1. Inclosed letters from the Governor of Kochi Prefecture requesting disposal of a wrecked U.S. Army landing boat are forwarded to your headquarters for appropriate action.

2. On 23 February 1950 an inspection of the remains of the boat was made by a representative of this headquarters. Photographs were taken and are submitted as Inclosure 4.

3. As the landing boat is constantly disintegrating, fishermen in the area are experiencing considerable difficulty in not fishing. Request, therefore, that action be taken at the earliest possible date to either remove the boat for salvage or grant authority to effect release to the Japanese Government.

Subject: Removal of a stranded boat

Col. L. E. Toole
Commanding Officer of Shikoku Civil Affairs Region

Sir,

A U. S. Army landing boat went aground on the seashore of Toono-hama, Yasuda-machi, Aki-gun, Kochi Pref. on Feb. 16, 1947 and was being buried on account of the rough waves.

An application for its disposal was made by a local iron worker, Yokichi Minami on Jan. 23, 1948 as shown in the paper attached (2), and the report was submitted to Kochi Military Government Team on Jan. 27, 1948. But no reply was made.

I have received an petition for its removal from the local fishermen as shown in the paper attached (1).

I hereby submit to you the report together with the reference documents.

Yours respectfully,

N. Momoi

Petition

To : Commanding Officer of Shikoku C. A. Region

Thru : Liaison Office, Kochi Pref.

Subject: Petition for the removal of a stranded boat

Sir,

A U.S.A. landing boat no. 1193 went aground on the middle part of our local seashore in February, 1947, whose broken pieces were scattering in the bottom of the sea, causing a fatal blow to the trawling fishery, and consequently to our livelifood.

For my part, I can never ignore the present actual situation as Chief of the Assn. Our petitions for it's removal have been tendered to Kochi M.G.T. often, but I am sorry that I have never received any reply to our petitions.

I have consulted with all of our members on its removal and resolved that we are willing to cooperate with you to remove it both for the sake of your forces and for the sake of securing our post.

I, as a representative of our members, entreat you to be generous enough to take every possible step for it.

Wishing you and your members good health and happiness,

Yours respectfully,

Keiji Kumon
Chief of Toono-hama
Fisheries Cooperative Assn.

ATTACHED SHEET (2)

Jan. 27, 1948

To: Commanding Officer of Kochi Mil Gov't Team

From: Governor of Kochi Pref.

Subject: Grantuitous release of a landing boat owned by U, S. Army.

With regard to the landing boat which is aground and left as it was, at the seashore of To-no-hama, Yasuda-cho, Aki-gun, I received a petition from Yokichi Minami (iron industry enterpriser), Tano-cho, Aki-gun, stating that he would earnestly desire to dispose of and utilize the best as shown in attached sheets.

The boat, as you can see in attached pictures, is buried in the ground little by little by gravels, whenever attached by high waves. I think, it is not only very desirable to break up and use the boat in these days of severe shortage in materials, but also very helpful for fishers of the district to do so, because the boat is now hindering their fishing operation.

Such being the case, you are hereby cordially requested to give us your kind approval for the release of the boat.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

Jan. 23, 1948

To : Governor of Kochi Pref.

From : Yokichi Minami (Iron Industry Enterpriser)
Tano-cho, Aki-gun, Kochi Pref.

Subject: Petition for gratuitous release of a landing boat of U.S.Army.

1. Boat, applied for release:

Landing boat, belonging to U.S.Army L.S.T. No. 1198
120 tons.

2. Reason for petition

The boat went ashore at To-no-hama, Yasuda-cho, Aki-gun, when it was adrift, having something wrong with engine due to strong wind and wave. This accident occurred, while the boat was sailing in Tosa Bay on Feb. 16, 1947. Aki Police Office was taking the charge of custody of the boat by order of U.S.Army, but now it seems to me that they have freed the police from the order, taking away main machines and parts from the boat except the body which is impossible to be tugged away. Since then, high waves have brought sand and gravel into the boat and now it is gradually sinking in them. If the boat is left as it is, it will be buried under gravels within a few months. Therefore, I suppose, there is no way but to dismantle it. I shall be very pleased, if the boat would be gratuitously released, and I want to use it as materials for farming tools and other important articles, because iron and steel materials are in shortage at present.

3. Method of disposal:
In case permitted to be released, it will be dismantled.
4. How to use the boat, after dismantled:
It will be used as materials for important farming tools.
5. Term for breaking-up:
Within 180 days from the date of permission.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

6. Price at which the boat is released.

I hope the boat will be handed over to us free of charge.

7. Remarks.

The place where the boat standard is shown in the attached sheet.

As indicated in the attached written estimate, the cost for breaking up the boat is very expensive, because high wages must be paid to labourers to remove the sand pebbles, and stones with which the boat has been half-covered. On the contrary, however, the quantity of iron materials which we will get from the boat after it is broken up is estimated at 200 tons, i.e, 350,000 Yen at current prices, which shows a deficit of ¥200,000 for the work of breaking up.

Taking advantage of the fact that the workshop owned by the petitioner is situated near the place where the boat went ashore, the petitioner is planning to perform the breaking work using villagers as in demestic industry and to manufacture farming tools with the iron materials and thus to overcome the unfavorable balance as much as possible.

