Strong, Nath'l Stewart, Oliver Dutton, Dan'l North, and Truman Stinson. Lucy Anetin taught the first school; Jos. Bramhall kept the first inn, and the first birth and death occurred in his family. Rufus Bunnell kept the first store, at the Square, in 1799; David Spoor built the first gristmill, in 1802. The first marriage of settlers was that of Elijah Georgia and Keziah Stewart, who eloped and were married in the fall of 1796.

⁹ The census reports 4 churches; 2 Bap., 1 F. W. Bap., and 1 Cong.

¹⁰ The old Indian village of "*Pa-ka-tagh-kan*" was situated about 1 mi. e. of this village, at the mouth of the Bush Kil.

¹¹ Named from the Griffin family, early proprietors and residents.

¹² A woolen factory is located at this place.

¹³ This village is situated in the center of a tract of land given by Wm. Livingston to 100 sufferers of the Kingstons fire in 1777. Each family received 50 acres.

¹⁴ Named from the Messrs. Clarks, who have an extensive tannery at this place.

is a lumber station at the mouth of Mill Creek, in the w. part of the town. A vague tradition exists of an early settlement of this town by French traders, but no positive proof. In 1762-63 a party from Hadley, Ulster co., commenced a settlement, which increased rapidly and in a few years spread over the Delaware bottom lands.¹ The settlers were driven out in 1778,² but returned soon after the war. The first church (Ref. Prot. D.) was formed in 1794. There are 3 churches in town; 2 M. E. and 1 Asso. Ref. Presb.

ROXBURY³—was formed from Stamford, March 23, 1799. It occupies the extreme e. portion of the co. Its surface is a mountainous upland, forming a portion of the great plateau extending w. from the Catskill Mts. The declivities of the hills are steep and rocky and are mostly unfit for cultivation. The highest points on the n. and w. borders of the town are estimated to be 2800 feet above tide. The principal streams are the e. branch of the Delaware, flowing s. w. through the center of the town, Bear Kil in the e., Batavia Kil and Red Kil in the s., and numerous smaller creeks. The soil is a reddish clay loam. **Roxbury** (p. v.) lies on the Delaware, near the center of the town. Pop. 232. **Moresville**,⁴ (p. o.,) near the n. e. border, **Strattons Fall**,⁵ (p. o.,) in the w., **Little Falls**, upon the e. border, and **Batavia Kil** are hamlets. The first settlement was made by John More, a Scotchman, on the site of Moresville, in 1786.⁶ The first religious meetings were conducted by Rev. H. Myres.⁷

SIDNEY⁸—was formed from Franklin, April 7, 1801. Masonville was taken off in 1811. It lies upon Susquehanna River, in the n. e. corner of the co. Its surface is a hilly upland, ending in high bluffs upon the valley of the river. The highest summits are 800 to 1200 ft. above the valley. Oulecut and Carrs Creeks⁹ flow w. through the town and empty into the Susquehanna. The valleys of these streams are deep and narrow, and are bordered by steep, rocky hills. The soil in the valleys is a fine fertile alluvium, and upon the hills a dark, shaly loam. **Sidney**, (p. v.,) on the s. bank of the Susquehanna opposite Unadilla, contains 2 churches and 25 houses, **Sidney Center**, (p. v.,) on Carrs Creek, 1 church and 20 houses, and **Sidney Plains**, (p. v.,) upon the Susquehanna, in the n. w. corner of the town, 2 churches and about 20 houses. In May, 1772, Rev. Wm. Johnston, with an Indian guide, explored this region of country, and finally selected the present site of Sidney Plains as a place of settlement.¹⁰ Early in 1773 he moved in with his family, being the first settler in the Susquehanna Valley within the limits of the State. Several others soon followed. Just before the war, Gen. Herkimer held an interview with Brandt at this place; and the menacing attitude assumed by the Indians led Johnston and others who sympathized with the Continental cause to leave their new home for a less exposed situation. A few inhabitants remained during the war, and many returned immediately after its close.¹¹ By an act of April 6, 1790, £800 was granted for the construction of a road from "Olehoudt" Creek to Catskill on the Hudson.¹² The census reports 5 churches; 2 M. E., 2 Cong., and 1 Bap.

STAMFORD¹³—was formed April 10, 1792. Roxbury was taken off in 1799, and a part of Bovina in 1820. A part was annexed from Harpersfield and Kortright, April 22, 1834. It lies n. of Roxbury, on the n. e. border of the co. Its surface is a mountainous upland. Mt. Prospect, e. of Stamford Village, is estimated to be 1500 ft. higher than the valleys. From its summit Albany City is visible in a clear day. The streams are the w. branch of the Delaware, forming a portion of its n. boundary, and Town and Rose Brooks. The soil is principally a reddish clay

¹ The first settlers were Harmans and Peter Dumond, Johannes Van Waggoner, and ——— Headricks, who located near the old Indian village. Among those who came soon after were families named Kittle, Goble, Brugher, Slyter, Hisebangh, Green, and Bleurch.

² Most of the settlers became Tories, and in 1779 the Governor was empowered to cause the removal or destruction of grain in the back settlements of Ulster co., to prevent it from being serviceable to the enemy. Soon after the war, the settlers of "Pakataglukan" came before the legislature for redress; but no act was passed in their favor.—*Legislative Papers, St. Lib.*

³ Named from Roxbury, Conn., from which place many of the early settlers came.

⁴ Named from the first settler.

⁵ Named from an early settler. Strattons Brook falls about 40 feet at this place, furnishing a good water power.

⁶ John More, Israel Inman, Abm. Gould, Geo. Squiers, Josiah Patchin, Nehemiah Hayes, David Squiers, (most of them from Fairfield, Conn.,) settled along the valley near the present village of Roxbury, in 1789.—*Gould's Hist. Del. Co.*, 197-98-99. The first child born was Charlotte, daughter of Nath'l Tiffany, in March, 1792; and the first male child born was John Gould, in Oct. of the same year. David Smith taught the first school, in the winter of 1794-95; Isaac Hardenburgh owned the first store, John More kept the first inn, and John Pierson built the first gristmill.

⁷ The census reports 8 churches; 3 M. E., 2 G. S. Bap., 2 Ref. Prot. D., and 1 Christian.

⁸ Named from Sir Sidney Smith, the British Admiral. The name was first applied by John Maudeville, an English schoolmaster, then living on Sidney Plains.

⁹ Named in memory of John Carr, a tory, who built a sawmill upon this stream at an early period.

¹⁰ At this place was the site of an old Indian fort. Three acres of ground were enclosed by mounds of earth surrounded by a ditch. From early times the place has been called "The Fort Grounds."

¹¹ The first gristmill w. of Harpersfield was built, in 1778, by Abm. Fuller, on the Oulecut, near Wattles Ferry. An inn was opened at the ferry in 1785, by Nathaniel Wattles. The first raft was sent down to Harrisburgh in 1795, by Capt. David McMasters. In 1787 a great scarcity of provisions occasioned much distress in this valley, and the settlers were saved from starvation by a boat load of flour from Northumberland, Penn., got to them through the exertions of Gen. Daniel Bates.

¹² The contract for building this road was awarded to Nathaniel Wattles and Medad Hunt; but, proving ruinous, the parties were relieved, in 1793, by a further grant of £120.

¹³ Originally named "New Stamford," from Stamford in Conn. It is situated on Great Lot No. 42 of Hardenburgh's Patent.

and shaly loam. **Stamford**, (p. v.) upon the Delaware, in the n. e. part of the town, on the line of Harpersfield, contains a seminary,¹ 2 churches, and 2 woolen factories. Pop. 185. **Hobart** (p. v.) is situated on the Delaware, 4 mi. below Stamford. Pop. 391. The first settlement was made in 1773; by Dr. Stewart and John and Alex. More, from Scotland.² The first church (St. Peters Prot. E.) was formed at Hobart, Dec. 8, 1799. Rev. Philander Chase, afterward Bishop of Ohio and Ill., the first pastor, was installed Aug. 1799.³

TOMPKINS⁴—was formed from Walton, Feb. 28, 1806, as "*Pinefield*," and its name was changed March 11, 1808. It is the central town on the w. border of the co. Delaware River flows westward through near the center of the town to the w. border, where it turns s. and forms a portion of the w. boundary. The portion of the town s. of the river is composed of broken and rocky mountain masses too steep and rough for cultivation. The n. part is broken and hilly and but partially cultivated. The soil is a clay, slate, and gravelly loam. **Deposit**⁵ (p. v.) is situated on Delaware River, at the mouth of Oquaga Creek, on the line of Sanford, Broome co. It was incorp. April 5, 1811.⁶ It is the center of a large lumber business, and is an important trading station and wood depôt upon the N. Y. & Erie R. R. It contains a seminary,⁷ printing office, sawmill, a large tannery, and 4 churches. Pop. 1249,—of which 593 are in Tompkins and 656 are in Sanford, Broome co.: the depôt and r. r. buildings are in the latter town. **Cannonsville**,⁸ (p. v.) at the mouth of Trout Brook, on the Delaware, 7 mi. above Deposit, contains a sawmill, flouring mill, a large tannery, and 2 churches. Pop. 325. **Hales Eddy**,⁹ (p. o.) on the Delaware, 5 mi. below Deposit, **Barbourville**, (p. o.) on Cold Spring Brook, near the n. border, and **Trout Creek**, (p. o.) in the n. e., are hamlets. The first settler was Squire Whittaker, from Wyoming,¹⁰ Penn., who came in 1787; John Hulse,¹¹ from Neversink, (Sullivan co.,) came in April, 1789, and Philip Pine and Conrad Edict in 1791.¹² The first religious meetings were held at the house of John Hulse, by Rev. Hugh Compton, in 1794.¹³

WALTON¹⁴—was formed from Franklin, March 17, 1797. A part of Delhi was taken off in 1798, Tompkins in 1806, a part of Hamden in 1825, and a part of Colchester April 14, 1827. A part of Colchester was set off Feb. 1, 1799, a part of Franklin March 13, 1801, and a part of Delhi was annexed June 17, 1812. It is an interior town, lying w. of the center of the co. The deep valley of the Delaware divides the town into two nearly equal parts. The s. half is a broad, rocky, mountainous region with abrupt declivities and a surface too rough for cultivation; the n. half is broken and hilly, but generally well adapted to pasturage. The principal streams are East, West, and Hydes Brooks. The soil is a shaly loam upon the hills and a fertile alluvium in the valley. Tanning and lumbering are extensively carried on. **Walton**, (p. v.) upon the n. bank of the Delaware, near the center of the town, contains the **Walton Academy**¹⁵ and 3 churches. Pop. 430. **New Road** is a p. office in the extreme n. part of the town. Dr. Platt Townsend,¹⁶ of Dutchess co., purchased a tract of 5000 acres in this town in 1784. He surveyed it the same year, and in 1785 he came in and located upon the present site of Walton Village. He was accompanied by 5 families, of 20 persons, mostly from Long Island. A large number of immigrants

¹ The Stamford Collegiate Institute was established here in 1861.

² Jas. Stewart, Wm. Frazer and son Simon, from Scotland, came in 1775. During the war most of the settlers left, but returned in March, 1786. In 1789, a company consisting of 20 heads of families and 2 single men (principally from Fairfield co. Conn.) came into Delaware co. to examine the country and select locations. Several of them located in this town, and others soon followed. Dea. John Grant taught the first school, in the winter of 1788-89. Lieut. Paine kept the first inn and store, and — Calden built the first mill, near Bloomville, before 1780. Andrew Beers, the almanac maker, resided in this town.

³ The census reports 6 churches; 2 M. E., 2 Assn. Ref. P., Prot. E., and Union.

⁴ Named from Daniel D. Tompkins, soon afterward elected Governor.

⁵ Named from having formerly been an important station, or place of "deposit," for lumber preparatory to rafting in "the spring freshets." It was called by the Indians "Cokeose," (Owls Nest,) a name occupied by the English into "Cookhouse," by which it is still designated by the old inhabitants.

⁶ The original corporate limits of the village were entirely within the town of Tompkins. A part of Sanford, Broome co., was annexed in 1852. The charter was amended in 1858.

⁷ Laurel Bank Seminary was opened Dec. 14, 1853. It is a fine building, situated s. of the river, on a commanding site overlooking the village and valley. It has accommodations for 200

boarding students. The recent death of the principal has caused a temporary suspension of the school.

⁸ In 1786 Jesse Dickinson, of Philadelphia, made a purchase of an extensive tract of land in this vicinity, and made preparations for the building of a city, to be called "*Dickinson's City*." He built a gristmill upon Trout Creek, and a large hotel, which he called the "*City Hall*." The town meetings were held in this building for several years. Dickinson run the first raft that went from the w. branch of the Delaware. Upon his arrival, Benjamin Cannon purchased the property, and from him the village derived its name.

⁹ Named from the Hale family, who were early settlers.

¹⁰ Mr. W. was one of the survivors of the massacre of Wyoming; and his sons John and Benjamin, then children, remember many incidents of that event and the subsequent escape. He stated that Brandt was at Cherry Valley at the time of the massacre, and, of course, was not a participant in its atrocities.

¹¹ The place where he settled is now (1859) occupied by his grandson, Martial R. Hulse.

¹² Mr. Edict was a soldier of the Revolution. The first birth was that of Polly Hulse, in 1780 or '90; and the first death, that of Dorcas, wife of Oliver Hale, about 1790.

¹³ The census reports 7 churches; 3 Bap., 2 M. E., and 2 Presb.

¹⁴ Named from Wm. Walton, a large land proprietor in this vicinity. Walton's Patent (20,000 acres) was granted in 1770.

¹⁵ The academy building was erected in 1855. The institution has a good library and is in a flourishing condition.

¹⁶ Dr. Townsend received 1700 acres for surveying, and paid \$2.50 per acre for the remainder, receiving his deed in 1786.

from New Canaan, Conn., came in within a few years.¹ The first church (Cong.) was formed in 1793.²

Acres of Land, Valuation, Population, Dwellings, Families, Freeholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Delaware County.

¹ Among the early settlers were Gabriel and Robert North, Isaac and Wm., sons of Platt Townsend, Wm. Farnum, Joshua Pine and sons, Daniel and Joshua, Michael Goodrich, — Beers, — Cable, Thaddeus Hoyt, Chas. W. Stockton, Matthew Benedict, John Eells, Alan Mead, Lindal Fitch, Dan'l Weed, Nathan Kellogg, Cephas Bush, Eph'm Waring, Sam'l Hanford, jr., Seth Berry, David and Sellick St. John, and Seymour Child. The proprietor offered a lot of land to the first male child born in town who should be named Wm. Walton; and the prize was within reach of a son of Mrs. Robert North, the first woman who came

into town, but she had set her heart upon the name of Samuel, and a lot of land could not induce her to change her mind. The first marriage was that of Boutram Olmstead and Savory Goodrich. Lewis Seymour and Judd Raymond kept the first store, in 1791; M. Goodrich built the first saw and grist mill, and Gabriel North the first framed house. — *Hist. of Walton, in Nos. 6 to 22, Vol. II. of "The Walton Jour."* Hon. Joel T. Headley, 1st Sec'y of State, was a native of this town.

² The census reports 4 churches; 2 Cong., and 1 each M. E. and Prot. E.

CHEMUNG COUNTY.

THIS county was formed from Tioga, March 29, 1836.¹ A portion of Schuyler was taken off in 1854. It lies upon the s. border of the State, is centrally distant — mi. from Albany, and contains — sq. mi. Its surface is principally a hilly upland broken by the deep ravines of the streams. The highest points are 400 to 600 ft. above the valleys and 1300 to 1500 ft. above tide. The ridges extend in a general n. and s. direction, and have steep declivities and broad and rolling summits. A deep valley, extending s. from Seneca Lake, divides the highlands into two general systems, and forms an easy communication between the Susquehanna Valley and the central portions of the State. Chemung River flows s. e. through the s. part of the co. and cuts the ridges diagonally. Wide alluvial flats,

bordered by steep hillsides, extend along nearly its whole course. Catharine Creek flows n. through the central valley and discharges its waters into Seneca Lake. The other principal streams, all tributaries of the Chemung, are Post, Sing Sing,² Newtown, Goldsmith, Wynkoops,³ and Cayuta Creeks from the n., and Hendy and Seely Creeks from the s. The valleys of these streams are generally narrow, and are bordered by steep hills. The valleys of the smaller streams are mere ravines and gulleys.

The principal rocks in the co. belong to the shales and sandstones of the Chemung group. In the n. part the rocks of the Portage group are exposed in the ravines. The sandstone is quarried in several places, and furnishes a good quality of stone for building and flagging. Bog iron ore and marl are found to a limited extent. The soil is a gravelly and sandy loam, intermixed in some places with clay. The valleys are covered with a deep, rich alluvium. The highlands are best adapted to pasturage. The people are principally engaged in agriculture. Until within a few years, lumbering has formed a leading pursuit;⁴ but since the disappearance of the fine forests this business has been mostly superseded by stock and wool growing and dairying. Since the completion of the railroads and canals, commerce and manufactures have received considerable attention, although they are still subordinate to the agricultural interests of the co.

The county seat is located at Elmira, upon Chemung River.⁵ The courthouse and jail are located near the center of the village, e. of the canal. The jail is poorly arranged, and in construction it meets neither the requirements of humanity nor the law. The average number of inmates is 12, kept at a cost of \$2 50 per week each. The poorhouse is located upon a farm of 180 acres in the town of Horseheads, on the line of Erin. The average number of inmates is 70, supported at a cost of \$.80 each per week. The farm yields a revenue of \$1000.⁶ The Chemung Canal extends s. from Seneca Lake through the central valley to Chemung River at Elmira, forming a direct connection with the great chain of internal water navigation of the State. A navigable feeder from Corning, Steuben co., forms a junction with the canal on the summit level at Horseheads Village. Junction Canal extends several mi. along the Chemung, affording navigation at points where the river is obstructed by rapids and narrows. The New York & Erie R. R. extends along Chemung River through Chemung, Southport, Elmira, and Big Flats. The Chemung R. R. extends n. from Elmira through Horseheads and Veteran. The Williamsport & Elmira R. R. extends s. from Elmira through Southport into Penn., forming a direct line to Philadelphia.

One daily and 2 weekly newspapers are published in this co.⁷

¹ Name derived from the principal river, signifies "Big horn," or "Horn in the water." It is called by the Delawares Con-ongue, a word of the same signification. These names were applied to the stream in consequence of numbers of immense deer's horns having from time to time been discovered in the water. In his "Views of Elmira," Solomon Southwick says that the Indian name of the Chemung was Con-e-wa-wa, signifying "a bead on a pole."

² Named from John Sing Sing, a friendly Indian.

³ Named from Wm. Wynkoop, an early settler.

⁴ For many years 10,000,000 ft. of pine lumber were floated down the Chemung and Susquehanna from Elmira annually.

⁵ Upon the erection of Tioga co. Elmira, then "Newtown," was made half-acre; and upon the erection of Chemung co. in 1836 it was designated as the county seat, and the old co. buildings were taken for the use of the new co. The first co. officers were

Joseph L. Darling, *First Judge*; Andrew K. Gregg, *District Attorney*; Isaac Baldwin, *County Clerk*; Albert A. Beckwith, *Sheriff*; and Lyman Covill, *Surveyor*.

⁶ The poorhouse is entirely inadequate for the comfort or health of the inmates. Many insane persons are confined, without proper care or medical attendance. No school is kept, but at proper age the children are bound out.

⁷ *The Telegraph*, the first paper published in the co., was established at "Newtown" (now Elmira), by Prindle & Murphy at an early period. In 1816 it was issued as

The Vidette by Prindle & Murphy, and subsequently by Wm. Murphy.

The Investigator was commenced at Elmira, in 1820, by Job Smith. In 1822 its name was changed to

The Tioga Register, and in 1828 to *The Elmira Gazette*, and its publication was continued

In 1779, Gen. Sullivan and his army entered the co. from the s. by the way of Chemung River. Below "*Newtown Point*" (now Elmira) he encamped and threw up a breastwork, which was afterward called Fort Sullivan. At this point he first encountered the Indians and Tories in force, and on the 29th of Aug. a battle ensued. The Indians were commanded by Brandt, and the Tories were led by Cols. Butler and Johnson. After an obstinate engagement of two hours, the enemy gave way at all points and fled, and no more resistance was offered to the advance of the American army. The first settlements were made from 1787 to 1790, by immigrants from Penn., who had accompanied Sullivan in his expedition. They located principally in the valley of the Chemung, at Elmira, Southport, and Big Flats. Soon after, settlements were made at Catlin and Veteran, by immigrants from Conn.; at Erin, by Dutch and Scotch from N. J. and Del.; and at Chemung, by immigrants from Lancaster co., Penn.¹ The portion of the co. lying s. of the Chemung River was included in a royal grant made previous to 1775. The remaining parts of the co. were included in the Watkins and Flint purchase.

BALDWIN²—was formed from Chemung, April 7, 1856. It lies s. e. of the center of the co., and a narrow strip extends to the e. border. Its surface is a hilly upland, broken by the deep valleys of Baldwin and Wynkoops Creeks. The soil upon the hills is a clayey and shaly loam underlaid by hardpan, and in the valleys a gravelly loam. **Hammonds Corners** (North Chemung p. o.) contains a church, tannery, and 18 houses. Henry Sice made the first settlement, a little n. of the village, in 1813, and Warren and Charles Granger settled at the village in 1814.³ The only church in town (Union) was formed in 1852, by Dr. Murdock, the first preacher.

BIG FLATS—was formed from Elmira, April 16, 1822. It lies upon the w. border of the co., s. of the center. Its surface consists of a broken upland in the n. and s., separated by a wide interval or flat, which extends n. e. from the Chemung through the center and gives name to the town. Chemung River receives several small tributaries from the n., the principal of which is Sing Sing Creek. The soil is a slaty loam upon the hills, and a productive gravelly loam in the valleys. Tobacco is raised in considerable quantities upon the flats.⁴ **Big Flats**, (p. v.) situated in the valley near the w. border of the town, is a station upon the N. Y. & Erie R. R. Pop. 180. The first settlement was made by Christian Miner, from Penn., in 1787.⁵ The first church (Bap.) was formed in 1807. Rev. Roswell Goff was the first preacher.⁶

CATLIN—was formed from Catharine, Schuyler co., April 16, 1823. It is the n. w. corner town of the co. The surface is a hilly upland, the highest summits being 200 to 400 feet above the valleys. The principal streams are Post and Sing Sing Creeks and Hubbards Run. The soil is chiefly a gravelly loam, and is best adapted to grazing. There is no village or church in town.

by Mr. Smith until 1831. It was successively issued by Brinton Paine, Cyrus Pratt, Pratt & Beardley, Mason & Rhodes, Geo. W. Mason, and Wm. C. Mason, until 1857, when it passed into the hands of S. C. Taber, by whom it is still published.

The Elmira Republican was commenced in 1820, and in 1828 it was changed to

The Elmira Whig, and published by James Durham. In 1829 it was changed again to

The Elmira Republican, and issued by C. Morgan. It was soon after called

The Elmira Republican and Canal Advertiser. In 1831 it passed into the hands of John Duffy, and its name was changed back to

The Elmira Republican. It was successively issued by Birdsall & Huntley, Ransom & Birdsall, Polly & Carter, Polly & Cook, Polly & Huntley, S. B. & G. C. Fairman, G. C. Fairman, Fairman & Baldwin, Baldwin & Dumas, and ——— Calhoun, until 1857, when it was discontinued.

The Elmira Daily Republican was issued a short time in 1848. *The Daily Republican* was issued from the Republican office from the fall of 1851 to 1855.

The Elmira Advertiser was commenced in 1853 by Fairman Brothers. In 1858 F. A. De Voe became interested in the publication, and the paper is still issued by Fairman & De Voe.

The Elmira Daily Advertiser was commenced simultaneously with the weekly, and is still issued, by the same publishers.

The Elmira Daily Democrat was issued a short time in 1851 by J. Taylor & S. C. Taber.

The Chemung Patriot was published in 1837 at Horseheads by J. T. Bradt.

The Philosopher was commenced at Horseheads, April 7, 1855, by Sam'l C. Taber, and was continued until 1857, when it was merged in

The Elmira Gazette.

The Temperance Gem (mo.) was published a short time at Elmira about 1850.

¹ Lonis Philippe, the Duke de Nemours, and the Duke de Berri, visited Elmira in 1797, having traveled on foot to that place from Canandaigua, a distance of 70 mi. They went down the river to Harrisburgh upon an ark.

² Named from Baldwin Creek, which received its name from Isaac, Walter, and Thomas Baldwin, brothers, who settled at an early period at the mouth of the creek. It was formerly called Butlers Creek. They were attached to Gen. Sullivan's expedition against the Indians in 1778-79, and Walter was wounded at the battle of Newtown.

³ The first child born was Simeon Hammond, and the first death was that of Thos. Wheeler, killed by the fall of a tree. The first school was taught by Polly Blandin, a little n. of the village. D. R. Harris kept the first inn, and Miles Covell the first store, n. of the village.

⁴ In 1850, Sanford Elmoro, from Conn., commenced the cultivation of tobacco in this town, and it has since become a staple product. In 1858 nearly 1000 acres were devoted to it, and 250 tons of the Conn. seed leaf were produced.

⁵ Caleb Gardner and Henry Starell, from Penn., settled on the river below Miner in the same or the next year. Geo. Gardner settled at the village in 1788, Clark Winans on the river in 1789, and John Winters, Jesse and Joel Rowley, and Geo. Gardner, jr., all from Penn., in 1790. The first birth was that of Christian Miner, jr., in 1790; the first marriage, that of Wm. Applegate and Catharine Miner; and the first death, that of T. Dolson. Cornelius McGinnis taught the first school, near the village; John Hay kept the first store, and Capt. Geo. Gardner the first inn at the village. The first gristmill was erected by Robt. Miller, z. of the village.

⁶ The census reports 4 churches; Bap., F. W. Bap., Presb., and M. E.

Catlin Center and **Post Creek** are p. offices. The first settlers were John Martin, from Tompkins co., and Aaron Davenport, from N. J., who located in the s. w. corner of the town.¹

CHEMUNG—was formed Feb. 28, 1789. Elmira was taken off in 1792, Erin in 1822, and Baldwin in 1856. It is the s. e. corner town of the co. Its surface is a hilly upland broken by deep and narrow valleys. Chemung River flows s. e. through the s. part. Wynkoops Creek flows s. through near the center, in a deep valley bordered by steep hillsides. The soil on the uplands is a gravelly loam, and in the valleys gravel mixed with alluvium. Broomcorn and tobacco are largely cultivated. **Breckville**, (Chemung p. o.), on Chemung River, contains a church and 57 dwellings. It is a station on the N. Y. & Erie R. R. **Chemung Center** and **Baldwin** are p. offices. The first settlement was made at Breckville, in 1788, by Elijah Breck, Capt. Daniel McDowell, and William Wynkoop,—the first two from Penn.² The first church (Bap.) was formed in 1790, by Rev. Roswell Goff.³

ELMIRA—was formed from Chemung, as "*Newtown*," April 10, 1792, and its name was changed April 6, 1808. Catharine, Schuyler co., was taken off in 1798, Big Flats and Southport in 1822, and Horseheads in 1854. It is the central town in the co. Ranges of hills occupy the e. and w. borders, and a wide valley extends through the center. The declivities of the hills are generally steep, and their summits are 400 to 600 feet above the valleys. The principal streams are Chemung River, forming the s. boundary, and Newtown and Goldsmiths Creeks. The soil upon the uplands is a gravelly loam, and in the valleys a productive, sandy loam. **Elmira** (p. v.) is situated upon the Chemung, near the center of the s. border of the town. Upon an eminence 2½ mi. e. of Elmira Village is the remains of an ancient fortification. It is protected on one side by the river, and on the other by a deep ravine. An embankment 200 feet long, 14 feet wide, and 3½ feet high still extends along the rear of the fortification, and upon it large trees grew when the whites first occupied the country. It was incorp. as "*Newtown*" March 3, 1815, and its name was changed April 21, 1828. The people are largely engaged in manufacturing⁴ and in commercial pursuits,⁵ for which the location of the place is admirably adapted. Besides the co. buildings, the village contains 3 banks, 1 daily and 2 weekly newspaper offices, 8 churches, and a large number of fine and commodious commercial buildings. It is also the seat of the Elmira Female College,⁶ the Elmira Seminary,⁷ the Elmira Academy,⁸ and a large water-cure establishment.⁹ The public schools are graded and are in a flourishing condition. Pop. 8,308, of which 7,173 are within the limits of the town, and 1,135 in the town of Southport. The first settlement was made by Col. John Hendy and Christian Loop, who located on the present site of the village in 1788.¹⁰ Col. Hendy

¹ Among the other early settlers were N. Swick, Homer Tupper, Edward Beebe, Jacob Bucher, Alanson Owen, John Woolsey, and J. M. Barker, who located in the s. part. Jacob Bucher kept the first inn on Post Creek, and — Ostrander erected the first saw and gristmills on the same stream. Renben Beebe died in the town in 1854, at the age of 105. His widow, Hannah Beebe, was living, 1858, at the age of 105. Mr. Beebe served as a soldier in the Revolutionary army.

² The first marriage was that of Gny Maxwell and Nellie Wynkoop, and the first death, that of Wm. Boeworth. The first inn was kept by Wm. Wynkoop, on Wynkoops Creek, and the first store by Elijah Breck, at Breckville. Epinetus Owen erected the first gristmill, on Wynkoops Creek. Wm. Wynkoop was from Ulster co., and settled at the mouth of the creek bearing his name. Samuel Wallace, the first school teacher, was killed by the Indians.

³ The census reports 4 churches: 2 Union, Bap., and Cong.

⁴ The principal of the manufacturing establishments are as follows:—The Elmira Woolen Manufactory, employing 64 hands, and turning out 230,000 yds. of cloth annually; the Phoenix Furnace Iron Works gives employment to 40 men; the Elmira Ax Factory to 25 men; and a barrel manufactory to 50 men. Besides these, there are several flouring mills, a planing mill, and other establishments.

⁵ An immense lumber trade is still carried on by means of the Chemung River and Canal. The W. & E. R. R. opens a direct communication with the coal mines of Penn., and a large coal-trade is rapidly springing up. The village is also the center of an extensive trade.

⁶ This institution was chartered in 1855, with all the powers and privileges granted to the other colleges in the State. It extends to woman, opportunities for the highest culture. It is beautifully situated upon an eminence a little n. w. of the village. The building is 230 feet long, with an octagonal center 70 feet in diameter and 4 stories high, flanked by 2 wings, each 80 by 50 feet, and 3 stories high, all erected at a cost of \$50,000. The catalogue of 1858 reports 188 pupils in attendance.

⁷ The Elmira Seminary for young ladies, a private institution, has been in successful operation for 11 years, under the management of Miss C. Thurston. The catalogue of 1857 reports 205 pupils.

⁸ The Elmira Academy, once incorp., is now a private institution. It has an endowment of \$10,000. New buildings for the school are in process of erection. In 1859, 262 pupils were reported.

⁹ The Elmira Water-Cure is situated on the hill 1 mi. e. of the village, commanding an extensive view of the valley and surrounding country. It contains accommodations for 110 patients.

¹⁰ Among the early settlers were John Konkke, James Cameron, Wm. Seelye, Nathaniel Seelye, John Muller, Caleb Baker, — Marke, Thomas Hendy, and John J. AcMody. Cornelius Low kept the first inn, in 1791, at *Newtown Point*, and Cyrus Hallenbeck the first store, at about the same time and place. The first gristmill was built by Wm. Dunn and Brinton Parne, at the village in 1791, and the first sawmill, wool carding and cloth dressing mill by Gen. Matthew Carpenter, on the site of the present woolen factory. The following account of the first birth in town was given in the N. Y. Commercial Advertiser:—"One Saturday afternoon, about 4 o'clock, in the summer of 1788, while Col. John Hendy was working on his log house, a man and woman, both on horseback, emerged from the Indian pathway and crossed the Newtown Creek to his land. The man rode before, with a basket on each side of his horse, and a child in each basket, while the woman brought up the rear, having on her nag the goods and chattels of the family; for they were man and wife. The husband rode up to Col. H., inquiring with much anxiety if there was a doctor to be found in the vicinity. 'What is the matter?' said the veteran. 'My wife has got hurt by the stumbling of her horse, and wants a doctor as soon as possible,' was the reply. 'That is very unfortunate,' said the Col., 'for there is no doctor in this wilderness.' He had no shelter nor resting place to offer them, save the ground, the pine trees, and the canopy of heaven. They rode on a few rods, and stopped—for they were obliged to stop—under the best shelter they could find. On Sunday morning Col. Hendy met the man in the woods, near the spot where they had conversed before, and, inquiring how his wife was, was answered, 'She is as well as could be expected.' The Col. did not think again of the traveler till Monday, when he sent his son to look after them. The boy returned with the intelligence that they were getting ready to start. 'But how is the woman, my boy?' said he. 'The

was the pioneer in the valley of the Chemung, and one of the most prominent of the early settlers. The first preacher (Presb.) was Rev. Nathan Culver.¹

ERIN—was formed from Chemung, March 29, 1822. A part of Van Etten was taken off in 1854. It extends from near the center of the co. to the n. border. Its surface is a hilly upland broken by the deep and narrow valleys of the streams. The principal streams are Cayuta, Wynkoops, Baker, Baldwins, and Newtown Creeks. Upon Bakers Creek, in the s. part of the town, is a fine sulphur spring. The soil is a medium quality of gravelly loam, and is best adapted to grazing. Considerable lumber is still manufactured, little more than one-third of the surface being under improvement. **Erin, South Erin, and State Road** are p. offices. The first settlement was made in 1817, by Robert Park and John Bonfield.² There are 2 churches in town; Presb. and M. E.

HORSEHEADS³—was formed from Elmira, Feb. 17, 1854. It is an interior town, lying near the center of the co. The surface is rolling and level in the w. and hilly in the e. The summit level of the Chemung Canal at Horseheads Village is 443 ft. above Seneca Lake, and the summits of the hills are 200 to 400 ft. higher. Its principal streams are Newtown and Catharine Creeks. The soil is generally a good quality of gravelly loam. Considerable attention is paid to raising tobacco, and, in 1857, 1000 acres were devoted to this crop. **Horseheads** (p. v.) was incorp. May 15, 1837, as "*Fairport*," and its name was changed April 18, 1845. It contains 2 steam flouring mills, a plaster mill, a gang sawmill, and 3 churches. Pop. 1000. The Chemung navigable feeder from Corning intersects the canal at this place. **Breesport** (p. v.) contains 2 churches and 18 dwellings. The first settlement was made at Horseheads in 1788, by Nathan Huntington.⁴ The first church (Presb.) was formed by Rev. Daniel Thatcher; the first settled minister was Rev. Ethan Pratt.⁵

SOUTHPORT—was formed from Elmira, April 16, 1822. It is the s. w. corner town of the co. Its surface is mostly a hilly upland broken by the deep valleys of the streams. Chemung River, forming most of the n. boundary, is bordered by wide, fertile alluvial flats. Seely Creek, the principal stream, receives as tributaries South, Bird, and Mud Lick Creeks; Hendy Creek flows along the n. border. The soil upon the hills is a slaty loam, and in the valleys a fine quality of gravelly loam. **Wellsburgh**, (p. o.) on the Chemung, in the s. e. corner of the town, contains 2 churches and several mills and manufacturing establishments. It is a station on the N. Y. & E. R. R. Pop. 365. **Southport** (p. v.) contains 2 churches, 2 mills, a woolen factory, and 44 houses. **Webbs Mills** (p. o.) is a hamlet, and **Seely Creek** is a p. o. The 3d ward of **Elmira**, containing a pop. of 1135, is on the s. bank of the Chemung in this town. The first settlement at Wellsburgh was made by Green Bentley in 1788 and Abner and Henry Wells in 1789. Abraham Miller located at Southport in 1789.⁶ The first church (Bap.) was formed at Wellsburgh, in 1790; Rev. Roswell Goff was the first preacher.⁷ On an eminence known as Fort Hill, near the Chemung, in the w. part, are the remains of an ancient fortification, supposed to have been French.

VAN ETTEN—named from James B. Van Etten—was formed from Erin and Cayuta, April 17, 1854. It is the n. e. corner town of the co. Its surface is a hilly upland. Cayuta Creek flows

woman, eh? oh, the woman has got a baby; and I guess she wants another basket to put it in." The child whose birth is told above was Clark Winaas, jr. The place was surveyed, in 1788, by Jas. Clinton, Gen. John Hathorn, and John Cantine Cois; and the first lands were sold at 18 pence per acre. In 1790, a council with the Indians was held under a tree on Lake St., just e. of the present site of the courthouse. About 1200 Indians were present. Nathaniel Seely, the first patentee, of Elmira Village, sold to Moses De Witt, who sold to — White; and in 1794 White sold to Guy Maxwell and Saml. Hepburn.

¹ The census reports 8 churches; 2 M. E., Bap., Cong., Presb., Af. M. E., Prot. E., and R. C.

² Among the other early settlers were Jess L. White, Isaac Shoemaker, Alexander and John McKay, Thomas Baker, Wm. and Robert Stewart, John and James Hallebeck, B. Sperry, Thomas Van Houton, Philip Thomas, J. Boye, Robert McDowell and his son Barnum, and Andrew Austin, Joseph, Daniel, and Samuel Vaughn. The first death was that of Mrs. Thomas Baker. The first school was kept on Newtown Creek, and the first sawmill was erected at the same place by J. and J. McMillen.

³ This name was derived from the following incident. While Gen. Sullivan's army was encamped at this place, some 30 or 40 worn-out horses were shot. The Indians afterward gathered the heads and arranged them on the sides of the path, and the locality became known as the Horseheads.

⁴ John Brees (from N. J.) settled at the same place in 1789, and Jonathan S. Concklin, Nathaniel Huntington, Asa Guiderstev, and a family named Gilbert, in 1791. Soon after, a company from Orange co., among whom were James, Ebenezer, and John Sayrs, purchased a tract of 1400 acres, covering the site of the village, and settled on it. The first child born was Susanna Concklin, in 1792; the first marriage, that of Wm. Doon and Mary Sayre; and the first death, that of Susanna Concklin. Amelia Parkhurst taught the first school at the village. Vincent Concklin kept the first inn, in 1822, and Westlick & Duon the first store. The first gristmill was erected by Lewis Brees, E. of the village.

⁵ The census reports 5 churches; 2 M. E., 2 Bap., and 1 Presb. ⁶ Col. Abraham Miller was from Penna. He served with distinction as a captain in the army of the Revolution, and was appointed *First Judge* of Tioga co. by Gov. Geo. Clinton, in 1791. The first birth was that of Eunice Kelsey, and the first death, that of Stephen Kent. The first school was taught by Caleb Baker; the first inn was kept by Wm. Baldwin, and the first store by Wm. and Henry Wells, on the river at Wellsburgh. The first sawmill was erected by Col. Abraham Miller, on a branch of Seely Creek; the first gristmills were erected by David Griswold and Solomon Bovier, and the first factory by Charles Evans, at Southport.

⁷ The census reports 5 churches; 2 Bap., 2 M. E., and Presb.

s. e. through near the center, and receives as tributaries Jackson and Langfords Creeks from the n. and Baker Creek from the s. The soil on the hills is a clay loam, and in the valleys a gravelly loam. **Van Ettenville** (p. v.) contains 3 churches and 20 dwellings; **Cayuta** is a p. o. The first settlements¹ were made along the valley of Cayuta Creek in 1795, by Alexander and Benjamin Ennis, Peter, Jacob, Emanuel, and Isaac Swartwood, from N. J. The first church (Bap.) was formed by Rev. Ebenezer Jayne, the first settled preacher.²

VETERAN—was formed from Catharine, April 16, 1823. It lies on the n. line of the co., w. of the center. The surface is principally a hilly upland. Catharine Creek flows n. along the w. border, affording an abundance of waterpower.³ The other streams are Newtown and Beardsley Creeks. The soil is a clay and gravelly loam of good quality. **Millport** (p. v.) contains 2 churches, flouring and saw mills, and various manufacturing establishments. Pop. 706. **Sullivanville**, (p. v.) in the s. part of the town, contains a church and 155 inhabitants. **Veteran** and **Pine Valley** are p. offices. The first settlements were made at about the commencement of the century,—in the n. part of the town by immigrants from Conn., and in the s. part by immigrants from Penn.⁴ The first church (M. E.) was formed in 1817.⁵

* Formed since 1855.

¹ James Van Etten, John and David Hill, Isaac and Levi Decker, Sam'l, James, Daniel, and Joshua Westbrook, John Lattimore, — Johnson, and — Cramer, all from Delaware River, settled on the Cayuta Flats, at and near Van Ettenville, from 1795 to 1800. Harmon White, (from Litchfield, Conn.) David Jayne and Gabriel Oogden, (from N. J.), settled, in 1802, on a branch of Cayuta Creek. Most of these persons served as soldiers during the Revolution. James Van Etten and Isaac Decker were wounded by musket balls, which they carried to their graves. Flanders & Skauts kept the first store, at Van Ettenville; Isaac Swartwood erected the first gristmill, in 1803; Jacob Swartwood opened the first inn, in 1801. His old sign (still hanging) reads as follows:—

“ You jolly toppers, as you pass by,
Call in and drink; for I know you are dry!
And if you have but half a crown,
You are welcome to my jug, sit down!
Entertainment
by
J. SWARTWOOD.”

² The census reports 3 churches; Bap., F. W. Bap., and M. E.
³ In the summer of 1857 a sudden and destructive flood occurred upon this stream, which swept away every dam upon it, and every lock on the canal from Horseheads to Seneca Lake. The whole valley was flooded; and at Millport and other places the people were obliged to flee for their lives.

⁴ Among the early settlers were E. Mallery and son, Eli and David Banks, and families named of Meeker, Baldwin, and Parsons, from Conn.; Theodore Vallean, D. Shaffer, N. Botsford, and B. Lockeshy, from Penn. Daniel Parsons kept the first inn, on the middle road, and E. Crandell the first store, at Millport. The first sawmill was erected by G. Bennett, on Catharine Creek, below Millport.

⁵ The census reports 3 churches; 2 M. E. and Presb.

DUTCHESS COUNTY.

THIS county was formed Nov. 1, 1683.¹ It was provisionally annexed to Ulster co., and was first represented separately in the General Assembly in 1713. Livingston Manor was taken off, and annexed to Albany co., in 1717; and Putnam co. was taken off in 1812. It lies on the e. bank of the Hudson, about midway between New York and Albany, is centrally distant — mi. from Albany, and contains — sq. mi. Its surface is principally a rolling and hilly upland broken by the deep valleys of the streams. The Taghkanick Mts., extending along the e. border of the co., are 300 to 500 ft. above the valleys and 1000 to 1200 ft. above tide. Their declivities are generally steep, and in some places rocky. A wide valley skirts the w. foot of this range, bounded on the w. by the

Matteawan or Fishkill Mts., a high, broad range which extends n. and s. and occupies the whole central part of the co. A spur from this range extends eastward along the s. border to the Hudson, forming the n. extremity of The Highlands. This range has an average elevation of about 1000 ft. above tide, the highest peaks along the s. border attaining an elevation of 1500 to 1700 ft.² In the s. part of the co. the declivities of these mountains are steep and in many places rocky, but toward the n. they become more gradual, and the country assumes a rolling character, broken by rounded hills. West of this range the surface is a rolling upland, occasionally broken by deep ravines and isolated hills, and terminating upon the Hudson River Valley in a series of bluffs 100 to 180 ft. high. The greater part of the streams that drain the co. are tributaries of the Hudson. They mostly flow in a s. w. direction, and have worn deep valleys through the bluffs that border upon the river. The principal of these streams, commencing upon the n., are the Sawkil, Landimans, Crum Elbow, Fall, Wappingers, and Fishkill Creeks. Sprout Creek is a considerable branch of the Fishkill. The wide valley extending n. and s. through the co., separating the Taghkanick Mts. from The Highlands farther w., is drained by several streams. Ten Mile River flows s. in this valley through Amenia to near the s. line of Dover, where it turns e. and discharges its waters into the Housatonic River, in Conn. It receives Swamp Creek from the s. Croton River takes its rise in the s. part of the valley. Roeliff Jansens Kil flows through a small portion of the extreme n. part of the co. Among the highlands in the central and e. parts are numerous beautiful little lakes, noted for the purity of their waters and the beauty of the scenery immediately about them. The principal rock formation in the co. is the Hudson River slate, which crops out upon the hills and along the courses of the streams. The rock has been quarried at Red Hook for flagging, and in various places for roofing slate.³

A low ridge of metamorphic limestone extends longitudinally through near the center of the valley, which lies at the base of the Taghkanick Mts. and along its course are numerous quarries, from which is obtained a fair quality of marble.⁴ Hematitic iron ore is found in almost inexhaustible quantities along the e. and s. parts of the co., and it has been extensively mined in several places.⁵ Thin veins of galena have also been found, but none have been worked since the Revolution.⁶ Mineral springs are found in several parts of the co., but none of them have acquired notoriety.⁷ Marl and peat beds are scattered over the whole co. The soil is generally a

¹ The act by which this co. was formed defines its original boundaries as follows:—"The Dutchess co. to be from the bounds of the co. of Westchester, on the s. side of the Highlands, along the E. side as far as Roeliff Jansens Creek, and E. into the woods 20 miles."

² Old Beacon, 2 mi. E. of Matteawan Village, is 1470 ft. above tide; and New Beacon, or Grand Sachem, a $\frac{1}{2}$ mi. S. of the same place, is 1680 ft. above tide.

³ A company, styled the "N. Y. Slate Co.," was incorp. March 23, 1810, to continue 15 years; and another, styled the "Dutchess Co. Slate Co.," June 8, 1812, to continue 21 years. The operations of the latter co. were to be confined to Northeast.

⁴ This marble is of the variety called dolomite, and yields upon analysis about 39 $\frac{1}{2}$ per cent. of carbonate of magnesia; but the proportion is not uniform. The principal workings have been in Dover, where a portion of the marble is pure white, fine grained, and capable of receiving a good but not a high polish. Clouded varieties are found in Amenia and Northeast.—*Geol., 1st Dist., p. 68.*

⁵ This ore is generally compact, but in some places it is fibrous. Its cavities are lined with a glossy black surface, and often contain stalaetical and botryoidal concretions of this ore.

⁶ Considerable excavations were made in Northeast in colonial times—it is said as early as 1740—by a company of Germans, who sent the ore to Bristol, Eng. The mines were re-opened during the Revolution, and a few tons of ore were obtained. Traces of lead ore have been also observed in Rhinebeck and Amenia.—*Geol., 1st Dist., pp. 46, 47.* Among the other useful minerals that have been observed in the co. are, graphite, formerly worked to some extent in the Fishkill Mts., oxyd of manganese, and the sulphurets of copper and iron, &c. Besides these are found calcite, asbestus, gibbsite, garnet, staurolite, epidote, feldspar, and tourmaline.

⁷ Inflammable carburetted hydrogen gas is emitted from the bottom of a lake in Northeast, and from a locality $\frac{1}{2}$ of a m. from Ameniaville on the road to Poughkeepsie. A sulphur spring is situated 1 $\frac{1}{2}$ mi. n. w. of Ameniaville.—*Beck's Mineralogy, N. Y., p. 160.*

fine quality of sandy and gravelly loam. Upon the hills in some places it is composed of disintegrated slate, and upon the Hudson River intervals it is a deep, rich alluvium. Agriculture is the leading pursuit, and few crops in the State offer greater attractions to the farmer. The richness and variety of its soil, and its proximity to the New York market, insure a rich return for all agricultural labor. Farming is of a mixed character, all branches being successfully pursued. Sending milk to New York and the raising of improved breeds of cattle have become important branches of business.¹

A considerable amount of manufacturing is carried on in the co., the principal establishments being located at Poughkeepsie and Fishkill, and a large amount of commerce is carried on by means of the Hudson.

The county seat is located at the city of Poughkeepsie. The colonial courthouse and jail was burned in 1785, and a new one was built soon after. This was burned in 1808.² The present building was erected in 1809,³ and contains the courtroom, jail,⁴ clerk's office, and all the usual co. offices except that of surrogate, which is in a small building adjacent. The co. poorhouse is situated on a farm of 107 acres in the town of Poughkeepsie, 1 mi. E. of the courthouse. The average number of inmates is 220, supported at a weekly cost of 95 cents each. The farm yields a revenue of \$1631.⁵ The Hudson River R. R. extends along the E. bank of the Hudson, through Fishkill, Poughkeepsie, Hyde Park, Rhinebeck, and Redhook; and the New York & Harlem R. R. extends along the E. border of the co., through Pawling, Dover, Amenia, and North East. In summer, regular lines of steamers ply between Poughkeepsie, New York, and Albany.

One daily and seven weekly papers are now published in the co.⁶

¹ In cultivated area Dutchess co. is excelled only by Jefferson, Oneida, Otsego, and St. Lawrence cos.; and in cash value of farms by Monroe and Westchester co. Over 2,000,000 gallons of milk are sent annually to the N. Y. market.

² A courthouse and jail were first ordered to be built July 21, 1715; but they do not appear to have been completed until 30 years afterward. In 1760, an act authorized the conversion of a jury room into a jail, and 4 years after money was raised to complete the arrangement. The act of April 11, 1755, appropriated the sum of £1500 to re-construct the buildings, which had been destroyed by fire, and Cornelius Humfrey, Peter Tappen, and Gilbert Livingston were appointed a building committee. A further tax of £2000 was ordered in 1786, and of £1300 in 1787. In the mean time, prisoners were sent to the Ulster co. jail. By act of March 19, 1778, the sheriff's mileage was to be reckoned from the house of Myndert Velle, in Beekman's Precinct.

³ The act for the re-construction of these buildings was passed March 24, 1809, and \$12,000 was raised for that purpose. Jas. Talmadge, John E. Van Wyck, and John Van Benthuysen were appointed building commissioners. The next year, \$13,000 additional was raised, and the building was completed soon after. It is a stone edifice, 50 by 100 ft. The first deed on record was entered Dec. 26, 1718, conveying property from Henry Van De Bort to Capt. Barent Van Kleefck, and others.

⁴ The condition of the jail was represented by the Senate Committee of 1856 as extremely unfit for its purpose and unhealthy to its inmates.

⁵ The buildings are large, and can accommodate 350 inmates. The sexes are kept separate, and an asylum is provided for lunatics. A school is taught during the whole year, and religious worship is regularly conducted.

⁶ The *New York Journal*, first established in the city of New York by John Holt in 1734, was removed to Poughkeepsie in 1776, in consequence of the British occupation. In 1778 it became the first State paper under the new Government; and on the 11th of April, 1785, its name was changed to

The Poughkeepsie Journal, published by Nicholas Power. In 1786 its name was changed to

The Country Journal and Poughkeepsie Advertiser; and in 1789 to

The Country Journal and Dutchess and Ulster Family Register. In 1808 it was sold to Paraclete Potter, who changed it to

The Poughkeepsie Journal and Constitutional Republican. In 1812 it was changed to

The Poughkeepsie Journal, and in 1834 Jackson & Schram became the proprietors. In 1844 it was united with *The Eagle*, and was issued as

The Journal and Poughkeepsie Eagle. In 1850 the name was changed to

The Poughkeepsie Eagle, under which title it is still published by Platt & Schram.

The New York Packet and American Advertiser, published by Sam'l London, was removed from New York when the British took possession of the city, and was first issued at Fishkill Oct. 1, 1776. It was removed to New York again after the close of the war.

The American Farmer and Dutchess County Advertiser was commenced in Aug. 1798, by John Woods, and was continued a short time.

The Barometer, commenced in May, 1802, by Isaac Mitchell, was changed to

The Political Barometer in 1806, and was published by Thomas Nelson. Its name was changed to

The Northern Politician, and it was soon after discontinued. *The Farmer* was published at Poughkeepsie in 1806-07.

The Republican Herald was started in Nov. 1811, by Derick E. Stockholm and Thos. Brownjohn. It was continued until 1823 under the charge of Johnston Verplauk & Wm. Orr.

