SUMMARY OF OBSERVATION TRIP OF SCREENING
ACTIVITIES IN GIFU AND TOYAMA PREFECTURES

1. The Prefectural Screening Committees of Gifu and Toyama and the Municipal Screening Committees of Gifu City, Ogaki City, Toyama City and Takaoka City were observed during the period 9 June to 13 June 1947. Prior to departure Lt. Col. Winston, 8th Army Liaison Office to GHQ was contacted in order that the military government teams might be notified. The commanding officers and legal and government officers of the Gifu and Toyama Military Government Teams were contacted upon arrival in the respective regions and were most helpful in making necessary arrangements such as assembling the screening committees, arranging for necessary transportation, billeting and messing.

2. General Statistics

A. Gifu Prefecture: The prefectural screening committee had met 18 times as of 3 June 1947, spending an average of 2 hours at each meeting. 14,180 cases had been reviewed by the committee during this period of which 14,164 cases had been passed, 4 held pending, 11 barred and 1 removed.

//

The Gifu City Screening Committee had met on 4 occasions, averaging three hours to a meeting, and had screened 230 persons of whom they had purged no one.

The Ogaki City Screening Committee had met four times, averaging one hour and forty-five minutes to a meeting, and had screened 111 persons of whom they had removed 1 from public office, passing the remaining ones.

B. Toyama Prefecture: The Toyama Prefectural Screening Committee had met on 28 occasions as of 12 June 1947. An average of 3 hours had been spent by the committee at each meeting. Of 9707 cases received by the committee to be screened, screening had been completed on 9686 of which 9653 cases had been passed and 33 had been purged from public office and an additional 42 persons had been found to fall under Imperial Ordinance No. 3 of 1947.

The Toyama City Screening Committee had met eight times, the last meeting held having been on 12 May 1947. An average of three hours had been spent at each meeting. 218 cases had been reviewed of which 203 had been passed while 15 were held pending as a result of having been sent to the prefectural committee for their advice.

The Takaoka City Screening Committee had met on three occasions, each meeting having averaged two and a half hours. A total of 238 persons had been screened by the committee of whom all had been passed.

3. General Observations:

A. Gifu Prefecture: The screening committees, both prefectural and municipal were relatively well organized, mainly due to the efforts of the Chief Secretary of the

respective committees. The makeup of the committees followed a general pattern of a judge or lawyer, banker or business-man, educator and priest or two representatives from one of the alternate groups. The prefectural committee did not give too much of an indication that it was too interested in its work, and it was apparent that the work was to a large extent controlled by the chief secretary of the screening committee. About 80 letters had been received by the committee of which all had been investigated, however, only 30 had been found to be reliable after investigation. Two letters were used as additional information to purge the individuals to whom these subject letters applied. On the whole the committee was found to have been conscientious in the administration of the purge ordinances in Gifu Prefecture.

The two municipal committees of Gifu City and Ohgaki City were found to have carried out their responsibilities, such as they are. Of the two, the screening committee in Ohgaki City was much more alive to the problems of the purge than either the Gifu Prefectural or city screening committees. This fact was due mainly to members of the subject screening committee, Aoki and Fujeii. One suggestion which they made was in relation to Imperial Ordinance No. 77; they stated that it was difficult to apply the subject ordinance on the municipal level because the governor of the prefecture is the only individual who can call for questionnaires and the governor does not always know all individuals who are

engaging in political activity. Therefore, they believe that local screening committees should be given authority to ask for questionnaires of certain individuals. Another suggestion which they had was that in the Imperial Ex-Servicemen's Association (ZAIGO GUNJIN KAI) the local department heads in all the branches except the lowest (i.e. BUNKAI) be included under the provisions of the purge directive, as in many cases these officials did the actual work.

B. Toyama Prefecture: In contrast to the Gifu Prefectural Screening Committee the Toyama Prefectural Screening Committee was not only well organized and administered but also very much aware of the responsibilities which they had accepted upon their appointment as administrators of the purge in their prefecture. This was mainly due to the efforts of the chairman of the screening committee, a Mr. Kitagawa who in private life was president of the HOKURIKU YUKAN SHIMBUN (the HOKURIKU Evening Newspaper). At the time of the observation trip, the committees had made information on two individuals available to the public procurator's office in order that the subject individuals to whom the letters applied might be prosecuted on the basis of the injunctions contained in Imperial Ordinance No. 1 of 1947.

The makeup of the screening committees again followed the same general pattern as found in Gifu Prefecture.