As for the engine, the petitioner cannot ascertain its existence because the engine room has deeply been buried in the ground. But they say that it was taken away by the Occupation Forces soon after the boat went ashore.

If the boat is further lift as it was before, it will more deeply be buried in the ground to no purpose.

In view of the present lamentable conditions of materials in Japan, I have an ardent wish to make most efficient use of it.

I hope you will favour me with your permission after due consideration.

SUBJECT: Release of Land

TO: Commanding Officer, 27th Infantry, APO 25
Attn: Regional Area Engineer

1. The inclosed application for release of land, Omishima Branch Office, Iwakuni Army Fuel Plant is submitted for appropriate action. As this land is not necessary to reparations custody and control, recommend it be released to the Japanese Government for proper disposition and use in farming.

2. To obviate any possible future misunderstanding in connection with property rights it is suggested the following statement be included on release papers: "Release is contingent upon right of trespass for removal for reparations or other legitimate business in connection with oil storage either government or private."

1. Reference Section V, Weekly Directive 81, Headquarters Eighth Army, 25 March 1950.

2. To expedite return of excess real property to the Japanese economy, this headquarters has been authorized by reference 1 above to approve the temporary release of real estate pending receipt of approval and final release papers from Headquarters Eighth Army.

3. It is directed that excess real estate, as defined in paragraph 2 of reference 1 above, be requested for temporary release by submission of a written request to this headquarters, Attn: G-4, to include the following information:

a. Procurement Demand Numbef or statement that is seized property.

b. Grid coordinates (Map of Japan 1:50,000).

c. Statement that real estate to be released in excess to the needs of all Occupation Force units in the area.

d. Type of building: troop housing, dependent housing, or administrative.

e. Type of construction: wood, brick, cement etc.

f. Condition: good, fair or bad.

g. Square footage of land area and floor space.

4. When determined by this headquarters that real estate referred to in paragraph 3 above is excess to the needs of the Occupation Forces, authority will be given to effect a temporary release of this real estate to the proper Japanese agency. Temporary releases will be effected in the

AG 386.3 9 March 1950

SUBJECT: Temporary Release of Commandeered Property

TO: Commanding Officer, 27th Infactry, APO 25
ATTN: Regional Post Engineer - Lt. Perry

1. In accordance with telephone conversation between the Regional Post Engineer and this headquarters on 6 March 1950, it is requested that action be taken to effect temporary releases on installations as follows:

a. Kuramoto Barracks, former Japanese Army installation located in Tokushima City. Original petition for release submitted in July 1949, requested release of four (4) buildings, total land area 108,000 sq. ft.

b. Former Matsuyama Army Hospital No. 1, Horinouchi, Matsuyama City, consisting of ten (10) wooden one-storied buildings, total land area of 193,552 sq. ft. It is understood that Part D, Engr. Form 1266 on this release was submitted 7 November 1949.

c. Former Matsuyama Regimental Headquarters, Horinouchi, Matsuyama City, consisting of six (6) one-storied wooden buildings, total land area 64,553 sq. ft.

d. Part of the former 571st Air Corps Barracks, Horinouchi, Matsuyama, consisting of one (1) wooden two-storied building, total land area of 4,092 sq.ft.

2. In all of the above requested releases, it is essential that positive action be taken at an early date. Japanese government agencies who will eventually benefit by the releases, are anxious to spend money for rehabilitation out of JFY 1949 funds. Further, the delay in effecting final releases has caused many misunderstandings and the property is being allowed to deteriorate.

3. It is suggested that in any temporary releases made, the Construction Ministry be the receiving government agency, (Viz. Prefectural Governor) in accordance with OD 54, Headquarters Eighth Army. It has been noted that some confusion exists in Japanese government circles regarding final responsibility and authority.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115015

APPLICATION FOR RELEASE OF FORMER MILITARY INSTALLATIONS

1. Location of the property in terms of map number, map scale, and military grid coordinations and the Chome- Cho- Ku address, if known.

Name: Sakaide Plant of Kurashiki Aircraft Co., Ltd.
Location: 3800 Sakaide-cho, Sakaide-shi, Kagawa-ken.

2. Acreage:

Land: 8.499 acres

Building: I3,458.00 sq. m.

3. Number and type of buildings:

Detailed on the attached Table No. I.

4. General description of the whole installation:

This installation was the cotton spinning mill owned by the Kurashiki Cotton Spinning Co., Ltd. In the wartime, in response to the exoectation of our nations, Kurashiki Aircraft Co., Ltd. had rent on lease this installation from the owner and in Nov., 1943, began to reconvert into the aircraft manufacturing plant. The productive capacity of this installation was ten planes of wooden training planes per month just before surrender.
No improvement will be made.

5. Proposed Use:

This installation is intended to be used again as the cotton spinning mill by the Kurashiki Cotton Spinning Co., Ltd. (the possessor of this installation at present.)

6. Recommendations:
As explained in above, this installation was the cotton spinning mill originally. I am sure that it is most suitable to return this installation to the former state, the cotton spinning mill, in order to rebuild and promote the fundamentally essential industry in Japan at present.
I am most desirous of getting your kind permission as soon as possible.