The Dutchess Observer was first started May 10, 1815, by Chas. P. Barnum & Richard Nelson. Nicholas Jaycocke, Nathan Myers, Jr., and Orrin Osborne were successively interested in the publication until 1826, when the paper was united with *The Telegraph*, and issued as

The Poughkeepsie Telegraph and Observer. It was successively under the charge of Chas. P. Barnum, Egbert B. Killey, Aaron Low, and Benson J. Lossing. In 1841 it was changed to

The Telegraph, and was published by Killey & Lossing. Albert S. Pease & E. K. Olmsted were afterward interested in its publication; and in 1852 it was united with *The Democrat*, and was issued as

The Poughkeepsie Telegraph and Dutchess Democrat, now published by Osborne & Killey.

The Republican Telegraph was first issued May 5, 1824, by Wm. Sands & Isaac Platt. In 1826 it was united with

The Observer.

The Dutchess Intelligencer was first issued April 30, 1828, by Chas. F. Ames & Fred. T. Parsons. It was afterward published by Platt & Parsons and Isaac Platt until 1835, when it was united with

The Republican, and was issued as *The Intelligencer and Republican*, published by Platt & Ramsey.

In 1834 the name was changed to

The Poughkeepsie Eagle; and in 1844 it was united with *The Journal*.

The Dutchess True American was published at Poughkeepsie in 1828, by Peter K. Allen.

The Dutchess Inquirer was started in Aug. 1829, by Pet. K. Allen. In 1830 it was changed to

The Anti Mason. It was under the charge of John M. Vethake and Stephen Butler until 1831, when it was discontinued. It was soon after revived by Eliphaiz Fay, and was issued a short time as *The Independence*.

The Dutchess Republican was started in Aug. 1831, by Thos. S. Ranney. In April, 1833, it was united with *The Intelligencer*.

The Poughkeepsie Casket was published by Killey & Lossing in 1836.

The Branch was issued a short time in 1836 by Jos. H. Jackson.

The Youth's Guide (semi-mo.) was issued in 1837 by Isaac Harrington, Jr.

The Thomaston (medical) was issued at Poughkeepsie in 1840 by Thos. Lapham.

The Free Press was started at Fishkill in 1841 by Fred. W. Ritter. In 1842 it was removed to Poughkeepsie; its name was changed to

The Dutchess Free Press, and was continued until 1844.

The Temperance Lifeguard was started at Poughkeepsie in 1843 by G. R. Lyman, and was continued 2 or 3 years.

The first settlements in the co. were made by the Dutch at Rhinebeck and Fishkill before 1690.¹ Other settlements were made along the river in 1700; but for some years the progress of growth was very slow. About 1720 a considerable number of settlers came in; and from that time the settlements increased rapidly until all the lands of the co. were taken up.² Among the early settlers were considerable numbers of French Huguenots, who had fled from the persecutions that followed the revocation of the Edict of Nantes. A portion of the co. was settled upon leaseholds, which here, as elsewhere, led to much difficulty.³ The first civil divisions were established in 1737.⁴

This co. comprises the greater part of the Oblong,⁵ Great and Little Nine Partners, Beekmans, Rumbouts, and Schuylers Patents.⁶ In 1777, the co. for a short time was in possession of the British, and for a considerable time during the Revolution it was the seat of the colonial convention and legislature. By an act of April 11, 1808, semi-annual fairs of sale were directed to be held in this co. under the management of five commissioners to be appointed by the judges of Common Pleas.⁷

AMENIA⁸—was formed March 7, 1788. It lies on the e. border of the co., n. of the center. The Taghkanick Mts. extend along the e. border, and the highlands belonging to the Fishkill Range extend through the w. part. The wide valley separating these two ranges occupies the central portions. The declivities of the mts. are often steep, and their highest summits are 300 to 500 feet above the valleys. Amenia Station, on the Harlem R. R., is 540 feet above tide. The

The Anti Bank Democrat (mo.) was issued from the office of The Free Press in 1843.

The American was started in Nov. 1845, by Augustus T. Cowman. It was soon changed to

The Poughkeepsie American, and was published by Isaac Tompkins and Elias Pitts until 1855, when it was sold to E. E. Osburne, and changed to

The Dutchess Democrat. In 1856 it was united with *The Telegraph*.

The Safeguard (Temperance) was issued in 1845 by Wm. Patton.

The Daily City Press was commenced at Poughkeepsie, May 1, 1862, by Nichols, Bush, & Co. It was soon after changed to

The Daily Press, under which name it is still issued by its original proprietors.

The Independent Examiner was started in Feb. 1855, by Henry A. Gill, and was discontinued in 1858.

The American Banner was started at Poughkeepsie in 1856 by Chas. J. Ackert. In 1857 it was removed to Fishkill, and was changed to

The Dutchess Co. Times, under which name it is still published by J. Carpenter Mills.

The Fishkill Standard was started Aug. 2, 1842, at Fishkill Landing, by Wm. R. Addington, and is still issued by him.

The Fishkill Journal, started in 1853 by H. A. Guild, was discontinued in 1855.

The American Mechanic was started at Poughkeepsie in 1849 by Geo. W. Clark. In 1850 it was removed to Rhinebeck, and was united with *The Gazette*, under the name of

The American Mechanic and Rhinebeck Gazette. It was soon changed to

The Rhinebeck Gazette and Dutchess County Advertiser. It was successively issued by Edward M. Smith and L. R. Blanchard, and is now published by Wm. Luff.

The Rhinebeck Gazette was established in 1846 by Smith & Carpenter, and in 1850 was united with *The Mechanic*.

The Rhinebeck Advocate was published by Robert Marshall in 1840. It was subsequently changed to

The Dutchess County Advocate, and was discontinued about 1850.

The American Citizen was commenced June 12, 1858, at Rhinebeck, by Geo. W. Clark, and is still published by him.

The True Balance, a campaign paper, was published at Rhinebeck by C. J. Ackert in 1858.

The Amenia Times was started at Amenisville, April 7, 1852, under the charge of Joel Benson. It was subsequently issued by H. Livingston & Co., and Palmer, Vail & Co. In April, 1858, it became the property of J. W. Dutcher, and is still issued by him.

¹ The following copy of a letter, now in possession of T. Van Wyck Brokerhoff, of East Fishkill, throws some light upon the early history of the co. "In the year 1823, I saw Isaac Upton, a cooper, from Newport, who informed me that about 1760 he came up the North River to Poughkeepsie, and, in company with another person, went to Mahliht's store, in Washington, on business. That, on their return, they took a circuitous route from Pleasant Valley, and passed a German by name of Hoffman, who was then 118 years old. He supposed himself to be the first white settler in Dutchess co.; and that, when young, he deserted from a Dutch ship of war in New York, squatted where he then lived, built him a shanty, and lived a number of

years a solitary life without being able to find a white woman for a wife; that afterward, finding a German family at Rhinebeck, he married, and had lived where he then was to that advanced age. I was informed that he died two years afterward, at 120 years. (Signed) PAUL UPTON."

² Smith, in his history, written in 1782, says of this co., "The only villages in it are Poughkeepsie and the Fishkill, though they scarce deserve the name. The inhabitants on the banks of the river are Dutch, but those more easterly, Englishmen, and for the most part immigrants from Conn. and Long Island. There is no Epist. church in it. The growth of this co. has been very sudden, and commenced but a few years ago. Within the memory of persons now living, it did not contain above 12 families; and according to the late returns of the militia it will furnish at present above 2500 fighting-men."—*Hist. N.Y., Ath. Ed.*, p. 304.

³ In 1766, the district now embraced in Rensselaer, Columbia, and Dutchess cos. was involved in a domestic war, arising from the conflicting jurisdiction of adjacent colonies and resistance to the claims of proprietors. In June of that year, the sheriff of Albany Co., with 105 men, went to a house on the moor to disperse a band of rioters, 60 in number. Several shots were exchanged: Cornelius Ten Broeck, of Claverack, was killed, and 7 others of the militia were wounded. Three of the rioters were killed, and many wounded, among whom was Capt. Noyes, one of their leaders. In July, the 25th Regiment was ordered into Dutchess co., to quell riots; and a small body of light infantry was soon after fired upon, and 3 were wounded. One Pendergrast, a leader, was taken, tried before Judge Horsmadsen for high treason, and sentenced to be executed, but was afterward pardoned. Fifty to 60 others were fined, imprisoned, or pilloried. Soon after the sentence of Pendergrast, an advertisement was issued, offering a good reward to any one willing to assist as the executioner, and promising disguise against recognition and protection against insults.—*Dunlap's Hist. N.Y., II., Appen. CXIII.*

⁴ By an act of the General Assembly, passed Dec. 16, 1737, this co. was divided into 3 divisions. The s. division extended from below the Highlands to Wappingers Creek; the middle division from the latter, n. to Clloe Sopas Island, (Little Esopus Island;) and the n. division from this point to the n. bounds of the co. Each of these divisions elected a supervisor. The subsequent formation of precincts is mentioned under the several towns.

⁵ The Oblong, a tract 580 rods wide, extending across the e. border of this co. and Putnam, was mostly granted to Thos. Hawley and others, in 1731; South, Beekman, Crum Elbow, and North Precincts were extended across to the Conn. line. Dec. 17, 1743. The patent was divided into lower, middle, and upper districts, March 9, 1774, to facilitate the collection of quitrents.

⁶ Several of these patents were granted as follows: Rumbout, to Francis Rumbout and others, Oct. 17, 1685; Great or Lower Nine Partners, to Caleb Hesthote and others, May 27, 1697; Rhinebeck, to Henry Beekman, June 5, 1703; Little or Upper Nine Partners, to Sampson Boughton and others, April 10, 1706. All these lots were to be supported by a tax of 1 per cent on 7 sales, one-half to be paid by the purchaser and one-half by the seller.

⁸ According to Benson, this term was applied by Young, the American poet, in his "*Conquest of Quebec*," in a description of the several provincial troops employed in that campaign. The precinct of this name was formed from Crum Elbow Precinct, March 23, 1762, and included a part of Amenia and North East, and the whole of Washington, Pleasant Valley, Stanford, Clinton, and Hyde Park.

principal streams are Wassaic Creek and Weebotuck or Westbrook and their tributaries. A low range of metamorphic limestone extends n. and s. through near the center of the valley.¹ Iron ore has been extensively mined in the highlands w. of the valley.² The soil is a clayey and sandy loam. **Amenia**, (Amenia p. o.) n. of the center of the town, contains the Amenia Seminary,³ 3 churches, and 30 houses. It is a station upon the Harlem R. R. **The City**, (City p. o.) in the n. w. corner, contains a church and 17 houses; **Wassaic**, (p. v.) a r. r. station, a furnace, sash and blind factory, and 18 houses; **Amenia Union**, (p. v.) upon the Conn. line, 2 churches, a woolen factory, and 30 houses;⁴ and **South Amenia** (p. v.) a church and 14 houses. **Leedsville** (p. o.) is a hamlet near the e. border. The first settlement was made in 1711, by Richard Sackett, an old sea captain. He purchased large tracts of the Indians in this town and in Sharon, Conn., but failed of getting his title recognized by the crown, and died in poverty in 1748 or '49.⁵ During the Revolution a furnace and foundry for the manufacture of steel for the use of the army was established about 1 mi. s. of Wassaic. The site, known as "The Steel Works," is still covered by coal dust and cinders. There are 7 churches in town.⁶

BEEKMAN—was formed as a town, March 7, 1788.⁷ A part of "Freedom" (now La Grange) was taken off in 1821, and a part of Union Vale in 1827. It lies in the s. e. part of the co.,—one corner extending to the s. border. Its surface is a hilly and broken upland. Pleasant Hill, on the n. border, is the highest summit. Limestone and slate crop out on the summits and declivities of nearly all the hills. The streams are small creeks and brooks tributaries of the Fishkill, and are bordered by wide, fertile intervalles. Silver Lake is a fine body of water near the w. line.⁸ Iron ore is found s. of this lake.⁹ The soil is a productive, gravelly loam. **Green Haven**, (p. v.), near the w. border, contains 1 church and 18 dwellings; **Beekmanville**, (Beekman p. o.) near the center, 1 church and 12 dwellings; **Poughquag** (p. v.) 2 churches and 15 dwellings; and **Beekman Furnace**, on the n. line, an iron manufactory and 10 houses.¹⁰ The first settlements are supposed to have been made about 1710; but the early records are lost. A. Delong located in 1716, and kept an inn at an early day. Rt. Rev. Alonzo Potter, Bishop of Penn., and his brother, Rt. Rev. Horatio Potter, Provisional Bishop of the Diocese of N. Y., were natives of this town. There are 4 churches in town.¹¹

CLINTON¹²—was formed from "Charlotte" and Rhinebeck Precincts, March 13, 1786. Hyde Park and Pleasant Valley were taken off in 1821. It is an interior town, lying n. w. of the center of the co. Its surface is a rolling upland considerably broken by hills in the n. and w. Shultz Mts., on the n. border, and Sippe Barrack, in the w., are the highest points.¹³ Wappingers Creek, the principal stream, flows s. through near the center. Crum Elbow Creek forms a portion of the w. boundary. Several small lakes, the principal of which is Long Pond, lie in the n. part. The soil in the n. is a sandy loam, and in the center and s. it is a productive, slaty loam. **Clinton Hollow**, (p. v.), near the center, contains 25 houses, **Clinton Corners** (p. v.) 25 houses, **Shulkyville** (p. o.) a gristmill and 10 houses, and **Pleasant Plains** (p. o.) a church and 8 houses. The first settler is supposed to have been Derrick Van Vliet, who located about 1755. He kept an inn in 1775. There are 3 churches in town; Friends, Presb., and Prot. E.

DOVER—was formed from Pawling, Feb. 20, 1807. It lies on the e. border of the co., s. of the center. The e. and w. borders are occupied by hills and mts., and the center by a deep, wide valley. The valley is about 400 feet above tide, and the summits of the hills are 300 to 500 feet higher. Ten Mile River flows s. from the n. line to near the s. boundary, thence turns e. and discharges its waters into the Housatonic. It receives from the s. Swamp River, a stream that is

¹ This limestone is of a bluish color, hard and brittle; and where it crops out it is considerably disintegrated, covering the ground in the immediate vicinity with a white sand.

² An ore bed $\frac{1}{2}$ mi. w. of Ameniaville has been extensively worked for 25 or 30 years, and the supply of ore seems inexhaustible. Another ore bed has been opened 2 mi. n. w. of Wassaic, and another near the n. line of the town.

³ This institution has been under the charge of the M. E. denomination.

⁴ 1 church, the woolen factory, and about half of the buildings are in Conn.

⁵ Mr. Sackett was connected with the Livingstons in the settlement of the Palatinates at "German Camp," (now German-ton, Columbia co.) Ulric Winegar and his son, Capt. Garrett, were the next families. They removed from "German Camp" in 1724 and settled on the Ohlong tract. The father died in 1754, aged 102 years. — Delamater settled soon after the Winegars, n. w. of Amenia Union. Henry Nase, Stephen Hopkins, Joel Gillett, Hez. King, Abm. and Joshua Fains, J. Howe,

and Elisha Kinney settled previous to 1743. After this time the town rapidly filled up with settlers, mostly from New England. The first mill is supposed to have been built by John Delamater, at Leedsville, and the first inn to have been kept by Michael Hopkins, near the center of the town.

⁶ 3 Presb., 2 M. E., and 1 each Bap. and Prot. E.

⁷ The town embraced the land granted to Col. Henry Beekman. Beekman Precinct was formed Dec. 16, 1737, and Pawling's Precinct was set off in 1768.

⁸ The Indian name for this lake is A-po-qua-gue, signifying round lake.

⁹ Ore from this bed is extensively mined and taken to Poughkeepsie and Fishkill Furnace.

¹⁰ The furnace at this place is supplied with ore from Unionvale: 700 tons of iron are annually produced.

¹¹ Bap., M. E., Prot. E., and Union.

¹² Named from Geo. Clinton, first Governor.

¹³ A slate quarry was formerly worked at the n. extremity of the Shultz Mts.; but it is now abandoned.

bordered by swamps upon the greater part of its course. The limestone ridge extends n. and s. through the center of the principal valley. Along its course several marble quarries have been opened.¹ Iron ore is found in abundance.² The soil is a fine quality of sandy, gravelly, and slaty loam. The small streams flowing from the w. hills have worn deep ravines, and in several places form beautiful cascades. The most noted of these is known as "Dover Stone Church."³ **Dover Plains**, (Dover p. o.), a r. r. station, in the n. part of the town, contains 3 churches, a gristmill, and plaster mill. Pop. 375. **South Dover**, (p. v.), on Ten Mile River, contains 2 churches, a grist and saw mill, and 30 houses. **Chestnut Ridge** (p. o.) and **Wing Station** (p. o.) are hamlets. The first settlements are said to have been made by the Dutch from the river towns. Among the early settlers are found the names of Knickerbacker, Osterhout, Dutcher, and Van Duzen. The first settlers upon the Oblong tract were from Conn. The first church (Ref. Prot. D.) is said to have been formed about 1770.⁴

EAST FISHKILL—was formed from Fishkill, Nov. 29, 1849. It is the center town upon the s. border of the co. Its surface is mountainous in the s. and e. and hilly in the n. and w. The highest points of the Fishkill Mts., in the s., are 1000 to 1200 ft. above tide.⁵ The principal streams are the Fishkill and its tributaries, Wortel Kil and Sprout Creek. Black Pond is a small sheet of water near the s. line. The intervals along the streams are generally wide, and bordered by steep hillsides in the s. and more gradual slopes in the n. The soil is a gravelly loam. Fattening cattle for the New York market is one of the leading pursuits. **East Fishkill**, (p. v.), near the center, contains a grist and saw mill and 15 houses; **Johnsville**, (p. v.), near the w. border, 1 church and 14 houses; **Stormville**, (p. v.), in the e. part, 20 houses; **Fishkill Plains**, (p. v.), in the n. w., 1 church and 15 houses; and **Shanandoah Corners**, in the s., a church and 15 houses. **Pecksville**, **Hopewell**, (Adriance p. o.), and **Fishkill Furnace**⁶ are hamlets. The first settlers were Genet, Geo. and Isaac Storm, about the year 1730; Cornelius Wiltsie and Isaac Adriance came in about 1740. There are 4 churches in town.⁷

FISHKILL—was formed as a town, March 7, 1788. A part of "Freedom" (now La Grange) was taken off in 1821, and East Fishkill in 1849. A part of Philipstown (Putnam co.) was annexed March 14, 1806. It lies upon the Hudson, in the s. w. corner of the co. Its surface is mountainous in the s. and hilly in the n. The Fishkill Mts., extending along the s. border, are high, rocky, and precipitous. Old Beacon and Grand Sachem, in the s. e. corner, the highest summits, are respectively 1471 and 1685 ft. above tide. A break in these mountains, in the e. part, opening toward the s., is known as the Wicoppee Pass.⁸ The Fishkill flows s. w. through near the center of the town, skirting the foot of the mountains and separating them from the hilly region in the n. w. Wappingers Creek forms the w. boundary. A high rolling ridge lies between these two streams, and the highest point is Mt. Hope, 1000 ft. above tide, near the e. border.⁹ Sprout Creek, a tributary of the Fishkill, forms a portion of the e. boundary. A series of bluffs, 150 to 200 ft. high, extends along the river, broken by the valleys of the streams. The soil is a clay and gravelly loam. **Fishkill Landing**, (p. v.), on the Hudson, opposite Newburgh, contains a newspaper office, 2 machine shops, and 4 churches. Pop. 1100. It is a r. r. station and steamboat landing, and is connected with Newburgh by a steam ferry. **Matteawan**, (p. v.) on Fishkill Creek, 2 mi. above the landing, is an important manufacturing village. It was formerly the seat of extensive cotton mills; but these have mostly been converted to other purposes.¹⁰ It contains 4

¹ The principal quarries are between Dover Plains and South Dover.

² White's ore bed, 3 mi. n. w. of South Dover, has been extensively worked, and the ore produced is of good quality. The Dover Iron Works formerly did an extensive business; they closed about 2 years since. White's Furnace, halfway between South Dover and Dover Plains, is making 5 to 6 tons of iron per day.

³ This ravine is about a $\frac{1}{2}$ mi. w. of Dover Plains. It is 20 to 25 feet wide at the bottom and 1 to 3 feet at the top, and the rocks that border it are 40 to 60 feet high. It extends into the hill 30 to 40 feet, and at its farther extremity the stream flows from the mountain above in a succession of rapids. The name was given in consequence of its resemblance to the Gothic arch. In another ravine, about $\frac{1}{2}$ mi. s. of Stone Church, are the "Wells." A small stream here flows down from the mountain in a succession of rapids 3 to 12 feet in height; and at the foot of each fall smooth, rounded holes, called the Wells, have been worn in the rocks to the depth of 3 to 8 feet. The holes occupy the whole width of the bottom of the ravine, and the rocks on each side are shelving and slippery, rendering a near approach difficult and dangerous. These two localities are frequently visited by the lovers of nature during the summer season.

⁴ This is now a Union church. A Friends meeting house was built here about the same time.

⁵ The highest point on the s. border is locally known as "Wicoppee," or "Long Hill," and the highest on the e. border as "Looking Rock."

⁶ A furnace at this place manufactures $\frac{1}{2}$ jd iron from the ore. It employs 40 hands, and makes about 400 tons of iron per annum. The ore is obtained from the mine near Silver Lake, in Beekman. A mine on the e. line, after being worked 20 years, was exhausted.

⁷ 2 Bap., M. E., and Ref. Prot. D. The last named has an endowment of \$5000.

⁸ This pass was carefully guarded during the Revolution, to prevent the British from turning the American works at West Point. A considerable American force was stationed at its upper extremity during the campaign of 1777.

⁹ Mt. Hope is $\frac{1}{2}$ mi. s. of Myers Corners. A beautiful and extended view is obtained from its summit. A beacon has been erected here by the Coast Survey, to serve as a point in the triangulation of the Hudson River Valley.

¹⁰ Among the most important of these are the following:—"The Seamless Clothing Manuf'g Co.," incorp. with a capital of \$50,000. It gives employment to 95 hands, and turns out \$350,000 worth of goods annually. The Matteawan Machine Works, incorp. with a capital of \$100,000, gives employment to 200 hands, and turns out annually goods to the amount of \$500,000. J. Rothey's file factory employs 70 hands, and manufactures goods to the

churches. Pop. 1476. **Wappingers Falls**, (p. v.,) at the head of navigation on Wappingers Creek, $1\frac{1}{2}$ mi. from the Hudson, lies partly in Poughkeepsie. It is largely engaged in manufacturing.¹ Wappingers Creek here falls 75 feet, furnishing an excellent water power. The village contains 4 churches. Pop. 1819, of which 1139 are in this town. **Hughsonville**, (p. v.,) $1\frac{1}{2}$ mi. s. of Wappingers Falls, contains a church and a steam saw and grist mill. Pop. 245. **New Hackensack**, (p. v.,) in the n. part, contains 1 church and 15 dwellings; **Fishkill**, (p. v.,) near the center, contains the Fishkill Seminary, the Fishkill Collegiate Institute, 2 private schools, a newspaper office, a bank, savings' bank, 3 churches, and 130 dwellings. **Glenham**, (p. v.,) $2\frac{1}{2}$ mi. below Fishkill, contains a woolen factory,² 3 churches, and 75 dwellings. **Carthage Landing**, (p. v.,) on the Hudson, 5 mi. above Fishkill Landing, contains 1 church and 30 dwellings. **Myers Corners**, **Swartoutville**, and **Brinkerhoffville** are hamlets. The first settlement is supposed to have been made before 1690. The earliest records, dated in 1697,³ are papers relating to lands. The town lies within the tract granted to Francis Rumbout and others, Oct. 17, 1685.⁴ In colonial times it formed a part of the Rumbout and Fishkill precincts. The first constitutional convention held a session in this town in the fall of 1776. There are 22 churches in town.⁵

HYDE PARK⁶—was formed from Clinton, Jan. 26, 1821. It lies upon the Hudson, a little n. of the w. border of the co. Its surface is principally a rolling and moderately hilly upland, terminating on the Hudson in a bluff 80 ft. high. Hog and Lloyds Hills, in the n. part, each about 500 ft. above the river, are the highest points in town. The principal streams are Crum Elbow Creek, and Fall Kil, tributaries of the Hudson. The soil is a sandy and gravelly loam underlaid by slate. **Hyde Park**, (p. v.,) finely situated upon an eminence half a mi. e. of the river, contains 4 churches, a gristmill, and 692 inhabitants. **Staatsburgh** (p. v.) is a R. R. station and hamlet in the n. part of the town; **Union Corners** and **Hyde Park Landing** are hamlets. Numerous elegant residences, occupying splendid sites, have been erected along the banks of the river. The first settler is supposed to have been Jacobus Stoughtenburgh, the owner of one of the nine "water lots;" he came to the town about 1720. Gov. Morgan Lewis formerly resided upon the place now occupied by Hon. J. K. Paulding. The census reports 7 churches in town.⁷

LA GRANGE⁸—was formed from Beekman and Fishkill, as "*Freedom*," Feb. 9, 1821. Its name was changed in 1828. A part of Union Vale was taken off in 1827. It is an interior town, lying s. w. of the center of the co. Its surface is a rolling and moderately hilly upland. Sprout Creek, the principal stream, flows s. through near the center. Wappingers Creek forms the w. boundary. The valleys of these creeks are broad and very fertile. The soil is a gravelly loam. **La Grangeville**, (p. v.,) in the s. e. part, contains 2 gristmills and 14 houses; and **Freedom Plains**, (p. v.,) near the center, a church and 14 houses. **Sprout Creek** (p. v.) is a hamlet in the s. part. **Manchester Bridge**, (p. o.,) on the w. line, is mostly in Poughkeepsie. **Arthursburgh** (p. o.) is a hamlet in the s. corner. The first religious society (Friends) was formed before 1800. There are 2 churches in town; Friends and Presb.

MILAN⁹—was formed from Northeast, March 16, 1818. It lies on the n. border of the co., w. of the center. Its surface is a hilly upland broken by the deep valleys of the streams. The declivities are generally gradual slopes, and the hills are arable to their summits. Roeliff Jansens Kil crosses the n. e. corner. The other streams are small and are bordered by fertile intervals. The soil is a clayey, gravelly, and slaty loam. **Jacksons Corners**, (p. v.,) on Roeliff Jansens

amount of \$45,000 annually. Wicopees, $\frac{1}{2}$ mi. below Matteawan, was the seat of the Wicopees Color Mills, since changed to the New York Rubber Co., engaged in the manufacture of rubber toys. This co. has a capital of \$125,000, employs 125 men, and turns out \$100,000 to \$150,000 worth of goods per year.

¹ The Dutchess Printing Co., incorp. with a capital of \$300,000, employs 300 hands, and produces \$750,000 worth of prints per annum. The Franklin Dale Manuf'g Co., incorp. with a capital of \$150,000, employs 250 hands, and turns out \$150,000 worth of printing cloths per annum. There are, besides, a foundry, comb factory, and numerous machine shops. A large cotton factory was burnt here a few years since, and has not been rebuilt.

² The Glenham Woolen Co., incorp. with a capital of \$75,000, employs 175 hands, and turns out \$275,000 worth of goods annually. It was first started in 1811.

³ The first mill was erected at the month of Fishkill, some time before 1709. A ferry to Newburgh was authorized in 1743.

⁴ The house now occupied by Hon. Isaac Teller and his sisters at Matteawan—one of the first built in town—belonged to Roger Bratt, a son-in-law of Rumbout. It was built about 1710. The house is one story, 87 by 36 ft., the sides and roof covered with cedar shingles. It was often filled with officers and soldiers

in the Revolution, and salt was stored in its cellar for the army.

⁵ The first church (Ref. Prot. D.) was formed at Fishkill Village early in the last century; but the precise date cannot be ascertained. The earliest church records bear date of Sept. 30, 1727. Rev. Dr. De Witt supposed that the church was formed as early as 1716. The present edifice was built in 1786, in the place of one built in 1731. The old church was used for barracks by the America army during the Revolution. A parsonage lot, held in common by this church and the one at "*Hopewell*" and Hackensack, was sold Feb. 17, 1806. The present churches are as follows:—Presb., M. E., Ref. Prot. D., and Af. Meth. at Fishkill Landing; Presb., Prot. E., Prot. Meth., and R. C. at Matteawan; M. E., Ref. Prot. D., and Prot. E. at Glenham; M. E., Ref. Prot. D., and Prot. E. at Fishkill; M. E., Prot. E., and Bap. at Wappingers Falls; Presb. at Brinkerhoffville; M. E. at Carthage Landing; Presb. at Hughsonville; and Ref. Prot. D. at New Hackensack.

⁶ Named by Dr. John Bard from Hyde Park, London.

⁷ Prot. E., M. E., Bap., Presb., Ref. Prot. D., R. C., and Friends.

⁸ Named from La Fayette's residence in France.

⁹ This town is included in the tract known as the "Little Niou Partners."

Kil, in the n. e. corner, contains 1 church and 25 houses; **Rock City**¹ (p. v.) a grist and saw mill and 20 houses; **Milanville** (Milan p. o.) 12 houses; and **La Fayetteville** (p. v.) 16 houses. **Shookville** and **Thornville** are hamlets. The first settlements were principally made by tenants under the original proprietors, about 1760,² and a large share of the land is still held by leasehold tenure. The first church (M. E.) was formed about 1790. The census reports 4 churches.³

NORTHEAST⁴—was formed as a town, March 7, 1788. Milan was taken off in 1818, and Pine Plains in 1823. It is the n. e. corner town of the co. A tongue of land $1\frac{1}{2}$ mi. wide, upon the e. border, extends 4 mi. n. of the remaining part of the town. The surface is a hilly and broken upland. The Taghkanick Mts., extending along the e. border, are rocky and broken, and are 1000 to 1200 ft. above tide. The highest point in the valley w. of the mountains, forming the summit level of the N. Y. & H. R. R., is 771 feet above tide. Weebotuck Creek, the principal stream, flows s. through nearly the whole length of the town. Chekomiko Creek flows n. through the w. part. Indian Pond, on the e. line, Round Pond, on the s. line, and Red Pond are the principal bodies of water. The valleys have generally a gravelly and clayey soil, but the hills in many places are rocky and fit only for pasturage. An extensive bed of iron ore has been opened 1 mi. n. e. of Millerton, near the Conn. line.⁵ **Northeast Center** (p. v.) contains 2 churches and 20 houses; **Millerton**, (Northeast Station p. o.,⁶) a r. r. station, 1 church and 27 houses; and **Spencers Corners** (Northeast p. o.) a church and 12 houses. **Coleman Station** is in the s. part. **Federal Store** is a p. o. The pioneer settlers were mostly from Conn., and located here from 1725 to 1730.⁷ The first religious services were held at an early date, by Moravian missionaries, at an Indian mission house at the n. end of Indian Lake.⁸ There are 4 churches in town.⁹

PAWLING¹⁰—was formed as a town, March 7, 1788. Dover was taken off in 1807. It is the s. e. corner town in the co. A high range of hills extends along the e. border, and another occupies the w. part. A fine, broad valley occupies the central portions and separates the two highland regions.¹¹ Swamp and Croton Rivers take their rise in the valley, the former flowing n. and the latter s. Whaleys and Little Ponds—the sources of the Fishkill—lie near the w. border, and Oblong Pond lies in the n. e. part. The ridge of limestone from which marble is quarried extends into the n. part from Dover. The soil is a slaty and gravelly loam. Large quantities of milk are daily sent to the New York market. **Pawling**, (p. v.,) a station on the H. & N. Y. R. R., contains a bank, 2 churches, and 25 houses. **Campbellville**, (p. v.,) in the n. part, contains 14 houses. **Quaker Hill** (p. o.) and **Farmers Hill** (p. o.) are hamlets. Settlements are supposed to have commenced at Quaker Hill between 1720 and 1730, by Friends from N. J., who organized the first religious society soon after their arrival.¹² There are 3 churches in town; M. E., Bap., and Friends.

PINE PLAINS¹³—was formed from Northeast, March 26, 1823. It lies on the n. border of the co., e. of the center. The surface is a hilly upland, the ridges being separated by broad valleys. The highest summit is Stissing Mt., in the w. part, 400 to 500 feet above the valleys. Its declivities are steep, and it is crowned with a mass of naked rock. Roeliff Jansens Kil crosses the n. w. corner, and the Shekomoko or Cheecomico flows n. through near the center. Thompsons, Stissing, and Mud Ponds lie at the e. foot of Stissing Mt., and Buttermilk Pond and several smaller ones are in the s. part. The soil is generally a productive, gravelly loam. Marl is found in several

¹ Named from the rock which crops out in the adjacent hills and along the streams.

² In 1760, Johannes Rowe bought of Robert Livingston 911 acres a little n. of La Fayetteville, and located upon it. Among the other early settlers we find the names of Clark, Stewart, Simans, and Herrick, a part of whom were from Conn.

³ 2 M. E., and 1 each Christian and Union.

⁴ Named from its geographical position in the co. Northeast Precinct was formed from the North Precinct, Dec. 16, 1746, and embraced the Little or Upper Nine Partners Tract. The North Precinct was extended across the Oblong Tract to the Conn. line, Dec. 17, 1745.

⁵ The Dakin ore bed was opened in 1848 by the proprietor, who erected a furnace in the vicinity and ran it until 1856. The mine is at the foot of the Taghkanick Mt., where it makes a bend into Conn., and about 14 mi. above the Salisbury (Conn.) mines. From 8000 to 10,000 tons of ore are taken out annually, and are mostly sent by r. r. to Hudson. Benedict's Furnace, 1 mi. n. w. of Millerton, makes 5 tons of pig iron daily, principally from Salisbury ore. A cupola furnace has also been erected here, and the manufacture of car wheels commenced. A slate company was incorp. in this town in 1812.

⁶ Large quantities of milk are daily sent to the N. Y. market.
⁷ Baltus Lott and Adam Showerman first settled in the s. part of the town. Barzillai Rudd, Elder Dakin, and — Spencer were also early settlers.

⁸ The remains of this old mission house are still visible on the farm of Douglas Clark.

⁹ 2 M. E., Bap., and Cong.

¹⁰ Pawling Precinct was formed from Beekman Precinct, Dec. 31, 1768.

¹¹ Mt. Tom, a prominent peak $\frac{1}{2}$ mi. w. of Pawling Station, is about 300 feet above the valley.

¹² The Friends meeting house on Quaker Hill was used as a hospital during the Revolution, and a considerable number of soldiers were buried in the vicinity. A body of troops were stationed here for some time; and Gen. Washington spent a short time here in 1775.

¹³ This town formed a portion of the "Little Nine Partners" tract. Many of the farms are still owned by the heirs of the original proprietors, and are leased to the occupants. All efforts to convert the leasehold tenure into a freehold have proved unsuccessful.

localities.¹ **Pine Plains**, (p. v.), near the center of the town, contains a bank and 3 churches. Pop. 382. **Hammertown** contains an extensive scythe factory and a dozen houses.² **Pulvers Corner** (p. o.) and **Mount Ross** are hamlets. The first settlements were probably made about 1740.³ A Moravian mission was established among the Indians at Shekomeko, 2 mi. s. of Pine Plains, in Sept. 1740.⁴ There are 5 churches in town.⁵

PLEASANT VALLEY—was formed from Clinton, Jan. 26, 1821. It is an interior town, lying w. of the center of the co. Its surface is a rolling and hilly upland. Barnes and Dennis Hills, in the n. w., are the highest points. Wappingers Creek flows s. w. through near the center; Sprout Creek takes its rise in a pond in the s. w. part. Slate crops out along the hills, and a vein of marble has lately been discovered. The soil is a clayey and gravelly loam. **Pleasant Valley**, (p. v.), in the s. w. part, was incorp. April 15, 1814; it contains a cotton factory⁶ and 4 churches. Pop. 500.⁷ **Salt Pond**, (p. v.) on Wappingers Creek, contains a grist and plaster mill and 17 houses. **Washington Hollow**, (p. v.), on the line of Washington, contains a church, cotton factory,⁸ and 16 houses. **Hibernia** (p. o.) is a hamlet. **Crum Elbow** is a p. o. The first church (Presb.) was formed in 1765; Rev. Wheeler Case, the first pastor, was installed Nov. 12 of the same year. There are 5 churches in town.⁹

POUGHKEEPSIE¹⁰—was formed as a town March 7, 1788. The city of Poughkeepsie was taken off March 28, 1854. It lies upon the Hudson, s. of the center of the co. Its surface is mostly a rolling upland. Wappingers Creek, forming the e. boundary, and Fall Kil, flowing s. through Poughkeepsie City, each furnish a considerable amount of water power. The soil is clayey in the w. and a sandy and gravelly loam in the remaining parts. **New Hamburg**, (p. v.), on the Hudson, in the extreme s. angle, contains 2 churches. It is a r. station, and is connected by a ferry with Marlborough, Orange co. Pop. 339. **Channingville**, opposite Wappingers Falls, contains a gristmill, 2 churches, and 50 houses. **Manchester**, (Manchester Bridge p. o.) on the line of La Grange, contains about a dozen houses.¹¹ **Rochdale**, in the n. e. corner, contains 2 cotton factories and 15 houses. **Locust Glen** is a p. o. The first settlements were made by the Dutch, about 1700.¹² There are 4 churches in town; 2 M. E., Presb., and R. C.

POUGHKEEPSIE CITY—was formed from Poughkeepsie, and incorp. as a village March 27, 1799, and as a city March 28, 1854. It is situated upon the Hudson, a little s. of the center of the w. border of the co. The ground gradually rises from the river to a table land, 150 to 200 ft. high, upon which most of the city is built, and about 1 mi. back into a hill 500 ft. high.¹³ Fall Kil, a small stream, flows in a tortuous channel through the city, affording a limited amount of water power. The city is finely laid out on the bluff overlooking the Hudson; and, besides the co. buildings, it contains 4 banks, 1 savings' bank, 18 churches, and many other fine public and private buildings. Its location gives to the city commercial advantages which are fully improved. During the summer daily lines of steamers run to New York and to

¹ Upon draining Hoag Pond, 1½ mi. s. e. of Pine Plaine Village, a very deep bed of marl, covering 6 or 8 acres, was found. Marl is also found in Buttermilk Pond.

² Harrie's Scythe Factory gives employment to 50 hands, and turns out about 2000 dozen scythes per annum.

³ In 1740, John Rau, a German, lived on a hill N. E. from Shekomeko. John Ties Smith, Jas. Graham, C. W. Rautz, Ebr. Dibble, and — Snyder were also early settlers.

⁴ This mission was commenced in Sept. 1740, by Henry Ranch, and on the 22d of Feb. 1742, the first 3 Indian converts were baptized. Before the end of the year, 25 more were converted, and a place of worship was erected. This little community had not become fully settled before its quiet was disturbed by the intrusion of an armed force under the orders of the sheriff, at the instigation of intolerant and bigoted neighbors; and, although neither arms nor any thing else were found that could be construed into hostile designs against the Government, the missionaries were seized and brought before the Governor and Council at New York, under charge of being in the interests of the French and of endeavoring to seduce the Indians from their alliance with the English. Upon refusing to take the oath of allegiance, they were reprimanded and discharged. Their enemies, well knowing their conscientious scruples in regard to oaths, in 1744 obtained the passage of an act "for securing his majesty's government in New York," by which an oath of allegiance was made obligatory. Rather than do violence to their consciences, the missionaries removed to Bethlehem, Penn.,

followed by several of their Indian converts. The mission was visited by Count Zinzendorf and Bishop David Nitschman soon after its location in this town. During the last 2 years, 62 native converts were baptized and admitted to the church. Gottlieb Buettner, one of the missionaries, died in Feb. 1745, at this place.—*Heckewelder's Hist. Morav. Missions*, 20; *Doc. Hist. N. Y.*, II, 1014; *Doe's's Shekomeko*, p. 29.

⁵ Bsp., M. E., Presb., Prot. E., and Friends.

⁶ This factory was built in 1815, by John Gibbons. It contains 80 looms, and gives employment to 75 hands.

⁷ The charter of this village is a dead letter, as no election has taken place in 10 years. The village records are lost.

⁸ This factory gives employment to about 40 hands.

⁹ 2 M. E., Friends, Prot. E., and Presb.

¹⁰ Poughkeepsie Precinct was formed Dec. 18, 1737. In early documents the name is spelled in a variety of ways, as "Picipsi" and "Pohkipi." The original name is said to have been Apokeep-eink, signifying "pleasant harbor."

¹¹ A cotton factory was formerly in operation here. In 1849 it was changed to a paper mill, which was run until 1857.

¹² Near the s. line of the city is a house built before the Revolution and formerly owned by Philip Livingston. It still bears the marks of balls fired by the British. The dwelling of Gov. Gen. Clinton, still standing, 6 mi. below the city, is now owned by Philip S. Van Rensselaer. Prof. S. F. B. Moree, the inventor of the electric telegraph, resides 2 mi. s. of the city.

¹³ About 1 mi. n. of this hill is another of about the same ele-

Albany, and a considerable trade is carried on by barges and boats. The daily line of steamers between New York and Albany also touches here. A steam ferry connects the city with New Paltz. The manufactures are extensive and various. They consist chiefly of pig iron, carriages, carpets, pins, chairs, drugs, files, sewing silk, and ale.¹

The *City Hall* is a plain brick building, situated on Main St., a little w. of the courthouse.

The *Public Schools* are under the charge of a board of education, consisting of 12 members, of whom 3 are elected annually. The schools are 6 in number, and employ 23 teachers,—3 males and 20 females. In 1857 the number of children between 4 and 21 was 4329, of whom 1900 (or 44 per cent.) were in attendance at school during some portion of the year. The total expenses of the schools were \$8444 13. The number of volumes in the district libraries was 4683.

The *Dutchess Co. Academy* occupies a large 3 story brick building on Hamilton St.²

The *Poughkeepsie Female Seminary*, situated on Cannon St., was founded by a stock co., at a cost of \$15,000.

The *Poughkeepsie Collegiate School* is situated on a hill $\frac{3}{4}$ of a mi. e. of the city. A lot of 80 acres is connected with the institution, and the building and grounds are valued at \$75,000.³

The *Mansion Square Female Institute* is a private institution, corner of Mansion and Catharine Sts. It has 9 teachers and 80 pupils.

The *Poughkeepsie Female Collegiate Institute*, a private institution, is situated at the corner of Mill and Catharine Sts. It occupies a 3 story brick building, and has an average of 4 teachers and 100 pupils.

The *Cottage Hill Seminary*, a private institution for young ladies, is located on a beautiful site upon Garden St. It is under the charge of a principal, assisted by 12 teachers and lecturers. A library of 2000 volumes is connected with it, and the number of pupils is limited to 50.

The *Law School*, incorp. in 1851, and first located at Ballston Spa, was removed to this city in 1853, and its sessions are still held here. A *Young Men's Association* has been established, for the purpose of furnishing winter lectures.

The *Poughkeepsie Lyceum of Literature, Science, and Art* was incorp. April 6, 1838.

The *Poughkeepsie Orphan Asylum and Home of the Friendless*, having for its object the care of orphans and destitute children, was organized June 21, 1847. Besides these, there is a *Rural Cemetery Association*,⁴ a well organized *Fire Department*, and an *Aqueduct Association*. Population of the city, 12,763.⁵

The first settlement was begun in 1690 and 1700. Baltus Van Kleeck built the first house within the present limits of the city, in 1702, on land now owned by Matthew Vassar, near the Cong. Church.⁶ The first church (Ref. Prot. D.) was formed about 1700. Rev. Cornelius Van Schie was installed pastor of this church and the one at Fishkill in 1727.⁷

The *Van Kleeck House*, a substantial stone building, was used for purposes of defence, and just under the eaves the walls were pierced with loop-holes for musketry. This building was afterward the meeting place of the inhabitants to consult upon the public welfare when the Boston Port Bill and kindred measures awakened a spirit of resistance through the country. There the Committee of Correspondence of Dutchess held their meetings; and there the pledge to sustain the Continental Congress and the Provincial Assembly was signed by the inhabitants of Poughkeepsie in June and July, 1775.

vation. Many beautiful and costly dwellings are built upon these table lands about the city, affording a fine view of the city and valley. The eye here has an uninterrupted range of view over 2500 sq. mi. of country.

¹ The Poughkeepsie Iron Works were established in 1848, with a capital of \$200,000; 75 hands are employed, and 10,000 to 11,000 tons of pig iron are manufactured per annum. The ores used are the hematite from Fishkill, and the magnetic ore from Essex co. The Poughkeepsie Carriage Manufactory, with a capital of \$35,000, employs 60 hands, and turns out \$30,000 to \$100,000 worth of carriages per annum, which are chiefly sold in the Southern markets. Peltou's Carpet Factory, with a capital of \$60,000, employs 60 to 70 hands, and produces 60,000 to 65,000 yds. of carpeting per year. A pin factory, in the same building, employs 15 hands. The Poughkeepsie Chair Manufactory employs 300 hands, and produces \$60,000 worth of chairs per year, which are mostly sent to South America. An establishment for the preparation of dye stuffs and drugs employs 30 hands, and manufactures \$200,000 worth of goods annually. A file factory, started in 1856, employs 12 men; and a sewing silk factory, started in 1858, employs 15 to 20 hands. M. Vassar & Co.'s Brewery and Malt Works, commenced in 1795, has a capital of \$150,000, employs 30 men, and manufactures 30,000 hls. of ale per year.

² This building was erected in 1830, at a cost of \$14,000.
³ The building of this institution is of wood, modeled after the Parthenon. It was organized under the charge of Chas. Bartlett, N. P. Talluage, and — Cunoingham.

⁴ The Poughkeepsie Rural Cemetery consists of 54 acres, situated in the town of Poughkeepsie, a short distance below the city, between the Highland Turnpike and the Hudson.

⁵ The population of the town of Poughkeepsie (including the city — correctly organized) at different periods has been as follows:—

1790.....	2,529	1814.....	5,073	1830.....	7,222	1845.....	11,701
1800.....	3,246	1820.....	5,729	1835.....	8,529	1850.....	13,044
1810.....	4,669	1825.....	5,935	1840.....	10,006	1855.....	15,873

⁶ Among the early settlers were Dutch families named Van De Bogart, Van Benschoten, Van De Bergh, Van Wagener, De Graff, Le Roy, Parmentier, Messier, Ostrom, Hogehoon, Filkins, Swartwout, Frear, Hegeman, and Livingston. The first house stood until 1835. It was built of stone, and was furnished with loopholes for the use of musketry. During the Revolution the colonial legislature held several sessions in it.

⁷ In 1758, the controversy between the Cetus and Conferentie parties distracted this church, and led to its division in 1763. The former of these parties wished to sever their connection from the Classis at Amsterdam and become independent, and the latter wished to still preserve their connection with the mother church. The controversy divided nearly all the Ref. Prot. D. churches in America, and it was not entirely settled until about 1790, when a reconciliation took place. There are now 18 churches in the city; 4 M. E., 2 Ref. Prot. D., 2 Prot. E., (Christ's and St. John's), 2 B. C., and Cong., Presb., Univ., Ger. Luth., Af. Meth., Friends, & C., and Jewish.

As soon as the alarm occasioned by the invasion of Sir Henry Clinton (in 1777) had subsided, Gov. Clinton called a meeting of the Legislature at Poughkeepsie. It assembled at the Van Kleeck House early in Jan. 1778. Various acts to complete the organization of the State Government were passed; provisions were made for strengthening the civil and military powers of the State; and it was during that session that the State gave its assent to the Articles of Confederation, the organic law of the Federal Union until our present Constitution was formed and adopted.

The State Convention to consider the Federal Constitution assembled at the Van Kleeck House on June 17, 1788. There were 57 delegates present, and Gov. George Clinton was chosen President of the Convention. In that assembly were some of the most distinguished men of the Revolution, and the debates were of the most interesting character. In no State in the Union was hostility to the Federal Constitution more extensive and violent than in the State of New York. Forty-six of the 57 delegates, including the governor, were Anti-Federalists, or opposed to the Constitution. The principal advocates of the instrument were John Jay, Alexander Hamilton, and Robert Livingston. Mr. Hamilton had been a leading member of the National Convention that framed the Constitution, and also one of the principal writers of *The Federalist*. He felt the responsibility of his situation, and the Convention readily acknowledged the value of his judgment. He was perfectly familiar with every topic included in the wide range which the debates embraced, and he was nobly sustained by his colleagues Jay and Livingston. The hostile feelings of many of the Anti-Federalists gradually yielded, and on the 26th of July the final question of ratification was carried in the affirmative by a majority of 3 votes.

Huddleston, the famous spy, who was captured upon Wild Boar Hill, near Yonkers, Westchester co., was tried, condemned, and hung in Poughkeepsie in April, 1780. The place of his execution was upon a verge of the plain on which the town stands known as Forbuses Hill. He was accompanied to the scaffold by the co. officers and a small guard of militia enrolled for the purpose.¹

REDHOOK²—was formed from Rhinebeck, June 2, 1812. It lies upon the Hudson, in the n. w. corner of the co. Its surface is a rolling upland, terminating on the Hudson in a series of bluffs 100 to 150 ft. high. The e. part is hilly. Prospect Hill is a prominent peak a little s. of Upper Redhook Village. The streams are Sawkil and several other small creeks. The valleys of the streams are broad and their banks low. Long Pond, in the e. part, forms the source of the Sawkil. The soil along the river is a clay loam, and in the remaining parts a sandy, gravelly, or slaty loam. **Redhook**, (p. v.,) near the center of the town, contains a cigar and tobacco manufactory and 3 churches. Pop. 625. **Tivoli**,³ (p. v.,) in the n. w. part, is a steamboat landing upon the Hudson, and a r. r. station. A large forwarding business is carried on here. It is adjacent to **Myersville**, the two places forming a continuous village. They contain 5 churches and about 600 inhabitants. **Barrytown** (p. v.) is a r. r. station, 6 mi. below Tivoli. It contains 1 church, and is a place of considerable trade. Pop. 250. **Upper Redhook**, (p. v.,) in the n. e. part, contains 1 church and 175 inhabitants. **Cedar Hill**, on the Sawkil, contains 1 church, a carpet yarn manufactory, a flouring mill,⁴ and 175 inhabitants. The first settlements were made between 1713 and 1727, by the Dutch. There are 11 churches in town.⁵ Along the river are numerous elegant country seats. The old residence of Gen. John Armstrong is now owned by his son-in-law, William B. Astor. The former estate of Gen. Montgomery is now occupied by Mrs. Edward Livingston.⁶

RHINEBECK⁷—was formed as a town, March 7, 1788. Redhook was taken off in 1812. It lies upon the Hudson, n. w. of the center of the co. Its surface is a rolling and moderately hilly upland, terminating on the river in bluffs 100 to 150 ft. high. Landmans Creek, the principal stream, flows s. w. through near the center. Rhinebeck Kil is its tributary. Lake Sepasco is a small body of water in the n. e. corner. The soil is principally a fine quality of sandy loam.

¹ Lossing's Field Book, Vol. I., pp. 383, 384.

² By the Dutch called *Rooda Hoek*. Tradition ascribes the name of the town to a marsh near Tivoli, covered with ripe cranberries when first seen.

³ Pronounced *Tiv-to-le*. A ferry connects this place with Saugerties, Ulster co.

⁴ Erected in 1856, at a cost of \$30,000.

⁵ 4 Prot. E., 3 M. E., Luth., Bep., Union, and Independent; the last is the Sylvania Chapel at Barrytown, owned by Robert Donaldson.

⁶ Among the early settlers were families named Haeners, Shuffeldt, Zippertie, Hagerdorn, Wiederwax, Trauvs, Staats, Mell-hau, Bermar, Woldorf, Near, Prosius, and others, mostly from

Germany. They first settled near Barrytown and Tivoli. The first marriage on record is that of Adam Shaffer and Maria Schoett, July 31, 1746. The first baptism on the church record is that of Catherine Woldorf, April 23, 1734.

⁷ Rhinebeck Precinct, as formed Dec. 16, 1737, included the lands purchased of the widow Pauding and her children by Dr. Sam'l Staats; all the land granted to Adrian, Roosa, and Cothe; land patented by Col. Henry Beekman, June 5, 1703; and the land granted to Col. Peter Schuyler, called the Magdaleo Island Purchasa. The name is derived from the first settlers, who were from near the Rhioe, in Germany, and Beekman, an original proprietor.

Rhinebeck, (p. v.), near the center of the town, was incorp. April 23, 1834. It contains a bank, paper mill, 2 newspaper offices, a private academy,¹ and 5 churches. Pop. 1051. **Rhinebeck Station**, (p. v.), on the Hudson, contains a paper mill and 18 houses. A steam ferry connects the place with Rondout, Ulster co. **Monterey**,² near the n. border, contains a church and 10 houses. The first settlement was made some time before 1700, but the precise date cannot be determined. The first family that came in was that of Wm. Beekman, the original proprietor.³ His homestead (known as the Beekman House, built on a high point above Rhinebeck Station) is still standing.⁴ The first religious services are said to have been held in this house. The first church (Ref. Prot. D.) was formed May 23, 1724, at the present village of Monterey.⁵ The Lutheran church at Monterey was formed in 1730.⁶ There are 6 churches in town.⁷

STANFORD⁸—was formed from Washington, March 12, 1793. It is an interior town, lying n. e. of the center of the co. Its surface is a broken and hilly upland. The hills are generally rounded, and admit of cultivation to their summits. Slate crops out in numerous places along their declivities, and bowlders and water-worn pebbles are thickly strewn over a considerable portion of the surface. The highest point is Carpenter Hill, in the n. e. corner. Wappingers Creek, flowing s. w. through near the center, is the principal stream. Hunns Lake,⁹ in the n. e., and Uptons Pond, in the s. w., are the principal bodies of water. The soil is a good quality of gravelly and slaty loam. A considerable quantity of milk is sent daily to New York by the Harlem R. R. **Stanfordville**, (p. v.), near the center of the town, contains a gristmill, carriage axle factory, paper mill, 3 churches, and 35 dwellings. **Bangail**, (p. v.), on Wappingers Creek, contains 2 gristmills, 2 sawmills, a foundry, 2 churches, and 30 dwellings. **Attlebury**, (p. o.), **Stissingville**, and **Old Attlebury**¹⁰ are hamlets. Smith Thompson, U. S. Circuit Judge, was a native and resident of this town. There are 5 churches in town.¹¹

UNION VALE¹²—was formed from Beekman and "Freedom," (now La Grange,) March 1, 1827. It is an interior town, lying s. e. of the center of the co. Its surface is a hilly and broken upland divided into two parts by a broad valley which extends n. and s. through the center. Slate crops out upon the summits and the declivities of the hills. The Wortel Kil, a tributary of Fishkill Creek, flows s. w. through near the center. The soil is a gravelly and slaty loam. An iron mine near Clove p. o. supplies the Beekman Furnace, 2 mi. farther s. **Verbank**, (p. v.) in the n. w. corner, contains 2 gristmills, a paper mill, church, and a dozen dwellings. **Oswego Village**, (p. o.), near the w. border, contains a church and 10 dwellings. **Clove**, (p. o.) near the center, contains 2 churches and about a dozen dwellings. **Crouse Store**, in the s. part, and **Mansfield**, in the n. e. corner, are p. offices. Henricus Beekman, the patentee, conveyed 1000 acres to his son Henry in 1716, and settlement is supposed to have commenced soon after. There are 4 churches in town.¹³

WASHINGTON¹⁴—was formed March 7, 1788. Stanford was taken off in 1793. It is an interior town, lying near the center of the co. The surface is a rolling and hilly upland. Slate crops out on the hills, and water-worn pebbles are thickly strewn over a small portion of the surface. The principal elevations are Muckle Hill, near the center, Molly Mt., in the n. w. corner, Plymouth Hill, in the s. e. corner, and Canoe Hill, near the n. line. The streams are small creeks and brooks. Round and Shaw Ponds, in the n. part, form the sources of Wappingers Creek. A large quantity of milk is sent from the e. part to N. Y. by the Harlem R. R. The raising of blooded stock receives considerable attention.¹⁵ **Harts Village**, (p. v.), near the center, contains 2 gristmills, 2 sawmills, a spoke factory, and 28 dwellings.¹⁶ **Mabbittsville**,¹⁷ (p. o.) 2 mi. e. of Harts

¹ The Rhinebeck Academy was formerly incorp., but is now a private institution. It employs 2 teachers, and has an average of 100 pupils.

² Named by Geo. Pink, who was appointed first postmaster in 1849. The p. o. has since been discontinued.

³ Wm. Beekman came from Germany with his son, Henricus, in May, 1647; and with them came a number of poor families, who afterward settled in this town. Among the first families were those named Sipperry, Kipp, Pink, Schmidt, Sboptown, Backmao, and Elseffer.

⁴ This house was built of stone, and was used as a fortress in early times. The brick used in the chimneys were brought from Holland. It is now owned by A. J. Hermance, Esq.

⁵ About 1800 this church divided, by mutual consent of the members; one branch located at Rhinebeck and the other at Redhook. The first baptism on record is that of John Schmidt, April 5, 1730.

⁶ Fred. Henry Quitman—father of Gen. Quitman, of the Mexican War—was for several years pastor of this church. He was born in the Duchy of Cleves, Westphalia, in 1760, and died in 1832.

⁷ Ref. Prot. D., Luth., Prot. E., M. E., and Bap. at Rhinebeck, and Luth. at Monterey.

⁸ This town was included in the Great Nine Partners Tract.

⁹ Formerly Thompsons Pond.

¹⁰ An immense spring of pure cold water near this place has considerable local notoriety.

¹¹ Orthodox Friends, Hicksite Friends, Christian, Bop., and M. E.

¹² This town constitutes a portion of the Beekman Purchase.

¹³ M. E., Friends, and Christian.

¹⁴ This town is mostly comprised within the Great Nine Partners Tract.

¹⁵ Saml. Thoro, of Thorndale, 1 mi. w. of Four Corners, is extensively engaged in raising the short horn Durham cattle. His herd of 70 head, valued at \$70,000, is the most valuable one in America.

¹⁶ A mill was built at this place about 1760, and is supposed to have been the first in town.

¹⁷ Named from Jas. Mobbitt, a former proprietor.

Village, contains 12 dwellings, **Lithgow**, (p. o.), near the e. line, 2 churches and 10 dwellings, **Mechanic**, (Washington p. o.), 2 mi. s. of Harts Village, a boarding school,¹ 2 churches, and 15 dwellings, and **Little Rest**, (p. v.), in the s. e. part, 2 gristmills and 15 dwellings. **Four Corners** is a hamlet. **Washington Hollow** (p. v.) is on the line of Pleasant Valley. There are 4 churches in town.²

¹ The Nine Partners Boarding School was founded at this place in 1796, by the Friends Yearly Meeting. A farm of 100 acres is attached to it, and it has a cash endowment of \$10,000. It is devoted to the education of the children of Friends in indigent circumstances, and for many years it has had an average attendance of 100 pupils.
² An Orthodox and a Hicksite Friends at Mechanic, and a M. E. and Prot. E. at Lithgow.

GENESEE COUNTY.

THIS county was formed from Ontario, March 30, 1802. It originally comprised all that part of the State lying w. of Genesee River, and a line extending due s. from the point of junction of the Genesee and Canascraga Creek to the s. line of the State. Allegany was taken off in 1806, Cattaraugus, Chautauque, and Niagara in 1808, parts of Livingston and Monroe in 1821, Orleans in 1824, and Wyoming in 1841. A part of Covington was annexed to Livingston co. in 1823, and Shelby was added to Orleans in 1825. It is one of the western cos. in the State, separated by Orleans from Lake Ontario and by Erie from Niagara River. It is centrally distant — mi. from Albany, and contains — sq. mi. The surface

is mostly level or gently undulating. The s. border is occupied by ranges of hills which extend n. from Wyoming co. and attain an elevation of 200 to 300 feet above the valleys and about 1000 feet above tide. A limestone terrace, bordered in many places by nearly perpendicular ledges, extends e. and w. through the co., n. of the center. At each extremity in the co. this terrace ranges in height from 50 to 100 feet, but it declines toward the center to a height of 20 to 40 feet. Tonawanda Creek¹ enters Alexander from the s., and flows in a n.e. direction to the village of Batavia, thence turns and flows in a general n. w. direction to the w. border of the co. Its course is very tortuous, and its current generally sluggish.² Its principal tributaries are Little Tonawanda and Bowens Creeks. Oak Orchard Creek takes its rise near the center of the co. and pursues a winding course to the n. e. corner of Elba, thence turns w. and flows through the great Tonawanda Swamp, which occupies the n. part of Elba, Oakfield, and Alabama. Black Creek³ flows n. through near the center of Bethany, Stafford, and Byron, thence easterly through Bergen into Monroe co. Its tributaries are Bigelow and Spring Creeks. Oatka Creek flows across the s. e. corner of the co., and Murder⁴ and Eleven Mile⁵ Creeks across the s. w. corner. Tonawanda, Black, and Oatka Creeks form a series of fine cascades in their passage down the limestone terrace near the center of the co. The lowest rocks in the co. belong to the Onondaga salt group, extending along the n. border. Gypsum is quarried in Le Roy, Stafford, and Byron. This is succeeded by the hydraulic, Onondaga, and corniferous limestones, which form the limestone terrace extending through the co. Lime and building stone are extensively obtained from the outcrop of these rocks.

Succeeding the limestone in order are the Marcellus and Hamilton shales, occupying the whole s. part of the co. The surface generally is covered thick with drift deposits, and the underlying rocks only appear in the ravines of the streams. Nearly all the swamps contain thick deposits of muck and marl, furnishing in abundance the elements of future fertility to the soil. Many of the springs and streams are constantly depositing lime in the form of marl. Along the n. border are numerous wells yielding water strongly impregnated with sulphuric acid, and known as "Sour Springs." The soil is generally a very deep and fertile sandy or gravelly loam intermixed with clay and mostly underlain by clay or limestone. This co. embraces a portion of the "Genesee Country," which from the first settlement has been famed for its fertility. The people are almost exclusively engaged in agriculture. For many years wheat formed the staple product; but of late the ravages of the midge have led to the more general raising of the coarser grains, and have turned the attention of farmers to the cultivation of fruit, wool growing, cattle raising, and dairying.

The co. seat is located at the village of Batavia.⁶ The courthouse is a fine stone edifice, 3 stories high, containing the co. clerk's office and the other co. offices.⁷ The jail is a new brick building, a few rods w. of the courthouse.⁸ The poorhouse is situated on a farm of 133 acres in Bethany, near

¹ Signifying "swift running water," from the rapid current for 10 mi. below Batavia.

² Between Attica (Wyoming co.) and Batavia this stream flows between two parallel roads about 1 mi. apart. The distance by the highway is 11 mi., and by the stream 43 mi.

³ Indian name "Checkanango."

⁴ So named because the body of a man supposed to have been murdered was found in it by Joseph Peters, Esq., of Darien.

⁵ So named from crossing the old Buffalo Road 11 mi. from Buffalo.

⁶ By the act of organization, the Holland Land Co. were re-

quired to donate 1 acre of land for co. purposes and erect the necessary co. buildings. Joseph Elliott, agent of the company, complied with the requirement of the law, and erected the buildings in 1802. The first officers of the co. were Joseph Elliott, *First Judge*; Daniel D. Brown, *District Attorney*; James W. Stevens, *Co. Clerk*; Richard M. Stoddard, *Sheriff*; Jeremiah R. Munson, *Surrogate*.

⁷ The new courthouse was erected in 1841-42, at a cost of \$17,000.

⁸ The new jail was erected in 1851. The average number of inmates is 5.

the s. line, and 9 mi. s. e. of Batavia. The average number of inmates is 90, supported at a weekly cost of \$.72 each, in addition to the income of the farm, which is about \$1300. A school is maintained 7 months in the year, and at suitable age the children are bound out. The general management is creditable to the co., and is far better than that of a large majority of similar establishments in the State.¹

The N. Y. Central R. R. extends in a s. w. direction through Bergen, Byron, Stafford, Batavia, Pembroke, and the n. w. corner of Darien. A branch of this road extends s. from Batavia through Alexander to Attica. The Canandaigua and Niagara Falls Branch extends w. through Le Roy, Stafford, Batavia, and Pembroke, crossing the main line at Batavia. The Buffalo, Corning, & N. Y. R. R. extends through Le Roy, Stafford, Batavia, and Alexander.² Several plank roads have been built in the co.; but most of them have been abandoned. An important canal feeder extends from Tonawanda Creek through the n. w. corner of Alabama. There are 5 newspapers published in the co.³

This co. embraced within its original limits all that portion of the State included in the purchase of Robert Morris. Phelps and Gorham, the original purchasers of the whole of Western N. Y., failed to meet the obligations to the State of Mass., and a large share of their tract reverted, and was purchased by Samuel Ogden for Robert Morris, May 12, 1791.⁴ Morris sold the w. portion of the tract, constituting about seven-eighths of the whole, to the Holland Land Company, July 20, 1793,⁵ reserving to himself a strip of an average width of 12 mi., lying between the Phelps and Gorham and the Holland Purchases, and known as the Morris Reserve.⁶ The Holland Land Company, an association of capitalists in Holland, made this purchase through agents who were citizens

¹ The poorhouse is a brick edifice, with a stone wing for the accommodation of the insane.

² A few years since, a route for a r. r. was surveyed from Batavia to the mouth of Oak Orchard Creek, on Lake Ontario.

³ The *Genesee Intelligencer* was commenced in the spring of 1801, at Batavia, by Elias Williams, and was the first paper published w. of Genesee River. It was suspended in Oct. of the same year. In the spring of 1808 Benj. Blodgett and Samuel Peck commenced the *Cornucopia*, and continued it until 1811.

The *Republican Advocate* was commenced in 1811, by Benj. Blodgett and David C. Miller. It soon passed into the hands of Mr. Miller, and was published by him until 1828. It was then successively in the hands of Charles Sentell, Chas. W. Miller, Edwin Hough, Andrew W. Young, Lewis & Brown, C. C. Allen, Waite & Cooley, and Daniel D. Waite. In 1864 it was merged in the *Genesee Co. Whig*, and was issued by Kimberly & Goodrich as the

Republican Advocate and Genesee Co. Whig. In 1855 Mr. Goodrich withdrew, and the name was changed to

The Republican Advocate, and was continued by J. H. Kimberly until 1857, when the office passed to Mr. Waite, one of its former proprietors, by whom this paper is still published.

The *Spirit of the Times* was commenced at Batavia, Feb. 3, 1819, by Oran Follett. In May, 1825, it was sold to his brother, Frederick Follett, who continued the publication until Aug. 1836. It was successively published by Nelson D. Wood, Fred. Follett, Lucas Seaver, Wm. Seaver & Son, and Charles Hardy, until 1856.

The *People's Press* was commenced at Batavia in 1825, by an association, Benj. Blodgett, editor. It was afterward issued by Martin, Adams & Thorp, Adams & Thorp, and Adams & McCleary, and was subsequently merged in the *Spirit of the Times*, and for some years was published as

The Spirit of the Times and The People's Press.

The *Chronicle of the Times* was published at Batavia in 1827, by D. A. F. Morris.

The *Morgan Investigator* was published at the office of the *Republican Advocate* during the Morgan excitement in 1826, and continued about a year.

The *Masonic Intelligencer*, instigated by the same excitement, was published for about the same period from the office of the *People's Press*.

The *Farmers and Mechanics Journal* was commenced at Alexander, Nov. 4, 1837, by Peter Lawrence. In June, 1840, it was moved to Batavia and issued as

The *Batavia Times and Farmers and Mechanics Journal*, by Frederick Follett and Peter Lawrence. Soon after, Fred. Follett became the sole proprietor, and published it until Sept. 1843, when it was sold to Lucas Seaver and was merged in the *Spirit of the Times*.

The *Temperance Herald*, mo., was issued from the office of the *Spirit of the Times*, by Lucas Seaver, for one year from March, 1842.

The Le Roy Gazette was commenced in 1826, by J. O. Balch. It was successively issued by Starr & Hotchkiss, Henry D. Ward, Richard Hollister, Rufus Robinson, L.

Goodrich, Seth M. Gates, Martin G. Coe, and Cyrus Thompson, until 1840, when it passed into the hands of C. B. Thompson, its present publisher.

The *Genesee Republican and Herald of Reform* was commenced at Le Roy in 1829, and was published for 1 or 2 years by Freeman & Son,—Orestes A. Brownson, editor.

The *Genesee Courier* was commenced at Le Roy in the spring of 1844, and was published about a year. It was resuscitated in 1853 by Edward Bliss, who published it a short time.

The Genesee Herald was commenced at Le Roy in 1854, by Wm. C. Grummond. In Jan. 1857, it was removed to Batavia, where it is now published by A. J. McWain. **The Genesee Daily Herald** was issued from the same office in 1858, and is still published.

The *Le Roy Democrat* was commenced in Dec. 1852, by Henry Todd. In Nov. 1853, it was removed to Batavia and its name changed to

The *Batavia Democrat*, Kimberly & Goodrich, publishers. In Dec. 1856, it passed into the hands of John Bergen, by whom it was changed to

The Genesee Weekly Democrat, and is still published.

The *Genesee Co. Whig* was commenced at Batavia in 1852, by Kimberly & Tyrell, and was published by them until 1854, when it was merged in the *Republican Advocate*.

⁴ The e. line of the Morris Purchase commenced upon the Penn. line, 44 78-100 mi. w. of the pre-emption line, and ran due n. to an elm tree at the forks of the Genesee River and Canasaga Creek, thence northerly along that river to a point 2 mi. N. of the Canasaga Village, thence due w. 12 mi., thence n. 24° E. to Lake Ontario.

⁵ The line forming the division between the Holland Purchase and the Morris Reserve commenced upon the Penn. line, 12 mi. w. of the w. line of the Phelps and Orham Purchase, and from thence ran due n. to near the center of Stafford, Genesee co., thence due w. 2,078 7/8 mi., and thence due n. to Lake Ontario. This line is known as the Transit Line, from its being run by a transit instrument, then first used in surveys. The offset was made in this line to prevent the Holland lands from overlapping the Conn. Tract. The names of the members of the Holland company were Wilhelm Willink, Jan Willink, Nicholas Van Stophorst, Jacob Van Stophorst, Nicholas Hubbard, Pieter Van Eeghen, Christian Van Eeghen, Isaac Ten Cate, Hendrick Voltenhoven, Christina Costor, (widow), Jan Stadnitski, and Rutger J. Schimmelpennick.

⁶ This Reserve was sold out in several large tracts to different purchasers. A tract containing 87,000 acres, lying immediately w. of Phelps and Gorham's "Mill Yard," was sold to Le Roy Bayard and M. Evers, and is known as the Triangular Tract. The Connecticut Tract lies immediately w. of the Triangle, and contains 100,000 acres. It was purchased by the State of Conn. and Sir Wm. Pultney and was divided between them. The Cragle Tract, containing 50,000 acres, joins the Conn. Tract on the s., and immediately e. is the 40,000 Acre Tract. South of these are successively the Ogden Tract, of 50,000 acres, the Cottinger Tract, of 60,000 acres, the Sterritt Tract, of 150,000 acres, and the Church Tract, of 100,000 acres. A small tract joining the 40,000 Acre Tract on the s. is known as Morris's Honorary Creditors' Tract.

of this country, as at that time aliens could not hold real estate. Immediately after the passing of title, measures were taken to extinguish the Indian titles and to survey the tract. A council of the Senecas was held at "Big Tree," now Geneseo, in Sept. 1797, at which time the Indians ceded most of their lands to the whites.¹

The general office of the Holland Land Co. was located at Philadelphia. Theophilus Cazenove, the first general agent, took charge of all the business relating to the company from the first purchase of the lands until 1799. He was succeeded by Paul Busti, who took the chief management of affairs until 1824,—a period of 25 years. His successor was John J. Vander Kemp, who continued to manage the affairs of the company until their final settlement. In July, 1797, Joseph Ellicott was engaged as principal surveyor of the Holland Land Co.² In 1798, Mr. Ellicott and his assistants ran the E. line of the territory—since known as the Transit Line—from Penn. to Lake Ontario, forming the basis for the future surveys and divisions of the territory. The surveys were continued until the whole territory was divided into ranges and townships. The former numbered from E. to W. and the latter from S. to N.

In 1798 the first State roads were laid out from Conewagas, on Genesee River, to the mouth of Buffalo Creek, and to Lewiston, on Niagara River. A few settlers located in various places in 1798-99, but the settlements did not progress with great rapidity until after the opening of the Land Office in Oct. 1800. The first place of business opened was the "Transit Store House," located on the present site of Stafford Village, in 1798, to furnish supplies to the surveyors engaged in running the Transit Line. The land office was first established at "Pine Grove," the residence of Asa Ransom, on the present site of Clarence Hollow, Erie co. Upon the organization of Genesee co., in 1802, the office was transferred to Batavia, where it continued until the final closing up of the affairs of the company. In 1821, Mr. Ellicott resigned his agency, and was succeeded by Jacob S. Otto, who held the office until his death, in 1827. His successor was David E. Evans, who continued in charge of affairs until 1837, when the business of the company was closed.³ In 1811, Ebenezer Mix entered the service of the company as clerk, and for 27 years he had control of the entire sales and subdivisions of lands,—a post for which his mathematical abilities, a tenacious memory, and habits of order admirably qualified him. In 1835 the Holland Company sold all their remaining lands and all their interests to a new company, principally of Batavians, and a new order of things was established. Difficulties at once arose between the new company and the settlers in various parts of the purchase; and, finally, mobs collected to destroy the land offices.⁴ The opening of this new region to settlement, under the auspices of a liberal and wealthy company, instituted a new order of things in the general history of the co., and was of incalculable benefit to the settlers. Mills were erected, costly roads opened, and every thing done to facilitate settlement and to remove difficulties in the path of settlers. The lands were sold at fair prices and on the most liberal terms. The affairs of the company, both at their general and local offices, were conducted by gentlemen of liberal culture, enlarged views, and humane hearts. In consequence of the richness of the lands and the liberal terms offered by the company, the whole region rapidly filled up with an industrious, intelligent, and enterprising population. Many of the early settlers afterward occupied high official positions and became known throughout the State for their ability and integrity.

¹ The tracts reserved by the Indians were the Cannawagus Reservation, of 2 sq. mi., on the Genesee, W. of Avon; Little Beards and Big Tree Reservation, of 4 sq. mi., on the Genesee, opposite Genesee; Squakie Hill Reservation, of 2 sq. mi., on the Genesee, N. of Mt. Morris; Gardean Reservation, of 28 sq. mi., on both sides of the Genesee, in Castle and Mt. Morris; the Canadea Reservation of 16 sq. mi., on both sides of the Genesee, in Allegany co.; the Oil Spring Reservation, of 1 sq. mi., on the line between Cattaraugus and Allegany; the Allegany Reservation, of 42 sq. mi., on both sides of the Allegany River, extending N. from the Penn. line; the Cattaraugus Reservation, of 42 sq. mi., on both sides of the mouth of Cattaraugus Creek; the Buffalo Reservation, of 130 sq. mi., on both sides of Buffalo Creek; the Tonawanda Reservation, of 70 sq. mi., on both sides of Tonawanda Creek, mostly in Genesee co.; and the Tuscarora Reservation, of 1 sq. mi., 3 mi. E. of Lewiston, Niagara co. The titles to all these reservations, except the Tonawanda, Buffalo, Cattaraugus, Tuscarora, and Allegany, have since been extinguished.

² Mr. Ellicott took entire charge of the surveys of these lands, and completed them in 10 or 12 years. In 1800 he received the appointment of local agent, and for a period of more than 20 years he had almost exclusive control of the company's local business. Under his management an immense tract of wilderness was converted into one of the finest agricultural regions in the world. From his first advent into Western N. Y., he took a high position as an enterprising citizen, independent of his connection with the land office. He conducted the large and complicated business committed to his charge with marked

ability, and he left a name highly honored throughout the extensive domain over which he exerted so commanding an influence.

³ In 1850 an act was passed directing the original field notes and maps to be deposited in the secretary's office for preservation and as legal proofs. In closing the affairs of the company, it was found necessary to obtain evidence of the death of certain original proprietors; and an act, passed May 13, 1846, directed the appointment of a special commissioner to visit Europe. Julius Rhoades was intrusted with this duty.

⁴ One of the principal causes of disturbance was a rumor that the new company intended to exact a certain sum for the renewal or extension of every contract. This rule became very obnoxious; the extra payment received the name of the "Genesee Tariff," and opposition to it was extensively resolved upon. The office at Mayville, Chautauque co., was broken open Feb. 6, 1836, and the books and papers were seized and burned in the public highway. On the 13th of May, a report reached Batavia that 700 armed men were on their way to burn the land office at that place. Mr. Evans, the agent, at once fortified the office, and collected a force of 50 men, well armed, to protect it. The militia were also called out. The mob soon came into town; but, learning the preparations made to give them a warm reception, and well knowing the resolute character of Mr. Evans, they concluded that "discretion was the better part of valor," and went away without offering any violence. Between 50 and 60 of the ringleaders were arrested; but the difficulties were afterward amicably adjusted, and the prosecutions were dropped.

The location of the principal land office of the company at Batavia converted it at once into a place of business and consequence; and the subsequent selection of the village as the co. seat of the new co. of Genesee made it for many years one of the most important places in Western New York. Several other land offices were afterward established, but they were all subordinate to the one at Batavia.

In the summer of 1826, Capt. Wm. Morgan, of Batavia, a royal arch mason, commenced preparing a work disclosing the secrets of free masonry, to be published by David C. Miller, of the same place. When this fact became known, his brother masons were much excited, and, finding persuasion and advice unsuccessful, took measures at once to suppress the book. A stranger was introduced to the printer, who, under the pretense of friendship, labored to gain an interest in the publication, and thus get possession of the MS.; and in this they were in some degree successful. Still, finding these measures ineffectual, they resorted to forms of law, before officials belonging to the fraternity, and Morgan was arrested on a civil suit, and gave bail; but in Aug. 1826, his bail surrendered him to the sheriff, and he was imprisoned over the Sabbath, while his lodgings were searched, and it is said some of his papers were seized. An attempt was also made to burn the office where the book was to be printed. It is said that a portion of the MS. was preserved by the wives of some of the masons who were most prominent in their efforts to destroy it. Mysterious preparations were, meanwhile, busily progressing; and on Sunday, Sept. 10, a warrant was obtained at Canandaigua, by Nicholas G. Chesebro, for the arrest of Morgan at Batavia, 50 mi. distant, on a charge of stealing a shirt and cravat, which he had borrowed of one E. C. Kingsley. The next day he was seized and hurried off in a stage coach to Canandaigua, but was discharged by the justice who had issued the warrant. He was immediately re-arrested, at the instance of Chesebro, on a claim of \$2 for a tavern bill assigned to him by one Ackley; and, although he took off his coat that the officer might levy upon it for payment, he was lodged in jail. On the evening of the 12th, while the jailer was absent, his wife, acting under the advice of Chesebro, released the prisoner, as the claim upon which he was held had been paid by Loton Lauson, a pretended friend. As Morgan passed out of the jail, he was seized by Lauson and a man called Foster, gagged, thrust into a carriage, and driven toward Rochester. This was the last that was seen of him except by masons; and whatever else is known was ascertained by judicial inquiry.¹

¹ On the morning of the 13th, (Sept.) Morgan arrived at Hartford Landing, on Genesee River, but was immediately taken to Lewiston by the Ridge Road. He was carried in a close carriage, driven by men who ordinarily were not engaged in such occupations. The carriage was preceded by persons who obtained relays of horses from men living along the road, and the changes were made at by-places. From Lewiston he was conveyed to Fort Niagara, and in the succeeding night was taken across the river to Canada, it is supposed, for the purpose of delivering him to the Canada masons, to be finally disposed of. No preparations had been made; and at daybreak on the 14th he was taken back to the fort and confined in the magazine. During his confinement he was visited by several masons of high standing, and it is said that several stormy debates took place in regard to the final disposition to be made of him. A few men, who had been prominent in effecting his arrest, were determined, and finally he was delivered over to their tender mercies. On the night of the 19th he disappeared; and from the investigations afterward made, and part confessions on the part of the perpetrators of the deed, there is no doubt that he was drowned in Niagara River. The disappearance of Morgan, excited suspicion, and led to an investigation, and, as the facts in the case began to appear, an intense excitement followed. The citizens of Batavia, Le Roy, and other places along the route of the abduction, held meetings, appointed committees, and brought to light the facts substantially as above related,—except the crowning act of the tragedy, which was never judicially proved. Several persons were tried for participating in the abduction. Some plead guilty, and were imprisoned, and others escaped conviction. The delays finally barred new prosecution, by the statute of limitation, except for murder. It is said that at least two who were supposed to have been the prominent actors in the final murder committed suicide. The excitement following the investigation, at first directed against the immediate participants in the outrage, was soon turned against the masonic fraternity. The idea that a powerful organization, bound by secret oaths, with their members occupying high official positions, would perpetrate a crime of his magnitude, excited alarm, and led at once to the formation of anti-masonic organizations as a political party. The excitement spread through the State and country, members of the fraternity seceded in large numbers, and a systematic effort was made to crush the order. In 1828, a law was passed authorizing the gov^r to appoint a commissioner to make a full investigation of the Morgan affair. Daniel Mosely, of Onondaga co., was appointed to this office; but upon receiving the appointment of Circuit Judge, in 1829, he resigned, and was succeeded by John C. Spencer, who made a report to the Legislature, in 1830, containing all the informa-

tion upon the subject then known. The intense feeling continued, and the mutual recriminations of the two parties entered into all the political, religious, and social relations of society until about 1832, when other political questions arose, and the excitement gradually died away, and now it is understood that members of the masonic order generally condemn the deed as heartily as others. The personal characters of the two men who were made the victims of these outrages would have ruined their schemes had they been made public knowledge. Morgan was a bricklayer and stonemason of damaged reputation, and Miller a refugee debtor from N. H., and finally left Batavia under circumstances extremely inconsistent with honor. For details, see *Hammond's Political Hist. N. Y., chap. xxxviii.; Assembly Jour., 1828, p. 961; do., 1829, p. 409, and Appendix F.; Assen. Doc's 1830, No. 67-136; Anti-Masonic Almanac, 1828-32; Proceedings of Anti-Masonic Conventions, 1828-32; Brown's Narrative of Anti-Masonic Excitement, &c.*

In Sept. 1827, Jesse French, Roswell Wilcox, and James Hurlburt were tried and convicted for assault and battery upon David C. Miller, and for false imprisonment and riot. In the evidence before the court it appeared that, on the 12th of Sept. 1826, French, then holding the office of constable, came into the printing office of Miller, and arrested him upon a writ issued by Justice Barton, of Le Roy. Although making no resistance, Miller was roughly handled, and not allowed to consult with his friends, but hurried into a carriage and driven off, attended by a large party armed with clubs, conspicuous among whom were Wilcox and Hurlburt. At Stafford he was taken into a masonic lodge room, where efforts were made to frighten him, and he was threatened with the fate of Morgan. When taken out of the lodge room, a large number of his friends had collected, and he was there first permitted to see counsel, and to know the nature of the suit against him, which was a civil action for debt. Bail was refused, and repeated demands to be taken immediately before the magistrate were unheeded. From Stafford to Le Roy he was closely guarded by a large number of armed men and attended by an equally large number of his friends. Upon his arrival at Le Roy he resolutely insisted upon going before the magistrate, and, assisted by his crowd of friends, he was enabled to do so, taking the unwillful constable along with him. After a short delay, he was discharged. On his way back to Batavia several efforts were made to re-arrest him, which his friends prevented. While absent, his office was searched, and a part of Morgan's MS. seized and destroyed. French was sentenced to one year's imprisonment in the co. jail, Wilcox to 6 months, and Hurlburt to 3 mos. James Grason was tried and acquitted. The excitement following these events became so great that a civil war was anticipated. At the celebration of the Fourth of July following

ALABAMA¹—was formed from Shelby (Orleans co.) and Pembroke, as “*Gerrysville*,”² April 17, 1826. Its name was changed April 21, 1828. A part of Wales was annexed in 1832. It is the N. W. corner town of the co. The surface is level or gently undulating. The n. and w. portions are covered by marshes, forming a part of the Tonawanda Swamp. Oak Orchard Creek flows across the n. e. corner, and Tonawanda Creek across the s. w. corner. A limestone terrace, 50 to 75 ft. high, extends across the s. part of the town. Tonawanda Creek flows down this declivity in a perpendicular cascade known as Tonawanda Falls, furnishing a fine water power. Near the center of the n. part of the town, a few rods from the banks of Oak Orchard Creek, are the “Oak Orchard Acid Springs.”³ The soil is a gravelly and sandy loam with a clay sub-soil. **Alabama Center** (Alabama p. o.) contains 2 churches and several mills. Pop. 166. **Wheatville** (p. v.) lies in the n. e. part of the town. Pop. 93. **Smithville** (South Alabama p. o.) lies near the e. line. Pop. 147. The first settlement was made in 1806, by James Walsworth.⁴ The first church (F. W. Bap.) was formed in the e. part of the town, in 1824, by Elder Samuel Whitcomb, the first preacher.⁵ The Tonawanda Indian Reservation occupies a section of land 2 mi. wide, lying on Tonawanda Creek and comprising about one-fourth of the area of the town.

ALEXANDER⁶—was formed from Batavia, June 8, 1812. It lies on the s. border of the co., w. of the center. Its surface is hilly in the center and s., and rolling in the n. The summits in the s. w. are 200 to 250 ft. above the valleys. The streams are Tonawanda Creek, flowing n. through the center of the town, Little Tonawanda, Huron, and Bowens Creeks, and several smaller streams. The soil upon the hills is a gravelly loam with a clay sub-soil, and in the valleys it is a rich alluvium. **Alexander**, (p. v.), incorp. April 24, 1834, is situated upon Tonawanda Creek, near the center of the town. It contains a flouring mill, seminary,⁷ and 3 churches. It is a station upon the Attica branch of the Central R. R., and also upon the B., N. Y. & E. R. R. Pop. 345. **Brookville** (p. o.) is a hamlet. The first settlement was made by Alexander Rea, in 1802.⁸ The first church (M. E.) was formed in 1835.⁹

BATAVIA—was formed March 30, 1802. Alexander, Bergen, Bethany, and Pembroke were taken off in 1812, and Elba and a part of Stafford in 1820. It is the central town of the co. Its surface is level or gently undulating. A limestone ridge, forming a terrace 20 to 50 ft. high, extends e. and w. through the n. part of the town. Tonawanda Creek flows northward from the line of Alexander to Batavia Village, where it turns westward and flows centrally through the town to the w. border. Huron Creek is the only other considerable stream. The soil is a deep, fertile, sandy and gravelly loam with a clay sub-soil. **Batavia**, (p. v.), the co. seat, was incorp. April 23, 1823. Besides the co. buildings, it contains a female seminary,¹⁰ union school,¹¹ bank, 3

the abduction, an incident occurred which showed the excited state of feeling that pervaded the community. During the day, Frederick Follett, late Canal Commissioner, a mason, while attending to his duties as marshal of the day, suddenly found himself surrounded by an infuriated crowd of armed men, evidently determined to kill him. He drew his sword, put spurs to his horse, and succeeded in throwing off the grasp of two men upon the bride, and escaped from the crowd; but he was obliged to keep concealed during the remainder of the day.

¹ Named from the State of Alabama, and said to signify “Here we rest.”

² Intended to be named in honor of David Gary, one of the early settlers; but through a cheat it was called “*Gerrysville*,” from Elbridge Gerry, Ex. Vice-President.

³ These springs are 9 in number, and are all found within a circle of 50 rods. They issue from mounds, evidently formed by the action of the water, $\frac{1}{2}$ to 4 ft. above the surrounding surface. No two of these springs are alike; and in one instance three springs issue from a single mound within 10 ft. of each other, and the waters are essentially dissimilar. The following is an analysis of the waters of the three principal springs:—

No. 1, by Prof. Silliman and Norton.	No. 2, by Prof. E. Emmons.

Large quantities of this water are annually bottled and sold for medicinal purposes.

⁴ Among the other early settlers were Robt. Harper, Jesse Lund, Dr. Smith, (from Vt.) and Peter, Joseph, and James Holmes, (from Delaware co.) The first births were those of twin children of James Walsworth, in 1806; the first death was that of an unknown traveler, at the house of Mr. Walsworth, in 1808. He was buried without a coffin or religious services. The first school was taught by Henry Howard, in 1817; the first inn was kept by James Walsworth, in 1808; the first store, by Nahum Loring, in 1828; and the first sawmill was erected in 1824, by Saml. Whitcomb, at Wheatville.

⁵ The census reports 4 churches; 3 Bap. and 1 M. E.

⁶ Named from Alexander Rea, the first settler, and for several years a State Senator.

⁷ The Genesee and Wyoming Seminary was founded in 1834, through the efforts and liberality of Samuel Benedict and Henry Hawkins. In 1845, Mr. Hawkins bequeathed to the institution \$4000, his private library, and a geological cabinet. It has now a respectable library and cabinet of natural history; and its main building, erected of stone in 1837, has the capacity of accommodating 300 students.

⁸ John Oney, Lewis Dishrow, Geo. Darrow, and Mr. Blackman settled in the town in 1802-03. The first death was that of Wm. Whitney, in 1803, by the fall of a tree. The first school was taught by Mr. Jones, in the winter of 1805-06, at Alexander Village. Harvey Hawkins kept the first inn, in 1809, and the first store, in 1807. Alexander Rea and Joseph Fellows built the first sawmill, in 1804; and Wm. Adams the first gristmill, in 1807.

⁹ The census reports 3 churches in town; Presb., M. E., and Univ.

¹⁰ Mrs. Bryan's Female Seminary, a boarding school for young ladies. The school building is the former mansion of David E. Evans.

¹¹ The Batavia Union Schoolhouse was erected in 1847, at a cost of \$7000. It includes a higher English and classical department.

newspaper offices, 5 churches, an arsenal,¹ and a number of manufacturing establishments.² Pop. 2868. **Bushville** is a hamlet. In 1800, Joseph Ellicott fixed upon the site of Batavia Village as the most eligible place for the location of the office of the Holland Land Co., and in the spring of 1802 the office was removed to this place. The land office building is still standing. The old court-house and jail is now occupied as a public hall. In March, 1801, Abel Rowe came to the place and erected the first building, and immediately opened it as an inn.³ The first church (Cong.) was formed by Rev. Royal Phelps, in 1809. Rev. Ephraim Chapin was the first preacher.⁴ Batavia was the focus of the great anti-masonic excitement which followed the abduction of William Morgan in 1826.⁵

BERGEN—was formed from Batavia, June 8, 1812. Byron was taken off in 1820. Its surface is gently undulating, and has a slight inclination toward the n. Black Creek flows e. through the town a little n. of the center. The soil is a gravelly and clay loam. **Bergen Corners**, (Bergen p. o.), on the e. border of the town, contains 3 churches and 30 dwellings. **Wardville**, formerly called "*Cork*," on the Central R. R., $\frac{1}{2}$ mi. n. of Bergen Corners, contains 443 inhabitants. **Stone Church** (p. o.) is a hamlet on the line of Le Roy. **North Bergen** (p. o.) and **West Bergen** (p. o.) are hamlets. **East Bergen** is a p. o. The first settlement was made at Bergen Village, by Samuel Lincoln, from Conn. about 1805.⁶ The first religious meeting was held at South Bergen, in Sept. 1807; Rev. Calvin Ingals (Presb.) was the first settled minister.⁷

BETHANY—was formed from Batavia, June 8, 1812. It lies on the s. border of the co., e. of the center. Its surface is hilly in the s. and rolling in the n. Black Creek flows n. through near the center of the town, and Little Tonawanda Creek through the s. w. and n. w. corners. The soil in the e. is a dark, gravelly loam, and in the w. a heavy, clay loam. Weak brine springs have been found; but all attempts to procure salt water by boring have proved unsuccessful. **Bethany Center** (Bethany p. o.) contains 2 churches and 35 dwellings, **East Bethany** (p. v.) a church and about 20 dwellings, and **Linden**, (p. v.), a station on the B. & N. Y. City R. R., a flouring and saw mill, a furnace, and 40 dwellings. **West Bethany Mills** is a p. o. **Canada** (formerly "*Bennetts Settlement*") is a hamlet. The first settlement was made in the n. e. part of the town in 1803, by John Torrey, from Cayuga co.⁸ The census reports 5 churches in town.⁹

BYRON—named from Lord Byron—was formed from Bergen, April 4, 1820. It lies on the n. border of the co., e. of the center. Its surface is gently undulating, with a slight inclination to the n. Black Creek flows n. to near the center of the town, receiving the waters of Bigelow and Spring Creeks, then turns n. e. and flows into Bergen. The soil is a fine quality of gravelly and sandy loam. A sulphur spring, from which issues carburetted hydrogen gas, is found on Black Creek a little n. of Byron. An acid spring, known as the "*Sour Spring*," is found in the s. w. part of the town.¹⁰ **Byron**, (p. v.) located near the center of the town, contains 2 churches and about 150 inhabitants. **South Byron**¹¹ (p. v.) is a station on the Central R. R. Pop. about 200. **Pumpkin Hill**¹² is a hamlet. Benham Preston, from Batavia, was the first settler, on lot 197,

¹ This arsenal was erected by the State, at Batavia, under an act of 1808 for the protection of the northern and western frontiers. It continues in use as a depository of arms and military equipage.

² This village is one of the most important e. n. stations in Western N. Y. From it three branches of the N. Y. Central R. R. extend w. and s. w.—one to Niagara Falls, one to Buffalo, and one to Attica; and two toward the e.—one to Rochester and one to Canandaigua. The Buffalo, Corning & N. Y. Road also passes through the place.

³ The village was named by Mr. Ellicott in 1802. The locality having previously been known as "*The Bend*." The first road was opened through the village in Feb. 1802. Among the early settlers were Stephen Russell, Isaac Sutherland, Gen. Worthley L. Churchill, Col. Wm. Rumsey, John Thomson, John Lambertson, David E. Evans, James Brisbane, James W. Stevens, Richard Abbey, Jedediah Crosby, Gideon Elliott, Cotton Leach, Samuel F. Geer, Benajah Worden, and—Mnager. The first marriage was that of Wm. Leston and Lavonia How; and the first death, that of—Harris, in 1807. Hannab Anstin taught the first school, in 1806; Stephan Russell opened an inn, in 1801; James Brisbane kept the first store, in 1802; and Jos. Ellicott erected the first sawmill, in 1801, and the first gristmill, in 1804, on the Tonawanda Creek, for the Holland Land Co.

⁴ The census reports 6 churches; 2 Presb., Prot. E., Bap., M. E., and B. C.

⁵ See page —.

⁶ Among the early settlers were Jedediah Crosby, David Potter, Wm. White, Jas. Landen, and David Franklio, (from Conn.), who came in 1805-06; and Simon Pierson, (also from Conn.) in

1808. The first child born was Luther Crosby, in 1806; the first inn was kept at Bergen Corners by Samuel Butler, in 1810; the first store by Levi Ward, in 1808. Jared Merrill erected the first sawmill, in the n. w. part of the town, in 1811; and Titus Wilcox (from Conn.) taught the first school, in the winter of 1807-08, at Bergen Corners.

⁷ The census reports 5 churches; 2 Cong., and 1 each Presb., M. E., and B. C.

⁸ In the same year Capt. Geo. Lathrop, from Conn., settled on lot 40, in the n. part of the town, and Orasmus Kellogg, from Sheffield, Mass., to the e. part. Lyman D. Prindle, from Hoosick, settled at East Bethany in 1805; Joseph Adgate, from Ulster co., and Mather Peck, from Lyme, Conn., near East Bethany in 1806. The first birth was that of a child of Orasmus Kellogg, in 1803; and the first death, that of Solomon Lathrop, in 1806. Matilda Wedge, from New England, taught the first school, in 1808. Sylvester Lincoln kept the first inn; Elisha Harlurt, from Vt., the first store, in 1808; and Judge Wilcox built the first gristmill, in 1811.

⁹ 2 Presb., and 1 each M. E., Bap., and F. W. Bap.

¹⁰ The acid spring issues from a hillock about 230 feet long and 100 broad, elevated 4 or 5 feet above the plain. The strength of the acid is increased by drought, and in some places it is quite concentrated and nearly dry in its combination with the charred vegetable matter which everywhere covers the hillock to a depth of from 5 to 40 inches.—*Beck's Mineralogy N. Y.*, p. 149.

¹¹ Locally known as "*Brusselville*."

¹² Named from the fact that an early tavern sign at that place was painted yellow and resembled a pumpkin.

in 1807.¹ The first religious services were held by Rev. Royal Phelps, (Presb.,) from Cayuga co., in 1809. The first church (Bap.) was formed in 1810, by Elder Benjamin M. Parks.²

DARIEN—was formed from Pembroke, Feb. 10, 1832. It is the s. w. corner town of the co. The surface is hilly in the s. and rolling in the n. The streams are the Eleven Mile, Crooked, and Huron Creeks. The soil in the n. is a sandy and gravelly loam, and in the s. a clayey loam underlaid by limestone. **Darien Center**, (p. v.), formerly "Kings Corners," contains a church, seminary,³ and 20 dwellings. **Darien City**, (Darien p. o.,) in the e. part of the town, contains a church and 20 dwellings. The first settlement was made near Darien City, by Orange Carter, from Vt., in 1803.⁴ The census reports 4 churches in town.⁵

ELBA—was formed from Batavia, March 14, 1820. Oakfield was taken off in 1842. It is the central town on the n. border of the co. The surface is level or undulating. Oak Orchard Creek flows n. e. through the center of the town to the n. e. corner, and thence turns w. and flows through the n. part into Oakfield. The Tonawanda swamp extends along its course in the n. part of the town. The soil is a fertile, sandy, gravelly and clayey loam. **Pine Hill** (Elba p. v.) lies near the center of the town. Pop. 400. **Transit**,⁶ (East Elba p. o.,) on the line of Byron, is a hamlet. **Langtons Corners**, **Mills Corners**, and **Daws Corners** are farming neighborhoods. The first settlement was made at Daws Corners in 1801, by Samuel and Amos Ranger, from Vt.⁷ The first religious meetings were held by Rev. Mr. Mitchell, (M. E.,) in 1807. The first church (Bap.) was formed by Elder John Miner, in 1821.⁸

LE ROY⁹—was formed from Caledonia (Livingston co.) as "Bellona," June 8, 1812. Its name was changed April 6, 1813. A part of Stafford was taken off in 1820, and a part of Pavilion in 1842. It is the central town on the e. border of the co. Its surface is level or gently undulating. A limestone ridge, 40 to 100 feet high, extends through the n. part of the town. Oatka Creek, the principal stream, flows from the s. w. corner of the town n. e. to a point a little n. of the center, thence turns and pursues a s. e. course to the e. border. Buttermilk Falls, 90 feet high, marks its descent over the limestone terrace.¹⁰ The soil is generally a sandy or gravelly loam. Gypsum and Onondaga limestone, for building purposes, are obtained in this town. In the e. part, s. of Oatka Creek, is an extensive tract of oak openings, covered thickly with stone and hard of cultivation. **Le Roy** (p. v.) was incorp. May 5, 1834. It is finely located on Oatka Creek, and contains a bank, 2 newspaper offices, a female seminary,¹¹ 5 churches, and several manufacturing establish-

¹ Among the other first settlers were — Hoskins, in 1808; Elisha Taylor, from Otsego co., (on lot 185) Thester T. Holbrook, from Cayuga co.; Wheaton Carpenter, from R. I.; and Elisha Miller, from Penn. on lot 2, in 1809; Nathaa Holt, from Otsego co., in 1810; and Asa Merrilla, from Onida co., in 1811. The first child born was a son of Elisha Taylor, in 1809; the first marriage, that of Saml. Montgomery and Polly Parks, in 1811; and the first death, that of a son of Mr. Hoskins. Thester T. Holbrook taught the first school, in 1810-11; Ira Newbury kept the first inn, in 1815; Amos Hewett, the first store, in 1813; Wm. Shepard erected the first sawmill, in 1813; and Asa Williams the first gristmill, in 1814.

² The census reports 4 churches in town; 2 M. E., and 1 each Presb. and F. W. Bap.

³ The Darien Seminary was established in 1850, by Robert Binnerhassett.

⁴ Isaac Chaddock, from Vt., settled near Darien City in 1804. The first child born was Harriet Carter, in 1803. Stephen Parker kept the first inn, in 1808, at Darien City; and Stephen King the first store, in 1815, at Darien Center. The first sawmill was erected by Amos Humphrey, in 1809, on Eleven Mile Creek.

⁵ Cong., Bap., F. W. Bap., and M. E.

⁶ Named from its location on the E. transit meridian of the Holland Land Company's survey.

⁷ Samuel Clark, from Mass., and his son Samuel, settled at Pine Hill in 1802, and Samuel Hall, from Seneca co., and John Young, came soon after. The first death was that of David Kingsley, in 1804; Mason Turner taught the first school, near the center, in 1811; and Stephen Harmon kept the first inn, in 1815, at Pine Hill. The first store was kept at the same place, by Saml. Lane, in 1819. Horace Gibbs erected the first sawmill, on a branch of Black Creek, in the e. part of the town, in 1810; and Comfort Smith the first gristmill, on the same stream, in 1815. The widow of John Young gives the following account of some of the trials of pioneer life:—

"My husband having the year before been out and purchased his land upon the Holland Purchase, on horseback, for our new location. We came through Maryland, crossing the Susquehanna at Milford, thence via Toga Point and the then usual route. In crossing the Alleghany Mts. night came upon us; the horses became frightened by wild beasts, and refused to proceed. We wrapped ourselves in our

clocks and horse blankets, and attempted to get some rest, but had a disturbed night of it. Panthers came near us, often giving terrific screams. The frightened horses started and stamped upon the rocks. Taking an early start in the morning we soon came to a settler's house, and were informed that we had stopped in a common resort of the panther. My husband built a shanty, which was about 10 feet square, flat roofed, covered with split ash shingles; the floor was made of the halves of split basswood; no chimney. A blanket answered the purpose of a door for a while, until my husband got time to make a door of split plank. We needed no window; the light came in where the smoke went out. For chairs we had benches, made by splitting logs and setting the sections upon legs. A bedstead was made by boring holes in the side of the shanty, inserting pieces of timber which rested upon two upright posts in front, a side piece completing the structure, peeled basswood bark answering the place of a cord." We of course had brought no bed with us on horseback; so one had to be procured. We bought a cotton bag of Mr. Brisbane, and stuffing it with cat-tail, it was far better than no bed. The second year we were in, I had an attack of the fever and ague, which confined me for nearly a year. That year my husband cleared four acres, besides taking care of me and doing the cooking. It was no uncommon thing, in the first years of settlement, for women in childbirth to be deprived of the aid of a physician; and often the attendance of their own sex had to be dispensed with. Mr. Young died in 1836."

⁸ The census reports 5 churches in town; 1 each Bap., Cong., M. E., Prot. M., and Friends.

⁹ Named in honor of Herman Le Roy, one of the original purchasers of the "Triangle Tract."

¹⁰ When the stream is low, the water sinks into the bed of the stream about 2 miles above the falls, and finds its way to the lower channel through a subterranean passage.

¹¹ The Ingham University, late Ingham Collegiate Institute, was incorp. 1857. The institution was first established at Attica, in 1835, by Miss Marietta Ingham, and a younger sister, Emily E. Ingham, (now Mrs. Phineas Stanton,) from Mass. In 1837 it was removed to Le Roy, and was established as the "Le Roy Female Seminary" by the founders, aided and supported by Messrs. Saml. Comstock, Jonathan P. Darling, Seth M. Gates, Albert Brewster, A. S. Upham, Enos Bacheelder, A. P. Hascall, Lee Comstock, Israel Rathbone, Richard Hollister, and Wm. S. Bradley. It was chartered in 1841; and in 1855 the whole

ments. Pop. 2081. **Fort Hill**¹ is a hamlet. The first settlement was made in 1797, by Charles Wilbur, near Le Roy Village.² The first religious services (Prot. E.) were held at the village by the Rev. Davenport Phelps, in 1802.³

OAKFIELD⁴—was formed from Elba, April 11, 1842. It lies on the n. border of the co., w. of the center. The surface is level or gently undulating. Oak Orchard Creek, the principal stream, flows w. through the n. part of the town. A marsh, forming a portion of the Tonawanda swamp, extends along its course. The soil is a sandy and gravelly loam underlaid by clay. Brine springs, from which salt was formerly manufactured, are found near the center of the town. **Caryville**⁵ (Oakfield p. o.) was incorp. in July, 1858. It contains an academy⁶ and 2 churches. Pop. 500. **Oakfield** and **Mechanicsville** are hamlets. Most of the town was an Indian Reservation, and the lands were not sold to the whites until subsequent to 1832. The first settlers were Erastus Walcott, Gideon Dunham, and Christopher Kenyon, who came in 1801.⁷ One mi. w. of Caryville are the remains of an ancient fortification known as the "Old Fort," consisting of a ditch and breastworks, including about 10 acres of ground. There are 2 churches in town; Presb. and M. E.

PAVILION—was formed from Covington, (Wyoming co.,) May 19, 1841. Portions were annexed from Le Roy and Stafford, March 22, 1842. It is the s. e. corner town of the co. The surface is hilly in the s. and undulating in the n. Oatka Creek, the principal stream, flows n. a little w. of the center of the town. The soil is a fertile, gravelly loam underlaid by clay. Fruits are extensively cultivated. **Pavilion** (p. v.) is situated on Oatka Creek, near the s. border of the town. Pop. 216. **Pavilion Center**, (p. v.,) formerly "South Le Roy," contains a church and 20 houses. **Union Corners** is a hamlet. The first settlement was made in 1809, by Peter Crosman.⁸ The first church edifice (Univ.) was erected at the village of Pavilion, in 1832.⁹

PEMBROKE—was formed from Batavia, June 8, 1812. A part of Alabama was taken off in 1826, and Darien in 1832. It is the central town upon the w. border of the co. Its surface is level or gently undulating. Tonawanda Creek flows through the n. e. corner, and Murder Creek through the s. part of the town. The soil is a sandy and gravelly loam intermixed with clay. The Tonawanda Indian Reservation occupies a portion of the n. part of the town. **East Pembroke**, (p. v.,) on the line of Batavia, contains an academy,¹⁰ 2 churches, and 35 dwellings, **Richville**,¹¹ (Pembroke p. o.,) 1 church and 40 dwellings, **Longs Corners**, (Corfu p. o.,) in the s. part of the town, 2 churches and 45 dwellings, and **Mogadore**, (North Pembroke p. o.,) 20 dwellings. **Prospect Hill** is a hamlet. The first settlement was made in the town in 1804, by David Goss, from Mass.¹² The first church (Cong.) was formed by Rev. Joshua Spencer, first minister, in 1810, at Longs Corners.¹³

STAFFORD—was formed from Batavia and Le Roy, March 24, 1820. A part of Pavilion was taken off in 1842. It is an interior town, lying e. of the center of the co. Its surface is undulating, with a general slight slope to the n. Black Creek flows n. through the center of the town, and Bigelow Creek rises in the w. and flows in the same direction. The soil is a productive, sandy

establishment, costing over \$20,000, was donated by its founders to the Synod of Genesee, upon the conditions that a full collegiate course should be established, and a permanent fund raised for its support. The gift was accepted by the Synod, and the present came bestowed.

¹ On the brow of the hill at this place are the ruins of an old fort.—*Smithsonian Contributions*, vol. II, art. 6, p. 43.

² Capt. John Ganson, and his 2 sons John and James, settled near Le Roy Village in 1798, and Gideon Fordham, Alexander McPherson, and Hines Chamberlin in 1800-01. The first child born was Neoma Wilbur, in 1799; and the first after the town was named Le Roy was Wm. Le Roy Annin, in 1814. Geo. A. Tiffany kept the first store, in 1799; and the Holland Land Co. built the first mill, in 1804.

³ The census reports 6 churches in town; 1 each Prot. E., Presb., Cong., Bap., M. E., and R. C.

⁴ Named from the fact that the lands of the town were mostly "Oak Openings."

⁵ Named from Col. Alfred Cary, an early settler and prominent citizen.

⁶ The Cary Collegiate Institute was founded in 1840, mainly by the influence and means of Col. Alfred Cary, who died in this town Sept. 17, 1858, aged 79. The building (which is of stone) and apparatus cost \$15,000. The institution has accommodations for 200 students. Besides large contributions to its establishment, Col. Cary has endowed the institution with \$20,000. It is now under charge of the Prot. E. Church.

⁷ The first store was kept in 1833, by Col. Cary, at Caryville; and the first inn by Gideon Dunham, at Dunhams Corners, in

1805. The first saw and grist mill were erected by Christopher Kenyon, in 1811.

⁸ Among the other first settlers were James McWithey, Solomon Terrill, Reuben Burnham, and Joshua Shumway, in 1810; Sylvanus Young, Elijah Phelps, Amasa Allen, and several brothers of the name of Burgess, in 1811; and Isaac Storm, in 1812, most of whom located in the e. part of the town. The first death was that of a child of Reuben Burnham, in 1812. Laura Terrill (from Vt.) taught the first school, in 1813; Seth Smith kept the first inn, in 1815; and Horace Bates the first store, in 1817, at the village of Pavilion. The first mill was erected by Bial Lathrop, on Oatka Creek, in 1816.

⁹ The census reports 7 churches in town; 3 M. E., and 1 each Presb., Bap., Union, and Univ.

¹⁰ The Rural Academy was incorp. by the regents in 1856. Average number of students about 100.

¹¹ Named from Charles B. Rich, a prominent man in town.

¹² John Long, Dr. David Long, (from Washington co.,) and Samuel Carr settled in the town in 1808, and Joseph Lester (from Conn.) in 1809. The first child born was Jonathan Hastings, Jr., in 1810; and the first marriage, that of Ansell Hastings and Polly Long, in 1812. Anna Horton taught the first school, at Corfu, in 1811; Samuel Carr kept the first inn, at W. Pembroke, in 1809; John Ball the first store, at the same place, in 1812; and Samuel Carr erected the first gristmill and sawmill, in 1808-09.

¹³ The census reports 6 churches in town: 2 Bap., and 1 each Presb., M. E., Prot. M., and Christian.

loam intermixed with clay. **Stafford** (p.v.) lies on Black Creek, near the center of the town. Pop. 350. It is a station on the C. & N. F. branch of the N. Y. R. R. **Morganville**¹ (p.v.) contains 2 churches, 2 sawmills, a flouringmill, and 200 inhabitants. A fall in Black Creek at this place is 30 ft. perpendicular and 30 ft. in rapids, affording a fine water power.² **Roanoke**,³ (p.v.), formerly "*Orangeburgh*," contains a church, several mills, and 20 dwellings. The settlement was commenced in 1801, by Col. Wm. Rumsey and Gen. Worthy Lovel Churchill, (from Vt.,) who located on the Buffalo Road, w. of Stafford.⁴ The first religious services were held at the house of Col. Rumsey, by Rev. Mr. Green. The first church (Bap.) was formed by Rev. Amos Lampson, in 1815.⁵

¹ Named from the wife of Wm. Morgan, of masonic notoriety.
² Two caves are found in the w. bank of the creek a few rods below the falls.
³ Named from the residence of John Randolph by Major Jas. Ganson.
⁴ Peter Stage (from Onondaga co.) settled in 1802. Benj. Ganson and John Amis were the first settlers in the e. part of the town. Gen. W. L. Churchill served with credit in the War of 1812, and subsequently as sheriff of Genesee co. from 1820 to 1825. The first birth was that of a child of W. L. Churchill, March 9, 1803; and the first death, that of the wife of W. L. Churchill, at about the same time. The first school was taught by Esther Sprout, in 1806. Frederick Walther kept the first inn, at Stafford Village, in 1799; and this was one of the first three taverns kept on the Holland Purchase. The village was then known as the "*Transit Store House*," from its being the principal supply station for the surveying company while running the "*Transit Line*." The first sawmill was built on Biglow Creek, in 1810, by Amos Stow; and the first gristmill, on the same stream, in 1811, by Seymour Ensign.
⁵ The census reports 7 churches in town; 2 M. E., and 1 each Prot. E., Cong., Bap., Christian, and Univ.

MADISON COUNTY.

THIS county was formed from Chenango, March 21, 1806, and named in honor of President Madison. That part of Stockbridge *e.* of Oneida Creek was annexed from Oneida in 1836. It is situated in the central part of the State, is centrally distant — mi. from Albany, and contains an area of — sq. mi. The extreme *n.* part is low, level, and swampy; but the central and *s.* parts are hilly, and constitute a portion of the general system of highlands which occupy Central New York. The hills generally have rounded outlines and steep declivities, their highest summits being 500 to 800 ft. above the valleys and 900 to 1200 ft. above tide. The highlands are divided into separate ridges by a series of valleys extending *n.* and *s.*, and they form the watershed between Susquehanna River and Oneida

Lake. The principal streams upon the *n.* slope are Chittenango¹ Creek, forming a part of the *w.* — boundary of the *co.*, Oneida Creek, forming a part of the *e.* boundary, and the Canaseraga,² Canastota,³ and Cowaselon Creeks: and the principal flowing *s.* are Unadilla River, upon the *e.* border, Beaver Creek, Chenango River and its branches, Otselic⁴ Creek, and Tioughnioga River. The principal bodies of water are Oneida Lake, forming the *n.* boundary, and Owahgena or Cazenovia Lake, near the center of the *w.* border. The latter, a beautiful sheet of water, 4 mi. long, is 900 ft. above tide, and is completely surrounded by gradually sloping hillsides. The lowest rocks of the *co.*, outcropping along Oneida Lake, belong to the Clinton group. The red iron ore peculiar to this group is found to a limited extent, but not in sufficient quantities to render mining profitable. Next above this successively appear the Niagara and Onondaga groups, underlying the whole swampy region.⁵ The red shales form the surface rock *s.* of the swamp, and beds of gypsum extend along the base of the hills. These beds are extensively quarried in some sections, and furnish an excellent quality of plaster. Upon the *n.* declivities of the hills successively appear the water limestone, Pentameros limestone, Oriskany sandstone, and Onondaga limestone. From these groups are obtained an abundance of waterlime, quicklime, and building stone, all of excellent quality. Next above appear the Marcellus and Hamilton shales, covering more than one-half of the entire surface of the *co.* The Tully limestone, Genesee slate, and Ithaca groups are found to a limited extent covering the tops of the southern hills. A large share of the *co.* is covered deep with drift deposits. The soil upon the flat lands of the *n.* is generally a red clay, with great quantities of muck and marl in the swampy regions. Upon the northern declivities of the hills the soil is a gravelly loam intermixed with lime and plaster, and is very productive. Farther *s.* the soil upon the hills is a clayey, gravelly, and shaly loam, best adapted to pasturage, and in the valleys a gravelly loam and alluvium. The people are principally engaged in stock raising and dairying. Hops are largely cultivated. Manufactures are principally confined to two or three villages.

The *co.* seat is located at Morrisville. The courthouse is a two story wooden building, pleasantly situated on a small park, fronting on a main street. It was built in 1849, and contains the court⁶ and jury rooms.⁷ The clerk's office is a small, brick, fire-proof building adjoining the courthouse. The jail was burned in the winter of 1858. The poorhouse is located upon a farm of 135 acres near Eaton village, 5 mi. *s. e.* of Morrisville. The average number of inmates is 130, supported at a cost of 56 cts. per week each. A school is taught during the whole year. The farm yields a revenue of \$1500.⁸ The principal public works in the *co.* are the Erie Canal and the N. Y. Central

¹ Meaning "waters divide and run *n.*" Seaver, in "*The Life of Mary Jemison*," says it is a corruption of the Oneida word "Chn-de-nääny," signifying "where the sun shines out."

² Meaning "Big Elkahorn." Seaver gives it as "Ka-na-so-wa-ga," signifying "several strings of beads with a string lying across."

³ "Ka-ne-to-ta," signifying "pine tree standing alone."

⁴ Meaning "Capfull."

⁵ In the marsh near Canastota a brine spring is found. A boring of 190 ft. was made here; but the wa-*r* obtained was not sufficiently strong to warrant the further prosecution of the work.

⁶ The first courts were held alternately at "the schoolhouse, near David Barnard's, in Sullivan, [now Lenox,] and at the

schoolhouse in the village of Hamilton." The first officers were Peter Smith, *First Judge*; Sylvanus Smalley, Edward Green, Elisha Payne, and David Cook, *Associate Judges*; Asa B. Sizer, *Co. Clerk*; Jeremiah Whipple, *Sheriff*; and Thos. H. Hubbard, *Surrogate*. In 1810, Cazenovia was selected as the site of the *co.* buildings, and Col. John Lincklaen and Capt. Jackson were appointed to superintend the building of a courthouse. A brick building was erected, and the first court was held in it in Jan. 1812. In 1817 the *co.* seat was removed to Morrisville, and the first court was held there Oct. 7, 1817.

⁷ Ellis Moss, Sam'l White, and Oliver Pool were appointed to superintend the erection of the courthouse.

⁸ This institution consists of three two story stone buildings; the poorhouse proper, a lunatic asylum, and a hospital.

R. R., extending through Lenox and Sullivan. Among the hills are several large artificial reservoirs, used as feeders for the canal. Cazenovia Lake is used for the same purpose.

There are seven weekly newspapers published in the co.¹

Nearly all the s. half of this co. belonged to the tract known as the "Chenango Twenty Towns."² A strip lying between this tract and the Military Tract, including De Ruyter and the greater part of Cazenovia, was embraced in the Lincklaen Purchase. The Oneida Indian Reservation, originally embracing all the n. part of the co., was subsequently divided into several large tracts. The "New Petersburg Tract," or purchase of Peter Smith, includes nearly all of Smithfield and Fenner, the n. part of Cazenovia, and a strip a mile wide across the s. part of Stockbridge. The remainder of Stockbridge was included in the reservation of the Stockbridge Indians. Lenox and Sullivan constituted the n. w. portion of the Oneida Indian Reservation. The first settlements were made by squatters upon the Oneida Reservation, in 1790.³ The permanent settlements were commenced about 1795, and the co. rapidly filled up with immigrants, principally from New England.

¹ *The Madison Freeholder* was commenced at Peterboro, before or in the early part of 1808, by Jonathan Bunce & Co. It soon after appeared as *The Freeholder*, and was continued until 1813. It was then changed to *The Madison County Herald*, and was continued several years. *The Christian and Citizen* was published at Peterboro, in 1854, by Pryn & Walker. *The Pilot* was established at Cazenovia, in Aug. 1808, by Oran E. Baker, and continued until Aug. 1823. *The Republican Monitor* was started at Cazenovia, in Sept. 1823, by L. L. Rice. It was published by John F. Fairchild from April, 1825, until Jan. 1832, by J. F. Fairchild & Son until July, 1840, and by J. F. Fairchild until March 4, 1841, when it was discontinued. *The Students Miscellany*, semi-mo., was published at Cazenovia, in 1831, by A. Owen and L. Kidder. *The Union Herald* was commenced in May, 1835, by L. Myrick and K. W. Clark. In 1836 Clark withdrew; and in 1840 the paper was discontinued. *The Cazenovia Democrat* was started in Sept. 1836, by J. W. Chubbuck & Co.; it was edited by J. W. Dwinelle. In Feb. 1837, it was discontinued. *The Madison County Eagle* was commenced at Cazenovia, in Feb. 1840, by Cyrus O. Pool. In 1841 it was published by Thos. S. Myrick and W. H. Phillips. In June, 1842, Myrick withdrew; and in May, 1845, its name was changed to *The Madison County Whig*. In Aug. 1848, Phillips was succeeded by H. A. Cooleage, by whom the paper was changed to *The Madison County News*, in Oct. 1853. In May, 1854, it was again changed to *The Madison County Whig*; and in Jan. 1857, it was discontinued. *The Abolitionist* was started at Cazenovia, in 1841, by James C. Jackson, and continued 2 years. *The Madison and Onondaga Abolitionist* was published in 1843, by Luther Myrick. *The Madison Republic* was commenced at Cazenovia, in Jan. 1850, by W. H. Phillips, and continued about 3 months. *The Cazenovia Gazette* was published by Baker & Dobnam, from Oct. 1851, until May, 1852. *The Progressive Christian* was established in April, 1853, by A. Pryne, and was continued 2 years. **The Cazenovia Republican** was commenced May 1, 1854, by Seneca Lake, its present publisher. *The Gazette and Madison County Advertiser* was established at Peterboro in May, 1817, by John E. Johnson and son. It was removed to Morrisville in 1819, and discontinued in 1822. *The Madison Observer* was commenced at Cazenovia, in Jan. 1821, by Rice & Hale. It was removed to Morrisville in 1822; and in 1824 Bennett Bicknell became its publisher. In 1829 it was united with *The Hamilton Recorder*, and was issued as *The Observer and Recorder*. In 1832 it passed into the hands of H. C. Bicknell and Jas. Norton, and in 1834 into those of Jas. Norton. In 1855 it was changed to **The Madison Observer**. In 1839 J. and E. Norton became its publishers, and in 1856 Edward Norton, by whom it is still published. *The Hamilton Recorder* was started in 1817, by John G. Stower and P. B. Havens. In 1819 it passed into the hands of Stower & Williams, and afterward into those of John P. Van Sica. In 1829 it was removed to Morrisville and united with *The Observer*. *The Madison Farmer* was published at Hamilton, in 1828, by Nathaniel King. *The Civilian* was started July 27, 1830, by Lauren Dewey. In Feb. 1831, it passed into the hands of Lewison Fairchild, and in Nov. 1831, it was discontinued. *The Hamilton Courier* was commenced by G. R. Waldron, in Feb. 1854, and the following year it appeared as *The Hamilton Courier and Madison Co. Advertiser*. It was continued until 1838.

The Hamilton Palladium was started in 1838, by John Atwood, and continued 6 years, a part of the time by J. & D. Atwood. *The Hamilton Eagle* was published in 1839, by G. R. Waldron. *The Literary Visitor* was published at Hamilton about 3 months, in 1842, by Dennis Redman. *The Democratic Reflector* was started at Hamilton by G. R. Waldron, in 1842, and was published by Waldron & Baker from 1843 until 1854, and 2 years by Waldron alone, when it was united with *The Madison Co. Journal*, and appeared as **The Democratic Republican**. It is now published by Waldron & James. *The Madison County Journal* was commenced in Sept. 1840, by E. F. & C. B. Gould. W. W. Chubbuck, F. B. Fisher, and T. L. James were afterward interested in its publication; and in 1856 it was united with *The Democratic Reflector*. *The Mill Boy* } were published during the campaign of 1844, and }
and } the former at the Palladium and the latter at }
The Polker } the Reflector office. *The Land Mark* was published as a campaign paper in 1850. *The New York State Radii* was removed from Fort Plain, Montgomery co., in 1854, by L. S. Backus, and continued about 18 months, when it was returned to Fort Plain. **The Democratic Union** was commenced at Hamilton, in 1856, by Levi S. Backus; and in 1857 it passed into the hands of W. H. Baker, its present publisher. *The Canastota Register* was published in 1850, by Silas Judd and H. B. Mattison, and in 1831 by H. S. Merritt. *The Canastota Times* was commenced in 1857, by Geo. H. Merriam, and was discontinued the following year. **The Canastota Eagle** was started Nov. 4, 1858, by J. H. N. Backus, its present publisher. *The Chittenango Herald* was established in 1832, by Isaac Lyon, and was published successively as *The Chittenango Republican*, *The Phoenix*, and *The Democratic Gazette*, until 1856, when it was discontinued. *The De Ruyter Herald* was published in 1835, by C. W. Mason. *The Protestant Sentinel* was brought from Schenectady to De Ruyter in Nov. 1836, and was published by J. & C. H. Maxon until the fall of 1837. It then passed into the hands of Wm. D. Cochran, by whom it was issued as *The Protestant Sentinel and Seventh Day Baptist Journal*. In Feb. 1840, Joel Greene became its publisher, and changed it to *The Seventh Day Baptist Register*. In 1841 it passed into the hands of James Bailey, by whom it was continued until 1845. *The National Banner* was commenced at De Ruyter in Oct. 1847, by A. C. Hill, and continued 2 years. *The Central New Yorker* was published at De Ruyter, by E. F. & C. B. Gould, from Sept. 1848, until May, 1851. *The Banner of the Times* was started at De Ruyter, by Walker & Hill, and continued until 1855. *The Oneida Telegraph* was commenced at Oneida, in Sept. 1851, by D. H. Frost. In June, 1854, it passed into the hands of John Crawford, and was changed to **The Oneida Sachem**, under which name it is still published. **The Circular** was established in 1852, and is published weekly at the Oneida Community. ² The following is a list of these townships within the limits of this co.:

Nelson.....	No. 1.	Lebanon.....	No. 5.
Eaton.....	" 2.	Georgetown.....	" 6.
Madison.....	" 3.	Brookfield.....	" 19 & 20.
Hamilton.....	" 4.		

The Canastota Tract in this co. was granted in lieu of the school lots reserved in the "Twenty Towns;" but by some oversight was sold with these lands.

³ See page —.

BROOKFIELD—was formed from Paris, (Oneida co.,) March 5, 1795; and Columbus (Chenango co.) was taken off in 1805. It is the s. e. corner town of the co. Its surface is a hilly upland, broken by the valleys of Unadilla River and Beaver Creek. Unadilla River forms the e. boundary. Beaver Creek flows through near the center, and the e. branch of the Chenango through the n. w. part. Several smaller streams take their rise in the town. The soil is a gravelly loam. **Clarkville**,¹ (Brookfield p. o.,) incorp. April 5, 1834, contains 2 churches, the Brookfield Academy, a hoe and fork manufactory, gristmill, and tannery. Pop. 578. **Leonardsville** (p. v.) contains 1 church, a bank, and several manufactories.² Pop. 366. **North Brookfield** (p. v.) has 275 inhabitants. **South Brookfield** (p. o.) is a hamlet, and **De Lancy**³ a p. o. The first settlement was made by Daniel Brown, in 1791.⁴ The census reports 6 churches in town.⁵

CAZENOVIA⁶—was formed from Paris and Whitestown, (Oneida co.,) March 5, 1795. De Ruyter was taken off in 1798, Sullivan in 1803, Smithfield and Nelson in 1807, and a part of Fenner in 1823. It is the central town upon the w. border of the co. Its surface is a rolling upland, broken by the valleys of Chittenango and Limestone Creeks. The summits of the hills are 300 to 500 feet above the valleys. Owahgena or Cazenovia Lake, in the n. part of the town, is a beautiful sheet of water about 4 mi. long. Its outlet—Chittenango Creek—forms a part of the boundary between this town and Fenner. In its course it has a fall of several hundred feet, affording a great number of valuable mill sites. At the Chittenango Fall the water plunges in a beautiful cascade perpendicularly over a ledge of limestone rock 136 feet in height. Limestone Creek flows across the s. part of the town. Hydraulic and common limestone are quarried near Chittenango Falls. The soil in the n. and central parts is a gravelly loam, and in the s. a clayey loam underlaid by hardpan. **Cazenovia**, (p. v.,) incorp. Feb. 7, 1810, is beautifully situated on Chittenango Creek, at the foot of Cazenovia Lake. It contains 7 churches, an academy,⁷ a bank, and several manufactories.⁸ Pop. 1177. **New Woodstock** (p. v.) contains 2 churches and 273 inhabitants. **Chittenango Falls** is a p. o. Settlement was commenced in 1793, by John Lincklaen, from Amsterdam, Holland.⁹ The first church (Presb.) was organized May 17, 1799, with 5 members; and the Rev. Joshua Leonard was the first pastor. The census reports 9 churches in town.¹⁰

DE RUYTER¹¹—was formed from Cazenovia, March 15, 1798. Georgetown was taken off in 1815, and German (Chenango co.) in 1806. It is the s. w. corner town of the co. Its surface consists of hilly upland, broken by the valley of Tioughnioga River. The summits of the hills are 400 to 500 ft. above the valleys. The principal streams are Tioughnioga River and its tributaries. The soil is a gravelly and sandy loam on the hills and alluvium in the valleys. **De Ruyter**, (p. v.,) incorp. April 15, 1833, contains 3 churches, an academy,¹² and several manufactories.¹³ Pop. 727. **Sheds Corners** is a p. o. The first settlers were Elijah and Elias Benjamin and Eli Colgrove, in 1793.¹⁴ The first church (Bap.) was formed by Elder Joel Butler, Nov. 5, 1799.¹⁵

EATON¹⁶—was formed from Hamilton, Feb. 6, 1807. It is an interior town, situated near the center of the co. The surface is a rolling upland, broken by the valley of Chenango River into two ridges, whose summits are 400 to 600 ft. in height. The Chenango flows s. through the center. The outlet of the Eaton Reservoir flows through a deep, narrow ravine, and affords a large number of valuable mill sites. Hatchs Lake and Bradley Brook Reservoir, and several smaller reservoirs, are in this town. The soil is a gravelly loam, intermixed with clay in the valleys. **Morrisville**,¹⁷ (p. v.,) situated on Chenango River, was incorp. April 13, 1819. It contains 3

¹ Named from Joseph Clark, formerly State Senator.

² A fork manufactory, gristmill, sawmill, and tannery.

³ Named from John De Lancy.

⁴ John and Elias Button, Leawton Palmer, Saml. H. Burdick, Saml. Billings, David Maine, Stephen Collins, Thos. and James Rogers, and Paul and Perry Maxon settled in the town in 1792. Stephen Hoxie, Simeon, Nathaniel, and Eleazer Brown, Henry Clark, Robert Randall, Asa Frink, Ethan, Oliver, and Phineas Babcock, Ira and Nathan Burdick, and Youman York were also early settlers. John Button built the first gristmill, in 1792; and Reuben Leonard opened the first store, in 1801. The first school was taught by Asa Carrier, in the winter of 1796-97.

⁵ 2 Seventh Day Bap., 2 M. E., Bap., Univ.

⁶ Named from Theophilus Cazenovia, the first general agent of the Holland Land Company.

⁷ The Ononda Conference Seminary is a large and flourishing institution, under the care of the Methodist denomination.

⁸ In and near Cazenovia, on Chittenango Creek, are a woolen factory, paper mill, oil mill, town clock factory, furcase, machine shop, 2 gristmills, and a sawmill.

⁹ Archibald Bates, Wm. Gillett, Wm. Miles, Benj. Pierson, Noah Taylor, Sarel S. Forman, Ira Peck, Nathan Webb, Shubael Brooks, and others named Tyler and Aogor settled in the town

in 1793; and Joseph Simms, Isaac Moss, Gideon Freeman, and David Fay soon after. The first birth was that of a child of Noah Taylor, in 1794. John Lincklaen built the first saw and grist mills, in 1794.

¹⁰ 2 Bap., 2 M. E., Cong., Presb., Prot. E., Union, and Univ.

¹¹ Named from Admiral De Ruyter, of the Dutch Navy.

¹² The De Ruyter Institute is under the care of the Seventh Day Baptist denomination.

¹³ 2 tanneries, 2 sawmills, a gristmill, oil mill, furnace, and cabinetware manufactory.

¹⁴ Joseph Messenger and Sam'l Thomson settled in the town in 1795. Darius Benjamin, Justus, Jeremiah, and Ebenezer Gage, and Daniel Page were also early settlers. The first birth was that of Frederick Benjamin, about 1798: Joseph Messenger opened the first inn, in 1796; Samuel Bowen kept the first store; Joseph Rich built the first sawmill, in 1807, and the first gristmill, in 1809. The first school was taught by Eli Gage, in the winter of 1799.

¹⁵ There are 6 churches to town; 2 Friends, and 1 each Bap., Seventh Day Bap., M. E., and Presb.

¹⁶ Named from Gen. Wm. Eaton, commander of the U. S. military forces in the expedition to Tripoli.

¹⁷ Named from a family of early settlers in town.

churches, a newspaper office, and several manufactories.¹ Pop. 715. **Eaton**, (p. v.,) commonly called "*Log City*," contains 3 churches and several manufactories.² Pop. 510. **West Eaton**, (p. v.,) commonly called "*Leeville*," contains 2 churches, a woolen factory, sawmill, and about 40 houses; and **Pratts Hollow**³ (p. v.) 1 church and about 20 houses. **Pine Woods** is a p. o. Settled in 1792, by John and James Salisbury, from Vt.; but the first permanent settler was Joshua Leland, from Sherburne, Mass., in 1793.⁴ The first church (Presb.) was formed in 1805.⁵

FENNER⁶—was formed from Cazenovia and Smithfield, April 22, 1823. It is an interior town, lying n. w. of the center of the co. Its surface is a rolling upland. Oneida, Canaseraga, and Chittenango Creeks have their sources in this town. The latter forms a part of its w. boundary. Extensive marl beds are found; and on the bank of Chittenango Creek calcareous tufa is quarried and burned into lime. The soil is a gravelly and clayey loam. **Perryville**, (p. v.,) partly in this town, contains 2 churches and 25 houses. **Fenner** (p. o.) is a hamlet. The first settlement was made about the year 1793.⁷ The first church (Bap.) was organized Aug. 23, 1801.⁸

GEORGETOWN—was formed from De Ruyter, April 7, 1815. It lies upon the s. border of the co., w. of the center. The surface is a hilly upland, broken by the valley of Otselic Creek into two ridges. The summits of the hills are 500 to 600 ft. above the valleys. The principal streams are Otselic Creek and its branches. The soil upon the hills is yellow loam, and in the valleys a gravelly alluvium. **Georgetown** (p. v.) contains 3 churches, and has a population of 280. The first settlement was made by Ezra Sexton, in 1804.⁹ Lewis Anathe Muller, a French refugee, settled in this town about 1810, and remained until the restoration of Louis Philippe.¹⁰ The first religious services were conducted by Ezra Sexton, at the house of Bethel Hurd, in 1805.¹¹

HAMILTON—was formed from Paris, (Oneida co.,) March 5, 1795, and was named from Alexander Hamilton. Eaton, Lebanon, and Madison were taken off in 1807. It lies upon the s. border of the co., between Lebanon and Brookfield. Its surface is a rolling upland, broken by the valleys of Chenango River and its east branch. The soil is a gravelly loam in the valleys and a clayey loam upon the hills. **Hamilton**,¹² (p. v.,) incorp. April 12, 1812, is situated on the Chenango Canal. It contains 4 churches, the Hamilton Academy, the Hamilton Female Seminary, 2 newspaper offices, and a bank. Pop. 1448. The Madison University, located at this place, under the care of the Baptist denomination, was incorp. March 26, 1846. It consists of a grammar school, a collegiate and a theological department. Nine professors are employed, and in 1857 31 theological students, 123 under-graduates, and 71 grammar school students were in attendance. The libraries connected with the university contain about 8900 volumes.¹³ **Earlville**,¹⁴ (p. v.,) on the line of Sherburne, (Chenango co.,) contains 2 churches, and has a pop. of 441, of which 233 are in this town. **Poolville** (p. v.) contains 2 churches and about 40 houses, and

¹ A silk factory, distillery, tannery, iron foundry, machine shop, gristmill, and sawmill. There were formerly several woolen factories in and near Morrisville, but they have been abandoned.

² A woolen factory, a tool factory and trip hammer, distillery, tannery, gristmill, and sawmill.

³ Named from John and Matthew Pratt, early settlers.

⁴ John H. and Benj. Morris settled in the town in 1794; Benj. Morse, Daniel Abbey, Simeon Gillett, Levi Barney, and Elijah Hayden, in 1795; Joseph Moss, Wm. Mills, Lewis Wilson, Sam'l Sinclair, Humphrey Palmer, and ——— McCrellis, in 1796; and Rawson Harmon, in 1797. Thos. Morris, Windsor and Ziba Corman, Constand, Robert, and Cyrus Avery, Joseph French, and Abiah Gates were also early settlers. The first birth was that of Col. Urish Leland, Nov. 1, 1793; the first marriage, that of Lewis Wilson and Dorcas Gillett, in 1796; and the first death, that of Simeon Gillett, in 1796. Joshua Leland opened the first inn, in 1794, and erected the first saw and grist mills, in 1795. David Gaston kept the first store, in 1804. The first school was taught by Dr. James Pratt, in the winter of 1797-98,—the first month at the house of Joseph Moss, the second near Morrisville, the third near Log City, and the fourth near the residence of Joshua Leland.

⁵ The census reports 8 churches in town; 3 Bap., 3 M. E., and 2 Cong.

⁶ Named from Gov. Fenner, of Rhode Island.

⁷ Among the early settlers were Alpheus Twist and James Munger, from Conn., who located a mi. s. of the center, Jonathan Munger and ——— Page in the n. part, and Elisha Freeman, Ithuriel Flower, Ames Webster and Amanda Munger in the s. part. The first birth was that of a child of Alpheus Twist; and the first death, that of the wife of Alpheus Twist. Elder Natho Baker was the first preacher.

⁸ The census reports 5 churches: 3 M. E., Bap., and Prot. E.

⁹ Matthew Hallenbeck, Josh Bishop, John C. Paine, and Bailey Carter settled in the town in 1804, and Mitchell Atwood, Wm. Paine, Bethel Hurd, Joseph P. Harrison, and Josiah Parly in 1805. Elenezer Hull, Apollon Drake, Elijah and Alfred Brown,

Jesse Jerrold, Zadock Hawks, John Gibson, ——— Hunt, David Parker, Philetus Stewart, Calvin Cross, Dr. Smith, Benj. Bonner, Capt. White, and ——— Alvord, were also early settlers. The first birth was that of Weston Paine, in 1805; and the first death, that of Mrs. Ezra Sexton, in 1807. Mitchell Atwood built the first sawmill, in 1806, and Bishop & Hunt the first gristmill, in 1807. J. C. Paine was an early innkeeper.

¹⁰ Muller settled on the hill, about 3 mi. w. of Georgetown, erected a large and spacious dwelling, laid out extensive grounds, excavated an artificial pond, and planted great numbers of fruit trees. He attempted the establishment of a village, by erecting 2 storehouses, several dwellings, a blacksmith shop, and a gristmill. It is supposed that he brought with him to town not less than \$150,000, and that he carried away not to exceed \$1500. When Bonaparte abdicated, Muller returned to France, leaving his wife and children in New York. He afterward returned to dispose of his property here. When he reached Georgetown, his house was stripped of its furniture; his stock and every movable article had disappeared; weeds covered the gardens, the walks, the roads, and fields; his village was forsaken, and the mill deserted. The agent in whose charge he had left his property had sold every movable article and deserted the place. Muller sold the property and returned to France; and to this day no one knows who or what he was.

¹¹ There are 8 churches in town; Bap., Presb., and Union.

¹² Formerly called "*Paynesville*."

¹³ The "*Hamilton Theological Seminary*" was established in 1820, under the auspices of the Baptist Education Society of the State of New York. In 1834 a collegiate course was instituted, and the seminary assumed the name of the "*Hamilton Literary and Theological Seminary*;" and in 1846 the institution was incorp. as the Madison University. The theological department is still under the control of the Baptist Educational Society. The aggregate number of graduates of the theological department is 302, and of the collegiate department 462.

¹⁴ Named from Jonas Earl, Canal Commissioner.

Hubbardsville¹ (p. v.) 20 houses. **East Hamilton** (p. o.) is a hamlet, and **South Hamilton** a p. o. The first settlers were John Wells and Abner Nash, from Mass., and Patrick Shields and John Muir, from Scotland, but late from Oneida co. They located upon Chenango, near Earlville, in 1792.² The first church (Bap.) was formed in 1796.³

LEBANON—was formed from Hamilton, Feb. 6, 1807. It is the central town upon the s. border of the co. Its surface is a hilly upland, lying between the Chenango and Otselic Rivers. The summits in the w. part are 500 to 800 ft. above the valleys. The valley of Chenango River, extending through the e. part, is about 1 mi. wide and is bordered by steep hillsides. The other streams are small brooks. The soil is a yellow loam underlaid by hardpan upon the hills and alluvium in the valleys. **Lebanon** (p. v.) contains 1 church, a sawmill, tannery, and 25 houses. **Smiths Valley**⁴ and **Middleport** are hamlets. The first settlement was made in 1792, by Enoch Stowell and Jonathan Bates, from Vt.⁵ There are 4 churches in town.⁶

LENOX—was formed from Sullivan, March 3, 1809, and a part of Stockbridge was taken off in 1836. It is the n. e. corner town of the co. Its surface is level in the n. and moderately hilly in the s. Canastota and Cowaselon Creeks flow through the town. Oneida Creek forms its e. boundary, and Oneida Lake a part of its n. boundary. The Cowaselon Swamp occupies a portion of the n. part. The soil in the n. is alluvium and in the s. a gravelly and clayey loam. In the town are beds of gypsum and of red fossiliferous iron ore. Near Cowaselon Creek is a small sulphur spring; and in the marsh near Canastota is a salt spring.⁷ **Oneida** (p. v.) is the principal station between Syracuse and Rome, on the N. Y. Central R. R. It is situated on Oneida Creek, and was incorp. June 20, 1848. It contains 5 churches, the Oneida Seminary,⁸ a newspaper office, and a bank. Pop. 1713. **Canastota**, (p. v.) incorp. April 28, 1835, is a canal village and a station on the N. Y. Central R. R. It contains 3 churches, a newspaper office, a bank, and a manufactory of astronomical and optical instruments.⁹ Pop. 1081. **Wampsville**, (p. v.), a station on the N. Y. Central R. R., contains 1 church and 25 houses. **Pine Bush**, (Bennetts Corners p. o.), **Merrelsville**, (Cowaselon p. o.), and **Lenox Furnace** are hamlets. **Clockville**,¹⁰ (p. v.), contains 2 churches, a woolen factory, 2 flouring mills, and a sawmill. Pop. 279. **Quality Hill** (Lenox p. o.) is a thickly settled country street near Canastota. **Oneida Lake** (p. o.) and **South Bay** are hamlets. **Oneida Valley** (p. v.) contains 1 church and about 30 houses. **Durhamville** (p. v.) contains 1034 inhabitants, of whom 234 are in this town;¹¹ the p. office is in Oneida co. The "Oneida Community," of about 200 persons, organized upon a peculiar religious and social basis, are located upon a farm of 390 acres on Oneida Creek, 3 mi. s. of Oneida.¹² The first settlement was made in 1792, by Conrad Klok and his sons Joseph, John, and Conrad.¹³ The census reports 14 churches in town.¹⁴

MADISON—was formed from Hamilton, Feb. 6, 1807. It lies on the e. border of the co., s. of the center. Its surface is a rolling upland. The principal stream is Oriskany Creek. The Madison Reservoir and several smaller ponds of water are in this town. The soil consists of a gravelly loam in the valleys and a clayey loam upon the hills. **Madison**, (p. v.) incorp. April 17, 1816, contains 4 churches, and has a population of 315. **Bouckville**¹⁵ (p. v.) contains 1 church and 35 houses, and **Solsville** (p. v.) 17 houses. The first settlement was made in 1793.¹⁶

¹ Named from Calvin Hubbard.

² Among the other early settlers were Sam'l and Elisha Payne, who located upon the present site of Hamilton Village in 1794. Theophilus and Benj. Pierce, Jonathan Olmsted, Daniel Smith, and Nathan Foster settled in the town in 1795, and Thomas Greenly in 1796.

³ The census reports 10 churches in town; 4 M. E., 2 Bap., 2 Cong., Prot. E., and Univ.

⁴ Named from Justus Smith, a former resident.

⁵ Among the early settlers were John, Charles, James, and Isaac Campbell, Thos. Hueston, Lent Bradley, Solomon Jones, Abram Webster, Dan'l Stowell, David Hartson. — Rider, Josh. Smith, Dea. Finney, David Shapley, Malobiah Hatch, Dr. Merrick, Elijah Bosworth, Benj. Hewes, and Capt. Moore. Elisha Wheeler built the first sawmill, and Daniel Wheeler the first gristmill; Israel Thayer kept the first store. The first school was taught by Widow Nancy Campbell, a lady about 70 years of age.

⁶ Bap., Cong., M. E., and Univ.

⁷ At this spring a boring was coes made 196 ft. deep. At that depth the sugar broke, and the work was abandoned. The strength of the water at the surface was 24° by the instrument used, and it was increased to 99°.—*Geol. N. Y.* III. p. 273.

⁸ The school was opened Sept. 29, 1856, with about 200 pupils and 5 male and 4 female teachers.

⁹ Established by Chas. A. Spencer. The microscopes and other instruments made here have acquired merited celebrity. The equatorial telescope at Hamilton College was made here.

¹⁰ Named from Conrad Klok, who settled near this place.

¹¹ See page —.

¹² This community was organized in 1847, under John II. Noyes, with whom their peculiar religious and social tenets mostly originated. They form a general community, holding a common interest in all things. The relation of the sexes is placed, not, like that of civilized society, on the basis of law and constraint, neither on the opposite one of mere freedom, but on that of "inspiration." They are principally engaged in gardening, the nursery business, milling, and the manufacture of steel traps, sewing silk, traveling bags, cravats, and palm-leaf hats. *The Circular*, a weekly paper, is published by the Communists.

¹³ The Forbese, Buys, and Snyder were the early settlers.

¹⁴ M. E., 5 Presb., 2 Bap., Cong., and R. C.

¹⁵ Named from Gov. Bouck; formerly called "Johnsville."

¹⁶ Samuel and Francis Clemens, Stephen F. Blackstone, John Niles, Seth Snow and his son Seth, Wm. and David Blair, James Collier, Daniel Perkins, Henry W. and Israel Bond, Elijah Blodget, Amos and Jesse Maynard, and Joel Crawford, settled in the town in 1793; Gen. Erastus Cleveland, Thos. Mellen, Abial Hatch, Jas. McCleathrae, Geo. Chas., and Joh Peckhsnd, Benj. Simmonds, Sylvester Woodward, Elijah Thompson, Sam'l Jones, Jas. and Alex. White, Luther, Abial, and Ephraim Clough, and Jonathan Sloan, were also early settlers. The first births in town were those of Marcena Collier and Stephen Blackstone, both in 1794. Gen. Cleveland built the first gristmill and kept the first store. Henry W. Bond built the first sawmill, in 1793. Sam'l Clemens was an early innkeeper.

The first church (Cong.) was organized in 1795, and the Rev. Ezra Woodworth was the first pastor.¹

NELSON—was formed from Cazenovia, March 13, 1807. It is an interior town, lying s. w. of the center of the co. Its surface consists of a rolling upland. The principal stream is Chittenango Creek. The Erieville and Eaton reservoirs are in this town. The soil is generally a gravelly loam. **Erieville** (p. v.) contains 3 churches and 191 inhabitants, and **Nelson Flats** (Nelson p. o.) 2 churches and 146 inhabitants. The first settlement was made in 1794, by Asa and Jedediah Jackson.² The census reports 5 churches in town.³

SMITHFIELD—was formed from Cazenovia, March 13, 1807. Fenner was taken off in 1823, and a part of Stockbridge in 1836. It is an interior town, lying n. of the center of the co. Its surface is a hilly and rolling upland. The principal streams are Cowaselon and Oneida Creeks. The soil is a sandy and gravelly loam. Limestone and gypsum are obtained in the n. e. corner. Near Siloam is a small sulphur spring. **Peterboro**,⁴ (p. v.) on Oneida Creek, near the center, contains 3 churches and the Peterboro Academy. Pop. 350. **Siloam** (p. o.) is a hamlet. The first settler was Jasper Alesworth, in 1795.⁵ Judge Greene C. Bronson resided in this town for several years; and Hon. Gerrit Smith now resides in Peterboro. In 1858, Wm. Evans, of Boston, donated to this town the sum of \$10,000, to be invested, and the proceeds devoted to the relief and support of the destitute and needy.⁶ There are 3 churches in town.⁷

STOCKBRIDGE—named from the Stockbridge Indians—was formed from Vernon and Augusta (Oneida co.) and Smithfield and Lenox, May 20, 1836. It lies upon the e. border of the co., n. of the center. Its surface is a rolling upland, broken by the deep valley of Oneida Creek, which extends in a n. and s. direction through near the center of the town. The summits of the hills are 500 to 800 ft. above the valley. The falls of Oneida Creek consist of a succession of rapids and low falls, affording numerous valuable mill sites.⁸ Oriskany Creek takes its rise in the s. part. The soil is a clayey and gravelly loam. Limestone is extensively quarried from the ledges that crop out upon the hillsides. Hydraulic limestone is also quarried near the falls of Oneida Creek. Gypsum is obtained near Cooks Corners. In this town are an ancient burial place and the ruins of an old fortification.⁹ **Munnsville**,¹⁰ (p. v.) on Oneida Creek, contains 1 church and several manufactories.¹¹ Pop. 287. **Knoxville**¹² (Stockbridge p. o.) contains 3 churches, and has a population of 138. **Cooks Corners** (p. v.) contains 1 church, a plaster mill, and about 15 houses. The first settlement was made in 1791.¹³ A mission church was erected on the Indian Reservation, near Cooks Corners, about 1800.¹⁴

SULLIVAN¹⁵—was formed from Cazenovia, Feb. 22, 1803, and Lenox was taken off in 1809. It is the n. w. corner town of the co. Its surface is level in the n. and rolling in the s. The Cowaselon Swamp extends across the town from Chittenango Creek to the line of Lenox. South of this swamp is the Vlie, or natural meadow.¹⁶ Chittenango Creek flows through the town and

¹ There are 6 churches in town; 2 M. E., Bap., Cong., Friends, and Univ.

² Joseph Yaw, Ebenezer Lyon, Sam'l and Chas. Swift, Jonathan Buell, Samuel Kinney, and — Mitchell settled in the town in 1794; Oliver Stone and James Homan, in 1795; Joshua Wells, David Wellington, Israel Patterson, Rich. Karley, Dan'l Adams, Horatio Simms, Abner Camp, and Lemmel and Eldad Richardsoo, in 1796. The first birth was that of Palmer Wells, in 1796; and the first death, that of Mrs. Bishop, about 1800. Jedediah Jackson kept the first inn, in 1794; Jeremiah Clark built the first sawmill, about 1800, and Oliver Pool the first gristmill. Daniel Russell was the first storekeeper. Dea. Dunham was one of the earliest school teachers.

³ M. E., Bap., Cong., and Univ. ⁴ Named from Peter Smith. ⁵ Oliver Trumbull settled in the town the same year. Peter Smith was the proprietor of the soil, and settled at Peterboro at an early day. Among the early settlers were families named Cleveland, Coon, Babcock, Taylor, Messenger, Stone, Rich, Loveland, Loomis, Merrill, Spencer, Bump, Northrup, Lathrop, Soper, Shipman, Howard, Chaffer, Lyons, Moody, Spring, Myers, Brown, Austin, and Wright. Peter Smith built the first saw and grist mill, Jas. Livingston kept the first store, and Lewis Cook kept the first inn. Tabitha Haves taught the first school, in 1801.

⁶ The provisions of the benefaction are, that the amount shall be loaned in sums of not over \$1000 each, upon good bond and mortgage security; and that as soon after 1862 as the accumulated interest amounts to a sufficient sum, a farm, of not less than 50 acres, shall be bought, and suitable buildings erected thereon, to be used as a home for the destitute.

⁷ Bap., Presb., and Free.

⁸ About $\frac{1}{2}$ mi. e. of Munnsville, near the center of the town, are several caves, in limestone, which have been explored but partially on account of noxious gases. In the rock that forms

the bed of the stream are depressions resembling the footprints of men, cattle, and horses.

⁹ The burial place is on the side hill, about 1 mi. s. e. of Munnsville. A small bone image of a woman, iron ad steel axes, gun barrels and fragments of gun locks, brass kettles, and tobacco pipes have been found. The axes were hatchet shaped, and were marked under the eye with three stars. The ruins of the fortification are in the s. w. part of the town.

¹⁰ Named from Asa Munn, the first storekeeper in the town.

¹¹ A woolen factory, a furace, trip hammer and edge-tool factory, a sawmill, planing mill, and sash factory, and a gristmill.

¹² Named from Herman Knox, an early resident.

¹³ Among the early settlers were Oliver Steward, Nathan, Calvin, Barney, John, and Alfred Edson, Wm., Elijah, and Joseph Devine, Wm. Sloan, Benajah Iouise, Angus Bridge, Jas. Taft, Aaron, Jairus, and Matthew Runkin, Jonathan Snow, Isaac Chadwick, Talcott Divan, Watrous Graves, and Daniel Thurston. These settlers all located in the s. e. part of the town. The first marriage was that of John Devine and Polly Edson, in 1793; and the first death, that of Widow Anna Hall, in 1795. The first saw and grist mills were built by the Stockbridge Indians, on their reservation, about 1794. The first school was taught by Edward Foster, in 1797.

¹⁴ The census reports 5 churches; 2 Cong., Bap., M. E., and Univ.

¹⁵ Named from Gen. John Sullivan.

¹⁶ The Vlie is covered to the depth of several feet with muck or peat underlain by marl. It is destitute of timber, and supports a rank growth of ferns and weeds. "A ditch cut by the side of the road shows vertical stumps 3 feet below the surface, and then a small growth near the surface; so that it would appear that two forests have existed there." This land was originally covered with water; but it is now partially drained by a ditch dug by the State.

forms a part of its w. boundary. The Canastota and Cowaselon Creeks unite in the swamp and flow in an artificial channel to the lake. These streams afford numerous valuable mill privileges. On the Canaseraga, near Perryville, is a waterfall 130 feet in height. Black Creek is a tributary of the Chittenango. Gypsum is found in numerous localities and is extensively quarried.¹ Waterlime is also obtained in the s. part.² Marl and peat abound in the swampy regions. There are several mineral springs in town, the principal of which are the "White Sulphur Spring" and the "Yates Spring." The former—known as Chittenango Springs—is fitted up for the reception of visitors; and the waters of both are celebrated for their medicinal properties.³ The soil in the n. is a clayey loam alternating with muck and marl, and in the s. it is a gravelly loam. **Chittenango**, (p.v.), on Chittenango Creek, was incorp. March 15, 1842. It contains 3 churches, the Yates Polytechnic Institute, a bank, a woolen factory, gristmill, and tannery. Pop. 916. **Perryville**⁴ (p.v.) is partly in this town. **Canaseraga** (Sullivan p.o.) contains 1 church and 25 houses, and **Bridgeport** (p.v.) 1 church and about 35 houses. **Lakeport** is a p.o. The first settlement was made in 1790, by squatters from the Mohawk Valley.⁵ The census reports 9 churches.⁶

¹ Gypsum is said to have been quarried here in 1800.

² In this town is a bed of waterlime,—the first discovered in the State. The material was first quarried and burned for quicklime to be used on the canal; but it was found that it would not slack. Experiments were then made, and the material was discovered to be hydrulic lime.

³ Following is a statement of an analysis of a pint of water from each of these springs.

⁴ See page 154.

⁵ These squatters were James and Joseph Pickard, Jacob, David, and Hon-Yost Schuyler, Jacob Seeber, Garrett and Geo. Van Slyke, John Polsley, and John Freemyer. They settled

on the Indian Reservation near Canaseraga. The Indians complained to the Governor of their intrusion, and they were ordered to remove. They neglected to do so; and in 1791, Col. Colbraith, the sheriff of Montgomery co., was sent with a posse of 60 men to dislodge them. They still refused; and their movables were taken from their dwellings and their houses burned. They then removed to the neighborhood of Chittenango and settled on lands that the State had lately acquired of the Indians. John G. Moyer, John Walroth, Capt. Timothy Brown, Solomon Joseph, and David Beebe, Col. Zebulon Douglas, John Mathews, Philip Daharsh, Nicholas Pickard, Ovid Weldon, Peter Dygart, John Keller, John Sower, Wm. Miles, David Burton, Timothy Freeman, and Peter Ehlis settled in the town shortly after. The first birth was that of Peggy Schuyler, in 1791; and the first death, that of a child of David Freemyer. John G. Moyer built the first saw and gristmill, and Jacob Schuyler kept the first inn.

NIAGARA COUNTY.

THIS county was formed from Genesee, March 11, 1808. Erie was taken off April 2, 1821. It lies upon the w. border of the State, in the angle formed by the junction of Niagara River and Lake Ontario. It is centrally distant — mi. from Albany, and contains — sq. mi. The surface is generally level or gently undulating. It is divided into 2 distinct parts or terraces by a ridge extending e. and w. The lake shore is a bluff 10 to 30 feet high, and from its summit the lower terrace slopes gradually upward to the foot of an elevation known as the mountain ridge, where it attains an elevation of 100 to 150 feet above the lake. This ridge extends e. and w. through the n. part of Royalton and Lockport, and near the center of Cambria and Lewiston, and forms the n. declivity of the s. terrace. At its w. extremity it has an elevation of 250 feet above the lower terrace, and is nearly perpendicular. This height gradually declines toward the e., and upon the e. line of the co. it has an elevation of 80 to 100 feet. Through the central part of the co. the ridge is divided into two declivities, separated by a plateau from a few rods to a half mi. in width. The upper ridge is limestone, and for many mi. presents the face of a perpendicular cliff. Throughout the co. the ridge is too steep for cultivation. The s. half of the co., extending s. from the summit of this ridge, is very level. It has a slight inclination toward the s., and terminates in the Tonawanda Swamp. The whole inclination of the slope within the limits of the co., however, does not exceed 30 feet. The lake ridge—supposed to have been the ancient shore of the lake—extends w. from Orleans co. through Hartland and Newfane, thence turns s. w., and appears to terminate near Lockport Village. It appears again farther w., and at Cambria it is divided into two parts, the n. extending n. w. about 3 mi. and gradually declining to a level of the general surface, and the s. extending s. w. and uniting with the mountain ridge 4 mi. e. of Lewiston.¹ This ridge is composed of sand and gravel and the usual debris thrown up by a large body of water, and in character is essentially different from the surrounding surface. It varies from 5 to 25 feet in height, and is 20 to 150 feet in width. The n. descent is generally slightly longer and steeper than the s. The lowest rock in the co. is the Medina sandstone, which crops out in the ravines along the shore of the lake. It is the underlying rock of the w. half of the co., and extends to the foot of the mountain ridge. This ridge is composed of the sandstones and limestones belonging to the Niagara and Clinton groups, the heavy masses of compact limestone appearing at the top. The Onondaga salt group occupies a narrow strip along the s. border of the co. Nearly the entire surface is covered with deep deposits of drift, the rocks only appearing on the declivities of the mountain ridge and in the ravines of the streams.

Springs of weak brine are found in the ravines throughout the n. half of the co. They exude from the Medina sandstone; but none of them are sufficiently strong to be profitably worked. The Medina sandstone which lies at the foot of the mountain ridge has been quarried at several places for paving and flagging. Above the sandstone is a layer of impure limestone, about 4 feet thick, from which water cement is manufactured. The Niagara limestone furnishes an excellent building material and a good quality of lime. The principal quarries are situated in the vicinity of Lockport, and from them were obtained the stone for the construction of the canal locks at that place.² A vein of this stone filled with fossils admits of a high polish, and is used for ornamental purposes, presenting a beautiful variegated appearance.

Niagara River forms the w. and a part of the s. boundary of the co. It flows almost due w. from the e. extremity of Grand Island to the Falls, and thence nearly due n. to Lake Ontario. It contains several small islands belonging to this co., the principal of which are Tonawanda, Cayuga, Buckhorn, and Goat Islands. In its passage from Lake Erie to Lake Ontario, a distance of about

¹ This deflection in the course of the lake ridge must have been caused by a large bay that extended s. toward Lockport; and the n. branch of the ridge which terminates so abruptly in Cambria was undoubtedly a bar extending into the lake. Two large streams probably discharged their waters into this bay,—one through the ravine in which the Erie Canal is located, and one through a deep ravine about 2 mi. w. of Lockport. At the

head of the latter ravine is a nearly perpendicular precipice, at which point must have been a waterfall.

² This stone is found along the whole course of the mountain ridge, and can be quarried in every town. The deep cut in the canal w. of Lockport is through this strata, and the perpendicular ledges of rock on each side present the most favorable location in the co. for quarrying.

NIAGARA FALLS.

FROM THE AMERICAN SHORE

30 mi., the river descends 334 feet, the difference of level between the two lakes. Above Schlosser and below Lewiston the current of the river is not very rapid, and the descent is trifling, so that nearly the whole fall is condensed into a space of about 8 mi. The plateau in which the basin of Lake Erie is situated extends to the mountain ridge at Lewiston, the summit of the ridge being 34 feet higher than Lake Erie. The river originally must have flowed over the face of this precipice, at which time Niagara Falls were 7 mi. below their present position. By the wearing away of the rocks the falls have gradually receded, becoming lower at each period of their progress, and leaving a deep, rocky channel, with ragged and precipitous banks 200 feet high, to mark their course and attest their power.¹ At the present time the falls are at the abrupt angle where the river changes from a w. to a n. course, and the water is precipitated in part over the front or extremity of the chasm and in part over the side, the two parts of the fall being at nearly right angles to each other. Goat Island, having an area of about 70 acres, lies between the two falls, its w. edge being a continuation of the precipice over which the water flows.² The principal fall at the head of the chasm on the w. side is known as the Canadian or Horse Shoe Fall,³ and the fall e. of Goat Island as the American Fall. The Canadian Fall is 2000 feet wide and 154 feet high, and the American Fall 900 feet wide and 163 feet high; and it is estimated that 100 million tons of water flow over the two falls every hour. A mi. above the edge of the falls a series of rapids commences, the water descending 60 feet before taking the final plunge.⁴ From the foot of the cataract the river flows about 2 mi. in a comparatively still current, but from that point to Lewiston it is compressed within narrow banks, and flows through the tortuous, rocky channel in a perfectly tumultuous and resistless torrent. The immense body of water in Niagara gives to the falls, and to the rapids both above and below, a grandeur scarcely equalled by any other of nature's works. Here one of the largest rivers in the world, forming the outlet of the great internal fresh water seas of North America, plunges down the shelving rapids and leaps into the profound chasm below, and then whirls and struggles with an apparently almost irresistible force in its rocky channel for 7 mi., and at last emerges from its mountain barrier and spreads out into the calm and peaceful waters of Ontario. Scenes of surpassing sublimity and grandeur open upon the view at every point, and pilgrims from every part of the world flock hither to offer their devotions at one of the great shrines of universal nature.

Tonawanda Creek forms the greater part of the s. boundary of the co. Along its course are a series of extensive marshes known as the Tonawanda Swamp.⁵ The other principal streams are

¹ The precipice over which the water flows is composed of solid, compact limestone, with shale above and below. The wearing away of the shale above has formed the rapids, and the disintegration of that below has left the limestone in overhanging masses until they break off with their own weight. The dip of the rock is toward the s. and as the falls recede the surface of the limestone will come nearer and nearer the present bottom of the fall, until, at a distance of 4 mi. farther back, it will entirely disappear, and the soft shales wearing away irregularly, the river will at some distant period of the future fall in a series of rapids.

² Luna Island lies upon the precipice n. of Goat Island, and is separated from it by a stream 65 feet wide, which forms a distinct fall. Beneath the shelving rock over which this small cataract flows is a recess of 30 feet, known as the Cave of the Winds. Three small islands lying near the head of Goat Island are called the Three Sisters. Bath Island lies between Goat Island and the American shore, about 50 rods above the falls. A bridge extends from the American shore to Bath Island, and another thence to Goat Island. The first bridge was built in 1817; but the next spring it was swept away by the ice. The one built in 1818, and rebuilt in 1839, was replaced by the present iron bridge in 1857. The cribs were sunk in the rapids from the end of a long platform projecting from the shore and heavily loaded with stone to keep it firm. As one crib was sunk and filled with stone, the platform was pushed forward and another sunk at its extremity; and so on to the island. Before the bridge was built, access to the island was attended with great peril, and very few persons had attempted it. It was done by shooting down in boats from above, a strong rope being fastened to the shore, by which the boat in returning was swung back. It is related that the first white person who visited the island was Israel Putnam, in 1755, while on a campaign against Fort Niagara.—*Dwight's Travels*, Tr. 88. The Indians appear to have crossed occasionally, and traces of their graves are still seen. On the 23d of Feb. 1811, Augustus Porter applied for the purchase of the island, upon which to keep sheep, and alleged in his petition that the wolves that infested the settlement rendered this business next to impossible without some asylum like this for their preservation. It was afterward bought by the Porters.

³ This name was given from the semicircular shape of the edge of the cliff over which the water flowed. The shape now is nearly that of a right angle.

⁴ Numerous improvements have been made to afford facilities to visitors. A staircase constructed at the n. extremity of the American Fall, some years since, was burnt and rebuilt in 1858; another, upon Goat Island, was built in 1829, and called the Biddle Staircase; and another near Table Rock, upon the Canada shore, by which visitors can descend to the bottom of the precipice. A row boat ferry crosses the river from the foot of the American Staircase, and a carriage road extends up the bank on the Canadian side. A little w. of Goat Island, in the midst of the rapids near the edge of the precipice, a stone tower 45 ft. high was constructed, in 1833, to afford a more extensive view of the falls. The "*Maid of the Mist*," a small steamer, makes trips upon the river from her dock, a little above Suspension Bridge, into the foam and mist just below the Canadian Fall. The awful majesty of this cataract is seen to great advantage in the winter season, when the spray settling upon all objects in the vicinity covers them with a glittering crust of ice. The rocks below become loaded with immense masses; and in extremely cold winters the river below gets blocked in so as to form a natural bridge, over which people venture to cross to the Canada shore and even up to the island. In the winter of 1841-42 the river was passable for several months, and a small house was built near the center for the sale of refreshments. The ice was estimated to be 100 ft. thick. A year seldom passes without several fatal accidents happening at these falls, and an enumeration of those who have been drawn into the rapids, or who have slipped from the precipice and been mangled upon the rocks below, would form a long and mournful catalogue. In 1827 the Michigan, a condemned schooner, was sent over the falls, with several animals on board, in the presence of 15,000 spectators. She mostly went to pieces in the rapids. In 1829 the schooner Superior, and in 1841 the ship Detroit, were towed into the rapids, but the former lodged several days, and the latter was permanently grounded upon the rocks in the rapids.

⁵ This swamp could be drained if the State dam at the mouth of Tonawanda Creek was removed; and this only is needed to convert the tract into the most productive region in the co. As the land is cleared, it becomes sufficiently dry for agricultural purposes. The muck and marl which abound in the swamp, and the limestone and gypsum which underlie it, are all sources of great agricultural wealth.

Four Mile, Six Mile, Twelve Mile, and Eighteen Mile Creeks,—named from their respective distances from the mouth of Niagara River,—Fish and Golden Hill Creeks, all emptying into Lake Ontario; Mud Creek and East Branch, tributaries of Tonawanda Creek, and Cayuga and Gill Creeks, tributaries of Niagara River. The streams that flow n. have all worn deep ravines in the drift deposits; and they are frequently interrupted by falls, furnishing abundance of water-power.

A strip of land extending from the summit of the mountain ridge about 2 mi. s. is covered with a sandy loam, and the remainder of the upper terrace is clayey, largely intermixed with muck along the s. border. The soil between the mountain and lake ridges is a clayey loam, and along the lake ridge and n. of it it is a sandy and gravelly loam. The people are principally engaged in grain raising, for which the co. is most admirably adapted; barley, oats, corn, and potatoes are the staple agricultural products.¹ The manufacture of flour and other articles is largely carried on at Lockport, and the manufacturing interests at Niagara Falls are on the increase. The vast water power that can be made available at the falls will continually attract the attention of practical men, until eventually an immense manufacturing interest will be built up.

The co. seat is located at the village of Lockport.² The courthouse is a stone building erected upon a fine lot in the w. part of the village.³ The jail, situated upon the same lot, is a well constructed stone building, but destitute of means of ventilation. The average number of inmates is 27. The co. clerk's office is a stone fireproof building contiguous to the courthouse.⁴ The poorhouse is located upon a farm of 130 acres 3 mi. n. w. of the courthouse. The average number of inmates is 95, supported at a weekly cost of 50 cts. each. The farm yields a revenue of \$1000. A teacher is constantly employed to teach the children and to exercise a constant supervision over them. The insane are properly provided for, and are uniformly treated kindly.⁵

The Erie Canal enters the co. near the n. line of Royalton, and extends s. w. to Lockport, thence nearly due s. to Tonawanda Creek, and thence along that creek to its mouth. The heaviest and most extensive work upon the canal is at Lockport, where the passage of the mountain ridge is effected. A series of combined double locks, 5 in number, overcomes an elevation of 56 ft., and from the summit a deep cut through the solid limestone extends several miles westward.⁶ The Rochester, Lockport, & Niagara Falls Division of the N. Y. Central R. R. extends through Royalton, Lockport, Cambria, and Niagara, and a corner of Lewiston and Wheatfield, terminating at Suspension Bridge upon Niagara River. The Buffalo & Lockport Branch R. R. extends s. w. from Lockport through Cambria, Pendleton, and Wheatfield. The Buffalo & Niagara Falls R. R. extends along Niagara River through Niagara and Wheatfield, and a n. branch is extended to Lewiston. The Canandaigua & Niagara Falls Branch R. R. unites with the B. & N. F. R. R. at Tonawanda.⁷

Three daily and five weekly newspapers are published in the co.⁸

¹ Wheat formed the great staple of the co. until about 1850, when the midge commenced its ravages.

² When the co. was first created, the co. seat was fixed at Buffalo. The buildings were given up to Erie co. upon the erection of the latter county.

³ This building was erected in 1824. The first co. officers were, Augustus Porter, *First Judge*; Louis S. Le Conteux, *Co. Clerk*; Asa Bansom, *Sheriff*; and Archibald S. Clarke, *Surrogate*.

⁴ Built in 1856, at a cost of \$13,000.

⁵ The Senate Committee in 1856 concluded the report upon this institution as follows:—"The house is well kept, and by the result proves that, as a question of economy merely, it is less expensive to maintain a good poorhouse than it is a poor one."⁹

⁶ The project of building a ship canal around Niagara Falls has from time to time excited much attention, and several surveys have been made, but thus far without result. The earliest incorporation for this object was in 1793.

⁷ In 1838 a horse-car R. R. was built from Lewiston, 3 mi., to connect with the Lockport & Niagara Falls R. R.; but the track has been transferred to the Central R. R. Co. The Niagara & Lake Ontario R. R., extending from Niagara Falls to Youngstown, has been built, but it is not yet in operation.

⁸ The *Niagara Democrat*, the first paper published in the co., was started at Lewiston in 1821 by Benjamin Fergusson. In the following year it was removed to Lockport, and soon after changed to

The Lockport Observatory. In Aug. 1822, it passed into the hands of Orsamus Turner, and in 1828 it was united with the *Niagara Sentinel* and issued as

The Sentinel and Observatory. In 1828, Peter Besançon, jr., became the proprietor, and changed it to

The Lockport Journal. In 1829 it was purchased by Asa Story and changed to

The Lockport Balance. In 1834 it was united with *The Gazette*, under the name of

The Balance and Gazette. It was soon afterward changed again to

The Lockport Balance. It was successively published by Isaac C. Colton and T. H. Hyatt until 1837, when it was sold to

Turner & Lyon and merged in *The Niagara Democrat*. *The Lewiston Sentinel* was commenced at Lewiston in 1823 by James O. Daily. It soon after passed into the hands of Oliver Grace, who removed it to Lockport and issued it as

The Niagara Sentinel. In 1828 it was united with *The Lockport Observatory*.

The Gazette was started at Lockport in 1833 by P. Baker. In 1834 it was united with *The Balance*.

The Niagara Democrat was started at Lockport in 1836 by Turner & Lyon. In 1837 it was united with *The Balance* and issued as

The Niagara Democrat and Lockport Balance. The latter part of the title was soon dropped. In 1839 it passed into the hands of T. P. Scoville; and in 1846, into those of Turner & McCollum. It was continued by different publishers until 1853, when it was united with *The Lockport Advertiser*. The weekly edition is now issued as

The Niagara Democrat, by John Campbell.

The Lockport Daily Advertiser was commenced in Feb. 1854, by A. S. Prentiss. June 1, 1858, it was united with *The Democrat* as

The Lockport Daily Advertiser and Democrat, under which title it is still issued.

The Niagara Courier was started at Lockport, May 1, 1827, by M. Cadwallader. It was successively issued by Geo. Reese, T. C. Flagler, Crandall & Bingham, C. L. Skoels, and S. S. Pomeroy.

The Lockport Daily Courier was commenced by Pomeroy & Fox in 1847, and continued until 1859, when both the daily and weekly were united with *The Journal*; the daily as

The Journal and Courier, and the weekly by the name of

This co. was a portion of the domain of the Seneca Nation, though none of its principal villages were located within its limits. The first European visitant of whom there is any record was La Salle, a French adventurer, who, accompanied by Tonti and Father Hennepin, conducted an expedition up the lakes for the double purpose of traffic with the Indians and of extending the French influence among the native tribes. In the fall of 1678 he established a trading post on the present site of Fort Niagara, at the mouth of Niagara River, and soon after laid the keel of a small vessel of 60 tons, at the mouth of Cayuga Creek, above the falls. This vessel was launched in the commencement of the following summer, and christened the Griffin; and on the 7th of Aug. the party set sail upon Lake Erie.¹ The first work at Fort Niagara was a simple palisade; but in 1687 De Nonville, the French commander, constructed there a fort with four bastions. This was soon after besieged by the Senecas; and, a fatal sickness having destroyed most of the garrison, it was soon after abandoned. Joncaire, another French adventurer, built a house on the present site of Lewiston in 1721; and about 4 years after another defensive work was erected on the old site of the palisade of La Salle. This fortress was afterward enlarged, and became one of the most important French posts w. of Montreal. In the summer of 1759, Gen. Prideaux, at the head of a large force of regulars and provincial troops, was sent to reduce the place. The fort was besieged about the 1st of July; and on the 25th it was surrendered to Sir Wm. Johnson, upon whom the command of the expedition had devolved upon the death of Gen. Prideaux.²

The fortress was repaired and garrisoned by the English; and during the Revolution it became the headquarters of the marauding parties of Tories and Indians that desolated the frontier settlements along the Mohawk, Susquehanna, and Delaware.³ Fort Niagara continued in possession of the British until 1796.⁴ The portion of the Tuscarora Indians who were allies of the English during the Revolution removed to the neighborhood of Fort Niagara after the destructive campaign of Sullivan, in 1779, to obtain means of preventing absolute starvation. The Senecas donated them a square mi. of land, and subsequently the Holland Land Co. 2 sq. mi. In 1804 they purchased an additional tract of 4329 acres, for \$13,722. On the 19th of Dec. 1813, Fort Niagara, then in possession of an American garrison, was surprised and taken by the British; and it continued in their possession until the close of the war. The villages at Lewiston and Niagara Falls were burnt about the same time. In 1826, Fort Niagara was the scene of Morgan's imprisonment previous to his final disappearance.⁵ The land in this co. was all included in the Holland Purchase, except the small reservations of the Tonawanda and Tuscarora Indians, and a strip of a mile in width along Niagara River, reserved by the State for the purposes of a portage road around Niagara Falls. The first settlements were commenced about the beginning of the present century, and the growth of the co., in common with the whole territory of the Holland Purchase, was rapid. The great impetus to growth, however, was given by the completion of the Erie Canal in 1825 and the subsequent construction of railroads. In 1837 the co. became the seat of great excitement connected with the so-called Patriot War. Most of the Patriot forces that rendezvoused upon Navy Island—within British territory, and just above the rapids of the falls—were transported from Schlosser, upon the

The Intelligencer, both of which are now issued by Richardson & Freeman.
Priestcraft's Exposed was published from 1828 to 1830 at Lockport by L. A. Spaulding.
The Lockport Journal was started in July, 1851, by M. C. Richardson; and in 1852
The Lockport Daily Journal was commenced, and both editions were continued until 1859, when they were united with the daily and weekly Courier, as already noticed.
The Frontier Sentinel was published at Lockport in 1837, during the "Patriot War" excitement, by T. P. Scoville.
The Lockport Chronicle was started at Lockport April 9, 1859, by S. S. Pomeroy & Co.
The Lewiston Telegraph was started at Lewiston in 1836 by John A. Harrison & Co., and was continued about 3 years.
The Niagara Falls Journal was published a short time in 1837 by Francis & Ward.
The Niagara Chronicle was published at Niagara Falls in 1838 by J. Simpson.
The Niagara Cataract was started in Niagara Falls by Stephens & Humphreys, and continued a short time.
The Iris was commenced at Niagara Falls in 1846 by George H. Hackstaff, and was continued until 1854.
The Niagara Times was published at Niagara Falls from Oct. 1855 to Oct. 1857, by W. E. Tunnis.
The Niagara Falls Gazette was started May 17, 1854, by Pool & Sleeper, by whom it is still issued.
The Niagara City Herald was started at Suspension Bridge in Oct. 1855, by G. H. Hackstaff; and in the following year it passed into the hands of N. T. Hackstaff, by whom it is now published.

¹ The vessel sailed through Lakes Erie and Huron to Green

Bay, where it cast anchor and remained some time. After being freighted with a rich cargo of furs, it started on its return voyage; but from that time no tidings ever came of the vessel or crew. La Salle and Father Hennepin left the vessel on its upward voyage at Detroit, and afterward penetrated the western wilderness to the Mississippi River.

² While Sir Wm. Johnson remained at this place he made a contract with Wm. Stedman to construct a road for a portage from Lewiston to Schlosser above the Falls. This road was finished in 1763; and on the 20th of June of that year the contractor started with 25 loaded wagons from Lewiston, under the convoy of 50 soldiers. As the party were passing a deep gulf upon the very edge of the cliff known as the Devil's Hole, they were assailed by a large force of Senecas who were lying in wait for them, and the whole party except one were driven off the precipice, which here has a perpendicular height of 160 ft. Wm. Stedman escaped by forcing his horse through the ranks of the Indians; and one soldier—a drummer—was saved by his belt catching in the top of a tree below and so breaking the force of his fall.

³ The prisoners taken upon the war-paths were generally conducted to this place, where they were often obliged to submit to the terrible ordeal of the guntlet. A premium was also here given for scalps, stimulating the Indians to murder. The Tories who rendezvoused here were usually more inhuman than the Indians.

⁴ Col. Smith, who commanded this post at the time of its surrender, was the commanding officer of the British at the battle of Lexington. As Niagara was one of the very last posts surrendered, Col. Smith may with propriety be said to have participated in both the opening and closing acts of the American Revolution.
⁵ See page —.

American shore; and great excitement prevailed in consequence. The steamer *Caroline*, engaged in furnishing re-inforcements and supplies to the insurgents, was cut from her moorings, on the night of Dec. 29, by a British force, set on fire, and sent over the falls. This event was the occasion of a long diplomatic controversy between the Governments of the United States and Great Britain, and at one time war seemed almost inevitable. Since that time no event has occurred to disturb the peaceful progress of improvement.

CAMBRIA—was formed from "*Willink*," (now Aurora, Erie co.), March 11, 1808. Hartland, Niagara, and Porter were taken off in 1812, Lewiston in 1818, and a part of Lockport in 1824. It is an interior town, w. of the center of the co. The mountain ridge crosses through the center of the town and divides it into two nearly equal portions. In the n. and s. the surface is level or undulating. The lake ridge crosses the n. part of the town. The principal stream is Twelve Mile Creek. The soil consists of alternations of sandy and clayey loam. **Pekin** (p.v.) lies partly in Lewiston, but principally in this town. It contains 2 churches and about 60 dwellings. **North Ridge** and **Cambria**, in the n. part of the town, are p. offices. The first settlement was made in 1800, by Philip Beach, from Le Roy.² There are 2 churches in town, Cong. and M. E.

HARTLAND³—was formed from Cambria, June 1, 1812. Royalton was taken off in 1817, Somerset in 1823, and a part of Newfane in 1824. It is the central town upon the e. border of the co. The surface is level or gently undulating, the greatest inequality being along the lake ridge, which crosses the s. part of the town. The principal streams are Eighteen Mile and Johnsons Creeks. The soil s. of the ridge is a clayey loam, and n. it is a sandy and gravelly loam. **Johnsons Creek**, (p.v.,) located on the creek of the same name where it crosses the lake ridge, contains 1 church and has a population of 114. **Hartland Corners**, (Hartland p. o.,) on the ridge in the w. part of the town, contains about 18 dwellings. **Middleport**⁴ is partly in this town. The first settlement was made in 1803, by John and David Morrison.⁵ The first church (Bap.) was organized at Johnsons Creek in 1817. There are 5 churches in town.⁶

LEWISTON⁷—was formed from Cambria, Feb. 27, 1818. It is the central town upon the w. border of the co. The mountain ridge extends through the town, dividing it into two nearly equal portions. Along the base of this ridge the surface is broken or rolling, but elsewhere it is level. Gill and Six Mile Creeks, and several smaller streams, take their rise in this town, and Niagara River forms its w. boundary. The soil is a sandy loam. The Devil's Hole—a dark chasm, 150 ft. deep, upon the high bank of the Niagara, in the extreme s. part of the town—was the scene of a sanguinary battle during the Old French War.⁸ Five mi. above Ft. Niagara, bordering upon the river, is a flat of several acres, about 65 ft. lower than the surrounding country. It is called Five Mile Meadow: it was here that the British forces landed the night before the capture of Fort Niagara, in Dec. 1814.⁹ **Lewiston**,¹⁰ (p.v.,) incorp. April 17, 1822, was reserved by the State and patented by single lots. It is situated on Niagara River, at the base of the mountain ridge. It is the terminus of the Lewiston & N. F. R. R., and the head of navigation from Lake Ontario. It contains 4 churches and has a pop. of 1,014. The Queenstown and Lewiston Suspension Bridge across the Niagara River was commenced in 1850 and finished the following year.¹¹ **Dickersville** (p. o.) is a hamlet. **Pekin** lies partly in this town.¹² Fort Gray, a temporary fortification erected during the War of 1812, occupied the verge of the mountain ridge just above the village of Lewiston. The Seminary of our Lady of Angels, a Catholic institution, is situated on

¹ Upon the verge of this ridge, in the e. part of the town, are an ancient fortification and burial places, occupying about 6 acres. Rude iron implements, pieces of copper, fragments of earthenware, charred wood, and corn-cobs have been plowed up within the area. Nearly in the center, overlaid by sandstone slabs, was a deep pit filled with human bones, many of which apparently belonged to men of almost giant size.—*Turner's Hist. Holland Purchase.*

² John Forsyth and Walter Neal settled in the town in 1804, and Chapman Hlawley, Daniel Howell, Joseph Hewett, James Prentice, and Amariah Stoughton soon afterward. The first birth was that of Philip Beach, jr., in 1803; and the first death, that of Nehemiah Street, a traveler, who was murdered in 1790. Philip Beach opened the first inn, in 1800, and Joshua Shepard the first store, in 1815. Joseph Hewett built the first saw-mill, in 1808, and Christian Howder the first gristmill, in 1815. The first school was taught by Mrs. Neal, in 1808.

³ Named from Hartland, Vt.

⁴ See page —.

⁵ Zebulon Barnum, Jedediah Riggs, Isaac Southwell, and Dan'l

Brown moved into town the same year, and Abel Barnum and Oliver Castle in 1805. The first death was that of Isaac Southwell, in 1806; the first inn was opened by Jephtha Dunn, in 1809; and the first store, by Dan'l Van Horn, in 1816. The first school was taught by Nancy Judson, in the summer of 1813.

⁶ Bap., Friends, M. E., Prot. M., and R. C.

⁷ Named from Gov. Morgan Lewis, at the suggestion of Judge Silas Hoopkina.

⁸ See p. —.

⁹ See p. —.

¹⁰ An academy was established at this place in 1828. Besides participating in the general fund, it was endowed by the Legislature with the proceeds of the ferry license, which some years yielded \$800 to \$900. When the Lewiston Suspension Bridge was finished, the ferry was abandoned and the academy discontinued.

¹¹ This bridge was built by two joint stock companies,—one incorp. by the Legislature of N. York and the other by the Canadian Parliament. The roadway is 849 ft. long, 20 ft. wide, and 60 ft. above the water. Cost of the structure, \$58,000.

the river bank in the s. w. part of the town.¹ The site of the village of Lewiston was occupied by the French at different times previous to and during the Old French War; but the first permanent settlements were made about the year 1800.² The first church is said to have been founded by Brant, at the Mohawk settlement, a little e. of Lewiston.³ There are now 8 churches in town.⁴

LOCKPORT—was taken from Cambria and Royalton, Feb. 2, 1824. It extends from the central part to the southern bounds of the co. The surface in the northern part of the town, through which the mountain ridge extends, is broken and hilly; in the central and southern parts it is level. Eighteen Mile and Mud Creeks are the principal streams. The soil is a clayey loam intermixed with marl, and in the n. it is stony. The Niagara limestone crops out along the mountain ridge, and extensive quarries have been opened in and near the village of Lockport.⁵ Underlying this is a stratum of hydraulic limestone, from which waterlime is made; and sandstone belonging to the Medina formation is also quarried n. of the ridge.⁶ The manufactures of the town are extensive, and consist principally of flour, lumber, leather, and machinery. **Lockport**,⁷ (p. v.,) the co. seat, was incorp. March 26, 1829. It is situated on the Erie Canal and the declivities of the mountain ridge. It is an important station on the Niagara Falls R. R., and is the terminus of the branch road to Buffalo. The water-power created by the canal locks at this place has given rise to numerous and extensive manufacturing establishments.⁸ The village contains 15 churches, a high school,⁹ 3 newspaper offices, 3 banks of issue, and 1 savings' bank. Pop. 8,939. **Wrights Corners**, (p. o.,) in the n. part of the town, and **Rapids**, (p. o.,) in the s. part, are hamlets. **Hickory Corners**, in the w., is a p. o. The first settlement was made at Cold Spring, about 1 mi. e. of Lockport Village, by Charles Wilbur, in 1805.¹⁰ There are 21 churches in town.¹¹ Ex-Gov. Washington Hunt is a resident of this town.

NEWFANE—was formed from Hartland, Somerset, and Wilson, March 20, 1824. It extends from near the center of the co. to the lake shore. The surface is level. Eighteen Mile Creek crosses the town, dividing it into two unequal portions. The soil is generally a sandy loam; but in some parts it is clayey. **Olcott**, (p. v.,) on the lake shore, at the mouth of Eighteen Mile Creek, contains 3 churches and about 30 dwellings. **Charlotte**, (Newfane p. o.,) on Eighteen Mile Creek, near the center of the town, contains 2 churches and about 25 dwellings. **Hess Road**, in the e., and **Coomer**, in the w. part, are p. offices. The first settlement was made in 1807, by Wm. Chambers¹² and John Brewer, from Canada.¹³ The first religious services were conducted in 1811, by a colored Methodist minister from Canada. There are 5 churches in town.¹⁴

NIAGARA—was formed from Cambria, June 1, 1812, as "*Schlosser*;" its name was changed Feb. 14, 1816. Pendleton was taken off in 1827, and Wheatfield in 1836. It is the s. w. corner town of the co., occupying the angle made by the abrupt northerly bend of Niagara River. Its

¹ This Seminary is under the charge of the "*Priests of the Congregation of the Mission of St. Vincent du Paul Institution*," and is designed to educate boys and young men for the priesthood. It was incorp. in 1858. The buildings are not yet completed.

² Among the settlers who were in the town in 1800 were Jos. and John Howell, — Middaugh, Henry Hough, Henry Mills, — McBride, Thos. Hnstler, Wm. Gambol, and Fred'k Woodman. Geo. Howell was the first child born in the town and in the co., in 1799. Middaugh kept tavern in 1788, and McBride built a tannery about 1799. The first sawmill was built by Jos. Howell, in 1808, and the first gristmill by John Gray, in 1815. The Tuscarora Reservation is in this town.

³ This was probably some time during the Revolutionary War. Brant was an Episcopalian; and the services were usually conducted by some one attached to the British garrison at Ft. Niagara. The church was built of logs and had no belfry. The bell was hung upon a cross-bar resting in the crotch of a tree near by.

⁴ Fresh, Prot. E. Univ., and R. C. at Lewiston, Cong. and M. E. at Pekin, M. E. at Dickersonville, and Indian church on the Reservation.

⁵ The principal of these quarries are along the canal, in the s. part of Lockport Village. There are also quarries about a mile e. of the village, and others a little further w. This limestone is a very excellent building material, and large quantities are shipped to distant places. The locks at this place, and numerous culverts on the canal, are built of it. A cove of small extent exists under the village of Lockport.

⁶ The principal quarries from which sandstone is obtained are at Rattlesnake Hill, n. w. of the village. This stone is used principally for flagging and paving.

⁷ So named from there being a greater number of locks here than at any other place on the canal; and to these the village owes its origin.

⁸ Five flouring mills, with an aggregate of 30 run of stone, 7 sawmills, 5 stove and shingle factories, 1 sash, door, and blind

factory, 1 planing mill, 2 tanneries, a wool-n factory, 2 machine shops and foundries, a plow factory, a distillery, and a plaster-mill. A hydraulic canal three-fourths of a mi. long has been constructed upon the declivity of the ridge, from which the water is distributed to various manufactures. The water is taken from the upper level of the canal and returned to the lower. A considerable proportion of the water-power is obtained from the water taken from the lower level.

⁹ The "*Lockport Union School*" was incorp. March 31, 1847. Connected with it is an academic department, under the supervision of the regents. The number of pupils in attendance in 1856 was 742.

¹⁰ Jedediah Darling settled in the town in 1808. — Gregory in 1809, Thomas Miles, Siliman Wakeman, David Carlton, and Geo. Miller in 1810, and Alex. Freeman and John Dye in 1811. The first inn was opened by Chas. Wilbur, in 1800; the first sawmill was built by Alex. Freeman, in 1811, and the first gristmill by Otis Hathaway, on Eighteen Mile Creek. This was a small mill, which was built in 20 days. L. A. Sparshing was then building, and soon after finished, a stone mill of 7 stories in height. Simeon Ford erected a woolen factory in 1828. The first school was taught by Olinda Moore, in the summer of 1816.

¹¹ Bap., Cong., Friends, Luth., 2 M. E., 2 Presb., 2 Prot. E., 2 R. C., Univ., and 2 Af. Meth. at Lockport Village, and Dutch Evang., Dutch Ref., Luth., 2 M. E., and Wes. Meth. in other parts of the town.

¹² Chambers removed to Orand Island; and about the year 1825, attempting to cross Niagara River above the cataract in a skiff, he was drawn into the rapids and carried over the falls.

¹³ — Cotton settled in the town the same year, Burgoyne, Kemp, and Peter Hopkins in 1808, and Wm. and James Wisner in 1810. Levi Ellis built the first saw and grist mill, in 1811, for James Van Horn. Asa Douglas became a store at Olcott, in 1812. The first school was taught by Beza^l Smith, in 1815.

¹⁴ 2 M. E., Bap., Univ., and Wes. Meth.

surface is level. Cayuga and Gill Creeks are the principal streams. The soil is a heavy clay. Goat Island and the American part of Niagara Falls belong to this town. At Suspension Bridge, on the river bank, is a sulphur spring, which has been fitted up for the accommodation of visitors. **Niagara Falls**, (p. v.), incorp. July 7, 1848, is situated on Niagara River, at the cataract. It is the terminus of the Rochester & N. F. R. R., of the N. F. & Lewiston R. R., of the Buffalo & N. F. R. R., and of the Canandaigua & N. F. R. R. It contains 5 churches, 1 newspaper office, 11 hotels, and several manufacturing establishments.¹ Pop. 2,976. The village owes its existence to its proximity to the great cataract. Thousands of visitors, from every part of the U. S. and from almost every country in the world, annually visit this, one of nature's greatest wonders. Nearly all the business of the community is connected with this periodical visitation, and consists of hotel keeping, livery business, and matters of a kindred nature. A large and by no means unimportant business has grown out of the sale of spar ornaments and fancy articles made by the Indians. **Niagara City**, (*Suspension Bridge p. o.*) incorp. June 8, 1854, is situated on Niagara River, 2 mi. below the falls. The Rochester & N. F. R. R. connects at this place with the Lewiston & N. F. R. R., and with the Great Western Railway across the Suspension Bridge.² The village contains 6 churches, a newspaper office, 15 hotels, and a charitable institution known as the De Veaux College for Destitute Orphans and Children.³ Pop. 1,365. This place participates with Niagara Falls in the business made by the annual influx of visitors to the cataract. No place of equal size on the Continent has a greater amount of hotel accommodations than these. **La Salle** is a p. o. at the mouth of Cayuga Creek. In the fall of 1678 the French *voyageurs* La Salle, Tonti, and Father Hennepin, with their companions, established themselves at the mouth of Cayuga Creek and remained until the "*Griffin*" was launched the following season.⁴ Other places along the river were temporarily occupied by the French at different times; but the first permanent settlement was made at Schlosser in 1759, by John Stedman, accompanied by his brothers Wm. and Philip.⁵ The first religious services were conducted by Father Hennepin, at the time of the French sojourn at Cayuga Creek.⁶ There are now 12 churches in town.⁷

PENDLETON⁸—was formed from Niagara, April 16, 1827. It is the central town on the s. border of the co. The surface is level or gently undulating. Tonawanda Creek forms the s. bounds of the town, and Sawyers Creek crosses the w. part. The soil is generally a clayey loam. **Pendleton**, (p. o.), on Tonawanda Creek, contains 1 church and 16 dwellings. **Pendleton Center, Beach Ridge, and Mapleton** are p. offices. The first settlement was made in 1805, by Jacob Christman.⁹ There are 5 churches in town.¹⁰

PORTER¹¹—was formed from Cambria, June 1, 1812. Wilson was taken off in 1818. It is the most westerly town on the lake shore. Its surface is level. Four Mile and Six Mile Creeks, and the w. branch of Twelve Mile Creek, cross the town in a northerly direction, and Niagara River forms its w. boundary. The soil along the lake shore is composed principally of a marly clay; in the central and southern parts it is a sandy and gravelly loam. Besides the crops which

¹ A hydraulic canal has recently been constructed from a point on Niagara River about $\frac{1}{2}$ mi. above the rapids, diagonally across the point of land upon which the village is situated, to near the river bank $\frac{1}{2}$ mi. below the falls. Along the bank is a long basin, in which the canal terminates, and from which the water is discharged through a great number of races into the river below. This canal is $\frac{3}{4}$ of a mi. long, 70 ft. wide, and 10 ft. deep, and will maintain a running stream equal in quantity to 2436 cubic ft. per second. The company by whom the canal has been built was organized March 22, 1858, with a capital of \$500,000. One of the largest paper mills in the U. S., on Bath Island, was burned during the past year, (1858).

² The Niagara Suspension Bridge, which crosses the river at this place, was commenced in 1852 and finished in 1855. It is 821 ft. in length from center to center of the towers, and 247 ft. above the water. It has 2 floors,—the lower for the carriage way, and the upper for a rail way, upon which 4 rails are so laid as to make tracks of 3 different gauges. The cost of the structure was about \$400,000, and the stock of the company \$500,000. The first line was got across the river at this place by the aid of a kite. With this a larger cord was drawn over; and finally a rope, upon which pulleys could be run, bearing the wires of which the bridge is composed. The chief engineer was John A. Roehling.

³ The De Veaux College was established according to the provisions of the will of Samuel De Veaux, who bequeathed for that purpose personal property to the amount of \$154,432 and real estate valued at \$33,213, besides 330 acres of inalienable land. The building was erected in 1855-56. It is built of stone, has 2 stories and an attic above the ground story, and a front of 100 ft., with a depth of 54 ft. The members of the school are supplied by the institution with food, clothing, and books. By the pro-

visions of the will of Mr. De Veaux, the president of the college must always be a clergyman of the Prot. E. Church, and the institute itself under the control of the Diocese of Western New York. Members of the school are appointed by the board of trustees, the children of parents belonging to the Prot. E. Church having the preference. When once received, the children are under the sole charge of the trustees until they attain their majority. See *Senate Doc.* 1858, No. 118. The college reports annually to the Legislature.

⁴ See page —

⁵ During the period of English occupancy a small settlement grew up at Schlosser. There were, besides the Stedman house, (which was a large and spacious $\frac{1}{2}$ story building,) about 15 other dwellings. The Stedmans moved away in 1795 and left Jesse Ware in possession. Judge Augustus Porter settled at Schlosser in 1806. The first sawmill was built by John Stedman. The first school was taught by Ezekiel Hill, in 1807.

⁶ In his account of their sojourn Father Hennepin says, "I had one hut especially designed for observing prayers in holidays and Sundays."

⁷ Bap., Presb., Prot. E., M. E., and R. C. at Niagara Falls, Cong., D. Ref. D., Evang., Prot. E., Presb., and M. E. at Niagara City, and M. E. at Cayuga Creek.

⁸ Named from Sylvester Pendleton Clark, Ex-Gov. of Grand Island.

⁹ Among the first settlers were Martin Van Slyke and John and Adam Fuhrer. The first death was that of Martin Van Slyke, in 1814. S. P. Clark kept the first inn, in 1822, and Jerry Jenks the first store, the same year. The first school was taught by — Dawson, in the winter of 1816.

¹⁰ 2 M. E., Presb., Luth., and R. C.

¹¹ Named from Judge Augustus Porter.

are common to all parts of this co., considerable quantities of apples, peaches, and other fruits are raised. **Youngstown**,¹ (p. v.), incorp. Aug. 22, 1854, is situated on Niagara River, about one mi. from its mouth. It contains 3 churches and has a pop. of 768. **Ransomville**,² (p. v.), in the s. e. part of the town, contains 2 churches. Pop. 195. **East Porter** is a p. o. **Fort Niagara**³ is situated on the lake shore, at the mouth of Niagara River. Transient settlements were made at very early periods by the French at Ft. Niagara; but no permanent settlement was made until the early part of the present century.⁴ There are 7 churches in town.⁵

ROYALTON⁶—was formed from Hartland, April 5, 1817, and a part of Lockport was taken off in 1824. It is the s. e. corner town of the co. The surface is generally level or undulating, except in the n. part, where the mountain ridge crosses the town. Johnsons, Eighteen Mile, and Mud Creeks take their rise in this town, and the Tonawanda forms its s. boundary. The soil is a clayey loam. **Middleport**⁷ (p. v.) lies upon Johnsons Creek, partly in Hartland, but principally in the n. e. part of this town. It is situated upon the Erie Canal, and is a station on the R. & N. F. R. R. It contains 5 churches and has a pop. of 689, (586 in Royalton, 103 in Hartland.) **Gasport**,⁸ (p. v.) situated on the canal near Eighteen Mile Creek, is a station on the R. & N. F. R. R. It contains 1 church and an academy.⁹ Pop. 273. **Orangeport**, (p. v.), on the canal, in the n. w. part of the town, has a pop. of 224; **Royalton**, (p. v.) in the central part, of 168; and **Reynalls Basin**, (p. v.), on the canal, of 132. **Locust Tree** and **South Royalton** are p. offices. The first settlement was made in 1803, by Thos. Slayton and Gad Warner.¹⁰ The first religious services were conducted by a colored preacher from Canada, in 1806; the first religious society (Christian) was organized in 1817, and the first church edifice was built the same year.¹¹ There are 12 churches in town.¹²

SOMERSET—was formed from Hartland, Feb. 8, 1823, and a part of Newfane was taken off in 1824. It is the most eastern town upon the lake shore. The surface is level. Golden Hill and Fish Creeks cross the town in a n. e. direction. The soil is generally a sandy loam; but in some places it is clayey. Near the mouth of Fish Creek is a small salt spring, from which salt was formerly made. **Somerset**, (p. v.), n. of the center of the town, contains 3 churches and about 30 dwellings. **County Line**, in the e. part, and **Lake Road** and **West Somerset**, in the w., are p. offices. The first settlement was made in 1810, by Jacob Fitts and Zacharius Paterson.¹³ The first religious services were conducted by Daniel Shepardson, in 1816, and the first church (Bap.) was organized in 1820. There are 5 churches in town.¹⁴

WHEATFIELD—was formed from Niagara, May 12, 1836. It is the most southerly town in the co., and lies partly on Niagara River and partly on Tonawanda Creek. The surface is level or gently undulating. Cayuga and Sawyers Creeks cross the town, the former in the western part and the latter in the eastern. The soil is generally a hard, clayey loam, difficult to cultivate. About a mi. e. of Tonawanda is a sour spring, and about 2 mi. n. a sulphur spring. A considerable part of the town is yet unimproved. The greater proportion of the population consists of immigrants from Prussia and other parts of Germany.¹⁵ **Bergholtz**,¹⁶ (p. v.) near the center of the town, contains 1 church and about 80 houses; **Martinsville**, (p. v.) in the s. e. part, 1 church

¹ Named from John Young, the first merchant at the place.

² Named from Clark Ransom, one of the early settlers.

³ See page —.

⁴ John Lloyd, who was a soldier stationed at Fort Niagara in 1799, settled in town in 1801, 3 mi. from the fort. Silas Hopkiss settled in 1802, Thos. Brown, Elijah Doty, John Clemeat, and John Waterhouse, in 1803, and John Brown in 1805. Robert Gurnsett kept the first inn, and John Young the first store, in 1808. John Clapsaddle built the first sawmill, in 1816, and the first gristmill, in 1817. The first school was taught by Wm. Cogswell, in the winter of 1806.

⁵ 3 M. E. Bap., Presb., Wes. Meth., and R. C.

⁶ Named from Royalton, Vt.

⁷ So named from its being midway on the canal between "Newport" (now Albion) and Lockport.

⁸ So called from the fact that gas escapes from the earth here. This gas is inflammable; and at one time it was conveyed through iron pipes from the spring to a store, which was lighted by it.

⁹ Founded in 1854.

¹⁰ Joshua Slayton, — Elsworth, Louden Andrews, and Alex. Haslins settled in town in 1804, Stephen Bugby, Stephen Hoyt, and Sam'l Capon, in 1805, and Barnum Treadwell in 1806. The first birth was that of Dan'l Vaughan; the first marriage, that of Henry Elsworth and Polly Cornish, in the spring of 1810; and the first death, that of — Elsworth, in 1804. Gad Warner built the first sawmill, in 1817. The first tavern was opened in 1809, by — Fisk.

¹¹ This was one of the first churches upon the Holland Pur-

chase. It was painted red, and was called "The Red Meeting House."

¹² 3 M. E. Bap., Christian, Cong., F. W. Bap., Luth., Presb., R. C., Univ., and Wes. Meth.

¹³ Archibald Whitton, Philip Fitts, and Truman and David Mudgett settled in the town the same year. The first birth was that of Deliah Fitts, in 1811; the first marriage, that of John Sherwood and Rebecca Mead, in 1817; and the first death, that of Philip Fitts, in 1814. Josiah S. Ballely opened the first inn, in 1817, and Jos. M. Carpenter the first store, in 1823. The first sawmill was built by John Randolph, in 1822, and the first gristmill by Archibald McDowell, in 1826. The first school was taught by Marston Sherwood, in the winter of 1817.

¹⁴ 2 Bap., Friends, Presb., and M. E.

¹⁵ They nearly all cultivate the soil; but their farms are generally very small, consisting generally of not more than 5 to 10 acres. They retain in a great measure their own manners, customs, and nationalities. They have their own churches and schools: their pastors and schoolmasters came from Germany with them, and German is the language of the pulpit and the schoolroom. Their houses are nearly all one story, rough framed buildings, not clapboarded, and filled in with unburned bricks. Several of them are built of hewn logs, the crevices filled with clay; and some are clapboarded on the gable ends down as far as the level of the eaves.

¹⁶ These villages were named from places of the same names in Germany.

and about 60 houses; **Johnsburg**, in the central part, 1 church and about 50 houses; and **Walmore**,¹ (p. v.,) in the n. w. corner of the town, 2 churches and 12 houses. These are straggling German villages. **Shawnee**,² (p. v.,) in the n. e. corner of the town, contains 1 church and 15 houses. **Tonawanda**, (p. v.,) on the line of Erie co., lies partly within this town. The first settlement was made by Geo. Van Slyke, in 1802, at the mouth of Tonawanda Creek.³ There are 7 churches in town.⁴

WILSON⁵—was formed from Porter, April 10, 1818, and a part of Newfane was taken off in 1824. It is situated on the lake shore, n. w. of the center of the co. The surface is level. The e. branch of Twelve Mile Creek⁶ crosses the town near the center, and the w. branch in the n. w. part. The soil is a sandy and clayey loam. **Wilson**, (p. v.,) incorp. June 25, 1858, is situated on the e. side of Twelve Mile Creek, near its mouth. It contains 3 churches and the Wilson Collegiate Institute. Pop. 666. **East Wilson** and **South Wilson** are p. offices. The first settlement was made in 1810, by Stephen Sheldon, Reuben Wilson, — Goodman, John Eastman, and Gilbert Purdy.⁷ The first church (Presb.) was organized Jan. 18, 1819. There are now 3 churches in town,—Bap., Presb., and M. E.

¹ See note 16, p. 163.

² See page —.

³ John Harvey and — Walton settled in the town in 1807, and Geo. Burgher, Jacob Stoner, and Wm. Scott, in 1809. James Field kept the first inn, in 1808, and Judge Wilkinson the first store, in 1822. The first sawmill was built by Col. John Sweeney, in 1825.

⁴ Evang. Luth., Bap., M. E., and Mennonites.

⁵ Named from Reuben Wilson, one of the earliest settlers, and the first supervisor.

⁶ In 1811, about 4 mi. from the mouth of this creek, in the lake,

a few rods from the shore, Mr. Goodman found a 4 lb. French swivel, loaded with a ball and 3 grape shot. A large pile of bullets and considerable quantities of ballast iron were subsequently found on the shore near by.

⁷ The first birth was that of Warren Wilson, in 1811. Joshua Williams and Daniel Sheldon built the first sawmill, in 1615, and Reuben and Luther Wilson the first gristmill, in 1824. Benj. Douglas opened the first store, in 1817, and T. T. Upton the first inn, in 1818. The first school was an evening school for adults, taught by Luther Wilson during Jan. and Feb. 1817.

ROCKLAND COUNTY.

THIS county was formed from Orange, Feb. 23, 1798. It is triangular in form, Hudson River, New Jersey line, and the s. bounds of Orange co. being respectively its e., s. w., and n. w. boundaries. It is centrally distant — mi. from Albany, and contains — sq. mi. The Ramapo Mts., extending along the n. w. border, are the connecting link between the Blue Ridge of Eastern Penn. and N. J. and the Matteawan Mts. of Putnam co., e. of the Hudson. They are separated into numerous distinct spurs, ridges, and peaks, and occupy more than one-third of the entire surface of the co. They are generally steep, rocky, and barren, and the valleys between them are narrow, rocky ravines. The Palisade Range from N. J. enters the extreme s. angle of the co., and terminates abruptly s. of Piermont. A broken ridge, known as the Nyack Hills, forming a n. spur of this range, but without its continuous and wall like character, extends n. along the river to the n. part of Clarkstown, where it unites with Verdrietegees Hook, an e. spur of the Ramapo Range. The surface of the central and s. w. portions of the co., lying between these ranges, is rolling or moderately hilly. The highest summits in the n. w. part are 700 to 1000 feet above tide. The principal streams are Hackensack River, flowing s. through Clarkstown and Orangetown, Ramapo River, in the w. angle of Ramapo, and Minisceongo Creek, Minas Fall Creek, and Spar Kil, tributaries of the Hudson. The rocks of the Ramapo Mts. are principally primitive. Granite, gneiss, and metamorphic limestone abound. The hills along the river and Verdrietegees Hook are composed of red sandstone, known to geologists as the New Red Sandstone; and the central and w. portions of the co. are principally underlaid by limestone. These rocks yield an abundance of most excellent building material,¹ and from the white limestone in the n. e. corner of the co. large quantities of lime are manufactured.² Trap rock extends from N. J. into the s. border of the co. The people are largely engaged in fruit growing and gardening. Milk is sent from some parts of the co. in considerable quantities to the New York market. The manufacture of lime and brick and the exportation of ice are important branches of the industry of the co. Large quantities of red sandstone for building are annually quarried and exported. The manufactures of the co. are also important and various, consisting principally of shoes, wooden ware, and woolen yarn.

The co. seat is located at the village of New City, in Clarkstown. A combined courthouse and jail, built of brick, is situated upon a beautiful eminence overlooking the village.³ The clerk's office is a fireproof brick building adjacent to the courthouse. The poorhouse is located upon a farm of 43 acres at Mechanicsville, in Ramapo, 7 mi. w. of the courthouse. The average number of inmates is 100, supported at a weekly expense of 75 cts. each. The farm yields a revenue of \$700. A school is taught during the entire year, and the house is well kept. The N. Y. & Erie R. R. extends through the w. part of Ramapo, and the Piermont Branch of the same road extends from Piermont, on the Hudson, to Sufferns, where it unites with the main track.⁴

Two weekly newspapers are now published in the co.⁵

This co. was included in patents known as the Kakiate Patent, granted to Daniel Honan and Michael Hawdon, June 25, 1696; the Wawayanda Patent, granted to John Bridges, April 29, 1703; and the Cheescocks Patent, granted to Ann Bridges and others, March 20, 1707. The first patent recorded in the co. clerk's office is one granted to Samuel Bayard, hearing date Sept. 16,

¹ See page —.

² This lime is used exclusively for agricultural purposes.—See page —.

³ The first courthouses after the erection of the co. was built in 1798-99. The present house was erected in 1827, and the jail was added in 1856. The whole cost was about \$16,000. The first co. officers were John Suffern, *First Judge*; David Pys, *Co. Clerk*; Jacob Wood, *Sheriff*; Peter Talman, *Surrogate*.

⁴ A R. R. extends s. from Piermont to Jersey City. It was finished in 1859, and is intended to continue n. to Warren.

⁵ *The Palladium* was started at Warren, about 1812, by Ezekiel Burroughs, and was continued a short time.

The Rockland Register was commenced at Warren, in 1828, by Ezekiel Burroughs; in 1830 it was changed to *The Rockland Gazette*, and in 1834 it was united with *The Ad-*

The Rockland Advertiser was started at Warren, in May, 1833, by John Douglas; and in 1834 it was united with *The Gazette*, under the name of

The Rockland Advertiser and Family Gazette; and in 1843 it was published as

The Rockland News and General Advertiser, by John L. Burtis. *The North River Times* was started at Warren, in 1834, by

Alexander H. Wells, and was continued a short time. *The Mirror* was published at Warren a short time in 1838.

The Rockland County Messenger was established at Warren, in May, 1846, by Robert Marshall; in 1852 it passed into the hands of Robert Smith, by whom it is still continued.

The Rockland County Journal was commenced in July, 1850, at Nyack, by Wm. G. Haeselharth, and is still continued by him.

1703.¹ The old courthouse, built about 1739 for that part of Orange co. s. of the mountains, was at Tappantown, opposite the old Ref. Prot. D. church, and was burned before the Revolution. The first settlers were Dutch, who located in the s. e. part of the co. from 1690 to 1710.²

CLARKSTOWN—was formed from Haverstraw, March 18, 1791. It lies upon the Hudson, and is the central town upon the e. border of the co. Verdrietegees Hook, a rocky ridge 500 to 800 feet above tide, extends along the n. line, and the Nyack Range occupies a considerable portion in the s. e. corner. The remaining parts of the town, comprising four-fifths of its surface, are rolling or moderately hilly. Hackensack River flows s. through near the center, and a narrow swamp extends along the greater part of its course. Rockland Lake, about 1 mi. from the Hudson, is a fine sheet of pure water, 3 mi. in circumference and 160 feet above the river. The soil is a reddish, sandy loam underlaid by clay. Considerable attention is given to fruit growing. **Rockland Lake**,³ (p. v.) in the e. part of the town, and extending from the lake to the river, contains a church, a foundry and machine shop, and a ship yard. Pop. 430. An extensive business is carried on at this place in preserving and exporting ice.⁴ **New City**, (Clarkstown p. o.,) the co. seat, a little n. w. of the center, contains the co. buildings, a church, and 28 dwellings. **Nanuet**, (p. v.,) formerly "*Clarkstown Station*," a station upon the Piermont Branch of the Erie R. R., in the s. w. part, contains 1 church and 20 dwellings. **Clarkville**, (Nyack Turnpike p. o.,) in the s. part, contains a church and 18 dwellings. **Dutch Factory**, a hamlet in the w. part, contains a cotton factory and 2 woolen yarn factories. The first settlements were made by the Dutch, at an early period. The first church (Ref. Prot. D.) was formed near Clarkville.⁵

HAYERSTRAW⁶—was formed March 7, 1788.⁷ Clarkstown and Ramapo were taken off in 1791. It lies upon the Hudson, in the n. angle of the co. Nearly the entire surface is hilly and mountainous. The Ramapo or Blue Mts., extending through the n. w. part, are divided into numerous precipitous and rocky peaks, and spurs from the principal range extend to the banks of the Hudson.⁸ Verdrietegees Hook, a long, rocky ridge, forms a considerable portion of the n. border. The s. e. portion is moderately hilly. The valleys separating these mountains are mostly narrow, rocky ravines. Stony Point is a small rocky peninsula on the river, near the center of the e. border of the town.⁹ The principal streams are Minisceonga and Miners Creeks, flowing into the Hudson, and Stony Brook, a tributary of Ramapo River, a branch of the Passaic. The soil is a sandy loam underlaid by clay. Extensive beds of a fine quality of clay border upon the river above Warren, and from them are annually manufactured 150,000,000 of bricks, giving employment to over 1000 men. Limestone crops out near Tompkins Cove, from which large quantities of lime are manufactured. A gas spring is found 2½ mi. s. of Stony Point.¹⁰ **Warren**,¹¹ (Haverstraw p. o.,) situated upon the Hudson, in the s. e. angle of the town, was incorp. in 1854.

¹ This tract is described as follows:—"A certain tract of vacant land within our county of Orange called by the Indians Whorinimus, Peruck, Gemakie, and Naasahunck, and is in several small pieces; and also another parcel of land, beginning at the south bounds of lands lately granted to Daniel Honan and Michael Hawdon, being a small creek that runs into Demaree's Creek to the southward of Naasahunck, and runs from thence by Demaree's said creek as it runs southerly to the line parting our said Province from the Jersey; and soe by the said parting line westward to a small river called Saddle River, thence by the said river northward until an east line doe run to the southwest corner of the said Honans and Hawdons land, containing by estimation two thousand acres of improvable land, &c. &c."

Another deed on record commences, "To all X Tian People," (Christian People,) Johannes Mynne, of Haverstraw, &c. &c. to Albert Mynne, of Haverstraw, &c. &c., and dated 1694.

Witness, Thomas Luirens, Frans Wessel, and Peter Jacobus Maurius.

² Among these early settlers were Capt. Cornelius Cuyper, Capt. Cornelius Haring, Johannes Meyer, Gerhardus Clowes, Derrick Straat, Jacobus Swartwout, Jonathan Ross, Thomas Pulling, John Gaite, Cornelius Smith, Jacob King, William Kurtrack, John Ellison, Rinear Kisariki, Col. Vincent Matthews, Hendrick Ten Eyck, Guybert Crom, Minard Higon Kamp, Garret Sneiderer, Daniel Denton, Petress Decker, Jonathan Seamons, Thos. Maybee, Daniel De Clark, William Wyant, Evert Hombeck, John Van Fleet, Johannes Blauvelt, Nicholas Concklin, Lambert Aufrancey, Tenuis Van Houten, and Tenuis Talman.

³ The landing at this village is sometimes called Slaughters Landing.

⁴ 200,000 tons of ice are annually exported. The business gives employment to 1000 men during the season of securing the ice, and to about 100 men continually.

⁵ There are 4 churches in town; 2 M. E., Ref. Prot. D., and Seceders.

⁶ Signifying Out Straw. The name is said to be derived from

the quantities of wild oats growing on the borders of the river when the town was first settled.

⁷ The date of formation as a precinct was not ascertained. Their distance from Tappan occasioned an act, June 24, 1719, allowing the inhabitants to elect a supervisor, a collector, 2 assessors, a constable, and 2 overseers of highways, on the 1st Tuesday of April annually.

⁸ The principal of these peaks are the Dunderbergh and West Mts., in the n. e.; Buchan, Barrack, Bulson, Pine, and Collaberg Hills, near the center; Rock House Hill, Blackmie Hill, and Horseshoe Mts., in the w.; and Haeha Hill and Cheese Coats Hill in the s.

⁹ During the Revolution, Stony Point and Verplanks Point, on the opposite side of the Hudson, were strongly fortified, the two fortresses commanding the channel and Kings Ferry, the principal route between New England and the South. On the 1st of June, 1779, Gen. Vaughn, at the head of a considerable British force, made an attack upon these places and captured both. The garrison at Fort La Fayette, on Verplanks Point, consisting of 70 men, were taken prisoners; and that at Stony Point, consisting of 40 men, evacuated the place on the approach of the British. Gen. Clinton immediately ordered the works strengthened, and prepared for permanent occupation. Stony Point was surrounded on 3 sides by water, and on the fourth by a marsh covered at high tide, and crossed by a narrow causeway. On the night of July 18, 1779, this place was stormed and taken by an American force under Gen. Wayne. The loss of the Americans was 15 killed and 83 wounded, and of the British, 63 killed and 543 prisoners. This action was one of the most daring and brilliant that occurred during the war. A light was erected on the site of the fort in 1826.

¹⁰ *Geol. Let. Dist.*, p. 107.

¹¹ Locally known as Haverstraw. The large rolling mill of the Sampson Iron Co., ¼ mi. w. of this place, usually employing 100 to 150 hands, has suspended operations.

It contains 5 churches, a newspaper office, academy,¹ paper mill, ship yard, foundry, and a silk manufactory. Pop. about 1700. **Tompkins Cove**, upon the Hudson, is a village grown up around the extensive limeworks of C. Tompkins & Co. It contains a church, a private school supported by the company, and 60 dwellings.² **Garnerville**, 2 mi. n. w. of Warren, contains 1 church, the Rockland Print Works,³ and 40 dwellings. **North Haverstraw**, (p. v.) upon the Hudson, 3 mi. n. of Warren, contains 2 churches and 28 dwellings. **Thiels Corner**, 4 mi. w. of Warren, contains a needle factory, 2 gristmills, a church, and 15 dwellings. **Montville**, **Caldwells Landing**,⁴ and **Grassy Point** are hamlets. **Fort Clinton**, the ruins of which are still visible, was situated upon the river, in the n. e. angle of the town. The house in which Arnold and André met to consummate the bargain for the delivery of West Point to the British is still standing, about halfway between Warren and North Haverstraw. There are 11 churches in town.⁵

ORANGETOWN—was formed March 7, 1788, and was named from Orange co., of which it then formed a part. It lies upon the Hudson, in the s. angle of the co. Its surface is broken by abrupt and rocky hills in the e.; but in the center and w. it spreads out into a rolling or moderately hilly region. The Nyack Hills, extending along the river, are 300 to 500 feet high, with steep, rocky declivities upon the e., but more gradual slopes upon the w.⁶ Their summits are rocky and covered with a light growth of forest trees. Snake Hill, in the n. e. corner, upon the line of Clarks-town, is one of the principal peaks. The principal stream is Hackensack River, flowing s. through the w. part. Pascaek Creek flows through the extreme w. angle, and Spar Kil is a tributary of the Hudson. Near the n. line are several bog or peat meadows, generally well drained and under cultivation. The red sandstone which crops out on the e. declivities of the hills, within a few rods of the river, between Piermont and Nyack, is extensively quarried and exported for building stone.⁷ The soil is a reddish, sandy loam intermixed with clay. Fruit growing and furnishing milk for the New York market have become leading pursuits. **Nyack**, (p. v.) upon the Hudson, in the n. e. corner of the town, contains 5 churches, 5 shoe manufactories,⁸ a steam tub and pail factory,⁹ the Rockland Female Institute,¹⁰ and a private academy.¹¹ Pop. 1458. **Piermont**,¹² (p. v.) upon the Hudson, in the s. part, was incorp. May 21, 1850. It is the e. terminus of the Piermont Branch of the N. Y. & Erie R. R.,—the one over which the freight is carried. Nearly the whole business of the place is connected with the r. r. establishment. A pier 1 mi. long has been built into the river, where the freight is transferred to and from the cars and barges in the river. Upon each end of the pier are extensive offices for the transaction of the business of the road. At this place the r. r. co. also have a large iron foundry and extensive repair shops. Pop. 2204. **Tappantown**,¹³ (p. v.) near the N. J. line, contains 2 churches and 30 dwellings. This place was the scene of the trial of André, and for a time in 1780 was the headquarters of Gen. Washington.¹⁴ **Rockland**, (Palisades p. o.) upon the Hudson, in the s. part

¹ The Haverstraw Mountain Institute, a private institution, was established in 1853. It employs 2 teachers, and has an average of 40 pupils.

² This company has 40 limekilns, and manufacture 100,000 bush. of lime annually, giving employment to 100 men. The lime is sent e. and is used for agricultural purposes.

³ This establishment, incorp. in 1853, with a capital of \$100,000, gives employment to 220 hands, and turns out goods to the amount of \$700,000 per annum.

⁴ This place is just below the Highlands, and opposite Peekskill, with which it is connected by a steam ferry. The day line of steamers between New York and Albany land here. About 15 years since, a company was formed for raising an old wreck at this place, said to be one of the pirate Kidd's vessels laden with treasure! A coffer dam was built, machinery erected, and immense sums were expended in this insane project,—which, it is needless to add, resulted in nothing but a total loss to all concerned. ⁵ 4 M. E., 3 Presb., 2 Prot. E., Af. Meth., and R. C.

⁶ The valley of Spar Kil forms a break in these hills, through which the Piermont Branch of the Erie R. R. is constructed. In the hill just n. of Piermont is an opening in the rocks, supposed by some to be the shaft of an ancient mine and by others to be a natural cave. It is divided into 2 passages, one extending 70 feet w. s. w. and the other 40 to 50 feet w. by n. The passage is very irregular, 4 to 6 feet in width and 3 to 9 feet high. At the extremity of the longer passage is an immense spring of clear, cold water.

⁷ The State House at Albany was built of this stone.

⁸ The manufacture of women's and children's shoes at this place is an extensive business. It gives employment to about 600 hands in the vicinity, and 30 sewing machines are kept in constant operation. Goods to the amount of \$225,000 are annually produced.

⁹ This factory employs 30 hands, and produces \$60,000 worth

¹⁰ This institution is beautifully located upon a lot of 10 acres, upon the bank of the Hudson, in the s. part of the village. It is supplied with pure spring water from the mountain, is heated with furnaces and lighted with gas. It has accommodations for 100 boarding pupils. The institution owes its origin to the late Simon V. Sickles, of Nyack, who gave \$25,000 toward the erection of the building.

¹¹ The Nyack Classical School and Commercial Academy, intended to prepare young men for college and commercial pursuits, has recently been established.

¹² Name derived from the *Pier* built by the r. r. company and the mountain in rear of the village.

¹³ According to Heckevelde, Tappan is from the language of the Delawares, and derived from Thuphane or Taphanus, "Cold Stream"—*Moulton and Yates's Hist. N. Y.*

¹⁴ The house occupied by Gen. Washington, still standing, is owned and occupied by Dr. Smith. It is a stone house, and is said to have been erected in 1700. The house in which André was confined during his trial is now kept as a tavern, under the name of "The Old '76 House." The trial was held in the old Ref. Prot. D. Church. The scene of André's execution and burial was upon an eminence $\frac{1}{2}$ mi. w. of the village, and about 20 rods from the N. J. line. In Aug. 1831, his remains were disinterred, under the superintendence of Mr. Buchanan, British Consul at New York, and taken to England. A small cedar tree that stood by the grave was also taken away, and a box was afterward made from its wood, lined with gold, and sent to Rev. Mr. Demarest, of Tappantown, in acknowledgment of the services rendered by him at the disinterment. On the box was the following inscription:—"From his Royal Highness the Duke of York to the Rev. Mr. Demarest." No monument now remains to mark the spot of the execution or the grave. A boulder was formerly placed to mark the spot; but this has been broken up and removed.

of the town, contains 3 churches and 40 dwellings.¹ **Orange Mills, Middletown, and Blauveltville** (p. o.) are hamlets. The first settlement is supposed to have been made by the Dutch as early as 1680.² The first church (Ref. Prot. D.) was formed Oct. 24, 1694, and the first preacher was Rev. Guiliam Barthoff.³ The first church edifice was erected in 1716. There are 16 churches in town.⁴

RAMAPO—was formed from Haverstraw, March 18, 1791, as "*New Hampstead*." Its name was changed to "*Hampstead*" March 3, 1797, and to Ramapo in 1828. It is the most westerly town in the co. The Ramapo or Blue Mts. extend n. e. and s. w. through the w. part.⁵ They are steep and rocky, and the valleys between them are deep and narrow. Ranges of rounded and arable hills extend through the s. e. half of the town and occupy the greater part of its surface. The principal streams are Ramapo River, flowing s. through the w. corner, and its tributaries Maway River and Stony Creek. Niggar and Shepard Ponds, on the line of N. J., in the s. w. angle, are small bodies of water. The soil is generally a sandy loam. The people are principally employed in raising vegetables for the New York market. **Ramapo**, (Ramapo Works p. o.) in the w. part of the town, contains 1 church, several manufactories, and 50 dwellings.⁶ **Sufierms**, (p. v.) near the line of N. J., in the w. part, contains a rolling mill and 20 dwellings. It lies at the junction of the two branches of the Erie R. R., and is an important station. **Sloatsburg**, (p. v.) on the Erie R. R., in the extreme w. part, contains a church, cotton twine factory,⁷ hoe factory, and 180 inhabitants. **Spring Valley**, (p. v.) on the Piermont Branch of the Erie R. R., contains a church and 18 dwellings. **Mechanicville**, near the center of the town, contains a church and 15 dwellings. **Furmanville and Monsey Depot** (Monsey p. o.) are hamlets. The first church (Ref. Prot. D.) was formed near the center of the town, Dec. 4, 1774; Rev. Peter Leyt was the first preacher.⁸

¹ Locally known as "Snedens Landing."
² Among the early settlers were families named Anriancey, Haring, Blauvelt, Van Honton, and Tallman. These names appear upon the records of the church in 1694. The first baptism on record was that of Derick, (Richard), son of Cornelius Cooper and Elsie Bogert, his wife, Oct. 13, 1696; and the first marriage, that of Marinus William Floussie Crom and Gertrude Femusse Vao Honton, in 1699. The first school was taught by Hermanus Van Huysen, from Holland, soon after the first organization of the church. The first inn is believed to have been kept by Casparus Maybee, in the "Old '76 House," now occupied for the same purpose. Abram Maybee built the first mill: his son, Cornelius Maybee, owned it during the Revolution, but, espousing the cause of the British, his property was confiscated.
³ A tract of 55 acres was originally donated to this church; but at different times all but 14 or 15 acres have been sold. The records of the church during the Revolution, kept in a small book by the pastor, Rev. Mr. Vanryck, for convenience in carrying when obliged to move from place to place, have been lost.
⁴ Ref. Prot. D., Presb. M. E., Af. Meth., and Bap. at Nyack; Prot. E., Ref. Prot. D., M. E., Bap., and R. C. at Piermont; Ref. Prot. D. and M. E. at Tappantown; Bap. at Middletown; and 3 M. E. at Rockland.
⁵ Cedar Hill and Table Rock, in the w. Horsepond Mts. and Pine Hill, in the n. w., and High Mt., on the line of N. J., are the highest points, and are 500 to 700 feet above tide.
⁶ These establishments, consisting of a cotton factory, file factory, steel works, and car works, are all idle, and only 10 dwellings are occupied. The whole village is rapidly going to decay.
⁷ This factory, incorp. in 1854, with a capital of \$100,000, gives employment to 150 hands.
⁸ There are 7 churches in town; 4 M. E., and 3 Ref. Prot. D.

PUTNAM COUNTY.

This county¹ was formed from Dutchess, June 12, 1812. It lies upon the Hudson, between Dutchess and Westchester cos., and extends e. to the Conn. line. It is rolling and hilly in the e., and broken and mountainous in the center and w. It embraces nearly all of The Highlands e. of the Hudson. The mountains consist of several steep, rocky ranges, extending in a n. e. and s. w. direction and separated by deep, narrow valleys, the principal of which are Peekskill Hollow, and Canopus and Pleasant Valleys. The co. is watered by the upper branches of Croton River and several smaller streams. Among the mountain valleys are numerous picturesque lakes, the largest of which are Lakes Mahopac,² Canopus,³ and Gleneida.⁴ In the valleys the soil is a productive sandy loam, but the mountains are bare and rocky, and only valuable for their mines⁵ and quarries.⁶ Iron ore abounds; and serpentine, magnesian limestone, and several other minerals are also found.⁷ The rocks belong chiefly to the primitive and lower sedimentary or metamorphic series, consisting of granite, gneiss, granular quartz, talcose slate, metamorphic limestone, serpentine, greenstone, and hornblende. Peat and marl are found in various localities.⁸ In the farming districts the people are principally engaged in dairying and furnishing milk for the New York market. Manufacturing is extensively carried on at Cold Spring. The principal works of internal improvement are the Hudson River R. R., extending through Philipstown, and the Harlem R. R., through Patterson and Southeast. The county seat is located at Carmel.⁹ The co. buildings consist of a courthouse,¹⁰ jail,¹¹ and co. clerk's office.¹² The poorhouse is located on a farm of 196 acres in Kent, about 2½ mi. from Carmel.¹³ Two newspapers are published in the co.¹⁴ A strip 580 rods wide along the e. border of the co. constitutes a part of the "Oblong" Tract, and was patented by Thomas Hawley and his associates, June 8, 1731.¹⁵ The remaining part of the co., and a small part of Dutchess, are included in the great Highland Patent of Adolph Philipse. At the time of the Revolution this patent was owned by Philip Philipse, and Mary and Susannah, wives of Col. Roger Morris and Beverly Robinson, of the British army. Morris and Robinson, together with their wives, were attainted, and their property was confiscated and sold by the Commissioners of Forfeiture. It was subsequently shown in court that one-third of the patent was vested in the children of Col. Morris and his wife, and was not reached by the bill of attainder. The State was therefore obliged to

¹ Named from Maj. Gen. Israel Putnam, who was stationed in the co. a part of the time during the Revolutionary War. In the act of Dec. 16, 1737, the co. was styled "South Precinct;" March 24, 1772, it was subdivided into "Southeast," "Fredericksburgh," and "Phillips" Precincts. The first of these precincts included the present towns of Southeast and Patterson, the second Carmel and Kent, and the third Putnam Valley and Philippsburgh.

² On Santhier's map of 1779 this word is written "Macookpack."³ This lake was formerly called "Hortons Pond." It is now frequently called "Oskawano," from an Indian chief said to have resided in this locality.

⁴ Formerly called Shaw's Lake.

⁵ Magnetic oxyd of iron is the most important of the ores found, although limonite and other varieties are obtained. A bed of magnetic ore was opened several years since on Breakneck Mt.; but it has not been extensively worked. Another bed has been opened on Constitution Island, opposite West Point Foundry. The Simevog vein was formerly worked at the Townsend Mine on Simevog Hill. The Phillips vein has been traced at short intervals a distance of 8 mi., and several mines have been opened along its course. The Stewart Mine is the principal of these. Large quantities of ore obtained from the Denny Mine, in the n. part of Putnam Valley, were formerly used at the Cold Spring Furnace. Coal Grove and Gunverner Mines are in the neighborhood of the Denny Mine. The "Harvey Steel and Iron Co." have opened several mines in Southeast, from which an excellent quality of ore for the manufacture of steel was obtained; but they are not now worked.

⁶ Blinn's Quarry, on the s. side of Breakneck Point, near the line of Dutchess co., affords a bluish gray granite, which has been extensively used for the Delaware Breakwater, Fort Calhoun, and Fortress Monroe. The Highland Granite Co.'s quarry, principally owned by Howard & Holdens, is near the Hudson River, a short distance from Blinn's Quarry. It is elevated about 200 ft. above the river. Stony Point Quarry, on a rocky penin-

sula extending into the Hudson, Phillips Quarry, on an estate of the same name, and other quarries in the co., have been worked. Marble is found in the n. part of Patterson.

⁷ Among the minerals of the co. are arsenical and common iron pyrites, arsenite and chromate of iron, pyroxene, tremolite, arragonite, graphite, keroilite, brucite, actynolite hornblende, albite, lamontite stilbite, chabasite, epidote mica, zircon, sphene, and diaspore.

⁸ The principal localities where peat is found are near Patterson and on the e. side of Lake Mahopac.

⁹ The first courts were held at the Baptist Church. The first co. officers were Stephen Barnum, *First Judge*; John Jewett, *Co. Clerk*; Wm. H. Johnston, *Sheriff*; and Joel Frost, *Surrogate*.

¹⁰ The courthouse is a wooden building, erected in 1813, at a cost of \$2,500. Joseph Cran, Stephen Barnum, Joel Frost, Jonathan Ferris, and John Jewett were appointed to superintend its erection.

¹¹ The jail is a stone building, erected in 1844. It adjoins the courthouse on the e.

¹² The clerk's office is a stone fireproof building, located a few rods e. of the courthouse.

¹³ The average number of inmates in the poorhouse is 52, supported at a weekly cost of 43 cts. each. The income from the farm is \$600 per annum. A school is taught throughout the year.

¹⁴ The *Putnam Co. Courier* was established at Carmel in 1814.

It was successively issued as *The Putnam Republican*, published by Thos. Smith; and *The Putnam Democrat*, published by W. H. Sloat, and afterward by Elijah Yerke, James D. Little succeeded Yerke, and changed the paper to

The Democratic Courier; and again, in 1852, to **The Putnam Co. Democrat**. By this name it is now published.

The Putnam Free Press was commenced at Carmel, June 12, 1858, by Wm. J. Blake, by whom it is still published.

protect the purchasers by settling the claims of these children.¹ During the Revolution the passes through the mountains in this co. were carefully guarded, and at different times large bodies of troops were stationed there. It was the principal scene of the consummation of Arnold's treason, and of many events of minor interest, though no battle took place within its limits. Gen. Putnam had command of the army stationed here most of the time.

CARMEL—was formed from "*Frederickstown*," March 17, 1795. It lies upon the s. border of the co., between Putnam Valley and Southeast. Its surface is rolling and hilly, with intervening valleys extending in a n. and s. direction. Peekskill Hollow Range and Big Hill are the highest summits.² The w. branch of Croton River and Michaels Brook flow through the e. part of the town, and Peekskill Hollow Creek through the n. w. In the town are several beautiful lakes and ponds, the principal of which are Lakes Mahopac,³ Gleneida,⁴ and Gilead, and Kirk and Long Ponds. The soil is a light, sandy and gravelly loam intermixed in some places with clay. **Carmel**, (p. v.) the co. seat, is situated on Lake Gleneida. It is the seat of the Raymond Collegiate Institute,⁵ and contains 3 churches, a bank, and 2 newspaper offices. Pop. 391. **Mahopac** (p. v.) contains 1 church, a bank, and about 40 houses; and **Red Mills**,⁶ (p. v.) contains 1 church and about 20 houses. Settlement was commenced about 1740.⁷ Enoch Crosby, the "*Harvey Birch*" of Cooper's Spy, lived in this town till after the Revolution, when he removed to Southeast. A church was organized, and an edifice erected near Gilead Lake, a short time before the commencement of the Revolution. There are now 7 churches in town.⁸

KENT⁹—was formed as "*Frederickstown*," March 7, 1788. Its name was changed to "*Frederick*" March 17, 1795, and to Kent April 15, 1817. Carmel was taken off in 1795. It is the central town on the n. border of the co. Its surface in the e. part is broken by numerous hills, and in the w. by steep and rocky mountain peaks separated by deep and narrow ravines. Smally Hill is the highest peak. The w. and middle branches of Croton River, and Horse Pound and Pine Pond Brooks, are the principal streams. In the town are several ponds and small lakes, the principal of which are White and Pine Ponds.¹⁰ **Farmers Mills** (p. v.) contains 1 church and several manufacturing establishments.¹¹ **Coles Mills** (Kent p. o.) and **Ludingtonville** (p. o.) are hamlets. The first settlement was made about 1750, by Zachariah Merritt.¹² The census reports 3 churches in town,—2 Bap. and 1 Union.

PATTERSON¹³—was formed from "*Frederickstown*" and Southeast, as "*Franklin*," March 17, 1795, and its name was changed April 6, 1808. It is the n. e. corner town of the co. Its surface

¹ The Philippe Patent was granted June 17, 1897, to Adolph Philippe, a merchant of New York, who died, in 1749, without issue, leaving his estate to his nephew, Frederick Philippe. The latter had 5 children,—Frederick, Philip, Susannah, Mary, and Margaret. By his will, dated June 6, 1751, Frederick was disinherited, and, Margaret dying young, the property was equally divided among the remaining three. Philip left a widow, who married one Ogilvie; Susannah married Beverly Robinson, and Mary married Col. Roger Morris. On the 7th of Feb. 1754, the patent was divided into 9 lots: 3, each 4 mi. square, bordering upon the Hudson and denominated "water lots"; 3, each 4 mi. wide by 12 long, extending n. and s. across the patent, and denominated "long lots"; and 3, each 4 mi. sq., upon the e. border, denominated "back lots." Philip, Susannah, and Mary Philippe each owned one of each kind of lots. On the 14th of Jan. 1758, previous to the marriage of Mary, a deed of marriage settlement was executed, by which her estate was vested in such children as might be born under the marriage, reserving only to herself and husband a life interest in the property. When Robinson and Morris and their wives were attained, their property was sold, chiefly to the former tenants. In 1803, John Jacob Astor bought the interest of the heirs of Morris in this property for £20,000. The State, to protect those who held title from the Commissioners of Forfeiture, passed a law, April 16, 1827, directing 5 suits to be prosecuted to judgment in the Circuit Court of the S. Dist. of N. Y., and presented by writs of error to the Supreme Court of the U. S. for review and final decision. If against the defendants, the State agreed to pay \$450,000 in 5 per cent. stock, redeemable at pleasure; and if the decision included the improvements that had been made by occupants, \$250,000 more. Three suits were tried, each resulting in favor of Astor; upon which the comptroller was, by act of April 5, 1832, directed to issue stock for the full amount, with costs. The amount issued was \$561,500. Few suits have been tried in the State involving larger interests to greater numbers, or which were argued with more ability, than this. In the suit against James Carver the counsel for the plaintiff were Messrs. Oakley, J. O. Hoffman, Emmet, Platt, and Ogden; and for the defendant, Talcott, (Attorney Gen.) Webster, Van Buren, Ogden Hoffman, and Cowles. See

Report of Triol, by E. V. Sparhawk; *Legis. Doc.* 1830, P. 347; *Sen. Doc.* 1831, II. 24, 28; *Assem. Doc.* 1832, 149, 205; *Peters Reports U. S. Supreme Court*, IV. 1.

² Among the principal peaks in town are Round, Turkey, and Conus Mts., and Goose, Barrett, Burned, and Prospect Hills, in the n. part; Pisgah, Watts, Pood, and Drew Hills, in the e.; Ball, Watermelon, Iodjan, and Round Hills, in the s.; Austin, Golden Root, and Hemlock Hills, in the w.; and Rattle and Hazens Hills, and Adams Ridge, in the central part.

³ Lake Mahopac is 9 mi. in circumference, and in it are 3 beautiful islands,—Big, Petre, and Goose Islands. Around the lake are several large hotels and boarding houses, which are thronged during the summer season by visitors from New York and Brooklyn. A number of beautiful summer residences have been erected on the surrounding heights.

⁴ Lake Gleneida covers an area of 170 acres, and is 130 feet deep.

⁵ The Raymond Collegiate Institute was built in 1851, at a cost of about \$40,000, by James Raymond. It is a private institution, owned by the heirs of Mr. Raymond.

⁶ A gristmill at this place was fitted with Government grain at one time during the Revolution, and soldiers were stationed to guard it. When on his way to West Point, André lodged one night at the house of Jas. Cox at this place.

⁷ George Hughson settled near Lake Mahopac, and Wm. and Uriah Hill at Red Mills. The first mill was erected at the latter place.

⁸ 3 M. E., 2 Bap., and 2 Presb.

⁹ "*Frederickstown Precinct*" was formed March 24, 1772, and was named from Frederick Philippe. The town received its present name from the Kent family, who were early settlers.

¹⁰ The other ponds and lakes are Barretts, Chins Forge, and Drews Ponds, and Lake Sagamore.

¹¹ A fulling mill, sawmill, gristmill, and tannery.

¹² Families named Boyd, Wixon, Farrington, Hurton, Certar, Burrett, Ludington, and others, from Mass. and Westchester, were early settlers.

¹³ The town was first named in honor of Dr. Franklin. Its present name was derived from a family of early settlers.

is hilly; but, with a few exceptions, the hills are arable to their summits. The principal streams are the e. branch of Croton River and its tributaries, Quaker, Birch, and Muddy Brooks. Croton Lake and Little Pond are in the e. part. "*The Great Swamp*" extends along the e. branch of the Croton River.¹ The soil is a sandy loam. **Patterson**, (p. v.,) a station on the Harlem R. R., contains 2 churches and 37 houses. **Towners Station** (Towners p. o.) and **Haviland Hollow** (p. o.) are hamlets. The Prot. E. Church at Patterson was built in 1770. There are 4 churches in town.²

PHILIPSTOWN³—was formed March 7, 1788. A part of Fishkill (Dutchess co.) was taken off in 1806, and Putnam Valley in 1839. It is the most westerly town of the co., and extends about 10 mi. along the Hudson. Its surface is broken by numerous steep and rocky mountain ridges separated by deep and narrow valleys.⁴ These mountains constitute the most elevated portion of The Highlands.⁵ The ranges have a general n. and s. or n. e. and s. w. direction. Clove Creek flows through the n. part of the town, and Canopus Creek through the n. e. corner. Foundry, Breakneck, Andreas, Indian, and other brooks flow through narrow valleys and rocky ravines into the Hudson. The greater part of the surface is unfit for agricultural purposes. Constitution Island⁶ is a promontory opposite West Point, connected with the mainland by a marshy meadow. The "*Sunk Lot*" is a tract of 1300 acres of low and apparently sunken ground. Several mines of magnetic iron ore had been opened in town; but none are now wrought. Granite is extensively quarried, and brick are made at several points along the river. The soil is a gravelly, sandy, and clayey loam. **Coldspring**, (p. v.,) situated on the Hudson, was incorp. April 22, 1846, and includes the suburban villages of Nelsonville and Marysville. It is a station on the Hudson River R. R., and contains 6 churches and an extensive foundry.⁷ Pop. 2,237. **Breakneck** and **Griffins Corners** contain each about a dozen houses. **Davenport Corners** contains 1 church and 10 houses. **Continental Village**⁸ has 1 church and about 12 houses. **Garrisons**, (p. o.,) on the Hudson, is a station on the Hudson River R. R. The first settlement was made about 1715, by Thos. Davenport.⁹ This town was principally settled under Col. Beverly Robinson,¹⁰ who acquired title by marriage with Susannah, daughter of Frederick Philipse. Undercliff, the residence of Gen. Geo. P. Morris, is situated on a high bluff in the n. part of Cold Spring. The census reports 9 churches in town.¹¹

PUTNAM VALLEY—was formed from Philipstown, as "*Quincy*," March 14, 1839. Its

¹ Pine Island is a rocky ledge 200 ft. high, containing about 30 acres, in the middle of Great Swamp.

² Prot. E., Pap., Friends, and Presb.

³ Named from Adolph Philipse, patentee of the Philipse Manor. The Philips Precinct was formed March 24, 1772.

⁴ "*Martyrs Rock*," or the Martyrs Reach, was a short stretch of the Hudson just above West Point, where early navigators were often retarded by baffling winds. There were 13 racks, or reaches, on the Hudson, known to sailors as "*Horse*," "*Sail-makers*," "*Cooks*," "*High*," "*Fox*," "*Bakers*," "*John Pleasures*," "*Harts*," "*Sturgeons*," "*Fishers*," "*Fust*," "*Martlaers*," and "*Long*" Reaches, the last named extending from Pollepel's Island to Krom Elleboogh.—*Benson's Memoir*, p. 42.

⁵ Among the peaks of The Highlands in this town are Anthony's Nose, Sugar Loaf, Breakneck Mt., and Bull, Hog-Back, Vinegar, Cot, Piece, and Fort Hills. Anthony's Nose is 1228 feet above the Hudson, and Sugar Loaf 800 ft.

⁶ This promontory was called "*Martlaers Island*" before the Revolution. In July, 1775, a fort was built upon it, under the direction of Bernard Romeine; and in 1778 a heavy chain was stretched across the Hudson from this fort to West Point. Col. Timothy Pickering, appointed to have charge of this work, in March, 1778, contracted with Peter Townsend (at the Sterling Iron Works at Warwick, Orange co.) for the construction of the chain. The task was done in 6 weeks, and the huge chain carted in sections to West Point. The links weighed from 100 to 150 pounds each; and the entire weight was 186 tons, and its length 1,500 ft. It was buoyed up by large spars, a few feet apart, secured by strong timbers framed into them and firmly attached to the rock on both shores. In winter it was drawn on shore by a widdlass, and replaced in the spring. It was never disturbed by the enemy, and continued in use until the peace. A similar chain, of half its diameter and 1,800 ft. in length, (made at the Ringwood Iron Works, N. J.,) was stretched across the channel from Anthony's Nose to Port Montgomery, in Nov. 1776. It parted twice, and the enemy broke and passed it in the fall of 1778. Another, stretched from Pollepel's Island to the w. shore, consisted of spars, pointed, and their ends united by iron links. There was also a *chevaux de frize* sunk at the same place to prevent the passage of vessels. Most of these works were constructed and placed under the immediate direction of Capt. Thomas Machin, an engineer in the service. Traces of Fort Constitution and the outworks are still visible.

⁷ The West Point Foundry is one of the largest establishments of the kind in the country. It was established in 1817, by an association organized for that purpose. A tract of 150 acres was purchased of Frederick Philipse, and a moulding house, boring mill, blacksmith and pattern shops, and drafting and business offices, were erected. An act of incorporation was obtained, April 15, 1818; and in 1839 the finishing or machine, smiths and boiler departments of the establishment were brought from New York. The works now consist of a moulding house, with 3 cupola furnaces; a gun foundry, with 3 air furnaces; 2 boring mills,—one driven by an overshot waterwheel and the other by a steam engine; 3 blacksmith shops; a turning shop; a finishing shop, with a pattern shop on the second floor; a boiler shop, a punching machine house, 5 pattern houses, a fire engine house, an office, and several smaller buildings. A dock on the river belongs to these works, and a branch from the r. e. extends to them. From 400 to 600 men are employed. Shafts 2 ft. in diameter, and of 15 tons' weight, have been forged here.

⁸ This village, together with barracks for 2000 men, was burned in Oct. 1777, by a detachment of the enemy on their way up the Hudson to co-operate with Gen. Burgoyne. Two small forts were erected here during the Revolution, and traces of them are yet visible.

⁹ Davenport built the first house at Coldspring, in 1715. David Harts, and several families named Haight, Bloomer, and Wilson, settled in the town in 1730. John Meeks was the first settler at Continental Village, and John Rogers settled a little n. of the same place about 1730. Jas. Stanley settled in the town in 1750, and Thos. Sharles in 1756. The first gristmill was built about 1762, by Beverly Robinson, at Continental Village.

¹⁰ Col. Robinson's house, situated at the foot of Sugar Loaf Mt., was the headquarters of Gens. Putnam and Parsons in 1778-79, and of Gen. Arnold at the time of his treason. The building is still standing, and is owned by Richard D. Arden, by whom it is carefully preserved in its original character. Col. Robinson granted a glebe to St. Philip's Church in The Highlands, 1 mi. e. of Garrisons, which was confirmed by the act of March 27, 1794. The church was used as a barracks during the Revolution.—*Blake's Hist. Putnam Co.*, pp. 180-209; *Sabine's Loyalists*, p. 562.

¹¹ 4 M. E., 2 Prot. E., Pap., Presb. and R. C.

name was changed Feb. 13, 1840. It lies on the s. border of the co., between Philipstown and Carmel. Its surface is broken by steep and rocky mountain ridges extending in nearly a n. and s. direction, and separated by narrow valleys. These mountain ranges constitute a part of The Highlands. The principal streams are Canopus Creek, Canopus Lake Creek, and Peekskill Hollow Brook. Canopus Lake is a beautiful sheet of water near the center of the town.¹ The soil in the valleys is a moderately fertile, sandy and gravelly loam. Iron ore has been found in several localities, but in places so difficult of access that it is not mined to any considerable extent. **Oregon**, at the confluence of Peekskill Hollow Brook and Canopus Lake Creek, contains 17 houses, and **Crofts Corners** contains 2 churches and 10 houses. **Tomkins Corners** is a hamlet. Among the early settlers were families named Dusenbury and Adams.² The census reports 4 churches in town; 3 M. E. and 1 Bap.

SOUTHEAST—was formed from Frederickstown and “*Southeasttown*,”³ March 7, 1788. A part of Patterson was taken off, as “*Franklin*,” in 1795. It is the s. e. corner town of the co. Its surface is rolling and hilly. The streams are the e. and middle branches of Croton River and their tributaries. Several small lakes and ponds lie among the hills.⁴ The soil is a sandy and gravelly loam. Iron ore abounds, but no mines are wrought at the present time. About 4,000 gals. of milk are sent daily from this town to the New York market. **Brewsters Station**, (p. v.), on the Harlem R. R., contains 1 church and a bank, and has a pop. of 176. **Heddingville** and **Brush Hollow** are hamlets. **Southeast Center** has 144 inhabitants, and **Milltown** (p. v.) 167. **De Forest Corners**, **Doanesburgh**, **Foggingtown**, and **Dykemans Station** (Dykemans p. o.) are hamlets. This was one of the first settled towns in the co.⁵ The first religious services were conducted by Rev. Elisha Kent, grandfather of the late Chancellor, about the year 1730.⁶

¹ Canopus Lake is 2 mi. long by 1 wide. Clear, Muddy, Peltons, Salpeu, Owens, Cranberry, Bangers, and Wickopee Ponds are smaller bodies of water in the town.

² On the farm of Harry Gillet are the ruins of the Hempstead Huts, built in 1780 by a detachment of the Mass. Line, and one or two companies from Hempstead, L. I.

³ “*Southeasttown*” was formed as a precinct Dec. 17, 1737, and confirmed March 24, 1772. The word “*town*” in the name was dropped March 17, 1795.

⁴ Tonetta and Kishewana Lakes, and Covils and Peach Ponds.

⁵ Among the early settlers were families named Crane, Crosby, Hall, Moody, Paddock, Hane, Howe, Carpenter, and Dickinson, from Mass. and Conn. Joseph Crane built the first mill, at Milltown, about 1730. Chancellor Kent was born in this town, July 31, 1763.

⁶ The census reports 3 churches in town; M. E., Presb., and Union.

LEWIS COUNTY.

This county was formed from Oneida, March 28, 1805, and named in honor of Gov. Morgan Lewis. Slight changes were made in the boundary on the erection of Pinckney, in 1808, and of Wilna, in 1813. It lies mostly within the valley of Black River, n. of the center of the State. It is centrally distant — mi. from Albany, and contains — sq. mi. Its surface consists of the broad intervals which extend along the course of Black River, and uplands which rise upon the e. and w. The eastern half rises gradually to the e. border of the co., where it attains an elevation of about 1400 feet above tide. This part of the co. forms a portion of the great wilderness of Northern N. Y. The surface in many places is broken by low ridges or isolated masses of naked gneiss. The streams

generally flow through rocky beds, and in places through wild ravines. The soil is a light, yellow, sandy loam and unprofitable for cultivation. In the eastern forests are great numbers of picturesque lakes, many of which are scarcely known except to hunters and fishermen. The streams flowing from the plateau are generally rapid, furnishing an abundance of water power.¹ Magnetic iron ore has been found interstratified with gneiss and red specular ore on the n. e. border of the co., and along the margins of the streams is an abundance of iron sand. At the junction of the gneiss and white limestone in Diana are a great number of interesting minerals.²

The w. side rises from the valley of Black River by a series of terraces to near the center of the w. half of the co., whence it spreads out toward Lake Ontario. These terraces are occasionally broken by oblique valleys from the n. w. The summit is 1500 to 1700 feet above tide. The interval along the river, and the banks which immediately border upon it, are underlain by Black River limestone. Next above this, in an irregular terrace, rises the Trenton limestone, 300 feet thick in the n. part of the co. and gradually diminishing toward the s. This limestone is very compact and strongly resists the action of the elements. In many places it presents the face of steep declivities approaching the perpendicular, and the streams from the w. plateau generally flow over this formation in a single perpendicular fall. This rock underlies an extremely fertile and nearly level tract of 1 to 3 mi. wide. Above it, on the w., the strata of the Utica slate and Lorraine shales rise about 500 feet higher, and from the summit the surface spreads out into a nearly level region, with its waters flowing both toward the e. and w.³ This range in Lewis co. is known as Tug Hill. The soil in the limestone region is sometimes thin, but is everywhere productive. Near the foot of Tug Hill is a strip of stiff clay a few rods wide, extending the whole length of the co., and marked by a line of springs and swamps. The soil upon the slate is deep and well adapted to grazing, but, from its great elevation, it is liable to late and early frosts. Upon the summit of the slate table lands are extensive swamps, which give rise to streams flowing into Black River, Lake Ontario, Oneida Lake, and the Mohawk. Drift deposits are scattered promiscuously, and sometimes lie at a great depth, more particularly upon the northerly sides of the oblique valleys before mentioned.

The streams which rise on the summit of Tug Hill in many places flow through ancient beaver meadows, and upon the brow of the hill they have invariably worn deep ravines into the slates and shales, in some instances 3 or 4 mi. in length and 100 to 300 feet deep. Chimney Point and Whetstone Gulf, in Martinsburgh, are localities of this kind. There are but few ravines in the limestone terraces, though the Deer River Falls, near Copenhagen, are in a gorge worn in this rock. A thin layer of Potsdam sandstone rests immediately upon the gneiss in Martinsburgh. Waterlime of excellent quality has been made from the lower strata of Black River limestone, and veins of lead ore have been worked in the upper part of the Trenton limestone in Martinsburgh and Lowville.⁴ The outline of the hills readily indicates the character of the underlying rocks.⁵

¹ The water of these streams is discolored by organic matter, manganese, and iron, and imparts to Black River the color which has given it its name.

² Zircon, sphene, tabular spar, pyroxene, nuttallite, blue calcite, bright crystallized iron pyrites, Rensselaerite, and coccolite are found near the Natural Bridge.

³ The highest part of this range is said to be on Lot 50, in High Market, and is 1700 feet above tide. On a clear day the hills of Madison co. can be seen from this place.

⁴ About the year 1828 a silver mine was announced as discovered near Lowville; and in 1837 a lead mine was somewhat extensively wrought 1 mi. n. w. of Martinsburgh Village, and several tons of lead were made at a great loss. More recently a company of speculators have bought the premises; but work has not been resumed, and probably will not be. Black oxyd of manganese has been found in swamps upon the summit of Tug Hill, in the s. w. part of Martinsburgh.

⁵ In the primary region the upheavals retain their original

The s. w. part of the co. is drained by Fish Creek and its branches, and the headwaters of the Mohawk. Salmon River rises upon the w. border, and the Oswegatchie and Indian¹ Rivers take their rise in the n. e. The principal tributaries of Black River are Moose² and Beaver Rivers,³ Otter,⁴ Independence, and Fish Creeks, and Fall Brook, on the e.; and Sugar River, Mill, Houses, and Whetstone Creeks, Roaring Brook, Lowville Creek, and Deer River⁵ upon the w. Several mineral springs are found within the co.⁶ Spring grains are readily cultivated; but this co. is particularly adapted to pasturage, dairying forming the principal pursuit of the people. Droughts seldom occur; but the uplands are noted for their deep snows. Within a few years, several extensive establishments have been erected upon Black, Moose, Beaver, and Deer Rivers, for the manufacture of leather, paper, lumber, and articles of wood. Two furnaces for the manufacture of iron from the ore are located near the n. border.

The county seat is located at Martinsburgh. A wooden courthouse and jail were built here in 1810-11, upon a site given by Gen. Martin.⁷ The present clerk's office was erected by citizens of Martinsburgh in 1847. Active efforts were made at an early day, and renewed in 1852, to obtain the removal of the co. seat to Lowville, and a fine edifice was built at that place for the courts, in the hope of securing their removal. The co. poorhouse is located upon a farm of 59 acres 1 mi. w. of Lowville. The average number of inmates is about 90. The institution is well managed in regard to economy, neatness, and the health of the inmates. The only internal improvement in the co. is the Black River Canal, connecting Black River below Lyons Falls with the Erie Canal at Rome.⁸ From Lyons Falls the river is navigated to Carthage, a distance of 42½ mi., by small steamers. Three newspapers are now published in the co.⁹

This co. is entirely within Macomb's Purchase, and includes a part of Great Tract No. IV.,¹⁰ most of the Chassanis Purchase,¹¹ Watson's West Tract,¹² the Brantingham Tract,¹³ and a small part of John Brown's Tract,¹⁴ on the e. side of the river; and 4 of the "Eleven Towns,"¹⁵ 5 of the Thirteen Towns of the Boylston Tract,¹⁶ Constable's Five Towns,¹⁷ and Inman's Triangle¹⁸ on the w. The first settlers came from New England and settled at Leyden in 1794. The fame of the

forms without change; the limestone terraces rise by steep slopes to their level summit; and the slate and shale hills exhibit the yielding character of the rocks which compose them, by their rounded outline and the gorges which every spring torrent has worn upon their sides.

¹ Called by the Indians Oje'quack, Nut River.

² Indian name Te-ka'lun-dian-do, clearing an opening.

³ Indian name Ne-ha-sa'ne, crossing on a stick of timber.

⁴ Indian name Da-ween-net, the otter.

⁵ Indian name Ga-ne'ga-to'do, corn pounder.

⁶ The largest of these arises from the limestone in Lowville, near the line of Harrisburgh. Others rise from the slate upon Tug Hill. All of them emit sulphuretted hydrogen gas, and some have been used for medicinal purposes.

⁷ The co. seat was located by the same commissioners that were appointed for Jefferson co. Benj. Van Vleeck, Daniel Kelly, and Jonathan Collins, by act of 1811. were appointed to superintend the completion of these buildings. The first co. officers were Daniel Kelly, *First Judge*; Jonathan Collins, Judah Barnes, and Solomon Kings, *Judges*; Lewis Graves and Asa Brayton, *Asst. Justices*; Asa Lord, *Coroner*; Chihlus Doty, *Sheriff*; Richard Cox, *Clerk*; and Isaac W. Bostwick, *Surrogate*.

The Black River & Utica R.R., now finished to Boonville, will probably be extended through the Black River Valley.

⁹ The *Black River Gazette* was established at Martinsburgh, March 10, 1807, by James B. Robbins, and was removed to Watertown the following year. This was the first paper published in the State N. of Utica.

The *Lewis Co. Sentinel* was started at Martinsburgh, Oct. 12, 1824, by Charles Nichols, and continued 1 year.

The *Martinsburgh Sentinel* was commenced in 1828 by — Pearson, and continued until March, 1830.

The *Lewis County Republican* was established at Martinsburgh, in 1831 or '32, by James Wheeler, who sold it to Daniel S. Bailey, its present publisher, in 1837. It was removed to Lowville in 1844, but has since been returned to Martinsburgh.

The *Lewis Co. Gazette* was started at Lowville, in the spring of 1821, by Lewis G. Hoffman, and continued 2 years.

The *Black River Gazette* was issued at Lowville, Oct. 19, 1825, by Wm. L. Easton. It was sold in 1830 to J. M. Farr, by whom it was continued a year or more.

The *Lewis Democrat* was started at Lowville, March 25, 1834, by Le Grand Byington, and continued 1 year.

The *Northern Journal* was commenced at Lowville, Feb. 14, 1838, by A. W. Clark. It has frequently changed owners, and is now published by Henry A. Phillips.

The *Lewis County Banner* was started at Lowville, Sept. 3, 1856, by N. B. Sylvester, and is now published by Almont Barns.

The *Lewis Co. Democrat* was commenced Sept. 22, 1846, at Turin,

by H. R. Lahe. It was removed to Martinsburgh in 1849 and discontinued a few weeks after.

The *Dollar Weekly Northern Blade* was started at Coatsville in 1854. It was changed to

The News Register in April, 1857, by Morrill & Cook, its publishers, and was afterward removed to Carthage.