The Toyama City Screening Committee believe that members of the city assembly should be screened by the municipal

screening committees, in fact, that all municipal officials whether elected or appointed, except for the mayor, should be screened by the municipal committee. They believe that they would know the subject individuals better than the members of the prefectural screening committee and therefore would much more readily find inaccuracies in questionnaires than the members of the prefectural screening committee.

The Takaoka City Screening Committee had one question which had not been answered by either the prefectural screening committee or the Central Screening Committee in Takaoka. Their question concerned students who had graduated from the military or naval academy in March of 1945, who were commissioned upon graduation upon which they entered a special school, thus never saw combat and have since then been studying in the college and are now ready for work. The question is, should these individuals be allowed in public offices? Up to the present the screening committee has stated that they are potential purgees and so should not apply for public offices, however, they are not certain that this ruling is very just.

4. Summary:

It was found that on the whole those committees who did not have particular interest in their work were satisfied with the amount of obligations necessitated by their being members of screening committees. On the other hand those committees who were taking actual interest in their work believed that their authority should be extended to a larger class of local officials. This was particularly true of the

municipal screening committees who in actuality had very little work to do but who, it is believed, are a very necessary part of the administration of the purge.

The observation trip aside from being very helpful in the understanding of the problems faced by the screening committees on the locallevel by this representative, also helped in giving prestige to the subject committees by proof that SCAP was interested in their activities.

SUMMARY OF OBSERVATION TRIP
OF SCREENING

ACTIVITIES IN TOCHIGI AND IBARAKI
PREFECTURES.

1. The screening committees of the prefectures and those of the municipalities were observed during the period 2 June to 7 June 1947. The Tochigi Military Government Team commanded by Lt. Col. Reed was contacted on the initial day, while the Ibaraki Military Government Team commanded by Major Lindaugh was contacted on 5 June 1947. The Legal and Government Officers of each team were most co-operative in making necessary arrangements.

2. GENERAL STATISTICS

Number of persons screened by the Tochigi Committee was 8,495, of this 9 were barred. The Ibaraki Committee screened 11,829, of which 17 were barred, 10 removed and 1 was still pending. The Utsunomiya Committee screened 62, the Sano Committee 38 and the Mito Committee 26. No purge case was produced by the municipal committees.

The Tochigi Committee met 9 times spending an average of 3 hours per meeting. Approximately 110 people examined questionnaires which were available for public inspection. The committee received a total of 165 letters from citizens in the prefecture, which the committee reviewed but not a single action was taken on the basis of the information presented.

The Ibaraki Committee met 22 times spending an average of 6 hours for each meeting. Twenty-eight persons examined the questionnaires. They received 98 letters, 3 of which were used as basis for action by the committee.

The posting of bulletins, availability of questionnaires and ordinances, etc. was satisfactory in all cases, with the exception of the Ibaraki Committee which claimed lack of facilities.

3. GENERAL OBSERVATION

a. The function of the Tochigi Committee was considered not altogether satisfactory in view of the comparatively few number of meetings held and hours spent, number of purge cases produced and large number of letters received with no action taken on the basis of such letters. The composition of the committee is of 2 businessmen, one landowner and two persons of legal practice. Mr. Sumi, Chairman of the committee, was often evasive in answering specific questions.

b. In contrast to that of the Tochigi Prefecture, Ibaraki Committee appeared to be most enthusiastic in their assignments. They met twenty-two times devoting an average of six hours for each meeting. Of the twenty-seven purge cases, six are under Category B and six others were purged under Category C, which is of significance in view of the fact that this prefecture prior to and during the war was known as a "hot bed" of ultranationalistic movements.

c. The three municipal committees, Utsunomiya, Sano and Mito, showed definite lack of interest in their assignments. The Sano Committee met only once for two hours. A member of the Mito Committee failed to attend a single meeting. They complained that they are only allowed to screen a limited number of people and that they are not allowed to make a final decision of cases. The Sano Committee blamed lack of cooperation on the part of the prefectural office.

More fundamental cause for their inactiveness seemed to be in the composition of the committee itself. Inasmuch as the committees, in every one of these cases, consist of prominent leaders of long standing in their own small communities, they would naturally be most reluctant to make adverse decisions on their fellow community leaders. As such they do not wish to be on the committee to begin with.

4. SUMMARY

a. It is suggested that the cases screened by the Tochigi Prefectural Committee be carefully checked since it is suspected that the administration of purge program by that committee is not altogether satisfactory.

b. It is felt that special consideration be given, in the future, to the composition of screening committees in outlying areas where constant supervision is not feasible. Committees of any one group predominant would only serve one-sided interest and therefore tend to be inadequate in administering the program to the spirit and the letter of the ordinances, the consequence of which may be even to discredit the entire program in the eyes of the general public.

c. It is believed that the visit to these committees by representative of this Section was helpful not only to our understanding of their functionings, but also to make them be aware that SCAP is interested in their activities.

MEMORANDUM FOR : CHIEF, PUBLIC SERVICE QUALIFICATIONS DIV. 22 July 1947

SUBJECT:

ECONOMIC STATUS REPORT

a. Economic purgees number 294 as of 16 July 1947.

b. A study is being made of the Mitsui Real Estate to be placed on Paragraph 12. It is 100% owned by the Mitsui family and the individuals involved have been a political front for the Mitsui family.

The Matsushita Electric is under study for transfer from Paragraph 13 to Paragraph 12 as a "conspicuously influential and monopolistic company" which produced radio tubes and receiving sets for war purposes.

c. The Vocational Association is being studied for addition to Paragraph 9. The organization is semi-governmental. The President is the Welfare Minister, the Vice President is the Vice Minister of Welfare, and the Chairman is the Director of the Employment Bureau. The Board of Directors is composed of representatives of employers' associations and of employers in the industries concerned.(d)A memb for the record has been prepared by Mr. McKenzie recommending that branch managers of paragraph 5 be confined to managers of main or controlling branches. Material is being gathered for thorough investigation of branch managers on paragraph 12. This should be available in about three weeks after which a memo will be written summarizing the report and recommending action.

Memos are being prepared in regard to recommendation for either change or interpretation of the 10% stock clause in the ordinance.

Report of economic questionnaires reviewed by Government Section:

Par	Total	Passed	Out	Barred by GS	Returned to JG for Info.
7	944	914	26	0	4
8	102	100	2	0	0
9	510	565	44	0	1
12A	1160	782	374	3	1
12B	49	28	20	0	1
13	264	234	29	0	1
	3129	2623	495	3	8

A complete report has been obtained on Paragraph 12A screening. This paragraph is almost complete. Auditors have not yet been screened because they are not considered principal public office holders and a few directors have not been screened because of distance involved.

Paragraph 13 is also almost complete but an accurate report has not been obtained from the JG. However, almost all screening is complete except auditors and a few directors.

One company has not been screened on Paragraph 7, 9 on Paragraph

(Continued) 4

9, 24 on Paragraph 12B. The screening of these companies is by no means complete for altho the company has turned in a few questionnaires, much work is yet to be done before these paragraphs will be complete. The Japanese Government has been instructed to submit company questionnaires hereafter only when screening on the companies is complete.

A list of resignees is being obtained from 1937 - 45 on Paragraph 5 and 12. These persons who held principal public offices or positions commensurate thereto are to be designated as purgees. At least 800 will probably be designated with about 525 to require investigation, and about 200 to be designated if the address is known. About 200 of the resignees are deceased.

Memo 4 Feb

In a discussion on 16 July 1947 with Mr. Sumino, we requested a supplementary listing of all persons barred or removed whose master cards we have been holding, pending listing of their names. We requested also the master cards of approximately 100 persons who have been listed but whose master cards have not been received.

Yesterday afternoon Mr. Sumino delivered to us the revised list of names of persons who have been barred or removed by the Central Committee between 4 January 1947 and 5 July 1947. This list will be used as a basis for coordinating our records with those of the Japanese government.

SUMMARY OF OBSERVATION TRIP OF SCREENING ACTIVITIES IN TOTTORI PREFECTURE

14 July 1947

1. The Municipal Screening Committees of Tottori and Yonago Cities and the Prefectural Screening Committee of Tottori Prefecture were interviewed during the period 5 July to 9 July 1947. Upon my arrival in Tottori, I found that arrangements had already been made for a meeting with both the City and Prefectural Committees of Tottori but no meeting had been set up for the Yonago City Committee. However, this was arranged by telephone for 9 July, which enabled all screening committees of the prefecture to be covered.

2. The Military Government Team at Tottori is, I think, particularly deserving of commendation. It is very isolated and it must call on British Troops for any additional personnel help in emergencies. These troops are a part of the Punjabi Indian regiment and are not particularly well qualified for the problems relevant to Military Government. Yet, despite these difficulties, the Tottori Team appeared to be doing an excellent job. It is commanded by Lt. Colonel Phillip Vanderzweep, whom I found very cooperative, as were also the other members of the Team.

3. GENERAL STATISTICS: Number of persons screened in the Prefecture was 8,835; of this number, 20 were barred. Approximately 215 persons looked at the questionnaires, which were available for public inspection. Bulletins from the Central Committee were being received and publicicity of screening results was accomplished through newspapers and by means of bulletin boards. Thirty-six letters from citizens relative to screening activities were received by the Prefectural Committee, and all were investigated. The approximate number of meetings held by the City Committees was six, of about two hours' duration, each, while the Prefectural Committee held 19 meetings, averaging four hours in duration.