¹⁰ This tract was bought by the Antwerp Company, and embraced an area of 450,950 acres. See p. —.

¹¹ This tract was purchased by Pierre Chassanis in 1792, and was supposed to contain 600,000 acres. Upon a survey being made, it was found that the tract fell far short of this; and a new agreement was made, April 2, 1793, for 210,000 acres. A narrow strip of this tract extended along the e. side of the river to High Falls. The settlers of this tract were principally refugees of the French Revolution. Many of them were wealthy, titled, and highly educated, and, in consequence, were poorly fitted for the hardships of pioneer life. Large sums of money were expended to render the settlement successful, but the settlers soon after returned to France and the enterprise was abandoned. Rodolph Tillier was the first agent; and in 1800 he was superseded by Gouverneur Morris, who appointed Richard Cox his agent. The first buildings were erected near the present residence of Francis Seger.

¹² James Watson purchased 61,433 acres, in 2 tracts, connected by a narrow isthmus. The eastern tract is mostly in Herkimer co.

¹³ So called from Thomas H. Brantingham, of the city of Philadelphia, who at one time held the title. It is mostly in Greig, and contains 74,400 acres.

¹⁴ This tract, which is popularly regarded as the whole northern wilderness of New York, included 210,000 acres sold by Constable to John Julius Angerstein, and afterward conveyed to John Brown, of Providence, R. I. It was divided into 8 townships, as follows:—

- | | |
|------------------|----------------|
| 1. Industry. | 5. Frugality. |
| 2. Enterprise. | 6. Sobriety. |
| 3. Perseverance. | 7. Economy. |
| 4. Unanimity. | 8. Regularity. |

It has been said that all these social virtues are needed for the settlement of this region. The first 4 townships are partly in Lewis co.

¹⁵ Numbers 5, 9, 10, and 11,—now Denmark, Pinckney, Harrisburgh, and Lowville.

¹⁶ Named from Thos. Boylston, of Boston, who held the title a few days. Nos. 3, 4, 8, 9, and 13, now Montague, Osceola, and parts of Martinsburgh and High Market, are in Lewis co. The whole tract included 817,155 acres.

¹⁷ These towns were Xenophon, Flora, Lucretia, Pomona, and Porcia, and now form parts of Lewis, High Market, and Martinsburgh and the whole of Turin and West Turin.

¹⁸ Leyden as it existed before Lewis was erected. It included 26,250 acres, forming a perfect triangle.

"Black River country" spread through Mass. and Conn., and within the next ten years the country between Tug Hill and the river rapidly filled up with a laborious, intelligent, and enterprising population. A romantic project of settlement formed by refugees of the French Revolution, in which Arcadian dreams of rural felicity were to be realized, was abandoned after a short experience of the real hardships of pioneer life. Except an expensive but ineffectual attempt by Brown to settle his tract, toward the close of the last century, little improvement was made e. of the river until about 1820; and this section has at present less than one-fourth of the population, and a still less proportion of the wealth, of the co. A systematic effort at settlement of the extreme w. part was first made in 1840-46, under Seymour Green and Diadate Pease, agents of the Pierrepont estate. Much of this region is still a wilderness.

CROGHAN¹—was formed from Watson and Diana, April 5, 1841, and a part of New Bremen was taken off in 1848. It lies e. of Black River, in the n. part of the co. The surface has an inclination toward the w. and n., and in the central and e. parts it is broken and hilly. Oswegatchie and Indian Rivers rise in the town and flow northerly into Diana; and Beaver River forms a portion of its s. boundary. In the e. part of the town are several lakes. The soil is light and sandy, and along the river intervals it is moderately fertile. The town is thinly settled along Black and Beaver Rivers, but in the n. and e. it is still a wilderness. **Croghan**, (p. o.), on Beaver River, and **Nanmburg**,² (p. o.) in the w. part of the town, are small villages. **Indian River**, (p. o.) n. of the center of the town, and **Belfort**, on Beaver River, are hamlets. Settlement commenced before 1830, under P. S. Stewart, agent for Le Roy. Many of the settlers are French and Germans. There are 5 churches in town.³

DENMARK⁴—was formed from Harrisburgh, April 3, 1807. It lies w. of Black River, on the n. border of the co. Its surface descends to Black River on the e. by a succession of irregular terraces. Deer River flows through the town, and upon its course are several falls, affording an abundant water power. The High Falls, one mi. below Copenhagen, descend 160 feet, at an angle of about 80°, and are celebrated for their picturesque beauty. Kings Fall, 2 mi. below, has a descent of about 40 feet. The e. part of the town is covered with deep deposits of drift. Near the mouth of Deer River are extensive flats; and Black River is bordered by a cedar swamp. The soil is very fertile. **Copenhagen**,⁵ (p. v.) on Deer River, in the w. part, contains 3 churches and several manufactories.⁶ Pop. 505. **Denmark**, (p. v.) in the s. part, contains about 50 houses; and **Deer River**, (p. v.) on the river of the same name, 2 mi. from its mouth, 35.⁷ The first settlement was made in 1800, by Jesse Blodget.⁸ The census reports 6 churches in town.⁹

DIANA—was formed from Watson, April 16, 1830, and a part of Croghan was taken off in 1841. This is the extreme n. e. town in the co. Its surface is level, or gently rolling. In the e. part are 2 isolated hills, 300 to 500 feet above the surrounding surface. The principal streams are Oswegatchie and Indian Rivers and their branches. Bonaparte¹⁰ and Indian Lakes, in the n. part, and Cranberry, Legiers, and Sweets Lakes, in the e., are the principal bodies of water. The greater part of this town is yet a wilderness. The soil is light and sandy. Iron ore is found in the n. and e. parts, and coarse, crystalline marble, of a sky-blue tint, on the banks of Indian River, near Natural Bridge. **Sterlingbush**,¹¹ (p. v.) on Indian River, in the w. part, contains 15 houses; and **Harrlsville**, (Diana p. o.) on the Oswegatchie, in the n., 12. **Alpina**¹² is a hamlet on the outlet of Lake Bonaparte. There are 2 churches in town, (Bap. and M. E.) but no church edifice.

GREIG¹³—was formed from Watson, April 5, 1828, as "*Brantingham*." Its name was changed Feb. 20, 1832. It is the s. e. corner town of the co. Its surface is rolling in the w., but it is broken, rocky, and in some places hilly, in the e. The principal streams, all tributaries of Black River, are Moose River, Otter, Stony, and Fish Creeks, and Cole and Fall Brooks. The scenery

¹ Named in honor of Col. Geo. Croghan. It is locally pronounced "Cro'gan"; its proper pronunciation is "Crawn."

² Locally known as the "*Prussian Settlement*."

³ Evan. Assn. or Germ. Meth., Ref. Prot. D. M. E., and 2 R. C.

⁴ This town embraces Township No. 5, or Mautau, of the Eleven Towns.

⁵ Originally called "*Mungers Mills*," from Nathan Munger, one of the early settlers.

⁶ About 1830 the manufacture of cordage was commenced here on an extensive scale; but it has recently been abandoned.

⁷ This is the only town in the county which was settled by

Crary, Robert Howe, Asa Pierce, Ichabod Parsons, Lewis Graves, Jonathan Barker, J. Rich, and Andrew Mills.

⁸ Bap., organized in 1810, Cong., M. E., Univ., and 2 Union.

⁹ Bonaparte Lake was so called in honor of Joseph Bonaparte, who built a log house upon its banks, for the accommodation of himself and friends while upon hunting and fishing excursions, during his stay at his summer residence at Natural Bridge.

¹⁰ Formerly called "*Louisburg*." It owes its origin to an iron furnace built here in 1833.

¹¹ An iron furnace was built here in 1847 by Suchard & Far-

along Moose River is celebrated for its wildness and beauty. The greater part of the town is yet a wilderness. In the e. part are several small lakes, which constitute some of the favorite resorts of fishermen. The soil is principally a light, sandy loam. Iron ore and ochre are found, and near Brantingham Lake is a sulphur spring. Lumber, leather, and paper are made, and on Otter Creek is an extensive match box factory. **Lyonsdale**,¹ on Moose River, 3 mi. from its mouth, and **Greig** and **Brantingham**, near Black River, are p. offices. In 1792 the French, under Rodolph Tillier, settled on the Chassaxis Tract, near Black River, below the High Falls.² The only church in town (Presb.) was formed in 1807.

HARRISBURGH³—was formed from Lowville, Champion, (Jefferson co.,) and Mexico, (Oswego co.,) Feb. 22, 1803. Denmark was taken off in 1807, and a part of Pinckney in 1808. It lies upon the slate hills and limestone terraces n. w. of the center of the co. Its general inclination is toward the n. e., its s. w. corner being 300 to 500 feet above Black River. Its surface is generally rolling, but in the s. w. it is moderately hilly. Deer River and its tributaries are the principal streams. The soil is generally a rich loam largely intermixed with disintegrated limestone and slate. **Harrisburgh**, in the n. e. part, and **South Harrisburgh**, in the s., are p. offices. Settlement commenced a short time previous to the War of 1812.⁴ The first religious services were conducted by Elder Amasa Dodge, a Free Will Baptist minister. There are 4 churches in town.⁵

HIGH MARKET⁶—was formed from West Turin, Nov. 11, 1852. It lies upon the elevated slate region w. of Black River, a little s. of the center of the co. Its general inclination is toward the s. e. Its surface is rolling in the s., but broken and moderately hilly in the n. and w. Its streams are Fish Creek and its branches, the principal of which are Big and Little Alder Creeks. The soil is a loam mixed with disintegrated slate, and is best adapted to pasturage. **High Market** (p. o.) is in the s. e. part of the town. Most of the town is still unsettled. Among the first settlers were Alfred Hodge, L. Fairchild, John Felshaw, Sol. Wells, and Benj. Martin.⁷ A large proportion of the people are of Irish nativity.⁸ There are no churches in town.

LEWIS⁹—was formed from West Turin and Leyden, Nov. 11, 1852. It lies upon the elevated plateau in the s. angle of the co. Its surface is generally rolling, but in the w. part it is broken and hilly. Its entire surface is 700 to 1200 feet above the valley of Black River. The principal streams are Fish Creek, the w. branch of the Mohawk, and the w. branch of Salmon River. Most of the town is yet an uninhabited wilderness. The soil is generally a sandy loam, moderately fertile and best adapted to grazing. Owing to the elevation of the town, spring is late, autumn early, and snows deep. **West Leyden**, (p. v.,) situated on the headwaters of the Mohawk, in the e. part of the town, contains about 20 houses. Settlement was commenced about 1800; but the present inhabitants of the town are mostly new comers, of German nativity.¹⁰ The first church (Presb.) was organized in 1826. There are now 4 churches in town.¹¹

LEYDEN¹²—was formed from Steuben, (Oneida co.,) March 10, 1797. Brownville (Jefferson co.) was taken off in 1802, Boonville (Oneida co.) in 1805, a part of Wilna (Jefferson co.) in 1819, Watson in 1821, and a part of Lewis in 1852. It lies on the w. bank of Black River, upon the s. border of the co. Its inclination is toward the e., the w. border being about 500 feet above the river. Its surface is undulating. Its principal streams are Sugar River and Moose Creek.¹³ The soil is a fertile loam mixed with disintegrated slate and limestone. **Port Leyden**, (p. v.,) on Black River, has a population of 192; **Talcottville**, (Leyden p. o.,) in the center of the town, of 50; and **Leyden Hill**, in the n. part, of 40. Settlement began in 1794,¹⁴ under the owners

¹ The first settlement was made in this place by Caleb Lyon, in 1819. He died in 1835, the year before his long cherished project of a State canal to the Black River was authorized by law. His son, Caleb Lyon of Lyonsdale, has at this place a Gothic villa, located in the midst of picturesque scenery and adorned with elegant collections of art.

² See page —.

³ Named from Richard Harrison, of N. Y., one of the early proprietors. The town embraces No. 10, or Platina, of the Eleven Towns. See page —.

⁴ Among the early settlers were John and Silas Bush, Amos Beck, Geo. Stoddard, and Thomas and Gilbert Merrills.

⁵ Bap., Free Will Bap., M. E., and R. C.

⁶ This town embraces Township No. 9, or Penelope, of the Bayston Tract, and parts of Nos. 2 and 3, or Flora and Lucratica, of Constable's Towns.

⁷ S. C. Thompson kept the first store and inn and built the first gristmill; and James McVickar erected the first sawmill. The first school was taught by Ada Hieby.

⁸ Named from the co.

⁹ Among the earliest settlers were John Barnes, Medad Dewey, Joel Jenks, Matthew Potter, C. and J. Putnam, and Augustus Kent.

¹⁰ Presb., Bap., M. E., and R. C.

¹¹ This town, with that part of Lewis which was set off from it, forms the tract known as "Inman's Triangle."

¹² Upon Sugar River is a beautiful cascade of about 60 feet fall in the space of 200 feet; and upon Black River, a little below Port Leyden, are a series of rapids, known as "The Narrows," where the banks are so contracted that a person can jump across the stream during the dry season.

¹³ Among the first settlers were Wm. Topping. — Butterfield, Brainard and David Miller, Hezekiah Talcott, Asa Lord, Wm. Bingham, Theo. Olmsted. — Adams, Allen Auger, J. Hinman, L. Hart, and Benj. Starr. The first birth was that of Jonathan Topping, in 1794; and the first death, that of Calvin Miller, March 22, 1797. The first mill in the co. was built at Port Leyden about 1800 by Charles Kelcey and —

of the Triangle. A Cong. church was formed at a very early period, by Rev. — Ely, and a Bap. church in 1798. There are now 6 churches in town.¹

LOWVILLE²—was formed from Mexico, (Oswego co.,) March 14, 1800, and a part of Harrisburgh was taken off in 1803. It lies upon the w. bank of Black River, a little n. of the center of the co. Its w. border is about 400 feet above the river. Its surface is gently rolling. A wide intervale, the n. part of which is swampy, extends along the course of the river. The soil is a deep, fertile loam intermixed with disintegrated limestone.³ A mineral spring is found near the n. border of the town. **Lowville**, (p. v.) incorp. under the act of 1847,⁴ is situated near the s. border of the town. It contains 5 churches, an academy,⁵ 2 printing offices, and a bank. Pop. 908. **West Lowville**, (p. o.) in the w. part of the town, **Stows Square**, (p. o.) 3 mi. n. of Lowville, and **Smiths Landing**, on Black River, are hamlets. Settlement was commenced about 1797, under Silas Stow, agent for N. Low, and the town was rapidly filled with immigrants from New England.⁶ The first church (M. E.) was founded in 1804. There are now 6 churches in town.⁷

MARTINSBURGH⁸—was formed from Turin, Feb. 22, 1803, and a part of Turin was annexed in 1823. It lies upon the w. bank of Black River, near the center of the co. It has an easterly inclination, its w. border being nearly 1000 feet above the river valley. Its surface is rolling, with a wide, level intervale bordering upon the river. The principal streams are Martins and Whetstone Creeks.⁹ The soil is a deep, fertile loam, except along the river, where it is sandy. Near the head of Whetstone Gulf is a sulphur spring. **Martinsburgh** (p. v.) is situated on Martins Creek, near the center of the town. It contains the co. buildings, 3 churches, and a newspaper office. Pop. 210. **West Martinsburgh**, (p. v.) in the n. part of the town, has a pop. of 164. **Glensdale**, (p. o.) in the s. e. part, is a hamlet of about 12 dwellings. Settlement was begun by Gen. Walter Martin, at Martinsburgh, in 1801.¹⁰ The first church (Presb.) was organized in 1804, by Rev. — Norton. There are 7 churches in town.¹¹

MONTAGUE¹² (Mon-ta-gu')—was formed from West Turin, Nov. 14, 1850. It lies near the center of the w. border of the co. Its inclination is toward the n. w., and its elevation is 1200 to 1600 ft. above tide. Its surface is generally rolling, but in some places it is broken and hilly. It is watered by numerous small streams, flowing into Deer River. The n. branch of Salmon River flows through the s. w. corner. Upon lot 22, in the n. w. part, is a sulphur spring. The soil is a moderately fertile, sandy and gravelly loam. **Gardners Corners** (Montague p. o.) is in the n. part of the town. Settlement commenced in 1846, under the agency of Diadate Pease, agent of the Pierpont estate. There are 2 churches in town; M. E. and Bap.

NEW BREMEN—was formed from Watson and Croghan, March 31, 1848. It lies upon the e. bank of Black River, n. of the center of the co. Its surface is level in the w., but rolling, broken, and rocky in the e. It is watered by several tributaries of Black River, the largest of which is Beaver River, on the n. boundary. The e. part is sparsely settled. The soil is a light, sandy loam. **Dayansville**¹³ (New Bremen p. o.) is in the w. part of the town. Pop. 200. Settlement was commenced in 1798, by Samuel Illingsworth and some French families.¹⁴ In the w. part is a settlement of Germans, and in the n. one of French. There are 4 churches in town.¹⁵

OSCEOLA¹⁶—was formed from West Turin, Feb. 28, 1844. It lies upon the high region in

¹ 2 Cong., Bap., M. E., Calv. Meth., Univ.

² This town embraces No. 11 of the Eleven Towns. It was named from Nicholas Low, of N. Y., the first proprietor.

³ In the Trenton limestone are veins of the sulphurets of lead and iron, intermixed with calcite and fluor spar.

⁴ The charter was confirmed Feb. 27, 1858. In 1852-53 active efforts were made to secure the location of the co. seat in this village; and a fine brick building, now used as a town hall, was erected in anticipation of its removal.

⁵ The Lowville Academy has from the first maintained a high rank. Its 50th anniversary was celebrated July 22, 1858.

⁶ Among the early settlers were Jonathan Rogers, Ehud Stephens, Moses Waters, A. Wilcox, B. Hillman, Daniel Kelley, Isaac Perry, J. H. and S. Leonard, John Schull, Wm. Darrow, Jas. Bailey, John Bush, A. F. and J. Snell, David and Benj. Rice, and Ebenezer Hills. The first birth was that of Harriet Stephens. The first inn was kept by Capt. Rogers, and the first store by Fortunatus Eager. The first mill was built by D. Kelley.

⁷ 2 Bap., Cong., Friends, M. E., and Prot. E.

⁸ This town embraces Township No. 4, or Cornelia, of the Boylston Tract, and Porcia and a part of Lucretia, of Constable's Towns.

⁹ Martins Creek was formerly called "Roaring Brook." At Chimney Point, near the center of the town, this stream has worn a channel through the shale and Utica slate, for 2 mi., to the

depth of 200 to 250 feet. This remarkable chasm above the "Chimney" is tortuous, with precipitous sides, and in many places is so narrow that the stream occupies the entire space between the ledges. Whetstone Gulf, upon Whetstone Creek, in the s. part of the town, is a similar ravine.

¹⁰ Among the first settlers were Elijah Baldwin, Mrs. Richard Arthur and sons, Reuben Fitcher and sons, N. Cheney, Eli Rogers, Elud Stephens, Gains Alexander, Stephen Searls, Joseph Sheldon, Chillus Doty, A. Conkey, D. Ashley, S. Gowdy, C. and D. Shumway, and Orrin Moore. W. Martin built the first mill, and in 1807 a paper mill.

¹¹ 2 M. E., 2 Union, Bap., Presb., and Second Advent.

¹² This town embraces Township No. 3, or Shakspeare, of the Boylston Tract. It was named from the daughter of H. B. Pierpont, the proprietor.

¹³ This place was laid out in 1826, by Charles Dayan.

¹⁴ Several of the French company located at the head of Beaver River, where they designed to build a city. A sawmill was built, a half dozen houses were erected, and the place received the name of "Cartonville." Jacob Oberier and Rodolph Tillier were engaged in this project.

¹⁵ Bap., M. E., Evan. Luth., and R. C.

¹⁶ This town embraces Townships 13 and 8, or Enrabella and Hybla, of the Boylston Tract. It was named from the celebrated Seminole chief.

the s. w. corner of the co. Its general inclination is toward the s. w. Its surface is undulating, and the highest points are 1500 to 1600 ft. above tide. The streams are branches of Fish Creek and Salmon River. The soil is a moderately fertile, sandy loam. Nearly all the town is yet a wilderness. **Osceola** is a p. o. in the s. part. Settlement was commenced about 1838, by Seymour Green, agent for Pierrepont. There are 2 churches in town, M. E. and Ind.

PINCKNEY¹—was formed from Harrisburgh and "*Harrison*," (now Rodman, Jefferson co.,) Feb. 12, 1808. It lies upon the highlands in the n. w. corner of the co., and has an average elevation of 1300 ft. above tide. It forms the watershed between Deer River and Sandy Creek, the head branches of which constitute the principal streams. A series of swamps extend along the e. border. In the town are several mineral springs, one of which has acquired considerable local notoriety for its medicinal qualities. The soil is a light, slaty loam upon the hills, and a deep, black loam in the valleys. **Pinckney, New Boston, Barnes Corners, and Cronks Corners** are p. offices. Settlement was commenced in 1804, under Abel French, agent of Mr. Henderson.² The first church (Bap.) was formed in 1810. There are now 4 churches in town.³

TURIN—was formed from Mexico, (Oswego co.,) March 14, 1800. Martinsburgh was taken off in 1803, another portion was annexed to Martinsburgh in 1823, and West Turin was taken off in 1830. It lies upon the w. bank of Black River, s. of the center of the co. Its w. boundary is 800 to 1000 ft. above the river, giving to the town an easterly inclination. The surface is level, except near the w. border, where it ascends to the slate hills, and in the e., where it descends to the river intervals. The soil is generally a deep, fertile loam mixed with disintegrated slate and limestone. **Turin**, (p. v.,) situated in the s. part, contains 3 churches and several manufactories.⁴ Pop. 438. **Houseville**,⁵ (p. v.,) in the n. part, has a pop. of 90. The first settlement was made about 1798, by Nathaniel Shaler, of Middletown, agent of Wm. Constable and part owner, and the town was rapidly settled by immigrants from New England.⁶ The first church (Presb.) was organized Sept. 19, 1802, by Rev. John Taylor. There are 6 churches in town.

WATSON⁸—was formed from Leyden, March 30, 1821. "*Brantingham*" (new Greig) was taken off in 1828, Diana in 1830, a part of Croghan in 1841, and a part of New Bremen in 1848. It lies upon the e. bank of Black River, and extends from near the center of the co. to its e. border. Its surface is level or gently rolling in the w. part, but in the central and e. parts it is more hilly and broken. It is watered by Beaver River, Independence Creek, and several smaller branches of Black River. The central and e. parts are yet covered with unbroken forests; and a large tract upon the extreme e. border, constitutes a portion of the far famed "*John Brown's Tract*." In the recesses of these forests are numerous beautiful lakes that are scarcely known except to hunters. Chases Lake, on the s. border, is noted for its beautiful scenery and is much visited by tourists. The soil is light and sandy. **Watson**,⁹ (p. o.,) situated on Black River, in the w. part of the town, is a hamlet. The early settlers located along the river, and settlements were not made in the interior until about 1815.¹⁰ The first church (M. E.) was organized in 1820. There are 3 churches and 1 church edifice (M. E.) in town.¹¹

WEST TURIN—was formed from Turin, March 25, 1830. Osceola was taken off in 1844, Montague in 1850, and High Market and a part of Lewis in 1852. It lies upon the w. bank of Black River, s. of the center of the co. Its inclination is toward the e., its surface rising by successive terraces from the intervals of Black River to the hills 800 feet above. Its streams are Sugar River, which flows easterly through near the center of the town, and numerous smaller creeks and brooks. Lyons Falls, upon Black River, plunge over a ledge of gneiss rock 63 feet in height, at an angle of about 60°.¹² These falls form an excellent water power but little used.

¹ By the act organizing this town, Township No. 9, or Handel, of the Eleven Towns, was annexed to Lewis co. The town was named in honor of Charles C. Pinckney, a statesman of S. C.

² Among the early settlers were J. Penington, Phineas Woolworth, N. E. Moody, Stephen and James Hart, and Stephen Armstrong. French was succeeded in 1805 by Jesse Hopkins, and he by J. W. Bostwick, a few years after. Owing to its great elevation, the town is liable to deep snows, and, in consequence, its settlement was retarded until a recent date. Since the introduction of dairying, it has become an important town for the production of the staple products of the county,—butter and cheese.

³ Bap., M. E., Univ., and R. C. The only church edifice belongs to the M. E. society.

⁴ There are 3 cristmills upon Mill Creek, near Turin, and a woolen factory 1 mi. below the village.

⁵ Named from its founder, Eleazar Hoose.

⁶ Among the early settlers were Enoch Johnson, Zacheus and John Higby, Levi, Elijah, Justus, and Reuben Woolworth, Thos. Kilham, Ezra Clapp, C. Williston, Eleazar Hoose, Z. Bush, and W. and J. Shephard. The first birth was that of Cynthia Clapp; and the first marriage, that of Levi Collins and Mary Bush.

⁷ 3 M. E., 2 Presb., and O. S. Bap.

⁸ Named from James Watson, of N. Y., former proprietor.

⁹ Among the first settlers were Eliphalet Edmunds, Isaac and Jabez Puffer, Jonathan Bishop, David Dufry, Orren Bush, J. Beach, and R. Stone.

¹⁰ A bridge was built across the river near this place in 1828. It has recently been rebuilt at the joint expense of the State and town.

¹¹ Bap., Seventh Day Bap., and M. E.

¹² Formerly called "*High Falls*." The rock has been but slightly worn; but the iron which enters into its composition

The soil is a deep, fertile loam upon the river valley, and a slaty loam upon the w. hills. **Constableville**¹ (p. v.) is situated upon Sugar River, at the foot of the Slate Hills, near the center of the town. Pop. 472. **Collinsville**,² (p. v.) in the e. part of the town, contains 2 churches and a population of about 200. **Lyons Falls**,³ (p. o.) on Black River, is a hamlet. The first settlement was made at Constableville, in 1796, by Nathaniel Shaler.⁴ There are 9 churches in town.⁵

has gradually dissolved, and the precipitous banks at and below the falls are so colored by it that they seem to have been painted by art; hence they are called the "Pictured Rocks."

¹ Named from William Constable, son of the original proprietor.

² Named from Homer Collins.

³ Named from Lyman R. Lyon, proprietor of the adjoining lands in Greig.

⁴ Among the early settlers were John Ives, Levi Hough, II, Scranton, Willard Allen, Horatio G. Hough, Rockwell, and Jonathan Collins. Ex Bishop L. S. Ives is a son of Levi Ives, formerly of this town.

⁵ 3 Union, 3 R. C., 2 M. E., Prot. E.

RICHMOND COUNTY.

This county¹ was organized Nov. 1, 1683. It includes Staten Island,² Shooters Island,³ and the islands of the meadow in Staten Island Sound. It is separated from Long Island by New York Bay, the Narrows,⁴ and New York Harbor; from Bergen, N. J., by the Kil Van Kull; and from N. J. on the w. by the Arthur Kill, or Staten Island Sound.⁵ Staten Island is nearly oval-shaped, its longest diameter extending n. e. and s. w. It is 14 mi. long by 8 broad, has an area of — sq. mi., and is centrally distant — mi. from Albany. Princess Bay and Great Kils are small bays upon the s. shore. Fresh Kils is a tidal estuary extending about 3 mi. inland from Staten Island Sound, and during high tide it is navigable nearly its whole extent. The surface of the co. is mostly level or gently undulating. A broad range of hills extends from the Narrows across the island, terminating between the branches of the Fresh Kils. Near Tompkinsville these hills attain an elevation of 310 ft. They are composed of granitic rock upon the n. slope and steatitic rock and serpentine upon the s. Hematitic iron ore⁶ and many other interesting minerals are found in the co.⁷ Along the Fresh Kils, and along Staten Island Sound, in Northfield, and also around the head of Great Kils and the mouth of New Creek, are extensive salt meadows. The waters of the sound and the bays adjacent to the island abound in oysters; and the oyster trade is the principal industrial pursuit of those inhabitants not engaged in business in New York, Brooklyn, or Jersey City. The right of taking oysters belongs to the owners of the adjoining banks.⁸ At Port Richmond, Factoryville, and other places along the n. shore, are extensive manufactories.⁹ Market gardening is followed to a limited extent, chiefly to supply the home demand. The erection of forts, hospitals, and other public establishments of the General and State Governments has given employment to great numbers of persons and caused the expenditure among the people of the co. of large sums of money. Since the establishment of regular steam ferries,¹⁰ many wealthy citizens engaged in business in New York City have erected residences upon the island. These country seats are mostly upon the n. shore and upon the heights that overlook the bay and sound. All the villages along the n. shore are lighted by gas furnished by the Richmond Gas Light Works, located near the Quarantine. A company was incorp. in 1836 to build a r. r. across the island to connect with the Camden & Amboy R. R.¹¹

The co. seat is located at Richmond.¹² A courthouse and jail, in the same building, was erected pursuant to the act of March 23, 1837, at a cost of \$10,000.¹³ The co. clerk's office was erected in

¹ Named from a natural son of Charles II.

² Staten Island was so named by Hudson. The Indian name is "Mataucke," "Monackong," or "Aquelonga Manackong."—*Coll. N. J. Hist. Soc.*, l. 17; *N. Y. Common Council Manual*, 1857, p. 545.

³ A small island at the entrance of Newark Bay.

⁴ The width of the Narrows opposite Fort Hamilton, where they are the narrowest, is about 2600 yds., and opposite the Quarantine it is 3700 yds.

⁵ The average breadth of Staten Island Sound is about one-third of a mile. It is not usually closed by ice, although in severe winters it has been frozen many weeks together. It is the ordinary route of steamers of the Camden & Amboy R. R. Co.

⁶ This ore has a fibrous texture, and is found in botryoidal forms, often with black polished surfaces, and in the granular condition it is known as "shot ore." It is said to be abundant. A heavy gray ore is also found. These ores have never been smelted on the island.

⁷ The minerals of the co., beside iron ore, are red and yellow ochre, asbestos, amianthus, marbleite, hydrate and carbonate of magnesia, sulphuret and chromate of iron, quartz, chalcedony, feldspar, and lignite.

⁸ This right is often leased. The average annual rent is 75 cts. per ft., measured along the shore. By an act passed May 9, 1846, the taking of oysters from the planted grounds of another is prohibited, under a penalty of \$50 for each offense.

⁹ The principal articles manufactured are dyed stuffs, and prints, common fire brick, adamantine candles, white lead, and ivory black. A large amount of lager beer is made in Castleton and Southfield, and the island has of late become a Sabbath day resort of the German population of N. Y. City, thousands of whom repair every Sunday to the saloons and gardens attached to the breweries.

¹⁰ The boats of the Staten Island & New York Ferry Co. ply hourly between Whitehall St., in New York, and the island, touching at Port Richmond, Factoryville, New Brighton, Quarantine, Stapleton, and Vanderbilts Landing. This company was organized Oct. 26, 1853, with a capital of \$300,000, and now has 7 boats in constant use.

¹¹ This enterprise was recently revived, and a route surveyed running s. of the hills from Vanderbilts Landing to a point opposite S. Amboy. About \$40,000 were expended in purchasing the right of way and grading; but the work is at present suspended.

¹² The first record of an order for the erection of a prison is dated March 4, 1710. It runs as follows:—"Ordered that Mr. Lambert (Carison) and Mr. Wm. Tillyer see the prison house built at Cuckolds Towce. Ye Dimensions Twelve foot in breadth, fourteen foot long, two story high, six foot ye Low Room from beam to plank, and the upper story, 6 foot; and all to be built with stone." This building was inadequate to the requirements of the co., and a larger one (of brick) was afterward built. The latter building is still standing, and was used as a co. prison until 1837. The first colonial Court of Sessions on Staten Island was held Oct. 4, 1680. The first court after the Revolution convened May 3, 1784; and the first court of Oyer and Terminer under the State Government was held May 22, 1787, Richard Morris, Chief Justice, presiding. The first co. officers under the State Government were David Mersereau, *First Judge*; Cornelius Mersereau, Hendrick Garrison, Peter Rezeau, Anthony Fountain, John Wandle, Gilbert Jackson, and Lambert Merrill, *Judges and Justices*; Abram Bancker, *Sheriff*; John Mersereau, *Clerk*; and Adrian Bancker, *Surrogate*.

¹³ The commissioners under whose supervision this building was erected were Richard D. Little, Harman B. Croysey, and Walter Betts. The jail is reported as without ventilation or means for the classification of prisoners.

1848 and enlarged in 1857. It is a 2 story brick building, and contains the supervisor's room, office for the surrogate and district attorney, and accommodations for the sheriff. The poorhouse is located upon a farm of 105 acres in Northfield.¹ Several of the public schools of Castleton and Southfield have been organized as union schools under a special act, and are in charge of a board of education. The schools of the co. generally are in a flourishing condition.² Richmond co. is within the jurisdiction of the Metropolitan Police Commissioners; but no men have hitherto been detailed for ordinary service within its limits.

Two newspapers are published in the co.³

Staten Island was visited by Henry Hudson in his celebrated voyage of discovery in 1609. It was purchased from the Indians, Aug. 10, 1630, by Michael Pauw, one of the 4 Patroons of New Netherlands, and formed a part of the tract known as "*Pavonia*" in the early Dutch records.⁴ It soon reverted, however, to the West India Co.; and in 1636 a part of the island was granted to D. P. De Vries, by whom a colony was planted upon it in Jan. 1639. The remaining part of the island was granted by the Directors of the West India Co. to Cornelius Melyn in July, 1640. The following year, Melyn with his family settled upon this grant, and in June, 1642, he obtained letters patent. In Sept. 1641, the settlement of De Vries was attacked by the Indians,⁵ and hostilities between them and the whites ensued. A peace was concluded in 1642; but in Feb. 1643, under a frivolous pretext, the Indians were attacked opposite Manhattan and at Corlaers Hook and great numbers of them slain. This barbarous measure invoked retaliation, and the white settlements within reach were laid waste. The island was again purchased of the natives, Dec. 6, 1651, by Augustine Herman, and finally quitclaimed to Gov. Lovelace, April 13, 1670.⁶ Possession was given on the 1st of May following, and at this time the island was finally abandoned by its primitive inhabitants.

A considerable number of French Huguenots, after the revocation of the Edict of Nantes in 1685, found their way into the English colonies, and a part of them settled upon Staten Island. The family names of these immigrants are still common in this co.⁷ The earliest grants upon the island under the English were made to the officers of the ship *Elias*, immediately after the conquest.⁸ Two manors were subsequently granted,—one on the n. shore, styled "*Castleton Manor*," to Gov. Dongan,⁹ and the other in the s. part, known as "*Billog Manor*." This island was first occupied by British troops in the Revolution, July 4, 1776, and it was held by them until their final removal from the State late in 1783. On the 21st of Aug. 1777, the British posts upon the island were attacked by an American force under Gen. Sullivan. The expedition was well planned, but it failed to accomplish its main object.¹⁰ During the severe winter of 1779-80, while the Americans were encamped near Morristown, (N. J.,) a second expedition was sent out, under Gen. Lord Sterling, to surprise the enemy in the interior of the island. The party, consisting of 2500 men, crossed the sound on the ice from Deharts Point, on the Jersey shore, on the morning of the 15th of Jan.; but the movement was observed in time to prepare for defense. Contrary to expectation, the passage to New York was found to be free from ice, and during the day the British were reinforced from the city. Two or three were killed on each side, and a few prisoners were taken by the Americans. While the party remained, some persons from the mainland passed over and plundered several of the inhabitants; but a strict search was made and the stolen property was recovered and restored to its owners.¹¹ On the 11th of

¹ The county house consists of 2 stone buildings, each 2 stories high. The Senate Com., in their report of 1857, say that it is "without ventilation and without any provisions for bathing; and a general survey of the house, with its fixtures, as you approach it, is entirely in harmony with its name." The average number of inmates is 80, who are supported at a weekly cost of \$1 each. The farm yields an annual revenue of \$3000.

² In 1817, efforts were made by Gov. Tompkins and other residents to establish a college upon the island. A provisional charter was obtained from the regents, under the name of "*Washington College*," and a subscription of \$10,000 for a site and \$5,000 for a library was secured. The effort failed; and it was afterward proposed to unite the institution with Columbia College,—but without success. An act was passed, April 18, 1838, incorporating "*Richmond College*" upon condition that \$80,000 be raised within 2 years; but the effort failed.

³ The *Richmond Republican* was established at Tompkinsville in 1828 by C. N. Baldwin, and continued 2 years. The *Richmond Co. Free Press* was started at Richmond in 1833 by Wm. Hagador, and continued 3 years.

The *Staten Islander* was established at Stapleton, as a weekly journal, in 1840, by F. L. Hagador, and is now published semi-weekly.

The *Deutsche Staten Islander* was commenced in 1855 at Stapleton by August Fries, but has since been discontinued.

The *Staten Island Chronicle* was started at Tompkinsville in 1858, and is still published.

⁴ *Coll. N. J. Hist. Soc., I. 17; Dunlap's Hist. N. Y., I., 48.*

⁵ *N. Y. Hist. Coll., I. 263.*

⁶ *N. Y. Com. Council Manual, 1857, p. 544.*

⁷ Among these are Guion, Mersereau, Dissoaway, Ryeress, Michean, Fontaine, Rezeau, Seguire, Crocheron, La Tourrette, &c.

⁸ Oct. 4-10, 1684, to Capt. Wm. Hill, 500 acres; Lt. Humphrey Fox, 300; Jas. Coleman, 250; and 7 others, each 200.—*Patents, I. 6-9, Sec. Office*; Jacques Bandoven and Jacques Guion each received 200 acres at the same time.

⁹ The greater part of the lands to which existing titles are traced were granted under Dongan's administration. The descendants of Gov. Dongan were living upon the original estate until the close of the last century. Between 30 and 40 grants of land from the colonial governors are upon record in the co. clerk's office.

¹⁰ About 150 British prisoners were taken. The Americans lost 13 killed and 136 in prisoners, and the whole party ran a narrow risk of capture. Gen. Sullivan's conduct was subjected to a court of inquiry by order of Congress; but he was acquitted. A particular account of this affair is given in *Marshall's Life of Washington*, II. 135. See also *Sparks's Life and Writings of Washington*, V. 47, and *Peabody's Life of Sullivan*, 65.

¹¹ *Coll. N. J. Hist. Soc., II. 206; Sparks's Life and Writings of Washington*, VI. 441-448.

Sept. 1776, a conference between Lord Wm. Howe and a committee of Congress consisting of Dr. Franklin, J. Adams, and E. Rutledge was held at the house of Capt. Billop, opposite Perth Amboy.¹ No events of special interest occurred upon the island during the late war with Great Britain. A brigade of militia, consisting of 2000 men, was stationed here, and remained in camp from Aug. to Dec. 1814. During the troubles that preceded the War of 1812, the Legislature of New York memorialized Congress for the erection of defensive works around the harbor of New York, claiming protection against the arms of a foreign power as no more than an equitable return for the revenues which the State had surrendered to the General Government upon the adoption of the Constitution.² Failing in this, the governor was directed to purchase a tract, not to exceed 25 acres, at the Narrows;³ and upon this tract fortifications were afterward erected. The amount of the appropriation made by the State for the defenses upon Staten Island previous to 1820 was \$154,105 46. These works were purchased by the General Government, pursuant to an act of Congress passed Aug. 3, 1846,⁴ and they are now being rebuilt at an immense cost. When these and the other contemplated works along the approaches to New York Harbor are completed, the city will be among the best fortified in the world.⁵ A quarantine was established by the State, under an act passed Feb. 25, 1799, upon the n. extremity of the island, in the town of Castleton, and maintained until it was destroyed, on the evenings of Sept. 1 and 2, 1858, by an armed mob encouraged and led by prominent citizens.⁶

CASTLETON—was first recognized as a town March 7, 1788. It lies in the n. part of the island, and is the smallest but most populous and wealthy town in the co. The surface is mostly hilly. The people are principally engaged in manufacturing. **Factoryville** (North Shore p. o.) is a populous village in the n. w. part of the town, containing extensive dye and print works⁷ and other manufactories. **Elliottsville**⁸ is a hamlet. A little e. of this place is the

¹ This conference terminated without any practical results. The old stone house in which it was held is still standing.—*Journal Cong.*, Sept. 6-17, 1776; *Spark's Washington*, I. 198.

² *Journal of Senate and Assembly*, March 27, 1807.

³ Act of Feb. 3, 1810. The erections were chiefly made in 1814.

⁴ These defenses consisted of Fort Richmond, a water battery near the water's edge; Fort Tompkins, a heavy fortress on the heights above, and Batteries Hudson and Morton. The last was named from Gen. Jacob Morton, of the N. Y. Artillery. In 1811, the removal of the U. S. Military Academy to this island was proposed, and the governor was empowered to convey to the General Government the jurisdiction of so much territory as might be necessary for this purpose. No further steps toward its removal have been taken.

⁵ Additional land was bought in 1857 near Fort Tompkins, and this work is now about to be replaced by one of great strength, at an estimated cost of over \$500,000. The aggregate sum of the appropriations made by the General Government for these works has been as follows: for Fort Richmond, \$375,000; for Fort Tompkins, \$192,300; for Batteries Hudson and Morton, \$10,000. A new fort is to be erected upon Sandy Hook, (N. J.) which it is estimated will cost \$1,500,000, \$250,000 of which has been appropriated. For an account of Fort Hamilton and the fortification of the inner harbor, see page ——. The recent defensive works and those now in progress were chiefly ordered upon the advice of Gen. Totten.

⁶ In 1758 an act was passed to prevent the spread of infectious diseases, and a law of similar import was enacted May 4, 1784. By the act of May 4, 1794, Governors Island was assigned as a quarantine; and in March, 1797, a lazaretto was directed to be built upon Bedloes Island. The awful visitation of yellow fever in 1798 led to the passage of an act (Feb. 25, 1799) for the purchase of 30 acres upon Staten Island for a permanent quarantine. Of this lot 5 acres were sold, and ceded (April 1, 1800) to the U. S. for warehouses. The first buildings erected were of materials taken from the Lazaretto on Bedloes Island. In 1819 a long brick building was erected; in 1823, a fever hospital; in 1828-29, a smallpox hospital; and subsequently other buildings as the wants of the institution required. As the surrounding country became thickly settled, the same difficulty arose that led to the removal of quarantine from the vicinity of New York, and for many years an earnest desire had existed among the citizens of this island for its removal. Memorials for this object were met by remonstrances from the importers, and nothing was accomplished. In 1856 the yellow fever appeared, and 769 cases occurred, of which 538 were on Staten Island, between New Brighton and Clifton, 138 in Fort Hamilton and Bay Ridge, 64 on Governors Island, and 29 in Brooklyn. Of those upon Staten Island one-third were fatal. This alarming event convinced the public that new safeguards were necessary, and the citizens of this co. renewed their demand for the removal of the quarantine. An act for the removal of the "*Quarantine Station*" was passed, March 6, 1857, under which George Hall, Egbert Benson, and Obadiah Bowne were appointed commissioners to purchase a

new site and erect the necessary buildings. The sum of \$150,000 was fixed as the limit of expenditure under this act. After ineffectual efforts to obtain a site on Sandy Hook, the committee purchased a farm of 50 acres, late the property of Joel Wolfe, situated at Seguines Point, in Westfield. The sum paid was \$23,000, and the land had upon it farm buildings valued at \$15,000. The site was approved, and the purchase completed, May 1, 1857. On the night of the 5th of May all the buildings were burned to the ground by a mob of some 40 persons without disguise. Temporary buildings were erected on the site in June. An attack was made on the 12th of July by a few armed persons, and several shots were fired. The new buildings, consisting of two hospitals and a cook and wash house, were burned on the evening of April 26, 1858, and no effort was made to rebuild them, or to bring the incendiaries to justice. The hostility against the old establishment continued unabated, and gained confidence from the approval of many of the leading citizens, some of whom declared their willingness to unite openly, by daylight and without disguise, to destroy the premises that they deemed an insupportable nuisance. In the summer of 1856 a barricade had been erected, by order of the Board of Health of Castleton, to prevent communication with the premises. This was taken down by a party of men from the city under the direction of the Health Office. The occurrence of a few cases of yellow fever outside the walls in Aug. 1858, led to the passage of a series of resolutions by the town Board of Health, declaring the whole quarantine establishment a nuisance too intolerable to be borne any longer, and recommending the citizens of the co. to protect themselves by abating it without delay. Copies of these resolutions were posted up in the village on the 1st of Sept., and on the evening of the same day the walls were broken down and the gates burst open by a mob, the sick carried out upon their mattresses, the family of the resident physician hurried from their dwelling, and every building except the women's hospital was burned. On the following evening the mob completed the ruin by destroying the last building upon the premises. The U. S. stores were saved by a party of marines stationed for the purpose. On the 7th the governor issued a proclamation declaring the co. in a state of insurrection. Temporary quarantine accommodations were soon after erected under the protection of a detachment of the State militia, who were detained in this duty till the close of the year. The expenses attending this service were assumed and paid by Governor King, and reimbursed by a special appropriation soon after. The necessity for a permanent removal of quarantine from Staten Island has been conceded by most persons who have given the subject an investigation; and the practicability of constructing an artificial island upon one of the shoals in the lower bay has been certified by competent engineers. The governor, in his message of 1859, recommended the appointment of a new commission to investigate this difficult but highly important subject and report to the legislature.

⁷ The N. Y. Dyeing and Printing Works were established in 1819. They employ from 200 to 250 persons.

⁸ Named from Dr. Samuel M. Elliott, oculist.

Sailors' Snug Harbor, an institution established for the support of aged and infirm mariners.¹ An institution for the support and education of the destitute children of seamen is situated near the Sailors' Snug Harbor.² **New Brighton** (p. v.) contains 5 churches, several manufactories,³ 2 large family boarding houses, and the residences of many persons doing business in New York City. **Tompkinsville**⁴ (p. v.) contains 4 churches and a number of manufactories. In this village are numerous suburban residences; and near by is the Quarantine. **Center-ville** is a hamlet. The census reports 7 churches in town.⁵

NORTHFIELD—was formed March 7, 1788. It is situated in the n. w. part of the co., and includes several small islands in Staten Island Sound and Newark Bay. Its surface is level in the northern and central parts and hilly in the southern. Fresh Kils form the boundary between this town and Westfield. The soil is a clayey loam, under excellent cultivation. Along the w. and s. borders are extensive salt marshes. The town is very thickly settled along the shore of Newark Bay and the Kil Van Kull. **Port Richmond**, (p. v.) in the n. e. part of the town, is a large manufacturing village,⁶ with convenient docks for shipping. Pop. 1,429. **Graniteville**, adjacent to Port Richmond, is a small settlement, with a pop. of 481. Granite was formerly extensively quarried at this place.⁷ **Mariners Harbor** is a thickly settled street along the shore of Newark Bay. Pop. 1,142. **Old Place** and **New Springville** (p. o.) are hamlets. **Chelsea** is a small village nearly opposite the mouth of Rahway River. **Southfield** and **Hollins Hook** are hamlets, and **Long Neck** is a p. o. near Fresh Kil. A part of **Richmond** and of **Egbertsville**⁸ are in this town. St. Andrews Church, (Prot. E.,) at Richmond, is the oldest on the island, and under the colonial Government it was supported by a co. tax.⁹ The census reports 11 churches in town.¹⁰

SOUTHFIELD—was formed March 7, 1788. It is a long, narrow town extending along New York Bay. Great Kil is a bay in the s. part.¹¹ Its surface is level or gently undulating, terminating in bluffs upon the e. shore. In the s. part are several small streams bordered by salt meadows. **Stapleton** (p. v.) is a scattered village in the n. part of the town. It contains 4 churches. The Seamen's Retreat¹² and the Mariners' Family Asylum¹³ are located here. **Clifton** contains 2 churches and many beautiful residences. **Richmond** (p. v.) is situated

¹ This establishment was founded by Robert Richard Randall, of New York. By the provisions of his will, dated June 1, 1801, several annuities and legacies were to be paid, and the residue of his estate conveyed in trust to the State Chancellor, the Mayor and Recorder of New York, the senior minister of the Episcopal and of the Presbyterian churches of the city, the President of the Chamber of Commerce and the President and Vice-President of the Marine Society, and their successors, for the support of aged and infirm sailors. The trustees were incorp. Feb. 6, 1806. The property thus bequeathed lay near Union Square, in New York, and a protracted and expensive lawsuit prevented the trustees from fully executing the intentions of the benefactor until many years after his death. This suit was decided in the U. S. Supreme Court, in Feb. 1830, in favor of the trustees. It was allowed to accumulate until 1830, when the present site (embracing 163 acres) was purchased, and preparations were made for the erection of the necessary buildings. The cornerstone of the edifice was laid Oct. 21, 1831. The buildings consist of a main edifice with two wings, a hospital, (erected in 1853,) a commodious dining and lodging hall, (erected in 1855,) a chapel, (erected in 1856,) the governor, physician, chaplain, and steward's dwellings, a laundry, a gardener's house, and other buildings. The remains of the founder of the institution were interred beneath a monument in front of the main building, Aug. 31, 1834. The officers of the establishment consist of a president, secretary, governor, treasurer, chaplain, physician, assistant governor, steward, and agent, chosen annually by the trustees. Capt. John Whetten was the first governor, and since 1845 Capt. De Peyster has held that office. The total number of inmates received since 1845 has been 477; the present number (Aug. 1858) is 380. Among the inmates the average number of deaths is 25 per annum. The annual income of the institution is \$75,000.

² *The Society for the Relief of Destitute Children of Seamen* was formed in 1846 and incorp. 1851. An annual payment of \$2 constitutes a member, and a single payment of \$25, a life member. It is managed and chiefly supported by ladies. The yearly expenditures are about \$7,000.

³ A silk handkerchief printing establishment, started here in 1842, gives employment to about 150 persons.

⁴ Named from Gov. Daniel D. Tompkins, who resided here from 1814 till his death in 1825.

⁵ 2 Prot. E., Bap., Moravian, Ref. Prot. D., R. C., and Unit.

⁶ The Damascus Steel Co. employs 50 to 60 hands in the manufacture of iron from the ore, and of steel from iron. At this place are several large brickkilns. The Northfield Brick Co. employ about 30 hands, and the Richmond Co. about 45. White lead is also manufactured to some extent.

⁷ The granite obtained at this place is very tough, and consists of hornblende and feldspar intimately blended. It was quarried by the Brick and Granite Co., (organized in May, 1848,) and was largely used in making the fluss pavement of New York City. A n. e. has been built from the quarry to the dock,—a distance of 1 mi.

⁸ Named from Jas. Egherts, a former resident.

⁹ Elias Duxbury, by will in 1768, devised a certain plantation as a glebe to this church. By the act of Feb. 18, 1814, the trustees were authorized to sell this, and the proceeds were invested for the benefit of the church. A large amount of valuable real estate adjoining the Quarantine Ferry is owned by this society, and is leased for a term of 50 years.

¹⁰ 3 Bap., 2 M. E., Evang. Luth., Cong., Meth., Prot. E., Ref. Prot. D., and R. C.

¹¹ The waters of the bay s. of this town were selected for the anchorage of infected vessels by the commissioners for the removal of the quarantine, June 9, 1857.

¹² In March, 1801, a tax was imposed upon seamen and passengers entering the port of New York, the proceeds of which were applied to the Quarantine Hospital. But the injustice of devoting a revenue derived from the hard earnings of seamen to objects having no connection with their interests or support led to the passage of a law in 1831, by which this tax was directed to be paid to the Board of Trustees of the Seamen's Fund and Retreat in the city of New York. A surplus that had been paid into the State treasury, amounting to \$12,197 68, was also placed in the hands of the trustees. A tract of 40 acres was bought for \$10,000, temporary buildings were erected, and, on the 1st of Oct. 1831, 47 patients were admitted. The cornerstone of the present structure was laid July 4, 1835, and the building was finished in 1837. It is built of hammered stone, is 3 stories high, and will accommodate 200 inmates. An insane hospital, nurseries for the superintendence and physicians, and other buildings, have been erected. The cost of the main building was \$90,000, of the insane hospital \$6,000, and the total cost has been \$115,000. Up to Jan. 1, 1854, 16,764 patients had been received, of whom 680 had died. By an act passed April 7, 1854, the mayor and health officer of New York, the presidents of the Seamen's Savings Bank and the Marine Society, and 7 other persons, (4 of whom must be masters of vessels, appointed by the governor and Senate,) were constituted trustees of the establishment. The trustees must be residents of New York, Kings, Queens, or Richmond Cos.

¹³ By an act passed in 1847, the trustees of the Seamen's Retreat were directed to provide for the support of destitute sick or infirm mothers, wives, sisters, daughters, and widows of seamen, and \$10,000 was applied for the erection of suitable build-

on a creek tributary to the Fresh Kils, on the line of Northfield. It is the co. seat, and contains the co. buildings, 1 church and about 50 houses. **Bay View** is a p. o., and **New Drop** a hamlet. The census reports 5 churches in town.¹

WESTFIELD—was formed March 7, 1788. It occupies the s. w. extremity of the island, and is the largest town in the co. Its surface is generally level or gently undulating. Princess Bay is an indentation upon the s. coast, to the e. of which is Seguines Point.² Fresh Kils forms the boundary between this town and Northfield. Material for fire brick is found in abundance near Staten Island Sound, and considerable quantities of it have been taken to New York for manufacture. Upon the coast, near the w. extremity of Princess Bay, is a lighthouse.³ The people of this town are principally engaged in fishing and taking oysters. A limited amount of manufactures is carried on.⁴ **Tottenville**⁵ (Bentley p. o.) is situated on Staten Island Sound, opposite Perth Amboy. Pop. 600. **Rossville**⁶ (p. v.) has a population of 300. The inhabitants are chiefly engaged, directly or indirectly, in the oyster trade. **Lemon Creek** (p. o.) is a hamlet, known as "*Pleasant Plains*," and **Marshland** is a p. o. **Blooming View**⁷ and **Woodrow** are small villages. **Richmond Valley** (p. o.) is a hamlet, and **Southside** a p. o. The census reports 7 churches in town.⁸

ings. An association of ladies, styled "*The Mariners' Family Industrial Society*," was incorp. April 9, 1849, having for its object the relief of the destitute families of seamen. The building was completed in Dec. 1853, opened in May, 1855, and dedicated June 9 of the same year. By an act passed March 17, 1851, a board of trustees was created for its management: this board consists of certain *ex-officio* members and the Board of Counselors of the M. F. I. Soc. Ten per cent. of the receipts by the Trustees of the Seamen's Fund and Retreat was applied to this establishment by a law passed April 12, 1854.

¹ 2 Prot. E., 2 Ref. Prot. D., and 1 R. C.

² Pronounced Se-guine. This point was purchased by the State as a site for the quarantine. See page —.

³ Built in 1828.

⁴ The Staten Island Oil Co. was organized in July, 1853, and incorp. as the "*Staten Island Oil and Candle Co.*" in Feb. 1857; 39 to 40 hands are employed in the manufacture of adamantine candles and red oil from palm oil and animal fats. On the Fresh Kils is a manufactory of fire brick, and near Rossville a manufactory of bone black.

⁵ Named from the Totten family, the members of which are numerous in the locality.

⁶ Named from Wm. E. Ross.

⁷ A seminary, called the "*Huguenot Institute*," was formerly located at this place.

⁸ 2 M. E., Bap., Af. Meth., Prot. E., Ref. Prot. D., and R. C.

ONTARIO COUNTY.

This county was formed from Montgomery, Jan. 27, 1789. It was named from Lake Ontario, which originally formed its n. boundary. Steuben co. was taken off in 1796, Genesee in 1802, parts of Monroe and Livingston in 1821, and Yates and a part of Wayne in 1823. A strip was annexed from Montgomery co., w. of Seneca Lake, Feb. 16, 1791, and a small tract in the fork of Crooked Lake, from Steuben, Feb. 25, 1814. It is centrally distant — mi. from Albany, and contains an area of — sq. mi. It lies upon the extreme n. declivities of the central Alleghany Mt. Range, and has a northerly inclination, the summits of the s. hills being elevated about 1000 feet above the general level of the n. portions of the co. The s. portion, lying w. of Canandaigua Lake, is a

hilly and broken region, divided into ridges with steep declivities and summits 1500 to 1700 feet above tide. The ridges all have a general n. and s. direction, declining toward the n., and terminating in a beautifully rolling region, which embraces all of the co. e. of Canandaigua Lake, and that portion lying w. of the lake and n. of the n. line of Bristol. The ridges in this section gradually rise to a height of 20 to 250 feet above the valleys, and give to the land sufficient inclination for thorough drainage. A terrace with declivities 100 to 250 feet high, descending toward the n., extends through the n. portions of East and West Bloomfield and the s. part of Victor, at right angles to the general range of the ridges. The extreme n. parts of the co. are occupied by drift ridges similar to those in Wayne and Seneca cos.

The geological formation of this co. is nearly the same as that of the cos. lying e. of it in the same latitude. The lowest rocks, occupying the n. parts of Phelps, Manchester, Farmington, and Victor, belong to the Onondaga salt group. The gypsum of this group crops out along the banks of the streams, and is extensively quarried along the Canandaigua Outlet, in Phelps and Manchester, and upon Mud Creek, in Victor. The water limestone, next above, crops out in Phelps, Manchester, and Victor, and is quarried for waterlime and building stone. The Onondaga and corniferous limestones next appear, and are quarried for building stone in Phelps. The Marcellus and Hamilton shales occupy all the central portions of the co. s. of the foot of Canandaigua Lake; and next above them successively appear the Tully limestone, Genesee slate, and the Portage group, the last occupying South Bristol, Canadice, and Naples. This last group furnishes a sandstone used for flagging and building. Except in the extreme s. parts of the co., the underlying rocks have little influence upon the soil, as nearly the whole surface is covered deeply with drift deposits, consisting of sand, clay, and gravel, intermixed with the disintegrated limestone and gypsum evidently deposited by some great torrent that once swept across the co. in a s. direction. The rocks are seen at some points along the banks of the lakes and the courses of the streams. In Bristol are several springs of carburetted hydrogen gas emanating from the strata of Genesee slate.¹

The co. is drained by the Honeoye Outlet, a tributary of the Genesee River, and by the Canandaigua Outlet and Mud Creek, tributaries of the Clyde River. Honeoye Outlet receives as tributaries Egypt Brook and the outlets of Hemlock and Canadice Lakes;² Mud Creek receives Beaver, Fish, and Hog Hollow Creeks; and Canandaigua Outlet receives Fall and Flint Creeks. Besides these, Irondequoit Creek flows through the n. w. corner of the co. Keshong Creek and Burralls and Castle Brooks flow into Seneca Lake. Several of the beautiful lakes which form the most peculiar and interesting feature of the landscape for which Central New York is celebrated lie partly or wholly in this co. Seneca, forming a portion of the e. boundary, is described under Seneca co.³ Canandaigua Lake lies almost wholly within the limits of the co. The shores are beautifully sloping down to the very edge of the water, except near the head of the lake, where they rise in steep bluffs to a height of 300 to 800 feet. Its surface is 668 feet above tide.

¹ The principal of these gas springs are in Bristol Hollow, on both banks of Canandaigua Lake, within 3 mi. of the village, and in East Bloomfield and Richmond. A sulphur spring is found on the outlet of the lake, but the principal one is at Clifton.

² Hemlock Outlet, called by the Indians O-neh'da, signifying hemlock.

³ See p. —.

Honeoye,¹ Canadice,² and Hemlock Lakes are smaller bodies of water, and are each surrounded by bluffs and hills rising to a height of 500 to 700 feet above them.

The soil for the most part consists of clayey, sandy, and gravelly loam, formed from the drift deposits. In the valleys and the rolling region which extends through the central and n. parts of the co. the loam is very deep and rich, forming one of the finest agricultural regions in the State. Upon the hills in the s. part of the co. the soil is made up principally of disintegrated shale and slate, forming a fine, fertile grazing region. Upon the drift hills in the w. are some small sections covered with a deep, light sand, moderately productive.

The geographical and geological features of this co. render it eminently adapted to the various branches of agriculture; and few cos. in the State excel this in the progress of scientific improvement as applied to agricultural operations. Wheat was for many years the staple crop; but of late more attention has been given to the production of the coarser grains, to stock growing, and the cultivation of fruits. Wool growing has also received considerable attention, and the fine Merino sheep were introduced at an early period. The manufactures are mainly of a domestic character, such as pertain to agricultural districts.

The county seat is located at Canandaigua, at the foot of Canandaigua Lake. A courthouse, jail, and co. clerk's office were erected here in 1793, soon after the organization of the co.³ In 1825 a new courthouse was built; and in 1858 a splendid edifice was erected at the joint expense of the co. and of the U. S. Government, containing a U. S. and co. courtroom, jury and supervisors' rooms, U. S. district clerk's and co. clerk's offices, surrogate's office, and p. office. The building is of brick, with iron and tile floors, and is entirely fireproof. The poorhouse is located upon a farm of 212 acres in Hopewell, 4 mi. e. of Canandaigua. It is built of brick, and contains ample accommodations. The average number of inmates is 136, supported at a weekly cost of 57 cts. each. The farm yields a revenue of \$4,000. A school is taught during the whole year.⁴ The general management and sanitary arrangements of this establishment are creditable to the co.

The principal works of internal improvement in the co. are the Erie Canal, which enters the extreme n. e. corner of Manchester, the N. Y. C. R. R., extending through the n. and central portions of the co., the Canandaigua & Niagara Falls R. R., a branch of the Central, extending w. from Canandaigua and crossing the Central at Batavia, and the Canandaigua & Elmira R. R., extending s. e. and connecting with the N. Y. & E. R. R. at Elmira. Besides these, there are several lines of plank road in the co.; but most of these have been abandoned.

Seven newspapers were published in the co. in 1855.⁵

¹ Indian name Ha'ne-a-yeh, lying like a finger.

² Indian name Ska'ne-a-dice, long lake.

³ The first Circuit Court was held at the inn of Mr. Patterson, in Geneva, in June, 1793; and the first court of Common Pleas, at the house of Nathaniel Sanborn, in Canandaigua, in Nov. 1794. The first co. officers were Oliver Phelps, *First Judge*; Nathl. Gorham, *Co. Clerk*; John Cooper, *Surrogate*; and Judah Coit, *Sheriff*. The first justices of peace appointed in Western N. Y. were Asa Ransom and Wm. Rumsey, for Ontario co., in Dec. 1801. By an act passed April 3, 1798, deeds were required to be recorded in the clerk's office. This was many years before the general act for recording in clerks' offices.

⁴ This school is supported by the interest of a fund given by a private individual for this purpose. The schoolhouse is situated in a fine yard and is surrounded by trees.

⁵ The *Ontario Gazette* and *Genesee Advertiser*, the first paper in the present co. of Ontario, was started at Geneva, April, 1797, by Lucius Carey, and removed to Canandaigua in 1799.

The *Impartial American*, or *Seneca Museum*, was published at Geneva in 1800, by Ebenezer Eaton.

The *Expositor* was started at Geneva, Nov. 19, 1806, by James Bogert, who in 1809 changed it to

The Geneva Gazette, and continued it until Dec. 4, 1833. In 1827 it bore the title of *The Gazette and General Advertiser*. It was published by John Greves and J. C. Merrill until 1837; by J. Taylor Bradt until 1839; and by Stone & Frazer a short time longer, when it was discontinued. It was revived in Jan. 1845 by Ira and S. H. Parker. Geo. M. Horton was at one time interested in its publication, and it is now published by S. H. Parker.

The *Geneva Palladium* was commenced in 1816 by Young & Crosby, and was published successively by S. P. Hull, John T. Wilson, and — Connelly, until 1828, when it was discontinued.

The *Geneva Chronicle* was started in 1828 by — Jackson, and continued 2 years.

The *Independent American* was published by T. C. Strong in 1831.

The *Geneva American* was published by Franklin Cowdery in 1830.

The Geneva Courier was established by John C. Merrill in 1830, and continued until 1833. Its publication was continued by Snow & Williams, Ira Merrill, Howlett & Van Valkenburgh, Cleveland & Hook, and Winthrop Atwell, successively, until Oct. 1854, when it passed into the hands of William Johnson, its present publisher. A daily paper was issued from this office about 6 months in 1845-46.

The *Herald of Truth* (Univ.) was started in 1834, at Geneva, by Prescott & Chase, and continued until 1837, when it was removed to Rochester.

The *Geneva Democrat* was published during the campaign of 1840, by Stone & Frazer.

The *District School Journal*, mo., was started at Geneva in 1840 by Francis Dwight, and removed to Albany in 1841.

The *Geneva Advertiser and Mechanics' Advocate* was started in 1841 by S. Merrill & Co., semi-w., and continued 1 year.

The *Geneva Budget* was commenced in 1852, by Sprout & Tanner, and continued 2 years.

The *New York State Intelligence* was published in 1848.

The *Ontario Whig*, semi-w., was started at Geneva by Wm. C. Busted in 1850, and continued until 1852.

The *Geneva Independent and Freeman's Gazette* was established in 1851, by W. K. Fowle, and continued by him until 1855, and by H. G. Moore until June, 1857. Since then it has been published by W. K. Fowle as

The Geneva Ledger.

The Geneva Daily Union has been published since May 10, 1858, by W. K. Fowle.

The *Ontario Gazette and Genesee Advertiser* was brought from Geneva to Canandaigua in 1799, and published by Lucius Carey until 1802. John Keep Gould, who then became the publisher, changed its name to

The *Western Repository and Genesee Advertiser*; and in 1803 it was again changed to

The *Western Repository*. James D. Bemis became interested in its publication in 1804, and in 1808 he issued it as

The *Ontario Repository*, and continued it until 1828. It was published by Morse & Ward, Morse & Wilson, and Morse & Harvey, until 1835, and until 1840 by Chauncey Morse. The last name was succeeded by Geo. L. Whitman, who in Jan. 1856 sold it to H. G. Moore. The fol-

The territory lying within the limits of this co. was the chief seat of the Senecas, the most numerous and powerful tribe of the "Six Nations." Their chief village was at Kanadesaga, upon and just w. of the present site of Geneva, at the foot of Seneca Lake. In all the wars of the Iroquois League the Senecas bore a conspicuous part; and especially did they incur the bitter enmity of the French occupants of Canada. In 1687, De Nonville, Governor of "New France," at the head of 1,600 French soldiers and 400 Indian allies, invaded the Seneca country by way of the St. Lawrence and Lake Ontario. At a defile near the site of the present village of Victor an engagement ensued, resulting in the defeat of the Indians, though with great loss to the French. De Nonville marched forward, burned the village of Gannagaro and several others, and returned.¹ In the succeeding year the Senecas and their allies in turn invaded the French settlements in Canada and took bloody revenge.²

In the progress of the wars that ensued, the Six Nations were sometimes neutral and sometimes allies of the English; but the country of the Senecas was never afterward invaded by the French. During the Revolution the Senecas espoused the English cause; and in 1779 Gen. Sullivan invaded their country from the s., burned their villages, destroyed their corn and orchards, and left the most beautiful region in the Indian domains a desolate waste. At the conclusion of peace, the force and spirit of the Indians were annihilated, and they quietly yielded to the gradual encroachments of the whites, until the last acre of their hunting grounds within the limits of this co., and the very graves of their fathers, passed out of their possession.³

lowing month the office was burned and the paper suspended. In May following it was revived as

The National New Yorker and Ontario Repository, by H. G. Moore and Dr. B. F. Tift; and in May, 1837, it passed into the hands of Geo. E. Whitney & Son, by whom it is now published.

The Ontario Freeman was established at Canandaigua by Isaac Tiffany in 1803. In 1806 it passed into the hands of John A. Stevens, who changed its name to

The Ontario Messenger. It was successively published by Day & Morse, L. L. Morse, B. W. Jones, and T. B. Hohn. The latter was succeeded in Nov. 1845, by Jacob J. Mattison, the present publisher.

The Republican was started at Canandaigua by A. N. Phelps in 1824, and was afterward published a short time by T. M. Barnum.

The Ontario Phoenix was issued at Canandaigua in 1827 by W. W. Phelps. R. Royce became its publisher soon after, and changed its name to

The Freeman. In 1836 it was united with *The Repository*. *The Clay Club*, a campaign paper, was published at Canandaigua in 1844.

The Seminarian, a literary mo., was published at Canandaigua in 1851.

The Ontario Co. Times was established Jan. 1, 1852, by N. J. Milliken, and in 1855 sold to Wilson Miller, who changed it to

The Ontario Times. In Feb. 1856, the establishment was burned and the paper suspended. It was re-established in May following by Mr. Milliken, and is still published by him as

The Ontario Republican Times.

The Vienna Republican was started at "Vienna" (now Phelps) in Jan. 1831, by C. H. Lowe and A. Kilmer. In 1832 it was published by J. O. Balch. In 1834 its name was changed to

The Phelps Journal, E. N. Phelps, publisher, and to *The Phelps Journal and Vienna Advertiser*; in 1838 to

The Phelps Democrat; and again in 1845 it was published by *The Western Atlas*. From 1845 until 1856 it was published by Washington Shaw, Dillon & Phelps, and W. W. Redfield; and since then it has been continued as

The Ontario Free Press.

The Naples Free Press was established at Naples in 1832 by Waterman & Coleman, and continued 2 years.

The Neapolitan was started in 1840 by David Fairchild. In 1845 it was sold to — Phelps, who changed its title to

The Naples Visitor. It was discontinued soon after. *The Village Record* was published at Naples in 1842. *The Naples Journal* was published a few months in 1851 by R. Denton.

1 The commander of the expedition claimed that he desolated the whole Seneca country; but one of his officers, (Le Honton,) in giving the history of the expedition, lays no claim to a complete victory; and the Indian traditions state that only a small detachment of the Senecas were engaged in the battle, and that the French retreated before the warriors could rally from the different villages.

2 In this expedition 1000 French were killed and 26 prisoners taken, who were afterward burned at the stake.

3 Numerous traces of ancient occupation—perhaps by a people that preceded the late Indian race—are found in this co. French enclosures have been noticed in Canandaigua, Seneca, and other towns.—*Squire's Aboriginal Monuments of N. Y.*, 4to ed., pp. 22 & 23

Seaver, in his *Life of Mary Jemison*, gives the following:—

"The tradition of the Seneca Indians in regard to their origin is that they broke out of the earth from a large mountain at the head of Canandaigua Lake; and that mountain they still venerate as the place of their birth. Thence they derive their name, 'Genun-de-wah,' or 'Great Hill,' and are called 'The Great Hill People,' which is the true definition of the word Seneca. The great hill at the head of Canandaigua Lake, from whence they sprung, is called Genundewah, and has for a long time not been the place where the Indians of that nation have met in council, to hold great talks and to offer up prayers to the Great Spirit, on account of its having been their birthplace; and also in consequence of the destruction of a serpent at that place, in ancient time, in a most miraculous manner, which threatened the destruction of the whole of the Senecas and barely spared enough to commence replenishing the earth. The Indians say that the fort on the big hill, or Genundewah, near the head of Canandaigua Lake, was surrounded by a monstrous serpent, whose head and tail came together at the gate. A long time it lay there, confounding the people with its breath. At length they attempted to make their escape,—some with their hominy blocks, and others with different implements of household furniture,—and in marching out of the fort walked down the throat of the serpent. Two orphan children, who had escaped this general destruction by being left on this side of the fort, were informed by an oracle of the means by which they could get rid of their formidable enemy,—which was to take a small bow, and a poisoned arrow made of a kind of willow, and with that shoot the serpent under its scales. This they did, and the arrow proved effectual; for, on its penetrating the skin, the serpent became sick, and, extending itself, rolled down the hill, destroying all the timber that was in its way, disgorging itself and breaking wind greatly as it went. At every motion a human head was discharged and rolled down the hill into the lake, where they lie at this day in a petrified state, having the hardness and appearance of stones; and the pagan Indians of the Senecas believe that all the little snakes were made of the blood of the great serpent after it rolled into the lake. To this day the Indians visit that sacred place, to mourn the loss of their friends and to celebrate some rites that are peculiar to themselves. To the knowledge of white people, there has been no timber on the great hill since it was first discovered by them, though it lay apparently in a state of nature for a great number of years, without cultivation. Stones in the shape of Indians' heads may be seen lying in the lake in great plenty, which are said to be the same that were deposited there at the death of the serpent. The Senecas have a tradition that previous to and for some time after their origin at Genundewah the country, especially about the lakes, was thickly inhabited by a race of civil, enterprising, and industrious people, who were totally destroyed by the great serpent that afterward surrounded the great hill fort, with the assistance of others of the same species; and that they (the Senecas) went into possession of the improvements that were left. In those days the Indians throughout the whole country—as the Senecas say—spoke one language; but, having become considerably numerous, the before mentioned great serpent, by an unknown influence, confounded their language, so that they could not understand each other, which was the cause of their division into nations,—as the Mohawks, Oneidas, &c. At that time, however, the Senecas retained the original language, and continued to occupy their mother hill, on which they fortified themselves against their enemies and lived peaceably, until, having offended the serpent, they were cut off, as I have before remarked."

By the terms of the charter of the colony of Mass., the region between its n. and s. boundaries, from the Atlantic to the Pacific, was embraced; and the title to this territory was claimed by Mass. after the Revolution. The subsequent charter of the State of New York intervened and conflicted with this claim,—from which difficulties arose, which were finally settled by commissioners at Hartford, Conn., on the 16th of December, 1786. It was there agreed that Mass. should cede to N. Y. the sovereignty of all the territory claimed by the former lying within the limits of the latter, and that N. Y. should cede to Mass. the property of the soil, or the right of the pre-emption of the soil from the Indians. This agreement covered all that part of the State lying w. of a line running n. from the "82d milestone," on the line between N. Y. and Penn., through Seneca Lake to Sodus Bay. This line is known as the "Old Pre-emption Line."² In 1787 Mass. sold the whole of this tract, containing 6,000,000 of acres, to Oliver Phelps and Nathaniel Gorham, for one million dollars. In the following spring Mr. Phelps left his home in Granville, Mass., with men and means to explore the country thus acquired. He collected the sachems, chiefs, and warriors of the Six Nations at Kanadesaga, and in July, 1788, concluded with them a treaty of purchase of a tract containing 2,250,000 acres, bounded e. by the pre-emption line, w. by a line 12 mi. w. of, and running parallel with, the Genesee River, s. by the Penn. line, and n. by Lake Ontario.²

The portion of the tract to which the Indian title had not been extinguished, constituting about two-thirds of the original purchase, was abandoned by Messrs. Phelps and Gorham and reverted to Mass. It was re-sold by that State to Robert Morris, in 1796, and subsequently formed what is known as the Holland Land Purchase. In 1789, Mr. Phelps, at Canandaigua, opened the first regular land office for the sale of land to settlers ever established in America. The system he adopted for the survey of his lands by townships and ranges, with slight modifications, was adopted by the Government for the survey of all the new lands in the U. S. When organized in 1789, Ontario was the first co. set off from Montgomery, and embraced all that part of the State lying w. of the e. line of Phelps and Gorham's Purchase, including what was called "The Genesee Country."

The first settlement was made on the site of the Indian village of Kanadesaga, (now Geneva,) in 1787. Soon after the land office at Canandaigua was opened, and several settlements were commenced in different parts of the co. From this period the progress of settlement was rapid, immigrants being attracted by the beautifully rolling character of the surface and the unsurpassed fertility of the soil. Few incidents of general interest have occurred to interrupt the steady and continued progress of peaceful industry. The most notable of its later historical events is its being the scene of the birth of Mormonism. Joe Smith resided for many years in Manchester; and his pretended discovery of the golden plates of the Book of Mormon was made on the 22d of September,

¹ The history of this Pre-emption Line is interesting. Of course, it was mere conjecture where the line would fall as far n. as Seneca Lake, and parties were interested to have the line fall w. of Geneva, leaving that place and a considerable tract of land between the Military Tract and the Mass. lands. Seth Reed and Peter Ryckman, both of whom had been Indian traders, applied to the State of New York for a remuneration for services rendered in some previous negotiations with the eastern portion of the Six Nations, and proposed to take a patent for a tract the boundaries of which should begin at a tree on the bank of the Seneca Lake and run along the bank of the lake to the s. until they should have 16,000 acres between the lake and the e. bounds of the land ceded to Massachusetts. Their request was acceded to and a patent issued. Thus situated, they proposed to Messrs. Phelps and Gorham to join them in running the Pre-emption Line, each party furnishing a surveyor. The line was run which is known as the "Old Pre-emption Line." Messrs. Phelps and Gorham were much disappointed in the result,—suspected error or fraud, but made no movement for a resurvey before they had sold to the English Association. Their suspicions had at first been excited by an offer from a prominent member of the Lessee Company for "all the lands they owned east of the line that had been run." They were so well assured of the fact that in their deed to Mr. Morris they specified a tract in a cove between the line then run and the w. bounds of the county of Montgomery and Tioga, these counties then embracing all of the Military Tract. Being fully convinced of the inaccuracy of the first survey, Morris, in his sale to the English Company, agreed to run it anew. The new survey was performed under the superintendance of M^{rs}. Hoops, who employed Andrew Elliott and Augustus Porter to perform the labor. A corps of ax-men were employed, and a vista 30 feet wide opened before the transit instrument until the line had reached the head of Seneca Lake, when night signals were employed to run down and over the lake. So much pains were taken to insure correctness that the survey was never disputed; and thus the "New Pre-emption Line" was established as the true division line between the lands of the State of New York and those that had been ceded to Massachusetts. In examining the old survey,

Major Hoops had discovered the precise points of deviation to the westward. It had commenced soon after leaving the Pennsylvania line, gradually bearing off until it crossed the outlet of the Crooked Lake, where an abrupt offset was made, and then an inclination for a few miles almost in a n. w. course; then, as if fearful that it was running w. farther than was necessary to secure a given object, the line was made to incline to the e. until it passed the foot of Seneca Lake, when it was run nearly n. and s. to Lake Ontario. All this will be observed upon any of the old maps. It will at once be perceived that the site of Geneva—the 16,000 acres of Reed and Ryckman—had ceded more than a usual variation of the surveyor's compass. Judge Porter's explanation is as follows:—"Geneva was then a small settlement, beautifully situated on the Seneca Lake, rendered quite attractive by its lying beside an old Indian settlement in which there was an orchard."

The Old Pre-emption Line terminated on Lake Ontario, 3 mi. w. of Sodus Bay, and the new line very nearly the center of the head of the bay. With the exception of the abrupt variations that have been noticed, the old line parting from the true meridian about 5 mi. s. of the Chemung River, bears off gradually until it reaches the shore of Lake Ontario. The strip of land between the two lines was called "The Cove." In addition to the patent granted to Reed and Ryckman, the State had presumed the original survey to be correct, and made other grants, and allowed the location of military land warrants upon what had been made disputed territory. As an equivalent to the purchasers of this tract, compensation lands were granted by the State in the present towns of Wolcott and Galen, Wayne co.

² The w. boundary of this tract was a line "beginning in the northern line of Penn., due south of the corner or point of land made by the confluence of the Genesee River and the Canaseraga Creek; thence north on said meridian line to the corner or point, at the confluence aforesaid; thence northwardly along the waters of the Genesee River to a point two miles north of Canawaga Village; thence running due west twelve miles; thence running northwardly, so as to be twelve miles distant from the western bounds of said river, to the shore of Lake Ontario."—*Turwin's Phelps and Gorham Purchase*

1827. Brigham Young was also a long time a resident of Canandaigua; and the first Mormon society was formed at Fayette, in the adjoining co. of Seneca, in 1830.

BRISTOL¹—was formed in Jan. 1789. South Bristol was taken off in 1838, and a part was annexed to Richmond, March 23, 1848, and restored Feb. 25, 1852. It is an interior town, lying s. w. of the center of the co. Its surface consists of a series of ridges, gradually declining to the n. The highest points are about 500 feet above the valleys. These ridges are divided by the deep valleys of Mud Creek and Egypt Brook. The declivities that border upon these streams in the s. part are usually very steep. The soil is a rich alluvial upon the intervalles and disintegrated slate and shale among the hills. **Bristol Center** (p. v.) contains 30 houses; **Baptist Hill**² 25; and **Muttonville**³ 15. **Bristol** is a p. o. The settlement of the town was commenced in 1788, by Gamaliel Wilder and Joseph Gilbert, at what was called the "*Old Indian Orchard*."⁴ The first religious services were performed by Rev. Zadock Hunn, in 1793. There are now 4 churches in town.⁵

CANADICE⁶—was formed from Richmond, April 15, 1829, and a part was annexed to Richmond in 1836. It is the s. w. corner town of the co. Its surface consists of a high, broken upland separated into two ridges by Canadice Lake. The w. ridge, known as Bald Hill, is bordered by steep declivities, and the e. by more gradual slopes. The highest summits are about 700 feet above Honeoye Lake. The principal streams are the Canadice Inlet and Outlet and the Honeoye Inlet. The soil in the valleys is a clayey loam; upon the declivities of the hills it is mostly disintegrated shale and slate, and upon the summits in the s. part it consists of gravelly loam and black muck. **Canadice Corners** (p. o.) is a hamlet, forming the business center of the town. The first settlement was made by — Kimball, in 1807.⁷ There are now 3 churches in town.⁸

CANANDAIGUA⁹—was formed Jan. 27, 1789, and a part annexed to Gorham, March 16, 1824. It is the central town of the co., lying upon the w. and n. shores of Canandaigua Lake. The surface is hilly in the s., but level or gently rolling in the n. The highest summits are about 600 feet above the lake. Canandaigua Outlet, Beaver Creek, and Stevens Brook are the principal streams. The soil is a clayey loam in the n. and a deep, gravelly loam in the s., and in fertility this town ranks among the first in the State. **Canandaigua**, (p. v.), situated at the outlet of Canandaigua Lake, is an important station on the N. Y. C. R. R., and the terminus of the Niagara Falls & Canandaigua Branch, and of the Canandaigua & Elmira R. R. A daily steamer connects it with Naples, at the head of the lake. It contains the co. buildings,¹⁰ a State arsenal,¹¹ 5 churches, an academy,¹² a female seminary,¹³ 3 newspaper offices, and a bank. It was incorp. April 18, 1815, and has a pop. of 4,154.¹⁴ **Cheshire**, (p. v.,) in the s. part, contains 20 dwellings. **Centerfield** (p. o.) is a hamlet, and **Academy**, near the s. line, is a p. o. Wm. Morgan, of masonic notoriety, was imprisoned at Canandaigua previous to his disappearance.¹⁵ Settlement was commenced in 1788, by Phelps and Gorham and their associates, and considerable accessions were made in 1789 and '90.¹⁶ The first religious service was held at Canandaigua, in 1789, by

¹ Named from Bristol co., Mass., from which the first settlers came.

² So named because a Baptist church was erected there at an early date.

³ Derives its name from the establishment of a tallow chandlery there some years since. 30,000 sheep have been slaughtered there in a year.

⁴ William Gooding and George Codding settled in 1789, James, Elnathan, and George Gooding in 1790, and Aldeo Sears and John, George, Farmer, Burt, and William Codding in 1792. The first store and tavern were opened by Stephen Sisson, in 1793; George Wilder built the first gristmill, in 1790. Thomas Hunn taught the first school, in 1790. Cornelius McCrum was the first child born.

⁵ Bap., Cong., M. E., and Univ.

⁶ This name is a corruption of the Indian name of Canadice Lake.

⁷ Soon after, John Wilson settled at the head of Canadice Lake, and John Richardson, John Wheeler, Samuel Spencer, and — Ward near Canadice Corners. The first tavern was kept by Llewelyn Davis; and Severance & Ford opened the first store. The first sawmill was built at the head of Canadice Lake, by John Algur.

⁸ N. E., Meth. Prot., and Wes. Meth.

⁹ This name was derived from Gan-a-dar-que, a village built by the Seneca Indians on the present site of the village of Canandaigua.

¹⁰ In one of the courtrooms is a collection of portraits of the prominent first settlers and residents of the co.: viz., of Oliver

Phelps, Gen. Peter B. Porter, Augustus Porter, Philip Church, William Wadsworth, James Wadsworth, Abner Barlow, Moses Atwater, Micah Brooks, Vincent Mathews, Walter Hubbell, John C. Spencer, John Greig, Nathaniel Rochester, Joseph Parish, Red Jacket, Judge Fitzhugh, Ambrose Spencer, William Williams, M. D., N. W. Howell, William Wood, Stephen A. Douglas, Daniel D. Barnard, and Henry Wells. Among other distinguished residents of Canandaigua were Hon. Gideon Granger, Post Master General under Jefferson's administration, his son, Francis Granger, Post Master General under Harrison's administration, the late Hon. Mark H. Sibley, and Hon. Joshua R. Giddings.

¹¹ This arsenal was authorized before the war, and 1000 stand of arms were ordered to be deposited there, Feb. 12, 1808.

¹² This academy was founded in 1795, by Gorham and Phelps. It is in a prosperous condition.

¹³ The Ontario Female Seminary was founded in 1825. Its buildings are commodious, and pleasantly situated upon grounds containing 7 acres. The number of students in 1857 was 311.

¹⁴ The co. Agricultural Society has a lot containing 10 acres within the village limits, with suitable buildings, at which the annual fairs are held. See page —.

¹⁵ See page —.

¹⁶ Among the settlers in 1789 were Joseph Smith, Israel Chapin, Nathaniel Gorham, jr., Frederick Saxton, Benjamin Gardner, Daniel Gates, Daniel Brainard, Martin Dudley, and James D. Fish. The first birth was that of Oliver Phelps Rice; and the first death, that of Caleb Walker, both in 1790. Samuel Gardner opened the first store; and the first school was taught

Rev. John Smith. The first church (St. Matthew's, Epis., now St. John's) was organized Feb. 4, 1799; the Cong. church was formed Feb. 25, 1799. The census reports 10 churches in town.¹

EAST BLOOMFIELD—was formed Jan. 27, 1789, as "*Bloomfield.*" Mendon and Victor were taken off in 1812; its name was changed and West Bloomfield was taken off in 1833. It is an interior town, lying n. w. of the center of the co. Its surface is rolling, with a gentle inclination toward the n. The ridges are 50 to 600 feet above the valleys. The principal streams are the Mud, Fish, and Hog Hollow Creeks. The soil is a deep, fertile, gravelly loam, in places mixed with clay, and well adapted to nearly every kind of agriculture. **East Bloomfield**, (p. v.) three-fourths of a mi. from the East Bloomfield Station, on the N. Y. Central R. R., contains 3 churches, an academy,² manufactories of agricultural implements and carriages. Pop. 590. This township having been purchased of Phelps and Gorham by a company from Berkshire co., Mass., its settlement was commenced in the spring of 1789.³ There are 4 churches in town;⁴ the first (Cong.) was formed Sept. 8, and organized Nov. 15, 1795, by Rev. Zadock Hunn. The first church edifice in all Western N. Y. was erected in this town in 1801.

FARMINGTON⁵—was formed Jan. 27, 1789. It lies near the center of the n. border of the co. Its surface is nearly level in the s., but in the n. it is broken by the drift ridges peculiar to this section of country, rising to a height of 50 to 100 feet above the general surface. The declivities of these ridges toward the n. e. and w. are generally steep, but toward the s. they become gradual slopes. The streams are Mud and Beaver Creeks and Black Brook. A strip of land across the s. part, embracing about 3 tiers of lots, has a clay soil. North of this is a marshy region; and farther n. the soil is a gravelly loam and very productive, with good proportions of arable, meadow, and grazing lands throughout the town. **New Salem**, (Farmington p. o.), a village in the n. part, contains 206 inhabitants. **East Farmington**, **West Farmington**, and **Nortons Mills** are p. offices. The settlement was commenced in 1789, principally by members of the denomination of Friends, from Berkshire, Mass., among whom were Nathan Comstock, his sons Otis and Darius, and Robert Hathaway.⁶ The first house of worship was erected by the Friends, in 1804. There are now 2 churches in town; Friends and Wes. Meth.

GORHAM⁷—was formed Jan. 27, 1789, as "*Easton.*" Its name was changed to "*Lincoln,*" April 17, 1806, and to Gorham, April 6, 1807. Hopewell was taken off in 1822. A part of Canandaigua was annexed in 1824. It lies upon the e. shore of Canandaigua Lake, s. e. of the center of the co. Its surface is rolling, the ridges rising in gradual slopes to a height of 25 to 200 feet above the valleys. Flint Creek is the principal stream. The soil in the e. part is principally a gravelly loam, and in the w. it consists of clay, and is generally fertile and productive. **Gorham**,⁸ (p. v.) 3 mi. from the Gorham Station, on the C. & E. R. R., contains 3 churches and 310 inhabitants. **Reeds Corners** (p. v.) contains 3 churches and about 20 houses. The first settlement was made at Reeds Corners, in 1789, by James Wood.⁹ There are now 6 churches in town.¹⁰

HOPEWELL—was formed from Gorham, March 29, 1822. It is an interior town, lying e. of the center of the co. The surface is level or gently undulating, with a northerly inclination. Canandaigua Outlet, Fall Creek, and Fall Brook are its principal streams. The soil is a sandy and gravelly loam in the w., and the same mixed with clay in the center and e. It is very fertile and highly cultivated. **Chapinville**, (p. v.) a station on the N. Y. C. R. R., contains a church and about 30 dwellings; **Hopewell Center** (p. v.) contains 1 church and 16 dwellings.

by Major Wallis, in 1792. There were in that year 30 families in town. The Legislature granted, March 31, 1804, to Levi Stephens and Jason Parker the sole right of running stages from Utica to this place for a term of 7 years. The trip was to be performed twice a week, from June to October, within 48 hours, and at the rate of 4 cts. a mi. if with 6 or more passengers. A similar monopoly was granted, April 6, 1807, for 7 years, to John Metcalf, between this place and Buffalo.

¹ The census reports 2 Bap., 2 Prot. E., 2 M. E., Cong., Free Will Bap., Christian, and R. C.

² Incorp. April 9, 1838. The average number of students is 100.

³ Deacon John Adams and his sons, John, William, Abner, Jonathan, and Joseph, his sons-in-law, Ephraim Roe and Loren Hull, and Elijah Rose, Moses Gunn, Lot Rue, John Barnes, Roger Sprague, and Asa Hixcox moved in with their families in 1789. The first death was that of Lot Rue, in 1793; the first marriage—and the first upon the Phelps and Gorham Purchase—was that of Benj. Goss and a daughter of George Coddling. The first sawmill was erected on Mud Creek, in 1790, by Gen. Fellows; and the first store was opened in 1806, by Norton & Beach. Laura Adams taught the first school, in 1794.

⁴ Cong., M. E., Prot. E., and R. C.

⁵ Named from Farmington, Conn. It was formed by the Court of General Sessions.

⁶ Early in 1790, Nathan Aldrich, Isaac Hathaway, Nathan Herndon, Welcome Herndon, John Mcumber, and Joshua Herndon, from the same place, joined the infant settlement, and were followed by 18 others the same year. Jacob and Joseph Smith built a gristmill in 1793, and the first sawmill, in 1795. The first birth was that of Welcome Herndon, in 1790; the first marriage, that of Otis Comstock and Huldah Freeman, in 1792; and the first death, that of Elijah Smith, in 1793.

⁷ Named in honor of Nathaniel Gorham.

⁸ Formerly called "*Bethel.*"

⁹ Parley Gates, from Mass., settled on Lot 49 in 1796; and soon after, Oliver Howard and Henry Greene, from Onondaga co., N. Y., and Samuel and Silas Reed, Elijah Hurd, and others, came in. The first tavern was kept by William Sherwood, at Reeds Corners, in 1800; the first gristmill was built by Levi Benton; and the first sawmill, by Ruckley & Craft, in 1807. Timothy Moore taught the first school, in 1802.

¹⁰ 2 Bap., Cong., Prot. E., Presb., and M. E.

Hopewell is a p.o. Settlements were made in 1789-90.¹ There are 5 churches in town;² the first church (Presb.) was formed in 1808.

MANCHESTER—was formed from Farmington, March 31, 1821, as "*Burt*," and its name was changed April 16, 1822. It lies upon the n. border of the co., e. of the center. Its surface is nearly level in the s., but is occupied by irregular sand and gravel ridges of the drift formation in the n. Canandaigua Outlet, Fall Creek, and Black Brook are the principal streams. The soil is a gravelly loam and is very productive. Hydraulic limestone is quarried on "the Outlet" for building purposes. There are 3 flouring mills in town. **Clifton Springs**, (p. v.), a station on the N. Y. C. R. R., is situated in the e. part of the town. Pop. 340. At this place are the celebrated Clifton Mineral Springs and an extensive water cure establishment.³ **Manchester** (p. v.) contains 374 inhabitants; **Shortsville** (p. v.) contains 35 dwellings and a large distillery; and **Port Gibson**, (p. v.), on the Erie Canal, 50 dwellings; **Manchester Center** (p. v.) contains 18 dwellings. **Plainsville** (Gypsum p. c.) contains 12 houses. The first settlement was made in 1793, by Stephen Jared, Joel Phelps, and Joab Gillett.⁴ Rev. David Irish preached in Manchester in Jan. 1797, and in Feb. following a Bap. society was organized. There are now 8 churches in town.⁵ Joe Smith, the Mormon prophet, resided in this town with his father; and Mormon Hill, the place where the gold Bible was found, is situated a little n. w. of the center of the town.⁶

NAPLES⁷—was formed Jan. 27, 1789, as "*Middletown*." The name was changed April 6, 1808. Italy was taken off in 1815, and a part of Springwater in 1816. It is the extreme s. town of the co. The surface consists of a hilly and elevated upland, broken by the narrow and deep valleys of Canandaigua and Honeoye Inlets and Grindstone Creek. The summits of the hills are 600 to 1000 feet above the surface of the lake and 1300 to 1700 feet above tide. Their declivities bordering on the streams are generally very steep. High Point and Hatch Hill are the highest summits. The soil upon the hills consists of clay and gravel mixed with disintegrated slate and shale; and in the valleys it is a rich, gravelly loam mixed with alluvium. Fruit growing is receiving much attention. Peaches are produced in great abundance; and an experiment is being made in the cultivation of grapes, which promises to be successful. Over 30 acres are now devoted to this object, and very satisfactory results have been realized. **Naples**, (p. v.) on the Canandaigua Inlet, 4 mi. from the lake, contains 5 churches and 3 flouring mills. Pop. 700. The first settlement was commenced in 1790, by a company from Berkshire co., Mass., by whom the town was purchased from Phelps and Gorham.⁸ The first sermon was preached by Rev. Zadock Hunn, in June, 1792.⁹

PHELPS¹⁰—was formed in 1796, under the act of Jan. 27, 1789. A part was annexed to Lyons, (Wayne co.,) April 11, 1823. It is the n. e. corner town of the co. Its surface is rolling, the ridges rising in gentle slopes 20 to 100 feet above the valleys. The highest point is 300 feet above Canandaigua Lake. The soil in the e. is a sandy loam with a clay subsoil, in the n. a mixed sandy and clayey loam, and in the w. a sandy and coarse gravelly loam, all highly productive. Canandaigua Outlet, the principal stream, flows e. and n. through the center. Along its course are extensive quarries of gypsum and water limestone. In the town are quarries of Onon-

¹ Among the first settlers were Daniel Gates, Daniel Warner, — Sweet, Ezra Platt, Samuel Day, George and Israel Chapin, jr., Frederick Follett, Benj. Wells, and Thomas Sawyer, mostly from Mass., and William Wyckoff, from Penn. The first child—Benj. Wells, jr.—was born Feb. 4, 1791. Calvin Bacon taught the first school, in 1792. The first tavern was kept by Ezra Platt; and the first mill was built by Oliver Phelps and Israel Chapin, in 1789.

² 3 M. E., Wes. Meth., and Presb.

³ A hotel was erected in 1806, as a dispensary; and the water cure was established in 1859, by a company organized for that purpose, with a capital of \$45,000. It has accommodations for 150 patients, and is largely patronized. The water of the spring was analyzed in 1852, by Dr. Chilton, of N. Y., with the following result in grains to 1 quart:—

Sulphate of lime.....	17.30 gra.
“ “ magnesia.....	4.12 “
“ “ soda.....	1.94 “
Carbonate of lime.....	2.42 “
“ “ magnesia.....	3.28 “
Chloride of sodium.....	2.32 “
“ “ calcium.....	1.92 “
“ “ magnesia.....	1.02 “
Organic matter.....	trace.

Hydrosulphuric and carbonic acids are also found in small quantities.

⁴ Nathan Pierce and John McLouth, from Berkshire, Mass., settled in the town in 1785; and John Van Fleet, Jedediah Dewey, Benjamin Barney, William Mitchell, and Peleg Bedford soon after. Sharon Boothie and a daughter of Joab Gillett were married in 1793. Theophilus Short erected the first mill, at Shortsville, in 1804; and the first store was opened by Nathan Burton. Elam Crane taught the first school, in 1800.

⁵ 2 Bap., 3 M. E., 2 Prot. Meth., and a Univ.

⁶ See p. —.

⁷ Originally called "*Watkinsstown*," from Wm. Watkins, of Berkshire, Mass., one of the purchasers under Phelps and Gorham, and called by the Indians Nun'da-wa-o, great hill.

⁸ In Feb. 1790, Samuel, Reuben, and Levi Parish, with their families, came in; and in April following, Nathan and Wm. Watkins, John Johnson, Jonathan Lee, and William Clark, with their families, 30 persons in all. The first birth was that of Phineas P. Lee; and the first marriage, that of Benj. Clark and Thankful Watkins, in 1795. The first sawmill was erected in 1792, by Benj. Clark and Jabez Metcalf. Susannah Parish taught the first school, in 1792. Myron H. Clark, late Governor of the State, was born in this town, Oct. 23, 1806.

⁹ There are 5 churches in town; Bap., M. E., Presb., Wes. Meth., and Christian.

daga and corniferous limestone. **Phelps**¹ (p. v.) was incorp. Jan. 2, 1855. It lies on Flint Creek, near its junction with the Canandaigua Outlet. Pop. 1278. **Orleans** (p. v.) is situated on Flint Creek. Pop. 218. **Oaks Corners** (p. o.) contains 15 houses.² The first settlement was made at Phelps, in 1789, by John D. Robinson, from Claverack, Columbia co.³ Rev. Solomon Goodale was the first resident preacher in the town, holding religious services in schoolhouses and dwellings before any church edifice was erected. The first church (Presb.) was built in 1804.⁴

RICHMOND—was formed in 1796, under the act of Jan. 27, 1789, as "**Pittstown**." Its name was changed to "**Honeoye**" April 6, 1808, and to Richmond April 11, 1815. A part of Canadice was annexed April 30, 1836, and parts of Bristol and South Bristol in 1848; but the latter were restored in 1852. It lies upon the w. border of the co., s. of the center. It consists of a nearly square portion of land lying near the foot of Honeoye Lake, and a narrow strip extending along the e. shore of that lake and its inlet to the s. border of the co.⁵ A wide valley occupies the center, opening toward the n., and surrounded by hills from 50 to 200 feet high on the 3 remaining sides. The southern strip is very hilly, the summits rising 500 feet above the surface of the lake. Honeoye and Hemlock Outlets and Egypt Brook are the principal streams. The soil upon the lowlands is clay, upon the hills a sandy loam mixed with clay. Much attention is given to improving the breeds of cattle and sheep; and it is the largest wool growing town in the co., and perhaps in the State. **Honeoye**, (p. v.) at the foot of Honeoye Lake, is the business center of the town. Pop. 244. **Richmond Mills** (p. o.) and **Allens Hill**⁶ (p. o.) are hamlets. This town was purchased of Phelps and Gorham by a company; and the first settlement was made by Capt. Peter Pitts and his sons William and Gideon, in 1789.⁷ There are 5 churches in town.⁸

SENECA—was formed in 1793, under the act of Jan. 27, 1789. It is the s. e. corner town of the co., lying upon the w. shore of Seneca Lake. The surface is beautifully rolling, the ridges rising 20 to 200 feet above the valleys. The shores of the lake are bluffs about 100 feet above the surface of the water. The streams are Flint and Keshong Creeks and Burralls and Castle Brooks. The soil is a deep, rich loam, consisting of sand, gravel, and clay mixed together, the gravel predominating upon the ridges. The soil is admirably adapted to the production of fruit trees, and the business of the nursery has become one of the leading pursuits in the town. Two large nursery establishments are located within the limits of the village of Geneva. Commerce and manufactures receive considerable attention. **Geneva**,⁹ (p. v.) incorp. April 4, 1806, is beautifully situated at the foot of Seneca Lake. It contains a flourishing union school,¹⁰ a large private boarding school,¹¹ 3 newspaper offices, and 9 churches. It is also the seat of Hobart Free College.¹² The Geneva Water Cure and Hygienic Institute is finely situated near the center of the village. A daily line of steamers connects this place with the upper ports upon Seneca Lake. Pop. 5,057. **Castleton**, (Seneca Castle p. o.), on Flint Creek, in the n. w. part, contains 2 churches and 35 dwellings. **Flint Creek**, (p. o.), **Halls Corners**, (p. o.), and **Stanleys**

¹ Formerly called "**Vienna**."

² The culture of raspberries has recently been introduced in this vicinity, and promises to be successful.

³ N. Sanborn. — Gould, — Pierce, Philetus Swift, and

Ihu Granger, from Conn., settled in town in 1789; Thaddeus Oaks, Seth Dean, Oliver and Charles Humphrey, John Salisbury, Nicholas Pullen, Walter Chase, and Elias Dickinson in 1791; John Patten and David Boyd in 1792; Jonathan Melvin in 1793; and John Sherman, Joseph and Lodowick Vandemark, and John and Patrick Burnett in 1794. Henry H. Robinson was the first child born in town; and the first marriage was that of Philetus Swift and Sally Dean, in 1793. Thaddeus Oaks opened the first tavern, in 1793; and the first saw and grist mills were built by Seth Dean.

⁴ There are 10 churches in town; 4 Bap., 3 Presb., 2 M. E., and a Prot. Epis.

⁵ This strip was added to the town in consequence of its position, high mountain ridges separating it from the business centers of both Canadice and South Bristol.

⁶ Named in honor of Nathaniel Allen. Mr. Allen was among the first settlers, and established the first blacksmith's shop at Allens Hill. Subsequently he was sheriff of Ontario co.; in 1812 he was a member of the Assembly; during the War of 1812 he was army paymaster; and in 1819 he was elected member of Congress from the 21st district.

⁷ In 1795, Samuel and Cyrus Chipman, Philip Reed, Levi Blackmer, Pierce Chamberlain, Asa Denison, and Isaac Adams, from Vermont, settled in town. Capt. Pitts opened the first tavern, soon after settling in the town; and the first saw and grist mills were built by Thomas Morris, in 1795. Upon the division of the lands Capt. Pitts secured 3000 acres at the foot of Honeoye Lake, embracing the flats and a cleared field which had been the site of an Indian village destroyed by Sullivan's

DuKe de Liancourt and suite went from Canandaigua to make him a visit.

⁸ 2 Cong., Prot. Epis., Prot. Meth., and Wes. Meth.

⁹ This village is justly celebrated for the beauty of its situation, and perhaps no village in the co. in this respect has been so generally and enthusiastically praised by tourists. For many years it was one of the leading business places in Central N. Y.; but the completion of the R. R. lines has turned a large share of the business into other channels.

¹⁰ This union school was one of the first established in the State, and for a long time was taken as a model in establishing others. It early contained an academic department that enjoyed an excellent reputation. The schools of the village are now graded, and embrace a complete common school and academic course.

¹¹ The Walnut Hill Seminary, for boys, is a flourishing institution of this kind.

¹² Formerly Geneva College. It was incorp. in 1825, and was established mainly through the influence of Bishop Hobart, whose name it bears. A medical department was organized in 1836. The trustees and members of the College Faculty are generally members of the Prot. Epis. church. From the beginning, however, the college has been equally open to all; and it is now *free to all*, no charge being made for tuition and room rent. It has now two large buildings for the use of students—one for libraries and lecture rooms, one for a chapel—and a spacious building for the use of the medical department. The college has a president, 4 professors, an assistant professor, and a resident fellow, who takes part in the business of instruction; and the medical department has a Faculty of 6 professors. In 1858 the number of students in the free classes was 60. The aggregate value of the college property is about \$160,000. The college buildings are beautifully situated in the s. part of the village, on a bluff which overlooks Seneca Lake. The college