4. GENERAL OBSERVATIONS:

a. Personnel of all committees appeared to be influential townspeople, that of the Prefectural Committee consisting of a Judge of a District Court, a director of a Bank, a Minister of the Congregational Church, a lawyer, and the principal of Tottori Agricultural College.

b. The local committees, aware of the limitations on their authority, usually referred doubtful cases to the Prefectural Committee for a decision.

c. The personnel of this Military Government Team appeared to be particularly well informed concerning their problems in the Prefecture, and were taking action, wherever possible, to overcome same.

5. SUMMARY:

a. In general, the screening committee of this prefecture were well organized and appeared conscientious and seemed to be doing a good job.

5 (Continued)

b. It is believed that the visit to these committees by a representative of SCAP was beneficial not only to SCAP's understanding of their functions, but also the ultimate prestige and efficiency of the screening committees.

DETAILED INTERPRETATION OF "G" CATEGORY TO BE GIVEN FULL LEGAL STATUS

Cabinet and Home Ministry Ordinance #1 will be amended to include the Japanese Government's interpretation of Category "G" in its provisions. This interpretation was previously released to the public and transmitted to the screening committees as an informal supplement to the ordinances in the form of a Cabinet Announcement. It will now, however, be an official part of the ordinance and contains some of its most important provisions. The full text follows:

Whether a person will fall under Paragraph G entitled "Additional Militarists and Ultra-Nationalists" will be determined by inquiring into his past records. However, general criteria for such decision will be as follows:

1. Any person who held between July 7, 1937 and September 2, 1945 one of the following positions will be considered falling under the provisions of Paragraph G of the Memorandum.

a. Minister of State (Kokumu Daijin)
b. Lord Keeper of Privy Seal (Nai Daijin)
c. President of the Privy Council (Sumitsuin Gicho)
d. Chief Secretary of the Cabinet (Naikaku Shokikancho)
e. Director-General of the Board of Legislation (Hosei Kyoku Chokan)
f. President of the Board of Information (Jyoho Kyoku Sosai)
g. President of the Board of Planning (Kikakuin Sosai)
h. President, Vice-President of the Asia Development Board (Koain Sosai and Fuku Sosai)
i. President of the Board of Manchurian Affairs (Taiman Jimu Kyoku Sosai) (including those who held the position prior to July 1937.)
j. Public Prosecutor General (Kenji Socho)
k. Extraordinary and Plenipotentiary Ambassador to Germany or Italy.

2. Any person who held between July 7, 1937 and September 2, 1945 one of the following positions and about whom there has been conspicuous evidence as a person falling under the provisions of Paragraph G.

Government offices

a. Cabinet Councillor (Naikaku Sangi)
b. Cabinet Advisor (Naikaku Komon)
c. Vice-President of the Privy Council
d. Board of Information-Vice President and Director of a Division
e. Board of Planning-Vice-President and Director of a Division.
f. Asia Development Board-Director-General of General Affairs, Director of a Division, Director-General of a Liaison Office
g. Board of Manchurian Affairs-Vice-President
h. Any Ministry-Vice-Minister, Parliamntary Vice-Minister, Parliamentary Councillor, Director-General of a General Board or Director of a Bureau

Any special company
Any Eidan
Any control association (Tosei Kai)
Any control company (Tosei Kaisha)
Any corporation in which the Government or its agency, a special bank or special company is the largest stockholder.

12/4/47

c. Japanese advisor, representative or executive personnel of Bank of Indo-China and Franco-Japanese Bank.

d. Any person who held a position of Advisor to a Foreign Government including its local organs within the territories occupied by the Japanese armed force, other than those persons falling under the provisions of Paragraph F.

(Note): The term "conspicuous evidence as a person falling under the provisions of Paragraph "G", as mentioned in Paragraph 2 above, will mean and include, the following:

1) Facts that a person in question played an important part in the conclusion of:
   Tripartite Alliance
   Sino-Japanese Basic Treaty
   Japanese Thai Alliance Pact
   or in the stationing of Japanese forces in French Indo-China or in starting the Greater East Asia War.
2) Facts that a person in question played an important role in the suppression of opponents of militarism.
3) Facts that a person in question played an important role in concluding economic agreements with, or in extending credits to countries in the sphere occupied by the Japanese armed forces.
4) Any person who has once been in special higher police service, and who is to fall under the provisions of Paragraph G because of the part he played in any important case of arrest, his term of office and his position while in office, etc.

Detailed definition of the two paragraphs above is as follows:
